At the request of Mr. HARKIN, the names of the Senator from Minnesota (Mr. FRANKEN) and the Senator from New Mexico (Mr. BINGAMAN) were added as cosponsors of S. 634, a bill to amend the Elementary and Secondary Education Act of 1965 to improve standards for physical education.

S. 676

At the request of Mr. SCHUMER, the name of the Senator from Alaska (Ms. MURKOWSKI) was added as a cosponsor of S. 676, a bill to amend the Internal Revenue Code of 1986 to modify the tax rate for excise tax on investment income of private foundations.

S. 727

At the request of Ms. LANDRIEU, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 727, a bill to amend title 18, United States Code, to prohibit certain conduct relating to the use of horses for human consumption.

S. 801

At the request of Mr. AKAKA, the name of the Senator from Iowa (Mr. GRASSLEY) was added as a cosponsor of S. 801, a bill to amend title 38, United States Code, to waive charges for humanitarian care provided by the Department of Veterans Affairs to family members accompanying veterans severely injured after September 11, 2001, as they receive medical care from the Department and to provide assistance to family caregivers, and for other purposes.

S. 832

At the request of Mr. NELSON of Florida, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 832, a bill to amend title 36, United States Code, to grant a Federal charter to the Military Officers Association of America, and for other purposes.

S. 846

At the request of Mr. DURBIN, the name of the Senator from Nevada (Mr. REID) was added as a cosponsor of S. 846, a bill to award a congressional gold medal to Dr. Muhammad Yunus, in recognition of his contributions to the fight against global poverty.

S. 878

At the request of Mr. LAUTENBERG, the name of the Senator from California (Mrs. FEINSTEIN) was added as a cosponsor of S. 878, a bill to amend the Federal Water Pollution Control Act to modify provisions relating to beach monitoring, and for other purposes.

S. 883

At the request of Mr. KERRY, the name of the Senator from Alaska (Ms. MURKOWSKI) was added as a cosponsor of S. 883, a bill to require the Secretary of the Treasury to mint coins in recognition and celebration of the establishment of the Medal of Honor in 1861, America's highest award for valor in action against an enemy force which

can be bestowed upon an individual serving in the Armed Services of the United States, to honor the American military men and women who have been recipients of the Medal of Honor, and to promote awareness of what the Medal of Honor represents and how ordinary Americans, through courage, sacrifice, selfless service and patriotism, can challenge fate and change the course of history.

S. 952

At the request of Ms. SNOWE, the names of the Senator from Alaska (Mr. BEGICH), the Senator from Illinois (Mr. BURRIS), the Senator from Rhode Island (Mr. WHITEHOUSE) and the Senator from Maryland (Ms. MIKULSKI) were added as cosponsors of S. 952, a bill to develop and promote a comprehensive plan for a national strategy to address harmful algal blooms and hypoxia through baseline research, forecasting and monitoring, and mitigation and control while helping communities detect, control, and mitigate coastal and Great Lakes harmful algal blooms and hypoxia events.

S. 972

At the request of Mrs. HAGAN, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 972, a bill to amend the Food, Conservation, and Energy Act of 2008 to provide funding for successful claimants following a determination on the merits of Pigford claims related to racial discrimination by the Department of Agriculture.

S. 994

At the request of Ms. KLOBUCHAR, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 994, a bill to amend the Public Health Service Act to increase awareness of the risks of breast cancer in young women and provide support for young women diagnosed with breast cancer.

S. 1034

At the request of Ms. STABENOW, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 1034, a bill to amend titles XIX and XXI of the Social Security Act to ensure payment under Medicaid and the State Children's Health Insurance Program for covered items and services furnished by school-based health clinics.

S. 1158

At the request of Ms. STABENOW, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 1158, a bill to authorize the Secretary of Health and Human Services to conduct activities to rapidly advance treatments for spinal muscular atrophy, neuromuscular disease, and other pediatric diseases, and for other purposes.

S. 1171

At the request of Mr. PRYOR, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a co-

sponsor of S. 1171, a bill to amend title XVIII of the Social Security Act to restore State authority to waive the 35-mile rule for designating critical access hospitals under the Medicare Program.

S. 1221

At the request of Mr. SPECTER, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 1221, a bill to amend title XVIII of the Social Security Act to ensure more appropriate payment amounts for drugs and biologicals under part B of the Medicare Program by excluding customary prompt pay discounts extended to wholesalers from the manufacturer's average sales price.

S. 1230

At the request of Mr. ISAKSON, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 1230, a bill to amend the Internal Revenue Code of 1986 to provide a Federal income tax credit for certain home purchases.

S. 1261

At the request of Mr. AKAKA, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 1261, a bill to repeal title II of the REAL ID Act of 2005 and amend title II of the Homeland Security Act of 2002 to better protect the security, confidentiality, and integrity of personally identifiable information collected by States when issuing driver's licenses and identification documents, and for other purposes.

S. 1321

At the request of Mr. UDALL of Colorado, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. 1321, a bill to amend the Internal Revenue Code of 1986 to provide a credit for property labeled under the Environmental Protection Agency Water Sense program.

S. 1375

At the request of Mr. ROBERTS, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 1375, a bill to amend the Agricultural Credit Act of 1987 to reauthorize State mediation programs.

S. 1401

At the request of Mr. MARTINEZ, the names of the Senator from Maine (Ms. SNOWE), the Senator from Georgia (Mr. CHAMBLISS) and the Senator from South Carolina (Mr. GRAHAM) were added as cosponsors of S. 1401, a bill to provide for the award of a gold medal on behalf of Congress to Arnold Palmer in recognition of his service to the Nation in promoting excellence and good sportsmanship in golf.

S. 1482

At the request of Mr. KERRY, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 1482, a bill to reauthorize the 21st Century Nanotechnology Research and Development Act, and for other purposes.

S. 1492

At the request of Mr. LIEBERMAN, his name was added as a cosponsor of S. 1492, a bill to amend the Public Health Service Act to fund breakthroughs in Alzheimer's disease research while providing more help to caregivers and increasing public education about prevention.

S. 1553

At the request of Mr. GRASSLEY, the name of the Senator from Indiana (Mr. BAYH) was added as a cosponsor of S. 1553, a bill to require the Secretary of the Treasury to mint coins in commemoration of the National Future Farmers of America Organization and the 85th anniversary of the founding of the National Future Farmers of America Organization.

S. 1554

At the request of Mr. HARKIN, the name of the Senator from Florida (Mr. MARTINEZ) was added as a cosponsor of S. 1554, a bill to amend the Juvenile Justice and Delinquency Prevention Act of 1974 to prevent later delinquency and improve the health and well-being of maltreated infants and toddlers through the development of local Court Teams for Maltreated Infants and Toddlers and the creation of a National Court Teams Resource Center to assist such Court Teams, and for other purposes.

S. 1567

At the request of Mr. BROWNBACK, the name of the Senator from Colorado (Mr. BENNET) was added as a cosponsor of S. 1567, a bill to provide for the issuance of a Multinational Species Conservation Funds Semipostal Stamp.

S. CON. RES. 36

At the request of Mrs. LINCOLN, the name of the Senator from West Virginia (Mr. BYRD) was added as a cosponsor of S. Con. Res. 36, a concurrent resolution supporting the goals and ideals of "National Purple Heart Recognition Day".

AMENDMENT NO. 2238

At the request of Mrs. SHAHEEN, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of amendment No. 2238 intended to be proposed to H.R. 2997, a bill making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2249

At the request of Mr. CORNYN, his name was added as a cosponsor of amendment No. 2249 proposed to H.R. 2997, a bill making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2276

At the request of Mr. BINGAMAN, his name was added as a cosponsor of

amendment No. 2276 proposed to H.R. 2997, a bill making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes.

At the request of Ms. KLOBUCHAR, her name was added as a cosponsor of amendment No. 2276 proposed to H.R. 2997, *supra*.

At the request of Mr. SANDERS, the names of the Senator from New Hampshire (Mrs. SHAHEEN), the Senator from New York (Mr. SCHUMER), the Senator from New York (Mrs. GILLIBRAND), the Senator from New Mexico (Mr. UDALL), the Senator from Pennsylvania (Mr. SPECTER), the Senator from Minnesota (Mr. FRANKEN), the Senator from Maine (Ms. COLLINS), the Senator from Colorado (Mr. UDALL), the Senator from Pennsylvania (Mr. CASEY), the Senator from Missouri (Mrs. MCCASKILL) and the Senator from Colorado (Mr. BENNET) were added as cosponsors of amendment No. 2276 proposed to H.R. 2997, *supra*.

AMENDMENT NO. 2277

At the request of Mrs. MCCASKILL, her name was added as a cosponsor of amendment No. 2277 intended to be proposed to H.R. 2997, a bill making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2285

At the request of Mr. NELSON of Nebraska, the names of the Senator from Kansas (Mr. ROBERTS), the Senator from South Dakota (Mr. THUNE) and the Senator from South Dakota (Mr. JOHNSON) were added as cosponsors of amendment No. 2285 proposed to H.R. 2997, a bill making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. FEINGOLD (for himself, Ms. CANTWELL, Mrs. FEINSTEIN, and Mr. SANDERS).

S. 1570. A bill to amend the Internal Revenue Code of 1986 to repeal the percentage depletion allowance for certain hardrock mines, and for other purposes; to the Committee on Finance.

Mr. FEINGOLD. Mr. President, today I am reintroducing legislation to eliminate from the Federal tax code the "Percentage Depletion Allowance" for hardrock minerals mined on Federal public lands. I want to thank Senators CANTWELL, FEINSTEIN, and SANDERS for joining me in introducing this legislation.

The Elimination of Double Subsidies for the Hardrock Mining Industry Act

of 2009 would result in estimated savings of at least \$250 million over 5 years, according to the Joint Committee on Taxation. Under this legislation, half of these savings would be returned to the Federal treasury and half would help address the serious contamination at the thousands of abandoned mines throughout the U.S.

Percentage depletion allowances were initiated by the Corporation Excise Act of 1909. That's right, these allowances were initiated 100 years ago. Provisions for a depletion allowance based on the value of the mine were made under a 1912 Treasury Department regulation, but difficulty in applying this accounting principle to mineral production led to the initial codification of the mineral depletion allowance in the Tariff Act of 1913. The Revenue Act of 1926 established percentage depletion much in its present form for oil and gas. The percentage depletion allowance was then extended to metal mines, coal, and other hardrock minerals by the Revenue Act of 1932, and has been adjusted several times since.

Percentage depletion allowances were historically placed in the tax code to reduce the effective tax rates in the mineral and extraction industries far below tax rates on other industries, providing incentives to increase investment, exploration, and output. The problem, however, is that percentage depletion also makes it possible to recover many times the amount of the original investment.

There are two methods of calculating a deduction to allow a firm to recover the costs of its capital investment: cost depletion and percentage depletion. Cost depletion allows for the recovery of the actual capital investment—the costs of discovering, purchasing, and developing a mineral reserve—over the period during which the reserve produces income. Under the cost depletion method, the total deductions cannot exceed the original capital investment.

Under percentage depletion, however, the deduction for recovery of a company's investment is a fixed percentage of "gross income," namely, sales revenue from the sale of the mineral. Under this method, total deductions typically exceed the capital that the company invested. The set rates for percentage depletion are quite significant. Section 613 of the Internal Revenue Code contains depletion allowances for more than 70 metals and minerals, at rates ranging from 10 to 22 percent.

There is no restriction in the tax code to ensure that over time companies do not deduct more than the capital that they have invested. Furthermore, a percentage deduction allowance makes sense only so long as the deducting company actually pays for the investment for which it claims the deduction.

The result is a double subsidy for hardrock mining companies: first they can mine on public lands for free under the General Mining Law of 1872, and then they are allowed to take a deduction for capital investment that they have not made for the privilege to mine on public lands. My legislation would eliminate the use of the Percentage Depletion Allowance for mining on public lands, while continuing to allow companies to use the reasonable cost depletion method for determining tax deductions.

My bill would also create a new fund, called the Abandoned Mine Reclamation Fund. Half of the revenue raised by the bill, or approximately \$125 million dollars, would be deposited into an interest-bearing fund in the Treasury to be used to clean up abandoned hardrock mines in states that are subject to the 1872 Mining Law. Though there is no comprehensive inventory of abandoned mines, estimates put the figure at upwards of 100,000 abandoned mines on public lands.

There are currently no comprehensive Federal or State programs to address the need to clean up old mine sites. Reclaiming these sites requires the enactment of a program with explicit authority to clean up abandoned mine sites and the resources to do it. My legislation is a first step toward providing the needed authority and resources.

In today's budget climate, we are faced with the question of who should bear the costs of exploration, development, and production of natural resources: the taxpayers, or the users and producers of the resource? For more than a century, the mining industry has been paying next to nothing for the privilege of extracting minerals from public lands and then abandoning its mines. Now those mines are adding to the Nation's environmental and financial burdens. We face serious budget choices this fiscal year, and one of those choices is whether to continue the special tax breaks provided to the mining industry.

The measure I am introducing is straightforward. It eliminates the Percentage Depletion Allowance for hardrock minerals mined on public lands while continuing to allow companies to use the reasonable cost depletion method for determining tax deductions.

Though at one time there may have been an appropriate role for a government-driven incentive for enhanced mineral production, the arguments in favor of a more reasonable depletion allowance that is consistent with depreciation rates given to other businesses are overwhelming. This corporate subsidy is simply not justified.

I thank the following organizations for endorsing this legislation: EARTHWORKS, Environmental Working Group, Friends of the Earth, Na-

tional Wildlife Federation, Pew Environment Group, Taxpayers for Common Sense, Theodore Roosevelt Conservation Partnership, Trout Unlimited, and the Western Organization of Resource Councils.

By Mrs. FEINSTEIN (for herself and Mrs. BOXER):

S. 1571. A bill to provide for a land exchange involving certain National Forest System land in the Mendocino National Forest in the State of California, and for other purposes; to the Committee on Energy and Natural Resources.

Mrs. FEINSTEIN. Mr. President, I rise today to introduce the Deafy Glade Land Exchange Act. This legislation would authorize a land exchange between the U.S. Forest Service and Solano County to help ensure the continued operation of the juvenile correctional facility and add nearly 80 acres of wilderness quality land to the Mendocino National Forest.

Nearly 10 years ago at the suggestion of the Forest Service, Solano County purchased more than 160 acres of wilderness quality land within the Mendocino National Forest—known as Deafy Glade—with the intention of exchanging the land for the Fouts Springs Ranch. This legislation would facilitate that exchange, so that the counties could own the land beneath the facility they operate, and in exchange, the Forest Service would acquire a wilderness quality inholding.

Solano County currently operates a youth correctional facility under a Special Use Permit issued by the Forest Service on the Fouts Springs Ranch, which covers approximately 82 acres within the boundaries of the Mendocino National Forest. Solano County owns the infrastructure but leases the land from the Forest Service.

Solano County has operated the Fouts Springs Youth Facility pursuant to a joint powers agreement with Yolo and Colusa counties since 1959. The program includes counseling and education, with the goal of giving juveniles the skills to successfully reenter their communities.

More than 20 California counties have placed juvenile offenders at Fouts Springs for 6 month, 9 month, or one year periods. The program is viewed as a last resort for youth before being referred to a State prison.

Specifically, the legislation I am offering today would authorize the transfer of Fouts Springs Ranch—approximately 82 acres—from the Forest Service to Solano County; and the transfer of more than 160 acres of the Deafy Glade area in Mendocino National Forest from Solano County to the Forest Service.

The Fouts Spring youth correctional facility is in need of substantial upgrades, including the replacement of

the main water line, electrical system improvements, and renovation of one of the dormitories. However, the County has postponed investing in facility upgrades until the land exchange is finalized and ownership of the Fouts Springs Ranch is transferred to the County.

Given the substantial investment already made by Solano County and the importance of the youth rehabilitation services provided by Fouts Springs, I believe the time has come to finalize this land exchange.

This legislation would not only help ensure the continued operation of the Fouts Spring youth correctional facility but it would also add nearly 80 acres of wilderness quality land to the Mendocino National Forest.

I urge my colleagues to support this bill.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1571

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Deafy Glade Land Exchange Act".

SEC. 2. LAND EXCHANGE, MENDOCINO NATIONAL FOREST, CALIFORNIA.

(a) DEFINITIONS.—In this section:

(1) COUNTY.—The term "County" means Solano County, California.

(2) FEDERAL LAND.—The term "Federal land" means the parcel of approximately 82 acres of land (including any improvements to the land) that is—

(A) in the Forest;

(B) known as the "Fouts Springs Ranch"; and

(C) depicted on the map.

(3) FOREST.—The term "Forest" means the Mendocino National Forest in the State of California.

(4) MAP.—The term "map" means the map entitled "Fouts Springs-Deafy Glade Federal and Non-Federal Lands" and dated July 17, 2008.

(5) NON-FEDERAL LAND.—The term "non-Federal land" means the 4 parcels of land comprising approximately 160 acres, as depicted on the map.

(6) SECRETARY.—The term "Secretary" means the Secretary of Agriculture.

(b) LAND EXCHANGE REQUIRED.—If the County conveys to the Secretary all right, title, and interest of the County in and to the non-Federal land, the Secretary shall convey to the County all right, title, and interest of the United States in and to the Federal land.

(c) MAP.—

(1) AVAILABILITY.—The map shall be on file and available for public inspection in the Office of the Chief of the Forest Service.

(2) CORRECTIONS.—With the agreement of the County, the Secretary may make technical corrections to the map and legal descriptions of the land to be exchanged under this section.

(d) APPLICABLE LAW.—Section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716) shall apply to the land exchange under this section.

(e) SURVEY; ADMINISTRATIVE COSTS.—

(1) IN GENERAL.—The exact acreage and legal description of the land to be exchanged under subsection (b) shall be determined by a survey satisfactory to the Secretary.

(2) COSTS.—The costs of the survey and any administrative costs relating to the land exchange shall be paid by the County.

(f) CONDITION ON USE OF CONVEYED LAND.—As a condition of the conveyance of the Federal land to the County under subsection (b), the County shall agree to continue to use the Federal land for purposes consistent with the purposes described in the special use authorization for the Fouts Springs Ranch in effect as of the date of enactment of this Act.

(g) EASEMENT AUTHORITY.—The Secretary may grant an easement to provide continued access to, and maintenance and use of, the facilities covered by the special use authorization referred to in subsection (f) as necessary for the continued operation of the Fouts Springs Ranch.

(h) MANAGEMENT OF ACQUIRED LAND.—The non-Federal land acquired by the Secretary under subsection (b) shall be—

(1) added to, and administered as part of, the Forest; and

(2) managed in accordance with—

(A) the Act of March 1, 1911 (commonly known as the “Weeks Law”) (16 U.S.C. 480 et seq.); and

(B) the laws (including regulations) applicable to the National Forest System.

(i) ADDITIONAL TERMS AND CONDITIONS.—The land exchange under subsection (b) shall be subject to any additional terms and conditions that the Secretary and the County may agree on.

By Mr. WYDEN:

S. 1573. A bill to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to authorize the Secretary of the Interior to participate in the city of Hermiston, Oregon, water recycling and reuse project, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. WYDEN. Mr. President, today I am introducing legislation to provide more clean water for the City of Hermiston, for irrigators in the area and for the Umatilla River. It is good for farmers, fish and in-stream flows.

My legislation amends the Reclamation Wastewater and Groundwater Study and Facilities Act—P.L. 102-575—to authorize the City of Hermiston, OR, to participate in what is known as the Title XVI water reclamation program. This long-standing U.S. Bureau of Reclamation program encourages the reclamation and use of municipal, industrial and agricultural waste water. In this case, the City of Hermiston will treat municipal waste water and deliver it to a local irrigation district—the West Extension Irrigation District—for agricultural use. My bill is a companion bill to legislation already introduced for this same purpose in the House of Representatives by Representative GREG WALDEN, H.R. 2714. As with other Title XVI projects, this legislation would authorize the Bureau to assist the City in developing this project and provide a cost-share of 25 percent for the project.

The current Hermiston Water Plant discharges “Class C” water that can be

used only for a limited amount of off-project pastureland irrigation or discharged into the Umatilla River. Beginning in December 2010, a new National Pollutant Discharge Elimination System limit will go into effect, changing the water temperature and pollutants requirements of treated water being put back into the river. Although the city is currently in compliance, once the new limits take effect, the city’s current plant will not allow the city to meet the new requirements. As a result, the city will need to construct a new treatment plant, but it would still have difficulty meeting the water temperature requirements.

An upgrade of the plant would not only bring the city into compliance with the new discharge requirements, but it would increase the quality of the recycled water output from “Class C” water to “Class A” water, making it suitable for all irrigation needs, not just pastureland. Further, the proposed new plant would be configured to discharge its treated water to the West Extension Irrigation District, a Bureau of Reclamation-supported irrigation project. This will significantly increase the amount of water available to the District and will have a beneficial, long-term impact on a regional farming community that faces dwindling water supplies. Acreage available to utilize the city’s recycled water discharge would increase from roughly 550 acres to nearly 11,000 acres.

Finally, by ending the discharge of warmer, lower quality water into the Umatilla River, the project will improve the habitat for wildlife and fish in the River, especially for endangered and threatened species. I am pleased that the Confederated Tribes of the Umatilla Indian Reservation, which has fishing rights in the Umatilla River, supports the city’s efforts in this regard.

By Mr. MERKLEY (for himself and Mr. LUGAR):

S. 1574. A bill to establish a Clean Energy for Homes and Buildings Program in the Department of Energy to provide financial assistance to promote residential-, commercial-, and industrial-scale energy efficiency and on-site renewable technologies; to the Committee on Energy and Natural Resources.

Mr. MERKLEY. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1574

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Clean Energy for Homes and Buildings Act of 2009”.

SEC. 2. FINDINGS.

Congress finds that—

(1) homes and commercial or industrial buildings in the United States consume significant quantities of energy, including energy for electricity and heating, the generation or combustion of which creates significant quantities of greenhouse gas emissions;

(2) in most cases, energy efficiency is the most cost-effective and rapidly deployable strategy for reducing greenhouse gas emissions, energy demand, and the need for long-distance transmission of energy;

(3) on-site renewable energy generation reduces greenhouse gas emissions, demand on the electricity transmission grid, and the need for long-distance transmission of energy;

(4) many energy efficiency measures and on-site renewable energy generation systems produce a net cost savings over the course of the useful life of the measures and systems, and often over a shorter time frame, but the initial expense required to purchase and install the measures and systems is often a significant barrier to widespread investment in the measures and systems;

(5) financial products, financing programs, and other programs that reduce or eliminate the need for the initial expense described in paragraph (4) can permit building owners to invest in measures and systems that reduce total energy costs and realize net cost savings at the time of the installation of the measures and systems, defer capital expenditure, and enhance the value, comfort, and sustainability of the property of the owners; and

(6) State and local governments, utilities, energy efficiency and renewable energy service providers, banks, finance companies, community development organizations, and other entities are developing financial products and programs to provide financing assistance for building owners to encourage the use of the measures and systems described in paragraph (4), including programs that allow repayment of loans under programs described in paragraph (5) through utility bills, or through property-based assessments, taxes, or charges, to facilitate loan repayment for the benefit of building owners and lenders or program sponsors.

SEC. 3. PURPOSE.

The purpose of this Act is to encourage widespread deployment of energy efficiency and on-site renewable energy technologies in homes and other buildings throughout the United States through the establishment of a self-sustaining Clean Energy for Homes and Buildings Program that can—

(1) encourage the widespread availability of financial products and programs with attractive rates and terms that significantly reduce or eliminate upfront expenses to allow building owners (including homeowners, business owners, owners of multifamily housing, owners of multi-tenant commercial properties, and owners of other residential, commercial, or industrial properties) to invest in energy efficiency measures and on-site renewable energy systems with payback periods of up to 25 years or the useful life of such a measure or system by providing credit support, credit enhancement, secondary markets, and other support to originators of the financial products and sponsors of the financing programs; and

(2) help building owners invest in measures and systems that reduce energy costs, in many cases creating a net cost savings that can be realized in the short-term, and may also allow building owners to defer capital expenditures and increase the value, comfort, and sustainability of the property of the owners.

SEC. 4. DEFINITIONS.

In this Act:

(1) **COST.**—The term “cost” has the meaning given the term in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a).

(2) **DIRECT LOAN.**—The term “direct loan” has the meaning given the term in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a).

(3) **LOAN GUARANTEE.**—The term “loan guarantee” has the meaning given the term in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a).

(4) **PROGRAM.**—The term “Program” means the Clean Energy for Homes and Buildings Program established by section 6.

(5) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(6) **SECURITY.**—The term “security” has the meaning given the term in section 2 of the Securities Act of 1933 (15 U.S.C. 77b).

(7) **STATE.**—The term “State” means—

- (A) a State;
- (B) the District of Columbia;
- (C) the Commonwealth of Puerto Rico; and
- (D) any other territory or possession of the United States.

SEC. 5. CLEAN ENERGY FOR HOMES AND BUILDINGS GOALS.

(a) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Secretary shall develop and publish for review and comment in the Federal Register near-, medium-, and long-term goals (including numerical performance targets at appropriate intervals to measure progress toward those goals) for—

(1)(A) a minimum number of homes to be retrofitted through energy efficiency measures or to have on-site renewable energy systems added;

(B) a minimum number of other buildings, by type, to be retrofitted through energy efficiency measures or to have on-site renewable energy systems added; and

(C) the number of on-site solar energy, wind energy, and geothermal heat pump systems to be installed; and

(2) as a result of those retrofits, additions, and installations—

(A) the quantity by which use of grid-supplied electricity, natural gas, home heating oil, and other fuels will be reduced;

(B) the quantity by which total fossil fuel dependence in the buildings sector will be reduced;

(C) the quantity by which greenhouse gas emissions will be reduced;

(D) the number of jobs that will be created; and

(E) the estimated total energy cost savings for building owners.

(b) **ESTIMATES BY ORIGINATORS OR SPONSORS.**—The Secretary may rely on reasonable estimates made by originators of financial products or sponsors of financing programs for tracking progress toward meeting the goals established under this section instead of requiring building owners to monitor and report on the progress.

SEC. 6. CLEAN ENERGY FOR HOMES AND BUILDINGS PROGRAM.

(a) **ESTABLISHMENT.**—There is established in the Department of Energy a program to be known as the Clean Energy for Homes and Buildings Program.

(b) **ELIGIBILITY CRITERIA.**—

(1) **IN GENERAL.**—In administering the Program, the Secretary shall establish eligibility criteria for applicants for financial assistance under subsection (c) who can offer financial products and programs consistent with the purposes of this Act.

(2) **CRITERIA.**—Criteria for applicants shall—

(A) take into account—

(i) the number and type of buildings that can be served by the applicant, the size of the potential market, and the scope of the program (in terms of measures or technologies to be used);

(ii) the ability of the applicant to successfully execute the proposed program and maintain the performance of the proposed projects and investments;

(iii) financial criteria, as applicable, including the ability of the applicant to raise private capital or other sources of funds for the proposed program;

(iv) criteria that enable the Secretary to determine sound program design, including—

(I) an assurance of credible energy efficiency or renewable energy generation performance; and

(II) financial product or program design that effectively reduces barriers posed by traditional financing programs;

(v) such criteria, standards, guidelines, and mechanisms as will enable the Secretary, to the maximum extent practicable, to communicate to program sponsors and originators, servicers, and sellers of financial obligations the eligibility of loans for resale;

(vi) the ability of the applicant to report relevant data on program performance; and

(vii) the ability of the applicant to use incentives or marketing techniques that are likely to result in successful market penetration; and

(B) encourage—

(i) use of technologies that are either well-established or new, but demonstrated to be reliable;

(ii) applicants that can offer building owners payment plans generally designed to permit the combination of energy payments and assessments or charges from the installation or payments associated with financing to be lower than the energy payments prior to installing energy efficiency measures or on-site renewable energy technologies;

(iii) applicants that will use repayment mechanisms convenient for building owners, such as tax-increment financing, special tax districts, on-utility-bill repayment, or other mechanisms;

(iv) applicants that can provide convenience for building owners by combining participation in the lending program with—

(I) processing for tax credits and other incentives;

(II) technical assistance in selecting and working with vendors to provide energy efficiency measures or on-site renewable energy generation systems;

(v) applicants the projects of which will use contractors that hire within a 50-mile radius of the project, or as close as is practicable;

(vi) applicants that will use materials and technologies manufactured in the United States;

(vii) partnerships with or other involvement of State workforce investment boards, labor organizations, community-based organizations, State-approved apprenticeship programs, and other job training entities; and

(viii) applicants that can provide financing programs or financial products that mitigate barriers other than the initial expense of installing measures or technologies, such as unfavorable lease terms.

(3) **DIVERSE PORTFOLIO.**—In establishing criteria and selecting applicants to receive financial assistance under subsection (c), to the maximum extent practicable, the Secretary shall select a portfolio of investments that reaches a diversity of building owners, including—

(A) individual homeowners;

(B) multifamily apartment building owners;

(C) condominium owners associations;

(D) commercial building owners, including multi-tenant commercial properties; and

(E) industrial building owners.

(c) **FINANCIAL ASSISTANCE.**—

(1) **IN GENERAL.**—For applicants determined to be eligible under criteria established under subsection (b), the Secretary may provide financial assistance in the form of direct loans, letters of credit, loan guarantees, insurance products, other credit enhancements or debt instruments (including securitization or indirect credit support), or other financial products to promote the widespread deployment of, and mobilize private sector support of credit and investment institutions for, energy efficiency measures and on-site renewable energy generation systems in buildings.

(2) **FINANCIAL PRODUCTS.**—The Secretary—

(A) in cooperation with Federal, State, local, and private sector entities, shall develop debt instruments that provide for the aggregation of, or directly aggregate, programs for the deployment of energy efficiency measures and on-site renewable energy generation systems on a scale appropriate for residential, commercial, or industrial applications; and

(B) may insure, guarantee, purchase, and make commitments to purchase any debt instrument associated with the deployment of clean energy technologies (including subordinated securities) for the purpose of enhancing the availability of private financing for the deployment of energy efficiency measures and on-site renewable energy generation systems.

(3) **APPLICATION REVIEW.**—

(A) **IN GENERAL.**—To the maximum extent practicable and consistent with sound business practices, the Secretary shall seek to expedite reviews of applications for credit support under this Act in order to communicate to applicants in a timely manner the likelihood of support so that the applicants can seek private capital in order to receive final approval.

(B) **MECHANISMS.**—In carrying out this paragraph, the Secretary shall consider using mechanisms such as—

(i) a system for conditional pre-approval that informs applicants that final applicants will be approved, if established conditions are met;

(ii) clear guidelines that communicate to applicants what level of performance on eligibility criteria will ensure approval for credit support or resale;

(iii) in the case of an applicant portfolio of more than 300 loans or other financial arrangement, an expedited review based on statistical sampling to ensure that the loan or other financial arrangement meets the eligibility criteria; and

(iv) in the case of an applicant with a demonstrated track record with respect to successfully originating eligible loans or other financial arrangements and who meets appropriate other criteria determined by the Secretary, a system for delegating responsibility for meeting eligibility criteria that includes appropriate protections such as buy-back mechanisms in the event criteria are determined not to have been met.

(C) **DISPOSITION OF DEBT OR INTEREST.**—The Secretary may acquire, hold, and sell or otherwise dispose of, pursuant to commitments or otherwise, any debt associated with the deployment of clean energy technologies or interest in the debt.

(D) PRICING.—

(i) IN GENERAL.—The Secretary may establish requirements, and impose charges or fees, which may be regarded as elements of pricing, for different classes of applicants, originators, sellers, servicers, or services.

(ii) CLASSIFICATION OF APPLICANTS, ORIGINATORS, SELLERS AND SERVICERS.—For the purpose of clause (i), the Secretary may classify applicants, originators, sellers and servicers as necessary to promote transparency and liquidity and properly characterize the risk of default.

(E) SECONDARY MARKET SUPPORT.—

(i) IN GENERAL.—The Secretary may lend on the security of, and make commitments to lend on the security of, any debt that the Secretary has insured, guaranteed, issued or is authorized to purchase under this section.

(ii) AUTHORIZED ACTIONS.—On such terms and conditions as the Secretary may prescribe, the Secretary may—

- (I) give security;
- (II) insure;
- (III) guarantee;
- (IV) purchase;
- (V) sell;
- (VI) pay interest or other return; and
- (VII) issue notes, debentures, bonds, or other obligations or securities.

(F) LENDING ACTIVITIES.—

(i) IN GENERAL.—The Secretary shall determine—

(I) the volume of the lending activities of the Program; and

(II) the types of loan ratios, risk profiles, interest rates, maturities, and charges or fees in the secondary market operations of the Program.

(ii) OBJECTIVES.—Determinations under clause (i) shall be consistent with the objectives of—

(I) providing an attractive investment environment for programs that install energy efficiency measures or on-site renewable energy generation technologies;

(II) making the operations of the Program self-supporting over the long term; and

(III) advancing the goals established under this Act.

(G) EXEMPT SECURITIES.—All securities issued, insured, or guaranteed by the Secretary shall, to the same extent as securities that are direct obligations of or obligations guaranteed as to principal or interest by the United States, be considered to be exempt securities within the meaning of the laws administered by the Securities and Exchange Commission.

SEC. 7. GENERAL PROVISIONS.

(a) PERIODIC REPORTS.—Not later than 1 year after commencement of operation of the Program and at least biannually thereafter, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that includes a description of the Program in meeting the purpose and goals established by or pursuant to this Act.

(b) AUDITS BY THE COMPTROLLER GENERAL.—

(1) IN GENERAL.—The programs, activities, receipts, expenditures, and financial transactions of the Program shall be subject to audit by the Comptroller General of the United States under such rules and regulations as may be prescribed by the Comptroller General.

(2) ACCESS.—The representatives of the Government Accountability Office shall—

(A) have access to the personnel and to all books, accounts, documents, records (including electronic records), reports, files, and all

other papers, automated data, things, or property belonging to, under the control of, or in use by the Program, or any agent, representative, attorney, advisor, or consultant retained by the Program, and necessary to facilitate the audit;

(B) be afforded full facilities for verifying transactions with the balances or securities held by depositories, fiscal agents, and custodians;

(C) be authorized to obtain and duplicate any such books, accounts, documents, records, working papers, automated data and files, or other information relevant to the audit without cost to the Comptroller General; and

(D) have the right of access of the Comptroller General to such information pursuant to section 716(c) of title 31, United States Code.

(3) ASSISTANCE AND COST.—

(A) IN GENERAL.—For the purpose of conducting an audit under this subsection, the Comptroller General may, in the discretion of the Comptroller General, employ by contract, without regard to section 3709 of the Revised Statutes (41 U.S.C. 5), professional services of firms and organizations of certified public accountants for temporary periods or for special purposes.

(B) REIMBURSEMENT.—

(i) IN GENERAL.—On the request of the Comptroller General, the Secretary shall reimburse the General Accountability Office for the full cost of any audit conducted by the Comptroller General under this subsection.

(ii) CREDITING.—Such reimbursements shall—

(I) be credited to the appropriation account entitled “Salaries and Expenses, Government Accountability Office” at the time at which the payment is received; and

(II) remain available until expended.

SEC. 8. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out this Act \$2,000,000,000.

By Mr. UDALL of Colorado (for himself and Mr. BENNET):

S. 1575. A bill to amend title 10, United States Code, to ensure that excess oil and gas lease revenues are distributed in accordance with the Mineral Leasing Act, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. UDALL of Colorado. Mr. President, today I am introducing the Naval Oil Shale Reserve Mineral Royalty Revenue Allocation Act. It is a bill designed to release mineral royalty receipts to Colorado where the receipts were generated from gas development within this reserve on the western slope near Rifle, Colorado.

By way of background, in 1997, Congress transferred the federal Naval Oil Shale Reserve lands in western Colorado from the U.S. Department of Energy, DOE, to the U.S. Bureau of Land Management, BLM, and directed the BLM to begin leasing the oil and gas resources under these lands. The Transfer Act also directed that the royalties recouped from this leasing program be set aside and the state portion not disbursed to Colorado until the Interior Department and the DOE certified that enough money from the

royalty receipts accrued to satisfy two purposes.

The first was to provide funding to clean up the Anvil Points site on these lands. Anvil Points was an oil shale research facility that operated within the Naval Oil Shale Reserve for about 40 years. The facility was operated by DOE at one point, and private industry performed research there under contract. Waste material was produced at this facility from oil shale mining and processing. That waste accumulated in a pile of about 300,000 cubic yards of spent oil shale and other material—including arsenic and other heavy metals—which rests on slopes below the facility.

The second purpose was for the reimbursement of certain costs related to the transfer.

Following the transfer to the BLM, this area experienced significant natural gas leasing and, as a result, significant royalty revenue was generated.

On August 8, 2008, the DOI and DOE certified that adequate funds had accrued to accomplish the goals of clean-up and cost reimbursement and subsequently allocated all royalty revenue generated after this date according to the Mineral Leasing Act, which establishes that Colorado receive a proportionate share.

However, considerably more revenue accrued than was necessary to accomplish the clean-up and cost reimbursement goals. This bill would direct that this additional royalty revenue be allocated to Colorado according to the formulas and processes established for the disbursement of federal mineral royalties under the Mineral Leasing Act.

The bill also directs that the Colorado share of this remaining royalty revenue be allocated to the two Counties directly impacted by oil and gas leasing on the Naval Oil Shale Reserve lands—specifically, Garfield and Rio Blanco Counties. The bill further requires that the royalties be used to address these impacts through activities such as land and water restoration, road repair, and other capital improvement projects.

Based on figures provided by the BLM, there remains approximately \$17 million in these accounts for Colorado's royalty revenue share. This bill would make Colorado whole and provide it with its rightful share of the remaining royalty revenue to address critical local needs and impacts from the very leasing that produced the royalty revenue.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1575

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. TREATMENT OF OIL SHALE RESERVE RECEIPTS.

Section 7439(f) of title 10, United States Code, is amended by adding at the end the following:

“(3)(A) The moneys deposited in the Treasury under paragraph (1) that exceed the amounts described in subparagraphs (A) and (B) of paragraph (2) shall be transferred by the Secretary of the Treasury in accordance with section 35 of the Mineral Leasing Act (30 U.S.C. 191) to the State of Colorado for use in accordance with subparagraph (B).

“(B) Amounts transferred to the State of Colorado under subparagraph (A) shall be used by the State and political subdivisions of the State for—

“(i) conservation, restoration, and protection of land, water, and wildlife resources affected by oil or gas development activities in Garfield and Rio Blanco Counties in the State;

“(ii) repair, maintenance, and construction of State and county roads in each of those counties; and

“(iii) the conduct of capital improvement projects (including the construction and maintenance of sewer and water treatment plants) that are designed and carried out to address the impacts of oil and gas development activities in each of those counties.”.

By Mrs. SHAHEEN (for herself, Ms. SNOWE, Ms. COLLINS, Mr. SANDERS, Mr. MERKLEY, Mr. LEAHY, Mr. WYDEN, and Mr. SCHUMER):

S. 1576. A bill to require the Secretary of Agriculture to establish a carbon incentives program to achieve supplemental greenhouse gas emission reductions on private forest land of the United States, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

Mrs. SHAHEEN. Mr. President, I rise today to introduce legislation that will establish a Forest Carbon Incentives Program to help America's family forest owners slow climate change by increasing carbon sequestration and storage on private forestland. This will be critical for our national climate change response, and will create important economic opportunities for landowners across America. I want to thank my colleagues, Senators SNOWE, COLLINS, SANDERS, MERKLEY, WYDEN, LEAHY and SCHUMER, with whom I have worked closely to draft this bill. I also want to acknowledge Senator STABENOW, who has long provided leadership on this issue of carbon sequestration.

This legislation is driven by a simple fact: we cannot achieve our greenhouse gas reduction goals without comprehensive and effective utilization of U.S. forests for carbon sequestration. The U.S. Environmental Protection Agency estimates that U.S. forests currently sequester a remarkable 10 percent of our annual U.S. carbon emissions. Even more remarkably, the EPA estimates that we could double this sequestration capacity to 20 percent of emissions with the right management and conservation.

Unlike some of our emerging energy technologies, forest carbon sequestra-

tion is a climate strategy that is ready to go to work right now on meeting our emissions reduction goals. We can immediately put forest owners to work on their lands undertaking activities to help move us to that 20 percent sequestration goal, and create new revenue streams for those small and family landowners to help them navigate through these troubled economic times.

One important pathway to achieve these forest carbon sequestration goals will be through carbon offset markets. For those able to participate, carbon offset programs will provide important financial incentives for projects that reduce greenhouse gas emissions while, at the same time, helping to keep the costs of a climate program low. The opportunity to earn offset credits will create a financial incentive for large forest landowners to undertake activities that increase carbon sequestration and storage on their lands and that can be measured and verified with the precision necessary to meet rigorous environmental integrity requirements.

However, offset markets will not be easily accessible to the many family forest owners and other smaller landowners who do not have the necessary economies of scale to effectively participate in offset markets. Offset projects come with many upfront and ongoing transactional expenses that will undermine financial gains and constrain the flexibility that family forest owners and other smaller scale landowners will require to participate.

Furthermore, there are some important types of carbon sequestration and storage activities, such as permanent conservation easements, that produce real carbon gains over the long term but are hard to quantify with the precision necessary for offset markets.

We also need to engage the full range of carbon strategies to meet our carbon sequestration goals, even if they cannot conform to the requirements of offsets.

Engaging family forest owners in sequestration is no small piece of the forest carbon equation—America's family forest owners control more than half of all U.S. private forestland, with 119 million acres in ownerships of 100 acres or less. We must create new tools to engage these individuals in efforts to sequester carbon and provide economic opportunities to gain financial incentives for doing that work.

In my home State of New Hampshire, our forests embody this diverse ownership pattern and the unique opportunity to address climate change through forest carbon incentives. New Hampshire is the second most forested state in the Nation, and more than 80 percent of that forestland is in private hands. We do have some large private ownerships, including large blocks of working forestland. But most of our privately owned forestland is in small

ownerships—averaging 37.5 acres. According to the U.S. Forest Service, 49 percent of New Hampshire's forestland, 2,358,000 acres, is in family ownership, with 124,000 family forest owners in the Granite State.

If these landowners could aggregate their capacity to store carbon on the 2 million acres they own, they could make a significant contribution to needed reductions in the presence of carbon dioxide in our atmosphere. Each year New Hampshire forests already take up by photosynthesis 25 percent of the total CO₂ emitted by the State from man-made sources.

But we can capture even more carbon in our Nation's forests with the right incentives like those in our proposed program. Creating incentives for forest carbon would represent a win-win for New Hampshire and a win-win in every State in the Nation that has privately owned forested landscapes.

Simply, the Forest Carbon Incentives Program will provide financial incentives for small private forest owners to engage in carbon sequestration activities and help our country meet its desired carbon reduction goals. The Forest Carbon Incentives Program will be run through the U.S. Forest Service and State forestry agencies. These experienced forest professionals will work with interested private forest owners to develop a “climate mitigation contract” for undertaking forest management activities that will increase carbon absorption and storage. Incentives will be awarded on a straightforward “practices per acre” basis, giving landowners a clear and simple agreement and reliable incentive payments. Carbon reductions achieved through these practices are not required to be permanently stored, so landowners will retain more flexibility with future management decisions. This simple and efficient program structure will enable landowners at any scale to participate, especially family forest owners holding smaller parcels that are unlikely to participate in carbon offset markets.

The program will create additional incentive opportunities for interested landowners to protect carbon gains achieved through a climate mitigation contract. Landowners can gain “bonus” incentive payments for also undertaking management that addresses pests, fire, and other threats that could damage forests and release the carbon that has been stored there. Landowners can also be paid for a permanent conservation easement that will assure that their lands in the program will never be developed, thereby protecting the carbon in those forests.

This legislation already enjoys support from a broad spectrum of national organizations that care about America's forests, such as the American Forest Foundation, the National Association of State Foresters, The Trust for

Public Land, the National Wildlife Federation, and The Nature Conservancy among many others. Of equal importance, it has earned broad support from local, state, and regional interest groups, including the Society for the Protection of New Hampshire Forests, New Hampshire Timberland Owners Association, Northland Forest Products, Appalachian Mountain Club, and a host of other leading forest organizations in my home state.

America must use every tool available to address climate change, and should especially favor strategies that are ready to go now and that create new economic opportunities. This legislation will provide both a meaningful climate mitigation strategy and create real jobs in the woods. I encourage my fellow Senators to consider it carefully.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1576

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Forest Carbon Incentives Program Act of 2009”.

SEC. 2. CARBON INCENTIVES PROGRAM TO ACHIEVE SUPPLEMENTAL GREENHOUSE GAS EMISSION REDUCTIONS ON PRIVATE FOREST LAND.

(a) DEFINITIONS.—In this section:

(1) AVOIDED DEFORESTATION AGREEMENT.—The term “avoided deforestation agreement” means a permanent conservation easement that—

(A) covers eligible land that—

(i) is enrolled under a climate mitigation contract; and

(ii) will not be converted for development; and

(B) is consistent with the guidelines for—

(i) the Forest Legacy Program established under section 7 of the Cooperative Forestry Assistance Act (16 U.S.C. 2103c); or

(ii) any other program approved by the Secretary for use under this section to provide consistency with Federal legal requirements for permanent conservation easements.

(2) CLIMATE MITIGATION CONTRACT; CONTRACT.—The term “climate mitigation contract” or “contract” means a contract of not less than 15 years that specifies—

(A) the eligible practices that will be undertaken;

(B) the acreage of eligible land on which the practices will be undertaken;

(C) the agreed rate of compensation per acre; and

(D) a schedule to verify that the terms of the contract have been fulfilled.

(3) ELIGIBLE LAND.—The term “eligible land” means forest land in the United States that is privately owned at the time of initiation of a climate mitigation contract.

(4) ELIGIBLE PRACTICE.—The term “eligible practice” means a forestry practice, including improved forest management that produces marketable forest products, that is determined by the Secretary to provide measurable increases in carbon sequestration and

storage beyond customary practices on comparable land.

(5) PROGRAM.—The term “program” means the carbon incentives program established under this section.

(6) SECRETARY.—The term “Secretary” means the Secretary of Agriculture.

(b) SUPPLEMENTAL GREENHOUSE GAS EMISSION REDUCTIONS IN THE UNITED STATES.—

(1) IN GENERAL.—The Secretary shall establish a carbon incentives program to achieve supplemental greenhouse gas emission reductions on private forest land of the United States.

(2) FINANCIAL INCENTIVE PAYMENTS.—

(A) IN GENERAL.—The Secretary shall provide to owners of eligible land financial incentive payments for—

(i) eligible practices that measurably increase carbon sequestration and storage over a designated period on eligible land, as specified through a climate mitigation contract; and

(ii) subject to subparagraph (B), permanent avoided deforestation agreements on eligible land covered under a climate mitigation contract.

(B) NO AGREEMENT REQUIRED.—Eligibility for financial incentive payments under a climate mitigation contract described in subparagraph (A)(i) shall not require an avoided deforestation agreement.

(c) PERFORMANCE OF SUPPLEMENTAL REDUCTIONS.—In carrying out the program, the Secretary shall report under subsection (f) on progress toward reaching the following levels of carbon sequestration and storage through climate mitigation contracts:

(1) 100,000,000 tons of carbon reductions by 2020.

(2) 200,000,000 tons of further carbon reductions by 2030.

(d) PROGRAM REQUIREMENTS.—

(1) CONTRACT REQUIRED.—To participate in the program, an owner of eligible land shall enter into a climate mitigation contract with the Secretary.

(2) PROGRAM COMPONENTS.—In establishing the program, the Secretary shall provide that—

(A) funds provided under this section shall not be substituted for, or otherwise used as a basis for reducing, funding authorized or appropriated under other programs to compensate owners of eligible land for activities that are not covered under a climate mitigation contract;

(B) emission reductions or sequestration achieved through a climate mitigation contract shall not be eligible for crediting under any federally established carbon offset program; and

(C) compensation for activities under this program shall be set at such a rate so as not to exceed the net estimated benefit an owner of eligible land would receive for similar practices under any federally established carbon offset program, taking into consideration the costs associated with the issuance of credits and compliance with reversal provisions.

(3) REVERSALS.—

(A) IN GENERAL.—In developing regulations for climate mitigation contracts, the Secretary shall specify requirements in accordance with this paragraph to address intentional or unintentional reversal of carbon sequestration during the contract period.

(B) INTENTIONAL REVERSALS.—If the Secretary finds an owner of eligible land violated a climate mitigation contract by intentionally reversing a practice or otherwise intentionally failing to comply with the contract, the Secretary shall terminate the con-

tract and require the owner to repay any contract payments in an amount that reflects the lost carbon sequestration.

(C) UNINTENTIONAL REVERSAL.—If the Secretary finds an eligible practice has been unintentionally reversed due to events outside the control of the owner of eligible land, the Secretary shall reevaluate and may modify or terminate the climate mitigation contract, after consultation with the owner, taking into consideration lost carbon sequestration and the future carbon sequestration potential of the contract.

(e) INCENTIVE PAYMENTS.—

(1) REGULATIONS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue regulations that specify eligible practices and related compensation rates, standards, and guidelines as the basis for entering into climate mitigation contracts with owners of eligible land.

(2) SET-ASIDE OF FUNDS FOR CERTAIN PURPOSES.—

(A) IN GENERAL.—Not less than 35 percent of program funds made available under this program for a fiscal year shall be used—

(i) to provide additional incentives for owners of eligible land that carry out activities and enter into agreements that protect carbon reductions and otherwise enhance environmental benefits achieved under a climate mitigation contract; and

(ii) to develop forest carbon monitoring and methodologies that will improve the tracking of carbon gains achieved under the program.

(B) USE.—Of the amount of program funds made available for a fiscal year, the Secretary shall use—

(i) at least 25 percent to make funds available on a competitive basis to compensate owners for entering avoided deforestation agreements on land subject to a climate mitigation contract;

(ii) not more than 10 percent to provide incentive payments for additional management activities that increase the adaptive capacity of land under a climate mitigation contract; and

(iii) not more than 2 percent for the Forest Inventory and Analysis Program of the Forest Service to develop improved measurement and monitoring of forest carbon stocks.

(f) PROGRAM MEASUREMENT, MONITORING, VERIFICATION, AND REPORTING.—

(1) MEASUREMENT, MONITORING, AND VERIFICATION.—The Secretary shall establish and implement protocols that provide monitoring and verification of compliance with climate mitigation contracts, including both direct and indirect effects and any reversal of sequestration.

(2) REPORTING REQUIREMENT.—At least annually, the Secretary shall submit to Congress a report that contains—

(A) an estimate of annual and cumulative reductions achieved as a result of the program, determined using standardized measures, including measures of economic efficiency; and

(B) a summary of any changes to the program that will be made as a result of program measurement, monitoring, and verification.

(3) AVAILABILITY OF REPORT.—Each report required by this subsection shall be available to the public through the website of the Department of Agriculture.

(4) PROGRAM ADJUSTMENTS.—At least once every 2 years the Secretary shall adjust eligible practices and compensation rates for future climate mitigation contracts based on the results of monitoring under paragraph (1) and reporting under paragraph (2).

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as are necessary.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 237—COM-MENDING BLUE STAR FAMILIES FOR SUPPORTING MILITARY FAMILIES AND INCREASING AWARENESS OF THE UNIQUE CHALLENGES OF MILITARY LIFE

Mr. WARNER submitted the following resolution; which was referred to the Committee on Armed Services.

S. RES. 237

Whereas more than 1,000,000 United States troops have served in ongoing operations in Iraq and Afghanistan, including members of the National Guard and Reserve,

Whereas the millions of immediate family members of United States servicemembers, including spouses, children, and parents, have contributed and sacrificed as well;

Whereas the families of each servicemember contribute vitally to the strength of the United States Armed Forces;

Whereas military families, often facing significant challenges such as long separations from loved ones and frequent household moves, are civilians who serve in support of United States servicemembers;

Whereas Blue Star Families is an organization of family members of active duty, National Guard, and Reserve members of the Armed Forces serving during war time, and connects military families with civilian communities, increases awareness of the unique challenges of military life, and provides morale and support for military families; and

Whereas, in order for military families to continue to support servicemembers during this extended period of conflict, the Senate and people of the United States should support military families: Now, therefore, be it

Resolved, That the Senate—

(1) recognizes the sacrifices made by Blue Star Families as members of military families and as an organization dedicated to all military families and improving the welfare of the United States;

(2) commends the patriotic efforts of Blue Star Families;

(3) commends, and offers sincere thanks to, all servicemembers and military families; and

(4) urges the people of the United States to acknowledge the inspirational sacrifices of military families.

SENATE RESOLUTION 238—TO PROVIDE FOR A POINT OF ORDER AGAINST ANY LEGISLATION THAT ELIMINATES OR REDUCES THE ABILITY OF AMERICANS TO KEEP THEIR HEALTH PLAN OR THEIR CHOICE OF DOCTOR OR THAT DECREASES THE NUMBER OF AMERICANS ENROLLED IN PRIVATE HEALTH INSURANCE, WHILE INCREASING THE NUMBER OF AMERICANS ENROLLED IN GOVERNMENT-MANAGED HEALTH CARE

Mr. DEMINT submitted the following resolution; which was referred to the

Committee on Rules and Administration:

S. RES. 238

Resolved,

SECTION 1. POINT OF ORDER ON LEGISLATION THAT ELIMINATES OR REDUCES THE ABILITY OF AMERICANS TO KEEP THEIR HEALTH PLAN OR THEIR CHOICE OF DOCTOR.

(a) IN GENERAL.—In the Senate, it shall not be in order, to consider any bill, joint resolution, amendment, motion, or conference report that—

(1) eliminates or reduces the ability of Americans to keep their health plan;

(2) eliminates or reduces the ability of Americans to keep their choice of doctor; or

(3) decreases the number of Americans enrolled in private health insurance, while increasing the number of Americans enrolled in government-managed health care.

(b) SUSPENSION OF POINT OF ORDER.—A point of order raised under subsection (a) shall be suspended in the Senate upon certification by the Congressional Budget Office that such bill, joint resolution, amendment, motion or conference report does not—

(1) eliminate or reduce the ability of Americans to keep their health plan;

(2) eliminate or reduce the ability of Americans to keep their choice of doctor; or

(3) decrease the number of Americans enrolled in private health insurance, while increasing the number of Americans enrolled in government-managed health care.

(c) WAIVER.—This section may be waived or suspended only by an affirmative vote of three-fifths of the Members, duly chosen and sworn.

(d) APPEALS.—An affirmative vote of three-fifths of the Members of the Senate, duly chosen and sworn, shall be required to sustain an appeal of the ruling of the Chair on a point of order raised under this section.

SENATE RESOLUTION 239—SUPPORTING THE GOALS AND IDEALS OF “NATIONAL PURPLE HEART RECOGNITION DAY”

Mrs. LINCOLN (for herself, Mr. CRAPO, Mr. CARDIN, Mr. LIEBERMAN, Ms. MURKOWSKI, Mr. SESSIONS, and Mrs. SHAHEEN) submitted the following resolution; which was considered and agreed to:

S. RES. 239

Whereas the Purple Heart is the oldest military decoration in the world in present use;

Whereas the Purple Heart is awarded in the name of the President to a member of the Armed Forces who is wounded in a conflict with an enemy force or is wounded while held by an enemy force as a prisoner of war, and is awarded posthumously to the next of kin of a member of the Armed Forces who is killed in a conflict with an enemy force or who dies of wounds received in a conflict with an enemy force;

Whereas the Purple Heart was established on August 7, 1782, during the Revolutionary War, when General George Washington issued an order establishing the Honorary Badge of Distinction, otherwise known as the Badge of Military Merit;

Whereas the award of the Purple Heart ceased with the end of the Revolutionary War, but was revived in 1932, the 200th anniversary of the birth of George Washington, out of respect for his memory and military achievements; and

Whereas observing National Purple Heart Recognition Day is a fitting tribute to George Washington and to the more than 1,535,000 recipients of the Purple Heart, approximately 550,000 of whom are still living: Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of “National Purple Heart Recognition Day”;

(2) encourages all people in the United States to learn about the history of the Purple Heart and to honor its recipients; and

(3) calls upon the people of the United States to conduct appropriate ceremonies, activities, and programs to demonstrate support for members of the Armed Forces who have been awarded the Purple Heart.

SENATE RESOLUTION 240—DESIGNATING SEPTEMBER 9, 2009, AS “NATIONAL FETAL ALCOHOL SPECTRUM DISORDERS AWARENESS DAY”

Ms. MURKOWSKI (for herself, Mr. JOHNSON, Mr. HATCH, Mr. DORGAN, and Mr. SPECTER) submitted the following resolution; which was considered and agreed to:

S. RES. 240

Whereas the term “fetal alcohol spectrum disorders” includes a broader range of conditions and therefore has replaced the term “fetal alcohol syndrome” as the umbrella term describing the range of effects that can occur in an individual whose mother drank alcohol during pregnancy;

Whereas fetal alcohol spectrum disorders are the leading cause of cognitive disability in western civilization, including the United States, and are 100 percent preventable;

Whereas fetal alcohol spectrum disorders are a major cause of numerous social disorders, including learning disabilities, school failure, juvenile delinquency, homelessness, unemployment, mental illness, and crime;

Whereas the incidence rate of fetal alcohol syndrome is estimated at 1 out of 500 live births and the incidence rate of fetal alcohol spectrum disorders is estimated at 1 out of every 100 live births;

Whereas although the economic costs of fetal alcohol spectrum disorders are difficult to estimate, the cost of fetal alcohol syndrome alone in the United States was \$5,400,000,000 in 2003, and it is estimated that each individual with fetal alcohol syndrome will cost taxpayers of the United States between \$1,500,000 and \$3,000,000 in his or her lifetime;

Whereas in February 1999, a small group of parents of children who suffer from fetal alcohol spectrum disorders came together with the hope that in 1 magic moment the world could be made aware of the devastating consequences of alcohol consumption during pregnancy;

Whereas the first International Fetal Alcohol Syndrome Awareness Day was observed on September 9, 1999;

Whereas Bonnie Buxton of Toronto, Canada, the co-founder of the first International Fetal Alcohol Syndrome Awareness Day, asked “What if ... a world full of FAS/E [Fetal Alcohol Syndrome/Effect] parents all got together on the ninth hour of the ninth day of the ninth month of the year and asked the world to remember that during the 9 months of pregnancy a woman should not consume alcohol ... would the rest of the world listen?”; and

Whereas on the ninth day of the ninth month of each year since 1999, communities

around the world have observed International Fetal Alcohol Syndrome Awareness Day: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 9, 2009, as “National Fetal Alcohol Spectrum Disorders Awareness Day”; and

(2) calls upon the people of the United States—

(A) to observe National Fetal Alcohol Spectrum Disorders Awareness Day with appropriate ceremonies—

(i) to promote awareness of the effects of prenatal exposure to alcohol;

(ii) to increase compassion for individuals affected by prenatal exposure to alcohol;

(iii) to minimize further effects of prenatal exposure to alcohol; and

(iv) to ensure healthier communities across the United States; and

(B) to observe a moment of reflection on the ninth hour of September 9, 2009, to remember that during the 9 months of pregnancy a woman should not consume alcohol.

AMENDMENTS SUBMITTED AND PROPOSED

SA 2290. Mr. REED submitted an amendment intended to be proposed to amendment SA 2284 proposed by Mr. DODD to the amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table.

SA 2291. SA 2292. Mr. SANDERS submitted an amendment intended to be proposed to amendment SA 2276 submitted by Mr. SANDERS to the amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, supra; which was ordered to lie on the table.

SA 2293. Mr. SANDERS submitted an amendment intended to be proposed to amendment SA 2276 submitted by Mr. SANDERS to the amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, supra; which was ordered to lie on the table.

SA 2294. Mr. NELSON, of Nebraska submitted an amendment intended to be proposed to amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, supra; which was ordered to lie on the table.

SA 2295. Mr. NELSON, of Nebraska submitted an amendment intended to be proposed to amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, supra; which was ordered to lie on the table.

SA 2296. Mr. NELSON, of Nebraska submitted an amendment intended to be proposed to amendment SA 2257 submitted by Mr. NELSON of Nebraska and intended to be proposed to the amendment SA 1908 proposed by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, supra; which was ordered to lie on the table.

SA 2297. Mr. NELSON, of Nebraska submitted an amendment intended to be pro-

posed to amendment SA 2258 submitted by Mr. NELSON of Nebraska and intended to be proposed to the amendment SA 1908 proposed by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, supra; which was ordered to lie on the table.

SA 2298. Mr. CORKER submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table.

SA 2299. Mr. CORKER submitted an amendment intended to be proposed by him to the bill H.R. 3435, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 2290. Mr. REED submitted an amendment intended to be proposed to amendment SA 2284 proposed by Mr. DODD to the amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

SEC. 7. Notwithstanding any other provision of law and until the receipt of the decennial census in the year 2010, the Secretary of Agriculture may fund community facility and water and waste disposal projects of communities and municipal districts and areas in Connecticut, Massachusetts, and Rhode Island that previously were determined by the appropriate rural development field office of the Department of Agriculture to be eligible for funding, if the applications for the projects were received prior to August 1, 2009.

SA 2291. Mrs. BOXER submitted an amendment intended to be proposed to amendment SA 2240 proposed by Mr. BARRASSO (for himself, Mr. VITTER, Mr. HATCH, Mr. ROBERTS, Mr. ENZI, Mr. THUNE, and Mr. JOHANNES) to the amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

SEC. 7. (a) Not later than 60 days after the date of enactment of this Act, the Secretary of Agriculture shall complete—

(1) a State-by-State analysis of the impacts on agricultural producers of the American Clean Energy and Security Act of 2009 (H.R. 2454, as passed by the House of Representatives on June 26, 2009) (referred to in this section as “H.R. 2454”); and

(2) a State-by-State analysis of the adverse impacts of rapid climate change on agricultural producers and consumers.

(b) In conducting the analysis under subsection (a), the Secretary shall consider the impacts of H.R. 2454, the benefits of H.R.

2454, and the adverse impacts of rapid climate change on a range of fishing, aquaculture, livestock, poultry, and swine production and a variety of crop production, including specialty crops.

(c) Not later than 60 days after the date of enactment of this Act, the Secretary of Agriculture shall—

(1) complete a State-by-State analysis of the adverse impacts of rapid climate change on agriculture and forestry, including, at a minimum, an assessment of the impacts of invasive species and disease, drought, and flooding; and

(2) identify the benefits to agriculture and forestry of the full implementation of H.R. 2454.

SA 2292. Mr. SANDERS submitted an amendment intended to be proposed to amendment SA 2276 submitted by Mr. SANDERS to the amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 24, line 12, strike “\$1,253,777,000” and insert “\$1,603,777,001”.

SA 2293. Mr. SANDERS submitted an amendment intended to be proposed to amendment SA 2276 submitted by Mr. SANDERS to the amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 1 of the amendment, line 2, strike “\$1,603,777,000” and insert “\$1,603,777,001”.

SA 2294. Mr. NELSON of Nebraska submitted an amendment intended to be proposed to amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBACK) to the bill H.R. 2997, making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 80, between lines 22 and 23, insert the following:

(c)(1) In determining the market value of the applicable beef cattle on the day before the death of the beef cattle under section 531(c)(2) of the Federal Crop Insurance Act (7 U.S.C. 1531(c)(2)) and section 901(c)(2) of the Trade Act of 1974 (19 U.S.C. 2497(c)(2)), the Secretary of Agriculture shall use 4 weight classes for the beef cattle consisting of less than 400 pounds, 400 pounds or more but less than 700 pounds, 700 pounds or more but less than 1,000 pounds, and 1,000 pounds or more.

(2) To carry out paragraph (1), \$4,000,000 shall be derived by transfer from the amount under the heading “RISK MANAGEMENT AGENCY” of title I.

SA 2295. Mr. NELSON of Nebraska submitted an amendment intended to be proposed to amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBAC) to the bill H.R. 2997, making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 80, between lines 22 and 23, insert the following:

(c)(1) Section 531(c)(2) of the Federal Crop Insurance Act (7 U.S.C. 1531(c)(2)) is amended by inserting before the period at the end the following: "using, in the case of beef cattle, 4 weight classes consisting of less than 400 pounds, 400 pounds or more but less than 700 pounds, 700 pounds or more but less than 1,000 pounds, and 1,000 pounds or more".

(2) Section 901(c)(2) of the Trade Act of 1974 (19 U.S.C. 2497(c)(2)) is amended by inserting before the period at the end the following: "using, in the case of beef cattle, 4 weight classes consisting of less than 400 pounds, 400 pounds or more but less than 700 pounds, 700 pounds or more but less than 1,000 pounds, and 1,000 pounds or more".

(3) To carry out the amendments made by this subsection, \$4,000,000 shall be derived by transfer from the amount under the heading "RISK MANAGEMENT AGENCY" of title I.

(4) The amendments made by this subsection take effect on June 18, 2008.

SA 2296. Mr. NELSON of Nebraska submitted an amendment intended to be proposed to amendment SA 2257 submitted by Mr. NELSON of Nebraska and intended to be proposed to the amendment SA 1908 submitted by Mr. KOHL (for himself and Mr. BROWNBAC) to the bill H.R. 2997, making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

(c)(1) Section 531(c)(2) of the Federal Crop Insurance Act (7 U.S.C. 1531(c)(2)) is amended by inserting before the period at the end the following: "using, in the case of beef cattle, 4 weight classes consisting of less than 400 pounds, 400 pounds or more but less than 700 pounds, 700 pounds or more but less than 1,000 pounds, and 1,000 pounds or more".

(2) Section 901(c)(2) of the Trade Act of 1974 (19 U.S.C. 2497(c)(2)) is amended by inserting before the period at the end the following: "using, in the case of beef cattle, 4 weight classes consisting of less than 400 pounds, 400 pounds or more but less than 700 pounds, 700 pounds or more but less than 1,000 pounds, and 1,000 pounds or more".

(3) To carry out the amendments made by this subsection, \$4,000,000 shall be derived by transfer from the amount under the heading "RISK MANAGEMENT AGENCY" of title I.

(4) The amendments made by this subsection take effect on June 18, 2008.

SA 2297. Mr. NELSON of Nebraska submitted an amendment intended to be proposed to amendment SA 2258 submitted by Mr. NELSON of Nebraska and

intended to be proposed to the amendment SA 1908 proposed by Mr. KOHL (for himself and Mr. BROWNBAC) to the bill H.R. 2997, making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

(c)(1) In determining the market value of the applicable beef cattle on the day before the death of the beef cattle under section 531(c)(2) of the Federal Crop Insurance Act (7 U.S.C. 1531(c)(2)) and section 901(c)(2) of the Trade Act of 1974 (19 U.S.C. 2497(c)(2)), the Secretary of Agriculture shall use 4 weight classes for the beef cattle consisting of less than 400 pounds, 400 pounds or more but less than 700 pounds, 700 pounds or more but less than 1,000 pounds, and 1,000 pounds or more.

(2) To carry out paragraph (1), \$4,000,000 shall be derived by transfer from the amount under the heading "RISK MANAGEMENT AGENCY" of title I.

SA 2298. Mr. CORKER submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____ REIMBURSEMENT OF AUTOMOBILE DISTRIBUTORS.

(a) IN GENERAL.—Notwithstanding any other provision of law, any funds provided by the United States Government, or any agency, department, or subdivision thereof, to an automobile manufacturer or a distributor thereof as credit, loans, financing, advances, or by any other agreement in connection with such automobile manufacturer's or distributor's proceeding as a debtor under title 11, United States Code, shall be conditioned upon use of such funds to fully reimburse all dealers of such automobile manufacturer or manufacturer's distributor for—

(1) the cost incurred by such dealers during the 9-month period preceding the date on which the proceeding under title 11, United States Code, by or against the automobile manufacturer or manufacturer's distributor is commenced, in acquisition of all parts and inventory in the dealer's possession on the same basis as if the dealers were terminating pursuant to existing franchise agreements or dealer agreements; and

(2) all other obligations owed by such automobile manufacturer or manufacturer's distributor under any other agreement between the dealers and the automobile manufacturer or manufacturer's distributor arising during that 9-month period, including, without limitation, franchise agreement or dealer agreements.

(b) INCLUSION IN TERMS.—Any note, security agreement, loan agreement, or other agreement between an automobile manufacturer or manufacturer's distributor and the Government (or any agency, department, or subdivision thereof) shall expressly provide for the use of such funds as required by this section. A bankruptcy court may not authorize the automobile manufacturer or manufacturer's distributor to obtain credit under section 364 of title 11, United States Code,

unless the credit agreement or agreements expressly provided for the use of funds as required by this section.

(c) EFFECTIVENESS OF REJECTION.—Notwithstanding any other provision of law, any rejection by an automobile manufacturer or manufacturer's distributor that is a debtor in a proceeding under title 11, United States Code, of a franchise agreement or dealer agreement pursuant to section 365 of that title, shall not be effective until at least 180 days after the date on which such rejection is otherwise approved by a bankruptcy court.

SA 2299. Mr. CORKER submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____ TARP RECIPIENT OWNERSHIP TRUST.

(a) AUTHORITY OF THE SECRETARY OF THE TREASURY TO DELEGATE TARP ASSET MANAGEMENT.—Section 106(b) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5216(b)) is amended by inserting before the period at the end the following: "and the Secretary may delegate such management authority to a private entity, as the Secretary determines appropriate, with respect to any entity assisted under this Act".

(b) CREATION OF MANAGEMENT AUTHORITY FOR DESIGNATED TARP RECIPIENTS.—

(1) FEDERAL ASSISTANCE LIMITED.—Notwithstanding any provision of the Emergency Economic Stabilization Act of 2008, or any other provision of law, no funds may be expended under the Troubled Asset Relief Program, or any other provision of that Act, or to carry out the Advanced Technology Vehicles Manufacturing Incentive Program established under section 136 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17013), on or after the date of enactment of this Act, until the Secretary of the Treasury transfers all voting, nonvoting, and common equity in any designated TARP recipient to a limited liability company established by the Secretary for such purpose, to be held and managed in trust on behalf of the United States taxpayers.

(2) APPOINTMENT OF TRUSTEES.—

(A) IN GENERAL.—The President shall appoint 3 independent trustees to manage the equity held in the trust, separate and apart from the United States Government.

(B) CRITERIA.—Trustees appointed under this paragraph—

(i) may not be elected or appointed Government officials;

(ii) shall serve at the pleasure of the President, and may be removed for just cause in violation of their fiduciary responsibilities only; and

(iii) shall serve without compensation for their services.

(3) DUTIES OF TRUST.—Pursuant to protecting the interests and investment of the United States taxpayer, the trust established under this subsection shall, with the purpose of maximizing the profitability of the designated TARP recipient—

(A) exercise the voting rights of the shares of the taxpayer on all core governance issues;

(B) select the representation on the boards of directors of any designated TARP recipient; and

(C) have a fiduciary duty to the American taxpayer for the maximization of the return

on the investment of the taxpayer made under the Emergency Economic Stabilization Act of 2008, in the same manner and to the same extent that any director of an issuer of securities has with respect to its shareholders under the securities laws and all applications of State law.

(c) **LIQUIDATION.**—The trustees shall liquidate the trust established under this section, including the assets held by such trust, not later than December 24, 2011, unless the trustees submit a report to Congress that liquidation would not maximize the profitability of the company and the return on investment to the taxpayer.

(d) **CIVIL ACTIONS AUTHORIZED.**—

(1) **IN GENERAL.**—Any person who is aggrieved by a violation of the fiduciary duty established by subsection (b)(3) may bring a civil action in any appropriate United States district court.

(2) **LIMITED INDEMNIFICATION.**—In any case brought under paragraph (1), the court may provide for limited indemnification with respect to a trustee, for actions taken in good faith, with the sole objective of meeting the fiduciary duty to maximize value for the American taxpayer.

(e) **DEFINITIONS.**—As used in this section—
(1) the term “designated TARP recipient” means any entity that has received, or will receive, financial assistance under the Troubled Asset Relief Program or any other provision of the Emergency Economic Stabilization Act of 2008 (Public Law 110-343), such that the Federal Government holds or controls, or will hold or control at a future date, not less than a 17 percent ownership stake in the company as a result of such assistance;

(2) the term “Secretary” means the Secretary of the Treasury or the designee of the Secretary; and

(3) the terms “director”, “issuer”, “securities”, and “securities laws” have the same meanings as in section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c).

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. KOHL. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on August 4, 2009, at 9:30 a.m., to conduct a hearing entitled “Strengthening and Streamlining Prudential Bank Supervision.”

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. KOHL. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on August 4, 2009, at 2:30 p.m., to conduct a hearing entitled “Rail Modernization: Getting Transit Funding Back on Track.”

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. KOHL. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of

the Senate on Tuesday, August 4, 2009, at 2:45 p.m., in room SD-366 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. KOHL. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be authorized to meet during the session of the Senate on Tuesday, August 4, 2009, at 10 a.m., in room 406 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FINANCE

Mr. KOHL. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on Tuesday, August 4, 2009, at 10 a.m., in room 215 of the Dirksen Senate Office Building, to conduct a hearing entitled “Climate Change Legislation: Allowance and Revenue Distribution.”

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. KOHL. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during session of the Senate on Tuesday, August 4, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. KOHL. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Tuesday, August 4, 2009, at 2:15 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. KOHL. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet during the session of the Senate on Tuesday, August 4, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. KOHL. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet, during the session of the Senate, to conduct a hearing entitled “Protecting Patients from Defective Medical Devices” on Tuesday, August 4, 2009. The hearing will commence at 2:30 p.m., in room 430 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. KOHL. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate, on August 4, 2009, at 2:30 p.m. in room SD-

226 of the Dirksen Senate Office Building, to conduct a hearing entitled “The Performance Rights Act and Parity among the Music Delivery Platforms.”

The PRESIDING OFFICER. Without objection, it is so ordered.

ADHOC SUBCOMMITTEE ON DISASTER RECOVERY

Mr. KOHL. Mr. President, I ask unanimous consent that the Ad Hoc Subcommittee on Disaster Recovery of the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on Tuesday, August 4, 2009, at 10:30 a.m., to conduct a hearing entitled “Focusing on Children in Disasters: Evacuation Planning and Mental Health Recovery.”

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. HARKIN. Mr. President, I ask unanimous consent that Liz Dunn and Erik Peterson of my staff be granted floor privileges for the duration of today’s session.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BROWN. Mr. President, I ask unanimous consent that Mike Gerhardt, a consultant on Senator LEAHY’s Judiciary Committee staff, be granted the privilege of the floor during the floor debate of Sonia Sotomayor to be Associate Justice of the Supreme Court.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BROWN. Mr. President, I ask unanimous consent that Chan Park, a detailee on Senator LEAHY’s Judiciary Committee staff, be granted the privilege of the floor for the remainder of the 111th Congress.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. HARKIN. I ask unanimous consent that Becky Moylan and Maeshal Abid of my staff be granted the privileges of the floor for the duration of today’s session.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. MENENDEZ. Mr. President, I ask unanimous consent that Christa McDermott, Ashley McCabe, and Joia Starks, legislative fellows in my office, be granted the privilege of the floor for the remainder of the debate on the confirmation of Judge Sonia Sotomayor.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE— EXECUTIVE CALENDAR NO. 309

Mr. BROWN. Mr. President, I ask unanimous consent that at 10 a.m.,

Wednesday, August 5, the Senate proceed to executive session to resume consideration of Calendar No. 309, with the debate time until 2 p.m. divided in 1-hour alternating blocks of time, with the majority controlling the first hour; further, that the time from 2 to 3 p.m. be equally divided and controlled, with the majority controlling the first 30 minutes and the Republicans controlling the final 30 minutes; that at 3 p.m., the Senate stand in recess until 5 p.m.; that upon reconvening at 5 p.m., the Senate resume for 1-hour alternating blocks of time, with the Republicans controlling the first hour.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE CALENDAR

Mr. BROWN. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar Nos. 316, 317, 318, 320, 321, 322, 323, 324, 325, 326, 327, and 328; that the nominations be confirmed en bloc, and the motions to reconsider be laid upon the table en bloc; that no further motions be in order; and that any statements relating thereto be printed in the RECORD; that the President be immediately notified of the Senate's action, and the Senate then resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

DEPARTMENT OF STATE

Patricia A. Butenis, of Virginia, A Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Democratic Socialist Republic of Sri Lanka, and to serve concurrently and without additional compensation as Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Maldives.

Charles Aaron Ray, of Maryland, A Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Zimbabwe.

Gayleatha Beatrice Brown, of New Jersey, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Burkina Faso.

Pamela Jo Howell Slutz, of Texas, A Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Burundi.

Patricia Newton Moller, of Arkansas, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Guinea.

Jerry P. Lanier, of North Carolina, A career Member of the Senior Foreign Service, Class of Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Uganda.

Alfonso E. Lenhardt, of New York, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the United Republic of Tanzania.

Samuel Louis Kaplan, of Minnesota, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Kingdom of Morocco.

James B. Smith, of New Hampshire, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Kingdom of Saudi Arabia.

Miguel Humberto Diaz of Minnesota, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Holy See.

Fay Hartog-Levin, of Illinois, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Kingdom of the Netherlands.

Stephen J. Rapp, of Iowa, to be Ambassador at Large for War Crimes Issues.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will now return to legislative session.

MILITARY SPOUSES RESIDENCY RELIEF ACT

Mr. BROWN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 108, S. 475.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The legislative clerk read as follows:

A bill (S. 475) to amend the Servicemembers Civil Relief Act to guarantee the equity of spouses of military personnel with regard to matters of residency, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. BROWN. Mr. President, I ask unanimous consent that the bill be read the third time and passed; that the motion to reconsider be laid upon the table, with no intervening action or debate; and that any statements related thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 475) was ordered to be engrossed for a third reading, was read the third time and passed, as follows:

S. 475

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Military Spouses Residency Relief Act".

SEC. 2. GUARANTEE OF RESIDENCY FOR SPOUSES OF MILITARY PERSONNEL FOR VOTING PURPOSES.

(a) IN GENERAL.—Section 705 of the Servicemembers Civil Relief Act (50 U.S.C. App. 595) is amended—

(1) by striking "For" and inserting the following:

"(a) IN GENERAL.—For";

(2) by adding at the end the following new subsection:

"(b) SPOUSES.—For the purposes of voting for any Federal office (as defined in section

301 of the Federal Election Campaign Act of 1971 (2 U.S.C. 431)) or a State or local office, a person who is absent from a State because the person is accompanying the person's spouse who is absent from that same State in compliance with military or naval orders shall not, solely by reason of that absence—

"(1) be deemed to have lost a residence or domicile in that State, without regard to whether or not the person intends to return to that State;

"(2) be deemed to have acquired a residence or domicile in any other State; or

"(3) be deemed to have become a resident in or a resident of any other State."; and

(3) in the section heading, by inserting "**AND SPOUSES OF MILITARY PERSONNEL**" before the period at the end.

(b) CLERICAL AMENDMENT.—The table of contents in section 1(b) of such Act (50 U.S.C. App. 501) is amended by striking the item relating to section 705 and inserting the following new item:

"Sec. 705. Guarantee of residency for military personnel and spouses of military personnel."

(c) APPLICATION.—Subsection (b) of section 705 of such Act (50 U.S.C. App. 595), as added by subsection (a) of this section, shall apply with respect to absences from States described in such subsection (b) on or after the date of the enactment of this Act, regardless of the date of the military or naval order concerned.

SEC. 3. DETERMINATION FOR TAX PURPOSES OF RESIDENCE OF SPOUSES OF MILITARY PERSONNEL.

(a) IN GENERAL.—Section 511 of the Servicemembers Civil Relief Act (50 U.S.C. App. 571) is amended—

(1) in subsection (a)—

(A) by striking "A servicemember" and inserting the following:

"(1) IN GENERAL.—A servicemember"; and

(B) by adding at the end the following:

"(2) SPOUSES.—A spouse of a servicemember shall neither lose nor acquire a residence or domicile for purposes of taxation with respect to the person, personal property, or income of the spouse by reason of being absent or present in any tax jurisdiction of the United States solely to be with the servicemember in compliance with the servicemember's military orders if the residence or domicile, as the case may be, is the same for the servicemember and the spouse.";

(2) by redesignating subsections (c), (d), (e), and (f) as subsections (d), (e), (f), and (g), respectively;

(3) by inserting after subsection (b) the following new subsection:

"(c) INCOME OF A MILITARY SPOUSE.—Income for services performed by the spouse of a servicemember shall not be deemed to be income for services performed or from sources within a tax jurisdiction of the United States if the spouse is not a resident or domiciliary of the jurisdiction in which the income is earned because the spouse is in the jurisdiction solely to be with the servicemember serving in compliance with military orders."; and

(4) in subsection (d), as redesignated by paragraph (2)—

(A) in paragraph (1), by inserting "or the spouse of a servicemember" after "The personal property of a servicemember"; and

(B) in paragraph (2), by inserting "or the spouse's" after "servicemember's".

(b) APPLICATION.—Subsections (a)(2) and (c) of section 511 of such Act (50 U.S.C. App. 571), as added by subsection (a) of this section, and the amendments made to such section

511 by subsection (a)(4) of this section, shall apply with respect to any return of State or local income tax filed for any taxable year beginning with the taxable year that includes the date of the enactment of this Act.

SEC. 4. SUSPENSION OF LAND RIGHTS RESIDENCY REQUIREMENT FOR SPOUSES OF MILITARY PERSONNEL.

(a) IN GENERAL.—Section 508 of the Servicemembers Civil Relief Act (50 U.S.C. App. 568) is amended in subsection (b) by inserting “or the spouse of such servicemember” after “a servicemember in military service”.

(b) APPLICATION.—The amendment made by subsection (a) shall apply with respect to servicemembers in military service (as defined in section 101 of such Act (50 U.S.C. App. 511)) on or after the date of the enactment of this Act.

RECOGNIZING THE NONCOMMISSIONED OFFICERS OF THE UNITED STATES ARMY

Mr. BROWN. Mr. President, I ask unanimous consent that the Committee on Armed Service be discharged from further consideration of H. J. Res. 44, and that the Senate proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The legislative clerk read as follows:

A joint resolution (H.J. Res. 44) to recognize the service, sacrifice, honor and professionalism of the Noncommissioned Officers of the United States Army.

There being no objection, the Senate proceeded to consider the joint resolution.

Mr. BROWN. Mr. President, I ask unanimous consent that the joint resolution be read the third time and passed; that the motion to reconsider be laid upon the table; that the preamble be agreed to; further, that any statements relating thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The joint resolution (H.J. Res. 44) was ordered to a third reading, was read the third time and passed.

The preamble was agreed to.

NATIONAL PURPLE HEART RECOGNITION DAY

Mr. BROWN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 239, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 239) supporting the goals and ideals of “National Purple Heart Recognition Day.”

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I rise today to thank two of my colleagues, Senators LINCOLN and CRAPO for intro-

ducing the Senate resolution designating August 7, 2009, as National Purple Heart Recognition Day.

I am proud to support the commemoration of our Nation's Purple Heart recipients by granting them and their families a much deserved day of recognition. More than one and a half million Americans have earned the Purple Heart Medal, and this is just one more way we can honor their service.

The Purple Heart Medal is awarded in the name of the President, and it designates those servicemembers who have been wounded in the service of our Nation during combat or an act of terrorism. Many recipients have paid the ultimate sacrifice, and it is a symbol of true selflessness. The brave men and women of the U.S. Armed Forces today volunteer knowing full well the hazards of their chosen profession. On August 7, 2009, all Americans should be encouraged to learn about the significance of the Purple Heart, honor those selfless citizens who wear the award and bear the proud scars earned in service protecting and defending our Nation.

Today, there are approximately 550,000 Purple Heart recipients still living in the United States. I am sure that each Member of this body knows someone in their respective States who is a Purple Heart recipient, the family member of a recipient, or the friend of a recipient. A day of recognition is the least we can do to honor those who have been awarded this medal for serving our country.

Mr. BROWN. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and that any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 239) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 239

Whereas the Purple Heart is the oldest military decoration in the world in present use;

Whereas the Purple Heart is awarded in the name of the President to a member of the Armed Forces who is wounded in a conflict with an enemy force or is wounded while held by an enemy force as a prisoner of war, and is awarded posthumously to the next of kin of a member of the Armed Forces who is killed in a conflict with an enemy force or who dies of wounds received in a conflict with an enemy force;

Whereas the Purple Heart was established on August 7, 1782, during the Revolutionary War, when General George Washington issued an order establishing the Honorary Badge of Distinction, otherwise known as the Badge of Military Merit;

Whereas the award of the Purple Heart ceased with the end of the Revolutionary

War, but was revived in 1932, the 200th anniversary of the birth of George Washington, out of respect for his memory and military achievements; and

Whereas observing National Purple Heart Recognition Day is a fitting tribute to George Washington and to the more than 1,535,000 recipients of the Purple Heart, approximately 550,000 of whom are still living: Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of “National Purple Heart Recognition Day”;;

(2) encourages all people in the United States to learn about the history of the Purple Heart and to honor its recipients; and

(3) calls upon the people of the United States to conduct appropriate ceremonies, activities, and programs to demonstrate support for members of the Armed Forces who have been awarded the Purple Heart.

NATIONAL FETAL ALCOHOL SPECTRUM DISORDERS AWARENESS DAY

Mr. BROWN. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 240, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 240) designating September 9, 2009, as “National Fetal Alcohol Spectrum Disorders Awareness Day.”

There being no objection, the Senate proceeded to consider the resolution.

Mr. BROWN. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 240) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 240

Whereas the term “fetal alcohol spectrum disorders” includes a broader range of conditions and therefore has replaced the term “fetal alcohol syndrome” as the umbrella term describing the range of effects that can occur in an individual whose mother drank alcohol during pregnancy;

Whereas fetal alcohol spectrum disorders are the leading cause of cognitive disability in western civilization, including the United States, and are 100 percent preventable;

Whereas fetal alcohol spectrum disorders are a major cause of numerous social disorders, including learning disabilities, school failure, juvenile delinquency, homelessness, unemployment, mental illness, and crime;

Whereas the incidence rate of fetal alcohol syndrome is estimated at 1 out of 500 live births and the incidence rate of fetal alcohol spectrum disorders is estimated at 1 out of every 100 live births;

Whereas although the economic costs of fetal alcohol spectrum disorders are difficult to estimate, the cost of fetal alcohol syndrome alone in the United States was \$5,400,000,000 in 2003, and it is estimated that each individual with fetal alcohol syndrome

will cost taxpayers of the United States between \$1,500,000 and \$3,000,000 in his or her lifetime;

Whereas in February 1999, a small group of parents of children who suffer from fetal alcohol spectrum disorders came together with the hope that in 1 magic moment the world could be made aware of the devastating consequences of alcohol consumption during pregnancy;

Whereas the first International Fetal Alcohol Syndrome Awareness Day was observed on September 9, 1999;

Whereas Bonnie Buxton of Toronto, Canada, the co-founder of the first International Fetal Alcohol Syndrome Awareness Day, asked "What if ... a world full of FAS/E [Fetal Alcohol Syndrome/Effect] parents all got together on the ninth hour of the ninth day of the ninth month of the year and asked the world to remember that during the 9 months of pregnancy a woman should not consume alcohol ... would the rest of the world listen?"; and

Whereas on the ninth day of the ninth month of each year since 1999, communities around the world have observed International Fetal Alcohol Syndrome Awareness Day: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 9, 2009, as "National Fetal Alcohol Spectrum Disorders Awareness Day"; and

(2) calls upon the people of the United States—

(A) to observe National Fetal Alcohol Spectrum Disorders Awareness Day with appropriate ceremonies—

(i) to promote awareness of the effects of prenatal exposure to alcohol;

(ii) to increase compassion for individuals affected by prenatal exposure to alcohol;

(iii) to minimize further effects of prenatal exposure to alcohol; and

(iv) to ensure healthier communities across the United States; and

(B) to observe a moment of reflection on the ninth hour of September 9, 2009, to remember that during the 9 months of pregnancy a woman should not consume alcohol.

MEASURE READ THE FIRST TIME—S. 1572

Mr. BROWN. Mr. President, I understand that S. 1572, introduced earlier today by Senator DEMINT, is at the desk, and I ask for its first reading.

The PRESIDING OFFICER. The clerk will report the bill by title for the first time.

The legislative clerk read as follows:

A bill (S. 1572) to provide for a point of order against any legislation that eliminates or reduces the ability of Americans to keep their health plan or their choice of doctor or that decreases the number of Americans enrolled in private health insurance, while increasing the number of Americans enrolled in government-managed health care.

Mr. BROWN. Mr. President, I now ask for its second reading and object to my own request.

The PRESIDING OFFICER. Objection having been heard, the bill will receive its second reading on the next legislative day.

ORDERS FOR WEDNESDAY, AUGUST 5, 2009

Mr. BROWN. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m. tomorrow, Wednesday, August 5; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate proceed to a period of morning business until 10 a.m., with Senators permitted to speak therein for up to 10 minutes each; further, I ask that following morning business, the Senate proceed to executive session and resume consideration of the nomination of Sonia Sotomayor, as provided under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. BROWN. Mr. President, as a reminder, the Senate will recess from 3 p.m. to 5 p.m. tomorrow to allow for a special Democratic caucus.

ORDER FOR ADJOURNMENT

Mr. BROWN. Mr. President, if there is no further business to come before the Senate, I ask that following the remarks of Senator GRASSLEY, it adjourn under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

SOTOMAYOR NOMINATION

Mr. GRASSLEY. Mr. President, I want to discuss the nomination of Judge Sotomayor to be Associate Justice. I want to begin by saying that I have a lot of respect for her. I think she is an incredibly talented individual who has worked very hard and has had an extraordinary life story. I am impressed with the way Judge Sotomayor was able to beat the odds and reach new heights. Unfortunately, as I voted in committee, I vote on the floor. I cannot support her nomination because of my concerns with her judicial philosophy.

There are a number of qualifications a Supreme Court nominee should have: a superior intellect, distinguished legal experience, integrity, proper judicial demeanor, and temperament. But the

most important qualification of a Supreme Court nominee is truly understanding the proper role of a Justice as envisioned by our great Constitution. In other words, a Justice must have the capacity to faithfully interpret the law and Constitution without personal bias or prejudice.

It is critical that judges have a healthy respect for the constitutional separation of power and the exercise of judicial restraint. Judges must be bound by the words of the Constitution and legal precedent. Because the Supreme Court has the last word as far as what the lower court says, Justices are not constrained like judges in the district and appellate courts. In other words, the Supreme Court and its Justices have the ability to make precedent. Because there is no backstop to the Supreme Court, Justices are accountable to no one. That is why we must be certain these nominees will have the self-restraint to resist interpreting the Constitution to satisfy their personal beliefs and preferences. A nominee to the Supreme Court must persuade us that he or she is able to set aside personal feelings so he or she can blindly and dispassionately administer equal justice for all.

That is what I was looking for when I reviewed Judge Sotomayor's record. That is what I was looking for when I asked Judge Sotomayor questions both at the hearing and in writing. Unfortunately, I now have more questions than answers about Judge Sotomayor's judicial philosophy. I am not convinced that the judge will be able to resist having her personal biases and preferences dictate her judicial methods when she gets to the Supreme Court.

I find it very troubling that President Obama is changing the standard by which our country's Federal judges are selected. Instead of searching for qualified jurists who can be trusted to put aside their personal feelings in order to arrive at a result required by the law, President Obama has said he is looking for a judge who has "empathy," someone who will embrace his or her personal biases instead of rejecting them.

This concept represents a very radical departure from the normal criteria for selecting Federal judges and Supreme Court Justices. In his statement opposing the confirmation of Chief Justice John Roberts, then-Senator Obama compared the process of deciding tough cases in the Supreme Court—can you believe it—comparing it to a marathon. He said:

That last mile can only be determined on the basis of one's deepest values, one's core concerns, one's broader perspective on how the world works and the depth and breadth of one's empathy. . . . Legal process alone will not lead to you a rule of decision. . . . [i]n those difficult cases the critical ingredient is supplied by what is in the judge's heart.

That is the end of the quote from then-Senator Obama.

Until now, judges have always been expected to apply law evenhandedly and to reach the result that the law requires. When speaking about the law, lawyers and judges often talk about what the law is or what the law requires, instead of what the law should be. We expect judges not to confuse the two. We expect judges not to bend the law in order to reach a result that they would want personally instead of what the law requires. We expect judges not to decide cases in favor of a particular litigant because he or she may be more worthy of compassion. We don't ask what the judge's heart says about a particular case of a legal issue. We ask what the law says.

A mandate of judicial empathy turns that traditional legal concept on its head in favor of a lawless standard. If empathy for a litigant's situation becomes a standard for deciding cases, then there is no limit to the effect on American jurisprudence. If a judge's decision in the hard cases is supplied by the content of his or her heart, then that decision cannot be grounded upon objective legal principles. If the last mile that then-Senator Obama referred to is determined by a judge's deepest feelings instead of legal precedent, then the outcome will differ based on which judge hears the case. Predictably and consistently, hallmarks of the American legal system will be sacrificed on the altar of judicial persuasion and compassion.

When a judge improperly relies on his or her personal feelings instead of relying solely on the law, it leads to creation of bad precedent. If a judge's decision is affected by his or her empathy or sympathy—whatever you want to say—for an affected party or group, then the law of unintended consequences dictates that others will be affected in the future, beyond the present case, and they will be judged by a standard that should not be applied to them because of what a previous judge did about personal sympathy instead of what the law says.

Justice is blind. Empathy is not. Empathetic judges take off the blindfolds and look at the party instead of merely weighing the evidence in light of what the law is. Empathetic judges put their thumbs on the scales of justice, altering the balance that is delicately crafted by the law. Empathetic judges exceed their role as part of the judicial branch and improperly take extraneous, nonlegal factors into consideration. That is why President Obama's judicial standard of empathy is problematic, and why we should be cautious in deferring to his choices for the judicial branch.

Judge Sotomayor's speeches and writings reveal a judicial philosophy that bestows a pivotal role to personal preferences and beliefs in her judicial method—although Judge Sotomayor attempted to spin away her state-

ments. At her confirmation hearing I had difficulty reconciling what she said at the hearing with statements she has repeated so often throughout the years. That is because the statements made at the hearing and those speeches and law review articles outside the hearing cannot be reconciled.

Since 1994, the judge has given a number of speeches where she responded to a remark by Justice O'Connor that a judge's gender should be irrelevant to judicial decisionmaking process. Judge Sotomayor said that she "hope[d] that a wise Latina woman . . . would more often than not reach a better conclusion than a white male who hasn't lived that life."

This statement suggests, very contrary to the Constitution, that race and gender influence judicial decisions and that some judges can reach a "better conclusion" solely on the basis of belonging to a particular demographic.

When questioned about this issue, Judge Sotomayor initially stood by her words, saying that they were purposefully chosen to "inspire the students to believe that their life experience would enrich the legal system," and that it was merely their context that "ha[d] created a misunderstanding."

Even if that were the case, repeatedly misrepresenting to her audience one of the most fundamental principles of our judicial system demonstrates inappropriate and irresponsible behavior for a judge. However, Judge Sotomayor proceeded to contradict those very words by saying that she "does not believe that any ethnic, racial, or gender group has an advantage in sound judging," and claimed that her criticism was actually agreeing with Justice O'Connor's argument, saying the words she used "agree[d] with the sentiment that Justice Sandra Day O'Connor was attempting to convey." I fail to see how Judge Sotomayor can reconcile her views with those of Justice O'Connor because it is clear that they stand in direct contradiction to each other.

The judge continued to confuse us, claiming that hers and Justice O'Connor's words "literally made no sense in the context of what judges do." Assuming that Judge Sotomayor truly does agree with Justice O'Connor, then I find it troubling that she doesn't recognize that it is important for judges to understand their gender and ethnicity should have no bearing on their judicial decisions.

Moreover, the judge contradicted herself again when she later attempted to brush aside these remarks, claiming that they were a "rhetorical flourish" and "can't be read literally." However, if she truly believed that these words "fell flat," why would she continue to use the same words on at least four more separate occasions?

Some of my colleagues claim that the significance of Judge Sotomayor's "wise Latina" statement has been ex-

aggerated. Unfortunately, we are not concerned with just one statement. The judge has a record of freely articulating a judicial philosophy at odds with the fundamental principles of our legal system.

Justice Story once said that, without justice being impartially administered:

Neither our persons nor our rights nor our properties can be protected.

That is the end of Justice Story's quote.

In her opening testimony Judge Sotomayor appeared to agree with Justice Story, saying she seeks to strengthen "faith in the impartiality of our justice system." However, that statement is contradicted by her long history of expressing skepticism toward judicial neutrality and impartiality. In at least four separate speeches Judge Sotomayor said that "the aspiration to impartiality is just that—it's an aspiration."

It is easy for a nonlawyer like me to become very cynical when I hear that. But when questioned about that statement, Judge Sotomayor argued that she "wasn't talking about impartiality [being] impossible" and tried to reconcile her views as "talking about academic question."

In other speeches, the judge also expressed skepticism with Judge Cedarbaum's belief that judges must transcend their personal sympathies and prejudices, saying that she "wonder[ed] whether achieving that goal is possible in all, or even most cases."

That is enhancing my cynicism.

At the hearing, Judge Sotomayor failed to sufficiently explain those troubling remarks. Instead, she departed from the clear meaning of her words, arguing that they were actually intended "to make sure that one understood that a judge always has to guard against those things affecting the outcome of a case."

Once again, her contradictory interpretation of her own words makes me question her sincerity and candor with our committee.

In another speech in a law journal article, Judge Sotomayor declared that she "willingly accept[s]" that judges "must not deny the differences resulting from experiences and heritage, but attempt, as the Supreme Court suggests, continuously to judge when those opinions, sympathies and prejudices are appropriate."

So I am concerned that these words radically depart from the bedrock principle of judicial impartiality that judges swear to uphold when they take their oath of office.

When questioned about these words, Judge Sotomayor made the far-fetched claim that her words were actually "talking about the very important goal of the justice system to ensure that personal biases and prejudices of a judge do not influence the outcome of

the case." Once again, I fail to see how Judge Sotomayor can reconcile both of those statements.

Furthermore, her statement is especially concerning within the context of other ideas she expressed in the same "Raising the Bar" speech. That is her title of her speech, "Raising the Bar."

For example, Judge Sotomayor openly questioned whether "ignoring our differences as women, men or even people of color, will do a disservice both to the law and to society." Reason to be cynical, once again. This is yet another example of an out-of-the-mainstream judicial philosophy. The majority of Americans understand that allowing physiological differences to influence judging is a disservice to the law and demonstrates a blatant lack of regard for the principle of blind justice.

At the hearing, the judge attempted to justify her words as simply part of an "academic discussion." Contrary to the plain meaning of her words, she claimed that she was not encouraging or attempting to encourage the belief that "personal characteristics" and "experiences" should drive the result.

These excuses ring hollow and contradict other parts of the same speech where she declared, "I accept there will be some differences in my judging based on my gender and my Latina heritage."

Similarly and even more concerning, she expressed in that speech on at least five other occasions that "I accept the proposition that a difference there will be by the presence of men and women, people of color on the bench, and that my experiences affect the facts I choose to see as a judge."

When explaining those remarks at the hearing, the judge continued to display troublesome evasiveness, claiming that she "did not intend to suggest that it is a question of choosing to see some facts or another."

Taken together, I remain unconvinced that Judge Sotomayor's history of freely delivered speeches demonstrates an appropriate understanding of the importance of approaching the law neutrally and upholding judicial impartiality. I am also concerned that over the past 13 years the judge has articulated that judges play a role as a policymaker.

At a Duke University panel discussion she claimed that, "The court of appeals is where policy is made."

Likewise in her Suffolk University law review article, the judge embraced the notion that judges should encroach on the constitutional power of legislatures by changing the law to adapt to social needs. She lamented that "our society would be straitjacketed were not the courts, with the able assistance of the lawyers, constantly overhauling the law and adapting to the realities of ever-changing social, industrial and political conditions."

And in the same article, the judge noted that "a given judge or judges

may develop a novel approach to a specific set of facts or legal framework that push the law in a new direction."

I thought that was part of our checks and balances system of government. That is why we had a separate legislature, to make policy. Because if a Supreme Court Justice makes policy, they have got a lifetime position. You cannot vote them out of office, whereas if we make wrong policy, our constituents have an opportunity at every election to put us out on the street.

So not understanding the proper role of a Justice is a problem for me. Even more alarming is that the judge has, on multiple occasions, expressed her own personal role in shaping policy in the bench. When describing the role of judges in a November 2000 speech before the Litigators Club, the judge stated, "Our decisions affect not only the individual cases before us, but the course of litigation and the outcomes of many similar cases pending. This fact has made me much more aware of the policy impact of the decisions I have drafted or worked on."

In at least two other speeches, the judge told her audience, "I wake up each morning excited about the prospects of engaging in the work that fulfills me and gives me the chance to have a voice in the development of the law."

These statements demonstrate either a lack of understanding or a blatant disregard for the proper constitutional role of judges. Rather than seriously addressing this aspect of her judicial philosophy at her confirmation hearing, the judge capriciously changed her views. She appeared to retract all of her previous statements by telling Senator COBURN that "judges do not make law," and in responding to my questions about vacuums in the law by saying that judges are "not creating law."

I find these statements disingenuous because in her posthearing written responses, the judge endorsed her previous views by justifying judges who "apply broadly written statutes by filling in gaps in the laws according to their personal common sense."

This is troubling because judges who fail to uphold their constitutional role and impose their own policy preferences undermine democracy and undermine our checks and balances system of government.

Also, I was disturbed by Judge Sotomayor's general lack of candor at the hearing. Throughout her testimony, she repeatedly contradicted statements she had openly and unequivocally expressed on numerous occasions from her own bench. Even the Washington Post characterized Judge Sotomayor's hearing testimony as "less than candid," and "uncomfortably close to disingenuous."

That is not a Republican Senator making the statement, that is the Washington Post, one of the guardians

of democracy, as the first amendment allows newspapers to be.

For example, despite her 7-year history of telling at least six different audiences that "my experiences affect the facts I choose to see as a judge," and, "I accept there will be some differences in judging based on my gender and my Latina heritage," she also told us, "I do not permit my sympathies, personal views, or prejudices to influence the outcome of my cases."

Likewise, when I questioned her about whether it was ever appropriate for judges to allow their own identity politics to influence their judgment, the judge answered "absolutely not."

While I agree with her answer, it is still troubling and significant that it completely contradicts her previously expressed views. I find it interesting that she appears to have had a sudden confirmation conversion.

I am also concerned about Judge Sotomayor's involvement with the Puerto Rican Legal Defense and Education Fund and her denials that she did not work on matters in a substantive or policy role relative to controversial issues during her tenure at that organization.

During her supervision of this Defense and Education Fund, the organization took a number of radical positions on abortion, including the view that abortions on demand could not be restricted for any reason; that taxpayers should be required to pay for abortions; and that parents did not have the right to even be notified if their minor daughter was going to get an abortion.

I find it hard to believe that the chair of the litigation committee of the organization had no substantive or policy involvement in the formulation of these legal briefs.

Even when asked whether these positions were extreme and allowed an opportunity to disavow them, Judge Sotomayor refused to do that.

I also was dismayed that the judge was not straightforward about her philosophy toward the use of foreign law. In a recent speech before the ACLU of Puerto Rico, the judge advocated and justified American judges using such foreign law. She told her audience that, "International law and foreign law will be very important in the discussion of how to think about the unsettled issues in our own legal system."

She went on to say, "To suggest to anyone that you can outlaw the use of foreign or international law is a sentiment that's based on a fundamental misunderstanding . . . nothing in the American legal system stops us from considering those ideas."

As examples of using foreign law to strike down American statutes, she favorably cited *Roper v. Simmons* and *Lawrence v. Texas*, saying the courts were using foreign law to "help us understand whether our understanding of

our own constitutional rights fell into the mainstream of human thinking.”

However, at the hearing, Judge Sotomayor contradicted herself saying, “Foreign law cannot be used . . . to influence the outcome of a legal decision interpreting the Constitution or American law.”

Which Sotomayor, comparing those two quotes, is going to judge from the bench of the Supreme Court? In that same speech, Judge Sotomayor also openly disapproved criticisms by Justice Scalia and Justice Thomas on the use of foreign law saying she shared the ideas of Justice Ginsburg that, “Unless American courts are more open to discussing the ideas raised by foreign cases, and by international cases, then we are going to lose influence in the world,” and, “foreign opinions . . . can add to the story of knowledge relevant to the solution of a question.”

However, at the hearing, Judge Sotomayor reversed herself, claiming that she “actually agreed with Justice Scalia and Thomas on the point that one has to be very cautious even in using foreign law with respect to things American law permits you to.”

So, once again, comparing those two statements, which Sotomayor view is going to be used on the bench of the Supreme Court? Once again, either Judge Sotomayor’s beliefs were extremely short lived, or she failed to openly present her true opinions during her hearings.

A few days after testifying that, “Foreign law could not be used to interpret the Constitution and the statutes,” Judge Sotomayor advocated her previous beliefs that, “Decisions of foreign courts can be a source of ideas in forming our understanding of our own constitutional rights” and “to the extent that the decisions of foreign courts contain ideas that are helpful to that task, American courts may wish to consider those ideas.”

Supporters of Judge Sotomayor discount her controversial statements and writings made over the years as a sitting judge and urge us to look at her judicial record. So I have had the opportunity to do that, and am still not convinced. I participated in the confirmation hearing and listened to her discuss her cases. For the most part, Judge Sotomayor refused to give a clear answer to our questions and in the end left us with more questions than we had before the hearing started.

Most lawyers understand that hard cases say the most about a judge. And as we all know, the Supreme Court only takes hard cases. Yet those are the kinds of cases that raise the most concerns about the judge and what she will do if she is confirmed to the highest Court.

Statements she made at the hearing raise concerns that she will inappropriately create or expand rights under the

Constitution. Further, some of her cases raise questions about whether she will impose her personal policy decisions instead of those of the legislative or executive branch.

Moreover, Judge Sotomayor’s record with the Supreme Court is unimpressive. When the Supreme Court reviewed her work, it rejected her outcome 8 out of 10 times and disagreed with her analysis on another one of those cases. I am not sure a 1 in 10 record warrants elevation to the Nation’s highest Court.

What is troubling to me is how Judge Sotomayor has handled cases of first impression or important constitutional issues that have appeared before her on the Second Circuit Court of Appeals. I am concerned that she dismisses cases with cursory analysis in order to obtain a politically desired result.

The firefighters case *Ricci v. City of New Haven* is a case that should not be overlooked in an examination of Judge Sotomayor’s judicial philosophy. Judge Sotomayor admittedly is opposed to and has litigated against standardized tests because she believes they are racially biased. This is the background she brought to the *Ricci* case, which she dismissed without writing an opinion. But the fortunes of the firefighters changed when Judge Cabrenas discovered the case by reading the local newspaper. Judge Cabrenas recognized that a detailed analysis of this case would serve a jurisprudential purpose and wanted the Second Circuit to reconsider it. The Second Circuit voted 7-6 not to reconsider this important case, with Judge Sotomayor casting the deciding vote. One has to question whether Judge Sotomayor allowed her personal biases against standardized test to seep into her decisionmaking process. Although Judge Sotomayor continued her efforts to sweep this case under the rug, the firefighters, because Judge Cabrenas highlighted the importance of the case in a dissenting opinion, were able to justify appealing to the Supreme Court.

The Supreme Court issued an opinion which held that there was no “strong basis in evidence” to support the ruling made by Judge Sotomayor. All nine Justices rejected the legal reasoning applied by Judge Sotomayor’s three judge panel. Justice Alito summarized the case best in his concurring opinion, where he stated “a reasonable jury could easily find that the City’s real reason for scrapping the test results was not a concern about violating the disparate impact provision of Title VII, but a simple desire to please a politically important racial constituency.” As such, “Petitioners were denied promotions for which they qualified because of the race and ethnicity of the firefighters who achieved the highest scores on the City’s exam.” As to Judge Sotomayor’s expressed empathy for ruling against the firefighters, Justice Alito wrote:

the dissent grants that petitioners’ situation is “unfortunate” and that they “understandably attract this Court’s sympathy.” But “sympathy” is not what petitioners have a right to demand. What they have a right to demand is evenhanded enforcement of the law—of Title VII’s prohibition against discrimination based on race. And that is what, until today’s decision, has been denied them.

At the hearing, I wasn’t persuaded by Judge Sotomayor’s claims that she followed precedent in reaching her decision. I also was not convinced with Judge Sotomayor’s explanation about why she dismissed this case with no legal analysis. I was left with the impression that Judge Sotomayor either she didn’t understand the importance of the claims before her, or she issued a ruling based on her own personal biases.

Some colleagues argue that her criticisms can only point to one controversial case over a 17-year career on the Federal bench. That is not quite accurate, because there are several of her decisions that raise concerns.

For example, Judge Sotomayor issued another troubling decision in *Didden v. Village of Port Chester*, where Mr. Didden presented evidence that local government officials attempted to extort him in exchange for not seizing his property. When Mr. Didden refused to be extorted, the Village took his property and gave it to another private developer. This case was on the heels of the Supreme Court’s decision in *Kelo v. City of New London*, which held that the government is not “allowed to take property under the mere pretext of a public purpose, when its actual purpose is to bestow a private benefit.” Yet Judge Sotomayor dismissed Mr. Didden’s claim with a one paragraph opinion.

I asked Judge Sotomayor about the *Didden* case, but wasn’t satisfied with her answers. First, she inaccurately characterized the Supreme Court’s holding in *Kelo*. I was also troubled with her failure to understand that her decision expanded the ability of State, local, and Federal governments to seize private property under the Constitution. Further, she told me that she had to rule against Mr. Didden because he was late in filing his claim. Mr. Didden had 3 years to file his claim. He filed it January 2004, 2 months after he was approached with what he classified as an extortion offer. Judge Sotomayor told us that Mr. Didden should have filed his claim in July 2002, before he was extorted and before he knew the city was going to take his property in November 2003. This is simply not a believable outcome, especially in a one paragraph opinion, where it was never explained to Mr. Didden why the government could take his property. I specifically asked her how Mr. Didden could have filed his claim before he knew he had a claim. Judge Sotomayor did not answer this question directly, but the net

result is, as Professor Somin stated, property owners in this situation will never be able to have their day in court:

the panel's ruling that [the plaintiffs] were required to file their claims before their property was actually condemned creates a cruel Catch-22 dilemma . . . If [the plaintiffs] had filed a Takings Clause claim before their property was condemned, it would have been dismissed because it was not yet "ripe". . . It is surely both perverse and a violation of elementary principles of due process to rule that the government can immunize unconstitutional condemnations from legal challenge simply by crafty timing.

There might not be a decision more disturbing than Judge Sotomayor's summary dismissal in *Maloney v. Cuomo*. If this summary dismissal is allowed to stand, the right to bear arms as provided for in the second amendment will be eviscerated. Instead of carefully considering whether the *District of Columbia v. Heller* case properly left open the question of whether owning a gun is a fundamental right, Judge Sotomayor in one paragraph held that it is settled law that owning a firearm is not a fundamental right. The Supreme Court noted in *Heller* that it declined to address the issue of whether owning a firearm was a fundamental right. At the hearing, I was concerned with Judge Sotomayor's explanation of her holding that the second amendment is not "fundamental" and her refusal to affirm that Americans have a right of self-defense. In my mind, and I think anyone who reads the second amendment, when the Supreme Court does consider this issue, we will find that Judge Sotomayor was once again on the wrong side of an opinion.

So based on her answers at the hearing and her decisions, writings and speeches, I am not convinced that Judge Sotomayor has the right judicial philosophy for the Supreme Court. I am not convinced that she will be able to set aside her personal biases and prejudices and decide cases in an impartial manner based upon the Constitution. I am concerned about Judge Sotomayor's dismissive handling of claims raising fundamental constitutional rights—I am not convinced that she will protect those rights, nor am I convinced that she will refrain from creating new rights. For these reasons, I must vote against her nomination.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

The PRESIDING OFFICER. Under the previous order, the Senate stands adjourned until 9:30 a.m. tomorrow.

Thereupon, the Senate, at 9:56 p.m., adjourned until Wednesday, August 5, 2009, at 9:30 a.m.

NOMINATIONS

Executive nomination received by the Senate:

DEPARTMENT OF THE INTERIOR

MARCIA K. MCNUTT, OF CALIFORNIA, TO BE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, VICE MARK MYERS, RESIGNED.

CONFIRMATIONS

Executive nominations confirmed by the Senate, Tuesday, August 4, 2009:

DEPARTMENT OF STATE

PATRICIA A. BUTENIS, OF VIRGINIA, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF MIN-

ISTER-COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE DEMOCRATIC SOCIALIST REPUBLIC OF SRI LANKA, AND TO SERVE CONCURRENTLY AND WITHOUT ADDITIONAL COMPENSATION AS AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF MALDIVES.

CHARLES AARON RAY, OF MARYLAND, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF MINISTER-COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF ZIMBABWE.

GAYLEATHA BEATRICE BROWN, OF NEW JERSEY, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF MINISTER-COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO BURKINA FASO.

PAMELA JO HOWELL SLUTZ, OF TEXAS, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF MINISTER-COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF BURUNDI.

PATRICIA NEWTON MOLLER, OF ARKANSAS, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF MINISTER-COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF GUINEA.

JERRY P. LANIER, OF NORTH CAROLINA, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF UGANDA.

ALFONSO E. LENHARDT, OF NEW YORK, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE UNITED REPUBLIC OF TANZANIA.

SAMUEL LOUIS KAPLAN, OF MINNESOTA, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE KINGDOM OF MOROCCO.

JAMES B. SMITH, OF NEW HAMPSHIRE, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE KINGDOM OF SAUDI ARABIA.

MIGUEL HUMBERTO DIAZ, OF MINNESOTA, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE HOLY SEE.

FAY HARTOG-LEVIN, OF ILLINOIS, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE KINGDOM OF THE NETHERLANDS.

STEPHEN J. RAPP, OF IOWA, TO BE AMBASSADOR AT LARGE FOR WAR CRIMES ISSUES.

The above nominations were approved subject to the nominees' commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

SENATE—Wednesday, August 5, 2009

The Senate met at 9:30 a.m. and was called to order by the Honorable TOM UDALL, a Senator from the State of New Mexico.

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Almighty God, holy, powerful, loving, good, thank You for expressing Your love to us with generous gifts. We are grateful for the gift of Your mercy, which delivers those bruised and battered by life. Thank You also for the peaceful satisfaction You give us as we strive to do Your will. Lord, You have sustained our families and loved ones and nourished us with the blessings of faithful friends. You also have honored us with the privilege of being called your children. You have showered our land from Your bounty with freedom, justice, strength, and resilience.

Thank You for our lawmakers, who work to keep America strong, and for our military men and women and their families, who daily sacrifice to keep us free. Lord of hosts, we lift to You this day our gratitude and praise. Amen.

PLEDGE OF ALLEGIANCE

The Honorable TOM UDALL led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, August 5, 2009.

To the Senate:

Under the provisions of rule I, Section 3, of the Standing Rules of the Senate, I hereby appoint the Honorable TOM UDALL, a Senator from the State of New Mexico, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. UDALL thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, following leader remarks, there will be a period of morning business until 10 a.m., with Senators permitted to speak therein for up to 10 minutes each.

Following that morning business, the Senate will resume consideration of the nomination of Sonia Sotomayor to be an Associate Justice of the Supreme Court of the United States. Debate will be controlled at alternating times, with the majority controlling the first hour, starting at 11 o'clock, and the time between 2 and 3 p.m. will be equally divided and controlled, with the majority controlling the first 30 minutes and the Republicans controlling the final 30 minutes.

Because of the special caucus the Democrats are having, we will be in recess from 3 until 5 p.m. When the Senate reconvenes, the Senate will resume the 1-hour alternating blocks of time, with the Republicans controlling the first hour.

In addition to the Supreme Court nomination that we need to deal with, there are two major items we need to complete before we leave for the August recess. First, we have to have some way of moving forward on the travel promotion and on the cash for clunkers. If we don't work something out on cash for clunkers, I will file a cloture motion this evening, which means we will have to have a cloture vote on Friday. If people want to use the 30 hours, it goes over until Saturday. I don't think that is the case. I have had a number of very good conversations with the Republican leader, and we all acknowledge that a significant majority want to move forward with this legislation that has resulted in the sales, in a period of days, of almost 300,000 vehicles. For us, the taxpayers, it creates jobs, helps our manufacturing base and helps the taxpayers, in effect, who loaned money to these two manufacturers. This will help them repay that money. It has been stimulative, and we recognize that.

That having been said, some people still don't like the program. So we have to figure a way to move through that. It is my understanding that the Democrats have one amendment. I have explained it to the Republicans. The Republicans have a long list of amendments. They are going to have to whittle that down to a reasonable number so we can deal with them soon. I hope we can work something out so that we can meet our responsibilities.

We also have a number of nominations that have been held up as a result of the Supreme Court nomination. We

hope all of that can be taken care of as soon as she is confirmed.

MEASURE PLACED ON CALENDAR—S. 1572

Mr. REID. Mr. President, I am told that S. 1572 is due for a second reading and is now at the desk.

The ACTING PRESIDENT pro tempore. The majority leader is correct.

The clerk will read the bill for the second time.

The legislative clerk read as follows:

A bill (S. 1572) to provide for a point of order against any legislation that eliminates or reduces the ability of Americans to keep their health plan or their choice of doctor or that decreases the number of Americans enrolled in private health insurance, while increasing the number of Americans enrolled in government-managed health care.

Mr. REID. Mr. President, I object to further proceedings with respect to this legislation.

The ACTING PRESIDENT pro tempore. Objection is heard. The bill will be placed on the calendar.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will now proceed to a period of morning business until 10 a.m., with Senators permitted to speak therein for up to 10 minutes each.

The Senator from Florida is recognized.

SEARCH FOR CAPTAIN SCOTT SPEICHER

Mr. NELSON of Florida. Mr. President, I want to call to the attention of the Senate, and thank the Pentagon for its dogged pursuit in finding the evidence of CPT Scott Speicher, U.S. Navy, the pilot of the F-18 Hornet who was shot down on the first night of the gulf war back in 1991.

This saga has evolved over the last 18 years. The Pentagon became lax in the 1990s and did not pursue the finding of evidence, and there were all kinds of reports that Captain Speicher may have been alive and held in a prison. You can imagine the trauma, the emotional ups and downs, that occurred to the family, which included the children who were quite young at the time and are now at the age that they are in college. Fortunately, the Pentagon, about

8 or 9 years ago, got serious about the search. When we invaded Iraq in 2003, they even created a search team. Again, there were all of these false leads that there had been the sighting of a pilot. An Iraqi refugee said he saw an American pilot in a prison. It went on and on.

Of course, the hopes of the family were that CPT Scott Speicher was going to be found alive.

Our Pentagon even went so far—and I commend them—that one of the first sets of questions on the debriefing of any Iraqi detainee—and especially the high-value detainees—the question would be asked, “Do you know about an American pilot?” All of these leads turned out to be false or they led to nothing. So it was that we expected that what would happen to find the final evidence would be a Bedouin tribe that would have been in the area of the Iraqi desert at the time Captain Speicher punched out, or ejected, from his jet that was hit.

The irony was that Scott was not even supposed to fly that first attack wave, but another member of the squadron got sick and he filled in. Either he was hit with a ground-to-air missile or somehow in the aerial combat of the darkness of that night, and he ejected from his airplane. The rest has been a mystery until a Bedouin, thought to have been a younger child at the time, in 1991, remembered a pilot being buried. He could not identify the location, but knew of another Bedouin who was an adult at the time, and that Bedouin ultimately led the marines to the site and an extensive investigation and excavation that occurred on the Iraqi desert floor.

So all who have participated—the Army Reserve, Major Eames, who led the Scott Speicher search party, and who extended his duty voluntarily for an additional 6 weeks way back in 2003, because he was absolutely intent that he was going to find this downed pilot. For all of those, including the Chairman of the Joint Chiefs and the CNO, who have now brought this to closure, because last weekend they found the remains of Captain Speicher, with a positive identification through one of his jawbones with his military dental records, to be confirmed even further by DNA evidence. We know now that Captain Speicher can be brought home and his family can have final closure.

I will conclude by saying that a mistake was made that we never want to repeat. Because of him being mistakenly declared dead at a press conference the next morning after that first night attack in the first gulf war—he was mistakenly declared dead by the Secretary of Defense—we did not send a search and rescue mission. Every military pilot has to have the security of knowing that if he has to eject, a search and rescue mission is coming after him. That is the mistake we will not make again.

For the family, and on behalf of them, I want to say to the Pentagon and to the other Senators who have participated in this 18-year quest on behalf of Scott's family in Florida, thank you from the bottom of their hearts.

Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Illinois is recognized.

BANKRUPTCY REFORM

Mr. DURBIN. Mr. President, if you look at the root cause of our economic crisis today, most people would agree that it started in the housing industry. People across America signed up for these new mortgages—adjustable rate mortgages—with terms that some people had never seen before. Sometimes they were terms that turned out to be unrealistic for the person's income and the value of the property; and at the end of a reset period, what was an affordable mortgage became unaffordable. People were then faced with the grim reality that they could not stay in their homes.

Some of the folks who entered into these mortgages signed up for bad mortgages. Others were misled into them. Some signed up for a mortgage and lost their jobs. The net result of it, though, was that we saw foreclosures across America in record numbers.

About 2 years ago, I started a legislative effort to change the Bankruptcy Code. The Bankruptcy Code is a set of laws for those who declare bankruptcy, and those who go into it try to restructure their debts and emerge from bankruptcy in a solid financial position.

When they go to court, virtually any secured asset, that is, a debt which has a security of the thing that is borrowed against, can be restructured by the court. If it is a vacation home, a mortgage on a vacation home, a mortgage on a ranch or a farm, a secured debt on a boat, a car—things such as these can be restructured by the court to try to come down to terms that are affordable based on the reality of the income of the person filing bankruptcy. There is one exception to this: the court cannot restructure the mortgage on a primary residence. Of all of the things we own, maybe the most important thing is our home, and the law specifically precludes the bankruptcy court from restructuring the mortgage. So, facing bankruptcy, you go in with your mortgage in foreclosure, and the court says: There is nothing we can do. We might be able to do something about your vacation home, your farm, or your ranch, but nothing about your home. So people end up having their homes foreclosed upon.

It struck me that we needed to change this because there was a time when people would borrow money for their home, take out a mortgage from

a bank down the street, from a banker they knew, and they would make their payments to that bank. That world changed when banks started selling the paper off to other banks and institutions, and then it went wild. It went beyond another bank or institution into groups of investors who bought a piece of a share of your mortgage. Someone may have bought an interest in the interest payments you were going to make in the fifth year of your mortgage. So what started off as a bank down the street that you knew personally at a closing turned out to be a group of financial institutions you didn't even know and never heard of and may never, ever learn the identity of. So when time came for foreclosure, you had to herd in all of these financial cats and try to get everyone to agree with what would happen next, and it became impossible.

Well, my idea 2 years ago was to change the Bankruptcy Code to allow the bankruptcy court to restructure and rewrite the mortgage terms so that a person could stay in their home just as they could continue to own a vacation home. It seemed to me a modest suggestion but one of value because it gave the court a voice in saying to all of these different lenders that had a piece of your mortgage: You all better come together and gather around the table because we are going to make a decision in this court, and you just can't ignore it.

I introduced this almost 2 years ago. It had staunch opposition from the banking industry. They did not want to give that power to the bankruptcy court, and they said: You anticipate only 2 million foreclosures in America, so we don't see the need for a change in the Bankruptcy Code.

Really? A recent study by the Boston Federal Reserve found that, in 2007 and 2008, just 3 percent of homeowners at risk of foreclosure received modifications that reduced their monthly payments. Just 3 percent of troubled homeowners received any real help.

Another study found that more mortgage modifications increased the mortgage balance than decreased the balance.

I called the bill on the floor, and I lost. Well, today, we are facing over 9 million foreclosures in bankruptcy. The banking industry is still vehemently opposed to any type of change in the bankruptcy law, and when it comes to foreclosures in America, the situation is going from bad to worse.

This morning's New York Times business section has a headline: “U.S. Effort Aids Only 9 Percent of Eligible Homeowners.” The article is about the voluntary efforts of mortgagors to renegotiate the terms of mortgages for people facing foreclosure. If a person is facing foreclosure because of a reset in mortgage terms and the foreclosure goes through, it is a disastrous result

for the family—they lose their home; it is a disastrous result for the neighborhood because every time a home goes into foreclosure, the neighbors' home values go down—this year alone, foreclosures will drain more than \$500 billion from neighboring home values; and it is a disastrous result for the bank. Banks don't win in foreclosure. I have heard estimates that they lose up to \$50,000 for every foreclosure. So it would seem to me that the avoidance of foreclosure is a good thing for everyone involved: the homeowner, other people who own property in the neighborhood, as well as the bank. Yet it turns out that when we turn to the banks and say: So do something about it voluntarily, their response to it is meager and disappointing.

The Treasury Department said on Tuesday that only a small number of homeowners—235,247, or 9 percent of those eligible—had been helped by the latest government program created to modify home loans and prevent foreclosures. A report released by Treasury officials identified lenders who had made slow progress in offering more affordable mortgages, naming Bank of America and Wells Fargo as among those failing to reach large numbers of eligible borrowers. While 15 percent of eligible homeowners have been offered help through the mortgage modification program, the low rate of actual mortgage reductions has frustrated administration officials.

In a hearing two weeks ago in the Senate Judiciary Committee, we heard testimony from the National Consumer Law Center that I found troubling. Housing counselors from all over the country have told stories of violations of the Administration plan by the servicers. Homeowners have been asked to pay fees to apply for a trial modification and to waive their legal rights. Servicers have told homeowners that homeowners need to skip payments to become eligible, which puts them even farther behind. Servicers have refused to offer eligible homeowners a modification, and have offered modifications that do not comply with the program guidelines—and that is for the homeowners lucky enough to get someone at the servicers' call centers to answer the phone. Worst of all, servicers continue to pursue foreclosures even as they are supposedly working with homeowners on a mortgage modification.

This has to end. Whether the bankers and mortgage servicers are failing because of intransigence or incompetence doesn't matter. Our economy is hanging in the balance. They have to do much better.

The Times article goes on to note that some banks have done better than others. Where Bank of America has modified only 4 percent of eligible mortgages and Wells Fargo, 6 percent, CitiMortgage, a unit of Citigroup, fared

better at 15 percent, and JPMorgan Chase is among the most successful, modifying loans for 20 percent of eligible borrowers.

In the previous administration, the Secretary of the Treasury, Hank Paulson, called me and told me what they were going to do to try to rescue the banks.

I said: Hank, you have to get to the heart of this. It is the foreclosure crisis. What are you going to do about the people losing their homes?

He said that they were not going to do anything except a voluntary program.

The voluntary program of the Bush administration didn't work and now the voluntary program of this administration is not working. There are not enough people who are facing foreclosure who realistically have an option of renegotiating the terms of their mortgages.

I credit President Bush and President Obama with offering the opportunity to lead to the industry. Frankly, they have failed. A few of these banks have done reasonably well, if you consider 20 percent of those eligible being offered mortgage modification something to brag about, but others are terrible.

So yesterday I along with Senator REED and Senator WHITEHOUSE sent a letter to the heads of the 38 banks and mortgage service companies that have signed up for the Administration's Home Affordable Modification Program. We are asking them a series of pointed questions that will help us understand what each servicer is doing to help homeowners avoid preventable foreclosures.

Most importantly, I am asking the servicers to make a commitment that they will avoid scheduling a foreclosure on any homeowner who is actively working in good faith to work out a loan modification that is fair, reasonable, and sustainable.

Let me mention one other element that should be noted here. Two weeks ago in Chicago, a group known as NACA—I believe that stands for the Neighborhood Assistance Corporation of America—held an opportunity at McCormick Place for those facing foreclosure to come in and try to work out new mortgage terms. I was at another meeting, they invited me to come over, and I was stunned as I walked into this huge hall filled with literally thousands of people on a Saturday morning, thousands of people facing mortgage foreclosure. On one side of the room sat a large group, about 1,000 people, and they were from Hispanic families; on the other side of the room, another 1,000 people, by and large African American, with others—Asians, Whites, and others, but primarily African American.

It is clear to me, as you look at the nature of the foreclosure crisis, that many people in lower income and mid-

dle-income categories, particularly those who have been the targets of predators in the past, who were preyed upon with these mortgages and now face foreclosure, are also people who are most likely to lose their jobs. They are in marginal employment, and a slowing economy is going to hurt them first, which goes to my point: Not enough is being done. For those who are still working and have a chance to pay on their mortgage, these banks should be stepping up, showing a lot more commitment to renegotiating the terms of their mortgage than they currently are.

When I offered this change in the Bankruptcy Code to try to move this process forward, the banking associations—all of them—opposed it. Only one bank, Citigroup, supported my efforts.

In fact, an interesting thing is that at one point in the negotiations, we said to the independent community bankers, the hometown bankers we all know: We will exempt you. Because you have such a small part of this problem portfolio, we will exempt you and just go after the large banks that are responsible for this.

The so-called independent community banks said: No, we don't want any part of it. We are going to stick with our friends, the large banks.

That leads me to conclude that the independent community banks should drop the word "independent" from their title. They are now part of the larger bank operation when it comes to dealing with this foreclosure crisis.

Much the same can be said for credit unions. Given an opportunity to avoid being even part of this change in bankruptcy modifications, they refused to support us as well.

So the entire financial industry has stood back and said: We are not going to support—with the exception of Citigroup—any change in the Bankruptcy Code, and quite honestly, we are not going to do much when it comes to renegotiating the mortgages.

I don't think this economy is going to get well until we deal with this issue. I can take you to neighborhoods in Chicago and surrounding communities and tell you that they are flat on their backs because of mortgage foreclosures. It is very difficult, if not impossible, for these communities to come back, these neighborhoods to come back.

There are things we need to do.

First, Congress should consider passing legislation to give homeowners who can't afford their mortgage payments the right to remain in their homes for a period of time by paying fair market rent to a bank. Why not let a family stay in a home rather than let it get run down and become a haven for criminal activities and other things when it is vacant? It is certainly no good assignment for a bank to be told:

You now have a foreclosed home, cut the grass and take care of the weeds and put plywood on the windows and try to keep the bad guys out. That is what most of them face.

Second, Congress should consider providing matching funds for cities and States to create mandatory arbitration programs. They have done it in Philadelphia with some success; we ought to do it here and across the Nation so that we move this toward arbitration, negotiation, and agreements for new modifications on mortgages.

Third, if these servicers of mortgages, some of which have taken billions of dollars in taxpayer bailouts, refuse to meet the foreclosure reduction standards and goals they have signed up for under this administration, they should be facing penalties. We gave them taxpayers' money to save the banks. Some of them used it for bonuses for their employees, and now they won't turn around and give a helping hand to people who are about to lose their homes? I am sorry, but if there is any justice in America, that has to change.

Will I come back with bankruptcy modification? Well, let's see what happens in the next few months. I want to be able to come to my colleagues in the next 2 or 3 months and say: Alright, whether you support or oppose bankruptcy changes, when it comes to these mortgage modifications, let's be honest about where we are today and where we need to go. That is absolutely essential.

So I hope this situation starts to resolve itself. I hope some of these banks that hold these mortgages get serious about helping people facing foreclosure. It is the only way we are going to stabilize this economy and get it moving forward.

I might add, the blip in the housing market we saw just a few weeks ago is likely just that. There had been a temporary moratorium on many mortgage foreclosures, leading many people to believe there was a turnaround in the housing industry. But a new wave of mortgage resets is coming. This time it's the so-called "option ARMs" or "pick-a-payment" adjustable rate mortgages.

These are the ultimate exploding mortgages. They gave homebuyers the option of not even covering the interest some months, but after two or three years, the monthly mortgage payment can skyrocket, often by 50 percent or more. An estimated 2.8 million option ARMs are scheduled to reset over the next 2½ years.

So I am looking for a turnaround in the housing industry. I don't think we have quite seen it yet. I hope it comes soon.

Mr. LEAHY. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEAHY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

EXECUTIVE SESSION

NOMINATION OF SONIA SOTOMAYOR TO BE AN ASSOCIATE JUSTICE OF THE SUPREME COURT OF THE UNITED STATES

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to executive session to consider the following nomination, which the clerk will report.

The assistant legislative clerk read the nomination of Sonia Sotomayor, of New York, to be an Associate Justice of the Supreme Court of the United States.

The ACTING PRESIDENT pro tempore. Under the previous order, the time until 2 p.m. will be equally divided in 1-hour alternating blocks of time, with the majority controlling the first hour.

The Senator from Vermont is recognized.

Mr. LEAHY. Mr. President, we began debate yesterday on this historic nomination of Judge Sonia Sotomayor to the Supreme Court. Senator REID, Senator FEINSTEIN, Senator MENENDEZ, Senator WHITEHOUSE, and Senator BROWN gave powerful statements—powerful statements—in support of Judge Sotomayor's long record, a record that makes her a highly qualified nominee and a record that brought about her receiving the highest qualification possible from the American Bar Association. I thank those Senators for their statements.

In the course of my opening statement yesterday, I spoke about the value of real-world judging. Among the cases I discussed were two involving the strip searches of adolescent girls. I spoke about how Judge Sotomayor and Justice Ginsburg properly—properly—approached those decisions in their respective courts.

Judge Sotomayor is certainly not the first nominee to discuss how her background has shaped her character. Many recent Justices have spoken of their life experiences as an influential factor in how they approach cases. Justice Alito, at his confirmation hearings, described his experience as growing up as a child of Italian immigrants saying:

When I get a case about discrimination, I have to think about people in my own family who suffered discrimination because of their ethnic background or because of religion or because of gender. And I do take that into account.

He was praised by every single Republican in the Senate for that.

Chief Justice Roberts testified at his confirmation hearing:

Of course, we all bring our life experiences to the bench.

Again, every single Republican voted for him.

Justice O'Connor echoed these statements when she said recently:

We're all creatures of our upbringing. We bring whatever we are as people to a job like the Supreme Court. We have our life experiences . . . So that made me a little more pragmatic than some other justices. I liked to find solutions that would work.

Justice O'Connor explained recently:

You do have to have an understanding of how some rule you make will apply to people in the real world. I think that there should be an awareness of the real-world consequences of the principles of the law you apply.

Just as all Democrats voted for Justice O'Connor, so did all Republicans.

I recall another Supreme Court nominee who spoke during his confirmation hearing of his personal struggle to overcome obstacles. He made a point of describing his life as:

One that required me to at some point touch on virtually every aspect, every level of our country, from people who couldn't read or write to people who were extremely literate, from people who had no money to people who were very wealthy.

And added:

So what I bring to this Court, I believe, is an understanding and the ability to stand in the shoes of other people across a broad spectrum of this country.

That is the definition of empathy. That nominee, of course, was Clarence Thomas. Indeed, when President George H.W. Bush nominated Justice Thomas to the Supreme Court, he touted him as:

A delightful and warm, intelligent person who has great empathy and a wonderful sense of humor.

Let me cite one example of a decision by Justice Thomas that I expect was informed by his experience. In *Virginia v. Black*, the Supreme Court, in 2003, held that Virginia's statute against cross burning, done with an attempt to intimidate, was constitutional. However, at the same time, the Court's decision also rejected another provision in that statute. Justice Thomas wrote a heartfelt opinion, where he stated he would have gone even further.

He began his opinion:

In every culture, certain things acquire meaning well beyond what outsiders can comprehend. That goes for both the sacred . . . and the profane. I believe that cross burning is the paradigmatic example of the latter.

He went on to describe the Ku Klux Klan as a "terrorist organization,"

while discussing the history of cross burning, particularly in Virginia, and the brutalization of racial minorities and others through terror and lawlessness. Would anyone deny Justice Thomas his standing or seek to belittle his perspective on these matters? I trust not. Who would call him biased or attack him as Judge Sotomayor is now being attacked? I trust no one would. Real-world experience, real-world judging, and awareness of the real-world consequences of decisions are vital aspects of the law. Here we have a nominee who has had more experience as a Federal judge than any nominee in decades and will be the only member of the U.S. Supreme Court with experience as a trial judge.

I look forward to this debate. One of the Judiciary Committee's newest members is now on the floor, Senator KLOBUCHAR, the senior Senator from Minnesota. She has been a leader in support of this nomination. I see beside her the former Governor of my neighboring State of New Hampshire, then-Governor Shaheen, now Senator SHAHEEN. Both of them are going to speak, so I will take no more time.

I yield the floor, first, to Senator KLOBUCHAR.

The ACTING PRESIDENT pro tempore. The Senator from Minnesota is recognized.

Ms. KLOBUCHAR. Mr. President, I thank the chairman. I thank him for those strong remarks on behalf of Judge Sotomayor, strong remarks for a very strong nominee.

More importantly, as chairman of the Senate Judiciary Committee, I thank Senator LEAHY, and Senator SESSIONS, for the way they conducted the confirmation hearing, the dignity that was shown to the nominee in that hearing. I think that was very important to the process. We may not have agreed with the conclusions that some of our colleagues reached, but no one can dispute the hearing was conducted civilly and with great dignity. This is a nominee who shows great dignity every step of the way.

Today I will be speaking in support of Judge Sotomayor's nomination, but first I am going to be joined by several of my esteemed fellow women Senators, including Senator SHAHEEN of New Hampshire, who is here already, Senator STABENOW of Michigan, Senator GILLIBRAND of New York, and Senator MURRAY of Washington State.

We all know this nomination is history making for several reasons but one of them, of course, is that Judge Sotomayor will be only the third woman ever to join the Supreme Court of the United States of America.

We know she is incredibly well qualified. She has more Federal judicial experience than any nominee for the past 100 years. That is something that is remarkable. But I do think it is worth remembering what it was like to be a

nominee for this Court as a woman even just a few years ago.

It is worth remembering, for example, that when Justice O'Connor graduated from law school, the only offers she got from law firms, after graduating from Stanford Law School, was for legal secretary positions. Justice O'Connor, who graduated third in her class in law school, saw her accomplishments reduced to one question: Can she type?

Justice Ginsburg faced similar obstacles. When she entered Harvard Law School, she was 1 of only 9 women in a class of more than 500. The dean of the law school actually demanded she justify why she deserved a seat that could have gone to a man. Later, she was passed over for a prestigious clerkship, despite her impressive credentials.

Nonetheless, both of these women persevered and they certainly prevailed. Their undeniable merits triumphed over those who sought to deny them opportunity. The women who came before Judge Sotomayor—all those women judges—helped blaze a trail. Although Judge Sotomayor's record stands on her own, she is also standing on those women's shoulders.

I am pleased to recognize several women Senators who are here today to speak in support of Judge Sotomayor. The first is my great colleague from New Hampshire, Senator SHAHEEN.

The ACTING PRESIDENT pro tempore. The Senator from New Hampshire is recognized.

Mrs. SHAHEEN. Mr. President, I am delighted to be here to join the senior Senator from Minnesota, Ms. KLOBUCHAR, and to speak also after the senior Senator from Vermont, my neighbor, Senator LEAHY, in support of Sonia Sotomayor.

This week, we have the opportunity to make history by confirming the first Hispanic and only the third woman to the U.S. Supreme Court. Senator KLOBUCHAR spoke eloquently about the challenges women have faced, and I am pleased to say I had the honor as Governor of appointing the first woman to the New Hampshire Supreme Court.

I come to the floor to speak in support of Sonia Sotomayor's nomination; however, not because of the historic nature of that nomination but because she is more than qualified to sit on the Supreme Court. I am somewhat perplexed by why the vote on her nomination will not be unanimous.

Judge Sotomayor is immensely qualified. The nonpartisan American Bar Association Standing Committee on the Federal Judiciary, which has evaluated the professional qualifications of nominees to the Federal bench since 1948, unanimously—rated Judge Sotomayor as “well qualified” to be a Supreme Court Justice after carefully considering her integrity, professional competence, and judicial temperament.

Her decisions as a member of the Second Circuit Court of Appeals are well within the judicial mainstream of our country. A Congressional Research Service analysis on her opinions concluded she eludes easy ideological categorization and demonstrates an adherence to judicial precedent, an emphasis on facts to a case, and an avoidance of overstepping the circuit court's judicial role. Described as a political centrist by the nonpartisan American Bar Association Journal, she has been nominated to the Federal courts by Presidents of both political parties.

When President George H.W. Bush, in 1992, nominated Sonia Sotomayor to the U.S. District Court for the Southern District of New York, this Senate approved her nomination by unanimous consent. When President Clinton, in 1998, nominated her to the Second Circuit Court of Appeals, this Senate voted 67 to 29 to confirm her on an overwhelmingly bipartisan vote.

Her now-familiar personal story is no less impressive. The confirmation of Judge Sonia Sotomayor to the highest Court of our country will inspire girls and young women everywhere to work hard and to set their dreams high.

Americans look to lawmakers to work together to make the country stronger. They expect us to put partisanship aside to advance the interests of the American people. If there is one issue we should be able to come together on, to put aside our differences on, it is the confirmation of Judge Sonia Sotomayor to the U.S. Supreme Court.

I look forward to having the opportunity to vote in support of her confirmation with the majority of my colleagues.

I thank Senator KLOBUCHAR. I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Minnesota is recognized.

Ms. KLOBUCHAR. Mr. President, having looked at Judge Sotomayor's whole record, as Senator SHAHEEN has pointed out, her 17 years on the bench and the fairness and integrity she will bring to the job, I am proud to support her nomination.

When Judge Sotomayor's nomination was first announced, I was impressed by her life story, as was everyone else, which all of us know well by now. She grew up, in her own words, “in modest and challenging circumstances,” and she worked hard for everything she got.

Her dad died when she was 9 years old, and her mom supported her and her brother. One of my favorite images, as a member of the Judiciary Committee, from the hearing was her mother sitting behind her every moment of that hearing, never leaving her side, the mother who raised her on a nurse's salary, who saved every penny she had to buy an Encyclopedia Britannica for

her family. That struck me because I know in our family we also had a set of Encyclopedia Britannica that had a hallowed place in our hallway, and that is what I used to write all my reports.

Judge Sotomayor went on to graduate from Princeton summa cum laude and Phi Beta Kappa before graduating from Yale Law School.

Since law school, she has had a varied and interesting legal career. She has worked as a private civil litigator, she has been a district court and an appellate court judge, and she has taught law school classes.

But one experience of hers, in particular, resonates with me. Immediately after graduating from law school, she spent 5 years as a prosecutor at the Manhattan District Attorney's Office.

I want to talk a little about that because it is something she and I have in common. I was a prosecutor myself, Mr. President. You know what that is like, to have that duty. I was a prosecutor for Minnesota's largest county. As a prosecutor, after you have interacted with victims of crime, after you have seen the damage that crime does to individuals and to our communities, after you have seen defendants who are going to prison and you know their families are losing them, sometimes forever, you know the law is not just an abstract subject. It is not just a dusty book in the basement. The law has a real impact on the real lives of real people.

It also has a big impact on the individual prosecutor. No matter how many years may pass, you never forget some of the very difficult cases. For Judge Sotomayor, we know this includes the case of the serial burglar turned killer—the Tarzan murderer. For me, there was always the case of Tyesha Edwards, an 11-year-old girl with an unforgettable smile, who was at home doing her homework when a stray bullet from a gang shooting went through the window and killed her.

As a prosecutor, you don't have to just know the law, you have to know the people, the families, and you have to know human nature.

Judge Sotomayor's former supervisor said she is "an imposing and commanding figure in the courtroom, who could weave together a complex set of facts, enforce the law, and never lose sight of whom she was fighting for."

As her old boss, Manhattan District Attorney Robert Morgenthau said: She is a "fearless and effective" prosecutor.

Mr. President, before I turn this over to my colleague, the Senator from Michigan, who has just arrived, I thought it would be interesting for people to hear a little more about Judge Sotomayor's experience as a prosecutor, so you can hear firsthand from her own colleagues.

This was a letter that was sent in from dozens of her colleagues who ac-

tually worked with her when she was a prosecutor. They were not her bosses necessarily but her colleagues who worked with her. This is what they said in the letter.

We served together during some of the most difficult years in our city's history. Crime was soaring, a general sense of disorder prevailed in the streets, and the popular attitude was increasing violence was inevitable. Sonia Sotomayor began as a "rookie" in 1979, working long hours prosecuting an enormous caseload of misdemeanors before judges managing overwhelming dockets. Sonia so distinguished herself in this challenging assignment, that she was among the very first in her starting class to be selected to handle felonies. She prosecuted a wide variety of felony cases, including serving as co-counsel at a notorious murder trial. She developed a specialty in the investigation and prosecution of child pornography cases. Throughout all of this, she impressed us as one who was singularly determined in fighting crime and violence. For Sonia, service as a prosecutor was a way to bring order to the streets of a city she dearly loves.

Her colleagues go on in this letter:

We are proud to have served with Sonia Sotomayor. She solemnly adheres to the rule of law and believes that it should be applied equally and fairly to all Americans. As a group, we have different world views and political affiliations, but our support for Sonia is entirely nonpartisan. And the fact that so many of us have remained friends with Sonia over three decades speaks well, we think, of her warmth and collegiality.

Mr. President, I see that my colleague from Michigan has arrived. I will continue my statement when she has completed hers, but I am proud to have Senator STABENOW, the Senator from Michigan, here to speak on behalf of Judge Sotomayor, and I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Michigan is recognized.

Ms. STABENOW. Mr. President, first I am so pleased to be here with the senior Senator from Minnesota, and I have appreciated her wonderful words about Judge Sotomayor, as well as her advocacy on behalf of Minnesota. We have a lot in common, Minnesota and Michigan, and so it is always a pleasure to be with the Senator from Minnesota.

I rise today to strongly support the confirmation of Judge Sonia Sotomayor as the next Justice of the Supreme Court. Over 230 years ago, Alexander Hamilton called experience "that best oracle of wisdom." His words continue to ring true today. Judge Sotomayor has over 17 years of experience on the Federal bench. She will be the most experienced Supreme Court Justice in over 100 years—a lifetime.

But it isn't just her years of experience that will make her a great Justice. It will be the experience of a uniquely American life—the American dream. She was raised in a South Bronx housing project where her family instilled in her values of hard work and sacrifice. At the age of 9, her fa-

ther—a tool-and-die worker—died tragically. After that, her mother—a nurse—raised her the best she could. I would say she did a pretty good job.

Her mom urged her to pay attention in school. She pushed Sonia to work hard and to get good grades, which she did. She studied hard and graduated at the top of her class in high school. It was through education that doors opened for Judge Sotomayor, as they have opened for millions of other Americans.

After law school, she went to work as an assistant district attorney in New York, prosecuting crimes such as murders and robberies and child abuse. She later went into private practice as a civil litigator, working in parts of the law related to real estate, employment, banking, and contract law.

In 1992, she was nominated by President George H.W. Bush and confirmed by the Senate unanimously to serve as a district court judge. She performed admirably, and President Clinton—having been nominated first by a Republican and then again by a Democrat—elevated her to the Second Circuit Court of Appeals.

It is in part due to this enormous breadth of experience as a prosecutor, a lawyer in private practice, as a trial judge, and as an appeals court judge that the American Bar Association has given her their highest rating of "well qualified."

Judge Sotomayor's story is the American story—that a young person born into poverty can work hard, take advantage of opportunities, and then succeed brilliantly and rise to the very top of their profession. Judge Sotomayor is really an inspiration to all of us. She is a role model for millions of young people of every race, class, creed, and background living in America today.

Last November, we demonstrated that every child in America really can grow up to be President of the United States. Judge Sotomayor proves that with hard work and dedication they can be a Supreme Court Justice too.

Mr. President, I strongly urge my colleagues to vote to confirm Judge Sotomayor.

The ACTING PRESIDENT pro tempore. The Senator from Minnesota is recognized.

Ms. KLOBUCHAR. Mr. President, I thank the Senator from Michigan for her strong words in favor of this very strong nominee.

I was talking earlier about the experience that Judge Sotomayor brings to the bench as a prosecutor. For me, it means she meets one of my criteria for a nominee because I am looking for someone who deeply appreciates the power and the impact that laws and the criminal justice system have on real people's lives. From her first day in the Manhattan DA's office, Judge Sotomayor talked about and understood how it was important to view the

law as about people and not just the law.

But when you talk about people, it means you have to look at their cases, it means you have to look at the law, and you have to look at the facts. One of the things we learned in the hearings was that sometimes Judge Sotomayor had to make very difficult decisions. When she was a prosecutor, she had to turn down some cases. Although she was, by all accounts, more aggressive than other prosecutors and took on cases many wouldn't, when she was a judge she sometimes had to turn down cases, turn away victims, as in the case involving the crash of the TWA flight. She actually disagreed with a number of other judges and said as much as she found the victims' families and their case to be incredibly sympathetic, the law took her somewhere else; that the facts and the law meant something else.

You could see that in a number of her cases, which is part of the reason people who have looked at her record don't think of her as a judicial activist. They think of her as a judicial model—someone who, in her own words, has a fidelity to the law.

What are we looking for in a Supreme Court Justice? Well, I think actually one of Sonia Sotomayor's old bosses, Robert Morgenthau, said it best. He came and testified on her behalf, and he quoted himself from many years ago when speaking about what he was looking for when he tried to find prosecutors for his office. He said:

We want people with good judgment, because a lot of the job of a prosecutor is making decisions. I also want to see some signs of humility in anybody that I hire. We're giving young lawyers a lot of power, and we want to make sure that they're going to use that power with good sense and without arrogance.

These are among the very same qualities I look for in a Supreme Court Justice. I, too, am looking for a person with good judgment, someone with intellectual curiosity and independence but who also understands that her decisions affect the people before her.

With that, I think comes a second essential quality—the quality of humility. I am looking for a Justice who appreciates the awesome responsibility they will be given if confirmed, a Justice who understands the gravity of the office and who respects the very different roles the Constitution provides for each of the three branches of government—something Judge Sotomayor was questioned on extensively in the hearing and made very clear she respects those three different roles for the three different branches of government.

Finally, a good prosecutor knows their job is to enforce the law without fear or favor. Likewise, a Supreme Court Justice must interpret the laws without fear or favor. I am convinced that Judge Sotomayor meets all of these criteria.

She has been a judge for 17 years, 11 years as an appellate judge and 6 years as a trial judge. President George H.W. Bush gave her the first job she had as a Federal judge in the Southern District of New York. Her nomination to the Southern District was enthusiastically supported by both New York Senators—Democratic Senator Daniel Patrick Moynihan and Republican Senator Alfonse D'Amato. So she was first nominated by George H.W. Bush, supported by a Republican Senator, and as Senator SHAHEEN noted, confirmed unanimously by this Senate.

Judge Sotomayor, as I noted before, has more Federal judicial experience than any nominee in the past 100 years. I think the best way to tell what kind of a Justice she will be is to look at what kind of a judge she has been. One person who knows a little something about Sonia Sotomayor as a judge is Louie Freeh, the former Director of the FBI, who served as a judge with her before he was the Director of the FBI. He actually came—again, a Republican appointee—and testified for her at her hearing. He didn't just testify based on a review of her record, he testified based on his own personal experience. He was actually her mentor when she arrived as a new judge. I want to read from the letter he submitted to the Judiciary Committee.

Louis Freeh writes:

It is with tremendous pride in a former colleague that I write to recommend wholeheartedly that you confirm Sonia Sotomayor to be an Associate Justice of the Supreme Court. Judge Sotomayor has the extensive experience and the judicial qualities that make her eminently qualified for this ultimate honor and I look forward to watching her take her place on the Nation's highest court.

Freeh goes on to say:

I first met Judge Sotomayor in 1992 when she was appointed to the United States District Court for the Southern District of New York. As the newest judge in the storied Courthouse at Foley Square in lower Manhattan, we followed the tradition of having the newly-minted judge mentored by the last arriving member of the bench. Despite the questionable wisdom of this practice, I had the privilege of serving as Judge Sotomayor's point of contact for orientation and to help her get underway as she took on a full, complex civil and criminal case docket.

Into this very pressurized and unforgiving environment, where a new judge's every word, decision, writing and question is scrutinized and critiqued by one of the harshest, professional audiences imaginable, Judge Sotomayor quickly distinguished herself as a highly competent judge who was open-minded, well-prepared, properly demanding of the lawyers who came before her, fair, honest, diligent in following the law, and with that rare and invaluable combination of legal intellect and "street smarts."

Louis Freeh, a Republican-appointed judge, goes on to say:

To me, there is no better measure by which to evaluate a judge than the standards of the former Chief Judge of the U.S. District Court of Minnesota—

Mr. President, I like this part—

—and nationally renowned American jurist, Edward J. Devitt. A former Member of Congress and World War II Navy hero, Judge Devitt was appointed to the federal bench by President Eisenhower and became one of the country's leading trial judges and teacher of judges. A standard Jury Instruction textbook (Devitt and Blackmun) as well as the profession's most coveted award recognizing outstanding judges, the Devitt Award, bears his name.

I recently had the honor of participating in the dedication of a courtroom named for Judge Devitt. The judges and lawyers who spoke in tribute to Judge Devitt very ably and insightfully described the critical characteristics which define and predict great judges. But rather than discuss Judge Devitt's many decisions, particular rulings or the "sound bite" analyses which could have been parsed from the thousands of complex and fact specific cases which crossed his docket, they focused on those ultimately more profound and priceless judicial qualities.

He goes on to talk about those qualities of a good judge.

1. Judging takes more than mere intelligence;
2. Always take the bench prepared. . . .
3. Call them as you see them.

He then goes on to say:

Sonia Sotomayor would have gotten an "A plus" from the "Judge from Central Casting," as Judge Devitt was often called by his peers.

I think that says it all. You have Louis Freeh here testifying in behalf of Judge Sotomayor. As I read earlier, you have dozens of her former colleagues, Republicans, Democrats, Independents, writing about what kind of prosecutor she was. Every step of the way she impressed people.

I see we are now being joined by the Senator from New York, my distinguished colleague, who also will be speaking in favor of Judge Sotomayor.

Senator GILLIBRAND had the distinguished honor to introduce Judge Sotomayor when she so eloquently spoke at the hearing. I am very honored to have her join us here today.

I will turn this over to Senator GILLIBRAND.

Mrs. GILLIBRAND. Mr. President, I am grateful to the senior Senator from Minnesota for her kind words and thank her for her extraordinary advocacy on behalf of Judge Sonia Sotomayor. The Senator's words and real belief in her contribution is extremely important.

I thank the Senator.

I stand today to speak on behalf of Judge Sonia Sotomayor and lend my strong support to her nomination to the U.S. Supreme Court.

Judge Sotomayor will bring the wisdom of all her experiences to bear as she applies the rule of law, and will grace the Supreme Court with the intelligence, judgment, clarity of thought and determination of purpose that we have come to expect from all great Justices on the Court.

Much has been made of Judge Sotomayor's remarkable personal story. There has been great import afforded to the characterization of a "wise Latina." Clearly, the life lessons and experiences of Justices inform their decisions as has been noted during the confirmation process time and time again.

Justice Antonin Scalia discussed his being a racial minority, in his understanding of discrimination. Justice Clarence Thomas indicated that his exposure to all facets of society gave him the "ability to stand in the shoes of other people across a broad spectrum of this country."

Justice Samuel Alito described his parents growing up in poverty as a learning experience and his family's immigration to the United States as influencing his views on immigration and discrimination.

As Americans, we honor the diversity of our society. As our esteemed jurists have noted, the construct of the court is shaped by the diverse experiences and viewpoints of each of its Justices. However, Sonia Sotomayor's ethnicity or gender alone does not indicate what sort of Supreme Court Justice she will be. Rather, it is Judge Sotomayor's experience and record that more fully informs us.

The breadth and depth of Judge Sotomayor's experience makes her uniquely qualified for the Supreme Court. Her keen understanding of case law and the importance of precedent is derived from working in nearly every aspect of our legal system—as a prosecutor, corporate litigator, civil rights advocate, trial judge and appellate judge. With confirmation, Judge Sotomayor would bring to the Supreme Court more Federal judicial experience than any justice in 100 years and more overall judicial and more overall judicial experience than any justice in 70 years.

As a prosecutor, Judge Sotomayor fought the worst of society's ills—from murder to child pornography to drug trafficking. Judge Sotomayor's years as a corporate litigator exposed her to all facets of commercial law including, real estate, employment, banking, contracts and agency law. Her pro bono work on behalf of the Puerto Rican Legal Defense Fund demonstrates her commitment to our constitutional rights and the core value that equality is an inalienable American right.

On the U.S. District Court for the Southern District of New York, Judge Sotomayor presided over roughly 450 cases, earning a reputation as a tough, fair and thoughtful jurist.

As an appellate judge, Sonia Sotomayor has participated in over 3,000 panel decisions and authored roughly 400 published opinions. As evidence of the integrity of her decisions and adherence to precedence, only 7 cases were brought up for review by the

Supreme Court, of reversing only 3 of her authored opinions, 2 of which were closely divided.

In an analysis of her record, done by the Brennan Center for Justice, the numbers overwhelmingly indicate that Judge Sotomayor is solidly in the mainstream of the Second Circuit.

Judge Sotomayor has been in agreement with her colleagues more often than most—94 percent of her constitutional decisions have been unanimous.

She has voted with the majority in over 98 percent of constitutional cases.

When Judge Sotomayor has voted to hold a challenged governmental action unconstitutional, her decisions have been unanimous over 90 percent of the time.

Republican appointees have agreed with her decision to hold a challenged governmental action unconstitutional in nearly 90 percent of cases.

When she has voted to overrule a lower court or agency, her decisions have been unanimous over 93 percent of the time.

Republican appointees have agreed with Judge Sotomayor's decision to overrule a lower court decision in over 94 percent of cases.

Judge Sotomayor's record is a testament to her strict adherence to precedence—her unyielding belief in the rule of law and the Constitution. I strongly support Judge Sotomayor's nomination and firmly believe she will prove to be one of the finest justices in American history. I urge my fellow Senators to join me in voting for her confirmation.

The PRESIDING OFFICER (Mr. BENNETT). The Senator from Minnesota is recognized.

Ms. KLOBUCHAR. Mr. President, I thank the Senator from New York for her fine remarks. As she was talking, I was realizing she is a pioneer of sorts, being the first woman Senator from New York who took over as Senator having two very small children. I have seen them and they are small—babies—and she has been able to manage and do a fine job in her role of Senator while being a pioneer as a mother at the same time in the State of New York.

With that, it is a good segue to introduce my colleague from the State of Washington, PATTY MURRAY, one of the first women to serve in the Senate. I love her story because when Patty started running for office she was working on some school issues and she went to the legislature. One of the elected legislators actually said to her: How do you think you are ever going to get this done? You are nothing but a mom in tennis shoes.

She went on to wear those tennis shoes and wear them right to the floor of the Senate. I am proud to introduce to speak on behalf of Judge Sotomayor my colleague from the State of Washington, PATTY MURRAY.

Mrs. MURRAY. I thank the senior Senator from Minnesota for all her

work helping to move this very critical and important nomination through the Senate. I am here to join her in support of the nomination of Judge Sonia Sotomayor to the U.S. States Supreme Court.

The U.S. Supreme Court is the final arbiter of many our nation's most important disputes.

And as the Constitution provides for a lifetime appointment to the Court, a Supreme Court Justice has an opportunity to have a profound effect on the future of the law in America. That is why the Constitution directs that the Senate is responsible for providing advice and consent on judicial nominees.

Naturally, I take my responsibilities in the nomination and confirmation process very seriously.

But I take a special, personal interest in Supreme Court nominations.

It was watching Supreme Court confirmation hearings many years ago that inspired me to challenge the status quo and run for the Senate.

I was deeply frustrated by the confirmation hearings of then-nominee Clarence Thomas. I believed that average Americans did not have a voice in the process.

There were important questions—questions that needed to be answered—that were never even raised to the nominee.

So, I have worked for years to be a voice for those average Americans when it comes to judicial appointments—and make sure those questions are asked.

I have had the opportunity to meet in person with Judge Sotomayor and ask her the questions that will most affect all Americans, including working families in Washington State.

I have examined her personal and professional history, and studied her 17-year record on the Federal bench.

I have followed her progress through the Senate Judiciary Committee and watched her answer a number of difficult questions.

And with all of this information and her answers in mind, I am pleased to support her nomination.

By now, many Americans have heard the remarkable life story of Judge Sonia Sotomayor. Judge Sotomayor is truly the embodiment of the American dream.

Though many Americans by now have heard Judge Sotomayor's story, some points bear repeating.

Judge Sotomayor is the daughter of Puerto Rican parents. Her father died when she was 9, and she and her brother were raised by her mother in a public housing project in the Bronx.

Sotomayor's mother, a nurse, worked extra hours so that she could pay for schooling and a set of encyclopedias for her children.

After graduating from high school, Judge Sotomayor attended college at Princeton and law school at Yale.

She spent five years prosecuting criminal cases in New York, 7 years in private law practice, and 17 years as a Federal judge on the U.S. District Court and Court of Appeals.

Judge Sotomayor's story is an inspiring reminder of what is achievable with hard work and the support of family and community.

Of course, a compelling personal story of triumph in tough circumstances is not itself enough.

I have long used several criteria to evaluate nominees for judicial appointments: Are they ethical, honest, and qualified? Will they be fair, independent, and even-handed in administering justice? And will they protect the rights and liberties of all Americans?

I am confident that Judge Sotomayor meets these criteria.

She has 17 years of Federal judicial experience and unanimously received the highest rating of the American Bar Association—which called her “well qualified” based on a comprehensive evaluation of her record and integrity.

And she has directly answered questions about her personal beliefs—and prior statements.

She has been clear with me, the Judiciary Committee and the American people that her own biases and personal opinions never play a role in deciding cases. More importantly, her 17 years on the bench stand as the testament to this fact.

Judge Sotomayor has demonstrated her independence. She was nominated to the Federal district court by President George H.W. Bush and appointed to the U.S. court of appeals by President Clinton.

Judge Sotomayor has received rave reviews from her fellow judges on the Second Circuit, both Republicans and Democrats, as well as strong support from a diverse cross section of people and organizations from across the political spectrum.

Finally, it is clear to me that Judge Sotomayor is committed to protecting the rights and liberties of all Americans. She understands the struggle of working families. She understands the importance of civil rights. Her record shows a strong respect for the rule of law and that she evaluates each case based on its particular facts.

Having followed the criteria by which I measure judicial nominees, I am confident Judge Sotomayor will be a smart, fair, impartial, and qualified member of the U.S. Supreme Court.

I believe any individual or group from my home State could stand before her and receive fair treatment and that she will well serve the interests of justice and the public as our next Supreme Court Justice.

I wish to come to the floor to join with many of my women colleagues in the Senate and let the people of Washington State know that, after review-

ing her qualifications and her record and reviewing her testimony, I am very proud to stand and support this nomination.

I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota is recognized.

Ms. KLOBUCHAR. I wish to first thank the Senator from Washington for her excellent remarks on Judge Sotomayor.

During this hour, we have heard from several of my colleagues, all strongly supporting Judge Sotomayor. I have talked about, first of all, her growing up and her difficult circumstances. I spoke about her work as a prosecutor and the support she has received from her prosecutorial colleagues.

I have talked about her work as a judge and read extensively from a letter from Louis Freeh, the former Director of the FBI and former Federal judge, about her work as a judge. Now, in the final part of my talk, I wish to address some of the other issues that have been raised with respect to Judge Sotomayor.

I have to say, I woke up this morning to the radio on my clock radio and heard one of my colleagues who decided he was not going to support her, in his words, because of the “empathy standard.”

I kind of put the pillow over my head. I thought: He must not have been sitting in the hearing because she was specifically asked by one of the other Senators about how she views the cases. They specifically asked her if she agreed with President Obama when he said: You should use your heart as well as the law.

She said: Actually, I do not agree with that. I look at the law and I look at the facts.

So people can say all kinds of things about her, if they would like, but I suggest they look at her record.

My colleagues in the Senate are entitled to oppose her nomination, if they wish; that is their prerogative. But I am concerned some people keep returning again and again to some quotes in the speeches, a quote she actually said, a phrase, that she did not mean to offend anyone and she should have put it differently.

When have you 17 years of a record as a judge, what is more important—those 17 years of the record of a judge or one phrase which she basically said was not the words she meant to use. What is more important?

In the words of Senator Moynihan: You are entitled to your own opinion, but you are not entitled to your own facts. So let's look at the facts of her judicial record. This nominee was repeatedly questioned, and I sat there through nearly all of it. She was questioned for hours and days about whether she would let bias or prejudice infect her judgment.

But, again, the facts do not support these claims. In race discrimination

cases, for example, Judge Sotomayor voted against plaintiffs 81 percent of the time. She also handed out longer jail sentences than her colleagues as a district court judge. She sentenced white-collar criminals to at least 6 months in prison 48 percent of the time; whereas, her other colleagues did so only 34 percent of the time.

In drug cases, 85.5 percent of convicted drug offenders received a prison sentence of at least 6 months from Judge Sotomayor, compared with only 79 percent in her colleagues' cases.

A few weeks ago, I was in the Minneapolis airport and a guy came up to me, he was wearing an orange vest. He said: Are you going to vote for that woman?

At first, I did not know what he was talking about. I said: What do you mean?

He said: That judge.

I said: Actually, I want to meet her first. This is before I had met her. I said: I want to ask her some questions before I make a decision.

He said: Oh, I do not know how you are going to do that because she always lets her feelings get in front of the law.

This guy needs to hear these statistics. He needs to hear the statistics Senator GILLIBRAND was talking about, the statistics that when she had served on the bench with a Republican colleague, 95 percent of the time they made the same decision on a case.

So then I guess you must believe that these same Republican-appointed judges are letting their feelings get in front of the law if you take that logic to its extreme. So 95 percent of the time she sided with her Republican-appointed judge colleagues.

During her hearing, Judge Sotomayor was questioned about issues ranging from the death penalty to her use of foreign law. That was repeatedly mentioned that she might use foreign law to decide a death penalty case.

What do we have as the facts? What do we have as evidence? There was one case she decided when the death penalty came before her, and she rejected the claim of someone who wanted to say the death penalty would not apply when she was a district court judge.

She never cited foreign law. There was no mention of France or any kind of law anywhere in that decision. Those are the facts in her judicial record. In no place has she ever cited foreign law to help her interpret a provision of the U.S. Constitution.

I believe that everything in a nominee's professional record is fair game to consider. After all, we are obligated to determine whether to confirm someone for an incredibly important lifetime position. That is our constitutional duty and I take it seriously.

But that said, when people focus on a few items in a few speeches that Judge Sotomayor has given, phrases which she has basically said she would have

said differently if she had another opportunity, you have to ask yourself again: Do those statements—are they outweighed by the record? Are they outweighed by the facts?

Check out all these endorsements of people who have actually looked at her record, have looked at how she has come out on decisions. You have an endorsement from the National District Attorneys Association supporting her; you have the support from the Police Executive Research Forum; you have support from the National Fraternal Order of Police, not exactly a raging liberal organization; you have the support of the National Sheriffs Association. Again, these are the facts.

These are the facts my colleagues should be looking at. You have the support from the International Association of Chiefs of Police. You have the support of the Major Cities Chiefs Association; she has the support of the National Association of Police Organizations; she has the support of the Association of Prosecuting Attorneys; we have letters supporting her from the Detectives Endowment Association; from the National Black Prosecutors Association; from the National Organization of Black Law Enforcement Executives. The list goes on and on and on.

Those are the facts: Unanimous top rating from the ABA, the American Bar Association. Those are the facts. I believe, if we want to know what kind of a Justice Sonia Sotomayor will be, our best evidence is to look at the kind of judge she has been.

I wish to address one more matter that I mentioned at the Judiciary hearing, when we voted for Judge Sotomayor, and that has been a point that irritated me. There have been some stories and comments, mostly anonymous, about Judge Sotomayor's judicial temperament.

According to one newspaper story about this topic, Judge Sotomayor developed a reputation for asking tough questions at oral arguments and for being sometimes brisk and curt with lawyers who were not prepared to answer them. Well, where I come from, asking tough questions, having very little patience for unprepared lawyers is the very definition of being a judge. As a lawyer, you owe it to the bench and to your clients to be as well prepared as you possibly can be.

When Justice Ginsburg was asked about these anonymous comments regarding Judge Sotomayor's temperament recently, she rhetorically asked: Has anybody watched Scalia or Breyer on the bench?

Surely, we have come to a time in this country when we can confirm as many to-the-point, gruff female judges as we have confirmed to-the-point, gruff male judges. We have come a long way, as you can see from my colleagues who came here during the last hour.

We know that when Sandra Day O'Connor graduated from law school 50-plus years ago, the only offer she got was from a law firm for a position as a legal secretary. Justice Ginsburg faced similar obstacles. We have come a long way.

But I hope my colleagues in this case will also come a long way and look at the record and look at the facts. As I have said, people are entitled to their own opinions, but they are not entitled to their own facts.

In short, I am proud to support Judge Sotomayor's nomination. I believe she will make an excellent Supreme Court Justice. She knows the law, she knows the Constitution, but she knows America too.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BURR. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURR. I ask unanimous consent that the Republican time for the next hour be allocated as follows: 15 minutes to myself, 15 minutes to Senator MARTINEZ, 10 minutes to Senator BOND, and 20 minutes to Senator CORNYN.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURR. Mr. President, I rise to express my thoughts on the nomination of Judge Sonia Sotomayor to be a U.S. Supreme Court Justice.

Votes on Supreme Court nominees are among the most important cast by a Senator. These nominations warrant a full and in-depth debate. We are, after all, considering a lifetime appointment to the highest Court in the land.

I will not spend much time this morning going through the impressive background of Judge Sotomayor because I think all Members agree that her experience and her academic credentials meet the threshold of what the American people expect in a Supreme Court Justice.

As an alumnus of two of the most prestigious schools in the Nation with a lengthy judicial record, Judge Sotomayor is certainly a quality nominee for the post. I am also sure she has inspired many throughout her noble career.

More important than the Ivy League schools and the length of public service, however, is the judicial record of a nominee and the decisions she has made during her tenure on the bench.

While many see a lengthy judicial record as something that could only be considered a positive factor in determining a nominee's suitability to serve on the highest Court in the land, others, including myself and many of my

constituents, see it as an opportunity for a panoramic view into the decision-making process of a nominee.

Just as I looked into the background and experience of Judge Roberts and Judge Alito, I did the same thing with Judge Sotomayor. With all the years she has served on the Federal bench, she has plenty of case material to examine and consider.

Among the most important factors in determining one's suitability for the High Court is the nominee's understanding and appreciation for the role they are about to take on. Other than having the ultimate say in the judicial branch's analysis of the case at hand, the proverbial last word, it is no different than a judge's role on any lower court.

I believe a judge's role is to adhere to the longstanding case precedent and to apply the law according to a strict interpretation of the Constitution. Let me say that again because I believe it is too important to go unheard.

I believe a judge's role is to adhere to the longstanding case precedent and apply the law according to the strict interpretation of the U.S. Constitution.

That is my understanding of the judge's role in our country. Others may have different views, and they certainly are entitled to them. As I have said, I am troubled by her decisions in cases where she has appeared to rely on something other than well-settled law to come to a decision. My fear is that she was unable to separate her personal belief system from that of the letter of the law.

In our one-on-one meetings, Judge Sotomayor gave me her assurances that she would stick to the letter of the law. Her judicial record indicates otherwise, particularly in a couple of very significant places and recent occurrences. While my colleagues have mentioned both of them prior to me stating them again, today I think they bear repeating. Both cases highlight how Judge Sotomayor adheres to applicable case precedent.

First is the Ricci case. I think it is important to take a close look at her decision in *Ricci v. DeStefano*. This is a case where she dismissed the claims of 19 White firefighters and one Hispanic firefighter who alleged reverse discrimination based on the New Haven, CT, decision not to use the results of a promotional exam because not enough minorities would be eligible for promotion. In the Ricci case, she rejected the firefighters' claim in a one-paragraph opinion. When questioned about it in the confirmation hearing, she maintained she was bound by precedent. A potentially and ultimately legal landmark case warranting a careful and thorough review of the facts at hand and the law to be interpreted, and Judge Sotomayor dismissed the claim in one paragraph. Clearly, a

case with issues involving race and discrimination deserved more than a one-paragraph explanation and analysis.

Even the Obama Justice Department could not defend her actions and submitted a brief to the Supreme Court on the matter. In it, they agreed that the decision by Judge Sotomayor should be vacated and that further proceedings on the case were warranted. This is the Justice Department of the Obama administration.

When the Supreme Court issued their opinion in the case, they stated that the precedent relied on for her decision did not exist. When pressed in the confirmation hearing about her decision, she avoided citing the particulars and simply explained that she was following established Supreme Court and Second Circuit precedent. The most troubling thing for me to grasp about this response is the Supreme Court says, in their reversal of her decision, that precedent for Ricci did not exist at all. It was a 5-to-4 decision by the Supreme Court, but all nine Justices disagreed with her reasoning—a unanimous rejection of her argument by the Supreme Court. The Supreme Court said precedent did not exist.

Maloney v. Cuomo, a second amendment case, is another decision of Judge Sotomayor that troubles my impression of her ability to separate her own beliefs from that of the letter of the law. It was just decided this year—so recently, in fact, that it has not even had a chance to be reviewed by the Supreme Court.

Not to rehash the facts of the case in too much detail, but in *Maloney v. Cuomo*, Judge Sotomayor was faced with determining whether an individual right—in this case, the right to bear arms—could also be enforced against a State. She decided the *Maloney* case after the historic *Heller* decision specifically concluded, without any explanation, that the right to bear arms is, in fact, not a fundamental right—a conclusion no other court has ever reached. As a matter of fact, I co-sponsored an amicus brief which supported the argument that the right to bear arms is a fundamental right and one that could not be taken away by government without the highest standard of review. This was the argument that ultimately favored the Supreme Court in their decision.

To me, a nonlawyer, her decision in *Maloney* stands directly contrary to what the Supreme Court had just concluded in the *Heller* case. So not only did the Supreme Court set the precedent, she ignored the precedent of *Heller* in the ruling of the *Maloney* case. How could Judge Sotomayor so distinctly and openly come to the conclusion that bearing arms was not, in fact, a fundamental right when the Supreme Court, just months before, ruled the opposite way? Where did her reasoning come from? I am troubled by the lack

of deference and adherence to the High Court's decision, and it leads me to call into question the commitment she made to me in a one-on-one meeting.

Actions, in this case—actually, decisions—speak much louder than rhetoric. These are just two recent, clear examples of where her record as a judge, while lengthy, caused me to call into question her ability to apply case precedent to come to a decision that would affect the lives of North Carolinians and the whole Nation.

These two decisions I have cited are not examples of missteps early in her career or decisions based on lack of experience. These are decisions Judge Sotomayor made after 17 years of experience on the Federal bench. These are decisions made within the last year or so by a seasoned Federal judge who is being considered for a lifetime appointment to the Supreme Court of the United States.

My esteemed colleague from North Carolina mentioned in her speech supporting Judge Sotomayor that the late Senator Jesse Helms, who was a dear friend of mine, supported the nomination of Judge Sotomayor to be a judge on the Second Circuit Court of Appeals. What Senator Helms did not have when he reviewed her nomination, however, was the benefit of Judge Sotomayor's judicial record during her decade of service on the appellate court.

It is imperative that all Members of the Senate look at the cases judges have decided and not just say they have been through the confirmation process in the Senate, therefore it should be automatic the second time. Their decisions weigh on the relevance of their nomination and on their confirmation.

I am sure her impressive academic and professional resume influenced Senator Helms, and I am sure he gave her the benefit of the doubt without any reason to question how she might rule on the bench. I have, and the Senate has, the benefit of reviewing Judge Sotomayor's actual decisions as a circuit judge, in addition to her statements to the record. I have the benefit of seeing if she stuck to the letter of the law as she stated she would do in testimony when nominated for the appellate court in 1998. She has not stuck to the letter of the law.

In 1998, she said, in response to a question from the current ranking member of the Judiciary Committee:

Sir, I do not believe we should bend the Constitution under any circumstance. It says what it says. We should do honor to it.

Quite frankly, I believe she bent the Constitution when she ruled in the *Maloney* case that the right to bear arms was not a fundamental right of the American people.

I have repeatedly said that the decisions made by the Supreme Court affect the lives of every American. After taking into consideration Judge

Sotomayor's answers to my questions, reviewing her decisions that appear to have departed from the normal principles of jurisprudence, I find little predictability in her decisions and the implications they might have. I am concerned by the several examples where I believe Judge Sotomayor strayed from the rules of strict statutory construction and legal precedence and went with her own deeply-held beliefs, while providing little in the way of explanations. Therefore, I am unable to support her nomination to the Supreme Court.

I realize, at the conclusion of the next several days, Judge Sotomayor has the votes to be a Justice. I will continue to watch the decisions she makes based upon the answers she provided to me. But as most, if not all, have stated, this is a lifetime appointment. The debate that happens over the next 48 hours will determine, in many cases, whether a change might happen in this nomination. We cannot end this debate without the realization that we will live for generations to come with the decisions of this Court, the next Court, and the next Court. It will be just as incumbent on Members of the Senate in the future to make sure that those nominees are debated thoroughly, that their records are reviewed in great detail, and that their pledge to protect the Constitution and to follow it as a Justice is upheld. My hope is that I am incorrect about how Judge Sotomayor will, in fact, use the Constitution. Today, I announce that I will vote against her.

I yield the floor.

The PRESIDING OFFICER. The Senator from Florida.

Mr. MARTINEZ. Mr. President, I rise to speak on the nomination of Judge Sotomayor to the Supreme Court. I am happy to have this opportunity, for I view it as a historic moment in many ways.

The confirmation of a Supreme Court nominee is one of the most solemn and unique duties in our constitutional system of government. The Framers, recognizing the risk of abuse inherent in a lifetime judicial appointment, created a process that brings together all three branches of the Federal Government. The Constitution, article II, section 2, requires that a nominee to the Federal court must be selected by the President and then "with the advice and consent of the Senate." These moments must be appreciated and approached with a great deal of thoughtfulness and respect. This is all the more true when the appointment is to our highest Court, the Supreme Court.

There was a time when Members of the Senate seemed to better understand their role, when Senators expected a President of the other party to pick a judge who would likely be different from someone they would have picked. There are a couple of examples I would like to use.

Justice Ginsburg, a very talented person who served as general counsel to the ACLU, was not likely to have been someone selected by a Republican President. But yet she was confirmed with 95 votes. Republicans knew she would be a liberal Justice, but she was also well qualified for the job.

There is another example; that is, Justice Antonin Scalia. He was picked by a Republican President and received 98 votes. Every Democrat knew or probably should have known that they were voting for a conservative, but they also understood that then-Judge Scalia was incredibly qualified and should be serving on the Supreme Court, given that he had been nominated by a President and had the requisite qualifications, which is really the essence of what this confirmation process is and should be about.

But things have changed since those votes. They have changed from what is historically acceptable and what has been the long historic tradition of the Senate when it comes to Senate confirmations of judicial nominees. Over the past decade, I believe the Senate has lost sight of its role to advise and consent.

I notice another example. The nominations of Miguel Estrada, Chief Justice Roberts, and Justice Alito—all three of these illustrate how partisan politics have been permitted to overwhelm the fundamental question posed to the Senate, which is, Is this nominee qualified? Do you give your advice and your consent?

My colleagues will recall that Mr. Estrada was first nominated by President George W. Bush to the DC Circuit in May of 2001. He was unanimously rated "well-qualified" for the bench by the American Bar Association.

Mr. Estrada was someone who had a very impressive history and personal story and resume. He was a native of Honduras. Mr. Estrada immigrated to this country at age 17, graduated magna cum laude and Phi Beta Kappa from Columbia University. He received his law degree from Harvard in 1986, where he was a member of the Harvard Law Review, and went on to clerk on the Supreme Court for Justice Kennedy.

Mr. Estrada then entered private practice and was a very well-respected lawyer working in a New York law firm and served as an assistant U.S. attorney in the Southern District of New York, where I believe our nominee also served. But then Mr. Estrada took a job in the George H.W. Bush administration as an Assistant Solicitor General. What does an Assistant Solicitor General do? They prepare and argue cases before the Supreme Court. What could be a better training ground, in addition to having a prior clerkship for a Court member, than to be an Assistant Solicitor General? As a longtime attorney, I always admire greatly

those who have served in that office because they are the very best of the very best.

But politics intervened. He was branded a conservative. Through the course of an unprecedented seven cloture votes, Democrats in this body filibustered his nomination. Time and again, they filibustered his nomination. It lingered for 28 months, until he finally withdrew—exhausted, wanting to get on with his life, knowing he needed to be able to continue to do work for clients, that he could not continue to be in this limbo where he had been for 28 months because of the misguided notion that he was just too conservative and so it was OK to filibuster him. For 28 months he was hanging, dangling in the wind. That was not right. It was not to the Supreme Court, but some feared that someday he might be a Supreme Court candidate, he might have been the first Hispanic serving in the Supreme Court, nominated, perhaps, by a Republican President.

So while the nominations of Chief Justice Roberts and Justice Alito ended quite differently from Mr. Estrada's, the record is, frankly, equally disturbing.

During the debates on both Roberts and Alito, then-Senator Barack Obama declared each man to be qualified to sit on the Supreme Court. Of then-Judge John Roberts, Senator Obama said, right here on the Senate floor:

There is absolutely no doubt in my mind Judge Roberts is qualified to sit on the highest court in the land.

To which I would then say: So why won't you vote for him?

He then said of then-Judge Alito:

I have no doubt that Judge Alito has the training and qualifications necessary to serve. He's an intelligent man and an accomplished jurist. And there's no indication he's not a man of great character.

But despite these emphatic statements of confidence, then-Senator Obama voted against confirmation. Why? Because of his perception that their philosophy would not allow him to vote for them.

Given this record, some of my colleagues conclude that what is good for the goose is good for the gander; that because of these recent precedents, and despite her qualifications, they may still vote against Judge Sotomayor's confirmation. I could not disagree more heartily.

It is my hope that starting today, we will no longer do what was done to Miguel Estrada; that beginning today, no Member will pursue a course and come to the floor of this Chamber to argue against the confirmation of a qualified nominee.

So what about our current nominee? What makes her qualified? Well, first, I think we do have in Judge Sotomayor a very historic moment, an opportunity. It will be the first Hispanic to

serve on the highest Court of this land. It is a momentous and historic opportunity.

But that is not good enough. What makes her qualified? Well, I think experience, knowledge of the law, temperament, the ability to apply the law without bias—these qualifications should override all other considerations when the Senate fulfills its role to advise and consent to the President's nominee, as dictated by the constitutional charge we have. These are really the standards by which we as a body should determine who is qualified to serve on any Federal court, including the highest Court of the land. These are the standards I have used in evaluating Judge Sotomayor's nomination to the Supreme Court. She has the experience. She knows the law. She has the proper temperament.

Here is something that is very important: Her 17-year judicial record overwhelmingly indicates she will apply the law without bias. That is very important because we could find someone who really is facially qualified but whose views might be, for some reason, so outside the mainstream, so different from what the norm of our jurisprudence would be, that it might render them, while facially qualified, truly unqualified—that they really could not be relied on to look at a case and apply the facts and the evidence and apply the law to the evidence presented, that they would not follow the law, that they would not be faithful to their oath because their views would be so extreme, so outside the mainstream, so completely beyond what would be the norm or considered to be the norm. But here in this person we have a 17-year record. She has written thousands of opinions. These opinions provide the body of law of what she does as a judge—not what she said to a group of students one day, trying to encourage them in their lives and what they might be doing, not what someone might gain from reading an opinion that perhaps they would not agree with. It is not about whether we agree with her outcomes, it is whether her opinions were reasoned, whether they had a foundation in law, whether they were reasonable decisions, whether she reached them on the basis of law and evidence that are supported by sound legal thinking. Her worst critics cannot cite a single instance where she strayed from sound judicial thinking.

I believe she will serve as an outstanding Associate Justice to the U.S. Supreme Court, and she will be a terrific role model for many young people in this country.

Were I to have had my opportunity to pick, I may have chosen someone different than Judge Sotomayor. But that is not my job. I do not get to select judges. I get to give advice and consent. We sometimes confuse the role of the Senate. Elections have their

consequences. Some of her writings and her statements indicate that her philosophy might be more liberal than mine, but that is what happens in elections.

When I was campaigning for my colleague and dear friend JOHN MCCAIN, I knew it was going to be important because there would be vacancies to the Court. I knew I would be much more comfortable with a nominee whom JOHN MCCAIN would nominate than one my former colleague and friend, President Barack Obama, might nominate. The President has the prerogative, the obligation, the responsibility to choose his own nominees. Our job is to give advice and consent.

The President has chosen a nominee, and my vote for her confirmation will be based solely and wholly on relevant qualifications. Judge Sotomayor is well qualified. She has been a Federal judge for 17 years. She has the most experience of any person—on-the-bench judicial experience of any person—nominated for the Court in a century. In 100 years, there has not been anyone who has been on the bench with such a distinguished record for such a long period of time. That is why, by the way, her record is really her judicial decisions. We do not have to wonder. We do not have to sit around and try to divine whether someday she will answer the siren call to judicial activism, as I have heard someone say on the floor of the Senate. You do not have to wonder. You can wonder, and it might give you an excuse to vote against someone who is otherwise qualified, but the fact is, with a 17-year record, you should have a pretty good idea whether that siren call would have been answered by now. To my estimation, it has not been.

She received the highest possible rating from the American Bar Association for a judicial candidate—equal to that of Miguel Estrada, equal to that of Chief Justice Roberts, and equal to that of Justice Alito. She has been a prosecutor. She has been, throughout her career, an outstanding lawyer. As a prosecutor, she was a pretty tough one too. With less than a handful of exceptions, her 17-year judicial record reflects that while she may be left of center, she is certainly well within the mainstream of legal thinking.

Her mainstream approach is so mainstream that it has earned her the support of the U.S. Chamber of Commerce as well as the endorsement of several law enforcement and criminal justice organizations. She has been endorsed by the National Fraternal Order of Police, the National Sheriffs' Association, and the International Association of Chiefs of Police. I daresay she will be a strong voice for law and order in our country.

I disagree with Judge Sotomayor about several issues. I would expect to have disagreements with many judicial nominees of the Obama administration

but probably fewer with her than some I might see in the future. Although I might disagree with some of her rulings, we know she has a commitment to well-reasoned decisions—decisions that seek, with restraint, to apply the law as written. I do believe she will rule with restraint. That has been her judicial history and philosophy. For instance, I believe her view as expressed in her panel's *Maloney v. Cuomo* opinion of whether the second amendment applies against State and local governments is too narrow and contrary to the Founders' intent. But I also know there is significant and well-reasoned disagreement among the Nation's appellate courts on this issue. In other words, it is not out of the mainstream. On this issue, I accept the idea that reasonable people may differ.

This debate raises critical and difficult issues regarding the role of federalism in the application of fundamental constitutional rights. But the confirmation process is not the proper place to relitigate this question, nor is Judge Sotomayor's judicial record on this issue outside the mainstream.

I believe her statements on the role of international law in American jurisprudence reflect a view that is too expansive. Yet her judicial record indicates that, in practice, she has given only limited, if any, weight to foreign court decisions. For example, in *Croll v. Croll*, a 2000 international child custody case involving the Hague Convention on International Child Abduction, Judge Sotomayor wrote a dissenting opinion in which she concluded that the holdings of the courts of foreign nations interpreting the same convention were "not essential" to her reasoning.

I believe some of the statements she has made in her speeches about the role of one's personal experience are inconsistent with the judicial oath's requirement that judges set aside their personal bias when making those decisions. There are several of my colleagues who say these statements demonstrate that Judge Sotomayor is a judicial activist in hiding. This assertion, however, is not supported by the facts. We can throw it out there, but it is not supported by the facts. The relevant facts—her 17-year judicial record—show she has not allowed her personal biases to influence her jurisprudence. They can talk about her speeches, but they cannot talk about a single solitary opinion in 17 years on the bench where that type of a view has been given life, where that type of a view has found itself into the pages of a single one of her opinions. I would rather put my trust and my expectations for the future on her 17-year record of judicial decisions than I would on one or two speeches she might have given over 10 or 15 years.

Those who oppose Judge Sotomayor have yet to produce any objective evi-

dence that she has allowed her personal bias to influence her judicial decision-making. Moreover, in her testimony before the Judiciary Committee, she reiterated her fidelity to the law, that as a Justice she would adhere to the law regardless of the outcome it required.

So based on my review of her judicial record and her testimony before the Judiciary Committee, I am satisfied Judge Sotomayor is well qualified to sit on our Nation's highest Court. I intend to vote for her confirmation. I intend to also be very proud of her service on the Supreme Court of the United States where I think, again, she will serve a very historic and unique role to many people in this Nation who I know will look to her with great pride.

Thank you, Mr. President. I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. KAUFMAN). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BOND. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BOND. Mr. President, I rise today to speak on the nomination of Judge Sonia Sotomayor to the Supreme Court of the United States.

Few positions carry more honor, or solemn duty, than becoming a Justice of the highest court of the greatest democracy.

Also, few duties carry more honor, or solemn responsibility, than giving advice and consent on who should become a Justice on the highest Court of the greatest democracy.

The walls of that Supreme Court form the vessel that holds the great protections of our liberty.

Those black robes give life to the Constitution's freedoms and the flourishing of our ideas and beliefs.

If the Congress is the heart of our democracy, walking to the drumbeat of the people, then the Supreme Court is our soul guiding us on what is right and what is wrong.

In my role as a Senator voting to fill that vessel, issuing those robes, I have always looked to the Constitution to guide my obligation to give advice and consent.

It is an obligation separate and apart from my role as a legislator, when I vote for or against legislation before this body.

Indeed, if the Constitution meant for us merely to vote on nominees, by simple or super majorities, it could easily have said so.

If we were meant to do nothing more than cast a vote based on whether we agreed or disagreed with a nominee, where would we be then?

Would the halls of government be empty every time a President faced a Congress of the opposite party?

Would the Cabinet sit empty because of partisan divide?

Would vacancies to the Supreme Court go unfilled, because a majority of one party simply disagreed with the President of another?

Of course, that could not have been the intent of the Framers.

What kind of Justices would we have, with nothing more than partisan majority divides?

Would a Senate controlled by the opposite party allow only the most moderate of voices, or justices with no voice at all?

Would it approve only judges that said nothing, or wrote nothing with which the majority disagreed?

If some are saying that a Democratic President should not have a liberal Justice, does that mean a Republican President should not have conservative Justices?

That is not something I could support, for I surely supported judicially conservative Justices such as Roberts and Alito, Thomas and Bork—Scalia certainly if I had been in the Senate at the time.

That is the kind of Justice I support, a judge that calls balls and strikes like an umpire, not letting their own personal views bias the outcome of the trial.

The statue of justice is blindfolded for a reason, so that she cannot tip the scales of justice with the prejudice of bias or belief.

But I have supported Justices with whom I disagreed on this philosophy. Justices Breyer and Ginsberg come to mind.

They take a more active role in shaping their decisions, to fit an ideal of their own vision.

I supported these nominees of a Democratic President, as did 86 of my colleagues for Justice Breyer, and 95 of my colleagues for Justice Ginsberg.

I hope those votes do not reflect a time that has slipped away, when partisanship did not infect every facet of our political life.

I could forget that time, as President Obama did when he was a Senator.

I could easily say, as Senator Obama said, that I disagree with a nominee's judicial approach, and that allows me to oppose the nominee of a different party.

Luckily for President Obama, I do not agree with Senator Obama.

I reject the Obama approach to nominees.

While I reject the way Senator Obama approached nominations, that does not mean that I support the way Judge Sotomayor approaches judging.

I disagree that the civil rights of a firefighter mean so little that they do not deserve even a full opinion before an appeals court.

I disagree that we should inspire with suggestions that wisdom has anything to do with the sex of a person or the color of their skin.

I disagree that judges should ever consider foreign law when looking for meaning in U.S. statutes or the U.S. Constitution.

I disagree that the second amendment's protection of an individual's right to bear arms does not apply to States.

But I do agree that Judge Sotomayor has proven herself a well qualified jurist.

I do agree that she has proven herself as a talented and accomplished student, Federal prosecutor, corporate litigator, Federal trial judge, and Federal appeals court judge.

She has the backing of many in the law enforcement community including the Fraternal Order of Police, the National Sheriffs Association, and the National Association of District Attorneys.

I do agree that Judge Sotomayor has proven herself as a leader of her community, who inspires the pride and hopes of a large and growing portion of our American melting pot.

I do agree that Judge Sotomayor has proven herself as a symbol of breaking through glass ceilings.

And I do agree that my choice for President did not win the last election, and that our people's democracy has spoken for the change and they are getting it. Elections do have consequences.

Now, hearing the call of that decision of our democracy does not mean that I support the President in everything he has proposed.

I did not agree with a stimulus that has meant only more government spending and national debt as the unemployment continues to rise.

I do not agree with cap and trade legislation that will raise energy taxes and kill millions of lost jobs without even changing the climate because China and India refuse to act the same.

I do not agree with a government takeover of health care that forces millions of Americans off their current health care, drives health care costs even higher for families, rations care, restricts access to the latest cures and treatments, and puts health care decisions in the hands of government bureaucrats rather than doctors and patients.

But I do agree that the country is tired of partisanship infecting every debate. The country is tired of every action by the Congress becoming a political battle.

And so, I will not follow the hypocrisy of many of my Democratic colleagues who refused to support Justices Roberts and Alito because they disagreed with their judicial philosophy and now suggest that Republicans not do the same.

I respect and agree with the legal reasoning of my colleagues who will vote no, but I will follow the direction of the past, and my hope for the future,

with less polarization, less confrontation, less partisanship.

My friends in the party can be assured that I will work as hard as anybody to ensure that the next Presidential election has consequences in the opposite direction.

For my conservative friends, the best way to ensure that we have conservative judges on the bench is work to see that we elect Presidents who will nominate them.

Then we can resume filling the bench with more judges like Justice Roberts.

For my liberal friends I hope they remember this day when another qualified nominee is before the Senate who is conservative. The standard set by Senator Obama should not govern the Senate.

As for Judge Sotomayor, she has the accomplishments and qualities that have always meant Senate confirmation for such a nomination.

The Senate has reviewed her nomination and has asked her its questions. There have been no significant findings against her. There has been no public uprising against her.

I do not believe the Constitution tells me I should refuse to support her merely because I disagree with her.

I will support her. I will be proud for her, the community she represents and the American dream she shows possible.

I will cast my vote in favor of the nomination of Judge Sotomayor, and I urge my colleagues to do the same.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CORNYN. Mr. President, I wish to address the nomination of Judge Sonia Sotomayor to be an Associate Justice of the U.S. Supreme Court as well. I have spoken about this nomination several times, both here on the Senate floor and on the Senate Judiciary Committee on which I serve. I have shared what I admire about Judge Sotomayor, including her long experience as a Federal judge, her academic background, which is stellar, and her record of making decisions that for the most part are within the judicial mainstream. I have also explained before why I will vote against this nomination and I wish to reiterate and expand on some of those comments here today as all of us are stating our intentions before this historic vote which I suspect will be held sometime tomorrow.

First, I cannot vote to confirm a nominee to the U.S. Supreme Court who restricts several of the fundamental rights and liberties in our Constitution, including our Bill of Rights. Based on her decision in the Maloney case, Judge Sotomayor apparently does not believe that the second amendment right to keep and bear arms is an individual right. Indeed, she held in that case that the second amendment did not apply to the States and local jurisdictions that might impose restrictions

on the right to keep and bear arms. Then based on her decision in the *Didden v. The Village of Port Chester* case, she apparently does not believe that the takings clause of the fifth amendment protects private property owners when that private property is taken by government for the purpose of giving it to another private property owner, in this case a private developer. I am very concerned when the government's power to condemn property for a private purpose conflicts with the stated intention of the Framers of the Constitution that the right of condemnation of private property only extend to public uses and then, and only then, when just compensation is paid.

Then based upon her decision in the *Ricci* case—this is the New Haven firefighter case—which calls into question her commitment to ensure that equal treatment applies to all of us when it comes to our jobs or promotions without regard to the color of our skin. Indeed, in that case, because of her failure to even acknowledge the seriousness and novelty of the claims being made by the New Haven firefighters, she gave short shrift to those claims in an unpublished order and denied Frank Ricci, Ben Vargas, and other New Haven firefighters an opportunity for a promotion, even though they excelled in a competitive, race-neutral examination, because of the color of their skin.

Fortunately, the Supreme Court of the United States saw fit to overrule Judge Sotomayor's judgment in the New Haven firefighter case. Millions of Americans became aware, perhaps for the first time, of this notorious decision and what a morass some of our laws have created when, in fact, distinguished judges like Judge Sotomayor think they have no choice but to allow people to be denied a promotion based upon the color of their skin for fear of a disparate impact lawsuit, even when substantial evidence is missing that such a disparate lawsuit would have merit or likely be successful.

I cannot vote to confirm a nominee who has publicly expressed support for many of the most radical legal theories percolating in the faculty lounges of our Nation's law schools.

We heard this during the confirmation hearings and, frankly, Judge Sotomayor's explanations were unconvincing. Previously, she said there is no such thing as neutrality or objectivity in the law—merely a series of perspectives, thus, I think undermining the very concept of equal justice under the law. If the law is not neutral, if it is not objective, then apparently, according to her, at least at that time, the law is purely subjective, and outcomes will be determined on which judge you get rather than what the law says.

She has said in one notorious YouTube video that it is the role of

judges to make policy on the court of appeals. She has said that foreign law can get the “creative juices flowing” as judges interpret the U.S. Constitution, and she has said, as we know, ethnicity and gender can influence a judge's decision and judges of a particular ethnicity or gender can actually make better decisions than individuals of a different gender or ethnicity.

Third, I cannot vote to confirm a judicial nominee who testified before the Judiciary Committee that her most controversial decisions were guided by precedent, when her colleagues on the Second Circuit, and indeed the Justices of the U.S. Supreme Court who reversed her, said just the opposite; or who testified that she meant the exact opposite of what she said—every time she said something controversial and was trying to explain that; or a person who testified that she had no idea what legal positions the Puerto Rican Legal Defense and Education Fund was taking—even when she chaired the litigation committee of its board of directors.

The hearings before the Senate Judiciary Committee have a very important purpose, and that purpose is informed by article II of the U.S. Constitution that provides for advice and consent on nominations. It is not to serve as a rubberstamp. I have heard colleagues say that elections have consequences, and the President won. Well, it is obvious and evident that elections have consequences and that President Obama won. But that doesn't negate or erase the obligation each Senator has under the same clause and article of the Constitution to provide advice and consent based on our best judgment and good conscience.

In the case of Judge Sotomayor, the question becomes: What will she do with the immense power given to a member of the U.S. Supreme Court? What impact will she have on our rights and liberties over the course of a lifetime? Of course, this appointment is for life. In short, the question is, what kind of Justice will she be on the Supreme Court, where her decisions are no longer reviewed by a higher court as they were as a Federal district court or a court of appeals justice. The question is, will she be the judge she has been as a lower court judge, making decisions which, by and large, have been in the mainstream, with some notable exceptions, which I have talked about, or will she be untethered? Will she be the Judge Sotomayor of some of her radical speeches and writings, which cause me concern?

The answers to these questions, I regret, are no clearer after the hearings than before. The stakes are simply too high for me to confirm someone who could redefine “the law of the land” from a liberal, activist perspective.

I respect different views of Senators on this nomination, and I have no

doubt that Judge Sotomayor will be confirmed. But I am unwilling to abdicate the responsibility I believe I have as a Senator when it comes to voting my conscience and expressing my reservations. The Senate developed our confirmation process for a very important purpose: to learn more about the individual nominees. But over the last several weeks, I think we have also learned more about a rising consensus with regard to what we should expect from a judge. I will highlight two important lessons we have learned.

One is encouraging to me and one is worrisome. Let's start with the good news. I believe Republicans and Democrats on the Judiciary Committee, and indeed Judge Sotomayor herself, seem to say the appropriate judicial philosophy for nominees to the Federal bench is one that expresses fidelity to the law and nothing else. Over years, we have been debating whether we have an original understanding of the Constitution or some evolving Constitution, even though it can be interpreted in different ways, even though the words on the paper read exactly the same. We went back and forth on the merits, or lack of merits, of judicial activism—judges taking it upon themselves to impose their views rather than the law in decisions. On many occasions, our disagreements over judicial philosophy were anything but civil and dignified.

I think of the nomination of Miguel Estrada to the District of Columbia Court of Appeals, which some have said is the second highest court in the land. Miguel Estrada, although an immigrant from Honduras who didn't speak any English when he came to the United States, graduated from a top university and law school in this country. He was filibustered seven times and denied an up-or-down vote. One member of the Judiciary Committee, disparaging Mr. Estrada's character, called him a “stealth missile, with a nose cone, coming out of the right wing's deepest silo.”

Samuel Alito, an Italian-American who is proud of his heritage, had to defend himself against false charges of bigotry—accusations that left his wife in tears.

Then there was Clarence Thomas—perhaps the one we remember the best—an African American nominee to the Supreme Court who described his experience before the Judiciary Committee this way:

This is a circus. It's a national disgrace. And from my standpoint as a black American, it is a high-tech lynching for uppity blacks.

These nominees were accused at various times of certain offenses, even though the real crime, as we all know, was a crime of conscience. They dared to be judicial conservatives—a philosophy that the nominee we are talking about today and Senate Democrats now appear to embrace.

I hope the days of the unfair and uncivil and undignified Judiciary Committee hearings are behind us. I hope our hearings are more respectful of the nominees, as was this hearing for Judge Sotomayor. She herself proclaimed that she could not have received fairer treatment. I appreciated her acknowledging the fairness and dignity of the process.

I hope the "thought crimes" of yesterday have now become the foundation for a new bipartisan consensus, including the views that Judge Sotomayor affirmed at her hearing and that we affirmed as both Republicans and Democrats, and the views that Judge Sotomayor rejected at her hearings and we rejected as both Republicans and Democrats.

Let me give a few examples of our new bipartisan consensus on the appropriate judicial philosophy for a nominee to the U.S. Supreme Court. Judge Sotomayor, at her hearing, put it this way:

The intent of the Founders was set forth in the Constitution. . . . It is their words that [are] the most important aspect of judging. You follow what they said in their words, and you apply it to the facts you're looking at.

I cannot think of a better expression of a modest and judicially restrained philosophy that I embrace than what Judge Sotomayor said at her hearing. Both Republicans and Democrats appeared to be pleased with that statement.

We agreed that foreign law has no place in constitutional interpretation. Notwithstanding her earlier statements, Judge Sotomayor said at the hearing:

Foreign law cannot be used as a holding or a precedent, or to bind or influence the outcome of a legal decision interpreting the Constitution or American law.

As I said, notwithstanding her earlier statements, I agree with that statement she made at the hearing. I believe both Republicans and Democrats were satisfied with that statement as well.

We agreed that "empathy" or "what's in a person's heart"—to borrow a phrase from then-Senator Obama—should not influence the decisions of a judge. I think we were all a little surprised when Judge Sotomayor, at the hearing, rejected President Obama's standard. She said:

I wouldn't approach the issue of judging the way the President does. . . . Judges can't rely on what's in their heart. They don't determine the law. Congress makes the law. The job of a judge is to apply the law. And so it's not the heart that compels conclusions in cases—it is the law.

I agree with that statement, and indeed Republicans and Democrats alike appeared to embrace that statement of an appropriate judicial philosophy. No one defended the statement that then-Senator Obama made with regard to empathy or what is in a person's heart. I was encouraged to see that.

Mr. President, supporters of Judge Sotomayor appear willing to accept her statements that I have just quoted at the Judiciary Committee at face value. I hope they are right; I really do. I certainly intend to take my colleagues' agreement with these statements at face value. I expect future nominees to the Federal judiciary to conform to this new consensus articulated by Judge Sotomayor at her hearing and embraced in a bipartisan fashion by the members of the Judiciary Committee.

Mr. President, I have no question about the outcome of this vote on Judge Sotomayor. I regret, for the reasons I have stated, that I cannot vote for her because I cannot reconcile her previous statements with her testimony at the Judiciary Committee hearing. Also, I wish Judge Sotomayor well as she serves on the Supreme Court. The concerns that I raised here, and the uncertainty I have about regarding what kind of Justice she will be—I hope she will prove those concerns unjustified by the way she distinguishes herself as a member of the U.S. Supreme Court. I hope her tenure will strengthen the Court, as well as its fidelity to the plain meaning of the Constitution. I congratulate her and her loved ones on her historic achievement.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SPECTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SPECTER. Mr. President, I ask unanimous consent that the hour of Democratic speaking time be divided 30 minutes under my control, 15 minutes for Senator LAUTENBERG, and 15 minutes for Senator DODD.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SPECTER. Mr. President, I have sought recognition to comment about the confirmation of Judge Sotomayor for Associate Justice to the Supreme Court and to comment on other subjects directly related to the confirmation process and comment about the reality of judicial legislation, about the emerging standard on rejecting the tradition of deference to the President, with Senators' ideology being the determinant, the Court's reduced workload, the failure to decide major cases, the lack of public understanding of what the Court does, the need for accountability and transparency, and the strong case to be made for televising the Supreme Court.

For me, the confirmation of Judge Sotomayor is an easy one. During the 11 confirmation proceedings I have participated in and others I have studied, I know of no one who brings a stronger

record than Judge Sotomayor: *summa cum laude* at Princeton, Yale Law School, Yale Law Journal, prestigious New York firm, assistant district attorney with DA Morganthau who sings her praises, 17 years on the Federal bench.

The criticisms which were made against her, my judgment is they were vacuous. A great deal of time in committee was spent on her comment about "a wise Latina woman." My view is that she should have been commended for that statement, not criticized. Why do I say "commend"? Why shouldn't a woman stand up for women's capabilities? In a society which did not grant women the right to vote until 1920, in a society which still harbors the tough glass ceiling limiting women, in a society where only two women have served on the Supreme Court, in a Senate where only 17 of the 100 Senators are women, I would expect a woman to proudly speak up for women's competency.

To talk about being a Latino, well, what is wrong with a little ethnic pride? And isn't it about time that we had some greater diversity on the Supreme Court? Isn't it surprising, if not scandalous, that it took until 1967 to have an African American on the Court, Thurgood Marshall, and it took until 1981 to have the first woman on the Court, Sandra Day O'Connor?

Judge Sotomayor is a role model and will be a broader role model if confirmed. The conventional wisdom is that she will be confirmed. Isn't there a greater assurance in a society as diverse as ours to have someone on the Court to represent that kind of diversity, all within the rule of law?

A criticism was made of her with respect to the New Haven firefighters case—very complex, very subtle, very nuanced on disparate impact. The Supreme Court divided 5 to 4. So what is there to criticize on Judge Sotomayor's standing for joining a *per curiam* opinion?

I asked a question of the New Haven firefighters who appeared: Do you have any reason to believe that Judge Sotomayor operated in anything but good faith? Both of the young firefighters candidly said they had no opinion on that subject.

Then there is the criticism about her conclusion, her judgment that second amendment rights are not incorporated within the 14th amendment due process clause to be applied to the States. That is the precedent of the Supreme Court of the United States. It is not up to a certain court to rule differently when they are bound by the Supreme Court, even if it is an old case.

The distinguished seventh circuit agreed with Judge Sotomayor. The argument was made well. The ninth circuit has said second amendment rights are applicable to the States.

Since the hearing, the court en banc in the ninth circuit has granted review

of a decision by the three-judge panel with every indication that the three-judge panel in the ninth circuit will be reversed.

So when you add up all of the comments and all of the criticism, nothing, in my judgment, is left standing.

The issue of judicial legislation is one which occupied the thinking and consideration of a number of those who were opposed to Judge Sotomayor. But there is nothing in her record to suggest she will engage in judicial legislation.

When you take a look at the Supreme Court of the United States, that has become the rule of the era, as opposed to rule of law where the Court is supposed to interpret the Constitution and statutes and leave to the Congress and the State legislatures the job of establishing public policy.

During the era of the Warren Court, there was a vast expansion of constitutional rights. I was in the Philadelphia district attorney's office at the time and literally saw the Constitution change day by day. In 1961, *Mapp v. Ohio* came down applying the fourth amendment protection on search and seizure to the States. In 1963, *Gideon v. Wainwright*, right to counsel; 1964, *Escobedo v. Illinois*; 1966, *Miranda*. Those were constitutional rights and changing values as articulated by Justice Cardozo in *Palko*.

But in more recent times, there has been a vast expansion of the Supreme Court, in effect, legislating. I refer specifically to the case *United States v. Morrison* which involved the issue of the legislation protecting women against violence. Chief Justice Rehnquist handed down an opinion saying that the "method of reasoning" of the Congress was deficient. The dissents on that 5-to-4 opinion laid out the vast record which supported the legislation.

The Supreme Court has adopted a standard of judging constitutionality as to whether the statute satisfies congruence and proportionality, a standard which has emerged very recently. It defies understanding to quantify or figure out what congruence and proportionality means, except to give the Supreme Court carte blanche, in effect, to legislate.

Two cases interpreting the Americans with Disabilities Act went 5 to 4 in opposite directions between Titles I and II—one case holding one of them constitutional and the other was unconstitutional. Justice Scalia, dissenting in one case, characterized congruence and proportionality to be a flabby standard which, in effect, allowed the Court to legislate.

When Chief Justice Roberts appeared before the Judiciary Committee in response to questions from Senator DeWINE and myself, he said it was up to the Congress to make findings of fact, that that was a peculiarly legisla-

tive function because it is the Congress which has the hearings, the ability to develop facts, and it is congressional responsibility.

Yet when the Voting Rights Act case was heard earlier this year, although decided on narrower grounds, every indication is being given that Chief Justice Roberts' assurances to the Judiciary Committee are being reversed and that the Court, from all indicators, is on the verge of declaring the Voting Rights Act as unconstitutional, notwithstanding the voluminous record which was created and the great care the Senate operated to come down with the voting rights legislation.

So when you have a criticism of the problem of judicial legislation, it is my view that you ought to look at what Judge Sotomayor has done in 17 years on the bench. And there is no indication at all of her substituting her values. But when you come to the Supreme Court of the United States, there is good reason to question what they are doing.

There is, simply stated, a lack of understanding as to what goes on in the Court.

The one comment I do have, other than full support for Judge Sotomayor, was her reluctance to answer questions. One question which I asked her is illustrative. Chief Justice Roberts, in his confirmation hearing, when confronted with the light workload of the Court, said that he thought the Court could take on more responsibility. I asked Judge Sotomayor if she agreed with that conclusion. Judge Sotomayor would not answer the question. She said she would have to be more fully familiarized, even though the statistics which I quoted to her about the Court's workload contrasted with 1886 when the Supreme Court decided 451 cases; in 1985, there were only 161 written opinions; in 2007, only 67 written opinions.

It seemed to me plain that the Court could undertake more work, as Chief Justice Roberts had agreed, during his confirmation hearings. But there has developed an attitude among nominees who appear before the Judiciary Committee that it is unsafe to answer questions because of what happened to Judge Bork.

As I have pointed out in committee, and it is worth repeating, it is a myth that Judge Bork was defeated because he answered too many questions. In the context of his writings and in the context of his record where he advocated original intent, it was necessary for Judge Bork to speak up. Judge Bork was rejected because he had a view of the Constitution which was totally outside the constitutional continuum or outside the constitutional mainstream.

For example, in his testimony, he said that the equal protection clause applied only to race and ethnicity, but would not be extended to women,

aliens, indigents, illegitimates, or others, in line with the decisions of the Supreme Court of solid precedents on the application of the equal protection clause. Judge Bork disagreed with the clear and present danger standard, established as far back as Justice Oliver Wendell Holmes.

When it came to his doctrine on original intent, he was at a loss to explain how you could desegregate the District of Columbia schools. On the same day that *Brown v. Board of Education* was decided, there was a companion case captioned *Bolling v. Sharpe* applicable to the District of Columbia. Judge Bork was of the view that there was no application of the due process clause; that you couldn't incorporate any of the 10 amendments and you couldn't incorporate the equal protection clause. But the Supreme Court desegregated the DC schools on the basis of holding that the equal protection clause was part of due process and due process did apply to the District of Columbia. Judge Bork was at a loss to answer that.

Mr. President, I ask unanimous consent to have printed in the RECORD a copy of an op-ed I wrote for the New York Times, dated October 9, 1987, which sets forth in some greater detail—which I do not have the time to go into now—the reasons why I voted against Judge Bork and I think the reasons why Judge Bork's nomination was defeated by the margin of 58 to 42 when it came before the Senate for a vote.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the New York Times, Oct. 9, 1987]

WHY I VOTED AGAINST BORK
(By Arlen Specter)

From the day in mid-July when Judge Robert H. Bork stopped by for a courtesy call until I telephoned him last week to say I would oppose his nomination, my goal was to figure out what impact Judge Bork would have on the people who came to the Supreme Court in search of their constitutional rights. At the end, having come to like and respect Judge Bork, I reluctantly decided to vote against him, because I had substantial doubts about what he would do with fundamental minority rights, about equal protection of the law and freedom of speech.

From the beginning, it was evident that this nomination process would be different from most. The traditional courtesy call turned out to be much more because Judge Bork was willing—really anxious—to discuss his judicial philosophy. Unlike other nominees who had barely given name, rank and serial number, he enjoyed the exchange and doubtless figured that his extensive writings were so unusual that he would have to talk if he were to have any chance at confirmation.

Our first hour and a half meeting was interrupted by a Senate vote, so he returned a few weeks later for a similar session. In those discussions, I found a man of intellect and charm, who said, in essence, that his writings were academic and professorial and not necessarily indicative of what he would do on the Court.

During the August recess, when I had a chance to read many of his approximately 80 speeches, 30 law review articles and 145 circuit court opinions, I found a scholar and jurist whose views and opinions were vast and complex. In voting to confirm Chief Justice William H. Rehnquist and Justice Antonin Scalia last year, I had already decided that a nominee's judicial philosophy need not agree with mine. But I also believed that a nominee's views should be within the tradition of our constitutional jurisprudence. With that in mind, I compared Judge Bork's views with those of other conservative justices.

On freedom of speech, I was surprised to find that Judge Bork in his writings rejected Justice Oliver Wendell Holmes's standard of a "clear and present danger." Chief Justice Warren Burger's notion of constitutional protection for commercial speech and Justice (now Chief Justice) Rehnquist's Court opinion protecting a sexually explicit (as distinguished from an obscene) movie from censorship.

In Judge Bork's earliest views, only political speech was to be protected. He later modified that to include literature and art that involved political discussion. In the confirmation hearings, I was even more surprised to find him change his position and commit himself to apply the Holmes test even though he continued his strong philosophical disagreement.

Judge Bork's views on equal protection of the law also underwent a major change at the hearings. He committed himself to apply current case law after having long insisted that equal protection applied only to race and, more recently, to ethnicity. His narrow position had put him at odds with Chief Justice Rehnquist and Justices Sandra Day O'Connor and Scalia, as well as 101 years of Supreme Court decisions that had applied equal protection to women, aliens, indigents, illegitimates and others.

These significant shifts raised questions about Judge Bork's motives and the depth of his convictions. But I felt he should have a full opportunity to explain his new positions because a person is entitled to change.

During a long Saturday session, I had an unusual opportunity to explore at length some troubling aspects of Judge Bork's jurisprudence. I was particularly concerned with his writings on "original intent." He had maintained that judges had to base their opinions on the Framers' original intentions. Without adherence to original intent, he said, there was no legitimacy for judicial decisions. And without such legitimacy, there could be no judicial review.

But Judge Bork conceded during the hearings that original intent was often difficult, perhaps impossible, to discern. I feared that this approach could jeopardize the fundamental principle of constitutional law—the supremacy of judicial review. Although Judge Bork himself never went so far, some prominent political figures have suggested that the Supreme Court should not be the ultimate arbiter of constitutionality. Their cause—with which I deeply disagree—could be aided by a Justice who questioned the legitimacy of judicial review.

I had also been concerned by Judge Bork's insistence on "Madisonian majoritarianism," the idea that, in the absence of explicit constitutional limits, legislatures should be free to act as they please. Conservative justices had traditionally protected individual and minority rights even without a specifically enumerated right or proof of original intent where there were fundamental values rooted in the tradition of our people.

Just this year, for example, Chief Justice Rehnquist and Justices O'Connor and Scalia had found a right in the Constitution for a prisoner to marry. But Judge Bork, at his confirmation hearing, could still find no acceptable rationale for the decision desegregating the District of Columbia schools 33 years ago.

I was further troubled by his writings and testimony that expanding rights to minorities reduced the rights of majorities. While perhaps arithmetically sound, it seemed morally wrong. The majority in a democracy can take care of itself, while individuals and minorities often cannot. Moreover, our history has demonstrated that the majority benefits when equality helps minorities become a part of the majority.

Despite these concerns, I was genuinely undecided—perhaps leaning a little toward Judge Bork—when he finished his impressive testimony at the end of the first week. He had conceded that there was a "powerful argument from a strong tradition" to find rights rooted in the conscience of the people, although not specified in the Constitution. He had also yielded to the "needs of the nation" on some constitutional matters that did not fall within the Framers' original intent. Perhaps his writings were only professorial theorizing.

As I listened to the other witnesses during the second and third weeks, and considered the implications of Judge Bork's total approach, my doubts grew about the application of his changed positions. For example, in Judge Bork's former view, which he last expressed 20 days before his nomination, equal protection should have been kept to concerns like race and ethnicity. Considering the many subtle and discretionary judgments involved, I felt it would be unfair to people who sought equal protection in the Supreme Court to have their cases decided by someone who had so long thought their claims unprotected by the Constitution under standards that were so elusive to apply.

Similarly, the hearings showed the great difficulty, if not impossibility, of Judge Bork's applying the "clear and present danger" standard to free speech cases. If there was a critical turning point, it was Judge Bork's responses regarding two cases.

The "clear and present danger" standard was restated by the Court in 1969, in *Brandenburg v. Ohio*, and again in 1973, in *Hess v. Indiana*. When Judge Bork committed himself to accepting *Brandenburg*, I pressed as to how we could be confident that he would apply that test to the next case, which obviously would be different on the facts. He promised he would, but then promptly insisted that he was not committed to *Hess* because it was an "obscenity" case.

Judge Bork's disagreement on *Hess*, a "clear and present danger" case, cast substantial doubt on his ability to apply cases he philosophically opposed and had long decided.

The hearings brought a record 140,000 calls and letters to my office. Wherever I went, it seemed that everyone had a strong opinion. The pressure was pervasive. On the afternoon the hearings ended, I talked again with Judge Bork for more than an hour, and met later that evening with Lloyd Cutler, the former adviser to Jimmy Carter, who had been a principal supporter. My substantial doubts persisted, so I decided to vote no.

Mr. SPECTER. Moving on to another subject, which perhaps is of the greatest importance of what we see emerging from these hearings and the con-

firmation proceeding, is an emerging standard on rejecting the traditional deference to the President, with Senators substituting their own ideology in order to make the decision.

In the article I referred to on Bork, in the op-ed piece, I noted that in voting as to Chief Justice Rehnquist and Justice Scalia, I decided the judicial philosophy of a nominee need not agree with mine. When the hearings came up as to Justice Clarence Thomas, I made the observation that there might be an occasion, one day, when there would be a partnership between the Senate and the President with respect to looking at ideology. It has become accepted that elections do matter when the President moves to the nominating process. They are active parts in the Presidential campaigns, and the tradition has been to make the deference to the President's ideology.

I suggest we are seeing, in the confirmation process of Judge Sotomayor, in conjunction with the nomination process of Justice Alito, that there is a shift in that standard and that judgment. The issue was framed by the comments of then-Senator Barack Obama now President Barack Obama when he was commenting about his judgment on the Alito nomination and then Senator Obama had this to say:

There are some who believe that the President, having won an election, should have complete authority to appoint his nominee and the Senate should only examine whether the Justice is intellectually capable.

Senator Obama went on to say:

I disagree with this view. I believe it calls for meaningful advice and consent, and that includes an examination of the judge's philosophy, ideology.

In the Alito hearings, there is no doubt that in terms of academic, professional, and judicial competence, Justice Alito was well qualified—a Yale law graduate with a distinguished career in private practice, serving as a U.S. attorney for New Jersey, with 15 years on the circuit court. Some concerns were expressed as to his ideology on his view of a woman's right to choose; his dissenting opinion in *Planned Parenthood v. Casey* in the Third Circuit. Only four Democrats crossed the aisle to vote for Justice Alito. Today, according to the announcements that have been made, about that many Republicans are going to cross the aisle to vote for Judge Sotomayor.

Some of those who have announced their intention to vote against Judge Sotomayor have long records for not having opposed any judicial nominee. It is a complex issue. There is a question of pressure from the far right, from those who might be looking at primary opposition. There is a question of partisanship, which has gripped this body with such intensity. But there is an overwhelming view that the approach of Judge Sotomayor and what

she is likely to do on the Supreme Court is something which is contrary to their views as to when the matters ought to be decided.

It has long been accepted that you can't ask a Supreme Court nominee how he or she will decide a specific case, but there is an opportunity to glean from many factors the disposition or inclination of the nominees. And although many in this body had, for a long time, as I view it, made decisions based upon their own ideology, contrasted to what they accepted the nominee to do on the Court, I think that view has become crystallized and, as articulated by then-Senator Obama, is a view which has perhaps added weight now that it is President Obama.

Certainly, there are nominees whom I have voted for, if I were to have been the President and made the selection, it would have been different. If I were to have applied my own philosophy or ideology on the vote to confirm or not, it would have been different. When Judge Bork was so far out of the mainstream and had views so totally antithetical to the continuum of constitutional law—being out of the mainstream—it was different. But I think it is worth noting what is happening to the confirmation process, as Senators are moving to utilize their own ideology in deciding how to vote—illustrated, as I say, by Alito and the confirmation which we currently have—and not giving the traditional and customary deference to the President.

Moving on to the subject of the Court's reduced workload and the failure to decide major cases, in the context of the statistics which I cited—451 cases decided in 1886, 161 written opinions in 1985; the year 2007, only 67 signed opinions; the Supreme Court having decided not to hear the case involving the terrorist surveillance program, which posed a dramatic conflict between congressional authority under article I to enact the Foreign Intelligence Surveillance Act, with the President's asserted authority under article II as Commander in Chief to have warrantless wiretaps; the district court in Detroit declared the terrorist surveillance program unconstitutional. The Sixth Circuit reversed 2 to 1 on the grounds of standing—with the dissent being much better reasoned—a doctrine to avoid deciding the case and the Supreme Court denying cert. Similarly, on the conflict which was posed by litigation brought by the survivors of victims of 9/11 against Saudi Arabian princes, where the Congress had legislated in the Foreign Sovereign Immunities Act to exclude torts, as when you fly an airplane into the World Trade Center, the executive branch intervened. The Department of State objected through the Solicitor General to the court hearing the case, and that case was not decided. Many circuit splits, which are detailed in a series of

letters which I am going to ask to be admitted into the RECORD, letters which I sent to Judge Sotomayor, dated July 7, June 15, and June 25, detailing a great many circuit splits which the Court has not decided.

Mr. President, I ask to have printed in the RECORD the letters I referred to.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
Washington, DC, July 7, 2009.

Hon. SONIA SOTOMAYOR,
c/o The Department of Justice,
Washington, DC.

DEAR JUDGE SOTOMAYOR: As noted in my letters of June 15 and June 25, I am writing to alert you to subjects which I intend to cover at your hearing. During our courtesy meeting you noted your appreciation of this advance notice. This is the third and final letter in this series.

The decisions by the Supreme Court not to hear cases may be more important than the decisions actually deciding cases. There are certainly more of them. They are hidden in single sentence denials with no indication of what they involve or why they are rejected. In some high profile cases, it is apparent that there is good reason to challenge the Court's refusal to decide.

The rejection of significant cases occurs at the same time the Court's caseload has dramatically decreased, the number of law clerks has quadrupled, and justices are observed lecturing around the world during the traditional three-month break from the end of June until the first Monday in October while other Federal employees work 11 months a year.

During his Senate confirmation hearing, Chief Justice John G. Roberts, Jr., said the Court "could contribute more to the clarity and uniformity of the law by taking more cases." The number of cases decided by the Supreme Court in the 19th century shows the capacity of the nine Justices to decide more cases. According to Professor Edward A. Hartnett: "... in 1870, the Court had 636 cases on its docket and decided 280; in 1880, the Court had 1,202 cases on its docket and decided 365; and in 1886, the Court had 1,396 cases on its docket and decided 451." The downward trend of decided case is noteworthy since 1985 and has continued under Chief Justice Roberts' leadership. The number of signed opinions decreased from 161 in the 1985 term to 67 in the 2007 term.

It has been reported that seven of the nine justices, excluding Justices Stevens and Alito, assign their clerks to what is called a "cert. pool" to review the thousands of petitions for certiorari. The clerk then writes and circulates a summary of the case and its issues suggesting justices' reading of cert. petitions is, at most, limited.

At a time of this declining caseload, the Supreme Court has left undecided circuit court splits of authority on many important cases such as:

- (1) The necessity for an agency head to personally assert the deliberative process privilege;
- (2) Mandatory minimums for use of a gun in drug trafficking;
- (3) Equitable tolling of the Federal Tort Claims Act's statute of limitations period;
- (4) The standard for deciding whether a Chapter 11 bankruptcy may benefit from executory contracts;
- (5) Construing the honest services provisions of fraud law; and

(6) The propriety of a jury consulting the Bible during deliberations.

One procedural change for the Court to take more of these cases would be to lower the number of justices required for cert. from four to three or perhaps even to two.

Of perhaps greater significance are the high-profile, major constitutional issues which the court refuses to decide involving executive authority, congressional authority and civil rights. A noteworthy denial of cert. occurred in the Court's refusal to decide the constitutionality of the Terrorist Surveillance Program which brought into sharp conflict Congress' authority under Article I to establish the exclusive basis for wiretaps under the Foreign Intelligence Surveillance Act with the President's authority under Article II as Commander in Chief to order warrantless wiretaps.

That program operated secretly from shortly after 9/11 until a New York Times article in December 2005. In August 2006, the United States District Court for the Eastern District of Michigan found the program unconstitutional. In July 2007, the Sixth Circuit reversed 2-1, finding lack of standing. The Supreme Court then denied certiorari.

The dissenting opinion in the Sixth Circuit demonstrated the flexibility of the standing requirement to provide the basis for a decision on the merits. Judge Gilman noted, "the attorney-plaintiffs in the present case allege that the government is listening in on private person-to-person communications that are not open to the public. These are communications that any reasonable person would understand to be private. After analyzing the standing inquiry under a recent Supreme Court decision, Judge Gilman would have held that, "[t]he attorney-plaintiffs have thus identified concrete harms to themselves flowing from their reasonable fear that the TSP will intercept privileged communications between themselves and their clients. On a matter of such importance, the Supreme Court could at least have granted certiorari and decided that standing was a legitimate basis on which to reject the decision on the merits."

On June 29, 2009, the Supreme Court refused to consider the case captioned *In re Terrorist Attacks on September 11, 2001*, in which the families of the 9/11 victims sought damages from Saudi Arabian princes personally, not as government actors, for financing Muslim charities knowing those funds would be used to carry out Al Qaeda jihads against the United States. The plaintiffs sought an exception to the sovereign immunity specified in the Foreign Sovereign Immunities Act of 1976. Plaintiffs' counsel had developed considerable evidence showing Saudi complicity. Had the case gone forward, discovery proceedings had the prospect of developing additional incriminating evidence.

My questions are:

(1) Do you agree with the testimony of Chief Justice Roberts at his confirmation hearing that the Court "could contribute more to clarity and uniformity of the law by taking more cases?"

(2) If confirmed, would you favor reducing the number of justices required to grant petitions for certiorari in circuit split cases from four to three or even two?

(3) If confirmed, would you join the cert. pool or follow the practice of Justices Stevens and Alito in reviewing petitions for cert. with the assistance of your clerks?

(4) Would you have voted to grant certiorari in the case captioned *In re Terrorist Attacks on September 11, 2001*?

(5) Would you have voted to grant certiorari in *A.C.L.U. v. N.S.A.*—the case challenging the constitutionality of the Terrorist Surveillance Program?

Sincerely,

ARLEN SPECTER.

U.S. SENATE,

Washington, DC, June 15, 2009.

Hon. SONIA SOTOMAYOR,
c/o The Department of Justice,
Washington, DC.

DEAR JUDGE SOTOMAYOR: When we concluded our meeting which lasted more than an hour, I commented that I would be writing to you on other subjects which I intended to cover at your hearing, and I appreciated your response that you would welcome such advance notice.

In the confirmation hearing for Chief Justice Roberts, there was considerable discussion about the adequacy of congressional fact finding to support legislation. This issue is again before the Supreme Court on the reauthorization of the Voting Rights Act where the legislation is challenged on the ground that there is an insufficient factual record. At our hearing, I would like your views on what legal standards you would apply in evaluating the adequacy of a Congressional record. In the 1968 case *Maryland v. Wirtz*, Justice Harlan's rationale would uphold an act of Congress where the legislature had a rational basis for reaching a regulatory scheme. In later cases, the Court has moved to a "congruence and proportionality standard."

In advance of the hearing for Chief Justice Roberts by letter dated August 8, 2005, I wrote him in part: "members of Congress are irate about the Court's denigrating and, really, disrespectful statements about Congress's competence. In *U.S. v. Morrison*, Chief Justice Rehnquist, speaking for five members of the Court, rejected Congressional findings because of 'our method of reasoning'. As the dissent noted, the Court's judgment is 'dependent upon a uniquely judicial competence' which implicitly criticizes a lesser quality of Congressional competence." In *Morrison*, there was an extensive record on evidence establishing the factual basis for enactment of the Violence Against Women legislation. In dissent, Justice Souter noted "... the mountain of data assembled by Congress here showing the effects of violence against women on interstate commerce," and added: "The record includes reports on gender bias from task forces in 21 states and we have the benefit of specific factual finding in eight separate reports issued by Congress and its committees over the long course leading to its enactment."

In a subsequent letter to Chief Justice Roberts dated August 23, 2005, I wrote concerning *Alabama v. Garrett* where Title I of the Americans with Disabilities Act was based on task force field hearings in every state attended by more than 30,000 people including thousands who had experienced discrimination with roughly 300 examples of discrimination by state governments.

Notwithstanding those findings, the Garrett Court concluded in a five to four decision: "The legislative record of the Americans with Disabilities Act, however, simply fails to show that Congress did in fact identify a pattern of irrational state discrimination in employment against the disabled."

In another five to four decision, the Court in *Lane v. Tennessee* concluded Title II of the Americans with Disabilities Act met the "congruence and proportionality standard". There, Justice Scalia dissented attacking

the "congruence and proportionality standard" calling it a "flabby test" and an "invitation to judicial arbitrariness and policy driven decision making" adding: "Worse still, it casts this Court in the role of Congress's taskmaster. Under it, the courts (and ultimately this Court) must regularly check Congress's homework to make sure that it has identified sufficient constitutional violations to make its remedy constitutional and proportional. As a general matter, we are ill-advised to adopt or adhere to constitutional rules that bring us into conflict with a coequal branch of Government."

During the confirmation hearing of Chief Justice Roberts, he testified extensively in favor of the Court's deferring to Congress on fact finding. In response to questions from Senator DeWine, he testified: "... The reason that congressional fact finding and determination is important in these cases is because the courts recognize that they can't do that. Courts can't have, as you said, whatever it was, the 13 separate hearings before passing particular legislation. Courts—the Supreme Court can't sit and hear witness after witness after witness in a particular area and develop that kind of a record. Courts can't make the policy judgments about what type of legislation is necessary in light of the findings that are made" ... "We simply don't have the institutional expertise or the resources or the authority to engage in that type of a process. So that is sort of the basis for the deference to the fact finding that is made. It's institutional competence. The courts don't have it. Congress does. It's constitutional authority. It's not our job. It is your job. So the defense to congressional findings in this area has a solid basis."

In response to my questioning, Chief Justice Roberts said: "And I appreciate very much the differences in institutional competence between the judiciary and the Congress when it comes to basic questions of fact finding, development of a record, and also the authority to make the policy decisions about how to act on the basis of a particular record. It's not just disagreement over a record. It's a question of whose job it is to make a determination based on the record" ... "as a judge that you may be beginning to transgress into the area of making a law is when you are in a position of re-evaluating legislative findings, because that doesn't look like a judicial function."

The Supreme Court heard oral argument in *Northwest Austin Municipal Utility District v. Holder* on April 29, 2009 involving the sufficiency of the Congressional record on reauthorizing the Voting Rights Act. While too much cannot be read into comments by justices at oral argument, Chief Justice Roberts' statements suggested a very different attitude on deference to Congressional fact finding than he expressed at his confirmation hearing. Referring to the argument that "... action under Section 5 has to be congruent and proportional to what it's trying to remedy," Justice Roberts said that: "... one-twentieth of 1 percent of the submissions are not precleared. That, to me, suggests that they are sweeping far more broadly than they need to, to address the intentional discrimination under the Fifteenth Amendment." Chief Justice Roberts went on to say: "Well, that's like the old—you know, it's the elephant whistle. You know, I have this whistle to keep away the elephants. You know, well, that's silly. Well, there are no elephants, so it must work. I mean if you have 99.98 percent of these being precleared, why isn't that reaching far too broadly."

As a factual basis for the 2007 Voting Rights Act, Congress heard from dozens of witnesses over ten months in 21 different hearings. Applying the approach from Chief Justice Roberts' continuation hearing, that would appear to satisfy the "congruence and proportionality standard".

My questions are:

1. Would you apply the Justice Harlan "rational basis" standard or the "congruence and proportionality standard"?

2. What are your views on Justice Scalia's characterization that the "congruence and proportionality standard" is a "flabby test" and "an invitation to judicial arbitrariness and policy driven decision making"?

3. Do you agree with Chief Justice Rehnquist's conclusion that the Violence Against Women legislation was unconstitutional because of Congress's "method of reasoning"?

4. Do you agree with the division of constitutional authority between Congress and the Supreme Court articulated by Chief Justice Roberts in his responses cited in this letter to questions posed at his hearing by Senator DeWine and me?

Sincerely,

ARLEN SPECTER.

U.S. SENATE,

COMMITTEE ON THE JUDICIARY,

Washington, DC, June 25, 2009

Hon. SONIA SOTOMAYOR,
c/o The Department of Justice,
Washington, DC.

DEAR JUDGE SOTOMAYOR: As noted in my letter to you dated June 15, 2009, I am writing to alert you to another subject which I intend to cover at your hearing. I appreciate your comment at our meeting that you welcome such advance notice.

In an electronic era where the public obtains much, if not most, of its news and information from television, there is a strong case in my judgment that the Supreme Court of the United States should have its public proceedings televised just as the United States House of Representatives and United States Senate are televised.

It is well established that the Constitution guarantees access to judicial proceedings to the press and the public. In 1980, the Supreme Court relied on this tradition when it held in *Richmond Newspapers, Inc. v. Virginia*, that the right of a public trial belongs not just to the accused but to the public and the press as well. The Court noted that such openness has "long been recognized as an indisputable attribute of an Anglo-American trial."

The value of transparency was cogently expressed by Chief Justice William Howard Taft who said: "Nothing tends more to render judges careful in their decision and anxiously solicitous to do exact justice than the consciousness that every act of theirs is subject to the intelligent scrutiny of their fellow men and to candid criticism."

In the same vein, Justice Felix Frankfurter said: "If the news media would cover the Supreme Court as thoroughly as it did the World Series, it would be very important since 'public confidence in the judiciary hinges on the public perception of it.'"

To give modern-day meaning, the term "press" used in *Richmond Newspapers* would include television. Certainly Justice Frankfurter's use of the term "media" would include television in today's world. Televising the Supreme Court's public proceedings would provide the "scrutiny" sought by Chief Justice Taft.

Justices of the Supreme Court have been frequently televised, including Chief Justice

Roberts and Justice Stevens appearance on "Prime Time" ABC TV, Justice Ruth Bader Ginsburg's interview on CBS by Mike Wallace, Justice Breyer's participation in Fox News Sunday and the debate between Justice Scalia and Justice Breyer filmed and available for viewing on the web.

Many of the justices have commented favorably on televising the Court. Justice Stevens, in an article by Henry Weinstein on July 14, 1989 said he supported cameras in the Supreme Court and told the annual Ninth Circuit Judicial Conference at about the same time that, "In my view, it is worth a try." During Justice Breyer's confirmation hearing in 1994, he indicated support for televising Supreme Court proceedings. He has since equivocated, but noted that it would be a wonderful teasing device.

In December 2000, Marjorie Cohn's article noted Justice Ruth Bader Ginsburg's support of camera coverage so long as it was gavel to gavel. Justice Alito in his Senate confirmation hearing said that as a member of the Third Circuit Court of Appeals he voted to admit cameras; but added that it would be presumptive of him to take a final position before he had consulted with his colleagues, if confirmed, promising to keep an open mind. Justice Kennedy, according to a September 10, 1990 article by James Rubin, told a group of visiting high school students that cameras in the Court were "inevitable." He has since equivocated, stating that if any of his colleagues raise serious objections, he would be reluctant to see the Court televised. Chief Justice Roberts said in his confirmation hearing that he would keep an open mind on the subject.

Recognizing the sensitivity of justices to favor televising the Court in the face of a colleague's objection, there may be a new perspective with Justice Souter's retirement since he expressed the most vociferous opposition: "I can tell you the day you see a camera come into our courtroom, it is going to roll over my dead body."

In the 109th and 110th Congresses, with several bipartisan co-sponsors, I introduced legislation providing for televising public Supreme Court proceedings. Both bills were reported favorably out of the Judiciary Committee, but were never taken up by the full Senate. Sensitive to separation of powers and recognizing the authority of the Supreme Court to invalidate any such legislation, it should be noted that there are analogous directives from Congress to the Court on procedural/administrative matters such as setting the first Monday of October as the beginning of the Court's term, requiring six sitting justices to form a quorum and establishing nine as the number of Supreme Court justices. In May 2007, Associate Professor Bruce Peabody of the Political Science Department of Fairleigh Dickinson wrote an article in the *Journal on Legislation* concluding the proposed legislation was constitutional.

There is obviously enormous public interest in Supreme Court proceedings. When the case of *Bush v. Gore* was argued, streets around the Supreme Court building were filled with television trucks, although no camera was admitted inside the chamber. Shortly before the argument, Senator Biden and I wrote to Chief Justice Rehnquist urging that the proceedings be televised and received a prompt reply in the negative; but the Supreme Court did break recede by releasing an audiotape when the proceedings were over and the Court has since intermittently made audiotapes available. Such audiotapes are obviously no substitute for

television, but are a step in the right direction.

The keen public interest is obvious since the Supreme Court decides the cutting-edge questions of the day such as: who will become president; congressional power; executive power; defendants' rights—habeas corpus—Guantanamo; civil rights—voting rights—affirmative action; abortion.

In 1990, the Federal Judicial Conference authorized a three-year pilot program allowing television coverage of civil proceedings in six federal district courts and two federal circuit courts. The program began in July 1991 and ran through December 31, 1994. The Federal Judicial Center monitored the program and issued a positive final evaluation. The Judicial Center concluded: "Overall attitudes of judges toward electronic media coverage of civil proceedings were initially neutral and became more favorable after experience under the pilot program." The Judicial Center also said: "Judges and attorneys who had experience with electronic media coverage under the program generally reported observing small or no effects of camera presence on participants in the proceedings, courtroom decorum, or the administration of justice."

I am especially interested in your experience when a trial was televised in your courtroom under the pilot program.

My questions are: (1) Do you agree with Justice Stevens that televising the Supreme Court is "worth a try"? (2) Do you agree with Justice Breyer that televising judicial proceedings would be a wonderful teaching device? (3) Do you believe, as expressed by Justice Kennedy, that televising the Supreme Court is "inevitable"? (4) What effect, if any, did televising the trial in your Court have on the lawyers, witnesses, jurors and you? (5) Do you think that televising the trial in your Court was useful to inform the public on the way the judicial system operates?

Sincerely,

ARLEN SPECTER.

Mr. SPECTER. Mr. President, when the *Federalist Papers* were written, the authors said that the Supreme Court was the least dangerous branch. I think if the Framers had seen the status of events in the year 2009, they might have written that the Supreme Court, the Supreme Court especially, was the least accountable branch—the least transparent branch.

For many years, I have urged that the Supreme Court be televised. Legislation which I have introduced has twice been voted out of committee, and it is pending again. I think this is an especially good time to take up the issue. The Congress has the authority to establish when the Supreme Court sits—the first Monday in October; what it takes to have a quorum; how many members there will be on the Court—contrast that to what President Roosevelt tried to do to expand the number to 15. We have authority on the timetable, under the Speedy Trial Act, to set time limits on habeas corpus, and it is my legal judgment that we have the authority to call on the Supreme Court to be televised.

The Supreme Court has the final word on that subject, as they do on all others, and could invalidate legislation

on the grounds of separation of power. But in light of what is happening and the demand for greater transparency, the televising of the House, the televising of the Senate; the fact that recently the highest court in Great Britain has admitted television cameras, it is time that should occur.

With the departure of Justice Souter, assuming the confirmation of Judge Sotomayor, the major opponent to televising the Court will no longer be there. Justice Souter made the famous statement that the television cameras would roll in over his dead body. When the nominees have been questioned repeatedly, they have always been very concerned, almost to a person, about being solicitous of the views of others. I concede that Justice Souter's strong views might have been a considerable obstacle. Justice Stevens has said it is worth a try. Justice Ginsburg said it would be fine if it were gavel to gavel. Other Justices have been televised. It is worth noting that the Federal Judicial Conference authorized a 3-year pilot program for six Federal district courts and two Federal circuit courts of appeals. The Judicial Center concluded:

Overall, attitudes of judges toward electronic media coverage of civil proceedings were initially neutral and became more favorable after experience under the pilot program. Judges and attorneys who had experience with electronic media coverage under the program generally reported observing small or no effects of camera presence or participants in the proceedings, courtroom decorum, or the administration of justice.

It is my suggestion it would be very healthy for our country to have a little sunshine come into the Supreme Court.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. SPECTER. I ask unanimous consent for 2 additional minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SPECTER. I think it would be very beneficial to have a little sunlight to come into the Supreme Court so there could be a public understanding as to how far the Supreme Court is going now on judicial legislation—that they are going beyond constitutional rights, that they are reaching into statutes such as the statute protecting women against violence, to declare it unconstitutional notwithstanding a voluminous record but based on the method of reasoning of Congress, as if our method of reasoning was deficient to theirs; or on the standard of congruence and proportionality, which is simply not understandable; or in the context of a workload which defies explanation, with so many circuit splits going undecided.

It may surprise people to know that it was not until 1981 that the Judiciary Committee proceedings on nominations were televised. Seeing what a great appearance it is today, and of how much value—this is really our

only opportunity to speak to the Court, to speak to Chief Justice Roberts. Are you going back on your commitment that it is up to the Congress to decide facts on a congressional record? Why are you doing congruence and proportionality when no one understands it?

So while the judgment on Sonia Sotomayor, as I said initially, was easy for me to vote aye, there are many more perplexing issues that have emerged, especially what I perceive to be an institutional change here, with Senators substituting their own judgments and ideology for the traditional deference allotted to the President.

Before I yield the floor, Mr. President, I have been asked to read an addendum statement, if I may? It is an introduction for a letter from members of the Supreme Court bar in favor of Judge Sotomayor:

The Committee recently received a letter of support for Judge Sotomayor's nomination from over 45 regular practitioners at the Supreme Court including a number of former Solicitors General and Assistants to the Solicitor General. Among those who joined this letter are a number of highly respected Republican appointees such as Charles Fried, nominated by President Reagan to be Solicitor General; John Gibbons, the former Chief Judge for the Third Circuit Court of Appeals who was nominated by President Nixon; and Tim Lewis, nominated by President George H.W. Bush and confirmed as a Judge for the Third Circuit Court of Appeals.

I ask unanimous consent to have this letter printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Hon. PATRICK J. LEAHY,

Chairman, U.S. Senate Committee on the Judiciary, Russell Senate Office Building, Washington, DC.

Hon. JEFFERSON B. SESSIONS,

Ranking Member, U.S. Senate Committee on the Judiciary, Russell Senate Office Building, Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS: As members of the Supreme Court Bar including those of us who have had the honor to represent the United States in the Court, as Solicitor General or members of the Solicitor General's professional staff—we respectfully support confirmation of Judge Sonia Sotomayor as an Associate Justice of the United States Supreme Court.

Judge Sotomayor would bring to the Court an impressive background in the law. As an Assistant District Attorney in New York for five years, she earned a reputation as a focused prosecutor. In her seventeen years as a federal judge, she demonstrated impartiality, clear thinking, and careful attention to the facts and issues before her. Her legal rulings are typically tailored to the facts and are respectful of precedent and the rule of law. Throughout her legal career, Judge Sotomayor has distinguished herself.

Judge Sotomayor's strong legal background and impressive career make her an extremely well-qualified nominee for the Supreme Court. We urge her speedy confirmation.

Sincerely,

Donald B. Ayer, Jones Day LLP; Deputy Attorney General, 1989-90; Principal Deputy Solicitor General, 1986-88.

Timothy S. Bishop, Mayer Brown LLP.

Richard P. Bress, Latham & Watkins LLP; Assistant to the Solicitor General, 1994-1997.

Louis R. Cohen, WilmerHale LLP; Deputy Solicitor General, 1986-88.

Drew S. Days III, Yale Law School; Solicitor General, 1993-96.

Walter Dellinger, O'Melveny & Myers LLP; Acting Solicitor General, 1996-97.

Samuel Estreicher, NYU School of Law; Jones Day LLP.

Bartow Farr, Farr & Taranto; Assistant to the Solicitor General, 1976-1978.

Meir Feder, Jones Day LLP.

Jonathan S. Franklin, Fulbright & Jaworski LLP.

David C. Frederick, Kellogg, Huber, Hansen, Todd, Evans & Figel, PLLC; Assistant to the Solicitor General, 1996-2001.

Andrew L. Frey, Mayer Brown LLP; Deputy Solicitor General, 1973-1986.

Charles Fried, Harvard Law School; Solicitor General, 1985-1989.

Kenneth S. Geller, Mayer Brown LLP; Deputy Solicitor General, 1979-1986.

John J. Gibbons, Gibbons PC; former Chief Judge, U.S. Court of Appeals for the Third Circuit.

Jamie S. Gorelick, WilmerHale LLP; Deputy Attorney General.

Jeffrey T. Green, Sidley Austin LLP.

Caitlin J. Halligan, Weil, Gotshal & Manges LLP; New York Solicitor General, 2001-2007.

Pamela Harris, Georgetown University Law Center.

George W. Jones, Jr., Sidley Austin LLP; Assistant to the Solicitor General, 1980-1983.

Pamela S. Karlan, Stanford Law School.

Kathleen M. Sullivan, Quinn Emanuel Urquhart Oliver & Hedges LLP & Stanford Law School.

Richard Taranto, Farr & Taranto; Assistant to the Solicitor General, 1986-1989.

Laurence H. Tribe, Harvard Law School.

Alan Untereiner, Robbins, Russell, Englert, Orseck, Untereiner & Sauber LLP.

Seth P. Waxman, WilmerHale LLP; Solicitor General, 1997-2001.

Christopher J. Wright, Wiltshire & Grannis LLP; Assistant to the Solicitor General, 1984-1994.

The PRESIDING OFFICER (Mr. MERKLEY). The Senator from New Jersey is recognized.

Mr. LAUTENBERG. Mr. President, today is an auspicious day. I have had 25 years of service now to the Senate. This is one of those moments when what we do will be recorded in history forever—the opportunity to nominate a distinguished jurist to the highest judicial post in this country.

I rise to express my strong support for President Obama's nomination of a distinguished jurist, Sonia Sotomayor, to become a Supreme Court Justice of the United States, confirming the continuity of our duty to the Constitution and to fairness to all the people in our country, and that obedience to the law continues uninterrupted.

In Newark, NJ, there exists a venerated courthouse that bears my name. On the entrance to this courthouse there is an inscription that says:

The true measure of a democracy is its dispensation of justice.

That summarizes my feeling about our beloved country. I authored that quote after considerable thought, and I truly believe it reflects a principal value upon which our Nation was founded. We must scrupulously insist that these values endure throughout our government and our legal system and particularly in our Nation's highest Court.

Based on her history, my meeting with Judge Sotomayor, and her testimony before the Senate Judiciary Committee, I have no doubt that if confirmed, Judge Sotomayor will pursue the fair, wise, and unbiased dispensation of justice. That is why I believe we must confirm Judge Sotomayor's appointment without delay.

When I had a private meeting with her, she confirmed her unwavering commitment to the equity of our American justice system, her knowledge of the law, and her recognition of the enormous responsibility she has to fulfill to our country.

I conveyed to her the excitement we are hearing in my State of New Jersey that President Obama's nominee grew up in a poor urban environment, in the Bronx—a close neighbor geographically with New Jersey with a similar tradition of a people starting at the bottom and succeeding through determination, education, and hard work.

We also discussed a shared admiration for Justice Benjamin Cardozo, who was renowned for his integrity and his diligence in applying precedent. I served for several years on the board of a law school bearing Justice Cardozo's name, where I saw the achievements of renowned legal scholars. I feel so deeply that Sonia Sotomayor will be remembered one day as an outstanding

member of the most revered and respected Court in the world.

During our meeting, Judge Sotomayor and I came to realize we had a common thread through our personal histories. The phrase “only in America” truly applies to Judge Sotomayor, and I can say that with a special understanding. Humble beginnings were the touchstones that enabled each of us to achieve beyond any parent’s dream.

I grew up in Paterson, NJ, a hard-scrabble mill town. My family lacked resources but left an inheritance of values with no valuables. My parents were brought to America by my grandparents seeking an opportunity to be free and to make a living. We were taught that we were obligated, if we had the opportunity, to make sure we gave something back to the community in which we lived.

Judge Sotomayor’s family moved here from Puerto Rico, and she grew up in a housing project where she saw, up front and close, the struggles of people living in poor areas. Like my father, Judge Sotomayor’s dad died at a very young age, and her mother, like mine, became a widow at a very young age. She became a single mother, like mine. Judge Sotomayor’s mother had to raise her and her brother in the face of racial, social, and financial adversity. In fact, her mother worked two jobs to support her children.

Despite the many difficulties, Judge Sotomayor has reached the highest rung of our society. At Princeton and also at Yale Law School, she achieved academic honors, and then she worked in the Manhattan District Attorney’s Office. As a district attorney, she prosecuted murder, robbery, and assault cases, among others. From the DA’s office she became a corporate litigator and rose to partner at a prestigious New York law firm. While there, she threw herself into her job and became an expert on trademark and intellectual property law. Her career then led her to the bench, where she has been a Federal judge for the last 17 years. That is a pretty good time for testing.

The truth is, Judge Sotomayor comes to this nomination process with more judicial experience than any Supreme Court nominee in a century. Think about it when the detractors try to find ways to sully her reputation. But before she became a judge and long before she appeared before the Judiciary Committee, where she demonstrated a remarkable command of the law and comfort with her knowledge, Judge Sotomayor carved out a reputation as a brilliant legal mind.

Yet, in one of the most scurrilous campaigns against a judicial nominee I have ever witnessed, the partisan attack mills begin to churn out piles of distortions and half-truths about Judge Sotomayor right after the President picked her to be his nominee. They had

their gunsights settled on whoever it might be. But in this instance, we have one of the more distinguished scholars of the law to be able to be honored and to honor us at the same time. They tried to paint her as a radical. They even tried to paint her as a bully. They even tried to paint her as lacking intelligence. But there was absolutely no place in her judicial record to use anything serious against her. They went down the path of personal destruction; it has become a habit around here. They picked through her speeches. They zeroed in on one sentence here and another there to try to discredit her as nothing more than an affirmative-action choice.

I want to get one thing straight. Judge Sotomayor represents the best this country has to offer. She is a role model for all Americans, and she is, deservedly so, a source of great pride for the Latino community. By any standard, Judge Sotomayor is exceptionally well qualified to serve as an Associate Justice of the Supreme Court. With 17 years of judicial experience and 12 of those on the Second Circuit Court of Appeals, she is well equipped for the task of Supreme Court Justice.

If confirmed, she will be the only member of the Supreme Court who has previously worn a trial judge robe. The experience should not be overlooked. Right now, Justice Souter, whom Judge Sotomayor would replace on the Court, is the only Justice with a trial court background.

Earlier this year, before Justice Souter had even announced his retirement, Chief Justice Roberts said that the Court’s dearth of trial bench knowledge was, here I quote, “an unfortunate circumstance” and a “flaw.” Trial court judges handle civil and criminal cases and they see firsthand the impact of the law on ordinary Americans.

While on the trial bench, Judge Sotomayor handled 450 cases. Put directly, her experience is varied, multifaceted. What is more, she was appointed to the bench by both Democratic and Republican Presidents. Did they have bad judgment? I think not. I think not. Her record proved that. On any fair examination of her judicial record, including more than 400 published opinions as a Federal appellate court judge, it shows she is balanced in her approach, takes in all the facts, and follows precedent. Her legal reasoning has been consistently admired for applying the law fairly, and her opinions reveal nothing more than a strict adherence to the rule of law.

The American Bar Association has given her its highest rating, calling her “well qualified.”

That is a distinction of significant importance.

This nomination is an incredibly important moment for our country. The Supreme Court makes decisions that

determine the very contours of our country’s future. It has a direct say on the rights or lack of rights that our children and grandchildren will have.

The Court decides whether big corporations have a stronger claim to justice than the little guy. The Court sets the table for government power, whether it goes unchecked or is responsible to the people. That is the domain. Critical. The rulings of the Court affect everyday people from New Jersey and everyday Americans.

The Framers of the Constitution created a system of checks and balances with three coequal branches. No one understands that better than Judge Sotomayor, who said during her confirmation hearings, “The task of a judge is not to make law, it is to apply the law.”

After consideration, careful consideration, I conclude that I must vote “yes” on the confirmation of Judge Sotomayor. Judge Sotomayor has consistently shown judicial restraint and she will prove to be a strong and independent voice on that Court.

Like many Americans, I am sure I will not always agree with every decision she makes. But I have the comfort of knowing, of believing, that she will resolve legal questions with an open mind, will put the rule of law above any personal beliefs.

Her judicial record is unparalleled. Her professional and academic credentials are impeccable, and her story is inspiring. I watched and listened carefully to what she had to say during her confirmation hearings and when we met in person.

Her life has been one of breaking down barriers. I look forward to seeing her break one more. For those reasons I am honored to support Judge Sotomayor’s breakthrough nomination.

I hope my colleagues will step up and vote their conscience and vote their beliefs and not inject any of the insignificant things we have seen discussed all over the place until this. I hope they will confirm her in an overwhelming majority, which is what she and the country deserve.

I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut is recognized.

Mr. DODD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DODD. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DODD. Mr. President, I rise in strong support of the nomination of Judge Sonia Sotomayor to be an Associate Justice of the U.S. Supreme Court.

I wish to thank PAT LEAHY, my seatmate here in the Senate, the Chairman of the Judiciary Committee, for his leadership. Let me also thank JEFF SESSIONS, who is the ranking Republican on the committee, and all members of the committee.

Those are pretty important jobs they have. Obviously they are considering nominees for the district court, the appellate court. But moments when you consider a nominee to the Supreme Court do not happen every day and are pretty significant moments.

I commend the committee for the speed with which they handled this. A lot of time these matters can get tied up for weeks on end, as we have seen in prior years. But I particularly commend PAT LEAHY, who does a great job chairing the Judiciary Committee, and all members for their work in this area.

Article II of the Constitution gives the Senate an awesome responsibility for providing advice and consent on judicial nominations. Those who we confirm are in a lifetime position as one of the nine men and women who will have the ability to literally shape every phase of American law and society.

Other than authorizing war or amending the U.S. Constitution, this body has no more important power than the one we exercise when we choose to confirm a nominee to sit on the U.S. Supreme Court.

Clearly, then, the Constitution demands that we subject nominees to very close scrutiny. But it does not tell us how. Each Senator must determine for himself or herself the appropriate criteria.

Over the years I have been here, I have had the privilege of listening, not as a member of the Judiciary Committee, but as a Member of this body, to debates, and there have been some tremendous ones over the years on various nominees. Most have been confirmed, some have not. But it is usually a robust debate, an important debate, and the scrutiny of these nominees is the highest any nominee for any office receives.

I have always relied on a three-part test.

The first test I apply, and have done this across the board over the years: Does the nominee have the technical competence and legal skills to do the job?

Second: Does the nominee have the proper character and temperament to serve on the highest Court of our land?

And, third: Does the nominee's record demonstrate respect for and adherence to the principle underlying our legal system—that is, equal justice for all?

I am convinced, without any doubt or hesitation, that Judge Sotomayor passes all three tests with distinction.

As to Judge Sotomayor's competence: Her résumé is that of experi-

enced and accomplished jurist, one who will take her seat with more bench experience, I might point out, as I am sure others have, than any other Justice currently serving on the U.S. Supreme Court.

She graduated from Yale Law School in my home State of Connecticut, has been a prosecutor and private attorney, and spent 17 years on the Federal bench as both a district court judge and an appellate court judge.

As to Judge Sotomayor's character: Her long list of enthusiastic recommendations and her terrific performance before the Judiciary Committee revealed her to be a remarkable woman of deep integrity. Her incredible life story, rising from a housing project in the Bronx to the height of American jurisprudence, is truly an inspiration. And, of course, as someone who would be the first Latina and third woman to serve on the Court, Judge Sotomayor is an historic figure.

As to Judge Sotomayor's legal philosophy: Her writings and her thoughtful answers to difficult questions raised by our colleagues on the Judiciary Committee make it clear that Judge Sotomayor is committed to the principle of equality that forms the foundation of America's system of jurisprudence.

For Judge Sotomayor, as for any nominee, that is enough to earn my vote, regardless of what I think about any particular decision. I voted to confirm Chief Justice Roberts, much to the consternation of people in my own party and others who felt we should object because we did not agree with Judge Roberts' decisions in a number of cases. But I applied my three-part test and Justice Roberts passed. I have applied that test over the years.

So while I have not agreed with every decision that the Chief Justice has taken during his tenure on the bench, I would still tell you it was a good choice, despite my disagreement with some of his decisions. It is the kind of quality you want on the Supreme Court.

I worry deeply in this body that if we start taking standards to apply to the nominees for the Supreme Court, such as we appear to be doing, I think we do damage to the tradition we must uphold in this body of applying standards that go far beyond our particular concerns about decisions here and there, or to listen to constituency groups to such a degree that they dominate the vote patterns here in the Senate.

Frankly, I do not think I am telling any of my colleagues anything they do not know already. I do not think anybody in this Chamber believes that she is incompetent or temperamentally unsuited for the job, or that she does not believe in equal justice under the law.

The actual debate, however, has focused not on the nominee's enormous body of exemplary work but a few ex-

amples from her career, selected for their ability to create controversy.

Out of thousands of decisions—and that is not hyperbole; she has been involved in thousands of decisions—if it were not amusing to me it would be disturbing to me. There are eight cases that were the subject of debate in her nomination, eight cases out of thousands in which she rendered an opinion either as a joint participant in the opinion or as the sole decider in the case.

So out of thousands of cases, eight items were brought up. Frankly, you could do that with anybody. But someone who has had 17 years on the bench, going through thousands of cases, if that is the basis for being against this nominee, I do not know if anyone can ever pass the test here if that were the case, if you are looking for people with experience and temperament and ability to judge.

She should not be confirmed just because of her ethnicity. As someone who is proud that he speaks the Spanish language, served the Peace Corps in Latin America, in the Dominican Republic, and knows the area where Judge Sotomayor grew up in the Bronx, her nomination should not rest solely on ethnicity. And she would be offended if she thought it were the case.

But it also is a moment of celebration as well, that we in this country respect diversity of our population. Many have said this is a remarkable story, and I appreciate the point they are trying to make. But it is not terribly remarkable, it is America. And in America that story is not remarkable. That is the great brilliance of our country. We have a President of the United States who was raised by a single mother under difficult circumstances. Bill Clinton, whom we are talking about today because of his heroic efforts to help release the two women who were held in North Korea, had an equally compelling story. Ronald Reagan had a compelling story.

There are many people who have risen to incredible heights in our country in success in the private and public sector who have come from similar circumstances as Judge Sotomayor. It is a great tribute to our country that people such as Judge Sotomayor can achieve the success she has because we celebrate it in our country.

So it is more a reflection I think of today's political climate than it is on this terrific nominee who we have the privilege of voting for. The legal and political issues raised during her confirmation hearings are complex and interesting, as they should be. But the decision currently facing the Senate is not a hard call, in my view. I have been here when there have been hard calls. This is not a hard call. This ought to be an easy call for Members here.

She is a brilliant jurist. She is a remarkable American. And she is going

to make a fantastic Justice on the U.S. Supreme Court. I could not be prouder, when the time arrives, to cast my vote in favor of this nominee.

The Judiciary Committee has received letters of support from several State and local bar associations, including the New York City Bar, the Women's Bar Association of the State of New York, and the Connecticut Hispanic Bar Association.

The Connecticut Hispanic Bar Association, which honored Judge Sotomayor in 1998 with its Achievement Award at its Annual Awards Dinner, wrote:

Since being appointed to the bench, Judge Sotomayor has compiled an exemplary and distinguished record. She has earned a stellar reputation as a defender of the rule of law and praise for her thoughtful and thorough written opinions.

I ask unanimous consent these letters be printed in the RECORD.

EXHIBIT 1

WOMEN'S BAR ASSOCIATION
OF THE STATE OF NEW YORK,
New York, NY, July 1, 2009.

Senator PATRICK J. LEAHY,
*U.S. Senate, Russell Senate Office Building,
Washington, DC.*

DEAR SENATOR: As president of the Women's Bar Association of the State of New York (WBASNY), I am pleased to present the attached statement in support of the confirmation of Judge Sonia Sotomayor—a WBASNY member—to the United States Supreme Court. Her outstanding experience, her philosophy of judicial moderation, and her distinctive perspective, as demonstrated by her legal opinions, make her superbly qualified for this service.

I respectfully request that WBASNY be given the opportunity to testify about Judge Sotomayor during the U.S. Senate confirmation hearings.

Sincerely,

CYNTHIA SCHROCK SEELEY.

WOMEN'S BAR ASSOCIATION OF THE
STATE OF NEW YORK

STATEMENT IN SUPPORT OF JUDGE SONIA
SOTOMAYOR
June 30, 2009

INTRODUCTION

The Women's Bar Association of the State of New York ("WBASNY"), representing more than 3,800 attorneys, judges, and law students from across the State of New York, is honored and proud to support President Obama's nomination of Second Circuit Judge Sonia Sotomayor—a WBASNY member—to the United States Supreme Court. Judge Sotomayor's wealth of experience, keen intelligence, and moderate judicial philosophy make her extremely well-qualified to serve as an Associate Justice of the Supreme Court.

OUTSTANDING EXPERIENCE

Judge Sotomayor has superb educational credentials and more than sixteen years' experience as a federal judge. After graduating *summa cum laude* from Princeton University, she served as an editor of *The Yale Law Journal* while pursuing her law degree at Yale Law School. For the first five years of her career, Judge Sotomayor was an assistant district attorney for the County of New York, prosecuting such crimes as murder, robbery, child abuse, police misconduct, and

fraud. New York District Attorney, Robert M. Morgenthau, calls her a "fearless and effective prosecutor," who "believes in the rule of law." After leaving the district attorney's office, Judge Sotomayor worked for a private law firm as a corporate litigator, where she handled complex commercial cases, both international and domestic. Her work focused on the areas of intellectual property, real estate, employment, banking, contracts, and agency law.

In October 1992, Judge Sotomayor was appointed to the U.S. District Court for the Southern District of New York by President Bush and became the youngest judge on the Court. In her six years as a district court judge, Judge Sotomayor presided over approximately 450 cases, earning a reputation as a "sharp" and "fearless" jurist. She was elevated to the U.S. Court of Appeals for the Second Circuit in 1998 by President Clinton, where she has participated in more than 3000 appeals and written approximately 400 published opinions. Her colleagues on the Second Circuit bench have praised her as "a brilliant lawyer and a very sound and careful judge" who is "fair and decent in all her dealings."

JUDICIAL PHILOSOPHY—A PASSION FOR MODERATION

Judge Sotomayor's judicial opinions faithfully adhere to applicable legal precedents, defer to legislative and regulatory decision-making, and carefully examine the facts of each case. Because she applies the same principled analysis to each matter she reviews, her conclusions do not fall into superficially predictable categories. Judge Sotomayor's application of the law hews closely to established law and precedents. Hers is a clear and consistent voice for moderation that demonstrates an appreciation for the far-reaching implications of appellate decisions. Essentially limiting the scope of her own power, Judge Sotomayor is a model of judicial restraint.

In dissenting from the Second Circuit's reversal of a district court decision that dismissed an age discrimination claim brought by a seventy-year-old clergyman, Judge Sotomayor wrote that the majority opinion "violate[d] a cardinal principle of judicial restraint by reaching unnecessarily the question of [the Religious Freedom Restoration Act]'s constitutionality" when the question had not been presented to the Court." Similarly, upon reviewing an immigration asylum case that addressed China's restrictive family planning policies, Judge Sotomayor wrote that the majority opinion "mark[ed] an extraordinary and unwarranted departure from our longstanding principles of deference and judicial restraint."

Judge Sotomayor's awareness of the long-range effects of judicial decisions undergirds her passion for judicial restraint. Addressing an immigration asylum claim brought by three women who had been subjected to female genital mutilation in their native Guinea, Judge Sotomayor wrote that a colleague's analysis of continuing persecution claims was "unnecessary . . . may never need to be decided, . . . [and] . . . could have far reaching implications in other types of cases." Reviewing a Fourth Amendment claim of illegal search in the context of a plaintiff's suit for money damages, Judge Sotomayor reminded her colleagues of the Supreme Court's articulation of the applicable law: "[T]he Supreme Court has struck a careful balance between the vindication of constitutional rights and government officials' ability to exercise discretion in the performance of their duties. Our case law, in

subtle but important ways, has altered this balance . . . In the vast majority of cases, including this one, the particular phrasing of the standard will not alter the outcome . . . [y]et the effect in future cases may not always be so benign. . . . It is time to . . . reconcile our . . . analysis with the Supreme Court's most recent, authoritative jurisprudence."

DISTINCTIVE COMMON-SENSE PERSPECTIVE

Judge Sotomayor brings a distinctive common-sense perspective to the Court, and an appreciation of the differences among litigants' individual attributes and experiences. In 2007, then-Senator Obama might have been describing Judge Sotomayor when he said, "Part of the role of the Court is . . . to protect people who may be vulnerable in the political process, the outsider, the minority, those who are vulnerable, those who don't have a lot of clout." While always adhering to established law and precedent, her opinions and decisions reveal a special sensitivity to challenges facing those whom WBASNY seeks to protect: women and other groups for whom the equal administration of justice has been elusive, such as immigrants, children, and the disabled.

Judge Sotomayor is eminently qualified for the Supreme Court without regard to gender. However, the members of WBASNY believe that her gender enhances her other stellar qualifications. Supreme Court Justice Ruth Bader Ginsburg recently stated that the Supreme Court needs another woman: "[T]here are perceptions that we have because we are women. . . . Women belong in all places where decisions are being made. I don't say (the split) should be 50-50. It could be 60% men, 40% women, or the other way around. It shouldn't be that women are the exception." Similarly, Justice Sandra Day O'Connor stated, "Despite the encouraging and wonderful gains and the changes for women which have occurred in my lifetime, there is still room to advance and to promote correction of the remaining deficiencies and imbalances." Addressing an audience of WBASNY members in 1999, Judge Sotomayor discussed the impact of her gender on her own jurisprudence: "Each day on the bench, I learn something new about the judicial process and its meaning, about being a professional woman in a world that sometimes looks at us with suspicion. . . . I can and do . . . aspire to be greater than the sum total of my experiences but I accept my limitations. I willingly accept that we who judge must not deny the differences resulting from experience and gender but attempt . . . continuously to judge when those opinions, sympathies and prejudices are appropriate."

Judge Sotomayor's decisions reflect an understanding of "women's issues" and how they are essentially human issues. Dissenting from an immigration decision, Judge Sotomayor wrote, "The majority concedes that both spouses suffer a 'profound emotional loss' as a result of a forced abortion or sterilization, but it never sufficiently explains why the harm of sterilization or abortion constitutes persecution only for the person who is forced to undergo such a procedure and not for that person's spouse as well. . . . [T]he majority's conclusion disregards the immutable fact that a desired pregnancy . . . necessarily requires both spouses to occur, and that the state's interference with this fundamental right 'may have subtle, far reaching and devastating effects' for both husband and wife. The termination of a wanted pregnancy under a coercive population control program can only be devastating to any couple, akin, no doubt, to the killing of a child."

In the same case, Judge Sotomayor addressed the Court's obligation to consider the differences between Chinese asylum seekers and U.S. citizens when making assumptions about parties' actions: "We simply have no foundation on which to conclude that all couples have the financial resources to escape at the same time, and as the government stated at oral argument, it is not uncommon for Chinese couples to separate and have one spouse go abroad in order to amass the necessary resources to bring over the other spouse. I believe the majority here is opining on a subject—imbued with potentially significant cultural differences—with which it has no expertise or empirical evidence."

Judge Sotomayor has also demonstrated an understanding of the particular difficulties women and girls face in our society. In a case alleging discriminatory failure to promote and retaliatory discharge, Justice Sotomayor held that the plaintiff had failed to establish that she was discriminated against on either basis.¹ However, addressing the same employee's claim of sexual harassment, Judge Sotomayor held that testimony that the woman's supervisor repeatedly commented that "women should be barefoot and pregnant . . . [and that he] would stand very close to women when talking to them and would 'look[] at [them] up and down in a way that's very uncomfortable'" was sufficient to entitle the plaintiff to a jury trial on the question of whether she had been subjected to a hostile work environment.

In a case involving strip searches of young girls admitted to juvenile detention centers, Judge Sotomayor wrote that the majority failed adequately to consider "the privacy interests of emotionally troubled children," most of whom "have been victims of abuse or neglect, and may be more vulnerable mentally and emotionally than other youths their age." She cautioned, "We should be especially wary of strip searches of children, since youth 'is a time and condition of life when a person may be most susceptible to influence and to psychological damage.'"

Dissenting from a dismissal of a claim that a school district had discriminated against an African American child in demoting him from first grade to kindergarten, Judge Sotomayor wrote, "I consider the treatment this lone black child encountered . . . to have been . . . unprecedented and contrary to the school's established policies." She found it "crucial" that the student as "the only black child in this classroom and one of the very few black students in the entire school."

Addressing a claim brought by a father who was investigated by the Vermont Department of Social and Rehabilitation Services after his estranged wife accused him of sexually abusing his three-year-old son, Judge Sotomayor first noted that the U.S. Supreme Court has afforded constitutional protection to parents' interest in the care, custody and management of their children, then addressed the "compelling governmental interest in the protection of minor children, particularly in circumstances where the protection is considered necessary as against the parents themselves." Carefully analyzing the actions of the social workers sued by the father, and the applicable law available to guide the actions of those social workers, Judge Sotomayor ultimately held that despite problems with the investigation, "we conclude that defendants had a reasonable basis for their substantiation determination and that they there-

fore did not violate plaintiffs' constitutional rights." However, she also provided clear guidance to child protection workers: "[F]rom this day forward, these and other case workers should understand that the decision to substantiate an allegation of child abuse on the basis of an investigation similar to but even slightly more flawed than this one will generate a real risk of legal sanction."

Judge Sotomayor has also thoughtfully applied the law governing the rights of disabled persons. In holding that the court below had inaccurately formulated a jury charge in an employment discrimination case, Judge Sotomayor wrote, "Taken as a whole, the charge suggests that an employer may offer any accommodation that does not cause an undue hardship, including reassignment to an inferior position, and that the plaintiff is required to accept The district court . . . erred."

As a district judge for the Southern District of New York, Judge Sotomayor considered a claim brought by a woman with a learning disability who sought reasonable accommodations in taking the New York State Bar Examination. Judge Sotomayor conducted a total of twenty-five days of trial, reviewed thousands of pages of exhibits and briefs, and heard testimony from eight experts, finally concluding that the plaintiff was entitled to accommodations of her disability in taking the bar examination, and \$7,500 in damages. Her detailed and respectful treatment of the parties and witnesses in a decision on a matter involving less than ten thousand dollars in damages is testament to her commitment to the fair and equal administration of justice to all who come before her.

In another case, Judge Sotomayor considered a district court's dismissal of the claim of a former employee who alleged that he was discharged after he suffered a disabling back injury. In a clear and erudite decision, Judge Sotomayor addressed the interplay of three different disability statutes, evaluated complex procedural issues, and analyzed the potential liability of a parent corporation and a sister corporation for employment discrimination. Her succinct conclusion reinstated the employee's claim against his employer, affirmed the dismissal of the claim against the sister corporation, and resolved the procedural issues.

CONCLUSION

Judge Sotomayor's jurisprudence defies easy categorization because each of her decisions is characterized by careful consideration of the law and the facts. Her clear and compelling analyses and her fair treatment of the parties epitomize the ideal qualities of a Supreme Court Justice. She will bring balance and perspective to the Court and will enhance the delivery of justice to all.

CONNECTICUT

HISPANIC BAR ASSOCIATION,
Hartford, CT, July 10, 2009.

Senator PATRICK J. LEAHY,
U.S. Senate,
Washington, DC.

DEAR SENATOR LEAHY: The Connecticut Hispanic Bar Association (CHBA) writes on the eve of the commencement of the hearing on Judge Sonia Sotomayor's nomination to the United States Supreme Court to urge you and the other members of the United States Senate Judiciary Committee to treat Judge Sotomayor with the respect she deserves, examine her extensive record thoughtfully, and perform your constitutional duty to advise and consent to her

nomination expeditiously and without obstruction.

Founded in 1993, the CHBA works to enhance the visibility of Hispanic lawyers throughout the state; to facilitate communication and sharing of information and resources among our members; to serve as mentors to new lawyers and law students; and to assist the public and private sectors in achieving diversity in their law firms and legal departments. The CHBA also serves to address and respond to issues impacting our Hispanic communities, including the issues of access to the courts, judicial diversity and other social challenges.

Judge Sotomayor is a member and a longtime supporter of the CHBA. In recognition of her accomplishments, the CHBA honored Judge Sotomayor in 1998 with its Achievement Award at its Annual Awards Dinner.

Since being appointed to the bench, Judge Sotomayor has compiled an exemplary and distinguished record. She has earned a stellar reputation as a defender of the rule of law and praise for her thoughtful and thorough written opinions. Moreover, in her over 11 years of service with the United States Second Circuit Court of Appeals, she has participated in over 3,000 decisions and authored approximately 400 opinions on important issues of constitutional law, difficult procedural matters, and complex corporate and business issues.

Additionally, as you know, her personal story is similarly compelling. Judge Sotomayor grew up in a working-class family in New York City. She attended Princeton University on a scholarship where she graduated summa cum laude and was elected Phi Beta Kappa. She went on to earn her law degree at Yale Law School where she was an editor of the Yale Law Journal. During most of her career, Judge Sotomayor has chosen to serve the American public, first as a prosecutor in Manhattan and then as a federal judge.

The CHBA fully supports the appointment of Judge Sotomayor to the United States Supreme Court and urges the United States Senate Judiciary Committee to do the same.

Sincerely,

RENÉ ALEJANDRO ORTEGA,
President.

NEW YORK CITY BAR,
New York, NY, June 30, 2009.

Re evaluation of nomination Judge Sonia Sotomayor.

Hon. PATRICK J. LEAHY,
Russell Senate Office Building,
Washington, DC.

DEAR SENATOR LEAHY: The Association of the Bar of the City of New York reviewed and evaluated the nomination of Judge Sonia Sotomayor to be a Justice of the United States Supreme Court. The Association found Judge Sotomayor to be Highly Qualified for that position.

A report detailing our findings can be found at: http://www.nycbar.org/pdf/report/11693606_3.pdf

Sincerely,

PATRICIA M. HYNES,
President.

THE ASSOCIATION OF THE BAR OF THE CITY OF NEW YORK FINDS JUDGE SONIA SOTOMAYOR HIGHLY QUALIFIED FOR U.S. SUPREME COURT

NEW YORK, June 30, 2009.—Patricia M. Hynes, President of The Association of the Bar of the City of New York, announced that the Association has concluded that Judge Sonia Sotomayor is Highly Qualified to be a Justice of the United States Supreme Court.

The Association found that Judge Sotomayor demonstrates a formidable intellect; a diligent and careful approach to legal decision-making; a commitment to unbiased, thoughtful administration of justice; a deep commitment to our judicial system and the counsel and litigants who appear before the court; and an abiding respect for the powers of the legislative and the executive branches of our government.

In conducting its evaluation, the Association reviewed and analyzed information from a variety of sources: Judge Sotomayor's written opinions from her seventeen years on the circuit court and district court; her speeches and articles over the last twenty-one years; her prior confirmation testimony; comments received from the Association's members and committees; press reports, blogs and commentaries; interviews with her judicial colleagues and numerous practitioners; and an interview with Judge Sotomayor.

The Association determined that Judge Sotomayor possesses, to an exceptionally high degree, all of the qualifications enumerated in the Guidelines established by the Association for considering nominees to the United States Supreme Court: (1) exceptional legal ability; (2) extensive experience and knowledge of the law; (3) outstanding intellectual and analytical talents; (4) maturity of judgment; (5) unquestionable integrity and independence; (6) a temperament reflecting a willingness to search for a fair resolution of each case before the court; (7) a sympathetic understanding of the Court's role under the Constitution in the protection of the personal rights of individuals; and (8) an appreciation for the historic role of the Supreme Court as the final arbiter of the meaning of the United States Constitution, including a sensitivity to the respective powers and reciprocal responsibilities of the Congress and Executive.

The Association has been evaluating judicial candidates for nearly 140 years in a non-partisan manner based upon the nominees' competence and merit. Although the Association had evaluated a number of Supreme Court candidates over the course of its history, in 1987 it determined to evaluate every candidate nominated to the Supreme Court.

In 2007, the Executive Committee of the Association moved from a two-tier evaluation system in which candidates were found to be either "qualified" or "not qualified", to a three-tier evaluation system. The ratings and the criteria that accompany them are as follows:

"Qualified." The nominee possesses the legal ability, experience, knowledge of the law, intellectual and analytical skills, maturity of judgment, common sense, sensitivity, honesty, integrity, independence, and temperament appropriate to be a Justice of the United States Supreme Court. The nominee also respects precedent, the independence of the judiciary from the other branches of government, and individual rights and liberties.

"Highly Qualified." The nominee is qualified, to an exceptionally high degree, such that the nominee is likely to be an outstanding Justice of the United States Supreme Court. This rating should be regarded as an exception, and not the norm, for United States Supreme Court nominees.

"Not Qualified." The nominee fails to meet one or more of the qualifications above.

The present review is the first time the Association has utilized this three-tier system for a Supreme Court review.

The PRESIDING OFFICER. The Senator from Kansas is recognized.

Mr. ROBERTS. Mr. President, I ask unanimous consent that the Republican time for the next hour be allocated as follows: myself for 10 minutes, Senator BARRASSO for 10 minutes, Senator CRAPO for 15 minutes, Senator WICKER for 10 minutes, and Senator COLLINS for 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ROBERTS. Mr. President, I rise today to express my opposition, my considered opposition, to Judge Sonia Sotomayor's nomination to the U.S. Supreme Court.

As Senators, I think we all know we have an obligation to ensure that our courts are filled with qualified and impartial judges.

While Judge Sotomayor has an impressive resume—that is a given—I am concerned that her personal judgments and views will impact her judicial decisions. In addition, I find some of her rulings very troubling.

During the Senate's debate on the nomination of Chief Justice John Roberts, then-Senator Obama stated:

that while adherence to legal precedent and rules of statutory or constitutional construction will dispose of 95 percent of the cases that come before the Court, so that both a Scalia or Ginsburg will arrive at the same place most of the time on those 95 percent of the cases, what matters on the Supreme Court is those 5 percent of cases that are truly difficult. In those cases, adherence to precedent and the rules will only get you through the 25th mile of the marathon. That last mile can only be determined on the basis of one's deepest values, one's core concerns, one's broader perspectives on how the world works, and the depth and breadth of one's empathy.

Thus the entrance of the "empathy" issue to this debate. I respectfully disagree with now-President Obama.

Judges must decide all cases in adherence to legal precedent and rules of statutory or constitutional construction. It does not mean if they do that they do not have empathy. I agree—and I think everybody would agree—everybody on the Supreme Court has empathy. But the role of a judge is not to rule based on his or her own personal judgments but to adhere to the laws as they are written.

While Judge Sotomayor stated during her confirmation hearing that "it is not the heart that compels conclusions in cases, it is the law," I still have concerns regarding her ability to remain impartial. She has made some statements in Law Review articles and speeches that are of serious concern. I am not convinced that Judge Sotomayor will set aside her personal judgments and views.

While on the Second Circuit Court of Appeals, Judge Sotomayor joined a four-paragraph ruling on property rights. In *Didden v. Village of Port Chester*, the appellants claimed that a developer demanded \$800,000 in order to avoid condemnation of the property by

the city. When the appellants refused to pay the \$800,000, they received a petition to initiate condemnation. Although the Second Circuit Court of Appeals dismissed the case, it was noted that relief could not be granted based on the U.S. Supreme Court's decision in *Kelo v. City of New London*. That four-paragraph ruling didn't even provide an in-depth analysis as to how the *Kelo* ruling applied to the facts at hand. In fact, the *Kelo* decision acknowledges that "a city no doubt would be forbidden from taking land for the purpose of conferring a private benefit on a particular party."

The four-paragraph ruling in *Didden* is very troubling. In Kansas, land is gold; farmland is platinum. We have a healthy respect for property rights in Middle America. It also bothers me that a court could make a broad statement without analyzing and applying the facts to case law.

Turning to firearm rights, Judge Sotomayor joined an opinion ruling that the second amendment is not a fundamental right and, therefore, does not apply to State and local governments. It is likely that at some point the second amendment's application to States could be argued before the Supreme Court. That could come very quickly. I would certainly hope that should this matter be argued before the Supreme Court, Judge Sotomayor would recuse herself. During her hearing, she did not indicate whether she would recuse herself in any decision. That was not, however, the case during the nomination hearings of Judges Alito and Roberts.

I do not discount the fact that Judge Sotomayor is a very accomplished judge and has an extensive judicial record. However, some of her statements, writings, and rulings concern me. They indicate her personal judgments and views may impact her judicial decisions. We have a constitutional obligation to ensure that our judges are impartial and faithful to the law.

During Chief Justice John Roberts' confirmation hearing, he noted:

Judges and justices are servants of the law, not the other way around. Judges are like umpires. Umpires don't make the rules. They apply them. The role of an umpire and judge is critical. They make sure everybody plays by the rules [not by empathy], but it is a limited role. Nobody ever went to a ball game to see the umpire.

I am not convinced that Judge Sotomayor will be an umpire and consistently adhere to the rule of law as opposed to empathy.

For these reasons and others cited by some of my colleagues, I oppose her nomination.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. BARRASSO. Mr. President, I have three criteria in evaluating an individual to fill a vacancy on the Supreme Court. First, select the best candidate for the job. Second, the Justice must be impartial and allow the facts and Constitution to speak. Third, a Justice's responsibility is to apply the law not to write it.

I have reviewed Judge Sotomayor's record, and I met with her to learn more about her. I want to take a moment to share my thoughts on Judge Sotomayor's nomination.

Judge Sotomayor has a compelling life story. She was raised in public housing projects in the Bronx. She was diagnosed with type 1 diabetes at age 8. Her father died when she was 9, and she was subsequently raised by her mother. Judge Sotomayor graduated valedictorian of Cardinal Spellman High School in the Bronx. She graduated summa cum laude from Princeton. She earned her juris doctorate from Yale Law School, where she was editor of the Yale Law Review. After graduating from law school, Judge Sotomayor worked as an assistant district attorney in New York City for 5 years. She then worked in private practice for 7 years.

In 1991, Judge Sotomayor was nominated to the Federal bench by President George Herbert Walker Bush. In 1998, President Clinton nominated her to the Second Circuit Court of Appeals where she currently sits.

I believe Judge Sotomayor has the legal experience and the skills to be considered for the Supreme Court. During the confirmation process, questions were raised about her ability to make decisions on the facts presented not on events and facts that became ingrained during her life. Judges must be impartial and allow the facts and the Constitution to speak not their personal experience. For America's judicial system to work, judges must always remain impartial.

At her confirmation hearing, Judge Sotomayor stated that her judicial philosophy is "fidelity to the law." This is in contrast to her extensive commentary over the past 15 years, a commentary that emphasizes personal experience over impartiality in a judge's decisionmaking. The contrast is especially troubling when a judge, as was the situation in the case of *Ricci v. DeStaphano*, fails to articulate the reasons for the decision.

In the *Ricci* case, the firefighters case, an exam was used as part of the promotion process. The exam consisted of a written test as well as an oral test. It was prepared by Industrial Organizational Solutions, a professional testing firm. The test measured individual knowledge, individual skills, and individual abilities related to the specific position being filled.

The highest scores on the written exam were achieved overwhelmingly by

White firefighters. After the results were posted, the city of New Haven, CT, did not like the results and decided at that point to not use the exam. Several officers sued. They sued the city for taking this action.

Who were the officers who sued? One was Frank Ricci, the lead plaintiff. He was a career firefighter. He is dyslexic. To study, he hired and paid someone to read the recommended study books onto an audio tape so he could listen to the tapes. He studied up to 13 hours a day. He gave up a second job, time with his family.

Lt Ben Vargas was another officer who sued and testified at Judge Sotomayor's confirmation hearing. He also has a career as a firefighter. He grew up in Fair Haven, which is a neighborhood of New Haven. His father was a factory worker. His family spoke Spanish at home, making school a challenge for him. He is the father of three boys. One of the reasons he joined the lawsuit:

I want them [my three sons] to have a fair shake, to get a job on their merits.

The district court ruled against the firefighters. Judge Sotomayor's court upheld the lower court ruling dismissing the case. Judge Sotomayor's court issued a one-paragraph opinion summarily dismissing the appeal. Her court failed to cite any precedents for this decision.

In June of 2009, the U.S. Supreme Court reversed Judge Sotomayor's opinion. The Supreme Court stated:

The City made its employment decision because of race. The City rejected the test results solely because the higher scoring candidates were white.

The Supreme Court went on to say:

The process was open and fair. The problem of course is that after the tests were completed, the raw racial results became the predominant rationale for the City's refusal to certify the results.

The Supreme Court's 34-page majority opinion, fully analyzing the facts and the legal issues, stands in stark contrast to the one-paragraph ruling by Judge Sotomayor. The lack of a detailed explanation by the judge's court on an issue that the Supreme Court said was not settled law is one I find troubling. More importantly, it raises doubt, fairly or unfairly, as to why Judge Sotomayor's court ruled the way it did. Through her own words, Judge Sotomayor's ability to completely disown personal beliefs and biases to reach a decision is in question.

I have additional concerns about the principles Judge Sotomayor will apply in deciding future cases involving important issues such as the second amendment. In a 2009 second amendment case decided by Judge Sotomayor's court, her court ruled that the second amendment did not apply to the States. The court cited Supreme Court cases from the 1800s as precedent. But Judge Sotomayor's

court went further. They ruled that the second amendment right is not a fundamental right, thereby allowing States and local authorities broad powers to deny individuals the right to bear arms. The court's ruling that the second amendment right is not a fundamental right can't be reconciled with recent decisions on other courts.

The U.S. Supreme Court, in a 2008 case, was asked to decide whether the District of Columbia could deny its citizens rights afforded to them under the second amendment. In its ruling, which was issued before Judge Sotomayor's 2009 decision, the Supreme Court said the second amendment confers an individual's right to keep and bear arms. The Court rightfully overturned the laws of the District of Columbia that denied citizens of the District the right to own a firearm.

In a 2009 ruling from the Ninth Circuit Court of Appeals, the court concluded that the series of 19th century Supreme Court cases cited by Judge Sotomayor were not controlling on the issue of whether the second amendment establishes a fundamental right. The Ninth Circuit Court concluded the Constitution did confer that right. The court ruled that the second amendment right to bear arms is a fundamental right of the people, and it is to be protected.

Judge Sotomayor, if confirmed, will receive a lifetime seat on the highest Court of the land. Her decisions may impact Americans and America for generations to come. Every American has the right to know what standard Judge Sotomayor will apply in judging future cases—fidelity to the law, as she stated in the hearings or, as she has stated in the past: "My experience will affect the facts I choose to see."

The Senate should know with absolute certainty the standard that Judge Sotomayor will use before confirming her to the Supreme Court. Without having that certainty, I am unable to support her nomination to the U.S. Supreme Court.

I yield the floor.

The PRESIDING OFFICER (Mr. WHITEHOUSE). The Senator from Idaho.

Mr. CRAPO. Mr. President, I rise today to discuss President Obama's nomination of Judge Sonia Sotomayor to serve on the U.S. Supreme Court.

First, I want to say I appreciate the efforts of my colleagues on the Judiciary Committee to hold thorough hearings and to process this nomination.

There is no doubt that Judge Sotomayor's resume is impressive, with degrees from Princeton and Yale Law School. She then worked as an assistant district attorney, and later in private practice before serving as a U.S. district court judge, and currently as a U.S. circuit court judge.

It is unfortunate the Senate confirmation process has reached a point

where nominees with such extensive backgrounds are no longer comfortable candidly discussing their judicial philosophy and views on key issues.

To date, I have received over 1,000 letters, e-mails, and phone calls from Idaho constituents who are overwhelmingly opposed to Judge Sotomayor's nomination. Many of the concerns raised in this correspondence are similar to concerns I personally have about the nomination—concerns relating to the second amendment right to bear arms, concerns relating to judicial activism, concerns relating to whether foreign law should be utilized in interpreting U.S. statutes and our Constitution.

It was my hope that through the committee hearings and my personal meeting with Judge Sotomayor and other evaluation of her writings and her judicial decisions that these concerns and those of my constituents could be addressed. Unfortunately, though, when it came to the key issues, Judge Sotomayor's testimony often lacked the substance necessary and was even contradictory to her own previous statements, rulings, and writings.

I would like to discuss some of those areas of concern. Before I do so, though, I want to make it very clear that with this nomination, many are very rightfully proud that for the first time in our country's history we have a Latina nominated to our highest Court. And it must be noted that she is receiving and being afforded a clean up-or-down vote on the floor of the Senate this week.

As I indicated at the outset, it is unfortunate the confirmation process in the Senate has deteriorated so much over the last few years that others have not received similar opportunities. I am referring in this example to Miguel Estrada. Like Judge Sotomayor, Judge Estrada was rated unanimously "well qualified" by the American Bar Association when President Bush nominated him to the U.S. Court of Appeals for the DC Circuit.

The DC Circuit is often considered to be a stepping stone for Supreme Court nominations, and at that time many thought Judge Estrada would be a strong nominee, that he might be the first Latino nominated to the Supreme Court. Judge Estrada would have deserved such an opportunity as Judge Sotomayor does. Unfortunately, some on the left feared that scenario, and as a result there was a filibuster and Judge Estrada was never even allowed to have an up-or-down vote on the floor of the Senate.

I make this point now just to remind us all that although there are many here who have concerns about some of the positions and philosophies Judge Sotomayor has, there has been no effort to deprive her of an opportunity for an up-or-down vote on the floor of

the Senate on her nomination. It is important our country recognize this.

Let me now turn to some of the issues I indicated earlier that are of concern. I know a number of my colleagues have spoken already about the issue of the second amendment right to keep and bear arms. That is one of my most significant concerns.

On July 27, 2008, the U.S. Supreme Court ruled in *District of Columbia v. Heller* that the second amendment to the Constitution protects an individual's right to keep and bear arms unconnected with service in a militia, and to use those arms for traditionally lawful purposes, such as self-defense within the home.

This ruling affirmed what common sense has told us all for a long time: that the second amendment was intended to ensure access to all law-abiding citizens for self-defense and recreation. Unfortunately, despite this ruling in *Heller*, Judge Sotomayor ruled in the *Maloney* case that the second amendment does not apply to the States.

Even the Ninth Circuit Court of Appeals, which has jurisdiction over my home State of Idaho and is often considered one of the most liberal courts in the land, has ruled the opposite way in a similar case, making it clear that second amendment rights are binding on the States.

In *Nordyke v. King*, the Ninth Circuit held that the right to bear arms is "deeply rooted in this Nation's history and tradition." Additionally, the court found that the "crucial role this deeply rooted right has played in our birth and history compels us to recognize that it is indeed [a] fundamental [right]."

Furthermore, and again even after the Supreme Court's ruling in *Heller*, Judge Sotomayor held that the second amendment does not protect a fundamental right.

With regard to whether the second amendment applies to States, I do not believe any reasonable person believes that other freedoms contained in the Bill of Rights do not apply to the States, such as freedom of religion, freedom of speech, or freedom of the press. Why is there a different standard or effort to try to keep the second amendment right to bear arms from being freely available to all individuals in the United States?

The Supreme Court has held in a series of opinions that the 14th amendment incorporates most portions of the Bill of Rights as enforceable against the States. Despite that *Heller* addressed firearms laws in the District of Columbia and not in a particular State, the Supreme Court used State constitutional precedents for its analysis in *Heller*. In fact, the Court's ruling was based in part on its reading of applicable language in State constitutions adopted soon after our Bill of

Rights itself was adopted and ratified. By doing so, the Supreme Court recognized that the second amendment was, in fact, a fundamental right guaranteed under the Constitution.

On the issue of whether the second amendment right to bear arms is a fundamental right, I am extremely concerned that a nominee for the highest Court in our land would make such an argument. I am very concerned that a nominee for the highest Court in our Nation could so construe the second amendment right to bear arms. This disregard of history and legal precedent is, to me, a clear sign of a penchant toward judicial activism.

As I have said, to reach her decision in *Maloney*, Judge Sotomayor had to, and did, make a judicial finding that the second amendment right to bear arms is not a fundamental right. In contrast, the Ninth Circuit Court of Appeals, in a footnote, said it as well as I think it can be said. The Ninth Circuit Court said:

The county—

Which in this case was the defendant which was seeking to implement some restrictions that were an infringement on the right to bear arms—

The county and its amici—

Those others who have filed briefs on the county's behalf—

point out that, however universal its earlier support, the right to keep and bear arms has now become controversial.

Again, this is the Ninth Circuit Court of Appeals speaking.

But we do not measure the protection the Constitution—

The Constitution—

affords a right by the values of our own times. If contemporary desuetude sufficed to read rights out of the Constitution, then there would be little benefit to a written statement of them. Some may disagree with the decision of [our] Founders to enshrine a given right in the Constitution. If so, then people can amend the document. But such amendments are not for the courts to ordain.

That is the kind of correct analysis the Supreme Court has clearly guided us to with regard to the second amendment right to bear arms.

Throughout Idaho and across the United States, many millions of Americans believe the second amendment is a fundamental right, and I am one of those. Soon enough, the Supreme Court will decide whether the second amendment is incorporated by the 14th amendment to apply to the States. When that case is taken up, the Court will decide just how "fundamental" the second amendment is and whether States and communities can take away Americans' right to bear arms any time they want.

I cannot support a nominee to the Supreme Court who does not recognize this fundamental right in our Constitution. For this reason, I must oppose the nomination of Judge Sotomayor.

In addition, with regard to the role of a judge and judicial activism, when it

comes to her views on the proper role of a judge, once again Judge Sotomayor's testimony before the Senate Judiciary Committee appears to directly contradict her publicly stated words and philosophy expressed prior to her nomination.

In 2003, when discussing her gender and heritage, Judge Sotomayor said:

My experiences will affect the facts I choose to see as a judge.

In another previous speech, she said:

Personal experiences affect the facts that judges choose to see.

This is simply shorthand for judicial activism and making policy rather than applying the law—exactly what the Ninth Circuit said courts were not to do. To defend against this very notion, however, justice is supposed to be blind. Indeed, Lady Justice is depicted with a blindfold. To judge by selectively choosing which facts to emphasize is akin to lowering the blindfold and taking a peek, thereby rejecting equal justice under the law. Those who are called to judge must adhere to the rule of law no matter what they personally think the law should be or what the outcome of a particular case should be.

After she was nominated to the Supreme Court, Judge Sotomayor told the Judiciary Committee:

My personal and professional experiences help me listen and understand, with the law always commanding the result in every case.

So we are left to wonder what has caused this contradiction, and whether she still believes that judges may choose to see the facts they want to see to get the result they want to get.

Also, I indicated I had a concern about foreign law. Another very puzzling contradiction in Judge Sotomayor's testimony involves the issue of judges looking to foreign law when deciding cases.

In her testimony before the Judiciary Committee, Judge Sotomayor said:

I have actually agreed with Justices Scalia and Thomas on the point that one has to be very cautious even in using foreign law with respect to the things American law permits you to.

However, in March of this year, in a speech to the ACLU of Puerto Rico, she did not seem to agree with Justices Scalia and Thomas when she said:

And that misunderstanding is unfortunately endorsed by some of our Supreme Court justices. Both Justice Scalia and Justice Thomas have written extensively criticizing the use of foreign and international law . . . in Supreme Court decisions. How can you ask a person to close their ears? Ideas have no boundaries. Ideas are what set our creative juices flowing. They permit us to think, and to suggest to anyone that you can outlaw the use of foreign or international law is a sentiment that's based on a fundamental misunderstanding. What you would be asking American judges to do is to close their minds to good ideas. . . . Unless American courts are more open to discussing the ideas raised by foreign cases, and by

international cases, we are going to lose influence in the world.

Mr. President, I do not agree. In fact, that a nominee to the highest Court in our land would say that our Constitution and our statutes in America may be interpreted by reliance on foreign law is alarming.

The Supreme Court is charged with deciding the constitutionality of a law or interpreting it in the context of our American system of justice, not in accordance with selectively chosen foreign laws, which are numerous, contradictory, and often inconsistent with American jurisprudence. How else would a judge choose among these various foreign laws and precedents other than selecting those that align with that judge's personal opinion?

Mr. President, I have raised three issues today that have caused me very significant concern: Judge Sotomayor's interpretation of the second amendment right to keep and bear arms, clearly written after the Supreme Court of the United States has given the guidance necessary for us to resolve the issue; her penchant toward choosing facts, enabling a judge or Justice, in this case, to reach the outcomes they want regardless of the way the law should be applied and the outcome that the law would otherwise require; and her willingness to allow American jurisprudence to be determined at the highest levels in our land by reliance on foreign law, foreign cases, and foreign precedent.

For these reasons, I cannot support President Obama's nomination of Judge Sotomayor to the Supreme Court. When we get to the vote on it this week, I will cast a "no" vote. I recognize the likelihood is her nomination will proceed and be confirmed, but it is my keen hope and conviction the issues I have raised and that many others have raised today will be heard and that, regardless of the outcome of the vote in the Senate this week, Judge Sotomayor, if she is confirmed, and all Justices on the Supreme Court will continue to recognize the fundamental nature of our right to bear arms under the second amendment; that they will focus on the proper role of judges not in creating law but in interpreting the law, and that they will decline to rely on foreign law to interpret and to create American jurisprudence.

With that, I yield the floor and note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. WICKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WICKER. Mr. President, I wish to begin by thanking the members of the Judiciary Committee for con-

ducting a thorough, fair, and respectful confirmation hearing. Judge Sotomayor herself stated that the hearing was as gracious and fair as she could have hoped. I consider that statement to be a tribute to Senators Leahy, Sessions and the committee members and their staffs and I commend them.

Article II, section 2 of the Constitution states that the President shall nominate—by and with the advice and consent of the Senate—Judges of the Supreme Court. The constitutional duty of "advice and consent" given to the Senate is of profound importance, particularly when considering a lifetime appointment to the Nation's highest Court. In reviewing Judge Sotomayor's nomination, I have taken this obligation very seriously.

Following Judge Sotomayor's nomination by the President, I, as did nearly all my colleagues in this Chamber, had a private, one-on-one meeting with her. We had a very cordial conversation, one in which I found Judge Sotomayor to be likeable and gracious. I appreciated learning more about her background. Make no mistake, Judge Sotomayor has a great personal and professional story to tell. She is proud of it, and she certainly should be. But in the instance of a Supreme Court nominee, the constitutional duty of advice and consent given to the Senate is not about personalities, likeability or life stories. It is about judicial philosophy and adherence to impartiality and fidelity to the law.

After careful consideration of her record, I was left with a number of irreconcilable concerns. I am deeply troubled by what I see as Judge Sotomayor's aversion to impartiality. The judicial oath requires judges to:

Administer justice without respect to persons, and do equal right to the poor and to the rich, and . . . faithfully and impartially discharge and perform all the duties incumbent upon [them] under the Constitution and laws of the United States.

To be clear, the oath requires judges to be impartial with respect to their social, moral and political views and to apply the law to the facts before them. In other words, provide equal justice under the law.

Yet Judge Sotomayor appears to believe in a legal system where decisions are based upon personal experiences and group preferences, not the letter of the law. Judge Sotomayor has said on repeated occasions that she:

Willingly accept[s] that judge[s] must not deny the differences resulting from experience and heritage but attempt . . . continuously to judge when those opinions, sympathies, and prejudices are appropriate.

These are her own words. She has stated many times, during more than a decade, that her background and personal experiences will affect the facts she chooses to see as a judge. In our brief meeting in June, Judge

Sotomayor stated this notion a slightly different way, by saying her Latina heritage caused her to “listen a different way.” I find these to be disconcerting statements which seem to conflict with the impartiality that I and an overwhelming majority of Americans believe is essential to our judicial system and even the very bedrock principles our Nation was founded upon.

In looking at her rulings, I noted that the Supreme Court has disagreed with Judge Sotomayor in 9 out of 10 cases it has reviewed and affirmed her in the remaining case by a narrow 5-to-4 margin. This record was demonstrated most recently in the Ricci case, where a majority of Justices of the Supreme Court rejected Judge Sotomayor’s panel decision. This is a case in which a group of firefighters who had studied for months and passed a test were denied promotion because not enough minority firefighters had done as well. In a one-paragraph, unsigned, and unpublished cursory opinion, Judge Sotomayor summarily—almost casually—dismissed the claims of these firefighters who had worked hard for a promotion.

When discussing the qualifications he would look for in replacing Justice Souter, President Obama said:

I view the quality of empathy, of understanding and identifying with people’s homes and struggles as an essential ingredient for arriving at just decisions and outcomes.

Empathy is a great personal virtue, but there is a difference between empathy as a person and empathy as a judge. Judges should use the law and the law only, not their personal experiences or personal view or empathy. Personal biases and empathy have no place in reaching a just conclusion under the law. Ricci is an example of where Judge Sotomayor clearly failed this important test.

In addition, I am deeply concerned about Judge Sotomayor’s decision in *Maloney v. Cuomo*, a second amendment case that could very easily be decided by the Supreme Court in the next year. In last year’s *Heller* decision, the Supreme Court ruled that the second amendment guarantees an individual right to keep and bear arms. Yet, in *Maloney*, Judge Sotomayor relied on 19th century cases, arguably superseded after *Heller*, to summarily hold that the second amendment does not apply to the States. If Judge Sotomayor’s decision is allowed to stand, the States will be able to place strict prohibitions on the ownership of guns and other arms. In refusing to confirm that the second amendment—a right clearly enumerated in the Bill of Rights—is a fundamental right that applies to all 50 States and, thus, to all Americans, Judge Sotomayor shows an alarming hostility to law-abiding gun owners across the country. That is a view that is certainly out of the mainstream in this Nation.

What is perhaps even more troubling is that *Maloney* is another example where Judge Sotomayor joined an unsigned, cursory panel decision. If she is confirmed to the Supreme Court, Judge Sotomayor will routinely hear cases raising fundamental constitutional issues such as *Maloney*. Those are the types of cases the Supreme Court hears. That is why issues of this nature make it to the Supreme Court. Yet Judge Sotomayor has a record of routinely dismissing such cases with difficult constitutional questions of exceptional importance to Americans with little or no analysis.

As an appeals court judge, Judge Sotomayor and her rulings are subject to a safety net: Her cases can be reviewed by the Supreme Court. In Ricci, the firefighters whose promotions were denied could appeal the decision and receive impartial justice. There is no backstop to the Supreme Court. Therefore, Judge Sotomayor’s elevation to our Nation’s highest Court takes on much more significance than her previous selection to the appeals court.

So let me be clear: I have tremendous respect for Judge Sotomayor’s life story and professional accomplishments. I commend her for her achievements, and I wish her well in the future. However, I am not convinced she understands the proper role of the courts in our legal system. Her record and her pronouncements are those of someone who sees the court as a place to legislate and make policy. I am not convinced Judge Sotomayor truly believes in the bedrock of our judicial system, which is impartiality under the law. Therefore, I must withhold my consent and vote no on her confirmation.

I yield the floor.

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Mr. President, I rise in support of the nomination of Sonia Sotomayor to serve as an Associate Justice of the U.S. Supreme Court.

The Constitution grants the President the power to nominate and appoint individuals to the Federal judiciary. It also gives the Senate the power of advice and consent to such appointments. It does not, however, provide any specific guidance to the Senate on how we should exercise this important power.

In a democracy, discourse and disagreement are inevitable. Some, including myself, would say that these ingredients are not only expected, they are necessary for the healthy continuation of our vibrant, dynamic democracy.

Given this backdrop, disputes regarding the scope of the Senate’s power of “advice and consent” are not uncommon or unexpected whenever the President puts forth a nominee for the Supreme Court. In fact, the ink on our Constitution was barely dry when the

Senate rejected John Rutledge, one of President Washington’s 13 nominees to the Supreme Court. Some Senators suggested they had voted against Mr. Rutledge out of a concern that he was losing his sanity. But the main reason for opposition to Mr. Rutledge appears to have been the nominee’s opposition to the Jay Treaty with Great Britain—a treaty popular with the federalist-controlled Senate.

Since Mr. Rutledge’s rejection by the Senate in 1795, Senators have continued to grapple with the criteria applicable to their evaluation of Supreme Court nominees and the degree of deference that should be accorded to the President.

There is no easy answer to this difficult question. Some argue that closer scrutiny by the Senate and less deference to the President is required when confirming judicial nominees, not only because Federal judges are in a separate branch of government but also because they have lifetime appointments. Thus, constitutional law scholar John McGinnis concludes that the text of the Constitution gives the Senate “complete and final discretion in whether to accept or approve a nomination.”

Many other legal scholars, however, articulate a more constrained role for the Senate. They argue that the Senate’s power should be exercised narrowly, giving extraordinary deference to the President. Under this standard, the Senate would not reject judicial nominees unless they were clearly unqualified to serve.

Citing Alexander Hamilton’s *Federalist* 76, those who would constrain the Senate’s review of judicial nominees explain that the “advice and consent” responsibility was only intended as a safeguard against incompetence, cronyism, or corruption. As Dr. John Eastman testified before the Judiciary Committee in 2003, the Senate’s power of “advice and consent” does not give “the Senate a coequal role in the appointment of Federal judges.”

The constitutional arguments on both sides of this question of how much deference to give the President are enlightening. But, as is so often the case, my personal belief is that the truth lies between the two extremes. As a Senator, I have afforded considerable deference to both Democratic and Republican Presidents on their Supreme Court nominees. In considering judicial nominees, I carefully consider the nominee’s qualifications, competency, personal integrity, judicial temperament, and respect for precedent. Those are the tests I have applied to Sonia Sotomayor. Having reviewed her record, questioned her personally, and listened to the Judiciary Committee hearings, I have concluded that Judge Sotomayor should be confirmed to our Nation’s highest Court.

My decision to support this nominee does not reflect agreement with her on

all of her rulings as a judge serving on the Second Circuit Court of Appeals. I disagreed, for example, with the perfunctory manner in which Judge Sotomayor has disposed of one case of constitutional consequence. Her panel's cursory analysis of the complex and novel questions about the 14th amendment's equal protection clause and title VII in the Ricci case—the case involving the New Haven firefighters, which has been called a reverse discrimination case—was as unfortunate as the decision itself. Indeed, in contrast to her panel's one-paragraph opinion, the Supreme Court, in this case, needed nearly 100 pages to debate and resolve just the statutory question presented—never mind the difficult constitutional questions that were set aside for another day.

But my concerns about a handful of Judge Sotomayor's rulings, as well as some of her prior comments over the course of her 17 years on the Federal bench, do not warrant my opposing her confirmation. Upon reading some of her other decisions, talking personally with her, questioning her at length, and hearing her response to probing questions, I have concluded that she understands the proper role of a judge and that she is committed to applying the law impartially, without bias or favoritism. Specifically, in her testimony before the Judiciary Committee, Judge Sotomayor reaffirmed that her judicial philosophy is one of "fidelity to the law."

She pledged "to apply the law," not to make it. She testified that her "personal and professional experiences" will not influence her rulings.

There is no question in my mind that Judge Sotomayor is well qualified to be an Associate Justice of the Supreme Court. She has impressive legal experience. She has excelled throughout her life, and she is a tremendously accomplished person. Indeed, the American Bar Association Standing Committee on the Federal Judiciary—after an exhaustive review of her professional qualifications, including more than 500 interviews and analyses of her opinions, speeches, and other writings—unanimously rated her as "well qualified."

Based on my personal review—a careful review—of her record, my assessment of her character, and my analysis of her adherence to precedent, Judge Sotomayor warrants confirmation to the High Court.

I know I will not agree with every decision Justice Sotomayor reaches on the Court, just as I have disagreed with some of her previous decisions. I believe, however, that her legal analyses will be thoughtful and sound and that her decisions will be based on the particulars of the case before her. My expectation is that Justice Sotomayor will adhere to Justice O'Connor's admonition that "a wise, old woman and

a wise, old man would eventually reach the same conclusion in a case."

Based on her responses to the Judiciary Committee, Justice Sotomayor will avoid the temptation to usurp the legislative authority of the Congress and the Executive authority of the President. As Chief Justice John Marshall famously wrote in *Marbury v. Madison*, the Court must "say what the law is." That, after all, in a nutshell, is the appropriate role for the Federal judiciary. For a judge to do more would undermine the constitutional foundations of the separate branches.

I will cast my vote in favor of the confirmation of Judge Sotomayor, as I believe she will serve our country honorably and well on the Supreme Court.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. SCHUMER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SCHUMER. Mr. President, I rise today in wholehearted support of the historic nomination of Judge Sonia Sotomayor to become an Associate Justice of the U.S. Supreme Court.

I have two words to summarize my feelings about this nomination: It's time. It is time we have a nominee to the Supreme Court whose record has proven to be truly mainstream. It is time we have a nominee with practical experience in all levels of the justice system, whose upbringing in a Bronx housing project, whose experience as a prosecutor, litigator, and district court judge has enabled her to see, as she said in her own statement, "the human consequences" of her decisions. And it is time that we have a nominee who is Hispanic, a member of the fastest growing population in America. Finally, it is time that we have a frank discussion about what is preventing so many colleagues on the other side of the aisle from supporting Judge Sotomayor.

In short, this is the time, and it is time. It is time we have a moderate nominee. It is time we have someone with a great family history, an American family history. It is time we confirm the first Hispanic Justice to the U.S. Supreme Court.

Let's start with Judge Sotomayor's record, which is most important. Several of my Republican colleagues said, as they cast their votes against her in the Judiciary Committee, that they did not know what kind of Supreme Court Justice they might be getting in Judge Sotomayor. I find this conclusion to be confounding. Judge Sotomayor is hardly a riddle wrapped in mystery inside an enigma. No matter what cross sec-

tion we take of her extensive record, down to examining individual cases, we see someone who has never expressed any desire or intention to overturn existing precedent, nor have my colleagues been able to point to any such case.

Instead, we see someone who lets the facts of each case guide her to the correct application of the law. We see someone who does not put her thumb on the scales of justice for either side, even if any sentient human being would want to reach a different result for a sympathetic plaintiff.

We know more about Judge Sotomayor than we have known about any nominee in 100 years. The 30,000-foot view of her record, gleaned from numerous studies about the way she has ruled in cases for 17 years—and that is the best way to tell how a judge is going to be, to look at their previous cases—when you look at those cases, it tells plenty about her moderation.

She has agreed with her Republican colleagues 95 percent of the time. She has ruled for the government in 83 percent of immigration cases, presumably against the immigrant. She has ruled for the government in 92 percent of criminal cases, against the criminal. She has denied race claims in 83 percent of cases. She has split evenly in a variety of employment cases.

No matter how we slice and dice these cases, we come up with the same conclusion about her moderation.

Within the category of criminal cases she decided, she ruled for the government 87 percent of the time in fourth amendment cases. This is important because the fourth amendment is an area where decisions are highly fact based and judges have discretion to decide when police have overstepped their bounds in executing searches and seizures. But she has not abused this discretion. In the overwhelming number of cases, she sides with the government, deciding each case carefully based on the facts before her.

Let's also look further at her immigration asylum cases. There she ruled for the government, against the petitioner for asylum, in 83 percent of the cases. That is also telling of her modulated approach to judging. Asylum law, as her colleague Judge Newman has pointed out, gives judges a great deal of discretion to decide who can be granted asylum to stay in the United States. Judge Sotomayor has not abused this discretion a jot.

Given her upbringing in a Hispanic neighborhood of the Bronx, we might expect that her personal background would make her more, to borrow a term, empathetic to an immigrant seeking asylum. But the cases show that any perceived empathy did not affect her results. In fact, her 83-percent record puts her right in the middle of judges in her circuit.

Even in the realm of sports cases, which are always contentious and

closely watched, Judge Sotomayor has shown her evenhandedness. She ruled for the professional football league in an antitrust case brought by a player and against Major League Baseball when she ruled for the players and ended the baseball strike.

I can go on. Judge Sotomayor voted to deny the victims of TWA flight 800 crash a more generous recovery because that was “clearly a legislative policy choice, which should not be made by the courts.” If you have empathy, you certainly are going to decide with the victims. I met some of their families. She did not. The law did not allow her.

Judge Sotomayor ruled against an African-American couple who claimed they were bumped from a flight because of their race. Again, against a couple, a case called *King*, that said they were racially discriminated against. She did not think the facts merited their suit.

Judge Sotomayor rejected the claims of a disabled Black woman who said she was unfairly denied accommodations that were provided to White employees.

My Republican colleagues did not ask her about these cases. Instead, they looked at her speeches, not her cases, and decided that Judge Sotomayor believed it was the proper role of the court of appeals to make policy, and they condemned her roundly for this view.

Then they criticized her for not making policy in cases where they disagreed with the outcome. This occurred in three cases—in *Ricci*, which involved the New Haven firefighters, a second amendment case, and a case involving property rights. I guess from the point of view of my Republican colleagues, judicial policy making is a bad thing except when it is not.

In each of these three cases they criticized, where they criticized the short opinions which she did not even write for herself, they said the ruling showed she was unable or unwilling to grapple with major constitutional issues. But in each of these cases, Judge Sotomayor agreed with the other two members of her court that the second circuit or Supreme Court precedents squarely dictated the result. There was no need for a fuller explanation. In fact, second circuit rules forbade panels from revisiting squarely divided precedents. In other words, in these cases, she was avoiding making policies. The cases were governed by the precedents. She was bound. They were decided by settled law. It was just the fact my friends across the aisle do not like what the settled law was. So we are getting awfully close to a double standard here.

In *Ricci*, they wanted her to overturn the second circuit discrimination law. And in the gun case, they wanted her to ignore a 100-year-old precedent that

governs how the second amendment is applied to the States.

In the property rights case, they wanted her to ignore the law that governed the statute of limitations.

My colleagues asked Judge Sotomayor about an EPA case. In that case, she ruled the EPA had mistakenly considered a certain factor in deciding whether a company had used the “best technology available” to clean water. Even though she gave deference to EPA’s interpretation of the law, Judge Sotomayor ruled against the government.

Yet, my friend, Senator SESSIONS of Alabama, stated that one of his reasons for opposing Judge Sotomayor is that she exhibits liberal progovernment ideology. It appears that being progovernment is a bad thing, except when it is not.

Let’s talk about her answers to questions. Some of my friends on both sides of the aisle have said Supreme Court nominees need to be more forthcoming during the confirmation process. They fear that the hearings have become a little more than a choreographed Kabuki dance in which, as Senator SPECTER observed some time ago, nominees answered just enough questions to get confirmed.

I have shared this concern as well. It is too easy for a candidate who wishes to hide his or her ideology to decline to answer questions, to submit to cautious coaching, and to offer meaningless platitudes—promises that they would keep an open mind, respect the law, give everyone an equal chance. Of course, they would.

Candidates with little to hide, not surprisingly, have answered more questions than stealth nominees who have truly been outside the mainstream. Examples of candidates who had nothing up their sleeves and answered questions in a straightforward manner include Judge Stephen Breyer in 1994. He answered the question posed by Senator HATCH: “Do you believe that *Washington v. Davis* is settled law; and second, do you believe it was correctly decided?” And then-Judge Ruth Bader Ginsburg—despite criticisms that she begged off too many questions—answered questions about abortion precedent and *Casey*.

Justices Alito and Roberts, in stark contrast, declined to answer question after question after question. Then-Judge Roberts would not answer the most basic questions about settled commerce clause jurisprudence. Then-Judge Alito would not say whether he thought the constitutional right to privacy included the holding of *Roe*.

I think we can see now, and I will discuss this in more detail, that this was part of a strategy to play an ideological shell game.

Now we are presented with a candidate whose views are truly moderate, as proven through the most copious

records in 100 years. Nonetheless, my friend, Senator GRASSLEY, of Iowa believes that “Judge Sotomayor’s performance at her Judiciary Committee hearing left me with more questions than answers.” I have to respectfully disagree.

But Judge Sotomayor, again, in addition to her full and transparent record, proved in her answers that she is not a stealth candidate. On abortion and the holding of *Roe*, when asked by Senator FRANKEN: “Do you believe that this right to privacy includes the right to have an abortion?” Judge Sotomayor answered clearly and to the point: “The Court has said in many cases—and as I think has been repeated in the Court’s jurisprudence in *Casey*—that there is a right to privacy that women have with respect to the determination of their pregnancies in certain situations.” Clear. To the point.

When then-Judge Roberts was asked this question, he replied:

Well, I feel I need to stay away from a discussion of particular cases. I’m happy to discuss the principles of *stare decisis*, and the Court has developed a series of precedents on precedent, if you will. They have a number of cases talking about how this principle should be applied.

So who spoke clearly to the question? If you don’t believe Judge Sotomayor did, how could you vote for Judge Roberts?

On property rights, when asked by Senator GRASSLEY about her understanding of the Court’s holding in *Kelo*, Judge Sotomayor explained fully her understanding of the Court’s holding, and there is a quote. When asked about his view of *Kelo*, then-Judge Alito declined to discuss the case. There are many more examples of how Judge Sotomayor answered questions about existing cases in much fuller detail than the past two nominees and certainly about the key cases—property rights and abortion—which we debate, as we should, in this body.

As I said at the outset, it is time. It is time for a searching examination of why some of my colleagues are still determined to vote against Judge Sotomayor. She has a remarkably moderate record, she is highly qualified, she answers questions, and she is a historic choice who will expand the diversity of the Court.

What nominee of President Obama’s would my Republican colleagues vote for—one who would have reached out and found that the right to bear arms should be incorporated to apply to the States, despite 100-year-old precedent to the contrary; one who would have ignored the Second Circuit precedent and prohibited the city of New Haven from trying to fix a promotional exam to give minorities a better chance at advancement; one who declined to answer questions about existing precedence? In other words, an activist who was intent on changing the law?

Of course, we now turn to the last refuge of objection to Judge Sotomayor: her statements outside the courtroom. I have always been a strong advocate of the principle that we consider carefully each nominee's entire record, including speeches and other judicial writings. But Judge Sotomayor is different than most because she has an enormous judicial record to review and consider. She is not a stealth candidate. There is a push and pull here in terms of what is important to evaluate with respect to each individual nominee. With 17 years of judicial opinions, 30 panel opinions, and 3,000 cases in total, how much emphasis should we put on the three words "wise Latina woman," whether we disagree with them or not?

I would submit the answer should be, compared to her copious record, not much. Nonetheless, by my count, my colleagues on the other side of the aisle asked no fewer than 17 questions about her "wise Latina woman" comment. In contrast, they asked questions of about 6—of Judge Sotomayor's cases over the course of the 3 days; 6 cases out of 3,000 in 17 years of judging.

I don't agree with this approach to analyzing her record. Nonetheless, I agree with my colleague, Senator GRAHAM—who is voting for her after engaging in arguably the most searching examination of her speeches—that we are entitled to know who we are getting as a nation. He is absolutely right. Certainly it is appropriate to look at her speeches, but let us give them proper weight and proper context.

And let us be clear about another thing: Judge Sotomayor is no Robert Bork. She is no Judge Roberts or Judge Alito. She has not made comments outside the courtroom that indicate her strong views on abortion or her views that the power of Congress must be severely curtailed or that a substantial body of first amendment jurisprudence should be overturned. Again, if the standard is extrajudicial statements, my colleagues seem to be using a different standard for Judge Sotomayor than the standard they used for judges such as Roberts, Alito, and Thomas.

But let me give my friends some reassurance. The proof is in the pudding. Judge Sotomayor is and always has been a moderate judge. Similar to many judges across the country, she has remained neutral in race cases, in spite of her race; in gender cases in spite of her gender; in first amendment cases in spite of racist and repugnant speakers. The scales of justice in her courtroom are not weighted.

Let me now conclude by discussing the precedent set by past nominations—more broadly, where I think my colleagues are headed and where we ought to be going instead. In 2001, I wrote an op-ed arguing that we need to take ideology into account when evaluating judges. I wrote that op-ed be-

cause I was astounded by the nominees President Bush's administration was sending to the Senate.

The conservative movement had captured Congress and the White House for the first time. But even though conservatives—strong conservatives, hard-right conservatives—controlled these two branches, the hard right was not able to move the country as far to the right as they had hoped. So they turned to the judiciary. They couldn't do it with the President, even though they had elected him. They couldn't do it with the House or the Senate, even though, again, the hard right had predominated. So they turned to the one unelected branch—the judiciary—to advance the agenda they weren't able to move through the democratically elected branches of government.

The Bush administration complied with the hard right and nominated judges who were so far out of the mainstream it would have been irresponsible for us to confirm them blindly. So we asked them questions about their judicial philosophy and their ideology, and our questions were not met with thorough answers or with a demonstrated record of mainstream judging but with banalities or even obstinate silence.

If we tried to rank the ideology of nominees on a scale of 1 to 10, with 1 being all the way to the right, such as Judge Thomas, and 10 being all the way to the left, such as Justice Brennan, I think the Bush nominees to the Supreme Court and court of appeals were almost exclusively 1's and 2's—way over. If you looked at President Clinton's nominees, they were somewhat left of center. But not much, mainly sixes and sevens—prosecutors, partners in law firms—not lawyers who had spent their careers in activist causes.

President Obama has taken a different approach. He is trying to return the Court to the middle, to the pre-Bush days, the days of having judges who may not be exactly what the right wants in a judge or even what the left—the far left—wants in a judge. We are returning to the days where judges were fives and sixes and sevens—maybe fours. They were squarely in the mainstream. We are returning to the days when judges put the rule of law first.

Somehow my Republican colleagues are aghast. The only judges they seem to want to vote for are ones and twos—judges who are on the hard right. The President is not going to nominate judges who have that view. After all, elections do matter.

My colleagues say they do not want activist judges. What they mean is they do not want judges who will put the rule of law first. They only want judges who will impose their own ultra-conservative views. An activist now seems to be not someone who respects the rule of law but someone who is not hard right. If you are mainstream, even

though you are interpreting the law, you are an activist because you will not turn the clock back.

We must and will continue to fight for mainstream judges.

I have heard some say this fight isn't about Judge Sotomayor, given her proven record of mainstream judging and fidelity to the law. These commentators argue that Republicans are laying down their marker for President Obama's next nominee. I don't know who that nominee will be, but I am confident it will be a qualified candidate who is significantly more in the mainstream, if you take the mainstream being the actual place where the middle of America is—more in the mainstream than Justices Thomas or Scalia or Roberts or Alito or some of the nominations we considered under the Bush administration, such as Miguel Estrada or Janice Rogers Brown or Charles Pickering. I am confident the next nominee will be consistent with the nominees President Obama has been sending us—moderate, mainstream, and rule of law.

At one point, the Republican Party argued for precedent and for strict construction because they wanted to push back on certain new precedents they thought were beyond the Constitution—precedents such as *Roe* and *Miranda*. But things have changed. Americans have accepted *Roe* and Americans have accepted *Miranda*. Now my colleagues want to change the law, so they have changed their methodology without changing the nomenclature. They still call judges activist, even though they want to stick to established law. I think it is a shame.

It is a shame that some of my colleagues can't put aside their own personal ideology and vote for a judge whom they might not have chosen but who is unquestionably mainstream. It is a shame we will not have the kind of nearly unanimous vote in favor of this nominee that judges on both sides of the aisle—from Justice Ginsburg to Justice Scalia—have received in the past. I think it is a shame the debate about this historic nomination has been distilled to disputes over snippets of speeches.

But we are not going to let that stop the national pride we take in this moment. We are not going to let it stop us from confirming, by a broad and bipartisan margin, Judge Sonia Sotomayor to be the first Hispanic Justice on the U.S. Supreme Court.

In conclusion, as John Adams said: "We are a Nation of laws, not of men." But if the law were just words on parchment, it would never evolve to reflect our own changing society. "Separate but equal" would never have been understood to be "inherently unequal." Equality for women would never have been viewed as guaranteed under the Constitution's promise of equal protection under law. In fact, the second

amendment might never have been viewed to extend beyond the right to possess a front-loading musket to defend, in a militia, against an occupying force.

With the nomination of Judge Sotomayor, we have an opportunity—a noble opportunity—to restore faith in the notion that the courts should reflect the same mainstream ideals that are embraced by America. Our independent judiciary has served as a beacon of justice for the rest of the world. Our system of checks and balances is the envy of every freedom-seeking nation. As I look at the arc of Judge Sotomayor's life, her record, and these hearings, I am confident we are getting a Justice who both reflects American values and who will serve them.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Arizona is recognized.

Mr. KYL. Mr. President, every American should be proud that a Hispanic woman has been nominated to serve on the Supreme Court. In fulfilling our advice and consent role, of course, Senators must evaluate Judge Sotomayor on her merits, not on the basis of her ethnicity.

As I noted at the beginning of Judge Sotomayor's hearing, she has a background that creates a *prima facie* case for confirmation. She graduated from Princeton University and Yale Law School and then was an assistant district attorney, a corporate litigator, a district court judge, and a circuit court judge.

This background led the American Bar Association to rate her "Well Qualified." My counterpart on the Democratic side, Senator DURBIN, has said, "The burden of proof for a Supreme Court Justice nominee is on the nominee. . . . No one has a right to sit on the Supreme Court. . . . It is not enough for a nominee to be found well qualified by the American Bar Association."

It is obvious that the Senate cannot just rubberstamp the ABA. This is why we conduct our own evaluation of the nominee's background and record and then attempt to resolve outstanding questions at her hearing.

In evaluating a nominee, it is, of course, important to look at all aspects of the person's career. The nominee's prior judicial opinions are obviously an important consideration in this process. A lower court judge who issues judicial opinions that are outside the mainstream will, in all likelihood, continue to issue opinions that are outside the mainstream if promoted to a higher court.

But even judicial opinions do not tell us the entire story, especially when we are considering a nominee to the Supreme Court. District and appellate court judges operate under the restraining influence of judicial review.

They have a strong incentive to avoid aberrant interpretations of the law, otherwise they risk embarrassment if cases are appealed to a higher authority. This check disappears, however, when a judge becomes a justice on the Supreme Court. There is no higher authority to reign in a lifetime-appointed Justice who decides, for whatever reason, to adopt a strained interpretation of the law.

Nor will a nominee generally be very specific about how he or she may rule on matters that could come before the Court.

So it is important to examine anything else in a nominee's background that could shed light on how the nominee really thinks about important issues. One source of information is a nominee's extrajudicial statements in speeches and writings. In these contexts, the nominee is not constrained by facts of particular cases, by precedents or the fear of appellate reprimand, but can say what he or she really thinks.

Before Judge Sotomayor's hearing, I studied not only her cases, but her extrajudicial writings, and a fraction of her speeches. I say a "fraction" because Judge Sotomayor was either unable or unwilling to provide a draft, video, or a sufficient topic description for more than 100 of the speeches that she identified for the Judiciary Committee.

But even with less than a full complement of her relevant materials, I saw a number of things in Judge Sotomayor's decisions and speeches that caused me to have great concern about her ability to put aside her biases and to impartially render a decision to the parties before her.

As I will explain, Judge Sotomayor's appearance before the Judiciary Committee did little to dispel my concerns. In many cases, her testimony exacerbated them.

I was and remain particularly troubled by Judge Sotomayor's speeches about gender and ethnicity. The speech that has garnered the most attention is, of course, her "wise Latina woman" speech, which was published in the *Berkeley La Raza Law Journal*. As it turns out, Judge Sotomayor delivered this same speech, with only minor variations, on multiple occasions over the course of several years.

In reading these speeches in their entirety, it is inescapable that her purpose was not simply "to inspire young Hispanic, Latino students, and lawyers," as she asserted at her hearing. In fact, as she said at the beginning of several of these speeches, her purpose was to talk about "my Latina identity, where it came from, and the influence I perceive it has on my presence on the bench."

Judge Sotomayor reemphasized this theme later in her speeches. She said: "The focus of my speech tonight, how-

ever, is not about the struggle to get us where we are and where we need to go, but instead to discuss . . . what . . . it will mean to have more women and people of color on the bench."

She continued: "[N]o one can or should ignore pondering what it will mean or not mean in the development of the law." In these speeches, she cited statements of some who had a different point of view than hers. Then she came back to her overriding theme: "I accept the proposition that, as Judge Resnik describes it, 'to judge is an exercise of power,' and because as . . . Professor Martha Minnow of Harvard Law School states 'there is no objective stance but only a series of perspectives—no neutrality, no escape from choice in judging. . . .'"

I believe judges must seek objective truth as found in the law of the case. I do not believe in judicial relativism, so I find her comment alarming. The essence of judging is neutrality. That is why Lady Justice is depicted with a blindfold. And that is why Federal judges are required to swear an oath to "administer justice without respect to persons, and do equal right to the poor and to the rich" and to "faithfully and impartially discharge all of the duties incumbent on [her]." That oath makes no allowance for a judge to choose the result based on his or her "perspective." The oath requires exactly the opposite: a dispassionate adherence to impartiality and the rule of law.

Now, back to Judge Sotomayor's speech. After agreeing with law professors who say that there is no objective stance, only a series of perspectives, no neutrality, Judge Sotomayor then said, "I further accept that our experiences as women and people of color will in some way affect our decisions. . . . What Professor Minnow's quote means to me is not all women or people of color, in all or some circumstances, or me in any particular case or circumstance, but enough women and people of color in enough cases will make a difference in the process of judging. Judge Sotomayor is talking here about different outcomes in cases based upon who the judge is. She goes on to substantiate her case by citing an outcome in a State court father's visitation case and two studies, which tended to demonstrate differences between women and men in making decisions in cases. She said, "As recognized by legal scholars, whatever the reason, not one woman or person of color in any one position, but as a group, we will have an effect on the development of law and on judging." She continued: "our gender and national origins make and will make a difference in our judging."

To recap: Judge Sotomayor announced her topic, developed the theme, refuted the arguments of those with a different view, and substantiated her point of view with some evidence. Up to this point, she had made

the case that gender or ethnicity will have an impact on the way judges decide cases. She had not rendered a judgment about whether this influence would provide better outcomes from her perspective.

This is the context of the “wise Latina” comment. Judge Sotomayor quoted Justice O’Connor who said that a wise old woman and a wise old man would reach the same decisions. But, Judge Sotomayor said, “I am also not sure I agree with that statement. . . . I would hope that a wise Latina woman with the richness of her experiences would, more often than not, reach a better conclusion than a white male who hasn’t lived that life.”

Judge Sotomayor concluded, in other words, that, not only will gender and ethnicity make a difference, but that they should make a difference. She then acknowledged that some White male judges had made some good decisions in the past, but seemed to complain that it took a lot of time and effort, something that not all people are willing to give, and so on.

Judge Sotomayor concluded by saying, “In short, I accept the proposition that a difference will be made by the presence of women and people of color on the bench and that my experiences will affect the facts that I choose to see as a judge.” Judge Sotomayor added, “I simply do not know exactly what that difference will be in my judging. But I accept there will be some based on gender and my Latina heritage.”

Even if the point of her speech was just to inspire young people or even to explore the question of whether judges could be influenced by their background, she should not have simply “accepted” that result. To conclude that judges could not avoid being so influenced and then not admonish that, of course, a judge must try his or her best to avoid that result, to try to set aside any bias and prejudice, was to abdicate her role as a judge in teaching her audiences.

Never, not once, in her speech, did she say that the biases she discussed were harmful to impartial judging and needed to be set aside. Instead, Judge Sotomayor’s speeches seem to be celebrating these differences, these biases. The clear and unmistakable inference in her speeches is that she embraces the fact that minorities and women will reach a different outcome, indeed, a “better” outcome.

Before the Judiciary Committee, Judge Sotomayor refused to recant the speeches or acknowledge this egregious omission. But she did try desperately to convince committee members that her words conveyed a message other than the obvious one. Indeed, according to Judge Sotomayor, her words conveyed the exact opposite meaning. She said: “I was talking about the very important goal of the justice system is to ensure that the personal biases and

prejudices of a judge do not influence the outcome of a case. What I was talking about was the obligation of judges to examine what they’re feeling as they’re adjudicating a case and to ensure that that’s not influencing the outcome.” I’ve read the speeches in their entirety many times, and have verified that that is most certainly not what she was “talking about.”

Judge Sotomayor’s recharacterization of her speeches before the Judiciary Committee sounds like the objective, neutral approach that her speech explicitly dismissed. It is hard to understand how the same person could honestly make both statements. They are irreconcilably antithetical.

Further examples abound, but for the sake of time I will offer only one more. When Judge Sotomayor tried to explain her disagreement with Justice O’Connor’s statement about how a wise old man and a wise old woman would reach the same conclusions, she said: “The words that I used, I used agreeing with the sentiment that Justice Sandra Day O’Connor was attempting to convey.” That’s not true. Her explanation strains credulity. Both as to whether she really believes judges should try to set aside biases, including those based on race and gender, and the basic element of judicial temperament, forthrightness and fidelity to the oath of truth she took before the Judiciary Committee, I conclude she did not carry the very low burden of proof.

I also would like to discuss another of Judge Sotomayor’s speeches, an address to the Puerto Rican ACLU on the subject of foreign law. But first, I should take a moment to explain why this issue is so critical.

There is a growing school of thought among some academics, and even some judges, that foreign law and practices should be used as an aid to understanding and interpreting our own laws and Constitution. This is problematic for two main reasons.

First, as Chief Justice John Roberts pointed out during his confirmation hearing, the consideration of foreign law by American judges is contrary to principles of democracy. Foreign judges and legislators are not accountable to the American electorate. Using foreign law, even as a thumb on the scale, to help decide key constitutional issues devalues Americans’ expressions through the democratic process. It is simply irrelevant, except in a very few specific situations.

Second, even if the use of foreign law were not inconsistent with our constitutional system, its use would free judges to enact their personal preferences under the cloak of legitimacy.

Against this backdrop, Judge Sotomayor delivered her April 28, 2009, speech entitled, “How Federal Judges Look to International and Foreign Law Under Article VI of the U.S. Constitution.” From that speech, we begin to

see how foreign law could shape Judge Sotomayor’s jurisprudence in the future. Her comments were not casual observations, but directed to this specific topic, and, presumably says what she means.

After conceding that judges “don’t use foreign or international law” as binding precedent in a case, she nonetheless maintained that foreign law could, and should, be “considered.” In Judge Sotomayor’s view, foreign law is a source for “good ideas” that can “set our [i.e., judges’] creative juices flowing.” Putting aside for a moment the fact that deciding an antitrust case, or a commerce clause dispute, or an Indian law issue, or an establishment of religion case does not require “creative juices,” Judge Sotomayor’s suggestion that judges consider foreign law would interfere with specific rules of construction or application of precedent.

Judge Sotomayor went on in this same ACLU speech to distance herself from two sitting justices who are critical of judges considering foreign law and align her views with those of Justice Ginsburg who recently endorsed the use of foreign law at a symposium at the Moritz College of Law at Ohio State University.

Specifically, Judge Sotomayor stated that “[t]he nature of the criticism comes from . . . the misunderstanding of the American use of that concept of using foreign law. And that misunderstanding is unfortunately endorsed by some of our own Supreme Court justices. Both Justice Scalia and Justice Thomas have written extensive criticisms of the use of foreign and international law in Supreme Court decisions. . . .”

She continues: “I share more the ideas of Justice Ginsburg in thinking . . . that unless American courts are more open to discussing the ideas raised by foreign cases, and by international cases, that we are going to lose influence in the world. Justice Ginsburg has explained very recently . . . that foreign opinions . . . can add to the story of knowledge relevant to the solution of a question. And she’s right.”

Judge Sotomayor’s rationale for judges looking to foreign law—so that the United States does not “lose influence in the world”—is astonishing. Not only is such an approach irrelevant to the role of judges, vis-a-vis the other branches of government, and arguably usually irrelevant even for the President and Congress as a yardstick with which to measure U.S. domestic and foreign policy, it is totally irrelevant to the considerations for deciding any particular dispute between two parties.

In response to questions from committee members concerned about these kinds of statements, Judge Sotomayor again tried to drastically recharacterize her prior statements. She testified that her speech was quite clear

that “foreign law cannot be used as a holding or a precedent or to bind or to influence the outcome of a legal decision interpreting the Constitution or American law that doesn’t direct you to that law.” But in April of this year, Judge Sotomayor said, “ideas are ideas, and whatever their source, whether they come from foreign law or international law, or a trial judge in Alabama, or a circuit court in California, or any other place, if the idea has validity, if it persuades you, then you are going to adopt its reasoning.” These two statements cannot be squared, even though they occurred just 2½ months apart.

Later in her hearing, Judge Sotomayor gave the following testimony: “I will not use foreign law to interpret the Constitution or American statutes. I will use American law, constitutional law to interpret those laws except in the situations where American law directs the court.” While this kind of declarative statement would normally provide some measure of comfort, it is belied by words Judge Sotomayor uttered less than 3 months ago, that judges were “commanded” to look to “persuasive” sources, including foreign law, in interpreting our own law. And it is even inconsistent with an exchange Judge Sotomayor had with Senator SCHUMER earlier in the hearing, in which she agreed that foreign law could be used for the same purposes as traditional interpretive tools, such as dictionaries.

It gives me great pause that Judge Sotomayor could say one thing at a public speech earlier this year and say the opposite while under oath before the Judiciary Committee, especially since she never repudiated her speech.

Finally, when Judge Sotomayor had an opportunity to reflect upon her testimony, review the transcript, and correct the record, she reverted to her former position by spinning the meaning of the word “use.”

Specifically, as I just noted, in her hearing before the Senate Judiciary Committee, Judge Sotomayor testified under oath that “foreign law cannot be used as a holding or a precedent or to bind or to influence the outcome of a legal decision interpreting the Constitution or American law that doesn’t direct you to that law.” In written answers submitted for the record she wrote, “In my view, American courts should not ‘use’ foreign law, in the sense of relying on decisions of foreign courts as binding or controlling precedent, except when American law requires a court to do so. In limited circumstances, decisions of foreign courts can be a source of ideas, just as law review articles or treatises can be sources of ideas. Reading the decisions of foreign courts for ideas, however, does not constitute ‘using’ those decisions to decide cases.”

So we are back to “considering,” but not “using.” Or is it, using as ideas,

but not binding precedent? And if so, of what use are ideas if not used in some way? And if used in some way, could they influence the decision? I am totally baffled how she could consider foreign law as a source of ideas consistent with her testimony that foreign law should not influence the outcome of cases. Effectively, immediately after the hearing, she rescinded her sworn testimony regarding foreign law.

Judge Sotomayor’s supporters argue that we should not focus on her speeches, but on her “mainstream” judicial record. They cite all manner of statistics that purport to show that Judge Sotomayor agreed with her colleagues, including Republican appointees, the vast majority of the time. That may be true; but, as President Obama has reminded us, most judges will agree in 95 percent of all cases. The hard cases are where differences in judicial philosophy become apparent.

I have looked at Judge Sotomayor’s record in these hard cases and again have found cause for concern. The U.S. Supreme Court has reviewed directly ten of her decisions—eight of those decisions have been reversed or vacated, another sharply criticized, and one upheld in a 5–4 decision. Indeed, just in the past 4 months, the Supreme Court has reversed Judge Sotomayor’s panels three times. That does not inspire confidence.

The most recent reversal is a case in point. In *Ricci v. DeStefano*, a case where Judge Sotomayor summarily dismissed before trial the discrimination claims of 20 New Haven firefighters, the Supreme Court reversed 5–4, with all nine Justices rejecting key reasoning of Judge Sotomayor’s court. But in my view, the most astounding thing about the case was not the incorrect outcome reached by Judge Sotomayor’s court; it was that she rejected the firefighters’ claims in a mere one paragraph opinion and that she continued to maintain in the hearings that she was bound by precedent that the Supreme Court said didn’t exist.

As the Supreme Court noted, *Ricci* presented a novel issue regarding “two provisions of Title VII to be interpreted and reconciled, with few, if any, precedents in the court of appeals discussing the issue.” One would think that this would be precisely the kind of case that deserved a thorough and thoughtful analysis by an appellate court.

But Judge Sotomayor’s court instead disposed of the case in an unsigned and unpublished opinion that contained zero—and I do mean zero—analysis. This is confounding given Judge Sotomayor’s Judiciary Committee testimony, in which she said: “I believe my 17-year record on the two courts would show that in every case that I render, I first decide what the law requires under the facts before me, and

that what I do is explained to litigants why the law requires a result. And whether their position is sympathetic or not, I explain why the result is commanded by law.”

Because her initial decision was unpublished, the case—and the firefighters’ meritorious claims—would have been swept under the rug and lost forever if not for fellow Second Circuit Judge Jose Cabranes, who read about the firefighters’ case in a local newspaper, the *New Haven Register*.

Judge Cabranes looked into the situation, recognized the importance of the case, and requested that the entire Second Circuit, including judges who were not involved in the original decision, rehear the case. By a vote of 7–6, the Second Circuit denied rehearing the case, with Judge Sotomayor providing the seventh and decisive vote to avoid further consideration of her panel’s decision. Fortunately for the firefighters, Judge Cabranes wrote a blistering dissent that no doubt caught the attention of the Supreme Court. He charged that Judge Sotomayor and her panel had “failed to grapple with the questions of exceptional importance raised in this appeal.”

Some have speculated that the Judge Sotomayor’s panel intentionally disposed of the case in a short, unsigned, and unpublished opinion in an effort to hide it from further scrutiny. Was the case intentionally kept off of her colleagues’ radar? Did she have personal views on racial quotas that prevented her from seeing the merit in the firefighters’ claims? Was it merely coincidence that the standard adopted by Judge Sotomayor—which in the Supreme Court’s words “would encourage race-based action at the slightest hint of disparate impact” and would lead to a “de facto quota system”—was consistent with policy and legal positions advocated by the Puerto Rican Legal Defense and Education Fund, an organization with which she was intimately involved for 12 years? In repeated speeches through the years, Judge Sotomayor said, “I . . . accept that our experiences as women and people of color affect our decisions.” Was this such a case?

Judge Sotomayor was asked about her *Ricci* decision at length during the confirmation hearing. Her defense was that she was just following “established Supreme Court and Second Circuit precedent.” The problem with this answer is that *Ricci* presented a novel question for which there were no Supreme Court precedents squarely on point. Indeed, the Supreme Court noted that there were “few, if any” circuit court opinions addressing the issue.

During the hearing, I pressed Judge Sotomayor to identify those controlling Supreme Court and Second Circuit precedents that allegedly dictated the outcome in *Ricci*. Rather than answer the question, she dissembled and ran

out the clock. Perhaps that was because, as Judge Cabranes's dissent stated, the "core issue presented by this case—the scope of a municipal employer's authority to disregard examination results based solely on the race of the successful applicants—is not addressed by any precedent of the Supreme Court or our Circuit." But even if we accept Judge Sotomayor's contention that there was some relevant Second Circuit precedent, it is quite clear that such cases would not bind her or other judges in considering en banc review. It is telling that even the Obama Justice Department found her legal position impossible to defend. It filed a brief in the case asking the Supreme Court to vacate and remand the case for further proceedings, essentially what the dissent favored, as well.

The truth is that we will never know the reasons that guided the outcome of the case. But we know, at the very least, that Judge Sotomayor exercised poor judgment in dismissing serious claims in an unsettled area of the law without engaging in an analysis of the issues. As Judge Cabranes wrote in dissenting from the denial of rehearing en banc: "The use of per curiam opinions of this sort, adopting in full the reasoning of a district court without further elaboration, is normally reserved for cases that present straight-forward questions that do not require explanation or elaboration by the Court of Appeals. The questions raised in this appeal cannot be classified as such, as they are indisputably complex and far from well-settled."

Clearly, Judge Sotomayor did not adequately explain to the litigants—or the Judiciary Committee—why the law required the result she supported. And she cast the decisive vote to ensure that the full circuit court could not review the case. Is this the kind of behavior we should expect of a judge who is seeking a promotion to the Supreme Court?

Finally, if I had been a litigant before her court and Judge Sotomayor had asked me the questions I asked her about Ricci, and had I "answered" them as she responded to me in the hearing, she would rightly have told me to either sit down or start answering her questions. Her "answers" answered nothing and, in my opinion, violated her obligation to be forthcoming with the Judiciary Committee.

Ricci is not the only Judge Sotomayor decision that gives reason to question her commitment to impartial justice. I am concerned about her analysis—or lack thereof—in *Maloney v. Cuomo*, a second amendment case that could find its way to the Supreme Court next year. *Maloney* was decided after the Supreme Court's landmark ruling in *District of Columbia v. Heller*, which held that the right to bear arms was an individual right that could not be taken away by the Federal Government.

In *Maloney*, Judge Sotomayor had the opportunity to consider whether that individual right could also be enforced against the States, a question that was not before the *Heller* court. In yet another unsigned opinion, Judge Sotomayor and two other judges held that it was not a right enforceable against States.

What are the legal implications of this holding? State regulations limiting or prohibiting the ownership and use of firearms would be subject only to "rational basis" review. As Sandy Froman, a respected lawyer and former president of the National Rifle Association, said in her witness testimony, this is a "very, very low threshold" that can easily be met by a State or city that wishes to prohibit all gun ownership, even in the home. Thus, if Judge Sotomayor's decision were allowed to stand as precedent, then states will, ironically, be able to do what the Federal District of Columbia cannot—place a de facto prohibition on the ownership of guns and other arms.

Some have suggested that Judge Sotomayor's decision is not cause for alarm. They say that she was simply following precedent and that the *Maloney* case is not necessarily indicative of what she would do if confirmed to the Supreme Court. And they point to a recent decision by the Seventh Circuit, which similarly refused to apply the second amendment to State regulations. Apart from the fact that her ruling is now binding in the States covered by the Second Circuit, there is a critical difference between Judge Sotomayor's decision and that of the Seventh Circuit.

While the judges on the Seventh Circuit explicitly declined to decide what will be the key issue before the Supreme Court—whether the Second Amendment's right to bear arms is, in legal parlance, "fundamental," and therefore enforceable against states as well as the Federal Government—Judge Sotomayor's perfunctory decision did not leave this question open. Her panel specifically concluded, without any explanation, that the right to bear arms is in fact not a "fundamental" right—a conclusion that, to the best of my knowledge, no other court has ever reached—and that, as Sandy Froman noted, "would rob the Second Amendment of any real meaning and would trample on the individual rights of America's nearly 90 million gun owners." Indeed, Judge Sotomayor's assessment stands in stark contrast to the Supreme Court's own opinion in *Heller*, which not once but twice refers to the right to bear arms as "fundamental." It is hard, if not impossible, to square these facts with Judge Sotomayor's repeated assertions, in sworn testimony before the Judiciary Committee, that she was just following precedent.

Judge Sotomayor's opinion in *Maloney* is extraordinary both for its lack

of serious analysis and for reaching an unprecedented conclusion that was wholly unnecessary. She could have as easily chosen the path taken by the seventh circuit, and reserved for the Supreme Court the opportunity to decide in the first instance whether the right to bear arms is "fundamental." Or, like the ninth circuit, she could have undertaken a thorough analysis of the issue and determined that the right is, indeed, fundamental. She did neither.

As Sandy Froman stated:

When faced with the most important question remaining after *Heller*, whether the right to keep and bear arms is fundamental and applies to the states, Judge Sotomayor dismissed the issue with no substantive analysis. . . . By failing to conduct a proper Fourteenth Amendment analysis, the *Maloney* court evaded its judicial responsibilities, offered no guidance to lower courts and provided no assistance in framing the issue for resolution by the Supreme Court. Whenever an appellate judge fails to provide supporting analysis for their conclusion or address serious constitutional issues presented by the case, it is legitimate to ask whether the judge reached that conclusion by application of the Constitution and statutes or based on a political or social agenda.

I agree. I did not expect or even want Judge Sotomayor to precommit to a particular reading of the second amendment. The Judiciary Committee did, however, have a right to receive from her an explanation of the *Maloney* decision. At the very least she could have been more forthcoming in response to questions regarding recusal, but she would not even commit to recusing herself from the Supreme Court's consideration of her own *Maloney* decision if it were taken up as part of a consolidated appeal.

I think it is fair to say that Judge Sotomayor's testimony about the second amendment raised more questions than it answered. The issue of incorporation is bound to come before the Supreme Court. Those of us who support the right of the people to keep and bear arms should be very concerned about the position she has already taken and the fact that she has clearly reserved the option of reviewing the case on the Court she could be confirmed to, particularly on a matter she has already decided.

As we have seen, Judge Sotomayor's testimony about her previous speeches and some of her decisions is difficult, if not impossible, to reconcile with her record. Similarly, her testimony about the extent of her role with the Puerto Rican Legal Defense and Education Fund is in tension with the evidence we have.

At her hearing, Judge Sotomayor tried to downplay her role at PRLDEF. She said:

I was not like Justice Ginsburg or Justice Marshall. I was not a lawyer on the fund as they were, with respect to the organizations they belonged to. I was a board member.

In emphasizing her role as a longtime board member, Judge Sotomayor

deflected attention from her service in litigation-focused positions, such as her 8 years on the litigation committee and the 4 years she served as that committee's chairperson. As anyone who is familiar with advocacy and public interest groups can attest, it is inconceivable that the chair of an organization's litigation committee would not have a significant role in shaping the organization's legal strategy.

Moreover, Judge Sotomayor's testimony that "it was not my practice and not that I know of, of any board member" to review briefs, is undermined by PRLDEF's own meeting minutes. For example, on October 8, 1978:

[Litigation Committee] Chairperson Sotomayor summarized the activities of the Committee over the last several months which included the review of the litigation efforts of the past and present. . . .

The New York Times has detailed her active involvement, as recounted by former PRLDEF colleagues, who have described Judge Sotomayor as a "top policy maker" who "played an active role as the defense fund staked out aggressive stances." According to these reports, she "frequently met with the legal staff to review the status of cases" and "was an involved and ardent supporter of their various legal efforts during her time with the group."

What were the litigation positions advanced by PRLDEF during Judge Sotomayor's tenure there? Well, it argued in court briefs that restrictions on abortion are analogous to slavery. And it repeatedly represented plaintiffs challenging the validity of employment and promotional tests—tests similar to the one at issue in Ricci.

I want to return to a question I raised in my opening statement of Judge Sotomayor's hearing: What is the traditional basis for judging in America?

For 220 years, Presidents and the Senate have focused on appointing and confirming judges and Justices who are committed to putting aside their biases and prejudices and applying the law fairly and impartially to resolve disputes between parties.

This principle is universally recognized and shared by judges across the wide ideological spectrum. For instance, Judge Richard Paez of the ninth circuit—with whom I disagree on a number of issues—explained this in the same venue where, less than 24 hours earlier, Judge Sotomayor made her remarks about a "wise Latina woman" making better decisions than other judges. Judge Paez described the instructions that he gives to jurors who are about to hear a case. "As jurors," he said, "recognize that you might have some bias, or prejudice. Recognize that it exists, and determine whether you can control it so that you can judge the case fairly. Because if you cannot—if you cannot set aside those prejudices, biases and passions—then you should not sit on the case."

And then Judge Paez said:

The same principle applies to judges. We take an oath of office. At the federal level, it is a very interesting oath. It says, in part, that you promise or swear to do justice to both the poor and the rich. The first time I heard this oath, I was startled by its significance. I have my oath hanging on the wall in the office to remind me of my obligations. And so, although I am a Latino judge and there is no question about that—I am viewed as a Latino judge—as I judge cases, I try to judge them fairly. I try to remain faithful to my oath.

What Judge Paez said has been the standard for 220 years. It correctly describes the fundamental and proper role both for jurors and judges.

Before the hearing, my biggest question about Judge Sotomayor was whether she could abide by that standard. We spent 3 days asking her questions, trying to understand what she meant in some of her controversial speeches and what drove her to questionable conclusions in cases such as Ricci and Maloney.

Judge Sotomayor did not dispel my concerns. Her sworn testimony was evasive, lacking in substance, and, in several instances, incredibly misleading.

Her dissembling was widely noticed. Indeed, in an editorial, the Washington Post criticized Judge Sotomayor's testimony about her "wise Latina" statement. Here is what the Washington Post said:

Judge Sotomayor's attempts to explain away and distance herself from that statement were unconvincing and at times uncomfortably close to disingenuous, especially when she argued that her reason for raising questions about gender or race was to warn against injecting personal biases into the judicial process. Her repeated and lengthy speeches on the matter do not support that interpretation.

Until now, Judge Sotomayor has been operating under the restraining influence of a higher authority—the Supreme Court. If confirmed, there would be no such restraint that would prevent Judge Sotomayor from—to paraphrase President Obama—deciding cases based on her heartfelt views.

If the burden is on the nominee to prove herself worthy of a lifetime appointment to the Nation's highest Court, she must do more than avoid a "meltdown" in her testimony. She must be able to rationalize contradictory statements—assuming she does not repudiate one or the other—such as the differences between her speeches and her committee testimony. Her failure to do that has left me unpersuaded that Judge Sotomayor is absolutely committed to setting aside her biases and impartially deciding cases based upon the rule of law.

Judge Sotomayor is obviously intelligent, experienced, and talented. She represents one of the greatest things about America—the opportunity to become whatever you want with your God-given abilities. She is a role model

for young women, as well as minorities, specifically. She is personable and, apparently, hard working. I respect the views of those who regard her well.

Moreover, I appreciate her many declarations during the hearing that judges must decide cases solely on the basis of the facts and the law; and especially her disagreement with the President's erroneous, I believe, formulations that, in the hard cases, a judge should rely on empathy and what is in his or her heart.

It may have been possible to vote to confirm her notwithstanding her decisions in Ricci, Maloney, and some other questionable cases. What I cannot abide, however, is her unwillingness to forthrightly confront the contradictions among her many statements, so as to give us confidence that her Judiciary Committee testimony represents what she believes and what she will do. Instead, she would have us believe that there is no contradiction, that she can hold onto what she said before in speeches and decisions—for example, that she merely followed Supreme Court and circuit precedent in Maloney, and that the dissenters in Ricci did not disagree with her reasoning—and also her testimony.

I cannot ignore her unwillingness to answer Senators' questions straightforwardly—for instance, her insistence that as chair of PRLDEF's litigation committee, she had little to do with the organization's legal positions. She has not carried her burden of proof and, therefore, regrettably, I cannot vote to confirm her.

RECESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate stands in recess until 5 p.m.

Thereupon, the Senate, at 3:11 p.m., recessed until 5 p.m. and reassembled when called to order by the Presiding Officer (Mr. BURRIS).

NOMINATION OF SONIA SOTOMAYOR TO BE AN ASSOCIATE JUSTICE OF THE SUPREME COURT OF THE UNITED STATES—Continued

The PRESIDING OFFICER. Under the previous order, the Senate will resume the 1-hour alternating blocks of time with the Republicans controlling the first hour.

The Senator from Oklahoma.

Mr. COBURN. I ask unanimous consent that the Republican time for the next hour be allocated as follows: Myself, 15 minutes; Senator SNOWE, 30 minutes; and Senator BROWBACK, 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COBURN. Mr. President, I rise today to discuss the nomination of

Judge Sonia Sotomayor to be a Justice on the U.S. Supreme Court. Judge Sotomayor comes to the Senate with a compelling personal story and notable professional accomplishments. She has worked as a prosecutor, a corporate attorney, and then as a Federal district court and circuit court judge. And, after meeting with Judge Sotomayor and visiting with her, I like her. She is a very kind and affable person.

Certainly Judge Sotomayor has an impressive resume; however, the Senate's inquiry into her suitability for a seat on the Supreme Court does not end with her professional accomplishments. Equally important to our providing "consent" on this nomination is our determination that Judge Sotomayor has the appropriate judicial philosophy for the Supreme Court. Judge Sotomayor needed to prove to the Senate that she will adhere to the proper role of a judge and only base her opinions on the plain language of the U.S. Constitution and statutes. She needed to demonstrate that she will strictly interpret the Constitution and our laws and will not be swayed by her personal biases or political preferences. As Alexander Hamilton stated in Federalist Paper No. 78 "the interpretation of the law is the proper and peculiar province of the courts. The constitution . . . must be regarded by the judges as a fundamental law." Hamilton further stated that it was "indispensable in the courts of justice" that judges have an "inflexible and uniform adherence to the rights of the Constitution." A nominee who does not adhere to these standards necessarily rejects the role of a judge as dictated by the Constitution and should not be confirmed.

With regard to judicial philosophy, the burden of proof always rests on the nominee. But, in Judge Sotomayor's case, that burden was exacerbated by her prior speeches and statements. President Obama promised to nominate someone "who's got the heart, the empathy, to recognize what it's like to be a young teenage mom. The empathy to understand what it's like to be poor, or African-American, or gay, or disabled, or old." Senator Obama referred to his empathy standard when he voted against Chief Justice John Roberts. He stated that the tough cases "can only be determined on the basis of one's deepest values, one's core concerns, one's broader perspectives on how the world works, and the depth and breadth of one's empathy." She meets his standard but not mine. The President's "empathy" standard is antithetical to the proper role of a judge. The American people expect a judge to be a neutral arbiter who treats all litigants equally. There is a reason why Lady Justice is always depicted blindfolded and why Aristotle defined law as "reason free from passion." The judicial oath succinctly expresses this ideal by

requiring judges to swear that they "will administer justice without respect to persons, and do equal right to the poor and to the rich, and . . . will faithfully and impartially discharge and perform all the duties incumbent upon them under the Constitution and laws of the United States."

During her hearing, I was pleased to hear Judge Sotomayor disavow this empathy standard. In response to a question asking whether empathy should play a role in a judge's decision, Judge Sotomayor responded, "We apply law to facts. We don't apply feelings to facts." She further stated that she "wouldn't approach the issue of judging in the way the President does. . . . judges can't rely on what's in their heart. They don't determine the law. Congress makes the laws. The job of a judge is to apply the law. And so it's not the heart that compels conclusions in cases. It's the law." While I was encouraged to hear Judge Sotomayor's testimony, I am concerned that these statements and her other testimony were a dramatic departure from her earlier statements. So, I am left wondering: Which Judge Sotomayor are we getting?

I believe a person speaks from their heart when they discuss matters that are most important to them. On numerous occasions, most notably when she was teaching and guiding law students and bar associations, Judge Sotomayor made some impassioned statements about the role of a judge, which contradict her testimony at the hearing. Speaking in 2002, Judge Sotomayor said: "I wonder whether achieving that goal—of transcending personal sympathies and prejudices and aspiring to achieve a greater degree of fairness and integrity based on the reason of law—is possible in all or even in most cases. And I wonder whether by ignoring our differences as women or men of color we do a disservice both to the law and society." This statement is of extraordinary concern to me. Not only does Judge Sotomayor's statement indicate that she cannot set aside her personal sympathies and prejudices "in most cases," but she does not appear to believe that this goal is even an admirable one.

Even more concerning, Judge Sotomayor stated prior to her hearing that "[p]ersonal experiences affect the facts that judges choose to see" and "our gender and national origins may and will make a difference in our judging." It seems to me, and I think to most Americans, that the facts of a case are pretty clear and, if a judge is picking and choosing the facts they see based on their personal experiences, then they cannot possibly be impartial arbiters. I believe President Adams said it best when he stated: "Facts are stubborn things . . . and whatever may be our wishes, our inclinations, or the dictums of our passions, they cannot

alter the state of facts and evidence." I am disturbed that Judge Sotomayor does not agree with President Adams's assessment.

Prior to her hearing testimony, she also stated that "court of appeals is where policy is made." This statement is in stark contrast to her hearing testimony, and that contradiction is deeply disturbing to me. I think Judge Sotomayor believes what she said previously in her speeches, and when you believe in something, I think you should stand up and defend it. You should explain why you can still be a good judge even though you made those statements. That is what I wanted and expected to hear from her during her hearing. I was disappointed that she chose to dodge questions and obfuscate her record.

I was even more concerned that Judge Sotomayor reversed herself when discussing her judicial philosophy on the use of foreign law by U.S. judges. Results-oriented, activist judges who seek to rule based on their personal sympathies and prejudices often look to foreign law when interpreting our statutes and the Constitution in order to reach their desired outcome, and so I was deeply troubled by some of Judge Sotomayor's earlier statements that endorsed the use of foreign law by U.S. judges. Justice Scalia succinctly articulated the problem with using foreign law in his dissent from a recent Supreme Court opinion, *Roper v. Simmons*. The majority decision in *Roper* cited the worldwide "evolving standards of decency" to strike down a statute that allowed judges to impose capital punishment for juveniles, even for the most heinous crimes. In his dissent, Justice Scalia asserted that the practice of relying on foreign law inevitably leads to judicial activism. He argued that "[w]hat these foreign sources 'affirm,' rather than repudiate, is the Justices' own notion of how the world ought to be, and their diktat that it shall be so henceforth in America."

I agree with Justice Scalia's assessment. Unfortunately, judging by her statements, Judge Sotomayor does not. During her hearing, I asked Judge Sotomayor about a recent speech she gave in which she stated that prohibiting the use of foreign law would mean judges would have to "close their minds to good ideas" and that it is her "hope" that judges will continue to consult foreign law when interpreting our Constitution and statutes. In that speech, she condemned Justices Scalia and Thomas for their criticism of the use of foreign law in Supreme Court decisions stating: "The nature of the criticism comes from . . . a misunderstanding of the American use of that concept of using foreign law and that misunderstanding is unfortunately endorsed by some of our own Supreme Court Justices. Both Justice Scalia and

Justice Thomas have written extensively criticizing the use of foreign and international law in Supreme Court decisions. . . . But, I share more the ideas of Justice Ginsburg in thinking, . . . in believing that unless American courts are more open to discussing the ideas raised by foreign cases, and by international cases, that we are going to lose influence in the world." In her speech, Judge Sotomayor then specifically cited *Roper v. Simmons*—ruling unconstitutional a statute permitting imposing the death penalty for juveniles—and *Lawrence v. Texas*—overturning a law against same-sex sodomy—as examples of cases where the Supreme Court used foreign law appropriately to strike down State criminal laws.

I asked Judge Sotomayor about her statements disagreeing with Justices Scalia and Thomas's criticism of the Court's use of foreign law in cases such as *Roper* and *Lawrence*, and she reversed her earlier statement saying she "actually agreed with Justices Scalia and Thomas on the point that one has to be very cautious even in using foreign law with respect to the things American law permits you to." Clearly, her hearing testimony was either inaccurate or designed to be misleading since she previously said she shared "more the ideas of Justice Ginsburg" who has endorsed the Court's use of foreign law in cases such as *Roper* and *Lawrence*.

I then asked Judge Sotomayor to affirm that she would refrain from using foreign law in making her decisions and writing her opinions, outside of where she was directed to do so through statute or through treaty. She stated unequivocally that she would "not use foreign law to interpret the Constitution or American statutes" and she would "not utilize foreign law in terms of making decisions." I was reassured by these statements.

Regrettably, my reassurance did not last long. In her responses to written questions following the hearing, Judge Sotomayor reverted back to her former stated judicial philosophy regarding foreign law. She wrote: "In some limited circumstances, decisions of foreign courts can be a source of ideas, just as law review articles or treatises can be sources of ideas. Reading the decisions of foreign courts for ideas, however, does not constitute 'using' those decisions to decide cases." She further stated: "decisions of foreign courts can be a source of ideas informing our understanding of our own constitutional rights. To the extent that the decisions of foreign courts contain ideas that are helpful to that task, American courts may wish to consider those ideas." This reversion is extremely troubling to me because it suggests that Judge Sotomayor was either misleading or simply disingenuous in her hearing testimony. Equally troubling is Judge

Sotomayor's continued concern with world opinion of American law. Prior to her hearing she asserted that "unless American courts are more open to discussing the ideas raised by foreign cases, and by international cases, that we are going to lose influence in the world." She echoed this concern after her hearing writing: "To the extent that American courts categorically refuse to consider the ideas expressed in the decisions of foreign courts, it may be that foreign courts will be less likely to look to American law as a source of ideas." A judge's job is not to consider what the rest of the world thinks about us, it is to interpret the Constitution.

Her judicial philosophy with regard to the use of foreign law is extremely important because it suggests that she will not strictly interpret our Constitution. If Judge Sotomayor believes it is appropriate to consult foreign law in some cases, where will she draw the line? During her hearing testimony, Judge Sotomayor stated that the right to bear arms is "settled law"; however, the recent Supreme Court decision in *District of Columbia v. Heller* left many questions unanswered. One critical unanswered question is whether the right will be incorporated on to the States—meaning that the States will not have the right to outlaw the use of firearms. If confirmed, would Justice Sotomayor be receptive to arguments that foreign countries impose greater restrictions on gun rights and, therefore, be persuaded that some excessive State and Federal restrictions are constitutional? As she noted in her recent second circuit opinion holding that there is no fundamental right to bear arms, there are very few Supreme Court cases addressing the right to bear arms. If confirmed, would she fill in the gaps with foreign law?

Unfortunately, I believe my fears were confirmed by her answers to written questions following the hearing when she refused to pledge that she would not consider foreign law when considering second amendment cases. She stated: "Because cases raising Second Amendment questions are currently pending before the Court, I would not comment on how I would decide those cases if I am confirmed." Her refusal to answer that should give pause to those who, like me, cherish the fundamental right to bear arms.

The concern that Judge Sotomayor may use foreign law to interpret the Second Amendment is further exacerbated by her judicial record on the bench and her hearing testimony, which demonstrates a clear hostility to gun rights. In *Maloney v. Cuomo*, decided January 29, 2009—post-*Heller*—Judge Sotomayor joined a cursory unsigned opinion holding that the second amendment is not a fundamental right and also that the amendment does not apply to the States. In *Maloney*, Judge

Sotomayor incorrectly relied on an 1886 case—*Presser*—which did not use the modern Due Process incorporation analysis, a fact Judge Sotomayor failed to note in her opinion. When asked at her hearing to discuss the holding in *Presser*, she responded that she had not "read it recently enough to remember exactly" what it said even though she had relied on it in a decision issued a mere 7 months previously. Her disturbing lack of familiarity with the case suggests that she did not give great weight to the constitutional right at issue in *Maloney*. If Judge Sotomayor's ruling in *Maloney* is upheld by the Supreme Court, States could ban all guns and other weapons for practically any reason.

During her oral and written testimony, she also refused to acknowledge the fundamental right to self-defense, which predates the Constitution, and stated that she did not recall a case that addressed the right to self-defense, despite the fact that the Supreme Court discusses the right to self-defense at length in *Heller*, the opinion upon which she relied. Judge Sotomayor even refused to discuss the legal test the Supreme Court uses to determine whether a right is fundamental, a basic legal test.

In another notable case about which Judge Sotomayor was questioned, she gave short shrift to a constitutional right that is vitally important to Americans, suggesting that she does not have the appropriate respect for the rights guaranteed by the fifth amendment. In *Didden v. Village of Port Chester*, Judge Sotomayor extended the government's power to take private property in a cursory opinion that one property professor said was the "worst federal court takings decision since *Kelo*." He further stated that the opinion is "very extreme" and "is significant as a window into Judge Sotomayor's attitudes toward private property." Another notable professor said the opinion is "a disappointment" and is "wrong and ill thought out" and is "about as naked an abuse of government power as could be imagined." Those are strong criticisms from respected legal scholars and nothing in Judge Sotomayor's testimony reassured me about her opinion in the *Didden* case.

Following the hearing, I remain concerned that Judge Sotomayor's hostility to gun rights, abortion restrictions, and property rights, among others, stem from a "personal prejudice" that will influence her decisions once she is untethered from precedent. It is true that she has an extensive record on the bench; however, the Senate's inquiry into Judge Sotomayor's suitability for the Supreme Court cannot merely rest on an overview of the cases she decided when she was constrained by precedent. Judge Sotomayor's extra

judicial statements are critically important to our examination of her fitness for a seat on the Supreme Court because when a judge is free from the confines of precedent—as she was in her speeches and as she will be if she is a Supreme Court Justice—she shows her true colors and passions.

So the question remains, which Judge Sotomayor are we getting? Will Judge Sotomayor follow in the footsteps of Justice Ginsburg or will she adhere to her testimony during her hearing that she will strictly apply the law to the facts? Will she revert back to the judicial philosophy she espoused prior to the hearing, the same way she reverted back to her prior statements on the use of foreign law by American judges? Because I am not convinced that she can put aside her personal politics and preferences, I regretfully must oppose her nomination.

I am pleased to come to the floor today to talk about our Supreme Court selection process. Judge Sotomayor is the third Supreme Court candidate I have had the privilege of getting to know, interview, and ask rigorous questions of during the hearing. She has a miraculous and wonderful personal story. She is very accomplished. She is to be admired for what she has accomplished.

When we look at Supreme Court nominees, we are actually charged to do two things. One is to look at their record of judicial behavior and assess it, and then also to look at their record that is out there besides their judicial decisions. We did a very thorough job in analyzing her 15-plus years as a Federal judge and appellate judge. There were some very concerning cases that we encountered for which we questioned her, and the record will fully show her defense of that record and the reversal rate that she had at the U.S. Supreme Court.

It is interesting for the American public to know that a Supreme Court Justice is much different than an appellate judge or even a Federal circuit judge because they, in fact, are not bound by precedent. As an appellate judge they have to follow precedent, and when they don't they get reversed, and Federal circuit judges have to follow precedent or they get reversed. But a Supreme Court Justice has the freedom to change precedent, and that is why the inquiry into the candidacy and the qualifications of a Supreme Court nominee is so important. It is also why our Founders wrote extensively on what should be the qualifications of a Supreme Court Justice.

Alexander Hamilton stated in *Federalist Paper No. 78*: "The interpretation of the law is the proper and peculiar province of the courts."

He further stated that it was "indispensable in the courts of justice" that judges have an "inflexible and uniform adherence to the rights of the Con-

stitution." A nominee who does not adhere to these standards necessarily rejects the role of a judge as dictated by the Constitution and should not be confirmed.

When we look at the Constitution, we are told in the Constitution how judges are to decide cases. They are given three strict parameters. One is they are to look at the Constitution each and every time. No. 2 is they are to look at the statutes that have been passed by the people's representatives, and they are to look at the facts. They are to look at the facts in a way that will show never a bias—in other words, blind justice—looking at those critical factors of what are the facts of the case, what is the law, and what does the Constitution say.

You can be an appellate court justice for 50 years in this country and still not qualify to be a Supreme Court Justice. It is tremendously important who goes on the Supreme Court. The reason it is important is because we have had a tendency in the last three decades to abandon those three principles and use other principles.

Let me mention two of them. One is that we consider foreign law, that we can become enlightened with foreign law. I don't doubt that we can become enlightened with what other people in the world think about law, but the fact is our Founders said: This is our law. The Constitution is our law. And we have a way of setting law which comes through the Congress. That is what we shall look at with one exception, and that is on trade and treaties where we have to consider the agreements and foreign laws related to those treaties.

The other tendency which has been espoused by our President is an empathy standard, that we can somehow—other than looking at the three main parameters of which our Founders told us we must use in deciding cases at the Supreme Court. Well, I will tell you that a standard other than looking at the facts and looking at the law and looking at the Constitution doesn't meet the test of our Founders nor does it meet the test of our Constitution as it is spelled out in our Constitution.

I wish to say as an American citizen, I think we should all be proud of this nomination: a Hispanic female coming to the Supreme Court. But that is not a good enough reason to say somebody should become a Justice. So I go back to those three founding principles of who should qualify. And who should qualify is somebody who is going to strictly adhere to what our Founders said was the job of a Supreme Court Justice, not with parameters that have been discussed as maybe to be OK or parameters that fall outside of what our Founders said.

During my questioning and my visits with Judge Sotomayor, I found some very disturbing things. I asked her specifically in the hearing: Do individuals

have a fundamental right to self defense? She wouldn't answer yes to that question. Now, a fundamental right to self-defense predates our Constitution. That is what liberty is all about. That is one of the bedrocks of our liberty. And the fact that she will not agree that we as U.S. citizens have a fundamental right to self-defense is extremely troubling.

The reason that fundamental right is so important, and it is guaranteed in the Constitution, is because on that rests the second amendment for which I find her somewhat less than comfortable in accepting what our Founders said in the second amendment, adopted almost 200-and-some-odd years ago.

The second area I have concern with is in the area of property rights. It is very explicitly stated, and it is clear except in two cases in this country in the Supreme Court, which I hope that someday will be reversed, that our right to property is a real right. There was a *Kelo* decision that has markedly limited American citizens' rights to property. On both her cases and her comments and her written testimony, I believe that right of Americans is at risk. I believe judges are going to decide we don't have that fundamental right. I believe she believes, based on what she has ruled and what she has written and what she has said, that, in fact, there are times when judges can decide whether we have that right. That is inherently wrong and 180 degrees against what our Constitution guarantees us as individual citizens.

The final area has to do with the use of foreign law. In her speeches and statements she was highly critical of people who were critical of the use of foreign law. Upon questioning in the committee, she retracted and moved away from those statements. I specifically asked her if she would assure the committee that she would, in fact, never use foreign law to decide U.S. cases. I got her to say yes.

The only problem with that is, in the answer to questions following the hearing, she backtracked 180 degrees from that statement which matched her previous statements in speeches and writings which caused me to ask the question in the first place. So in the area of property rights, in the area of the second amendment and the fundamental right to self-defense, and in the area of foreign law, I believe her viewpoint is something other than what I see in the Constitution.

Regrettably, I believe that disqualifies her from being a Justice of the Supreme Court. That when, in fact, we look at the constitutional basis of how judges are instructed to make law and to decide law—because every decision makes law; it sets precedent—that when we extract from that the fundamental right of self-defense, the written, specific right to the second amendment, the written specific right of

property ownership and due process associated with that, and then we lay on top of that the idea that it is more important for us to look good in our decisions to foreign governments than it is to follow the oath, to follow the Constitution of the United States—make no mistake, I believe this is a wonderful woman, and I think she has done a fairly good job as a judge on the appellate court, but she has been constrained—as we measure her writings and her words with her decisions on cases, what we find is a conflict for those who would strictly follow what the Constitution tells us.

I want our grandchildren to endure and to accept and hold the same freedoms we have. A U.S. Supreme Court Justice will determine that; just one can determine that. So I regretfully announce and state that I will not be able to vote for this very fine woman. But I would also state that we need to be very concerned and very vigilant as we see the Supreme Court make decisions, whether they are sitting Justices today or Justices to come, who violate both the intent, instruction, and the spirit of the U.S. Constitution.

With that, I yield the floor and note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Ms. SNOWE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. SNOWE. Mr. President, I rise to speak to the nomination of Judge Sonia Sotomayor to be the next Associate Justice of the Supreme Court of the United States.

After a careful and considerate review of her testimony before the Senate Judiciary Committee and her overall record, her distinguished judicial background, and a personal meeting with her in June, I have concluded she should be confirmed as the next Associate Justice of the Supreme Court.

I have not arrived at my decision lightly. It has been said that, of all the entities in government, the Supreme Court is the most closely identified with the Constitution—and that no other branch or agency has as great an opportunity to speak directly to the rational and moral side of the American character; to bring the power and moral authority of government to bear directly upon the citizenry.

The Supreme Court passes final legal judgment on the most profound social issues of our time. The Court is uniquely designed to accept only those cases that present a substantial and compelling question of federal law; cases for which the Court's ultimate resolution will not be applied merely to a single, isolated dispute—but, rather, will guide legislatures, executives, and all

other courts in their broader development and interpretation of law and policy.

In the end, ours is a government of both liberty and order, State and Federal authority, and checks and balances. The remarkable challenge of calibrating these fundamental balance points is entrusted ultimately to the nine Justices of the Supreme Court of the United States.

To help meet this extraordinary challenge, any nominee for the Court must, as I stated during the confirmations of Chief Justice John Roberts and Associate Justice Sam Alito, have a powerful intellect, a principled understanding of the Court's role, and a sound commitment to judicial method. A nominee must have the capacity to engender respect among the other justices in order to facilitate the consensus of a majority. And to warrant Senate confirmation, the nominee must have a keen understanding of, and a disciplined respect for, the tremendous body of law that precedes her.

It is with these high standards that we should evaluate the record of Judge Sonia Sotomayor. Reviewing her professional credentials, it is clear that Judge Sotomayor is well qualified. She has served for nearly 11 years on the U.S. Court of Appeals for the Second Circuit where she has participated in over 3,100 cases. The judge also previously served on the U.S. District Court for the Southern District of New York for six years where she decided over 400 additional cases. She also worked for 8 years in private practice and 4 years in the highly respected office of the district attorney for the County of New York. According to the White House, if confirmed, Judge Sotomayor would bring more Federal judicial experience to the Supreme Court than any Justice in 100 years, and more overall judicial experience than anyone confirmed for the Court in the past 70 years. So I applaud the President for selecting an individual who clearly possesses the professional credentials to serve on the Court.

In reviewing her personal credentials, Judge Sotomayor's accomplishments are equally noteworthy. If confirmed, she will become the first Hispanic and only the third woman ever to serve on our Nation's highest Court. Along the way, she has ascended from modest means to excel in our country's most prestigious schools and our judiciary's highest offices. In doing so, she now stands as a model for others to follow in summoning their own courage to break barriers and pursue dreams. And she does so with a personal manner that I find to be refreshingly candid and forthright.

This brings us to the more particular factors we must consider when providing our consent on a President's nominee for Associate Justice—judicial temperament, methodology, integrity

and philosophy. By their very nature, these attributes are often challenging to measure, but they can be ascertained through a careful analysis of a nominee's complete record.

With regard to the first consideration, judicial temperament, we all agree that it is absolutely essential that a judge be fair, open-minded, and respectful. Our citizens simply must have confidence that a judge who weighs their legal claims does so with an even temperament. A judge must be truly committed to providing a full and fair day in court, while projecting a sincere equanimity and respect for the law. When these attributes are not clearly present in our judges, the public justifiably begins to lose faith in the integrity of our courts.

This issue has been rightly explored and satisfactorily answered with Judge Sotomayor. For example, both the New York City and American Bar Associations who reviewed the nominee on all key criteria gave the judge their highest ratings. Robert Morgenthau, the judge's former employer and highly regarded district attorney of New York County since 1975, testified that the judge is "fair," "non-political," and "highly qualified for any position in which a first-rate intellect, common sense, collegiality and good character would be assets." And former Federal judge, colleague, and FBI Director Louis Freeh, has called Judge Sotomayor "fair, neutral, nonpartisan [and] open-minded . . ." And, indeed, I believe that the Judge's professional manner was in evidence during all aspects of her 4-day appearance before the Judiciary Committee.

We look next at the nominee's judicial methodology which directly reflects her commitment to the essential tenets of care, discipline and fairness. Here, the judge was very clear and direct in our June meeting. Her approach to all cases is to carefully identify the facts—what she characterized as a prized skill that she learned as a successful young prosecutor—and then follow the law: What it says; what end was meant to be accomplished; what legislative intent it was meant to advance; and how, if at all, other courts have answered those questions.

As the judge elaborated, she believes that the law can and should develop, but that such development should occur only "incrementally" through the measured development of analogous cases. And when I asked her which opinions best reflect her judicial method, Judge Sotomayor candidly replied, "Read any of my opinions and you will see my structure." And the record supports that assertion—the structure of her opinions shows a consistent, methodical and careful approach to deciding cases.

As she testified at her hearing, her methodology is to "apply the law to the facts at hand" and keep a "rigorous commitment to interpreting the

Constitution according to its terms; interpreting statutes according to their terms and Congress's intent; and hewing faithfully to precedents . . ." She stated further her view that the "process of judging is enhanced when the arguments and concerns of the parties to the litigation are understood and acknowledged. . . . That is why," she explained, "I generally structure my opinions by setting out what the law requires and then by explaining why a contrary position, sympathetic or not, is accepted or rejected. That is how I seek to strengthen both the rule of law and faith in the impartiality of our justice system."

Indeed, the integrity of the judge's methodology can be measured in a variety of ways. First, the judge has a low reversal rate. Research on Judge Sotomayor's performance on the trial court demonstrates she was overruled in only 6 of her over 400 trial bench decisions. Westlaw reports that, in her 11 years on the appellate court, the judge has participated—as I referenced earlier—in over 3,100 cases and, of those cases, the White House reports that the Judge has only been reversed another six times. In each of those circuit cases she was part of a unanimous three-judge panel, and the cases involved the interpretation—not of important constitutional provisions—but of very technical statutes that, in several instances, had created clear divisions of opinion among several of the circuit courts.

Moreover, three of the six circuit cases created 5-4 opinions in the Supreme Court, one created a 6-3 split, and one produced this unusual alignment: Justices Ginsburg and Scalia together in the majority, and Justices Breyer and Alito together in dissent. These facts combine to show the relative difficulty of, and the reasonable room for debate in, these appellate cases.

Next, there is the measurement of the judge's concurrence and dissent rates. There, the data demonstrate that the judge's method of deciding cases is consistent with that of her colleagues on the Second Circuit. For example, research sources indicate that, despite the thousands of her appellate opinions, Judge Sotomayor has only dissented in 21 cases, and has written separate concurring opinions in only 22 others.

Finally, there is the degree to which other courts and scholars find the judge's method of decision worthy of citation. There, data compiled by law professors and students from three universities reveal that, between 1999 and 2001, the judge's opinions were cited by other courts and scholars at meaningful rates—4.4 court citations and 4.6 law review citations per opinion. And between 2004 and 2006, those rates rose to 8.5 court citations and 4.8 law review citations per opinion. These more re-

cent rates are not only higher than the percentage of citation rates for other distinguished Federal appellate judges, they underscore the increasing respect that Judge Sotomayor's work is garnering.

I turn now to the third qualification: judicial integrity. Here, there are those who have suggested that the judge will use her office to engage in "judicial activism" and advance a certain social or political agenda that suits her personal preferences. Principally, these critics point to the New Haven firefighters' case and her Berkeley and Duke speeches as examples of such activism, and I believe these instances have warranted strict scrutiny.

At the outset, it bears noting the White House report that, in her 11 years on the Second Circuit, Judge Sotomayor has agreed with the result favored by the Republican appointees in 95 percent of the published panel decisions where the panel included at least one judge appointed by a Republican president. This statistic is evidence of a nonpartisan or nonideological approach to judging.

At the same time, I have shared the concerns expressed specifically about the New Haven firefighters' case—as many have voiced opposition to both her decision as well as the curt and summary opinion that was used to dismiss the complaint. I sympathize with the plaintiffs, who were told the rules for qualifying for a promotion, who believed they were participating in a fixed process for determining their future career advancement, who did what was asked of them, and then, when it was all over, were informed that what they had done wasn't good enough. So I understand the frustration.

I approached Judge Sotomayor's handling of this case by looking at both the merits—that is, what was decided in the case, as well as the process, or how, the case was decided. As regards the process, as we all well know, the panel that included Judge Sotomayor wrote only a three-paragraph opinion concluding that, "We affirm, for the reasons stated in the thorough, thoughtful, and well-reasoned opinion of the court below."

Now, it may well be that the district judge's opinion was "thorough, thoughtful, and well-reasoned." But the confidence of the litigants and public alike in any court relies on their opportunity to explore a judge's rationale. And the panel's summary affirmation, albeit adopting verbatim the long opinion of the court below, simply failed to meet that expectation.

When I asked Judge Sotomayor in our June conversation—and when she was queried before the Judiciary Committee—she stated that she and her colleagues gave the case their full attention and review, and that only after that full and fair consideration did they determine that their own written

opinion was not necessary, given the district court's exhaustive 48-page opinion applying the seemingly clear "four-fifths rule" of the EEOC regulations and the seemingly settled precedent of what the Judge referred to in her testimony as the Bushy line of cases—this is *Bushy v. New York State Civil Service Commission*, *Kirkland v. New York State Department of Correctional Services*, and *Hayden v. County of Nassau*. In reviewing a petition for rehearing in *Ricci*, six of the Judge's own colleagues were not persuaded by that argument. Yet, another six of her colleagues were so persuaded.

Additionally, the judge testified before the Judiciary Committee that "the practice is that about 75 percent of circuit decisions are decided by summary order, in part because we can't handle the volume of our work if we were writing long decisions in every case; but more importantly, because not every case requires a long opinion if a district court opinion has been clear and thorough on an issue . . ."

Yet, the bottom line is, in my view, this particular case was simply too sensitive and complex—with significant societal implications—to leave to a summary order. And, therefore, the three-judge panel should have issued its own, comprehensive opinion and explanation.

On the matter of the merits of the case, Judge Sotomayor ruled that the city acted lawfully in trying to meet its obligations under Federal employment discrimination law to avoid disparate impact discrimination when making certain employment promotions. And I understand some believe this decision evinces the judge's predisposition to rule for minority litigants. One well-respected DC law firm, however, has found that the judge has decided nearly 100 race-related cases in her 11 years on the Second Circuit, and has effectively rejected such race-related claims by a margin of "roughly eight to one."

Others have suggested that the Supreme Court's reversal of the Second Circuit raises questions of the judge's qualifications to serve. In evaluating that possibility, I have taken into account that the Supreme Court took this action with a 5-4 vote, with four complex and nuanced opinions, as well as an admission from Justice Scalia that the underlying question presented by the case—when affirmative action becomes unlawful discrimination—is "not an easy one."

And I have considered that the High Court reached its decision only by identifying and applying an entirely new standard. Indeed, both the trial and Sotomayor courts applied the then-existing "four-fifths rule" of the EEOC title VII regulations and the seemingly settled circuit precedent of the "Bushy line of cases" in determining that a significant disparity in

the results of an employment test is itself adequate evidence of unlawful disparate impact discrimination.

On appeal, the Supreme Court changed the rule, saying in essence that such a significant disparity in test results is no longer itself adequate evidence. Importing anew from 14th amendment jurisprudence, the Court said that the new rule for interpreting the title VII statute demands a "stronger" basis in evidence," such as evidence that the test was "not job related and consistent with business necessity, or if there existed an equally valid, less discriminatory alternative that served the city's needs but that the city refused to adopt."

Therefore, based on the record, it would appear the district and circuit judges fulfilled their assigned job of applying existing precedent to the existing rule. And in weighing all of the facts, given Judge Sotomayor's assurance to me and the committee that she gave the case her full consideration, given her established reputation for careful decision-making, and given the daily reality of the Second Circuit's burgeoning caseload, particularly with the surge of post-September 11 immigration cases, I cannot conclude that the decision in Ricci should itself disqualify this nominee.

Mr. President, I was also concerned—like many Americans—by Judge Sotomayor's speech at Berkeley in 2001, and specifically by the following line that appears to suggest that the judge decides cases more by personal identity than by fidelity to the law:

I would hope that a wise Latina woman . . . would more often than not reach a better conclusion than a white male. . . .

To thoroughly examine this question with regard to the judge's qualifications, I believed it was necessary to review both the entirety of her speech, as well as her testimony before the Senate Judiciary Committee, to understand to the fullest extent possible her intention behind those comments, because I agree that they are disconcerting.

In that light, I note that the judge, in answering a question from the committee, offered that it is the job of a judge to apply the law, and that it is the law, rather than one's own sympathies, that "compels conclusions in cases."

I also recall the judge's response when I asked her specifically about this speech during our opportunity to meet one-on-one. I said that commentators had criticized that portion of her speech because it suggested that gender and ethnicity enable her to make "better" decisions than a male judge of a different ethnicity. Judge Sotomayor, in replying, suggested that those who have concerns must "read the whole speech;" that she was only trying to say—she admits now inartfully—that "judges are human

beings and they necessarily will be affected by who they are. But this only makes them attuned to certain case aspects; it does not replace following the law."

In evaluating these responses, I recalled prominent judges in our history who also raised this issue.

Indeed, this was the subject to which Justice Felix Frankfurter referred to when he said, long ago, that one of the greatest challenges for all judges, because they are all human, is to recognize their own personal views and develop the patience, insights and discipline to compensate for them. When I raised Justice Frankfurter's comments personally with Judge Sotomayor, she agreed and asserted that was "exactly" the point she was attempting to communicate in her Berkeley speech.

She also asserted in our meeting, and reaffirmed in her committee testimony that, "no racial or ethnic group has a market on sound judgment." She explained that some judges, like many lay people, have "tin ears" on certain matters, and that is why the collegial decision-making is so vital—because sharing different perspectives and blending them into consensus opinions serves as both a "spotlight and a filter." She spoke of how judges, like all people, are inescapably affected by their own life experiences, but that those experiences only affect how "attuned" judges are to certain aspects of cases. They do not replace the requirement to follow and apply the law consistent with the limited role and specific oath of their office.

A review of Judge Sotomayor's decisions and her resulting affinity, dissent and reversal rates that I described earlier bolster the judge's statements that she understands this imperative—and that she decides cases based not on personal identities or classifications, but by "fidelity to the law."

A final question about the judge's judicial integrity has been raised from her remark in 2005 at Duke University that the "Court of Appeals is where policy is made." This comment has understandably raised the specter of a commitment to judicial activism, and is therefore a legitimate cause for examination. When I raised this issue with the judge she responded that she was referring to the educational difference between trial and appellate court clerkships—how a trial court clerkship focuses primarily on resolving limited factual disputes and how an appellate court clerkship focuses primarily on cases involving broader questions of how the law ought to be interpreted.

An essential component of weighing the competing interpretations proffered by appellate advocates is for the court to understand the practical effect of the advocates' competing arguments. It is this understanding that defines the scope and reach of the pos-

sible interpretations. I believe it is therefore legitimate to read and understand her comments within this context. It has also been argued that—as the Supreme Court only accepts and decides about 80 of approximately 8,000 cases per year, Federal circuit courts of appeal often do, as the judge noted in her testimony effectively become the final decisionmaker on what the law—and by necessary extension, the policy it advances—is.

Given all of these factors, again, in considering the entirety of her record, it is fair to conclude that the Duke University speech is not evidence that Judge Sotomayor would practice judicial activism on the Supreme Court.

Finally, we have a fourth and final qualification—judicial philosophy, judge's sense of limits and horizons and great promises of our Constitution and the nominee's view of the proper role of the Supreme Court in deciding whether to take cases and, once taken, the underlying philosophy used to rule upon them.

On this point, I note first the judge's answer when asked whether she subscribes to one or another school of constitutional interpretation. She said: "I don't use labels." I also recall the study by the New York University Law School's Brennan Center for Justice which analyzed over 1,100 constitutional cases decided during Judge Sotomayor's tenure on the second circuit and found as an appellate judge, she voted with the majority in over 98 percent of constitutional cases and that 94 percent of her constitutional decisions have been unanimous. Such figures argue strongly that the judge's constitutional approach is squarely in the mainstream.

The inquiry into any nominee's judicial philosophy is particularly significant for those of us who value the Court's landmark rulings. Decisions protecting the rights of privacy, civil rights, and women seeking equal protection in the workplace—to name a few—comprise a crucial and settled body of the Court's case law. Entire generations of Americans have come to live their lives in reliance upon the Court's rulings in these key areas, and overruling these precedents would simply roll back decades of societal advancement and impose substantial disruption and harm.

Therefore, central to the question of this nominee's judicial philosophy are her views on one of the cornerstones of jurisprudence, and that is judicial precedent.

In our June meeting, I asked whether she agreed with Chief Justice Rehnquist's observation in *Dickerson v. United States* which upheld the famous decision *Miranda v. Arizona*. There, the Chief Justice wrote there are situations where constitutional precedent—that a Justice might have believed had been wrongly decided—

should nevertheless be upheld because the people have accepted the principle of the decision as an "embedded . . . part of our national culture." Judge Sotomayor agreed with that position.

This expressed adherence to applying precedent has achieved significance in many passionately contested areas of the law, such as the second amendment, which brings me to the concerns raised with respect to Judge Sotomayor's decision in *Maloney v. Cuomo*. I happen to be a strong, long-time defender of second amendment rights, as evidenced by my amicus support for Mr. Heller in his recent case before the Supreme Court, in *District of Columbia v. Heller*. Accordingly, I am very well aware the issue of whether second amendment protections are to be construed as incorporated against acts of a State government—as opposed to the Federal Government—has assumed renewed importance and visibility since the Court's recent landmark decision ruling in *Heller*.

I also understand that several longstanding Court precedents have been widely construed by State and Federal courts around the country, including the Maine Supreme Judicial Court, not to incorporate the second amendment. Judge Sotomayor in *Maloney v. Cuomo*, and her two panelists, have stated that those consistent interpretations of the Supreme Court's precedent were binding upon them. And while a panel in the ninth circuit in *Nordyke v. King* bypassed such precedent, a seventh circuit panel, led by Judge Shakley, sharply criticized the *Nordyke* decision for doing so, and instead in *NRA v. City of Chicago* agreed with Judge Sotomayor's opinion because they, too, concluded that the Supreme Court's precedent was binding upon them. Last week, the full ninth circuit itself agreed to reconsider its decision in the *Nordyke* decision.

The Supreme Court may well revisit this issue soon. But the issue before us in the Senate right now is whether the judge has demonstrated, as she describes, "fidelity to the law" and precedent as we would expect—because several longstanding Supreme Court precedents have been widely construed by State and Federal courts alike not to incorporate the second amendment, and because the Supreme Court in footnote 23 of the *Heller* majority opinion expressly said the Court was not deciding the incorporation question. Moreover, given her demonstrated adherence to *stare decisis*, while no one can predict the future with certainty, it is reasonable to conclude she will continue to follow precedent, as also evidenced by her testimony to the Judiciary Committee in which she stated:

The Supreme Court did hold that there is in the second amendment an individual right to bear arms. And that is its holding, and that is the Court's decision. I fully accept that.

Finally, what a powerful and profound message it will send to have Judge Sonia Sotomayor join with Justice Ruth Bader Ginsburg on the highest Court in the land. The fact is, it does make a difference who women and girls see at the pinnacles of government, just as it matters in all fields of endeavor. As Justice Ginsburg has said recently:

My base concern about being all alone was the public got the wrong perception of the Court. It just doesn't look right in the year 2009 . . . It matters for women to be here at the conference table to be doing everything that the Court does . . . Women belong in all places where decisions are being made.

Given the totality of the record before us, I have concluded from Judge Sotomayor's testimony regarding both her judicial methodology and her judicial philosophy that she is not predisposed to overturning settled precedent. Obviously, none of us can know with certainty how Judge Sotomayor would vote on any particular case. But we can assess her methodology and analysis in approaching cases by reviewing her responses to the committee and to other Members throughout this process.

In that light, in evaluating the essential qualifications as I have outlined them, and reviewing the entire judicial record of Judge Sotomayor, I find a fairminded judge with a deep respect for the rule of law and the independence of the courts, and a judicial method committed to stability in the law. It is, therefore, my conclusion that based on the totality of the record and her distinctive qualifications, Judge Sonia Sotomayor has earned the distinction of serving as the next Associate Justice of the Supreme Court.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. BROWNBACK. I ask the Presiding Officer to inform me when 2 minutes is left of my time.

Mr. President, I rise today to discuss the nomination of Judge Sonia Sotomayor to be a Justice of the U.S. Supreme Court. Ultimately, the core of this debate, I believe, is over the proper role of the Court. Our side tends to believe that the Court does not make policy and must stay within the written text of the Constitution. The other side sees the Constitution more often as a living document and that its meaning changes along with the attitudes of society.

When the courts improperly assume the power to decide issues more political than legal in nature, the people naturally focus less on the law and more on the lawyers who are chosen to administer it. Some are key to impose their policy agendas through the judicial process. Others want judges who will stick to interpreting the law rather than making it. It is beyond dispute that the Constitution and its Framers

intended for judges to satisfy the latter criteria; that is, to stay within the law rather than making it.

President Obama has voiced his support for judges looking to the Constitution as a living document malleable to the times. He has said he will pick judges who will look to empathy rather than written law when deciding cases. When then-Senator Obama voted against the confirmation of Chief Justice John Roberts, he said this:

[W]hile adherence to legal precedent and rules of statutory or constitutional construction will dispose of 95 percent of the cases that come before a court, so that both a Scalia and a Ginsburg will arrive at the same place most of the time on those 95 percent of the cases—what matters on the Supreme Court is those 5 percent of cases that are truly difficult. In those cases, adherence to precedent and rules of construction and interpretation will only get you through the 25th mile of the marathon. That last mile can only be determined on the basis of one's deepest values, one's core concerns, one's broader perspectives on how the world works, and the depth and breadth of one's empathy.

I don't dispute that there is a small percentage of cases that are truly difficult. But the question is: Do we want these cases decided by what the law says or by a judge's own personal empathies? I reject the idea that these cases cannot be resolved by staying faithful to the text of the Constitution, and it is dangerous to the rule of law to suggest otherwise.

In June, I came to the floor and stated my opposition to Judge Sotomayor's nomination based on numerous past statements she made embracing an activist judiciary and endorsing the idea that judges should look to areas outside of the law when deciding cases. However, when Judge Sotomayor appeared before the Judiciary Committee last month, she consistently took positions contrary to her past writings and, in many cases, did a complete 180. This leads me to ask which Sotomayor are we voting to confirm—the liberal activist or the modest judge who believes in strictly applying the law as written?

Judge Sotomayor attempted to assure Senators that the real Sotomayor is reflected in her 17-year record on the bench. I find this argument interesting but unpersuasive, because as a judge on the court of appeals, Judge Sotomayor has been constrained by Supreme Court precedent. That is the position she held. Her judicial record tells us very little about who the real Sotomayor will be when on the Supreme Court. It is in her speeches and writings where she is unrestrained that we find the real views on the fundamental questions that she will decide as a Justice on the Supreme Court.

When asked at her confirmation hearing to summarize her judicial philosophy, she said: "Fidelity to the law." I completely agree with this philosophy, but I have difficulty reconciling the words she chose at her confirmation hearing with the statement

she made in 1996 at Suffolk University Law School when she stated: "The law that lawyers practice and judges declare is not a definitive capital 'L' law that many would like to think exists." The only reasonable interpretation to that is that she pledges fidelity to whatever she says the law is.

In a 2001 famous speech she gave to Berkeley Law School, which was later published in the Berkeley La Raza Law Journal, she dismissed the idea that "judges must transcend their personal sympathies and prejudices and aspire to achieve a greater degree of fairness and integrity based on the reason of law," saying that "by ignoring our differences as women or men of color, we do a disservice both to the law and society." This certainly doesn't sound like a judge who believes in fidelity to the law.

In the same speech, Judge Sotomayor famously said:

Justice O'Connor has often been cited as saying that a wise old man and a wise old woman will reach the same conclusion in deciding cases. I am not so sure that I agree with that statement. I would hope that a wise Latina woman with the richness of her experiences would more often than not reach a better conclusion than a white male who hasn't lived that life.

When asked about this statement at her confirmation hearing, Judge Sotomayor said:

The words I used, I used agreeing with the sentiment that Justice Sandra Day O'Connor was attempting to convey.

Really? Are we really supposed to believe that each time Judge Sotomayor said, "I'm not so sure I agree with that statement," she actually meant "I agree with that statement"? Judge Sotomayor's explanation requires some suspension of disbelief.

Also at Berkeley, Judge Sotomayor said:

Whether born from experience or inherent physiological or cultural differences, our gender and national origins may and will make a difference in our judging.

At her hearing, she said:

I do not believe that any ethnic, racial, or gender group has an advantage in sound judging.

Again, are we being asked to believe that Judge Sotomayor is either a very poor communicator or her past statements have been continually taken out of context and misinterpreted? I don't think she is a bad communicator at all.

In her writings, Judge Sotomayor has repeatedly rejected the principle of impartiality and embraced the novel idea that a judge's personal life story should come into play in the courtroom. But when she was in front of the Senate Judiciary Committee, with the Nation watching, she suddenly embraced the judicial philosophy of Chief Justice Roberts.

The past positions simply cannot be reconciled with what she said before the Judiciary Committee. We do not know what she actually believes.

In a 2005 appearance at Duke University Law School, she said, "The court of appeals is where policy is made." During her confirmation hearing, she said, "Judges don't make law" and they "look at the Constitution and see what it says."

Even some of Judge Sotomayor's defenders have criticized her flip-flopping on her views. Georgetown Law Center professor Louis Michael Seidman, a liberal constitutional law scholar, said:

I was completely disgusted by Judge Sotomayor's testimony today. If she was not perjuring herself, she is intellectually unqualified to be on the Supreme Court. If she was perjuring herself, she is morally unqualified.

There was never any doubt that this President would nominate liberal judges who shared his views. He won the election. Judge Sotomayor's record on the bench has been fairly typical of a liberal judge. However, there have been some notable exceptions.

After the Supreme Court ruled that individuals have a constitutionally protected right to gun ownership in the case of *District of Columbia v. Heller*, *Maloney v. Cuomo*, another second amendment case, was argued in front of the Second Circuit. In a per curiam opinion issued by a panel that included Judge Sotomayor, the Second Circuit ruled that "the Second Amendment applies only to limitations the Federal Government seeks to impose on this right." They also said:

Legislative acts that do not interfere with fundamental rights or single out suspect classifications carry with them a strong presumption of constitutionality and must be upheld if rationally related to a legitimate state interest.

In other words, the second amendment does not protect a fundamental right. I believe the second amendment protects a fundamental right, just as the first amendment protects a fundamental right. The Supreme Court agrees it protects a fundamental right, and the Founders most certainly believed there was a fundamental right to keep and to bear arms.

In a high-profile racial discrimination case, Judge Sotomayor's panel issued an unpublished summary order denying a group of firefighters a promotion they had earned because the promotion exam had a disparate impact on minorities. Sotomayor and her two colleagues' actions were troubling because by issuing an unpublished summary order, they avoided bringing the case to the attention of other judges on the Second Circuit. It was only after another judge of the circuit read about the case in a New Haven newspaper and requested that the full Second Circuit rehear the case that Sotomayor's actions came to light. The case was eventually appealed to the Supreme Court, and in a 5-to-4 opinion, the Court reversed the Second Circuit. Perhaps even more importantly, the Court was unanimous—unanimous—in rejecting

Sotomayor's opinion that simply having a disparate racial impact was justification to void the test. The dissenters at the Supreme Court believed a jury trial should have been granted to examine the evidence and determine whether the test was job related. Sotomayor clearly erred in her decision.

Judge Sotomayor was nominated by a President who said judges should have "the empathy to recognize what it's like to be a young teenaged mom; the empathy to understand what it's like to be poor or African-American or gay or disabled or old," and that difficult cases should be decided by "what is in the justice's heart."

When asked about President Obama's empathy standard by Senator KYL, Judge Sotomayor said this:

I wouldn't approach the issue of judging in the way the President does. He has to explain what he meant by judging. I can only explain what I think judges should do, which is judges can't rely on what is in their heart.

Are we really to believe the President chose a nominee who outright rejects his view of justice? I am concerned that the President has, in fact, nominated an individual who shares his view that the Constitution is a living document, and that is why I will be voting against her confirmation.

After watching her performance in front of the Judiciary Committee last month and observing that performance, I learned something I have long suspected: Judge Sotomayor had no choice but to reverse many of her past statements. A judge who openly embraces an activist judiciary, using empathy to pick winners and losers, using his or her own race and gender to decide the outcome of cases, using foreign law, who does not believe the second amendment is a fundamental right and sees judges as policymakers—all those things—is a judge who cannot be confirmed by this body despite 60 Members belonging to the party of the President.

I hope President Obama has learned that important lesson as well, that the people of the country want a Justice on the Supreme Court to be a justice and not a policymaker; to be a judge and not somebody who goes with the sympathies in their heart; someone who sticks with the Constitution and does not try to rewrite it. If the President realizes that, it will be a victory for the rule of law. And that is what this is about.

Mr. President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CARDIN. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CARDIN. I ask unanimous consent that the time in this hour be divided in the following manner: Senator CARDIN, 15 minutes; Senator BAUCUS, 15 minutes; Senator MERKLEY, 10 minutes; Senator AKAKA, 10 minutes; and Senator LIEBERMAN, 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CARDIN. Mr. President, the confirmation of Judge Sonia Sotomayor to be Associate Justice to the Supreme Court will be my first Justice confirmation vote as a Senator. It is an honor for me to represent the people of Maryland in the Senate and to serve on the Judiciary Committee. I particularly thank Chairman LEAHY and Ranking Member SESSIONS for the dignified manner in which the committee handled the nomination process of Judge Sotomayor. Each Senator on our committee had ample time to review Judge Sotomayor's background and ask questions of the nominee. Her answers were as responsive as possible and gave me confidence that she understood the appropriate role of a judge in applying the law.

The Supreme Court, our Nation's highest Court, holds a tremendous responsibility in deciding cases of fundamental issues that have real impacts on the lives of Americans. In recent years, we have seen less of a consensus on the Court, with many 5-to-4 decisions. Regrettably, too many of these decisions have been at times when the Court has ignored congressional intent and precedent to instead move forward with its own agenda. It has been the so-called conservative Justices who have been the most active in ignoring the intent of Congress in protecting individual rights. For example, in the *Ledbetter* decision, the Court denied women a remedy against employer discrimination pay equity cases, thus eliminating protection intended by Congress. In the *Riverkeeper* and *Rapanos* decisions, the Supreme Court narrowed the congressional protections for clean water. In the *Northwest Austin Municipal Utility District* decision, the Court challenged congressional authority to extend the Voting Rights Act. In each of these cases, the Supreme Court actively ruled to restrict laws passed by Congress to protect individual rights. I want the next Justice to respect legal precedent and congressional intent and advance, not restrict, individual rights.

In determining whether to support Judge Sotomayor for this lifetime appointment, I looked at several factors. First, I believe judicial nominees must have an appreciation for the Constitution and the protections it provides to each and every American. I also believe each nominee must embrace a judicial philosophy that reflects mainstream American values, not narrow ideological interests. I believe a judicial nominee must respect the role and responsi-

bility of each branch of government. I look for a strong commitment and passion for continued progress in civil rights protections.

I understand there is a careful balance to be found. Our next Justice should advance the protections found in the Constitution but not disregard important precedents that have made society stronger by embracing our civil liberties. I believe Judge Sotomayor understands this balance and will apply these principles appropriately.

During the hearing, we all learned more about Judge Sotomayor's approach to the law and to judging. She clearly outlined for us her fidelity to the law, respect for precedent, and due deference to the intent of Congress. With each question, our committee and the American public gained a greater appreciation of Judge Sotomayor's knowledge of and commitment to the rule of law. Her command of legal precedent and her ability to challenge attorneys in their arguments will bode well for reaching the right decisions in the Supreme Court. She is mainstream in her judicial decisions and opinions, and she possesses a correct sense of the role of a judge in deciding a case based on sound legal precedent and the facts, giving due deference to congressional intent.

Over the past few months, our committee has had time to thoroughly review Judge Sotomayor's record. From the moment she was nominated by President Obama, we knew Judge Sotomayor had a strong background, including extensive experience as a prosecutor, trial judge, and appellate judge. She grew up in modest circumstances, worked hard to attend two of our Nation's most prestigious universities, Princeton and Yale Law School, and she excelled at the highest levels in each institution. Judge Sotomayor's lifelong work has been recognized by both Democratic and Republican Presidents who nominated her for Senate-confirmed judicial appointments, and for 17 years she has served as a distinguished jurist.

Judge Sotomayor is an example of a highly competent and experienced nominee. She has more Federal judicial experience than any Supreme Court nominee in the last 100 years. She was rated "well qualified" by the American Bar Association, which is the highest rating given by the ABA. She has been supported by the National Fraternal Order of Police, the NAACP, the U.S. Chamber of Commerce, the National Association of Women Legislators, the Brennan Center for Justice, the Lawyers Committee for Civil Rights Under Law, and many more.

The nine Justices of the Supreme Court have a tremendous responsibility of safeguarding the Framers' intent and the fundamental values of our Constitution, while ensuring the protection of rights found in that very Con-

stitution are applied and are relevant to the issues of the day. It is my belief that the Constitution and Bill of Rights were created to be timeless documents that stand together as the foundation for the rule of law in our Nation. Were it not possible for the Supreme Court to apply the basic tenets of the Constitution to changing times, moving beyond popular sentiment, our Nation would never have made the progress it has, improving society for the better. When the Constitution was written, African Americans were considered property and counted only as three-fifths of a person. Non-Whites and women were not allowed to vote. Individuals were restricted by race as to whom they could marry.

Decisions by the Supreme Court undeniably have moved the country forward, continuing the progression of constitutional protections. I believe Judge Sotomayor's record and background demonstrate that she understands these principles and that she will apply sound legal precedent to contemporary challenges advancing individual rights.

During the confirmation hearing, I spent the majority of my time questioning Judge Sotomayor on the topic of civil rights. We discussed the right to vote, women's rights, minority rights, including race and gender issues, the environment, and the importance of diversity of the courts throughout society. While difficult questions will continue to come before the Court, for me, it bears repeating how important it is to have Justices on the Supreme Court who will apply established precedents and are not tempted to turn back the clock on landmark court decisions that protect individual constitutional rights.

I gained great confidence in Judge Sotomayor after listening to her answers to questions I posed. I wished to mention a few of the key cases decided by Judge Sotomayor that we discussed at the hearing. Judge Sotomayor has protected the civil rights of all Americans, advanced equal opportunity, and promoted racial justice.

In the *Gant* case, she protected the rights of a young African-American student who was treated differently than his fellow White classmates. In the *Boyton* case, she looked at the facts presented and reversed and remanded the case because the facts did present a plausible claim of disparate treatment in a housing application process. Judge Sotomayor has also shown an understanding of privacy rights. While we do not have cases to review that she participated in, her responses to questions gave me great confidence that she will respect legal precedent while applying privacy protections to the challenges in the 21st century.

I have confidence that Judge Sotomayor understands the importance of protecting the freedom of

speech based on the decisions she reached in the Pappas case, where an off-duty police officer used speech that was repugnant, but her ruling showed an understanding of the importance of constitutional protections, even when the speech is unpopular and hateful.

I have confidence Judge Sotomayor will protect religious freedom based on her decision in the Ford case, where she protected the rights of a Muslim prison inmate. I was particularly impressed by Judge Sotomayor's record on voting rights. In the Hayden case, she wrote in a dissent:

The duty of a judge is to follow the law, not to question its plain terms. I do not believe that Congress wishes us to disregard the plain language of a statute or to invent exceptions in the statutes it has created.

Her commitment on voting rights was reinforced at the hearing when she responded to a question I posed. She acknowledged, unequivocally, that the right to vote is a fundamental right for all Americans. With current Justices on the Court ready to question Congress's right to extend the basic voting protections of the Voting Rights Act, it is refreshing to hear Judge Sotomayor say in the Hayden case: "I trust that Congress would prefer to make any needed changes itself rather than have the court do so for it."

I have great confidence that Judge Sotomayor understands the importance of civil rights and the importance of protecting those rights for the American people.

I believe Judge Sotomayor will defend Congress's intent with the passage of the Clean Water Act, the Clean Air Act, and many others, based on her decision in the Riverkeeper case. In this case, she wrote for a unanimous panel and held that under the Clean Water Act, the EPA could not engage in a cost-benefit analysis. Allowing cost-benefit analysis would undermine congressional protections, when determining what constitutes the "best technology available for minimizing the adverse environmental impact." She concluded, instead, the test for compliance should consider "what technology can be reasonably borne by the industry and could engage in cost-effectiveness analysis in determining the [best technology available]."

In addition to her impressive legal background, Judge Sotomayor is on the verge of becoming the first Latino and only the third woman to serve on the Supreme Court. Her story of personal success is an inspiration for young Latinos, women, and for all Americans. She is prepared and ready to serve our Nation on the Court, where I am confident she will continue to build upon the outstanding record she has already achieved as a distinguished jurist. For all these reasons and many more, I will vote to confirm Judge Sotomayor to be the next Associate Justice of the U.S. Supreme

Court. I urge my colleagues to join in support of her confirmation.

I ask unanimous consent to have printed in the RECORD the following letters of support: The Lawyers Committee for Civil Rights Under Law, a joint letter with more than 25 disability rights organizations in support of Judge Sotomayor's confirmation; and letters of support signed by more than 80 civil rights and labor organizations in support of her nomination to be the next Supreme Court Justice.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CONFIRM JUDGE SONIA SOTOMAYOR TO THE
U.S. SUPREME COURT
August 4, 2009

DEAR SENATOR: On behalf of the undersigned organizations, we write to express our support for the confirmation of Judge Sonia Sotomayor as associate justice of the Supreme Court of the United States. In her 17 years of service to date as a federal trial and appellate judge, and throughout the course of her entire career, Judge Sotomayor has strongly distinguished herself through her outstanding intellectual credentials and her deep respect for the rule of law, establishing herself beyond question as fully qualified and ready to serve on the Supreme Court.

Judge Sotomayor will be an impartial, thoughtful, and highly respected addition to the Supreme Court. Her unique personal background is compelling, and will be both a tremendous asset to her on the Court and a historic inspiration to others. Her legal career further demonstrates her qualifications to serve on our nation's highest court. After graduating from Yale Law School, where she served as an editor of the Yale Law Journal, Judge Sotomayor spent five years as a criminal prosecutor in Manhattan. She then spent eight years as a corporate litigator with the firm of Pavia & Harcourt, where she gained expertise in a wide range of civil law areas such as contracts and intellectual property. In 1992, on the bipartisan recommendation of her home-state senators, President George H.W. Bush appointed her district judge for the Southern District of New York. In recognition of her outstanding record as a trial judge, President Bill Clinton elevated her to the U.S. Court of Appeals in 1998.

During her long tenure on the federal judiciary, Judge Sotomayor has participated in thousands of cases, and has authored approximately 400 opinions at the appellate level. She has demonstrated a thorough understanding of a wide range of highly complicated legal issues, and has a strong reputation for deciding cases based upon the careful application of the law to the facts of cases. Her record and her inspiring personal story indicate that she understands the judiciary's role in protecting the rights of all Americans, in ensuring equal justice, and in respecting our constitutional values—all within the confines of the law. Moreover, her well-reasoned and pragmatic approach to cases will allow litigants to feel, regardless of the outcome, that they were given a fair day in court.

Given her stellar record and her reputation for fairness, Judge Sotomayor has garnered broad support across partisan and ideological lines, earning glowing praise from colleagues in the judiciary, law enforcement community, academia, and legal profession who know her best. Her Second Circuit colleague (and also her former law professor) Judge

Guido Calabresi describes her as "a marvelous, powerful, profoundly decent person. Very popular on the court because she listens, convinces and can be convinced—always by good legal argument. She's changed my mind, not an insignificant number of times." Judge Calabresi also discredited concerns about Judge Sotomayor's bench manner, explaining that he compared the substance and tone of her questions with those of his male colleagues and his own questions: "And I must say I found no difference at all." Judge Sotomayor's colleague Judge Roger Miner, speaking of her ideology, argued that "I don't think I'd go as far as to classify her in one camp or another. I think she just deserves the classification of outstanding judge." And New York District Attorney Robert Morgenthau, her first employer out of law school, hailed her for possessing "the wisdom, intelligence, collegiality, and good character needed to fill the position for which she has been nominated."

The undersigned organizations urge you not to be swayed by the efforts of a small number of ideological extremists to tarnish Judge Sotomayor's outstanding reputation as a jurist. These efforts have included blatant mischaracterizations of a handful of her rulings, as well as efforts to smear her as a racist based largely on one line in a speech that critics have taken out of context from the rest of her remarks. The simple fact is that after serving 17 years on the federal judiciary to date, she has not exhibited any credible evidence whatsoever of having an ideological agenda, and certainly not a racist one. We hope that you will strongly reject the efforts at character assassination that have taken place since her nomination.

In short, Judge Sotomayor has an incredibly compelling personal story and a deep respect for the Constitution and the rule of law. Her long and rich experiences as a prosecutor, litigator, and judge match or even exceed those of any of the justices currently sitting on the Court. Furthermore, she is fair-minded and ethical, and delivers thoughtful rulings in cases that are based upon their merits. For these reasons, the undersigned organizations strongly urge you to vote to confirm Judge Sotomayor. If you have any questions, please feel free to contact Leadership Conference on Civil Rights (LCCR) Counsel Rob Randhava at (202) 466-6058, or LCCR Executive Vice President Nancy Zirkin at (202) 263-2880.

Sincerely,

80 signatures in support of Judge Sotomayor's confirmation.

AMERICAN ASSOCIATION
OF PEOPLE WITH DISABILITIES,
Washington, DC, July 7, 2009.

Hon. PATRICK LEAHY,
Chair, Judiciary Committee,
U.S. Senate, Washington, DC.

Hon. JEFF SESSIONS,
Ranking Member, Judiciary Committee,
U.S. Senate, Washington, DC.

DEAR SENATORS LEAHY AND SESSIONS: On behalf of the undersigned national advocacy organizations representing the interests of millions of people with disabilities, we write to express our strong support for the confirmation of Judge Sonia Sotomayor as Associate Justice of the Supreme Court of the United States. We have reviewed hundreds of Judge Sotomayor's decisions, including her disability rights decisions, from her career as a trial judge and appeals court judge, along with her public statements in speeches and in interviews. Based on her sterling judicial record, and on her valuable life experience, we strongly believe that Judge

Sotomayor will adequately and fairly protect the rights of all Americans, including people with disabilities. As such, we ask that you vote to confirm her nomination.

Judge Sotomayor's decisions under our seminal civil rights law, the Americans with Disabilities Act (ADA), have demonstrated a good understanding of—and healthy respect for—the rights of persons with disabilities. In important ADA cases concerning the definition of “disability”—an area of the law subject over the years to many inappropriately narrowing judicial interpretations, so much so that last year Congress amended the ADA to restore its broad reach—Judge Sotomayor has often combed through voluminous or technical testimony to determine whether the plaintiff was protected by the law. Similarly, her understanding of the importance of accommodations to help workers with disabilities maintain employment is reflected in her thoughtful decisions in workplace accommodation cases. She has not been afraid to dissent from a decision finding that plaintiffs did not have disabilities. Nor has she been afraid to overturn a jury verdict where incorrect instructions to the jury impeded a plaintiff's ability to obtain relief under the ADA.

In her ADA decisions, and in other cases, Judge Sotomayor has demonstrated great sensitivity to the needs of, and challenges facing, people with disabilities in this country. For example, her analysis of special education issues arising under the Individuals with Disabilities Education Act (IDEA) reflects—and language from her decisions explicitly states—a keen awareness of the importance of timely special education services to students with disabilities and their families. She has been vigilant in reviewing administrative decisions denying Social Security benefits, especially where applicants are not represented by attorneys. In a notable dissent, Judge Sotomayor argued forcefully that the appointment of a guardian ad litem violated the constitutional rights of a plaintiff who had received psychiatric treatments, because she was not properly notified that she would have no control over her case once the guardian was appointed.

Given her record of balanced and thoughtful decisionmaking, we believe that Judge Sotomayor understands and appreciates Congress's role in enacting important disability rights protections, in enacting the ADA and other disability rights laws, Congress carefully considered the history of people with disabilities in the United States, and acknowledged that many people with disabilities have been ostracized from their families and communities—that they have been prevented from going to school in their neighborhood schools, from working at jobs for which they were qualified, and from participating fully in all aspects of community life. The care that Judge Sotomayor has taken in her disability rights decisions indicates a respect for Congress's intent that these laws have a broad remedial effect on the relationships between individuals with disabilities and covered entities such as employers, schools, state agencies, and public accommodations. For this reason, we expect that she would accord Congress appropriate deference in this area.

It is our belief that Judge Sotomayor will bring her fair, thorough approach to disability rights cases to her work on the Supreme Court. Judge Sotomayor understands the language and purpose of the ADA and other disability rights laws. Further, she understands that the decisions of judges, including Supreme Court justices, that inter-

pret these laws have consequences for people with disabilities. Admirably, she has been unafraid to take strong positions on issues where she believes her reading of the law and facts is correct. Based on her record and her experience—including the fact that she has publicly acknowledged her own insulin-treated diabetes—we strongly urge you to confirm Judge Sotomayor for the Supreme Court.

Thank you for your important work on Judge Sotomayor's nomination. Should you have questions about this letter, please feel free to contact Andrew Imparato of the American Association of People with Disabilities, Jim Ward of ADA Watch/National Coalition for Disability Rights or Jennifer Mathis or Lewis Bossing of the Judge David L. Bazelon Center for Mental Health Law.

JUNE 30, 2009.

Hon. PATRICK LEAHY, CHAIRMAN,
U.S. Senate Judiciary Committee, Washington,
DC.

Hon. JEFF SESSIONS,
Ranking Member, U.S. Senate Judiciary Committee, Washington, DC.

DEAR SENATORS LEAHY AND SESSIONS: As professors of Disability Law, Disability Rights Law, and Special Education Law from across the country, we write to express our support for the confirmation of Judge Sonia Sotomayor for appointment to the United States Supreme Court.

A review of Judge Sotomayor's record on disability law issues indicates that she has an excellent understanding of the various laws' application to people with disabilities in various contexts, including disability civil rights, employment, special education, Social Security, Medicaid, and guardianship.

Judge Sotomayor's record shows that she takes a balanced, thoughtful approach to disability issues. Her analysis is consistently thorough, practical and respectful of individual rights. In close cases, she does not appear to follow any particular ideology or activist agenda.

DEFINITION OF DISABILITY

With the passage of the Americans with Disabilities Amendments Act of 2008, Congress repudiated much of the way that the Supreme Court has interpreted the Americans with Disabilities Act's definition of disability. Notwithstanding this flux in the law, Judge Sotomayor's opinions in this area stand out as being careful and reasoned, as she has engaged in searching inquiries into the nature of plaintiffs' impairments to determine whether they meet the functional and legal definition of disability. (See *Bartlett v. New York State Board of Law Examiners*, 2001 WI 930792 (S.D.N.Y., 2001).

Judge Sotomayor has not been reluctant to dissent in cases where the law was being applied overly narrowly, particularly on the Issue of coverage based on an employer's perceptions of disability (“regarded as”). (See *EEOC v. J.B. Hunt Transp., Inc.*, 321 F.3d 69, 78 (2d Cir. 2003) (Sotomayor dissenting)). After the passage of the ADA Amendments Act, Judge Sotomayor's interpretation of the “regarded as” prong of disability now has been adopted as consistent with congressional intent.

DISCRIMINATION

Judge Sotomayor has authored decisions holding, as a matter of first impression in the Second Circuit, that “mixed motive” analysis (allowing discrimination claims where there are both discriminatory and non-discriminatory motives for a challenged action) applies in ADA employment discrimination claims (See *Parker v. Columbia Pictures Industries*, 204 F.3d 326 (2d Cir. 2000)). Her opinion fully analyzed, and was consistent with, precedents in other jurisdictions and the demonstrated intent of Congress.

REASONABLE ACCOMMODATION

Judge Sotomayor has participated in several cases reversing grants of summary judgment for ADA defendants where there were questions of fact regarding whether plaintiffs requested accommodations were reasonable. Judge Sotomayor wrote a decision reversing a jury verdict against the plaintiff for failure to give a jury instruction indicating that, in determining whether reassignment to a vacant position is a reasonable accommodation, an offer of an inferior position is not reasonable when a comparable, or lateral, position is available. (See *Norville v. Staten Is. Univ. Hosp.*, 196 F.3d 89 (2d Cir. 1999)).

EDUCATION

Judge Sotomayor's education opinions reflect an appropriate concern for parents' procedural rights, recognizing that, only by ensuring parents' rights to hearings and records can their children's substantive educational rights be ensured, while also balancing states' rights under the “cooperative federalism” envisioned by the Individuals with Disabilities Education Act (IDEA). (See *Taylor v. Vermont Dep't of Educ.*, 313 F.3d 768 (2d Cir. 2002)). She has also written opinions recognizing that the IDEA exhaustion requirement is not so inflexible as to require parents to engage in futile efforts. (See *Murphy v. Arlington Cent. Sch. Dist. Bd. of Educ.*, 297 F.3d 195 (2d Cir. 2002)).

CONSTITUTIONALITY OF FEDERAL CIVIL RIGHTS LEGISLATION

Judge Sotomayor has resisted judicial attempts to artificially limit federal legislative authority to articulate and enforce individual rights. While demonstrating respect for precedent, she has not interpreted the Constitution to prevent Congress from recognizing individual and civil rights. (See *Hayden v. Pataki*, 449 F.3d 305 (2d Cir. 2006) (Sotomayor joining dissent from en banc decision); *Connecticut v. Cahill*, 217 F.3d 93 (2d Cir. 2000) (Sotomayor dissenting)). Her opinions reflect a deference to Congress and to the plain language of the Constitution.

The Supreme Court is the guardian of our rights and freedoms. As such, we recognize the importance of each nomination to the Court. Based on her record as a district court judge and as a Judge on the Second Circuit Court of Appeals, we believe Judge Sotomayor has demonstrated appropriate respect for the rule of law and the importance of individual rights. Therefore, we urge you to confirm the nomination of Judge Sonia Sotomayor to the U.S. Supreme Court.

23 signatures in support of Judge Sotomayor's confirmation.

Mr. CARDIN. I yield the floor.

The PRESIDING OFFICER (Mr. BENNET). The Senator from Montana.

Mr. BAUCUS. Mr. President, it is with great honor that I rise to express my support for the nomination of Judge Sonia Sotomayor to be an Associate Justice of the U.S. Supreme Court.

In the *Federalist Papers*, explaining our great Constitution and the role of the judiciary, Alexander Hamilton quoted Montesquieu to say:

There is no liberty, if the power of judging be not separated from the legislative and executive power.

We Americans should take a moment to recognize that few other nations in the world possess such a strong emphasis on individual rights and liberties—something we cherish greatly. Too often we take it for granted. We can, in large part, point to this Nation's independent judiciary as the reason for this emphasis on individual rights and liberties. Sure, they are enshrined in the Constitution, but the independent judiciary, framed in the Constitution, helps make all that possible. Justice Sandra Day O'Connor stated, for example:

The Framers of the Constitution were so clear in the *Federalist Papers* and elsewhere that they felt an independent judiciary was critical to the success of the nation.

Our Founding Fathers were wise in setting up three separate branches of government, including a strong and independent judiciary. The pinnacle of this system and its independence is the U.S. Supreme Court, the highest Court in the land.

Our Constitution embodies this independence in the separation of powers and checks and balances throughout this great document. This is the case in the structure of appointing our Supreme Court Justices. The Constitution provides of the President, for example, that:

He shall nominate, and by and with the advice and consent of the Senate, shall . . . appoint judges of the Supreme Court.

Let me repeat, the Constitution says: the President "shall nominate, and by and with the advice and consent of the Senate, shall appoint . . . judges of the Supreme Court."

The Senate's role is of utmost importance in defending the independence of the Supreme Court. The Senate's active advice and consent role in the confirmation of Supreme Court Justices helps to ensure that nominees have the support of a broad political consensus.

Of the many responsibilities the Constitution grants to the Senate, few are more critical than the Senate's role in the confirmation process for Supreme Court Justice nominees.

I take—and I know each of us in the Senate does—this constitutional responsibility very seriously. Throughout my time in the Senate, I have established three criteria I use to examine nominees. These three criteria are: professional competency, personal integrity, and a view of important issues within the mainstream of contemporary judicial thought. Those are the three. They are the criteria I use. I have analyzed past Supreme Court nominees using these three criteria, including Chief Justice Roberts and Justice Alito. I will review my criteria.

First, professional competency. The Supreme Court must not be the testing ground for the development of a jurist's basic values. We do not have time for that. A Justice cannot learn on the job, nor should she require further training. The stakes are simply too high. She must be professionally competent on day one.

Second, personal integrity. Nominees to our Nation's highest Court must be of the highest caliber.

And, third, the nominee should fall within the mainstream of contemporary judicial thought. The next Justice must possess the requisite judicial philosophy to be entrusted with the Court's sweeping constitutional powers.

I believe that in the case of Judge Sonia Sotomayor, the answer to all three questions is a resounding "yes."

Judge Sotomayor is the embodiment of the American dream—rising from a Bronx public housing project to a place among the judicial elite. She attended Princeton, where she graduated among the top of her class, and she was editor of the *Law Journal* at Yale Law School.

Judge Sotomayor's work history is diverse and rich with experience. Judge Sotomayor began her legal career as assistant district attorney for New York County in 1979. She then worked as a litigator at Pavia & Harcourt, a small firm in Manhattan, where she handled commercial cases.

Judge Sotomayor's 17 years on the bench, first as a district court judge,

then on the second circuit, have yielded an enormous yet consistent body of work. Her opinions show thorough and thoughtful analysis, an eye for detail, and, in her own words, fidelity to the law.

I have no doubt that Judge Sotomayor has the professional competency that the American people require of Supreme Court Justices.

Judge Sotomayor's life experiences also convey the personal integrity essential to a Supreme Court Justice. She has given back her time, energy, and expertise to the community that helped shape who she is. She has worked hard throughout her career, inspiring students across the country to pursue study of the law.

For her service, Judge Sotomayor has received many honorary degrees—many—countless awards, and accolades from her colleagues, clerks, and the academic community. Judge Sotomayor has also made personal sacrifices. She recognizes the personal sacrifices she must make in order to serve as a Justice on the Supreme Court.

My third criteria—that is, a nominee who falls within the mainstream of contemporary judicial thought—is met, again, by reviewing Judge Sotomayor's lengthy judicial record. Some of my colleagues want to paint her as a judicial activist with leftwing leanings.

In fact, in constitutional cases that came before the second circuit, Judge Sotomayor voted with the majority 98 percent of the time—hardly a leftwing activist. In the rare cases where she held a government action unconstitutional, the decision was so clear that it was unanimous. Judges appointed by Republican Presidents have agreed with Judge Sotomayor 90 percent of the time—hardly a leftwing activist.

This is not the actions of an activist judge. In fact, this is a judge who can be relied on to produce a decision that most people can agree with.

I strongly believe Judge Sotomayor has met the three criteria I view essential to a Supreme Court Justice, and this was even more evident during her confirmation hearing.

Over the 4 days of hearings on the nomination of Judge Sotomayor, what did we see? We saw a composed, intelligent, and thoughtful judge, someone committed to the law, and one with a rich life story and expansive judicial experience, whose perspective will enrich the judgments of the U.S. Supreme Court.

In closing, I congratulate our President. I congratulate President Obama on his historic nomination. I am confident Judge Sotomayor will make an outstanding Justice on the U.S. Supreme Court.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, for the benefit of Members, we will have no more votes tonight. I just completed a meeting with Senator MCCONNELL, and we are trying to work through when we are going to have a final vote on the Supreme Court nomination, what we are going to do on travel promotion, and what we are going to do for cash for clunkers. We are trying to work through that. We hope we will have something worked out tonight, but knowing how things work around here, we probably will not be able to get information to Members until tomorrow. But there will be no more votes tonight.

I have indicated the number of things we have to complete before we leave here, and that is all dependent on the amount of cooperation we get from the minority whether we finish tomorrow, Friday, or Saturday, or Sunday. There is no reason we can't put in a modestly long day tomorrow and complete everything, but we will have to see. We will do our best to try to get notice to Members as quickly as we can.

Mr. INOUE. Mr. President. I support the nomination of Judge Sonia Sotomayor to the Supreme Court.

Some of my colleagues have criticized Judge Sotomayor for her views. I welcome an independent thinker.

Some have criticized her for being a "liberal" in certain cases. What is wrong with being a liberal? Do all Supreme Court Justices have to qualify as being conservatives?

I welcome the nomination of Judge Sotomayor to the Court because she, unlike most members of the Supreme Court, has lived through the experiences of many of our citizens. She knows what it is to be poor. She knows what it is to have grown up in public housing.

I wish her the very best.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. AKAKA. Mr. President, I rise today in support of the confirmation of Judge Sonia Sotomayor to be an Associate Justice of the U.S. Supreme Court. She has received support from many parts of the community. The Judiciary Committee has received many letters of support for Judge Sotomayor's nomination, from current and former public officials, including the National Association of Latino Elected and Appointed Officials, the Congressional Asian Pacific American Caucus, former President Bill Clinton, as well as former Judge Advocates General. These letters of support continue to come.

Judge Sotomayor is well qualified, with significant judicial experience.

After graduating from Yale Law School, she worked in the New York County District Attorney's Office prosecuting criminal cases such as homicides and robberies, child pornography, police misconduct, and fraud cases. She then spent over 7 years in private practice working with large corporations on international business issues.

In 1992, Judge Sotomayor was appointed by President George H.W. Bush to the Southern District Court of New York. Six years later she was appointed by President Clinton to the Second Circuit Court of Appeals where she has served for more than 10 years.

Throughout her career, Judge Sotomayor has displayed a keen intellect and an understanding of the world around her. She knows the law and knows firsthand how it affects Americans' daily lives.

If confirmed, Judge Sotomayor will be the first Hispanic Justice and the third female Justice to sit on the Supreme Court. Her confirmation would make the Supreme Court more reflective of our great and diverse Nation.

She brings a rich background and a wealth of experience and understanding of American life that will have an impact on the cases before the Court. As other Justices have noted, the unique personal story of each Supreme Court Justice allows them to better understand the parties before them and to better apply the law to the facts at hand. She has a deep understanding of the real lives of Americans—how her decisions can affect not only the parties before her but society at large.

In June, I had the pleasure to meet with Judge Sotomayor. During our meeting we talked about Hawaii, its history, and its culture. We talked about how being an island State forces us to work together to resolve challenges and how our diverse culture helps us find unique solutions. Judge Sotomayor understands that. She knows our diversity ultimately makes America stronger.

Her commonsense approach to the law gives Americans reason to believe that she will be an unbiased and fair-minded Supreme Court Justice. In fact, Judge Sotomayor's record demonstrates her realistic approach to deciding cases and her fair treatment of the parties before her. She has a long record of judicial restraint and respect for our constitutional freedoms, established precedent, and the other branches of the government, including the lawmaking role of Congress.

Last month we watched as she handled her confirmation hearing with poise and composure. She addressed the committee members' questions with thoughtfulness and respect. She demonstrated that she is up to the challenge and the great responsibility of serving on the Supreme Court. I am confident, based on her experience and background, that she will make an ex-

cellent addition to the U.S. Supreme Court.

I urge my colleagues to focus on her qualifications, her life experience, and her judgment and join me in supporting Judge Sotomayor's confirmation.

Mr. President, I ask unanimous consent that the letters I mentioned at the beginning of my remarks be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL ASSOCIATION OF LATINO
ELECTED AND APPOINTED OFFICIALS,
Los Angeles, CA, July 10, 2009.

Hon. PATRICK J. LEAHY,
Chairman, Senate Committee on the Judiciary,
Washington, DC.

Hon. JEFF SESSIONS,
Ranking Member, Senate Committee on the Judiciary,
Washington, DC.

DEAR SENATOR LEAHY AND SENATOR SESSIONS: On behalf of the National Association of Latino Elected and Appointed Officials (NALEO), I am writing to express our strong support for the swift confirmation of Judge Sonia Sotomayor to serve as Associate Justice of the U.S. Supreme Court. NALEO is the leadership organization of the nation's more than 6,000 Latino elected and appointed officials.

Judge Sotomayor is an exceptionally accomplished jurist who has demonstrated a deep commitment to equal justice for all Americans. She has excelled as a prosecutor, a corporate litigator, a federal judge, and an appellate judge on the Second Circuit Court of Appeals. Judge Sotomayor has more experience in the federal judiciary than any other person nominated to the United States Supreme Court in a hundred years.

In addition, during her distinguished career, Judge Sotomayor has combined a profound respect for the rule of law with careful and thoughtful analysis of the law's impact on the day-to-day realities of our diverse nation. Through her extensive public service efforts, she has promoted equal opportunity in employment and housing, and expanded access to the electoral process.

NALEO's Board reached the decision to support Judge Sotomayor's nomination after a thorough review of her qualifications conducted in accordance with the Board's principles governing the assessment of federal judiciary nominees. This assessment involved a comprehensive evaluation of the Judge's professional accomplishments, and her opinions and rulings that affect equal access to civic and economic opportunities. The Board also reviewed the Judge's record of service to the legal profession, the judiciary, and the public.

We believe that the confirmation of Judge Sotomayor is particularly important, because it will help enhance the diversity of the nation's highest court, where no Latino has yet served. In order for our judicial system to carry out justice effectively and interpret our laws fairly, our judges must understand how laws affect the daily realities of the life of our nation's diverse residents. Latinos are the nation's second largest and fastest growing population group, and Judge Sotomayor will bring a deep understanding of the issues facing Latinos and all Americans to the Supreme Court. Thus, her service as an Associate Justice will greatly enrich the administration of justice in our nation.

NALEO believes Judge Sotomayor will be an invaluable asset to our nation's highest

court because she possesses exceptional judicial expertise and a firm dedication to our laws and Constitution. The full Senate must confirm the Judge's nomination by the August Congressional recess in order for Judge Sotomayor to participate in September when the Court confers, and to be seated on the first Monday in October, when the court publicly convenes. We urge the Senate Judiciary Committee to help meet this schedule by advancing Judge Sotomayor's nomination to the full Senate as expeditiously as possible.

Thank you for attention to this matter. Should you have any questions, please contact me.

Sincerely,

ARTURO VARGAS,
Executive Director.

CONGRESSIONAL
ASIAN PACIFIC AMERICAN CAUCUS,
Washington, DC, July 13, 2009.

Hon. PATRICK J. LEAHY,
Chairman, Committee on the Judiciary, U.S. Senate, Washington, DC.

Hon. JEFF SESSIONS,
Ranking Member, Committee on the Judiciary, U.S. Senate, Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS: On behalf of the Congressional Asian Pacific American Caucus (CAPAC), I am writing to inform you of CAPAC's endorsement of the nomination of Judge Sonia Sotomayor to be an Associate Justice of the U.S. Supreme Court.

CAPAC applauds President Obama's decision to choose Judge Sonia Sotomayor as his Supreme Court nominee. A brilliant legal mind, Judge Sotomayor has already served our country with great distinction. Over the course of her distinguished career, Judge Sotomayor has been a fearless guardian of the rule of law and demonstrated integrity of the highest class, earning her the respect of the legal community.

Despite humble beginnings from the South Bronx, Judge Sotomayor went on to become the valedictorian of her high school, the top undergraduate student in her class at Princeton, and an editor of the Yale Law Journal. Her legal career has been as dazzling as her life story, and she is unquestionably qualified to serve as a Supreme Court Justice.

She would bring to the Supreme Court her experience in nearly every level of our judicial system as a prosecutor, litigator, trial court and appellate judge—offering a depth and breadth of experience that will inform her work on our nation's highest court. In fact, she has a wider range of federal legal experience than any Justice sitting on today's Court.

CAPAC extends its endorsement with pride. Members of our caucus look forward to working with you to ensure a fair and smooth confirmation process.

Sincerely,

MICHAEL M. HONDA,
Chair.

JULY 14, 2009.

Hon. PATRICK J. LEAHY,
Chairman, U.S. Senate Judiciary Committee, Washington, DC.

DEAR MR. CHAIRMAN: I write respectfully to urge the Senate's speedy confirmation of the Honorable Sonia Sotomayor as Associate Justice of the Supreme Court of the United States.

I had the privilege to name Judge Sotomayor to a position in the Federal Judiciary. On that occasion, she was a trailblazer as the first Latina nominated to a U.S. Cir-

cuit Court. As the first Hispanic nominee to the U.S. Supreme Court, Judge Sotomayor once again breaks new ground. If confirmed, Justice Sotomayor will be the second jurist in history nominated to three judgeships by three different Presidents. I am very proud of our nation at this auspicious moment.

It is my hope that Judge Sotomayor will join the Supreme Court, where she can make a unique contribution through her experience as a state prosecutor and a trial judge. Her compelling life story, being raised by a single mother of modest means who instilled in her the values of hard work and educational achievement, is the true embodiment of the American Dream.

I congratulate President Obama for selecting an eminently qualified nominee and encourage the Senate to recognize Judge Sotomayor's outstanding qualifications and experiences, which make her worthy of the honored role of Associate Justice of the Supreme Court of the United States.

Sincerely,

BILL CLINTON.

Hon. PATRICK J. LEAHY,
Chairman, U.S. Senate Committee on the Judiciary, Washington, DC.

Hon. JEFFERSON B. SESSIONS,
Ranking Member, U.S. Senate Committee on the Judiciary, Washington, DC.

Hon. LINDSEY GRAHAM,
Member, U.S. Senate Committee on the Judiciary, Washington, DC.

DEAR CHAIRMAN LEAHY, RANKING MEMBER SESSIONS, AND SENATOR GRAHAM: We, former Judge Advocates General and a general in the Judge Advocate General's Corps, respectfully write to support the confirmation of Judge Sonia Sotomayor as an Associate Justice of the United States Supreme Court.

Judge Sotomayor is well-qualified for the Supreme Court and should be confirmed. She has earned a reputation for careful, narrowly-tailored decisions in seventeen years as a federal judge, applying the law impartially, and faithfully honoring precedent and the rule of law. Earlier in her career, she impressed her colleagues as a focused and hard-working prosecutor and corporate litigator. She has distinguished herself in each role, displaying rigorous thinking and careful attention to the facts before her. Judge Sotomayor would serve the Court, and the nation, well.

We urge your speedy confirmation of this qualified nominee.

Sincerely,

JAMES P. CULLEN,
Brigadier General,
USA (Ret.).

DONALD J. GUTER,
Rear Admiral, USN
(Ret.).

JOHN D. HUTSON,
Rear Admiral, USN
(Ret.).

Mr. AKAKA. Mr. President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MERKLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MERKLEY. Mr. President, over the past few weeks of meetings and

hearings, both the Senate and the American people have witnessed the intelligence, the legal understanding, and dedication to the law that makes Judge Sonia Sotomayor well qualified to be our next Supreme Court Justice. Today, I rise to support her nomination and share a few thoughts on why I think Judge Sotomayor should be confirmed as the next U.S. Supreme Court Justice.

When I was in college I took a freshman seminar on the Bill of Rights. Each week, our professor would give us the facts of a Supreme Court case without the opinions and would ask us to draft our opinion of a situation. After we had prepared our opinion, we would share them the next week, and then and only then read the official majority and minority opinions of the Justices. It was quite an education in the Bill of Rights.

Over the course of the semester, many of us came to identify with the approach and viewpoints of one Justice or another. It was very helpful in gaining insight into my own thinking and that of our Supreme Court. So when I met Judge Sotomayor, I posed a question to her: Which judge do you most identify with? Her answer was Justice Benjamin Cardozo.

Let me tell my colleagues a little bit about Benjamin Cardozo. A native of New York, he served on the New York Court of Appeals, the highest State court in New York, from 1914 to 1932, and then on the U.S. Supreme Court from 1932 to 1938. Cardozo was descended from Portuguese Jewish immigrants who long ago had fled the Spanish Inquisition, and Cardozo was the first Jewish person to serve on the New York Court of Appeals. His careful, brilliant opinions on New York law earned him wide recognition as one of our Nation's most outstanding judges.

When he was nominated to the Supreme Court in 1932, he was confirmed by the Senate by a unanimous voice vote. I can see many reasons why Judge Sotomayor, as a native New Yorker, as a child of Spanish-speaking immigrants from Puerto Rico, and as a longtime judge in New York might identify with Justice Cardozo. I am sure Judge Sotomayor would love to extend the parallel to Cardozo's unanimous Senate confirmation vote. But Judge Sotomayor cited none of these reasons. Rather, she pointed to his particular approach to judging—the careful, fact-intensive approach that was Cardozo's hallmark.

Let me put that observation in context. Cardozo served as a judge during the industrializing early 20th century. Because of the rapidly changing times in which he lived, he was faced with a wide range of cases that raised new and difficult issues. His opinions became recognized for drawing deeply on the facts of individual cases and relied heavily on the development of the law

that came before him. He was innovative and forward-looking but also deeply respectful of careful development of the law. He described his style as one of steady, hard work. Justice Cardozo and Judge Sotomayor share a love for steady, hard work—the steady, careful development of law that comes from fact-intensive, careful judging. These are approaches to law that will serve the judge well as our next Supreme Court Justice.

Interpreting the Constitution is, of course, a challenge. Our Constitution is mostly written in broad, general directives. For example, our first amendment says Congress shall pass no law “abridging the freedom of speech.” Our fourth amendment ensures persons shall be free in their homes from “unreasonable searches and seizures.” The fourteenth amendment declares that no State shall “deny to any person within its jurisdiction the equal protection of the laws.”

Those broad phrases do not provide easy answers to complicated cases. When is a search or seizure unreasonable? When does a practice or law abridge freedom of speech? When does a practice or law abridge equal protection under the law?

Our first Chief Justice, John Marshall, correctly noted it is the responsibility of the judicial branch to provide answers. How should a Supreme Court Justice go about providing these answers?

Judge Sotomayor’s background and record offer a model for how it should be done. First, she brings to her work extraordinary academic and experiential qualifications. She graduated at the top of her class from Princeton University and from Yale Law School. She brings valuable life experience from growing up in public housing in the Bronx, from serving as a prosecutor in New York City, and from working as an attorney in private practice. In 1992, she was appointed to the Federal bench by President George Herbert Walker Bush. During the following 17 years, including 11 on the U.S. Court of Appeals for the Second Circuit, she weighed in on over 3,000 panel decisions and authored about 400 published opinions.

What this body of work shows, more than anything else, is that Judge Sotomayor is diligent and prudent in her approach to hearing and deciding cases. She thoroughly weighs the facts and carefully adapts the principles expounded by previous courts to reach a just result in each new set of circumstances. In fact, the reason many find it difficult to pin a label on her—be it conservative or liberal—is because her decisions do not follow ideological lines. Rather, they emerge from close readings of previous cases and careful thought about the implications of the particular facts. Clearly, the judge’s respect for Justice Cardozo isn’t just an off-the-cuff remark. Hers

is a judicial record that Benjamin Cardozo would be proud of.

Just as Cardozo faced the challenge of interpreting the Constitution in a newly industrialized state, so, too, do we face the challenge of interpreting the Constitution in a high-tech, globally interconnected world. The answers to tomorrow’s constitutional questions will not be easy. But if we follow Judge Sotomayor’s approach, our constitutional interpretations will be built on the wise interpretations of the past. We will, with this approach, have confidence that our Supreme Court will stay true to the body of principles of justice and freedom that are at the heart of our constitutional tradition.

Let me summarize. Judge Sotomayor has a stellar academic background. She brings diverse and valuable life experiences. She has a distinguished record on the bench, and she will bring a carefully measured judicial approach and valuable insights to our Supreme Court.

Moreover, the value of the diversity that Sotomayor would bring to the Court, as a woman, as an American of Puerto Rican descent, cannot be overstated. We often talk about government by and for the people. That is a cherished part of our tradition. We often talk about it in terms of the diversity of those who serve in the executive branch. We often talk about it being important in the diversity of those who serve in the legislature, so we can bring valuable insights to bear. But government by and for the people extends to the judicial branch as well. We need to have the insights that flow from having judges with many different life experiences.

I am confident Sonia Sotomayor will be a wise guardian of our Constitution. Therefore, I urge my colleagues to join me in casting their votes to confirm Judge Sonia Sotomayor as an Associate Justice of the U.S. Supreme Court.

I yield the floor.

Mr. FEINGOLD. Mr. President, I want to say a few words about Judge Sotomayor and about the hearing process we have just been through.

First, I commend Chairman LEAHY and his staff for a remarkably well-run proceeding in the Judiciary Committee. I think anyone who saw the 4 days of hearings would agree that the process was scrupulously fair. Everyone got a chance to ask all the questions they wanted to ask. They had the time they needed for follow up questions, and for follow ups to those follow ups. No stone was left unturned, even if the answers the Judge gave weren’t always what the questioner hoped to hear.

What the public doesn’t see is the work that is done behind the scenes to get us to that point. Not just the setup of the room and all the complex preparations that go into the smooth run-

ning of the hearing itself, but also the enormous effort to make all of the background information that came to the Judiciary Committee available online virtually immediately—all of Judge Sotomayor’s speeches and articles, over 100 letters and reports from people who know her, or organizations that wished to express their views on her nomination, as well as all of the materials received from the PRLDEF organization in response to the Judiciary Committee’s request. Chairman LEAHY has set a new standard for transparency and public access to Supreme Court nomination proceedings, and I truly commend him for that, and I also thank him and his staff for the tremendous work they have done over the last several weeks.

The scrutiny to be applied to a President’s nominee to the Supreme Court is the highest of any nomination. The Supreme Court, alone among our courts, has the power to revisit and reverse its precedents, and so I believe that anyone who sits on that Court must not have a pre-set agenda to reverse precedents with which he or she disagrees, and must recognize and appreciate the awesome power and responsibility of the Court to do justice when other branches of government infringe on or ignore the freedoms and rights of our citizens. This is the same standard I applied to the nominations of both Chief Justice Roberts and Justice Alito during the last administration.

What we saw over 4 days of hearings on the nomination of Judge Sotomayor was a thoughtful, intelligent, and careful judge, a person committed to her craft and to the law, someone whose remarkable life story and varied experience will add diversity and perspective, which the Court sorely needs. Not only will Judge Sotomayor become the first Latina Justice, and only the third woman, to serve on the Court, but she will be the only Justice who has served as a trial court judge, and she will have more judicial experience at the outset of her service on the Court than any of her colleagues did. There is no doubt she is highly qualified, and I think we saw during those 4 days of hearings that she has an admirable judicial temperament and demeanor that will serve her well on the Court.

Judge Sotomayor’s record and testimony satisfied me that she understands the important role of the Court in protecting civil liberties, even in a time of war. She sat on a Second Circuit panel that struck down portions of the National Security Letter statute that was so dramatically expanded by the Patriot Act. And when I asked her how September 11 changed her view of the law, she gave the following answer:

The Constitution is a timeless document. It was intended to guide us through decades, generation after generation, to everything that would develop in our country. It has

protected us as a nation. It has inspired our survival. That doesn't change.

Later, when we discussed the Korematsu case, she said:

A judge should never rule from fear. A judge should rule from law and the Constitution.

Those words give me hope that she will have the courage to defend the liberties of the American people from an overreaching executive or legislative branch.

At the same time, she appreciates the deference the judiciary must give to the legislature as it seeks to solve the problems facing the American people. I don't see in her record or in her public statements a burning desire to overturn precedent or to remake constitutional law in the image of her own personal preference, and I certainly don't see bias of any kind. I was also impressed with her record and statements during the hearing on judicial ethics. Judge Sotomayor seems to understand that the extraordinary power she will wield as a Justice must be accompanied by extraordinary care to guard against any apparent conflict of interest.

All that being said, I do want to express a note of dissatisfaction. Not with Chairman LEAHY, or with my colleagues on the Judiciary Committee, and certainly not with Judge Sotomayor, but with a nominations process that I think fails to educate the Senate or the public about the views of potential Justices on the Supreme Court. I have said before that I do not understand why the only person who cannot express an opinion on virtually anything the Supreme Court has done in recent years is the person from whom the American public most needs to hear. It makes no sense to me that the current Justices can hear future cases notwithstanding the fact that we know their views on a legal issue because they wrote or joined an opinion in a previous case that raised a similar issue, but nominees for the Court can refuse to tell us what they think about that previous case under the theory that doing so would compromise their independence or their ability to keep an open mind in a future case.

I remain unconvinced that the dodge that all nominees now use—"I can't answer that question because the issue might come before me on the Court"—is justified. Nomination hearings have become little more than theater, where Senators try to ask clever questions and nominees try to come up with cleverer ways to respond without answering. This problem certainly did not start with these hearings or this nominee, but perhaps it is inevitable. The chances of the Senate rejecting a nominee who adopts this strategy are very remote, based on the recent history of nominations. Nonetheless, I do not think it makes for meaningful advice and consent.

So I cannot say that I learned everything about Judge Sonia Sotomayor that I would have liked to learn. But what I did learn makes me believe that she will serve with distinction on the Court, and that I should vote in favor of her confirmation.

The PRESIDING OFFICER. The Senator from Connecticut is recognized.

Mr. LIEBERMAN. Mr. President, it is a privilege to rise to speak on behalf of President Obama's nomination of Judge Sonia Sotomayor to be an Associate Justice of the U.S. Supreme Court.

This takes me back to a time, shortly after I was privileged to be elected to the Senate, when President George H.W. Bush nominated David Souter to be an Associate Justice of the Supreme Court of the United States. David Souter had, by that time, been in law enforcement as an attorney general of New Hampshire. As a former attorney general, I felt an instant kinship with him. He had also been a trial judge in New Hampshire, a member of the New Hampshire Supreme Court and, ultimately, he sat on the Federal First Circuit Court of Appeals. He was proposed to President Bush 41 by our former colleague, Warren Rudman, a Senator from New Hampshire, a great Senator and a great friend.

I remember when Senator Rudman brought David Souter around and introduced him after President Bush nominated him. It has been my privilege to have had a friendship with David Souter in the company of former attorneys general, particularly those who gather periodically to speak of matters past, present, and future. I wanted to speak of Justice Souter because, of course, it is his announcement of retirement that opens the vacancy that President Obama has asked us to fill with Judge Sonia Sotomayor.

In the case of now-Justice Souter, I was privileged in one of my early votes here to join 89 of my Senate colleagues in voting to confirm Justice Souter. With his retirement this summer, after two decades on the Court, he has become the first Justice to retire of the six Supreme Court Justices on whose nominations I have had the privilege and responsibility of voting.

I wish to first thank and commend Justice Souter for his decades of public service, generally, and, specifically, for his thoughtful, distinguished service to the highest Court of our land. I know Justice Souter is a very honorable, straightforward man. He is—if I may say so as a New Englander—a quintessential New Englander. He carries with him all the great constitutional traditions of the part of our country from which I am proud to hail. He brings with him some characteristics that are best associated with a New Englander. He is straightforward. He is not one for flowery rhetoric. He is one who is committed to integrity in his

personal life, as well as his public life. He has a great New England sense of humor—probably not often seen in his decisions, but I bear personal testimony here, though I am not under oath at the moment, to that great quality he has.

I know there are some who have become critics of Justice Souter, who have said he isn't what they thought he would be when he was nominated. But when he was nominated, what he presented himself as was a man of the law who believed in our Constitution, believed in the values that underlie it, and one who would always do what he thought was right. He has done that in his years on the U.S. Supreme Court. I haven't agreed with every opinion Justice Souter has ever written, but this I know: Every time he sat to write an opinion or to join an opinion, he did so after the most careful consideration. He is an extraordinarily hard-working, disciplined individual and, ultimately, he reached a judgment that he felt was right, according to the requirements of our Constitution. I salute this great American, this quiet American, but this profoundly patriotic American, and wish him well in the years he has ahead of him as he returns now, by his own choice, to his beloved New Hampshire.

The life tenure of Supreme Court Justices—a lifetime appointment for those who choose not to step down—defines, in many ways, the importance of the Senate's role in providing advice and consent to the President on Supreme Court nominees. I have always felt, from the time I first came in—and the first vote I cast was on a controversial nomination for Secretary of Defense. It was in 1989. I spent a lot of time looking back at the history of the advice and consent clause. To make a long story short, I felt it wasn't for me to vote for a nominee of the President, to advise and consent. I did not have to feel that nominee was the person I would have chosen but just that that nominee was within the range of being acceptable and was prepared and qualified for that job. There is a slightly higher standard for Supreme Court nominees because they do serve lifetime appointments.

It is with that in mind that I approach this nomination of Sonia Sotomayor. I have met with Judge Sotomayor and have reviewed her judicial record. I followed her confirmation hearing before the Judiciary Committee and, based on all that, I conclude, without question, that she possesses remarkable intellectual and legal credentials, has a distinguished record of experience in the public and private sector, and a deep commitment to our country and our Constitution. I will, therefore, vote affirmatively to consent to her nomination to the Supreme Court.

Judge Sotomayor's 17-year record as a Federal judge speaks volumes about

her qualifications to serve on the Court, and that is why I feel she more than passes the threshold for this lifetime appointment. During 6 years as a trial judge on the U.S. district court and 11 years as a judge on the court of appeals, Sonia Sotomayor has shown she possesses a superior intellect, a commendable judicial temperament, and an admirable respect for the role of established precedent in our legal system.

It is usually and quite naturally true that those who know people best are those with whom they have worked most closely. Those who have worked most closely with Judge Sotomayor are consistent, even effusive, in their praise for her personal attributes, her professional qualifications, and her fairness. Chief Judge Dennis Jacobs of the Second Circuit Court of Appeals, said:

Sonia Sotomayor is a well-loved colleague on our court—everybody from every point of view knows that she is fair and decent in all her dealings.

Another colleague on the Second Circuit, Senior Judge Roger Miner, said:

I don't think I'd go so far as to classify her in one camp or another. I think she just deserves the classification of outstanding judge.

While the most significant facts about Judge Sotomayor are her personal qualifications and her judicial record, I also note that women are underrepresented on the Supreme Court of the United States. I say that not just as a matter of numbers but as a matter of qualification.

I thank the President for this historic nomination of the first American of Hispanic descent to the Supreme Court. This nomination was clearly made on the basis of merit, not ethnicity or gender. I think it is consistent with her merit. But acknowledging her ethnicity, her selection represents another barrier that has been broken in American life. When that happens in American life, the doors open wider for every other American.

I will be proud to vote yes to confirm Sonia Sotomayor, of New York, to be Associate Justice of the U.S. Supreme Court.

I thank the Chair and yield the floor.

The PRESIDING OFFICER (Mr. WARNER). The Senator from Nevada.

Mr. ENSIGN. Mr. President, I ask unanimous consent that the Republican time for the next hour be allocated as follows: Senator ENSIGN, 30 minutes; Senator MURKOWSKI, 20 minutes; and Senator SESSIONS, 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ENSIGN. Mr. President, I rise to speak about Supreme Court nominee, Judge Sonia Sotomayor.

The words "Equal Justice Under Law" are engraved in the stone above the entrance to the U.S. Supreme

Court. This simple phrase, "Equal Justice Under Law," carries an immense amount of weight and responsibility.

As a Senator tasked with the monumental responsibility of confirming a Supreme Court nominee, it is with these four words in mind that I carefully studied this Supreme Court nominee. There is no denying that Judge Sotomayor is impressive. Her qualifications, diverse experience, and personal disposition make her a worthy candidate for this nomination. The fact that this is a proud moment for our Nation has not been lost on me. This year, America has certainly filled the history books. On the tails of his historic election, President Obama has chosen to nominate the Nation's first Hispanic woman to the Supreme Court. President Obama and Judge Sotomayor have made history, but the impact they will have on future generations is so much greater.

Although, as a child, Judge Sotomayor could do little more than dream. She was born in the Bronx, raised by a single mother after her father passed away when she was 9 years of age. Her mother instilled in her a deep value for education and a strong work ethic, which paid off with a full scholarship to Princeton University. She graduated summa cum laude from Princeton and went on to attend Yale Law School, where she earned her juris doctorate. She is truly an inspiration for people across our great country.

Judge Sotomayor's humble upbringing is reminiscent of another recent judicial nominee, also of Hispanic heritage, who rose above his meager means in New York to attend and graduate with honors from Ivy League schools. And the similarities do not stop there. I am referring to the American success story of Miguel Estrada, an individual equally deserving of our respect.

Miguel Estrada came to America as a Honduran immigrant at the age of 17. With very little English in his vocabulary, he rose to the top of the legal profession after graduating with honors from Columbia University and Harvard Law School. He clerked for Supreme Court Justice Anthony Kennedy and was a former Assistant Solicitor General of the United States. Miguel Estrada served in the administrations of both President Bill Clinton and President George W. Bush.

In 2001, President George W. Bush recognized his talent and nominated him to the U.S. Court of Appeals for the DC Circuit. Unfortunately, partisan politics came into play, and Estrada's record was not judged purely on its merits. He did not receive the fair consideration that has been given to Judge Sotomayor. He never even made it as far as a confirmation vote. Miguel Estrada's nomination and expected ascension to the Supreme Court was cut short by a Democrat filibuster—as a matter of fact, seven Dem-

ocrat filibusters that helped create a new standard for judicial nominees and the Senate's constitutional role of "advise and consent." Had he been given the fair consideration he deserved, the Hispanic community would have another great role model in our judicial system.

As I have previously stated, I am impressed by Judge Sotomayor. In our meeting, I found her very personable and easy to talk with. Unfortunately, our discussions during that meeting did little to alleviate the concerns I had upon reviewing her record and her public statements, including her testimony before the Judiciary Committee. Judge Sotomayor's record and testimony have left me with more uncertainty and doubt instead of the assurance that she has the ability to rule with a fair and impartial adherence to the rule of law. I fear that Judge Sotomayor, when seated on the Supreme Court bench, will not be a zealous advocate for "Equal Justice Under Law." Many of her responses to me and to my colleagues on the Judiciary Committee were troubling, not necessarily because of substance, but more due to the lack of it.

I remain concerned that we just do not know who we will be getting on the Supreme Court. The inconsistencies in Judge Sotomayor's testimony, judicial record, and writings make it impossible to fully understand her commitment to how she will interpret and uphold the Constitution.

This especially concerns me because a lifetime appointment to the Supreme Court comes without the barriers of additional judicial review that someone has in a lower court. The restraints of precedent that she was under as a district court and circuit court judge will not apply.

Even if I was to solely consider her judicial record, I cannot in good conscience dismiss her cursory treatment of cases dealing with serious and important constitutional questions. Some of her decisions have run contrary to the Constitution, were decided in opinions lacking analysis, and are consistent with liberal political thought.

For example, there was her 2006 private property decision that permitted the government to take property from one developer and give it to another.

And we have heard a lot about her 2008 Ricci decision, recently overturned by the U.S. Supreme Court, which would have effectively allowed employers to engage in reverse discrimination, so long as their claims of their actions were motivated by a desire to avoid conflicts with favored minority groups. A majority of Justices found that Judge Sotomayor misapplied the law.

Then there was her 2009 second amendment decision in *Maloney v. Cuomo* that would give States the power to ban firearms. The unsigned decision, joined by Judge Sotomayor,

held that New York's state statute does not interfere with a fundamental right. The opinion also dismissed the argument that a complete ban violates the Second Amendment by citing Supreme Court cases from the 19th century holding that the Second Amendment applies only to the Federal Government and not to the States. To me, the Maloney ruling is an indication that Judge Sotomayor does not view the Second Amendment as protecting a fundamental right.

This is further supported by a 2004 decision in *U.S. v. Sanchez-Villar* in which she also joined a decision that flatly denied gun possession as a fundamental right. While that decision predated *Heller*, the Maloney decision occurred more than six months after the *Heller* decision, and yet Sotomayor again dismissed the possibility that the second amendment protects a "fundamental right." Once again in the decision, no analysis was given as to why. Her conclusion was that, one, the Second Amendment does not apply to the States and, two, the Second Amendment does not protect a fundamental right.

Had Judge Sotomayor looked to the history of the Fourteenth Amendment, the Civil Rights Act, and the Freedman Bureau's Act, she would have recognized—or at least she should have recognized—that they were enacted to ensure that the constitutional rights of freedmen were protected against State infringement. This is especially true as it relates to the Second Amendment and the practice by States and localities that were outlawing the ownership of firearms by newly freed slaves.

Given this information, coupled with Judge Sotomayor's record, I believe it is reasonable to conclude that she has a bias against firearms and our constitutional right to "keep and bear arms." Should we expect her to rule differently when the Supreme Court takes up the Maloney case or the Ninth or Seventh Circuit cases that deal with the question of whether the Second Amendment applies to the States?

Judge Sotomayor appears to believe that the Second Amendment is not an individual, fundamental right. It is, in fact, a fundamental right granted to all Americans and enshrined in our Constitution. The Second Amendment is the cornerstone of our Bill of Rights. If it is chipped away or infringed upon in any way, our freedom and liberties will be compromised. It is my fear that Judge Sotomayor will threaten Second Amendment rights for all Americans.

This was not the first time her bias and propensity to rule with purpose-driven results impacted her judicial decision making. Unfortunately, Judge Sotomayor's record and testimony provides more uncertainty and doubt than a declaration to her ability to rule with a fair and impartial adherence to the rule of law.

Presidents, Senators, judges, and Supreme Court Justices alike take an oath to preserve, to protect, and to defend the Constitution. It is our most solemn duty. Judges are expected to be tethered to the Constitution and impartially apply the law to the facts. The American people overwhelmingly reject the notion that unelected judges should set policy or allow their social, moral, or political views to influence the outcome of cases. I worry about her prior dismissal of the goal of judicial impartiality as an unattainable "aspiration." And I disagree that embracing her biases is a good thing.

Judge Sotomayor's views on international law are also troubling. While the use or consideration of foreign and international law in judicial decision-making is not new and remains a subject of controversy, Judge Sotomayor appears to embrace using international standards or laws to decide U.S. constitutional questions.

I asked Judge Sotomayor about her thoughts on the use of foreign law. Her answers on this worrisome issue only confirm a contradictory position reflected in many of her public statements and an apparent endorsement of using foreign law as a source of creative ideas.

During the confirmation hearings, Judge Sotomayor was asked if she agreed that "there is no authority for a Supreme Court justice to utilize foreign law in terms of making decisions based on the Constitution or statutes." This was her response:

Unless the statute requires you or directs you to look at foreign law . . . the answer is no. Foreign law cannot be used as a holding or a precedent or to bind or to influence the outcome of a legal decision interpreting the Constitution or American law that doesn't direct you to that law.

She went on to say:

I will not use foreign law to interpret the Constitution or American statutes. I will use American law, constitutional law to interpret those laws, except in the situations where American law directs a court.

This seems fairly straightforward. But her answers to written questions are contradictory, saying:

In limited circumstances, decisions of foreign courts can be a source of ideas informing our understanding of our own constitutional rights.

To the extent that the decisions of foreign courts contain ideas that are helpful to that task, American courts may wish to consider those ideas.

This was not the only time she offered support for utilizing foreign law. On April 28, 2009, Judge Sotomayor gave a speech to the ACLU of Puerto Rico entitled "How Federal Judges Look to International and Foreign Law Under Article VI of the U.S. Constitution." Article VI makes the Constitution and subsequent laws the "supreme law of the land." In her April speech, she gave a broad defense of the practice by some American judges of looking to

foreign and international law as a source of "good ideas" in deciding questions of American law. She stated that U.S. courts can use foreign law to "help us understand whether our understanding of our own constitutional rights f[a]ll[s] into the mainstream of human thinking."

Apparently, the sentiments Judge Sotomayor expressed this past April are not new. In 2007, she wrote a forward to a book on international judges, titled "The International Judge," where she assumed there is value to "learn[ing] from foreign law and the international community when interpreting our Constitution."

I believe, and Justices Roberts, Scalia, and Thomas agree, it is illegitimate for judges to look to foreign sources for guidance in interpreting the Constitution and laws ratified and enacted by "We the People, of the United States." Judge Sotomayor has also specifically criticized Justices Scalia and Thomas for their opposition to relying on foreign law to interpret the Constitution. She has even suggested that we will lose our influence globally if we are not open to foreign and international law.

While Judge Sotomayor acknowledges that judges are prohibited from treating foreign statutes or foreign court judgments as binding, she has publicly embraced their use in formulating decisions. Judge Sotomayor attempted to distinguish the "use" of foreign law to decide American legal questions from the act of "considering" foreign law by "us[ing] the ideas of foreign courts in some of our decision-making."

According to Sotomayor, any effort to "outlaw the use of foreign or international law . . . would be asking American judges to . . . close their minds to good ideas." She further stated, "How can you ask a person to close their ears? Ideas have no boundaries. Ideas are what set our creative juices flowing."

I agree, good ideas are important. Aren't we fortunate that our Constitution is full of them? And our Constitution will always be the supreme law of our land.

Unfortunately, we have already experienced the negative impact of so-called good ideas from foreign law and how some on the Supreme Court may be using them to erode our constitutionally protected rights. Let's take a look at the controversial 2005 Supreme Court decision of *Kelo v. New London*.

It appears the global "good idea" of "Sustainable Development" from a U.N. Earth Summit may have influenced the majority decision to widely expand the definition of the "Takings Clause" and eminent domain from its original purpose—"public use" for bridges, roads, or traditional government uses.

In Kelo, I believe the Court incorrectly ruled against the private property owners, allowing the City of New London, CT, to transfer the private property from long-time homeowners to a private developer for what the city considered a greater "public purpose," instead of public use to increase the city's tax base.

Again, I believe this is a troubling interpretation of the Constitution, and the Kelo decision suggests the danger of allowing international or foreign good ideas to impact interpretation of U.S. constitutional questions.

I further fear that she may be less restrained by the text of the Constitution and more inclined to embrace judicial activism. Throughout her hearing, Judge Sotomayor insisted her judicial philosophy was, "fidelity to the rule of law," and that judges are required to defer to the policy choices made by Congress. Unfortunately, she declined to explain how she would apply that principle in practical terms.

When asked how her commitment to the "rule of law" would guide her judgment on whether the Second Amendment protected a fundamental constitutional right against encroachments from States and local governments, Judge Sotomayor declined to answer other than to vaguely commit to look at the Supreme Court's prior decisions. And when asked whether she views the Constitution as a "living, breathing, evolving document," Judge Sotomayor professed that the Constitution "is immutable" and "has not changed except by amendment."

Yet, once again, her own responses to Senators' questions adopt a strikingly different tone. When asked to distinguish between judicial decisions that apply a broadly-written statute to specific circumstances based on a judge's view of "common sense" and a legislative act that endorses and codifies a court's decisions, Judge Sotomayor argued that a court's action—with precisely the same practical effect as the action of the legislature—does not amount to "making law" solely because it is a judicial act.

If, as her written answers argue, Judge Sotomayor believes judges cannot make law solely because they are judges, her repeated disavowals of judicial law-making while sitting before TV cameras are essentially meaningless.

In conclusion, when thinking back on the phrasing engraved in marble above the entrance to the U.S. Supreme Court, "Equal Justice Under Law," Judge Sotomayor's record and testimony provide uncertainty and doubt that she will rule with a fair and impartial adherence to the rule of law. Therefore, I respectfully oppose her nomination because she has given no assurances that the Second Amendment is an individual, fundamental right; she has demonstrated a propen-

sity to rule with purpose-driven results; she has indicated a particular interest in considering international standards or laws to decide U.S. constitutional questions; and her televised testimony contradicted much of her public record and professed judicial philosophy.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Ms. MURKOWSKI. Mr. President, a decision as to whether to confirm a President's nominee to the Supreme Court is one of the most significant decisions any of us will make during our Senate careers. The precedents that are established by the U.S. Supreme Court do not merely affect the litigants but the entire fabric of American society, often for centuries.

Justices of the Supreme Court enjoy life tenure. They are not accountable to the President who appointed them or to the Senators who voted to confirm them. They are not directly accountable to the American people. Yet it is undeniable today, as it has been since the founding of our Republic, that the Supreme Court is relied upon as the last line of defense against the loss of our liberties.

It is critical that the American people have the highest confidence in the Supreme Court and its objectivity. In a Democratic society, the credibility of any institution relies on the consent of the governed. Those who seek nomination to the Supreme Court must be ever vigilant in their words and in their deeds that they do nothing to undermine that credibility.

Mr. President, after lengthy, lengthy introspection, I rise this evening to inform my colleagues that I am unable to support the nomination of Judge Sotomayor to serve on the Supreme Court. This is a difficult result for me because I like Judge Sotomayor on a personal level. I visited with the judge for nearly an hour when she came through to meet with Senators. She is absolutely an engaging individual, and I left thoroughly impressed with her intellect and certainly with her resolve. She was open to my invitation to visit Alaska, and that invitation still stands.

The nomination of Judge Sotomayor, who would be the first woman of Puerto Rican descent to serve on the Supreme Court, is indeed a historic one. Many were disappointed that President Bush did not nominate a woman to fill Justice Sandra Day O'Connor's seat on the Supreme Court. Justice O'Connor herself underscored the importance of placing women on the bench and in other high governmental positions in an interview with the National Law Journal that was published on May 26, 2009. So I am pleased that President Obama has nominated a woman to succeed Justice Souter.

Judge Sotomayor's education and experience certainly qualify her for the

position for which she was nominated—experience as a prosecutor and in the private practice of law, 17 years service on the Federal trial and appellate bench, a gifted and inspiring law professor.

Judge Sotomayor's rise from the South Bronx to Princeton and Yale Law School is truly an American success story. Her excellence in practice as a prosecutor and private practice attorney is also an American success story. Her rise through the ranks of the Federal Court system is an American success story. And here in America, we celebrate success stories such as Judge Sotomayor's.

But as much as I like Judge Sotomayor and am impressed with the obstacles she has clearly overcome, there are aspects of Judge Sotomayor's record that make me uncomfortable. I have heard from about 1,400 Alaskans who are troubled by what they know of Judge Sotomayor as well, and this discomfort arises from Judge Sotomayor's speeches as well as her decisions in key cases involving the second amendment and property rights.

Alaskans, by their nature, are independent thinkers, and this nomination has rightly engaged their attention. So let's begin with the speeches.

In the National Law Journal interview I referred to a moment ago, Justice O'Connor reasserted her viewpoint that "a wise old woman and a wise old man, at the end of the day, can reach the same conclusion." I agree with that conclusion. But this is a viewpoint that Judge Sotomayor has challenged in one form or another on some eight different occasions.

During the confirmation hearings I was looking for a simple, straightforward statement that Judge Sotomayor had come to appreciate that perhaps her remarks were ill-conceived; that she would not use those words if she were delivering those speeches today. During the confirmation hearings Judge Sotomayor used many words to justify and to explain her statements. She argued vigorously that she was misunderstood. But I am still not clear she understands the impact the plain meaning of her words had upon the American people or the impact they potentially could have on the credibility of the Court.

Many of my constituents in the State of Alaska are not impressed with this talk. Alaskans champion diversity. In the Anchorage school district where my children attended elementary and middle school, more than 90 different languages are spoken. About 20 percent of Alaskans are of Alaska Native ancestry. Yet we reject the notion that coming from a particular background makes you wiser than one who has a different background. Alaskans judge each person as an individual.

Alaskans respect those who respect our lifestyle and our values—hunting

and fishing and sustaining one's self from the land, responsible development of our natural resources, and a government that restrains itself from intruding on the lawful choices of American citizens.

About 63 percent of our State is owned by the Federal Government. Alaska is constantly in Federal court defending attacks to our ability to access Alaska's lands and develop our economy, and often these issues end up before the Supreme Court. Many Alaskans were disappointed recently with the outcome of the Exxon Valdez punitive damages case. This may explain why so many Alaskans are so attuned to the objectivity of those nominated to serve on our Supreme Court.

We are initially suspicious of those who are educated at Ivy League schools and spend their entire careers in the Boston-Washington corridor. Alaskans wonder whether those with this background truly understand the slice of the American experience that we live in the 49th State, and with good reason.

I would not expect that Judge Sotomayor would devalue her own experiences. But neither should she have suggested that the experiences of others would lead them to decisions of lesser wisdom. One's diverse background does not and should not diminish the value of another's experiences.

All of this leads me to question whether Judge Sotomayor will consider the pleas of those with experiences different from her own with the objectivity that is demanded of a Supreme Court Justice. My constituents are also troubled by the speech in which Judge Sotomayor expresses her notion that the appellate courts are where policy is made. Judge Sotomayor has subsequently explained that the point she was trying to make is that the courts of appeal establish precedent and the district courts do not. But there is a difference between policy and precedent, and my constituents don't believe Judge Sotomayor would have used the words "make policy" to mean "establish precedent."

They believe that she really did mean "make policy." Alaskans get nervous when courts make policy decisions. Particularly those policy decisions that infringe upon our constitutional rights, as Alaskans understand them.

And no constitutional issue concerns my constituents in Alaska more than the second amendment. They question whether Judge Sotomayor's experiences enable her to fully understand why people in the West fear the creep of government regulation on their second amendment right to bear arms. Judge Sotomayor has dealt with second amendment issues on two occasions. Neither inspires confidence.

Let me focus on the 2009 Maloney decision. Maloney presented the question whether the second amendment pro-

tections citizens from State interference with their right to keep and bear arms. It was heard by a three judge panel in the Second Circuit. Judge Sotomayor served on that panel. Maloney was one of the first cases to construe the second amendment following the Supreme Court's landmark 2008 decision in *Heller*.

Judge Sotomayor's panel held that the second amendment did not protect citizens from state interference. It reasoned that it was constrained by the U.S. Supreme Court's 1866 decision in *Presser v. Illinois*.

But as the Supreme Court explained in *Heller*, the *Presser* case said nothing about the second amendment's meaning or scope, beyond the fact that it does not prevent the prohibition of private paramilitary organizations.

Maloney had nothing to do with private paramilitary organizations. The sole question in Maloney was whether the State of New York could ban the possession of a particular kind of weapon.

A three judge panel in the Ninth Circuit, a circuit which is often regarded as one of the more "liberal" circuits, reached quite the opposite conclusion from Judge Sotomayor's panel. The case was *Nordyke v. King*.

It concluded that *Heller* left little doubt that the second amendment is a fundamental right. Accordingly the second amendment is incorporated into the 14th amendment and applies with equal vigor to the States. To the Ninth Circuit panel this was not a question of ideology or judicial activism. It was the undeniable outcome of *Heller*'s reasoning.

But if Judge Sotomayor and her colleagues really believed that courts of appeals must await additional guidance from the Supreme Court before determining whether the second amendment constrains State action they could have stopped there. Instead, the Sotomayor panel went on to conclude that the rights secured under the second amendment are not fundamental rights. It was not necessary to reach any conclusion on this issue because the panel had already decided that the second amendment doesn't apply to the States. So why did Judge Sotomayor's panel go out of its way to make this point?

I am also disappointed that Judge Sotomayor did not write a separate opinion in Maloney. On a question as significant as whether the second amendment is a fundamental right, I would have expected that Judge Sotomayor would have written a thoughtful and scholarly opinion. Instead she signed on to an analysis of the second amendment that is widely regarded as superficial.

Unfortunately, this is not the first time that Judge Sotomayor failed to write a substantial opinion on a significant constitutional issue. Some of my

colleagues have discussed their concerns with Judge Sotomayor's handling of the New Haven firefighters' case.

I would like to take a moment to discuss the Didden case which involves property rights and constitutional limits on the scope of eminent domain.

The reasoning of Didden is particularly perplexing. The panel on which Judge Sotomayor sat concluded that Didden's constitutional challenge to the taking of his property was time barred. If a suit is time barred there is no reason for judges to reach the merits of the case.

Yet for reasons I cannot fathom, Judge Sotomayor's panel went on to do just that. They performed a superficial analysis of whether the taking of a piece of private property by a municipality for a drugstore is a constitutionally permissible public purpose. The Supreme Court invited lower courts to scrutinize a claim of public purpose to determine whether it is pretextual. Judge Sotomayor's panel never analyzed this question.

They simply concluded that Didden's constitutional rights were not violated. This analysis was dicta. Not necessary to the outcome of the case. But it is a most troubling piece of dicta because it undermines the constitutional protection for private property. It could be used to limit the rights of litigants in other cases.

My professional training is no different than that of the other lawyers in this body. In law school you spend 3 years reading appellate decisions day in and day out. Hundreds of appellate decisions—over a 3-year period. We are taught that the measure of a judge is in the quality of her analysis.

The strength of a judge's reasoning is as important, if not more important, than who wins and who loses. It is important because that reasoning is part and parcel of the precedent that is used in deciding future cases.

In three separate cases of significant constitutional import, Judge Sotomayor's panel failed to provide the rigorous analysis we commonly expect of future Supreme Court Justices. That troubles me deeply.

I appreciate that the decision of who to nominate to the Supreme Court belongs to the President. However, if advice and consent is to be meaningful the Senate cannot be a mere rubberstamp on the President's decision.

My decision to oppose Judge Sotomayor's nomination is not based upon partisanship, ideology or the recommendations of any outside interest group. It is the product of reservations I have about the positions that Judge Sotomayor has taken in speeches on multiple occasions over a period of years. It is based on the brief and superficial treatment she has given to important constitutional questions. Equally troubling is the fact that

about 1,400 Alaskans have arrived at the same conclusion.

This is not the conclusion I would have preferred to announce but it is one that is compelled by Judge Sotomayor's record.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SESSIONS. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. Mr. President, we had a number of Members discuss the second amendment issue that was dealt with by Judge Sotomayor in two different cases. It is an important question and I think her nomination raises very serious concerns about it. I would like to try as fairly as I can to analyze the circumstances in her dealing with these issues and why I think it is a problem that Senators rightly have objections to.

The second amendment is in the Constitution. It is the second of the first 10 amendments. It is part of the Bill of Rights. If you remember, the people were not so happy with the Constitution. They wanted to have a guarantee of individual rights that they as American citizens would possess no matter what the Federal Government or anyone else wanted to do about it. So they passed the right not to establish a religion, free speech, free press, the right to jury trial and other matters of that kind in the first 10 amendments, as adopted.

The second amendment was one of those, of course. It says:

A well regulated militia being essential to the security of a free State, the right of the people to keep and bear arms shall not be infringed.

The right of the people to keep and bear arms shall not be infringed.

Over the years, laws have been passed that caused difficulties and that began to overreach with respect to the second amendment right. The American people have gotten their back up, as the Senator from Alaska told us, Senator MURKOWSKI. People in Alaska, people in Alabama, people all over America are concerned about this. It is a constitutional right. It has been there since the founding of the Republic.

I think most scholars have believed for some time that it is, in fact, an individual right, that the first clause regarding the well-regulated militia did not undermine the final declaratory clause which said:

The right of the people to keep and bear arms shall not be infringed.

But no Supreme Court case had ruled on that squarely until last year when the Supreme Court took up the Heller case, which was in the Federal city we

are in today, DC. The Supreme Court in the Heller case said it was an individual right and it prohibited the city of Washington, DC, from effectively barring any citizen in the District from having a gun.

It was an exceedingly broad ban on guns. But I would note something that ought to be remembered: It was a 5-to-4 decision—four members of the Supreme Court did not agree. Some people do not agree.

One of our Democratic colleagues yesterday said of the result in Heller, that it was "a newly minted and narrowly enacted constitutional right."

That is cause for concern. The Constitution, I don't think, is newly minted. I don't think the Court created a right. I think the Court simply declared a right that was plainly in the Constitution. So this is part of our concern.

I would suggest that it is a fragile right, however, based on the way some of the courts have been ruling and based on how Judge Sotomayor ruled.

Somebody had raised the point several times that it is somehow not right that the National Rifle Association here, at the end, after the hearings, declared that they think that Judge Sotomayor should not be confirmed. Certainly they were reluctant to be engaged in this debate. But for the reasons I would note—and Senator MURKOWSKI and others have noted—I don't think they had much choice, because it is a critical thing we are dealing with here, the next appointment to the U.S. Supreme Court.

In a year after the Heller case was decided that the right to keep and bear arms is a personal or individual right and it cannot be abridged by the Federal Government, the case came before her as to whether the second amendment applied to States and cities.

What if other cities were to declare that you couldn't have a gun in the city, or a State were to declare you couldn't have a firearm, or if a State were to place massive restrictions on the use of personal weapons? She took that case, the first major case after Heller to deal with this issue. Anyone who is familiar with the appellate courts in America, as this judge would be, would know this was a big, big case, a case of great importance coming on the heels of the widely discussed Heller decision. In it, she rendered an exceedingly short opinion. In it, she found it was "settled law" that the second amendment does not apply to individual Americans in States or cities. The city or State could completely bar them from having any kind of gun.

In the Heller case, to be fair with her, this is what the circumstances were. There was an old 1800s case that basically held this way. It basically held that the second amendment did not apply to the States. I think the judge could rightly conclude that she may

have been bound by that case. However, in the Supreme Court decision, they put a footnote in it and said: we are not deciding the question of whether the second amendment applies to the States because we are deciding a case in the District of Columbia, and the law in the District of Columbia is not city law. The law in the District of Columbia is U.S. Government law. They put a footnote and indicated that the incorporation doctrine was out there, but that they would review that in the future.

My first point is this: I don't believe it would be appropriate to say it is settled law that the second amendment does not apply to the States after the Heller case. That troubled me that she said that.

Judge Sotomayor made a decision in the Maloney case, the first major case after Heller. It was only eight paragraphs in a case that everyone knew was of great importance. And only one paragraph dealt with the question of whether the second amendment would apply to the States. Those who have supported Judge Sotomayor have correctly noted that the seventh circuit heard the same kind of case some months later and they agreed with the Maloney case and Judge Sotomayor. They spent, however, a number of pages on it. They spent 2½ pages on the question of whether it was incorporated against the States. But they concluded that even with the footnote in the Heller case, they concluded that the more clear authority was still this old case that is out there in the 1800s. They did not say, however, that it was settled law.

The ninth circuit took up the very same case just a few months after Judge Sotomayor's Maloney decision. In a 19-page opinion that discussed in great depth the important constitutional issues, the panel said, when you read the Heller decision, when you consider the footnote of the Supreme Court's opinion where they said they didn't explicitly decide whether it applied to the States, they found differently. They found the second amendment does apply to the States and cities, and the States and cities must comply with it, and they can't ban all guns. They found not only that it was not settled law. To the contrary, they found that the footnote in the Supreme Court opinion "explicitly left open this question." And because they found the question was left open by the Supreme Court, they felt they were authorized to consider the constitutional laws and questions that are important and render a decision that they thought was the right constitutional decision. That is why they went forward in that fashion.

At the hearing, the judge was asked a number of questions about this. I didn't find those questions answered very persuasive, frankly. In some instances, I found them confusing. There

was no retreat that I heard from this untenable position. In answering questions from Senator HATCH, the judge said that:

The Supreme Court didn't consider [the second amendment] fundamental [in the Heller case] so as to be incorporated against the state. . . . Well, it not only didn't decide it, but I understood Justice Scalia to be recognizing that the [C]ourt's precedent held that it was not fundamental.

In the course of her decision she also found a critical question, that the second amendment is not a fundamental question. The judge was just wrong on that in a big, big case. It is the kind of thing you shouldn't make a mistake on. In the majority's footnote on this issue, the Court expressly reserved the question of whether the second amendment applies to the States. The footnote said this:

With respect to Cruikshank's one of the old cases

—continuing validity on incorporation, a question not presented in this case . . .

So they explicitly said that they didn't were addressing this issue. But it is pretty clear that the doctrine that allows the Bill of Rights, the first 10 amendments, to apply to the States. That doctrine has developed dramatically in the 20th century, over the last 100 years. Virtually every one of the 10 amendments has been incorporated against the States. But the Second Amendment has not yet been applied to the States. To me, that is an odd thing in light of the doctrine of the incorporating of the first 10 amendments as protections for individual Americans against both the Federal Government and State and local governments. That doctrine has developed great strength and power over the last 100 years. Few people would want to go back. I think most people would be awfully surprised to learn that the second amendment would not be one of those applied to the States. It certainly, in my opinion, is not settled law.

This case was dealt with in a most cursory manner. It dealt with a matter of huge national importance. It is the kind of case that legal scholars watch closely. It was an exceedingly short opinion, a few paragraphs. It showed little respect for the seriousness of the issue. It didn't discuss it in any depth. It incorrectly stated it was settled law that the second amendment would not apply to the States. These are the problems we have with it.

Judge Sotomayor now seeks to be on the Supreme Court. And with regard to the 5-to-4 decision in Heller and to the question of whether she should recuse herself, as asked by Senator KYL, she indicated that if her case came up, she would recuse herself. It could come before the Supreme Court. It is that important. But if one of the other cases raising exactly the same issue came up, she refused to say she would recuse herself. Of course, if her case comes up,

it is a matter of ethics that she would have to recuse herself. I thought that since having already clearly decided precisely the same issue the Supreme Court would have to deal with, she ought to have indicated to us that since she expressed her opinion on it, she wouldn't sit on the case. But that did not happen.

I will share likewise another concern we have about the firefighters case and how that was handled in such a short manner. The firefighters contended that they had studied hard. They had passed a promotion exam. They were on the road to being promoted. The city, because of political complaints about the fact that certain groups did not pass the test in a way that raised concerns, decided they would give up and not have the test and wipe out the test and not follow through with the test. The firefighters felt they had done everything possible, and they challenged that. Indeed, later the Supreme Court held that no evidence was ever presented that the test was not a fair and good test. Indeed, they had taken great care to get good people to help write the test in a way that would be neutral and fair to all groups of people and would not have any kind of unfair advantage.

When that case came before the judge, I was very disappointed that she and her panel treated it as a summary order. A summary order is reserved for cases that present no real legal question. Summary orders are not even circulated among the other judges in the circuit. Here, it was a summary order that did not even adopt the opinion of the lower courts that had ruled in this fashion. It just summarily dismissed the firefighters' claim and rendered judgment in favor of the city which had altered the plan for promotion. It was basically done because of their race.

The equal protection clause of the Constitution says that all American citizens are entitled to equal protection of the laws, regardless of race. That is what their complaint was, one of the complaints. I would note that this was not even an opinion. It was basically a line or two summarily dismissing this.

Then one of the other judges on the court apparently found out this opinion had been rendered in a case that struck him, apparently, as a matter of real importance, a case that ought not to be disposed of by a summary order, that the firefighters were at least entitled to an opinion. And by the way, they never got a trial. Basically it was dismissed prior to trial on motions. So after great debate within the circuit, a little bit of a dust-up within the circuit, by a 7-to-6 margin, Judge Sotomayor casting the decisive seventh vote, they decided not to rehear the case and any precedent that may exist in the circuit. But at that point,

I guess as part of the process of confrontation that arose there, the panel issued an opinion that adopted the lower court opinion, a procuring opinion. They didn't write their own opinion but basically adopted the lower court's opinion.

It was from that decision, as a result of by chance another judge heard about it, not through the normal processes but, according to Stuart Taylor's article, from seeing it on television, that the case got some attention. And the Supreme Court agreed to hear it and reversed the case and rendered a judgment in favor of the firefighters. I think that was not responsible. That was a huge case of major constitutional import. It should have been written in detail. Any person, any judge should have done that, particularly one who would be considered for the Supreme Court.

So I will say those two opinions to me are troubling in that I think they were wrong, No. 1. And No. 2, they were exceedingly short, too short, when you consider the seriousness of those issues.

I yield the floor.

Mr. ENZI. Mr. President, I rise today to discuss the nomination of Judge Sonia Sotomayor to serve as an Associate Justice of the U.S. Supreme Court. Judge Sotomayor has a long career as a jurist with many cases for Senators to review and determine how she may address cases brought before the Supreme Court. Judge Sotomayor is clearly an accomplished attorney and intelligent person who overcame many obstacles and came from a humble beginning to rise to this nomination. However, in that long record I have found a tendency to at times place more emphasis on personal experience than the most fundamental parts of our Constitution.

I must oppose Judge Sotomayor's nomination.

I am concerned about Judge Sotomayor's past rulings and statements during the Senate Judiciary Committee hearings about the second amendment as a fundamental right. The Supreme Court's ruling in 2008 in the Heller case confirmed that the second amendment's right to keep and bear arms includes the right of American citizens to have weapons for personal self-defense. The Supreme Court has not yet reviewed an incorporation case involving the second amendment, but its second amendment opinion last year noted that a due process analysis is now required. Earlier this year, when Judge Sotomayor and the Second Circuit Court of Appeals ruled on *Maloney v. Cuomo* determining that the second amendment is not a fundamental right, they relied on rulings from the 1800s rather than following the 2008 Supreme Court ruling.

The second amendment of our Constitution guarantees the fundamental

right of an individual to keep and bear arms. This is clear to me and a clear legal precedent set by the Supreme Court.

As a father and grandfather, who strongly believes in the rights of the unborn, I am also troubled by Judge Sotomayor's past affiliation and leadership of an organization, the Puerto Rican Defense and Education Fund, which has taken positions on abortion that I find unsettling. Judge Sotomayor's case record does not include direct rulings on abortion issues, so we must look at her history with this organization. The fund, while Judge Sotomayor served in a leadership capacity, filed briefs with the Supreme Court not only supporting abortion rights but in support of Federal funds for abortion services. I could not disagree more with these positions, and I cannot help but wonder how Judge Sotomayor would use her experiences with the fund to rule on a possible case before the Supreme Court. Unfortunately, she would not provide a satisfactory answer or position when my colleague from Oklahoma, Senator COBURN, asked her direct questions during the Judiciary Committee process.

The issue of international law is another area of concern. Judge Sotomayor has stated that ideas have no boundaries, but we must remember that nations do have boundaries as well as laws that govern actions within those boundaries. The U.S. Constitution is the highest law of our land and the basis of our Nation's sovereignty. It may be good and well for academics to discuss international laws, or even domestic laws of other countries, as they compare to the United States, but when making a ruling, a member of the U.S. judicial branch must rely on the laws of this Nation.

Finally, I would like to address the issue of judicial impartiality. Judge Sotomayor's statements about her ability to judge cases better than others based on her background are certainly troublesome. These statements have been vetted in the Judiciary Committee and certainly through the media. The statements warrant further discussion, however. As public figures, I, and the rest of my colleagues, may be faced with situations where a comment can be taken out of context. A comment that is repeatedly used in prepared remarks, however, should be interpreted as showing the true thoughts and beliefs of the speaker.

I believe the United States is a great nation because of the foundation of our government, one element of which is an independent judicial branch where we believe that justice is blind. This is a critical element of our system and a part of the judicial oath. I can agree that our personal backgrounds lead us to look at situations differently, but I cannot agree that judges should allow

their backgrounds to determine a case. Judicial decisions must be based on facts. When the facts or the Constitution comes into conflict with Judge Sotomayor's feelings and past experiences, I am not confident which side she will ultimately take.

I voted against Judge Sotomayor's nomination in 1998 to the Second Circuit Court of Appeals. At that time, I shared the concern of many of my colleagues about Judge Sotomayor's positions and her view of the role of the Judiciary. While I hold Judge Sotomayor in the highest respect, I believe my concerns then are borne out by her record now. I have no reason to believe anything will change in the future.

I understand that Judge Sotomayor has support from many of my colleagues, and I hope they will listen to the concerns I and others are raising. I hope they will take the time to fully consider the impact of Judge Sotomayor's positions on future decisions of the Supreme Court as the Court's decisions will affect our entire Nation.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. CASEY. Mr. President, I rise tonight, as so many have, in the last several days, especially to speak about the nomination of Judge Sonia Sotomayor to be on the U.S. Supreme Court.

As we all know, she is a distinguished Federal jurist who has been nominated to serve as an Associate Justice on the U.S. Supreme Court—a critically important decision that the Senate is charged with making to advise and consent on such nominations.

Sonia Sotomayor's life story is an authentically American story. It is a story with which so many people in this capital and across the country can identify. It is a story of hard work and sacrifice. It is a story of struggle and triumph, overcoming barriers in her life that, candidly, many in this Chamber have not had to overcome.

It is a story, like so many authentically and compelling American stories, that starts with her family and, in particular, her parents, not people of tremendous means or wealth. Her mother was a nurse, her dad was a factory worker, and she, unfortunately, lost him at a very young age. I think she was just 9 years old when her father died—a very difficult circumstance for anyone to overcome, especially a young girl.

When we look at her record as a student, it is also a great American story of academic excellence, and I believe that is an understatement. Her record as a student through high school and then going on to Princeton and graduating with honors and going to Yale Law School and serving on the Law Review and being such a leader and a student in both college and law school—not only being a leader but also achieving academic excellence—is a record we

would hope every member of the U.S. Supreme Court could bring to their nomination debate.

I was reflecting the last couple of days about my remarks tonight, and I remembered that when our President, President Obama, was campaigning, I had the chance to introduce him a number of times. One of the times I introduced him, I was trying to convey the reality of what he had overcome, and it is very difficult to put that in a few words. But I said at the time, in one particular place in northeastern Pennsylvania, that then-Senator Obama did not have a path cleared for him, that he had to overcome barriers and obstacles in his life growing up, as a public official, and all the way to the Presidency.

The same can be said of Judge Sotomayor. She had not, in her life—and has not to this day—ever had a path cleared for her. She has had to work and struggle and achieve to get where she is today, to the point of being on the verge of being confirmed to serve on the Supreme Court.

So I think it is very important to point out her life story, her remarkable life story, her achievements, but also to speak, as we must, and as we should, of her judicial expedience.

We hear all kinds of comparisons, when someone is nominated to the Supreme Court, about how many years they have served as a judge, how many years they have served as a lawyer or as an advocate or as a public official—whatever their background is. But it just so happens this particular nominee, Judge Sotomayor, has more judicial experience, I am told, than anyone currently sitting on the U.S. Supreme Court—all distinguished in their own way. But if you add up the years, I guess it is 17—first on the district court, the trial court in New York, for the Southern District of New York—nominated and confirmed by the Senate—and the same when she was confirmed and served as a judge on the U.S. Court of Appeals for the Second Circuit at the appellate level. In both of those appointments, she gained enormous experience on the very matters that will come before the U.S. Supreme Court.

First, she was on the district court where you have litigants coming before you, for example, in a trial or in a hearing—sometimes a criminal matter that involves someone's liberty, involves law enforcement issues, and all the complexities of our human condition in the context of a criminal case. Also coming before that court are very complex civil matters, and I know the record is replete with references to her rulings in various cases involving civil, criminal, and other matters.

Then she went to the appeals court, working in a different court, with a different set of issues and, candidly, a different procedure, where someone is appealing to the Federal appeals court, in

this case, in the U.S. Court of Appeals for the Second Circuit—all the complexities that involves, where you are not taking testimony as you do in a trial, not making determinations of fact, you are deciding the law, what the law should be, how to apply the law to the facts in the record, which is already established.

Both are very different judicial responsibilities, but both are very important to serve on the ultimate appellate court, the top court in the land, that being the Supreme Court.

So she has had broad and unprecedented experience as a Federal judge for 17 years. That is very important in this debate.

She also served as a prosecutor dealing with all of the complexities and all of the difficulties that any prosecutor encounters, dealing with victims and the impact of a crime on a victim and his or her family, dealing with the impact of crime on a community and in a jurisdiction, dealing with judges and witnesses and law enforcement with whom often you work so closely—the prosecutor—to develop your case, to marshal the evidence that a prosecutor has to put before a judge and jury.

That experience is particularly relevant because a number of the cases the Supreme Court will hear—and they do not hear every case; they take a number of cases per year—some of those cases will involve the rights of one party versus the other, will involve the rights of a criminal defendant versus the State. There are very complex matters that a Supreme Court Justice has to decide.

So whether you look at her experience as a prosecutor, as a Federal district court judge, a trial judge, or her experience on the appellate court—hearing appeals at the Federal level—all are very relevant to and I think prepare her well for her service on the U.S. Supreme Court.

Two more sets of experiences—one as a lawyer. I think it helps when you have been an advocate, a lawyer, to have that as part of your experience serving on the Supreme Court, where you have had to take on a battle for a client, to be their advocate, sometimes in very complicated matters, sometimes matters that will affect their lives in ways that will alter the course their life is taking when they have a matter before a court.

Finally, her life experience. I would hope we nominate people to the Supreme Court who have a broad life experience, who have not just been in one area of a profession, but also have had challenges in their lives they have had to overcome because the people who come before the Supreme Court may be a little bit distant, but often arrive there after months or years or longer of struggle.

I think Judge Sotomayor has a life story that indicates she not only un-

derstands struggle and understands how difficult life can be, but also has an appreciation for the complexities of life as well. She has been described, as a judge and as a prosecutor, as both tough and fair—tough and fair. That is a good description that you would want, when you are evaluating the role and the record of a Supreme Court Justice—someone who asks difficult questions and probing questions as a member of the Court, but also someone who is fair, who does not seek to gain an advantage over a lawyer in the course of an argument but is both tough and fair.

I believe integrity is a central consideration that Senators should weigh when we are deciding who serves on the Supreme Court after a President nominates. We want someone with broad life experiences. We want someone with experience in the law and often as a judge. But we also want someone who has character.

I got a sense of that when I met with her. I also got a better sense by reading the long list, which I will not read tonight, of all the organizations that have endorsed her. They did not just endorse a set of cases. They did not just endorse a resume. They endorse and give their support to a human being, a person who has had tremendous experience. And part of that, of course, is integrity.

I think we saw both her integrity and her temperament, which is another very serious consideration. But we saw both of them tested in the course of her hearings, where she was asked a lot of tough questions by members of the Senate Judiciary Committee on both sides of the aisle, Democratic Senators and Republican Senators—hour after hour after hour, day after day, under very difficult circumstances, on live television, with all of the pressure that every word, every response is weighed and scrutinized and criticized often and examined. I think both her integrity and her temperament were on display, and, in my judgement, she passed both of those tests in considerations we have to weigh, that she passed them so easily and so effectively.

I would make two more points. Inscribed over the building that houses the courtroom where the U.S. Supreme Court meets—that historic room where so many great cases have been decided—inscribed over the building, above it, is the phrase we all know well: “Equal Justice Under Law.” “Equal Justice Under Law.” That is what we expect certainly of every judge, even lawyers, but especially someone who becomes a U.S. Supreme Court Justice; that they would have that philosophy in every case, but also the reality that precept entails, that they would approach every case, every litigant, every party with the same approach, dispensing equal justice under the law—not equal justice under my law or equal justice under a philosophy

of, in this case, Judge Sotomayor as a Supreme Court Justice, not her definition of what the law is, but what the law is, in fact, that she is required to apply.

That equal justice under law is not just something inscribed above that building. I believe, based upon her record, based upon her experience, and based upon her character, she believes that and will be governed by that as a member of the U.S. Supreme Court.

I conclude with this thought. When President Lincoln was speaking at Gettysburg, PA—a place we all learned about as children and learned about the Gettysburg Address and the meaning of it and the enduring value of that speech—in one of the lines Lincoln used in that speech, he was talking about the Nation being tested at a time of war, and, unfortunately, at that time, a time of civil war, the worst of all wars. He was posing the question about this Nation that had been conceived not too long before he gave that speech. He said that one of the questions he posed was whether a nation so conceived can “long endure,” whether our Nation could long endure, that we were being tested at a time of war.

I believe our Nation has been tested at other times as well, not only in something as grave as a war, but we are tested in other ways as well. We were tested in the Great Depression, whether we could endure the misery and the difficulty, the joblessness of that, and all of the problems the Depression brought to America. We have been tested in other wars. We were tested in the battle for civil rights. We have been tested as a nation very often—maybe not every day, maybe not every week, but at some period of time in our lifetimes, we can see how our Nation was tested. In some ways, we are tested when debates occur in the Senate. We are tested in terms of appointments that a President makes.

In this case, President Obama has nominated someone to the U.S. Supreme Court who I believe will allow us to be able to say that as long as we are nominating people with the experience, the character, and the integrity of Judge Sonia Sotomayor, this Nation will long endure. I have no doubt about that. I say that with as much confidence as anyone could because her record demonstrates that. Her experience demonstrates that if we have people such as Judge Sotomayor in the U.S. Supreme Court, this Nation will not only long endure, it will indeed thrive under that kind of judicial excellence and that kind of experience she will bring to the bench. So I have no hesitation at all in saying that I will vote for her confirmation to be an Associate Justice of the Supreme Court. We can be proud of her record and her experience but also her remarkable and authentically American story.

Before I conclude my remarks, I ask unanimous consent to have printed in the RECORD a letter of endorsement for Judge Sotomayor that the Judiciary Committee received on July 15 from the National Hispanic Christian Leadership Conference, serving approximately 16 million Hispanic American born-again Christians and 25,434 member churches across the country.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Hon. PATRICK J. LEAHY,

Chairman, Committee on the Judiciary, U.S. Senate, Washington, DC.

Hon. JEFF SESSIONS,

Committee on the Judiciary, U.S. Senate, Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS:

America's largest Hispanic Christian Organization, The National Hispanic Christian Leadership Conference (NHCLC), serving approximately 16 million Hispanic American Born Again Believers via 25,434 member churches, hereby endorses Judge Sonia Sotomayor's nomination to the Supreme Court.

We commend President Obama's selection of Sotomayor as a brilliant exercise in pragmatism and moderation. First, as Hispanic Americans, we celebrate her nomination. Her journey is our collective journey. Sotomayor stands as a model to all our Hispanic young people throughout America that faith, family and education can overcome the most difficult of environments and economic circumstances.

More importantly, as Americans concerned with judicial activism and defacto legislation from many sectors of our judiciary, Sotomayor reflects, via her career on the bench, the type of tempered restraint and moderation necessary for appropriate application of the rule of law. Without a doubt, Judge Sotomayor serves with a moderate voice without displays of bias towards any party based on affiliation, background, sex, color or religion. Judge Sotomayor's over 700 decisions stand as testimony of a commitment and respect for the rule of law, particularly the importance of stare decisis.

As an organization serving America's largest minority group and the fastest growing religious demographic, we seek to reconcile both the vertical and horizontal planes of the Christian message. As we serve both matters of the soul and community, religious liberties stand as an issue of utmost concern for our constituents. Judge Sotomayor's rulings affirm Constitutional safeguards for those liberties.

In conclusion, even moderate and conservative evangelicals within our ranks find no reason to conclude that the nomination and confirmation of Judge Sonia Sotomayor would diminish the collective application of Constitutional rights and freedoms to a religious community committed to Life, Liberty and the Pursuit of Happiness. For that matter, we encourage the support of this nominee from both sides of the political aisle.

JESSE MIRANDA,

*CEO, NHCLC, President of
Miranda Center for Hispanic Leadership.*

Mr. CASEY. Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. FRANKEN. Mr. President, before I discuss the nomination of Judge

Sotomayor, I wish to take a moment to thank all of my colleagues here in the Senate for their very warm welcome and hospitality. I joined this body a little less than a month ago, but I have been humbled by this institution, by the work that goes on here, and, most importantly, by my colleagues. It is an honor to represent the people of Minnesota, and it is a special privilege to do so here in the Senate.

One of my first responsibilities on joining the Senate was to participate in the nomination hearings for Judge Sotomayor. I said at the start of the hearings that I wanted to be a voice for the overwhelming majority of Americans who aren't lawyers. The actions of the Supreme Court directly affect the everyday lives of all Americans. Whom we choose to place on the Supreme Court affects every one of us. That is what I want to do this evening. I want to put the nomination of Judge Sotomayor in context. I want to put it in the context of what the Supreme Court has done these past 5 years and how that has affected the lives of Minnesotans and of all Americans.

Our country is going through some tough times. We are experiencing the highest unemployment in decades. Businesses are failing. Investors are seeing their investments shrink, even disappear. Yet, despite all of this, despite our faltering economy, in the past 5 years this Supreme Court has restricted the rights of Americans as employees, as small business owners, and as investors, and they have done this by overturning longstanding precedents.

Let me put this in the context of Minnesota. Ten years ago, Minnesota had an unemployment rate of 2.8 percent. Let me repeat that. Ten years ago, Minnesota had an unemployment rate of 2.8 percent. Today, it is 8.4 percent. In certain counties, it hovers between 13 and 14 percent. At the same time, Minnesota has an older workforce. The Twin Cities are fourth in the Nation in the percentage of seniors working past the age of 65. When businesses are making tough personnel decisions, you can bet they are taking a good hard look at older workers who have higher pension and health care costs.

But just last month, the Supreme Court eviscerated the one law designed to prevent discrimination against older workers: the Age Discrimination in Employment Act, or ADEA, as it is called. Because of this case, the Gross case, it is not enough for a worker suing for age discrimination to show he or she was fired improperly because of their age. Under this new standard, an older worker must now show that age was the single determinative reason for the firing. This is a difficult, if not practically impossible, standard to meet. This also breaks with the longstanding rule that the ADEA must be

interpreted the same as title VII of the Civil Rights Act which protects women and minorities against discrimination in the workplace. Because of the Gross case, Minnesota's older workers have fewer rights in the workplace precisely when they need them the most.

This was the same Court that 2 years ago barred a title VII suit by Lilly Ledbetter, a woman who was paid less than her male colleagues for the same work for two decades. Minnesota women are paid 74 cents for every dollar earned by men. Until Congress fixed this ruling last year through the Lilly Ledbetter Fair Pay Act, this was yet another ruling that limited Minnesotans' rights in the workplace.

This Supreme Court has put Minnesota's small business owners in a similar position. Like entrepreneurs around the country, Minnesota business owners are struggling. Business bankruptcies in our State increased 40 percent between 2006 and 2008, and it will likely be worse in 2009. If there were ever a time small business owners in Minnesota needed a leg up, it is right now. But 2 years ago, this Supreme Court overturned one of the strongest protections small business owners have under the Sherman Act, our main antitrust law. For over 100 years, it has been illegal for manufacturers to price-fix—to force retailers to sell their goods at a certain price. Today, thanks to this Court's ruling in the Leegin case, price fixing is now permitted. In fact, the burden is now on consumers and small business owners to show, through a complex economic analysis, that the price fixing hurts them.

This Court has been no kinder to investors. Like almost all American investors, Minnesota investors are reeling from the trillions of dollars in losses in the stock market. These losses were partly caused by structural deficiencies in our finance system, but they were also caused by speculation and by fraud, by people such as Bernie Madoff and Tom Petters, a Minnesota financier who is in prison right now charged with a \$3.5 billion scheme that bilked stockholders in a number of Minnesota companies. Yet, last year, the Supreme Court handed down a decision that severely limited investors' ability to defend themselves against securities fraud. In the Stoneridge case, the Supreme Court said that an investor cannot sue an outside accountant or a lawyer who worked with a company to fraudulently alter its financial records to deliberately cook its books unless that third party somehow, for some reason, publicly announced its involvement.

Together, the Age Discrimination in Employment Act, title VII of the Civil Rights Act, the Sherman Act, and the Securities Exchange Act are some of the strongest protections employees, small business owners, and investors

have under American law. These laws help to level the playing field for the less powerful in our society. Yet, in each of these cases, for each of these laws, this Supreme Court has ignored longstanding precedent and original congressional intent to limit the rights these laws afford precisely when they are needed the most.

The Supreme Court's willingness to ignore longstanding precedent to restrict individual rights is not limited to our economy. This same Supreme Court recently overturned a 30-year rule that requires that a woman's health be taken into account in any law regulating her right to choose.

The Court is also poised to overturn critical protections to voters. This Supreme Court has questioned the constitutionality of section 5 of the Voting Rights Act, even though the 15th amendment expressly grants Congress the power to regulate elections and even though Congress recently voted to reauthorize those provisions for the fourth time by a vote of 98 to 0. Talk about judicial activism. This is judicial activism. This is the Supreme Court questioning the constitutionality of a law passed by Congress under an explicit and exclusive grant of power granted in the Constitution of the United States.

If she is confirmed, the first case Justice Sotomayor will hear will reconsider the constitutionality of sections of McCain-Feingold that the Supreme Court upheld just 6 years ago. The underlying principle in question goes back over 100 years to the Tillman Act of 1907. For 100 years, Congress has said with increasing force that corporations should not be spending money on Federal election campaigns. Yet this Court is poised to contravene that 100-year-old rule and its own ruling on the identical provision just 6 years ago. Again, I think this is judicial activism. In fact, I think it is judicial activism in one direction: away from longstanding protections for the individual and toward a more friendly law for the powerful.

As I said last week, I firmly believe that in this context, with this Supreme Court, a vote for Judge Sotomayor is a vote against judicial activism. In a careful review of her opinions as an appellate judge, the nonpartisan Congressional Research Service recently concluded that:

[p]erhaps the most consistent characteristic of Judge Sotomayor's approach as an appellate judge has been an adherence to the doctrine of *stare decisis*—

The upholding of past judicial precedents. Of the 230 majority opinions Judge Sotomayor wrote as an appellate judge, the Supreme Court has reversed only 3. That is 3 reversals out of 230 majority opinions.

But the best examples of Judge Sotomayor's inherent judicial restraint are the two cases for which she has

ironically received the most criticism—the Ricci case and *Maloney v. Cuomo*, the Second Circuit's most recent second amendment case. In both of these cases, Judge Sotomayor simply followed the Supreme Court's own maxim that it is the Court's—the Supreme Court's—prerogative alone to overrule one of its precedents. When a three-judge panel in Ricci affirmed the district court's decision, it was simply following existing title VII law. When the three-judge panel in the Maloney case said that the second amendment does not apply to the States, it was simply following a 120-year-old Supreme Court precedent that said exactly that. Moreover, a three-judge panel on the Seventh Circuit that included two of the most prominent negligent conservative judges in the country, Frank Easterbrook and Richard Posner, reached the same exact conclusion unanimously.

Judge Sonia Sotomayor is a judge who follows and respects precedent. She is a judge who does not make new law.

In fact, it seems that Judge Sotomayor's worst sin in this whole process is her straightforward observation that our life experiences shape who we are and what we do. This is not a new idea. Mr. President, 175 years ago, on the first page and at the most famous treatise in American law, Oliver Wendell Holmes wrote:

The life of the law has not been logic; it has been experience.

This isn't just an old idea either. Justices Alito, Scalia, and Thomas each acknowledged in their own confirmation hearings that their own life experiences—being born into an immigrant family, an exposure to discrimination, a childhood in poverty—shaped their own approach to judging.

But Judge Sotomayor went beyond Justices Alito, Scalia, and Thomas by also recognizing that judges must be aware of these prejudices, and they must not allow these prejudices to impact their approach to a case.

Since this is a body that values its history, I thought it would be appropriate to close by mentioning the last nominee to the Supreme Court with a comparable amount of experience to Judge Sotomayor. That person is Benjamin Cardozo.

Judge Cardozo was nominated to the Supreme Court in 1932, after spending 18 years on his State's highest court. Like Judge Sotomayor, Judge Cardozo was from New York. Like Judge Sotomayor, he had a tough childhood, losing a parent when he was 9 years old. He had a tough childhood like her. Like Judge Sotomayor, Cardozo was from an ethnic minority—he was a Sephardic Jew, a descendant of Portuguese immigrants. Like Judge Sotomayor, Cardozo was rightly proud of his heritage. Like Judge Sotomayor, Cardozo was the most experienced

nominee to the Supreme Court in his generation.

Yet, unlike Judge Sotomayor, Judge Cardozo did not attract so much controversy. In fact, he was unanimously confirmed to the Supreme Court in a voice vote that lasted all of 10 seconds.

Judge Sotomayor is one of the leading jurists of our Nation. If confirmed, she will be the only judge on the Supreme Court with trial court experience. She would be one of the only ones with experience as a prosecutor. As many have commented, she would be the appointee with the most Federal court experience in a century.

We have, right now, a chance to make history. Thankfully, unlike a lot of the important decisions we have to make that come before this body, this is an easy one to make.

Judge Sotomayor will not only be the first Latina on the Supreme Court; she will be the first person of Hispanic descent to reach the pinnacle of any one of the three branches of the Federal Government. She could not be more qualified for this position. Her appointment will help protect the individual rights and liberties that are so necessary for Minnesotans and for all Americans—and that this Supreme Court has steadily, and substantially, eroded.

I am honored to cast my vote in favor of Judge Sonia Sotomayor, and I hope my colleagues on both sides of the aisle will join me.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oregon is recognized.

Mr. WYDEN. Mr. President, while this is my first opportunity to vote for a Supreme Court nominee named by a Democratic President, I don't view the confirmation of judges through a partisan lens. Instead of partisanship, I have developed several criteria for assessing Supreme Court nominations. I believe these criteria are straightforward, and they are easy to understand:

Does the nominee have extensive experience with the law and a judicial temperament?

Has the nominee demonstrated sharp legal intelligence and sound judgment?

Does the individual display a judicial philosophy that falls within the mainstream of American legal thought?

Is he or she able and willing to separate their personal beliefs from their constitutional obligations?

On each count, I rule in favor of Judge Sotomayor.

My colleagues and I have all been listening carefully to Judge Sotomayor's testimony, and we have reviewed her record. In that record, everything I have been able to ascertain indicates that Justice Sotomayor will look a lot like Judge Sotomayor—an exemplary arbiter of the law, firm but practical, tough but fair.

For these reasons, I will cast my vote to confirm her as the next Associate Justice of the Supreme Court.

I speak from, perhaps, a unique position among Senators. I may be the shortest serving Senator in the history on our Senate Judiciary Committee. At the beginning of the 111th Congress, Senator REID asked me to serve on this extraordinarily important committee. Senator REID told me it would be a temporary assignment, but I was still on the committee when Judge Sotomayor was nominated to the Supreme Court. I very much enjoyed my meeting with Judge Sotomayor, and I told her I wasn't sure how long I would be serving on the committee. I said I felt a little bit like a snowflake with the prospect of an Oregon rain coming in the afternoon. In fact, the rain came just a few days before the Judiciary Committee began the confirmation hearing for Judge Sotomayor. I did get a chance to talk with her and discuss, at some length, her views with respect to the key issues surrounding how a Senator evaluates a nominee to the Supreme Court.

On the basis of that discussion and a review of her record, while I wasn't able to cast a vote for her in committee, it is going to be, later this week, an honor for me to vote for her on the Senate floor.

When I met with Judge Sotomayor, we discussed a number of important issues—particularly matters relating to national security, the power of the Commander in Chief, and we also spent some time on a matter that I know the occupant of the chair is most interested in and that is end-of-life health care. What struck me the most about Judge Sotomayor was her openness, her intellectual curiosity, and her desire to make sure she had all the facts, all the information, all the views and background and the reading material that you have to have when you are going to make a call not on the basis of your predisposition but on the basis of the law and the law as it is applied to the facts.

In a number of areas we discussed with respect to end of life, Judge Sotomayor acknowledged that these were issues she hadn't personally considered. The occupant of the chair and I have talked at some length about the politicized case of the late Terri Schiavo. I objected on the floor of the Senate to the Senate considering that matter.

Of course, Judge Sotomayor could not go into how she would rule on end-of-life cases. But we talked at some length about those issues, and I am going to discuss them later in this statement tonight.

I wish to start my comments by saying I believe, with the young people at home in Oregon, this nomination by President Obama is regarded as an inspiration and a remarkable personal story. Oregonians have told me they look at her journey as the realization of the American dream. Oregonians

have followed her testimony before the Senate Judiciary Committee. They believe she is qualified for this job. They are very excited about the fact that this nomination makes history, and I commend the President for demonstrating with this nomination how it is possible to increase the diversity, talent, and experience on the Supreme Court with one very capable individual.

Chairman LEAHY and others have done an excellent job of going through the judge's impressive background. I do want to spend some time talking about the issues that Judge Sotomayor and I discussed in my office most extensively—Presidential power and end of life.

Serving on the Senate Select Committee on Intelligence, I have followed the history with respect to a President's Commander in Chief authority. Disagreements about this authority and how it is applied are certainly nothing new. There have been vigorous debates about this issue since our country was founded. But over the past several years, there has been especially heated debate around these questions and, in particular, the issue of whether, during times of war, the President has the authority to ignore laws passed by the Congress. As a result, there have been several occasions, over the past few years, where the Supreme Court has had to rule on major national security issues and address this question directly.

Our Court has frequently been sharply divided on this issue. At the same time, it has consistently ruled that—in Justice Sandra Day O'Connor's words—"a state of war is not a blank check for the President." I believe this is a principle that has to be upheld.

When I raised these issues with Judge Sotomayor, I was impressed with her thoughtfulness, her knowledge, and the experience she discussed about dealing with these thorny issues. Her answers made me believe that, as a Supreme Court Justice, she would apply the Constitution in a way that struck a balance—a very careful balance—between protecting our collective security and protecting our individual liberty.

We have always had, in the national security area, something of a constitutional teeter-totter, where the Founding Fathers always sought to try to ensure that there was an appropriate balance between protecting our Nation and securing our individual liberties; and maintaining that balance is what the Founding Fathers saw as paramount.

While Judge Sotomayor certainly gave no inkling to me in our discussion about national security how she might rule in a particular case, I felt very strongly that she would be able to define the reach of the Commander in Chief's power so as to strike that appropriate balance between collective security and individual liberty.

I must say, I don't want judges who will defer to any one President. I want judges who are going to defer to the Constitution. I believe Judge Sotomayor will do that in her service on the U.S. Supreme Court.

As I mentioned, I discussed with the judge the matter of end-of-life health care. This is a very sensitive issue for millions of Americans. What was striking about this in our discussions, when she and I met, is she recognized it was a contentious area of the law—one that deals with the rights of individuals and family members; and she certainly indicated she was going to spend a lot of time trying to learn about the history of cases in this area and the Court's judgments on end-of-life care.

I have been very interested particularly in Justice Brandeis's dissent in the *Olmstead* case. This was a 1928 case. The Supreme Court later adopted Justice Brandeis's view in the *Katz* case which essentially made it clear there is a right to be left alone, a right to be respected in these very delicate questions.

What concerned me so much about the *Terry Schiavo* case—and again, Judge Sotomayor gave no inkling about how she would rule on an end-of-life case—I think she understood my concern, and would follow up on it, that we cannot have elected officials, and particularly the Senate, become something of a medical court of appeals where the Senate essentially appoints itself the arbiter of these very difficult tragedies.

Judge Sotomayor did not commit herself to any specific position on end-of-life issues or any of the other issues. And, in fact, the judge said that coming from New York where they have a very sophisticated set of laws and legal protections to empower the individual to make their own choices—not government—empower the individual to make these very difficult questions, the judge said because New York had those statutes empowering individuals that she would spend time looking at the laws and the decisions of the Supreme Court in this area, reflecting, again, her commitment to follow the facts, follow the law, and not bring any predisposition of one sort or another to a very difficult and contentious area of the law, one that is as sure as night follows the day is going to be before the Supreme Court again—the matter of end-of-life health care.

Let me also mention one of our colleagues talked about her respect for precedent. I asked her about a woman's right to choose. She said that is an area of the law that has been settled for decades.

On the second amendment, she indicated she would not try to eliminate the right to own guns for hunting or for personal protection, again, what amounts to a recognition of existing law.

On foreign law, she said she would not rely on international legal decisions to interpret the Constitution.

This is a nominee who is going to be very sensitive to following precedent, following the facts, and ensuring that those principles are what guide her service on the U.S. Supreme Court.

Before I close, I wish to submit a letter the Senate Judiciary Committee received in support of Judge Sotomayor from the Federal Bar Association. They passed a resolution in support of the judge's nomination. The Senate Judiciary Committee has also received statements of support from the Hispanic National Bar Association, from the past presidents of HNBA.

I ask unanimous consent to have printed in the RECORD the letter and resolution and statement of support.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

JUNE 1, 2009.

Re Nomination of Judge Sonia Sotomayor to the United States Supreme Court.

Hon. PATRICK J. LEAHY,
Chairman, Committee on the Judiciary, U.S. Senate, Washington DC.

DEAR CHAIRMAN LEAHY: On May 26, 2009, President Barack Obama nominated Judge Sonia Sotomayor to fill the vacancy left by Justice David H. Souter in the United States Supreme Court.

The Hon. Raymond L. Acosta Puerto Rico Chapter of the Federal Bar Association has issued the enclosed resolution supporting Judge Sotomayors nomination and endorsing her as qualified in every respect to fill this important position.

In sharing our background, please, note that the Federal Bar Association is a professional organization for private and government lawyers and judges that has been established for over 80 years with a membership of about 16,000 federal practitioners and over 900 members of the bench. The FBA is dedicated to the advancement of the science of jurisprudence and to promoting the welfare, interests, education and professional development of all attorneys involved in federal practice. The Hon. Raymond L. Acosta Puerto Rico Chapter is one of the largest and most distinguished chapters of the Federal Bar Association.

We greatly appreciate your consideration of our resolution, and respectfully request that you include it in the candidate's Senate Judiciary Committee evaluation file.

Respectfully,

KATHERINE GONZÁLEZ-VALENTIN,
President.

RESOLUTION OF THE BOARD OF DIRECTORS ON PRESIDENT BARACK OBAMA'S NOMINEE FOR THE CURRENT JUDICIAL VACANCY IN THE UNITED STATES SUPREME COURT

Whereas on May 26, 2009, President Barack Obama nominated Judge Sonia Sotomayor to fill the vacancy left by Justice David H. Souter in the United States Supreme Court;

Whereas Judge Sotomayor has received widespread support, and in view of this Chapter, is an exceptionally qualified federal jurist with a stellar record of professional achievement;

Whereas the Board of Directors of this Chapter is convinced that the nominee will administer justice fairly and impartially, and will faithfully and impartially discharge

and perform all the duties incumbent upon her under the Constitution and laws of the United States; and further, will support and defend the Constitution of the United States against all enemies, foreign and domestic, and will bear true allegiance to our Constitution and laws;

Whereas this Board of Directors is fully satisfied that Judge Sotomayor possesses the necessary professional skills, temperament, and other qualifications that are required to perform this important judicial role with distinction;

Now, therefore, the Board of Directors of the Federal Bar Association, Hon. Raymond L. Acosta Puerto Rico Chapter, hereby unanimously resolves:

1. To express its unconditional satisfaction with the qualifications of Judge Sonia Sotomayor to fill the vacancy in the United States Supreme Court, and the Chapters unconditional support of this important nomination;

2. To exhort the United States Senate and Its Committee on the Judiciary to expeditiously consider and favorably act on Judge Sonia Sotomayor's nomination, so that the United States Supreme Court may have a full complement of Justices by the time the Supreme Court reconvenes on October 5, 2009.

In San Juan, Puerto Rico, this 29th day of May, 2009.

HISPANIC NATIONAL BAR ASSOCIATION,
JULY 8, 2009.

HNBA ANNOUNCES ENDORSEMENT OF THE
HONORABLE SONIA SOTOMAYOR

WASHINGTON, DC.—The Hispanic National Bar Association (HNBA) announced today that it has formally endorsed The Honorable Sonia M. Sotomayor to serve as Associate Justice of the Supreme Court of the United States. The HNBA's Special Committee on the U.S. Supreme Court has concluded its most recent review of Judge Sotomayor's qualifications and overall record, and found her to be 'extraordinarily well-qualified' to serve on the Nation's highest court. According to Ramona E. Romero, HNBA National President, "the HNBA unanimously endorsed Judge Sotomayor after reviewing her judicial record, professional competence, intellect, character, reputation for integrity, temperament, commitment to equal justice and record of service to the American public and the Hispanic community." Carlos Ortiz, who co-chairs the HNBA's Supreme Court Committee, added that "based on our review, we are certain that she is extraordinary well-equipped to serve on our country's high court. We believe that she embodies all the qualities required for service as a Justice, and are confident that, when confirmed, she will render fair and impartial justice for all Americans. We recommend her without any reservation."

This is the HNBA's fourth review of Judge Sotomayor's record. The HNBA conducted due diligence before including Judge Sotomayor on a short list of potential Hispanic American nominees for the U.S. Supreme Court released in 2005. Her credentials were also reviewed by the HNBA prior to her elevation to the Second Circuit in 1998, and when she was nominated for the U.S. District Court. "In each instance, we have been impressed by her intellect, her commitment to the rule of law and equal justice, her experience, and her respect for all who interact with the legal system," said Ms. Romero. Since the nomination of Judge Sotomayor to the U.S. Supreme Court in late May, the HNBA has met with members of the Senate Judiciary Committee and their staff to advo-

cate for a fair and expeditious confirmation hearing. The HNBA looks forward to the opportunity to reiterate its strong support for Judge Sotomayor during the confirmation process.

The HNBA Supreme Court Committee is co-chaired by Robert Raben, founder and President of The Raben Group. Its members are Michael A. Olivas, Houston, TX; HNBA Law Professor Sect Chair Emeritus, 1987-2009; Gilbert F. Casellas, Round Rock, TX; HNBA Past President, 1984-1985; Mark S. Gallegos, Miami, FL; HNBA Past President, 1988-1989; Dolores S. Atencio, Denver, CO; HNBA Past President, 1991-1992; Mary T. Hernandez, San Jose, CA; HNBA Past President, 1994-1995; Gregory A. Vega, San Diego, CA; HNBA Past President, 1997-1998; Lillian R. Apodaca, Albuquerque, NM; HNBA Past President, 1998-1999.

The Hispanic National Bar Association (HNBA) is an incorporated, not-for-profit, national membership Association that represents the interests of the more than 100,000 attorneys, judges, law professors, legal assistants, and law students of Hispanic descent in the United States, its territories and Puerto Rico. For more information about the HNBA, please visit www.hnba.com.

HNBA PRESIDENTS' STATEMENT

We the undersigned past presidents of the Hispanic National Bar Association wholeheartedly support the nomination of Judge Sonia Sotomayor to serve as an Associate Justice on the United States Supreme Court. Judge Sotomayor has exceptional academic and professional credentials. She is a summa cum laude graduate of Princeton University and graduated from Yale Law School, where she served as an editor of the Yale Law Journal. Before her appointment to the federal bench, Judge Sotomayor was a prosecutor for five years in the Manhattan District Attorney's Office and then a commercial litigator in a private law firm. Judge Sotomayor has been a federal judge for 17 years, serving with distinction on both the U.S. District Court for the Southern District of New York and the Second Circuit Court of Appeals.

We have all long been troubled by the fact that no person of Hispanic heritage has ever served on our nation's highest court. During our terms as HNBA President, each and every one of us engaged in bipartisan efforts to diversify the federal bench and to build a pipeline of qualified Latino lawyers, jurists and legal scholars who would be prepared to serve on the U.S. Supreme Court with distinction. We have always been convinced that greater diversity on the Supreme Court would broaden and strengthen the perspective of its jurisprudence and enhance the administration of justice for all Americans. Words cannot adequately express the delight in our hearts that our time has finally arrived. We urge the U.S. Senate to confirm an exceptional jurist with extraordinary federal judicial and legal experience, Judge Sonia Sotomayor.

Bradshaw, Alan Varela, Jimmie V. Reyna, Jose Gaitan, Gregory A. Vega, Alice Velazquez,

Angel G. Gomez, Carlos Singh, Nelson A. Castillo, Victor Marquez.

Mr. WYDEN. Mr. President, this organization, the Hispanic National Bar Association is not for profit, a national membership association that represents the interests of more than 100,000 attorneys, judges, law professors, legal assistants, and law students of Hispanic descent in United States, its territories, and Puerto Rico.

After a review of her qualifications and overall record, the Hispanic National Bar Association's Special Committee on the U.S. Supreme Court concluded that Judge Sotomayor is extraordinarily well qualified to serve on the Nation's highest Court.

Let me close simply by saying that when we have to review a nominee for this extraordinarily important position, one of the most important measures for me is to know that the nominee's views are squarely in the mainstream of American jurisprudence.

I came away believing that, but I hope that the Senate will not take my word for it or any other colleague's word for it. I think we ought to reflect on what the American Bar Association said. They gave her their highest rating. Or listen to former FBI Director Louis Freeh who called her an "outstanding judge." Or read the dozens of endorsements for her, including those from the American Hunters & Shooters Association, the Chamber of Commerce, and the National Association of Women Lawyers.

I started my statement tonight by laying out the criteria that I believe ought to be used in evaluating a Supreme Court nominee. In terms of those criteria, Judge Sotomayor is an individual who will bring great credit to the Supreme Court. She will be a role model for millions and millions of young people in our country. I hope our colleagues will vote in a resounding fashion in favor of her nomination to serve on the U.S. Supreme Court.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. BENNET. Mr. President, I, too, rise in strong support of the President's historic nomination of Judge Sonia Sotomayor to be Associate Justice of the U.S. Supreme Court.

The Senate has no more important responsibility than to advise and consent on nominations to our Nation's highest Court. It will be an honor, on behalf of the people of my State, to cast my vote to confirm Sonia Sotomayor.

Judge Sotomayor is a distinguished lawyer with a lifetime of experience in and out of the courtroom, as a litigator, a prosecutor, a trial judge, and an appellate judge on one of the most prestigious courts in the Nation.

At an early point in her career, she showed a dedication to public service, serving 5 years as an assistant district

attorney in New York City. As a prosecutor, she focused on murder and robbery cases at a time when violence was high in New York and law and order was essential. And she has chosen in recent years to share her knowledge and experience with young legal scholars as an adjunct professor at local law schools.

Three Presidents from both parties have also agreed she merits a prestigious lifetime judicial appointment. That is impressive bipartisan support at our Nation's highest levels.

The question before the Senate is whether the nominee meets the high standards we rightfully expect of our Supreme Court Justices. It is our role to advise and consent on whether a President's nominee seeks to apply the law and not to make or remake it. On both of these fronts, Judge Sotomayor meets and far exceeds the mark. She is clearly a judicial moderate and has demonstrated this through a Federal judicial record longer than any nominee in the last 100 years.

As Federal district court judge in the Southern District of New York, Judge Sotomayor presided over roughly 450 cases. As a member of the Second Circuit Court of Appeals, Judge Sotomayor has participated in over 3,000 panel decisions and authored over 400 published opinions.

Seldom does the Senate have a record as long as Judge Sotomayor's. There is no mystery here about what kind of Justice she will be.

Since joining the second circuit, she has participated in 434 published panel decisions where the panel included at least one judge appointed by a Republican President. In these cases, Judge Sotomayor agreed with the result favored by the Republican appointee 95 percent of the time. She has ruled for the government in 83 percent of immigration cases, and 92 percent of criminal cases. She has hewed closely to second circuit precedent. On employment cases, she has split her decisions evenly. By all accounts, she is a mainstream moderate nominee.

The American Bar Association unanimously found her well qualified. She is someone with a long record of moderation and humility toward the law. Her work is driven by a thorough application of the law to the facts of each case. Our focus and the basis for support or opposition should be on her qualifications and record. And on this point, she clearly should be confirmed.

This week, we have a historic opportunity to add a mainstream, moderate judge to our Nation's highest Court. President George H. W. Bush saw this kind of potential in her when he nominated her to the Federal district court, and she has fully realized his faith in her, so much so that she stands on the brink of history after being nominated by President Obama.

Judge Sotomayor has all the professional ingredients to make a great Su-

preme Court Justice. It is on that basis she should be confirmed by this body by an overwhelming vote.

But there is more to Judge Sotomayor than this impressive legal career. Judge Sotomayor has also lived a truly American story. The daughter of Puerto Rican parents, Judge Sotomayor lost her father at the age of 9 and was raised in a housing project in the Bronx. Through strong-willed parenting by her mother, she rose from difficult circumstances to receive the very highest honor that Princeton awards to an undergrad. She also went to Yale Law School where she had a much more distinguished career than my own.

When she is confirmed as the first Hispanic and third woman ever to be nominated to the Supreme Court, Judge Sotomayor will be an inspirational example to all children all across the country, telling us that regardless of where you come from, regardless of your economic circumstances, nothing is beyond your reach in America.

Judge Sotomayor will be a role model for young Coloradans in all of our schools, and with her on the high Court, I fully expect that school-age girls, such as my three daughters, will have an important role model of success to follow in their own lives.

These intangible factors make her nomination an important statement for millions of young Americans setting out on their own paths.

I have the utmost faith in Sonia Sotomayor. The President made an excellent nomination. Through sheer persistence, hard work, intelligence, and integrity, she has become an inspiration to the American people, and she is a compelling reminder that in this Nation, everything is possible.

I am proud to commit my vote in favor of this nominee.

Mr. LEAHY. Mr. President, many independent studies that have closely examined Judge Sotomayor's record have concluded that hers is a record of applying the law, not bias. For example, the American Bar Association's Standing Committee on the Federal Judiciary unanimously found Judge Sotomayor to be "well qualified"—its highest rating—after conducting a thorough evaluation that included an examination of her integrity and freedom from bias. The Chair of the Standing Committee testified, "the committee unanimously found an absence of any bias in the nominee's extensive work," and described Judge Sotomayor's opinions as "show[ing] an adherence to precedent and an absence of attempts to set policy based on the judge's personal views."

Numerous other studies from groups such as the Congressional Research Service, the New York City Bar Association, the Transactional Records Access Clearinghouse, the National Association of Women Lawyers, and the

nonpartisan Brennan Center for Justice, have reached similar conclusions. These studies were entered into the record during Judge Sotomayor's confirmation hearings. Nothing in these studies or in her 17 year record on the bench raises a concern that Judge Sotomayor would substitute feelings for the command of the law.

Judge Sotomayor's critics attack her by pretending that President Obama does not respect the Constitution and the rule of law. They are wrong. They attack him for using the word empathy to describe one of the qualities he is looking for in a judicial nominee. He has never said that empathy is intended to override the rule of law. It is, nonetheless, ironic that the Senate Republican leader has criticized Judge Sotomayor for not being more empathetic and ruling for Frank Ricci, Ben Vargas, and the other plaintiffs despite the well-settled law in the Second Circuit which she applied in that case.

They attack her by misconstruing what empathy means. Empathy is understanding and awareness. That is what Justice Alito was testifying about at his confirmation hearing. That is what Justice Thomas was testifying about when he said that what he would bring to the Supreme Court "is an understanding and the ability to stand in the shoes of other people across a broad spectrum of this country." Justice Alito and Justice Thomas were not testifying that they would be biased. What the partisan critics do not appreciate is that the opposite of empathy is indifference and a lack of understanding. Empathy does not mean biased or mean picking one side over another, it means understanding both sides.

When she was designated by the President, Judge Sotomayor said: "The wealth of experiences, personal and professional, have helped me appreciate the variety of perspectives that present themselves in every case that I hear. It has helped me to understand, respect, and respond to the concerns and arguments of all litigants who appear before me, as well as to the views of my colleagues on the bench. I strive never to forget the real-world consequences of my decisions on individuals, businesses, and government."

It took a Supreme Court that understood the real world to see that the seeming fair-sounding doctrine of "separate but equal" was a straightjacket of inequality. We do not need more conservative activists second guessing Congress and who through judicial extremism override congressional judgments intended to protect Americans' voting rights, privacy rights and access to health care and education.

In her widely misconstrued speech at the University of California at Berkeley, Judge Sotomayor said: "[J]udges must transcend their personal sympathies and prejudices and aspire to

achieve a greater degree of fairness and integrity based on the reason of law." That parallels what Chief Justice Roberts said at his confirmation hearing when he testified about "the ideal in the American justice system" and judges "doing their best to interpret the law, to interpret the Constitution, according to the rule of law" and not substituting their own personal agenda.

Those who spent days asking Judge Sotomayor to explain what she meant in a partial quotation from that speech about the decisions reached by a "wise Latina woman with the richness of her experiences" miss that she begins that statement with the words, "I would hope." They miss that her statement is aspirational. She would "hope" that she and the other Hispanic women judges would be "wise" in their decisionmaking and that their experiences would help inform them and help provide that wisdom. Judge Sotomayor's critics have ignored her modesty in not claiming to be perfect, but rather in aspiring to the greatest wisdom and fairness she can achieve.

These critics also miss that Judge Sotomayor was pointing out a path to greater fairness and fidelity to law by acknowledging that despite the aspiration she shares with other judges, there are imperfections of human judging. By acknowledging rather than ignoring that while all judges seek to set aside their personal views, they do not always succeed, and we can be on guard against those views influencing judicial outcomes.

Judge Sotomayor has described herself as "an ordinary person who has been blessed with extraordinary opportunities and experiences." In her opening statement at her Supreme Court confirmation hearing she spoke about witnessing the "human consequences" of judicial decisions. She testified that her judicial decisions "have not been made to serve the interests of any one litigant, but always to serve the large interest of impartial justice."

We have a long and important tradition in the law of seeking justice and fairness and equity. Judge Sotomayor spoke about the meaning of the word "justice" a decade ago and said: "Almost every person in our society is moved by that one word. It is a word embodied with a spirit that rings in the hearts of people. It is an elegant and beautiful word that moves people to believe that the law is something special."

In this country, the law is special, and it is special because of what it protects and what it can do. In England there were separate law courts and chancery courts. But, in the United States we have combined these functions to be performed by all of our Federal judges.

We all talk about the importance of judges following the law. Yet we should

remember that the law that judges must follow includes the reconstruction amendments and particularly the 14th amendment, which transformed the rule of law and the role of judges and Congress in the United States. In the aftermath of the bloody, tragic Civil War, the 14th amendment was passed to give the courts and the Congress a more active role in defining and protecting civil rights. The complete abolition of slavery was only a part of its grand purpose. It was driven by a profound desire to arm the newly freed slaves—and all Americans—with the rule of law—set forth in the grand phrasing of the equal protection, due process, and privileges or immunities clauses—to guarantee their equal rights against invidious governmental discrimination.

The 14th amendment does not supplant but reinforces the historical equitable powers of our courts to redress problems. It is not just the statutes Congress writes, but also the precedent and interpretations of the courts that make up the law. We have a strong common law tradition in that regard. And we have a powerful equitable tradition that ensures that fairness and justice are done.

We need judges who appreciate when and how to use their equitable powers. Judges who follow the law are empowered to enjoin illegal behavior, as the Supreme Court did in its historic series of orders enjoining the States and others from segregating schools on the basis of race. This does not mean that our courts have the power to remedy every problem in America. They do not. In addition, they can abuse their power, as I think the Supreme Court did when it intervened in the Presidential election in 2000 and determined its outcome. But, we should never forget that it is through its equitable powers that the Supreme Court and most other courts in this country are able to do justice and to ensure fairness and equity. In that regard, I believe that the experience and wisdom Judge Sotomayor has gained from an extraordinary life will benefit all Americans.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BEGICH). Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent to proceed to a period of morning business with Senators allowed to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.)

COMMENDING DR. RICHARD BAKER

• Mr. BYRD. Mr. President, the U.S. Senate is an institution that reveres precedent, continuity, and tradition. Ours is an institution that prides itself on the great men and women who preceded us in this Chamber, and the role this institution has played in protecting our Nation, and in making our Nation a better place in which to live, work, and raise families. This is an institution that prides itself on its history.

Therefore, it is important that the Senate have an official historian, along with an Historical Office to document our history, and supervise the management of the records of the Senate as an institution, of Senate committees, and of individual Senators.

For the past 34 years, the Senate has been fortunate, perhaps I should say we have been blessed, to have Dr. Richard Baker as the Senate Historian. Unfortunately for us, he is now leaving his position as Senate Historian, so I must say farewell.

This is a most reluctant and sad farewell. While I am pleased that Dr. Baker will now have the time and opportunity to pursue other endeavors, such as spending more time with his wife and other family members, as well as completing some manuscripts he has been working on, I must say that I am truly sorry to see him leave.

In the preface of volume two of my four-volume history of the Senate, I pointed out that, "This work in its present form would not have been possible without the assistance of the professionals within the Senate historical office," which, of course, was headed by Dr. Baker. My little acknowledgment hardly begins to convey the debt of my gratitude to him for his assistance in that project.

Researching and writing that four-volume history took more than a decade, and during that 10-year period, whenever I went to him for assistance, whether for help in research or writing or just thinking about how I wanted to present a certain idea, he always went above and beyond the call of duty. He was always there, ready and eager to help. I will never forget how, time after time, he would simply say, "Senator, I'll be delighted to help."

He was always ready to help, although he was responsible to 99 other Senators, and had so many other responsibilities and functions. Since the office was created in 1975, following the Watergate scandal, Dr. Baker, the Senate's first and only historian, has ensured that the history of the Senate is properly collected, categorized, main-

tained, and preserved. In addition, he has advised Senators on how to manage their personal papers while they are here, and how to preserve them once they leave office, and has advised Senate committees on the transfer of their records to the National Archives.

Charged with maintaining an objective and thorough record of the institution, his office has collected information on important Senate events, and traced the background and the evolution of Senate rules, precedents and countless activities.

In a multitude of ways, through the publications that his office issues, in talks with Senators and our staffs, and in private consultations, Dr. Baker has provided Senators with a better understanding and appreciation of the U.S. Senate, and its importance and its role under the Constitution. His office has reminded us on a daily basis of the majesty, the uniqueness, and the greatness of our institution.

His office has undertaken its very important work objectively and without political motivation or slant. It always remained a completely non-partisan office. As a result, Dr. Baker earned the respect as well as the gratitude of Senators on both sides of the aisle. This explains why, even with the many changes in the Senate during his tenure as Senate Historian, including changes in Senate leaders and party control, no one has even considered any change in the Senate Historical Office.

Because of his careful and methodical work in collecting the history of the Senate, I can safely predict that the work of his office will be vital to future historians. Years from now, when most of us are long gone—from the Senate, that is—historians will be using the records his office has compiled and the documents his office has produced, to write their histories of the Senate—and for that we will all be grateful.

I congratulate and I thank Dr. Baker for the marvelous work he has done. I wish him and his lovely wife Pat nothing but much happiness, great success, and the best of health as they embark on the next phase of their lives.●

BUDGET SCOREKEEPING REPORT

Mr. CONRAD. Mr. President, I wish to submit to the Senate the second budget scorekeeping reports for the 2010 budget resolution. The reports, which cover fiscal years 2009 and 2010, were prepared by the Congressional Budget Office pursuant to section 308(b) and in aid of section 311 of the Congressional Budget Act of 1974, as amended.

The reports show the effects of congressional action through July 31, 2009, and include the effects of legislation since I filed my last reports on June 25, 2009. The new legislation includes P.L.

111-42, a joint resolution approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes; H.R. 3114, an act to authorize the Director of the U.S. Patent and Trademark Office to use funds made available under the Trademark Act of 1946 for patent operations in order to avoid furloughs and reductions-in-force, and for other purposes, pending Presidential action; S. 1107, the Judicial Survivors Protection Act of 2009, pending Presidential action; and H.R. 3357, an act to restore sums to the highway trust fund, and for other purposes, pending Presidential action. The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of S. Con. Res. 13, the 2010 budget resolution.

For 2009, the estimates show that current level spending is \$982 million below the level provided for in the budget resolution for budget authority and \$3.8 billion above it for outlays while current level revenues match the budget resolution level. For 2010, the estimates show that current level spending is \$1,205.9 billion below the level provided for in the budget resolution for budget authority and \$715.8 billion below it for outlays while current level revenues are \$19.2 billion above the budget resolution level.

I ask unanimous consent to have the letters and accompanying tables from CBO printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, August 4, 2009.

Hon. KENT CONRAD,
Chairman, Committee on the Budget, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The enclosed report shows the effects of Congressional action on the fiscal year 2009 budget and is current through July 31, 2009. This report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act, as amended.

The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010, as approved by the Senate and the House of Representatives.

Pursuant to section 403 of S. Con. Res. 13, provisions designated as emergency requirements are exempt from enforcement of the budget resolution. As a result, the enclosed current level report excludes these amounts (see footnote 2 of Table 2 of the report).

Since my last letter dated June 25, 2009, the Congress has cleared for the President's signature the following acts, which affect budget authority and outlays for fiscal year 2009:

An act to authorize the Director of the United States Patent and Trademark Office to use funds . . . and for other purposes (H.R. 3114); and

An act to restore sums to the Highway Trust Fund, and for other purposes (H.R. 3357).

Sincerely,

DOUGLAS W. ELMENDORF,
Director.

Enclosure.

TABLE 1.—SENATE CURRENT LEVEL REPORT FOR SPENDING AND REVENUES FOR FISCAL YEAR 2009, AS OF JULY 31, 2009

(In billions of dollars)			
	Budget resolution ¹	Current level ² -Current	Current level over/under (-) resolution
ON-BUDGET			
Budget Authority	3,668.6	3,667.6	-1.0

TABLE 1.—SENATE CURRENT LEVEL REPORT FOR SPENDING AND REVENUES FOR FISCAL YEAR 2009, AS OF JULY 31, 2009—Continued

(In billions of dollars)			
	Budget resolution ¹	Current level ² -Current	Current level over/under (-) resolution
Outlays	3,357.2	3,361.0	3.8
Revenues	1,532.6	1,532.6	0.0
OFF-BUDGET			
Social Security Outlays ³	513.0	513.0	0.0
Social Security Revenues	653.1	653.1	0.0

¹ S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010, includes \$7.2 billion in budget authority and \$1.8 billion in outlays as a disaster allowance to recognize the potential cost of disasters; those funds will never be allocated to a committee. At the direction of the Senate Committee on the Budget, the budget resolution totals have been revised to exclude those amounts for purposes of enforcing current level.

² Current level is the estimated effect on revenues and spending of all legislation, excluding amounts designated as emergency requirements (see footnote 2 of table 2), that the Congress has enacted or sent to the President for his approval. In addition, full-year funding estimates under current law are included for entitlement and mandatory programs requiring annual appropriations, even if the appropriations have not been made.

³ Excludes administrative expenses of the Social Security Administration, which are off-budget, but are appropriated annually.
SOURCE: Congressional Budget Office.

TABLE 2.—SUPPORTING DETAIL FOR THE CURRENT LEVEL REPORT FOR ON-BUDGET SPENDING AND REVENUES FOR FISCAL YEAR 2009, AS OF JULY 31, 2009

(In millions of dollars)			
	Budget authority	Outlays	Revenues
Previously Enacted: ¹			
Revenues	n.a.	n.a.	1,532,571
Permanents and other spending legislation	2,186,897	2,119,086	n.a.
Appropriation legislation	2,031,683	1,851,797	n.a.
Offsetting receipts	-640,548	-640,548	n.a.
Total, Previously enacted	3,578,032	3,330,335	1,532,571
Enacted this session:			
Helping Families Save Their Homes Act of 2009 (P.L. 111-22) ²	106	3,896	0
An act to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (P.L. 111-31)	11	2	8
Supplemental Appropriations Act, 2009 (P.L. 111-32) ²	89,682	26,992	0
An act to make technical corrections to the Higher Education Act of 1965, and for other purposes (P.L. 111-39)	-187	-202	0
Total, enacted this session	89,612	30,688	8
Passed, pending signature:			
An act to authorize the Director of the United States Patent and Trademark Office to use funds . . . and for other purposes (H.R. 3114)	0	5	0
An act to restore sums to the Highway Trust Fund, and for other purposes (H.R. 3357) ³	-40	-40	-
Total, passed, pending signature	-40	-35	0
Total Current Level ^{2,3,4}	3,667,604	3,360,988	1,532,579
Total Budget Resolution ⁵	3,675,736	3,358,952	1,532,579
Adjustment to budget resolution for disaster allowance ⁶	-7,150	-1,788	n.a.
Adjusted Budget Resolution	3,668,586	3,357,164	1,532,579
Current Level Over Budget Resolution	n.a.	3,824	n.a.
Current Level Under Budget Resolution	982	n.a.	0

¹ Includes the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3), the American Recovery and Reinvestment Act (ARRA) (P.L. 111-5), and the Omnibus Appropriations Act, 2009 (P.L. 111-8), which were enacted by the Congress during this session, before the adoption of S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010. Although the ARRA was designated as an emergency requirement, it is now included as part of the current level amounts.

² Pursuant to section 403 of S. Con. Res. 13, provisions designated as emergency requirements (and rescissions of provisions previously designated as emergency requirements) are exempt from enforcement of the budget resolution. The amounts so designated for fiscal year 2009, which are not included in the current level totals, are as follows:

	Budget authority	Outlays	Revenues
Helping Families Save Their Homes Act of 2009 (P.L. 111-22)	-630	-630	n.a.
Supplemental Appropriations Act, 2009 (P.L. 111-32)	16,169	3,530	n.a.
Total, amounts designated as emergency	15,539	2,900	n.a.

³ Section 1 of H.R. 3357 appropriated \$7 billion to the Highway Trust Fund. The enactment of this legislation followed an announcement by the Secretary of Transportation on June 24, 2009, of an interim policy to slow down payments to states from the Highway Trust Fund. The Congressional Budget Office estimates that H.R. 3357 will reverse this policy and restore payments to states at levels already assumed in current level. Thus, enactment of section 1 results in no change to current level totals. Other provisions of the act will reduce budget authority and outlays by \$40 million in 2009.

⁴ For purposes of enforcing section 311 of the Congressional Budget Act in the Senate, the budget resolution does not include budget authority, outlays, or revenues for off-budget amounts. As a result, current level excludes these items.

⁵ Periodically, the Senate Committee on the Budget revises the totals in S. Con. Res. 13, pursuant to various provisions of the resolution:

	Budget authority	Outlays	Revenues
Original Budget Resolution Totals	3,675,927	3,356,270	1,532,571
Revisions:			
For the Supplemental Appropriations Act, 2009 (section 401(c)(4))	-1,530	2,240	0
For an act to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (sections 311(a) and 307)	11	2	8
For further revisions to the Supplemental Appropriations Act, 2009 (section 401(c)(4))	1,515	642	0
For an act to make technical corrections to the Higher Education Act of 1965, and for other purposes (section 303)	-187	-202	0
Revised Budget Resolution Totals	3,675,736	3,358,952	1,532,579

⁶ S. Con. Res. 13 includes \$7,150 million in budget authority and \$1,788 million in outlays as a disaster allowance to recognize the potential cost of disasters; those funds will never be allocated to a committee. At the direction of the Senate Committee on the Budget, the budget resolution totals have been revised to exclude those amounts for purposes of enforcing current level.

SOURCE: Congressional Budget Office.

Note: n.a. = not applicable; P.L. = Public Law.

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, August 4, 2009.
Hon. KENT CONRAD,
Chairman, Committee on the Budget, U.S. Senate,
Washington, DC.

DEAR MR. CHAIRMAN: The enclosed report shows the effects of Congressional action on the fiscal year 2010 budget and is current through July 31, 2009. This report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act, as amended.

The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010, as approved by the Senate and the House of Representatives.

Pursuant to section 403 of S. Con. Res. 13, provisions designated as emergency requirements are exempt from enforcement of the budget resolution. As a result, the enclosed current level report excludes these amounts (see footnote 2 of Table 2 of the report).

Since my last letter, dated June 25, 2009, the Congress has cleared and the President has signed a joint resolution approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes (Public Law 111-42), which affects revenues.

The Congress has also cleared for the President's signature, the following acts: An act to authorize the Director of the United States Patent and Trademark Office to use funds * * * and for other purposes (H.R. 3114);

and Judicial Survivors Protection Act of 2009 (S. 1107).

These acts affect budget authority and outlays.

Sincerely,

ROBERT A. SUNSHINE

(For Douglas W. Elmendorf, Director).

Enclosure.

TABLE 1.—SENATE CURRENT LEVEL REPORT FOR SPENDING AND REVENUES FOR FISCAL YEAR 2010, AS OF JULY 31, 2009

[In billions of dollars]

	Budget resolution ¹	Current level ²	Current level over/under (—) resolution
ON-BUDGET			
Budget Authority	–2,882.1	–1,676.2	–1,205.9

TABLE 1.—SENATE CURRENT LEVEL REPORT FOR SPENDING AND REVENUES FOR FISCAL YEAR 2010, AS OF JULY 31, 2009—Continued

[In billions of dollars]

	Budget resolution ¹	Current level ²	Current level over/under (—) resolution
Outlays	–2,999.1	–2,283.3	–715.8
Revenues	–1,653.7	–1,672.9	–19.2
OFF-BUDGET			
Social Security Outlays ³	–544.1	–544.1	–0.0
Social Security Revenues	–668.2	–668.2	–0.0

¹ S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010, includes \$10.4 billion in budget authority and \$5.4 billion in outlays as a disaster allowance to recognize the potential cost of disasters; those funds will never be allocated to a committee. At the direction of the Senate Committee on the Budget, the budget resolution totals have been revised to exclude those amounts for purposes of enforcing current level.

² Current level is the estimated effect on revenues and spending of all legislation, excluding amounts designated as emergency requirements (see footnote 2 of table 2), that the Congress has enacted or sent to the President for his approval. In addition, full-year funding estimates under current law are included for entitlement and mandatory programs requiring annual appropriations, even if the appropriations have not been made.

³ Excludes administrative expenses of the Social Security Administration, which are off-budget, but are appropriated annually.

TABLE 2.—SUPPORTING DETAIL FOR THE CURRENT LEVEL REPORT FOR ON-BUDGET SPENDING AND REVENUES FOR FISCAL YEAR 2010, AS OF JULY 31, 2009

[In millions of dollars]

	Budget authority	Outlays—	Revenues
Previously Enacted: ¹ —			
Revenues	—n.a.	—n.a.	–1,665,986
Permanents and other spending legislation	–1,637,423	1,621,675	n.a.
Appropriation legislation	–0	600,500	n.a.
Offsetting receipts	–690,251	–690,251	n.a.
Total, previously enacted	–947,172	1,531,924	1,665,986
Enacted this session:—			
Helping Families Save Their Homes Act of 2009 (P.L. 111–22)	318	11,346	0
An act to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (P.L. 111–31)	10	13	46
Supplemental Appropriations Act, 2009 (P.L. 111–32) ²	11	33,530	0
An act to make technical corrections to the Higher Education Act of 1965, and for other purposes (P.L. 111–39)	32	36	0
A joint resolution approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes (P.L. 111–42)	0	0	6,862
Total, enacted this session	371	44,925	6,908
Passed, pending signature:—			
An act to authorize the Director of the United States Patent and Trademark Office to use funds . . . and for other purposes (H.R. 3114)	0	65	0
Judicial Survivors Protection Act of 2009 (S. 1107)	–1	–1	0
Total, passed, pending signature	–1	64	0
Entitlements and mandates:—			
Budget resolution estimates of appropriated entitlements and other mandatory programs	–728,688	706,384	0
Total Current Level ^{2, 3, 4}	1,676,230	2,283,297	1,672,894
Total Budget Resolution ⁵	2,892,499	3,004,533	1,653,728
Adjustment to the budget resolution for disaster allowance ⁶	–10,350	–5,448	n.a.
Adjusted Budget Resolution	2,882,149	2,999,085	1,653,728
Current Level Over Budget Resolution	n.a.	n.a.	19,166
Current Level Under Budget Resolution	1,205,919	715,788	–n.a.

¹ Includes the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111–3), the American Recovery and Reinvestment Act (ARRA) (P.L. 111–5), and the Omnibus Appropriations Act, 2009 (P.L. 111–8), which were enacted by the Congress during this session, before the adoption of S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010. Although the ARRA was designated as an emergency requirement, it is now included as part of the current level amounts.

² Pursuant to section 403 of S. Con. Res. 13, provisions designated as emergency requirements (and rescissions of provisions previously designated as emergency requirements) are exempt from enforcement of the budget resolution. The amounts so designated for fiscal year 2010, which are not included in the current level totals, are as follows:

	Budget authority	Outlays	Revenues
Supplemental Appropriations Act, 2009 (P.L. 111–32)	17	7,064	–2

³ For purposes of enforcing section 311 of the Congressional Budget Act in the Senate, the budget resolution does not include budget authority, outlays, or revenues for off-budget amounts. As a result, current level excludes these items.

⁴ The scoring for H.R. 3357, an act to restore the Highway Trust Fund, and for other purposes, does not change current level totals. H.R. 3357 appropriated \$7 billion to the Highway Trust Fund. The enactment of this bill followed an announcement by the Secretary of Transportation on June 24, 2009, of an interim policy to slow down payments to states from the Highway Trust Fund. The Congressional Budget Office estimates that H.R. 3357 will reverse this policy and restore payments to states at levels already assumed in current level. Thus, no change is required.

⁵ Periodically, the Senate Committee on the Budget revises the totals in S. Con. Res. 13, pursuant to various provisions of the resolution:

	Budget authority	Outlays	Revenues
Original Budget Resolution Totals	2,888,691	3,001,311	1,653,682
Revisions:—			
For the Supplemental Appropriations Act, 2009 (section 401(c)(4))	–5	2,004	0
For an act to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (sections 311(a) and 307)	0	0	40
For the Congressional Budget Office's reestimate of the President's request for discretionary appropriations (section 401(c)(5))	3,766	–2,355	–0
For further revisions to a bill to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (sections 311(a) and 307)	10	13	6
For further revisions to the Supplemental Appropriations Act, 2009 (section 401(c)(4))	6	–1,175	0
For an act to make technical corrections to the Higher Education Act of 1965, and for other purposes (section 303)	32	36	0
For further revisions to the Supplemental Appropriations Act, 2009 (section 401(c)(4))	–11	–11	0
Revised Budget Resolution Totals	–2,892,499	3,004,533	1,653,728

⁶ S. Con. Res. 13 includes \$10,350 million in budget authority and \$5,448 million in outlays as a disaster allowance to recognize the potential cost of disasters; those funds will never be allocated to a committee. At the direction of the Senate Committee on the Budget, the budget resolution totals have been revised to exclude those amounts for purposes of enforcing current level.

Note: n.a. = not applicable; P.L. = Public Law.

MATERIAL SUPPORT AND TERRORISM BARS IN IMMIGRATION LAW

Mr. LEAHY. Mr. President, following the attacks of September 11, 2001, Congress made dramatic changes to our immigration laws that were intended to strengthen barriers to entry to the United States for those believed to be engaged in terrorist activity. This was a laudable goal, but as with so much of the Federal Government's response to the September 11 attacks, fear overtook reason and sound judgment. Rather than limit the scope of changes to the law, Congress passed vastly overbroad revisions to the definition of terrorist activity, resulting in harm to asylum seekers and refugees. As a result, many who deserve and are otherwise eligible for protection under our laws have suffered needlessly.

The post-September 11 changes to the law expanded bars to entry for those accused of providing "material support" to terrorist organizations, or who are believed to have engaged in "terrorist activity." The new definition of terrorist organization was so broadly written that an individual who was forced at gunpoint to provide medical or other assistance, no matter how slight, to any group of two or more people acting against the law of their country, are considered to have materially supported a terrorist organization. As a result, those who bravely fought repressive governments in their home countries, and those who joined the United States in opposing despots, can now be called terrorists and barred from protection in our Nation.

I have worked for years to restore common sense to the bars in our immigration laws that apply to material support for terrorism. Unfortunately, as a result of the previous administration's inaction, and slow progress within the new administration, these laws remain a stain on the reputation of the United States as a leader in the cause of human rights. The time to end the terrible consequences of these laws is long overdue.

I called upon the previous administration to exert leadership in solving the longstanding problems associated with these restrictions to admission to the United States. I worked with Senator KYL to provide the Bush-Cheney administration with the authority to implement waivers so that those deserving of our protection were not wrongly denied sanctuary in the United States. Little was done with the authority we provided.

We can and must do better. Today I renew these calls for leadership in the new administration. I call on President Obama to take the steps necessary to implement the authority granted by Congress to protect bona fide refugees and asylees.

I recognize that the waiver authority Congress provided to the executive

branch resulted in some positive changes in recent months. The executive branch is granting waivers to those whose "support" under the overly broad definition of terrorist organization was provided only under duress. Some others, whose support was provided to groups exempt from the definition of terrorist organization, are also being granted protection. But that is not enough. The third tier of the law's definition of terrorist organization continues to ensnare those deserving of our protection who pose no legitimate threat to the United States. Currently, over 7,000 individuals who were granted refugee status or asylum, and who have since petitioned the Government for lawful permanent residence, are on hold and in legal limbo because the agency has not implemented the authority granted under law. These are individuals whom our Government has already screened and deemed eligible for protection under the same set of facts now being held against them to erroneously claim that they are threats to the United States.

And in some cases, these are people that bravely stood by the United States in Iraq and elsewhere. Saman Kareem Ahmad served as a translator for the U.S. Marines in Iraq. He came to the United States on a special visa, supported by the Marine captain with whom he served, and with commendations from GEN David Petraeus. But because he had served with the Kurdish democratic party in Iraq in opposing Saddam Hussein, Mr. Ahmad was initially denied a green card because he was deemed to have been part of a terrorist organization under the law's definition. It took press reporting and congressional oversight to resolve this injustice. Such a result is at odds with our values.

As the result of legislation Senator KYL and I sponsored, and which became law, the agency was directed to establish a process for exempting certain groups from the material support bars. In practice, an individual who is granted refugee status or asylum is eligible to later petition to adjust their status to lawful permanent residence. Yet, rather than apply the exemption authority granted under law, the agency appears to assume the terrorism bars apply in many of these cases, and then holds the cases until it determines whether the individual applicants are eligible for a waiver. This is not what Congress intended. A significant percentage of the more than 7,000 pending cases are petitions from refugees or asylees who were previously admitted to the United States. They are being penalized for actions that took place prior to their admission to the United States, often for activity that was not barred at the time, and which they disclosed prior to lawful admission to our nation. These individuals should be granted a presumption of admissi-

bility, assuming no other factors of inadmissibility apply to their cases.

Equally troubling is the effect of agency inaction on individuals in removal proceedings. Asylum seekers in removal proceedings are not considered for a waiver of the terrorism-related bars unless and until a final order of removal is issued. This inefficient system forces asylum seekers to engage in a lengthy appeals process if they believe they have a valid claim for relief. Reviewing such cases for waivers at the early stages of removal proceedings will lead to more efficient operations within the agency and the immigration courts. It will also save genuine asylum seekers from unnecessary anguish and enable them to more quickly integrate into American society.

I intend to work in earnest with the Obama administration to solve this problem once and for all. If the executive branch is unwilling or unable to make the needed administrative changes to policy, then I will introduce legislation once again. Should legislation be necessary, I expect the administration and the agencies to work with me in a constructive manner to restore common sense and fairness to our treatment of refugees and asylum seekers.

INTELLIGENCE INVESTIGATIONS

Mr. LIEBERMAN. Mr. President, it has now been nearly 8 years since our country was attacked on September 11, 2001, as 19 al-Qaida members hijacked four jet airplanes and crashed three of them into the World Trade Center and the Pentagon. The passengers on the fourth plane, Flight 93, learned of the other attacks, fought back against the hijackers, and heroically gave their lives to prevent that plane from reaching its target in Washington, DC. That target was probably this very building—the U.S. Capitol.

In the last 8 years, our homeland has not been attacked again. The reasons for this are many. We created a Department of Homeland Security, and we adopted reforms in our intelligence community recommended by the 9/11 Commission. We are now consistently connecting the intelligence dots that were not connected before 9/11. We have denied safe haven to terrorist organizations in Afghanistan, Iraq, and other countries around the world. And we have worked with our allies to prevent terrorist groups from gaining access to nuclear and radiological materials and to combat terrorist financing.

One of the most important reasons why we have not been attacked again in the last 8 years is the tireless work of the men and women who serve in our intelligence agencies. While the attacks of 9/11 have receded into the memory of many Americans, I assure my colleagues that is not the case for the intelligence community. They

know that the threat of terrorism has not diminished and are working each day to detect and disrupt terrorist plots targeting America and our allies.

They know that the threats we face are ones that could imperil the lives of countless Americans. Just last year, the Commission on the Prevention of Weapons of Mass Destruction determined that it is "more likely than not" that a nuclear or biological weapon of mass destruction will be used against the United States in a terrorist attack within the next five years. Should a nuclear device detonate in an American city, it could instantly kill hundreds of thousands of people and render the city uninhabitable for years. This is a devastating possibility that America faces every day and agents are working to prevent every second of every day.

For all of these reasons, I believe we have a responsibility to give our intelligence agencies and agents the resources and tools they need, as well as the respect and appreciation they have earned.

What we should not do is go backwards by investigating intelligence officials who served us on the front lines of this ongoing war on terrorism and acted within legal guidance they were given.

Attorney General Holder is still considering an investigation into CIA interrogators and contract employees. I fear that such an investigation could very well foster a climate of political recriminations and sap the morale of the intelligence community. Those near certain results would no doubt leave our country less safe.

President Obama had it right when he said that with regard to past behavior by the intelligence community, he is "more interested in looking forward . . . than looking backward." Given the threats that we face as a nation, it is imperative that we follow the President's lead.

With regard to the treatment of detainees now in U.S. custody, the President has been clear. The Executive order he signed on January 22 of this past year requires that all detainees in U.S. custody "shall in all circumstances be treated humanely and shall not be subjected to violence to life and person" and that all interrogations carried out by the U.S. Government, whether by the military, the CIA, the FBI or any other government entity, shall comply with the Army Field Manual. The President's Executive order is consistent with the Detainee Treatment Act as well as the Convention Against Torture and Common Article 3 of the Geneva Conventions. Given that such policy changes have already been made, I can see no benefit from new investigations of intelligence officials, especially those who were doing what they thought was appropriate and necessary to keep us safe.

The 9/11 Commission did a positive and constructive investigation of past events that needed to be understood so that we did not repeat the mistakes that made that horrific day possible. The commission investigated the activities of agencies such as the CIA and FBI in the years and months prior to the attacks of 9/11, and was unsparing in pointing out where those agencies had missed opportunities to disrupt the plot. As a result of the commission's recommendations, we established the Director of National Intelligence and the National Counterterrorism Center, improved sharing of intelligence information, and strengthened our watchlisting and visa issuance systems. All of these initiatives make the United States safer today against the threat of terrorism.

A new investigation of interrogation procedures used on al-Qaida detainees would have no such benefits given that these procedures have now been changed. But an investigation into past practices could cause great harm.

An investigation could ruin careers of men and women who have sacrificed so much on our behalf and would have a chilling effect on intelligence efforts moving forward. The overhanging threat of investigations will force those in the intelligence services to be risk averse, which in turn would make us all less secure. In the war against an enemy that does not wear a uniform, that ruthlessly kills innocent civilians, that then hides among those very same civilians, and that uses our own freedoms to undermine and attack us, tough decisions under great pressure—life and death decisions—must be made by those whose job it is to protect our security and our freedom.

As CIA Director Leon Panetta recently wrote in the Washington Post:

The time has come for both Democrats and Republicans to take a deep breath and recognize the reality of what happened after September 11, 2001. The question is not the sincerity or the patriotism of those who were dealing with the aftermath of September 11. The country was frightened, and political leaders were trying to respond as best they could. Judgments were made. Some of them were wrong. But that should not taint those public servants who did their duty pursuant to the legal guidance provided.

As I said at the beginning, we must not take for granted the important fact that we have not been attacked on our homeland since September 11, 2001. That fact is not an accident nor is it just a product of good luck. It is mostly the result of the ceaseless efforts to protect our country by the brave men and women in our military, by all who work for civilian agencies involved in homeland security and counterterrorism, and last but not least, by the intelligence community. Those men and women are, as CIA Director Panetta pointed out, "truly America's first line of defense."

I urge the Attorney General not to go forward with the investigations being

debated now. The collateral damage to America's intelligence community could be severe and that is something no American should want.

SERVICE MEMBER BENEFITS EDUCATION

Mr. NELSON of Florida. Mr. President, I want to share a story I heard about retired MSG Michelle Fitz-Henry.

Michelle served our Nation for over 20 years. Her husband, Senior Chief Petty Officer Ted Fitz-Henry, was a Navy SEAL who served our Nation for 21 years.

Michelle told me that before her husband left home for the Middle East they went into the living room. He said to her, you know if anything happens to me, SBP is there for you.

When he said SBP, he was referring to the Survivor Benefit Plan, an annuity that the Department of Defense (DOD) pays to survivors—the widows and orphans—of two groups of servicemembers.

The first group of survivors includes those who lost a loved one serving on active duty.

In 2001, Congress passed a law allowing active duty servicemembers who are not eligible for retirement to be included in the SBP program. The SBP program provides the survivors of these fallen heroes with a monthly payment based upon the age of the spouse and the year the servicemember entered the service.

This was the right thing to do. It showed the Nation's gratitude for servicemembers' sacrifice. If a servicemember dies on active duty because of a military-connected cause, the servicemember and his or her family are automatically enrolled in the SBP program.

There is a second group of survivors who can also enroll in the SBP program. A veteran who is classified as a retiree—someone who has served for at least 20 years—is eligible to enroll in the program. After they leave the service, retirees can contribute a portion of their retirement pay to SBP. This contribution entitles their survivors up to 55 percent of the retiree's base retirement pay after his or her death.

Since 1972, retirees have paid into the program with a portion of their retirement income in order to improve their family's financial security upon their death. Some retirees have paid into the program for over 30 years.

What Michelle and Ted did not know was that the SBP they thought they could count on—approximately \$1,200 per month—would be reduced, dollar-for-dollar, by another benefit from the Department of Veterans Affairs dependency and indemnity compensation, DIC, program.

DIC is a monthly benefit payment to the survivors of all servicemembers

who have died from a service-connected condition. That includes both those who die on active duty and veterans whose deaths resulted from a service-related injury.

What many SBP participants and their future survivors do not know is that the SBP-DIC dollar-for-dollar offset can leave widows and orphans with up to \$1,200 less per month than they had expected to receive. When planning a family budget this unforeseen reduction can be devastating.

For example, if a widow's husband served for over 20 years, retired, paid into the SBP program and then died of a service-connected disability, she may think that she is entitled to both the full SBP and DIC payments. However, if she planned to receive \$1,300 per month from SBP and \$1,200 per month from DIC, she could be surprised to learn that the dollar-for-dollar offset would reduce her \$1,300 SBP payment by the \$1,200 DIC payment and she would be left with DIC intact, but only \$100 in SBP per month.

As this body knows well, for 8 years I have fought to repeal the law that offsets the monetary payments between the SBP annuity and the DIC benefit. This body may recall that in 2005 we took a step in the right direction and passed by 92-6 an amendment to repeal the unjust SBP-DIC offset. In the 2008 Defense authorization, we cracked the door to eliminating the offset by getting a "special payment" of \$50 per month. This special payment, called the special survivor indemnity allowance, is received by the widows and orphans whose SBP payments are offset by the DIC they receive. This year, the Congress increased the special payment to \$310 per month, by 2017, for the widows and orphans impacted by the SBP-DIC offset. This increase came from savings found in the tobacco legislation, which became law on June 22, 2009.

Michelle allowed me to speak of her case, but she isn't alone. When widows, veterans, and constituents speak to me in support of my efforts to repeal this offset, they often tell me that they did not know that the offset existed.

If Michelle and Ted, with 39 years of combined service upon his death, didn't know about this offset then we have a bigger problem out there: the Services don't adequately educate our servicemembers and their families about their benefits, especially the offsets to their benefits. This year, we will change that.

The amendment I filed to the fiscal year 2010 National Defense Authorization Act, Senate Amendment No. 1808 to S. 1390, will increase servicemembers' and their families' awareness of their service-related benefits during transitions and events in a servicemember's career.

My amendment will require the Services to provide information to service-

members and their families about their disability, death, education, and survivor benefits, including any offsets.

My amendment requires the Services to provide this information when a servicemember enters or leaves the service either through retirement or at the end of his or her service. The services must also provide information when a servicemember is classified as having a service-connected disability and is unfit to perform their duty.

We all believe it is important for servicemembers and their families to receive certain benefits because of their service to the Nation. It is my guess that we also believe that servicemembers and their families should know about those benefits. We sometimes take for granted that we're doing enough, but I believe we can do more and benefits education is a small but important step toward taking better care of our people.

Now I want to be clear, the Services are making honorable efforts to educate our troops about their benefits, but we all agree that we can do better. I asked the Services about their procedures, and I was surprised that there are few standards or requirements that compel the Services to educate servicemembers and their families about disability, death, education and survivor benefits. Thus, I believe that our joint approach with the Services will go a long way to bring uniformity of content and access to all servicemembers and their families.

So, after gathering the information, I spoke with the Pentagon about the changes I was proposing and the possibility that I would file legislation. The Department provided numerous improvements to the legislation, including additional requirements for more information to be provided to servicemembers and their families. I appreciate their engagement and their thoughtful responses. I think it made for a better bill and a better amendment.

Requiring benefits education about service-related benefits will help achieve the basic goal of raising awareness, not only about servicemembers' benefits, but also about the offsets to those benefits.

This legislation is another step in the right direction; another step toward raising awareness about the law that requires the unjust SBP-DIC offset.

However, as awareness is raised we must continue to work hard to enact a law that will repeal the unjust offset. Our servicemembers not only earned or purchased this annuity; they and their survivors rely on the government to provide them with accurate information and the benefits they expect and deserve. We must continue to right these wrongs.

SITUATION IN YEMEN

Mr. LEVIN. Mr. President, I would like to take a few moments to bring to the attention of my colleagues the burgeoning threat of a potential safe haven for extremists in Yemen. As I am sure is true of many of my colleagues, I continue to monitor the press reports surrounding the future of the Yemeni detainees currently being held at the Guantanamo Bay detention facility. However, what I believe too few people are following is the growing threat of Yemen becoming a failed state and potential safe haven for members of al-Qaida.

A recent New York Times article, "Some in [al] Qaeda Leave Pakistan for Somalia and Yemen," highlighted the growing concern within the U.S. Government about relocations of some al-Qaida operatives to Yemen. The Washington Institute for Near East Policy also highlighted the growing threat in Yemen in a recent paper, "Waning Vigilance: al Qaeda's Resurgence in Yemen," that discusses how the threat in Yemen has simmered in recent years and urgently needs the attention of policymakers. Mr. President, I will ask that the New York Times and Washington Institute for Near East Policy articles be printed in the RECORD following my comments.

To appreciate fully the concerns about Yemen's stability, it is important to recall the association of terrorist activities with Yemen. It is perhaps best known as the site of the U.S.S. *Cole* attack in October 2000. But Yemen is also one of the top sources of foreign fighters in Iraq and Afghanistan, the source of weapons trafficked into Gaza, and the country of origin of almost 100 of the remaining detainees at the Guantanamo Bay detention facility. It was also where many mujahedeen returned to after the Soviet withdrawal from Afghanistan and, often forgotten, it is the ancestral home of Osama bin Laden. Further, in 2008, the U.S. Embassy in the Yemeni capital of Sana'a was attacked twice—first by a mortar attack and the second time by highly trained terrorists using vehicle-borne improvised explosive devices, small arms, and suicide vests.

Director of National Intelligence Dennis Blair also highlighted the significance of the situation in Yemen earlier this year in testimony before the Senate Armed Services Committee. Director Blair testified that losses within al-Qaida's command structure since 2008 have been significant and that sustained pressure against al-Qaida in the Federally Administered Tribal Areas, FATA, of Pakistan may eventually force it to vacate the FATA. He stated that it is conceivable that al-Qaida could relocate to the gulf where it could exploit a weak central government and close proximity to established recruitment, fundraising, and facilitation networks.

Yemen is the type of country the Director is concerned about, and, for good reason. I would direct my colleagues to the most recent issue of Foreign Policy magazine, which ranks Yemen 18th on its failed states index, an annual index based on 12 indicators ranging from availability of public services to demographic pressures to refugee and internally displaced populations. The failed state index additionally says of Yemen: "a perfect storm of state failure is now brewing there: disappearing oil and water reserves; a mob of migrants, some allegedly with al Qaeda ties, flooding in from Somalia . . . ; and a weak government increasingly unable to keep things running."

The article goes on to suggest what many Yemen observers have been saying for years: "Yemen is the next Afghanistan: a global problem wrapped in a failed state." Report after report reaches the same conclusion about Yemen—it is a failing state with all the makings of an extremist safe haven. I believe it is critical that we monitor this situation closely; fund developmental and counterterrorism assistance for the Government of Yemen at robust levels; and urge the Obama administration to engage actively with the Yemeni Government. The consequences of inaction can be seen right across the Gulf of Aden in Somalia.

For its part, the administration has increased its focus on this threat. Earlier this year, Central Intelligence Agency, CIA, Deputy Director Stephen Kappes reportedly met with Yemeni President Ali Abdullah Saleh in Sana'a to discuss security and counterterrorism cooperation. This visit is one of many that the CIA and National Security Council officials have made in recent months, and in addition to a visit by General Petraeus shortly after taking command at U.S. Central Command.

All of these visits confirmed that the political landscape in Yemen remains fragile. Throughout his decades of rule, President Saleh has successfully balanced the various political forces in Yemen—tribes, political parties, military officials, political elites, and radical Islamists—to create a stable ruling coalition that has kept his regime intact. While in many cases this stability has been purchased via corruption and payoffs, in cases where groups and/or individuals have not been willing to join President Saleh, he has used law enforcement, military, and intelligence services to manage threats to stability. In recent years, al-Qaida has entered into the political landscape and complicated this delicate 30-year balance. President Saleh has addressed this situation by reportedly reaching understandings with al-Qaida that it would be left alone to recruit fighters if it did not attack the Yemeni Government.

In the Washington Institute for Near East Policy article I mentioned earlier,

the author makes a number of points that underscore this delicate balancing act and the role of al-Qaida in the political landscape of Yemen. The author argues that the Yemeni Government is preoccupied, and its security services overtaxed by increasingly violent calls for secession from the south, threats of renewed fighting in the north, and a faltering economy that is dependent on revenue from rapidly dwindling petroleum reserves.

Between 2002 and 2004, the Yemeni Government, largely with U.S. assistance, was able to disrupt al-Qaida-inspired terrorist activity in Yemen. However, in recent years, a new generation of militants, with either experience in Iraq and Afghanistan or time spent in the Yemeni prison system, has emerged. This new generation of militants is inclined to target the Yemeni Government itself, in addition to foreign interests in Yemen.

The start of this resurgence was a 2006 jailbreak, in which 23 convicted terrorists escaped from a prison in the capital of Sana'a. Escapees from this jailbreak formed the core of a new group, al-Qaida in the Arabian Peninsula, AQAP, which is led by a 2006 escapee whose deputy is a former Guantanamo detainee. While many Yemen observers believe that AQAP is not yet strong enough to topple President Saleh's regime, it is capable of striking high value targets; contributing to instability across Yemen; and recruiting individuals to strengthen its ranks. The ideological demands of AQAP are familiar: release militants from prison; end cooperation with the United States; renounce democracy; and implement a strict form of sharia law.

If al-Qaida operatives and their leadership in Pakistan look for a new home, Yemen will seem attractive. As in Afghanistan and Pakistan, it has large areas of naturally defensible land where President Saleh's regime has little authority; a robust tribal structure that could host relocating operatives; and a security infrastructure which lacks the capacity to defend Yemen's sovereign territory. It is also worth mentioning that these same tribes, in some cases, share the hard-line views of these relocating al-Qaida operatives and are inclined to help enlist their own family into AQAP's efforts. This reality only complicates further the work of President Saleh in balancing counterterrorism efforts and the survival of his regime.

In June 2007, al-Qaida officially announced its rebirth in Yemen with a suicide attack on a convoy of Spanish tourists. Since then, the organization has grown stronger and its attacks more frequent. In January 2008, it launched a series of attacks, culminating in the assault on the U.S. Embassy in September 2008. Earlier this year, a pair of suicide bombers targeted South Koreans, attacking first a group

of tourists in the countryside and then the officials sent to investigate. Just last month, AQAP demonstrated that it is also adopting the kidnapping for ransom tactic, which has proven profitable for other terrorist groups. And, just last month, the Associated Press reported that security was upgraded in Yemen's capital after intelligence reports warned of attacks planned against the U.S. Embassy and other potential targets. In response, the Yemeni chief of intelligence has reportedly directed an increase in security around diplomatic missions in the capital and elsewhere in the country. The culmination of these developments gives the AQAP the ability to attract relocating foreign fighters and broaden its operational reach.

The United States is by no means the only player in the country. Saudi Arabia provides the most assistance to Yemen, some of it via official channels to the government and some portions of it unofficially. A myriad of countries are involved in the Yemeni energy sector, and Russia and China are the Yemeni Government's major arms suppliers. To complicate matters further, Yemen's tribal leaders, powerful within the Yemeni political landscape, are suspicious of U.S. policy in the region. These tribal leaders are often the proxies used by President Saleh, Saudi Arabia, and others interested in influencing the government and other elites.

Over the past several fiscal years, Yemen has received on average between \$20 and \$25 million annually in total U.S. foreign aid. For fiscal year 2009, the U.S. provided over \$40 million in assistance for Yemen, an increase from its \$18 million aid package in fiscal year 2008. Between fiscal year 2006 and fiscal year 2007, Yemen also received approximately \$31.5 million from the U.S. Department of Defense's section 1206 account to train and equip Yemeni counterterrorism units. The Obama administration also recently sent to Congress a new package of 1206 funded projects, which includes \$65 million in counterterrorism assistance for various Yemeni military units. The recently passed fiscal year 2009 supplemental included \$10 million for the U.S. Agency for International Development to support U.S.-sponsored rural engagement measures, focused on civil affairs activities and civilian capacity building in the ungoverned regions of Yemen.

While these programs are important and need to be funded, Yemen observers have expressed frustration with how little "bang for the buck" the U.S. gets for its financial assistance to Yemen on counterterrorism operations. This is one area where I hope the administration will continue to press the Yemeni Government. In the past, the Yemeni Government has complained that the United States has provided

them with insufficient assistance. However, based on the most recent administration efforts, the situation has clearly changed, and it is time for President Saleh's government to be more responsive. And, just as in Pakistan, it is critical that our government make two things very clear: first, we stand ready to assist in training and equipping counterterrorism forces; and second, the threats confronting Yemen are ultimately a threat to its own existence. American security assistance will ultimately only be as effective as the Yemeni Government's will to execute an aggressive counterterrorism and counter-recruitment mission.

To date, the administration has not officially characterized Yemen as an al-Qaida safe haven, but should President Saleh prove unwilling to confront adequately the threat posed by relocating foreign fighters; the growing threat of AQAP; and the sympathy of some tribal leaders in his country to support extremist elements, the administration should consider more vigorous action. While the U.S. Embassy in Sana'a is working hard to find an amenable resolution for the transfer of the Yemeni detainees at Guantanamo, it is also working on these very complex counterterrorism efforts. I would urge my colleagues to look at the threats emanating from Yemen and to support efforts by the administration to cooperate with the Yemeni Government and other regional actors, particularly Saudi Arabia, to address the burgeoning threat in the country.

Mr. President, I ask unanimous consent to have printed in the RECORD the New York Times and Washington Institute for Near East Policy articles to which I referred.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the New York Times, June 12, 2009]
SOME IN QAEDA LEAVE PAKISTAN FOR SOMALIA
AND YEMEN

(By Eric Schmitt and David E. Sanger)

WASHINGTON.—American officials say they are seeing the first evidence that dozens of fighters with Al Qaeda, and a small handful of the terrorist group's leaders, are moving to Somalia and Yemen from their principal haven in Pakistan's tribal areas. In communications that are being watched carefully at the Pentagon, the White House and the Central Intelligence Agency, the terrorist groups in all three locations are now communicating more frequently, and apparently trying to coordinate their actions, the officials said.

Some aides to President Obama attribute the moves to pressure from intensified drone attacks against Qaeda operatives in Pakistan, after years of unsuccessful American efforts to dislodge the terrorist group from their haven there.

But there are other possible explanations. Chief among them is the growth of the jihadist campaigns in both Somalia and Yemen, which may now have some of the same appeal for militants that Iraq did after the American military invasion there in 2003.

Somalia is now a failed state that bears some resemblance to Afghanistan before the Sept. 11, 2001, attacks, while Yemen's weak government is ineffectually trying to combat the militants, American officials say.

The shift of fighters is still small, perhaps a few dozen, and there is no evidence that the top leaders—Osama bin Laden and Ayman al-Zawahri—are considering a move from their refuge in the Pakistani tribal areas, according to more than half a dozen senior administration, military and counterterrorism officials interviewed in recent days.

Most officials would not comment on the record about the details of what they are seeing, because of the sensitivity of the intelligence information they are gathering.

Leon E. Panetta, the C.I.A. director, said in remarks here on Thursday that the United States must prevent Al Qaeda from creating a new sanctuary in Yemen or Somalia.

The steady trickle of fighters from Pakistan could worsen the chaos in Somalia, where an Islamic militant group, the Shabab, has attracted hundreds of foreign jihadists in its quest to topple the weak moderate Islamist government in Mogadishu. It could also swell the ranks of a growing menace in Yemen, where militants now control large areas of the country outside the capital.

"I am very worried about growing safe havens in both Somalia and Yemen, specifically because we have seen Al Qaeda leadership, some leaders, start to flow to Yemen," Adm. Mike Mullen, the chairman of the Joint Chiefs of Staff, said in remarks at the Brookings Institution here on May 18.

For the United States, the movement creates opportunities as well as risks. With the Obama administration focusing its fight against the Taliban and Al Qaeda on the havens in Afghanistan and Pakistan, a shift of fighters and some leaders to new locations could complicate American efforts to strike a lasting blow.

But in the tribal areas of Pakistan, Qaeda and Taliban forces have drawn for protection on Pashtun tribes with whom they have deep familial and tribal ties. A move away from those areas could expose Qaeda leaders to betrayal, while communications among militants in Pakistan, Somalia and Yemen have created a new opportunity for American intelligence to zero in on insurgents who gave up many electronic communication devices shortly after the Sept. 11 attacks to avoid detection.

A senior Obama administration official attributed some of the movement to "the enormous heat we've been putting on the leadership and the mid-ranks" with Predator strikes, launched from both Pakistan and Afghanistan. Mr. Obama's strategy so far has been to intensify many of the strikes begun under the Bush administration.

"There are indications that some Al Qaeda terrorists are starting to see the tribal areas of Pakistan as a tough place to be," said an American counterterrorism official. "It is likely that a small number have left the region as a result. Among these individuals, some have probably ended up in Somalia and Yemen, among other places. The Al Qaeda terrorists who are leaving the tribal areas of Pakistan are predominantly foot soldiers."

Measuring the numbers of these movements is almost as difficult as assessing the motivations of those who are on their way out of the tribal areas.

But American officials say there is evidence of a shift. One senior American military official who follows Africa closely said

that more than 100 foreign fighters had trained in terrorism camps in Somalia alone in the past few years. Another senior military officer said that Qaeda operatives and confederates in Pakistan, Yemen and Somalia had stepped up communications with one another.

"What really has us worried is that they're communicating with each other much more—Al Qaeda in Pakistan, Somalia and Yemen," the senior military officer said. "They're asking, 'What do you need? Financing? Fighters?'"

Mr. Obama's strategy for Afghanistan and Pakistan placed the defeat of Al Qaeda as the No. 1 objective, largely to make sure that the group could not plot new attacks against the United States.

Thus, the movement of the fighters, and the disruption that causes, has been interpreted by some of the president's top advisers as a sign of success.

But the emergence of new havens, from which Al Qaeda and its affiliates could plot new attacks, raises difficult questions for the United States on how to combat the growing threat, and creates the possibility that increased missile strikes are in the offing in Yemen and Somalia.

"Those are issues that I think the international community is going to have to address because Al Qaeda is not going away," Admiral Mullen told a Senate committee on May 21.

The C.I.A. says its drone attacks in Pakistan have disrupted Al Qaeda's operations and damaged the group's senior ranks. American officials say that strikes have killed 11 of the top 20 Qaeda leaders in the past year.

"Al Qaeda has been hit by drones and it has generated a lot of insecurity among them," said Talat Masood, a retired Pakistani general and military analyst in Islamabad.

"Many among them are uneasy and it is possible that they are leaving for Somalia and other jihadi battle fronts," he said. "The hard core, however, will like to stay on."

Without singling out any countries, Adm. Eric T. Olson, the head of the Special Operations Command, spoke in general terms last week about how the increased Pakistani military operations in the Swat Valley and early indications of a new Pakistani offensive in South Waziristan had put militants on the run.

"As the Pakistanis are applying pressure," Admiral Olson told a House panel, "it will shift some of the sanctuaries to other places."

[From the Washington Institute for Near East Policy, July 14, 2009]
WANING VIGILANCE: AL-QAEDA'S RESURGENCE
IN YEMEN

(By Gregory Johnsen)

Recent reports suggesting that al-Qaeda fighters are leaving Pakistan and Afghanistan, where the group has suffered serious setbacks, have renewed international concerns that Yemen is reemerging once again as a major terrorist safe haven. Although the assessments of al-Qaeda's resurgence in Yemen are accurate, the deteriorating situation is not due to U.S. successes elsewhere; rather, it is the result of waning U.S. and Yemeni attention over the past five years. Renewed cooperation between Sana and Washington in tackling al-Qaeda and addressing Yemen's systemic problems could help reduce the terrorist organization's appeal in this troubled country.

THE APPARENT DEFEAT OF AL-QAEDA IN YEMEN

By late 2003, al-Qaeda in Yemen had been largely defeated through the close cooperation of U.S. and Yemeni security forces. This

cooperation reached its zenith in November 2002 when the CIA assassinated the head of the organization, Abu Ali al-Harithi, but the Pentagon bypassed the agreed-on cover story and leaked the operation to the press. Washington needed an early victory in the war on terror and the assassination of an al-Qaeda leader was too good to go unacknowledged.

Yemen, however, believed it was sold out to U.S. domestic concerns. Yemeni president Ali Abdullah Salih paid a high price for allowing the United States to carry out the attack—something al-Qaeda still uses to great propaganda effect—and it took more than a year for the government to publicly admit that it had authorized Washington to act.

In November 2003, the United States was still paying for this mistake when Yemen arrested al-Harithi's replacement, Muhammad Hamdi al-Ahdal, on the streets of Sana. Instead of being granted direct access to al-Ahdal, U.S. officials were forced to work through Yemeni intermediaries; however, with its leadership dead or in jail, its infrastructure largely destroyed, and its militants more attracted to the insurgency in Iraq than jihad at home, al-Qaeda in Yemen appeared largely defeated.

AL-QAEDA REBUILDS

The United States and Yemen both treated this victory as absolute, failing to realize that a defeated enemy is not necessarily a vanquished one. In effect, al-Qaeda was crossed off both countries' list of priorities and replaced by other, seemingly more pressing, concerns. For Washington, democratic reforms and anticorruption campaigns dominated the bilateral agenda as part of the Bush administration's desire to mold a new Middle East. For Yemen, attention was increasingly diverted by a five-year-old sectarian civil war in the north and more recently by threats of secession from the south. Over the next two years of relative calm, the threat from al-Qaeda, while not necessarily forgotten, was certainly ignored. Tourism flourished, and the U.S. State Department initiated a Yemen study-abroad program.

Even the prison break of twenty-three al-Qaeda suspects in early 2006, which U.S. officials privately blamed on Yemeni government collaboration, was treated more like an aberration than the opening volley of a new battle. Among the escapees were Qasim al-Raymi and Nasir al-Wahayshi, a former secretary to Osama bin Laden and a veteran of the fighting at Tora Bora. The nearly two and a half years of government neglect had created a great deal of space for the two men to reorganize and rebuild al-Qaeda in Yemen.

The involvement of al-Raymi and al-Wahayshi, along with numerous other Yemenis from across the country, illustrates one of the more worrying facts about al-Qaeda's current incarnation: it is the most representative organization in the country. Al-Qaeda in Yemen transcends class, tribe, and regional identity in a way that no other Yemeni group or political party can match. Al-Wahayshi and others within the organization have proven particularly talented at articulating a narrative designed to appeal to a local audience, using everything from Palestine to the plight of Sheikh al-Muayad—a Yemeni cleric who ran a popular charity and is currently in a U.S. prison for providing funds to terrorists—to increase their rhetorical appeal to young Yemenis. Both the U.S. and Yemeni governments have been incapable of countering this approach and have effectively ceded the field to al-Qaeda.

In June 2007, al-Qaeda officially announced its presence in the country with al-Wahayshi

as its commander. It underscored its intentions within days by a suicide attack on a convoy of Spanish tourists. Since then, the organization has grown stronger. In January 2008, it released the first issue of its bi-monthly journal, *Sada al-Malahim* ("The Echo of Battles"), and that same month it launched a series of attacks, culminating in the assault on the U.S. embassy in September 2008. Earlier this year, a pair of suicide bombers targeted South Koreans, attacking first a group of tourists and then the officials sent to investigate.

Al-Qaeda has also capitalized on its recent successes, attracting recruits from both Yemen and Saudi Arabia. In January, two former Guantanamo Bay detainees joined the group as commanders, spearheading the merger of local branches in Saudi Arabia and Yemen into a single regional franchise. One of the leaders, Muhammad al-Awfi, has since turned himself in to Saudi authorities, but this gesture appears to be prompted more from a desire to protect his family than from a change of heart.

This new regional organization, which calls itself al-Qaeda in the Arabian Peninsula, is indicative of al-Wahayshi's growing ambition. Throughout the first two years of his leadership, he worked hard to create a durable infrastructure that could survive the loss of key commanders. His success in this regard is demonstrated by the fact that even though the organization lost a particularly skilled local commander, Hamza al-Qayti, in a shootout with Yemeni security forces in August 2008, it was still able to launch an attack on the U.S. embassy just one month later. Al-Wahayshi is now looking to use the undergoverned regions of Yemen as a staging ground for attacks not only in Yemen but also throughout the Arabian peninsula and the Horn of Africa.

LESSONS LEARNED

Al-Qaeda's resurgence in Yemen does not stem from displacement of U.S. successes elsewhere. Rather, the United States and its allies need to understand that defeating one generation of al-Qaeda does not eliminate the threat completely. In conjunction with Yemen and Gulf Cooperation Council allies, Washington must develop a two-track strategy to eliminate al-Qaeda in Yemen. In the short term, the United States must discreetly partner with Yemen and Saudi Arabia once again and target al-Qaeda's leadership and infrastructure. Although successfully doing so will be much harder the second time around, it can be accomplished with careful and coordinated strikes.

The long-term approach, however, is both more important and more difficult to implement. The current incarnation of al-Qaeda in Yemen has more recruits—and younger recruits—than ever, due to al-Wahayshi's powerful propaganda as well as the lack of opportunity and an incipient breakdown in traditional social authorities. Furthermore, Yemen is preoccupied, and its security services overtaxed with the increasingly violent calls for secession from the south, threats of renewed fighting in the north, and, most importantly, a faltering economy that makes traditional modes of patronage-style governance nearly impossible. The United States and Yemen are also facing an al-Qaeda group that is now more accepted as a legitimate organization. Killing or arresting al-Qaeda leaders in Yemen and dismantling its infrastructure will be an important step forward, but will unlikely eliminate the problem in the long term. Tackling the underlying issues, although very difficult, will be key to ensuring that al-Qaeda does not reemerge in Yemen once again.

COMMENDING SENATOR NORM COLEMAN

Mr. ENZI. Mr. President, I appreciate having this opportunity to join my colleagues in expressing our great appreciation of the many contributions Norm Coleman has made to the work of the Senate and the future of our country during his service here. He is quite a remarkable individual, and I know I am going to miss seeing him on the Senate floor and working with him on issues of concern to the people of Minnesota and my constituents in Wyoming.

Ever since Norm's political career began, it was clear he had a mind of his own and, like the old adage about baseball umpires, he was going to call them as he saw them. That meant taking each issue as it came, carefully studying what was proposed and its consequences, and then making up his own mind on how he thought he should vote.

His independent streak and his determination to be true to his principles, his commitment to the people of Minnesota, and his internal compass transcended party politics and kept both sides guessing as to how he would vote on any given issue.

I remember the first time I met him, shortly after his election to the Senate. It turned out we had some things in common. For starters, early on in our political careers, Norm and I both served as mayors, so we had an appreciation for the demands that are made upon local officials.

Norm was elected mayor of St. Paul. I was elected mayor in my hometown of Gillette, WY. We both had some tough challenges to deal with as our communities felt the aches and pains of growth and we were fortunate enough to put together a good team who helped us to deal with the needs of the people who were counting on us to solve some pretty vexing problems.

Looking back, Norm was able to compile quite a record and he became a very popular mayor. His administration promoted policies that helped to spur an increase in the number of jobs in the St. Paul area. He also helped to oversee a downtown revitalization that came at a time when many other similar areas across the country were downsizing and becoming a shadow of their former selves. He also managed to help engineer the return of professional hockey to Minnesota. The presence of the Minnesota Wild soon became a source of great pride to the people of his State. He was able to do all of that and so much more without increasing property taxes. That was the result of careful planning, and it understandably earned him the respect and admiration of his constituents.

Then, with a key election approaching, Norm was giving some thought to his political future. There were a lot of rumors as to his next run for office, but

the people of Minnesota made it clear that they wanted him to run for the Senate, so Norm began what was to become a very difficult and emotionally charged race. When it was all over, Norm Coleman had defeated a Minnesota political icon and was sworn in to represent the people of his home State in the Senate.

Ever since that day, Norm has been working to serve the people of Minnesota and do whatever was in their best interests. Always focused on getting results, he supported the President when he agreed with him, and he never hesitated to speak up when he felt there was another way to get things done that ought to be taken up as part of the mix.

Of all his accomplishments during his service here in the Senate, there are two that I will always remember. The first was a factfinding mission we took along with several of our colleagues to Africa to determine what we could do as a nation to help combat the AIDS epidemic there. For both of us our visit turned out to be a great cultural shock. There were barriers of all kinds we had to deal with—language, customs, and technology. All of the things we take for granted here are virtually nonexistent there. The lack of any regular distribution of the written word, like a community newspaper, makes getting the most basic of information to the people an incredible challenge.

When we returned to the United States we joined with our colleagues on both sides of the aisle to develop a program that has been producing tremendous results for the past few years. The great strides that have been made have not eliminated the disease, but they have greatly increased the quality of life there. Our efforts have also helped to make people more aware of what they can do to ensure they don't get AIDS, or if they are already infected, what they must do to avoid transmitting the disease to anyone else.

We both learned from that experience the truth of the old adage—you may not be able to save the whole world, but you can always make a good effort to save part of it, and the results we have achieved in Africa and the lives we have saved will be part of Norm Coleman's legacy of service in the Senate.

Another part of the change he brought that will be felt for many years to come is the leadership he showed as the chairman of the Homeland Security and Governmental Affairs Permanent Subcommittee on Investigations. In 2006, Norm led the effort to determine how safe and secure our Nation's ports were. The results of his investigations were unsettling and soon became the subject of headlines across the country.

Norm wasn't looking for headlines, however. He was looking to craft a workable solution to the problem, and

he did when the Senate approved a program that authorized the use of pilot technology to screen incoming cargo containers for their contents. As a result of his efforts, people all across the country will be better protected from those who might wish to do us harm. Thanks to Norm, that once open door has now been closed.

Norm will not be a part of this current Congress, but his impact will continue to be felt for some time to come. He was a tireless worker for Minnesota, and although I don't know what the future holds for him, I have every confidence that we haven't heard the last of Norm Coleman. He has been and will always be an individual of vision and action. That is a combination that can't help but produce results, and I am certain he will continue to set new goals in his life and achieve them—one after the other. Good luck, my friend, and keep in touch. We will always be interested to hear from you and to benefit from your take on our work in the Congress to make Minnesota and the rest of the Nation a better place for us all to live.

25TH ANNIVERSARY OF CAMP RAINBOW GOLD

Mr. RISCH. Mr. President, I rise today to recognize a program in my home State of Idaho that provides an outstanding service to many who are greatly challenged in a battle for life. Twenty-five years ago this summer, Dr. David McClusky planted the seeds of a dream he had nurtured for many years: opening a camp for kids with cancer in the mountains of Idaho.

Armed with a grant, a group of committed volunteers and the support of the American Cancer Society, 15 campers with cancer kicked off the first of 25 years of very special summers. This new retreat was called Camp Rainbow Gold.

The camp provided an opportunity for these kids to swim, ride horses, fish, hike, paint, bike, eat and laugh. They developed deep bonds with one another as they fought a disease that knows no bounds in the lives it ravages. This one week allowed them an opportunity to escape from the daily emotional and physical battle with an insidious disease.

Today, Camp Rainbow Gold continues to provide that week-long respite from the ever-present cancer fight and allows these kids to enjoy a beautiful setting with others just like them.

This very week 85 children are in the mountains of Idaho at Camp Rainbow Gold. With an army of volunteers, Dr. McClusky is watching his dream flourish. The kids still attend free of charge. A full medical staff and a licensed social worker volunteer their time to provide medical and emotional support to the children.

As the camp grew, so did the vision to meet not only the needs of the kids with cancer, but their siblings and parents as well. Dr. McClusky's original vision has grown into two more camps: one for siblings and one for families. These camps provide a much-needed break from the demands of the intensive care required for a child with cancer.

Throughout the year, special outings are held to strengthen the bonds of friendships developed at camp and to continue the emotional support among families. In addition, a junior counselor program has been created to allow former campers who have turned 18 to continue their participation at Camp Rainbow Gold. They now offer their support and encouragement to kids who are in the same fight they, too, have fought. Campers and junior counselors are also eligible for college scholarships to help them fulfill their dreams.

It is, indeed, an honor for me to give recognition to Dr. David McClusky for his vision and many years of work in creating and sustaining Camp Rainbow Gold. I extend this recognition to the more than 200 volunteers from around Idaho who support the Camp Rainbow Gold programs; to the American Cancer Society for their backing and administrative support; and to the thousands of Idahoans and many others who provide the funds to make all of this a reality.

Congratulations, Camp Rainbow Gold, on this 25th anniversary.

CONGRESSMAN JOHN MCHUGH

Mrs. GILLIBRAND. Mr. President, I've been proud to serve alongside Congressman JOHN MCHUGH as a fellow Representative from New York and as a colleague on the Armed Services Committee.

Congressman MCHUGH's long experience as a member of the Armed Services Committee has made him uniquely qualified to serve in the post we have just confirmed him to. As a member of that panel, he always fought to provide for the well-being and safety of our troops and to ensure their fundamental mission of keeping America safe.

He also held the distinct honor, which I now share, of representing Fort Drum—one of our Nation's proudest, bravest Army posts. These men and women deserve the very best from their representatives, and Congressman MCHUGH did not fail them. I am confident he will bring that same leadership and determination to benefit all Army families across the country.

As we work to chart a new direction in Iraq and Afghanistan, I am proud to support Congressman MCHUGH's nomination for the Army's top civilian post. I congratulate Congressman MCHUGH and his family, and I look forward to continue working with him to keep America and New York families safe.

ADDITIONAL STATEMENTS

CAMP AGAWAM'S 90TH
ANNIVERSARY

• Ms. COLLINS. Mr. President, today I wish to recognize Camp Agawam boys' summer camp in Raymond, ME, which is celebrating its 90th year on August 14, 2009. Agawam has an exceptional history as one of the Nation's oldest summer camps.

Founded in 1919, Agawam was owned and operated continuously by the Mason family until 1985. Throughout its history, Camp Agawam has provided a unique and exciting summer camp program for boys from Maine and from across the country. The talented staff and counselors at Agawam continue to carry on the Mason family's vision of providing a safe, positive environment for boys to make lifelong friends and foster skills through outdoor recreation and activities.

Agawam has made significant contributions to youth in Maine's local communities. Strongly supported by camp alumni and parents, the camp's Maine Idea program highlights the impressive commitment by Agawam to provide free campership opportunities to Maine boys. This is truly a meaningful investment in Maine's most precious resource—our children.

I congratulate and commend Agawam's talented staff, counselors, council members, camp alumni, parents, and campers on a remarkable 90 years.●

98TH BIRTHDAY OF KAPPA ALPHA
PSI

• Ms. LANDRIEU. Mr. President, this year we are celebrating the 98th birthday of Kappa Alpha Psi Fraternity Incorporated. This week, thousands of members and guests from all over the world have come to Washington, DC, to participate in a week-long program of forums and seminars with a focus on leadership, brotherhood and service, known as the 79th Grand Chapter Meeting. The theme of this week's celebration is "A Call to Service: The Journey Home Continues."

The week's events commenced with a public meeting where members from the nine African-American Greek fraternities and sororities will gather in the spirit of unity. In addition, during this gathering, I was honored that Kappa Alpha Psi bestowed upon me their prestigious Humanitarian Award. This particular award is the highest honor awarded to an individual that is not a member of the organization. I am excited to be joining the ranks of previous honorees including: Congresswoman MAXINE WATERS; Mrs. Lyndon Baines "Lady Bird" Johnson; Mr. Harry Belafonte; Mrs. Rosa Parks; and Drs. Bill and Camille Cosby, just to name a few.

I also would like to take this opportunity to commend Attorney Dwayne

Murray. Dwayne currently serves as the 31st Grand Polemarch of Kappa Alpha Psi Fraternity, Incorporated, and is a resident of the great State of Louisiana. Under Dwayne's extraordinary leadership, the organization has initiated several community service projects, including "Sunday of Hope." Through this effort, Kappa Alpha Psi has raised well over \$500,000 for St. Jude Children's Research Hospital during the past 2 years. In addition, Dwayne has also spearheaded the "Greeks Learning to Avoid Debt"—GLAD—Program throughout the Nation. This program will ensure that college students receive the necessary training to use credit wisely and remain financially stable through college and beyond. His administration is committed to the theme of "One Kappa, Creating Inspiration: A Call to Service".

Kappa Alpha Psi was founded on January 5, 1911, on the campus of Indiana University in Bloomington, IN. Led by the vision of Elder Watson Diggs, it was founded by 10 God-fearing, serious-minded young men who possessed the imagination, ambition, courage, and determination to defy custom in pursuit of college educations and careers during an oppressive time in American history for African Americans.

Now, the membership has grown to more than 360 undergraduate chapters and 347 alumni chapters located throughout the United States and five foreign countries. Today, the fraternity boasts a membership of more than 150,000 college-trained young men. Among the famous Kappas are Wilt Chamberlain, Adrian Fenty, Cedric "The Entertainer" Kyles, and Tavis Smiley; and Members of the House of Representatives include SANFORD BISHOP of Georgia, WILLIAM CLAY of Missouri, JOHN CONYERS of Michigan, ALCEE HASTINGS of Florida and BENNIE THOMPSON of Mississippi. Additionally, there are many more prominent and influential men across America that represent the Kappa Alpha Psi brotherhood. Furthermore, both current and former members of my staff are proud to be members of this noble and prestigious fraternity: my former legislative director Ben Cannon, former regional manager Terrence Lockett, and my current capital regional manager Jason Wynne Hughes.

Kappa Alpha Psi has been an instrumental group in raising the profile of African-American men and has worked tirelessly to knock down barriers to advancement in our society. The brotherhood has consistently encouraged achievement in every field of human endeavor.

Members remain active for their whole lives and are encouraged to contribute to their communities. Each chapter has its own community service focus. The Baton Rouge Alumni Chapter, for example, raises money through

its annual Walter Banks Golf Classic for scholarships for high school seniors and also sponsors several kids to attend Kappa Kamp—a rigorous leadership institute for elementary and middle school aged young men. Chapters all over Louisiana are similarly committed to their communities.

In the aftermath of Hurricanes Katrina and Rita in 2005, Kappas from all over the country came to the aid of hurricane survivors along the gulf coast and helped with our recovery effort.

It is with great pride that we welcome all members of Kappa Alpha Psi to our Nation's Capital as they kick off the countdown to their centennial celebration in 2011.●

REMEMBERING JOEL PIERCE
SMITH, SR.

• Mr. SHELBY. Mr. President, today I wish to pay tribute to my good friend Joel Pierce Smith, Sr. He was a personal friend who passed away on July 30, 2009, and, along with his family, I mourn his passing.

Joel was born on February 13, 1929, in Samson, AL. After graduating from Florida State University, he went to work at the Birmingham News-Post Herald in 1953. This would mark the start of a newspaper career that would span five decades. Following his work in Birmingham, Joel served as the editor of the the Geneva Reaper for 3 years.

In 1958, Joel moved to Eufaula, AL, and was named editor of the Eufaula Tribune. A year later, he was named publisher. An avid journalist, Joel also edited and published the Cuthbert Times and News Record of Cuthbert, GA. In 1999, Joel handed over the editorial reins of the Eufaula Tribune to his son Jack, though he continued to write his weekly personal column, Candid Comments, until 2006. All told, Joel wrote Candid Comments for 51 years, never missing a week. He truly was an extraordinary newspaperman and, as such, garnered numerous state and national awards. These awards recognized both the quality of his work and his leadership in his community and amongst his peers. Among his honors were the Alabama Press Association's Community Service Award, General Excellence Award, and the Lifetime Achievement Award.

Joel was active in both the Alabama Press Association and the National Newspaper Association throughout his career. He served as president for both the Alabama Press Association and the Alabama Journalism Foundation and he held a seat on the board of directors for the Alabama Press Association and the Georgia Press Association. Additionally, Joel served as the Alabama State Chairman of the National Newspaper Association for many years, chairing the latter's 1992 Governmental Affairs Conference in Washington, DC.

Throughout his distinguished career, Joel remained an active voice for progressive change in Eufaula. Among other things, he encouraged the reorganization of the Chamber of Commerce, promoted tourism in the area, and crusaded for the preservation of Eufaula's architectural heritage. He served on the board of trustees at Birmingham-Southern College for more than 25 years, where he became life trustee, and at Andrew College in Cuthbert, GA. Joel served on the Board of Education of the city of Eufaula and as a trustee at the Lakeside School. His good work was not overlooked in the community and he was honored as the Eufaula Kiwanis Club's Citizen of the Year in 2002 and received the Alabama Historical Commission's Distinguished Service Award.

Joel is loved and will be missed by his wife Ann Sutton Smith and his three sons, Joel Pierce Smith, Jr., Abb Jackson Smith II, and William Sutton Smith. Joel was an inspiration to many and will be remembered as an outstanding husband, father, editor, publisher, friend, and community leader.

I ask the entire Senate to join me in recognizing and honoring the life of my friend, Joel Pierce Smith.●

RECOGNIZING CARLISA BAYNE

● Mr. THUNE. Mr. President, today I recognize Carlisa Bayne, an intern in my Rapid City, SD, office, for all of the hard work she has done for me, my staff, and the State of South Dakota over the past several months.

Carly is a graduate of Spearfish High School in Spearfish, SD. Currently she is attending the University of Nebraska, where she is majoring in agricultural economics. She is a hard worker who has been dedicated to getting the most out of her internship experience.

I would like to extend my sincere thanks and appreciation to Carly for all of the fine work she has done and wish her continued success in the years to come.●

RECOGNIZING SARAH JOSEPHINE EVEN

● Mr. THUNE. Mr. President, today I recognize Sarah Josephine Even, an intern in my Washington, DC, office, for all of the hard work she has done for me, my staff, and the State of South Dakota over the past several weeks.

Sarah is a graduate of T.F. Riggs High School in Pierre, SD. Currently she is attending South Dakota State University, where she is majoring in journalism and mass communication. She is a hard worker who has been dedicated to getting the most out of her internship experience.

I would like to extend my sincere thanks and appreciation to Sarah for

all of the fine work she has done and wish her continued success in the years to come.●

RECOGNIZING LAUREN HAUCK

● Mr. THUNE. Mr. President, today I recognize Lauren Hauck, an intern in my Sioux Falls, SD, office, for all of the hard work she has done for me, my staff, and the State of South Dakota over the past several months.

Lauren is a graduate of Lincoln High School in Sioux Falls. Currently she is attending the University of South Dakota. She is a hard worker who has been dedicated to getting the most out of her internship experience.

I would like to extend my sincere thanks and appreciation to Lauren for all of the fine work she has done and wish her continued success in the years to come.●

RECOGNIZING ZACH MULDER

● Mr. THUNE. Mr. President, today I recognize Zach Mulder, an intern in my Sioux Falls, SD, office, for all of the hard work he has done for me, my staff, and the State of South Dakota over the past several months.

Zach is a graduate of Western Christian High School in Hull, IA. Currently he is attending Dordt College, where he is majoring in political studies. He is a hard worker who has been dedicated to getting the most out of his internship experience.

I would like to extend my sincere thanks and appreciation to Zach for all of the fine work he has done and wish him continued success in the years to come.●

RECOGNIZING ALEXANDER NELSON

● Mr. THUNE. Mr. President, today I recognize Alexander Nelson, an intern in my Rapid City, SD, office, for all of the hard work he has done for me, my staff, and the State of South Dakota over the past several weeks.

Alex is a graduate of Fergus Falls Senior High School in Fergus Falls, MN. Currently he is attending the University of Arizona, where he is majoring in business economics. He is a hard worker who has been dedicated to getting the most out of his internship experience.

I would like to extend my sincere thanks and appreciation to Alex for all of the fine work he has done and wish him continued success in the years to come.●

RECOGNIZING NOLAN THOMAS SCHROEDER

● Mr. THUNE. Mr. President, today I recognize Nolan Thomas Schroeder, an intern in my Washington, DC, office,

for all of the hard work he has done for me, my staff, and the State of South Dakota over the past several weeks.

Nolan is a graduate of Hot Springs High School in Hot Springs, SD. Currently he is attending the University of Wyoming, where he is majoring in political science and business marketing. He is a hard worker who has been dedicated to getting the most out of his internship experience.

I would like to extend my sincere thanks and appreciation to Nolan for all of the fine work he has done and wish him continued success in the years to come.●

RECOGNIZING SAMUEL STROMMEN

● Mr. THUNE. Mr. President, today I recognize Samuel Strommen, an intern in my Rapid City, SD, office, for all of the hard work he has done for me, my staff, and the State of South Dakota over the past several weeks.

Sam is a graduate of Stevens High School in Rapid City, SD. Currently he is attending the University of Arizona, where he is majoring in political science. He is a hard worker who has been dedicated to getting the most out of his internship experience.

I would like to extend my sincere thanks and appreciation to Sam for all of the fine work he has done and wish him continued success in the years to come.●

RECOGNIZING ANDREW JONATHAN TIMM

● Mr. THUNE. Mr. President, today I recognize Andrew Jonathan Timm, an intern in my Washington, DC, office, for all of the hard work he has done for me, my staff, and the State of South Dakota over the past several weeks.

Andrew is a graduate of Watertown High School in Watertown, SD. Currently he is attending the University of Minnesota, where he is majoring in political science and economics. He is a hard worker who has been dedicated to getting the most out of his internship experience.

I would like to extend my sincere thanks and appreciation to Andrew for all of the fine work he has done and wish him continued success in the years to come.●

RECOGNIZING DANIELLE MARIE ANDERSON

● Mr. THUNE. Mr. President, today I recognize Danielle Marie Anderson, an intern in my Washington, DC, office, for all of the hard work she has done for me, my staff, and the State of South Dakota over the past several weeks.

Danielle is a graduate of Plankinton High School in Plankinton, SD. Currently she is attending South Dakota

State University, where she is majoring in business economics. She is a hard worker who has been dedicated to getting the most out of her internship experience.

I would like to extend my sincere thanks and appreciation to Danielle for all of the fine work she has done and wish her continued success in the years to come.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

In executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MEASURES DISCHARGED

The following bill was discharged from the Committee on Banking, Housing, and Urban Affairs, and referred as indicated:

S. 1547. A bill to amend title 38, United States Code, and the United States Housing Act of 1937 to enhance and expand the assistance provided by the Department of Veterans Affairs and the Department of Housing and Urban Development to homeless veterans and veterans at risk of homelessness, and for other purposes; to the Committee on Veterans' Affairs.

MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

S. 1572. A bill to provide for a point of order against any legislation that eliminates or reduces the ability of Americans to keep their health plan or their choice of doctor or that decreases the number of Americans enrolled in private health insurance, while increasing the number of Americans enrolled in government-managed health care.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-2603. A communication from the Acting Farm Bill Coordinator, Commodity Credit Corporation, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Wetlands Reserve Program" (RIN0578-AA47) received in the Office of the President of the Senate on July 31, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2604. A communication from the Acting Farm Bill Coordinator, Commodity Credit Corporation, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Environmental Quality Incentives Program" (RIN0578-AA45) received in the Office of the President of the Senate on July 31, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2605. A communication from the Acting Farm Bill Coordinator, Commodity Credit Corporation, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Conservation Stewardship Program" (RIN0578-AA43) received in the Office of the President of the Senate on July 31, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2606. A communication from the Acting General Counsel of the Department of Agriculture, transmitting, pursuant to law, (23) reports relative to vacancy announcements, nominations, actions on nominations, or confirmations within the Department of Agriculture; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2607. A communication from the Regulations Coordinator, Centers for Medicare and Medicaid Services, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Medicare Program; Changes to the Hospital Inpatient Prospective Payment Systems for Acute Care Hospitals and Fiscal Year 2010 Rates (CMS-1406-FC/IFC; CMS-1393-F; CMS-137-F)" (RIN0938-AP33) received in the Office of the President of the Senate on August 3, 2009; to the Committee on Finance.

EC-2608. A communication from the Regulations Coordinator, Centers for Medicare and Medicaid Services, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Medicare Program; Prospective Payment System and Consolidated Billing for Skilled Nursing Facilities for Fiscal Year 2010; Minimum Data Set, Version 3.0 for Skilled Nursing Facilities and Medicaid Nursing Facilities (CMS-1410-F)" (RIN0938-AP46) received in the Office of the President of the Senate on August 3, 2009; to the Committee on Finance.

EC-2609. A communication from the Regulations Coordinator, Centers for Medicare and Medicaid Services, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Medicare Program; Inpatient Rehabilitation Facility Prospective Payment System for Federal Fiscal Year 2010 (CMS-1538-F)" (RIN0938-AP56) received in the Office of the President of the Senate on August 3, 2009; to the Committee on Finance.

EC-2610. A communication from the Regulations Coordinator, Centers for Medicare and Medicaid Services, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Medicare Program; Hospice Wage Index for Fiscal Year 2010 (CMS-1420-F)" (RIN0938-AP45) received in the Office of the President of the Senate on July 30, 2009; to the Committee on Finance.

EC-2611. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Treatment of Services Under Section 482, Allocation of Income and Deductions from Intangible Property, Stewardship Expense" (TD 9456) received in the Office of the President of the Senate on August 3, 2009; to the Committee on Finance.

EC-2612. A communication from the Chief of the Publications and Regulations Branch,

Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Coordinated Issue: Leveraged Oil and Gas Drilling Partnerships" ((LMSB-4-0709-030) (Uniform List No. 263.02-01)) received in the Office of the President of the Senate on August 3, 2009; to the Committee on Finance.

EC-2613. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Coordinated Issue: The Applicable Recovery Period under IRC Section 168(a) for Open-Air Parking Structures" ((LMSB-4-0709-029) (Uniform List No. 168.18-00)) received in the Office of the President of the Senate on August 3, 2009; to the Committee on Finance.

EC-2614. A communication from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting, pursuant to the Case-Zablocki Act, 1 U.S.C. 112b, as amended, the report of the texts and background statements of international agreements, other than treaties (List 2009-0090-2009-0095); to the Committee on Foreign Relations.

EC-2615. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed amendment to expand the sales territory associated with a manufacturing license agreement for the manufacture of T-50 Military Trainer Aircraft in the Republic of Korea; to the Committee on Foreign Relations.

EC-2616. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed technical assistance agreement for the export of defense articles and defense services for the design and development of the command and control system as part of the Canadian Halifax Class Modernization Program for Canada in the amount of \$50,000,000 or more; to the Committee on Foreign Relations.

EC-2617. A communication from the Secretary, Bureau of Enforcement, Federal Maritime Commission, transmitting, pursuant to law, the report of a rule entitled "Inflation Adjustment of Civil Monetary Penalties" received in the Office of the President of the Senate on July 31, 2009; to the Committee on Commerce, Science, and Transportation.

EC-2618. A communication from the Acting Associate Managing Director-Performance Evaluation and Records Management, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Assessment and Collection of Regulatory Fees for Fiscal Year 2008" ((FCC 09-21) (MD Docket No. 08-65)) received on September 30, 2008; to the Committee on Commerce, Science, and Transportation.

EC-2619. A communication from the Under Secretary of Defense (Acquisition, Technology and Logistics), transmitting, pursuant to law, an annual report relative to the conduct of the Defense Acquisition Challenge Program for fiscal year 2008; to the Committee on Armed Services.

EC-2620. A communication from the Assistant Secretary of the Navy (Installations and Environment), transmitting, pursuant to law, notification of a GAO protest of the department's decision to convert to contract the bulk fuel storage and distribution functions at Marine Corps Air Station Miramar, the sustainment of the protest, and the department's corrective action based on the GAO decision; to the Committee on Armed Services.

EC-2621. A communication from the Under Secretary of Defense (Acquisition, Technology and Logistics), transmitting, pursuant to law, the Defense Environmental Programs report for fiscal year 2008; to the Committee on Armed Services.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mrs. MURRAY, from the Committee on Appropriations, with an amendment in the nature of a substitute:

H.R. 3288. A bill making appropriations for the Departments of Transportation, and Housing and Urban Development, and related agencies for the fiscal year ending September 30, 2010, and for other purposes (Rept. No. 111-69).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mr. ROCKEFELLER for the Committee on Commerce, Science, and Transportation.

*Susan L. Kurland, of Illinois, to be an Assistant Secretary of Transportation.

*Christopher P. Bertram, of the District of Columbia, to be an Assistant Secretary of Transportation.

*Dennis F. Hightower, of the District of Columbia, to be Deputy Secretary of Commerce.

*Christopher A. Hart, of Colorado, to be a Member of the National Transportation Safety Board for a term expiring December 31, 2012.

*Patricia D. Cahill, of Missouri, to be a Member of the Board of Directors of the Corporation for Public Broadcasting for a term expiring January 31, 2014.

*Daniel R. Elliott, III, of Ohio, to be a Member of the Surface Transportation Board for a term expiring December 31, 2013.

*Robert S. Adler, of North Carolina, to be a Commissioner of the Consumer Product Safety Commission for a term of seven years from October 27, 2007.

*Anne M. Northup, of Kentucky, to be a Commissioner of the Consumer Product Safety Commission for a term of seven years from October 27, 2004.

Mr. ROCKEFELLER. Mr. President, for the Committee on Commerce, Science, and Transportation I report favorably the following nomination list which was printed in the RECORD on the date indicated, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar that this nomination lie at the Secretary's desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

*National Oceanic and Atmospheric Administration nominations beginning with Denise J. Gruccio and ending with Sara A. Slaughter, which nominations were received by the Senate and appeared in the Congressional Record on July 31, 2009.

*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mrs. GILLIBRAND:

S. 1577. A bill to provide the Secretary of Health and Human Services and the Secretary of Education with increased authority with respect to asthma programs, and to provide for increased funding for such programs; to the Committee on Health, Education, Labor, and Pensions.

By Mr. LEAHY:

S. 1578. A bill to amend chapter 171 of title 28, United States Code, (commonly referred to as the Federal Torts Claim Act) to extend medical malpractice coverage to free clinics and the officers, governing board members, employees, and contractors of free clinics in the same manner and extent as certain Federal officers and employees; to the Committee on the Judiciary.

By Mr. REID (for Mr. BYRD):

S. 1579. A bill to amend the Wild Free-Roaming Horses and Burros Act to improve the management and long-term health of wild free-roaming horses and burros, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. REID (for Mr. KENNEDY (for himself, Mrs. MURRAY, Mr. DODD, Mr. HARKIN, Mr. BINGAMAN, Mr. SANDERS, Mr. BROWN, Mr. CASEY, Mr. MERKLEY, Mr. FRANKEN, Mr. LEAHY, Mr. AKAKA, Mrs. BOXER, Mr. FEINGOLD, Mr. DURBIN, Mr. SCHUMER, Ms. STABENOW, Mr. LAUTENBERG, Mr. MENENDEZ, and Mr. WHITEHOUSE)):

S. 1580. A bill to amend the Occupational Safety and Health Act of 1970 to expand coverage under the Act, to increase protections for whistleblowers, to increase penalties for certain violators, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. CRAPO (for himself and Mrs. LINCOLN):

S. 1581. A bill to improve the amendments made by the No Child Left Behind Act of 2001; to the Committee on Health, Education, Labor, and Pensions.

By Ms. STABENOW (for herself, Mr. VOINOVICH, and Mr. VITTER):

S. 1582. A bill to amend the Internal Revenue Code of 1986 to provide a credit against income tax to facilitate the accelerated development and deployment of advanced safety systems for commercial motor vehicles; to the Committee on Finance.

By Mr. ROCKEFELLER (for himself and Ms. SNOWE):

S. 1583. A bill to amend the Internal Revenue Code of 1986 to extend the new markets tax credit through 2014, and for other purposes; to the Committee on Finance.

By Mr. MERKLEY (for himself, Ms. COLLINS, Mr. KENNEDY, Ms. SNOWE, Mr. AKAKA, Mr. BINGAMAN, Mrs. BOXER, Mr. BROWN, Mr. BURRIS, Ms. CANTWELL, Mr. CARDIN, Mr. CASEY, Mr. DODD, Mr. DURBIN, Mr. FEINGOLD, Mrs. FEINSTEIN, Mr. FRANKEN, Mrs. GILLIBRAND, Mr. HARKIN, Mr. INOUE, Mr. KERRY, Ms. KLOBUCHAR, Mr. KOHL, Mr. LAUTENBERG, Mr. LEAHY, Mr. LEVIN, Mr. LIEBERMAN, Mr. MENENDEZ, Ms. MIKULSKI, Mrs. MURRAY, Mr. REED, Mr. SANDERS, Mr. SCHUMER, Mrs. SHAHEEN, Mr. SPECTER, Mr. UDALL of Colorado, Mr. UDALL of New Mexico, Mr. WHITEHOUSE, and Mr. WYDEN):

S. 1584. A bill to prohibit employment discrimination on the basis of sexual orientation or gender identity; to the Committee on Health, Education, Labor, and Pensions.

By Mr. DURBIN:

S. 1585. A bill to permit pass-through payment for reasonable costs of certified registered nurse anesthetist services in critical access hospitals notwithstanding the reclassification of such hospitals as urban hospitals, including hospitals located in "Lugar counties", and for on-call and standby costs for such services; to the Committee on Finance.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. KOHL (for himself and Mr. HATCH):

S. Res. 241. A resolution designating the period beginning on September 13, 2009, and ending on September 19, 2009, as "National Polycystic Kidney Disease Awareness Week", and supporting the goals and ideals of a National Polycystic Kidney Disease Awareness Week to raise public awareness and understanding of polycystic kidney disease and the impact polycystic kidney disease has on patients and future generations of their families; to the Committee on the Judiciary.

By Mr. VOINOVICH (for himself and Mr. NELSON of Florida):

S. Res. 242. A resolution supporting the goals and ideals of "National Aerospace Day"; to the Committee on Commerce, Science, and Transportation.

By Mr. VITTER:

S. Res. 243. A resolution expressing the sense of the Senate that, upon the establishment of, or enactment of legislation creating, a public health care plan, Members of Congress shall lose access to the Federal Employees Health Benefits Plan and shall be required to enroll in the public plan; to the Committee on Homeland Security and Governmental Affairs.

By Mr. FEINGOLD (for himself, Mr. MCCAIN, Mr. BROWNBACK, Mrs. BOXER, Mrs. MURRAY, Mr. VOINOVICH, Mr. WYDEN, Mrs. FEINSTEIN, Mr. GREGG, Mr. BURRIS, Ms. COLLINS, Mr. LIEBERMAN, Mr. ALEXANDER, Mr. BAYH, Mr. MERKLEY, Ms. CANTWELL, Mr. CARDIN, Mr. KERRY, Mr. DODD, Mr. DURBIN, Mr. UDALL of Colorado, Mr. MENENDEZ, Mr. UDALL of New Mexico, Mr. BENNET, and Mr. BYRD):

S. Res. 244. A resolution commemorating the 45th anniversary of the Wilderness Act; considered and agreed to.

ADDITIONAL COSPONSORS

S. 205

At the request of Mr. BINGAMAN, the name of the Senator from Colorado (Mr. UDALL) was added as a cosponsor of S. 205, a bill to authorize additional resources to identify and eliminate illicit sources of firearms smuggled into Mexico for use by violent drug trafficking organizations, and for other purposes.

S. 211

At the request of Mrs. MURRAY, the name of the Senator from Oregon (Mr.

MERKLEY) was added as a cosponsor of S. 211, a bill to facilitate nationwide availability of 2-1-1 telephone service for information and referral on human services and volunteer services, and for other purposes.

S. 240

At the request of Mrs. MURRAY, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 240, a bill to set the United States on track to ensure children are ready to learn when they begin kindergarten.

S. 428

At the request of Mr. DORGAN, the name of the Senator from Montana (Mr. TESTER) was added as a cosponsor of S. 428, a bill to allow travel between the United States and Cuba.

S. 451

At the request of Ms. COLLINS, the names of the Senator from Minnesota (Mr. FRANKEN) and the Senator from Georgia (Mr. ISAKSON) were added as cosponsors of S. 451, a bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

S. 461

At the request of Mrs. LINCOLN, the name of the Senator from North Carolina (Mr. BURR) was added as a cosponsor of S. 461, a bill to amend the Internal Revenue Code of 1986 to extend and modify the railroad track maintenance credit.

S. 538

At the request of Mrs. LINCOLN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 538, a bill to increase the recruitment and retention of school counselors, school social workers, and school psychologists by low-income local educational agencies.

S. 694

At the request of Mr. DODD, the names of the Senator from Nevada (Mr. REID) and the Senator from New Jersey (Mr. MENENDEZ) were added as cosponsors of S. 694, a bill to provide assistance to Best Buddies to support the expansion and development of mentoring programs, and for other purposes.

S. 819

At the request of Mr. DURBIN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 819, a bill to provide for enhanced treatment, support, services, and research for individuals with autism spectrum disorders and their families.

S. 831

At the request of Mr. KERRY, the name of the Senator from Tennessee (Mr. ALEXANDER) was added as a cosponsor of S. 831, a bill to amend title 10, United States Code, to include service after September 11, 2001, as service

qualifying for the determination of a reduced eligibility age for receipt of non-regular service retired pay.

S. 846

At the request of Mr. DURBIN, the name of the Senator from New Hampshire (Mrs. SHAHEEN) was added as a cosponsor of S. 846, a bill to award a congressional gold medal to Dr. Muhammad Yunus, in recognition of his contributions to the fight against global poverty.

S. 883

At the request of Mr. KERRY, the name of the Senator from West Virginia (Mr. BYRD) was added as a cosponsor of S. 883, a bill to require the Secretary of the Treasury to mint coins in recognition and celebration of the establishment of the Medal of Honor in 1861, America's highest award for valor in action against an enemy force which can be bestowed upon an individual serving in the Armed Services of the United States, to honor the American military men and women who have been recipients of the Medal of Honor, and to promote awareness of what the Medal of Honor represents and how ordinary Americans, through courage, sacrifice, selfless service and patriotism, can challenge fate and change the course of history.

S. 908

At the request of Mr. BAYH, the name of the Senator from New Hampshire (Mrs. SHAHEEN) was added as a cosponsor of S. 908, a bill to amend the Iran Sanctions Act of 1996 to enhance United States diplomatic efforts with respect to Iran by expanding economic sanctions against Iran.

S. 941

At the request of Mr. CRAPO, the name of the Senator from Florida (Mr. MARTINEZ) was added as a cosponsor of S. 941, a bill to reform the Bureau of Alcohol, Tobacco, Firearms, and Explosives, modernize firearm laws and regulations, protect the community from criminals, and for other purposes.

S. 994

At the request of Ms. KLOBUCHAR, the name of the Senator from Hawaii (Mr. AKAKA) was added as a cosponsor of S. 994, a bill to amend the Public Health Service Act to increase awareness of the risks of breast cancer in young women and provide support for young women diagnosed with breast cancer.

S. 1011

At the request of Mr. AKAKA, the names of the Senator from North Dakota (Mr. DORGAN), the Senator from Alaska (Ms. MURKOWSKI) and the Senator from Alaska (Mr. BEGICH) were added as cosponsors of S. 1011, a bill to express the policy of the United States regarding the United States relationship with Native Hawaiians and to provide a process for the recognition by the United States of the Native Hawaiian governing entity.

S. 1056

At the request of Mr. VOINOVICH, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 1056, a bill to establish a commission to develop legislation designed to reform tax policy and entitlement benefit programs and ensure a sound fiscal future for the United States, and for other purposes.

S. 1076

At the request of Mr. MENENDEZ, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 1076, a bill to improve the accuracy of fur product labeling, and for other purposes.

S. 1113

At the request of Mr. PRYOR, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 1113, a bill to amend title 49, United States Code, to direct the Secretary of Transportation to establish and maintain a national clearinghouse for records related to alcohol and controlled substances testing of commercial motor vehicle operators, and for other purposes.

S. 1222

At the request of Mrs. LINCOLN, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. 1222, a bill to amend the Internal Revenue Code of 1986 to extend and expand the benefits for businesses operating in empowerment zones, enterprise communities, or renewal communities, and for other purposes.

S. 1291

At the request of Mrs. GILLIBRAND, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 1291, a bill to amend the Internal Revenue Code of 1986 to allow employers a credit against income tax for the cost of teleworking equipment and expenses.

S. 1401

At the request of Mr. MARTINEZ, the name of the Senator from Kentucky (Mr. BUNNING) was added as a cosponsor of S. 1401, a bill to provide for the award of a gold medal on behalf of Congress to Arnold Palmer in recognition of his service to the Nation in promoting excellence and good sportsmanship in golf.

S. 1422

At the request of Mrs. MURRAY, the names of the Senator from Maryland (Ms. MIKULSKI) and the Senator from Maryland (Mr. CARDIN) were added as cosponsors of S. 1422, a bill to amend the Family and Medical Leave Act of 1993 to clarify the eligibility requirements with respect to airline flight crews.

S. 1461

At the request of Mrs. BOXER, the name of the Senator from Washington (Ms. CANTWELL) was added as a cosponsor of S. 1461, a bill to amend the Internal Revenue Code of 1986 to treat trees

and vines producing fruit, nuts, or other crops as placed in service in the year in which it is planted for purposes of special allowance for depreciation.

S. 1480

At the request of Mr. KOHL, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 1480, a bill to amend the Child Nutrition Act of 1966 to establish a program to improve the health and education of children through grants to expand school breakfast programs, and for other purposes.

S. 1482

At the request of Mr. KERRY, the name of the Senator from New Mexico (Mr. BINGAMAN) was added as a cosponsor of S. 1482, a bill to reauthorize the 21st Century Nanotechnology Research and Development Act, and for other purposes.

S. 1485

At the request of Mr. MARTINEZ, the name of the Senator from Louisiana (Mr. VITTER) was added as a cosponsor of S. 1485, a bill to improve hurricane preparedness by establishing the National Hurricane Research Initiative and for other purposes.

S. 1492

At the request of Mr. LAUTENBERG, his name was added as a cosponsor of S. 1492, a bill to amend the Public Health Service Act to fund breakthroughs in Alzheimer's disease research while providing more help to caregivers and increasing public education about prevention.

S. 1501

At the request of Mrs. MURRAY, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of S. 1501, a bill to provide a Federal tax exemption for forest conservation bonds, and for other purposes.

S. 1536

At the request of Mr. SCHUMER, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 1536, a bill to amend title 23, United States Code, to reduce the amount of Federal highway funding available to States that do not enact a law prohibiting an individual from writing, sending, or reading text messages while operating a motor vehicle.

S. 1557

At the request of Mr. BURR, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 1557, a bill to reinstate the Interim Management Strategy governing off-road vehicle use in the Cape Hatteras National Seashore, North Carolina, pending the issuance of a final rule for off-road vehicle use by the National Park Service.

S. CON. RES. 14

At the request of Mrs. LINCOLN, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. Con. Res. 14, a concurrent res-

olution supporting the Local Radio Freedom Act.

S. CON. RES. 25

At the request of Mr. MENENDEZ, the name of the Senator from Hawaii (Mr. INOUE) was added as a cosponsor of S. Con. Res. 25, a concurrent resolution recognizing the value and benefits that community health centers provide as health care homes for over 18,000,000 individuals, and the importance of enabling health centers and other safety net providers to continue to offer accessible, affordable, and continuous care to their current patients and to every American who lacks access to preventive and primary care services.

S. CON. RES. 37

At the request of Mr. JOHANNIS, the name of the Senator from Wisconsin (Mr. KOHL) was added as a cosponsor of S. Con. Res. 37, a concurrent resolution supporting the goals and ideals of senior caregiving and affordability.

S. RES. 112

At the request of Mr. BINGAMAN, his name was added as a cosponsor of S. Res. 112, a resolution designating February 8, 2010, as "Boy Scouts of America Day", in celebration of the 100th anniversary of the largest youth scouting organization in the United States.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. LEAHY:

S. 1578. A bill to amend chapter 171 of title 28, United States Code, (commonly referred to as the Federal Torts Claims Act) to extend medical malpractice coverage to free clinics and the officers, governing board members, employees, and contractors of free clinics in the same manner and extent as certain Federal officers and employees; to the Committee on the Judiciary.

Mr. LEAHY. Mr. President, today I am introducing legislation to clarify the application of the Federal Tort Claims Act and how it applies to free medical clinics. In my home State of Vermont, free clinics provide important health care, and in these tough economic times they provide an essential safety net for many people. Free clinics in Vermont and around the country are struggling to pay medical malpractice insurance premiums, due to an ambiguity in the Federal law. Current law provides for physicians who volunteer in free clinics to receive medical malpractice coverage under the Federal Torts Claims Act, FTCA, but it is unclear whether other professionals serving the community in free clinics are also covered. Existing Federal law explicitly provides more comprehensive FTCA coverage to community health centers, including coverage for their boards, employees, contractors and officers. But free clinics currently must purchase malpractice insurance for their board members, em-

ployees, contractors and officers. Purchasing this coverage diverts thousands of dollars annually from each of the free clinics in the country. These are funds that could be directed to providing necessary healthcare to the uninsured. This is especially true in States like Vermont, where free clinics make a significant impact serving those in rural areas. Additionally, by removing this financial burden for free clinics, the impact of organizations like Volunteers in Medicine, which assists in setting up and staffing free clinics, will be that much greater. In clarifying current law, and at minimal expense to the Federal Government, we can increase the effectiveness of free clinics that serve and care for so many Americans.

This legislation would make it clear that FTCA coverage should be the same for community health centers and free clinics. Both of these institutions deserve our help and play a fundamental role in our communities. It is my understanding that this clarification would not dramatically raise medical malpractice defense costs of the Federal Government because free clinics do not perform high risk procedures like surgeries or births. I urge my fellow Senators to join me in supporting the important work that free clinics provide our communities.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1578

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXTENSION OF MEDICAL MALPRACTICE COVERAGE TO FREE CLINICS.

(a) IN GENERAL.—Chapter 171 of title 28, United States Code, is amended by adding after section 2680 the following:

"§ 2681. Medical malpractice coverage for free clinics

"For purposes of applying the remedy against the United States provided by sections 1346(b) and 2672 of this title and for purposes of section 224 of Public Law 78-410 (42 U.S.C. 233) a free clinic defined under section 224(o)(3)(A) of that Act shall be treated as an entity described under section 224(g)(4) of that Act. The authorization of appropriations under section 224(o)(6)(A) of that Act shall apply to the acts or omissions of officers, governing board members, employees, and contractors of free clinics."

(b) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) TABLE OF SECTIONS.—The table of sections for chapter 171 of title 28, United States Code, is amended by adding at the end the following:

"2681. Medical malpractice coverage for free clinics."

(2) REFERENCE.—Section 224(g)(4) of the Public Law 78-410 (42 U.S.C. 233(g)(4)) is amended by inserting "or a free clinic as provided under section 2681 of title 28, United States Code" before the period.

SEC. 2. EFFECTIVE DATE.

The amendments made by this Act shall take effect on the date of enactment of this Act and apply to any act or omission which occurs on or after that date.

By Mr. REID (for Mr. KENNEDY (for himself, Mrs. MURRAY, Mr. DODD, Mr. HARKIN, Mr. BINGAMAN, Mr. SANDERS, Mr. BROWN, Mr. CASEY, Mr. MERKLEY, Mr. FRANKEN, Mr. LEAHY, Mr. AKAKA, Mrs. BOXER, Mr. FEINGOLD, Mr. DURBIN, Mr. SCHUMER, Ms. STABENOW, Mr. LAUTENBERG, Mr. MENENDEZ, and Mr. WHITEHOUSE)):

S. 1580. A bill to amend the Occupational Safety and Health Act of 1970 to expand coverage under the Act, to increase protections for whistleblowers, to increase penalties for certain violators, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. KENNEDY. Mr. President, today I am pleased to introduce the Protecting America's Workers Act. Almost 40 years ago, Congress set out to guarantee a safe workplace for all Americans. The Occupational Safety and Health Act of 1970 was landmark legislation that has dramatically improved the well-being of working men and women.

Since then, the annual job fatality rate has dropped from 18 deaths per 100,000 workers to less than four. Thousands of lives have been saved each year. These are not abstract numbers—they represent thousands of families who have been spared the pain and heartache of losing a loved one on the job.

We are enormously proud of the progress we have made, but we also know that too many workers continue to face needless dangers in the workplace. In 2007, almost 5,500 workers were killed on the job and 4 million other workers became ill or were injured. Fifteen workers still die on the job every day, and nearly 11,000 who are injured or become ill because of dangerous conditions.

We now have strong partners in the White House and at the Department of Labor who are committed to making our workplaces safer. But they need action by Congress as well. That is why today we are reintroducing the Protecting America's Workers Act, to take concrete steps to address many of the failures of the existing law.

First, this legislation expands the coverage of the current job safety laws to protect the millions of public employees and transportation workers who are not covered by these laws. In Massachusetts alone, 350,000 public sector workers lack the protections granted by the federal workplace safety law.

Our bill also protects workers who speak up about unsafe conditions on the job, by updating OSHA's whistleblower provisions. OSHA inspectors

can't be in every workplace, every day. We must rely on workers who have the courage to come forward when they know their employer is cutting corners on safety. This legislation makes good on the promise to stand by those workers and guarantee they don't have to sacrifice their jobs in order to do the right thing.

In addition, the legislation gives workers and their families and representatives a seat at the table on safety issues. It includes sensible reforms to ensure that victims and their families have a right to talk to OSHA before a citation issues, to obtain copies of important documents, to be informed about their rights, and to have their voices heard before OSHA accepts a settlement that lets an employer off the hook for endangering workers.

Finally, a critical element of this bill is the increase in penalties on employers who turn their backs on the safety of their workers. Too many employers in our country blatantly ignore the law, and too often they are not held accountable. They pay only minimal fines, which they treat as just another cost of doing business.

Last year, my office issued a report that showed that the median penalty for a workplace fatality was only \$3,675. In other words, in cases investigated by OSHA where workers were killed on the job, half of all employers were fined \$3,675 or less. Workers' lives are obviously worth far more than that. We know this administration will do better, but it needs our help.

The bill makes reasonable increases in civil penalties—especially in the most serious cases. It also creates a strong criminal penalty, including the possibility of felony charges and significant prison terms. These changes will create the deterrence we need so that employers will think twice before they gamble with workers' lives to save a few dollars. We need to send a strong message that it is unacceptable to treat workers as expendable or disposable.

Earlier this year a brave young woman, Tammy Miser, testified before our Labor Committee about her brother Shawn, who was killed in an explosion at the Hayes Lemmerz manufacturing plant in Huntington, Indiana in 2003. We can't bring Shawn back and we can't ease Tammy's pain at the loss of her beloved brother. But we can stand with her as she pursues her life's work since then of speaking out for the right of every worker to come home safely at the end of the day. I urge my colleagues to join me in honoring the millions of hardworking Americans who deserve real protection by supporting the Protecting America's Workers Act.

By Mr. MERKLEY (for himself, Ms. COLLINS, Mr. KENNEDY, Ms. SNOWE, Mr. AKAKA, Mr. BINGA-

MAN, Mrs. BOXER, Mr. BROWN, Mr. BURRIS, Ms. CANTWELL, Mr. CARDIN, Mr. CASEY, Mr. DODD, Mr. DURBIN, Mr. FEINGOLD, Mrs. FEINSTEIN, Mr. FRANKEN, Mrs. GILLIBRAND, Mr. HARKIN, Mr. INOUE, Mr. KERRY, Ms. KLOBUCHAR, Mr. KOHL, Mr. LAUTENBERG, Mr. LEAHY, Mr. LEVIN, Mr. LIEBERMAN, Mr. MENENDEZ, Ms. MIKULSKI, Mrs. MURRAY, Mr. REED, Mr. SANDERS, Mr. SCHUMER, Mrs. SHAHEEN, Mr. SPECTER, Mr. UDALL of Colorado, Mr. UDALL of New Mexico, Mr. WHITEHOUSE, and Mr. WYDEN):

S. 1584. A bill to prohibit employment discrimination on the basis of sexual orientation or gender identity; to the Committee on Health, Education, Labor, and Pensions.

Mr. MERKLEY. Mr. President, I rise today to discuss the Employment Non-Discrimination Act, a bill I introduced with Senators SUSAN COLLINS, TED KENNEDY, OLYMPIA SNOWE, and more than 30 others. This historic bill will prohibit employers from discriminating against those employed or seeking employment, on the basis of their perceived or actual sexual orientation or gender identity.

Senator KENNEDY has long been a champion for civil rights, and without his decades of leadership and determination, we would not have the strong coalition of support we exhibit today with the introduction of ENDA.

I would also like to thank the Human Rights Campaign and the Leadership Conference on Civil Rights for their strong commitment to this legislation.

Our country was founded on the principle of equal justice for all. It is that philosophy which has guided us through decades of progress. It is that philosophy which led to passage of the Civil Rights Act of 1964. It was that act which paved the way for countless groundbreaking moments, and I am certain this is one of them.

Passage of the Civil Rights Act was a defining time in our history, the result of generations of people willing to march and struggle for equality. Although we have made progress, we continue that fight today. We continue that fight for those who have, for too long, been left out.

Let me be clear, discrimination on the basis of personal characteristics has no place in any workplace or in any State, and it is long overdue for Congress to extend American employees these protections. Under ENDA, employment decisions will be based upon merit and performance, not prejudice.

This is not a new idea. In fact, many states have already confronted this challenge. I am proud that Oregon has long been a leader on equality issues, and already offers protections to those discriminated against based on both

sexual orientation and gender identity. But it was not easy. It is never easy.

Martin Luther King, Jr. said, "Human progress is neither automatic nor inevitable. Every step toward the goal of justice requires sacrifice, suffering, and struggle; the tireless exertions and passionate concern of dedicated individuals."

For the first time in history, the Senate has before it a fully inclusive bill, extending employment protections to members of communities that have historically been left out. I am proud to be a part of this historic effort to ensure that no matter who you are, you have the right to earn a living.

Corporate America is light years ahead. More than 85 percent of Fortune 500 companies have implemented non-discrimination policies that include sexual orientation, and another third have policies that include gender identity.

Unfortunately, we are still faced with cases of employment discrimination that are entirely legal—a fact I find offensive and contradictory to the founding principles of this great nation.

In 2000, Linda, an attorney, relocated to Virginia where her partner had accepted a faculty position at a university. During her job search, Linda was invited for a second interview with a local law firm. During the interview, Linda was asked why she was moving to Virginia, and she replied that her spouse had taken a position at a local university.

The firm asked Linda to come back for a third interview, which included dinner with all the partners and their spouses to "make sure they all got along." At that point, Linda told one of the partners at the firm that her spouse was a woman. It was not long before Linda was told that the firm would not hire a lesbian and the invitation to the final interview was rescinded.

Thankfully, Linda spoke out, but there are still countless instances where victims of this type of discrimination remain silent.

By extending the protection of Title VII to those victimized purely because of who they are, we move one step closer to that fundamental principle of equal justice for every American.

I am proud that we are again taking a step toward progress. I hope my colleagues will move swiftly to pass the Employment Non-Discrimination Act, which will ensure that every American receives equality under the law.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1584

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Employment Non-Discrimination Act of 2009".

SEC. 2. PURPOSES.

The purposes of this Act are—

(1) to address the history and widespread pattern of discrimination on the basis of sexual orientation or gender identity by private sector employers and local, State, and Federal government employers;

(2) to provide a comprehensive Federal prohibition of employment discrimination on the basis of sexual orientation or gender identity, including meaningful and effective remedies for any such discrimination; and

(3) to invoke congressional powers, including the powers to enforce the 14th amendment to the Constitution, and to regulate interstate commerce and provide for the general welfare pursuant to section 8 of article I of the Constitution, in order to prohibit employment discrimination on the basis of sexual orientation or gender identity.

SEC. 3. DEFINITIONS.

(a) IN GENERAL.—In this Act:

(1) COMMISSION.—The term "Commission" means the Equal Employment Opportunity Commission.

(2) COVERED ENTITY.—The term "covered entity" means an employer, employment agency, labor organization, or joint labor-management committee.

(3) EMPLOYEE.—

(A) IN GENERAL.—The term "employee" means—

(i) an employee as defined in section 701(f) of the Civil Rights Act of 1964 (42 U.S.C. 2000e(f));

(ii) a State employee to which section 302(a)(1) of the Government Employee Rights Act of 1991 (42 U.S.C. 2000e-16b(a)(1)) applies;

(iii) a covered employee, as defined in section 101 of the Congressional Accountability Act of 1995 (2 U.S.C. 1301) or section 411(c) of title 3, United States Code; or

(iv) an employee or applicant to which section 717(a) of the Civil Rights Act of 1964 (42 U.S.C. 2000e-16(a)) applies.

(B) EXCEPTION.—The provisions of this Act that apply to an employee or individual shall not apply to a volunteer who receives no compensation.

(4) EMPLOYER.—The term "employer" means—

(A) a person engaged in an industry affecting commerce (as defined in section 701(h) of the Civil Rights Act of 1964 (42 U.S.C. 2000e(h)) who has 15 or more employees (as defined in subparagraphs (A)(i) and (B) of paragraph (3)) for each working day in each of 20 or more calendar weeks in the current or preceding calendar year, and any agent of such a person, but does not include a bona fide private membership club (other than a labor organization) that is exempt from taxation under section 501(c) of the Internal Revenue Code of 1986;

(B) an employing authority to which section 302(a)(1) of the Government Employee Rights Act of 1991 applies;

(C) an employing office, as defined in section 101 of the Congressional Accountability Act of 1995 or section 411(c) of title 3, United States Code; or

(D) an entity to which section 717(a) of the Civil Rights Act of 1964 applies.

(5) EMPLOYMENT AGENCY.—The term "employment agency" has the meaning given the term in section 701(c) of the Civil Rights Act of 1964 (42 U.S.C. 2000e(c)).

(6) GENDER IDENTITY.—The term "gender identity" means the gender-related identity, appearance, or mannerisms or other gender-related characteristics of an individual, with

or without regard to the individual's designated sex at birth.

(7) LABOR ORGANIZATION.—The term "labor organization" has the meaning given the term in section 701(d) of the Civil Rights Act of 1964 (42 U.S.C. 2000e(d)).

(8) PERSON.—The term "person" has the meaning given the term in section 701(a) of the Civil Rights Act of 1964 (42 U.S.C. 2000e(a)).

(9) SEXUAL ORIENTATION.—The term "sexual orientation" means homosexuality, heterosexuality, or bisexuality.

(10) STATE.—The term "State" has the meaning given the term in section 701(i) of the Civil Rights Act of 1964 (42 U.S.C. 2000e(i)).

(b) APPLICATION OF DEFINITIONS.—For purposes of this section, a reference in section 701 of the Civil Rights Act of 1964—

(1) to an employee or an employer shall be considered to refer to an employee (as defined in subsection (a)(3)) or an employer (as defined in subsection (a)(4)), respectively, except as provided in paragraph (2) of this subsection; and

(2) to an employer in subsection (f) of that section shall be considered to refer to an employer (as defined in subsection (a)(4)(A)).

SEC. 4. EMPLOYMENT DISCRIMINATION PROHIBITED.

(a) EMPLOYER PRACTICES.—It shall be an unlawful employment practice for an employer—

(1) to fail or refuse to hire or to discharge any individual, or otherwise discriminate against any individual with respect to the compensation, terms, conditions, or privileges of employment of the individual, because of such individual's actual or perceived sexual orientation or gender identity; or

(2) to limit, segregate, or classify the employees or applicants for employment of the employer in any way that would deprive or tend to deprive any individual of employment or otherwise adversely affect the status of the individual as an employee, because of such individual's actual or perceived sexual orientation or gender identity.

(b) EMPLOYMENT AGENCY PRACTICES.—It shall be an unlawful employment practice for an employment agency to fail or refuse to refer for employment, or otherwise to discriminate against, any individual because of the actual or perceived sexual orientation or gender identity of the individual or to classify or refer for employment any individual on the basis of the actual or perceived sexual orientation or gender identity of the individual.

(c) LABOR ORGANIZATION PRACTICES.—It shall be an unlawful employment practice for a labor organization—

(1) to exclude or to expel from its membership, or otherwise to discriminate against, any individual because of the actual or perceived sexual orientation or gender identity of the individual;

(2) to limit, segregate, or classify its membership or applicants for membership, or to classify or fail or refuse to refer for employment any individual, in any way that would deprive or tend to deprive any individual of employment, or would limit such employment or otherwise adversely affect the status of the individual as an employee or as an applicant for employment because of such individual's actual or perceived sexual orientation or gender identity; or

(3) to cause or attempt to cause an employer to discriminate against an individual in violation of this section.

(d) TRAINING PROGRAMS.—It shall be an unlawful employment practice for any employer, labor organization, or joint labor-

management committee controlling apprenticeship or other training or retraining, including on-the-job training programs, to discriminate against any individual because of the actual or perceived sexual orientation or gender identity of the individual in admission to, or employment in, any program established to provide apprenticeship or other training.

(e) **ASSOCIATION.**—An unlawful employment practice described in any of subsections (a) through (d) shall be considered to include an action described in that subsection, taken against an individual based on the actual or perceived sexual orientation or gender identity of a person with whom the individual associates or has associated.

(f) **NO PREFERENTIAL TREATMENT OR QUOTAS.**—Nothing in this Act shall be construed or interpreted to require or permit—

(1) any covered entity to grant preferential treatment to any individual or to any group because of the actual or perceived sexual orientation or gender identity of such individual or group on account of an imbalance which may exist with respect to the total number or percentage of persons of any actual or perceived sexual orientation or gender identity employed by any employer, referred or classified for employment by any employment agency or labor organization, admitted to membership or classified by any labor organization, or admitted to, or employed in, any apprenticeship or other training program, in comparison with the total number or percentage of persons of such actual or perceived sexual orientation or gender identity in any community, State, section, or other area, or in the available work force in any community, State, section, or other area; or

(2) the adoption or implementation by a covered entity of a quota on the basis of actual or perceived sexual orientation or gender identity.

(g) **DISPARATE IMPACT.**—Only disparate treatment claims may be brought under this Act.

SEC. 5. RETALIATION PROHIBITED.

It shall be an unlawful employment practice for a covered entity to discriminate against an individual because such individual—

(1) opposed any practice made an unlawful employment practice by this Act; or

(2) made a charge, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this Act.

SEC. 6. EXEMPTION FOR RELIGIOUS ORGANIZATIONS.

This Act shall not apply to a corporation, association, educational institution or institution of learning, or society that is exempt from the religious discrimination provisions of title VII of the Civil Rights Act of 1964 pursuant (42 U.S.C. 2000e et seq.) to section 702(a) or 703(e)(2) of such Act (42 U.S.C. 2000e-1(a), 2000e-2(e)(2)).

SEC. 7. NONAPPLICATION TO MEMBERS OF THE ARMED FORCES; VETERANS' PREFERENCES.

(a) **ARMED FORCES.**—

(1) **EMPLOYMENT.**—In this Act, the term “employment” does not apply to the relationship between the United States and members of the Armed Forces.

(2) **ARMED FORCES.**—In paragraph (1) the term “Armed Forces” means the Army, Navy, Air Force, Marine Corps, and Coast Guard.

(b) **VETERANS' PREFERENCES.**—This title does not repeal or modify any Federal, State, territorial, or local law creating a special right or preference concerning employment for a veteran.

SEC. 8. CONSTRUCTION.

(a) **EMPLOYER RULES AND POLICIES.**—

(1) **IN GENERAL.**—Nothing in this Act shall be construed to prohibit a covered entity from enforcing rules and policies that do not intentionally circumvent the purposes of this Act, if the rules or policies are designed for, and uniformly applied to, all individuals regardless of actual or perceived sexual orientation or gender identity.

(2) **SEXUAL HARASSMENT.**—Nothing in this Act shall be construed to limit a covered entity from taking adverse action against an individual because of a charge of sexual harassment against that individual, provided that rules and policies on sexual harassment, including when adverse action is taken, are designed for, and uniformly applied to, all individuals regardless of actual or perceived sexual orientation or gender identity.

(3) **CERTAIN SHARED FACILITIES.**—Nothing in this Act shall be construed to establish an unlawful employment practice based on actual or perceived gender identity due to the denial of access to shared shower or dressing facilities in which being seen unclothed is unavoidable, provided that the employer provides reasonable access to adequate facilities that are not inconsistent with the employee's gender identity as established with the employer at the time of employment or upon notification to the employer that the employee has undergone or is undergoing gender transition, whichever is later.

(4) **ADDITIONAL FACILITIES NOT REQUIRED.**—Nothing in this Act shall be construed to require the construction of new or additional facilities.

(5) **DRESS AND GROOMING STANDARDS.**—Nothing in this Act shall prohibit an employer from requiring an employee, during the employee's hours at work, to adhere to reasonable dress or grooming standards not prohibited by other provisions of Federal, State, or local law, provided that the employer permits any employee who has undergone gender transition prior to the time of employment, and any employee who has notified the employer that the employee has undergone or is undergoing gender transition after the time of employment, to adhere to the same dress or grooming standards as apply for the gender to which the employee has transitioned or is transitioning.

(b) **EMPLOYEE BENEFITS.**—Nothing in this Act shall be construed to require a covered entity to treat an unmarried couple in the same manner as the covered entity treats a married couple for purposes of employee benefits.

(c) **DEFINITION OF MARRIAGE.**—In this Act, the term “married” refers to marriage as such term is defined in section 7 of title 1, United States Code (commonly known as the “Defense of Marriage Act”).

SEC. 9. COLLECTION OF STATISTICS PROHIBITED.

The Commission shall not collect statistics on actual or perceived sexual orientation or gender identity from covered entities, or compel the collection of such statistics by covered entities.

SEC. 10. ENFORCEMENT.

(a) **ENFORCEMENT POWERS.**—With respect to the administration and enforcement of this Act in the case of a claim alleged by an individual for a violation of this Act—

(1) the Commission shall have the same powers as the Commission has to administer and enforce—

(A) title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.); or

(B) sections 302 and 304 of the Government Employee Rights Act of 1991 (42 U.S.C. 2000e-16b and 2000e-16c),

in the case of a claim alleged by such individual for a violation of such title, or of section 302(a)(1) of the Government Employee Rights Act of 1991 (42 U.S.C. 2000e-16b(a)(1)), respectively;

(2) the Librarian of Congress shall have the same powers as the Librarian of Congress has to administer and enforce title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.) in the case of a claim alleged by such individual for a violation of such title;

(3) the Board (as defined in section 101 of the Congressional Accountability Act of 1995 (2 U.S.C. 1301)) shall have the same powers as the Board has to administer and enforce the Congressional Accountability Act of 1995 (2 U.S.C. 1301 et seq.) in the case of a claim alleged by such individual for a violation of section 201(a)(1) of such Act (2 U.S.C. 1311(a)(1));

(4) the Attorney General shall have the same powers as the Attorney General has to administer and enforce—

(A) title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.); or

(B) sections 302 and 304 of the Government Employee Rights Act of 1991 (42 U.S.C. 2000e-16b and 2000e-16c);

in the case of a claim alleged by such individual for a violation of such title, or of section 302(a)(1) of the Government Employee Rights Act of 1991 (42 U.S.C. 2000e-16b(a)(1)), respectively;

(5) the President, the Commission, and the Merit Systems Protection Board shall have the same powers as the President, the Commission, and the Board, respectively, have to administer and enforce chapter 5 of title 3, United States Code, in the case of a claim alleged by such individual for a violation of section 411 of such title; and

(6) a court of the United States shall have the same jurisdiction and powers as the court has to enforce—

(A) title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.) in the case of a claim alleged by such individual for a violation of such title;

(B) sections 302 and 304 of the Government Employee Rights Act of 1991 (42 U.S.C. 2000e-16b and 2000e-16c) in the case of a claim alleged by such individual for a violation of section 302(a)(1) of such Act (42 U.S.C. 2000e-16b(a)(1));

(C) the Congressional Accountability Act of 1995 (2 U.S.C. 1301 et seq.) in the case of a claim alleged by such individual for a violation of section 201(a)(1) of such Act (2 U.S.C. 1311(a)(1)); and

(D) chapter 5 of title 3, United States Code, in the case of a claim alleged by such individual for a violation of section 411 of such title.

(b) **PROCEDURES AND REMEDIES.**—The procedures and remedies applicable to a claim alleged by an individual for a violation of this Act are—

(1) the procedures and remedies applicable for a violation of title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.) in the case of a claim alleged by such individual for a violation of such title;

(2) the procedures and remedies applicable for a violation of section 302(a)(1) of the Government Employee Rights Act of 1991 (42 U.S.C. 2000e-16b(a)(1)) in the case of a claim alleged by such individual for a violation of such section;

(3) the procedures and remedies applicable for a violation of section 201(a)(1) of the Congressional Accountability Act of 1995 (2 U.S.C. 1311(a)(1)) in the case of a claim alleged by such individual for a violation of such section; and

(4) the procedures and remedies applicable for a violation of section 411 of title 3, United States Code, in the case of a claim alleged by such individual for a violation of such section.

(c) **OTHER APPLICABLE PROVISIONS.**—With respect to a claim alleged by a covered employee (as defined in section 101 of the Congressional Accountability Act of 1995 (2 U.S.C. 1301)) for a violation of this Act, title III of the Congressional Accountability Act of 1995 (2 U.S.C. 1381 et seq.) shall apply in the same manner as such title applies with respect to a claim alleged by such a covered employee for a violation of section 201(a)(1) of such Act (2 U.S.C. 1311(a)(1)).

SEC. 11. STATE AND FEDERAL IMMUNITY.

(a) **ABROGATION OF STATE IMMUNITY.**—A State shall not be immune under the 11th amendment to the Constitution from a suit brought in a Federal court of competent jurisdiction for a violation of this Act.

(b) **WAIVER OF STATE IMMUNITY.**—

(1) **IN GENERAL.**—

(A) **WAIVER.**—A State's receipt or use of Federal financial assistance for any program or activity of a State shall constitute a waiver of sovereign immunity, under the 11th amendment to the Constitution or otherwise, to a suit brought by an employee or applicant for employment of that program or activity under this Act for a remedy authorized under subsection (d).

(B) **DEFINITION.**—In this paragraph, the term "program or activity" has the meaning given the term in section 606 of the Civil Rights Act of 1964 (42 U.S.C. 2000d-4a).

(2) **EFFECTIVE DATE.**—With respect to a particular program or activity, paragraph (1) applies to conduct occurring on or after the day, after the date of enactment of this Act, on which a State first receives or uses Federal financial assistance for that program or activity.

(c) **REMEDIES AGAINST STATE OFFICIALS.**—An official of a State may be sued in the official capacity of the official by any employee or applicant for employment who has complied with the applicable procedures of section 10, for equitable relief that is authorized under this Act. In such a suit the court may award to the prevailing party those costs authorized by section 722 of the Revised Statutes (42 U.S.C. 1988).

(d) **REMEDIES AGAINST THE UNITED STATES AND THE STATES.**—Notwithstanding any other provision of this Act, in an action or administrative proceeding against the United States or a State for a violation of this Act, remedies (including remedies at law and in equity, and interest) are available for the violation to the same extent as the remedies are available for a violation of title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.) by a private entity, except that—

(1) punitive damages are not available; and

(2) compensatory damages are available to the extent specified in section 1977A(b) of the Revised Statutes (42 U.S.C. 1981a(b)).

SEC. 12. ATTORNEYS' FEES.

Notwithstanding any other provision of this Act, in an action or administrative proceeding for a violation of this Act, an entity described in section 10(a) (other than paragraph (4) of such section), in the discretion of the entity, may allow the prevailing party, other than the Commission or the United States, a reasonable attorney's fee (including expert fees) as part of the costs. The Commission and the United States shall be liable for the costs to the same extent as a private person.

SEC. 13. POSTING NOTICES.

A covered entity who is required to post notices described in section 711 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-10) shall post notices for employees, applicants for employment, and members, to whom the provisions specified in section 10(b) apply, that describe the applicable provisions of this Act in the manner prescribed by, and subject to the penalty provided under, section 711 of the Civil Rights Act of 1964.

SEC. 14. REGULATIONS.

(a) **IN GENERAL.**—Except as provided in subsections (b), (c), and (d), the Commission shall have authority to issue regulations to carry out this Act.

(b) **LIBRARIAN OF CONGRESS.**—The Librarian of Congress shall have authority to issue regulations to carry out this Act with respect to employees and applicants for employment of the Library of Congress.

(c) **BOARD.**—The Board referred to in section 10(a)(3) shall have authority to issue regulations to carry out this Act, in accordance with section 304 of the Congressional Accountability Act of 1995 (2 U.S.C. 1384), with respect to covered employees, as defined in section 101 of such Act (2 U.S.C. 1301).

(d) **PRESIDENT.**—The President shall have authority to issue regulations to carry out this Act with respect to covered employees, as defined in section 411(c) of title 3, United States Code, and applicants for employment as such employees.

SEC. 15. RELATIONSHIP TO OTHER LAWS.

This Act shall not invalidate or limit the rights, remedies, or procedures available to an individual claiming discrimination prohibited under any other Federal law or regulation or any law or regulation of a State or political subdivision of a State.

SEC. 16. SEVERABILITY.

If any provision of this Act, or the application of the provision to any person or circumstance, is held to be invalid, the remainder of this Act and the application of the provision to any other person or circumstances shall not be affected by the invalidity.

SEC. 17. EFFECTIVE DATE.

This Act shall take effect on the date that is 6 months after the date of enactment of this Act and shall not apply to conduct occurring before the effective date.

Mr. KENNEDY. Mr. President, the promise of America will never be fulfilled as long as justice is denied to any of our fellow citizens. We have made remarkable progress in the long march towards equal opportunity and equal justice for all Americans, but this is no time for complacency. Civil rights remains the unfinished business of America. Millions of our people are still shut out of the American dream solely because of their sexual orientation or gender identity. The Employment Non-Discrimination Act brings us closer to fulfilling the promise of America for gay, lesbian, bisexual, and transgender citizens, and I am proud to join Senators MERKLEY, COLLINS, and SNOWE today in introducing this important legislation.

ENDA reflects the bedrock American principle that employees should be judged on the basis of job performance, not prejudice. It prohibits employers from making decisions about hiring,

firing, promotions, or compensation based on sexual orientation or gender identity. It makes clear that there is no right to preferential treatment, and that quotas are prohibited.

While some states have taken this important step to guarantee fair treatment in the workplace, ENDA is necessary to guarantee these rights for all. It is unacceptable that in our country in 2009, it is legal anywhere to judge people on who they are, not what they can accomplish. This legislation will right this historic wrong.

ENDA has broad, bipartisan support. It reflects non-discrimination principles already in place at some of our country's largest employers. In the past, this legislation has been endorsed by a broad religious coalition, civil rights leaders, and distinguished Americans from both parties.

I am proud to join my colleagues today in bringing us one step closer to our ideal of a nation free from prejudice and injustice. I look forward to doing all I can to pass this important legislation, and I urge my colleagues to support us.

Mr. LEAHY. Mr. President, our Nation has a proud history of diversity and a commitment to justice and equal rights for all Americans. The promise of equal rights is a foundational freedom of our democracy. Today we reintroduce important legislation to protect Americans from discrimination in the workplace. I am proud to again co-sponsor the bipartisan Employment Non-Discrimination Act, and I thank Senators KENNEDY, COLLINS, and MERKLEY for their leadership and commitment to an issue that has practical significance in the daily lives of millions of our fellow Americans.

American workers should be evaluated on the basis of how they perform, not on irrelevant considerations, such as their race, gender, gender identity or sexual orientation. It is a question of fundamental fairness. In these difficult economic times, I can think of nothing more fundamental than equality in the workplace.

The Employment Non-Discrimination Act would prohibit workplace discrimination by making it illegal to fire, refuse to hire, or refuse to promote employees simply based on a person's sexual orientation or gender identity. Currently, Federal law protects against employment discrimination on the basis of race, gender, religion, national origin or disability, but not sexual orientation or gender identity. It is long overdue for Congress to extend these protections to American workers.

Senator KENNEDY introduced the Employment Non-Discrimination Act in previous sessions of Congress, and with his leadership, it has consistently maintained strong bipartisan support. Unfortunately, partisan politics have prevented passage of the measure. It goes against our country's basic values

to fire someone based on who they are or what they look like, and we should not tolerate discrimination in the workplace. I hope that this year Congress will have the ability to finally pass this straightforward civil rights measure.

My home State of Vermont has played a constructive role in America's journey to build a more just society. Vermont added sexual orientation to the list of protected categories in its antidiscrimination in employment law in 1992, and added gender identity protection in 2007. Twenty-one other States have also taken the lead to ban discrimination on the basis of sexual orientation, with 13 of those States also banning discrimination on the basis of gender identity. But it is clear that more still needs to be done. In 30 States, it remains legal to fire someone based on their sexual orientation and in 38 States, to do so based on gender identity. Americans' civil rights should be protected no matter where they live, which is why I am proud to once again cosponsor this bill, as I have every time it has been introduced in the Senate. I believe the passage of this legislation is long overdue and it is a step in the right direction toward creating equality in the workplace.

I urge my fellow Senators to come together to support this important, bipartisan bill without further delay.

By Mr. DURBIN:

S. 1585. A bill to permit pass-through payment for reasonable costs of certified registered nurse anesthetist services in critical access hospitals notwithstanding the reclassification of such hospitals as urban hospitals, including hospitals located in "Lugar counties", and for on-call and standby costs for such services; to the Committee on Finance.

Mr. DURBIN. Mr. President, today I'm introducing the Rural Access to Nurse Anesthesia Services Act to ensure patients in rural communities can access the health care services they need. The bill would restore rural healthcare by making improvements to the Medicare Part A reasonable cost-based, pass-through program for nurse anesthesia services in rural and critical access hospitals.

Throughout the Nation, 1,300 critical access hospitals provide essential health care services to the elderly and medically underserved communities in rural areas. In my State of Illinois, 51 Critical Access Hospitals provide emergency, primary care, and surgery services directly to rural communities, covering over 60 percent of the counties in the State and reaching over 1 million rural residents.

For the majority of Critical Access Hospitals, Certified Registered Nurse Anesthetists are the sole providers of anesthesia services. The nurse anesthetists make it possible for these hos-

pitals to offer surgical, obstetrical, trauma stabilization, interventional diagnostic and pain management capabilities.

Critical Access Hospitals depend on the work of nurse anesthetists to deliver quality care, even while the hospitals are pressed for resources. Because of the limited availability of nurse anesthetists and fewer patients in their rural communities, Critical Access Hospitals do not have anesthesia in the hospital 24/7. They rely on anesthesia and other surgery staff to be on call and available to the hospital within 15 minutes to cover emergency surgery procedures and obstetric services.

As an incentive to continue serving Medicare beneficiaries in rural areas, critical access hospitals were given permission to use reasonable, cost-based funding for anesthesia services performed by nurse anesthetists. However, recent changes in CMS policy have denied Critical Access Hospitals' claims for tens of thousands of dollars each in annual Medicare funding that they had come to rely on. In Illinois, Critical Access Hospitals lost \$50,000-\$100,000 per hospital.

These hospitals aren't just looking for a handout. Without being able to pay nurse anesthetists, the rural hospitals have to turn away patients whose procedures call for anesthesia. Patients have to travel to the next nearest hospital, which is a terrible option when dealing with trauma stabilization, obstetrical care, or even pain management, particularly for elderly patients.

In addition, despite previously reimbursing Critical Access Hospitals for the costs of having a nurse anesthetist available or on call for emergency services, CMS recently began to deny payments for this service. How is a hospital able to retain the few nurse anesthetists who are available if they can't at least keep them on call?

The Rural Access to Nurse Anesthesia Services Act will enable hospitals to offer the highest quality of care and availability of services to patients of Critical Access Hospitals. For decades, the Medicare Part A reasonable cost based pass-through program has successfully and safely ensured the availability of anesthesia services for Medicare patients in rural areas. Because of the program's success and impact, the Rural Access to Nurse Anesthesia Services Act is supported by the American Association of Nurse Anesthetists and the American Hospital Association. I hope my colleagues will join me in supporting this bill and work to protect anesthesia services for patients in rural communities.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1585

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. MEDICARE PASS-THROUGH PAYMENTS FOR CRNA SERVICES.

(a) TREATMENT OF CRITICAL ACCESS HOSPITALS AS RURAL IN DETERMINING ELIGIBILITY FOR CRNA PASS-THROUGH PAYMENTS.—Section 9320(k) of the Omnibus Budget Reconciliation Act of 1986 (42 U.S.C. 1395k note), as added by section 608(c)(2) of the Family Support Act of 1988 and amended by section 6132 of the Omnibus Budget Reconciliation Act of 1989, is amended by adding at the end the following:

"(3) Any facility that qualifies as a critical access hospital (as defined in section 1861(mm)(1) of the Social Security Act) shall be treated as being located in a rural area for purposes of paragraph (1) regardless of any geographic reclassification of the facility, including such a reclassification of the county in which the facility is located as an urban county (also popularly known as a Lugar county) under section 1886(d)(8)(B) of the Social Security Act (42 U.S.C. 1395ww(d)(8)(B))."

(b) TREATMENT OF STANDBY AND ON-CALL COSTS.—Such section 9320(k), as amended by subsection (a), is further amended by adding at the end the following:

"(4) In determining the reasonable costs incurred by a hospital or critical access hospital for the services of a certified registered nurse anesthetist under this subsection, the Secretary shall include standby costs and on-call costs incurred by the hospital or critical access hospital, respectively, with respect to such nurse anesthetist."

(c) EFFECTIVE DATES.—

(1) TREATMENT OF CAHS AS RURAL IN DETERMINING CRNA PASS-THROUGH ELIGIBILITY.—The amendment made by subsection (a) shall apply to calendar years beginning on or after the date of the enactment of this Act (regardless of whether the geographic reclassification of a critical access hospital occurred before, on, or after such date).

(2) INCLUSION OF STANDBY COSTS AND ON-CALL COSTS IN DETERMINING REASONABLE COSTS OF CRNA SERVICES.—The amendment made by subsection (b) shall apply to costs incurred in cost reporting periods beginning in fiscal years after fiscal year 2003.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 241—DESIGNATING THE PERIOD BEGINNING ON SEPTEMBER 13, 2009, AND ENDING ON SEPTEMBER 19, 2009, AS "NATIONAL POLYCYSTIC KIDNEY DISEASE AWARENESS WEEK", AND SUPPORTING THE GOALS AND IDEALS OF A NATIONAL POLYCYSTIC KIDNEY DISEASE AWARENESS WEEK TO RAISE PUBLIC AWARENESS AND UNDERSTANDING OF POLYCYSTIC KIDNEY DISEASE AND THE IMPACT POLYCYSTIC KIDNEY DISEASE HAS ON PATIENTS AND FUTURE GENERATIONS OF THEIR FAMILIES

Mr. KOHL (for himself and Mr. HATCH) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 241

Whereas polycystic kidney disease, known as "PKD", is 1 of the most prevalent life-threatening genetic diseases in the United States;

Whereas polycystic kidney disease is a severe, dominantly inherited disease that has a devastating impact, in both human and economic terms, affecting equally people of all ages, races, sexes, nationalities, geographic locations, and income levels;

Whereas there are 2 hereditary forms of polycystic kidney disease, with autosomal dominant polycystic kidney disease (ADPKD) affecting 1 in 500 people worldwide, including 600,000 patients with polycystic kidney disease in the United States, according to prevalence estimates by the National Institutes of Health;

Whereas in families in which 1 or both parents have ADPKD there is a 50-percent chance that the parents will pass the disease to their children;

Whereas autosomal recessive polycystic kidney disease (ARPKD), a rarer form of PKD, affects 1 in 20,000 live births and frequently leads to early death;

Whereas in families in which both parents carry ARPKD there is a 25-percent chance that the parents will pass the disease to their children;

Whereas, in addition to patients directly affected by polycystic kidney disease, countless additional friends, loved ones, family members, colleagues, and caregivers must shoulder the physical, emotional, and financial burdens of polycystic kidney disease;

Whereas polycystic kidney disease, for which there is no treatment or cure, is the leading cause of kidney failure resulting from a genetic disease, and 1 of the 4 leading causes of kidney failure in the United States;

Whereas the vast majority of patients with polycystic kidney disease have kidney failure at the age of 53, on average, causing a severe strain on dialysis and kidney transplantation resources and on the delivery of health care in the United States, as the largest segment of the population of the United States, the baby boomers, continues to age;

Whereas end-stage renal disease is one of the fastest growing components of the Medicare budget, and polycystic kidney disease contributes to the cost with an estimated \$2,000,000,000 budgeted annually for dialysis, kidney transplantation, and related therapies;

Whereas polycystic kidney disease is a systemic disease that causes damage to the kidneys and the cardiovascular, endocrine, hepatic, and gastrointestinal systems;

Whereas polycystic kidney disease instills in patients a fear of an unknown future with a life-threatening genetic disease, and apprehension over possible genetic discrimination;

Whereas the severity of the symptoms of polycystic kidney disease and the limited public awareness of the disease cause many patients to fail to recognize the presence of the disease, to forego regular visits to physicians, and not to receive good health or therapeutic management that would help avoid more severe complications when kidney failure occurs;

Whereas people suffering from chronic, life-threatening diseases, such as polycystic kidney disease, are more frequently predisposed to depression and the resulting consequences of depression because of anxiety over the possible pain, suffering, and premature death that people with polycystic kidney disease may face;

Whereas the Senate and taxpayers of the United States want treatments and cures for

disease and hope to see results from investments in research conducted by the National Institutes of Health and from initiatives such as the National Institutes of Health Roadmap to the Future;

Whereas polycystic kidney disease is an example of how collaboration, technological innovation, scientific momentum, and public-private partnerships can—

(1) generate therapeutic interventions that directly benefit the people suffering from polycystic kidney disease;

(2) save billions of Federal dollars under Medicare, Medicaid, and other programs for dialysis, kidney transplants, immunosuppressant drugs, and related therapies; and

(3) allow several thousand openings on the kidney transplant waiting list;

Whereas improvements in diagnostic technology and the expansion of scientific knowledge about polycystic kidney disease have led to the discovery of the 3 primary genes that cause polycystic kidney disease, and the 3 primary protein products of the genes, and to the understanding of cell structures and signaling pathways that cause cyst growth that has produced multiple polycystic kidney disease clinical drug trials;

Whereas there are thousands of volunteers nationwide dedicated to expanding essential research, fostering public awareness and understanding, educating patients and their families about polycystic kidney disease to improve treatment and care, providing appropriate moral support, and encouraging people to become organ donors; and

Whereas volunteers engage in an annual national awareness event held during the third week of September, making that week an appropriate time to recognize National Polycystic Kidney Disease Awareness Week: Now, therefore, be it

Resolved, That the Senate—

(1) designates the period beginning on September 13, 2009, and ending on September 19, 2009, as "National Polycystic Kidney Disease Awareness Week";

(2) supports the goals and ideals of a national week to raise public awareness and understanding of polycystic kidney disease;

(3) recognizes the need for additional research into a cure for polycystic kidney disease; and

(4) encourages the people of the United States and interested groups—

(A) to support National Polycystic Kidney Disease Awareness Week through appropriate ceremonies and activities;

(B) to promote public awareness of polycystic kidney disease; and

(C) to foster understanding of the impact of the disease on patients and their families.

Mr. KOHL. Mr. President, I rise today along with Senator HATCH to submit a resolution to increase awareness of Polycystic Kidney Disease, PKD, a common and life threatening genetic illness.

Over 600,000 people have been diagnosed with PKD nationwide. There is no treatment or cure for this devastating disease. Families and friends struggle to fight PKD and provide unwavering support to their suffering loved ones.

But there is hope. The PKD Foundation has led the fight for increased research and patient education. Recent studies have led to the discovery of the genes that cause PKD as well as promising clinical drug trials for treatment.

More needs to be done, however, and the Government wants to help.

In order to increase public awareness of this fatal disease, I propose that September 13th through the 19th be designated as National Polycystic Kidney Disease Awareness Week. This week coincides with the annual walk for PKD which takes place every September. In Wisconsin, where over 10,000 patients are living with the disease, residents gather across the State to take part in this very special walk.

Increasing awareness will help all those affected by Polycystic Kidney Disease, and I hope my colleagues will support this important resolution.

Mr. HATCH. Mr. President, I am pleased to submit, along with my colleague, Senator HERB KOHL, a resolution to designate the week of September 13-19, 2009 as National Polycystic Kidney Disease Awareness Week.

Polycystic kidney disease, or PKD, is a life-threatening, genetic disease of which most Americans are probably unaware. According to the PKD Foundation, PKD affects 600,000 Americans and 12.5 million children and adults worldwide. There is no treatment or cure, but it is our hope that, with this resolution, a National PKD Awareness Week will promote public awareness and education of this devastating disease.

PKD is one of the four leading causes of kidney failure, which also called end-stage renal disease, ESRD, PKD is characterized by the growth of numerous fluid-filled cysts in the kidney, which slowly reduce the kidney function and can eventually lead to kidney failure. Some cysts in individuals with PKD have reportedly grown to the size of a football. When PKD causes kidneys to fail, the patient requires dialysis or kidney transplantation. About one-half of people with the major type of PKD progress to kidney failure.

PKD is of particular interest to me because so many Utahns suffer from this disease. The PKD Foundation claims that approximately 5,000 individuals in Utah live with PKD, and that the incidence of end-stage renal disease in Utah is three times that of the national average. To cure PKD could result in billions of dollars in savings to the military, Medicare, Medicaid and the Veterans Administration for dialysis, transplantation and related treatments.

To promote greater understanding of this destructive genetic disease, Senator KOHL and I have introduced this resolution to designate a National Polycystic Kidney Disease Awareness Week, and I urge our colleagues to support it.

SENATE RESOLUTION 242—SUPPORTING THE GOALS AND IDEALS OF “NATIONAL AEROSPACE DAY”

Mr. VOINOVICH (for himself and Mr. NELSON of Florida) submitted the following resolution; which was referred to the Committee on Commerce, Science, and Transportation:

S. RES. 242

Whereas the missions to the moon by the National Aeronautics and Space Administration are recognized around the globe as 1 of the most outstanding achievements of humankind;

Whereas the United States is a leader in the International Space Station, the most advanced human habitation and scientific laboratory ever placed in space;

Whereas the first aircraft flight occurred in the United States, and the United States operates the largest and safest aviation system in the world;

Whereas the United States aerospace industry is a powerful, reliable source of employment, innovation, and export income, directly employing 831,000 people and supporting more than 2,000,000 jobs in related fields;

Whereas space exploration is a source of inspiration that captures the interest of young people;

Whereas aerospace education is an important component of science, technology, engineering, and mathematics education and helps to develop the science and technology workforce in the United States;

Whereas aerospace innovation has led to the development of advanced meteorological forecasting, which has saved lives around the world;

Whereas aerospace innovation has led to the development of the Global Positioning System, which has strengthened national security and increased economic productivity;

Whereas the aerospace industry assists and protects members of the Armed Forces with military communications, unmanned aerial systems, situational awareness, and satellite-guided ordinances; and

Whereas September 16, 2009, is an appropriate date to observe “National Aerospace Day”: Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of “National Aerospace Day”; and

(2) recognizes the contributions of the aerospace industry to the history, economy, security, and educational system of the United States.

SENATE RESOLUTION 243—EXPRESSING THE SENSE OF THE SENATE THAT, UPON THE ESTABLISHMENT OF, OR ENACTMENT OF LEGISLATION CREATING, A PUBLIC HEALTH CARE PLAN, MEMBERS OF CONGRESS SHALL LOSE ACCESS TO THE FEDERAL EMPLOYEES HEALTH BENEFITS PLAN AND SHALL BE REQUIRED TO ENROLL IN THE PUBLIC PLAN

Mr. VITTER submitted the following resolution; which was referred to the Committee on Homeland Security and Government Affairs:

S. RES. 243

Resolved, That it is the sense of the Senate that, upon the establishment of, or enactment of legislation creating, a public health care plan, Members of Congress shall lose access to the Federal Employees Health Benefits Plan and shall be required to enroll in such public health care plan.

SENATE RESOLUTION 244—COMMEMORATING THE 45TH ANNIVERSARY OF THE WILDERNESS ACT

Mr. FEINGOLD (for himself, Mr. MCCAIN, Mr. BROWNBACK, Mrs. BOXER, Mrs. MURRAY, Mr. VOINOVICH, Mr. WYDEN, Mrs. FEINSTEIN, Mr. GREGG, Mr. BURRIS, Ms. COLLINS, Mr. LIEBERMAN, Mr. ALEXANDER, Mr. BAYH, Mr. MERKLEY, Ms. CANTWELL, Mr. CARDIN, Mr. KERRY, Mr. DODD, Mr. DURBIN, Mr. UDALL of Colorado, Mr. MENENDEZ, Mr. UDALL of New Mexico, Mr. BENNET, and Mr. BYRD) submitted the following resolution; which was considered and agreed to:

S. RES. 244

Whereas September 3, 2009, will mark the 45th anniversary of the date of enactment of the Wilderness Act (16 U.S.C. 1131 et seq.), which gave to the people of the United States the National Wilderness Preservation System, an enduring resource of natural heritage;

Whereas great writers of the United States, including Ralph Waldo Emerson, Henry David Thoreau, Willa Cather, George Perkins Marsh, Mary Hunter Austin, and John Muir, poets such as William Cullen Bryant, and painters such as Thomas Cole, Frederic Church, Frederic Remington, Georgia O’Keefe, Albert Bierstadt, and Thomas Moran, have defined the distinct cultural value of wild nature and unique concept of wilderness in the United States;

Whereas national leaders, such as former President Theodore Roosevelt, reveled in outdoor pursuits and diligently sought to preserve opportunities to mold individual character, to shape the destiny of the Nation, to strive for balance, and to ensure the wisest use of natural resources, so as to provide the greatest good for the greatest number of people as possible;

Whereas luminaries in the conservation movement, such as scientist Aldo Leopold, forester Bob Marshall, writer Howard Zahniser, teacher Sigurd Olson, biologists Olaus, Adolph, and Mardy Murie, and conservationists David Brower and Marjory Stoneman Douglas, believed that the people of the United States could protect and preserve the wilderness in order for the wilderness to last well into the future;

Whereas Senator Hubert H. Humphrey, a Democrat from Minnesota, and Representative John Saylor, a Republican from Pennsylvania, originally introduced the Wilderness Act with strong bipartisan support in both houses of Congress;

Whereas, with the help of colleagues (including cosponsors Senators Clinton P. Anderson, Gaylord Nelson, William Proxmire, and Henry “Scoop” M. Jackson, and the Senate floor manager, Senator Frank Church) and conservation allies (such as Secretary of Interior Stewart L. Udall and Representative Morris K. Udall), Senator Humphrey and Representative Saylor worked tirelessly for 8 years to secure nearly unanimous passage of

the legislation, with a vote of 78 to 12 in the Senate and 373 to 1 in the House of Representatives;

Whereas critical support in the Senate for the Wilderness Act came from 3 Senators who still serve in the Senate as of 2009: Senator Robert C. Byrd, Senator Daniel Inouye, and Senator Edward M. Kennedy;

Whereas President John F. Kennedy, who took office in 1961 with an agenda that included a plan to enact wilderness legislation, was assassinated before he could sign into law a bill concerning the wilderness;

Whereas 4 wilderness champions, Aldo Leopold, Olaus Murie, Bob Marshall, and Howard Zahniser also passed away before witnessing passage of a wilderness bill;

Whereas President Lyndon B. Johnson signed into law the Wilderness Act in the Rose Garden on September 3, 1964, establishing a system of wilderness heritage, as President Kennedy and the conservation community had envisioned and advocated for ardently;

Whereas, in 2009, as a consequence of popular support, the people of the United States continue to have a system that protects wilderness for the permanent good of the United States;

Whereas, over the 45 years since the enactment of the Wilderness Act, various Presidents of both parties, leaders of Congress, and experts in the land management agencies within the Departments of the Interior and Agriculture have expanded the system of wilderness protection;

Whereas the Wilderness Act instituted an unambiguous national policy to recognize the natural heritage of the United States as a valuable resource and to protect the wilderness for future generations to use and enjoy;

Whereas wilderness offers numerous values for an increasingly diverse populace, allowing youth and adults from urban and rural communities to experience nature and explore opportunities for healthy recreation;

Whereas wilderness provides intact, healthy, and biologically diverse ecosystems that will better withstand the effects of global warming and help communities in the United States adapt to a changing climate;

Whereas wilderness provides billions of dollars of ecosystem services in the form of safe drinking water, clean air, and recreational opportunities;

Whereas 44 of the 50 States have protected wilderness areas;

Whereas the abundance of natural heritage of the United States is seen from Alaska to Florida, from Fire Island in the Long Island South Shore of New York and West Sister Island of Lake Erie in Ohio, to larger areas such as the Mojave National Preserve in California and the River of No Return in Idaho; and

Whereas President Gerald R. Ford stated that the National Wilderness Preservation System “serves a basic need of all Americans, even those who may never visit a wilderness area—the preservation of a vital element in our heritage” and that “wilderness preservation ensures that a central facet of our Nation can still be realized, not just remembered”: Now, therefore, be it

Resolved, That the Senate—

(1) commemorates the 45th anniversary of the Wilderness Act (16 U.S.C. 1131 et seq.);

(2) recognizes and commends the extraordinary work of the individuals and organizations involved in building the National Wilderness Preservation System; and

(3) is grateful for the wilderness, a tremendous asset the United States continues to

preserve as a gift to future generations of the United States.

AMENDMENTS SUBMITTED AND PROPOSED

SA 2300. Mr. HARKIN submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table.

SA 2301. Mr. KYL submitted an amendment intended to be proposed by him to the bill H.R. 3435, supra; which was ordered to lie on the table.

SA 2302. Mr. GREGG submitted an amendment intended to be proposed by him to the bill H.R. 3435, supra; which was ordered to lie on the table.

SA 2303. Mr. VITTER submitted an amendment intended to be proposed by him to the bill H.R. 3435, supra; which was ordered to lie on the table.

SA 2304. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3435, supra; which was ordered to lie on the table.

SA 2305. Mr. THUNE submitted an amendment intended to be proposed by him to the bill H.R. 3435, supra; which was ordered to lie on the table.

SA 2306. Mr. ISAKSON submitted an amendment intended to be proposed by him to the bill H.R. 3435, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 2300. Mr. HARKIN submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. ELIGIBLE INDIVIDUALS.

(a) IN GENERAL.—Section 1302(c)(1) of the Supplemental Appropriations Act, 2009 (Public Law 111-32; 123 Stat. 1910; 49 U.S.C. 32901 note) is amended by adding at the end the following:

“(H) ELIGIBLE INDIVIDUALS.—A voucher may only be issued under the Program in connection with the purchase of a new fuel efficient automobile by an individual—

“(i) who filed a return of Federal income tax for a taxable year beginning in 2008, and, if married for the taxable year concerned (as determined under section 7703 of the Internal Revenue Code of 1986), filed a joint return;

“(ii) who is not an individual with respect to whom a deduction under section 151 of the Internal Revenue Code of 1986 is allowable to another taxpayer for a taxable year beginning in the calendar year in which the individual's taxable year begins; and

“(iii) whose adjusted gross income reported in the most recent return described in clause (i) was not more than \$50,000 (\$75,000 in the case of a joint tax return or a return filed by a head of household (as defined in section 2(b) of the Internal Revenue Code of 1986)).”.

(b) REGULATIONS.—Not later than 7 days after the date of the enactment of this Act and notwithstanding the requirements of section 553 of title 5, United States Code, the Secretary of Transportation shall promulgate final regulations that require—

(1) each purchaser or leaser of a new fuel efficient automobile under the Consumer Assistance to Recycle and Save Program established under section 1302(a) of such Act (Public Law 111-32; 123 Stat. 1909; 49 U.S.C. 32901 note) to affirm on a standard form, determined by the Secretary, that such purchaser or leaser is an individual described by section 1302(c)(1)(H) of such Act, as added by subsection (a); and

(2) each dealer that receives a form described in paragraph (1) under such program to submit such form to the Secretary.

(c) FRAUD DETECTION.—Upon receipt under paragraph (2) of subsection (b) of a form described in paragraph (1) of such subsection, the Secretary shall submit such form to the Internal Revenue Service to determine whether the purchaser or leaser has violated section 641 of title 18, United States Code.

SA 2301. Mr. KYL submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. STATUS REPORT AND REIMBURSEMENT OF UNFUNDED OBLIGATIONS.

The Consumer Assistance to Recycle and Save Act of 2009 (title XIII of Public Law 111-32) is amended—

(1) in subsection (c)(1)(A), by striking “November 1, 2009” and inserting “August 8, 2009”; and

(2) in subsection (g)—

(A) by amending paragraph (1) to read as follows:

“(1) DATABASE.—The Secretary shall maintain, and update each business day, a database that contains—

“(A) the vehicle identification numbers of—

“(i) all new fuel efficient vehicles purchased or leased under the Program; and

“(ii) all eligible trade-in vehicles disposed of under the Program; and

“(B) the amount of money—

“(i) obligated by the Federal Government for payment of vouchers issued under the Program; and

“(ii) remaining to be obligated for such payments from the amount appropriated for such purpose.”; and

(B) by adding at the end the following:

“(3) SUPPLEMENTAL REPORT.—No amounts may be obligated for the Program beyond the amounts appropriated under subsection (j) until after the Secretary submits a report to the committees referred to in paragraph (2) that—

“(A) evaluates the fuel efficiency standards of—

“(i) the eligible trade-in vehicles traded in under the Program; and

“(ii) the new fuel efficient automobiles purchased under the Program; and

“(B) details the administration of the Program, including the method used by the Department of Transportation—

“(i) to track the amount obligated by the Federal Government for payment of vouchers issued under the Program; and

“(ii) to determine the amount of appropriated funds remaining to be obligated under the Program.”; and

(3) in subsection (j)—

(A) by striking “There is hereby appropriated” and inserting the following:

“(3) IN GENERAL.—There is appropriated”; and

(B) by adding at the end the following:

“(2) REIMBURSEMENT OF UNFUNDED TRANSACTIONS.—In addition to the amount appropriated under paragraph (1), there is appropriated an amount equal to the amount by which the dollar value of all of the vouchers issued under the Program during the period described in subsection (c)(1)(A) exceeds \$1,000,000,000.”.

SA 2302. Mr. GREGG submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. AMENDMENT TO THE 2010 BUDGET RESOLUTION.

S. Con. Res. 13 (111th Congress) is amended—

(1) in section 101—

(A) in paragraph (2), strike the amount for fiscal year 2010 and insert “\$2,890,499,000,000”; and

(B) in paragraph (3)—

(i) strike the amount for fiscal year 2011 and insert “\$2,969,592,000,000”; and

(ii) strike the amount for fiscal year 2012 and insert “\$2,882,053,000,000”; and

(2) in section 401(b), by striking paragraph (2) and inserting the following:

“(2) for fiscal year 2010, \$1,085,285,000,000 in new budget authority and \$1,307,200,000,000 in outlays.”.

SA 2303. Mr. VITTER submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. TERMINATION OF TARP.

Section 120 of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5230) is amended—

(1) by striking subsection (b); and

(2) by striking “(a) TERMINATION.”.

SA 2304. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SECTION _____. ASSISTANCE TO CHARITIES AND FAMILIES IN NEED.

Section 1302 of the Supplemental Appropriations Act, 2009 (Public Law 111-32; 123 Stat. 1909; 49 U.S.C. 32901 note) is amended—

(1) in subsection (a)(2)(B), by inserting “or for donation to a charity”; and

(2) in subsection (c)(2)—

(A) in subparagraph (A), strike “For each” and insert “Except as provided in subparagraph (C), for each”; and

(B) by redesignating subparagraph (C) as subparagraph (D); and

(C) by inserting after paragraph (B) the following:

“(C) DONATION TO CHARITY.—For each eligible trade-in vehicle surrendered to a dealer under the Program, the dealer may dispose of such vehicle by donating such vehicle to—

“(i) an organization that—

“(I) is described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code, including educational institutions, health care providers, and housing assistance providers described in such section; and

“(II) certifies to the Secretary that the donated vehicle will be used by the organization to further its exempt purpose or function, including to provide transportation of individuals for health care services, education, employment, general use, or other purpose relating to the provision of assistance to those in need, including sales to raise financial support for the organization; or

“(ii) a family that does not have sufficient income to afford, but can demonstrate a need for, an automobile.”.

SA 2305. Mr. THUNE submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SECTION ____ . GOVERNMENT OWNERSHIP EXIT PLAN.

(a) GOVERNMENT OWNERSHIP EXIT PLAN.—Title I of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5201 et seq.) is amended by adding at the end the following:

“SEC. 137. GOVERNMENT OWNERSHIP EXIT PLAN.

“(a) DEFINITION.—In this section, the term ‘ownership interest’ means an interest in a troubled asset described in section 3(9)(B), as in effect on the day before the date of enactment of this section, that was purchased by the Secretary under section 101(a)(1).

“(b) RE-PRIVATIZATION OF PRIVATE ENTITIES.—

“(1) PROHIBITION ON FEDERAL GOVERNMENT HOLDING OWNERSHIP INTERESTS.—

“(A) IN GENERAL.—Beginning on the date of enactment of this section, the Federal Government may not acquire, directly or indirectly, any ownership interest.

“(B) DIVESTITURE.—Except as provided in paragraph (2), the Secretary shall divest the Federal Government of any ownership interest not later than 1 year after the date of enactment of this section.

“(2) LIMITED AUTHORITY.—

“(A) IN GENERAL.—Beginning 1 year after the date of enactment of this section, the Secretary may hold an ownership interest with respect to a particular entity for a period of not more than 6 months if, not later than 1 year after the date of enactment of this section, the Secretary submits a report to Congress with respect to that entity stating that—

“(i) compliance with paragraph (1)(B) with respect to such entity would have a significant adverse impact on the taxpayers of the United States; and

“(ii) there is a reasonable expectation that a waiver of paragraph (1)(B) would allow the Secretary to recover the cost to the Federal Government of acquiring such ownership interest.

“(B) SINGLE RENEWAL.—The Secretary may renew an extension under subparagraph (A) for a single period of not more than 6 months, if the Secretary submits to Congress a report stating that the conditions described in clauses (i) and (ii) of subparagraph (A) still exist with respect to the subject ownership interest.

“(c) DEPOSIT OF FUNDS INTO TREASURY.—On and after the date of enactment of this section, all repayments of obligations arising under this Act, and all proceeds from the sale of assets acquired by the Federal Government under this Act, shall be paid into the general fund of the Treasury for reduction of the public debt, in accordance with section 106(d).

“(d) REPORTS REQUIRED.—

“(1) REPORT ON FEDERAL GOVERNMENT OWNERSHIP.—

“(A) REPORTS REQUIRED.—The Secretary shall make (and shall publicly disclose) periodic reports detailing any ownership interest held by the Federal Government, including any loan or loan guarantee made by the Board.

“(B) TIMING OF REPORTS.—The Secretary shall submit the reports under subparagraph (A)—

“(i) not later than 3 months after the date of enactment of this section; and

“(ii) each quarter of the fiscal year thereafter.

“(2) REPORTS ON WINDING DOWN OR DIVESTMENT.—

“(A) REPORTS REQUIRED.—The Secretary shall submit to Congress periodic reports on the plans of the Secretary for compliance with this section, including any plans to wind down or divest an ownership interest.

“(B) TIMING OF REPORTS.—The Secretary shall submit the reports under subparagraph (A)—

“(i) not later than 6 months after the date of enactment of this section; and

“(ii) each month thereafter until all ownership interests are divested under subsection (b)(1)(B).

“(e) PLAN FOR GOVERNMENT SPONSORED ENTERPRISES.—Not later than 90 days after the date of enactment of this section, the Secretary shall submit to Congress a report describing a plan of the Secretary—

“(1) to end the conservatorship by the Federal Government of the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation; and

“(2) to eliminate any form of direct ownership by the Federal Government of the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation.

“(f) FEDERAL DEPOSIT INSURANCE CORPORATION.—Nothing in this section may be construed to impede the ability of the Corporation to maintain the stability of the banking system.

“SEC. 138. INFLUENCE OF MANAGEMENT DECISIONS.

“(a) DEFINITIONS.—For purposes of this section—

“(1) the term ‘covered person’ means any person who is an officer or employee (including a special Government employee (as defined in section 202(a) of title 18, United States Code)) of the executive branch of the United States (including any independent agency of the United States); and

“(2) the term ‘significant management decision’ includes the appointment of senior executives or board members, business strategies relating to production and manufacturing, plant closings, the relocation of the headquarters of an entity, the modification of labor contracts, and other financial decisions.

“(b) INFLUENCE PROHIBITED.—

“(1) IN GENERAL.—It shall be unlawful for any covered person to knowingly make, with the intent to influence, a communication regarding a significant management decision of a recipient of assistance under this title to any officer or employee of the recipient.

“(2) CRIMINAL PENALTY.—Any covered person who violates paragraph (1) shall be fined under title 18, United States Code, imprisoned for not more than 1 year, or both.

“(c) CIVIL ACTIONS.—

“(1) IN GENERAL.—The Attorney General of the United States may bring a civil action in an appropriate United States district court against any covered person to enforce subsection (b).

“(2) CIVIL PENALTY.—Any covered person who, upon proof by a preponderance of the evidence, violates subsection (b) shall be subject to a civil penalty of not more than \$50,000 for each violation. The imposition of a civil penalty under this paragraph shall not preclude any other criminal or civil statutory, common law, or administrative remedy, which is available by law to the United States or any other person.

“(3) ORDERS.—If the Attorney General of the United States has reason to believe that a covered person is engaging in conduct that violates subsection (b), the Attorney General may petition an appropriate United States district court for an order prohibiting the covered person from engaging in the conduct. The court may issue an order prohibiting the covered person from engaging in the conduct if the court finds that the conduct constitutes a violation of subsection (b). The filing of a petition under this paragraph shall not preclude any other remedy which is available by law to the United States or any other person.”.

(b) CONFORMING AMENDMENTS.—

(1) DEFINITIONS.—Section 3(9) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5202(9)) is amended—

(A) in subparagraph (A), by striking “; and” at the end and inserting a period;

(B) by striking “means—” and all that follows through “residential” in subparagraph (A) and inserting “means residential”; and

(C) by striking subparagraph (B).

(2) OVERSIGHT BY FINANCIAL STABILITY OVERSIGHT BOARD.—Section 104(a) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5214(a)) is amended—

(A) in paragraph (2), by striking “and” at the end;

(B) in paragraph (3), by striking the semicolon at the end and inserting “; and”; and

(C) by adding at the end the following:

“(4) reviewing the implementation of sections 137 and 138.”.

(3) DEPOSIT OF FUNDS.—

(A) AUTHORITY TO PURCHASE.—Section 115(a)(3) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5225(a)(3)) is amended by striking “outstanding at any one time”.

(B) CONFORMING AMENDMENT.—Section 106(d) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5216(d)) is amended by inserting “, and repayments of obligations arising under this Act,” after “section 113”.

SA 2306. Mr. ISAKSON submitted an amendment intended to be proposed by him to the bill H.R. 3435, making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program; which was ordered to lie on the table; as follows:

On page 3, after line 11, insert the following:

Effective on the date of the enactment of this Act—

(1) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by inserting after section 25D the following new section:

“SEC. 25E. CREDIT FOR CERTAIN HOME PURCHASES.

“(a) ALLOWANCE OF CREDIT.—

“(1) IN GENERAL.—In the case of an individual who is a purchaser of a principal residence during the taxable year, there shall be allowed as a credit against the tax imposed by this chapter an amount equal to 10 percent of the purchase price of the residence.

“(2) DOLLAR LIMITATION.—The amount of the credit allowed under paragraph (1) shall not exceed \$15,000.

“(3) ALLOCATION OF CREDIT AMOUNT.—At the election of the taxpayer, the amount of the credit allowed under paragraph (1) (after application of paragraph (2)) may be equally divided among the 2 taxable years beginning with the taxable year in which the purchase of the principal residence is made.

“(b) LIMITATIONS.—

“(1) DATE OF PURCHASE.—The credit allowed under subsection (a) shall be allowed only with respect to purchases made—

“(A) after the date of the enactment of the Act entitled ‘Making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program,’ and

“(B) on or before the date that is 1 year after such date of enactment.

“(2) LIMITATION BASED ON AMOUNT OF TAX.—In the case of a taxable year to which section 26(a)(2) does not apply, the credit allowed under subsection (a) for any taxable year shall not exceed the excess of—

“(A) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over

“(B) the sum of the credits allowable under this subpart (other than this section) for the taxable year.

“(3) ONE-TIME ONLY.—

“(A) IN GENERAL.—If a credit is allowed under this section in the case of any individual (and such individual’s spouse, if married) with respect to the purchase of any principal residence, no credit shall be allowed under this section in any taxable year with respect to the purchase of any other principal residence by such individual or a spouse of such individual.

“(B) JOINT PURCHASE.—In the case of a purchase of a principal residence by 2 or more unmarried individuals or by 2 married individuals filing separately, no credit shall be allowed under this section if a credit under this section has been allowed to any of such individuals in any taxable year with respect to the purchase of any other principal residence.

“(c) PRINCIPAL RESIDENCE.—For purposes of this section, the term ‘principal residence’ has the same meaning as when used in section 121.

“(d) DENIAL OF DOUBLE BENEFIT.—No credit shall be allowed under this section for any purchase for which a credit is allowed under section 36 or section 1400C.

“(e) SPECIAL RULES.—

“(1) JOINT PURCHASE.—

“(A) MARRIED INDIVIDUALS FILING SEPARATELY.—In the case of 2 married individuals filing separately, subsection (a) shall be applied to each such individual by substituting ‘\$7,500’ for ‘\$15,000’ in subsection (a)(1).

“(B) UNMARRIED INDIVIDUALS.—If 2 or more individuals who are not married purchase a

principal residence, the amount of the credit allowed under subsection (a) shall be allocated among such individuals in such manner as the Secretary may prescribe, except that the total amount of the credits allowed to all such individuals shall not exceed \$15,000.

“(2) PURCHASE.—In defining the purchase of a principal residence, rules similar to the rules of paragraphs (2) and (3) of section 1400C(e) (as in effect on the date of the enactment of this section) shall apply.

“(3) REPORTING REQUIREMENT.—Rules similar to the rules of section 1400C(f) (as so in effect) shall apply.

“(f) RECAPTURE OF CREDIT IN THE CASE OF CERTAIN DISPOSITIONS.—

“(1) IN GENERAL.—In the event that a taxpayer—

“(A) disposes of the principal residence with respect to which a credit was allowed under subsection (a), or

“(B) fails to occupy such residence as the taxpayer’s principal residence,

at any time within 24 months after the date on which the taxpayer purchased such residence, then the tax imposed by this chapter for the taxable year during which such disposition occurred or in which the taxpayer failed to occupy the residence as a principal residence shall be increased by the amount of such credit.

“(2) EXCEPTIONS.—

“(A) DEATH OF TAXPAYER.—Paragraph (1) shall not apply to any taxable year ending after the date of the taxpayer’s death.

“(B) INVOLUNTARY CONVERSION.—Paragraph (1) shall not apply in the case of a residence which is compulsorily or involuntarily converted (within the meaning of section 1033(a)) if the taxpayer acquires a new principal residence within the 2-year period beginning on the date of the disposition or cessation referred to in such paragraph. Paragraph (1) shall apply to such new principal residence during the remainder of the 24-month period described in such paragraph as if such new principal residence were the converted residence.

“(C) TRANSFERS BETWEEN SPOUSES OR INCIDENT TO DIVORCE.—In the case of a transfer of a residence to which section 1041(a) applies—

“(i) paragraph (1) shall not apply to such transfer, and

“(ii) in the case of taxable years ending after such transfer, paragraph (1) shall apply to the transferee in the same manner as if such transferee were the transferor (and shall not apply to the transferor).

“(D) RELOCATION OF MEMBERS OF THE ARMED FORCES.—Paragraph (1) shall not apply in the case of a member of the Armed Forces of the United States on active duty who moves pursuant to a military order and incident to a permanent change of station.

“(3) JOINT RETURNS.—In the case of a credit allowed under subsection (a) with respect to a joint return, half of such credit shall be treated as having been allowed to each individual filing such return for purposes of this subsection.

“(4) RETURN REQUIREMENT.—If the tax imposed by this chapter for the taxable year is increased under this subsection, the taxpayer shall, notwithstanding section 6012, be required to file a return with respect to the taxes imposed under this subtitle.

“(g) BASIS ADJUSTMENT.—For purposes of this subtitle, if a credit is allowed under this section with respect to the purchase of any residence, the basis of such residence shall be reduced by the amount of the credit so allowed.

“(h) ELECTION TO TREAT PURCHASE IN PRIOR YEAR.—In the case of a purchase of a prin-

icipal residence after December 31, 2009, and on or before the date described in subsection (b)(1)(B), a taxpayer may elect to treat such purchase as made on December 31, 2009, for purposes of this section.”

(2) CONFORMING AMENDMENTS.—

(A) Section 24(b)(3)(B) of the Internal Revenue Code of 1986 is amended by striking “and 25B” and inserting “, 25B, and 25E”.

(B) Section 25(e)(1)(C)(ii) of such Code is amended by inserting “25E,” after “25D.”

(C) Section 25B(g)(2) of such Code is amended by striking “section 23” and inserting “sections 23 and 25E”.

(D) Section 904(i) of such Code is amended by striking “and 25B” and inserting “25B, and 25E”.

(E) Section 1016(a) of such Code is amended by striking “and” at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting “, and”, and by adding at the end the following new paragraph:

“(38) to the extent provided in section 25E(g).”

(3) CLERICAL AMENDMENT.—The table of sections for subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by inserting after the item relating to section 25D the following new item:

“Sec. 25E. Credit for certain home purchases.”

(4) SUNSET OF CURRENT FIRST-TIME HOME-BUYER CREDIT.—

(A) IN GENERAL.—Subsection (h) of section 36 of the Internal Revenue Code of 1986 is amended by striking “before December 1, 2009” and inserting “on or before the date of the enactment of the Act entitled ‘Making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program.’”

(B) ELECTION TO TREAT PURCHASE IN PRIOR YEAR.—Subsection (g) of section 36 of the Internal Revenue Code of 1986 is amended by striking “before December 1, 2009” and inserting “on or before the date of the enactment of the Act entitled ‘Making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program.’”

(5) EFFECTIVE DATE.—The amendments made by paragraphs (1) through (4) shall apply to purchases after the date of the enactment of this Act.

(6) TRANSFERS TO THE GENERAL FUND.—From time to time, the Secretary of the Treasury shall transfer to the general fund of the Treasury an amount equal to the reduction in revenues to the Treasury resulting from the amendments made by paragraphs (1) through (4) of this subsection. Notwithstanding section 5 of the American Recovery and Reinvestment Act of 2009 (Pub. Law 111-5), such amounts shall be transferred from the amounts appropriated or made available and remaining unobligated under such Act.

NOTICE OF HEARING

COMMITTEE ON INDIAN AFFAIRS

Mr. DORGAN, Mr. President, I would like to announce that the Committee on Indian Affairs will meet on Thursday, August 6, 2009, at 2:15 p.m. in Room 628 of the Dirksen Senate Office Building to conduct a business meeting on S.J. Res. 14, a joint resolution to acknowledge a long history of official depredations and ill-conceived policies

by the Federal Government regarding Indian tribes and offer an apology to all Native Peoples on behalf of the United States; H.R. 1129, a bill to authorize the Secretary of the Interior to provide an annual grant to facilitate an iron working training program for Native Americans; and S. 443, a bill to transfer certain land to the United States to be held in trust for the Hoh Indian Tribe, to place land into trust for the Hoh Indian Tribe, and for other purposes to be followed immediately by a hearing on S. 1011, the Native Hawaiian Government Reorganization Act of 2009.

Those wishing additional information may contact the Indian Affairs Committee at 202-224-2251.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. SPECTER. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on August 5, 2009, at 9:30 a.m., to conduct a hearing entitled "Examining Proposals to Enhance the Regulation of Credit Rating Agencies."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. SPECTER. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Wednesday, August 5, 2009, at 10 a.m. in room 253 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. SPECTER. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Wednesday, August 5, 2009, in Russell 253, at 2 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. SPECTER. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, August 5, 2009, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. SPECTER. Mr. or Ms. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, August 5, 2009, at 2:15 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS

Mr. SPECTER. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on Wednesday, August 5, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON OVERSIGHT OF GOVERNMENT MANAGEMENT, THE FEDERAL WORKFORCE, AND THE DISTRICT OF COLUMBIA

Mr. SPECTER. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs' Subcommittee on Oversight of Government Management, the Federal Workforce, and the District of Columbia be authorized to meet during the session of the Senate on Wednesday, August 5, 2009, at 2:30 p.m. to conduct a hearing entitled, "Strengthening the Federal Acquisition Workforce: Government-wide Leadership and Initiatives."

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. LAUTENBERG. Mr. President, I ask unanimous consent that Jennifer Mock, a member of the staff of the Senator from Oregon, Mr. MERKLEY, be granted the privilege of the floor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. Mr. President, I ask unanimous consent that the following individuals on my staff be granted the privilege of the floor during consideration of the confirmation of Judge Sotomayor: Caitlin Coan, Emily Yeska, Andrew Dusek, Dan Huffman, Raphael Graybill, Philip Feldman, Josh Gardner, and Maureen Weiland.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. I ask unanimous consent that Laura Safdie, Aaron Guile, and Kathleen Roberts, law clerks on Senator LEAHY's Judiciary Committee staff, be granted the privilege of the floor for the remainder of the debate on the nomination of Judge Sotomayor.

The PRESIDING OFFICER. Without objection, it is so ordered.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

On Tuesday, August 4, 2009, the Senate passed H.R. 2997, as amended, as follows:

H.R. 2997

Resolved, That the bill from the House of Representatives (H.R. 2997) entitled "An Act making appropriations for Agriculture, Rural Development, Food and Drug Adminis-

tration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes," do pass with the following amendment:

Strike out all after the enacting clause and insert:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes, namely:

TITLE I

AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING AND MARKETING

OFFICE OF THE SECRETARY

For necessary expenses of the Office of the Secretary of Agriculture, \$5,285,000: Provided, That not to exceed \$11,000 of this amount shall be available for official reception and representation expenses, not otherwise provided for, as determined by the Secretary.

OFFICE OF TRIBAL RELATIONS

For necessary expenses of the Office of Tribal Relations, \$1,000,000, to support communication and consultation activities with Federally Recognized Tribes, as well as other requirements established by law.

EXECUTIVE OPERATIONS

OFFICE OF THE CHIEF ECONOMIST

For necessary expenses of the Office of the Chief Economist, \$13,032,000.

NATIONAL APPEALS DIVISION

For necessary expenses of the National Appeals Division, \$15,219,000.

OFFICE OF BUDGET AND PROGRAM ANALYSIS

For necessary expenses of the Office of Budget and Program Analysis, \$9,436,000.

OFFICE OF HOMELAND SECURITY

For necessary expenses of the Office of Homeland Security, \$1,859,000.

OFFICE OF THE CHIEF INFORMATION OFFICER

For necessary expenses of the Office of the Chief Information Officer, \$63,579,000.

OFFICE OF THE CHIEF FINANCIAL OFFICER

For necessary expenses of the Office of the Chief Financial Officer, \$6,566,000: Provided, That no funds made available by this appropriation may be obligated for FAIR Act or Circular A-76 activities until the Secretary has submitted to the Committees on Appropriations of both Houses of Congress and the Committee on Oversight and Government Reform of the House of Representatives a report on the Department's contracting out policies, including agency budgets for contracting out.

OFFICE OF THE ASSISTANT SECRETARY FOR CIVIL RIGHTS

For necessary expenses of the Office of the Assistant Secretary for Civil Rights, \$895,000.

OFFICE OF CIVIL RIGHTS

For necessary expenses of the Office of Civil Rights, \$23,422,000.

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION

For necessary expenses of the Office of the Assistant Secretary for Administration, \$806,000.

AGRICULTURE BUILDINGS AND FACILITIES AND RENTAL PAYMENTS

(INCLUDING TRANSFERS OF FUNDS)

For payment of space rental and related costs pursuant to Public Law 92-313, including authorities pursuant to the 1984 delegation of authority from the Administrator of General Services to the Department of Agriculture under 40 U.S.C. 486, for programs and activities of the

Department which are included in this Act, and for alterations and other actions needed for the Department and its agencies to consolidate unneeded space into configurations suitable for release to the Administrator of General Services, and for the operation, maintenance, improvement, and repair of Agriculture buildings and facilities, and for related costs, \$274,482,000, to remain available until expended, of which \$168,901,000 shall be available for payments to the General Services Administration for rent; of which \$13,500,000 for payment to the Department of Homeland Security for building security activities; and of which \$92,081,000 for buildings operations and maintenance expenses: Provided, That the Secretary is authorized to transfer funds from a Departmental agency to this account to recover the full cost of the space and security expenses of that agency that are funded by this account when the actual costs exceed the agency estimate which will be available for the activities and payments described herein.

HAZARDOUS MATERIALS MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Department of Agriculture, to comply with the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601 et seq.) and the Resource Conservation and Recovery Act (42 U.S.C. 6901 et seq.), \$5,125,000, to remain available until expended: Provided, That appropriations and funds available herein to the Department for Hazardous Materials Management may be transferred to any agency of the Department for its use in meeting all requirements pursuant to the above Acts on Federal and non-Federal lands.

DEPARTMENTAL ADMINISTRATION

(INCLUDING TRANSFERS OF FUNDS)

For Departmental Administration, \$41,319,000, to provide for necessary expenses for management support services to offices of the Department and for general administration, security, repairs and alterations, and other miscellaneous supplies and expenses not otherwise provided for and necessary for the practical and efficient work of the Department: Provided, That this appropriation shall be reimbursed from applicable appropriations in this Act for travel expenses incident to the holding of hearings as required by 5 U.S.C. 551–558: Provided further, That of the amount appropriated, \$13,000,000 is for stabilization and developmental activities to be carried out under the authority provided by title XIV of the Food and Agriculture Act of 1977 (7 U.S.C. 3101 et seq.) and other applicable laws.

OFFICE OF THE ASSISTANT SECRETARY FOR CONGRESSIONAL RELATIONS

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Office of the Assistant Secretary for Congressional Relations to carry out the programs funded by this Act, including programs involving intergovernmental affairs and liaison within the executive branch, \$3,968,000: Provided, That these funds may be transferred to agencies of the Department of Agriculture funded by this Act to maintain personnel at the agency level: Provided further, That no funds made available by this appropriation may be obligated after 30 days from the date of enactment of this Act, unless the Secretary has notified the Committees on Appropriations of both Houses of Congress on the allocation of these funds by USDA agency: Provided further, That no other funds appropriated to the Department by this Act shall be available to the Department for support of activities of congressional relations.

OFFICE OF COMMUNICATIONS

For necessary expenses of the Office of Communications, \$9,722,000.

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General, including employment pursuant to the Inspector General Act of 1978, \$88,025,000, including such sums as may be necessary for contracting and other arrangements with public agencies and private persons pursuant to section 6(a)(9) of the Inspector General Act of 1978, and including not to exceed \$125,000 for certain confidential operational expenses, including the payment of informants, to be expended under the direction of the Inspector General pursuant to Public Law 95–452 and section 1337 of Public Law 97–98: Provided, That of the amount made available for the Office of Inspector General to conduct investigations such sums as are necessary shall be made available for the inspection of the national organic program established under the Organic Foods Production Act of 1990 (7 U.S.C. 6501 et seq.).

OFFICE OF THE GENERAL COUNSEL

For necessary expenses of the Office of the General Counsel, \$43,551,000.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION AND ECONOMICS

For necessary expenses of the Office of the Under Secretary for Research, Education and Economics, \$895,000.

ECONOMIC RESEARCH SERVICE

For necessary expenses of the Economic Research Service, \$82,078,000.

NATIONAL AGRICULTURAL STATISTICS SERVICE

For necessary expenses of the National Agricultural Statistics Service, \$161,830,000, of which up to \$37,908,000 shall be available until expended for the Census of Agriculture.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

For necessary expenses of the Agricultural Research Service and for acquisition of lands by donation, exchange, or purchase at a nominal cost not to exceed \$100, and for land exchanges where the lands exchanged shall be of equal value or shall be equalized by a payment of money to the grantor which shall not exceed 25 percent of the total value of the land or interests transferred out of Federal ownership, \$1,181,632,000, of which \$35,512,000 shall be for the purposes, and in the amounts, specified in the table titled “Congressionally Designated Projects” in the report to accompany this Act: Provided, That appropriations hereunder shall be available for the operation and maintenance of aircraft and the purchase of not to exceed one for replacement only: Provided further, That appropriations hereunder shall be available pursuant to 7 U.S.C. 2250 for the construction, alteration, and repair of buildings and improvements, but unless otherwise provided, the cost of constructing any one building shall not exceed \$375,000, except for headhouses or greenhouses which shall each be limited to \$1,200,000, and except for 10 buildings to be constructed or improved at a cost not to exceed \$750,000 each, and the cost of altering any one building during the fiscal year shall not exceed 10 percent of the current replacement value of the building or \$375,000, whichever is greater: Provided further, That the limitations on alterations contained in this Act shall not apply to modernization or replacement of existing facilities at Beltsville, Maryland: Provided further, That appropriations hereunder shall be available for granting easements at the Beltsville Agricultural Research Center: Provided further, That the foregoing limitations shall not apply to replacement of buildings needed to carry out the Act of April 24, 1948 (21 U.S.C. 113a): Provided further, That funds may be received from any State, other political subdivision, organization, or individual for the purpose of establishing or operating any

research facility or research project of the Agricultural Research Service, as authorized by law.

BUILDINGS AND FACILITIES

For acquisition of land, construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities as necessary to carry out the agricultural research programs of the Department of Agriculture, where not otherwise provided, \$47,027,000, of which \$47,027,000 shall be for the purposes, and in the amounts, specified in the table titled “Congressionally Designated Projects” in the report to accompany this Act, to remain available until expended.

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE RESEARCH AND EDUCATION ACTIVITIES

For payments to agricultural experiment stations, for cooperative forestry and other research, for facilities, and for other expenses, \$757,821,000, of which \$61,406,000 shall be for the purposes, and in the amounts, specified in the table titled “Congressionally Designated Projects” in the report to accompany this Act, as follows: to carry out the provisions of the Hatch Act of 1887 (7 U.S.C. 361a–i), \$215,000,000; for grants for cooperative forestry research (16 U.S.C. 582a through a–7), \$30,000,000; for payments to eligible institutions (7 U.S.C. 3222), \$49,000,000, provided that each institution receives no less than \$1,000,000; for special grants (7 U.S.C. 450i(c)), \$50,456,000; for competitive grants on improved pest control (7 U.S.C. 450i(c)), \$16,423,000; for competitive grants (7 U.S.C. 450i(b)), \$295,181,000, to remain available until expended; for the support of animal health and disease programs (7 U.S.C. 3195), \$1,000,000; for supplemental and alternative crops and products (7 U.S.C. 3319d), \$850,000; for grants for research pursuant to the Critical Agricultural Materials Act (7 U.S.C. 178 et seq.), \$1,083,000, to remain available until expended; for the 1994 research grants program for 1994 institutions pursuant to section 536 of Public Law 103–382 (7 U.S.C. 301 note), \$2,000,000, to remain available until expended; for rangeland research grants (7 U.S.C. 3333), \$983,000; for higher education graduate fellowship grants (7 U.S.C. 3152(b)(6)), \$3,859,000, to remain available until expended (7 U.S.C. 2209b); for a program pursuant to section 1415A of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3151a), \$5,000,000, to remain available until expended; for higher education challenge grants (7 U.S.C. 3152(b)(1)), \$5,654,000; for a higher education multicultural scholars program (7 U.S.C. 3152(b)(5)), \$981,000, to remain available until expended (7 U.S.C. 2209b); for an education grants program for Hispanic-serving Institutions (7 U.S.C. 3241), \$7,737,000; for competitive grants for the purpose of carrying out all provisions of 7 U.S.C. 3156 to individual eligible institutions or consortia of eligible institutions in Alaska and in Hawaii, with funds awarded equally to each of the States of Alaska and Hawaii, \$3,200,000; for a secondary agriculture education program and 2-year post-secondary education (7 U.S.C. 3152(j)), \$983,000; for aquaculture grants (7 U.S.C. 3322), \$3,928,000; for sustainable agriculture research and education (7 U.S.C. 5811), \$14,500,000; for a program of capacity building grants (7 U.S.C. 3152(b)(4)) to institutions eligible to receive funds under 7 U.S.C. 3221 and 3222, \$16,500,000, to remain available until expended (7 U.S.C. 2209b); for payments to the 1994 Institutions pursuant to section 534(a)(1) of Public Law 103–382, \$3,342,000; for resident instruction grants for insular areas under section 1491 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3363), \$800,000; for a new era rural technology program pursuant to section 1473E of the National Agricultural Research, Extension, and Teaching

Policy Act of 1977 (7 U.S.C. 3319e), \$750,000; for a competitive grants program for farm business management and benchmarking (7 U.S.C. 5925f), \$2,000,000; for a competitive grants program regarding biobased energy (7 U.S.C. 8114), \$1,500,000; and for necessary expenses of Research and Education Activities, \$25,111,000, of which \$2,704,000 for the Research, Education, and Economics Information System and \$2,136,000 for the Electronic Grants Information System, are to remain available until expended.

NATIVE AMERICAN INSTITUTIONS ENDOWMENT FUND

For the Native American Institutions Endowment Fund authorized by Public Law 103-382 (7 U.S.C. 301 note), \$11,880,000, to remain available until expended.

EXTENSION ACTIVITIES

For payments to States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands, Micronesia, the Northern Marianas, and American Samoa, \$491,292,000, of which \$7,898,000 shall be for the purposes, and in the amounts, specified in the table titled "Congressionally Designated Projects" in the report to accompany this Act, as follows: payments for cooperative extension work under the Smith-Lever Act, to be distributed under sections 3(b) and 3(c) of said Act, and under section 208(c) of Public Law 93-471, for retirement and employees' compensation costs for extension agents, \$300,000,000; payments for extension work at the 1994 Institutions under the Smith-Lever Act (7 U.S.C. 343(b)(3)), \$4,000,000; payments for the nutrition and family education program for low-income areas under section 3(d) of the Act, \$68,139,000; payments for the pest management program under section 3(d) of the Act, \$10,085,000; payments for the farm safety program under section 3(d) of the Act, \$4,863,000; payments for New Technologies for Ag Extension under section 3(d) of the Act, \$2,000,000; payments to upgrade research, extension, and teaching facilities at institutions eligible to receive funds under 7 U.S.C. 3221 and 3222, \$18,540,000, to remain available until expended; payments for youth-at-risk programs under section 3(d) of the Smith-Lever Act, \$8,427,000; for youth farm safety education and certification extension grants, to be awarded competitively under section 3(d) of the Act, \$493,000; payments for carrying out the provisions of the Renewable Resources Extension Act of 1978 (16 U.S.C. 1671 et seq.), \$4,128,000; payments for the federally-recognized Tribes Extension Program under section 3(d) of the Smith-Lever Act, \$3,090,000; payments for sustainable agriculture programs under section 3(d) of the Act, \$4,705,000; payments for rural health and safety education as authorized by section 502(i) of Public Law 92-419 (7 U.S.C. 2662(i)), \$1,738,000; payments for cooperative extension work by eligible institutions (7 U.S.C. 3221), \$41,354,000, provided that each institution receives no less than \$1,000,000; for grants to youth organizations pursuant to 7 U.S.C. 7630, \$1,767,000; payments to carry out the food animal residue avoidance database program as authorized by 7 U.S.C. 7642, \$1,000,000; payments to carry out section 1672(e)(49) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5925), as amended, \$500,000; and for necessary expenses of Extension Activities, \$16,463,000.

INTEGRATED ACTIVITIES

For the integrated research, education, and extension grants programs, including necessary administrative expenses, \$56,864,000, as follows: for competitive grants programs authorized under section 406 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7626), \$41,990,000, including \$12,649,000 for the water quality program, \$14,596,000 for the food safety program, \$4,096,000 for the re-

gional pest management centers program, \$4,388,000 for the Food Quality Protection Act risk mitigation program for major food crop systems, \$1,365,000 for the crops affected by Food Quality Protection Act implementation, \$3,054,000 for the methyl bromide transition program, and \$1,842,000 for the organic transition program; for a competitive international science and education grants program authorized under section 1459A of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3292b), to remain available until expended, \$3,000,000; for grants programs authorized under section 2(c)(1)(B) of Public Law 89-106, as amended, \$732,000, to remain available until September 30, 2011, for the critical issues program; \$1,312,000 for the regional rural development centers program; and \$9,830,000 for the Food and Agriculture Defense Initiative authorized under section 1484 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, to remain available until September 30, 2011.

OFFICE OF THE UNDER SECRETARY FOR MARKETING AND REGULATORY PROGRAMS

For necessary expenses of the Office of the Under Secretary for Marketing and Regulatory Programs, \$895,000.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE SALARIES AND EXPENSES (INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Animal and Plant Health Inspection Service, including up to \$30,000 for representation allowances and for expenses pursuant to the Foreign Service Act of 1980 (22 U.S.C. 4085), \$911,394,000, of which \$18,059,000 shall be for the purposes, and in the amounts, specified in the table titled "Congressionally Designated Projects" in the report to accompany this Act, of which \$2,058,000 shall be available for the control of outbreaks of insects, plant diseases, animal diseases and for control of pest animals and birds to the extent necessary to meet emergency conditions; of which \$23,390,000 shall be used for the cotton pests program for cost share purposes or for debt retirement for active eradication zones; of which \$7,300,000 shall be for a National Animal Identification program and may only be used for ongoing activities and purposes (as of the date of enactment of this Act) relating to proposed rulemaking for that program under subchapter II of chapter 5, and chapter 7, of title 5, United States Code (commonly known as the "Administrative Procedure Act"); of which \$60,243,000 shall be used to prevent and control avian influenza and shall remain available until expended: Provided, That funds provided for the contingency fund to meet emergency conditions, information technology infrastructure, fruit fly program, emerging plant pests, cotton pests program, grasshopper and mormon cricket program, the plum pox program, the National Veterinary Stockpile, the National Animal Identification System, up to \$1,500,000 in the scrapie program for indemnities, up to \$1,000,000 for wildlife services methods development, up to \$1,000,000 of the wildlife services operations program for aviation safety, and up to 25 percent of the screwworm program shall remain available until expended: Provided further, That no funds shall be used to formulate or administer a brucellosis eradication program for the current fiscal year that does not require minimum matching by the States of at least 40 percent: Provided further, That this appropriation shall be available for the operation and maintenance of aircraft and the purchase of not to exceed four, of which two shall be for replacement only: Provided further, That, in addition, in emergencies which threaten any segment of the agricultural production industry of this country, the Secretary may transfer from other appropriations or funds available to the

agencies or corporations of the Department such sums as may be deemed necessary, to be available only in such emergencies for the arrest and eradication of contagious or infectious disease or pests of animals, poultry, or plants, and for expenses in accordance with sections 10411 and 10417 of the Animal Health Protection Act (7 U.S.C. 8310 and 8316) and sections 431 and 442 of the Plant Protection Act (7 U.S.C. 7751 and 7772), and any unexpended balances of funds transferred for such emergency purposes in the preceding fiscal year shall be merged with such transferred amounts: Provided further, That appropriations hereunder shall be available pursuant to law (7 U.S.C. 2250) for the repair and alteration of leased buildings and improvements, but unless otherwise provided the cost of altering any one building during the fiscal year shall not exceed 10 percent of the current replacement value of the building: Provided further, That of the amount available under this heading, at least \$17,764,000 shall be used for the tuberculosis program (including at least \$3,000,000 for tuberculosis indemnity and depopulation).

In fiscal year 2010, the agency is authorized to collect fees to cover the total costs of providing technical assistance, goods, or services requested by States, other political subdivisions, domestic and international organizations, foreign governments, or individuals, provided that such fees are structured such that any entity's liability for such fees is reasonably based on the technical assistance, goods, or services provided to the entity by the agency, and such fees shall be credited to this account, to remain available until expended, without further appropriation, for providing such assistance, goods, or services.

BUILDINGS AND FACILITIES

For plans, construction, repair, preventive maintenance, environmental support, improvement, extension, alteration, and purchase of fixed equipment or facilities, as authorized by 7 U.S.C. 2250, and acquisition of land as authorized by 7 U.S.C. 428a, \$4,712,000, to remain available until expended.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

For necessary expenses of the Agricultural Marketing Service, \$90,848,000: Provided, That this appropriation shall be available pursuant to law (7 U.S.C. 2250) for the alteration and repair of buildings and improvements, but the cost of altering any one building during the fiscal year shall not exceed 10 percent of the current replacement value of the building.

Fees may be collected for the cost of standardization activities, as established by regulation pursuant to law (31 U.S.C. 9701).

LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed \$64,583,000 (from fees collected) shall be obligated during the current fiscal year for administrative expenses: Provided, That if crop size is understated and/or other uncontrollable events occur, the agency may exceed this limitation by up to 10 percent with notification to the Committees on Appropriations of both Houses of Congress.

FUNDS FOR STRENGTHENING MARKETS, INCOME, AND SUPPLY (SECTION 32)

(INCLUDING TRANSFERS OF FUNDS)

Funds available under section 32 of the Act of August 24, 1935 (7 U.S.C. 612c), shall be used only for commodity program expenses as authorized therein, and other related operating expenses, including not less than \$20,000,000 for replacement of a system to support commodity purchases, except for: (1) transfers to the Department of Commerce as authorized by the Fish and Wildlife Act of August 8, 1956; (2) transfers otherwise provided in this Act; and (3) not more

than \$20,056,000 for formulation and administration of marketing agreements and orders pursuant to the Agricultural Marketing Agreement Act of 1937 and the Agricultural Act of 1961.

PAYMENTS TO STATES AND POSSESSIONS

For payments to departments of agriculture, bureaus and departments of markets, and similar agencies for marketing activities under section 204(b) of the Agricultural Marketing Act of 1946 (7 U.S.C. 1623(b)), \$1,334,000.

GRAIN INSPECTION, PACKERS AND STOCKYARDS ADMINISTRATION

SALARIES AND EXPENSES

For necessary expenses of the Grain Inspection, Packers and Stockyards Administration, \$41,564,000: Provided, That this appropriation shall be available pursuant to law (7 U.S.C. 2250) for the alteration and repair of buildings and improvements, but the cost of altering any one building during the fiscal year shall not exceed 10 percent of the current replacement value of the building.

LIMITATION ON INSPECTION AND WEIGHING SERVICES EXPENSES

Not to exceed \$42,463,000 (from fees collected) shall be obligated during the current fiscal year for inspection and weighing services: Provided, That if grain export activities require additional supervision and oversight, or other uncontrollable factors occur, this limitation may be exceeded by up to 10 percent with notification to the Committees on Appropriations of both Houses of Congress.

OFFICE OF THE UNDER SECRETARY FOR FOOD SAFETY

For necessary expenses of the Office of the Under Secretary for Food Safety, \$813,000.

FOOD SAFETY AND INSPECTION SERVICE

For necessary expenses to carry out services authorized by the Federal Meat Inspection Act, the Poultry Products Inspection Act, and the Egg Products Inspection Act, including not to exceed \$50,000 for representation allowances and for expenses pursuant to section 8 of the Act approved August 3, 1956 (7 U.S.C. 1766), \$1,018,520,000; and in addition, \$1,000,000 may be credited to this account from fees collected for the cost of laboratory accreditation as authorized by section 1327 of the Food, Agriculture, Conservation and Trade Act of 1990 (7 U.S.C. 138f): Provided, That funds provided for the Public Health Data Communication Infrastructure system shall remain available until expended: Provided further, That no fewer than 150 full-time equivalent positions shall be employed during fiscal year 2010 for purposes dedicated solely to inspections and enforcement related to the Humane Methods of Slaughter Act: Provided further, That of the amount available under this heading, \$3,000,000 shall be obligated to maintain the Humane Animal Tracking System as part of the Public Health Data Communication Infrastructure System: Provided further, That this appropriation shall be available pursuant to law (7 U.S.C. 2250) for the alteration and repair of buildings and improvements, but the cost of altering any one building during the fiscal year shall not exceed 10 percent of the current replacement value of the building.

OFFICE OF THE UNDER SECRETARY FOR FARM AND FOREIGN AGRICULTURAL SERVICES

For necessary expenses of the Office of the Under Secretary for Farm and Foreign Agricultural Services, \$895,000.

FARM SERVICE AGENCY

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Farm Service Agency, \$1,603,777,000: Provided, That the Secretary is authorized to use the services, facili-

ties, and authorities (but not the funds) of the Commodity Credit Corporation to make program payments for all programs administered by the Agency: Provided further, That other funds made available to the Agency for authorized activities may be advanced to and merged with this account: Provided further, That funds made available to county committees shall remain available until expended.

STATE MEDIATION GRANTS

For grants pursuant to section 502(b) of the Agricultural Credit Act of 1987, as amended (7 U.S.C. 5101–5106), \$4,369,000.

GRASSROOTS SOURCE WATER PROTECTION PROGRAM

For necessary expenses to carry out wellhead or groundwater protection activities under section 12400 of the Food Security Act of 1985 (16 U.S.C. 3839bb–2), \$5,000,000, to remain available until expended.

DAIRY INDEMNITY PROGRAM

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses involved in making indemnity payments to dairy farmers and manufacturers of dairy products under a dairy indemnity program, such sums as may be necessary, to remain available until expended: Provided, That such program is carried out by the Secretary in the same manner as the dairy indemnity program described in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2001 (Public Law 106–387, 114 Stat. 1549A–12).

AGRICULTURAL CREDIT INSURANCE FUND PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

For gross obligations for the principal amount of direct and guaranteed farm ownership (7 U.S.C. 1922 et seq.) and operating (7 U.S.C. 1941 et seq.) loans, Indian tribe land acquisition loans (25 U.S.C. 488), boll weevil loans (7 U.S.C. 1989), direct and guaranteed conservation loans (7 U.S.C. 1924 et seq.) and Indian highly fractionated land loans (25 U.S.C. 488), to be available from funds in the Agricultural Credit Insurance Fund, as follows: farm ownership loans, \$1,892,990,000, of which \$1,500,000,000 shall be for unsubsidized guaranteed loans and \$392,990,000 shall be for direct loans; operating loans, \$1,994,467,000, of which \$1,150,000,000 shall be for unsubsidized guaranteed loans, \$144,467,000 shall be for subsidized guaranteed loans and \$700,000,000 shall be for direct loans; Indian tribe land acquisition loans, \$2,000,000; conservation loans, \$150,000,000, of which \$75,000,000 shall be for guaranteed loans and \$75,000,000 shall be for direct loans; Indian highly fractionated land loans, \$10,000,000; and for boll weevil eradication program loans, \$100,000,000: Provided, That the Secretary shall deem the pink bollworm to be a boll weevil for the purpose of boll weevil eradication program loans.

For the cost of direct and guaranteed loans, including the cost of modifying loans as defined in section 502 of the Congressional Budget Act of 1974, as follows: farm ownership loans, \$21,584,000, of which \$5,550,000 shall be for unsubsidized guaranteed loans, and \$16,034,000 shall be for direct loans; operating loans, \$80,402,000, of which \$26,910,000 shall be for unsubsidized guaranteed loans, \$20,312,000 shall be for subsidized guaranteed loans, and \$33,180,000 shall be for direct loans; conservation loans, \$1,343,000, of which \$278,000 shall be for guaranteed loans, and \$1,065,000 shall be for direct loans; and Indian highly fractionated land loans, \$793,000.

In addition, for administrative expenses necessary to carry out the direct and guaranteed loan programs, \$321,093,000, of which \$313,173,000 shall be transferred to and merged

with the appropriation for “Farm Service Agency, Salaries and Expenses”.

Funds appropriated by this Act to the Agricultural Credit Insurance Program Account for farm ownership, operating, and conservation direct loans and guaranteed loans may be transferred among these programs: Provided, That the Committees on Appropriations of both Houses of Congress are notified at least 15 days in advance of any transfer.

RISK MANAGEMENT AGENCY

For necessary expenses of the Risk Management Agency, \$79,425,000: Provided, That the funds made available under section 522(e) of the Federal Crop Insurance Act (7 U.S.C. 1522(e)) may be used for the Common Information Management System: Provided further, That not to exceed \$1,000 shall be available for official reception and representation expenses, as authorized by 7 U.S.C. 1506(i).

CORPORATIONS

The following corporations and agencies are hereby authorized to make expenditures, within the limits of funds and borrowing authority available to each such corporation or agency and in accord with law, and to make contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act as may be necessary in carrying out the programs set forth in the budget for the current fiscal year for such corporation or agency, except as hereinafter provided.

FEDERAL CROP INSURANCE CORPORATION FUND

For payments as authorized by section 516 of the Federal Crop Insurance Act (7 U.S.C. 1516), such sums as may be necessary, to remain available until expended.

COMMODITY CREDIT CORPORATION FUND

REIMBURSEMENT FOR NET REALIZED LOSSES

(INCLUDING TRANSFERS OF FUNDS)

For the current fiscal year, such sums as may be necessary to reimburse the Commodity Credit Corporation for net realized losses sustained, but not previously reimbursed, pursuant to section 2 of the Act of August 17, 1961 (15 U.S.C. 713a–11): Provided, That of the funds available to the Commodity Credit Corporation under section 11 of the Commodity Credit Corporation Charter Act (15 U.S.C. 714i) for the conduct of its business with the Foreign Agricultural Service, up to \$5,000,000 may be transferred to and used by the Foreign Agricultural Service for information resource management activities of the Foreign Agricultural Service that are not related to Commodity Credit Corporation business.

HAZARDOUS WASTE MANAGEMENT

(LIMITATION ON EXPENSES)

For the current fiscal year, the Commodity Credit Corporation shall not expend more than \$5,000,000 for site investigation and cleanup expenses, and operations and maintenance expenses to comply with the requirement of section 107(g) of the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9607(g)), and section 6001 of the Resource Conservation and Recovery Act (42 U.S.C. 6961).

TITLE II

CONSERVATION PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR NATURAL RESOURCES AND ENVIRONMENT

For necessary expenses of the Office of the Under Secretary for Natural Resources and Environment, \$895,000.

NATURAL RESOURCES CONSERVATION SERVICE

CONSERVATION OPERATIONS

For necessary expenses for carrying out the provisions of the Act of April 27, 1935 (16 U.S.C. 590a–f), including preparation of conservation

plans and establishment of measures to conserve soil and water (including farm irrigation and land drainage and such special measures for soil and water management as may be necessary to prevent floods and the siltation of reservoirs and to control agricultural related pollutants); operation of conservation plant materials centers; classification and mapping of soil; dissemination of information; acquisition of lands, water, and interests therein for use in the plant materials program by donation, exchange, or purchase at a nominal cost not to exceed \$100 pursuant to the Act of August 3, 1956 (7 U.S.C. 428a); purchase and erection or alteration or improvement of permanent and temporary buildings; and operation and maintenance of aircraft, \$949,577,000, to remain available until September 30, 2011, of which up to \$50,730,000 may be used in planning and carrying out projects for resource conservation and development and for sound land use pursuant to the provisions of sections 31 and 32 of the Bankhead-Jones Farm Tenant Act (7 U.S.C. 1010-1011; 76 Stat. 607); the Act of April 27, 1935 (16 U.S.C. 590a-590f); and subtitle H of title XV of the Agriculture and Food Act of 1981 (16 U.S.C. 3451-3461), and of which \$21,511,000 shall be for the purposes, and in the amounts, specified in the table titled "Congressionally Designated Projects" in the report to accompany this Act: Provided, That appropriations hereunder shall be available pursuant to 7 U.S.C. 2250 for construction and improvement of buildings and public improvements at plant materials centers, except that the cost of alterations and improvements to other buildings and other public improvements shall not exceed \$250,000: Provided further, That the Secretary is authorized to transfer ownership of all land, buildings, and related improvements of the Natural Resources Conservation Service facilities located in Medicine Bow, Wyoming, to the Medicine Bow Conservation District: Provided further, That when buildings or other structures are erected on non-Federal land, that the right to use such land is obtained as provided in 7 U.S.C. 2250a.

WATERSHED AND FLOOD PREVENTION OPERATIONS

For necessary expenses to carry out preventive measures, including but not limited to research, engineering operations, methods of cultivation, the growing of vegetation, rehabilitation of existing works and changes in use of land, in accordance with the Watershed Protection and Flood Prevention Act (16 U.S.C. 1001-1005 and 1007-1009), the provisions of the Act of April 27, 1935 (16 U.S.C. 590a-f), and in accordance with the provisions of laws relating to the activities of the Department, \$24,394,000, to remain available until expended, of which \$16,750,000 shall be for the purposes, and in the amounts, specified in the table titled "Congressionally Designated Projects" in the report to accompany this Act: Provided, That not to exceed \$15,000,000 of this appropriation shall be available for technical assistance.

WATERSHED REHABILITATION PROGRAM

For necessary expenses to carry out rehabilitation of structural measures, in accordance with section 14 of the Watershed Protection and Flood Prevention Act (16 U.S.C. 1012), and in accordance with the provisions of laws relating to the activities of the Department, \$40,161,000, to remain available until expended.

TITLE III

RURAL DEVELOPMENT PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR RURAL DEVELOPMENT

For necessary expenses of the Office of the Under Secretary for Rural Development, \$895,000.

RURAL DEVELOPMENT SALARIES AND EXPENSES (INCLUDING TRANSFERS OF FUNDS)

For necessary expenses for carrying out the administration and implementation of programs in the Rural Development mission area, including activities with institutions concerning the development and operation of agricultural cooperatives; and for cooperative agreements; \$207,237,000: Provided, That notwithstanding any other provision of law, funds appropriated under this section may be used for advertising and promotional activities that support the Rural Development mission area: Provided further, That not more than \$10,000 may be expended to provide modest nonmonetary awards to non-USA employees: Provided further, That any balances available from prior years for the Rural Utilities Service, Rural Housing Service, and the Rural Business-Cooperative Service salaries and expenses accounts shall be transferred to and merged with this appropriation.

RURAL HOUSING SERVICE

RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

For gross obligations for the principal amount of direct and guaranteed loans as authorized by title V of the Housing Act of 1949, to be available from funds in the rural housing insurance fund, as follows: \$13,226,501,000 for loans to section 502 borrowers, of which \$1,226,501,000 shall be for direct loans, and of which \$12,000,000,000 shall be for unsubsidized guaranteed loans; \$34,412,000 for section 504 housing repair loans; \$69,512,000 for section 515 rental housing; \$129,090,000 for section 538 guaranteed multi-family housing loans; \$5,045,000 for section 524 site loans; \$11,448,000 for credit sales of acquired property, of which up to \$1,448,000 may be for multi-family credit sales; and \$4,970,000 for section 523 self-help housing land development loans.

For the cost of direct and guaranteed loans, including the cost of modifying loans, as defined in section 502 of the Congressional Budget Act of 1974, as follows: section 502 loans, \$217,322,000, of which \$44,522,000 shall be for direct loans, and of which \$172,800,000, to remain available until expended, shall be for unsubsidized guaranteed loans; section 504 housing repair loans, \$4,422,000; repair, rehabilitation, and new construction of section 515 rental housing, \$18,935,000; section 538 multi-family housing guaranteed loans, \$1,485,000; and credit sales of acquired property, \$556,000: Provided, That section 538 multi-family housing guaranteed loans funded pursuant to this paragraph shall not be subject to a guarantee fee and the interest on such loans may not be subsidized: Provided further, That any balances for a demonstration program for the preservation and revitalization of the section 515 multi-family rental housing properties as authorized by Public Law 109-97 and Public Law 110-5 shall be transferred to and merged with the "Rural Housing Service, Multi-family Housing Revitalization Program Account".

In addition, for administrative expenses necessary to carry out the direct and guaranteed loan programs, \$468,593,000, which shall be transferred to and merged with the appropriation for "Rural Development, Salaries and Expenses".

RENTAL ASSISTANCE PROGRAM

For rental assistance agreements entered into or renewed pursuant to the authority under section 521(a)(2) or agreements entered into in lieu of debt forgiveness or payments for eligible households as authorized by section 502(c)(5)(D) of the Housing Act of 1949, \$980,000,000; and, in addition, such sums as may be necessary, as authorized by section 521(c) of the Act, to liquidate

debt incurred prior to fiscal year 1992 to carry out the rental assistance program under section 521(a)(2) of the Act: Provided, That of this amount, up to \$5,958,000 may be available for debt forgiveness or payments for eligible households as authorized by section 502(c)(5)(D) of the Act, and not to exceed \$50,000 per project for advances to nonprofit organizations or public agencies to cover direct costs (other than purchase price) incurred in purchasing projects pursuant to section 502(c)(5)(C) of the Act: Provided further, That of this amount not less than \$2,030,000 is available for newly constructed units financed by section 515 of the Housing Act of 1949, and not less than \$3,400,000 is for newly constructed units financed under sections 514 and 516 of the Housing Act of 1949: Provided further, That rental assistance agreements entered into or renewed during the current fiscal year shall be funded for a one-year period: Provided further, That any unexpended balances remaining at the end of such one-year agreements may be transferred and used for the purposes of any debt reduction; maintenance, repair, or rehabilitation of any existing projects; preservation; and rental assistance activities authorized under title V of the Act: Provided further, That rental assistance provided under agreements entered into prior to fiscal year 2010 for a farm labor multi-family housing project financed under section 514 or 516 of the Act may not be recaptured for use in another project until such assistance has remained unused for a period of 12 consecutive months, if such project has a waiting list of tenants seeking such assistance or the project has rental assistance eligible tenants who are not receiving such assistance: Provided further, That such recaptured rental assistance shall, to the extent practicable, be applied to another farm labor multi-family housing project financed under section 514 or 516 of the Act.

MULTI-FAMILY HOUSING REVITALIZATION PROGRAM ACCOUNT

For the rural housing voucher program as authorized under section 542 of the Housing Act of 1949, but notwithstanding subsection (b) of such section, for the cost to conduct a housing demonstration program to provide revolving loans for the preservation of low-income multi-family housing projects, and for additional costs to conduct a demonstration program for the preservation and revitalization of multi-family rental housing properties described in this paragraph, \$39,651,000, to remain available until expended: Provided, That of the funds made available under this heading, \$18,000,000 shall be available for rural housing vouchers to any low-income household (including those not receiving rental assistance) residing in a property financed with a section 515 loan which has been prepaid after September 30, 2005: Provided further, That the amount of such voucher shall be the difference between comparable market rent for the section 515 unit and the tenant paid rent for such unit: Provided further, That funds made available for such vouchers shall be subject to the availability of annual appropriations: Provided further, That the Secretary shall, to the maximum extent practicable, administer such vouchers with current regulations and administrative guidance applicable to section 8 housing vouchers administered by the Secretary of the Department of Housing and Urban Development (including the ability to pay administrative costs related to delivery of the voucher funds): Provided further, That if the Secretary determines that the amount made available for vouchers in this or any other Act is not needed for vouchers, the Secretary may use such funds for the demonstration programs for the preservation and revitalization of multi-family rental housing properties described in this paragraph:

Provided further, That of the funds made available under this heading, \$1,791,000 shall be available for the cost of loans to private nonprofit organizations, or such nonprofit organizations' affiliate loan funds and State and local housing finance agencies, to carry out a housing demonstration program to provide revolving loans for the preservation of low-income multi-family housing projects: Provided further, That loans under such demonstration program shall have an interest rate of not more than 1 percent direct loan to the recipient: Provided further, That the Secretary may defer the interest and principal payment to the Rural Housing Service for up to 3 years and the term of such loans shall not exceed 30 years: Provided further, That of the funds made available under this heading, \$19,860,000 shall be available for a demonstration program for the preservation and revitalization of the section 514, 515, and 516 multi-family rental housing properties to restructure existing USDA multi-family housing loans, as the Secretary deems appropriate, expressly for the purposes of ensuring the project has sufficient resources to preserve the project for the purpose of providing safe and affordable housing for low-income residents and farm laborers including reducing or eliminating interest; deferring loan payments, subordinating, reducing or reamortizing loan debt; and other financial assistance including advances, payments and incentives (including the ability of owners to obtain reasonable returns on investment) required by the Secretary: Provided further, That the Secretary shall as part of the preservation and revitalization agreement obtain a restrictive use agreement consistent with the terms of the restructuring: Provided further, That if the Secretary determines that additional funds for vouchers described in this paragraph are needed, funds for the preservation and revitalization demonstration program may be used for such vouchers: Provided further, That the Secretary may use any unobligated funds appropriated for the rural housing voucher program in a prior fiscal year to support information technology activities of the Rural Housing Service to the extent the Secretary determines that additional funds are not needed for this fiscal year to provide vouchers described in this paragraph: Provided further, That if Congress enacts legislation to permanently authorize a multi-family rental housing loan restructuring program similar to the demonstration program described herein, the Secretary may use funds made available for the demonstration program under this heading to carry out such legislation with the prior notification of the Committees on Appropriations of both Houses of Congress.

MUTUAL AND SELF-HELP HOUSING GRANTS

For grants and contracts pursuant to section 523(b)(1)(A) of the Housing Act of 1949 (42 U.S.C. 1490c), \$38,727,000, to remain available until expended.

RURAL HOUSING ASSISTANCE GRANTS

(INCLUDING TRANSFER OF FUNDS)

For grants and contracts for very low-income housing repair, supervisory and technical assistance, compensation for construction defects, and rural housing preservation made by the Rural Housing Service, as authorized by 42 U.S.C. 1474, 1479(c), 1490e, and 1490m, \$41,500,000, to remain available until expended: Provided, That any balances to carry out a housing demonstration program to provide revolving loans for the preservation of low-income multi-family housing projects as authorized in Public Law 108-447 and Public Law 109-97 shall be transferred to and merged with the "Rural Housing Service, Multi-family Housing Revitalization Program Account".

FARM LABOR PROGRAM ACCOUNT

For the cost of direct loans, grants, and contracts, as authorized by 42 U.S.C. 1484 and 1486, \$16,968,000, to remain available until expended, for direct farm labor housing loans and domestic farm labor housing grants and contracts.

RURAL COMMUNITY FACILITIES PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

For the cost of direct loans, loan guarantees, and grants for rural community facilities programs as authorized by section 306 and described in section 381E(d)(1) of the Consolidated Farm and Rural Development Act, \$54,993,000, to remain available until expended: Provided, That \$6,256,000 of the amount appropriated under this heading shall be available for a Rural Community Development Initiative: Provided further, That such funds shall be used solely to develop the capacity and ability of private, nonprofit community-based housing and community development organizations, low-income rural communities, and Federally Recognized Native American Tribes to undertake projects to improve housing, community facilities, community and economic development projects in rural areas: Provided further, That such funds shall be made available to qualified private, nonprofit and public intermediary organizations proposing to carry out a program of financial and technical assistance: Provided further, That such intermediary organizations shall provide matching funds from other sources, including Federal funds for related activities, in an amount not less than funds provided: Provided further, That \$13,902,000 of the amount appropriated under this heading shall be to provide grants for facilities in rural communities with extreme unemployment and severe economic depression (Public Law 106-387), with up to 5 percent for administration and capacity building in the State rural development offices: Provided further, That \$3,972,000 of the amount appropriated under this heading shall be available for community facilities grants to tribal colleges, as authorized by section 306(a)(19) of such Act: Provided further, That sections 381E-H and 381N of the Consolidated Farm and Rural Development Act are not applicable to the funds made available under this heading: Provided further, That any prior balances in the Rural Development, Rural Community Advancement Program account for programs authorized by section 306 and described in section 381E(d)(1) of such Act be transferred and merged with this account and any other prior balances from the Rural Development, Rural Community Advancement Program account that the Secretary determines is appropriate to transfer.

RURAL BUSINESS—COOPERATIVE SERVICE

RURAL BUSINESS PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

For the cost of loan guarantees and grants, for the rural business development programs authorized by sections 306 and 310B and described in sections 310B(f) and 381E(d)(3) of the Consolidated Farm and Rural Development Act, \$97,116,000, to remain available until expended: Provided, That of the amount appropriated under this heading, not to exceed \$500,000 shall be made available for a grant to a qualified national organization to provide technical assistance for rural transportation in order to promote economic development and \$2,979,000 shall be for grants to the Delta Regional Authority (7 U.S.C. 2009aa et seq.) for any Rural Community Advancement Program purpose as described in section 381E(d) of the Consolidated Farm and Rural Development Act, of which not more than 5 percent may be used for administrative expenses: Provided further, That \$4,000,000 of the amount appropriated under this heading shall

be for business grants to benefit Federally Recognized Native American Tribes, including \$250,000 for a grant to a qualified national organization to provide technical assistance for rural transportation in order to promote economic development: Provided further, That sections 381E-H and 381N of the Consolidated Farm and Rural Development Act are not applicable to funds made available under this heading: Provided further, That any prior balances in the Rural Development, Rural Community Advancement Program account for programs authorized by sections 306 and 310B and described in sections 310B(f) and 381E(d)(3) of such Act be transferred and merged with this account and any other prior balances from the Rural Development, Rural Community Advancement Program account that the Secretary determines is appropriate to transfer.

RURAL DEVELOPMENT LOAN FUND PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

For the principal amount of direct loans, as authorized by the Rural Development Loan Fund (42 U.S.C. 9812(a)), \$33,536,000.

For the cost of direct loans, \$8,464,000, as authorized by the Rural Development Loan Fund (42 U.S.C. 9812(a)), of which \$1,035,000 shall be available through June 30, 2010, for Federally Recognized Native American Tribes and of which \$2,070,000 shall be available through June 30, 2010, for Mississippi Delta Region counties (as determined in accordance with Public Law 100-460): Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974.

In addition, for administrative expenses to carry out the direct loan programs, \$4,941,000 shall be transferred to and merged with the appropriation for "Rural Development, Salaries and Expenses".

RURAL ECONOMIC DEVELOPMENT LOANS PROGRAM ACCOUNT

(INCLUDING RESCISSION OF FUNDS)

For the principal amount of direct loans, as authorized under section 313 of the Rural Electrification Act, for the purpose of promoting rural economic development and job creation projects, \$33,077,000.

Of the funds derived from interest on the cushion of credit payments, as authorized by section 313 of the Rural Electrification Act of 1936, \$43,000,000 shall not be obligated and \$43,000,000 are rescinded.

RURAL COOPERATIVE DEVELOPMENT GRANTS

For rural cooperative development grants authorized under section 310B(e) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1932(i)), \$38,854,000, of which \$300,000 shall be for a cooperative research agreement with a qualified academic institution to conduct research on the national economic impact of all types of cooperatives; and of which \$2,800,000 shall be for cooperative agreements for the appropriate technology transfer for rural areas program: Provided, That not to exceed \$3,463,000 shall be for cooperatives or associations of cooperatives whose primary focus is to provide assistance to small, socially disadvantaged producers and whose governing board and/or membership is comprised of at least 75 percent socially disadvantaged members; and of which \$21,867,000, to remain available until expended, shall be for value-added agricultural product market development grants, as authorized by section 231 of the Agricultural Risk Protection Act of 2000 (7 U.S.C. 1621 note).

RURAL MICROENTERPRISE INVESTMENT PROGRAM ACCOUNT

For the cost of loans and grants, \$22,000,000 as authorized by section 379E of the Consolidated Farm and Rural Development Act (7

U.S.C. 1981 et seq.): Provided, That such costs of loans, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974.

RURAL ENERGY FOR AMERICA PROGRAM

For the cost of a program of loan guarantees and grants, under the same terms and conditions as authorized by section 9007 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8107), \$68,130,000: Provided, That the cost of loan guarantees, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974.

BIOREFINERY ASSISTANCE PROGRAM ACCOUNT

For the cost of guaranteed loans, \$17,339,000, as authorized by section 9003 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8107): Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974.

RURAL UTILITIES SERVICE

RURAL WATER AND WASTE DISPOSAL PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

For the cost of direct loans, loan guarantees, and grants for the rural water, waste water, waste disposal, and solid waste management programs authorized by sections 306, 306A, 306C, 306D, 306E, and 310B and described in sections 306C(a)(2), 306D, 306E, and 381E(d)(2) of the Consolidated Farm and Rural Development Act, \$568,730,000, to remain available until expended, of which not to exceed \$497,000 shall be available for the rural utilities program described in section 306(a)(2)(B) of such Act, and of which not to exceed \$993,000 shall be available for the rural utilities program described in section 306E of such Act: Provided, That \$70,000,000 of the amount appropriated under this heading shall be for loans and grants including water and waste disposal systems grants authorized by 306C(a)(2)(B) and 306D of the Consolidated Farm and Rural Development Act, Federally-recognized Native American Tribes authorized by 306C(a)(1), and the Department of Hawaiian Home Lands (of the State of Hawaii): Provided further, That such loans and grants shall not be subject to any matching requirements: Provided further, That not to exceed \$19,000,000 of the amount appropriated under this heading shall be for technical assistance grants for rural water and waste systems pursuant to section 306(a)(14) of such Act, unless the Secretary makes a determination of extreme need, of which \$5,600,000 shall be made available for a grant to a qualified non-profit multi-state regional technical assistance organization, with experience in working with small communities on water and waste water problems, the principal purpose of such grant shall be to assist rural communities with populations of 3,300 or less, in improving the planning, financing, development, operation, and management of water and waste water systems, and of which not less than \$800,000 shall be for a qualified national Native American organization to provide technical assistance for rural water systems for tribal communities: Provided further, That not to exceed \$14,000,000 of the amount appropriated under this heading shall be for contracting with qualified national organizations for a circuit rider program to provide technical assistance for rural water systems: Provided further, That \$17,500,000 of the amount appropriated under this heading shall be transferred to, and merged with, the Rural Utilities Service, High Energy Cost Grants Account to provide grants authorized under section 19 of the Rural Electrification Act of 1936 (7 U.S.C. 918a): Provided further, That any prior year balances for high cost energy grants authorized by section 19 of the

Rural Electrification Act of 1936 (7 U.S.C. 918a) shall be transferred to and merged with the Rural Utilities Service, High Energy Costs Grants Account: Provided further, That sections 381E-H and 381N of the Consolidated Farm and Rural Development Act are not applicable to the funds made available under this heading: Provided further, That any prior balances in the Rural Development, Rural Community Advancement Program account programs authorized by sections 306, 306A, 306C, 306D, 306E, and 310B and described in sections 306C(a)(2), 306D, 306E, and 381E(d)(2) of such Act be transferred to and merged with this account and any other prior balances from the Rural Development, Rural Community Advancement Program account that the Secretary determines is appropriate to transfer.

RURAL ELECTRIFICATION AND TELECOMMUNICATIONS LOANS PROGRAM ACCOUNT (INCLUDING TRANSFER OF FUNDS)

The principal amount of direct and guaranteed loans as authorized by sections 305 and 306 of the Rural Electrification Act of 1936 (7 U.S.C. 935 and 936) shall be made as follows: 5 percent rural electrification loans, \$100,000,000; loans made pursuant to section 306 of that Act, rural electric, \$6,500,000,000; guaranteed underwriting loans pursuant to section 313A, \$500,000,000; 5 percent rural telecommunications loans, \$145,000,000; cost of money rural telecommunications loans, \$250,000,000; and for loans made pursuant to section 306 of that Act, rural telecommunications loans, \$295,000,000.

In addition, for administrative expenses necessary to carry out the direct and guaranteed loan programs, \$39,959,000, which shall be transferred to and merged with the appropriation for "Rural Development, Salaries and Expenses".

DISTANCE LEARNING, TELEMEDICINE, AND BROADBAND PROGRAM

For the principal amount of broadband telecommunication loans, \$331,699,000.

For grants for telemedicine and distance learning services in rural areas, as authorized by 7 U.S.C. 950aaa et seq., \$37,755,000, to remain available until expended: Provided, That \$3,000,000 shall be made available for grants authorized by 379G of the Consolidated Farm and Rural Development Act: Provided further, That \$4,965,000 shall be made available to those non-commercial educational television broadcast stations that serve rural areas and are qualified for Community Service Grants by the Corporation for Public Broadcasting under section 396(k) of the Communications Act of 1934, including associated translators and repeaters, regardless of the location of their main transmitter, studio-to-transmitter links, and equipment to allow local control over digital content and programming through the use of high-definition broadcast, multi-casting and datacasting technologies.

For the cost of broadband loans, as authorized by section 601 of the Rural Electrification Act, \$38,495,000, to remain available until expended: Provided, That the cost of direct loans shall be as defined in section 502 of the Congressional Budget Act of 1974.

In addition, \$13,406,000, to remain available until expended, for a grant program to finance broadband transmission in rural areas eligible for Distance Learning and Telemedicine Program benefits authorized by 7 U.S.C. 950aaa.

TITLE IV

DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION AND CONSUMER SERVICES

For necessary expenses of the Office of the Under Secretary for Food, Nutrition and Consumer Services, \$813,000.

FOOD AND NUTRITION SERVICE CHILD NUTRITION PROGRAMS (INCLUDING TRANSFERS OF FUNDS)

In lieu of the amounts made available in section 14222(b) of the Food, Conservation, and Energy Act of 2008, for necessary expenses to carry out the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.), except section 21, and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.), except sections 17 and 21; \$16,801,584,000, to remain available through September 30, 2011, of which \$2,000,000 may be used to carry out the school community garden pilot program established under section 18(g)(3) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1769(g)(3)) and shall be derived by transfer of the amount made available under the heading "ANIMAL AND PLANT HEALTH INSPECTION SERVICE" of title I for "SALARIES AND EXPENSES" of which \$10,051,707,000 is hereby appropriated and \$6,747,877,000 shall be derived by transfer from funds available under section 32 of the Act of August 24, 1935 (7 U.S.C. 612c): Provided, That of the total amount available, \$5,000,000 shall be available to be awarded as competitive grants to implement section 4405 of the Food, Conservation, and Energy Act of 2008 (Public Law 110-246), and may be awarded notwithstanding the limitations imposed by sections 4405(b)(1)(A) and 4405(c)(1)(A).

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

For necessary expenses to carry out the WIC Program as authorized by section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786), \$7,552,000,000, to remain available through September 30, 2011: Provided, That none of the funds provided in this account shall be available for the purchase of infant formula except in accordance with the cost containment and competitive bidding requirements specified in section 17 of such Act: Provided further, That none of the funds provided shall be available for activities that are not fully reimbursed by other Federal Government departments or agencies unless authorized by section 17 of such Act.

SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM

For necessary expenses to carry out the Food and Nutrition Act of 2008 (7 U.S.C. 2011 et seq.), \$61,351,846,000, of which \$3,000,000,000, to remain available through September 30, 2011, shall be placed in reserve for use only in such amounts and at such times as may become necessary to carry out program operations: Provided, That funds provided herein shall be expended in accordance with section 16 of the Food and Nutrition Act of 2008: Provided further, That this appropriation shall be subject to any work registration or workfare requirements as may be required by law: Provided further, That funds made available for Employment and Training under this heading shall remain available until expended, notwithstanding section 16(h)(1) of the Food and Nutrition Act of 2008: Provided further, That funds made available under this heading may be used to enter into contracts and employ staff to conduct studies, evaluations, or to conduct activities related to program integrity provided that such activities are authorized by the Food and Nutrition Act of 2008.

COMMODITY ASSISTANCE PROGRAM

For necessary expenses to carry out disaster assistance and the Commodity Supplemental Food Program as authorized by section 4(a) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note); the Emergency Food Assistance Act of 1983; special assistance for the nuclear affected islands, as authorized by section 103(f)(2) of the Compact of Free Association Amendments Act of 2003 (Public Law 108-188); and the Farmers' Market Nutrition Program, as

authorized by section 17(m) of the Child Nutrition Act of 1966, \$233,388,000, to remain available through September 30, 2011: Provided, That none of these funds shall be available to reimburse the Commodity Credit Corporation for commodities donated to the program: Provided further, That notwithstanding any other provision of law, effective with funds made available in fiscal year 2010 to support the Seniors Farmers' Market Nutrition Program, as authorized by section 4402 of the Farm Security and Rural Investment Act of 2002, such funds shall remain available through September 30, 2011: Provided further, That of the funds made available under section 27(a) of the Food and Nutrition Act of 2008 (7 U.S.C. 2036(a)), the Secretary may use up to 10 percent for costs associated with the distribution of commodities.

NUTRITION PROGRAMS ADMINISTRATION

For necessary administrative expenses of the Food and Nutrition Service for carrying out any domestic nutrition assistance program, \$147,801,000.

TITLE V

FOREIGN ASSISTANCE AND RELATED PROGRAMS

FOREIGN AGRICULTURAL SERVICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Foreign Agricultural Service, including not to exceed \$158,000 for representation allowances and for expenses pursuant to section 8 of the Act approved August 3, 1956 (7 U.S.C. 1766), \$180,367,000: Provided, That the Service may utilize advances of funds, or reimburse this appropriation for expenditures made on behalf of Federal agencies, public and private organizations and institutions under agreements executed pursuant to the agricultural food production assistance programs (7 U.S.C. 1737) and the foreign assistance programs of the United States Agency for International Development: Provided further, That funds made available for middle-income country training programs and up to \$2,000,000 of the Foreign Agricultural Service appropriation solely for the purpose of offsetting fluctuations in international currency exchange rates, subject to documentation by the Foreign Agricultural Service, shall remain available until expended.

FOOD FOR PEACE TITLE I DIRECT CREDIT AND FOOD FOR PROGRESS PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

For administrative expenses to carry out the credit program of title I, Public Law 83-480 and the Food for Progress Act of 1985, \$2,812,000, shall be transferred to and merged with the appropriation for "Farm Service Agency, Salaries and Expenses": Provided, That funds made available for the cost of agreements under title I of the Agricultural Trade Development and Assistance Act of 1954 and for title I ocean freight differential may be used interchangeably between the two accounts with prior notice to the Committees on Appropriations of both Houses of Congress.

FOOD FOR PEACE TITLE II GRANTS

For expenses during the current fiscal year, not otherwise recoverable, and unrecovered prior years' costs, including interest thereon, under the Food for Peace Act (Public Law 83-480, as amended), for commodities supplied in connection with dispositions abroad under title II of said Act, \$1,690,000,000, to remain available until expended.

COMMODITY CREDIT CORPORATION EXPORT LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

For administrative expenses to carry out the Commodity Credit Corporation's export guar-

antee program, GSM 102 and GSM 103, \$6,820,000; to cover common overhead expenses as permitted by section 11 of the Commodity Credit Corporation Charter Act and in conformity with the Federal Credit Reform Act of 1990, of which \$6,465,000 shall be transferred to and merged with the appropriation for "Foreign Agricultural Service, Salaries and Expenses", and of which \$355,000 shall be transferred to and merged with the appropriation for "Foreign Agricultural Service, Salaries and Expenses".

MC GOVERN-DOLE INTERNATIONAL FOOD FOR EDUCATION AND CHILD NUTRITION PROGRAM GRANTS

For necessary expenses to carry out the provisions of section 3107 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 1736o-1), \$199,500,000, to remain available until expended: Provided, That of this amount, the Secretary shall use up to \$10,000,000 to conduct pilot projects to field test new and improved micronutrient fortified food products designed to meet energy and nutrient needs of program participants: Provided further, That the Commodity Credit Corporation is authorized to provide the services, facilities, and authorities for the purpose of implementing such section, subject to reimbursement from amounts provided herein.

TITLE VI

RELATED AGENCY AND FOOD AND DRUG ADMINISTRATION

DEPARTMENT OF HEALTH AND HUMAN SERVICES

FOOD AND DRUG ADMINISTRATION

SALARIES AND EXPENSES

For necessary expenses of the Food and Drug Administration, including hire and purchase of passenger motor vehicles; for payment of space rental and related costs pursuant to Public Law 92-313 for programs and activities of the Food and Drug Administration which are included in this Act; for rental of special purpose space in the District of Columbia or elsewhere; for miscellaneous and emergency expenses of enforcement activities, authorized and approved by the Secretary and to be accounted for solely on the Secretary's certificate, not to exceed \$25,000; and notwithstanding section 521 of Public Law 107-188; \$3,230,218,000: Provided, That of the amount provided under this heading, \$578,162,000 shall be derived from prescription drug user fees authorized by 21 U.S.C. 379h shall be credited to this account and remain available until expended, and shall not include any fees pursuant to 21 U.S.C. 379h(a)(2) and (a)(3) assessed for fiscal year 2011 but collected in fiscal year 2010; \$57,014,000 shall be derived from medical device user fees authorized by 21 U.S.C. 379j, and shall be credited to this account and remain available until expended; \$17,280,000 shall be derived from animal drug user fees authorized by 21 U.S.C. 379j, and shall be credited to this account and remain available until expended; \$5,106,000 shall be derived from animal generic drug user fees authorized by 21 U.S.C. 379f, and shall be credited to this account and shall remain available until expended; and \$235,000,000 shall be derived from tobacco product user fees authorized by the Family Smoking Prevention and Tobacco Control Act (Public Law 111-31) and shall be credited to this account and remain available until expended: Provided further, That fees derived from prescription drug, medical device, animal drug, animal generic drug, and tobacco product assessments for fiscal year 2010 received during fiscal year 2010, including any such fees assessed prior to fiscal year 2010 but credited for fiscal year 2010, shall be subject to the fiscal year 2010 limitations: Provided further, That none of these funds shall be used to develop, establish, or operate any program of user fees authorized by 31 U.S.C. 9701: Provided further,

That of the total amount appropriated: (1) \$782,915,000 shall be for the Center for Food Safety and Applied Nutrition and related field activities in the Office of Regulatory Affairs; (2) \$873,104,000 shall be for the Center for Drug Evaluation and Research and related field activities in the Office of Regulatory Affairs, of which no less than \$51,545,000 shall be available for the Office of Generic Drugs; (3) \$305,249,000 shall be for the Center for Biologics Evaluation and Research and for related field activities in the Office of Regulatory Affairs; (4) \$155,540,000 shall be for the Center for Veterinary Medicine and for related field activities in the Office of Regulatory Affairs; (5) \$349,262,000 shall be for the Center for Devices and Radiological Health and for related field activities in the Office of Regulatory Affairs; (6) \$58,745,000 shall be for the National Center for Toxicological Research; (7) \$216,523,000 shall be for the Center for Tobacco Products and for related field activities in the Office of Regulatory Affairs; (8) not to exceed \$117,225,000 shall be for Rent and Related activities, of which \$41,496,000 is for White Oak Consolidation, other than the amounts paid to the General Services Administration for rent; (9) not to exceed \$171,526,000 shall be for payments to the General Services Administration for rent; and (10) \$200,129,000 shall be for other activities, including the Office of the Commissioner; the Office of Scientific and Medical Programs; the Office of Policy, Planning and Preparedness; the Office of International and Special Programs; the Office of Operations; and central services for these offices: Provided further, That the Commissioner, through the Center for Food Safety and Applied Nutrition, may conduct a study and, not later than one year after the date of enactment of this Act, submit a report to Congress on the psychological, physiological, and neurological similarities between addiction to certain types of food and addiction to classic drugs of abuse: Provided further, That funds may be transferred from one specified activity to another with the prior notification of the Committees on Appropriations of both Houses of Congress.

In addition, mammography user fees authorized by 42 U.S.C. 263b, export certification user fees authorized by 21 U.S.C. 381, and priority review user fees authorized by 21 U.S.C. 360n may be credited to this account, to remain available until expended.

BUILDINGS AND FACILITIES

For plans, construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities of or used by the Food and Drug Administration, where not otherwise provided, \$12,433,000, to remain available until expended.

INDEPENDENT AGENCY

FARM CREDIT ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed \$54,500,000 (from assessments collected from farm credit institutions, including the Federal Agricultural Mortgage Corporation) shall be obligated during the current fiscal year for administrative expenses as authorized under 12 U.S.C. 2249: Provided, That this limitation shall not apply to expenses associated with receiverships.

TITLE VII

GENERAL PROVISIONS

(INCLUDING RESCISSION)

SEC. 701. Within the unit limit of cost fixed by law, appropriations and authorizations made for the Department of Agriculture for the current fiscal year under this Act shall be available for the purchase, in addition to those specifically provided for, of not to exceed 204 passenger motor vehicles, of which 170 shall be for replacement only, and for the hire of such vehicles.

SEC. 702. Section 10101 of division B of the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009, (Public Law 110-329) is amended in subsection (b) by inserting at the end the following: "In carrying out this section, the Secretary may transfer funds into existing or new accounts as determined by the Secretary."

SEC. 703. The Secretary of Agriculture may transfer unobligated balances of discretionary funds appropriated by this Act or other available unobligated discretionary balances of the Department of Agriculture to the Working Capital Fund for the acquisition of plant and capital equipment necessary for the delivery of financial, administrative, and information technology services of primary benefit to the agencies of the Department of Agriculture: Provided, That none of the funds made available by this Act or any other Act shall be transferred to the Working Capital Fund without the prior notification of the agency administrator: Provided further, That none of the funds transferred to the Working Capital Fund pursuant to this section shall be available for obligation without the prior notification of the Committees on Appropriations of both Houses of Congress: Provided further, That none of the funds appropriated by this Act or made available to the Department's Working Capital Fund shall be available for obligation or expenditure to make any changes to the Department's National Finance Center without prior approval of the Committees on Appropriations of both Houses of Congress as required by section 712 of this Act: Provided further, That of annual income amounts in the Working Capital Fund of the Department of Agriculture allocated for the National Finance Center, the Secretary may reserve not more than 4 percent for the replacement or acquisition of capital equipment, including equipment for the improvement and implementation of a financial management plan, information technology, and other systems of the National Finance Center or to pay any unforeseen, extraordinary cost of the National Finance Center: Provided further, That none of the amounts reserved shall be available for obligation unless the Secretary submits notification of the obligation to the Committees on Appropriations of the House of Representatives and the Senate: Provided further, That the limitation on the obligation of funds pending notification to Congressional Committees shall not apply to any obligation that, as determined by the Secretary, is necessary to respond to a declared state of emergency that significantly impacts the operations of the National Finance Center; or to evacuate employees of the National Finance Center to a safe haven to continue operations of the National Finance Center.

SEC. 704. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 705. No funds appropriated by this Act may be used to pay negotiated indirect cost rates on cooperative agreements or similar arrangements between the United States Department of Agriculture and nonprofit institutions in excess of 10 percent of the total direct cost of the agreement when the purpose of such cooperative arrangements is to carry out programs of mutual interest between the two parties: Provided, That this does not preclude appropriate payment of indirect costs on grants and contracts with such institutions when such indirect costs are computed on a similar basis for all agencies for which appropriations are provided in this Act.

SEC. 706. Appropriations to the Department of Agriculture for the cost of direct and guaranteed loans made available in the current fiscal year shall remain available until expended to

disburse obligations made in the current fiscal year for the following accounts: the Rural Development Loan Fund program account, the Rural Electrification and Telecommunication Loans program account, and the Rural Housing Insurance Fund program account.

SEC. 707. Of the funds made available by this Act, not more than \$1,800,000 shall be used to cover necessary expenses of activities related to all advisory committees, panels, commissions, and task forces of the Department of Agriculture, except for panels used to comply with negotiated rule makings and panels used to evaluate competitively awarded grants.

SEC. 708. Hereafter, none of the funds appropriated by this Act or any other Act may be used to carry out section 410 of the Federal Meat Inspection Act (21 U.S.C. 679a) or section 30 of the Poultry Products Inspection Act (21 U.S.C. 471).

SEC. 709. No employee of the Department of Agriculture may be detailed or assigned from an agency or office funded by this Act or any other Act to any other agency or office of the Department for more than 30 days unless the individual's employing agency or office is fully reimbursed by the receiving agency or office for the salary and expenses of the employee for the period of assignment.

SEC. 710. None of the funds appropriated or otherwise made available to the Department of Agriculture or the Food and Drug Administration shall be used to transmit or otherwise make available to any non-Department of Agriculture or non-Department of Health and Human Services employee questions or responses to questions that are a result of information requested for the appropriations hearing process.

SEC. 711. None of the funds made available to the Department of Agriculture by this Act may be used to acquire new information technology systems or significant upgrades, as determined by the Office of the Chief Information Officer, without the approval of the Chief Information Officer and the concurrence of the Executive Information Technology Investment Review Board: Provided, That notwithstanding any other provision of law, none of the funds appropriated or otherwise made available by this Act may be transferred to the Office of the Chief Information Officer unless prior notification has been transmitted to the Committees on Appropriations of both Houses of Congress: Provided further, That none of the funds available to the Department of Agriculture for information technology shall be obligated for projects over \$25,000 prior to receipt of written approval by the Chief Information Officer.

SEC. 712. (a) None of the funds provided by this Act, or provided by previous Appropriations Acts to the agencies funded by this Act that remain available for obligation or expenditure in the current fiscal year, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds which—

- (1) creates new programs;
- (2) eliminates a program, project, or activity;
- (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted;
- (4) relocates an office or employees;
- (5) reorganizes offices, programs, or activities;

or

- (6) contracts out or privatizes any functions or activities presently performed by Federal employees; unless the Committees on Appropriations of both Houses of Congress are notified 15 days in advance of such reprogramming of funds.

(b) None of the funds provided by this Act, or provided by previous Appropriations Acts to the

agencies funded by this Act that remain available for obligation or expenditure in the current fiscal year, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditure for activities, programs, or projects through a reprogramming of funds in excess of \$500,000 or 10 percent, whichever is less, that: (1) augments existing programs, projects, or activities; (2) reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by 10 percent as approved by Congress; or (3) results from any general savings from a reduction in personnel which would result in a change in existing programs, activities, or projects as approved by Congress; unless the Committees on Appropriations of both Houses of Congress are notified 15 days in advance of such reprogramming of funds.

(c) The Secretary of Agriculture or the Secretary of Health and Human Services shall notify the Committees on Appropriations of both Houses of Congress before implementing a program or activity not carried out during the previous fiscal year unless the program or activity is funded by this Act or specifically funded by any other Act.

SEC. 713. None of the funds appropriated by this or any other Act shall be used to pay the salaries and expenses of personnel who prepare or submit appropriations language as part of the President's Budget submission to the Congress of the United States for programs under the jurisdiction of the Appropriations Subcommittees on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies that assumes revenues or reflects a reduction from the previous year due to user fees proposals that have not been enacted into law prior to the submission of the Budget unless such Budget submission identifies which additional spending reductions should occur in the event the user fees proposals are not enacted prior to the date of the convening of a committee of conference for the fiscal year 2011 appropriations Act.

SEC. 714. None of the funds made available by this or any other Act may be used to close or relocate a Rural Development office unless or until the Secretary of Agriculture determines the cost effectiveness and/or enhancement of program delivery: Provided, That not later than 120 days before the date of the proposed closure or relocation, the Secretary notifies the Committees on Appropriation of the House and Senate, and the members of Congress from the State in which the office is located of the proposed closure or relocation and provides a report that describes the justifications for such closures and relocations.

SEC. 715. None of the funds made available to the Food and Drug Administration by this Act shall be used to close or relocate, or to plan to close or relocate, the Food and Drug Administration Division of Pharmaceutical Analysis in St. Louis, Missouri, outside the city or county limits of St. Louis, Missouri.

SEC. 716. There is hereby appropriated \$499,000 for any authorized Rural Development program purpose, in communities suffering from extreme outmigration and situated in areas that were designated as part of an Empowerment Zone pursuant to section 111 of the Community Renewal Tax Relief Act of 2000 (as contained in appendix G of Public Law 106-554).

SEC. 717. None of the funds made available in fiscal year 2010 or preceding fiscal years for programs authorized under the Food for Peace Act (7 U.S.C. 1691 et seq.) in excess of \$20,000,000 shall be used to reimburse the Commodity Credit Corporation for the release of eligible commodities under section 302(f)(2)(A) of the Bill Emerson Humanitarian Trust Act (7 U.S.C. 1736f-1):

Provided, That any such funds made available to reimburse the Commodity Credit Corporation shall only be used pursuant to section 302(b)(2)(B)(i) of the Bill Emerson Humanitarian Trust Act.

SEC. 718. There is hereby appropriated \$3,497,000, to remain available until expended, for a grant to the National Center for Natural Products Research for construction or renovation to carry out the research objectives of the natural products research grant issued by the Food and Drug Administration.

SEC. 719. Funds made available under section 12401 and section 1241(a) of the Food Security Act of 1985 and section 524(b) of the Federal Crop Insurance Act (7 U.S.C. 1524(b)) in the current fiscal year shall remain available until expended to disburse obligations made in the current fiscal year.

SEC. 720. None of the funds appropriated or otherwise made available by this or any other Act shall be used to pay the salaries and expenses of personnel to carry out the following:

(1) An Environmental Quality Incentives Program as authorized by sections 1241–240H of the Food Security Act of 1985, as amended (16 U.S.C. 3839aa–3839aa(8)), in excess of \$1,180,000,000.

(2) a program authorized by section 14(h)(1) of the Watershed Protection and Flood Prevention Act (16 U.S.C. 1012(h)(1)).

(3) a program under subsection (b)(2)(A)(ii) of section 14222 of Public Law 110–246 in excess of \$1,123,000,000: Provided, That none of the funds made available in this Act or any other Act shall be used for salaries and expenses to carry out section 19(i)(1)(C) of the Richard B. Russell National School Lunch Act as amended by section 4304 of Public Law 110–246 in excess of \$25,000,000 until October 1, 2010: Provided further, That the unobligated balances under section 32 of the Act of August 24, 1935, \$52,000,000 are hereby rescinded.

SEC. 721. Hereafter, notwithstanding any other provision of law, any former RUS borrower that has repaid or prepaid an insured, direct or guaranteed loan under the Rural Electrification Act, or any not-for-profit utility that is eligible to receive an insured or direct loan under such Act, shall be eligible for assistance under section 313(b)(2)(B) of such Act in the same manner as a borrower under such Act.

SEC. 722. There is hereby appropriated \$2,600,000, to remain available until expended, for the planning and design of construction of an agricultural pest facility in the State of Hawaii.

SEC. 723. There is hereby appropriated \$4,000,000 to the Secretary of Agriculture to award grant(s) to develop and field test new food products designed to improve the nutritional delivery of humanitarian food assistance provided through the McGovern-Dole (section 3107 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 1736o–1)) and the Food for Peace title II (7 U.S.C. 1691 et seq.) programs: Provided, That the Secretary shall use the authorities provided under the Research, Education, and Economics mission area of the Department in awarding such grant(s), with priority given to proposals that demonstrate partnering with and in-kind support from the private sector.

SEC. 724. The Rural Utilities Service, Rural Housing Service, and Rural Business and Cooperative Service shall permit an applicant to solicit and procure professional services and have prepared all environmental reviews, assessments, and impact statements: Provided, That such professional services will be funded by the applicants and selected by the agencies from procurement schedules of contractors determined qualified to perform said services: Provided further, That the Agencies shall establish

the scope of work and procedures for such services as well as procedures to assure contractors have no financial or other conflicts of interest in the outcome of the action and the documentation meets the needs of the Agencies: Provided further, That nothing herein shall affect the responsibility of the Agencies to comply with the National Environmental Policy Act.

SEC. 725. Notwithstanding any other provision of law, and until receipt of the decennial Census for the year 2010, the Secretary of Agriculture shall consider—

(1) The unincorporated community of Los Osos, in the County of San Luis Obispo, California, to be a rural area for the purposes of eligibility for Rural Utilities Service water and waste disposal loans and grants; and

(2) The unincorporated community of Thermalito in Butte County, California, (including individuals and entities with projects within the community) eligible for loans and grants funded under the housing programs of the Rural Housing Service.

SEC. 726. There is hereby appropriated \$3,000,000 for section 4404 of Public Law 107–171.

SEC. 727. Notwithstanding any other provision of law, there is hereby appropriated:

(1) \$3,000,000 of which \$2,000,000 shall be for a grant to the Wisconsin Department of Agriculture, Trade, and Consumer Protection, and \$1,000,000 shall be for a grant to the Vermont Agency of Agriculture, Foods, and Markets, as authorized by section 6402 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 1621 note); and

(2) \$350,000 for a grant to the Wisconsin Department of Agriculture, Trade and Consumer Protection.

SEC. 728. Notwithstanding any other provision of law, the Natural Resources Conservation Service shall provide financial and technical assistance—

(1) through the Watershed and Flood Prevention Operations program for the Pocasset River Floodplain Management Project in the State of Rhode Island;

(2) through the Watershed and Flood Prevention Operations program to carry out the East Locust Creek Watershed Plan Revision in Missouri, including up to 100 percent of the engineering assistance and 75 percent cost share for construction cost of site RW1;

(3) through the Watershed and Flood Prevention Operations program to carry out the Little Otter Creek Watershed project in Missouri. The sponsoring local organization may obtain land rights by perpetual easements;

(4) through the Watershed and Flood Prevention Operations program to carry out the DuPage County Watershed project in the State of Illinois;

(5) through the Watershed and Flood Prevention Operations program to carry out the Dunloup Creek Watershed Project in Fayette and Raleigh Counties, West Virginia;

(6) through the Watershed and Flood Prevention Operations program to carry out the Dry Creek Watershed project in the State of California; and

(7) through the Watershed and Flood Prevention Operations program to carry out the Upper Clark Fork Watershed project in the State of Montana.

SEC. 729. Section 17(r)(5) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1766(r)(5)) is amended—

(1) by striking “ten” and inserting “eleven”; (2) by striking “eight” and inserting “nine”; and

(3) by inserting “Wisconsin,” after the first instance of “States shall be”.

SEC. 730. Notwithstanding any other provision of law, for the purposes of a grant under section 412 of the Agricultural Research, Extension, and

Education Reform Act of 1998, none of the funds in this or any other Act may be used to prohibit the provision of in-kind support from non-Federal sources under section 412(e)(3) in the form of unrecovered indirect costs not otherwise charged against the grant, consistent with the indirect rate of cost approved for a recipient.

SEC. 731. Except as otherwise specifically provided by law, unobligated balances remaining available at the end of the fiscal year from appropriations made available for salaries and expenses in this Act for the Farm Service Agency and the Rural Development mission area, shall remain available through September 30, 2011, for information technology expenses.

SEC. 732. (a) CHILD NUTRITION PROGRAMS.—Section 9(b) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758(b)) is amended by adding at the end the following:

“(14) COMBAT PAY.—

“(A) DEFINITION OF COMBAT PAY.—In this paragraph, the term ‘combat pay’ means any additional payment under chapter 5 of title 37, United States Code, or otherwise designated by the Secretary to be appropriate for exclusion under this paragraph, that is received by or from a member of the United States Armed Forces deployed to a designated combat zone, if the additional pay—

“(i) is the result of deployment to or service in a combat zone; and

“(ii) was not received immediately prior to serving in a combat zone.

“(B) EXCLUSION.—Combat pay shall not be considered to be income for the purpose of determining the eligibility for free or reduced price meals of a child who is a member of the household of a member of the United States Armed Forces.”.

(b) SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN.—Section 17(d)(2) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(d)(2)) is amended—

(1) by redesignating subparagraph (C) as subparagraph (D); and

(2) by inserting after subparagraph (B) the following:

“(C) COMBAT PAY.—For the purpose of determining income eligibility under this section, a State agency shall exclude from income any additional payment under chapter 5 of title 37, United States Code, or otherwise designated by the Secretary to be appropriate for exclusion under this subparagraph, that is received by or from a member of the United States Armed Forces deployed to a designated combat zone, if the additional pay—

“(i) is the result of deployment to or service in a combat zone; and

“(ii) was not received immediately prior to serving in a combat zone.”.

SEC. 733. (a) Section 531(g)(7)(F) of the Federal Crop Insurance Act (7 U.S.C. 1531(g)(7)(F)) is amended—

(1) in the matter preceding clause (i), by inserting “(including multiyear assistance)” after “assistance”; and

(2) in clause (i), by inserting “or multiyear production losses” after “a production loss”.

(b) Section 901(g)(7)(F) of the Trade Act of 1974 (19 U.S.C. 2497(g)(7)(F)) is amended—

(1) in the matter preceding clause (i), by inserting “(including multiyear assistance)” after “assistance”; and

(2) in clause (i), by inserting “or multiyear production losses” after “a production loss”.

SEC. 734. Notwithstanding section 17(g)(5) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(g)(5)), not more than \$15,000,000 of funds provided in this Act may be used for the purpose of evaluating program performance in the Special Supplemental Nutrition Program for Women, Infants and Children.

SEC. 735. Notwithstanding section 17(h)(10)(A) of the Child Nutrition Act of 1966 (42 U.S.C.

1786(h)(10)(A)), \$154,000,000 of funds provided in this Act shall be used for infrastructure, management information systems and breastfeeding peer counseling support: Provided, That of the \$154,000,000, not less than \$14,000,000 shall be used for infrastructure, not less than \$60,000,000 shall be used for management information systems, and not less than \$80,000,000 shall be used for breastfeeding peer counselors and other related activities.

SEC. 736. Agencies with jurisdiction for carrying out international food assistance programs under the jurisdiction of this Act, including title II of the Food for Peace Act and the McGovern-Dole International Food for Education Program, shall—

(1) provide to the Committees on Appropriations of the House and the Senate no later than March 1, 2010, the following:

(A) estimates on cost-savings and programmatic efficiencies that would result from increased use of pre-positioning of food aid commodities and processes to ensure such cargoes are appropriately maintained to prevent spoilage;

(B) estimates on cost-savings and programmatic efficiencies that would result from the use of longer-term commodity procurement contracts, the proportional distribution of commodity purchases throughout the fiscal year, longer-term shipping contracts, contracts which include shared-risk principles, and adoptions of other commercially acceptable contracting practices;

(C) estimates on costs of domestic procurement of commodities, domestic inland transportation of food aid commodities, domestic storage (including loading and unloading), foreign storage (including loading and unloading), foreign inland transportation, and ocean freight (including ocean freight as adjusted by the ocean freight differential reimbursement provided by the Secretary of Transportation), and costs relating to allocation and distribution of commodities in recipient countries;

(D) information on the frequency of delays in transporting food aid commodities, the cause or purpose of any delays (including how those delays are tracked, monitored and resolved), missed schedules by carriers and non-carriers (and resulting program costs due to such delays, including impacts to program beneficiaries);

(E) information on the methodologies to improve interagency coordination between host governments, the World Food Program, and non-governmental organization to develop more consistent estimates of food aid needs and the number of intended recipients to appropriately inform the purchases of commodities and in order to appropriately plan for commodity procurement for food aid programs;

(2) provide the matter described under subsection (1) of this section in the form of a consensus report under the signatures of the Secretaries of Agriculture, State, and Transportation; and

(3) estimates and cost savings analysis for this section shall be derived from periods representative of normal program operations.

SEC. 737. There is hereby appropriated \$7,000,000 to carry out section 4202 of Public Law 110-246.

SEC. 738. There is hereby appropriated \$2,600,000 to carry out section 1621 of Public Law 110-246.

SEC. 739. There is hereby appropriated \$4,000,000 to carry out section 1613 of Public Law 110-246.

SEC. 740. There is hereby appropriated \$250,000, to remain available until expended, for a grant to the Kansas Farm Bureau Foundation for work-force development initiatives to address out-migration in rural areas.

SEC. 741. There is hereby appropriated \$800,000 to the Farm Service Agency to carry out

a pilot program to demonstrate the use of new technologies that increase the rate of growth of re-forested hardwood trees on private non-industrial forests lands, enrolling lands on the coast of the Gulf of Mexico that were damaged by Hurricane Katrina in 2005.

SEC. 742. Applicants with very low, low, and moderate incomes shall be eligible for the program established in section 791 of Public Law 109-97.

SEC. 743. The Secretary of Agriculture may authorize a State agency to use funds provided in this Act to exceed the maximum amount of re-constituted infant formula specified in 7 C.F.R. 246.10 when issuing infant formula to participants. Such authorizations shall not otherwise impact the eligibility of manufacturers to remain eligible under the Special Supplemental Nutrition Program for Women, Infants and Children authorized by section 17 of the Child Nutrition Act of 1966.

SEC. 744. None of the funds made available by this Act may be used to establish or implement a rule allowing poultry products to be imported into the United States from the People's Republic of China unless the Secretary of Agriculture formally commits in advance to conduct audits of inspection systems, on-site reviews of slaughter and processing facilities, laboratories and other control operations before any Chinese facilities are certified as eligible to ship fully cooked poultry products to the United States, and at least once annually in subsequent years: Provided, That the Secretary commits in advance to implement a significantly increased level of port of entry re-inspection: Provided further, That the Secretary commits in advance to conduct information sharing with other countries importing poultry products from China that have conducted audits and plant inspections: Provided further, That this section shall be applied in a manner consistent with United States obligations under international trade agreements.

SEC. 745. (a) The Commissioner of Food and Drugs may establish within the Food and Drug Administration a review group which shall recommend to the Commissioner of Food and Drugs appropriate preclinical, trial design, and regulatory paradigms and optimal solutions for the prevention, diagnosis, and treatment of rare diseases: Provided, That the Commissioner of Food and Drugs shall appoint 8 individuals employed by the Food and Drug Administration to serve on the review group: Provided further, That members of the review group shall have specific expertise relating to the development of articles for use in the prevention, diagnosis, or treatment of rare diseases, including specific expertise in developing or carrying out clinical trials.

(b) The Commissioner of Food and Drugs may establish within the Food and Drug Administration a review group which shall recommend to the Commissioner of Food and Drugs appropriate preclinical, trial design, and regulatory paradigms and optimal solutions for the prevention, diagnosis, and treatment of neglected diseases of the developing world: Provided, That the Commissioner of Food and Drugs shall appoint 8 individuals employed by the Food and Drug Administration to serve on the review group: Provided further, That members of the review group shall have specific expertise relating to the development of articles for use in the prevention, diagnosis, or treatment of neglected diseases of the developing world, including specific expertise in developing or carrying out clinical trials: Provided further, That for the purposes of this section the term "neglected disease of the developing world" means a tropical disease, as defined in section 524(a)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360n(a)(3)).

(c) The Commissioner of Food and Drugs shall—

(1) submit, not later than 1 year after the date of the establishment of review groups under subsections (a) and (b), a report to Congress that describes both the findings and recommendations made by the review groups under subsections (a) and (b);

(2) issue, not later than 180 days after submission of the report to Congress under paragraph (1), guidance based on such recommendations for articles for use in the prevention, diagnosis, and treatment of rare diseases and for such uses in neglected diseases of the developing world; and

(3) develop, not later than 180 days after submission of the report to Congress under paragraph (1), internal review standards based on such recommendations for articles for use in the prevention, diagnosis, and treatment of rare diseases and for such uses in neglected diseases of the developing world.

SEC. 746. Not later than 60 days after the date of enactment of this Act, the Administrator of the Foreign Agricultural Service shall submit to Congress a report that describes the status of the reorganization of the Foreign Agricultural Service and any future plans of the Administrator to modify office structures to meet existing, emerging, and new priorities.

SEC. 747. None of the funds made available by this Act may be used to pay the salaries and expenses of any employee of the Department of Agriculture to assess any agency any greenbook charge or to use any funds acquired through an assessment of greenbook charges made prior to the date of enactment of this Act.

SEC. 748. The Commissioner of Food and Drugs, in consultation with the Administrator of the National Oceanic and Atmospheric Administration, shall conduct a study and, not later than 240 days after the date of enactment of this Act, submit a report to Congress on the technical challenges associated with inspecting imported seafood. The study and report shall—

(1) provide information on the status of seafood importation, including—

(A) the volume of seafood imported into the United States annually, by product and country of origin;

(B) the number of physical inspections of imported seafood products conducted annually, by product and country of origin; and

(C) a listing of the United States ports of entry for seafood imports by volume;

(2) provide information on imported seafood products, by product and country of origin, that do not meet standards as set forth in the applicable food importation law, including the reason for which each such product does not meet such standards;

(3) identify the fish, crayfish, shellfish, and other sea species most susceptible to violations of the applicable food importation law;

(4) identify the aquaculture and mariculture practices that are of greatest concern to human health; and

(5) suggest methods for improving import inspection policies and procedures to protect consumers in the United States.

SEC. 749. (a) IN GENERAL.—Not later than 1 year after the date of the enactment of this Act, the Comptroller General of the United States, shall report to the Committees on Appropriations of the House of Representatives and of the Senate on developing the tourism potential of rural communities.

(b) CONTENT OF THE REPORT.—The report required by subsection (a) shall—

(1) identify existing Federal programs that provide assistance to rural small businesses in developing tourism marketing and promotion plans relating to tourism in rural areas;

(2) identify existing Federal programs that assist rural small business concerns in obtaining capital for starting or expanding businesses primarily serving tourists; and

(3) include recommendations, if any, for improving existing programs or creating new Federal programs that may benefit tourism in rural communities.

SEC. 750. Notwithstanding any other provision of law and until the receipt of the decennial census in the year 2010, the Secretary of Agriculture may fund community facility and water and waste disposal projects of communities and municipal districts and areas in Connecticut, Massachusetts, and Rhode Island that filed applications for the projects with the appropriate rural development field office of the Department of Agriculture prior to August 1, 2009, and were determined by the field office to be eligible for funding.

SEC. 751. (a) The Senate finds that—

(1) sudden loss in late 2008 of export-market based demand equivalent to about 3 percent of domestic milk production has thrown the U.S. dairy industry into a critical supply-demand imbalance;

(2) an abrupt decline in U.S. exports was fueled by the onset of the global economic crisis combined with resurgence of milk supplies in Oceania;

(3) the U.S. average all-milk price reported by the National Agriculture Statistics Service from January through May of 2009, has averaged \$4.80 per hundredweight below the cost of production;

(4) approximately \$3,900,000,000 in dairy producer equity has been lost since January;

(5) anecdotal evidence suggests that U.S. dairy producers are losing upwards of \$100 per cow per month;

(6) the Food, Conservation, and Energy Act of 2008 extended the counter-cyclical Milk Income Loss Contract (MILC) support program and instituted a 'feed cost adjuster' to augment that support;

(7) the Secretary of Agriculture in March transferred approximately 200,000,000 pounds of nonfat dry milk to USDA's Food and Nutrition Service in a move designed to remove inventory from the market and support low-income families;

(8) the Secretary on March 22nd reactivated USDA's Dairy Export Incentive Program (DEIP) to help U.S. producers meet prevailing world prices and develop international markets;

(9) the Secretary announced on July 31, 2009 a temporary increase in the amount paid for dairy products through the Dairy Product Price Support Program (DPPSP), an adjustment that is projected to increase dairy farmers' revenue by \$243,000,000; and

(10) U.S. dairy producers face unprecedented challenges that threaten the stability of the industry, the nation's milk production infrastructure, and thousands of rural communities.

(b) The Senate states that the Secretary of Agriculture and the President's Office of Management and Budget should continue to closely monitor the U.S. dairy sector and use all available discretionary authority to ensure its long-term health and sustainability.

SEC. 752. (a) The Commissioner of Food and Drugs, in consultation with the Secretary of Agriculture, may conduct a study on the labeling of personal care products regulated by the Food and Drug Administration for which organic content claims are made. Any such study shall include—

(1) a survey of personal care products for which the word "organic" appears on the label; and

(2) a determination, based on statistical sampling of the products identified under paragraph (1), of the accuracy of such claims.

(b) If the Commissioner of Food and Drugs conducts a study described in subsection (a), such Commissioner shall—

(1) not later than 270 days after the date of enactment of this Act, submit to the Committees

on Agriculture, Nutrition, and Forestry, Appropriations, and Health, Education, Labor, and Pensions in the Senate and the Committees on Agriculture, Appropriations, and Energy and Commerce in the House of Representatives a report on the findings of the study under subsection (a); and

(2) provide such Committees with any recommendations on the need to establish labeling standards for personal care products for which organic content claims are made, including whether the Food and Drug Administration should have pre-market approval authority for personal care product labeling.

SEC. 753. (a) The Senate finds that—

(1) agriculture is a national security concern;

(2) the United States suffers from periodic disasters which affects the food and fiber supply of the United States;

(3) the Food, Conservation, and Energy Act of 2008 (7 U.S.C. 8701 et seq.) established 5 permanent disaster programs to deliver timely and immediate assistance to agricultural producers recovering from losses;

(4) as of the date of enactment of this Act, of those 5 disaster programs—

(A) none are available, finalized, and implemented to deliver urgently needed assistance for 2009 producer losses; and

(B) only 1 is being implemented for 2008 losses;

(5) according to the Drought Monitor, the State of Texas is suffering from extreme and exceptional drought conditions, the highest level of severity; and

(6) the Secretary of Agriculture has previously authorized various forms of disaster assistance by providing funding under section 32 of the Act of August 24, 1935 (7 U.S.C. 612c), and through the Commodity Credit Corporation.

(b) It is the sense of the Senate that the Secretary of Agriculture should use all of the discretionary authority available to the Secretary to make available immediate relief and assistance for agricultural producers suffering losses as a result of the 2009 droughts.

SEC. 754. (a) The Senate finds that—

(1) with livestock producers facing losses from harsh weather in 2008 and continuing to face disasters in 2009, Congress wanted to assist livestock producers in recovering losses more quickly and efficiently than previous ad hoc disaster assistance programs;

(2) on June 18, 2008, Congress established the livestock indemnity program under section 531(c) of the Federal Crop Insurance Act (7 U.S.C. 1531(c)) and section 901(c) of the Trade Act of 1974 (19 U.S.C. 2497(c)) as a permanent disaster assistance program to provide livestock producers with payments of 75 percent of the fair market value for livestock losses as a result of adverse weather such as floods, blizzards, and extreme heat;

(3) on July 13, 2009, the Secretary of Agriculture promulgated rules for the livestock indemnity program that separated non adult beef animals into weight ranges of "less than 400 pounds" and "400 pounds and more"; and

(4) the "400 pounds and more" range would fall well short of covering 75 percent market value payment for livestock in these higher ranges that are close to market weight.

(b) It is the sense of the Senate that the Secretary of Agriculture—

(1) should strive to establish a methodology to calculate more specific payments to offset the cost of loss for each animal as was intended by Congress for calendar years 2008 through 2011; and

(2) should work with groups representing affected livestock producers to come up with this more precise methodology.

This Act may be cited as the "Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010".

UNANIMOUS CONSENT AGREEMENT—EXECUTIVE CALENDAR

Mr. REID. Mr. President, first of all, let me say this. This has taken a lot of time today. Senator MCCONNELL and I have had many meetings and many discussions. This whole consent agreement has been very difficult for everyone, but I think it accomplishes what we need to accomplish.

Mr. President, I ask unanimous consent that tomorrow, Thursday, August 6, at 10 a.m., the Senate proceed to executive session to resume consideration of Executive Calendar No. 309, the nomination of Sonia Sotomayor to be an Associate Justice of the Supreme Court, and that the time until 2 p.m. be divided equally in alternating 1-hour blocks with the Republicans controlling the first hour; that at 2 p.m. the time be divided 15 minutes each as follows: Senator SESSIONS, Senator LEAHY, Senator MCCONNELL and Senator REID, in that order; that at 3 p.m., without further intervening action or debate, the Senate proceed to vote on confirmation of the nomination of Sonia Sotomayor; that upon confirmation, the motion to reconsider be laid upon the table, no further motions be in order, the President be immediately notified of the Senate's action, and the Senate then resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT AGREEMENT—H.R. 3435 AND S. 1023

Mr. REID. Mr. President, I further ask unanimous consent that upon disposition of the nomination of Justice Sotomayor and the Senate resuming legislative session, the Senate then proceed to consideration of Calendar No. 146, H.R. 3435; that the bill be considered under the following limitations; that each amendment be debated for a period of 30 minutes, equally divided and controlled in the usual form; that if there is a sequence of votes, then prior to each vote there be 2 minutes of debate, equally divided and controlled in the usual form; that after the first vote in a sequence, the remaining votes be limited to 10 minutes each: Harkin amendment regarding income limits, the Kyl amendment regarding status report substitute, the Gregg amendment regarding the budget resolution, the Vitter amendment regarding termination of TARP, the Coburn amendment regarding donations, the Thune amendment regarding government ownership plan, and the Isakson amendment regarding home purchases; that once the agreement is entered, the amendments be filed at the desk and printed in the RECORD; further, that upon disposition of the listed amendments, the bill be read a third time, the Senate proceed to vote on passage of the bill; provided further that on Tuesday, September 8, at 5:30 p.m., the

Senate proceed to the motion to reconsider the vote by which cloture was not invoked on the Dorgan amendment No. 1347 to S. 1025, the Travel Promotion Act, and that the motion to proceed be agreed to, and the motion to reconsider be agreed to; and the Senate then vote on the motion to invoke cloture on the Dorgan amendment; that if cloture is invoked on the amendment, then postcloture time be considered to have begun running at 10:30 a.m., Tuesday, September 8.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, on the final paragraph of my consent agreement, where I said that the Senate proceed to the motion to reconsider the vote by which cloture was not invoked on the Dorgan amendment No. 1347 to S. 1025, it should be S. 1023.

And Mr. President, the record should be very clear that the vote we take Monday night on the Travel Promotion Act is only on cloture. The 30 hours would still run and we would have to have final passage on the bill whenever the 30 hours runs out or whenever there is an agreement that we can vote on it.

So Mr. President, I further ask unanimous consent that after the 30 hours is up, at the end of postcloture time, the amendment be agreed to, and the bill be read a third time and the Senate vote on passage of the legislation.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. WARNER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

FEMA ACCOUNTABILITY ACT OF 2009

Mr. WARNER. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 69, S. 713.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 713) to require the administrator of the Federal Emergency Management Agency to quickly and fairly address the abundance of surplus manufactured housing units stored by the Federal Government around the country at taxpayer expense.

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Homeland Security and Governmental Affairs, with an amendment; as follows:

(The part of the bill intended to be stricken is shown in boldface brackets and the part of the bill intended to be inserted is shown in *italic*.)

S. 713

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; DEFINITIONS.

(a) **SHORT TITLE.**—This Act may be cited as the “FEMA Accountability Act of 2009”.

(b) **DEFINITIONS.**—In this Act—

(1) the term “Administrator” means the Administrator of FEMA;

(2) the terms “emergency” and “major disaster” have the meanings given such terms in section 102 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122); and

(3) the term “FEMA” means the Federal Emergency Management Agency.

SEC. 2. TRANSFER, STORAGE, SALE, AND DISPOSAL OF HOUSING UNITS.

(a) **IN GENERAL.**—Not later than 3 months after the date of enactment of this Act, the Administrator shall—

(1) complete an assessment to determine the number of temporary housing units purchased by FEMA that FEMA needs to maintain in stock to respond appropriately to emergencies or major disasters occurring after the date of enactment of this Act; and

(2) establish criteria for determining whether the individual temporary housing units stored by FEMA are in usable condition, which shall include appropriate criteria for formaldehyde testing and exposure of the individual temporary housing units.

(b) **PLAN.**—

(1) **IN GENERAL.**—Not later than 6 months after the date of enactment of this Act, the Administrator shall establish a plan for—

(A) storing the number of temporary housing units that the Administrator has determined under subsection (a)(1) that FEMA needs to maintain in stock;

(B) transferring, selling, or otherwise disposing of the temporary housing units in the inventory of FEMA that—

(i) are in excess of the number of temporary housing units that the Administrator has determined under subsection (a)(1) that FEMA needs to maintain in stock; and

(ii) are in usable condition, based on the criteria established under subsection (a)(2); and

(C) disposing of the temporary housing units in the inventory of FEMA that the Administrator determines are not in usable condition, based on the criteria established under subsection (a)(2).

(2) **APPLICABILITY OF DISPOSAL REQUIREMENTS.**—The plan established under paragraph (1) shall be subject to the requirements of section 408(d)(2) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5174(d)(2)) and other applicable provisions of law.

(c) **IMPLEMENTATION.**—Not later than 9 months after the date of enactment of this Act, the Administrator shall implement the plan described in subsection (b).

(d) **REPORT.**—Not later than 1 year after the date of enactment of this Act, the Administrator shall submit to the appropriate committees of the Senate and the House of Representatives a report on the status of the transfer, distribution, sale, or other disposal of [the unused temporary housing units purchased by FEMA.] *temporary housing units under this section.*

Mr. WARNER. Mr. President, I ask unanimous consent that the committee-reported amendment be agreed to, the bill, as amended, be read a third time and passed, the motions to reconsider be laid upon the table, with no in-

tervening action or debate, and that any statements related thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Committee amendment was agreed to.

The bill (S. 713), as amended, was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 713

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; DEFINITIONS.

(a) **SHORT TITLE.**—This Act may be cited as the “FEMA Accountability Act of 2009”.

(b) **DEFINITIONS.**—In this Act—

(1) the term “Administrator” means the Administrator of FEMA;

(2) the terms “emergency” and “major disaster” have the meanings given such terms in section 102 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122); and

(3) the term “FEMA” means the Federal Emergency Management Agency.

SEC. 2. TRANSFER, STORAGE, SALE, AND DISPOSAL OF HOUSING UNITS.

(a) **IN GENERAL.**—Not later than 3 months after the date of enactment of this Act, the Administrator shall—

(1) complete an assessment to determine the number of temporary housing units purchased by FEMA that FEMA needs to maintain in stock to respond appropriately to emergencies or major disasters occurring after the date of enactment of this Act; and

(2) establish criteria for determining whether the individual temporary housing units stored by FEMA are in usable condition, which shall include appropriate criteria for formaldehyde testing and exposure of the individual temporary housing units.

(b) **PLAN.**—

(1) **IN GENERAL.**—Not later than 6 months after the date of enactment of this Act, the Administrator shall establish a plan for—

(A) storing the number of temporary housing units that the Administrator has determined under subsection (a)(1) that FEMA needs to maintain in stock;

(B) transferring, selling, or otherwise disposing of the temporary housing units in the inventory of FEMA that—

(i) are in excess of the number of temporary housing units that the Administrator has determined under subsection (a)(1) that FEMA needs to maintain in stock; and

(ii) are in usable condition, based on the criteria established under subsection (a)(2); and

(C) disposing of the temporary housing units in the inventory of FEMA that the Administrator determines are not in usable condition, based on the criteria established under subsection (a)(2).

(2) **APPLICABILITY OF DISPOSAL REQUIREMENTS.**—The plan established under paragraph (1) shall be subject to the requirements of section 408(d)(2) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5174(d)(2)) and other applicable provisions of law.

(c) **IMPLEMENTATION.**—Not later than 9 months after the date of enactment of this Act, the Administrator shall implement the plan described in subsection (b).

(d) **REPORT.**—Not later than 1 year after the date of enactment of this Act, the Administrator shall submit to the appropriate committees of the Senate and the House of

Representatives a report on the status of the transfer, distribution, sale, or other disposal of temporary housing units under this section.

THE CALENDAR

Mr. WARNER. Mr. President, I ask unanimous consent the Senate proceed to the immediate consideration of calendar items Nos. 150 and 151, H.R. 1275 and H.R. 2938, en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. I ask unanimous consent that the bills be read a third time and passed en bloc, the motions to reconsider be laid upon the table en bloc, with no intervening action or debate, and any statements related to the bills be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

UTAH RECREATIONAL LAND EXCHANGE ACT OF 2009

The bill (H.R. 1275), to direct the exchange of certain land in Grand, San Juan, and Uintah Counties, Utah, and for other purposes, was ordered to a third reading, was read the third time, and passed.

EXTENDING DEADLINE FOR COMMENCEMENT OF CONSTRUCTION OF HYDROELECTRIC PROJECT

The bill (H.R. 2938), to extend the deadline for commencement of construction of a hydroelectric project, was read the third time, and passed.

AUTHORIZING USE OF THE CAPITOL GROUNDS

Mr. WARNER. Mr. President, I ask unanimous consent the Senate proceed to the immediate consideration of H. Con. Res. 171, at the desk, and just received from the House.

The PRESIDING OFFICER. The clerk will report the concurrent resolution by title.

The legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 171) authorizing the use of the Capitol Grounds for an event to honor military personnel who have died in service to the United States and to acknowledge the sacrifice of the families of those individuals as part of the National Weekend of Remembrance.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. WARNER. I ask unanimous consent the concurrent resolution be agreed to and the motion to reconsider be laid upon the table and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (H. Con. Res. 171) was agreed to.

GOSPEL MUSIC HERITAGE MONTH

Mr. WARNER. Mr. President, I ask unanimous consent the Judiciary Committee be discharged from further consideration of S. Res. 226 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 226) designating September 2009 as "Gospel Music Heritage Month" and honoring gospel music for its valuable contributions to the culture of the United States.

There being no objection, the Senate proceeded to consider the resolution.

Mr. WARNER. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 226) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 226

Whereas gospel music is a beloved art form of the United States;

Whereas gospel music is a cornerstone of the musical traditions of the United States and has spread beyond origins in African-American spirituals to achieve popular cultural and historical relevance;

Whereas gospel music has spread beyond geographic origins in the United States to touch audiences around the world; and

Whereas gospel music is a testament to the universal appeal of a historical art form of the United States that both inspires and entertains across racial, ethnic, religious, and geographical boundaries: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 2009 as "Gospel Music Heritage Month"; and

(2) recognizes the valuable contributions to the culture of the United States derived from the rich heritage of gospel music and gospel music artists.

COMMEMORATING THE 45TH ANNIVERSARY OF THE WILDERNESS ACT

Mr. WARNER. Mr. President, I ask unanimous consent the Senate proceed to the immediate consideration of S. Res. 244, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 244) commemorating the 45th anniversary of the Wilderness Act.

There being no objection, the Senate proceeded to consider the resolution.

Mr. WARNER. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions

to reconsider be laid upon the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 244) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 244

Whereas September 3, 2009, will mark the 45th anniversary of the date of enactment of the Wilderness Act (16 U.S.C. 1131 et seq.), which gave to the people of the United States the National Wilderness Preservation System, an enduring resource of natural heritage;

Whereas great writers of the United States, including Ralph Waldo Emerson, Henry David Thoreau, Willa Cather, George Perkins Marsh, Mary Hunter Austin, and John Muir, poets such as William Cullen Bryant, and painters such as Thomas Cole, Frederic Church, Frederic Remington, Georgia O'Keefe, Albert Bierstadt, and Thomas Moran, have defined the distinct cultural value of wild nature and unique concept of wilderness in the United States;

Whereas national leaders, such as former President Theodore Roosevelt, reveled in outdoor pursuits and diligently sought to preserve opportunities to mold individual character, to shape the destiny of the Nation, to strive for balance, and to ensure the wisest use of natural resources, so as to provide the greatest good for the greatest number of people as possible;

Whereas luminaries in the conservation movement, such as scientist Aldo Leopold, forester Bob Marshall, writer Howard Zahniser, teacher Sigurd Olson, biologists Olaus, Adolph, and Mardy Murie, and conservationists David Brower and Marjory Stoneman Douglas, believed that the people of the United States could protect and preserve the wilderness in order for the wilderness to last well into the future;

Whereas Senator Hubert H. Humphrey, a Democrat from Minnesota, and Representative John Saylor, a Republican from Pennsylvania, originally introduced the Wilderness Act with strong bipartisan support in both houses of Congress;

Whereas, with the help of colleagues (including cosponsors Senators Clinton P. Anderson, Gaylord Nelson, William Proxmire, and Henry "Scoop" M. Jackson, and the Senate floor manager, Senator Frank Church) and conservation allies (such as Secretary of Interior Stewart L. Udall and Representative Morris K. Udall), Senator Humphrey and Representative Saylor worked tirelessly for 8 years to secure nearly unanimous passage of the legislation, with a vote of 78 to 12 in the Senate and 373 to 1 in the House of Representatives;

Whereas critical support in the Senate for the Wilderness Act came from 3 Senators who still serve in the Senate as of 2009: Senator Robert C. Byrd, Senator Daniel Inouye, and Senator Edward M. Kennedy;

Whereas President John F. Kennedy, who took office in 1961 with an agenda that included a plan to enact wilderness legislation, was assassinated before he could sign into law a bill concerning the wilderness;

Whereas 4 wilderness champions, Aldo Leopold, Olaus Murie, Bob Marshall, and Howard Zahniser also passed away before witnessing passage of a wilderness bill;

Whereas President Lyndon B. Johnson signed into law the Wilderness Act in the Rose Garden on September 3, 1964, establishing a system of wilderness heritage, as President Kennedy and the conservation community had envisioned and advocated for ardently;

Whereas, in 2009, as a consequence of popular support, the people of the United States continue to have a system that protects wilderness for the permanent good of the United States;

Whereas, over the 45 years since the enactment of the Wilderness Act, various Presidents of both parties, leaders of Congress, and experts in the land management agencies within the Departments of the Interior and Agriculture have expanded the system of wilderness protection;

Whereas the Wilderness Act instituted an unambiguous national policy to recognize the natural heritage of the United States as a valuable resource and to protect the wilderness for future generations to use and enjoy;

Whereas wilderness offers numerous values for an increasingly diverse populace, allowing youth and adults from urban and rural communities to experience nature and explore opportunities for healthy recreation;

Whereas wilderness provides intact, healthy, and biologically diverse ecosystems that will better withstand the effects of global warming and help communities in the United States adapt to a changing climate;

Whereas wilderness provides billions of dollars of ecosystem services in the form of safe drinking water, clean air, and recreational opportunities;

Whereas 44 of the 50 States have protected wilderness areas;

Whereas the abundance of natural heritage of the United States is seen from Alaska to Florida, from Fire Island in the Long Island South Shore of New York and West Sister Island of Lake Erie in Ohio, to larger areas such as the Mojave National Preserve in California and the River of No Return in Idaho; and

Whereas President Gerald R. Ford stated that the National Wilderness Preservation System “serves a basic need of all Americans, even those who may never visit a wilderness area—the preservation of a vital ele-

ment in our heritage” and that “wilderness preservation ensures that a central facet of our Nation can still be realized, not just remembered”: Now, therefore, be it

Resolved, That the Senate—

(1) commemorates the 45th anniversary of the Wilderness Act (16 U.S.C. 1131 et seq.);

(2) recognizes and commends the extraordinary work of the individuals and organizations involved in building the National Wilderness Preservation System; and

(3) is grateful for the wilderness, a tremendous asset the United States continues to preserve as a gift to future generations of the United States.

DISCHARGE AND REFERRAL—S. 1547

Mr. WARNER. Mr. President, I ask unanimous consent that S. 1547 be discharged from the Committee on Banking, Housing and Urban Affairs and be referred to the Committee on Veterans Affairs.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR THURSDAY, AUGUST 6, 2009

Mr. WARNER. I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m. tomorrow, Thursday, August 6; that following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, and the time for the two leaders be reserved for their use later in the day, and that there be a period of morning business until 10 a.m. with Senators permitted to speak therein for up to 10 minutes each; that following morning business the Senate proceed to executive session and resume consideration of the nomination of Sonia Sotomayor as provided for under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. WARNER. Under the previous order, at 3 p.m. tomorrow, the Senate will proceed to vote on confirmation of the nomination of Judge Sonia Sotomayor to be Associate Justice of the Supreme Court of the United States. Upon disposition of the nomination, the Senate will return to the consideration of the supplemental appropriations bill for the Consumer Assistance to Recycle and Save Program.

Under the agreement, up to seven amendments are in order prior to a vote on the passage of the bill. When we return from the August recess, at 5:30 p.m. on Tuesday, September 8, the Senate will proceed to a cloture vote on the Dorgan substitute amendment to the Travel Promotion Act.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. WARNER. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 9:09 p.m., adjourned until Thursday, August 6, 2009, at 9:30 a.m.

NOMINATIONS

Executive nominations received by the Senate:

DEPARTMENT OF DEFENSE

FRANK KENDALL III, OF VIRGINIA, TO BE DEPUTY UNDER SECRETARY OF DEFENSE FOR ACQUISITION AND TECHNOLOGY, VICE JAMES I. FINLEY, RESIGNED.

DEPARTMENT OF LABOR

DAVID MORRIS MICHAELS, OF MARYLAND, TO BE AN ASSISTANT SECRETARY OF LABOR, VICE EDWIN G. FOULKE, JR.

EXTENSIONS OF REMARKS**SENATE COMMITTEE MEETINGS**

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Com-

mittee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, August 6, 2009 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED**AUGUST 7**

9:30 a.m.

Joint Economic Committee

To hold hearings to examine the employment situation for July 2009.

SD-562

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

SENATE—Thursday, August 6, 2009

The Senate met at 9:30 a.m. and was called to order by the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal spirit, thank You for the continuous blessings of Your handiwork. From the first blush of dawn to the wonders of the starry heavens, we are daily made aware of Your creative might.

Bless our Senators to see the wonder of Your presence on Capitol Hill today. In the hands of the many workers who enable them to do their work, help them to catch a glimpse of the unity and cooperation You desire for them. Make them willing to both receive and give forgiveness as they manifest Your spirit in deeds of kindness. As our lives intertwine through common tasks, remind us that ultimately we are accountable to You. Guide our thinking, speaking, and decisions that we may live worthy of Your great love.

We pray in Your merciful Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable KIRSTEN E. GILLIBRAND led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The bill clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, August 6, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mrs. GILLIBRAND thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Madam President, following leader remarks, there will be a period of morning business until 10 a.m., with Senators permitted to speak therein for up to 10 minutes each. It is my understanding the senior Senator from Iowa wishes to speak on a sad note in his life, and if he needs more than 10 minutes, I ask unanimous consent that be the case.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. REID. At 10 a.m., the Senate will resume consideration of the nomination of Sonia Sotomayor to be an Associate Justice of the Supreme Court of the United States. The debate until 2 p.m. will be controlled in alternating hour blocks of time, with the Republicans controlling the first hour and the managers and leaders controlling the time from 2 p.m. until 3 p.m., with each permitted to speak for up to 15 minutes. At 3 p.m., the Senate will proceed to vote on confirmation of the nomination.

Upon disposition of the nomination, the Senate will turn to the emergency supplemental appropriations bill for the Consumer Assistance to Recycle and Save Program, known as cash for clunkers. Under an agreement reached last night, seven amendments are in order prior to a vote on passage of the bill. Each amendment has up to 30 minutes of debate prior to a vote. I am hopeful that some debate time can be yielded back so that we will be able to begin voting at a reasonable time this afternoon.

APPRECIATION FOR COOPERATIVE SPIRIT

Madam President, I wish to spread on the record my appreciation for the cooperation from all Senators. We worked through some difficult things yesterday to get to the point where we are today. I especially wish to express my appreciation to the Republican leader, Senator MCCONNELL, who had to work through some difficult issues on his side, as I did on mine. We spoke and met yesterday many times. Of course, our most helpful staff was with us every step of the way—on our side, Lula Davis, and on MCCONNELL's side, Dave Schiappa—and we appreciate very much their expertise in this area.

FRANKEN MAIDEN SPEECH

Finally, I wish to say briefly that our newest Senator, AL FRANKEN, gave his

maiden speech last night. It was really very good. I was so impressed with how well prepared he was. I was very impressed with how well he delivered the speech. Here is a man who is a Harvard graduate, best-selling author, and entertainer. Now he is a U.S. Senator, and the people of Minnesota are so fortunate. If things work out as I think they will, he will be presiding over the Senate when the historic vote is called today on the new Supreme Court Justice.

HISTORIAN RETIREMENT RECEPTION

Madam President, Senate Historian Dick Baker will be retiring. In honor of his service to the Senate and the Senate community, there will be a reception today from 3:30 to 5:00 in the LBJ Room, S. 211. He is a wonderful scholar, a great writer, and a lecturer, and we are going to miss him very much.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to a period of morning business until 10 a.m., with Senators permitted to speak therein for up to 10 minutes each.

The Senator from Iowa is recognized.

TRIBUTE TO MARY JO HOFFMAN

Mr. GRASSLEY. Madam President, this morning a funeral service will be held in Sioux City, IA, for a 44-year-old woman who began working for the people of Iowa in my office in January of 1988. Mary Jo Hoffman was a loyal and trusted adviser to me and a beloved friend to my wife, Barbara, our family, and many of my Senate staff who served with her more than a decade ago and still, in a sense, are serving with her today.

Always filled with purpose, Mary Jo spent the last 2 years 4 months fighting cancer with the tenacity, strength, and determination we all knew and loved about her. When Mary Jo set her mind to something, she didn't let much get in her way. She was that way when I met her when she was a bright young college student at the University of Northern Iowa, my alma mater, and she was that way when she worked effectively to serve constituents, first as a legislative correspondent, then as scheduler and as a top aide in my Senate office, and later on when she

worked for my political campaigns. I valued her judgment and appreciated her hard work and commitment to quality in every position she held. Mary Jo also taught at night as a volunteer and earned a master's degree while working on Capitol Hill.

She reached out and gave to others in so many ways through her church, in her community, and even on the U.S. Air Force base in Greece where she lived for a short period of time with her husband while he was serving. Someone in need had a friend in Mary Jo. She always got a lot done, and she did it in a way that was generous, spirited, and committed to ideals.

Mary Jo was a person of great faith. She provided leadership wherever she went through worship and fellowship and with the example she set with her own life. Mary Jo was a faithful witness for Christ and never more so than the darkest hours and days of her last 2 years. She will continue to inspire those of us who were lucky enough to have her in our lives.

We all mourn Mary Jo's departure, and our heart goes out to her family, including her devoted husband, Brent, and mother, Karen. I know Mary Jo's beautiful young children, Silas and Lydia, will miss her every day. I pray that they find comfort in the honorable life lived by their mother and my dear friend Mary Jo. She served the people of Iowa and the Lord with distinction and humility. She left this world for the next with courage and grace.

I wish to read one sentence from the Sioux City Journal which I think sums up her life: "Her words were like thunder because her life was like lightning."

Madam President, I ask unanimous consent to have the full text printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From Sioux City Journal, Aug. 4, 2009]

MARY JO HOFFMAN

SIoux CITY.—Mary Jo Hoffman, 44, passed on to heaven on July 31, 2009, having lived life well and faithfully. She leaves a timeless legacy of faith and love for family and friends. Her words were like thunder because her life was like lightning.

Memorial services will be 11 a.m. Thursday at Heartland Community Baptist Church, 3601 Country Club Blvd., Sioux City, with the Rev. Gene Stockton officiating. A luncheon will follow the memorial service. Burial will be at a later date in Arlington National Cemetery, Washington, D.C. Visitation with the family will be 5 to 7 p.m. Wednesday at Meyer Brothers Colonial Chapel. Condolences may be sent online to www.meyerbroscapels.com.

Born in Centerville, Iowa, on April 5, 1965, Mary Jo was a precocious student and musician, graduating as class salutatorian from Chariton (Iowa) High School in 1983. She adored her family and friends.

She received her bachelor of arts degree from the University of Northern Iowa in 1987, graduating with high honors. During a dis-

tinguished career, she put her faith in action through teaching and public service. She worked on Capitol Hill for many years, serving proudly on the staff of Senator Chuck Grassley. She also earned a master of arts degree from George Mason University in Arlington, Va.

While living in Virginia and attending First Baptist Church of Alexandria, Mary Jo (Archibold) met and married Brent Hoffman. She joined Brent on military assignments in Greece and at the Pentagon. Their children, Silas and Lydia were born in 2000 and 2002, and she promptly set all career plans and ambitions aside. In 2004, they returned to their native Iowa and Sioux City. Though she maintained interests in fundraising and community service, she was a mother who put her family's needs first and foremost. She enjoyed reading, music, cooking, politics, knitting and most of all, visiting with friends and family.

Though admired for her extraordinary achievements, she was beloved for her faith and kindness. She accepted Christ as her Savior and her faith in God was the driving purpose in her life. Friends describe Mary Jo as a bright shining light who lived a life pleasing to God. Her influence will not be forgotten.

Survivors include her children, Silas and Lydia; her husband, Brent; her parents, Ron and Karen Stein of Mason City, Iowa; a sister, Malinda Hilzer of Des Moines; and many other relatives, all of whom she loved and are left to cherish her memory.

She was preceded in death by her father, D.W. Archibold; and her grandparents.

A memorial has been established in the name of Mary Jo Hoffman at Heartland Community Baptist Church.

ORDER OF PROCEDURE

Mr. KAUFMAN. Madam President, I ask unanimous consent that the time between now and 10 o'clock be distributed as follows: 5 minutes for Senator ALEXANDER and then the rest of the time be equally divided between Senator DURBIN and myself.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. KAUFMAN. Madam President, the White House, the Congress, and the American people are engaged in a stark debate over our Nation's health care insurance system. A lot is at stake. We will make a choice in 2009, and that choice will determine the health care system we have in our Nation for a long time to come.

Fifteen years have passed since we last attempted to pass health care reform. What we do now will be consequential for decades to come. It will be a long time before the people of this country and their leaders will return to this complex and contentious issue.

So let us carefully review the potential plans. We have a plan being developed by the House of Representatives, we have a plan from the Senate HELP Committee, and a plan from the Finance Committee, we have the bipar-

tisan Wyden-Bennett plan, and then we have a plan I am going to spend a lot of time talking about, and that is the PHS plan.

In listening to my colleagues speak on the floor of the Senate, on television, talk radio, in newspapers, and in private meetings, one thing is clear: They think the plan we end up with will be the PHS plan. They think a combination of those who want no health care reform and those who like none of the proposed plans will combine to kill all other plans. So what is the PHS plan? Our present health care system.

Let's look at what will happen to average Americans if we keep our present health care system.

First, Americans' health care insurance costs will explode—and that is not an overstatement—explode. The average family in America can look forward to premium costs for their health insurance of more than \$24,000 a year by 2016. That is an 83-percent increase over the cost in 2008. In my home State of Delaware, the costs will be even higher, with the average premium for family coverage approaching \$29,000. At that amount, more than half of Delaware families would each have to spend half of their income on health insurance. This means families will be forced to either go without insurance or to buy less coverage and put their life savings at risk.

Second, personal bankruptcies for medical costs will soar. Today, bankruptcies involving medical bills account for more than 60 percent of U.S. personal bankruptcies, a rate 1½ times that of just 6 years ago. Going forward under PHS, we can expect more families in bankruptcy.

Third, insured Americans will keep paying a hidden tax to help pay for care for the uninsured. Under the PHS plan, doctors and hospitals will charge insurers even greater amounts to recoup the costs to provide services to the uninsured. Today, this hidden tax is estimated to be \$1,100 per family per year. Under the PHS plan, it will most assuredly go up, raising the cost of health care for all Americans.

Fourth, Americans will continue to be denied coverage if they have pre-existing conditions. Several weeks ago, I talked about four Delawareans who, because of preexisting conditions, could not find insurance coverage. Others who could get coverage have to pay exorbitant premiums to cover conditions such as high cholesterol, hypertension, diabetes, and cancer. Unfortunately, those who get sick may have their coverage dropped altogether. These problems, which threaten the security of all families, will continue under the PHS plan.

Fifth, for too many workers, health insurance portability will still be beyond reach. Too many Americans lose their insurance when they lose their

jobs. Some can't afford their COBRA coverage, and others can't get another policy due to preexisting conditions. Even when they can find a new policy, they often discover they can no longer see the same doctor or use the same hospital.

As a result, too many Americans are stuck in their jobs, forgoing career advancement, just to keep their existing health plans.

Now let's look at what will happen to the American economy if we keep our present health care system.

First, our present health care system is bankrupting the Federal Government.

The biggest driving force behind our Federal deficit is the skyrocketing cost of Medicare and Medicaid. In 2008, government spending on Medicare and Medicaid took up more than one dollar out of every five in our Federal budget.

The more we spend on health care, the less we have for other investments—for education, for our veterans, and for job-creating technologies, to name a few.

To pay those higher Federal health care bills, we will have to pay more taxes or borrow more from China and other nations.

Controlling health care costs is the key to controlling our financial future. But under the PHS, health care costs continue to spiral out of control.

Second, health care spending will crowd out our national savings and lower our standard of living.

Health care cost as a percent of gross domestic product will grow from 18 percent today to 28 percent in the year 2030—and even 34 percent in 2040.

Those dollars out of every family's budget going to health care cannot go for housing, food, or transportation. American consumers, over two-thirds of our economy, will have fewer dollars left for any other priorities.

That means less spending at the mall, at our car dealers, and at the grocery store. Controlling health care costs will put money back in families' budgets and therefore back into the rest of our economy.

Third, the present health care system is killing U.S. economic competitiveness.

Today, U.S. manufacturing firms pay almost \$5,000 per worker per year in health costs.

That's more than twice the average cost for firms located in our major trading partners such as Europe and Japan, where a firm pays less than \$2,000 per worker each year.

In a global economy, our workers and corporations face competitors who can beat them on price every time, just because of our broken health care system. Controlling health care costs will help to level that playing field. In a fair fight, our workers and our businesses can win.

Finally, more firms will stop offering health insurance for their employees.

The PHS will continue the slow erosion of employer-sponsored insurance. This is especially true for small businesses.

In the 2008 Employer Health Benefits Survey conducted by the Kaiser Family Foundation, only 63 percent of companies of all sizes offered health insurance to their employees, down from 69 percent in 2000.

But these numbers are even lower when looking just at small businesses, with the National Small Business Association reporting that only 38 percent of small businesses provided coverage last year, compared to 61 percent in 1993.

Under the PHS plan, this decline in coverage will continue, with an estimated 10 percent of small businesses eliminating coverage in the next year and nearly 20 percent in the next 3 to 5 years.

Under the PHS plan, that would mean an additional 13 million added to the rolls of the uninsured in the next 5 years.

So that is what America will get if we decide to choose the PHS plan. Again, that is the present health care system.

If we choose the PHS plan, consumers will pay higher and higher premiums, including the hidden tax to help pay for all of our fellow Americans without insurance.

We will continue to see a rise in personal bankruptcies due to high medical costs. Americans will continue to face insurance coverage rejections based on preexisting conditions or have insurers drop their policies once they do get sick. And they won't have portable insurance that they can take from job to job.

If we choose the PHS plan, health care spending will continue to threaten the bottom line of our Federal budget, eating away higher percentages of our GDP.

Our businesses will face more competitive disadvantages to their foreign competitors, paying more for health care insurance for their employees, or dropping it altogether.

The present health care system mistreats Americans as individuals and serves the country badly as a whole. We cannot continue in the present health care system.

I hope my colleagues will return in September committed to replacing our present health care system. I hope they will spend August searching for the best of the alternative plans that they want to support.

I hope we will turn our backs on the bankrupt present health care system and instead give the American people a health care system they can all be proud of—a health care system that will sustain them into the future.

We can do no less. They deserve no less.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee see is recognized.

Mr. ALEXANDER. Madam President, will the Chair let me know when I have 30 seconds remaining?

The ACTING PRESIDENT pro tempore. Yes.

HEALTH CARE REFORM

Mr. ALEXANDER. Madam President, we are concerned about the health care reform legislation that we have seen in the House and here in the Senate. It is headed in the wrong direction. The Mayo Clinic has told us so. The Democratic Governors have told us so. The CBO has told us so.

We are hearing already from people around the country who fear that millions of people may lose their employer-based health insurance and may find themselves in a government-run plan, with new State taxes to pay for Medicaid.

My purpose is to point out that as we go back to our States in August, there is plenty of opportunity to go in a new direction. I hope when we come back, we will start over in that direction.

As an example yesterday, 12 Senators—7 Democrats and 5 Republicans—wrote an op-ed in the Washington Post about the Healthy Americans Act, the bill that is sponsored by Senator WYDEN, a Democrat, and Senator BENNETT, a Republican. I am a co-sponsor among the 5 Republicans on that bill.

There are a number of things I agree with in the bill and some things with which I don't agree. I agree it is the right framework upon which we can build a bipartisan discussion. For example, the things I like about the bill and the reason I endorse the effort is that it has been scored as budget neutral. In other words, it doesn't add to the deficit, according to the CBO. It doesn't create a government-run plan to compete with private insurance plans. People would have choices among private plans just like most people have today. It replaces Medicaid and the Children's Health Insurance Program with private insurance plans. It doesn't replace all of Medicaid, but about 40 million of the people who are on Medicaid today, which is the largest government-run program we have, would have a choice to buy plans like the rest of us.

I think one of the worse things about the bills we are seeing is that it dumps low-income Americans into a government-run program that is failing—Medicaid—that 40 percent of the doctors will not see, and that none of us would want to join if we were forced to do so. This proposal takes away that problem. The Healthy Americans Act makes a fairer distribution of the government subsidies we already spend subsidizing health care by giving more

Americans a chance to benefit from that.

It would give more Americans a chance to purchase the same kind of health insurance policy Federal employees and Members of Congress have. It provides a tax deduction for all American individuals and families to address the unfairness of our tax system. It includes an individual mandate. In other words, no free ride. We are all in this together. States that implement some sort of reforms against junk runaway lawsuits against doctors, which drive up the cost of malpractice insurance, will receive bonus payments.

It also includes some of the insurance market reforms about which we are hearing so much from our Democratic friends. What they don't tell you is we are all for those changes. These are the insurance reforms that say you will have a right to purchase insurance without a physical examination, and if you have a problem when you go in to get the insurance, you cannot be denied insurance for that reason. These are insurance reforms that virtually all Republican plans I have seen, and all the Democratic plans, have already in there. Those aren't the issue.

It provides a full subsidy to people living under 100 percent of the Federal poverty level to buy insurance, a private plan. This would mean roughly \$5,000 for an individual and \$12,000 for families to buy a plan. Americans earning between 100 to 400 percent of the Federal poverty level will receive subsidies on a sliding scale. After that, you pay for it yourself.

There are some points I don't like about the bill, but I endorse the framework, as well. I will mention those. I don't like the employer responsibility provisions. During negotiations, if this were the bill we were discussing, I would urge to change that. I don't like the fact that plans are required to be at the higher benefit level of the Federal employee plans. That is a level higher than most Federal employees have, and we can save dollars if we use the basic plan and use that money to provide higher subsidies to middle-income Americans to buy health insurance. I don't believe the subsidies in this bill are enough for many middle-income families. I have suggested a place to get some of that money.

We phase out the tax deduction at \$62,500 a year, which may not be high enough to make this a fair proposal. I am concerned about the abortion provisions in the bill, although it doesn't provide government subsidies for abortion.

The point is, there is a framework that is headed in a different direction, and it has the support of 12 Senators.

I ask unanimous consent that the op-ed from the Washington Post be printed in the RECORD following my remarks.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(See exhibit 1.)

Mr. ALEXANDER. Madam President, I also ask unanimous consent that an article by Art Laffer in Wednesday's Wall Street Journal, which provides yet another reasonable option for providing health care opportunities for Americans without adding to the deficit, be printed in the RECORD following my remarks.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(See exhibit 2.)

Mr. ALEXANDER. Madam President, there is a way to do this if we want to head in a different direction.

I yield the floor.

[From the Washington Post, Aug. 5, 2009]

HOW WE CAN ACHIEVE BIPARTISAN HEALTH REFORM

(By Ron Wyden and Robert F. Bennett)

We refuse to let partisanship kill health reform—and we are proof that it doesn't have to.

As 12 U.S. senators from both sides of the aisle who have widely varying philosophies, we offer a concrete demonstration that it is possible to find common ground and pass real health reform this year. The process has been rocky, and slower than many had hoped. But the reports of the death of bipartisan health reform have been greatly exaggerated. Now is the time to resuscitate it, before the best opportunity in years is wasted.

Democratic activists have long campaigned for universal coverage and quality benefits. Republican activists zero in on empowering individuals and bringing market forces to the health-care system. Our approach does both. In our discussions on the Healthy Americans Act, each side gave a bit on some of its visions of perfect health reform to achieve bipartisanship.

The Democrats among us accepted an end to the tax-free treatment of employer-sponsored health insurance; instead, everyone—not just those who currently get insurance through their employer—would get a generous standard deduction that they would use to buy insurance—and keep the excess if they buy a less expensive policy.

The Republicans agreed to require all individuals to have coverage and to provide subsidies where necessary to ensure that everyone can afford it. Most have agreed to require employers to contribute to the system and to pay workers wages equal to the amount the employer now contributes for health care. The Congressional Budget Office has reported that this framework is the only one thus far that bends the health-care cost curve down and makes it possible for the new system to pay for itself. It does this by creating a competitive market for health insurance in which individuals are empowered to choose the best values for their money and by cutting administrative costs and spreading risk across large groups of Americans.

First, we allow all Americans to have the same kind of choices available to us as members of Congress. Today, more than half of American workers who are lucky enough to have employer-provided insurance have no choice of coverage. Members of Congress who enroll their families in the Federal Employ-

ees Health Benefits Program often have more than 10 options. This means that if members of Congress aren't happy with their family's insurance plan in 2009 or insurers raise their rates, they can pick a better plan in 2010. Our plan would give the consumer the same leverage in the health-care marketplace by creating state-run insurance exchanges through which they can select plans, including their existing employer-sponsored plan.

Beyond giving Americans choices, our approach also ensures that all Americans will be able to keep that choice. We believe that at a time when millions of Americans are losing their jobs, members of Congress must be able to promise their constituents that "when you leave your job or your job leaves you, you can take your health care with you." Our approach ensures seamless portability.

Our point is not that our framework is the only way to reform the system or to reach consensus. But our effort has shown that it is possible to put politics aside and reach agreement on reforms that would improve the lives of all Americans. Insisting on any particular fix is the enemy of good legislating. A package that will entirely please neither side, but on which both can agree, stands not only the strongest chance of passage but also the best chance of gaining acceptance from the American people.

We didn't undertake this effort because we thought it would be easy; in fact, we started working together because we knew it would be hard. Passing health reform is going to require that we take a stand against the status quo and be willing to challenge every interest group that is jealously guarding the advantages it has under the current system, because health reform isn't about protecting the current system or preserving the advantages of a few. We can't forget that we are working on life-and-death issues facing our constituents, our families, our friends and our neighbors.

It's time to stop trying to figure out what pollsters say the country wants to hear from us and focus on what the country needs from us. The American people can't afford for Congress to fail again.

EXHIBIT 2

[From the Wall Street Journal, Aug. 5, 2009]

HOW TO FIX THE HEALTH-CARE "WEDGE"

(By Arthur B. Laffer)

President Barack Obama is correct when he says that "soaring health-care costs make our current course unsustainable." Many Americans agree: 55% of respondents to a recent CNN poll think the U.S. health-care system needs a great deal of reform. Yet 70% of Americans are satisfied with their current health-care arrangements, and for good reason—they work.

Consumers are receiving quality medical care at little direct cost to themselves. This creates runaway costs that have to be addressed. But ill-advised reforms can make things much worse.

An effective cure begins with an accurate diagnosis, which is sorely lacking in most policy circles. The proposals currently on offer fail to address the fundamental driver of health-care costs: the health-care wedge.

The health-care wedge is an economic term that reflects the difference between what health-care costs the specific provider and what the patient actually pays. When health care is subsidized, no one should be surprised that people demand more of it and that the costs to produce it increase. Mr. Obama's

health-care plan does nothing to address the gap between the price paid and the price received. Instead, it's like a negative tax: Costs rise and people demand more than they need.

To pay for the subsidy that the administration and Congress propose, revenues have to come from somewhere. The Obama team has come to the conclusion that we should tax small businesses, large employers and the rich. That won't work because the health-care recipients will lose their jobs as businesses can no longer afford their employees and the wealthy flee.

The bottom line is that when the government spends money on health care, the patient does not. The patient is then separated from the transaction in the sense that costs are no longer his concern. And when the patient doesn't care about costs, only those who want higher costs—like doctors and drug companies—care.

Thus, health-care reform should be based on policies that diminish the health-care wedge rather than increase it. Mr. Obama's reform principles—a public health-insurance option, mandated minimum coverage, mandated coverage of pre-existing conditions, and required purchase of health insurance—only increase the size of the wedge and thus health-care costs.

According to research I performed for the Texas Public Policy Foundation, a \$1 trillion increase in federal government health subsidies will accelerate health-care inflation, lead to continued growth in health-care expenditures, and diminish our economic growth even further. Despite these costs, some 30 million people will remain uninsured.

Implementing Mr. Obama's reforms would literally be worse than doing nothing.

The president's camp is quick to claim that his critics have not offered a viable alternative and would prefer to do nothing. But that argument couldn't be further from the truth.

Rather than expanding the role of government in the health-care market, Congress should implement a patient-centered approach to health-care reform. A patient-centered approach focuses on the patient-doctor relationship and empowers the patient and the doctor to make effective and economical choices.

A patient-centered health-care reform begins with individual ownership of insurance policies and leverages Health Savings Accounts, a low-premium, high-deductible alternative to traditional insurance that includes a tax-advantaged savings account. It allows people to purchase insurance policies across state lines and reduces the number of mandated benefits insurers are required to cover. It reallocates the majority of Medicaid spending into a simple voucher for low-income individuals to purchase their own insurance. And it reduces the cost of medical procedures by reforming tort liability laws.

By empowering patients and doctors to manage health-care decisions, a patient-centered health-care reform will control costs, improve health outcomes, and improve the overall efficiency of the health-care system.

Congress needs to focus on reform that promotes what Americans want most: immediate, measurable ways to make health care more accessible and affordable without jeopardizing quality, individual choice, or personalized care.

Because Mr. Obama has incorrectly diagnosed the problems with our health-care system, any reform based on his priorities would worsen the current inefficiencies.

Americans would pay even more for lower quality and less access to care. This doesn't sound like reform we can believe in.

The ACTING PRESIDENT pro tempore. The Senator from Illinois is recognized.

Mr. DURBIN. Madam President, how much time do we have?

The ACTING PRESIDENT pro tempore. There is 6 minutes 12 seconds remaining.

CASH FOR CLUNKERS

Mr. DURBIN. Madam President, later today, we are going to take up the Cash for Clunkers Program. This is an idea whose time has come. When we passed this legislation a few weeks ago, I wasn't sure. I didn't know if this would work, if we put a dollar incentive in front of American buyers and said: If you will bring in an old car or truck and trade it in on a new car or truck that is more fuel efficient, would you consider it—I didn't know if they would. We are in a recession and people don't have a lot of money.

Well, they not only considered it, they made it a wild success. In a matter of just a few days, the \$1 billion we set aside for the program led to dramatic increases in sales in auto showrooms in Illinois and all across the Nation. I got phone calls from dealers who said: Keep it coming. Folks are finally coming into our showrooms and buying cars.

The good news is it is not only activity that is clearing the inventory in these dealerships, it also means we have more jobs. As we have more of these cars being purchased, there is more demand to rebuild that inventory at the auto dealership, and we put auto workers back to work. Also, the good news is people are buying more fuel-efficient vehicles. Eighty-three percent of the vehicles being traded in are old trucks that are not fuel efficient. Most people—the majority of them—are buying fuel-efficient cars, and that is a good change. It means there will be less fuel use, less dependence on foreign oil, and less pollution. For those who buy it, it will be a car they can operate more cheaply than the one they traded in.

We have a chance to extend this program today. It may be our last chance. A lot of amendments will be offered. Some may be good-faith amendments to improve the bill, and I fear some may be mischievous. Here is the reality. Any amendment adopted today means this program will be stopped in its tracks, and we will have to wait for the House to return in September. So for the next 4, 5, 6 weeks, nothing would happen.

Let's not lose the momentum in the Cash for Clunkers Program. This program is helping to put life back into our economy, save and create jobs, and get our automobile sector moving forward again.

That is something we desperately need to come out of the recession—creating jobs and getting back on our feet and be strong again. The Cash for Clunkers Program has been a success. Let's continue it.

HEALTH CARE

The second issue I have relates to health care. I heard my colleague from Tennessee come forward and suggest that he is working on an alternative to health care reform. I salute him for that, and I hope he will continue that effort. I also salute the three Republican Senators who have met for weeks, if not months, trying to hammer out the differences in health care reform. It is a constructive, positive dialog. I am sure I would not agree with everything they have come to agreement on, but that is not what this is about. It doesn't have to be a bill that is perfect in my eyes; it has to be a bill that is reasonable, that will bring down the cost of health care.

I know what happened in Illinois. In 1997, health insurance premiums through employers averaged \$5,462. Just 9 years later, that number was \$11,781. If we do nothing, by 2016, it will more than double, to \$25,409.

Those who come to the floor and to town meetings and say, "Don't touch it; all you can do is make a mess of it," ignore the obvious. The current health care system is unsustainable for families and for small businesses. Fewer and fewer businesses are offering health insurance protection. More people are finding themselves without health insurance protection.

In fact, in Illinois 15 percent of the population has no insurance at all. During the course of any given year, one out of three Illinoisans have no health insurance coverage at least some time during that year. That is unacceptable. People without health insurance coverage are one diagnosis or one accident away from bankruptcy. We know more and more people are going into bankruptcy court because of health care and medical bills they cannot pay. For those who stand here and say "Don't touch it; leave it alone," it is unsustainable. It is a system headed toward disaster.

Who wants to keep the current health care system? It is the people who are making the most money in the system, the health insurance companies. They have been profitable, when many other parts of the economy have not. They are now sponsoring activities and advertisements and all sorts of things at town meetings to try to create resistance to change in health care. That is not good. It is not a constructive dialog. To think that these town meetings that are supposed to take place for a healthy, honest dialog back home have now turned into political theater. Some groups have Web sites that instruct people about how to disrupt a town meeting and embarrass a

Senator or Congressman. I know that when I go to town meetings, people may disagree and be emotional, and that is OK. To think they have a coordinated effort to disrupt a town meeting. Who wants that? That is not constructive.

Let's move forward with an honest, constructive, bipartisan dialog. Three Republicans are doing that now. If we do that, we can reach a bipartisan compromise that I and the President would like to see by September. Let us come back with resolve in September to make sure there is real health care reform that brings stability to the costs that businesses and Americans pay, stability to coverage so you don't lose your health insurance because of a pre-existing condition, changing a job, caps and limits on your policy, with quality access to preventive care, wellness care, and the quality care that every American deserves.

We can do that with patient-centered health insurance reform, and we can get it done in a bipartisan fashion in September when we return.

I yield the floor.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

EXECUTIVE SESSION

NOMINATION OF SONIA SOTOMAYOR TO BE AN ASSOCIATE JUSTICE OF THE SUPREME COURT OF THE UNITED STATES

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to executive session to consider the following nomination, which the clerk will report.

The bill clerk read the nomination of Sonia Sotomayor, of New York, to be an Associate Justice of the Supreme Court of the United States.

The ACTING PRESIDENT pro tempore. Under the previous order, the time until 2 p.m. will be equally divided in 1-hour alternating blocks of time, with the Republicans controlling the first hour.

The Senator from South Carolina.

Mr. DEMINT. Madam President, I do want to talk about the President's nominee to the Supreme Court, but first I wish to give a couple of comments in response to the Senator about health care because if the record be known to Americans, the preponderance of health reform legislation that has been presented over the last 5 years in the Senate has come from Republicans. The Democrats have consistently blocked any reform that would make health insurance more affordable and available to Americans. Their goal appears to be not patient-centered care but government-controlled care.

If we look back a few years, the President, along with all the Democrats, voted against interstate competition among insurance companies. It is hard to say they are not on the side of insurance companies when they vote to prevent a national market, a national competitive market that people all over the country could buy policies that are more affordable and perhaps match their needs much better than the ones they can get in their own States.

Today Americans can only buy health insurance in the States where they live. That means a few insurance companies can dominate the market. This is something we have tried to change, we have introduced, and the President has voted against it.

We have also proposed tax fairness for Americans who do not get their health insurance at work. The other side seldom discusses the fact that when you get your insurance at work, you get pretty big tax breaks. The companies that provide that health insurance do not have to pay taxes on it. They can deduct it. It is a business expense. And the employees do not have to pay income tax on the benefits. It is an equivalent benefit over \$3,000.

The bills we Republicans have introduced will give health care vouchers to every American. Every family would get \$5,000 a year to buy health insurance if they do not get their health insurance at work. Every individual would get \$2,000.

In addition, there would be some lawsuit abuse reform and some block grants to States to make sure people who are uninsurable, who have pre-existing conditions, can buy affordable insurance.

The Heritage Foundation says one of the Republican plans would have 22 million Americans insured within 5 years. They are plans that work. But, unfortunately, the other side will not even discuss plans that do not have more government control involved with them.

What we can do is make what is working work better. We do not need to replace it with what is not working. One of the reasons health insurance is more expensive today—a third more expensive—is that the government programs of Medicare and Medicaid do not pay their fair share, and those costs are shifted on to employers and individuals who have private insurance.

We do not need to expand the part that is broken in health care. We certainly do not need to expand a cash-for-clunkers type of health care system for America.

I am here today to talk about the President's nominee to the Supreme Court, Sonia Sotomayor. I commend my Republican colleagues, particularly Senator JEFF SESSIONS, for conducting a very respectful and civil hearing process for the nominee. This is some-

thing we have not seen in a number of years here. They were respectful toward her. Even those who disagree with her judicial philosophy showed courtesy and respect during the hearings, and it is something I very much appreciate.

Our goal through this process has not been to block this nomination and to stop her from going to the Supreme Court. The votes have never been there to do that. What we have been trying to show is a pattern by the Obama administration and the Democratic majority of moving toward more and more government control in all areas of our lives. We see it in the stimulus plan, that instead of leaving money in the private sector, we take it away and spend it on programs such as turtle tunnels and other kinds of wasteful spending all across the country—government spending.

We are trying to manage the private economy. We see it in cash for clunkers where we create an economic earmark for one sliver of our economy. At the same time, in this health care legislation, we are talking about adding taxes to the small businesses that create 70 percent of the jobs in this country.

We are benefiting a few at the expense of many. This is economic central planning. It is a concept that has failed throughout history. Yet we are trying again.

What we see in the President's nominee to the Supreme Court is this belief that our Constitution is inadequate, that we need to have judges on our courts, Justices on the Supreme Court, who add to it.

The President has said that our Constitution is a charter of negative liberties. It tells the government what it cannot do, but it does not tell us what we have to do. The whole point of the Constitution is to limit what we can do. But the President considers it inadequate, and he is nominating people to the courts who will be activists, who will expand what the Federal Government does and make arbitrary decisions rather than those based on the Constitution.

Unfortunately, I do rise today in opposition to the confirmation of Judge Sonia Sotomayor to the U.S. Supreme Court. I met with her personally, and I watched the hearings. I believe she is a very smart and gracious person with an inspiring personal story. But I also found her evasive and contradictory in her answers.

On several issues ranging from judicial temperament to her infamous "wise Latina" speeches, Judge Sotomayor experienced what we call confirmation conversion on many of her issues and simply walked away from a lot of her past statements and positions.

Now seeing her willingness to tell us what we want to hear, neither her testimony nor her long record on the judicial bench can give the American people any confidence that she will rule according to the clear language and intent of the Constitution.

Let me talk for a second about the Constitution versus precedent. I am very concerned with Judge Sotomayor's repeated efforts to deflect questions by stating she relied on precedent to guide her decisions. I understand circuit court judges are guided and even bound by Supreme Court precedent, but precedent is not the same thing as the Constitution, particularly on the Supreme Court. A judicial confirmation process that puts the constitutional interpretation outside the bounds of discussion is a waste of time.

On issue after issue during her hearings, Judge Sotomayor, rather than giving her own opinion, simply offered the opinions of many other judges. We have no idea what she thinks. In one sense, this is fitting. The Congress routinely passes legislation that none of us reads or understands. So perhaps it is consistent for us to nominate and confirm a Justice when we do not understand what she actually believes.

Judge Sotomayor may be very learned in constitutional law, but we rarely heard her actually mention the Constitution itself. This is a big problem for our judiciary and our system of checks and balances.

In 1825, Thomas Jefferson said that the Federal judiciary was at first considered as the most harmless and helpless of all its organs. But it has proved that the power of declaring what is law has allowed it to slyly, and without alarm, sap away the foundations of the Constitution.

What concerns me, as Jefferson observed, is that there are many confusing and contradictory precedents that can be used by judges to justify whatever decision they want to make. Without the Constitution as the fixed standard, court decisions become very arbitrary, and we are ruled by the opinions of Justices rather than the rule of law.

When the law is unmoored from the Constitution, it becomes like the old schoolroom game of telephone. Some may remember it. One student says something to her neighbor and on and on across the room until the secret reaches the other side of the class. What do you know—the final message no longer even resembles the original. That is how precedent has worked in our court system. Every time the Supreme Court bases a decision on a precedent rather than on the underlying Constitution, the original intent of the Founders is lost and becomes distorted.

There is nothing stopping a determined judge from finding a precedent

that suits whatever they want to decide in any case before the Court. Nor apparently is there anything that will stop Judge Sotomayor from unmooring her decisions, not only from the Constitution but from precedent itself, as she did in the Ricci racial discrimination case and with regard to the fundamental right of citizens to own firearms.

In the Ricci case, she claimed she was following precedent, but her own colleagues on the circuit court refuted her claim.

On the second amendment, she disregarded the Supreme Court's Heller decision and still refuses to acknowledge the right to bear arms for every American, that it is a fundamental right.

Decisions such as these, understandably, undermine the credibility of our judicial system. Americans are led to suspect that some judges are more interested in their particular outcomes rather than objectivity.

Let me conclude. Judge Sotomayor is obviously a talented jurist, but I believe her when she says that she chooses her words very carefully. And her words, both in her testimony and throughout her career, undermine her claims to objective and impartial justice.

I realize my view is the minority view here, and if Judge Sotomayor is confirmed, she will have my best wishes on a long and distinguished career. Given the available evidence, however, I cannot support her confirmation, nor the judicial philosophy that she will carry with her to the Supreme Court.

Madam President, I yield the floor. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HATCH. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. HATCH. Madam President, on Tuesday I explained some of the reasons I cannot support the nomination of Judge Sonia Sotomayor to replace Justice David Souter, and I will mention a few others here today. These are important points. Her record simply creates too many conflicts with principles about the judiciary in which I deeply believe. I wish President Obama had chosen a Hispanic nominee whom all Senators could support.

During the debate this week, many of my Democratic friends have spent time reading Judge Sotomayor's resume rather than reviewing her record. Nearly every speaker on the other side has repeated the talking point that she has more Federal judicial experience than any Supreme Court nominee in a century. I believe she does, and I respect

her for it. But Justice Samuel Alito had only 1 less year of Federal judicial experience and actually had 5 more years on the U.S. court of appeals when he was nominated. He, too, had been a prosecutor and he, too, had received a unanimous "well qualified" rating from the ABA. Yet 19 current Democratic Senators voted to filibuster his nomination, including the current President, and 35 voted against confirmation.

Other Senators emphasize the importance of appointing someone with Judge Sotomayor's inspiring life story and ethnic heritage. Once again, I do not disagree. She has an inspiring life story and a great ethnic heritage. Yet she is being treated with far more dignity and respect than was Miguel Estrada, a highly qualified Hispanic nominee with an inspiring life story, who everybody knows is one of the best attorneys in the country. The Senate, for example, will actually vote on Judge Sotomayor's nomination today. In 2003, for the first time in American history, this body was prevented from voting at all on the Estrada nomination, even though he had majority support. Senators and grassroots groups, including Hispanic organizations that today say a good resume, rich life story, and ethnic heritage make a compelling confirmation case for Judge Sotomayor, opposed even holding an up-or-down vote for Mr. Estrada. The treatment of Miguel Estrada was unfair and disgraceful toward the nominee and damaging to the traditions and practice of this body.

My Democratic colleagues want people to believe the concerns about the Sotomayor nomination are limited to one speech and one case. Some of them have said as much. At the same time, they say our review should be limited to only certain parts of the nominee's record. As I have done with past nominees, however, I examined Judge Sotomayor's entire record for insight into her judicial philosophy.

In addition to the controversial speeches I discussed on Tuesday, Judge Sotomayor gave a speech at Suffolk University Law School which was later published in that school's law review. She embraced the idea that the law is indefinite, impermanent, and experimental. She rejected what she called "the public myth that law can be certain and stable." She said that judges may, in their decisions, develop novel approaches and legal frameworks that push the law in new directions.

Judge Sotomayor's speeches and articles, then, present something of a perfect judicial storm in which her views of judging meet her views of the law. Combine partiality and subjectivity in judging with uncertainty and instability in the law, and the result is an activist judicial philosophy that I cannot support and that the American people reject.

My Democratic colleagues will no doubt quickly say Judge Sotomayor's cases do not reflect that judicial philosophy. But remember that appeals court judges are bound by Supreme Court precedent. On the Supreme Court, Justice Sotomayor will help fashion the precedents that today bind Judge Sotomayor. That makes the rest of her views—expressed, I might add, while she has been a sitting judge—much more relevant to her future on the Supreme Court than to her current position on the appeals court.

Nonetheless, Judge Sotomayor has made plenty of troubling decisions on the appeals court. On Tuesday, for example, I discussed the case of *Didden v. Village of Port Chester*, in which Judge Sotomayor refused to give a man his day in court whose property was taken and given to a developer. She came to the bizarre conclusion that Mr. Didden should have sued before his property was even taken.

In *Kelo v. City of New London*, the Supreme Court held that general economic development can constitute the public use that the fifth amendment says justifies the taking of private property.

We hear a lot these days that judges should appreciate how their decisions should affect people. When the Court in *Kelo* greatly expanded the government's power to take private property, the *San Francisco Chronicle* no less said that the decision might turn the American dream of home ownership on its head. And one *Washington Post* headline after the decision read: "Court Ruling Leaves Poor at Greatest Risk." This decision was devastating not only for the right to private property in general but for individual homeowners in particular.

The decision in *Kelo* was issued after the briefing and argument in *Didden* but before Judge Sotomayor had issued her decision. Even though *Kelo* was a hallmark—or should I say landmark—decision that dramatically changed the law of takings, she did not ask for a re-briefing or a reargument. Instead, it took her more than a year to issue a cursory, four-paragraph opinion that not only made it easier for the government to take property but also severely limited the ability of property owners to challenge the taking of their property in court.

Other Senators and I have already discussed Judge Sotomayor's troubling decisions regarding the second amendment right to keep and bear arms. She has applied the wrong legal standard to conclude that the second amendment does not keep State and local government from restricting the right to bear arms, and she has gratuitously held that the right to bear arms is so insignificant that virtually any reason is sufficient to justify a weapons restriction. No Federal judge in America has expressed a more narrow, cramped, and limited view of the right to bear arms.

My friends on the other side of the aisle have made some creative attempts to downplay these troubling decisions. Perhaps the most curious is the claim that the second amendment right to keep and bear arms was created by the Supreme Court. On the other hand, I am baffled why this should bother those who believe in a flexible and shape-shifting Constitution. The Supreme Court, after all, makes up rights all the time—the right to abortion comes immediately to mind—without a peep from most of my Democratic friends on the other side of the aisle.

But the Senator who offered this strange theory should simply read the Constitution. The right to keep and bear arms is right there, right in the Constitution, in black and white. Perhaps he is instead referring to the Supreme Court's recognition last year that the right to bear arms is an individual rather than a collective right. Perhaps that is why he believes the Supreme Court created these rights. But the second amendment said that the right to bear arms is the right of "the people."

The fourth amendment says the same thing about the right against unreasonable searches and seizures. It, too, is a right "of the people." Does any Senator doubt that the fourth amendment protects an individual right? Does a Senator who believes that the Supreme Court made up the individual right to bear arms believe that the Supreme Court made up the individual right to be free from unreasonable government searches?

When I chaired the Judiciary Subcommittee on the Constitution in 1982, we published a report on the second amendment right to keep and bear arms. It thoroughly examined the long and rich history of this right, which predates the Constitution itself. Thus, anybody can see why I am very concerned about this. We went to the bother of really writing about it back in 1982.

As the Supreme Court has recognized, it was a fundamental individual right of Englishmen at the time of America's founding, which the second amendment merely codified. Justice Joseph Story, in his classic "Commentaries on the Constitution," called this right "the palladium of the liberties of the republic." Our report showed definitively that the right to bear arms is indeed both fundamental and individual. The Supreme Court may have taken a long time to recognize this constitutional fact, but it made up nothing in doing so.

Madam President, I commend to my colleagues the subcommittee report to which I have referred.

Madam President, finally, let me describe one other matter which arose during the hearing which I found very troubling. And before I say that, 8 of

the 10 cases of Judge Sotomayor, heard by the Supreme Court, were reversed. On the ninth one, she was seriously criticized for her approach to the law, and that was a 5-to-4 decision. These are matters that bother a lot of people. I have mentioned a whole raft of other cases and a whole raft of other issues in my prior remarks here, so I will refer back to those remarks.

Prior to her judicial service, Judge Sotomayor was closely associated with the Puerto Rican Legal Defense and Education Fund, a respected civil rights organization. From 1980 to 1992, Judge Sotomayor held at least 11 different leadership positions with the fund, including serving as a member of both its board of directors and executive committee and as both a member and chairman of its litigation committee. In a 1992 profile, the *New York Times* described Judge Sotomayor as a top policymaker with the fund. Other articles and profiles in the *Times* and *Associated Press* say that she met frequently with the legal staff, reviewed the status of pending cases and briefed the board about those cases, and was an involved and ardent supporter of the fund's legal efforts. These descriptions relied upon and quoted lawyers with whom she worked at the fund. Minutes from the fund's litigation committee specifically describe Judge Sotomayor reviewing the fund's litigation strategy and cases.

At the hearing, I asked Judge Sotomayor whether she had been aware of the friend-of-the-court briefs—the *amicus curiae* briefs—that the fund filed in several high-profile Supreme Court abortion cases. I just wanted to know what the truth was. I asked her about that because those briefs made arguments that can only be described as extreme, even by some who are in the pro-abortion movement. The fund, for example, compared the previous refusal to pay for abortions with taxpayer Medicaid funds to oppression of Blacks symbolized by the Supreme Court's infamous *Dred Scott* decision. The fund opposed any and all abortion restrictions, including laws requiring that parents be informed before their young daughters have an abortion. The fund even argued that the first amendment right to freely exercise religion somehow undermines parental notification laws.

When I asked Judge Sotomayor about these briefs and arguments, I made absolutely clear in my prefaced remarks that I was asking only about whether she knew about and agreed with them at the time the briefs were filed. I was not asking her even about her current views, let alone any position or approach she might take in the future. Judge Sotomayor told me that at the time she did not know the fund was filing those briefs or making those arguments. At times, she used what appeared to be the prepared talking point that she had not "reviewed the briefs."

But in answering my question, she went much further than that and said:

Obviously, [the Fund] was involved in litigation, so I knew generally they were filing briefs. But I wouldn't know until after the fact that the brief was actually filed.

To be clear, Judge Sotomayor said she never knew until after a brief had already been filed what arguments were made in the brief or even that it had been filed at all. I was shocked at this response and frankly found this claim very difficult to believe. How can a leader at a legal defense fund, who is actively working with the legal staff, supervising the staff, directing some of the years, briefing a board about pending cases, and an involved supporter of the fund's legal efforts, be completely out of the loop about the briefs it has filed and the arguments the fund is making? Did her discussions with the legal team about the pending cases skip these high-profile Supreme Court cases? I have to tell you, I doubt it. Did she brief the board about everything but these abortion briefs? I doubt it.

The six abortion cases in which the Fund filed briefs were among the most visible cases on the Supreme Court docket. The 1989 case of *Webster v. Reproductive Health Services*, for example, attracted a record 78 different friend-of-the-court briefs, evidence that it was one of the most anticipated cases in decades. Virtually everyone in the public interest legal world, especially at civil rights groups, had it at the top of their watch list. And yet Judge Sotomayor would have us believe that, despite her leadership positions and active involvement with the Fund's cases and legal strategy, she was completely unaware that the Fund filed a brief in *Webster* until after the fact. In other words, she knew no more than an outsider reading the newspaper about the Fund's briefs and arguments in high-profile Supreme Court cases about hot-button social issues. I find that simply implausible.

When I met with Hispanic leaders and groups during the confirmation process, their common message was that Senators should treat Judge Sotomayor seriously and respectfully. I believe we have done that. But they also insisted that our confirmation decision should be based on the merits, not on race. It was disturbing to hear, therefore, that some of these same groups appeared yesterday with the chairman of the Democratic Senatorial Campaign Committee warning about political repercussions of voting against a Hispanic nominee. I ask unanimous consent that a column published yesterday in *Politico* by former Florida House Speaker Marco Rubio addressing this issue be printed in the *RECORD* following my remarks.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(See exhibit 1.)

Let me once again return to where I began. One of America's oldest state constitutions opens by asserting what it identifies as essential and unquestionable rights and principles. In their charter, the people of Rhode Island State:

"In the words of the Father of his Country, we declare that the basis of our political system is the right of the people to make and alter their constitutions of government; but that the constitution which at any time exists, till changed by an explicit and authentic act of the whole people, is sacredly obligatory upon all."

The Constitution belongs to the people. The people established it, and only the people can change it. This essential and unquestionable principle would be a farce if the people could change the words, but judges could change the meaning of those words. Judges would still control the Constitution, and their oath to support and defend it would really be an oath to support and defend themselves. America needs judges who are guided and controlled not by subjective empathy that they find inside themselves, but by objective law that they find outside themselves.

I take a generous approach to the confirmation process. I believe that the Senate owes some deference to a President's qualified nominees and that qualifications for judicial service include not only legal experience but, more importantly, judicial philosophy. A judicial nominee must understand and be committed to the proper role and power of judges in our system of government. Evidence for a nominee's judicial philosophy must come from her entire record.

I hope that on the Supreme Court, Judge Sotomayor will take an objective, modest, and restrained approach to interpreting and applying written law. I hope that she actively defends her impartiality against subjective influences such as personal sympathies and prejudices. I hope that she sees the Constitution, both its words and its meaning, as something that she must follow rather than something she can change at will.

I hope she will do all of that. I hope she proves me wrong in my negative vote against her.

Because the record does not convince me she holds those views today, I cannot support her appointment to the Supreme Court.

Finally, I refer those who are interested back to my remarks on Tuesday because I covered a number of other cases there that are equally important, but I believe, since I covered them there, I did not have to go through them here.

I am very concerned about this nomination. I feel very bad that I have to vote negatively. It is not what I wanted to do when this process started, but I believe I am doing the honorable and right thing, even though I feel bad about it. As I have said, I like Judge

Sotomayor, I like her family, I like her life story. I am hoping she will listen to some of the things we have said on the floor, and I do wish her the best once she is confirmed.

I yield the floor.

EXHIBIT 1

[From *Politico*, Aug. 5, 2009]

NOT ANTI-HISPANIC TO OPPOSE SOTOMAYOR

(By Marco Rubio)

Sonia Sotomayor's nomination to the Supreme Court was a truly historic moment in our nation's history. As an accomplished jurist who rose from humble roots, she is an inspiration to all who share her Hispanic heritage and all Americans who believe hard work is key to success.

Since that moment, however, I have considered it vital to ensure that the historic nature of her nomination did not interfere with the Senate's constitutional duty of evaluating it and having a proper debate about the judiciary's proper function in America. After all, the lifetime nature of her appointment brandishes the post with enduring influence on the nation's affairs long after the nominating president vacates office. Whereas voters hold senators accountable every six years, this is the nation's only chance to evaluate Sotomayor before sending her to the Supreme Court for life.

During the recent Judiciary Committee hearings, it became clear that I could not in good conscience support Sotomayor's confirmation and would vote against it if I were in the Senate today. I reached this conclusion on the basis of a fair and thorough analysis.

As a whole, Sotomayor's record reflects a view that judges can and should inject personal experiences and biases into what should be the objective interpretation and application of the law. While her comments about the "better conclusions" a "wise Latina woman" would bring to the bench are universally known, I have more specific concerns about her case history and testimony regarding the Second Amendment at the state level, eminent domain takings and the so-called constitutional right to privacy that resulted in the *Roe v. Wade* decision. Together, these and other cases point to a nominee who would bring an activist approach to the highest court in the land.

Some have said my opposition to Sotomayor's confirmation and that of Republican senators would incense Hispanic-American voters. Right on cue, many are now attempting to brand Republicans as anti-Hispanic. It should be clear, however, that our opposition to her judicial philosophy is in no way a wholesale opposition to Hispanics.

I believe the greatest disservice we could offer the Hispanic community and the nation as a whole is to avoid a serious, principled discussion about the role of the judiciary. I reject the notion that judges should be representative of their sex, race or class. For these reasons, the suggestion that senators who have fundamental concerns about Sotomayor's judicial philosophy should not dare oppose her for fear of being branded anti-Hispanic is disappointing.

The true measure of our nation's progress on issues of race and ethnicity is the freedom of people of conscience to disagree with one another based on sound philosophical reasoning, without fear of being negatively branded because the person they oppose is of a different background or skin color.

Reasonable people can disagree, and, in fact, many do in this case. This competition

of ideas is healthy when properly centered on policy and philosophy, as it has been. The debate is only poisoned when the color of one's skin becomes a political football. Unfortunately, some of Sotomayor's supporters have injected race into the discussion, indicating that a vote against her is a vote against Hispanics, even though I have not heard one utterance from any senator opposing her that reflects a hostility toward Sotomayor personally or to her roots.

In evaluating judicial nominees, what matters most is determining what kind of judges they will be. And nominees who share Sotomayor's view that their role is to make law rather than interpret it are individuals I cannot support and would urge others not to, as well.

As Florida's first Hispanic speaker of the House, I too blazed a trail that has been a great source of pride for my community, particularly for those of my parents' and grandparents' generations. My experience, like Sotomayor's, is a testament to the boundless promise that exists in our great land, where the son of a bartender and housekeeper who came from Cuba without even a grasp of the English language could rise to such heights.

Those of us of Hispanic descent don't expect special treatment, only the same treatment and same opportunities afforded to all Americans. I believe it would be wrong to apply a higher or lower standard to Sotomayor than the one applied to other Supreme Court nominees.

In the final analysis, we are not worthy of Hispanics' trust or the support of any other Americans if we abandon our principles or cease articulating our philosophical disagreements on the role of the judiciary. I would rather lose an election than diminish the rights afforded by the Constitution. By consenting to a judge whose record demonstrates an inclination to set policy from the bench, we would be undermining our governing document.

Mr. HATCH. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SESSIONS. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SESSIONS. Madam President, there are a number of letters from people and groups who have given great thought to this nomination and who have written to oppose it.

I ask unanimous consent to have some of these letters printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FIDELIS,

Chicago, IL, July 10, 2009.

Re Judge Sonia Sotomayor and abortion.

Hon. PATRICK J. LEAHY,
Hon. JEFF SESSIONS,
Hon. DIANNE FEINSTEIN,
Hon. JOHN CORNYN,
Hon. TOM COBURN,
Hon. RON WYDEN,
Hon. RUSSELL D. FEINGOLD,
Hon. SHELDON WHITEHOUSE,
Hon. BENJAMIN L. CARDIN,

Hon. AMY KLOBUCHAR,
Hon. EDWARD E. KAUFMAN,

Hon. HERB KOHL,
Hon. ORRIN G. HATCH,
Hon. JON KYL,
Hon. ARLEN SPECTER,
Hon. CHARLES E. SCHUMER,
U.S. Senate
Washington, DC.

DEAR SENATOR: During the confirmation hearing of Judge Sonia Sotomayor, I urge you on behalf of thousands of Fidelis members and the American public to carefully question her about her judicial philosophy and her approach to abortion-related issues. During the period leading up to her hearing, Sotomayor has repeatedly made apparent her view that a judge's personal feelings and experiences should play a prominent role in her application of the law.

Our organization is concerned that this approach will lead Judge Sotomayor, if she is confirmed to the Supreme Court, to favor an interpretation of the Constitution that is even more protective of abortion rights than *Roe v. Wade*. Such a drastic reinterpretation of the Constitution, which would establish abortion as a fundamental right, would frustrate the will of the vast majority of Americans who oppose an unlimited right to abortion and undermine the legitimacy of the Constitution.

Judge Sotomayor offered a glimpse of her disposition toward these important issues in her recent conversation with Senator Jim DeMint during which she expressed that she had never thought about whether an unborn child has constitutional rights. This statement indicates that Judge Sotomayor does not share the values of a majority of Americans and that her decisions on the Supreme Court will fail to protect the rights of unborn children.

Although Judge Sotomayor has never directly addressed abortion-related questions while on the bench, her association with the Puerto Rican Legal Defense and Education Fund (PRLDEF), a radical organization that has supported an unlimited right to abortion, indicates that she shares the organization's views on these issues. Judge Sotomayor served on the PRLDEF's board of directors between 1980 and 1992. During this period, the PRLDEF filed several amicus briefs in prominent abortion cases.

These briefs repeatedly emphasized that the PRLDEF opposes any effort to limit the rights recognized by *Roe v. Wade*, arguing that abortion is a fundamental right and that the Constitution requires strict scrutiny of limitations on the ability to obtain an abortion. We believe that, if Judge Sotomayor is given a position on the Supreme Court, her decisions when confronted with these important questions will align with the radical views expressed in PRLDEF's amicus briefs.

In fact, these briefs indicate that Judge Sotomayor may favor even more expansive abortion rights than Justice Souter, whose support for abortion has been qualified by his willingness to permit reasonable state and federal regulations. Souter has indicated his approach by supporting regulations of federal funding for abortion counseling in *Rust v. Sullivan* and by voting to uphold state consent laws in *Planned Parenthood v. Casey*. The PRLDEF's briefs supported striking down both of these regulations as unconstitutional.

We ask that you please carefully question Judge Sotomayor during her confirmation

hearing about these issues, which implicate important values shared by a majority of the American public and threaten to diminish the legitimacy of the Constitution.

Sincerely,

BRIAN BURCH,
President.

NATIONAL RIFLE ASSOCIATION OF
AMERICA, INSTITUTE FOR LEGISLA-
TIVE ACTION,

Fairfax, VA, July 7, 2009.

Hon. PATRICK J. LEAHY,
Chairman, U.S. Senate Committee on the Judiciary,
Washington, DC.

Hon. JEFF SESSIONS,
Ranking Member, U.S. Senate Committee on the Judiciary,
Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS: I am writing to express the National Rifle Association's very serious concerns about the nomination of Judge Sonia Sotomayor to the Supreme Court of the United States.

We are particularly dismayed about the U.S. Court of Appeals for the Second Circuit's recent decision in the case of *Maloney v. Cuomo*, which involved the application of the Second Amendment as a limit on state law, via incorporation of the Second Amendment through the Fourteenth Amendment's Due Process Clause. Judge Sotomayor was on the panel that decided this case in a brief—and in our opinion, clearly incorrect—per curiam opinion.

The Maloney panel claimed that “it is settled law . . . that the Second Amendment applies only to limitations the federal government seeks to impose on this right.” It based this ruling on the 1886 case of *Presser v. Illinois*, decided long before the development of the Supreme Court's modern incorporation doctrine. But as the Court made clear last year in *District of Columbia v. Heller*, post-Civil War cases such as *Presser* “did not engage in the sort of Fourteenth Amendment inquiry required by our later cases.”

Further, *Presser* (along with *United States v. Cruikshank*) only stands for the concept that the guarantees in the Bill of Rights do not apply directly to the States. As we have seen throughout the Supreme Court's Twentieth Century jurisprudence, most of the Bill of Rights has been incorporated against the States through the Fourteenth Amendment's Due Process Clause. Thus, the failure of the Maloney panel to engage in a proper due process analysis of the Second Amendment is extremely troubling, to say the least.

The Second Circuit's decision (as well as the Seventh Circuit's similarly flawed reasoning in *Nat'l Rifle Ass'n of Am., Inc. v. City of Chicago*) is at odds with the Ninth Circuit's decision in *Nordyke v. King*, which did engage in a full Fourteenth Amendment analysis (again, as required by the Supreme Court in *Heller*). The Ninth Circuit held that while the Second Amendment does not apply to the states directly or through the Privileges or Immunities Clause, modern Fourteenth Amendment cases do require its incorporation through the Due Process Clause. This stark circuit split makes it highly likely that the Supreme Court will take up one or more of these cases in the immediate future, perhaps as soon as next term.

In addition, Judge Sotomayor was a member of the panel in the case of *United States v. Sanchez-Villar*, where (in a summary opinion) the Second Circuit dismissed a Second Amendment challenge to New York State's pistol licensing law. That panel, in a terse footnote, cited a previous Second Circuit

case to claim that “the right to possess a gun is clearly not a fundamental right.” Since the precedent cited for that point is no longer valid in the wake of *Heller*, Judge Sotomayor should be asked whether she would take the same position today.

The cases in which Judge Sotomayor has participated have been dismissive of the Second Amendment and have troubling implications for future cases that are certain to come before the Court. Therefore, we believe that America’s eighty million gun owners have good reason to worry about her views. We look forward to a full airing of her past decisions and judicial philosophy at the upcoming committee hearings, and urge you and all committee members to engage in the most serious questioning possible on these critical issues.

Out of respect for the confirmation process, the NRA has not announced an official position on Judge Sotomayor’s confirmation. However, should her answers regarding the Second Amendment at the upcoming hearings be hostile or evasive, we will have no choice but to oppose her nomination to the Court.

Finally, we would caution you against lending any credence to the endorsement of Judge Sotomayor’s nomination by organizations that falsely claim to represent gun owners, while promoting an anti-gun agenda. These front groups’ actions give them no credibility to speak on this nomination.

Thank you for your attention to our concerns. Should you have any questions or wish to discuss further, please do not hesitate to call on me personally.

Sincerely,

CHRIS W. COX,
Executive Director.

JULY 7, 2009.

DEAR SENATORS: As Americans who have dedicated themselves to protecting the Second Amendment right of U.S. citizens to keep and bear arms, we urge you not to confirm Judge Sonia Sotomayor as the next associate justice of the United States Supreme Court.

It is extremely important that a Supreme Court justice understand and appreciate the origin and meaning of the Second Amendment, a constitutional guarantee permanently enshrined in the Bill of Rights. Judge Sotomayor’s record on the Second Amendment causes us grave concern over her treatment of this enumerated constitutional right.

Last year, the Supreme Court decided the landmark case *District of Columbia v. Heller*, holding that the Second Amendment guarantees to all law-abiding, responsible citizens the individual right to keep and bear arms, particularly for self-defense. Following *Heller*, the Supreme Court is almost certain to decide next year whether the Second Amendment applies to states and local governments, as it does to the federal government (see *NRA v. Chicago* and *McDonald v. Chicago*).

While on the Second Circuit, Judge Sotomayor revealed her views on the right to keep and bear arms in *Maloney v. Cuomo*, a case decided after *Heller*, yet holding that the Second Amendment is not a fundamental right, that it does not apply to the states, and that if an object is “designed primarily as a weapon” that is a sufficient basis for total prohibition even within the home. Earlier in a 2004 case, *United States v. Sanchez-Villar*, Sotomayor and two colleagues perfunctorily dismissed a Second Amendment claim holding that “the right to possess a

gun is clearly not a fundamental right.” Imagine if such a view were expressed about other fundamental rights guaranteed by the Bill of Rights, such as the First, Fourth and Fifth Amendments.

Surprisingly, *Heller* was a 5-4 decision, with some justices arguing that the Second Amendment does not apply to private citizens or that if it does, even a total gun ban could be upheld if a “legitimate governmental interest” could be found. The dissenting justices also found D.C.’s absolute ban on handguns within the home to be a “reasonable” restriction. If this had been the majority view, then any gun ban could be upheld, and the Second Amendment would be meaningless.

The Second Amendment survives today by a single vote in the Supreme Court. Both its application to the states and whether there will be a meaningfully strict standard of review remain to be decided by the High Court. Judge Sotomayor has already revealed her views on these issues and we believe they are contrary to the intent and purposes of the Second Amendment and Bill of Rights. As Second Amendment leaders deeply concerned about preserving all fundamental rights for current and future generations of Americans, we strongly oppose this nominee, and urge the Senate not to confirm Judge Sotomayor.

Sincerely,

Sandra S. Froman, Esq., Former President, National Rifle Association of America, NRA Board of Directors and Executive Council; Landis Aden, President, Arizona State Rifle & Pistol Association; Scott L. Bach, Esq., President, Association of New Jersey Rifle and Pistol Clubs; The Honorable Bob Barr, Former Congressman, 7th District of Georgia, NRA Board of Directors; Ken Blackwell, Senior Fellow, Family Research Council, NRA Board of Directors; Rep. Jennifer R. Coffey, NREMT-I, Representative, New Hampshire State House of Representatives, Representative, New Hampshire General Court, Director and National Coordinator, Second Amendment Sisters, Inc., Advisor, New Hampshire Pro-Gun Advisory Council; Robert K. Corbin, Esq., Former Attorney General, State of Arizona, Former President of NRA and current member of NRA Executive Council; Jim Dark, Former Executive Director, Texas State Rifle Association, NRA Board of Directors.

Tartaro, President, Second Amendment Foundation; Jim Wallace, Executive Director, Gun Owners’ Action League.

NATIONAL RIGHT TO LIFE
COMMITTEE, INC.,
Washington, DC, July 27, 2009.

Hon. HARRY REID,
Majority Leader, U.S. Senate, The Capitol, Washington, DC.

Hon. MITCH MCCONNELL,
Republican Leader, U.S. Senate, The Capitol, Washington, DC.

DEAR LEADER REID AND LEADER MCCONNELL: On behalf of the National Right to Life Committee (NRLC), the federation of right-to-life organizations in all 50 states, we write to express the opposition of our organization to the confirmation of Judge Sonia Sotomayor as an associate justice of the United States Supreme Court.

As a judge, Ms. Sotomayor has encountered little in the way of abortion-related litigation, either at the district court or the court of appeals. In the single ruling that she authored that bore directly on an abortion-related federal policy, *Center for Reproductive Law and Policy v. Bush*, the result was unambiguously governed by the precedents of the U.S. Supreme Court and the Second Circuit. Yet, there are many troubling indications that Ms. Sotomayor believes that it is the proper role of the U.S. Supreme Court to construct and enforce constitutional doctrines on social policy questions, even where the text and history of the Constitution provide no basis for removing an issue from the realm of lawmaking by the duly elected representatives of the people.

Legal abortion on demand was imposed by seven Supreme Court justices in *Roe v. Wade*. *Roe* was an exercise in judicial legislation, aptly branded “an exercise of raw judicial power” by dissenting Justice Byron White. The ruling lacked any real basis in the text of the Constitution, and imposed a policy that was completely at odds with the intent of the lawmakers who crafted and ratified the Fourteenth Amendment.

The evidence indicates that Ms. Sotomayor approves of the *Roe* ruling and approves of the type of judicial activism that produced it. For a period of 12 years (1980-1992), prior to becoming a judge, Ms. Sotomayor served on the governing board of the Puerto Rican Legal Defense and Education Fund (PRLDEF), and for part of that time she was the chair of the PRLDEF Litigation Committee. During her tenure on the board, the PRLDEF was actively involved in litigation that attempted to persuade the Supreme Court to expand the judge-created “right to abortion,” often beyond what the Court was willing to embrace. During this period, the fund joined briefs at the U.S. Supreme Court in six abortion-related cases. These briefs urged the Court to regard abortion as a “fundamental right” (a right on the level of freedom of speech), to apply the strictest standard of scrutiny when reviewing abortion-regulated laws, and thereby to nullify informed consent requirements (including those involving ultrasound), waiting periods, parental notification requirements, restrictions

on taxpayer funding of abortion, and even record keeping requirements. The PRLDEF's own "statement of interest" in three of these cases said that the PRLDEF "opposes any efforts to overturn or in any way restrict the rights recognized in *Roe v. Wade*."

During her recent confirmation hearings, Ms. Sotomayor suggested that she was only aware of this litigation activity in the most general terms, and had no responsibility for or awareness of the substance of the briefs. Frankly, this testimony was not very believable. Ms. Sotomayor was a Yale Law School graduate who, according to many accounts, is exceedingly—even excessively—detail oriented on the legal matters in which she is involved. More believable is what the New York Times reported on May 29, 2009, after interviewing various parties who were directly involved in the PRLDEF litigation activity during this period: "Ms. Sotomayor stood out, frequently meeting with the legal staff to review the status of cases, several former members said. . . . The board monitored all litigation undertaken by the fund's lawyers, and a number of those lawyers said Ms. Sotomayor was an involved and ardent supporter of their various legal efforts during her time with the group."

If confirmed to the U.S. Supreme Court, Ms. Sotomayor will no longer be constrained by the precedents of that Court, including the precedents in which the Court upheld laws requiring notification of a parent before performing an abortion on a minor, requiring a pre-abortion waiting period, barring public funding of abortion, and—by a single vote, in 2007—banning partial-birth abortion. Nor, it appears, will she feel greatly constrained by the text and history of the Constitution, in which *Roe v. Wade* and its progeny find no support.

Because the available evidence strongly suggests that once on the Supreme Court, Sonia Sotomayor will seek to nullify abortion-related laws adopted through the normal legislative processes of our democracy, consistent with the extreme legal theories with which she was associated before being appointed to the federal bench, National Right to Life urges all senators to vote against her confirmation to the Supreme Court.

Respectfully,

DAVID N. O'STEEN, PH.D.,
Executive Director.
DOUGLAS JOHNSON,
Legislative Director.

JULY 13, 2009.

DEAR CHAIRMAN PATRICK LEAHY AND SENATE JUDICIARY RANKING MEMBER JEFF SESSIONS: On behalf of FRC Action (FRCA), the legislative arm of the Family Research Council, and the families we represent, I write to you today with serious reservations regarding the nomination of Sonia Sotomayor to the United States Supreme Court.

The Senate Judiciary Committee has the important role of properly vetting any nominee to ensure that the nominee has the requisite competence, temperament, character, knowledge of the law and experience to make a good jurist. The nominee must be committed to making decisions based on the law and the facts of each case. Personal ideological predispositions toward certain results must be set aside, and the nominee must have the ability to faithfully uphold the Constitution recognizing that it is the supreme law and source of authority for all American law, including judicial precedents. A review of Ms. Sotomayor's record shows she is lacking in many of these qualities.

Senators on the committee need to have Ms. Sotomayor address what exactly she meant by some of her more controversial statements, why she tried to suppress her ruling in the Connecticut firefighters' discrimination case and her seeming disregard for U.S. judicial sovereignty. Ms. Sotomayor should also describe the extent of her role in the anti-life work at the Puerto Rican Legal Defense and Education Fund (PRLDEF).

From 1980 to 1992, Judge Sotomayor was an active governing board member of the PRLDEF where she helped to shape the group's controversial legal policy. Just one example of work done while she was there is the brief for *Webster v. Reproductive Health Services*, written in 1989, in which the organization called the right to abortion "precious." Ms. Sotomayor's troubled history as a jurist, an activist and as an attorney have surfaced numerous other concerns on sanctity of life issues, on sovereignty matters, marriage questions and more that makes us question her fitness to serve on our nation's highest court.

Barring significant revelations at her Senate confirmation hearing that change our assessment of her judicial philosophy, Family Research Council Action must stand in opposition to Judge Sotomayor's confirmation. The available evidence reveals Judge Sotomayor to be a judicial activist who does not have a proper understanding of the limited role of judges and the judiciary in our constitutional system.

Sincerely,

THOMAS MCCLUSKY,
Senior Vice President,
FRC Action.

JULY 13, 2009.

AS HEARINGS BEGIN, WOMEN'S COALITION FOR JUSTICE QUESTIONS SOTOMAYOR'S ABILITY TO BE IMPARTIAL

WASHINGTON, DC.—Members of the Women's Coalition for Justice released the following statements in response to today's first Senate confirmation hearing for Supreme Court Nominee Judge Sonia Sotomayor.

Genevieve Wood, Vice President of Strategic Initiatives, The Heritage Foundation, stated, "I am troubled by Judge Sotomayor's rejection of Justice O'Connor's favored adage that a wise old man would reach the same conclusion as a wise old woman. It is deeply offensive that she has suggested that the sexes and ethnicities 'have basic differences in logic and reasoning,' and even more offensive that she believes it is somehow patriotic to indulge in gender or ethnic biases. Her statements raise grave concerns about whether she can truly be impartial and the current defense that she simply endorses including different perspectives doesn't hold water. The Senators must ask challenging questions to determine whether she believes that a wise woman can reach the same conclusion as a wise man, or whether she intends to bring bias, as she has suggested, even to most cases."

Marjorie Dannenfelser, President of the Susan B. Anthony List, stated, "Women are best protected by the rule of law—and blind justice. Their rights are most endangered when personal preference, ideology or painful personal history inform judgment. Susan B. Anthony and her early feminist compatriots fought for a human rights standard sustained only through blind justice. When evidence of personal preference appears in any Supreme Court nominee's judgment, it should give all women pause. Sonia Sotomayor's record of support for judicial

activism and her work for the pro-abortion Puerto Rican Legal Defense Fund offer little comfort that she will be a friend to the unborn on the Supreme Court. Given what we know about Sonia Sotomayor's own judicial philosophy, including her support of policymaking from the bench, senators have just cause to reject her appointment to the United States Supreme Court."

Connie Mackey, Senior Vice President for FRCAction remarked, "I reject the admonition of Senator Chuck Schumer that opposing the nomination of Sonia Sotomayor will cause the Republican Party to lose women's vote permanently. I believe his crystal ball is cloudy when it comes to women in America. Women think independently and most women will see that Sonia Sotomayor is a judicial activist who will use the courts to make policy reflective of her own personal judgments as opposed to ruling based upon the tenets put forth by the Constitution. Her career as an activist is well-documented and disqualifies her from taking the 9th seat on the United States Supreme Court."

Wendy Wright, President of Concerned Women for America Legislative Action Committee stated, "Sonia Sotomayor's record reveals she lacks the primary characteristic required of a judge—impartiality. She has used her position as a judge to deny equal justice to people based on their ethnicity. She worked with organizations that aggressively fought against common-sense regulations on abortion. Her flippant dismissal of cases and unwillingness to provide Constitutional reasoning for her decisions exposes her arrogance, disrespect for our judicial system and the people whose lives are dramatically impacted by her decisions. Through her work as a judge and in organizations, she has denied people equal opportunity to make a living because of the color of their skin, preborn babies their right to live, and women the right not to be exploited by abortionists. After giving her the benefit of the doubt, her record of giving preferences to certain classes of people and denying equal justice to others obliges Concerned Women for America Legislative Action Committee to oppose her nomination to the U.S. Supreme Court. Sonia Sotomayor has disqualified herself from the U.S. Supreme Court. Senators need to set aside their party loyalty and do their Constitutional duty to uphold equal justice for all by opposing Sonia Sotomayor's nomination."

Charmaine Yoest, President and CEO of Americans United for Life remarked, "It's important for the American people to understand that the confirmation of Judge Sonia Sotomayor to the Supreme Court will dramatically shift the dynamics of the Court. Her record of activism in support of a radical pro-abortion agenda is clear and documented. This is a judge with a record significantly worse than Judge Souter's. We are asking the Senate Judiciary Committee to seriously consider the consequences of confirming a Supreme Court justice whose radical record shows she would rule against all common-sense legal protections for the unborn, including parental notification, informed consent and bans on partial-birth abortion. The American people will not tolerate a nominee who is outside the mainstream of American public opinion."

THE ETHICS & RELIGIOUS LIBERTY
COMMISSION OF THE SOUTHERN
BAPTIST CONVENTION,

Nashville, TN, July 14, 2009.

Hon. PATRICK J. LEAHY,
Chairman, Senate Judiciary Committee,
U.S. Senate, Washington, DC.

Hon. JEFF SESSIONS,
Ranking Member, Senate Judiciary Committee,
U.S. Senate, Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS: This week, the Senate Judiciary committee begins its confirmation hearings for Judge Sonia Sotomayor. We are deeply troubled by many aspects of Judge Sotomayor's record. While we could identify a number of factors that concern us, we describe below those that are the most troubling.

Judge Sotomayor does not appear to share the pro-life values of nearly all Southern Baptists and of most Americans. Recent polling reveals that the majority of Americans are pro-life. Her lack of rulings on major sanctity of life issues makes it more difficult to determine how she would rule on sanctity issues, but her association with the Puerto Rican Legal Defense and Education Fund raises serious questions about her commitment to pro-life values. She served on the Board of this organization, including as Vice President and Chair of the litigation committee. During that time, the Fund filed briefs in at least six prominent court cases in support of abortion rights.

While Judge Sotomayor has ruled favorably on abortion-related cases at times, we note that her rulings on race-related issues reveal a much more ideologically rigid attitude toward race. Her ruling in *Ricci v. DeStefano* is indefensible. We support full racial equality, and therefore support efforts that create equal opportunity for all races. However, we oppose policies that discriminate against some races in order to achieve a predetermined racial outcome. Racial discrimination is wrong in any circumstance.

We are also disturbed by Judge Sotomayor's lack of respect for private property rights. Her ruling in *Didden v. Village of Port Chester* demonstrates a willingness to ignore the Constitution's Fifth Amendment protection of private property. While the *Kelo* case was certainly precedential in her panel's ruling, the Supreme Court stated in their majority opinion that municipalities could not take private property under "the mere pretext of a public purpose, when its actual purpose was to bestow a private benefit." Judge Sotomayor was either unaware of this qualification or chose to ignore it.

Judge Sotomayor has often ruled very responsibly, but the rate at which she has been overruled by the U.S. Supreme Court reveals that she should not be in a position where her decisions cannot be subjected to review. She is out of the mainstream of the American public and too often of the very Court for which she is being considered. We urge you to do all you can to bring out all the facts about Judge Sotomayor during her confirmation hearings, and if these troubling issues remain, to vote against her confirmation.

Sincerely,

RICHARD D. LAND,
President.

THE ETHICS & RELIGIOUS LIBERTY
COMMISSION OF THE SOUTHERN
BAPTIST CONVENTION,

Nashville, TN, July 28, 2009.

Hon. PATRICK J. LEAHY,
Chairman, Senate Judiciary Committee,
U.S. Senate, Washington, DC.

DEAR CHAIRMAN LEAHY: This week, the Senate Judiciary Committee is scheduled to vote on the confirmation of Judge Sonia Sotomayor as our nation's newest Supreme Court Justice. As you recall, we raised a number of concerns about her record that we believed required examination during her hearings.

We watched the hearings and listened to Judge Sotomayor's answers to some very probing questions, but we are not convinced that she is an appropriate candidate for the United States Supreme Court. We urge therefore that you vote against her confirmation.

While we appreciated Judge Sotomayor's affirmation of the centrality of the U.S. Constitution in rulings, we believe her record demonstrates an inconsistent application of that standard at best. The following cases remain determinative for us. In *Owkey v. Molinari* she showed no regard for the 1st Amendment guarantee of speech or religious expression. In *Maloney v. Cuomo* she weakened the 2nd Amendment's guarantee of the individual's right to bear arms. In *Didden v. Village of Port Chester* she failed to uphold the 5th Amendment's protection of personal property. In *Ricci v. DeStefano* she violated the 14th Amendment's guarantee of equal protection.

Additionally, we are deeply concerned about Judge Sotomayor's failure to adequately address her 12 year involvement with the Puerto Rican Legal Defense and Education Fund. We believe she was more involved with the group's active efforts to promote a pro-abortion agenda than she admitted.

Finally, her numerous reversals by the U.S. Supreme Court reveal that Judge Sotomayor does not have the grasp of the fine points of Constitutional law required of a member of the Supreme Court. She needs someone to pass final judgment on her decisions. No such oversight would be possible if she were to join the Court of last resort.

We regret that we must oppose the nomination of Judge Sotomayor. She is obviously very gifted. Her personal story as well is the kind of story that compels respect and appreciation. We applaud her for her commitment and dedication. Nevertheless, we do not believe Judge Sotomayor meets the requirements for this extremely important position in our nation. We therefore urge you to vote against her confirmation.

Thank you for your service to our nation. We pray God's guidance and wisdom for you as you make the decisions that affect life for hundreds of millions of people.

Sincerely,

RICHARD D. LAND,
President.

AMERICAN ASSOCIATION
OF CHRISTIAN SCHOOLS,
East Ridge, TN, July 15, 2009.

Hon. PATRICK J. LEAHY,
U.S. Senate,
Washington, DC

DEAR SENATOR LEAHY: The American Association of Christian Schools strongly urges you to oppose the confirmation of Judge Sonia Sotomayor to the United States Supreme Court, based on her inability to judge without respect of persons and her misinter-

pretation of the rule of law and the United States Constitution.

As President Obama sought a possible nominee, he consistently used the term "empathy" to describe the character of his first Supreme Court Justice nominee. When he nominated Judge Sonia Sotomayor, he based the criteria of a U.S. Supreme Court Justice on superficial elements rather than on character which demonstrates an actual understanding of the rule of law and original intent of the judicial system established by our Founding Fathers. She has continually met his standards of "empathy," proving through her actions and words her desire to exercise empathy from the bench. According to Judge Sotomayor, to "ignore . . . our differences as women and men of color [is to] do a disservice both to the law and society." She further believes her "experience will affect the facts that [I] choose to see as a judge."

We are concerned that the element of "empathy" in the highest Court of the land will redefine and replace the longstanding aspect of impartiality under the law. It seems that the standard of law should no longer solely lie on the Constitution, but also on the hearts of justices.

Other concerns are based on Judge Sotomayor's interpretation on the right to life. She recently expressed that she has never thought about the rights of the unborn. We find this tragic. Whether a person supports abortion or opposes it, a U.S. Supreme Court Justice should be extremely familiar with the rights that every American is endowed, including life.

While Judge Sotomayor may have more experience than any other Supreme Court Justice currently sitting on the bench, the Administration and many members of the Senate are impatiently rushing her through the process without properly and adequately researching and critiquing her credentials and past decisions that come with that experience. It is essential that every Senator is given the time and resources to fully examine Judge Sotomayor's past decisions and present understanding of the rule of law.

Qualifications and credentials are a necessity when filling the bench, but an ability to carry out the duties of a Supreme Court Justice and meet the standards by which they are held to, is of equal importance. Understanding the rights which we are endowed by our Creator and interpreting the law as our founding fathers originally intended is essential. Just as Lady Justice holds the scales to depict her impartiality and a blindfold to cover her eyes from the spheres that try to influence her, her wisdom lies in the ability to pursue the law and to demand nothing less. She is un-influenced, she is impartial.

We urge you to oppose this nominee, as we believe that she will cause not only harm to the judicial system and the principles of law on which our country was founded, but she also poses a threat to every American who does not receive her "empathy."

Sincerely,

KEITH WIEBE,
President.

JULY 14, 2009.

DEAR SENATOR: On behalf of the Susan B. Anthony List (SBA List), and our 260,000 members and pro-life activists across the country, I write to encourage you to oppose the nomination of Judge Sonia Sotomayor to the United States Supreme Court.

Women are best protected by the rule of law—and blind justice. Their rights are most endangered when personal preference, ideology or painful personal history inform

judgment. Susan B. Anthony and her early feminist compatriots fought for a human rights standard sustained only through blind justice. When evidence of personal preference appears in any Supreme Court nominee's judgment, it should give all women pause.

Sonia Sotomayor's record of support for judicial activism and her work for the pro-abortion Puerto Rican Legal Defense Fund offer little comfort that she will be a friend to the unborn on the Supreme Court.

While Sotomayor served as a board member of the Puerto Rican Legal Defense Fund, the group filed six briefs with the court advocating for unmitigated abortion on-demand. Multiple accounts tell us that the board closely monitored the fund's work, and that Sotomayor was "an involved and ardent supporter of their various legal efforts." (New York Times, May 28, 2009)

The briefs in question advocate a philosophy that rejects any legal restrictions on abortion. This position disregards both the broad public support for such restrictions and the fact that such laws save lives. For example when the government restricts funding for abortion on-demand, we see fewer abortions. Even abortion advocates recognize this reality. The Guttmacher Institute recently issued a report showing that when public funding is not available, 1-in-4 Medicaid-eligible women do not have abortions. That means approximately 25% of babies whose mothers receive government subsidized health care likely survive due to laws like the Hyde Amendment. Sotomayor's record indicates she would not uphold such commonsense restrictions.

Women facing unplanned pregnancies deserve woman-centered solutions to help both mother and child, not abortion on-demand, which pits mother against child in the most tragic of circumstances. They deserve Supreme Court Justices who will uphold the Right to Life.

Given what we know about Sonia Sotomayor's own judicial philosophy, including her support of policymaking from the bench, you have just cause to reject her appointment to the United States Supreme Court.

Sincerely,

MARJORIE DANNENFELSER,
President, Susan B. Anthony List.

Mr. SESSIONS. Those letters were from Fidelis, Defending Life, Faith and Family, outlining their opposition; a letter from the National Rifle Association; a letter from the National Right to Life Committee; a letter from FRCAction; the Women's Coalition for Justice; the SBA List, the Susan B. Anthony List; the American Association of Christian Schools; and the Ethics and Religious Liberty Commission of the Southern Baptist Convention. Those were one group of letters.

In addition, there are letters from the National Rifle Association, as I mentioned earlier. They have not often, if ever, weighed in on a judicial nomination. But this case, this nomination was so close to one of the most critical issues facing the country today. That is, whether the second amendment applies to States.

If the second amendment does not apply to States, then States and cities can completely ban guns within their jurisdiction.

Judge Sotomayor earlier this year, after the Heller decision, in the first

case of its kind after the Supreme Court's decision in Heller, concluded the second amendment does not apply to the States.

She concluded in her very brief opinion that the second amendment does not apply to the States; they could eliminate firearms. She concluded it was settled law that this was the case when the Supreme Court in Heller—and as the ninth circuit concluded, which held differently—explicitly left open this question.

So I think any person who cares about the second amendment and the right to keep and bear arms has to be very troubled that the nominee, earlier this year, concluded that it does not apply and it is settled law, when the Supreme Court had opened it up, as the ninth circuit said.

If it is not reversed, her opinion is not reversed, then cities and counties will be able to restrict firearm possession completely.

Sandra Froman, who is the former president of the National Rifle Association, a Harvard law graduate herself, wrote that:

Surprisingly, Heller was a 5-4 decision, with some justices arguing that the Second Amendment does not apply to private citizens or that if it does, even a total gun ban would be upheld if a "legitimate governmental interest" could be found.

She goes on to say:

The Second Amendment survives today by a single vote in the Supreme Court.

Heller was a 5-to-4 decision.

Both its application to the States and whether there will be a meaningfully strict standard of review remain to be decided by the High Court.

I have offered that letter and other letters that we have received into the RECORD. I also printed in the RECORD a series of op-eds I have written on the way I believe an analysis of a nominee should be conducted and what are the important principles.

Mr. President, I would like to express my appreciation to my staff whose assistance throughout this process was critical to the fair hearing that Judge Sotomayor received. The Senate Judiciary Committee held a hearing for Judge Sotomayor more quickly than it had for the last three Supreme Court nominees, despite the fact that she has been touted as having the most extensive legal record of any recent Supreme Court nominee. As such, my staff went to great efforts to prepare for the hearing on her nomination.

Our team was led by chief counsel for the Supreme Court nomination Elisabeth Cook; staff director Brian Benczkowski; chief counsel William Smith; deputy staff director Matt Miner; and general counsel Joe Matal. Their knowledge of the issues and wise counsel proved invaluable during this confirmation process.

In addition, I am grateful to our Supreme Court team, including counsels

Ted Lehman, Seth Wood, Ashok Pinto, Ryan Nelson, and Isaac Fong; law clerks Chris Mills, Matt Kuhn, Anne Mackin, and Andrew English; and intern Jamie Sunderland.

I would like to acknowledge and extend my gratitude to the dedicated and talented members of my permanent staff who worked tirelessly on this nomination, all the while handling the regular legislative business and other nominations that came before the Judiciary Committee: counsels Danielle Brucchieri, Bradley Hayes, Nathan Hallford, and Phil Zimmerly; professional staff member Lauren Pastarnack; and staff assistants Sarah Thompson and Andrew Bennion.

I would be remiss if I failed to mention the important work done every day by my communications director Stephen Boyd, press secretaries Sarah Haley and Stephen Miller, and press assistant Andrew Logan.

The people I have mentioned bore the bulk of the workload, laboring tirelessly night after night, day after day, and nonstop through the weekends. They deserve our recognition as a tribute to their hard work, professionalism, and dedication to public service.

I also would like to acknowledge the great help we received from the Republican majority leader and his staff: John Abegg, Josh Holmes, and Webber Steinhoff; as well as the invaluable contributions of Republican Policy Committee counsel Mark Patton.

Finally, my thanks to the Judiciary Committee's chief clerk, Roslyne Turner and her assistant, Erin O'Neill.

All of these fine staff members contributed to this process and we would not have been able to conduct such a fair and thorough hearing without their hard work and their professionalism. To each of them, I extend my heartfelt thanks.

The ACTING PRESIDENT pro tempore. The Senator from Idaho.

Mr. RISCH. I rise today, fellow Senators, to discuss the current nomination that is under consideration by the Senate for the U.S. Supreme Court seat.

Like every Member of this body, I take this responsibility seriously. The Constitution of the United States gives each one of the 100 Members of this body the solemn duty to participate in this under what has been called the advice and consent provisions.

Obviously, there are two parts here. First "advice" and the second "consent." The first part, the advice that the President seeks, is not under the control of any Member here but is under the control of the President. He did not seek my advice on this, which is not surprising.

But, secondly, I am required to exercise my constitutional duty to express either consent or the withholding of consent. I appear here this morning to

explain the conclusion I have reached in that regard.

This is a serious constitutional duty. I think every Member here takes it seriously. I think as we do exercise this constitutional duty, it is incumbent upon each one of us to create, in our own mind, a path forward and a criteria, if you would, as to how to reach a conclusion concerning that consent.

I think all of us come at it from a different point of view. Some of us have had some experience in that regard. Although I have not had experience here in this body with a U.S. Supreme Court appointment, I had the opportunity at the State level, since I have served as Governor and had to appoint judges, to determine if, in my mind, a path forward, if you would, or a way, a method, in which we would reach that conclusion as to the appropriateness of a person, their qualifications to serve in a judicial capacity. I have done that.

In addition to that, I think all of us look to other people who have exercised this responsibility and looked for the type of matrix they used to reach the conclusion. I have also done that. I have chosen someone to emulate as far as how I would reach a conclusion as to whether I would grant the consent or withhold the consent.

That person whom I have chosen to emulate is a person who actually chose a matrix that is similar to mine; that is, when we do this, we judge who the person is, and what that person stands for—the “who” and the “what.”

Like the person I have chosen to emulate, my focus is not on the “who,” my focus is on the “what.” What does this person stand for? Because it is, indeed, at the end of the day, the “what” that will guide that person when that person, when the nominee, makes decisions in their capacity as a U.S. Supreme Court Justice.

I met with the nominee. I have read her opinions. I have read a lot that has been written about the nominee, and weighed those using the matrix I have chosen, and that person I chose to emulate chose to reach a conclusion as to whether to grant the consent or to withhold the consent.

I think this is a decision that no one should reach lightly but should reach based upon weighing the factors that they have chosen. When it comes to the “who,” I find the nominee that the President has put forward to be a person who is engaging, who is very wise, who has had clearly the experience to fill this position. I have no difficulty with that at all. I am honored that she would spend the considerable time she made available for me to meet with her and discuss with her the various issues that are important to the great State of Idaho.

At the end of the day, I have to move from the “who” to the “what.” And in that regard, I want to talk about now who I chose to emulate when it comes

to making this decision. The person I chose to emulate is a person who currently serves as the President of the United States.

He came to this body and had the opportunity to do just what I have done; that is, to go through this exercise to determine the “who” and the “what” when it comes to the appointment and the qualifications to serve as a Justice of the U.S. Supreme Court.

Then-Senator Obama went through this exact same exercise. At the end of the day, when he voted on two of the nominees, two of the Supreme Court nominees, he determined that based upon his weighing of the nominees, he could not, in good conscience, vote for the nominees because—not because of the “who” part of the equation but because of the “what does this person stand for” part of the equation.

He did that based upon his vision of what he wanted to see in America. I did likewise. He concluded that when he withheld his consent on those two, that person did not meet his view of what the vision for America was. I have reached the same conclusion on this nominee.

In all good conscience, I must withhold the consent. My fellow Senators, I will withhold my consent based not on the “who” but on the “what” on this nomination. I will vote no.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Vermont.

Mr. LEAHY. Madam President, what is the parliamentary situation?

The ACTING PRESIDENT pro tempore. The majority controls the next 60 minutes with respect to the nomination of Judge Sotomayor.

Mr. LEAHY. Madam President, I thank the many Senators who took part yesterday in the historic debate over the nomination of Judge Sonia Sotomayor to the Supreme Court. In fact, the distinguished Presiding Officer was one who introduced her to the Judiciary Committee and also spoke eloquently in the Chamber yesterday. I am hopeful that today will not only conclude the debate, but we will then vote on her confirmation and vote favorably.

Senator KLOBUCHAR, the senior Senator from Minnesota, a very active member of the Judiciary Committee, led a group of five women Senators in a powerful opening hour of debate yesterday. The distinguished Presiding Officer was one of them, and it also included Senators SHAHEEN, STABENOW, and MURRAY. Their speeches were very moving. Several Judiciary Committee Senators gave strong speeches of support for Judge Sotomayor's nomination, including Senator SCHUMER, Senator SPECTER and Senator CARDIN. Senator FRANKEN, the newest Member of the Senate and newest member of the Judiciary Committee, gave his first Senate speech. Most of us follow the

tradition of waiting for our first Senate speech to make sure it is on a matter of some moment. In his case, it was as momentous a matter as one could pick, the nomination of a Supreme Court Justice. Senator FRANKEN eloquently spoke on her behalf.

We heard from Senator LAUTENBERG; Senator DODD, my neighbor in the Senate, both in the row I sit and also in my Senate office, and a good friend. Senators BAUCUS, MERKLEY, AKAKA, LIEBERMAN, CASEY, WYDEN, and BENNET all spoke for her.

Statements of support for Judge Sotomayor yesterday came from both sides of the aisle. On the Republican side, Senator MARTINEZ, who has been a strong supporter of Judge Sotomayor, gave a particularly moving speech. Senator BOND, a former Governor, former attorney general, and one who has appointed judges, joined him in announcing his intent to vote for this well-qualified nominee. My neighbors from New England, Senators COLLINS and SNOWE, also spoke in favor of her nomination.

The troubling thing yesterday was to hear some critics of hers making unfounded insinuations about the integrity and character of this outstanding nominee. That is wrong. She is a judge of unimpeachable character and integrity. These critics have also chosen to ignore her extensive record of judicial modesty and restraint from 17 years on the Federal bench. Instead they have focused on and mischaracterized her rulings in a handful, out of more than 3,600, of cases. That is interesting, out of 3,600 cases, they could find only a tiny handful to criticize, and they can criticize those only by mischaracterizing them.

Let me go to one area in particular. Some Republican Senators have twisted Judge Sotomayor's participation in a unanimous Second Circuit decision that applied a 123-year-old U.S. Supreme Court precedent to reject a challenge to a New York State law of restriction on chukka sticks, a martial arts device. What she was doing was following the precedent of the Supreme Court; again, one of the reasons why it was a unanimous decision of the Second Circuit. Some have trumped up a straw man by ignoring the facts of Judge Sotomayor's decision. It is easy to come to a conclusion if you ignore the facts and the law and just go to your conclusion. Of course, that doesn't make it right. They ignored the facts of her decision. They ignored the developing state of second amendment law, and they ignored Judge Sotomayor's testimony during her confirmation hearing, recognizing the individual right to bear arms that is guaranteed by the second amendment.

In fact, in joining the per curiam decision in *Maloney v. Cuomo*, Judge Sotomayor followed and applied the holding of the Supreme Court that the

second amendment provides individuals with the right to keep and bear arms. When the Supreme Court handed down its decision in *District of Columbia v. Heller* last year, I applauded the Court for affirming what so many Americans already believe. The second amendment protects an individual's right to own a firearm. The *Heller* decision reaffirmed and strengthened our Bill of Rights. Vermont has some of the least restrictive gun laws in the country. In fact, most would say they have the least restrictive gun laws. One does not need a permit to carry a concealed firearm in Vermont, if they don't have a felony conviction. But Vermonters are trusted to conduct themselves responsibly and safely, and we do.

I am a native Vermonter. I have lived there all my life. I find Vermonters do conduct themselves safely and responsibly. Similar to many Vermonters, I grew up with firearms. I have enormous respect and appreciation for the freedoms the second amendment protects. In fact, I own many firearms. Similar to other rights protected by our Bill of Rights, the second amendment right to keep and bear arms is one I cherish. Fortunately, I live in a rural area in Vermont. I can set up targets and use my backyard as an impromptu pistol range and often do.

The Supreme Court's decision in *Heller* recognized that the second amendment guarantees an individual the right to keep and bear arms against Federal restrictions. So before we go off using talking points and ignore what she did or ignore what she said, I thought it might be good to kind of spoil the rhetoric by actually going to the facts.

The facts are these. At her confirmation hearing, Judge Sotomayor repeatedly affirmed her view of the second amendment guarantees as set forth in the *Heller* decision. This seems to be ignored by some who criticize her. In fact, I asked a question on it because it is important to me as a Vermonter, as a Senator and certainly as chairman of the Judiciary Committee. In response to my question, she testified:

I understand how important the right to bear arms is to many, many Americans. In fact, one of my godchildren is a member of the NRA, and I have friends who hunt. I understand the individual right fully that the Supreme Court recognized in *Heller*.

Judge Sotomayor reaffirmed that statement in answers to questions from Senators KYL, COBURN, and FEINGOLD. Judge Sotomayor testified in response to a question from Senator KYL:

The decision of the Court in *Heller* . . . recognized an individual right to bear arms as applied to the Federal Government.

Judge Sotomayor testified in response to Senator COBURN:

In the Supreme Court's decision in *Heller*, it recognized an individual's right to bear arms as a right guaranteed by the Second Amendment.

In response to Senator FEINGOLD, Judge Sotomayor testified about *Heller*:

[T]he Supreme Court did hold that there is . . . an individual right to bear arms, and . . . I fully accept that.

Judge Sotomayor participated on a Second Circuit panel in a case called *Maloney v. Cuomo* that was decided earlier this year in which the unanimous panel—let me emphasize, the unanimous panel—recognized the Supreme Court decision in *Heller* that the personal right to bear arms is guaranteed by the second amendment against Federal law restrictions.

Justice Scalia, arguably the most conservative Justice on the U.S. Supreme Court, said in his opinion in the *Heller* case that the *Heller* case expressly left unresolved and explicitly reserved as a separate question whether the second amendment guarantee applies to the States and laws adopted by the States, whether the State of Vermont or any other State. In doing so, the Court left in place a series of Supreme Court holdings from 1876 to 1894 that the second amendment does not apply to the States.

I mention this because there are those who want Justices to not be activists but to be traditionalists. Going back to 1876 to 1894 recognizes a tradition of this country. The question posed to Judge Sotomayor and the Second Circuit in *Maloney* involved a challenge by a criminal defendant to a New York State law restriction on a martial arts device called nunchucks or chukka sticks, not firearms. Indeed, in that case the appellant had pleaded guilty to disorderly conduct, agreed to the destruction of the nunchucks as part of the plea, and the charge of possession of the nunchucks in violation of New York law had been dismissed. The Second Circuit considered the case on appeal from a denial of a subsequent declaratory judgment case.

In declining to overrule the trial judge—the trial judge would not set aside the State law against nunchucks—the Second Circuit panel emphasized that its decision was dictated by Supreme Court precedent, holding that: “Where, as here, a Supreme Court precedent has direct application in a case, yet appears to rest on reasons rejected in some other line of decisions, the Court of Appeals should follow the case which directly controls, leaving to the Supreme Court the prerogative of overruling its own decisions.” Had the Second Circuit acted otherwise, it would have been seen as judicial activism and an unwillingness to adhere to Supreme Court precedent. That is something that every single Member of this Chamber has said judges should do, follow Supreme Court precedent.

Now Judge Sotomayor is criticized for doing what a Circuit Court of Appeals judge is supposed to do; that is,

follow the precedent of the Supreme Court. She seems to be caught in a Hobson's choice. Had she violated that rule, had they acted otherwise, had they refused to follow Supreme Court precedent, I am sure she would be attacked as being a judicial activist. Come on. Let's be fair. When we have had nominees by Republican Presidents, we have heard over and over again how Republicans want these people because they follow precedent. Here, some Republicans are attacking Judge Sotomayor because she did follow precedent, because she did do what a Court of Appeals judge is supposed to do.

In fact, the approach taken by the Second Circuit decision in *Maloney* was adopted by some of the most respected, very conservative jurists in the country. Judges Easterbrook and Posner, both renowned conservatives, people whom I hear quoted by the Republican side over and over again, serve on the Seventh Circuit. They agreed with the Second Circuit panel. This may sound like it is getting into the weeds, but what I am saying is, judges of all stripes ruled the same way. In *National Rifle Association v. City of Chicago*, they cited the Second Circuit in *Maloney*. Judges Easterbrook and Posner refused to ignore the direction of the Supreme Court to implement Supreme Court holdings, even if the reasoning in later opinions undermines their rationale and, instead, “leave to [the Supreme Court] the prerogative of overruling its own decisions.”

What I am saying is, conservative judges, liberal judges, and moderate judges such as Judge Sotomayor all came to the same conclusion: You have to follow precedent. It may sound like I am doing a tutorial for a law school class, but I thought rather than having the rhetoric, let's go to the facts and let's go to the law. Because both the facts and the law are irrefutable.

If Republican Senators wish to criticize, let them criticize Justice Scalia for the Supreme Court's decision in *Heller* to limit its application against Federal Government restrictions and expressly reserve for another Supreme Court decision whether to incorporate the Second Amendment right against the States. Judges Easterbrook, Posner and Bauer of the Seventh Circuit and Judges Pooler, Sotomayor and Katzmman of the Second Circuit all followed Justice Scalia and the holdings of Supreme Court precedent.

Petitions for certiorari have been filed in both *Maloney* and *National Rifle Association* and are currently pending before the Supreme Court. A third, related decision by a panel of the Ninth Circuit is being reconsidered en banc by that Court of Appeals. Republican Senators insisted during the Roberts and Alito hearings that a Supreme Court nominee must avoid making preconditions about how she might rule in a

case that is likely to come before the Supreme Court. Yet Republican Senators have now reversed their approach to demand that Judge Sotomayor ignore these standards and commit to how she intends to rule on these cases and this issue if confirmed.

Recognizing that she would be unable to say how she would rule, I asked Judge Sotomayor whether she would approach these matters with an open mind and she assured us that she would. I do not see how any fair observer could regard her testimony as hostile to the Second Amendment personal right to bear arms, a right she has embraced and recognizes.

The question of incorporation of the Second Amendment of the Bill of Rights against the States is not merely likely to come before the Court; petitions to decide it are currently pending before the Supreme Court. There are well-recognized limits to how much a judicial nominee can say during her confirmation hearings. Nominees do not answer questions about cases or issues pending before the Supreme Court. It is striking that many of those who today criticize Judge Sotomayor's adherence to these limits strongly defended them just a few years ago, when a Republican President was doing the nominating.

A 2005 Senate Republican Policy Committee Report commissioned by Senator KYL concluded that "the preservation of an independent judiciary" depends on a nominee's ability to avoid signaling how she will rule on upcoming cases. According to this report:

It is inappropriate for any nominee to give any signal as to how he or she might rule on any issue that could come before the court, even if the issue is not presented in a currently pending case. If these novel "prejudgment demands" were tolerated, the judicial confirmation process would be radically transformed.

Senator KYL's Republican Policy Committee Report raised concerns that "no judge can be fair and impartial if burdened by political commitments that Senators try to extract during confirmation hearings" and concluded that "nothing less than judicial independence and the preservation of a proper separation of powers is at stake."

Senators SESSIONS, CORNYN, GRASSLEY, COBURN and HATCH referred to these restrictions on a nominee's ability to answer questions during the Senate's consideration of President Bush's Supreme Court nominees. During the Senate's consideration of the Roberts nomination, Senator SESSIONS said:

Judges apply the facts to the legal requirements of the situation, and only then make a decision. [Judge Roberts] refused to make opinions on cases that may come before him. Of course, he should not make opinions on that . . . He should not be up there making opinions on the cases. That is so obvious.

At that time, Senator CORNYN shared their view and strongly defended Re-

publican nominees who refused to discuss legal issues that might arise in the future. He said:

It undermines a nominee's ability to remain impartial once he or she becomes a judge if he or she has already taken positions on issues that might come before him or her on the bench. . . . In other words, just because some Members may ask these questions does not mean the President's nominee should answer them. In accordance with long tradition and norms of the Senate in the confirmation process, they should not answer them.

At the beginning of confirmation hearings for John Roberts, Senator GRASSLEY said: "The fact is that no Senator has a right to insist on his or her own issue-by-issue philosophy or seek commitments from nominees on specific litmus-test questions likely to come before that Court."

Senator COBURN criticized those Senators whom he said planned to vote against the Roberts nomination for his failure to state positions on specific issues: "The real reason they will be voting against John Roberts is because he would not give a definite answer on two or three of the social issues today that face us. He is absolutely right not to give a definite answer because that says he prejudices, that he has made up his mind ahead of time."

In 2005, Senator HATCH noted the ethical restrictions on a nominee's ability to answer questions and said:

I have said Senators on the Judiciary Committee can ask any question they want, no matter how stupid the question may be. . . . But the judge does not have to answer those questions. In fact, under the Canons of Judicial Ethics, judges should not be opining or answering questions about issues that may possibly come before them in the future.

Both Judge Roberts and Judge Alito followed their advice and did not answer questions with any specificity about cases that could come before the Supreme Court. Judge Roberts testified during his hearing: "I think I should stay away from discussions of particular issues that are likely to come before the Court." During his hearing, Judge Alito testified:

I think it's important to draw a distinction between issues that could realistically come up before the courts and issues that . . . are still very much in play . . . that's where I feel that I must draw a line, because no issues that could realistically come up, it would be improper for me to express a view, and I would not reach a conclusion regarding any issue like that before going through the whole judicial process that I described.

I asked Judge Sotomayor during her hearing whether, if not bound by Second Circuit or Supreme Court precedent, on whether second amendment rights should be considered "fundamental rights," she would keep an open mind in evaluating that legal question. Her response to me was straightforward. She said:

You asked me whether I have an open mind on that question. Absolutely.

She said:

I would not prejudice any question that came before me if I was a Justice on the Supreme Court.

She could not have gone any further without prejudging the question Justice Scalia's opinion in *Heller* left open, one that is currently pending before the Supreme Court.

In response to a question from Senator COBURN, Judge Sotomayor testified: "In the Supreme Court's decision in *Heller*, it recognized an individual's right to bear arms as a right guaranteed by the Second Amendment. . . . The *Maloney* case presented a different question. That was whether that individual right would limit the activities that States would do to limit the regulation of firearms." Judge Sotomayor also told Senator COBURN at the hearing: "I can assure your constituents that I have a completely open mind on this question. I do not close my mind to the fact and the understanding that there were developments after the Supreme Court's rulings on incorporation that will apply to this question or be considered."

In response to a question from Senator SESSIONS on how she would come down on the question of incorporation of the Second Amendment, Judge Sotomayor testified: "I have not prejudged the question that the Supreme Court left open in *Heller* . . . of whether this right should be incorporated against the States or not." She also answered Senator SESSIONS' questions about the panel decision in *Maloney*:

Well, when the Court looks at that issue, it will decide if it incorporated or not. And it will determine by applying the test that it has subsequent to its old precedent, whether or not it is fundamental and hence, incorporated. But the *Maloney* decision was not addressing the merits of that question. It was addressing what precedent said on that issue.

The only other case in which Judge Sotomayor was involved as an appellate judge involving a Second Amendment contention was a case in which an illegal alien was convicted of distribution and possession with intent to distribute approximately 1.2 kilograms of "crack" cocaine and of illegal possession of a firearm while an illegal alien. In that case, *United States v. Sanchez-Villar*, decided in 2004—before the Supreme Court's decision in *Heller*—involved an attempt to overturn a jury conviction. The defendant in that case claimed he had received ineffective assistance from his lawyer because his possession of the firearm in New York did not provide probable cause for seizure and arrest was rejected by a unanimous panel of the Second Circuit. The Second Circuit unanimously rejected this claim. In so doing, the panel quoted in a footnote to language from an earlier Second Circuit decision decided before *Heller* or *Maloney*. This is not unlike a number of cases in which Judge Sotomayor has upheld police actions when undertaken in good faith.

So I am disappointed by recent news accounts that the National Rifle Association has decided to “score” the vote on confirming Judge Sotomayor to the Supreme Court. They did this in response to pressure from the Republican leader. In fact, this is the first time in the history of the NRA that it has “scored” a Supreme Court confirmation vote. The irony of this is, if she had been nominated by a Republican President, they would all be supporting her with her record.

Madam President, I ask unanimous consent to have printed in the RECORD, at the conclusion of my statement, a copy of the July 24 letter from four members of the Congressional Hispanic Caucus, who have consistently earned high ratings from the NRA, to the NRA's executive vice president and executive director.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(See exhibit 1.)

Mr. LEAHY. Congressmen JOE BACA, SOLOMON ORTIZ, SILVESTRE REYES, and JOHN SALAZAR wrote:

[We are disappointed by the NRA's opposition to the nomination of Judge Sonia Sotomayor to the U.S. Supreme Court. It is not merited by either Judge Sotomayor's record or hearing testimony.

In their letter, they point out that at her hearing Judge Sotomayor “emphasized that she has an ‘open mind’ on the question of incorporation and ‘has not prejudged’ the issue.”

In fact, they said:

Judge Sotomayor has said more than either of the two previous Supreme Court nominees about the Second Amendment—specifically, she said that it confers an individual right, as recognized by the Supreme Court in its Heller decision.

The letter continues: “Even more troubling, it appears you are holding Judge Sotomayor to a different standard than you held Judges Roberts and Alito when they were nominated to the Court, or for that matter, any previous nominee to the Court. The double standard you have set for Judge Sotomayor is a disservice to all members of the NRA, particularly those who are Hispanic” and that “we are mystified as to why the NRA is characterizing Judge Sotomayor as hostile to the rights of gun owners and evaluating Judge Sotomayor by a different standard than that to which you have held previous Supreme Court nominees.”

I think it is a double standard. When Justices Roberts and Alito were nominated by a Republican President, Republicans did not have this standard. When this woman was nominated by a Democratic President, suddenly they change the standard. All I am saying is, they ought to follow the same standards they followed when President Bush nominated the two men he did now, when President Obama has

nominated this woman to the Supreme Court.

Madam President, I ask unanimous consent to have printed in the RECORD letters of support for Judge Sotomayor from a large number of prosecutors, including the National District Attorneys Association.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL BLACK
PROSECUTORS ASSOCIATION,
Chicago, IL, July 9, 2009.

Senator PATRICK J. LEAHY,
Chairman, Senate Judiciary Committee, Russell
Senate Office Bldg., Washington, DC.

Senator JEFF SESSIONS,
Ranking Member, Senate Judiciary Committee,
Russell Senate Office Bldg., Washington,
DC.

DEAR SENATORS LEAHY AND SESSIONS: On behalf of the National Black Prosecutors Association, representing local, state and Federal African American prosecutors, it is my pleasure to endorse the nomination of Judge Sonia Sotomayor to the position of Associate Justice of the United States Supreme Court. It is noteworthy to mention that she will be this nation's third female and first Latina United States Supreme Court Justice. I highlight Justice Sotomayor's gender and ethnicity only to point out that it is shocking that in its 220 year history, the United States Supreme Court has previously had only two female justices, and never a Hispanic justice. It is well overdue that qualified female nominees of varying ethnicities be seriously considered for service on the United States Supreme Court.

Despite the adversity of being diagnosed with Type I diabetes and shortly thereafter losing her father at the age of nine, Judge Sotomayor was a scholastic achiever throughout her elementary and high school years. While at Princeton University, she fought for increased opportunities for Puerto Rican students and to diversify the University's faculty and curriculum. After graduating summa cum laude, she entered Yale Law School, where she became the editor of the Yale Law Journal.

We applaud Judge Sotomayor's distinguished career in public service, which began with her service as a Manhattan Assistant District Attorney. As a trial attorney, Judge Sotomayor honed her skills, gaining firsthand experience with the real world of crime, pursuing justice for the victims of violent crimes. She was firm but fair as a United States District Court Judge, exhibiting a great respect and understanding of the United States Constitution and its application in the twenty-first century. The opinions she has authored since becoming a judge on the Court of Appeals in 1997 clearly show that she respects the law and hews close to precedent. Judge Sotomayor's opinions are marked by a clear recitation of the facts and lengthy recitation of the law that she believed to be applicable to the case. In short, Judge Sotomayor's opinions are akin to a road map; one can easily discern where she started in her analysis, where she ended up, and how she got there. This is all one can ask from an impartial jurist; not that you will always agree with the conclusion of a justice, but that issues, arguments and parties will receive a fair hearing, and the final determination can be easily tracked and understood.

Judge Sonia Sotomayor's background, life experiences, and accomplishments despite

the odds are compelling to say the least. Her intellect, respect for the law and ability to be impartial more importantly would mean that this country would have a Supreme Court Justice that would, without hesitation, examine issues and reach conclusions based on an interpretation of the law and constitutional principles. This country needs a Justice is sensitive to the law's impact on everyday life.

Sincerely,

CARMEN M. LINEBERGER,
President.

JULY 2, 2009.

Hon. PATRICK J. LEAHY,
Chairman, U.S. Senate Committee on the Judiciary, Dirksen Senate Office Building, Washington, DC.

Hon. JEFF SESSIONS,
Ranking Member, U.S. Senate Committee on the Judiciary, Dirksen Senate Office Building, Washington, DC.

DEAR SENATORS: As former colleagues of the Honorable Sonia Sotomayor during her years as a prosecutor in the Office of the New York County District Attorney, we write to express our wholehearted support for her nomination to the United States Supreme Court.

We served together during some of the most difficult years in our City's history. Crime was soaring, a general sense of disorder prevailed in the streets, and the popular attitude was that increasing violence was inevitable. It was in this setting that Sonia decided to start her career, not in a judge's chambers or at a high-powered law firm, but rather in the halls of New York's Criminal Courts, as an assistant district attorney.

She began as a “rookie” in 1979, working long hours prosecuting an enormous caseload of misdemeanors before judges managing overwhelming dockets. Sonia so distinguished herself in this challenging assignment that she was among the very first in her starting class to be selected to handle felonies. She prosecuted a wide variety of felony cases, including serving as co-counsel at a notorious murder trial. She developed a specialty in the investigation and prosecution of child pornography cases. Throughout all of this, she impressed us as one who was singularly determined in fighting crime and violence. For Sonia, service as a prosecutor was a way to bring order to the streets of a City she dearly loves. At the same time, she had an abiding sense of justice that spoke of the traditions of an Office headed by Thomas Dewey, Frank Hogan and Robert Morgenthau.

Few of us can forget her careful and painstaking jury selection. As diligently as she prepared her cases, she also readied her juries to evaluate the evidence and apply the facts to the law as they were instructed by the judge. As any trial lawyer knows, this is no easy task. Sonia emphasized that it is both a privilege and a duty to sit on a case, and jurors must do so without bias or prejudice.

We are proud to have served with Sonia Sotomayor. She solemnly adheres to the rule of law and believes that it should be applied equally and fairly to all Americans. As a group, we have different world views and political affiliations, but our support for Sonia is entirely non-partisan. And the fact that so many of us have remained friends with Sonia over three decades speaks well, we think, of her warmth and collegiality.

We urge all Senators to approve Sonia's nomination, as our country will be better off

with Judge Sotomayor sitting on our nation's highest court.

Thank you for your consideration.

Sincerely,

Steven M. Rabinowitz, Marc J. Citrin, John W. Fried, Thomas Demakis, Rubie A. Mages, John Lenoir, Ted Poretz, Mike Cherkasky, Joseph Ortego, Steven Fishner.

Irving Hirsch, Jerry Neugarten, Fred Biesecker, Annette Sanderson, Jackie Hilly, Jessica DeGrazia, Maureen Barden, Deborah Veach, Vivian Berger, Maurice Mathis.

Susan Gliner, Elizabeth Lederer, Frank Munoz, Isabelle Kirshner, Richard Girgenti, Peter Kougasian, Nancy Gray, Jason Dolin, William Tendy, Patrice M. Davis.

Jose Diaz, Scott Sherman, Peter Zimroth, James Warwick, Stephen L. Dreyfuss, Consuelo Fernandez, Jeff Schlanger, Richard H. Girgenti, John Moscow, Eugene Porcarco, Kim H. Townsend.

NATIONAL DISTRICT ATTORNEYS
ASSOCIATION,
Alexandria, VA, June 8, 2009.

Hon. PATRICK LEAHY,
Chairman,

Hon. JEFF SESSIONS,
Ranking Member,
Senate Committee on the Judiciary, Wash-
ington, DC.

DEAR SENATOR LEAHY AND RANKING MEMBER SESSIONS: On behalf of the National District Attorneys Association, the oldest and largest organization representing America's state and local prosecutors, we offer our full support for the nomination of the Honorable Sonia Sotomayor to become the next Associate Justice of the United States Supreme Court.

Because state and local prosecutors handle 95 percent of the criminal prosecutions nationally, rulings by the Supreme Court have far-reaching, serious impacts upon criminal cases in state courthouses across the country. As former prosecutors yourselves, you have a unique appreciation of our concerns.

We practice where the law is truly tested: not in the deliberative atmosphere of an appellate courtroom, but on the streets where police must make split-second choices in dangerous situations and in trial court situations that sometimes give prosecutors and police only a moment to analyze and react. It is important to the National District Attorneys Association, and to the tens of thousands of prosecutors we represent, that the next Supreme Court justice be well steeped in the law and its practical applications.

I have had the opportunity to review the judicial record of Judge Sotomayor, particularly in areas important to prosecutors such as criminal and constitutional law. Through her rulings, Judge Sotomayor reveals a deep understanding of the law. As a prosecutor, I find her to employ a thoughtful analysis of legal precedent and the rule of law and apply that law to the specific facts of each case.

Just as important as her sophisticated knowledge of the law, as a former prosecutor and trial court judge Judge Sotomayor displays an understanding of the impact of those laws on law enforcement, victims and defendants. In interviews with prosecutors who served with Judge Sotomayor in the Manhattan District Attorney's office, Judge Sotomayor has often been described as a "tough and fearless" prosecutor. She vigorously and effectively prosecuted child pornographers, murderers, burglars and many

other "street crimes" in the heart of New York City. She worked closely with law enforcement, deconstructed complex crimes, interviewed witnesses and investigated crime scenes. That kind of legal experience, combined with her 17 years on the federal bench, provide Judge Sotomayor with unique and unprecedented qualifications to be on the Supreme Court.

Judge Sotomayor's depth of experience with all aspects of the law—as a prosecutor, a private litigator, a District Court Judge and as a Federal Judge—has made her into an exemplary judge and an outstanding nominee to serve on our nation's highest court. She possesses wisdom, intelligence and a real world training that would bring important insight to Supreme Court decisions. The National District Attorneys Association believes that Judge Sotomayor would be a welcome addition to the Supreme Court.

We are happy to offer our full support for Judge Sotomayor's nomination to serve as a Supreme Court Associate Justice and encourage her swift nomination by the Senate.

Sincerely,

JOSEPH I. CASSILLY,
President.

JULY 10, 2009.

Hon. PATRICK LEAHY,
Chairman, Committee on the Judiciary,
U.S. Senate, Washington, DC.

Hon. JEFF SESSIONS,
Ranking Minority Member,
Committee on the Judiciary,
U.S. Senate, Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS: On behalf of the Association of Prosecuting Attorneys (APA), we offer our support to the Honorable Sonia Sotomayor's nomination to become the next Associate Justice of the United States Supreme Court. APA is a national "think tank" that represents all prosecutors and provides additional resources such as training and technical assistance in an effort to develop proactive innovative prosecutorial practices that prevent crime, ensures equal justice and makes our communities safer.

Judge Sotomayor's proven record as a prosecutor, private litigator, District Court Judge and Federal Appellate Judge has shown her dedication to the law, equality of justice and ensuring safer communities. Her distinguished tenure as a Federal District Court Judge would bring additional insight about the trial process to the Supreme Court.

Judge Sotomayor, with her trial experience as both a trial judge and prosecutor, would bring practical experience to the highest court in the land. Therefore, the APA fully supports Judge Sotomayor's nomination to the Supreme Court and we urge her confirmation.

Respectfully submitted,

GLENN F. IVEY,
Chairman of the
Board of Directors,
Association of Prosec-
cuting Attorneys.

DAVID R. LABAHN,
President and CEO,
Association of Pros-
cuting Attorneys.

Mr. LEAHY. Madam President, I ask unanimous consent to have printed in the RECORD letters of support for Judge Sotomayor from a broad cross section of law enforcement agencies, including the National Association of Police Organizations, the National Sheriffs' As-

sociation, and the Sheriff of the Los Angeles County Sheriff's Department.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL ASSOCIATION
OF POLICE ORGANIZATIONS, INC.,
Alexandria, VA, June 5, 2009.

Re Endorsement of Judge Sonia Sotomayor for the United States Supreme Court.

Hon. PATRICK LEAHY,
Chairman, Committee on the Judiciary, U.S.
Senate, Washington, DC.

Hon. JEFF SESSIONS,
Ranking Member, Committee on the Judiciary,
U.S. Senate, Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS: On behalf of the National Association of Police Organizations (NAPO), representing more than 241,000 law enforcement officers throughout the United States, I am writing to advise you of our endorsement of the nomination of Judge Sonia Sotomayor for the United States Supreme Court.

Throughout her distinguished career spanning three decades, Judge Sotomayor has worked at almost every level of our judicial system, giving her a depth of experience and knowledge that will be valuable on our nation's highest court. After five years as the Assistant District Attorney in Manhattan, she went into private practice in 1984 to become a corporate litigator. In 1991, she began her career as a federal judge with her nomination to the United States District Court by President Bush. In 1992, she was promoted to the United States Appeals Court for the Second Circuit by President Clinton, where she has served for the past eleven years.

Through her years of trial experience as an Assistant District Attorney, Judge Sotomayor gained an understanding of what law enforcement officers go through day to day in their jobs. Her familiarity with criminal procedure and qualified immunity are evident in the rulings and findings she has issued during her seventeen year career as a federal judge. Judge Sotomayor has shown that as a jurist she has a keen awareness of the real-world implications of judicial rulings, an important aspect when it comes to evaluating the actions of law enforcement officers and to keeping officers and the communities they serve safe.

As a Supreme Court Justice, NAPO believes Judge Sotomayor's extensive experience in the judicial system and the knowledge she has gained as a prosecutor and judge will serve our nation well. Therefore, we urge you to confirm the nomination of Judge Sonia Sotomayor for the United States Supreme Court. If you have any questions, please feel free to contact me, or NAPO's Executive Director, Bill Johnson.

Sincerely,

THOMAS J. NEE,
President.

NATIONAL SHERIFFS' ASSOCIATION,
Alexandria, VA, June 8, 2009.

Hon. PATRICK J. LEAHY,
Chair,
Hon. JEFF SESSIONS,
Ranking Member,
Senate Judiciary Committee,
Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS: On behalf of the National Sheriffs' Association, we are writing to express our support for the nomination of Sonia Sotomayor to be the Associate Justice of the United States Supreme Court.

As you know, in most jurisdictions, sheriffs have several responsibilities in the criminal justice system including law enforcement and the administration of our jails. Because of the sheriff's role in enforcing the law and administering the jails, there are many occasions where the sheriffs duties are directly impacted by the actions of the United States Supreme Court. Sheriffs across the country can recite examples in our communities, where criminals have gone free because of technicalities. In many cases, an overriding problem for law enforcement throughout the United States has been the courts—on the federal, state and local level.

Because of the critical role that the court plays in our criminal justice system, the National Sheriffs' Association is urging the Senate to confirm Judge Sotomayor who we believe has the qualifications, judicial philosophy and commitment to interpreting the Constitution with an abiding sense of fairness and justice.

Judge Sonia Sotomayor's real world experience as a prosecutor who pursued justice for victims of violent crimes as well as a federal judge at both the district and circuit court levels with an unassailable integrity make her an ideal nominee to serve on the Supreme Court. We believe her judicial philosophy in criminal justice to be sound and support her common sense approach in reviewing criminal cases.

As one of the largest law enforcement organizations in the nation, the National Sheriffs' Association is calling on the United States Senate to approve Sonia Sotomayor to be the next Associate Justice of United States Supreme Court.

Respectfully,

SHERIFF DAVID A. GOAD,
President.

AARON D. KENNARD,
Executive Director.

COUNTY OF LOS ANGELES,
SHERIFF'S DEPARTMENT HEADQUARTERS,
Monterey Park, CA, July 7, 2009.
Reconfirmation of Judge Sonia Sotomayor
to the United States Supreme Court.

Hon. PATRICK LEAHY,
*Chairman, Senate Committee on the Judiciary,
U.S. Senate, Washington, DC.*

DEAR CHAIRMAN LEAHY: As Sheriff of the Los Angeles County Sheriff's Department, which is the largest Sheriff's Department in the country in one of the most diverse counties in the world, I support the confirmation of Judge Sonia Sotomayor as a United States Supreme Court Associate Justice and, respectfully, urge your Committee to support her nomination.

As you know, Judge Sotomayor has had the gamut of legal experience beginning with her legal education from Yale University. Judge Sotomayor's work as an Assistant District Attorney for the New York County District Attorney's Office and her work in private practice, led to her nomination by President George H.W. Bush to the United States District Court for the Southern District of New York, for which she was confirmed by the United States Senate. She served in that capacity until President Bill Clinton nominated her to the United States Court of Appeals for the Second Circuit, followed by her second Senate confirmation.

Judge Sotomayor possesses all the traits important for service on the United States Supreme Court. Her educational background, diverse legal experience, and personal story have all contributed to her current success and will continue to positively shape her future on the United States Supreme Court.

Judge Sotomayor is an excellent nominee for Associate Supreme Court Justice. I am confident that confirmation of her nomination would be a great step forward for our Supreme Court and our Country. Thank you for your service to our Country and making these critical decisions that profoundly impact our Democracy. Should you have any questions, do not hesitate to contact me.

Sincerely,

LEROY D. BACA,
Sheriff.

NATIONAL LATINO
PEACE OFFICERS ASSOCIATION,
Santa Ana, CA, May 26, 2009.

Re Honorable Sonia Sotomayor.

President BARACK OBAMA,
*The White House,
Washington, DC.*

DEAR MR. PRESIDENT: I am writing on behalf of the men and women of the National Latino Peace Officers Association (NLPOA) to unanimously support the appointment of the Honorable Sonia Sotomayor, Judge with the United States Court of Appeals for the Second District, as the next Justice of the Supreme Court of the United States.

The NLPOA supports Judge Sonia Sotomayor because she has a long and distinguished career on the federal bench as well as having the depth and breadth of legal experience of all levels of the judicial system. She brings a lifelong commitment to equality, justice, and opportunity, and has earned the respect of all her colleagues being in one of the most demanding appeals circuits in America; the Second Circuit.

She brings excellent credentials to this position, with a Juris Doctorate from Yale Law and completing her undergraduate work at Princeton, graduating summa cum laude. With over 30 years experience in handling a wide range of substantial civil and criminal cases, Judge Sotomayor has a distinguished record of professional accomplishments as judge, prosecutor, and community leader.

The NLPOA enthusiastically supports Judge Sonia Sotomayor as the next Supreme Court Justice of the United States of America.

If you have a need for additional information please feel free to contact me.

Respectfully,

ART ACEVEDO,
National President.

NEW YORK STATE LAW ENFORCEMENT COUNCIL

The New York State Law Enforcement Council congratulates President Obama on his nomination of Judge Sonia Sotomayor to the United States Supreme Court. Judge Sotomayor is well known to us from her career as a prosecutor and as a federal judge. She is an extremely able jurist and an exceptional individual. The interests of the nation will be well served when she assumes her seat on the Supreme Court.

WASHINGTON, DC,
June 8, 2009.

Hon. PATRICK LEAHY, Chairman,
Hon. JEFF SESSIONS, Ranking Member,
Committee on the Judiciary, U.S. Senate, Washington, DC.

DEAR SENATORS LEAHY AND SESSIONS, I am writing in support of President Obama's nomination of Judge Sonia Sotomayor to serve as associate justice of the Supreme Court of the United States. I believe that Judge Sotomayor's inspiring life story, and especially her experience as a prosecutor in New York City, where I spent most of my career, demonstrate a strength of character

that will serve her well on our nation's highest court.

Judge Sotomayor grew up in a housing project in the South Bronx. I patrolled the streets of the South Bronx in the 1970s and know what a tough environment that was. I did not have the privilege of working with Assistant District Attorney Sotomayor, but recently I have spoken to several of my colleagues who did work with her, and they give her nothing but rave reviews. They were impressed with her intelligence, her strong work ethic, and her fierce determination to prosecute criminals, and they use words like "salt of the earth" to describe her.

I believe it is important to note that in the questionnaire that she filled out for the Judiciary Committee, Judge Sotomayor included several criminal cases from her years as a prosecutor in a list of the 10 litigated matters in her career that she considers "most significant." These include the case of the so-called "Tarzan murderer," as well as a child pornography case that Ms. Sotomayor pursued relentlessly when others seemed to consider it a low priority.

Like many others, I have been inspired by Judge Sotomayor's personal story. Through hard work and determination, she earned degrees from Princeton and the Yale Law School. After getting her law degree, she could have cashed in at a blue-chip law firm, but she chose instead to take a low-paid position in the Manhattan District Attorney's office, where she gained priceless real-world experience that cannot help but inform her judgment as she decides criminal cases that come before her.

Sonia Sotomayor went out of her way to stand shoulder to shoulder with those of us in public safety at a time when New York City needed strong, tough, and fair prosecutors. I am confident that she will continue to bring honor to herself, and now to the Supreme Court, when she is confirmed for this critically important position.

Thank you for your consideration.

Sincerely,

JOHN F. TIMONEY,
*Chief of Police, Miami, Florida,
President, Police Executive Research Forum.*

Mr. LEAHY. I urge each Senator to vote his or her own conscience in connection with this historic nomination.

EXHIBIT 1

CONGRESS OF THE UNITED STATES,
Washington, DC, July 24, 2009.

WAYNE LAPIERRE,
Executive Vice President, National Rifle Association of America, Fairfax, VA.

CHRIS COX,
Executive Director, National Rifle Association of America, Fairfax, VA.

DEAR MESSRS. LAPIERRE AND COX: As Members of Congress whose strong support for the rights of gun owners has earned us consistently high ratings from the NRA, we are disappointed by the NRA's opposition to the nomination of Judge Sonia Sotomayor to the U.S. Supreme Court. It is not merited by either Judge Sotomayor's judicial record or hearing testimony. Even more troubling, it appears that you are holding Judge Sotomayor to a different standard than you held Judges Roberts and Alito when they were nominated to the Court, or for that matter, any previous nominee to the Court. The double standard you have set for Judge Sotomayor is a disservice to all members of the NRA, particularly those who are Hispanic.

We support the confirmation of Judge Sotomayor. She is eminently qualified by

her experience as a prosecutor, district judge and 12 years on the Second Circuit Court of Appeals. Her judicial record is one marked by modesty and restraint, prompting the *New York Times* to write that her "judicial opinions are marked by diligence, depth and unflashy competence" and are "models of modern judicial craftsmanship, which prizes careful attention to the facts in the record and a methodical application of layers of legal principles." (Adam Liptak, "Nominee's Rulings Are Exhaustive But Often Narrow," May 26, 2009). And we believe that the historic act of putting the first Hispanic Justice on the Court, particularly one so well qualified for the job, is an important step for our country.

Judge Sotomayor has said more than either of the two previous Supreme Court nominees about the Second Amendment—specifically, she said that it confers an individual right, as recognized by the Supreme Court in its *Heller* decision. Judge Sotomayor was then asked repeatedly to discuss her position on incorporation, even though there is now a circuit split on the issue and there are petitions pending asking the Supreme Court to take the issue. Judges are prohibited by ABA rules from commenting on pending cases, making it inappropriate for Judge Sotomayor to state a definitive view. Nonetheless, at the hearing on her nomination, she emphasized that she has an "open mind" on the question of incorporation and has "not prejudged" the issue.

Conversely, when now-Chief Justice Roberts testified at his confirmation hearing facing a similar circuit split prior to the *Heller* decision on the issue of the individual right to bear arms, he declined to discuss the issue at all, saying only: "That's sort of the issue that's likely to come before the Supreme Court when you have conflicting views." And now-Justice Alito was not even asked a question about the subject. Yet the NRA voiced no opposition to these candidates who were less forthcoming on issues of importance to us.

Your letter cites two cases as evidence that Judge Sotomayor is hostile to the Second Amendment. Your analysis of those cases is either mistaken or deliberately misleading.

United States v. Sanchez-Villar, on which Judge Sotomayor was a member of the panel, was decided in 2004, four years before the Supreme Court's landmark decision in *District of Columbia v. Heller*. That decision was consistent not just with 2nd Circuit precedent, but with the weight of authority at the time; in 2004, every circuit but the Fifth that had considered the question had similarly concluded that the Second Amendment did not protect an individual right. Your letter fails to mention either fact.

Your characterization of *Maloney v. Cuomo* is similarly erroneous. First, *Maloney* did not involve firearms at all. The degree to which it was not considered an important case at the time can be gleaned from the fact that no outside entity or organization, including the NRA, filed an amicus brief in that case, in contrast to the multiple amici filed in *National Rifle Association v. City of Chicago*.

Second, the *Maloney* court did not reject the concept of incorporation; it recognized the prerogative of the Supreme Court, which in *Heller* explicitly did not overrule prior precedent on incorporation. The panel wrote, "[w]here, as here, a Supreme Court precedent has direct application in a case, yet appears to rest on reasons rejected in some other line of decisions, the Court of Appeals

should follow the case which directly controls, leaving to the Supreme Court the prerogative of overruling its own decisions."

Two of the most renowned conservative jurists in the country, Judges Posner and Easterbrook of the Seventh Circuit Court of Appeals, recently endorsed the Second Circuit panel opinion in *Maloney*. In *National Rifle Association v. City of Chicago*, Judge Easterbrook's opinion explicitly stated that the court "agree[d] with *Maloney*."

Even Mr. Maloney himself said the decision in this case was appropriate: "I did not expect to win . . . it was clear to me that they had a very solid basis for saying that the Second Amendment is not incorporated and that essentially they are powerless to do anything about it, they had a defensible position there." Mike Pesca, "High Court May Review Personal Weapons Ruling," *NPR Legals Affairs*, June 1, 2009.

In conclusion, we are mystified as to why the NRA is characterizing Judge Sotomayor as hostile to the rights of gun owners and evaluating Judge Sotomayor by a different standard than that to which you have held previous Supreme Court nominees. We are concerned that your opposition will alienate Hispanic NRA members and dismayed that you may unnecessarily force some well-intentioned Senators to choose between disapproving the NRA or infuriating their Hispanic constituents. We hope that you will reconsider your position on Judge Sotomayor.

Sincerely,

JOE BACA,
SILVESTRE REYES,
SOLOMON P. ORTIZ,
JOHN T. SALAZAR.

Mr. LEAHY. Madam President, I see Senator LINCOLN on the floor, one of my most distinguished colleagues, and I yield to her.

The ACTING PRESIDENT pro tempore. The Senator from Arkansas.

Mrs. LINCOLN. Madam President, I thank the chairman of the Judiciary Committee. He is a good and trusted friend, and I appreciate all the hard work he and all of our colleagues on the Judiciary Committee have done and all the efforts they have put into this nomination and hearing process.

I rise today to discuss what I think is one of the most consequential and long-lasting decisions in the duties a Senator can perform under the Constitution—the confirmation of a U.S. Supreme Court Justice. It is a rare practice, so rare, in fact, that my consideration of the nomination of Judge Sonia Sotomayor will mark only the third Supreme Court nomination I will have considered since I was first elected to the Senate in 1998.

Even though the President today making this Supreme Court nomination has changed from the previous two nominees, as the chairman of the Judiciary Committee has mentioned, my standards and the standards of any of us for evaluating a nominee have not changed, nor should they have changed.

I believe the people of Arkansas, our great State, and certainly our Nation deserve a Supreme Court Justice who is able to interpret and apply the rule of law fairly without political favor or

bias. Ensuring that a nominee meets this standard is an obligation I have sworn to uphold as a Senator and, moreover, is the standard I expect for a lifetime appointment to our Nation's highest Court.

In making my decision about Judge Sotomayor, I have taken a number of factors into account in evaluating her qualifications for serving on our Nation's highest Court.

First among these are the opinions of my constituents in my home State of Arkansas, including those in the legal community. I have heard from a number of Arkansans who have expressed strong support for Judge Sonia Sotomayor, emphasizing her unique background, impressive resume, and solid judicial record.

I also gained a lot of insight when we met at length in June. I was able to learn firsthand about who she is as a person, her temperament, and her unique life experiences—all of which I believe will help give her the ability to give every litigant who comes before the Supreme Court a fair shake.

Arkansans can readily identify with her because Judge Sotomayor is no stranger to hard work. She was born in New York, and is the daughter of parents who came to the United States from Puerto Rico. After her father died, when she was young, Judge Sotomayor was raised by her mother, a nurse, a hard-working woman with tremendous values. She went on to become valedictorian of her high school, a member of Phi Beta Kappa at Princeton, and editor of the *Law Review* at Yale Law School.

She has a breadth of professional experience, having served as an assistant district attorney and in private practice before beginning her 17 years serving as a Federal judge. She has a long history, and, again, one that starts with hard work and dedication to hard work.

Arkansas is known for its ability to grow self-made Americans, and those are Americans who are no strangers to hard work. They understand what is involved in putting into who you are, and what you are trying to become, and what it is you want to achieve on behalf of others.

Judge Sotomayor even told me in our personal meeting that she had entered her practice in real estate and business law because she had a great appreciation for business and the industries of this great country and she wanted to increase her knowledge of corporate law and broaden her experience.

Moreover, I was impressed during our meeting with her eagerness to learn more about Arkansas and her attentiveness to what issues were most important to my constituents in my home State of Arkansas.

The Senate Judiciary Committee hearings also provided me with an opportunity to learn about her record and

judicial philosophy. I was able to monitor the hearings and watch her performance under intense scrutiny and pressure, and I was impressed with her knowledge, her composure, and her candor.

Given the weight of this decision and the responsibilities I have to my constituents and my country, I have carefully examined the information available about Judge Sotomayor's nomination and am ready to announce I will support Judge Sonia Sotomayor for the U.S. Supreme Court.

I have confidence, as she made clear through the committee hearings, that she understands a judge's obligation is first and foremost a "fidelity to the law."

As the chairman of the Judiciary Committee mentioned earlier, I was raised as an avid duck hunter and a gun owner. Gun ownership is a unique part of my State's heritage. I was pleased to hear Judge Sotomayor made a promise before the Senate Judiciary Committee to have an open mind on the issue of the second amendment and to understand what it means in terms of our rights as American citizens.

In response to questioning, Judge Sotomayor expressed caution in declaring how she would rule on an unsettled constitutional issue likely to come before the Supreme Court before hearing the arguments and studying the opinions before her. I would have been concerned about a nominee who had already made up their mind about an unsettled legal issue that is likely to come before the Court. Her responsibility is to not come in there prejudging or predetermined in her decisions, but to come to the Court with an open mind.

Based on her substantial record, serving on two courts, I am satisfied Judge Sotomayor will give future cases involving the second amendment and the rights of Americans to own firearms for recreation and self-protection a very fair hearing. I am also satisfied that her past rulings on these issues follow precedent and fall within the judicial mainstream.

And I think Senator SESSIONS mentioned some of that in his comments in terms of being judicial mainstream.

Overall, I appreciated Judge Sotomayor's approach to the judiciary hearings and her willingness to respond to questions from Senators on both sides of the aisle on many important topics.

Based on her answers, I believe Judge Sotomayor cares more about following the law and maintaining the respect for the judiciary than she does about politics and ideology.

As Judge Sotomayor stated:

The task of a judge is not to make law. It is to apply the law.

Finally, I have again searched my conscience and reflected on my principles as a Senator for the people of the

great State of Arkansas, using my experiences as a legislator both here and in the House of Representatives and also as a farmer's daughter, my experience as a wife, a mother, a neighbor, to evaluate a decision of such great weight.

It has become apparent to me Judge Sotomayor does meet the test to serve in our Nation's highest Court. I base this conclusion on the respect and support she has earned from those in my home State, colleagues on both sides of the aisle who know her well, on the evidence and the record from her own comments and those of her colleagues, that she has had an abiding respect for the Court's decisions, and that she understands the value of continuity in our law.

We also see the support from industry representatives, such as the Chamber of Commerce, as well as labor organizations. The Senate Judiciary Committee received a letter of support for Judge Sotomayor's nomination from the U.S. Chamber of Commerce, the world's largest business federation, representing businesses and organizations of every size, sector, and region.

The U.S. Chamber wrote, in their letter:

Pursuant to our long-standing endorsement policy, the Chamber evaluated Judge Sotomayor's record from the standpoint of legal scholarship, judicial temperament, and an understanding of business and economic issues. Based on the Chamber's evaluation of her judicial record, Judge Sotomayor is well-qualified to serve as an Associate Justice of the U.S. Supreme Court.

Her extensive experience both as a commercial litigator and as a trial judge would provide the U.S. Supreme Court with a much needed perspective on the issues that business litigants face. Consistent with her Senate testimony, the Chamber expects Judge Sotomayor to engage in fair and evenhanded application of the laws affecting American businesses.

Madam President, I ask unanimous consent that the letter to the Senate Judiciary Committee from the Chamber of Commerce be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CHAMBER OF COMMERCE
OF THE UNITED STATES OF AMERICA,
Washington, DC, July 23, 2009.

Hon. PATRICK J. LEAHY,
Chairman, Committee on the Judiciary, U.S. Senate, Washington, DC.

Hon. JEFF SESSIONS,
Ranking Member, Committee on the Judiciary, U.S. Senate, Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS: The U.S. Chamber of Commerce, the world's largest business federation representing more than three million businesses and organizations of every size, sector, and region, announced today its support of the nomination of Judge Sonia Sotomayor to serve on the U.S. Supreme Court. The Chamber urges members of the Senate Judiciary Committee to vote in favor of reporting Judge Sotomayor's nomination for consideration by the full Senate.

Pursuant to our long-standing endorsement policy, the Chamber evaluated Judge Sotomayor's record from the standpoint of legal scholarship, judicial temperament, and an understanding of business and economic issues. Based on the Chamber's evaluation of her judicial record, Judge Sotomayor is well-qualified to serve as an Associate Justice of the U.S. Supreme Court. Her extensive experience both as a commercial litigator and as a trial judge would provide the U.S. Supreme Court with a much needed perspective on the issues that business litigants face. Consistent with her Senate testimony, the Chamber expects Judge Sotomayor to engage in fair and evenhanded application of the laws affecting American businesses.

The Chamber urges your support of Judge Sonia Sotomayor as Associate Justice of the United States.

Sincerely,

R. BRUCE JOSTEN,
*Executive Vice President,
Government Affairs.*

Mrs. LINCOLN. Madam President, I do believe Judge Sotomayor will make an excellent Supreme Court Justice and she will give all who come before the Court on which she is poised to serve a fair hearing and the attention and respect they deserve. So in this very important decision that each of us as Senators must make, I am proud to be able to support her nomination.

Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Michigan.

Mr. LEVIN. Madam President, once again, the Senate is being called upon to do its constitutional duty to consider a nomination to the U.S. Supreme Court. Positions on the Supreme Court are hugely significant given their lifetime tenures and the impact of the Court's decisions on the lives of Americans. Our votes on Supreme Court nominees are among the most significant that we cast.

I commend Chairman LEAHY for the extraordinarily thorough and fair hearings the Judiciary Committee held on this nomination. It has given us a very extensive record upon which we can base our judgment. I have reviewed the nominee's qualifications, temperament, and background to determine if she is likely to bring to the Court an ideology that distorts her legal judgment or brings into question her openmindedness. I believe it is clear that Judge Sotomayor satisfies the essential requirements of openmindedness and judicial temperament, and her decisions as a judge fall well within the mainstream of our jurisprudence.

Judge Sotomayor's judicial career has received bipartisan support. She was nominated first to the district court in the Southern District of New York by President George H.W. Bush. The Senate confirmed her nomination. President Clinton nominated Judge Sotomayor to be a circuit court judge, and the Senate overwhelmingly confirmed her nomination to that position.

The American Bar Association Standing Committee evaluated Judge

Sotomayor and interviewed more than 500 judges, lawyers, law professors, and community representatives from across the United States. They analyzed Judge Sotomayor's opinions, speeches, and other writings. They read reports of Reading Groups comprised of recognized experts in the substantive areas of the law that they reviewed, and they conducted an in-depth personal interview of the nominee. In the words of the committee:

The Standing Committee's investigation of a nominee for the United States Supreme Court is based upon the premise that the nominee must possess exceptional professional qualifications. The significance, range, and complexity and nation-wide impact of issues that such a nominee will confront on the Court demands no less.

After that extensive investigation, the American Bar Association gave Judge Sotomayor their highest rating unanimously, rating her "well qualified."

Some colleagues have expressed concern over the differences in language and ideas they thought they observed in Judge Sotomayor while sitting as a judge in the courtroom and as a citizen outside the courtroom. For example, one colleague put it this way during Judge Sotomayor's confirmation hearing:

I want to ask your assistance this morning to try to help us reconcile two pictures that I think have emerged during the course of this hearing. One is, of course, as Senator SCHUMER and others have talked about, your lengthy tenure on the Federal bench as a trial judge and court of appeals judge. And then there's the other picture that has emerged that—from your speeches and your other writings.

Our colleague went on to say the following:

I actually agree that your judicial record strikes me as pretty much in the mainstream of judicial decision-making by district court judges and by court of appeals judges on the Federal bench.

And he said in conclusion then:

I guess part of what we need to do is to reconcile those—

Referring to the two different pictures he had.

Let's assume for a moment there is a difference between Judge Sotomayor's rulings in the courtroom and those personal views she expressed outside of the courtroom. If so, aren't we looking for people who can apply the law on the bench, even if he or she has a different personal opinion? At the end of the day, we want our judges to leave their personal views outside of the courtroom. That is the essence of an impartial judiciary. In other words, Judge Sotomayor has demonstrated the very trait that she is accused by some of lacking: the ability to leave her personal opinions at the courthouse door.

The Congressional Research Service has analyzed Judge Sotomayor's record and has concluded the following:

Perhaps the most consistent characteristic of Judge Sotomayor's approach as an appel-

late judge has been an adherence to the doctrine of stare decisis (i.e., the upholding of past judicial precedents). Other characteristics appear to include what many would describe as a careful application of particular facts at issue in a case and a dislike for situations in which the court might be seen as overstepping its judicial role.

Well, that is the opposite of an activist judge imposing her views despite the law.

We all have personal views and sympathies. Some judges, regrettably, can't lay those aside when making their judicial calls. Judge Sotomayor has proven in her judicial career that she can, while faithfully applying the principles of the U.S. Constitution.

So today, once again, the U.S. Senate is being called upon to do its constitutional duty and consider a nomination to the U.S. Supreme Court. Positions on the Supreme Court are hugely significant given their lifetime tenures and the impact of the Court's decisions on the lives of Americans. Our votes on Supreme Court nominees are among the most significant that we cast.

Article II, section 2 of the Constitution simply provides that: "[The President] shall nominate, and by and with the Advice and Consent of the Senate shall appoint . . . Judges of the Supreme Court . . . Without specific constitutional guidance, each senator must determine what qualities he or she thinks a Supreme Court Justice should have, and what scope of inquiry is necessary to determine if the prospective nominee has these qualities.

This will be the twelfth Supreme Court nomination on which I will have voted. Each time, I have reviewed the nominee's qualifications, temperament and background to determine if the nominee is likely to bring to the court an ideology that distorts his or her legal judgment or brings into question his or her open-mindedness. I believe that Judge Sotomayor satisfies the essential requirements of open-mindedness and judicial temperament and her decisions as a judge fell well within the mainstream of our jurisprudence.

Judge Sotomayor graduated as valedictorian of her class at Blessed Sacrament and at Cardinal Spellman High School in New York. She continued to excel at Princeton University, graduating summa cum laude, and Phi Beta Kappa. She was a corecipient of the M. Taylor Pyne Prize, the highest honor Princeton awards to an undergraduate. At Yale Law School, Judge Sotomayor served as an editor of the Yale Law Journal.

In her 30-year legal career, Judge Sotomayor has been a Federal circuit and trial court judge, a civil commercial litigator in private practice, and a State prosecutor. She served as an assistant district attorney in the New York County District Attorney's Office and later worked in private practice.

Judge Sotomayor's judicial career has received bipartisan support. During

the 102nd Congress, President George H.W. Bush nominated Judge Sotomayor to be a district judge on the Southern District of New York. On August 11, 1992, the Senate confirmed her nomination.

During the 105th Congress, President Bill Clinton nominated Judge Sotomayor to be a circuit judge on the United States Court of Appeals for the Second Circuit. On October 2, 1998, the Senate confirmed her nomination by a vote of 67–29.

On May 26, 2009, President Obama nominated Judge Sotomayor to be Associate Justice of the Supreme Court to fill the seat left vacant by the departure of Justice David Souter. Recently, the American Bar Association Standing Committee evaluated Judge Sotomayor and interviewed more than 500 judges, lawyers, law professors and community representatives from across the United States; they analyzed Judge Sotomayor's opinions, speeches and other writings; read reports of reading groups comprised of recognized experts in the substantive areas of the law that they reviewed; and conducted an in-depth personal interview of the nominee. In the words of the committee:

The Standing Committee's investigation of a nominee for the United States Supreme Court is based upon the premise that the nominee must possess exceptional professional qualifications. The significance, range, complexity and nation-wide impact of issues that such a nominee will confront on the Court demands no less.

After that extensive investigation, the American Bar Association gave Judge Sotomayor their highest rating, unanimously rating her "well qualified."

Some colleagues have expressed concern over the differences in language and ideas they observed in Judge Sotomayor while sitting as a judge in the courtroom, and as a citizen outside of the courtroom. For example, one colleague put it this way during Judge Sotomayor's confirmation hearing,

I want to ask your assistance this morning to try to help us reconcile two pictures that I think have emerged during the course of this hearing. One is, of course, as Senator SCHUMER and others have talked about, your lengthy tenure on the federal bench as a trial judge and court of appeals judge.

And then there's the other picture that has emerged that—from your speeches and your other writings.

He further stated,

You know, I actually agree that your judicial record strikes me as pretty much in the mainstream of—of judicial decision making by district court judges and by court of appeals judges on the federal bench. And while I think what is creating this cognitive dissonance for many of us and for many of my constituents who I've been hearing from is that you appear to be a different person almost in your speeches and in some of the comments that you've made. So I guess part of what we need to do is to try to reconcile those.

Assume there is a difference between Judge Sotomayor's rulings in the courtroom, and those personal views she expressed outside of the courtroom. If so, aren't we looking for people who can apply the law on the bench, even if he or she has a different personal opinion? At the end of the day, we want our judges to leave their personal views outside of the courtroom. That is the essence of an impartial judiciary.

Senator GRAHAM pointed that out when he said,

Her speeches, [while troubling], have to be looked at in terms of her record. When we look at this 17-year record we will find someone who has not carried out that speech.

In other words, Judge Sotomayor has demonstrated the trait she is accused by some of lacking: the ability to leave her personal opinions at the courthouse door. She has an extensive judicial record and we have had the opportunity to review that record. The Congressional Research Service analyzed Judge Sotomayor's record and concluded:

Perhaps the most consistent characteristic of Judge Sotomayor's approach as an appellate judge has been an adherence to the doctrine of *stare decisis* (i.e., the upholding of past judicial precedents). Other characteristics appear to include what many would describe as a careful application of particular facts at issue in a case and a dislike for situations in which the court might be seen as overstepping its judicial role.

That is the opposite of an activist jurist imposing her views despite the law. During her confirmation hearing, Judge Sotomayor was asked about the role of the courts numerous times. Her response makes clear that she adheres to the responsibilities of a judge:

... look at my decisions for 17 years and note that, in every one of them, I have done what I say that I so firmly believe in. I prove my fidelity to the law, the fact that I do not permit personal views, sympathies or prejudices to influence the outcome of cases, rejecting the challenges of numerous plaintiffs with undisputably sympathetic claims, but ruling the way I have on the basis of law rejecting those claims. . . .

We all have personal views and sympathies. Some judges regrettably can't lay those aside. Judge Sotomayor has proven in her judicial career that she can, while faithfully applying the principles of the U.S. Constitution.

For these reasons, I will vote to confirm Judge Sotomayor to the Supreme Court.

Madam President, I ask unanimous consent that letters received by the Judiciary Committee from the AFL-CIO and from AFSCME be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

AMERICAN FEDERATION OF LABOR
AND CONGRESS OF INDUSTRIAL ORGANIZATIONS,

Washington, DC, July 24, 2009.

DEAR SENATOR: On behalf of the AFL-CIO, I am writing to urge you to support the swift

confirmation of Judge Sonia Sotomayor as our next Supreme Court Justice.

Judge Sotomayor fully acknowledges the real world consequences of judicial rulings, and throughout her career has demonstrated her understanding of the impact of the law on working families. She has also consistently interpreted our labor laws in the manner in which they were intended.

Judge Sotomayor has recognized that persecution for union activity can be a basis for granting asylum in this country. She has enforced the rights of workers to be free from all types of discrimination, to be paid correct wages, and to receive the health benefits to which they are entitled. In the baseball strike of 1995, Judge Sotomayor recognized that baseball owners had forced the strike by engaging in unlawful conduct and she issued an injunction that saved baseball.

Throughout her nomination hearing before the Senate Judiciary Committee, Judge Sotomayor demonstrated that she is a stellar jurist with a commitment to uphold the constitutional rights of all.

Judge Sonia Sotomayor would bring more federal judicial experience to the Supreme Court than any justice in the last 100 years. We urge the Senate to confirm her nomination to the Supreme Court.

Sincerely,

WILLIAM SAMUEL,
Director,
Government Affairs Department.

AMERICAN FEDERATION OF STATE,
COUNTY AND MUNICIPAL EMPLOYEES, AFL-CIO,

Washington, DC, July 21, 2009.

MEMBERS OF THE COMMITTEE ON JUDICIARY,
U.S. Senate, Washington, DC.

DEAR SENATOR: On behalf of the 1.6 million members of the American Federation of State, County and Municipal Employees (AFSCME), I am writing to urge you to vote yes when the Senate Judiciary Committee considers the nomination of Judge Sonia Sotomayor to the U.S. Supreme Court. We believe that she conducted herself with distinction during her confirmation hearing and that she should be confirmed as the next U.S. Supreme Court Justice.

Judge Sotomayor was impressive during her confirmation hearing, demonstrating that she is well-qualified to serve on the high court. Her successful appearance before the Judiciary Committee is no surprise when you consider her strong educational and professional background. She was valedictorian of her high school class, won a scholarship to Princeton and earned her law degree at Yale University where she served as editor of the Yale Law Review. Judge Sotomayor has served with distinction as a litigator, prosecutor, trial court and U.S. appellate judge and brings more federal judicial experience than any of the current members of the Supreme Court and than any Justice in the last century prior to their nomination to the high court.

As an organization representing working men and women, we obviously are interested in a judicial nominee's record on issues impacting the lives of working families. Judge Sotomayor has been consistent in her interpretation of labor laws and has worked to preserve the rights of workers to receive fair pay, health benefits and to be free of workplace discrimination. She has proven that she is well within the mainstream with her views of the Constitution.

Judge Sotomayor's nomination marks a milestone, making her the first Hispanic and the first woman of color to be nominated to

the high court, thereby fulfilling President Obama's promise to add diversity to the Supreme Court.

We strongly support the nomination of Judge Sonia Sotomayor to the U.S. Supreme Court and urge you to vote yes to confirm her.

Sincerely,

CHARLES M. LOVELESS,
Director of Legislation.

Mr. LEVIN. Madam President, I yield the floor and note the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DURBIN. Madam President, the Judiciary Committee has received several letters and statements of support from organizations dedicated to advancing civil and women's legal rights, including LatinoJustice PRLDEF, the Alliance for Justice, and the National Women's Law Center. I ask unanimous consent that these letters be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

LATINOJUSTICE, PRLDEF.

FORMER LATINOJUSTICE PRLDEF BOARD MEMBER JUDGE SONIA SOTOMAYOR NOMINATED TO THE U.S. SUPREME COURT

We congratulate former board member and present Federal Appeals Court Judge Sonia Sotomayor in being nominated to the U.S. Supreme Court.

The LatinoJustice PRLDEF family rejoices and congratulates President Obama for making the historic decision to nominate the first Latina to the Supreme Court. The president has not only chosen a well-qualified and respected judge who will be a great asset to the court and our nation—but with his first opportunity to nominate a Supreme Court Justice, the president brings the Hispanic community into the exclusive chambers of the highest court in the land.

"Sonia is a member of our family and spent more than a decade providing leadership to our organization, said Cesar Perales, LatinoJustice PRLDEF President and General Counsel. "We profited firsthand from her probing mind as well as her thoughtfulness beyond her extraordinary intellect. She is a most practical person who found solutions to complex issues."

Judge Sotomayor's nomination comes at a time when the Hispanic community is at the heart of a number of highly politicized issues and attacks on our civil liberties. LatinoJustice PRLDEF recently has fought battles against anti-immigration ordinances, a rash of hate crimes against Latinos and attempts to police the use of Spanish.

As the second largest and fastest growing population in America, with a large pool of qualified individuals to choose from, it was wholly appropriate for the president to nominate a Hispanic.

Although Judge Sotomayor has a stellar judicial record, many of her supporters are expecting a fight from the right and from conservatives.

"We are prepared to engage those who would unfairly tarnish her reputation," Perales said. "The nation needs to know that LatinoJustice PRLDEF will come to her defense."

The Latino community will be looking to the Senate to proceed with the confirmation process in a fair and timely manner.

We expect that senators from both parties should treat Judge Sotomayor with the respect she deserves, examine her record thoughtfully, and perform their constitutional duty without undue delay or obstruction.

LatinoJustice PRLDEF has organized a Task Force made up of exemplary lawyers and academics to conduct a review of the nominee's published papers and decisions.

ALLIANCE FOR JUSTICE,
Washington, DC, July 9, 2009.

Hon. PATRICK J. LEAHY,
Chairman, Committee on the Judiciary, U.S.
Senate, Russell Senate Office Building,
Washington, DC.

Hon. JEFF SESSIONS,
Committee on the Judiciary, U.S. Senate, Rus-
sell Senate Office Building, Washington,
DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS: The Alliance for Justice endorses Judge Sonia Sotomayor's nomination to the Supreme Court. Alliance for Justice ("AFJ") is a national association of over 80 organizations dedicated to advancing justice and democracy. For 30 years we have been leaders in the fight for a more equitable society on behalf of a broad constituency of environmental, consumer, civil and women's rights, children's, senior citizens' and other groups. We believe all Americans have the right to secure justice in the courts and to have our voices heard when government makes decisions affecting our lives.

Judge Sotomayor has a record of academic and professional excellence, and we commend President Obama for choosing a brilliant and fair-minded jurist to serve on our nation's highest court. There is no question that Judge Sotomayor is eminently qualified to serve on the Supreme Court. Her rise from modest circumstances to become a graduate of Princeton University and Yale Law School speaks well of her intellect, character, and dedication. Her extensive career as a criminal and commercial litigator and her seventeen years on the bench as trial and appellate judge round out her sterling credentials.

Importantly, if confirmed, Judge Sotomayor will bring the perspective provided by being the only sitting justice to have served as a trial court judge. It will be enormously valuable to the Supreme Court to have a member with an understanding of the challenges that trial judges face and the way in which Supreme Court rulings are likely to play out on the front lines of the criminal justice system.

We also find it enormously important that throughout her career Judge Sotomayor has worked to open the legal profession to women and people of color. Through her involvement in community activities and as a mentor, she has shared her remarkable talents and example.

As part of AFJ's work to promote a fair and independent judiciary, we conducted a thorough analysis of Judge Sotomayor's judicial record, composed of the more than 700 opinions she has authored in a wide range of areas of law. We focused on four areas of her jurisprudence—access to justice; criminal law and procedure; constitutional and civil rights; and business and consumer litiga-

tion—each of which will be addressed in greater detail below. Judge Sotomayor is a careful jurist who digs into the facts of a case and issues narrow rulings. She has written frequently in her opinions about the limited role of a judge, and she has approached change in the law in a very restrained and incremental fashion. A moderate voice who displays no signs of bias toward parties of any particular background or affiliation, Judge Sotomayor tends to avoid announcing new rules or issuing broad statements of principle. She does not consciously espouse a grand theory of interpretation or judicial philosophy. Judge Sotomayor shows deference to the intent of Congress and emphasizes close reading of statutory texts. Above all, her opinions adhere closely to Supreme Court and Second Circuit precedent, showing Judge Sotomayor's deep respect for the rule of law and the importance of stare decisis.

Judge Sotomayor's rulings on legal issues such as justiciability, preemption, jurisdiction-stripping, and sovereign immunity exemplify her cautious, technical approach to judicial review. They also demonstrate both judicial restraint and a commitment to access to federal courts. Taking a measured approach to questions of standing, she has consistently demonstrated fidelity to examining justiciability prerequisites before allowing a case to proceed. Attentive to issues of mootness and ripeness, Judge Sotomayor systematically works through alleged harms, identifies those that create an active case or controversy, and gives attention to statutory limits on injury or on the class of plaintiffs authorized to seek court redress. Although Judge Sotomayor has ruled on only a few preemption cases, her rulings reflect the often complex interplay between state and federal law, and she subjects preemption claims to rigorous statutory analysis, relying on text and legislative history to discern Congressional intent. Her rulings on other doctrines concerning parties' access to justice, such as court stripping, sovereign immunity, and attorneys' fees, demonstrate awareness of the importance of access to a fair and impartial judiciary.

Judge Sotomayor's criminal law experience is lengthy and varied. She spent the first five years of her career as a prosecutor in the Manhattan District Attorney's office, and she has participated in hundreds of criminal cases during her long tenure on the federal bench. Importantly, Judge Sotomayor will bring to the Supreme Court the insights gained from her years presiding over criminal proceedings as a district court judge, which will make her the only sitting justice who has been directly responsible for implementing the U.S. Sentencing Guidelines and meting out punishment. Her district court record reflects a tough jurist unafraid of imposing sentences at the high end of the guideline range for both white collar and violent criminals. She does not, however, uniformly support sentence enhancements, and she vigorously opposed a district court's injection of personal policy preferences into a sentencing decision.

Judge Sotomayor's criminal justice opinions reveal the temperament of a former prosecutor who understands the real-world demands of prosecuting crime and fundamentally respects the rule of law. When reviewing the constitutional rights of criminal defendants, Judge Sotomayor closely follows Second Circuit precedent and dispenses narrow rulings tailored to the particular facts of the case. Exhibiting a moderate and restrained approach to judicial review of trial process, she focuses on procedural issues, and

she has resolved the overwhelming majority of her cases without reaching the merits of a defendant's claim. Significantly, she frequently concludes that trial defects resulted in harmless rather than structural error. Her restrained manner is most evident in her habeas corpus decisions, in which she strictly adheres to the procedural requirements of the Antiterrorism and Effective Death Penalty Act ("AEDPA"), often dismissing habeas petitions as unexhausted or time-barred under AEDPA, even when faced with potentially credible—and, in one instance, ultimately proven—claims of actual innocence. While the Alliance for Justice believes that, where possible, judges should reach the merits of a defendant's constitutional claims and recognize the damage that a trial court error inflicts on the integrity of a criminal proceeding, we nonetheless respect Judge Sotomayor's moderate approach and commitment to preserving the delicate balance between the government's ability to prosecute crime and an individual's constitutional rights.

Judge Sotomayor takes a similarly cautious approach in civil rights cases, above all taking care to strictly follow precedent and limit her rulings to the facts at hand. When finding that the matter before her is not squarely addressed by precedent, she tends to rule narrowly, moving the law in small increments rather than in bold steps. While we do not always agree with her restrained interpretation of statutes or the Constitution, we applaud the consistent attention she has paid to matters of process, including procedural due process. Her opinions insist that individuals in our justice system are entitled to adequate notice, a right to be heard, and representation. In particular, we appreciate that she has shown particular attention to the procedural rights of individuals who are less likely to be able to fend for themselves. She has also emerged as a strong defender of First Amendment rights to free speech and free exercise of religion, as well as the rights of the disabled.

Her limited record reviewing controversial constitutional issues, such as those involving the Second Amendment and the Takings Clause, is a model of restraint, faithfully applying Supreme Court precedent. She does not depart from her cautious approach when reviewing civil rights protections against discrimination. Her employment discrimination decisions are within the legal mainstream, and she has ruled in a consistently balanced manner for both plaintiffs and defendants. Contrary to the accusations by some commentators, there is no evidence of racial bias in any of the hundreds of decisions Judge Sotomayor has written. Rather, her jurisprudence in cases involving racial discrimination claims is very much like her jurisprudence in other areas of the law: deliberate, measured, and strictly adherent to precedent. Finally, on other hot-button issues such as reproductive rights, capital punishment, and executive power, her record is too slim to arrive at any meaningful conclusions about her views.

Our review of Judge Sotomayor's rulings in business and consumer litigation further emphasized Judge Sotomayor's dedication to careful attention to the facts of each case, deference to the legislature, and adherence to legal precedents. Judge Sotomayor has a wealth of experience in business and consumer litigation garnered from her time spent as a judge, in private practice, and through her public service activities. Consequently, she will bring to the Court an impressive working knowledge of commercial

law, including securities, antitrust, employment, banking, trademark and copyright, and product liability. An analysis of Judge Sotomayor's opinions in labor cases showed that she cannot be pigeonholed as pro-union, pro-employer, or pro-employee, although her rulings show judicial restraint and a respect for the National Labor Relations Board and Congress's national labor policy favoring collective bargaining.

In sum, our examination of Judge Sotomayor's record demonstrates her consistency and restraint as a jurist. Importantly, her very presence on the Court may have a "Marshall effect": justices who sat with Justice Thurgood Marshall have noted that his presence in conference and on the bench changed their conversations and informed their decisions. As the Court's first Hispanic and only its third woman, Judge Sotomayor may have a similar effect on the activist justices on the Court who appear intent on weakening our core constitutional, civil rights, environmental, and labor protections.

Most fundamentally, Judge Sotomayor is a highly accomplished and qualified nominee who has proven herself to be fair, reasonable, and committed to upholding the rule of law and core constitutional values. For these reasons, Alliance for Justice is proud to endorse her historic nomination to the Supreme Court.

Sincerely,

NAN ARON,
President, Alliance for Justice.

NATIONAL WOMEN'S LAW CENTER,
Washington, DC, July 21, 2009.

Re nomination of Judge Sonia Sotomayor to be Associate Justice of the Supreme Court of the United States.

Hon. PATRICK J. LEAHY,
Chair, Senate Judiciary Committee, Washington, DC.

Hon. JEFF SESSIONS,
Ranking Member, Senate Judiciary Committee, Washington, DC.

DEAR CHAIRMAN LEAHY AND SENATOR SESSIONS: On behalf of the National Women's Law Center (the "Center"), we write in support of the nomination of Judge Sonia Sotomayor to be an Associate Justice of the Supreme Court of the United States. Judge Sotomayor possesses sterling academic and legal credentials, with a varied legal career including government service as a prosecutor, private practice in complex areas of commercial law, and 17 years as a federal judge, both at the trial and appellate level. She is well-respected in the profession and has an excellent reputation as a careful, thoughtful, fair, and extremely intelligent jurist. The ABA Standing Committee on the Federal Judiciary unanimously rated her well-qualified for the Supreme Court. She has also received the endorsement of the National Association of Women Lawyers, the Hispanic National Bar Association, and the New York City Bar Association. In addition to her exceptional legal qualifications, Judge Sotomayor brings an inspiring life story and a demonstrated commitment to public and community service, including within the civil rights community.

As an organization dedicated to advancing and protecting women's legal rights, the National Women's Law Center since 1972 has been involved in virtually every major effort to secure and defend women's legal rights in this country. The Center has reviewed Judge Sotomayor's legal record, including her judicial decisions, public statements, and experiences outside of her service on the bench,

and her testimony before the Senate Judiciary Committee during her confirmation hearings. The Center's review of the totality of Judge Sotomayor's legal record has led the Center to conclude that Judge Sotomayor will bring a real-world perspective, much-needed diversity of experience and background, considerable legal acumen, and a fair-minded approach to the Court. The National Women's Law Center is proud to support Judge Sotomayor, an exceptionally qualified nominee who is only the third woman, the third person of color, and the first Latina and woman of color, to be nominated to the Supreme Court.

The Center's review focused, on issues of particular importance to women—including prohibitions against sex discrimination under the Equal Protection Clause, the constitutional right to privacy (which includes the right to terminate a pregnancy and other aspects of women's reproductive rights and health), as well as the statutory provisions that protect women's legal rights in such fundamental areas as education, employment, health and safety, and social welfare, access to justice, and public benefits. The Center's analysis is set forth in full in a public report, *The Record of Judge Sonia Sotomayor on Critical Legal Rights for women*, available at www.org/pdf/SotomayorReport.pdf, which was released on July 17, 2009.

Judge Sotomayor's legal record demonstrates that she is a careful judge who is extremely respectful of the role of the judiciary, who is deferential to precedent, and who delves deeply into the factual record. Judge Sotomayor's decisions have been fully justifiable as a matter of law and fall well within the mainstream of judicial thought. Questioned extensively about her prior statements regarding the influence that a judge's background and experiences have on the decisionmaking process, Judge Sotomayor replied consistently that she believes strongly that the even-handed application of the law must always prevail. Judge Sotomayor's testimony at her confirmation hearings on a variety of topics and legal issues reinforced her record as a judge, reiterating her commitment to precedent, her careful and fact-bound approach, and her understanding of the role of the judiciary.

Judge Sotomayor's record and testimony provide confidence that her judicial philosophy and approach to the law are consistent with the legal rights and principles that are central to women, including the constitutional right to privacy and *Roe v. Wade*, Equal Protection, and key statutory protections.

The Center offers its strong support of Judge Sotomayor's nomination to the Supreme Court, and urges the Committee to approve her nomination quickly.

Sincerely,

NANCY DUFF CAMPBELL,
Co-President.
MARCIA D. GREENBERGER,
Co-President.

Mr. DURBIN. Madam President, as a Member of Congress, there are votes you cast that you remember for a lifetime. Recently, a new Senator, AL FRANKEN, came to my office the day after he was sworn in, and we talked about his adjustment to the Senate. He talked to me about his concern about the first three votes he cast in the Senate, that he was pushed in quickly and had to make decisions and didn't have a chance to reflect as he would have

liked to reflect on those votes. I said to him that I understood that, but after he has been in the Senate for a while—or the House for that matter—and he has cast many votes, he would realize that some are more important than others.

This is an important vote. It is not the most important vote a Member of the Senate can cast—a vote for a nomination of the Supreme Court. I would argue the most important vote you can cast is whether America goes to war because if the decision is made in the affirmative, as it has been, people will die. I can't think of anything more compelling than that vote.

But this ranks a close second in terms of the impact it will have. These are lifetime appointments to the Supreme Court. The Supreme Court Justices on average serve 26 years, longer than most Members of Congress. The Supreme Court has the last word in America when it comes to our most significant legal issues. This High Court across the street, comprised of nine men and women, defines our personal rights as Americans to privacy and the restrictions the government can place on the most personal aspect of our lives and our freedom. It doesn't get any more basic than that.

The Supreme Court decides the rights of workers, consumers, immigrants, and victims of discrimination. The nine Justices decide whether Congress has the authority to pass laws to protect our civil rights and our environment. They decide what checks will govern the executive branch—the President—in time of war.

In critical moments in American history, the Supreme Court has succeeded and failed our Nation. In the Dred Scott decision in the 1850s, the Supreme Court perpetuated slavery and led us to a civil war. In *Brown v. Board of Education*, in the 1950s, that court brought an end to the legal blessing on discrimination based on race. Because these issues were so important, and tomorrow's issues may be as well, we make our choices for the Supreme Court with great care. We obviously need Justices with intelligence, knowledge of the law, the proper judicial temperament, and a commitment to impartial and objective justice. More than that, we need Supreme Court Justices who understand our world and the impact their decisions will have on everyday people. We need Justices whose wisdom comes from life, not just from law books.

Sadly, this important quality seems to be in short supply these days. The Supreme Court has issued decision after decision in recent years that represent a triumph of ideology over common sense. The case of *Ledbetter v. Goodyear Tire & Rubber Company* is the best example of this troubling trend of the Court. In that case, the Supreme Court dismissed a claim of

pay discrimination simply because the claim was filed more than 180 days after the initial discriminatory paycheck. But most employees in most businesses in America have no idea how much the person next to them is being paid, so it is often impossible to know you are a victim of pay discrimination until long after the fact, long after 180 days. The Supreme Court's Ledbetter decision defied common sense, the realities of the workplace, and a long record of earlier decisions. A 13-year-old girl was strip-searched at her school based on a false rumor that she was hiding ibuprofen pills. At the oral argument before the Court in April, several Supreme Court Justices asked questions about the case that revealed a stunning lack of concern for the eighth grade victim. One of the Justices even suggested that being strip-searched was no different than changing clothes for gym class. Justice Ruth Bader Ginsburg helped her eight male colleagues understand why the strip search of a 13-year-old girl was humiliating enough to violate her constitutional rights. The majority of the Justices, nevertheless, ruled that school officials were immune from liability.

These and other decisions demonstrate that the Supreme Court needs to understand the real world and the impact its decisions have on real people. I believe Judge Sonia Sotomayor will be such a Justice.

One of my favorite memories of Judge Sotomayor's hearing was watching her mother's face glow with pride as Judge Sotomayor talked about the history of her family. She spoke about growing up in public housing, losing her father when she was 9 years old, and struggling to succeed against adversity, illness, and the odds. She talked about what a great impact her mom had on her life, and that her mom taught her what a friend was worth. She talked about earning scholarships to Princeton University and Yale Law School, serving as a prosecutor and a corporate litigator, and then being selected by President George H.W. Bush to serve the Federal judiciary and being promoted to a higher judicial office by President Bill Clinton.

It is a rare occurrence for a Federal judge to receive appointments by Presidents of different political parties. Sonia Sotomayor received those and that reflects so well on her skill as a judge.

Judge Sotomayor has served for more years as a Federal judge than any other Supreme Court nominee in a century and, if confirmed, she will be the only Justice on the current Supreme Court with actual experience on the district court and the trial court, the front line of our judicial system.

For many who oppose Sonia Sotomayor, her life achievements and her judicial record aren't good enough.

They have gone through 3,000 different court decisions that this woman has written or been part of. They have scoured through hundreds of speeches she has given. If you watched the hearing, they focused primarily on one case and one sentence in one speech.

At Judge Sotomayor's hearing, Republican Senators mentioned the words "wise Latina woman"—that one line in one speech—17 different times. Senator after Senator asked her, "What did you really, really mean with those three words?"

Those of us who are Senators live in a world of daily decisions, speeches, and votes. If we vote in a way that is controversial, we ask the people to be fair and judge us on our life's work, not on a single vote. It is a standard we ask for ourselves. But for some Senators, it is not a standard they would give Judge Sotomayor when it comes to her decisions and life in public office.

Members of Congress also live in a world of revised and extended remarks. We live in a world of jokes that aren't that funny, and verbal gaffes. Many want to condemn Judge Sotomayor for her "wise Latina" remark that she herself conceded was "a rhetorical flourish that fell flat." I think some of her critics in the Senate are applying a double standard here.

I pointed out at the hearing that those who read the "wise Latina" sentence should have kept reading, because a little further in that same speech, the judge noted that it was nine white male Justices on the Supreme Court who unanimously handed down the *Brown v. Board of Education* decision, and other cases involving race and sex discrimination.

Judge Sotomayor made it clear at her hearing that she believes no single race or gender has a monopoly on good judgment. But her statements are not good enough for some of my colleagues. I hope that Senators would be wise enough themselves to look at her long record on the bench and not one line in one speech.

Let's be honest. A great deal of concern about her nomination has to do with the issue of diversity. Why do we even seek diversity when it comes to appointments to the Federal judiciary? First, it is because we live in a diverse nation. We want every American to believe they have an equal opportunity to succeed. We want every American, Black, White, brown, male and female to know that our system of government is fair. We want all Americans to look at our Congress and our courts and feel there are leaders who can identify with the diversity of life experience in this great diverse Nation.

Second, diversity on the Federal bench is important because different life experiences can lead to different perspectives.

Does anybody believe there is a clear, objective answer to every case that

comes before the Supreme Court? If they do, please explain to me why one-third of all rulings in that Court in the last term were decided by a 5-to-4 vote.

Does anybody believe the Supreme Court's recent strip search case would have come out the same way if Justice Ginsburg, the only woman on the Supreme Court at this moment, had not helped her eight male colleagues to reflect on what it was like for a 13-year-old girl to be treated in such a humiliating fashion at her school?

Does anybody believe that women judges have not helped their male colleagues understand the realities of sex discrimination and sexual harassment in the workplace? Study after study has shown that men and women on the bench sometimes rule differently in discrimination cases. That is why diversity is so important.

This doesn't mean their rulings are based on personal bias. It simply means that Americans see the world through the prism of various experiences and perspectives. Our Supreme Court Justices should possess an equally rich and wide field of vision as they interpret the facts and the law. Criticizing Judge Sotomayor for recognizing this reality is unfair.

The criticism of Judge Sotomayor for her position in the Ricci case, which involved the firefighters in Connecticut, is also unfair. Judge Sotomayor's position in that case followed past judicial precedents. At her nomination hearing, she offered clear explanations about the law as she saw it when she reached her conclusion, and about how her decision was fully consistent with the way the law has historically dealt with competing claims of discrimination.

Her position in the Ricci case was supported by a majority of the members of her appellate court, a unanimous three-judge panel of her court, the district court, and by four of the nine members of the Supreme Court. Hers was not a radical, unreasonable position. I think we know that. When my colleague Senator SPECTER asked the firefighters themselves if they believed that Judge Sotomayor's ruling in the case was made in good faith, they said they had no reason to believe otherwise. Nor do I.

To those who say Judge Sotomayor wouldn't have an open mind in race discrimination cases, look at her 17 years on the bench. Based on an independent study by Supreme Court scholar Thomas Goldstein, after looking at all 96 of her race discrimination cases, he found that she ruled in favor of the plaintiffs less than 10 percent of the time. There is no bias in her decision-making. The facts don't support that conclusion.

There are two other issues I will address—foreign law and the second amendment. These issues are near and dear to the rightwing conservative base.

With respect to foreign law, Judge Sotomayor stated repeatedly over and over, in question after question, that American courts should not rely on decisions of foreign courts as controlling precedent. But she said that in limited circumstances, decisions of foreign courts can be a source of ideas, akin to law review articles or legal treatises.

She is hardly alone in her thinking on this. Justice Ginsburg took the same position and observed: "I will take enlightenment wherever I can get it."

This commonsense approach has been embraced by two conservative Supreme Court Justices appointed by President Reagan: William Rehnquist and Anthony Kennedy.

Indeed, we cannot expect the rest of the world to adopt the democratic principles and fundamental freedoms we promote as a Nation, while at the same time saying we will never consider ideas developed in other countries. This is plain common sense.

It is sad that some of my colleagues are in the thrall of small-minded xenophobes and don't appreciate that the march of democracy has reached many corners of the world and generated thoughtful reflection on our most basic values.

On the issue of the second amendment, I was sorry to see a major lobby group in Washington, DC, the National Rifle Association, not only announce their opposition to Judge Sotomayor but also notify its members and colleagues that this vote is going to be scored against them on the annual legislative scorecard. This is the first time in its history that the NRA has taken a position on a Supreme Court Justice.

Every citizen is entitled to his opinion, but it is unfortunate that the decision of this historic gravity has become a bargaining chip for lobbyists in Washington, and contributions in the next political campaign. What is worse, Judge Sotomayor has a record of honest reflection on the second amendment.

Most of the gun-related criticism of Judge Sotomayor is focused on the Maloney case. But in that case, she came to the exact same conclusion as a three-judge panel of the U.S. Court of Appeals for the Seventh Circuit, based in Illinois. That three-judge panel was not a gathering of liberals. It featured three Republican appointees and two of the most conservative icons on the Federal bench, Judge Frank Easterbrook and Judge Richard Posner.

They concluded that only the Supreme Court, not appellate courts, could overrule century-old Supreme Court precedents on whether the second amendment right to bear arms applies to the States.

I realize the NRA and their Senate allies don't like that ruling. They

wanted Judge Sotomayor to do what the Ninth Circuit did and overrule Supreme Court precedent. But in the Maloney case, Judge Sotomayor did what an appellate court should do, and she followed the law.

I am pleased that not every conservative group joined the NRA's line of fire. I will mention some organizations and individuals who don't typically show up at Democratic party rallies but who support the judge: Kenneth Starr, a man who led the impeachment of President Clinton; Charles Fried, a conservative Republican who served as Solicitor General during the Reagan administration, also supports her confirmation, as do conservative columnists Charles Krauthammer and David Brooks. The U.S. Chamber of Commerce has endorsed her. In Illinois, the conservative Chicago Tribune said:

In four days of testimony under often intense questioning, [Judge Sotomayor] handled herself with grace and patience, displaying a thorough knowledge of case law and an appreciation of her critics' concerns. The result was to reinforce a strong case that she will make a good Supreme Court justice and deserves Senate approval.

I want to acknowledge that, as of this moment, eight Republican Senators have stepped forward and announced they are going to support Judge Sotomayor. I am heartened by their courage and their support of this fine judge.

The last issue I would like to address is that word "empathy." Judge Sotomayor's critics have twisted and tortured this word in an effort to discredit her and raise doubts about her objectivity. Empathy is simply the ability to see another person's point of view. It is the ability to put yourself in their shoes. That is it. It doesn't mean exercising bias or favoring a particular side. The judge's critics are wrong to conflate these concepts.

I believe, and President Obama believes, that Judge Sotomayor's life experience—from her days growing up in public housing, to her service as a high-powered lawyer representing large corporations—will give her a unique ability to understand the interests of all the parties that come before her for decisions of the Supreme Court. It gives her an ability to understand different perspectives and points of view. That is what empathy is all about.

Judge Sotomayor had demonstrated this quality in 17 years on the bench. It explains why she enjoys such a reputation for fairness and thoughtfulness.

In the 220-year history of the United States, 110 Supreme Court Justices have served under our Constitution, and 106 of them have been white males. We have had two women Justices, Sandra Day O'Connor and Ruth Bader Ginsburg. Two of them have been African Americans, Thurgood Marshall and Clarence Thomas.

In life, and in our Nation, if you want to be first, you have to be the best.

Sonia Sotomayor's resume and inspirational background clearly meet that higher standard. What a great story it is for America that President Obama has given us a chance to consider Sonia Sotomayor to serve as the first Hispanic woman on the Supreme Court.

Judge Sotomayor should not be chosen to serve on the Court because of her Hispanic heritage. But those who oppose her for fear of her unique life experience do no justice to her or our Nation. Their names will be listed in our Nation's annals of elected officials one step behind America's historic march forward.

I urge my colleagues to support and vote yes on the nomination of Sonia Sotomayor to be the next Justice of the Supreme Court of the United States.

Mr. HARKIN. Madam President, I am proud to support the confirmation of Judge Sonia Sotomayor as the next Associate Justice of the U.S. Supreme Court.

Judge Sotomayor's story is proof of the central American promise: that any person, by sheer force of their talent, can rise from the humblest background to one of the highest offices in this country. Born to a Puerto Rican family, Judge Sotomayor grew up in public housing in the South Bronx. Her father, a tool-and-die worker with a third grade education, died when she was nine years old. Due to her mother's struggle and sacrifice, and Judge Sotomayor's tremendous ability and perseverance, she graduated valedictorian of her high school in New York, then graduated summa cum laude from Princeton University.

She went on to earn her law degree from Yale Law School, where she was editor of the Yale Law Journal. After law school, Judge Sotomayor served as an assistant district attorney in New York County for 5 years and then entered private practice as a corporate litigator. For the past 17 years, she has served as a Federal district and appellate court judge.

Given her experiences and career, there is no doubt that Judge Sotomayor is immensely qualified to serve on our Nation's highest Court. What is clear from her 17-year judicial career, from my meeting with her, and from her confirmation hearing is that she is an unbiased, mainstream judge with a deep commitment to the rule of law and constitutional values. She has an exemplary record during her tenure on the bench, and every independent analysis has made clear that she is a judge who faithfully applies the law.

Given her record, I am saddened that many Republicans have chosen to grossly distort her record, and have spent so much time focusing on a few out-of-context quotes and less than a handful of decisions. Putting rhetoric aside, she has participated in nearly 3,000 decisions and authored approximately 400 opinions. Her 17-year record

overwhelmingly demonstrates that she is anything but a “judicial activist.”

Considering her outstanding intellect, credentials and judicial record, there simply is no doubt Judge Sotomayor should be confirmed. However, for me, there is another, equally important, consideration. I also firmly believe that Judge Sotomayor will be an important and needed voice on the Court to ensure proper effect is given to our most important statutes, such as the Americans with Disabilities Act, ADA, the Civil Rights Act, and the Age Discrimination Employment Act, ADEA, so all Americans receive the fullest protections of the law.

This is illustrated in an area of the law that I care deeply about—disabilities rights. Unfortunately, as many in Congress know, the Rehnquist Court repeatedly misread the ADA, ignored the intent of Congress and narrowed the scope of individuals deemed eligible for protection under the ADA. The result of these decisions was to eliminate protection for countless thousands of Americans with disabilities. These flawed, harmful decisions were reversed last year when Congress unanimously enacted the ADA Amendments Act.

The contrast between the Rehnquist Court and Judge Sotomayor is stark. In *Bartlett v. New York State Board of Bar Examiners*, Marilyn Bartlett had a Ph.D. in educational administration and a law degree from Vermont Law School. She was also diagnosed with a disability that affected her reading speed and fluency. After completing law school, Ms. Bartlett worked as an associate and received excellent reviews. However, when she took the bar exam, she was denied accommodation for her reading impairment, such as extra time and permission to record her essays on tape. She failed the exam. The bar claimed that she did not have a disability because the examiners did not believe she was limited in the major life activities of reading or working.

Judge Sotomayor, however, ruled for Ms. Bartlett, holding that a student with learning disabilities was entitled to an accommodation while taking the bar exam. Understanding the true purposes of the ADA, she noted:

For those of us for whom words sing, sentences paint pictures, and paragraphs create panoramic views of the world, the inability to identify and process words with ease would be crippling. Plaintiff, an obviously intelligent, highly articulate individual reads slowly, haltingly, and laboriously. She simply does not read in the manner of an average person. I reject the basic premise of defendants' experts that a learning disability in reading can be identified solely by a person's inability to decode, i.e., identify words, as measured by standardized tests, and I accept instead the basic premise of plaintiff's experts that a learning disability in reading has to be identified in the context of an individual's total processing difficulties.

As the Congressional Research Service noted, “She anticipated the legisla-

tive discussions surrounding the ADA Amendments Act by finding the use of self accommodations did not mean that the plaintiff was not an individual with a disability.”

The contrast between Judge Sotomayor's approach to judging—with her respect for congressional intent and for long-standing precedent—and the current Court's activism is likewise illustrated by their respective treatment of so called “mixed motive” discrimination cases.

In June of this year, the Supreme Court decided *Gross v. FBL Financial, Inc.* In a case involving an Iowan, Jack Gross, the Court made it harder for those with legitimate age discrimination claims to prevail under the ADEA. In doing so, it reversed a well established, 20-year-old standard, consistent with that under title VII of the Civil Rights Act, that a plaintiff need only show that membership in a protected class was a “motivating factor” in an employer's action. Instead, the Court held that a plaintiff alleging age discrimination must prove that an employment action would not have been taken against him or her “but for” age. In other words, the plaintiff must now prove that age discrimination was not a cause or a motivating factor, but must prove that it was the exclusive cause of an adverse employment action. Proving “but for” cause is extremely difficult and will greatly limit potentially meritorious suits involving discrimination Congress sought to prevent.

In doing so, the Court did not even address the question it granted certiorari on. As Justice Stevens noted in dissent, “I disagree not only with the Court's interpretation of the statute, but also with its decision to engage in unnecessary lawmaking. The Court is unconcerned that the question it chooses to answer has not been briefed by the parties or uninterested amici curiae. Its failure to consider the views of the United States, which represents the agency charged with administering the [Age Discrimination Employment Act], is especially irresponsible.”

The contrast with Judge Sotomayor is telling. In *Parker v. Columbia Pictures*, she addressed the very same question in the disabilities context—whether a plaintiff need show discrimination was a “motivating factor” or “but-for” cause under the ADA. In contrast to Justice Thomas's opinion in *Gross*, she carefully analyzed the statutory language, intent of Congress and precedents and noted that “Congress intended the statute . . . to cover situations in which discrimination on the basis of disability is one factor, but not the only factor, motivating an adverse employment action.”

Unfortunately, the Supreme Court has transformed the legal landscape regarding the ability of Congress to protect our most vulnerable citizens. In

fact, since 1995, the Rehnquist and Roberts Courts have struck down 38 acts of Congress. Until then, the Court had struck down an average of one statute every 2 years.

For example, in *University of Alabama v. Garrett*, a case I personally attended, the Court limited the rights of people with disabilities. In doing so, it ignored numerous congressional hearings and a task force which collected evidence through 63 public forums around the country attended by more than 7,000 persons. In *United States v. Morrison* and *Kimel v. Florida Board of Regents*, the Court completely ignored extensive congressional fact-finding and struck down parts of the Violence Against Women's Act and Age Discrimination Employment Act, respectively. In June, in *Northwest Austin Municipal Utility District v. Holder*, the Court suggested it was poised to strike down the Voting Rights Act, disregarding expansive congressional fact-finding, including 21 hearings and 16,000 pages of testimony.

Given the current Court's repeated disregard for Congress and for our efforts to expansively protect American citizens from discrimination, I believe it is imperative that the next Justice be someone who respects precedent, strives to apply congressional intent and purpose, and understands the importance of this Nation's landmark civil rights protections. Based on her long judicial record, I am confident Judge Sotomayor is precisely that type of jurist.

Confirmation of Judge Sotomayor will be historic. She clearly has the intellect, experience and judgment to be an outstanding Justice. I am proud to support her nomination.

The ACTING PRESIDENT pro tempore. The Senator from Ohio is recognized.

Mr. VOINOVICH. Madam President, I rise today in support of the confirmation of Judge Sonia Sotomayor as an Associate Justice of the U.S. Supreme Court.

The role of the Senate in the nomination of a Supreme Court Justice is to give its advice and consent on the President's nomination. I believe it has been the longstanding tradition of this body that we are to judge whether an individual is qualified to serve based on the complete record of each nominee.

Once again, I compliment Senators SESSIONS and LEAHY for the excellent job they have done in handling the confirmation hearings for Judge Sotomayor. The hearings were fair and enabled the American people to get a better understanding of what sort of Justice Judge Sotomayor will be. Equally important, these hearings were conducted with civility, allowing Senators to disagree without being disagreeable. This is something I would like to see more of in the Senate. Sadly, as some of my colleagues have

pointed out, the judicial nomination process has become so partisan that it seems to bring out the worst in the Senate, when it ought to bring out the best.

I believe the factors to be examined in determining whether a Supreme Court nominee is qualified include her education, prior legal and judicial experience, judicial temperament, and commitment to the rule of law. Based on my review of her record, and using these factors, I have determined that Judge Sotomayor meets the criteria to become a Justice of the Supreme Court. I didn't come to this determination lightly, and Judge Sotomayor has made statements that give me pause. However, after reviewing her judicial record and the comments made during the Judiciary Committee hearings, on balance, I believe she is fit to serve on our Nation's highest Court.

I am comforted by Judge Sotomayor's express rejection of then-Senator Obama's view that in a certain percentage of judicial decisions "the critical ingredient is supplied by what's in the judge's heart and the depth and breadth of one's empathy." In answer to a question from Senator KYL, Judge Sotomayor said:

I can only explain what I think judges should do, which is judges can't rely on what's in their heart. They don't determine the law. Congress makes the laws. The job of a judge is to apply the law. And so it's not the heart that compels conclusions in cases, it's the law. The judge applies the law to the facts before that judge.

In addition to being fit for the bench, the story of Judge Sotomayor is the story of so many Americans who rose from humble beginnings to reach levels of achievement that would not be possible in any other nation.

It is sort of the story that reminds me of what is so unique and special about our Nation, that a young working-class Latina woman or the son of a first-generation Eastern European immigrant family can be nominated to the Supreme Court or be elected to serve his home State in this great Chamber.

During our private meeting, Judge Sotomayor and I were able to discuss this opportunity. What struck me is she is someone who understands what a great opportunity this is, as well as the great challenges that await her. While the Founding Fathers may have a disagreement with her on some of her legal views, I think they would be proud that judging individuals on their merit has endured as part of this great experiment.

As a number of my colleagues have already noted, Judge Sotomayor, through hard work, has risen from humble beginnings to now await confirmation to the Supreme Court. Judge Sotomayor excelled throughout her academic career. From the time at Blessed Sacrament School and Cardinal Spellman High School, where she

was the valedictorian of her class, she has excelled in highly competitive environments. Like Justice Alito, she is a graduate of Princeton University and Yale Law School. Judge Sotomayor attended Princeton on scholarship and graduated not only summa cum laude but also was the recipient of the prestigious Pyne Prize from that university. Judge Sotomayor went on to Yale Law School, where she served as an editor of the Yale Law Journal. Her academic record should serve as an inspiration to all that in a meritocracy, we all have an equal opportunity to rise to the top.

After her stellar academic career, Judge Sotomayor entered public service as a district attorney in New York, where her drive and basic fairness were well noted. This commitment to public service impressed me.

Judge Sotomayor not only succeeded in the public sector, she also worked her way up from associate to partner, practicing corporate law at a New York law firm. In private practice, Judge Sotomayor specialized in intellectual property and copyright law. Her rise from associate to partner in such a specialized field is a clear indication that the private sector recognized her merit and rewarded her for her skill and ability.

Judge Sotomayor returned to public service with her appointment to the district court, where she served for 6 years. I believe Judge Sotomayor's experience on the district court will be invaluable to the Supreme Court, where none of her colleagues have experience as a judge in a trial court. I hope her experience there will help shape her future opinions, particularly in procedural cases where many commentators have noted a need for rules that work in practice, not just in theory.

Judge Sotomayor's time on the trial bench was marked by opinions that set forth the facts and applied the law narrowly. Did you hear that? Her time on the trial bench was marked by opinions that set forth the facts and applied the law narrowly—exactly what one would want from a trial court.

In addition to district court experience, Judge Sotomayor has appellate court experience, over 10 years on the Second Circuit. I reviewed many of her opinions from her time on the Second Circuit, and while many were not opinions I would have offered, her opinions, as well, were within the legal mainstream. Judge Sotomayor's opinions, for the most part, were lengthy, workman-like, limited rulings, the sort of opinions that exhibit the judicial restraint one would hope for a Supreme Court Justice.

Given her academic and professional achievements, it is not surprising that the American Bar Association has given the judge its highest ratings when considering her for the Supreme Court.

While impressive in what she has overcome to reach this point in her career, her record is not without blemish. In particular, the one comment that gave me significant pause as to whether I would support her nomination is the now well-known statement by the judge that "a wise Latina woman with the richness of her experiences would more often than not reach a better conclusion than a white male who hasn't lived that life." Such a statement is repugnant to someone like me who has worked so hard to reach a colorblind society where an individual's race or gender is not considered in judging a person's merit. The question I had to ask myself was, Is this comment an indication that Judge Sotomayor would reject the rule of law and blind justice to favor certain people on the basis of inappropriate criteria? After study of her judicial record, I have concluded it is not. Based on my review, Judge Sotomayor's decisions, while not always decisions I would render, are not outside the legal mainstream and do not indicate an obvious desire to legislate from the bench. Furthermore, Judge Sotomayor recognized during her nomination hearings that this "could be hurtful" and was not reflective of how she would judge cases. Through my review and my staff's review of her cases, her testimony, and my conversations with the judge, I have confidence that the parties who appear before her will encounter a judge who is committed to recognizing and suppressing any personal bias she may have to reach a decision that is dictated by the rule of law and precedent.

I think I would be remiss in my discussion of the judge if I failed to address the Supreme Court's decision in the Ricci v. DeStefano case. By now, all my colleagues and many Americans are aware that the Supreme Court reversed the Second Circuit's decision in the Ricci case. The case involved a reverse-discrimination suit against the city of New Haven, CT.

Some opponents of Judge Sotomayor's confirmation have used this opinion to suggest that her legal philosophy is outside the mainstream of American jurisprudence and that her nomination should be rejected. I believe a review of the close decisions rendered by the various Federal courts, including the Second Circuit's 7-to-6 decision to refuse to rehear the case and the Supreme Court's 5-to-4 decision to reverse the Second Circuit, suggests this matter was, for a number of the judges who reviewed the case, a close call. In other words, it was very close. For one to say she is outside the mainstream when these decisions were so close I think is really stretching things quite a bit. Nevertheless, I believe Judge Sotomayor and her fellow panel judges would have better served the public by issuing a more comprehensive decision regarding their logic in

affirming the district court's decision in favor of the city of New Haven.

In closing, I wish to make a few remarks about the judicial confirmation process.

Judge Sotomayor is the third nominee to the Supreme Court to come before the Senate since I came to the Senate in 1999. For both Justice Roberts and Justice Alito, then-Senator Obama promoted an "empathy standard" to determine if he would vote for these nominees. Then-Senator Obama said:

The critical ingredient is supplied by what is in the judge's heart.

Such an analysis is no analysis at all. In fact, it flies in the face of the meritocracy in which Judge Sotomayor succeeded. All of us in this Chamber can examine the academic credentials of and prior judicial decisions authored by a nominee and determine whether he or she is qualified. We cannot examine and judge what is in the heart.

Let me be clear. If I applied Senator Obama's standard, I would not be voting for Judge Sotomayor, his nominee. The President was wrong. I think his standard makes the whole nomination process an exercise in partisan politics. We need less politics in the judicial selection process and the judiciary in general, not more. It has become too politicized in the last several years. It is something about which all of us should be concerned.

I urge all my colleagues to reject the Obama empathy standard—just as Judge Sotomayor rejected it, just as I am rejecting it—and return to a standard where it is the qualifications of the nominee we judge, not the politics or heart of that nominee.

Judge Sotomayor is not the nominee I would have selected if I were President, but making a nomination is not my role today. My role is to examine her qualifications to determine if she is fit to serve. Again, in reviewing her academic and professional record, taking into account her temperament and integrity, it is clear to me she is qualified to serve as the next Associate Justice of the Supreme Court.

Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mrs. HAGAN). Will the Senator withhold the request for a quorum call?

Mr. VOINOVICH. Yes.

The PRESIDING OFFICER. The Senator from Vermont.

Mr. SANDERS. Madam President, I ask unanimous consent to jump to the Democratic side for 5 minutes, if that is possible.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Vermont.

Mr. SANDERS. Madam President, I thank my Republican colleague.

I begin by congratulating my colleague from Vermont, Senator LEAHY, for the distinguished manner in which he has led these hearings.

I rise today in support of the nomination of Judge Sonia Sotomayor to be an Associate Justice of the Supreme Court. As an assistant district attorney, a Federal district judge for the Southern District of New York, and a Federal circuit court judge for the U.S. Court of Appeals for the Second Circuit, Judge Sotomayor has demonstrated her eminent qualifications, impartial jurisprudence, and a faithful interpretation of the U.S. Constitution, and this body has every reason to vote today in support of her nomination.

It is no secret that over the last 50 years, the Supreme Court has become a very conservative institution. We are long past the days when the Court respected and dutifully applied the full implications of the Bill of Rights and vigorously protected the freedoms provided us by the Founders of our country and the Framers of the Constitution. Recently, this rightwing drift has become worse, not better. The present Court has routinely favored corporate interests over the needs of working people and the interests of the wealthy and powerful against those of ordinary citizens.

My hope is that Judge Sotomayor will help bring balance to a Supreme Court that today is way out of balance and has moved very far to the right.

The Court recently gutted a key provision of the McCain-Feingold campaign finance law, allowing well-financed corporations to manipulate the legislative process under the guise of free speech—as if the Bill of Rights were written to grant giant corporations the same level of constitutional protection that it does flesh-and-blood American citizens. That is wrong, and that is unfortunate.

The Supreme Court recently made it easier for employers to avoid valid pay discrimination claims by their employees on procedural technicalities, a decision Congress had to rectify. And just this past term, the Court scaled back environmental protections, holding that the Clean Water Act permits a mining company to pump hundreds of thousands of gallons of toxic wastewater per day into an Alaskan lake.

I sincerely hope and I have every confidence that Judge Sotomayor's nomination to the Supreme Court will help curb this corporatist trend and put the Court back on the path of respecting the rights of individual Americans and the environmental and other laws passed by Congress. For that reason, I intend to vote for Judge Sotomayor as Associate Justice of the Supreme Court.

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.)

• Mr. KENNEDY. Madam President, I strongly support the nomination of Judge Sonia Sotomayor to be a Justice on the Supreme Court of the United States. She will be the most experi-

enced jurist to be placed on the Supreme Court in a century, and she will be the first Latina Justice in our Nation's history.

With her extensive career in public service and her lifelong commitment to equal justice, Judge Sotomayor will bring a remarkable perspective to the Court. Given her extraordinary and far-ranging experience, she has already distinguished herself as one of the most able and hardworking Federal judges in the Nation, and I am confident that she will bring the same high ability and dedication to all issues before the Supreme Court.

Judge Sotomayor has already spent 17 years as a Federal judge. She was first nominated to the U.S. District Court for the Southern District of New York in 1992 by President George H.W. Bush. Six years later, she was nominated by President Clinton to the U.S. Court of Appeals for the Second Circuit. She received bipartisan support in the Senate each time, and it is a special privilege for me to support her for the third time.

Judge Sotomayor has a deep understanding of our legal system as a result of the experience she has had as an attorney and a judge. She has more judicial experience at both the appellate and district court level than any Supreme Court nominee in the past 70 years. In addition, in her earlier legal career, she served as an assistant district attorney in New York City and worked as a civil litigator in private practice. Her experience in the criminal and civil systems and as a district judge and an appellate court judge give her a unique perspective that will be invaluable as a Justice of the Supreme Court.

During her years as a Federal judge, she has participated in over 3,000 decisions, including over 400 Second Circuit decisions by panels that included at least one judge appointed by a Republican President. In those cases, she has agreed with the result favored by the Republican appointee over 95 percent of the time. Some have sought to portray Judge Sotomayor as a judicial activist, but her record clearly shows that she is a mainstream jurist who does not let personal ideology dictate the outcome of the cases she is deciding.

Not only is Judge Sotomayor eminently qualified by her experience to serve on the Supreme Court, but her nomination is historic. I, like many Americans, welcome the insight and perspective that Judge Sotomayor will bring to the Court, and she will serve as a role model for millions of our people.

Judge Sotomayor's compelling life story is an impressive example of the best of our country. She was born in the Bronx and raised in New York City by hardworking parents. Through the strong support of her family and her own hard work and dedication and extraordinary achievement, she has been

nominated to be the Nation's 111th Supreme Court Justice.

I commend President Obama for selecting her. With her intelligence, insight, and experience, she is an excellent choice to serve in this distinguished role, and I am sure she will do an outstanding job protecting the rule of law and the fundamental rights and liberties of all Americans. Judge Sotomayor has worked hard to achieve success, and I commend her for her life's accomplishments. I wish her well in this new role, and I urge my colleagues to support her confirmation.

On the day soon to come, when she walks up the steps of the Supreme Court and passes under those famous and inspiring words, "Equal Justice Under Law," inscribed in the marble over the entrance, millions of our fellow citizens and communities across the Nation will be able to say, "Yes, the American dream is alive and well in America today."•

Mr. BINGAMAN. Madam President, I rise to speak in support of Judge Sonia Sotomayor's nomination to be an Associate Justice of the U.S. Supreme Court.

Judge Sotomayor's nomination to the highest court in the land is historic in several respects. Clearly, becoming the first Hispanic to serve on the U.S. Supreme Court is an important milestone. Our country is well served when these barriers fall and we are able to put forward qualified candidates who reflect the diversity of our citizenry.

But what also makes Judge Sotomayor's nomination so significant is the extent of her judicial experience and her overall qualifications.

Judge Sotomayor has more Federal judicial experience than any jurist nominated to the Court in the last 100 years, and has more overall judicial experience than any nominee in the last 70 years. She is the first Supreme Court nominee to have sat on both a Federal trial court and an appellate court, and would be the only current justice with trial court experience. Altogether, she has been a Federal judge for over 17 years, including 6 years on the U.S. District Court for the Southern District of New York and 11 years on the U.S. Court of Appeals for the Second Circuit. In addition to serving on the bench, Judge Sotomayor has a distinguished record as a prosecutor and an attorney in private practice.

Considering the depth of Judge Sotomayor's experience, it is not surprising that after a thorough review of her record the American Bar Association unanimously gave her their highest rating. The ABA found that she was "well qualified" to serve as a justice based on her integrity, competence, and judicial temperament. Judge Sotomayor's testimony before the Senate Judiciary Committee also demonstrated her adherence to mainstream jurisprudence and commitment to ob-

jectively making decisions based on the facts of each case and the applicable legal precedent.

I strongly believe Judge Sotomayor has the qualifications, experience, and impartiality necessary to be an excellent justice of the Supreme Court, and I urge my colleagues to support her nomination.

I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. SESSIONS. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. Madam President, we have heard a number of discussions from Senators throughout this confirmation process regarding judicial activism—what is it and what does it mean. I think our former Judiciary Committee chairman and great legal constitutional scholar, ORRIN HATCH, has defined it clearly and fairly and in the right way. ORRIN HATCH has said for years that judicial activism is when a judge is assigned a case and they allow their personal, political, moral, religious or ideological views to influence their decision, and not render a verdict based on the law and the facts. It is true of a conservative jurist with a conservative ideology as well as a liberal.

In truth, in recent years, we have had a pretty frequent national debate—for maybe 20 or more years—over this question. The intellectual defense of activism—the living constitutional view of activism—has come from the liberal side. Conservatives have said: No, that is not the role of a judge. A judge is supposed to decide the discrete issue before them in a way that handles that case because it may well provide precedent in the future. And that is what they should do and not be expansive in their rulings and set policy or to promote some long-term agenda they believe—rightly or wrongly—may be the greatest thing the country could ever do. They weren't elected to set policy. Judges aren't elected to declare to the United States how we ought to tax or regulate the environment or that kind of thing. That is what the legislative branch gets to do.

So I wished to raise that and discuss it a little further. It has also been mischaracterized that conservative jurists who show restraint are activists—they are not, but they have been accused of activism—because they have actually seen fit to throw out and find unconstitutional a statute passed by Congress. Well, we passed an 800-page stimulus package, we passed a bailout bill last fall that nobody even got to read or to study. I am surprised there are not more pieces of legislation held unconstitutional than there are.

It is not activism for a judge, such as Chief Justice Roberts—who has been accused of being an activist—to declare a statute unconstitutional. What would be wrong is if he were doing so to promote his own personal views about policy. That would be wrong.

The second amendment to the Constitution says that "a well-regulated militia being essential for the security of a free State, the right of the people to keep and bear arms shall not be infringed." That is what the second amendment says. It is in the Constitution. It is one of the Bill of Rights. Essentially, when the city of Washington, DC—a Federal enclave, a district—saw fit to almost completely ban the right of citizens in this city to have guns, Chief Justice Roberts and four other members of the Supreme Court found it violated the Constitution. It violated the right of the people to keep and bear arms. That is not activism, is what I am saying. Somehow we have gotten confused on this matter. Therefore, we need to be alerted to it.

Sometimes my colleagues, I think, have tried to say: Well, everybody does it. Everybody is an activist, so the Constitution is a malleable document. It gets redefined as the years go by. It is a living document, they say. But it is not living, is it? You can go over to the archives building and you can see it. It is a contract. The American people granted certain rights to this government and they reserved certain rights to themselves. Of the rights they reserved, for example, was the right of free speech, the right to assemble, and to criticize their incumbent politicians if they are not happy with them. They reserved the right to keep and bear arms.

I think we need to get our minds straight. Judges should see their role as a limited role, and they should not seek to impose their policy values on the country. They should see it as then-Judge Roberts said in his hearing so beautifully and so eloquently: A judge is a neutral umpire. They call the balls and strikes. They do not take sides in the ball game. How much more basic can it be than that?

I wanted to try to clarify that point, and I think it is important. We have other constitutional rights—the right to keep your property unless it be taken for public use, such as a highway. That is a public use. But in the Kelo case, 5 to 4, and in the case rendered by Judge Sotomayor, they ruled that the government could take one man's drugstore—his property on which he was going to build a private drugstore—and the city could condemn it and give the property to another man to build a different drugstore on for personal profit. Where does the public use come from?

Justice O'Connor dissented in the Kelo case and ruled the other way. She ruled the other way, and it was okay to

do that. The case dealing with Judge Sotomayor went even further than that. But it is not activism for a court to say that no city, or whatever, can take a man's property under some redevelopment scheme or plan so they can get more tax money, because if they take it and give it to this other private guy, he can build a big shopping center there and they will get more tax revenue. That is not a public use. The question is: Is the property used for a public purpose, not otherwise? The Constitution gives an individual the right to have their own property and people can't take it from you.

The Constitution, likewise, says every American citizen is entitled to equal protection of the laws and that they cannot be denied equal protection of the laws on account of their race. It is a big important constitutional issue. So we get into a situation where a city, New Haven, conducts a fair test, by all accounts; a carefully crafted test. No one criticized its validity. They conducted a test and 18 firefighters passed the test. They testified that they studied very hard to master the test which related directly to their firefighting ability. They go out and do the right thing and they are on track to be promoted. But not enough people of one group or another did well on the test, and the city—the government—decides they didn't get the results they liked on this test and so they threw it out.

It is not activism for the U.S. Supreme Court to say—really all of them to say—that this is not right, that this is not complying with the Constitution or even the civil rights statutes in America that require equal justice under the law, not favoritism based on one or the other because of their background, ethnicity, or race. That is just what it is all about.

The Justices on the Supreme Court, the ones who are known for showing restraint, should not be criticized if on occasion they declare the U.S. Congress did something wrong and it was unconstitutional. I am afraid we do it more often than we like to admit, the truth be known. Bills come through here late at night, nobody has done any constitutional research on most of what is in them to see if it is constitutional or not. The American people are entitled to have the final decision about constitutionality rest with a court that is prepared to defend their individual rights.

On the three cases I mentioned—the case of a property taking from a private individual, the case of 18 firefighters who passed the test and were ready to claim their promotion, and the question of the right to keep and bear arms—each one of those was an individual situation in which an individual American appealed to the courts and claimed they have a right in plain words provided to them by the Con-

stitution and they are asserting that right and they are pleading their case in the Court and asking the Court to grant them that right. In the three cases I mentioned, unfortunately Judge Sotomayor ruled with the government, the power of the State, and against the individuals asserting their claims in three exceedingly important cases.

It is not activism to throw out a city's decision on forfeiture or guns; nor is it activism to throw out a decision that discriminates against American citizens based on their race.

That is one of the things we discussed a lot in this debate. I think it has been a good debate. I complimented Senator LEAHY this morning again. He gave us all a chance to ask questions. We had 30 minutes, as we have done before. Some wanted to do less, but he said no, that is the way we do these things. We had 30-minute rounds and then 20-minute rounds and then 10-minute rounds to ask questions. I think pretty much the fundamental issues involved in this nomination got discussed in committee. Some written questions were filed in addition. Now that it is on the Senate floor, I believe the Members of the Senate have an adequate record from which they can make a decision on what they think is best for America.

I believe we should not have anyone on the Court who is not committed to the Constitution, not committed to putting aside their personal political agenda, and who will stay in strict adherence to the law and the facts of the cases that come before them. That is how I evaluated this case.

I am proud of Judge Sotomayor. She handled herself well and patiently at the committee. She was asked a lot of tough questions, but if you want to be a Justice on the U.S. Supreme Court you have to be prepared for that. You should not submit yourself if you are not prepared for that. But she handled it nicely and courteously.

I think the Senators conducted themselves well also. A lot of people wanted to vote for her but, as the hearings went by and they studied the record, they concluded they were not able to vote for her based on philosophy and her approach to the law. But I think the committee hearing did what it was supposed to.

There have been no delays. This will be one of the fastest confirmations in history. Within a few hours we will be having an up-or-down vote on her confirmation, unlike what happened when Judge Alito—a fabulous nominee, in my opinion—was subjected to a filibuster before he was confirmed. She is going to be given an up-or-down vote in just a few hours.

I thank the Chair for this time. I look forward to the rest of the debate and final vote in a few hours.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. GRASSLEY. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Madam President, for a second time now, I come to the floor to voice my opposition to the nomination of Judge Sotomayor to be an Associate Justice. I cannot support her nomination because I am not persuaded she has the right judicial philosophy to be on the Supreme Court. I have spoken many times and have again spoken at the Judiciary Committee and on the floor at some length about my reasons for opposing the judge's confirmation, but I want to reiterate some of these reasons before we vote on her nomination about 2 hours from now.

It is the Senate's constitutional responsibility to thoroughly review the qualifications of the President's judicial nominations. This advice and consent process is especially important when we consider nominees to the Supreme Court, which obviously is the highest court in our land.

Both Chairman LEAHY and Ranking Member SESSIONS did an admirable job in conducting a fair but very rigorous examination of the judge's record. The nominee was asked tough questions, but she was also treated fairly and with respect, as is appropriate for all judicial nominees.

We want to make sure judicial nominees have a number of qualities, but superior intelligence, academic excellence, distinguished legal background, personal integrity, and proper judicial demeanor and temperament are not the only qualities we must consider in a judicial nominee. Judges, and in particular Supreme Court nominees, must have a true understanding of the proper role of a Justice as envisioned by the writers of the Constitution as well as an ability to faithfully interpret the law and Constitution without personal bias and prejudices. Since becoming a member of the Senate Judiciary Committee the very first year I came to the Senate in 1981, I have used this standard to confirm both Republican and Democratic Presidents' nominees for the Supreme Court.

Because Supreme Court Justices have the last say with respect to the law and have the ability to make precedent, they do not have the same kinds of restraints lower court judges have. So we need to be convinced these nominees have judicial restraint—in other words, the self-restraint to resist interpreting the Constitution to satisfy their personal beliefs and preferences. We need to be persuaded these nominees will be impartial in their judging and bound by the words of the Constitution and legal precedent. We need

to be certain these nominees will not overstep their bounds and encroach upon the duties of the legislative and executive branch. That is our checks-and-balances system of government. Our American legal tradition demands that judges not take on the role of policymakers, reserved to those of us in the legislative branch, but that instead they check their biases and preferences and politics at the door of the courthouse. The preservation of our individual freedoms depends on limiting policymaking to legislators rather than on elected judges who have a lifetime appointment.

When then-Senator Obama voted against now-Chief Justice Roberts, he spoke from his desk over there about how a judge needed to have, in his words, “empathy” to decide the hard cases. He said:

That last mile can only be determined on the basis of one’s deepest values, one’s core concerns, one’s broader perspective on how the world works and the depth and breadth of one’s empathy. . . . in these difficult cases the critical ingredient is supplied by what is in the judge’s heart.

In another speech, President Obama further elaborated on this empathy standard:

In those 5 percent of cases, what you’ve got to look at is what is in the Justice’s heart. What’s their broader vision of what America should be . . . We need somebody who’s got the heart—the empathy—to recognize what it’s like to be a young teenage mom, the empathy to understand what it’s like to be poor or African-American or gay or disabled or old—and that’s the criteria by which I’ll be selecting my judges.

He spoke very well in that quote about the empathy those of us who were elected ought to have, but I think he spoke incorrectly about what judges should have. And when the President then nominated Judge Sotomayor to the Supreme Court, he did that with the belief that she meets his empathy standard.

President Obama’s empathy standard has been widely criticized as contrary to the proper role of judges—and that is my point—and that is because an empathy standard necessarily connotes standards of impartiality. That is a very radical departure from our American tradition of blind impartial justice. In fact, even Judge Sotomayor repudiated President Obama’s empathy standard at her confirmation hearing.

A judge’s impartiality is so critical to his or her duty as an officer in an independent judiciary that it is mentioned three times in the oath of office for Federal judges. Every judge swears “to administer justice without respect to persons,” to “do equal right to the poor and to the rich,” and to “faithfully and impartially discharge and perform all [his] duties.” That is from the oath judges take. Therefore, empathetic judges who choose to embrace their personal biases cannot uphold their sworn oath.

If we are to have a government of laws and not of men and women, then our judges must not favor any party or class over another, whether they be historically privileged or historically disadvantaged. Our judges must decide the cases before them on the law this Congress writes and what it requires, even if the law compels a result that is at odds with the judge’s personal, deeply held feelings.

The fact that we have an independent judiciary means that it is not a political body. In exchange for remaining unchecked by the will of the people, the judicial branch is required to maintain impartiality. This country was founded on the principle that justice is the same for everyone. No one is entitled to special treatment, whether by fate or fortune, because no man or woman is above the law.

No matter what you call it—empathy, compassion, personal bias, or favoritism—it can have no place in the decisionmaking process of a judge—it can have a place in decisionmaking by a Senator—but especially in the case of the judicial branch, notably the Supreme Court or a Supreme Court Justice.

While justice is not an automated or mechanical process, it also is not a process that permits a patchwork of cases where the outcome is determined not by the law but by the judge’s personal predilections. Judges may differ on what the law is, but they should never reach a conclusion because of a difference in ideology or because of their empathy for one of the parties.

An empathy standard for judging would betray the very cause of equality that it purports to champion by creating classes among our citizens in the eyes of the law. That is what is so dangerous about President Obama’s standard and why we should be cautious in deferring to his choices for the judicial branch. That is why we should continue to assess judicial nominees based on their fidelity to the rule of law and not on some well-intentioned hope or belief that the personal biases they will rely on in judging will be the right ones.

Unfortunately, Judge Sotomayor’s speeches and writings over the years reveal a judicial philosophy that highlights the importance of personal preferences and beliefs in her judicial method. Her speeches and writings reveal her views of a judge and judicial decisionmaking process that are quite contrary to what our American tradition demands of the judiciary and our system of justice.

I will cite a few troubling statements she has made. She questioned “whether achieving the goal of impartiality is possible at all in even most cases” and also “whether by ignoring our differences as men, women, people of color, we do a disservice to both the law and the society.”

She promoted identity politics where she openly admitted that “[my experiences] will affect the facts I choose to see” and that “I willingly accept that . . . judge[s] must not deny the differences resulting from experience and heritage.”

She claimed that the court of appeals is where “policy is made.”

She said that a “wise Latina would more often than not reach a better conclusion than a white male.”

She disagreed with a statement by Justice O’Connor that “a wise old woman and a wise old man would eventually reach the same conclusion in a case.”

She said that “unless American courts are more open to discussing the ideas raised by foreign cases, and by international cases, that we are going to lose influence in the world,” as if it is for the Supreme Court Justices to worry about our influence in the world. It seems to me the chief diplomat of our country is the President of the United States. She urged judges to look to foreign law so they can get their “creative juices” flowing.

At her confirmation hearing, Judge Sotomayor attempted to distance herself from these statements and explain them away, most likely recognizing that they were controversial and out of the mainstream. However, in my mind, she was not very successful. Even the *Washington Post* said Judge Sotomayor’s testimony about some of her statements before the Judiciary Committee was “less than candid” and “uncomfortably close to disingenuous.”

I was not the only one who had problems reconciling what Judge Sotomayor said at the hearing with the statements she has repeated over and over throughout the years. That is because the statements made at the hearing and those made in speeches and in law review articles outside the hearing are polar opposites. Some of her explanations were contrived or far-fetched. In my opinion, these statements in her writings and speeches cannot be reconciled with her hearing testimony. I am not sure which Judge Sotomayor I am to believe. She appears to be Justice Ginsburg in her speeches and writings but made statements like Chief Justice Roberts in her confirmation hearing.

So I think the *Washington Post*’s conclusions are worth repeating:

Judge Sotomayor’s attempts to explain away and distance herself from that [wise Latina] statement were uncomfortably close to disingenuous, especially when she argued that her reason for raising questions about gender or race was to warn against injecting personal bias into the judicial process. Her repeated and lengthy speeches on that matter do not support that interpretation.

I am not only troubled by the speeches and writings of the judge—these were produced during her time as a sitting judge on the Second Circuit—and

her contradictory statements before the Judiciary Committee but I also have concerns with cases Judge Sotomayor decided when she sat on the Second Circuit. Some cases raise serious concerns about whether Judge Sotomayor will adequately protect the second amendment right to bear arms and the fifth amendment property rights.

Statements she made at the hearing raise concerns that she will inappropriately create or expand rights under the Constitution. Other cases raise concerns about whether she will impose her personal policy decisions instead of those of the legislative or executive branch. In addition, Judge Sotomayor's track record on the Supreme Court is not a particularly good one. She has been reversed 8 out of 10 times and was criticized in another of the 10 cases.

At the hearing, Judge Sotomayor was asked about her understanding of rights under the Constitution, including the second and fifth amendments and the right to privacy. She was asked about her legal analysis in certain cases, like the Ricci, Maloney and Didden cases. She was also asked about how she views precedent and applies it in cases before her. Ultimately, I wasn't satisfied with her responses, nor was I reassured that Judge Sotomayor would disregard her strong personal sympathies and prejudices when ruling on hard cases dealing with important constitutional rights.

With respect to the Ricci case, I wasn't persuaded by Judge Sotomayor's claims that she followed precedent, nor her explanation as to why she could dismiss such a significant case in summary fashion. The only reason this case found its way to the Supreme Court was because her Second Circuit colleague read about it in the newspaper, recognized its importance, and asked to have it reconsidered. When the Supreme Court reversed Judge Sotomayor's decision, it held that there was no "strong basis in evidence" to support her opinion. In fact, her legal reasoning in Ricci was so flawed, all nine Justices rejected it.

With respect to the Maloney case, I was concerned with Judge Sotomayor's explanation of her decision holding that the second amendment right to bear arms is not "fundamental," as well as her claims that she was simply following Supreme Court and Seventh Circuit precedent. I was also concerned with her refusal to affirm that Americans have a right of self-defense. If Maloney is upheld by the Supreme Court, the second amendment will not apply against State and local governments, thus permitting potentially unrestricted limitations on this important constitutional right.

With respect to the Didden case, I was troubled with Judge Sotomayor's failure to understand that her decision dramatically and inappropriately ex-

pands the ability of State, local, and Federal Governments to seize private property under the Constitution. In fact, based on the Didden holding, it is not clear whether there are any limits to the ability of State, local, and Federal Governments to take private property. I also was concerned with Judge Sotomayor's mischaracterization of the Supreme Court's holding in Kelo. And I wasn't satisfied with her explanation about why she summarily dismissed the property owner's claims based on the statute of limitations. I don't think these concerns are off the mark—the Didden case has been described as "probably the most extreme antiproperty rights ruling by any Federal court since Kelo."

So Judge Sotomayor's discussion of landmark Supreme Court cases and her own Second Circuit decisions raise questions in my mind about whether she understands the rights given to Americans under the Constitution. I question whether she will refrain from expanding or restricting those rights based on her personal preferences.

Almost two decades ago, then-Judge Souter during his confirmation hearing spoke about courts "filling vacuums" in the law. That discussion struck me as odd and troubled me, because clearly it is not the role of a court to fill voids in the law left by Congress. Although Judge Souter backtracked on his courts "filling vacuums" statement when I pressed him about it, I believe that his decisions on the Supreme Court actually reveal that he does believe courts can and do fill vacuums in the law. It is no secret that I regret my vote to confirm him. And because of that, I have asked several Supreme Court nominees about the propriety of judges "filling vacuums" in the law at their confirmation hearings. So this question shouldn't have come as a surprise to Judge Sotomayor when I asked her about it at her confirmation hearing. Unfortunately, I wasn't satisfied with her lukewarm answers to my question. In fact, it just reinforced the concerns I had with her hearing testimony, cases, speeches and writings.

Judge Sotomayor has overcome many obstacles to get to where she is today. There is no doubt that Judge Sotomayor is an engaging, talented, intelligent woman. She has tremendous legal experience and many other good qualities. I very much enjoyed meeting with her and getting to know her personally. But I can't just base my decision on these things. I have to look at her judicial philosophy and determine whether I believe it is one that is appropriate for the Supreme Court. That is my constitutional responsibility. And based on her answers at the hearing and her decisions, writings, and speeches, I am not comfortable with what I understand to be Judge Sotomayor's judicial philosophy. I am not persuaded that she will protect im-

portant constitutional rights, and I am not convinced that she will refrain from creating new rights under the Constitution. I am not persuaded that she won't allow her own personal biases and prejudices to seep into her decisionmaking process and dictate the outcome of cases before her. So it is with regret that I must oppose her nomination to the Supreme Court.

I said this in the Judiciary Committee, and I repeat it now on the floor. Only time will tell which Judge Sotomayor will sit on the Supreme Court. Is it the judge who proclaimed that the court of appeals is where "policy is made," or is it the nominee who pledged "fidelity to the law?" Is it the judge who disagreed with Justice O'Connor's statement that a wise woman and a wise man will ultimately reach the same decision, or is it the nominee who rejected President Obama's empathy standard? Only time will tell.

Mr. CORKER. Madam President, Judge Sonia Sotomayor has an impressive background and an inspiring American story. She is a testament to the power of a strong work ethic and a focus on education and is a role model to many Americans as a result.

I enjoyed meeting with her in June and found her to be very intelligent and eloquent in expressing her thoughts. I let her know I would reserve judgment on her nomination until the conclusion of a fair and thorough hearing process.

After much deliberation and careful review, I have determined that Judge Sotomayor's record and many of her past statements reflect a view of the Supreme Court that is different from my own.

I view the Supreme Court as a body charged with impartially deciding what the law means as it is applied to a specific case. I believe Judge Sotomayor views the Supreme Court as more of a policymaking body where laws are shaped based on the personal views of the justices.

Unfortunately, nothing I heard during Judge Sotomayor's confirmation hearing or in my meeting with her in June sufficiently allayed this concern.

For this reason, I am disappointed to say, I will not be able to support Judge Sotomayor's nomination.

The PRESIDING OFFICER (Mr. UDALL of New Mexico). The Senator from Rhode Island.

Mr. REED. Mr. President, I ask unanimous consent that this hour under Democratic control be divided in the following manner: REED of Rhode Island, 15 minutes; Senator CARPER, 10 minutes; Senator KERRY, 10 minutes; Senator MENENDEZ, 5 minutes; Senator SCHUMER, 5 minutes; Senator NELSON of Florida, 3 minutes; and Senator BOXER, 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REED. Mr. President, the nomination before us of Sonia Sotomayor to replace Associate Justice David Souter is of great importance. The Supreme Court is the ultimate arbiter of justice in the land. Therefore, this is one of the most consequential votes that any Senator can cast.

The Constitution makes the Senate an active participant, along with the President, in the confirmation of a Supreme Court justice. Article II, section 2, clause 2 of the Constitution states that nominees to the Supreme Court shall only be confirmed "by and with the Advice and Consent of the Senate." The Senate's role in the confirmation process places an important democratic check on America's judiciary. As a result, this body's consent is both a constitutional requirement and a democratic obligation. It is in upholding our constitutional duties as Senators to give the President advice and consent on his nominations that I believe we have one of our greatest opportunities and responsibilities to support and defend the Constitution of the United States.

As I have said before, in weighing a nominee's qualifications for the Court, we must consider an individual's intellectual gifts, experience, judgment, maturity and temperament. Judge Sotomayor's compelling life story demonstrates that she possesses each of these qualities.

She overcame early adversity—with the loss of her father, a diagnosis of juvenile diabetes—to become an accomplished student at her high school. She went on to Princeton, where she excelled both inside and outside of the classroom, receiving the school's highest academic prize upon graduation.

From there she became a stellar student at Yale Law School and served on its prestigious law journal. Upon graduating from Yale, Judge Sotomayor surely had a number of very lucrative options available to her. It is a testament to her early commitment to public service that she chose to serve 5 years as assistant district attorney in New York.

By all accounts, she was a zealous and thorough prosecutor and demonstrated the same rigor and commitment to excellence that have been her hallmark throughout her career.

Judge Sotomayor is extremely qualified for this role. As a Supreme Court Justice, Judge Sotomayor would bring to bear her rich and varied real-world experience. She has been a big-city prosecutor. She has been an attorney in private practice. She has been a trial judge, and she also knows what it means to be an appellate judge. Judge Sotomayor would make history as only the third female Justice and the first Hispanic Justice. Moreover, she has more Federal judicial experience than any nominee to the Court in 100 years.

Yet as compelling as these qualities and accomplishments are, there is a

higher bar for a nominee to the Nation's highest Court. In previous consideration of Supreme Court judges, I have stated my test for a nominee for the Supreme Court. It is a simple test, one drawn from the text, the history and the principles of the Constitution. A nominee to the Supreme Court must live up to the spirit of the Constitution. A nominee must not only commit to enforcing the laws but also to doing justice. A nominee must give life and meaning to the great principles of the Constitution: Equality before the law, due process, freedom of conscience, individual responsibility, and the expansion of opportunity.

In my view, Judge Sotomayor has met this test quite admirably. Judge Sotomayor's opinions demonstrate that she is no ideologue. Instead, she seeks to carefully weigh the facts in determining a just and fair outcome.

One issue of great concern at this time of conflict is executive power. As Commander in Chief, the President's duty is to guard the country's national security while also safeguarding individual freedoms. All too often, in my view, President Bush, guided by other government officials and questionable legal opinions, erred on the side of concentrating executive power. Indeed, I noted during my comments on Judge Alito's nomination that his avowal of the unitary executive theory was troubling in light of the Bush administration's policies. Judge Sotomayor's record on this issue suggests that she would more appropriately balance national security and individual freedom, and the role of Congress.

In the case of *Doe v. Mukasey*, she joined a unanimous panel decision that stated:

The fiat of a governmental official, though senior in rank and doubtless honorable in the execution of official duties, cannot displace the judicial obligation to enforce constitutional requirements. "Under no circumstances shall the Judiciary become the handmaiden of the Executive."

But she has also shown a clear recognition that within the appropriate sphere, the executive must be supported. In *Cassidy v. Chertoff*, she authored a unanimous panel opinion on the constitutionality of a ferry company's search of baggage and vehicles. The panel ultimately concluded that searches were permissible because "it is minimally intrusive, and we cannot say, particularly in light of the deference we owe to the Coast Guard, that it does not constitute 'a reasonable method of deterring the prohibited conduct.'"

In answering questions from my colleagues on the boundaries of presidential power during her confirmation hearing, Judge Sotomayor chose her words carefully. However, she was clear in affirming that no one is above the law. On this issue and many others, Judge Sotomayor has demonstrated a

fair and balanced approach that will add to the high Court.

I believe Judge Sotomayor would be an able successor to Judge Souter a court that in recent years has taken a sharp turn away from protections of privacy, freedom, and other values we hold dear.

Judge Sotomayor's careful application of the facts to the Constitution and the quest for justice persuade me that she will make a worthy addition to our Nation's highest Court. Indeed, she meets my test as someone who will not only uphold the letter of the law but the spirit of the law. It is with great pleasure that I support her nomination to the highest Court in the land and urge my colleagues to do the same.

I ask unanimous consent to have printed in the RECORD a joint letter of support signed by more than 1,200 law professors from all 50 States and the District of Columbia. In their joint letter, these professors write:

Her opinions reflect careful attention to the facts of each case and a reading of the law that demonstrates fidelity to the text of statutes and the Constitution. She pays close attention to precedent and has proper respect for the role of courts and the other branches of government in our society.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Hon. PATRICK J. LEAHY,
Chairman, U.S. Senate Committee on the Judiciary, Russell Senate Office Building, Washington, DC.

Hon. JEFFERSON B. SESSIONS,
Ranking Member, U.S. Senate Committee on the Judiciary, Russell Senate Office Building, Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER SESSIONS: We the undersigned professors of law write in support of the confirmation of Judge Sonia Sotomayor as an Associate Justice of the United States Supreme Court.

As a federal judge at both the trial and appellate levels, Judge Sotomayor has distinguished herself as a brilliant, careful, fair-minded jurist whose rulings exhibit unflinching adherence to the rule of law. Her opinions reflect careful attention to the facts of each case and a reading of the law that demonstrates fidelity to the text of statutes and the Constitution. She pays close attention to precedent and has proper respect for the role of courts and the other branches of government in our society. She has not been reluctant to protect core constitutional values and has shown a commitment to providing equal justice for all who come before her.

Judge Sotomayor's stellar academic record at Princeton and Yale Law School is testament to her intellect and hard work, and is especially impressive in light of her rise from modest circumstances. That she went on to serve as an Assistant District Attorney for New York County speaks volumes about her strength of character and commitment to the rule of law. When in private practice as a corporate litigator in New York, she was deeply engaged in public activities, including service on the New York Mortgage Agency and the New York City Campaign Finance Board, as well as serving on the Board of Directors of the Puerto Rican Legal Defense and Education Fund.

Her career won bi-partisan respect, which led to her becoming a U.S. District Court

judge (nominated by President George H.W. Bush on the recommendation of Senator Daniel Patrick Moynihan, and confirmed by a majority Democratic Senate in 1992). Her performance on the district court solidified Judge Sotomayor's support, and in 1998 she was elevated to the Second Circuit (nominated by President Bill Clinton and confirmed by a majority Republican Senate).

Judge Sotomayor will bring to the Supreme Court an extraordinary personal story, academic qualifications, remarkable professional accomplishments and much needed ethnic and gender diversity. We are confident that Judge Sotomayor's intelligence, her character forged by her extraordinary background and experience, and her profound respect for the law and the craft of judging make her an exceptionally well-qualified nominee to the Supreme Court and we urge her speedy confirmation.

Mr. REED. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CARPER. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CARPER. Mr. President, I rise in support of Judge Sonia Sotomayor's confirmation to the U.S. Supreme Court. Those of us who are privileged to serve in the Senate cast literally thousands of votes during our years here. We take many votes that crucial and important. But a handful of them are far more meaningful than others. These votes have historic consequences, ones which will resonate for years—in some cases, for decades—to come. This is one of those votes.

This is my third opportunity to vote on a Supreme Court nominee. On the previous two occasions, we faced different circumstances in which I had to decide whether to vote for or against candidates who were nominated by a President not of my party, nominees who may not have shared my political beliefs or my judicial philosophy. Similar to my colleagues, I take seriously our constitutional obligation to provide advice and consent to determine whether a President's nominees truly merit a lifetime appointment.

In each of those two earlier cases, I considered my decision carefully and deliberately. In one of those cases, that of now-Chief Justice John Roberts, I chose to support the President's selection. In the other, I did not. Reasonable people can disagree about the nominee before us this week. I certainly respect the views of my friends on the other side of the aisle who may ultimately vote against Judge Sotomayor's confirmation. But, first, I wish to explain why I am supporting Judge Sotomayor and, second, I want to encourage my Republican colleagues to support her nomination as well.

In 2005, I voted to confirm Judge John Roberts' nomination to become

Chief Justice of the Supreme Court. I admitted it was a close call, at least it was for me. Ultimately, I chose to take what I described at that time as a "leap of faith."

Chief Justice Roberts holds political and legal opinions that are not consistent totally with mine in a number of respects. I knew he would sometimes deliver decisions I might not fully agree with. But after carefully considering his testimony, meeting with him at some length, and personally talking to a number of his colleagues—colleagues who knew him well and colleagues who had worked closely with him in the past—I concluded that John Roberts would prove to be a worthy successor to retiring Chief Justice Rehnquist, and I think he has.

In short, by supporting John Roberts' nomination, I voted my hopes, not my fears. Just as I voted my hopes instead of my fears in the case of then-Judge, now-Chief Justice Roberts, I hope many of our friends and colleagues on the other side of the aisle will see their way clear to doing the same in this instance.

Before coming to the Senate, I served as Governor of Delaware. As Governor, I nominated dozens of—actually scores of—men and women to serve as judges in our State courts. The qualities I sought in the judicial nominees whom I submitted to the Delaware State Senate included unimpeachable integrity, a thorough understanding of the law, a keen intellect, a willingness to listen to both sides of a case, sound judicial temperament and judgment, and a strong work ethic.

These are qualities that still guide me as I decide how to vote on judicial nominees in the Senate. In applying each of those standards to Judge Sotomayor during the course of my examination of her record, it is clear to me she meets or exceeds all of them.

First, consider her experience. Judge Sotomayor has a compelling life story—a story that confirms her work ethic and informs her judicial temperament. In June of this year, I had the pleasure of meeting personally with Judge Sotomayor. We spoke at length about her experience, her service, and her life. We talked about our respective childhoods, our respective educational opportunities, and our careers. It was a revealing conversation, and her responses were forthright. They were insightful. And they were sincere.

The nominee before us truly highlights the diversity of the country in which we live. We know her story by now. Sonia Sotomayor grew up in a south Bronx housing project. Her parents were both immigrants from Puerto Rico. Her father had limited education and did not speak English.

Her mom worked 6 days a week to support her family and instilled in her daughter the importance of a quality education. Judge Sotomayor excelled

in school and went on to attend Princeton University on a scholarship. She later went on to Yale Law School, where she served as an editor of the Yale Law Journal.

I have met many people in my life who have built themselves up from nothing. Unfortunately, I have found that a number of them—maybe many of them—seem to have forgotten where they came from. But it is clear to me that Sonia Sotomayor has not forgotten. When we met, she told me she was "still Sonia from the projects." Despite all her success, she still has not forgotten her roots. Let me say, I find that enormously refreshing and encouraging.

After law school, Sonia Sotomayor served as an assistant district attorney in New York. During her 5 years in that position, she tried dozens of major criminal cases and became known, in the words of Robert Morgenthau—who was then, and still remains, the district attorney in Manhattan—as a "fearless and effective prosecutor."

Starting in 1984, Sonia Sotomayor spent 8 years in private practice. As a civil and international corporate litigator, she gained considerable experience in the private sector, handling cases involving everything from real estate to contract law, from intellectual property to banking.

Then, in 1992, with bipartisan support, Sonia Sotomayor began her service to this country in the Federal judiciary. She was nominated to serve as a Federal district judge, not by a Democrat but by a Republican, President George Herbert Walker Bush, and was unanimously—unanimously—confirmed by this Senate.

Six years later, when Democratic President Bill Clinton nominated her to the Second Circuit Court of Appeals, she received the support of 25 of our colleagues on the other side of the aisle. Their vote of confidence in Judge Sotomayor then has since been confirmed by her reputation for moderation and impartiality.

The Second Circuit is considered by many to have one of the most demanding caseloads in our Nation. Judge Sotomayor participated in over 3,000 decisions and has written more than 230 opinions for the majority. During her time on the bench, she examined difficult issues of constitutional law, complex business disputes, and high-profile criminal cases.

Judge Sotomayor brings more Federal judicial experience to the Supreme Court than any Justice confirmed in the last 100 years.

As a Federal judge for nearly two decades, Sonia Sotomayor has demonstrated a clear commitment to unbiased, impartial justice and to the rule of law. Unlike some nominees for the Federal bench, with Judge Sotomayor, we can see a long paper trail of her legal rulings.

Her record reveals that she consistently takes each case on its own merits—regardless of the ideological outcome—and narrowly applies the law to the particular facts. She may even be more of a strict constructionist, when it comes to applying the law, than many of the Justices my friends on the other side of the aisle admire the most. Quite frankly, she is a model of judicial restraint.

As a circuit court judge, Sonia Sotomayor is known as a moderate who agrees with her more conservative colleagues far more than she disagrees with them. One of those colleagues on the Second Circuit, Richard C. Wesley, himself an appointee of George W. Bush, had this to say about her:

Sonia is an outstanding colleague with a keen legal mind. She brings a wealth of knowledge and hard work to all her endeavors on our court. It is both a pleasure and an honor to serve with her.

Another Second Circuit colleague, Judge Roger Miner, who was appointed by President Ronald Reagan, described Judge Sotomayor as an “excellent choice,” saying:

I don’t think I’d go as far as to classify her in one camp or another. I think she just deserves the classification of outstanding judge.

And the Second Circuit’s current chief judge, Dennis Jacobs, appointed by the first President Bush, said:

Sonia Sotomayor is a well-loved colleague on our court. Everybody from every point of view knows that she is fair and decent in all her dealings. The fact is, she is truly a superior human being.

The strength of Judge Sotomayor’s record and reputation is perhaps why, to some extent, many critics have focused almost exclusively on one or two legal rulings, and on a line from a speech she gave years ago. But I do not find much to agree with in these criticisms. But even if I did, it does not seem fair to me that she should be judged on those few items alone. These few quibbles need to be put in the context of her lifetime of work.

Of all people—of all people—we in the Senate should understand this. As Senators, whether we have served here for 12 years or 24 years or for 50 years, such as ROBERT BYRD has done, we will vote thousands of times. As many of us know from personal experience, it is easy to take one vote or one decision or one line from one of our speeches completely out of context and make us appear to be someone we are not or to stand for something that is entirely alien to our beliefs and values. It has happened to me. I suspect it has happened to most, if not all, of our colleagues. I might add, I believe that is what has happened to the nominee before us today.

As a result, I believe it is incumbent upon us to examine carefully a nominee’s overall record, much as I hope the people of Delaware will consider my

overall record when they cast their votes every 6 years.

If nothing else, Judge Sotomayor’s extensive record demonstrates she sticks to the law. Perhaps that is why, in part, the American Bar Association has given this judge, this nominee, its top rating of “well qualified” in assessing her record and in evaluating her judicial temperament.

For all these reasons—and more—I invite my conservative colleagues on the other side of the aisle to take a leap of faith, as I did a few years ago with John Roberts—as I did 4 years ago—and join me in casting their vote in favor of Judge Sotomayor’s nomination to serve on the U.S. Supreme Court.

With that, I say thank you to the Presiding Officer and yield the floor.

Mr. BYRD. Mr. President, I have never missed a vote on a nomination for a Supreme Court Justice in my time in the Senate. Today, I will vote to support the nomination of Judge Sonia Sotomayor. I submitted questions to Judge Sotomayor on matters of great importance to the preservation of congressional power: the constitutional grant of the purse strings to the Congress; the role and responsibility of the legislative branch to conduct oversight and investigation; and the deliberate restraints on the executive branch created by the Constitution’s separation of powers. I found her answers thoughtful, her intellect keen, and that Judge Sotomayor possessed the requisite reverence—and patience—for the process outlined in article II, section 2 of the Constitution.

I watched the hearings intently; I studied Judge Sotomayor’s words. What struck me about the Judiciary Committee’s hearings was the dearth of inquiry into her judicial record. Indeed, her record is certainly substantial; the most substantial record I have seen in some time. But, instead of delving into her many opinions, or questioning her on Supreme Court jurisprudence, Judge Sotomayor was asked the same few questions over and over, needlessly.

The tendency to grandstand is hardly a partisan thing. The Senate’s ability to question a nominee is a precious gift from our Founding Fathers—a check on the Judiciary and on the Executive. While the President may nominate, the advice and consent of the Senate is required for confirmation. But, in this particular instance, partisan trifles took the place of constitutional probing. Statements were taken out of context, while volumes of Judge Sotomayor’s judicial record went unquestioned, and likely unread. Unfortunately, by not probing, the Senate shirks its responsibilities.

Judge Sotomayor’s story is similar to my own story. Much like my own journey from the southern coalfields of Raleigh County to the U.S. Senate,

Judge Sotomayor overcame tremendous adversity through determination and hard work.

Judge Sotomayor will be confirmed by the Senate. That is a good thing. I hope that we as a body will reflect on the nomination and confirmation processes as envisioned in the Constitution, and ask ourselves whether we can do a better job in living up to the spirit of the law in the future.

Mr. ROCKEFELLER. Mr. President, I rise today to announce my full support for the confirmation of Judge Sonia Sotomayor to be our Nation’s 111th Supreme Court Justice. I am proud of Judge Sotomayor’s dedication to her country, and I am impressed by her outstanding accomplishments. Today marks an historic occasion for our country, as Judge Sotomayor becomes only the third woman and first Hispanic ever to serve on the highest Court in the land.

The decision of whether to confirm a nominee for a lifetime appointment to the U.S. Supreme Court is one of the Senate’s most significant and solemn duties under the Constitution. It will affect generations of Americans for years to come.

After 24 years of service to the people of West Virginia as their U.S. Senator, the nomination of Judge Sotomayor marks the 11th Supreme Court nominee under five Presidents that I have had the opportunity to consider. I have supported most nominees, but have opposed some. In each instance, I came to my decision after a careful and thorough process, and the same is true of my support for Judge Sotomayor.

The first question that must be answered about any nominee is: Does he or she possess the intellect, experience, and temperament to serve on the Supreme Court? For Judge Sotomayor, the clear answer is yes.

Her educational and professional background is impeccable. She was valedictorian of her high school class, graduated summa cum laude from Princeton University, and served as an editor of the Yale Law Journal while attending Yale Law School. Judge Sotomayor has served with distinction on almost every level of our judicial system as a prosecutor, civil litigator, district court judge, and appeals court judge. In her confirmation hearings before the Judiciary Committee, she showed herself to be an even-tempered and honest person, as well as a straightforward and critical thinker.

But once a nominee’s impressive credentials and integrity are established, my analysis of his or her fitness to serve on the Supreme Court cannot end. The tremendous responsibility that all Justices have to the Constitution—and their decisions’ impact on all Americans requires further consideration of the nominee’s core beliefs about our country and our justice system.

Before supporting a nominee, I need to know that he or she understands the consequences of the Supreme Court's decisions. I need to know that he or she will protect the best interests of West Virginians. And I need to know that he or she will uphold the fundamental rights and freedoms that all Americans enjoy under the Constitution and in our laws.

Every American needs to know that our courthouse doors are open for everyone, not just the wealthy, the powerful, or the well-connected. The Founders intended our courts to serve as a place where all citizens can go to resolve disputes, seek relief from injustices, and hold wrongdoers accountable. As members of our court of last resort, Supreme Court Justices have a particularly important role in upholding our constitutional freedoms, even when lawmakers or public opinion would limit them.

To understand the enormously important role of the Court in the lives of Americans, we need only look at cases such as *Gideon v. Wainwright*, in which the Court recognized the fundamental right of defendants to be represented by counsel, even those who cannot afford to hire an attorney; or *Brown v. Board of Education*, in which the Court struck down racial segregation in our public schools. These are the types of decisions that require a deep respect for our Constitution and the courage to do what is right.

After meeting with Judge Sotomayor in person and reviewing her extensive judicial record, I firmly believe that she possesses those qualities, and will always put the American people first.

I also believe that she understands the real world implications of our laws and how they affect the lives of everyday people. She knows what it is like to overcome adversity and work against the odds to become a successful lawyer and judge. In her, I see someone who shares the values that are important to West Virginians: hard work; determination; love for her country; love for her family; and a sense of pride in her community. It is no surprise that her nomination is supported by Democratic and Republican officials; conservatives, liberals, and moderates; prosecutors and law enforcement organizations; civil rights organizations; former colleagues; and fellow jurists.

I am disappointed that some of my colleagues have suggested that Judge Sotomayor's comments in a few of her speeches indicate that she will let personal biases influence her decision-making. I could not disagree more. Her extensive judicial record reflects a fair, thoughtful, and careful approach to decisionmaking—one that is based on meticulous analysis of the facts and a close following of the law and precedent.

As a trial court judge, she presided over approximately 450 cases. As an ap-

peals court judge, she participated in over 3000 decisions and authored approximately 400 published opinions. With 17 years of service on the bench, she brings more Federal judicial experience to the Supreme Court than any nominee in nearly 100 years.

Judge Sotomayor's record speaks for itself, and I commend President Obama for nominating such a highly qualified individual to serve my fellow West Virginians and Americans on the Supreme Court.

Mr. CONRAD. Mr. President, the story of Sonia Sotomayor's life is a remarkable one. Born in humble circumstances, she has risen to the top of the legal field, and earned the opportunity to be considered for a place on America's highest court.

As evidenced by her exceptional educational achievements, and her vast and varied legal resume as a prosecutor, private practice litigator and Federal judge, Sonia Sotomayor is unquestionably qualified from the standpoint of experience, competence, and intellect. In fact, having been appointed to the Federal bench in 1992 by President George H.W. Bush, she has more Federal judicial experience than any Supreme Court nominee in 100 years, and more overall judicial experience than any nominee in 70 years.

Judge Sotomayor's record places her squarely within the mainstream of American jurisprudence. Even some of her harshest critics have conceded that her long record on the bench is one of mainstream decisions and judicial opinions.

And Judge Sotomayor's record shows that she is not an activist and has not legislated from the bench. Instead, she has faithfully adhered to precedent. In fact, the nonpartisan Congressional Research Service, CRS, found that "perhaps the most consistent characteristic of Judge Sotomayor's approach as an appellate judge has been an adherence to the doctrine of *stare decisis* (i.e., the upholding of past judicial precedents)." Further, CRS found that Sotomayor has exhibited "a careful application of particular facts at issue in a case and a dislike for situations in which the court might be seen as overstepping its judicial role."

Finally, Judge Sotomayor has the temperament to serve on the Supreme Court. Her grueling nomination hearings demonstrated her patience, thoughtfulness and composure in the face of tough and aggressive questioning by almost 20 Senators over several days.

Those same qualities of character were evident during our personal meeting. During our wide-ranging discussion, I also found Judge Sotomayor to be genuine, humble and open-minded. Although she grew up in an urban setting, I am confident that she can relate to people from more rural areas like North Dakota, because she understands

everyday people and their struggles, she has common sense, and she is no stranger to hard work and the need to overcome obstacles. In short, I believe she learned the same values and the same lessons growing up in the Bronx that I learned growing up in Bismarck.

Some Senators have announced their intention to vote against Judge Sotomayor, but their criticism has not been based on a comprehensive assessment of her 17-year record as a judge, or her 30 years in the legal profession. One source of opposition has been various comments she has made in speeches, particularly on the topics of race and gender. Judge Sotomayor herself has admitted that she could have phrased some of her comments in these areas more effectively or appropriately. But when taken in their full context, her remarks seem to be primarily an expression of support for the unique American "melting pot" and the notion that a diversity of backgrounds has made us a stronger and better nation. Perhaps more importantly, there is no evidence whatsoever that her personal views have improperly influenced her decisions in the courtroom.

Some have also questioned Sotomayor's views on gun rights, and, in particular, whether or not she believes the second amendment restricts the right of individual States to regulate firearms. Despite the concerns that have been raised, a careful reading of her judicial record indicates that she has been very much in the judicial mainstream on gun issues. And she clearly stated during her confirmation hearings that she has a completely open mind on the specific question of how the second amendment should be applied to the States. I take her at her word, and it is my hope that the Supreme Court will indeed find that the second amendment protects the rights of gun owners and users against intrusion by State laws.

When voting on judges, all we can do is look at the nominee's record and accomplishments, analyze his or her intellect and character, and decide whether he or she is qualified to serve on the bench. I have consistently followed that approach in the past, most recently in voting to confirm Chief Justice Roberts and Justice Alito. Using the same standards I applied to those nominations, I believe Sonia Sotomayor is eminently qualified for a place on the Supreme Court, and I am proud to support her nomination.

Mr. JOHNSON. Mr. President, there are few decisions that have a more lasting effect on our democracy than fulfilling my constitutional duty of advice and consent for Justices of the Supreme Court. This body will assume this tremendous responsibility once again today as we consider the nomination of Judge Sonia Sotomayor to fill a seat on the Supreme Court that has

been vacated by Justice David Souter. She is the third woman to be nominated to the Supreme Court and the first nominee to be of Hispanic descent.

This will be the third time that I have cast a vote in regards to a Supreme Court Justice. The previous two times were for current Chief Justice Roberts and current Associate Justice Alito. Both of these Justices were appointed by former President George W. Bush. I voted in favor of both of these nominees even though their ideologies often differ from my own. They are both qualified members of the Judiciary and while our philosophies may differ, they both are, and were, within the broad mainstream of contemporary jurisprudence.

It is within this mainstream that I find Judge Sonia Sotomayor. Her career as a jurist is a model of integrity and discipline. Her judicial philosophy is rooted in precedent and a devotion to the law. Judge Sotomayor has consistently pledged during the confirmation process her commitment to the law. She has stated that it is her duty to interpret the law and not to enact law. She has many years of service and experience as a prosecutor and litigator; district court judge and circuit court Judge. She has twice received bipartisan support from this body—the second time with my support. She has received the highest rating from the American Bar Association. It is clear that she has an accomplished résumé.

Earlier this summer, I met with Judge Sotomayor to form my own opinions on her judicial theory. While our conversation centered on a variety of interests, it was clear that Judge Sotomayor distinguished herself as an able jurist who relied on precedent. I reviewed her record and did not find anything that would deter me from that belief. The same can be said of her testimony before the Senate Judiciary Committee during her confirmation hearings. She has said that she does not inject personal bias in her decision making process and I trust her at her word.

Often, I think that this process has become overpoliticized. Judge Sotomayor is highly qualified and able to serve on the U.S. Supreme Court. Opposition for opposition's sake is not constructive to our national dialogue. However, while I believe the President should have some latitude in selecting judges this does not mean that those nominees should be ideologues that stand outside of conventional judicial theory. Most Americans do not sit on the ends of the political spectrum but within the middle. I believe that Judge Sotomayor is within that middle ground. I support Judge Sotomayor to be Associate Justice of the U.S. Supreme Court and look forward to casting my vote in favor of this historic nominee.

Ms. MIKULSKI. Mr. President, today I rise to address one of the most sig-

nificant and far reaching decisions a Senator makes: The vote on a confirmation of a Supreme Court Justice. This vote will have an immense impact on future generations. A Senator is called upon to make two decisions that are irrevocable; one is the decision to go to war and the other is the confirmation of the members of the Supreme Court. The people of Maryland have entrusted in me the right make this decision and I take this responsibility very seriously.

When I decide how I will vote on any nominee for the Federal bench, I have three criteria. First, the nominee must possess the highest personal and professional integrity. Second, the nominee has to have the competence and temperament to serve as a judge. Finally, the nominee must demonstrate a clear commitment to core constitutional principles. Judge Sonia Sotomayor passes all those tests with flying colors.

If confirmed, Sonia Sotomayor would be the third woman to serve on the Supreme Court and the first Hispanic on the Supreme Court. She has a compelling personal story, as well as a distinguished judicial record. Her father was a tool-and-die worker with third grade education who spoke no English and died when Judge Sotomayor was only nine years old. She was raised by her mother, a nurse in a public housing project in the Bronx, New York. After her father's death, she turned to reading Nancy Drew mystery novels, which inspired her love of reading and learning that put her on a path that ultimately led her to the law. Sotomayor excelled in school, graduated top of her class at Blessed Sacrament and Cardinal Spellman High School. She won a scholarship to Princeton University where she graduated *summa cum laude* and Phi Beta Kappa. She then attended Yale Law School and served as an editor for the Yale Law Journal.

Sonia Sotomayor's competence cannot be questioned. She is a champion of the law with a distinguished legal career spanning three decades. She has served at almost every level of the judicial system and she is the first Supreme Court nominee in 50 years to have served as a trial judge. She began her legal career as a fearless and effective prosecutor, working in the Manhattan District Attorney's Office for 5 years where she tried dozens of criminal cases from street crimes, to child abuse, police misconduct and homicides. She then became a corporate litigator for over 8 years in private practice. She made partner at the law firm where she tried complex corporate cases, including intellectual property, trademark and copyright infringement, real estate and banking.

For nearly two decades, Sonia Sotomayor has been a sharp and fearless trial judge. In 1992, President George H.W. Bush nominated

Sotomayor to serve as a Federal district judge and she was unanimously confirmed by the Senate. As a Federal district court judge, she heard over 450 cases during 6 years as trial judge and ruled against Major League Baseball owners to end the baseball strike. She was then nominated by President Clinton to the Second Circuit Court of Appeals and confirmed by the Senate on a vote of 69-29. She has been a tough, fair and thoughtful appellate judge who has written over 400 opinions, of which the Supreme Court reviewed only five cases and reversed only three of those opinions. Sonia Sotomayor understands upholding the law means the consistent, fair and common sense application of the law. She has an understanding of real world consequences of decisions and recognizes that her job as a judge is to interpret the laws passed by Congress and not making laws from the bench. Under her tenure as a judge, she has demonstrated a level head, the ability to handle difficult situations with a calm and thoughtful temperament, and is well respected among her colleagues.

Judge Sotomayor's integrity is unquestioned. Throughout her career she has worked to make sure that the courthouse doors are open to all. She was raised by hardworking parents who instilled strong work ethic. Throughout her life she has been active in her community and serves as a role model. She mentors kids from troubled neighborhood, teaches at-risk high school students job and life skills, and helps find summer jobs for these students. In addition, Sonia Sotomayor holds uncompromising views on judicial independence and has demonstrated she is an independent thinker dedicated to the rule of law. Sotomayor has stated that the Constitution should not be bent under any circumstance and from the bench she has shown she is a moderate judge who respects judicial precedent. In fact, 95 percent of her decisions have been favored by Republican appointees on the Second Circuit and she is well known for her judicial restraint.

In sum, Sonia Sotomayor is an outstanding nominee to the highest court in the United States and an inspiration to all Americans. She is living proof that the American dream can be achieved. She is the daughter of hardworking immigrants, who overcame obstacles, went to Ivy League schools on scholarship, and has served for over 17 years as a Federal judge. Today I am proud to say when my name is called, I will vote aye.

Mr. NELSON of Nebraska. Mr. President, I wish today to discuss the nomination of Judge Sonia Sotomayor to the U.S. Supreme Court and share the reasons why I will cast my vote in favor of her confirmation.

For me, the single most important consideration in deciding whether to

provide my consent to a judicial nomination is an assessment of whether the judge will bring an ideology to the bench, seeking to advance a set agenda regardless of the facts a case presents and the laws and precedents at hand. I believe—as most Nebraskans and Americans believe—that a political agenda belongs in the political branches, and thus activists and would-be policymakers should seek legislative or executive office if they want to make laws and set policy.

Judges, on the other hand, must show respect for the laws and Constitution of the United States and deference to settled law and precedent. The role of a judge is to adjudicate impartially; and the impartial application of justice should be devoid of personal views and political agendas.

Judge Sonia Sotomayor's education and legal career show that she is a brilliant woman with a breadth and depth of legal experience. She has been a prosecutor, an attorney in private practice, a trial court judge, and an appellate judge. I am particularly impressed by her record on the bench, where she has earned a reputation as tough on crime, fair on the facts and the law, respectful of precedent, and mindful of the limited role of the judiciary.

Judge Sotomayor has pledged fidelity to the law, and her extensive record of upholding the law as a trial and appellate judge is a concrete example of how she has carried out this pledge. Her 17-year record provides evidence of a restrained and mainstream judicial philosophy and shows that she has not been an activist. An objective review of Judge Sotomayor's record shows a fair, impartial, and humble judge.

For example, in addition to achieving a unanimous rating of "well qualified" from the American Bar Association's Standing Committee on the Federal Judiciary, the highest rating possible, Judge Sotomayor has won praise for her judicial restraint. Of particular importance to me was this statement by the ABA Committee: "Judge Sotomayor's opinions show an adherence to precedent and an absence of attempts to set policy based on the judge's personal views. Her opinions are narrow in scope, address only the issues presented, do not revisit settled areas of law, and are devoid of broad or sweeping pronouncements."

In addition, the nonpartisan Congressional Research Service analyzed her record as a judge and concluded: "Perhaps the most consistent characteristic of Judge Sotomayor's approach as an appellate judge has been an adherence to the doctrine of *stare decisis* (i.e., the upholding of past judicial precedents). Other characteristics appear to include what many would describe as a careful application of particular facts at issue in a case and a dislike for situations in which the court might be seen as over-

stepping its judicial role." This is high praise indeed, for those of us like me who value a limited role and eschew judicial activism.

Having discussed some of the reasons why I believe Judge Sotomayor is fit to serve on the High Court, I would like to take a moment to respectfully address some of the concerns and criticisms that some of my constituents and a certain few of my colleagues have raised about Judge Sotomayor.

Foremost, I believe that actions speak louder than words. Throughout this confirmation process, certain comments Judge Sotomayor has made outside of the courtroom have been the subject of much criticism. Indeed, some of these remarks could be cause for concern if they proved to slant the judge's approach to the law or impede her ability to render an unbiased opinion. But after examining her record, meeting personally with her, and observing the Judiciary Committee hearings, I am convinced that Judge Sotomayor will approach the Supreme Court with the same unbiased fidelity to the law that has marked her distinguished career thus far. Simply put, I see no significant evidence that she has manipulated the facts of cases or interpretations of the law in the courtroom to alter the outcome of a case.

In addition, some have singled out a handful of decisions the judge has participated in as grounds for disqualification. Mr. President, I do not expect a judge to agree with me all of the time, just as I do not agree with all the laws or all the precedents on the books; however, I firmly believe that disagreeing with a law or a precedent is not grounds for a judge to rewrite the law as he or she sees fit. And while I may not personally agree with the outcome of every single case Judge Sotomayor has decided, it is clear to me that her opinions were informed by facts, bound by precedents, and faithful to the law.

Judge Sotomayor has decided more than 3,000 cases as a member of the Second Circuit Court of Appeals. Only 13 of these have been reviewed by the Supreme Court; only 5 have been reversed. Of the opinions she authored, five were reviewed, her opinion was upheld in two, and she was reversed or vacated in three. This compares favorably with recent Supreme Court reversal rates and with recent Supreme Court nominees.

My approach to confirmation of judicial nominees has not changed during my time in the Senate. I have voted to confirm the overwhelming majority of nominees to come before us—including both Chief Justice Roberts and Justice Alito for the Supreme Court—and my standards for what I consider a qualified judge have not changed since my days in the Governor's office, when I appointed 81 judges, including the entire Nebraska Supreme Court and

Court of Appeals. I wish I could say the same for the way the Senate considers judicial nominations, which to my disappointment has just become increasingly political and partisan. In the 1990s, Justice Ruth Bader Ginsburg was confirmed with only three dissenting votes, Justice Stephen Breyer with only nine dissenting votes. Yet recent nominations show that rising partisanship has affected both the tenor of the debate and the outcome of the vote. The Senate confirmed Chief Justice Roberts with 22 dissenting votes, and Justice Alito was confirmed with 42 dissenting votes.

In 2005, the nomination process became so polarized that I joined with 13 of my colleagues to form the Gang of 14 to prevent the shutdown of the Senate over partisan positioning with respect to appeals court nominees. I commend the Judiciary Committee for presiding over a cordial and fair hearing process for Judge Sotomayor, but as in all things, I wish the Senate could return to a more bipartisan approach to our constitutional responsibility to provide advice and consent.

As a Senator, I have taken very seriously my role to responsibly, thoughtfully, and thoroughly review a nominee's qualifications and record. After examining her record, meeting personally with her, and observing the Judiciary Committee hearings, I am convinced that Judge Sotomayor's approach on the Supreme Court will demonstrate the same fidelity to the law that has marked her distinguished career. In the years ahead, I believe she will make an important contribution on the Supreme Court. I wish her well in her new role.

I thank the Senate for this opportunity to offer my perspective on this historic nomination.

Mr. DORGAN. Mr. President, I will vote to confirm the nomination of Judge Sonia Sotomayor to be an Associate Justice of the Supreme Court. Let me explain why I am supporting her.

Judge Sotomayor's impressive life story is an American story of working hard and making the most of every opportunity. She grew up in a housing project in the South Bronx nurtured by a working mother who instilled in her the values of America. She understood that education was the key to unlocking the greatness that is available in our country. She won a scholarship to Princeton University, where she graduated with highest honors. But she did not stop there. She then attended one of America's finest law schools, where she also excelled and was a member of the prestigious Law Review.

In addition to her extraordinary academic achievements, Judge Sotomayor's many work experiences in the legal profession make her ideally suited to be a Supreme Court Justice.

She has been a prosecutor, an attorney in private practice, a trial judge and an appellate court judge. She has been a Federal judge for more than 17 years. When she is confirmed, she will have had more judicial experience than any other Supreme Court Justice in more than 100 years, and she will be the only justice on this Supreme Court to have had experience as a trial judge. The knowledge she has gained over those many years will serve her, the Court, and our country well.

After reviewing her career on the bench and closely following her confirmation hearings, I have concluded that Judge Sotomayor is sincere in her commitment to apply the law, rather than to make the law. Her record shows that she cannot be fairly labeled "left" or "right." For many years, she has looked at the facts and law of the many cases that have come before her and she has called them as she sees them without regard for anything else. Her record clearly demonstrates that she is a moderate, mainstream judge with great respect for the law, our Constitution, our country, and its institutions.

In my own meeting with Judge Sotomayor, I found her to be intelligent, measured, deliberate, and thoughtful. Judge Sotomayor assured me that she holds great respect for settled law. The more than 3,000 cases she has participated in support that conclusion as well.

This extensive record, and all of her experiences in life and law, likely explain the remarkable breadth and scope of people and organizations, many from opposite ends of the political and ideological spectrum, supporting her nomination. For example, the Chamber of Commerce and labor unions support her as well as numerous police organizations and defense lawyers. These are not natural allies, but they have seen what I have seen: a person of exceptional intelligence, wide-ranging experience, judicious temperament, and a commitment to even-handedly and fairly applying the law without fear or favor.

This is also demonstrated by her appointments to the bench. It is telling that Judge Sotomayor was first appointed to the Federal bench by President George H.W. Bush, who nominated her to the District Court for the Southern District of New York. Judge Sotomayor was then promoted by President Clinton to the U.S. Court of Appeals for the Second Circuit. It is rare indeed to have a judge nominated by Presidents of both parties, and this is a testament to Judge Sotomayor's intellect, impartiality, and judicial conduct.

A Supreme Court appointment is for life and many Justices serve for decades, but their influence does not stop there. The cases they write or participate in have an effect on the law of the

land for many decades even after they leave the Court. That is why I take my duty as a Senator to confirm a President's nomination for the Court so seriously, as I have done here.

One of the things that makes our country great and an inspiration to so many throughout the world is our commitment to "Equal Justice Under Law," which is carved in marble over the entrance to the Supreme Court. Equal justice means that, under our law, who you are does not matter; who you know or are connected to does not matter; how much money you have or do not have does not matter; the color of your skin, your ethnicity, your gender or any other personal characteristic does not matter. The facts of a case and the applicable law are all that matter in our justice system. That is what the phrase "Equal Justice Under Law" means in our country and to our country.

I am confident that "Equal Justice Under Law" will inform and animate Judge Sotomayor's decisions throughout her years on the Supreme Court. If one looks with an open and fair mind at the full breadth of Judge Sotomayor's inspiring life, extraordinary career and superb qualifications, as I have, it is clear that she has earned a place on the Supreme Court and I am proud to be supporting her nomination. I have no doubt that our country will be well served by her.

Mr. BURRIS. Mr. President, more than half a century ago, a young couple from Puerto Rico settled down in the Bronx with dreams of a better life.

They didn't have much money, but they had a vision for the future.

A vision that their son and daughter might be able to get a good education, find a rewarding job, and live out the full promise of the American dream.

Today, their son Juan is a doctor and university professor near Syracuse, NY.

And their daughter Sonia is about to become the first Latina Justice of the U.S. Supreme Court.

This family's story could only take place in America.

It is a testament to the greatness of our democracy that the daughter of a relatively poor family can grow up to attend the finest universities in the world, and even rise to the highest judicial body in the land.

But it is not only her remarkably American story that will make Judge Sonia Sotomayor an excellent addition to the Court.

Her legal background marks her as the single most qualified Supreme Court nominee in the last 60 years.

After graduating from Princeton University and Yale Law School, she served as an assistant district attorney and then had a successful legal practice of her own.

In 1991, President George H.W. Bush appointed Ms. Sotomayor as the first

Hispanic judge on the U.S. District Court in New York State.

Eight years later, President Clinton elevated her to the U.S. Court of Appeals, where she serves today.

Throughout her distinguished career, Judge Sotomayor has been a prudent and thoughtful jurist.

She has consistently exhibited the highest standards of fairness, equality, and integrity.

She is a brilliant legal mind and a moderate on the bench.

No one can argue with her professional qualifications for this post.

And I believe that her personal background will lend a fresh and dynamic perspective to the highest court in our land.

That is why I was proud to write to President Obama on May 15, urging her nomination.

I am pleased that he shares my high regard for Judge Sotomayor, and I thank him for giving us an eminently qualified nominee to confirm.

When we consider the makeup of the Supreme Court, we seek to build debate, not consensus.

Judge Sotomayor's uniquely American story will bring diversity to the Court's rulings.

And it is this diversity—of background, of perspective, of opinion—that will lend legitimacy and integrity to each decision.

As a former attorney general of Illinois, I have a deep understanding of these issues.

Every legal opinion should be bound by law and the weight of precedent.

The law must be grounded in sound and objective reasoning, and it is a powerful force in people's everyday lives.

That is why we need jurists like Sonia Sotomayor on the U.S. Supreme Court.

Because, when five voices come together to render a court decision, it becomes the law of the land.

There is no army, no threat of violence to back it up—just the quiet force of a written opinion.

That is the wonderful thing about this democracy.

And as a Supreme Court Justice, Sonia Sotomayor will never forget that.

She will be a strong addition to the highest court in our land, and I urge my colleagues to join me in giving her our utmost support.

Let us come together to make history by confirming the first Latina Supreme Court Justice in American history.

Let us renew our commitment to fairness, equality and diversity by confirming the most qualified nominee this Senate has seen in more than half a century.

Thank you, Mr. President. I yield the floor and suggest the absence of a quorum.

Ms. CANTWELL. Mr. President, I rise today with great pride to express my support for the confirmation of Judge Sonia Sotomayor to be Associate Justice of the U.S. Supreme Court. Today, the Senate is on the verge of a historic decision in confirming Judge Sotomayor. She brings a wealth of experience to this lifetime appointment, with 17 years of service on the judicial bench—more than any member of the current court. She has served as a prosecutor, a trial judge, an appellate judge and has also worked as an attorney in the private sector.

In fact, with the retirement of Justice David Souter and the confirmation of Judge Sotomayor, she will become the only justice on the current Supreme Court with experience as a trial judge. This experience gives her a perspective that will be a much-needed addition to the Court.

If we confirm her today—and I am confident we will—Judge Sotomayor will become the nation's first Hispanic in history to sit on the highest court in the land, and only the third female Justice. Women, Latinos and Latinas—indeed all Americans—can join in celebrating these significant milestones. Judge Sotomayor embodies the progress our country has achieved, and yet I know she would agree with me that there is much more to be done.

According to the American Bar Association, women comprise 47 percent of all law students, as compared to 1947, when women made up 3 percent of law students. That is significant progress. I firmly believe that for Hispanics, Judge Sotomayor's appointment will mark the beginning of a new era of steady progress. According to the U.S. Department of Labor, today only about 4 percent of lawyers and 3 percent of judges are of Hispanic descent.

Judge Sotomayor will serve as an able Associate Justice. She will also serve as a tremendous role model for law students and other young people thinking about entering the legal profession and for those who aspire to become judges. Her confirmation and service on the U.S. Supreme Court will serve to accelerate progress into the future.

Like election of the president who appointed her, Judge Sotomayor's confirmation says to young people of all incomes and backgrounds: You can be anything you want to be.

All of us have been moved by Judge Sotomayor's personal story—of her upbringing in the Bronx by a working mother, and her rise from those humble beginnings to graduate in one of Princeton University's first classes to include women. From there she went on to Yale Law School, where she excelled, and then to a coveted post—one of the few held by women—in the Office of the Manhattan District Attorney.

With her record of solid experience, clearly Judge Sotomayor is ready to

serve on the U.S. Supreme Court. In rating Judge Sotomayor, the American Bar Association conducted confidential interviews with a large number of judges and litigants who have worked with her or argued cases in her court. The ABA unanimously found Judge Sonia Sotomayor to be “well qualified,” the highest rating the association can give a judicial nominee.

Judge Sotomayor has received support from Democrats and Republicans, law enforcement groups and civil rights organizations. Among these groups are the Association of Prosecuting Attorneys, International Association of Chiefs of Police, National Fraternal Order of Police, Major Cities Chiefs Association, Women's Legal Defense and Education Fund, and the NAACP.

I agree with the Hispanic National Bar Association, which said that Judge Sotomayor “embodies all the qualities required for service as a Justice and are confident that, when confirmed, she will render fair and impartial justice for all Americans.”

The National Association of Women Lawyers has noted that Judge Sotomayor's record, “establishes her lack of gender, racial, ethnic or religious bias and her willingness to maintain an open mind, deciding cases on the record before her.”

Throughout her 17 years on the bench, Judge Sotomayor has shown a respect for established precedent and deference to the role of the elected branches of government. She made this point clear in the meeting I had with her shortly after President Obama nominated her for the post. The non-partisan Congressional Research Service, CRS, stated that “perhaps the most consistent characteristic of Judge Sotomayor's approach as an appellate judge has been an adherence to” existing judicial precedent.

In her meeting with me and in testimony before the Judiciary Committee, Judge Sotomayor repeatedly acknowledged the right to privacy is enshrined in our Constitution. I believe she will preserve that right.

President Obama made a wise choice in selecting Judge Sotomayor to serve on our highest court. She has demonstrated her integrity and intellect throughout the thorough confirmation process. Having followed her confirmation hearings closely, I am confident that Judge Sotomayor not only has a deep understanding of the law and great respect for precedent. I am confident she will make a fine associate justice.

The PRESIDING OFFICER. The Senator from Massachusetts is recognized.

Mr. KERRY. Mr. President, I rise to express my support for the nomination of Judge Sonia Sotomayor to be an Associate Justice of the U.S. Supreme Court.

Her career on the Federal bench, from the Southern District Court in

New York to the Second Circuit Court of Appeals, and her personal journey, from a childhood in a housing project in the Bronx, to honors at Princeton University and Yale Law School, are now well known to everybody in the country.

But one of the things that received a small amount of attention in her confirmation hearing are the 5 years—right out of law school—she spent as a prosecutor in the office of legendary Manhattan district attorney Robert Morgenthau. It is a reflection of Sonia Sotomayor's grit, determination, and courage that she took on this challenge at that particular time to serve as an assistant district attorney during one of the most crime-laden periods of New York's history.

It is not often we get a chance to elevate to the Nation's highest Court someone who has followed police into shooting galleries, someone who has tracked down witnesses on streets awash in drug-related violence, and someone who has personally taken on witnesses and shredded some of them on cross-examination, and who has personally moved juries to tears in her closing arguments.

It is not often we get a chance to confirm a Supreme Court nominee who does not come from what Chairman PAT LEAHY likes to call the “judicial monastery.” But rather we have a chance to confirm someone who has the personal experience, perspective, and understanding of how the world works within our system of law as a practitioner and also having seen what it is like for those who try to enforce the law at the street level, our police, our law enforcement officials, and also in seeing what happens to victims and families drawn into the system unwillingly.

Judge Sotomayor certainly was not in a “judicial monastery” when she was undertaking the task of putting criminals behind bars in New York. I believe experience will prove of enormous value to somebody on the Supreme Court—someone who can go there understanding what it means to work 12-hour days as a prosecutor struggling to put together a case with reluctant witnesses, with police who have a difficult time coming to the courthouse, and, obviously, with experience in interpreting the fifth amendment, fourth amendment rights with respect to search and seizure and personal incrimination.

One of her cases, in particular, stands out, which is the 1983 so-called Tarzan Murderer case, involving a man who broke into apartments, sometimes by swinging from rooftops, robbing the residents, and then shooting them for no apparent reason. It was Judge Sotomayor's first homicide case and also her first homicide conviction. The defendant, Richard Maddicks, went to prison for 62½ years.

Judge Sotomayor said the case affected her as no other; that it underscored for her how crime destroys families and how prosecutors "must be sensitive to the price that crime imposes on our society." I believe, having been a prosecutor, those are lessons I learned also firsthand and did not come automatically to the bar with a sensitivity to.

As much as I admire her work as a New York prosecutor, that experience alone, obviously, does not qualify her for confirmation to the Supreme Court. But I think it is an important experience, and it says a lot about her approach to the law and what she is willing to fight for.

There are, obviously, few things we do that are as important as confirming a Supreme Court Justice, and especially now with the Court so evenly divided. So this is a pivotal moment for the Court. The direction our country will take for the next 30 years is being determined now by this debate.

A vote for a Supreme Court nominee is a vote for each of our personal understandings of the Constitution, of the laws of the land, and of what we think is important with respect to the application of the rights and freedoms that define this country of ours. That is what this vote is. It is a vote to protect the basic rights and freedoms that are important to every American, and I would say, particularly, privacy, equality, and justice.

Consider, for example, the case of Lilly Ledbetter and Diana Levine as an example of how just one Supreme Court appointment can affect the lives and freedoms of countless Americans. In the Ledbetter case, five of the Court's nine Justices granted immunity to employers who discriminate against workers in matters of salary. It took a new Congress and a new President to strike down the Court's ruling in the continuing effort to ensure that all Americans—women and men—receive equal pay for equal work.

I have voted for Supreme Court nominees in the past, when it was clear to me they would protect those constitutional rights and freedoms. And I have voted against Supreme Court nominees, when it was clear to me they would not protect those rights and freedoms.

So we have to ask ourselves: What direction will this nominee take the Supreme Court? Will this nominee protect the civil rights and liberties enshrined in the Constitution and protected by law that we have fought for so long and hard? Will this nominee support Congress's power to enact critical legislation—sometimes defining those rights? Will the nominee be an effective check on the executive branch?

As a Senator, each of us has a right—not just a right, but an obligation, a duty—to protect the fundamental

rights that are part of our Constitution. I think part of that means we have to preserve the incredible progress we have made with respect to civil rights and realizing those rights.

Having reviewed Judge Sotomayor's extensive record, and having read some of her more important rulings, I have concluded that she will do exactly that, she will protect them. She is someone who understands what sets America apart from almost every other country is the right of any citizen—no matter what level they are at, in terms of their work, employment or pay, income, status—that no matter where they come from, no matter what is their lot in life, they have a right to have their day in court. Recently, in this country, over the last 15 or 20 years, we have seen those rights reduced, in some cases. We have seen the access of average citizens to the courts of America diminished.

I believe Judge Sotomayor understands the real world, and how important it is to preserve that relationship of an individual citizen to access to the courts.

It took a Supreme Court that understood the real world to see that the doctrine of "separate but equal" was anything but equal and, therefore, to break the Constitution out of the legal straightjacket it found itself in. I believe Judge Sotomayor meets the standard that was set by Justice Potter Stewart, who said:

The mark of a good judge is a judge whose opinions you can read . . . and have no idea if the judge is a man or a woman, Republican or Democrat, Christian or Jew . . . You just know that he or she was a good judge.

For the last 17 years, she has applied the law to the facts in the cases she has considered, while always cognizant of the impact of her decisions before the court. I think she showed restraint, but she also showed fairness and impartiality in performing her duties under the Constitution.

I believe, though, it is clear her years as a prosecutor prepared her for the Federal bench in ways that few jurists get to experience. After that she spent nearly 6 years as a district court judge and almost 12 years on the appellate court demonstrating a very sophisticated grasp of legal doctrine and earning a reputation as a sharp and fearless jurist.

Courage is one of the qualities that Judge Sotomayor's colleagues and friends often attribute to her. One of those colleagues who ought to know these things was her one-time boss and, I might add, somebody whom, when I was a prosecutor, we modeled much of what we did in Massachusetts on his approach to the New York District Attorney's Office, and that is Robert Morgenthau. He said she was a "fearless prosecutor" and "an able champion of the law." The police with whom she worked so closely felt the same way.

That is why her nomination to the Supreme Court has been endorsed by nearly every major law enforcement organization in the country.

As a district court judge, she showed just how fearless she could be when, in 1995, she ended the Major League Baseball strike with an injunction against the league's powerful owners. All of her actions on the district court were important.

Of all her actions on the district court, that was one of my favorites. Some experts suggested that she had saved baseball and, in doing so, she had, as Claude Lewis of the Philadelphia Inquirer wrote, "joined the ranks of Joe DiMaggio, Willie Mays, Jackie Robinson and Ted Williams." I am not sure I would go as far as Ted Williams, but Judge Sotomayor's actions did get the Red Sox back on the field at Fenway Park.

It is interesting to me that Judge Sotomayor would bring more Federal judicial experience to the Supreme Court than any Justice in the last 100 years. That is a fact her critics conveniently ignore.

In fact, she would bring more Federal judicial experience to the high court—more than 17 years all totaled—than any of the current associate justices.

Chief Justice Roberts came to the court with just 2 years on the Federal bench, Justice Alito 16 years, Justice Scalia 4 years, Justice Thomas 1 year, Justice Kennedy 13 years, Justice Ginsburg 13 years, Justice Souter 1 year, Justice Brennan and Justice Breyer zero years.

As we all know, Judge Sotomayor would be the first Latina to serve on the Supreme Court, just as she was the first Latina on the Second Circuit Court of Appeals. Much was made of this after her nomination by President Obama. And rightly so.

Judge Sotomayor is a role model of aspiration, of discipline, of commitment, of intellectual prowess and integrity. Her story is an American story, a classic American story, an inspiring American story.

How could anyone not be moved by the sight of Judge Sotomayor's mother, Celina, wiping away tears as the Judge paid loving tribute to her during her confirmation hearing? How could anyone not celebrate the journey that is the Judge's life story? An improbable journey, an extraordinary journey, a uniquely American journey.

We should not underestimate the importance of the diversity Judge Sotomayor will bring to the Supreme Court. People from different backgrounds bring different perspectives to bear on decisions, and that produces better decisions. That is especially important for the Supreme Court, which is, after all, the ultimate champion of the rule of law and protector of rights in America.

How important is diversity? The Supreme Court recently decided a case

and found that school officials violated the fourth amendment rights of a young girl by conducting an intrusive strip search of her underclothes while looking for the equivalent of a pain killer. During oral arguments in that case, one of the male Justices compared the search to changing for gym clothes. Several other Justices laughed, but Justice Ruth Ginsburg, the lone female on the court, pointed out how "humiliating" such a search is to young girls.

I know that the Judge's critics claimed that she would rely on "empathy" rather than the law when deciding cases. But during her confirmation hearing, she made clear her commitment to the rule of law. "Judges can't rely on what's in their heart," she testified. "They don't determine the law. The job of the judge is to apply the law. And it's not the heart that compels conclusions in cases. It's the law."

She, in fact, has never used the word "empathy" in any of her decisions in more than 3,000 cases or the nearly 400 opinions she has written. Nor has she ever used it to describe her judicial philosophy in any speech or article. Her decisions have been based on established precedent and a respect for the limited role of a judge.

But every judge, even Supreme Court Justices, are shaped by the experiences of their lives.

One recent Supreme Court nominee testified before the Senate Judiciary Committee that he would bring to the court "an understanding and the ability to stand in the shoes of other people across a broad spectrum." That was Justice Clarence Thomas.

Another acknowledged being influenced by the fact he came from a family of immigrants. "When I get a case about discrimination, I have to think about people in my own family who suffered discrimination because of their ethnic background or because of religion or because of gender. And I do take that into account," he said. That was Justice Samuel Alito.

Another touted his status as a racial minority in expressing his commitment to a society without discrimination. "I am a member of a racial minority myself, suffered, I expect, some minor discrimination in my years," he said. That was Justice Antonin Scalia.

I don't know why anyone would think gender and ethnicity do not inform one's worldview. How could it be otherwise? "We're all creatures of our upbringing," Justice Sandra Day O'Connor once observed.

So, too, is Judge Sotomayor. But that does not mean she will not judge fairly. There is nothing in her long career to suggest otherwise. Above all, in fact, Judge Sotomayor will bring to the court a keen legal mind to the court and an extraordinary record of following, defending and upholding the rule of law.

It is no wonder that she earned a "well qualified" rating from the American Bar Association, the highest rating available in the ABA's evaluation of Federal judicial nominees' credentials, a process the organization of legal professionals has conducted for more than 50 years.

Our Nation's highest court will certainly benefit from Judge Sotomayor's scholarship, her years on the Federal bench and the uniquely American aspects of her life.

But as I noted earlier, the High Court's Justices will also benefit from Judge Sotomayor's years as a prosecutor, from having someone among them who has been on the front lines in the fight against chaos and violence of the city, someone who has seen up close the awful toll crime exacts on its victims, someone who has stared down evil and who has sent the most evil to prison for life.

Judge Sotomayor's experience on the bench and her experiences in life have given her a keen sense of compassion and an unique understanding of everyday Americans—qualities that will serve her well as an Associate Justice of the U.S. Supreme Court, qualities that will serve our country well in the Court's deliberations.

It is clear she understands that our Nation is defined by the great struggle of individuals to earn and protect their rights.

I believe Judge Sotomayor will protect those rights, which did not come easily—access to the court house and the school house, civil rights, privacy rights, voting rights, antidiscrimination laws, all the result of bloodshed and loss of life, all written into law in a fight, all requiring constant vigilance to make sure they are enforced and maintained.

Do I overstate the importance of vigilance? Hardly. Just a few short months ago, the Court heard oral arguments in a case challenging the constitutionality of the reenacted Voting Rights Act. The act remained intact. But the fact that the Court heard the case is cause for concern that even a slight shift in the makeup of the Court could weaken or undo laws that protect the rights and well being of the American people.

It was the late Dr. Martin Luther King Jr. who said that "the arc of the moral universe is long, but it bends toward justice." I believe Judge Sotomayor's nomination to the Supreme Court—indeed, her entire career, as a prosecutor, as a district judge, as an appeals court judge—is part of that arc bending toward justice.

Mr. President, I proudly support her nomination and urge all my colleagues to do the same. A vote to confirm Judge Sotomayor will be a high mark in the history of the Senate and in the history of this country.

Mr. President, on behalf of Senator LEAHY, I ask unanimous consent that a

letter and statement of support for the nomination of Judge Sotomayor to be a Justice of the U.S. Supreme Court from the Lawyers' Committee for Civil Rights Under Law be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

LAWYERS' COMMITTEE FOR
CIVIL RIGHTS UNDER LAW,
Washington, DC, July 9, 2009.

Chairman PATRICK J. LEAHY,
Senate Judiciary Committee, Dirksen Senate Office Building, Washington, DC.

Ranking Member JEFF SESSIONS,
Senate Judiciary Committee, Dirksen Senate Office Building, Washington, DC.

DEAR SENATORS LEAHY AND SESSIONS; As the Co-Chairs of the Lawyers' Committee for Civil Rights Under Law, we submit the attached Statement in Support of the nomination of Judge Sonia Sotomayor as an Associate Justice of the United States Supreme Court. This Statement is presented on behalf of our organization and with the particular support of the identified individual members of the Board of Directors and Trustees, who have joined to highlight their commitment to the Lawyers' Committee's position.

We also enclose an 81 page Report analyzing Judge Sotomayor's record pertaining to constitutional interpretation and civil rights, issues which are of paramount importance to the Lawyers' Committee.

We believe that the members of the Lawyers' Committee who have joined us in support of Judge Sotomayor have done so because the record demonstrates that Judge Sotomayor is well qualified to serve as an Associate Justice, with a record of judicial service characterized by both its longevity and its quality. Judge Sotomayor's record in the area of civil rights reveals a balanced and considered approach to following precedent and safeguarding the protections contained in our nation's Constitution and civil rights statutes. We also believe Judge Sotomayor brings needed diversity to the Court based on her gender, ethnicity and experience as a prosecutor and trial judge.

We urge the members of the Senate Judiciary Committee to recommend Judge Sonia M. Sotomayor for confirmation by the full Senate.

Sincerely,

NICHOLAS T. CHRISTAKOS,
Co-Chair.
JOHN S. KIERNAN,
Co-Chair.

STATEMENT SUPPORTING THE NOMINATION OF
JUDGE SONIA SOTOMAYOR AS AN ASSOCIATE
JUSTICE OF THE UNITED STATES SUPREME
COURT

The Lawyers' Committee for Civil Rights Under Law, and the undersigned members of its Board of Directors and Trustees, write to support the nomination of Judge Sonia Sotomayor to the Supreme Court of the United States and to urge the Senate to confirm that nomination.

On May 26, 2009, President Barack Obama nominated Judge Sotomayor, who currently serves on the U.S. Court of Appeals for the Second Circuit, to replace retiring Justice David Souter. The last vacancy on the Court occurred in 2005, when Sandra Day O'Connor, the first woman to serve on the Supreme Court, retired. If confirmed, Judge Sotomayor would be the first Hispanic and the third female justice in the 219 year history of the Supreme Court.

Judge Sotomayor has impressive academic and professional credentials. She has had a wide-ranging legal career as a prosecutor, a corporate litigator, and both a district and appellate court judge. These combined experiences would add a perspective not currently available on the Supreme Court. In addition, having sat for six years on the district court and more than ten years on the court of appeals, Judge Sotomayor has more federal judicial experience at the time of her nomination than any Supreme Court nominee in the last hundred years.

This nomination is of special interest to us as directors and trustees of the Lawyers' Committee for Civil Rights Under Law because of our shared goal of promoting equal justice. In recent years, the Supreme Court has issued a number of decisions scaling back the critical protections against discrimination that are afforded by the Constitution and our nation's civil rights laws. This trend underscores the pressing need for a Justice who understands the persistent realities of discrimination and who interprets our civil rights laws as they were intended—to provide meaningful protections.

We believe that the best evidence of Judge Sotomayor's qualifications as a nominee is the judicial opinions she has written over her long career on the bench. Analysis of her opinions in civil rights cases and related areas prepared by the Lawyers' Committee forms the primary basis for our support for Judge Sotomayor's nomination. The Lawyers' Committee also examined her speeches and other writings to see whether they contained anything that should disqualify her from serving on the Supreme Court or that might indicate that she has a different judicial philosophy, particularly in the civil rights arena, from that reflected in her judicial opinions. The results of the Lawyers' Committee's analysis are contained in its Report on Judge Sotomayor's nomination.

Based on our review, we conclude that Judge Sotomayor's record in civil rights cases demonstrates careful judicial analysis, with full consideration of the relevant facts and law, accompanied by a sensitivity to civil rights issues that is consonant with constitutional and statutory provisions. We have found nothing in Judge Sotomayor's speeches or non-judicial writings, which appropriately refer to her unique life story and the perspective she has gained from her background, that should disqualify her from serving on the Supreme Court. Our review of her judicial decisions, as well as her speeches and other writings, leads us to conclude that Judge Sotomayor would bring to the Court an appropriate regard for the importance of enforcement of the civil rights protections of the Constitution and federal civil rights laws. We further conclude that her performance as a Court of Appeals judge clearly supports the proposition that she will honor stare decisis and adhere to the rule of law.

On the Second Circuit, Judge Sotomayor has heard over 3,000 appeals and has written over 250 signed panel opinions. Her opinions reveal a jurist who follows established precedent yet is willing to raise concerns about the practical impact of that precedent. Her opinions exhibit deference to the discretion of trial judges. Judge Sotomayor's jurisprudence in civil rights cases indicates that she carefully weighs the facts and the law, and her rulings fall within the mainstream of existing judicial decisions and legal scholarship. She interprets civil rights laws in a manner that provides meaningful protection from discrimination, while being mindful of the need to grant early relief to defendants

when the facts and law justify a summary ruling.

Judge Sotomayor possesses both the exceptional competence necessary to serve on the Court and a profound respect for the importance of protecting the civil rights afforded by the Constitution and the nation's civil rights laws. Additionally, we believe that having a diverse Court is important for our nation. For these reasons, we support the nomination of Judge Sotomayor to the Supreme Court of the United States and urge the Senate to confirm her nomination.

By action of the Executive Committee, this statement has been submitted to members of the Board of Directors and the Board of Trustees of the Lawyers' Committee for Civil Rights Under Law, for the individual signature of subscribing Board members whose names are set forth below. The following individual members of the Boards of Directors and Trustees of the Lawyers' Committee hereby subscribe to the statement.

Atiba D. Adams, David R. Andrews, Barbara R. Arnwine, Jeffrey Barist, Daniel C. Barr, Lynne Bernabei, Victoria Bjorklund, John W. Borkowski, Patricia A. Brannan, Steven H. Brose;

Paulette M. Caldwell, John A. Camp, Douglass W. Cassel, Michael H. Chanin, Nicholas T. Christakos, Lisa E. Cleary, Frank M. Conner, III, Michael A. Cooper, Edward Correia, Peter J. Covington;

Marion Cowell, Nora Cregan, Michael Birney de Leeuw, Doneene K. Damon, Armand G. Derfner, John H. Doyle, III, Paul F. Eckstein, Robert Ehrenbard, Joseph D. Feaster, Jr., Fred N. Fishman;

Daniel P. Tokaji, Michael Traynor, Reginald M. Turner, Suzanne E. Turner, Michael W. Tyler, Kenneth Vittor, Joseph F. Wayland, Vaughn C. Williams, Thomas S. Williamson, Brenda Wright, Erika Thomas-Yuille.

Mr. KERRY. I thank the Chair, and I yield the floor.

The PRESIDING OFFICER. The Senator from New Jersey is recognized.

Mr. MENENDEZ. Mr. President, the Senate will soon vote to confirm Judge Sonia Sotomayor. In doing so, we will not only make history, but we will stand witness to a coming of age of America.

Our Founders devised a unique experiment in a new form of government built on tolerance, equal rights, justice, and a Constitution that protected us from the mighty sword of tyranny. It was a revolutionary notion that in this new Nation, no one—no one—would be bound by an accident of birth. No one would be limited by their economic or social circumstances. In America we have come to believe that all is possible.

Today, on the anniversary of the signing of the Voting Rights Act, at the other end of Pennsylvania Avenue is an African American sitting in the Oval Office. This is America.

Across the street in that magnificent symbol of equal justice under law, a woman—a Latina—will take a seat on the U.S. Supreme Court. This is America.

In this Chamber, this Senator respectfully stands before you born in the same year as Judge Sotomayor and in similar circumstances—raised in a tenement in an old neighborhood in New Jersey, the son of immigrants, the first in my family to go to college. I never dreamed I would stand on this floor on this day to rise in support of an eminently qualified Hispanic woman who grew up in a housing project in the Bronx, as I was growing up in that old tenement in Union City. Yes, this is America. It is the America our Founders intended it to be.

I said on this floor earlier in this debate that when Judge Sotomayor takes her seat on the U.S. Supreme Court, we will only need to look at the portrait of the Justices of the new Supreme Court to see how far we have come as a nation, to understand who we are as a people. It is true that we are often divided by deeply held individual beliefs that too often prevent us from reaching compromise on the complex issues and challenges facing this Nation. But in America, we are entitled to our individual beliefs. We are entitled to hold them firmly, passionately, with resolve, reason, and fairness. We are free to fight for them with every fiber of our being; to express them, to shout them from the rooftops if we like. Put simply, all of us see the world differently. All we can ask of ourselves, all any of us can ask, is that wisdom, intelligence, reason, and logic will always prevail in every decision we make.

I have said before on this floor, and I will say again: Who we are is not a measure of how we judge, it is merely

one part of the many-faceted prism through which we see and analyze the facts. The real test is how we think and what we do. I know in my heart and in my mind that Judge Sotomayor will do what is right for America.

The worst her opponents have accused her of is an accident of geography that gave her the unique ability to see the world from the street view, from the cheap seats. I know that view well. I know it very well. It gives us a unique perspective on life. It allows us to focus a clear lens on the lives of those whose struggles are more profound than ours and whose problems run far deeper than our own. The view of the world from a tenement remains with me today, and it will remain with me all of my life, just as the view from that housing project in the Bronx will remain with Judge Sotomayor. It is a part of who she is. But let's be clear. It is not what she will do or how she will judge. It is the long view of America—a wide, inclusive view—often profoundly moving, sometimes heart-breaking, and it gives her an edge where she may see what others cannot, and I truly believe that is a gift that will benefit the Nation as a whole.

So I call on my colleagues to step back, take the long view, think of what our Founders hoped for this Nation, and let's vote. History awaits and so does an anxious Hispanic community in this country.

I have made my decision, and I will proudly stand in the well of this Chamber to cast my vote to confirm Judge Sotomayor as the next Justice of the U.S. Supreme Court. When she places her hand on the Bible and takes the oath of office, the new portrait of the Justices of the Supreme Court will clearly reflect who we are as a nation, what we stand for as a fair, just, and hopeful people.

Let that be the legacy of our generation, for this is America—the America our Founders intended it to be.

Mr. President, the Judiciary Committee has received letters of support for Judge Sotomayor's nomination from local, national, and international law enforcement, including the chiefs of police of major cities, among others. I ask unanimous consent that those letters, as well as letters from national Latino and Hispanic rights organizations, such as MANA, ASPIRA, and others be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

METROPOLITAN POLICE DEPARTMENT,

Nashville, TN, July 7, 2009.

Senator PATRICK LEAHY,
Chairman, Senate Judiciary Committee, Washington, DC.

DEAR SENATOR LEAHY: After careful consideration of Judge Sonia Sotomayor's established record of respect and understanding for the work of law enforcement, I am today writing to express my strong support of her nomination as the next Associate Justice of the United States Supreme Court.

In my nearly 30 years experience as a police officer and police executive in three states, Louisiana, Washington, and Tennessee, it is clear to me that our citizens are ultimately best served and protected by members of the judiciary who are committed to respect for the rule of law. I am encouraged that Judge Sotomayor, through her work as a prosecutor in New York, and later as a trial judge, learned first hand how crime impacts a community and how members of law enforcement are in the trenches every day working to make a difference for safer neighborhoods. I believe that she understands the challenges police agencies face in dealing with criminals, and, if confirmed, will ensure that law enforcement is treated with respect and fairness in matters coming before the Supreme Court.

Senator Leahy, I understand that you will explore and consider a number of issues and factors before making your confirmation decision. I have every confidence that Judge Sotomayor's clear familiarity with how the courts impact law enforcement and the criminal justice system will be given full consideration. Thank you for your kind attention to this letter, and thank you for your support of the men and women in Tennessee, Vermont and our great nation's 48 other states who wear the badge of protection and service.

Sincerely,

RONAL W. SERPAS,
Chief of Police.

MAJOR CITIES CHIEFS ASSOCIATION,
June 7, 2009.

Hon. PATRICK LEAHY,
Chairman, Committee on the Judiciary, U.S. Senate, Washington, DC.

Hon. JEFF SESSIONS,
Ranking Member, Committee on the Judiciary, U.S. Senate, Washington, DC.

DEAR MESSRS. LEAHY AND SESSIONS: On behalf of the Major Cities Chiefs, representing the 56 largest jurisdictions across the Nation, we are writing to support the nomination of Judge Sonia Sotomayor to the Supreme Court of the United States.

We applaud her distinguished career in public service, a record of achievement that began with her work as a prosecuting attorney. During those early years as an Assistant District Attorney, Sonia Sotomayor earned high marks from law enforcement. She has been praised by those who worked at her side on criminal cases as well as officials who have taken cases to her courtroom in later years.

Her record as a prosecutor and a judge both show a commitment to public safety and sensitivity to the needs of the community. She has made decisions that are both tough and compassionate. Her record shows respect for the laws and cases that enable the police to do their job.

American law enforcement has always looked to you for leadership and we again turn to you to move the nomination of Sonia Sotomayor quickly through the confirmation process.

Sincerely,

WILLIAM J. BRATTON,
*Chief of Police,
President, Major Cities Chiefs.*

INTERNATIONAL ASSOCIATION
OF CHIEFS OF POLICE,
Alexandria, VA, July 10, 2009.

Hon. PATRICK LEAHY,
Chair, Committee on the Judiciary, U.S. Senate, Washington, DC.

DEAR SENATOR LEAHY: On behalf of the International Association of Chiefs of Police

(IACP), I am pleased to inform you of our support for the nomination of Judge Sonia Sotomayor to be the next Associate Justice on the United States Supreme Court.

As you know, the IACP is the world's oldest and largest association of law enforcement executives. With more than 20,000 members in over 100 countries the IACP has, throughout its 116 year history, been committed to advancing the law enforcement profession and promoting public safety.

It is for these reasons that the IACP is proud to endorse the nomination of Judge Sotomayor to the United States Supreme Court. Throughout her career, Judge Sotomayor has consistently demonstrated a firm understanding of, and a deep appreciation for, the challenges and complexities confronting our Nation's law enforcement officers. As a prosecutor, and at the District and Circuit Courts, Judge Sotomayor has clearly displayed her profound dedication to ensuring that our communities are safe and that the interests of justice are served.

The IACP believes that Judge Sotomayor's years of experience, her expertise and her unwavering dedication to the rule of law are evidence of her outstanding qualifications to serve as the next Associate Justice of the United States Supreme Court. The IACP urges the Judiciary Committee and the members of the United States Senate to confirm Judge Sotomayor's nomination in a timely fashion.

Thank you for your attention to this matter. Please let me know how the IACP may be of further assistance in this vitally important process.

Sincerely,

RUSSELL B. LAINE,
President.

MANA,
Washington, DC, June 9, 2009.

Hon. PATRICK J. LEAHY,
Chairman, Senate Judiciary Committee, Russell Senate Office Building, U.S. SENATE, WASHINGTON, DC.

Hon. JEFF SESSIONS,
Ranking Member, Senate Judiciary Committee, Russell Senate Office Building, Washington, DC.

DEAR SENATORS LEAHY AND SESSIONS: MANA, A National Latina Organization, with headquarters in Washington, DC, twenty-six chapters nationwide, and six affiliates across the nation expresses wholehearted support for the appointment of the Honorable Sonia Sotomayor to serve as a Supreme Court Justice.

Growing up in the Bronx after her parents moved from Puerto Rico, Sotomayor's mother instilled the value of education early in her life. After graduating valedictorian at her Catholic high school, Sotomayor went on to Princeton, where she continued to excel. She attended Yale Law School and wrote for the Yale Law Journal.

Judge Sotomayor has had an exceptional and diverse career that will be an invaluable asset in a role as a Supreme Court Justice. She began her career as an assistant district attorney in the state of New York. Later, she worked in private practice as a corporate litigator, dealing with cases for both American and foreign clients. In 1992 she served as a federal judge for the U.S. District Court, having been nominated by President George H.W. Bush. In this position she was the youngest judge in the Southern District of New York and the first Hispanic federal judge in New York. During that time she supported claims to freedom of religious expression under the First Amendment. She

continued in that position until her appointment as appellate judge by President William Jefferson Clinton in 1998.

The Honorable Sonia Sotomayor's perseverance, work ethic, integrity, and tested and proven ability to excel demonstrate her strength of character. Her commitment to nonpartisan, fair decision making, and upholding the law without bias makes Judge Sotomayor a clear choice for Supreme Court Justice. We are confident that Judge Sotomayor will dutifully represent the law as it is written, always serving in the best interests of the nation. A true example of living the American dream, she is an inspiration.

Moving forward, we urge that the Senate follow the timeline suggested by the White House, with an expeditious hearing by mid-July. As is our established procedure, we will also be submitting this legislative vote to the National Hispanic Leadership Agenda for consideration on the Annual Congressional Report Card, which tracks and publishes the voting records of Members of Congress on issues relevant to the Hispanic community. In the best interest of our nation, we ask you to confirm the Honorable Sonia Sotomayor based on her credentials, experience, and desire to honorably serve our great nation.

Sincerely,

ALMA MORALES RIOJAS,
President & CEO.

MANA DE ALBUQUERQUE,
Albuquerque, NM, June 2, 2009.

Hon. PATRICK LEAHY,
Chairman, Senate Judiciary Committee, U.S. Senate, Russell Senate Office Building, Washington, DC.

DEAR SENATOR LEAHY, On behalf of MANA de Albuquerque, its thirty-five members, and its affiliation with MANA, A National Latina Organization that represents twenty-six Chapters, six Affiliates, and individual members nationwide, I would like to declare my support for the confirmation of Judge Sonia Sotomayor as Justice of the Supreme Court.

The Honorable Sonia Sotomayor has had an exceptional and diverse career that will be an invaluable asset in a role as a Supreme Court Justice. Judge Sotomayor's perseverance, work ethic, veracity, and tested and proven ability to excel demonstrate her strength of character. Her commitment to bipartisan, fair decision making, and upholding the law without bias makes Judge Sotomayor a clear choice for Supreme Court Justice.

Judge Sonia Sotomayor's nomination reflects an enormous achievement for the Latina community. She is a woman of astonishing achievement, keen intellect, and integrity. These characteristics will aid her in making just decisions in representing and reflecting the law of the United States of America.

As a member of your constituency, the Latino community, and MANA de Albuquerque, I ask you to support Judge Sonia Sotomayor's expeditious confirmation.

Sincerely,

LYDIA LOPEZ MAESTAS,
President.

WOMEN OF EL BARRIO,
El Barrio, NY, May 8, 2009.

Re United States Supreme Court nomination of Judge Sonia Sotomayor.

Hon. PATRICK J. LEAHY,
Chairman, Committee on the Judiciary, U.S. Senate, Russell Senate Office Building, Washington, DC.

DEAR MR. LEAHY: Women of El Barrio (WOES) proudly and respectfully urge you to make Judge Sonia Sotomayor your first appointment to the Supreme Court of the United States of America. Our appeal is consistent with WOEB's mission to develop the leadership and promote the contributions of Puerto Rican grandmothers and young women from our community, through efforts that extend from preserving a block, to honoring the gifts of our precious Planet! Sonia Sotomayor, is a star whose light shows working class boys and girls that they can become men and women who achieve in order to serve.

As a Latina, Judge Sotomayor's appointment addresses two glaring deficiencies in the court's lack of diversity and will bring our court system closer to real equality of opportunity.

In their appeal New York Senators Schumer and Gillibrand recognize that "Latinos are a large and growing segment of our society that have gone grossly underrepresented in our legal system. Indeed, while Latinos comprise around 15 percent of the population, only about 7 percent of federal judges are Latino. Moreover, not a single Latino has served on the United States Supreme Court in the history of our country."

While more than half the U.S. population is female, nearly one-third of all U.S. lawyers are women. Approximately 30 percent of the judges serving on the lower federal courts are women. It is truly shameful that the retirement of Justice Sandra Day O'Connor should have resulted in the reduction of the paltry number of women from two to one. Most recently the lone remaining female, Justice Ruth Bader Ginsburg, has battled serious health problems.

In Judge Sotomayor you have a nominee of unquestioned legal prowess and excellent academic credentials. She's a Princeton University graduate, summa cum laude; a Juris Doctor from Yale Law School, including Editor of the Yale Law Journal. As a practicing attorney, she was a litigator in an international law firm and served as Manhattan Assistant District Attorney under Robert Morgenthau 17 years on the federal bench as trial judge in the Southern District of New York and her current position on the 2nd Circuit.

In its October 2008 issue of Esquire magazine found that "In her rulings, Sotomayor has often shown suspicion of bloated government and corporate power. She's offered a re-interpretation of copyright law, ruled in favor of public access to private information, and in her most famous decision, sided with labor in the Major League Baseball strike of 1995. More than anything else, she is seen as a realist. With a likely 20 years ahead on the bench, she'll have plenty of time to impart her realist philosophy."

Just as importantly, we, the people want a Supreme Court of men and women who uphold the Constitution of the United States and the laws flowing from it; a court that is balanced when it is called upon to scrutinize preemptive war, torture, black prisons, warrantless surveillance, erosion of the common wealth, and deemed the true arbiter of social, economic and electoral justice for all.

Sincerely,

SANDRA TALAVERA,
Chair.

THE ASPRIA ASSOCIATION, INC.,
Washington, DC, June 15, 2009.

Re vote to confirm Judge Sonia Sotomayor to the U.S. Supreme Court.

Hon. PATRICK LEAHY,
U.S. Senate, Washington, DC.

DEAR SENATOR LEAHY: ASPIRA, the largest national Latino organizations in the United States and the only national organization dedicated exclusively to the education of Latino youth, urges you, as a member of the Senate Judiciary Committee, to vote to confirm Judge Sonia Sotomayor after a thorough but swift confirmation process.

Judge Sotomayor's outstanding academic credentials, keen intellect, extensive judicial experience, and long history of fairness and adherence to the law, make her an exemplary candidate to serve on the Supreme Court. Raised by a single mother in public housing in the Bronx, Judge Sotomayor went on to graduate with honors from Princeton and Yale Law School, two of the most prestigious universities in the country. In her three-decade career, Judge Sotomayor has served as an Assistant District Attorney, a litigator in private practice, and served as U.S. District judge for six years before serving eleven years on the U.S. Court of Appeals for the 2nd District. She was appointed to the District Court by Republican President George H.W. Bush and to the appeals court by President Clinton. She has participated in over three thousand court decisions, and has written over 380 opinions. No other Supreme Court nominee in the last 100 years has had the experience she will bring to the court. Judge Sotomayor's compelling life experiences will allow her to bring a range of experiences and perspectives to the court's deliberations.

We sincerely hope that you will join the majority of senators, Republicans and Democrats to confirm this exemplary American to the Supreme Court.

Sincerely,

RONALD BLACKBURN MORENO,
President and CEO.

Mr. MENENDEZ. Mr. President, with that, I yield the floor.

The PRESIDING OFFICER. The Senator from New York is recognized.

Mr. SCHUMER. Mr. President, I am honored to be here today. In a few hours, we will have achieved something truly great as a nation. Our first African American President has nominated the first Hispanic Justice to the U.S. Supreme Court. Times are changing.

If there are two words that sum up this nomination, it is these: "It's time." It is time that we confirm a nominee to the Supreme Court who will improve its diversity. It is time that we confirm a moderate nominee to the Supreme Court who will pull it back into the mainstream and away from the extreme. It is time we confirm a nominee whose life story, personal history, intelligence, and experience represent the best America has to offer.

Judge Sotomayor's story is a true American story, a true New York story, and a great story. When Sonia Sotomayor was growing up, the Nancy Drew stories inspired her sense of adventure, developed her sense of justice, and showed her that women could and should be outspoken and bold. Now, in

2009, there are many more role models for a young student from her alma mater, Cardinal Spellman, to choose from, with Judge Sotomayor foremost among them.

If one listened to the debate over the last 2 days, one could easily think that my colleagues on the other side of the aisle are not talking about the same person we are. Those who are voting for Judge Sotomayor's confirmation have focused, as they should, on her history and her record. Judge Sotomayor was a prosecutor and a commercial litigator. She was nominated to the district court bench by a Republican President. Her record shows she is a true moderate. She has agreed with her Republican colleagues 95 percent of the time. She has ruled for the government and against the immigrant petitioner in 83 percent of immigration cases. She has denied race claims in 83 percent of race cases. All of these numbers place her squarely in the middle of the judges on her circuit.

But my Republican colleagues have chosen instead to focus on the speeches she has given outside the courtroom. They have zeroed in on a few choice quotes we have heard over and over again about the "wise Latina woman" quote. Is this the same person who has sat on 3,000 cases in 17 years, who ruled against Hispanic and African American plaintiffs in a wide variety of cases, and who ruled in favor of a police officer who engaged in blatantly racist speech because the first amendment protected him? Should three words outweigh 3,000 cases? Only if you have something against her in the first place.

"Bias" and "activism" are now code words for "not hard right." My colleagues say they don't want activist judges. What they really mean is they don't want judges who disagree with them and who put rule of law ahead of moving America in ideological directions.

We must and will continue to fight for mainstream judges. We must and will continue to free our unelected branch of government from ideologues and result-oriented extremism.

With the nomination of Judge Sotomayor, we have an opportunity to restore faith in the notion that the Court should reflect the same mainstream ideals that are embraced by America.

Judge Sotomayor is clearly a moderate. She is highly qualified. She is extremely intelligent. She represents the American ideal that at the end of the day, race and ethnicity and class aren't supposed to predetermine anything; through hard work and a good education, a girl from a Bronx housing project can rise to the highest Court in the most democratic country in the world.

I am so proud to cast my vote for Judge Sonia Sotomayor. I yield the floor.

The PRESIDING OFFICER. The Senator from Florida.

Mr. NELSON of Florida. Mr. President, I thank the Senator from New York for what are heartfelt words.

I was able to spend some time privately with the judge to get to know her from a first impression. Usually, in my 37 years of public life, I have been able to size up a person, and it has proven to be a fairly accurate measure of a person. My sense from that private meeting is that here we have a judge who will use a lot of common sense in making judicial decisions.

I think that is important. I think it is also important that a judge have deference in the rule of law to precedent that has already been established. I believe that to be the case with this judge.

Since it is the U.S. Supreme Court, the Supreme Court will also have the final determination on what a law does or does not say. In that case, I think we not only want a judge who is extremely sharp, intelligent, well schooled in the law, with a long history in the law, with common sense, but of moderate disposition.

I think that is what Judge Sotomayor brings to this position of the U.S. Supreme Court. I believe Judge Sotomayor will be a fair, impartial, and an outstanding Supreme Court Justice. I am very proud that I will be able to cast my vote for her in a few minutes.

I yield the floor.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. BOXER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. BOXER. Mr. President, I want to begin my remarks by introducing into the RECORD a letter I wrote with Senator OLYMPIA SNOWE in May, after Justice Souter announced he would be retiring from the Supreme Court.

I ask unanimous consent that this letter be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE,

Washington, DC, May 11, 2009.

THE PRESIDENT,
The White House,
Washington, DC.

DEAR MR. PRESIDENT: The announced retirement of United States Supreme Court Justice David Souter—an outstanding jurist—has left you with the crucial task of nominating someone for a lifetime appointment to our nation's highest bench.

The most important thing is to nominate an exceptionally well-qualified, intelligent person to replace Justice Souter—and we are convinced that person should be a woman.

Women make up more than half of our population, but right now hold only one seat out

of nine on the United States Supreme Court. This is out of balance. In order for the Court to be relevant, it needs to be diverse and better reflect America.

Mr. President, we look forward with great anticipation to your choice for the Supreme Court vacancy.

Sincerely,

BARBARA BOXER,

U.S. Senator.

OLYMPIA SNOWE,

U.S. Senator.

Mrs. BOXER. Mr. President, at that time, we wrote, in part:

The most important thing is to nominate an exceptionally well-qualified, intelligent person to replace Justice Souter—and we are convinced that person should be a woman.

That was the letter that was written by a Democrat and a Republican Senator who believe strongly that it does matter, when you only have one woman on a Court of nine, as we do right now—until we vote—it is just not enough.

President Obama has nominated an exceptionally well-qualified and intelligent woman. She has more experience on the Federal bench than any Supreme Court nominee in the last hundred years.

Judge Sotomayor received the highest rating from the American Bar Association, and she will be an outstanding addition to the high Court.

When she is confirmed, she will become only the third woman ever to don the robes of a Supreme Court Justice. She will make history as the Nation's first Hispanic Supreme Court Justice.

This is a proud moment for our entire Nation, and especially for the 13 million Latinos in California and the 45 million Latinos nationwide. She already is a role model for so many young women.

As Justice Sandra Day O'Connor said in a recent interview:

About half of all law graduates today are women, and we have a tremendous number of qualified women in the country who are serving as lawyers. So they ought to be represented on the Court.

In the weeks since she was nominated, Judge Sonia Sotomayor has proven that she has the right judgment and the right temperament to serve on the Nation's high Court. This is a proud moment for our Nation, a very proud moment.

She demonstrated, during a week of intense questioning before the Judiciary Committee, that she is tough, she is smart and, most importantly, she knows the law.

During those hearings, she made clear that she understands the role of a judge, which is to apply the law to the facts of each and every case. She said:

In the past month, many Senators have asked me about my judicial philosophy. It is simple: fidelity to the law. The task of a judge is not to make law. It is to apply the law.

Her 17-year record as a Federal judge demonstrates a respect for the law and for precedent.

Let me read some comments from Judge Sotomayor's many supporters. Robert Morgenthau, District Attorney for the County of New York, said:

Judge Sotomayor's career in the law spans three decades, and [she] worked in almost every level of our judicial system—prosecutor, private litigator, trial court judge, and appellate court judge. . . . She is an able champion of the law, and her depth of experience will be invaluable on our highest court.

Kim Askew, chair of the American Bar Association's Standing Committee on the Federal Judiciary, said:

[Judge Sotomayor] has a reputation for integrity and outstanding character. . . . Her judicial temperament meets the high standards for appointment to the court.

I have to say, having watched some of the very tough questioning of Judge Sotomayor—if I might say, questions that were asked and answered, asked and answered, and asked and answered—the judge showed she understood that the Senators had a right to be tough, had a right to ask her anything they wanted, and she stood her ground beautifully.

Second Circuit Chief Judge Dennis Jacobs said:

Sonia Sotomayor is a well-loved colleague on our court—everybody from every point of view knows that she is fair and decent in all her dealings. . . . The fact is, she is truly a superior human being.

We all bring different experiences to our work. The judge has had experiences growing up as a young Latina that have shaped her life, and she has a firsthand appreciation of the American dream.

She was raised in a South Bronx housing project. Her father, a factory worker, died when she was only 9 years of age. Her mother worked two jobs to support the family. From this humble background, she graduated summa cum laude from Princeton and became an editor of the Yale Law Review.

As a woman, Judge Sotomayor will bring a different perspective than her male counterparts on the high Court. As we have said, those of us who feel it is important to have women represented, whether it is in the Senate, the House, or in corporate boardrooms or on the Supreme Court, a different perspective is important. I will give you an example of why I believe this.

During oral arguments in a recent Supreme Court case involving a 13-year-old girl who was strip-searched, Justice Ruth Bader Ginsburg pointed out that her male colleagues didn't understand the humiliation a teenage girl would feel from being strip-searched. Justice Ginsburg said the obvious:

They have never been a 13-year-old girl. It's a very sensitive age for a girl. I didn't think that my colleagues, some of them, quite understood.

So Justice Ginsburg pointed out in that one case how important it is to have this type of diversity on the court. As the Nation's first Latina Supreme Court Justice, Judge Sotomayor

will bring a unique set of experiences to her role; and the Court will be a richer place because of her perspective.

I commend our President for selecting such an outstanding, well-qualified nominee.

I congratulate Judge Sotomayor for the very dignified manner in which she carried herself throughout this long, grueling process.

As President Obama said when he nominated her:

When Sonia Sotomayor ascends those marble steps to assume her seat on the highest Court of the land, America will have taken another important step toward realizing the ideal that is etched above its entrance: Equal justice under the law.

I look forward to seeing her sworn in as our next Supreme Court Justice.

Mr. JOHANNES. Mr. President, Senators have an enormous responsibility when it comes to deciding whether to support or oppose a Supreme Court nominee.

We must examine whether the person nominated to the highest court in the land will uphold and defend the principles contained in the Constitution, refrain from judicial activism, respect the rule of law, deliver blind justice to each and every litigant before the Court, and render reasoned decisions that adhere to precedent.

This duty has been characterized by many of my colleagues as one of the most important and far reaching decisions a Senator will ever make. I couldn't agree more.

I entered into the nomination process of Judge Sonia Sotomayor, a woman with an impressive life story and resume, with an open mind and a steadfast resolve to evaluate the nominee's qualifications on an unbiased basis.

In fact, having gone through the confirmation process myself before being sworn in as Secretary of Agriculture, I believe that a necessary amount of deference should be given to the President's choices.

However, after carefully reviewing Judge Sotomayor's record and speeches as well as closely monitoring her hearing before the Judiciary Committee, I could not support her nomination.

There are several areas that concern me with regard to Judge Sotomayor.

First, I am concerned that she will not be a neutral umpire. You see, a judge has the duty to preside over a courtroom with no inclination to side with one team over the other.

A judge must be able to put aside his or her personal or political agenda before sitting down on that bench. That is because no matter who you are—Black or White, woman or man, rich or poor—every person in this country is entitled to receive equal justice under the law.

There is a reason that Lady Justice wears a blindfold.

By now, most people are aware of Judge Sotomayor's comments that a

“wise Latina woman” would “more often than not reach a better conclusion than a White male.” However, I think it bears pointing out to those who claim the comment was made in isolation and taken out of context, that Judge Sotomayor has made a series of similar comments over the years.

For example:

In short, I accept the proposition that a difference will be made by the presence of women on the bench and that my experiences will affect the facts that I choose to see as a judge.

Our experiences as women and people of color affect our decisions. The aspiration to impartiality is just that—it's an aspiration.

I willingly accept that we who judge must not deny the differences resulting from experience and heritage but attempt . . . continuously to judge when those opinions, sympathies, and prejudices are appropriate.

By ignoring our differences as women or men of color we do a disservice both to the law and society.

Nowhere in the history of our judicial system have judges been told to “go with their gut” as implied in the judge's statement. Such a standard would erode the legitimacy of the judicial system and would put every litigant in jeopardy of receiving an unfair trial.

Rather, judges are expected to decide cases based on the rule of law, not on the basis of their feelings. Otherwise empathy towards one person would mean antipathy against another.

A concrete example of my concern that Judge Sotomayor would not be able to set aside her personal preferences and biases is the Ricci v DeStefano case. In this case, Judge Sotomayor and two of her colleagues dismissed in a summary one paragraph unpublished opinion the claims of 17 white firefighters and one Hispanic firefighter. They alleged reverse discrimination based on New Haven's decision to discard the result of a promotional exam because not enough minorities would be eligible for promotion. Nearly half of the judges on the Second Circuit criticized the ruling as a “perfunctory disposition.”

However, on June 29, 2009, the Supreme Court announced it was overturning the Second Circuit's ruling in the Ricci case. And while the final outcome appeared to narrowly overturn the Circuit's decision by a vote of 5-4, a deeper analysis is needed. All nine Justices unanimously rejected the lower court's specific holding and legal standard.

It also bears mentioning Justice Alito's concurring opinion in the case:

The dissent grants that petitioners' situation is “unfortunate” and that they “understandably attract this Court's sympathy.” But “sympathy” is not what petitioners have a right to demand. What they have a right to demand is evenhanded enforcement of the law—of Title VII's prohibition against discrimination based on race. And that is what, until today's decision, has been denied them.

Many of my colleagues questioned Judge Sotomayor about her decision in *Ricci*. Judge Sotomayor repeatedly indicated that she relied on precedent, but the Supreme Court disagreed, saying, there were “few, if any, precedents in the Court of Appeals.”

Because the Supreme Court is the highest court in the land and there is no backstop, I cannot support Judge Sotomayor's nomination. She did not convince me, either through her past rulings or during her confirmation hearing, that she would carry out justice in an impartial manner. Impartiality is essential to our justice system.

Beyond my concern that Judge Sotomayor will not be able to set aside personal views and prejudices, is her overall record before the Supreme Court. The Supreme Court has substantively reviewed 10 of Judge Sotomayor's decisions. Of those cases, eight have been reversed or vacated, one was upheld on a different legal standard and sharply criticized for using a flawed legal theory, and the last one was upheld on a slim 5-4 margin. This is a record that directly questions the nominee's legal reasoning and the ability to sufficiently apply the rule of law. A 10-percent success rate does not exude the confidence and mastery of the law that I feel is necessary of a Supreme Court Justice.

The final point of concern that I would like to highlight is Judge Sotomayor's view of the Second Amendment. In *Maloney v. Cuomo*, Judge Sotomayor joined a panel opinion that decided in one paragraph that the Second Amendment did not apply to the states. Also, in *United States v. Sanchez-Villar*, she joined a summary panel opinion that, among other things, used a one-sentence footnote to conclude that “the right to possess a gun is clearly not a fundamental right.”

Judge Sotomayor believes that states have the authority to infringe on Second Amendment rights. This is fundamentally at odds with the Constitution.

Although Judge Sotomayor attempted to disavow and reconcile her past comments during the hearing, her record speaks for itself. Even the *Washington Post*, which endorsed Judge Sotomayor, found her testimony “less than candid” and “uncomfortably close to disingenuous.”

Ultimately, I came to the decision that too many uncertainties exist regarding whether Judge Sotomayor will uphold the rule of law equally for all people and adhere to the Constitution.

While I respect and appreciate her impressive life story and accomplishments, I cannot support her nomination to the highest Court.

Mrs. HUTCHISON. Mr. President, I rise today to speak about the nomination of Judge Sonia Sotomayor to the U.S. Supreme Court.

Judge Sotomayor has a compelling biography.

As the first daughter of a young Puerto Rican couple, she grew up in a public housing project in the South Bronx.

Her father, a factory worker, died when she was 9 years old.

Her mother, a nurse, then raised her and her younger brother, and instilled in them a belief in the power of education.

Judge Sotomayor excelled in school.

She graduated as valedictorian of her class at Blessed Sacrament and at Cardinal Spellman High School in New York.

She won a scholarship to Princeton University, where she continued to excel, graduating summa cum laude and Phi Beta Kappa.

She was a co-recipient of the M. Taylor Pyne Prize, the highest honor Princeton awards to an undergraduate.

At Yale Law School, Judge Sotomayor served as an editor of the *Yale Law Journal* and as managing editor of the *Yale Studies in World Public Order*.

Over a distinguished career that spans three decades, Judge Sotomayor has worked at almost every level of our judicial system.

Today, she serves on the U.S. Court of Appeals for the Second Circuit.

An appointee of President Clinton on the Second Circuit Court, she has participated in over 3,000 panel decisions, and authored roughly 400 published opinions.

When I met with Judge Sotomayor last month, I found her to be a very likeable woman.

She also displayed these traits during her Senate confirmation hearings.

If she is confirmed, she will be the first Hispanic Supreme Court Justice—an ascendancy that will mark a historical moment for our country.

I have, throughout my career, been a strong supporter of Hispanic nominees for judicial appointments and confirmation.

I am proud of the fact that, of the 40 judges I have had a role in nominating for the district courts in Texas, and the Fifth Circuit Court of Appeals, 30 percent have been Hispanic.

Likewise, I was a strong supporter of Miguel Estrada, who, like Judge Sotomayor, had an incredibly compelling life story, but whose nomination for the U.S. Court of Appeals for the District Circuit was filibustered.

I believe the decision of whether to support a nominee for the Federal courts—and especially the highest court—must be grounded in qualification and judicial philosophy.

She certainly meets the academic and experience criteria for service on our country's highest court.

The criteria for judicial philosophy for my concurrence is to apply the law, not make the law.

A judge must interpret the Constitution, not amend it by judicial decree.

One of the most important and recently confirmed constitutional rights is the right to keep and bear arms.

The Founding Fathers knew what they were doing when they put the second amendment in the Bill of Rights. This wasn't an accident.

They knew from their experience in the Revolutionary War that a free people must have the right to possess and bear arms.

The second amendment clearly says: “A well regulated Militia, being necessary to the security of a free State, the right of the People to keep and bear Arms, shall not be infringed.”

Although some people are confused by the word “militia,” it is clear that the Founders did not use the word “militia” to mean that gun rights could only be used in an organized army.

The Framers did not intend for this right to be a “collective” right.

If that had been their purpose, they would have been satisfied with article 1 section 8 of the Constitution that gives Congress the power “to provide for calling forth the Militia to execute the Laws of the Union, suppress Insurrections and repel Invasions.”

The Framers went further than that.

They wanted to ensure that gun ownership was recognized by posterity as an “individual right.” So they included it as part of the Bill of Rights, which is a compilation of protected individual liberties such as free speech, freedom of religion, and a fair trial.

The second amendment ensures that every American can secure his freedom, and defend his life and property, if necessary.

In that sense, the right to keep and bear arms could very well be one of our most important rights—because it is the right from which all of our other rights, freedom of speech, freedom of religion, et cetera are secured.

That's why, last year, I led a congressional effort to support the affirmation of the second amendment as an important individual right in the Supreme Court case of *D.C. v. Heller*, which overturned Washington, DC's unconstitutional ban on handguns.

In that case, Senator Tester and I, joined by 53 of our colleagues and 250 members of the U.S. House, filed a “friend of the court” brief in favor of Dick Heller, who simply wished to exercise his constitutional right to protect himself and his family.

That brief was proof that a majority in Congress believe that the second amendment is a constitutionally secured individual right.

It was the first time in history that a majority of the House and Senate sent this type of brief to the Supreme Court.

In the case of *D.C. v. Heller*, the Supreme Court affirmed the right to keep and bear arms as an individual right

for the first time in almost seven decades.

Unfortunately, however, just a few months ago, even after the Supreme Court's verdict in *D.C. v. Heller*, Judge Sotomayor issued an opinion in another case, *Maloney v. Cuomo* refusing to acknowledge that the second amendment is a fundamental right, and therefore may not be binding on the States.

As a strong advocate of the second amendment, I cannot ignore this decision.

I am very troubled by Judge Sotomayor's opinion in *Maloney v. Cuomo* because it appears to disregard an instruction by the Supreme Court in *Heller* specifically regarding fundamental rights.

In Footnote 23 of the *Heller* decision, the Supreme Court stated: "With respect to *Cruikshank's* continuing validity on incorporation, a question not presented by this case, we note that *Cruikshank* also said that the First Amendment did not apply against the States and did not engage in the sort of Fourteenth Amendment inquiry required by our later cases."

These "later cases" to which the court is referring held most Bill of Rights guarantees to be incorporated through the due process clause of the 14th amendment against State violation.

This was a clear instruction to the circuits that in future second amendment cases they will need to confront the incorporation argument and do so following the Supreme Court's line of cases on incorporation.

I must take issue with Judge Sotomayor's per curiam opinion in *Maloney* because while her opinion references the *Heller* footnote, it only acknowledges the portion noting the continued validity of Supreme Court precedent indicating the second amendment is not binding on the States.

Her court failed to recognize the instruction to conduct the contemporary 14th amendment incorporation analysis the *Heller* footnote demands.

As such, the Sotomayor opinion reaches the conclusion that the cases from the 1890s are still applicable—and therefore, basically, the second amendment is not binding on the States.

When questioned by the Judiciary Committee about the *Maloney* case, Judge Sotomayor said she was following precedent.

However, she did not follow the instruction of the Supreme Court in *Heller* on this point.

In *Maloney*, the Second Circuit cites the Supreme Court cases of *Heller* and *Presser v. Illinois*, decided in 1886, and the Second Circuit opinion *Bach v. Pataki*, decided in 2005.

Judge Sotomayor determines that *Presser* and *Bach* instruct the court to maintain *Presser's* conclusion that the

second amendment is not applicable to the States.

But *Heller's* Footnote 23 asks the Court to "engage in a Fourteenth Amendment inquiry."

I specifically asked Judge Sotomayor when we met why she did not follow this instruction, articulated just last year by the Court?

I did not receive a satisfactory explanation to this very pivotal question, nor did I hear one in her testimony before the Judiciary Committee.

Heller is precedent, and in this precedent, the Supreme Court tells the circuits to perform a 14th amendment inquiry.

In April of this year, the Ninth Circuit considered the same second amendment incorporation question.

While also looking to *Presser* for guidance, the Ninth Circuit turned to its own circuit precedent, *Fresno Rifle & Pistol Club, Inc. v. Van de Kamp*, and—like the Second Circuit—it would have been inclined to conclude that the second amendment did not apply to the States.

However, the Ninth Circuit acknowledged that it had not yet engaged "in the sort of Fourteenth Amendment inquiry required by [the Supreme Court's] later cases," and therefore undertook the due process incorporation analysis as envisioned by the *Heller* footnote.

At the conclusion of the analysis, the Ninth Circuit finds that the second amendment right to keep and bear arms is "deeply rooted in this Nation's history and tradition" and "compels [us] to recognize that it is indeed fundamental" and is therefore incorporated by the due process clause of the 14th amendment and applied against the States and local governments.

Let me repeat that. The Ninth Circuit's opinion holds that the second amendment protects an individual's liberty, and because that protection is enumerated and so fundamental, the due process clause guarantees it, and the second amendment is therefore binding on the States.

We cannot escape the fact that both courts, each bound by the same *Heller* precedent, reached opposite conclusions, with Judge Sotomayor's opinion failing to subject the second amendment to the incorporation analysis required by the Supreme Court, and failing to identify the second amendment as a fundamental right, binding against the States.

It is from this fact, this outcome, that I am unable to reconcile with my earnest desire to confirm the first Hispanic Justice to the Supreme Court.

With the circuit courts split on the question of whether the second amendment is an individual right protected against State infringement, the Supreme Court will undoubtedly have this issue before it in the upcoming term.

With the constitutional right to keep and bear arms hanging in the balance, I cannot in good conscience vote to confirm a nominee whose judicial record indicates an unwillingness to protect and defend such a fundamental, individual right.

For that reason, I must oppose the nomination of Judge Sotomayor to the Supreme Court of the United States.

I similarly opposed the confirmation of Attorney General Eric Holder earlier this year due to his stance on the second amendment embodying a collective right rather than an individual right.

One added point. I am troubled by a line in her February 25, 2005, speech at the Duke Law School, "Court of Appeals is where policy is made."

This is a troubling statement in the area of judicial philosophy.

As I have stated earlier, I believe policy is made by elected officials who must be accountable through elections, not by Federal judges with lifetime appointments.

Judge Sotomayor is without a doubt an intelligent, experienced, and capable nominee, and she will bring much needed diversity to the Court.

But, after careful examination, I cannot support her confirmation to the highest court in the land.

The PRESIDING OFFICER. Under the previous order, the time until 3 p.m. will be divided, with the following speakers controlling 15 minutes each in the following order: the Senator from Alabama, Mr. SESSIONS; the Senator from Vermont, Mr. LEAHY; the Republican leader; and the majority leader.

Mr. SESSIONS. Mr. President, when President Obama nominated Judge Sotomayor to the Supreme Court, I pledged that we would treat her with respect and that our questions would be tough but always fair. It is an important office. I believe we have lived up to that obligation.

Again, I thank Chairman LEAHY and the members of the Judiciary Committee for their efforts. I think it did help provide a basis for our full debate in the Senate. I thank Judge Sotomayor for her kind words regarding how the process has been conducted, and the way she conducted herself.

We have had a robust debate on the Senate floor over these past few days, and we have addressed many important questions and issues.

The debate over Judge Sotomayor's nomination began with President Obama's radical new vision for America's court system. According to the President, all nominees to the Federal bench would now have to meet an "empathy standard." This standard requires judges to reach their most difficult and important decisions through the "depth and breadth of [their] empathy" and "their broader vision of what America should be." This is a stunning ideology. It turns law into politics. The

President of the United States is breaking with centuries of American legal tradition to enter a new era where a judge's personal feelings about a case are as important as the Constitution itself.

The President's empathy standard is much more than a rhetorical flourish. It is a dangerous judicial philosophy where judges base their rulings on their social, personal, and political views. It is an attempt to sell an old, discredited activist philosophy by marketing it under a new label. It is this activist philosophy, now under the guise of empathy, that has led judges to ban the Pledge of Allegiance because it contains the words "under God," to interpret the Constitution on the basis of foreign laws, to create a new right for terrorists who attacked the United States while robbing American citizens of their own rights to engage in activities such as silent prayer.

That philosophy also helps explain why Judge Sotomayor's panel of Federal judges allowed the city of New Haven to strip 18 firefighters of their eligibility for promotion on the basis of their race. It explains why judges have interpreted the second amendment to permit cities and States to ban guns despite the Constitution's clear language: "the right of the people to keep and bear arms . . . shall not be infringed." And it explains why judges have allowed government to seize private property for private commercial development despite the Constitution's guarantee that private property may not be taken except for "public use."

The empathy standard may sound nice, but in reality, it is cruel. It is, in truth, a bias standard. The power to rule on empathy is the power to rule on prejudice, and the power to deny the rights of some is the power to deny the rights of any or of all. A judge embraces empathy at the expense of objectivity and equality and fairness.

Eighteen firefighters in New Haven worked, studied, and sacrificed to pass the city's promotion exam. But when the results did not fit a certain racial quota, the city leaders unceremoniously scrapped the results. The firefighters put their faith in the system, and the system let them down. So they took their case to court. But Judge Sotomayor summarily dismissed their case in a one-paragraph order that did not even consider their civil rights claims. But the Judge Sotomayor who testified before the Committee did not effectively explain her ruling to deny these firefighters their day in court.

She also did her best to distance herself from the activist philosophy she has so long spoken of and championed. But it was an unconvincing effort. I believe she failed to offer a credible explanation for her critically important rulings that would eviscerate gun rights and property rights. She failed

to offer a credible explanation of her policy role in an advocacy group that took extreme positions when pursuing racial quotas, advocating that the Constitution requires that the government fund abortions and opposing reinstatement of the death penalty. Her effort to rebrand her judicial approach stretched the limits of credulity. As one editorial page opined, her testimony was "at times uncomfortably close to disingenuous."

Nevertheless, I believe we have had a deeply valuable public discussion. By the end of the hearing, not only Republicans and not only Democrats but the nominee herself ended up rejecting the very empathy standard the President used when selecting her. This process reflected a broad public consensus that judges should be impartial, restrained, and faithfully tethered to the law and the Constitution.

I think it will now be harder to nominate activist judges. This is not a question of left versus right or Republican versus Democrat. This is a question of the true role of a judge versus the false role of a judge. It is a question of whether a judge follows the law as written or as they might wish it to be. It is a question of whether we live up to our great legal heritage or whether it is abandoned.

Empathy-based rulings, no matter how well-intentioned, do not help society but imperil the legal system that is so essential to our freedoms and so fundamental to our way of life. We need judges who uphold the rights of all, not just some, whether they are New Haven firefighters, law-abiding gun owners, or Americans looking for their fair day in court. We need judges who put the Constitution before politics and the right legal outcome before their desired personal political and social outcome. We need judges who understand that if they truly care about society and want it to be strong and healthy, then they must help ensure our legal system is fair, objective, and firmly rooted in the Constitution.

Our 30th President, Calvin Coolidge, said of the Constitution:

No other document devised by the hand of man ever brought so much progress and happiness to humanity. The good it has wrought can never be measured.

I certainly believe he is correct. That document has given us blessings no people of any country have ever known, which is why real compassion is not found in the empathy standard but in following the Constitution.

Judge Sotomayor, however, has embraced the opposite view. For many years before her hearings, she has bluntly advocated a judicial philosophy where judges ground their decisions not in the objective rule of law but in the subjective realm of personal "opinions, sympathies, and prejudices."

A Supreme Court Justice wields enormous power—a power over every

man, woman, and child in our country. It is the primary guardian of our magnificent legal system. Because I believe Judge Sotomayor's philosophy of law and her approach to judging fail to demonstrate the kind of firm, inflexible commitment to these ideals, I must withhold my consent.

Mr. President, I see my colleague, Senator LEAHY, is here. He has handled many of these nominations over quite a few years. We did not agree on a lot of the things that came up in the hearings, but he committed to giving the opportunity to the minority party to have a full opportunity to ask questions and to raise issues and speak out. I thank the chairman. I think it did credit to the Senate.

I thank the chairman, and I yield the floor.

The PRESIDING OFFICER. The Senator from Vermont.

Mr. LEAHY. Mr. President, I thank the Senator from Alabama for his kind comments. As he knows, I made similar comments about him this morning in the Senate Judiciary Committee. I reiterate them here today.

We did decide, both Senator SESSIONS and I, at the beginning of this process that we would try to make sure everybody was heard. We may have different outcomes on how everybody would vote, but everybody was heard. That has been done. I compliment the leaders of the Senate for doing that.

We are about to conclude Senate consideration of this nominee. I thank those Senators who evaluated this nomination fairly. I thank especially those Republican Senators who have shown the independence to join the bipartisan confirmation of this historic nomination. I thank all Senators on both sides of the aisle who spent hours and hours and days and days in our hearings.

Some critics have attacked President Obama's nomination of Judge Sonia Sotomayor by contending he picked her for the Supreme Court to substitute empathy for the rule of law. These critics are wrong about the President; they are wrong about Sonia Sotomayor.

Let's leave out the rhetoric and go to the facts. When the President announced his choice of Judge Sotomayor 10 weeks ago, he focused on the qualities he sought in a nominee. He started with "rigorous intellect" and "a mastery of the law."

He then referred to recognition of the limits of the judicial role when he talked about "an understanding that a judge's job is to interpret, not make, law; to approach decisions without any particular ideology or agenda, but rather a commitment to impartial justice; a respect for precedent, and a determination to faithfully apply the law to the facts at hand." That is what President Obama said.

Then he went on to mention experience. He said:

Experience being tested by obstacles and barriers, by hardship and misfortune; experience insisting, persisting, and ultimately overcoming those barriers. It is experience that can give a person a common touch and a sense of compassion; an understanding of how the world works and how ordinary people live. And that is why it is a necessary ingredient in the kind of justice we need on the Supreme Court.

Then the President concluded by discussing how Judge Sotomayor has all these qualities. The President was looking not just for lawyerly ability, but for wisdom—for an understanding of how the law and justice work in the everyday lives of Americans.

In a subsequent radio and Internet address, the President reiterated the point when he said:

As a Justice of the Supreme Court, she will bring not only the experience acquired over the course of a brilliant legal career, but the wisdom accumulated over the course of an extraordinary journey—a journey defined by hard work, fierce intelligence, and the enduring faith that, in America, all things are possible.

President Obama did not say that he viewed compassion or sympathy as a substitute for the rule of law. In fact, he has never said he would substitute empathy for the rule of law. That is a false choice. The opposition to this nomination is based on a false premise.

When she was first named, Judge Sotomayor said: "I firmly believe in the rule of law as a foundation for all our basic rights." Judge Sotomayor reiterated time and time again during her confirmation hearing her fidelity to the rule of law. She said:

Judges can't rely on what's in their heart. They don't determine the law. Congress makes the laws. The job of the judge is to apply the law. And so it's not the heart that compels conclusions in cases. It's the law. The judge applies the law to the facts before that judge.

Those who, after 4 days of hearing, would ignore her testimony, should at least take heed of her record as a judge. Judge Sotomayor has demonstrated her fairness and impartiality during her 17 years as a judge. She has followed the law. There is no record of her substituting her personal views for the law. The many independent studies that have closely examined Judge Sotomayor's record have concluded it is a record of applying the law, not bias.

What she has said, and what we should all acknowledge, is the value her background brings to her as a judge and would bring to her as a Justice, our first Latina Justice.

Judge Sotomayor is certainly not the first nominee to discuss how her background has shaped her character. Justice O'Connor has acknowledged, "We are all creatures of our upbringing. We bring whatever we are as people to a job like the Supreme Court." Everybody knows that, just as all 100 of us bring who we are to the Senate. Many recent Justices have spoken of their

life experiences as influential factors in how they approach the bench. Justice Alito and Justice Thomas, nominated by Republican Presidents, did so famously at their confirmation hearings, and then they were praised by the Republican side of the aisle for doing so. Indeed, when the first President Bush nominated Justice Thomas to the Supreme Court, he touted him as an "intelligent person who has great empathy."

Some of those choosing to oppose this historic nomination have tried to justify their opposition by falsely contending that President Obama is pitting empathy against the rule of law. Not so. Not so. This President and this nominee are committed to the rule of law. They recognize the role of life experience not as a substitute for the law or in conflict with its mandates, but as informing judgment.

What is really at play is not a new Obama "empathy standard" with respect to judicial selection, but a double standard being applied by those who supported the nominations of Justice Alito and Justice Thomas.

Judge Sotomayor's career and judicial record demonstrate that she has always followed the rule of law. The point is, we don't have to guess at what kind of a judge she has been. She has had more experience on the Federal court, both trial level and appellate level, than any nominee in decades. She will be the only member of the U.S. Supreme Court with experience as a trial judge. We don't have to guess. There are well over 3,000 cases, so we don't have to guess. Attempts at distorting that record by suggesting that her ethnicity or her heritage would be the driving force in her decisions as a Justice of the Supreme Court are demeaning to women and all communities of color.

I have spoken over the last several years about urging Presidents from both political parties to nominate someone from outside the "judicial monastery." I believe that experience, perspective, an understanding of how the world works and people live, and the effect decisions will have on the lives of people are very important qualifications. By striving for a more diverse bench drawn from judges with a wider set of backgrounds and experiences we can better ensure there will be no prejudices and biases controlling our courts of justice. All nominees have talked about the value they will draw on the bench from their backgrounds. That diversity of experience and strength is not a weakness in achieving an impartial judiciary.

I have voted on every member of the current U.S. Supreme Court. I have participated in the hearings of all but one of them, and that one I voted on the nomination having watched the hearing. I have sat in on the hearings of Justices no longer there, either be-

cause of retirement or death. I have conducted hundreds of nomination hearings—everything from courts of appeals judges, Federal district court judges, and Department of Justice appointees. I have been ranking member on two Supreme Court nominations and conducted this one. I mention that to thank the Senator from Alabama for his cooperation during it.

After those hundreds of hearings, you get a sense of the person you are listening to. I met for hours with Judge Sotomayor, either in the hearing room or privately. You learn who a person is, you really do, in asking these kinds of questions. You have to bring your own experience and your own knowledge to what you are hearing. There are only 101 people in this great Nation of 300 million people who get a say as to who is going to be one of the nine members of the U.S. Supreme Court. First and foremost, it is the President who makes the nomination, but then the 100 of us in the U.S. Senate who must follow our own conscience, our own experience, our own abilities in deciding whether we will advise and consent to that nomination. It is an awesome responsibility, and we should do it not because we are swayed by any special interest group of either the right or the left.

In fact, I have a rule—my office knows it very well—that in Supreme Court confirmations I will not meet with groups on either the right or the left about it. I will make up my mind through those hours and days and the transcripts of the hearing. I would urge all Senators to do that. I think it is unfortunate if any Senator of either party were to make up their mind on a Supreme Court nominee based on pressure from special interest groups from either the right or the left. That is a disfavor to those hundreds of millions of Americans who don't belong to pressure groups of either the right or the left. They expect us to stand up.

That is what we should do on Judge Sotomayor. This is an extraordinary nominee. I remember when President Obama called me a few hours before he nominated her. I was with our troops in Afghanistan, and he explained what he was going to do in a few hours. We talked about that and we talked about Afghanistan, but we talked especially about her. He said, you know, there are Web sites already developing opposed to her. And within hours, we had leaders calling her racist, bigoted, or being affiliated with a group akin to the Ku Klux Klan. Fortunately, Senators on neither side joined with that.

We are almost at a time for a vote. I would hope every Senator would search his or her conscience and ask whether they are voting for this nominee based on their oath of office, based on their conscience, or are they reflecting a special interest group.

When the Judiciary Committee began the confirmation hearings on this Supreme Court nomination, and when the Senate this week began its debate, I recounted an insight from Dr. Martin Luther King, Jr., which is often quoted by President Obama. "Let us realize the arc of the moral universe is long, but it bends toward justice."

It is distinctly American to continually refine our Union, moving us closer to our ideals. Our union is not yet perfected, but with this confirmation, we will be making progress.

Years from now, we will remember this time when we crossed paths with the quintessentially American journey of Sonia Sotomayor and when our Nation took another step forward through this historic confirmation process. I urge each Senator to honor our oath, our Constitution, and our national promise by voting his or her conscience on the nomination of Sonia Sotomayor to serve as a Justice of the U.S. Supreme Court. I will proudly vote for her.

Mr. President, I see the Republican leader is here, and I will reserve the remainder of my time.

The PRESIDING OFFICER. The Republican leader is recognized.

Mr. MCCONNELL. Mr. President, once again I wish to thank the chairman and the ranking member of the Judiciary Committee, Senator LEAHY and Senator SESSIONS, and their staffs, for conducting a dignified and respectful hearing. From the beginning of the process, I assured Judge Sotomayor that Republicans would treat her fairly. At the end of the process, I can say with pride that we kept that commitment.

This particular nominee comes before us with an impressive resume and a compelling life story. Yet the question we must ask ourselves today is whether we believe Judge Sotomayor will fulfill the requirements of the oath that is taken by all Federal judges to administer justice without respect to persons; that is, to administer justice evenhandedly.

President Obama asked himself a different question when he was looking for a nominee. The question he asked is whether that person has the ability to empathize with certain groups. And as I have said, empathy is a fine quality. But in the courtroom, it is only good if a judge has it for you. What if you are the other guy? When he walks out of the courthouse, he can say he received his day in court. He can say he received a hearing. But he can't say he received justice.

At her hearings Judge Sotomayor was quick and even eager to repudiate the so-called empathy standard. But her writings reflect strong sympathy for it. Indeed, they reflect a belief not just that impartiality is not possible, but that it is not even worth the effort.

Judge Sotomayor's record of complex constitutional cases concerns me even

more. Because in Judge Sotomayor's court, groups that didn't make the cut of preferred groups often found they ended up on the short end of the empathy standard, and the consequences were real.

One group that didn't make the cut in Judge Sotomayor's court were those who needed the courts to enforce their first amendment rights to support candidates for political office free from government interference. She is free to express her personal opinions on this issue, as she did when she wrote that merely donating money to a candidate is akin to bribery.

But as a judge she was obligated to follow clear Supreme Court precedent. And when it came to this issue, she followed her political beliefs instead, voting not to correct her circuit's clear failure to follow the Supreme Court precedent in this area of the law.

Ultimately, the Supreme Court, in a 6-to-3 opinion authored by Justice Breyer, corrected this error by her circuit on the grounds that it had failed to follow "well-established precedent."

Another group that didn't make the cut were those who need the courts to protect them from unfair employment preferences. As a lawyer, she advocated for—and, in fact, helped plan—lawsuits that challenged civil service exams for public safety officers. And as a judge, she kicked out of court—with just six sentences of explanation and without any citation of precedent—the claims of a group of firefighters who had been unfairly denied promotions they had earned. This past June, the Supreme Court reversed her ruling, making her 0 for 3 this term, with all nine Justices finding that she had misapplied the law.

Gun owners didn't make the cut, and they haven't fared well before Judge Sotomayor either. She has twice ruled the second amendment isn't a fundamental right and thus doesn't protect Americans when States prevent them from bearing arms. And here too, she didn't even give the losing party's claims the dignity of a full treatment. In one case, she disposed of the party's second amendment claim in a one-sentence footnote. In the other, she did it with a single paragraph.

Property owners weren't on the list either, and they too haven't fared well in Judge Sotomayor's court. In an important fifth amendment case—the amendment that protects against the government taking private property—Judge Sotomayor broadened even further the government's power, a ruling which one property law expert called "one of the worst property rights decisions in recent years."

And her ruling in this case fit an all-too-familiar pattern: she kicked the aggrieved party's serious constitutional claims out of court in an unsigned, unpublished, summary order, with only a brief explanation as to why.

These important cases illustrate the real-world consequences of the empathy standard, in which judges choose to see certain facts but not others, and in which it's appropriate for judges to bring their personal or political views to bear in deciding cases. Lieutenant Ben Vargas, one of the firefighters who did not fare well under the empathy standard, may have put it best. Speaking of himself and the other plaintiffs in that case, he said,

We did not ask for sympathy or empathy. We asked only for evenhanded enforcement of the law, and . . . we were denied that.

Lieutenant Vargas understands what most other Americans understand and what all of them expect when they walk into a courtroom: that in America, everyone should receive equal justice under the law. This is the most fundamental test for any judge, and all the more so for those who would sit on our Nation's highest court, where a judge's impulses and preferences are not subject to review. Because I am not convinced that Judge Sotomayor would keep this commitment, I cannot support her nomination.

Mr. President, does our side have time left, I would ask?

The PRESIDING OFFICER. Only the leader has time.

Mr. MCCONNELL. I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, on May 17, 1954, the Supreme Court of the United States handed down a ruling that would begin to reroute America toward a more unified Union. When the Justices unanimously directed, in *Brown v. Board of Education*, that our children's schools must no longer be racially segregated, their decision echoed far beyond the walls of a courtroom in Washington, DC, or a classroom in Topeka, KS. The decision paved the way for countless future turns that would make our Nation more just and its people more equal.

Not 6 weeks later after that opinion, Sonia Sotomayor was born in the south Bronx. In her lifetime, this Senate has sent to the Supreme Court the only two women and the only two Americans of color to ever sit on that bench.

In the 10 weeks since President Obama made history by nominating Judge Sotomayor, many have emphasized the importance of putting the first Hispanic on the Nation's highest Court. This is truly historic for our entire Nation but especially for the young Latinos in this country who will see in Judge Sotomayor concrete evidence of the heights to which they can legitimately aspire.

But it is no less significant that in a country where women represent half of our population, Judge Sotomayor will be the third woman, only the third woman to ever serve as a Justice and will be one of only two women serving on the Court today.

In many ways, Justices Sandra Day O'Connor and Ruth Bader Ginsburg have made this day possible for Judge Sotomayor. Because of the trail these women; that is, O'Connor and Ginsburg and others like them, have forged, Judge Sotomayor has been recognized throughout her career for her intelligence, talent, and accomplishments rather than being defined by her gender.

It was not easy. Justice O'Connor finished high school at age 16, and when she finished Stanford Law School, one of the finest law schools in the world, a year early—she did it in 2 years—she was third in her class, two behind Justice Rehnquist but no law firm in California would hire Justice O'Connor as an attorney because—because she was a woman. The most one firm would offer her was a position as a legal secretary.

When Justice Ginsburg arrived at Harvard Law School, she was greeted by a dean who asked why the nine women in her class—it was a class of about 700 people—why nine women in her class were occupying seats that could otherwise be taken by men.

Little did he know she would later join another group of nine legal experts whose membership was long restricted to men, the Supreme Court of the United States. Like Justice O'Connor, Justice Ginsburg did not receive a single offer from any of the 12 law firms with which she interviewed, even though she finished first in her law school class.

When she was recommended for a clerkship to the Supreme Court, at least two of the Justices refused to hire her. Why? She was a woman.

America is grateful that O'Connor and Ginsburg did not give up. We are fortunate that their voices and the real-world perspective they brought to the table were part of the debate during some of our Nation's landmark cases on gender equality.

In the Lilly Ledbetter 2007 case before the Supreme Court, Justice O'Connor's successor, Samuel Alito, wrote the majority opinion in a 5-to-4 ruling that made it virtually impossible for women and other victims of pay discrimination to fight back.

Justice Ginsburg, who herself has been a victim of pay discrimination because she was a woman, read her powerful dissent aloud from the bench. It is rarely done. But she stood and proudly voiced her dissent in that 5-to-4 opinion. She invited Congress to correct this injustice, and we did that. We changed the law. After we passed the Lilly Ledbetter Fair Pay Act this year,

it was the first piece of legislation that President Barack Obama signed into law.

Similarly, when the Supreme Court heard the case of a 13-year-old honor student, a girl who had been strip-searched at school, Justice Ginsburg heard her colleagues minimize the humiliation the student had suffered. Justice Ginsburg noted that she was the only one on the Court who had ever been a 13-year-old girl and encouraged her colleagues to take into account the victim's perspective. The Court rightly ruled the search was unreasonable. That would not have happened but for Ruth Bader Ginsburg.

Judge Sotomayor's life experiences will not dictate her decisions any more than Justices O'Connor, Ginsburg, Scalia, or Alito have let their personal pasts prescribe their own rulings. But as the newest member of the Supreme Court, she will bring a perspective not only as a woman and a Hispanic, but also a former criminal prosecutor, commercial litigator, trial judge, and appellate judge. She will share the depth and breadth of that experience with her colleagues, just as they will be able to share their own unique views on any case with her—their own views.

Justice O'Connor has said that the first African-American Justice, Thurgood Marshall, opened for his colleagues a window into a different world and was able to relate to them experiences they could not know.

Justices O'Connor and Ginsburg have done the same. Soon so will Judge Sotomayor. A more diverse Supreme Court is a better Supreme Court.

Judge Sotomayor's journey to this day has not been without obstacles. But because of the struggles fought by those who came before her, she has been able to succeed. Today the Senate will make history by confirming the first Hispanic, the third woman, and the third person of color to the Supreme Court of the United States. But equally as important, we will also make history by confirming someone as qualified as Sonia Sotomayor.

Her experiences come not only from the legal world but also the real world. Her understanding of the law is grounded not only in theory but also in practice. Her record is beyond reproach, her respect for the limits of the judiciary is resolute, and her reverence for the law is unwavering.

Sonia Sotomayor is an American of tremendous credentials. Both her academic record and her career experience are second to none. She graduated *summa cum laude* from Princeton University and excelled at Yale; again, Stanford, Harvard, Yale, all in the top three law schools in the country. She excelled at Yale where she was a member of the law review, the prestigious Yale Law Review.

After she is confirmed, she will be the only Justice who has seen a trial

from every single angle. She has seen a trial from prosecuting civil and criminal cases, she has presided over them as a trial judge, and handled them as an appellate court judge. That is precisely the kind of experience we need on the Supreme Court.

I have had concerns for quite some time that we have far too few judges on the Court who have had trial experience. As a trial lawyer—I have tried more than 100 cases in front of juries—that experience to someone sitting on that Court is important. And she will bring that. That is so important.

We have too many Supreme Court Justices who have never conducted a trial. Some of them have never been involved in a trial. They have looked at cases from the appellate purview. I wanted someone who has looked at a case from a trial court perspective.

As the distinguished ranking member of the Senate Judiciary Committee, Senator JEFF SESSIONS of Alabama, said shortly after her nomination, Judge Sotomayor's nomination: "She's got the kind of background you would look for, almost an ideal mix of private practice, prosecution, trial judge, circuit judge."

I could not agree more with my friend JEFF SESSIONS. Her experience as a trial judge will be invaluable to the Supreme Court. As a former trial lawyer, as I have indicated, a judge is more than just a political title to me. It is someone who understands the law and sees every day how it affects people, real people.

When looking at Judge Sotomayor, I see someone who knows what happens in a courtroom, which is an arena unlike any other arena in the world. We tend to think of Supreme Court cases as major milestones that change the arc of our history and define our principles. And they do. But they often begin as ordinary, routine cases before a trial judge. It could be a traffic stop that winds up at the Supreme Court, it could be a protest in a park, it could be the placement of some monument in a park or some public place, it could be a dispute over money.

Linda Brown was a girl trying to go to public school close to her house in Topeka, Kansas, setting in motion the beginning of the end of segregation in *Brown v. Board of Education*. Linda Brown was that little girl who wanted to go to school close to her home. Judge Sotomayor understands people like Linda Brown. She has developed a 17-year record as a moderate judge who is squarely in the mainstream.

One of her colleagues on the Second Circuit Court of Appeals for our country has credited Sotomayor with such an insightful and convincing understanding of the law that she changed his mind many times. He said: "I would read one of the memos she had written on a case and say, I think she's got it and I don't."

This is one of the reasons that both Republican and Democratic Presidents have nominated her to the Federal bench. It is the reason she has been confirmed twice by this body with strong bipartisan support. It is the reason that liberals and conservatives alike in the Senate will vote today to confirm her.

This woman's brilliance was on display last month. Remember, she just broke her leg. But she stood 4 days of grueling testimony with some of the finest legal minds in our country, the Democrats and Republicans of that Judiciary Committee. She did a good job in a very difficult situation. She was asked tough questions and she gave honest answers. Judge Sotomayor, who has been credited with saving baseball in one of her opinions, hit it out of the park in her testimony and her presence before the Judiciary Committee. If there ever were a home run, she hit it.

I thank Chairman LEAHY, my dear friend, who has been so good to me for so many years. I think back with fondness of our time here together in the Senate. I thank Ranking Member SESSIONS, who has always been a gentleman to me. We have disagreed on many public issues, political issues, but never do we disagree on our friendship.

I appreciate Chairman LEAHY and Senator SESSIONS for running a thoughtful and thorough confirmation hearing. I appreciate the generous and genuine cooperation of my colleagues who support this nomination as well as the respect shown by those who dissent.

But I commend Barack Obama, the President of the United States, for selecting such an accomplished, qualified, and experienced nominee to replace Justice Souter. It is with some sadness that I stand here today and recognize that David Souter will no longer be on the Supreme Court. I can say about no other Member of the Supreme Court what I can say about David Souter. David Souter was my friend. We did things socially. We had meals together. What a wonderful human being. I will miss him. He has always been a powerful defender of constitutional rights, whether it is the State of New Hampshire's constitutional rights or our country's constitutional rights. All Americans thank this good man for his decades of service to our Nation, and he has more to give. I am confident, though, that Judge Sotomayor will soon build upon her impressive record which is already very impressive when she is across the street at the Supreme Court.

I am certain she will leave the writing of the law to those of us on this side of the street. That is our job, and she will impartially and faithfully fulfill her constitutional duty to apply only the laws that we pass here.

I am also convinced that, when she soon takes the same oath every Justice

before her has taken, she will "administer justice without respect to persons, and do equal right to the rich and to the poor."

Sonia Sotomayor has risen remarkably from the trials of a modest upbringing in the South Bronx of New York to presiding over major trials on the Federal bench. All Americans, men and women of every color and background, can be confident that she will ensure equal justice under the law in our Nation's very highest Court.

That is why I am so proud to cast my vote in a few minutes for the confirmation of Sonia Sotomayor as an Associate Justice of the United States Supreme Court.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is, Will the Senate advise and consent to the nomination of Sonia Sotomayor, of New York, to be an Associate Justice of the Supreme Court of the United States?

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from Massachusetts (Mr. KENNEDY) is necessarily absent.

The PRESIDING OFFICER. Visitors in the galleries are reminded that expressions of approval or disapproval are not permitted.

Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 68, nays 31, as follows:

[Rollcall Vote No. 262 Ex.]

NOT VOTING—1

Kennedy

The nomination was confirmed.

The PRESIDING OFFICER. Under the previous order, the motion to reconsider is considered made and laid upon the table.

The President will be immediately notified of the Senate's action.

Mr. LEAHY. Mr. President, the Senate has concluded consideration of the nomination of Sonia Sotomayor and has confirmed her as a Justice on the U.S. Supreme Court. The consideration of a nomination for a lifetime appointment to the Supreme Court is one of our most consequential responsibilities. The consideration of the nomination of Sonia Sotomayor has been a credit to the Judiciary Committee and to the Senate.

We could not give this process the attention it deserves without the help of dedicated staff. For 2½ months, the staff of the Judiciary Committee has worked long hours dutifully to help Senators in their review. I wish to thank the following members of the majority staff in particular: Jeremy Paris, Erica Chabot, Kristine Lucius, Roscoe Jones, Shanna Singh Hughey, Maggie Whitney, Sarah Hackett, Michael Gerhardt, Elise Burditt, Noah Bookbinder, Stephen Kelly, Kelsey Kobelt, Matt Virkstis, Anya McMurray, Juan Valdivieso, Curtis LeGeyt, Zulima Espinel, Tara Magner, Roslyne Turner, Erin O'Neill, Sarah Guerrieri, Brian Hockin, Joseph Thomas, Leila George-Wheeler, Laura Safdie, Kathleen Roberts, Aaron Guile, Matt Smith, Lydia Griggsby, Patrick Sheahan, Scott Wilson, Dave Stebbins, Sarah Hasazi, Kiera Flynn, Bree Bang-Jensen, Tom Wheeler, Eric Poalino, Brad Wilhelm, Lauren Rosser, Chuck Papirmeister, and Bruce Cohen. I also thank my staff for their hard work on this nomination, in particular, Ed Pagano, David Carle, Jennifer Price, and Kevin McDonald.

I commend and thank the hard-working staffs of the other Democratic members of the Judiciary Committee for their tremendous contributions to this effort. I also want to extend considerable thanks to the Democratic leadership and floor staff, in particular Serena Hoy, Mike Spahn, Stacy Rich, and Joi Chaney.

I also commend and thank Senator SESSIONS, the committee's ranking Republican, and his staff, in particular, Brian Benczkowski, Elisebeth Cook, Danielle Brucchieri, and Lauren

Pastarnack, for their hard work and professionalism.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will resume legislative session.
The majority leader.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HARKIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BEGICH). Without objection, it is so ordered.

MAKING SUPPLEMENTAL APPROPRIATIONS FOR FISCAL YEAR 2009 FOR THE CONSUMER ASSISTANCE TO RECYCLE AND SAVE PROGRAM

The PRESIDING OFFICER. Under the previous order, the Senate will proceed to the consideration of H.R. 3435, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 3435) making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. HARKIN. Parliamentary inquiry, Mr. President: What is the order of business right now?

The PRESIDING OFFICER. Certain amendments are in order to be offered to the bill, with a 30-minute time limit.

Mr. HARKIN. Thirty-minute time limit on?

The PRESIDING OFFICER. Each amendment.

AMENDMENT NO. 2300

Mr. HARKIN. Mr. President, I have an amendment. I believe it is at the desk. If not, I send it to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Iowa [Mr. HARKIN] proposes an amendment numbered 2300.

Mr. HARKIN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To limit the provision of vouchers to individuals with adjusted gross incomes of less than \$50,000 or joint filers with adjusted gross incomes of less than \$75,000)

At the appropriate place, insert the following:

SEC. _____. ELIGIBLE INDIVIDUALS.

(a) IN GENERAL.—Section 1302(c)(1) of the Supplemental Appropriations Act, 2009 (Pub-

lic Law 111-32; 123 Stat. 1910; 49 U.S.C. 32901 note) is amended by adding at the end the following:

“(H) ELIGIBLE INDIVIDUALS.—A voucher may only be issued under the Program in connection with the purchase of a new fuel efficient automobile by an individual—

“(i) who filed a return of Federal income tax for a taxable year beginning in 2008, and, if married for the taxable year concerned (as determined under section 7703 of the Internal Revenue Code of 1986), filed a joint return;

“(ii) who is not an individual with respect to whom a deduction under section 151 of the Internal Revenue Code of 1986 is allowable to another taxpayer for a taxable year beginning in the calendar year in which the individual's taxable year begins; and

“(iii) whose adjusted gross income reported in the most recent return described in clause (i) was not more than \$50,000 (\$75,000 in the case of a joint tax return or a return filed by a head of household (as defined in section 2(b) of the Internal Revenue Code of 1986)).”.

(b) REGULATIONS.—Not later than 7 days after the date of the enactment of this Act and notwithstanding the requirements of section 553 of title 5, United States Code, the Secretary of Transportation shall promulgate final regulations that require—

(1) each purchaser or leaser of a new fuel efficient automobile under the Consumer Assistance to Recycle and Save Program established under section 1302(a) of such Act (Public Law 111-32; 123 Stat. 1909; 49 U.S.C. 32901 note) to affirm on a standard form, determined by the Secretary, that such purchaser or leaser is an individual described by section 1302(c)(1)(H) of such Act, as added by subsection (a); and

(2) each dealer that receives a form described in paragraph (1) under such program to submit such form to the Secretary.

(c) FRAUD DETECTION.—Upon receipt under paragraph (2) of subsection (b) of a form described in paragraph (1) of such subsection, the Secretary shall submit such form to the Internal Revenue Service to determine whether the purchaser or leaser has violated section 641 of title 18, United States Code.

Mr. HARKIN. Mr. President, the Car Allowance Rebate Program, or the cash for clunkers as everyone knows it, has been very popular with the American people, there is no doubt about it, the way it has been used. It has been a shot in the arm for the auto industry and our dealers at a very critical time. But I believe the program should be strengthened, and I think we should seize this supplemental time as an opportunity to do just that.

When this program was first authorized last year and we put this into effect, at that time I made the observation, which I will repeat here today, that, why would we want to give \$4,500 to the President of the United States, who makes \$400,000 a year, so he can buy a new car? Why would we want to give a Member of the Senate, who makes \$172,000 a year, \$4,500 to buy a new car? Quite frankly, we can afford to buy a new car.

But how about the rest of the American people out there, those who are making \$30,000 a year, just above the minimum wage or \$35,000 a year or \$40,000 a year? How about them? What do they get out of this? Well, they can

get \$4,500 to buy a new car too. Someone who is making \$35,000 a year probably does not have health insurance either. They probably have some old clunker made back in the 1990s or 1980s they are still driving that they are paying a lot for because it is a gas guzzler and they are paying a lot to get it repaired because they cannot afford to buy a new car. If you give them \$4,500, many still cannot buy a new car.

So I argued at that time, when we did this, that we ought to put an income limit on it. That way, if you put an income limit on it, then the amount of money we are appropriating—that is what we are doing, by the way, spending taxpayers' money; we are putting this money out there—then that amount of money goes to a smaller subset of people, those who are low and moderate income. If you do that, then you can afford to give them a little bit more money. So someone making \$35,000, \$30,000, \$40,000 a year might be able to get not \$4,500 but maybe \$7,500, maybe \$8,000. Someone in that income category, then, could go out and buy a new car because they could get a loan, say, if they are buying a \$16,000 or \$17,000 car, and that is what new cars are selling for, at least some of the more modest automobiles. Some of the more modest automobiles cost around \$14,000, \$16,000, \$17,000. So if they got more money, that means they could get a loan for 50 percent of the price. They probably could not get a loan for 75 percent or 80 percent of the price because they simply do not have that much credit. But they could get a loan for maybe half of the price of a car because, obviously, when they drove it away, the value of the car would still be more than that.

So I argued at the time that is what we should do with this money, and that is what I do again with this amendment. This amendment just basically says it limits the income, restricting the participation to individuals with an adjusted gross income of less than \$50,000 and families with an adjusted gross income of less than \$75,000. So if you have an adjusted gross income as a single person of less than \$50,000, you can participate; if you are a family, with less than \$75,000 in adjusted gross income, you can participate.

Again, what I don't have in this amendment is increasing the amount of money.

So that is the thrust of this amendment. I know the program has been very successful. The first \$1 billion was rapidly exhausted. I assume the second \$2 billion we are going to be voting on would do the same. To my way of thinking, let's get a couple of bangs for the buck. Let's not only stimulate our economy by getting a lot of those cars off the lot and giving a shot in the arm to the auto industry, but let's help some people who really need some help: lower income, moderate-income individuals, and families who, even if you

give them \$4,500, can't afford to buy that new car. So, to me, that is what we ought to do. We ought to ensure that we get the maximum economic stimulus for every dollar we spend.

If we are going to give a lot of money to people who make \$150,000 or \$200,000 a year, or whatever—there is no income limit on the bill now—I am not certain that is a lot of economic stimulus. I might like it. I could probably take my car—I forget what year my car is, early 2000—I could take it in and get a new car, and I would get \$4,500. But is that fair? Is that fair to someone of my status who makes—let's face it, I make \$172,000 a year. Is it fair that I should get \$4,500 to go out and buy a new car? I just don't think that is fair. I don't think it is right. But I think it would be right for someone making less than \$50,000 a year because they are the ones who need the help. They need some economic stimulus also.

The higher the income of the person, the more likely they are to buy a new car without the rebate and in many cases would do that. Maybe it would not happen this month. But it may very well happen in the months to come.

By only providing money to those who are less likely to buy a car without the government benefit, we have a more efficient use of government dollars.

For the modest income family with an old gas guzzler, they are paying more for gas, they are paying more for repairs because they can afford to repair the car but they can't afford to get a new car, so they are stuck. They really need the help. I always thought cash for clunkers was a great idea—I still do, if it was targeted—if it was targeted and you gave lower and moderate-income people enough money to go out and do this.

So I think the \$1 billion before, and now the \$2 billion—so \$3 billion—I think could have been much better spent by targeting it to low-income people and giving them the economic stimulus they need, so they will be saving money because they will be spending less on gas and they will be saving money because they are spending less on car repairs.

People of modest means are the most likely to have a vehicle that is really old, that is really a gas guzzler. Again, in the absence of an incentive, they are going to stick with their old vehicle because they simply can't afford a new car. A \$4,500 rebate obviously provides a powerful incentive. We have seen that. It works.

I don't have any demographics. I don't have any data on who purchased these cars in regard to their income levels because there is no income guidelines on this, we don't really know who walked into the showrooms and bought these cars. We do know about half the cars were foreign cars.

We do know that. Almost half were U.S. big three company cars. We do know that. But we just don't know what the incomes were, the economic status of the individuals or families who came in and purchased this new car.

I will say that I have on a few occasions talked to individuals I know who are of modest income means to ask them if they were taking advantage of this, and in just a few instances that I have been able to tap into this—by no means is this any kind of a poll that would be accurate, but in just the few cases where I have asked, people have said: Well, you know, \$4,500 is nice, but I don't have the rest of it. Quite frankly, my credit is not very good because I am up to here with credit cards, and I am not certain I can get the money together to buy that car. So, again, that is just a couple of instances. I wouldn't say that is generally true, but it gives me an indication there are a lot of people out there who would like to have a new car, who would like to have the wherewithal to do it but even with \$4,500 would not be able to.

So, again, that is what my amendment is. It is very simple. It just says right now that \$50,000 per person, \$75,000 per family. So think about it.

Right now, an executive with a \$1 million salary and a 10-year-old gas-guzzling second car—perhaps a Cadillac; that is their second car or their third car—they can walk right into the showroom and purchase a brand new Cadillac that gets an additional 8 miles per gallon. That executive making a million-dollar salary, we will give them a \$4,500 gift from the Federal Government.

Is this what we want to do? I don't think so. I just don't think it is a wise use of the limited funding we have. It probably will stimulate the economy; sure. I have no doubt about that. But is it stimulating the economy for lower income people whom I think we also ought to be stimulating in terms of their economic situation too?

So, again, that is the essence of the amendment. I think the program works. It is good, but it should be appropriately targeted to Americans of modest incomes and modest means. They tend to drive older vehicles. They need those cars to get to work, to take their kids to afterschool activities, to get to the doctors, and if they live in rural areas such as Iowa and places like that, they depend on that car for their life. So I think it makes good sense to offer a car purchase rebate. I am not opposed to the program. I think it works. But I just think it ought to be better targeted.

Mr. KYL. Mr. President, before the Senator from Iowa leaves the floor, if the Senator from Iowa has no further speakers on his amendment or wishes to speak any further, I am prepared on our behalf to yield all the time on our

side if he would like to yield the time on his side so we can move the process on, and if the Senator would like to ask for the yeas and nays right now before I seek to offer my amendment, I am happy to stand by for that.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. Mr. President, I am not sure who is controlling time, but I wish to speak on the bill and on the amendment at the same time.

Is there a time limit on the bill?

The PRESIDING OFFICER. There is a total of 30 minutes on the amendment, equally divided.

Mr. LEVIN. I am asking a parliamentary inquiry: Is there a time limit on the bill?

The PRESIDING OFFICER. No.

Mr. LEVIN. I thank the Presiding Officer. I wish to speak on the bill. I would ask, who is controlling time in opposition to the amendment? I wish to speak on the bill.

Mr. President, I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HARKIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HARKIN. Mr. President, it has been brought to my attention that there is a mistake in drafting part of this amendment. Quite frankly, it does read that a voucher may only be issued under the program to an individual "who filed a return of Federal income tax for taxable year beginning in 2008."

There are some low-income people who don't file income tax returns, so there is a little bit of a problem in the drafting. I still remain committed to somehow working this out. It now looks as though even some people who make just over the minimum wage would not be allowed to go in, and those are the people I am trying to get to more than anybody else, those who are making a very low income but probably don't file an income tax return because they are low income.

I believe there are ways of getting over this. But the way the amendment is drafted, it can only go to an individual who filed a Federal income tax return. That raises some troubling questions. I am also told that, under the agreement we have now, I cannot offer another amendment. In other words, amendments are now limited. I have a problem, because it is not what I intended to do. It is a drafting error. I apologize for that. I will continue to try to work on it and see if I can do something at some point. I remain committed to having an income cap on this program.

With that, I ask unanimous consent to withdraw my amendment.

The PRESIDING OFFICER. Is there objection?

Mr. KYL. Mr. President, reserving the right to object, let me say that he raises a good point about his amendment. I don't think it would be a difficult matter to drop that provision, or modify that provision, so that it would not preclude someone who had not filed an income tax return from being eligible for this particular program.

If the Senator wishes to modify his amendment to that effect, there would be no objection on our side. However, there would be objection to simply dropping the amendment, because too many people on our side are in agreement with the concept, and this is pursuant to a unanimous consent agreement.

Again, if the Senator wishes to modify the amendment, there would be no objection to that, although we would want to see the language, obviously.

Mr. HARKIN. Mr. President, I ask unanimous consent to set aside my amendment and that we move on to other amendments. We will bring this amendment up later. I ask unanimous consent that the time we have been reserved and that we come back to this amendment after the others have been disposed of.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The Senator from Arizona is recognized.

AMENDMENT NO. 2301, AS MODIFIED

Mr. KYL. Mr. President, I call up my amendment No. 2301, which is at the desk, and I ask unanimous consent that Senators BENNETT, ROBERTS, and SNOWE be added as cosponsors, and I also ask that the amendment be modified with the changes at the desk.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The clerk will report the amendment, as modified.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. KYL], for himself, Mr. BENNETT, Mr. ROBERTS, and Ms. SNOWE, proposes an amendment numbered 2301, as modified.

Mr. KYL. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. STATUS REPORT AND REIMBURSEMENT OF UNFUNDED OBLIGATIONS.

The Consumer Assistance to Recycle and Save Act of 2009 (title XIII of Public Law 111-32) is amended—

(1) in subsection (c)(1)(A), by striking “November 1, 2009” and inserting “August 8, 2009”;

(2) in subsection (g)—

(A) by amending paragraph (1) to read as follows:

“(1) DATABASE.—The Secretary shall maintain, and update each business day, a database that contains—

“(A) the vehicle identification numbers of—

“(i) all new fuel efficient vehicles purchased or leased under the Program; and

“(ii) all eligible trade-in vehicles disposed of under the Program; and

“(B) the amount of money—

“(i) obligated by the Federal Government for payment of vouchers issued under the Program; and

“(ii) remaining to be obligated for such payments from the amount appropriated for such purpose.”; and

(B) by adding at the end the following:

“(3) SUPPLEMENTAL REPORT.—No amounts may be obligated for the Program beyond the amounts appropriated under subsection (j) until after the Secretary submits a report to the committees referred to in paragraph (2) that—

“(A) evaluates the fuel efficiency standards of—

“(i) the eligible trade-in vehicles traded in under the Program; and

“(ii) the new fuel efficient automobiles purchased under the Program; and

“(B) details the administration of the Program, including the method used by the Department of Transportation—

“(i) to track the amount obligated by the Federal Government for payment of vouchers issued under the Program; and

“(ii) to determine the amount of appropriated funds remaining to be obligated under the Program.”; and

(3) in subsection (j)—

(A) by striking “There is hereby appropriated” and inserting the following:

“(3) IN GENERAL.—There is appropriated”; and

(B) by adding at the end the following:

“(2) REIMBURSEMENT OF UNFUNDED TRANSACTIONS.—In addition to the amount appropriated under paragraph (1), there shall be made available for the Program, from amounts appropriated under the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) for the Department of Transportation and not otherwise obligated, an amount equal to the amount by which the dollar value of all of the vouchers issued under the Program during the period described in subsection (c)(1)(A) exceeds \$1,000,000,000.”.

Mr. KYL. Mr. President, when Congress rushed the so-called Cash for Clunkers Program to passage as part of the fiscal year 2009 supplemental appropriations bill, it had little time to consider how the program would work. Although the program is well-intentioned, many have criticized its efficiency and questioned the ability of the Department of Transportation to manage its application.

The program has only been running for a couple of weeks, but DOT is already saying the \$1 billion appropriated for the program has likely been spent. But nobody really knows. Yet this bill would appropriate an additional \$2 billion.

My view is that before we jump to spend another \$2 billion of taxpayers' hard-earned money, we need to call a time out—clear all of the transactions that qualify, see how much it costs, and evaluate how much more, if any,

we want to spend. If we appropriate more, we certainly should establish a tracking system to know how much the government is committed to pay each day so that we will know when to cut the program off before we again run out of money. In short, this crash program must be properly restructured now if it is to be continued.

There have been multiple complaints from dealers who have had trouble with the program. Some dealers haven't received their registration information, and some have had trouble accessing the system to submit transactions. This information is concerning because, if true, DOT presumably doesn't have an accurate count of how many transactions dealers have made compared to how much money is left in the Cash for Clunkers Program. In fact, it is my understanding that the National Automobile Dealers Association estimated that at least 200,000 deals have been completed but not yet successfully submitted to the Department of Transportation.

The confusion at DOT is evident. On Thursday, July 30, less than 1 week after DOT started to accept dealers' transactions, DOT told Congress that the program was suspended because the \$1 billion had been exhausted. The next day, DOT said the program was not suspended and transactions could continue. On Sunday, August 2, Secretary LaHood was on C-SPAN's “The Newsmakers” and first stated that the entire \$1 billion hadn't been spent. However, later in the interview, he said that the administration would only honor deals made through Tuesday, August 4, unless the Senate approves this bill. He then said, in the same interview, that DOT estimates there is only enough money to cover deals made through this week. The process is anything but accurate. Dealers should not have to bear the risk that deals they made in good faith won't be honored.

It is not only dealers who should be concerned about whether the government has accurate data needed to wind down the program before the funding runs out. Secretary LaHood recently said that the government will make “a good-faith effort” to reimburse all deals that are in the “pipeline.” But without appropriated money, he cannot make any commitment. Statements of the Secretary are not binding promises. Consumers are also entitled to certainty. That is why we need a timeout to assess where we are and redo the process to be fully transparent and accurate.

Specifically, my amendment would terminate the program as of August 7, 2009, at 11:59 p.m. to give a date certain to dealers and consumers to avoid any further confusion about whether all dealer transactions will be honored. It would delay new funding for the Cash for Clunkers Program beyond the \$1

billion already appropriated, except for such sums needed to meet all obligations through August 7 that may exceed \$1 billion, which would be paid for by using unobligated stimulus funding designated for DOT. This addresses the concern that some dealers will be on the hook for deals that have not cleared before the program runs out of money. DOT currently has no mechanism in place to efficiently cut off transactions once the appropriated threshold is reached.

My amendment would require DOT to submit a detailed report to Congress, before any new appropriations are made, that evaluates the methodology it used to track the daily obligations incurred under the program versus reimbursements sent to the dealers. The reporting requirement would ensure that Congress can evaluate what changes have to be made to more efficiently disburse any future money allocated to the program and, importantly, be able to track the disbursements and obligations to ensure the latter do not exceed the funding available. To this end, my amendment would add a requirement that if future appropriations are made, DOT must track daily the number of transactions made and money left to be obligated for reimbursement to the dealers. Again, this would ensure that the DOT is working with the most up-to-date information so that no consumer or dealer would enter into a transaction if funding is already exhausted.

Some have questioned whether the Cash for Clunkers Program is encouraging consumers to purchase or lease fuel-efficient vehicles. On June 11, two of my colleagues even submitted an opinion piece in the Wall Street Journal that indicated the Cash for Clunkers Program was "bad policy" and "would create handouts for Hummers." The report would also evaluate the fuel efficiency standards of the automobiles traded in and the new automobiles leased or purchased. Obviously, should we want to modify the terms of the legislation to meet some of the concerns expressed by the colleagues I mentioned, that could be done at that time.

I am very familiar about what happens to program extensions that are rushed through without any oversight. In 2000, the Arizona State legislature passed a well-intentioned law, much like cash for clunkers, which provided a tax credit for purchasers to buy vehicles converted to run on propane or compressed natural gas. The program was originally estimated to cost \$5 million. However, lawmakers continued the call for the expansion of the program based on consumer demand. Before long, that small \$5 million pricetag ballooned up to a \$600 million budget liability. It was stopped in time to avoid the State from bankrupting itself.

I am concerned that we are putting American taxpayers in a similar position. If the additional \$2 billion is simply appropriated for this program, will DOT come back to Congress in September and argue that we must extend the program yet again? Maybe there would have been more money committed than the \$2 billion, as may be the situation now. Aren't we required to apply some metrics, in other words, to evaluate the benefits against the cost to taxpayers? I don't have to remind everybody how Congress views temporary programs. Former President Reagan used to describe them by saying, "There's nothing more permanent than a temporary government program." That could well be the case here if we don't step back and evaluate the program, and if we don't ensure that any future funding for such a program is done in a more efficient manner than this particular program is today.

As I said, auto dealers are hardly the only business that would be happy to receive government assistance. So evaluating it at this juncture is very important, lest we make the same mistake in the future.

We rushed cash for clunkers once. I suggest that we should not make the same mistake again. I urge my colleagues, therefore, to support my amendment when the appropriate time comes.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. MCCAIN. Mr. President, how much time remains?

The PRESIDING OFFICER. The Senator from Arizona controls 8 additional minutes, and there is 15 minutes in opposition.

Who yields time to the Senator?

Mr. KYL. I am happy to yield time to my colleague.

Mr. MCCAIN. Mr. President, I rise in support of the Kyl amendment. I remind my colleagues how this all happened. In June, the House "air dropped" \$1 billion for a Cash for Clunkers Program into a conference report, which had nothing to do with clunkers, accompanying a \$105 billion war supplemental spending bill and sent it over to the Senate. Despite the fact that my colleagues on the other side had advocated a new rule in the Honest Leadership and Open Government Act in 2007 to allow a procedural vote to strip air drops from conference bills, when such a vote was presented, it was voted to keep this clunker of a provision.

I hope one of my colleagues will propose a "cash for golf clubs" proposal. I have had many calls from people who have old golf clubs, and they would like to have cash for them. We know that it is an important national sport and it is an important part of our economy. I hope we will be taking up a "cash for golf clubs" provision pretty soon.

We are spending \$3 billion to subsidize car purchases, some of them from automotive companies we own. We own Chrysler and General Motors. We own them, and we are going to give them money. So maybe it will come back to us.

The Wall Street Journal editorializes:

This is crackpot economics. The subsidy won't add to net national wealth, since it merely transfers money to one taxpayer's pocket from somebody else's, and merely pays that taxpayer to destroy a perfectly serviceable asset in return for something he might have bought anyway.

Here we had it stuck into a supplemental appropriations bill that had nothing to do with automobiles. So now we find that people like free money. They like free money. Yes, we all like free money. So the program has gone out of control.

We have no idea, as Senator KYL has said, how much money is being spent, how much is being obligated. So rather than stop and see what the story is here, let's spend \$2 billion more. At some point, this kind of thing has to stop. The national debt has climbed to \$11.6 trillion. If we are under the impression—if anybody is under the impression—it is going to be taken out of the stimulus package, the chairman of the Appropriations Committee in the House 2 days ago said: Don't worry, we will add an additional \$2 billion. Don't worry, it would not be taken out of the program that the money is there for; that money will be "replenished." Do you know what replenishing means? It means \$2 billion more of taxpayers' dollars. Everybody in Congress now is patting themselves on the back.

The program has also been a success, I might add, for foreign auto manufacturers. Four of the five top-selling cars in the program are made by foreign automakers, according to the Department of Transportation, and a success for Citibank that managed the voucher program, which has received \$45 billion in Federal aid, and, yes, for the 184,000 Americans who have received up to \$4,500 toward the purchase of a new car, except for the other 290-some million who will not take advantage of this program who will be paying the bill.

I urge adoption of the Kyl amendment. At least we should pause and see where we are.

The PRESIDING OFFICER (Mrs. SHAHEEN). Who yields time?

The Senator from New Hampshire.

Mr. GREGG. Madam President, if nobody is seeking time in opposition, I suggest on this amendment that all time be yielded back, if the Senator from Arizona is agreeable.

The PRESIDING OFFICER. Is there objection?

Mrs. MURRAY. Madam President, at this time, I object. I think at some point we will be able to yield back much of the time, but at this time, we

need to talk with our Members to make sure Members have had a chance to say their piece.

Mr. KYL. Madam President, would it be in order to ask for the yeas and nays, and when the time is yielded back, we can set the vote?

The PRESIDING OFFICER. It is in order to ask for the yeas and nays.

Mr. KYL. I ask for the yeas and nays on the Kyl amendment.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The Senator from New Hampshire.

AMENDMENT NO. 2302

Mr. GREGG. Madam President, I ask further proceedings on this amendment be set aside and I be allowed to call up amendment No. 2302.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from New Hampshire [Mr. GREGG] proposes an amendment numbered 2302.

Mr. GREGG. Madam President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To protect the generations of tomorrow from paying for new cars today)

At the appropriate place, insert the following:

SEC. _____. AMENDMENT TO THE 2010 BUDGET RESOLUTION.

S. Con. Res. 13 (111th Congress) is amended—

(1) in section 101—

(A) in paragraph (2), strike the amount for fiscal year 2010 and insert “\$2,890,499,000,000”;

(B) in paragraph (3)—

(i) strike the amount for fiscal year 2011 and insert “\$2,969,592,000,000”; and

(ii) strike the amount for fiscal year 2012 and insert “\$2,882,053,000,000”; and

(2) in section 401(b), by striking paragraph (2) and inserting the following:

“(2) for fiscal year 2010, \$1,085,285,000,000 in new budget authority and \$1,307,200,000,000 in outlays.”.

Mr. GREGG. Madam President, the senior Senator from Arizona alluded to the fact that basically this bill is unpaid for—\$2 billion. There is a figleaf representation that the money in this bill is somehow being taken out of another account, and, therefore, it is offset—the account being the Renewable Energy Loan Guarantee Program under the stimulus package. But that is a total fraud—a total fraud.

This is the ultimate bait and switch because, as the senior Senator from Arizona pointed out, the chairman of the Appropriations Committee in the House, for whom I have a lot of respect and I think his forthrightness is refreshing, quite honestly, said on the

floor of the House, when he was asked the question: What is going to happen to the fact that \$2 billion has now been taken out of the Renewable Energy Loan Guarantee Program, what is going to happen to the loan guarantee program? Congressman OBEY said:

If the gentleman would yield, I share the gentleman's view that the Renewable Energy Loan Guarantee Program is of vital importance to creating a new, green economy. We have talked with the White House. We have talked with the Speaker and I want to assure you—

This is the chairman of the Appropriations Committee; when he assures you, you can be assured it is for sure—and I want to assure you that all of us certainly have every intention of restoring these funds.

They are doubling down on the debt. It is bad enough—this should be called the “debt for clunkers” bill to begin with because basically what we are doing is creating debt for our children. We are suggesting, we are proposing, we are allowing \$4,500, \$1 billion, now \$3 billion out the door to buy cars today, but the bill to pay those cars is going to come due on our children and our grandchildren as they have to pay the debt off, which this is going to go to increase.

This is nothing more than a program which is being funded entirely by debt and an increase in the Federal debt, as Congressman OBEY forthrightly stated when he said: We are going to find the \$2 billion we took out of this account, and we are going to refill that \$2 billion, which they will have to borrow to do. Everybody knows that.

I don't happen to support the program, but I at least would like to have some integrity in this process, and I would like to have the program paid for. If we are going to represent to the American people that this program is paid for, let's pay for it. So my amendment does that. That is all it does. It creates a mechanism to make sure we are not going to replenish an account we allegedly took the money out of in order to pay for this account.

The way I have set this up, it does not have to necessarily affect the loan guarantee program. In fact, it is not specifically the loan guarantee program at all what I have done. What I am suggesting we do is that next year, in order to make sure this program is paid for, we reduce what is known as the 302(a) allocation cap by \$2 billion. That way we can be reasonably confident that before this money can be spent twice, there will have to be a vote, a 60-vote point of order brought against it on the floor of the Senate, and people will have to forthrightly say: Oh, we are actually borrowing from our children to do this. Or alternatively and refreshingly, we will not borrow from our children to do this; we will actually pay for it by reducing the 302(a) allocation cap.

It is an attempt to bring some integrity to the process, some honesty to the process, and actually pay for the program we allege we are paying for rather than use this gamesmanship, which is the ultimate bait and switch of saying we are going to pay for it today from funds we are taking out of the account tomorrow, and then we are going to refund that account tomorrow so we end up borrowing the money from our children. In this case, it would be twice because we had to borrow the money on the stimulus to begin with. That is all it does. It tries to put a little integrity into the process and make the pay-fors for this program honest and straightforward and reasonably real. Nothing is real around here when it comes to money and paying for things, but hopefully it would be more substantive and more substantial relative to the integrity of the process than under the proposal as it is presently drafted.

On the underlying program, though, I do have to make this point because it is an interesting point, not made by me, but I want to paraphrase it. It was made by the editors at the Web site Edmunds. Edmunds is an automobile Web site where you can get an evaluation of cars, sort of like consumer reports on cars. They will tell you how much your car is worth. They will tell you what the rating on your car is. They have a valuation of your car. They are totally independent. They have no dog in this fight.

They looked at this program and said: Something is wrong here. We have \$4,500 per car being the amount that is reimbursed to people. You can buy about 220,000 cars, \$4,500 a car. Their point was that over the time period this bill has been in place, in the typical course of business, 200,000 cars would have been turned in, old mileage, used cars that would have been turned in anyway. If there was no repossession, no “debt for clunkers” program, 200,000 cars would have been turned in to purchase new cars during this same timeframe. That is their estimate, and they are professionals. They look at it in a totally independent way. That was their estimate.

So the incremental increase in the number of cars that are being turned in under this program is about 20,000 to 22,000 cars. That does not work out to \$4,500 a car; that is costing the American taxpayers about \$45,000 a car to get those extra 22,000 cars off the road. Ridiculous.

The program has so many inconsistencies about it, but the ultimate inconsistency is we are borrowing from our kids to pay this. If this bill passes, we will have added \$3 billion to the debt of our children. It is not appropriate. It is certainly not appropriate to spend it to buy a car today and pay for it 10, 15 years from now and have our children have to pay for it 10, 15 years from now by adding to the debt of this Nation.

My amendment attempts to address that issue by trying to enforce the pay-fors in this bill by reducing the 302(a) allocation next year.

I reserve the remainder of my time. I yield the floor.

The PRESIDING OFFICER. The Senator from Michigan.

Ms. STABENOW. Madam President, I wish to speak and have my time allocated to the Kyl amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. STABENOW. Madam President, I wish to speak both to the Kyl amendment and to the Gregg amendment, but let me indicate first to my friend from New Hampshire, we are not talking about sales that would have happened anyway. If anybody looks at the numbers of what has been happening in this country, we have had capacity to build 17 million vehicles in this country, 9 million of them sold in the last year, which is why we are seeing the automobile industry in the state that it is.

The reality is, this is a program that has been working. Consumers believe it is working, small businesspeople believe it is working, people who make steel and aluminum and advertisers and everyone who is involved in the larger economic impact of the auto industry believes it is working. That is why we need to pass this bill, as the House did.

As a general statement, I say everyone knows if any amendment is adopted, this program will fall. This program will be killed if any amendment is adopted. So we should start from that premise right now and then go to the merits. The reality is, if any amendment is adopted, the program will die. Those opposing the CARS Program are offering amendments hoping at least one of them will be adopted so the program will be killed.

With regard to the amendment of my friend from New Hampshire, first, let me say this. The bill is already deficit neutral. The \$2 billion involved is completely offset with funds already appropriated under the Recovery Act. In a way, Senator GREGG's amendment is actually making us pay for this twice, which does not make any sense at all.

My colleagues on the other side of the aisle who are constantly bashing the recovery package for not delivering immediate results should be jumping for joy. There has been nothing more immediate, nothing more temporary, nothing more timely than the CARS Program.

The reality is that after only a week and a half into the program, we are back asking that the additional money we had originally asked for in the beginning be appropriated because this has worked.

I urge a strong "no" vote on the Gregg amendment.

As to the Kyl amendment, I also urge we oppose this amendment that would

set an end date for this Saturday, effectively ending, again, one of the most important and successful stimulus we have had. It would be a hit to the economy, to the environment, and to consumer confidence just as it is starting to improve.

Many of the oversight goals Senator KYL is seeking to achieve, NTHSA already has the authority to do and they are already working on. NTHSA is already maintaining a database and is working to make it as timely and up to date as possible.

The original legislation also requires a report on the program that will cover many of the details that are in the Kyl amendment. The legislation also adds the requirement of a GAO study that will review the administration of the program. DOT has made several modifications to its online system to streamline the transactions and to speed up the processes. They have conducted field hearings, informal surveys; they have worked with dealers, and they have doubled the number of staff they have had. They have worked to refine and to deal with the immediate concerns because of how quickly the response came in.

So I would just urge that we vote no on the Kyl amendment, no on the Gregg amendment, and no on any other amendment that will kill the most effective stimulus we have passed this year.

I thank the Chair.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. INOUE. Madam President, I rise to speak in opposition to this amendment No. 2302 that is being offered by my distinguished colleague and friend from New Hampshire.

Madam President, at the beginning of this Congress, just about every Member in this Chamber approached me and my colleague from Mississippi, Senator COCHRAN, and indicated that we had to fix the legislative and appropriations process.

Senator COCHRAN and I have taken that challenge very seriously, and we are on the path of doing just that. In the course of 7 months, we have enacted into law the Recovery Act and closed the books on the 110th Congress with the enactment of the omnibus and supplemental appropriations bills. In looking forward to fiscal year 2010, we have reported out of the Appropriations Committee 11 of 12 appropriations bills, and the Senate has passed four of them.

There are 2 months remaining before the start of the 2010 fiscal year, and to state it very bluntly, Madam President, this amendment will wreak havoc on both the work that has already been accomplished and the work that still needs to be accomplished. A vote for an amendment that cuts \$2 billion from our 2010 budget allocation at this late date—and let me remind everyone in

this Chamber that we are operating within an allocation that is \$10 billion below the President's budget request—is a vote against getting our appropriations process back to regular order.

The Appropriations Committee has spent many months reviewing agency requests and drafting bills to reflect those needs within the limitations of the budget allocation set by the Budget Committee. To cut that budget allocation further after the fiscal year 2010 bills have been reported out of the committee would require significant cuts to the remaining bills that have yet to receive floor consideration. Madam President, that is fiscally irresponsible and simply unacceptable.

My good friend, the Senator from New Hampshire, has indicated this amendment is needed to pay for the CARS program now and not in the future. I would like to note that the authors of the underlying bill are already paying for this program by reallocating funding that was provided in the stimulus bill. This program is paid for at this moment.

Further, in general, the budget allocation for fiscal year 2010 discretionary spending reflected the fact that an economic recovery package for the next 2 years had just been enacted. This was one of the primary reasons for agreeing to an allocation that is \$10 billion below the President's request. Consequently, taking discretionary funding from fiscal year 2010 to pay for a program that is being funded out of the Recovery Act is the equivalent of double accounting.

Madam President, the amendment is unnecessary for the purposes of paying for the CARS program, and it is harmful for the purposes of getting our appropriations process back to the regular order. So, therefore, I urge my colleagues to vote against the amendment.

I thank the Chair.

The PRESIDING OFFICER. The Senator from Michigan.

AMENDMENT NO. 2301

Mr. LEVIN. Madam President, how much time is remaining in opposition to the Kyl amendment?

The PRESIDING OFFICER. Eleven minutes.

Mr. LEVIN. I ask unanimous consent that I be allowed to use that time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEVIN. Madam President, we will soon vote on whether to extend the Cash for Clunkers Program. Rarely has this body passed legislation that has so clearly and quickly met our goals than when it approved the first installment of money for this program earlier this summer. The program offers rebates of \$3,500 to \$4,500 to consumers who trade in old inefficient vehicles for new cars and trucks with higher mileage. Thousands of consumers who hope to take advantage now wonder whether they will have the opportunity.

It is important to understand the context in which we originally approved this program. Amid the most severe downturn since the Great Depression, auto sales everywhere plummeted—in the United States and around the globe, foreign manufacturers and U.S.-based companies alike. In the U.S. market, month after month automakers have reported sales that have fallen 40 percent or more from a year ago. This unprecedented decline has harmed not only the hard-working autoworkers in my home State and other States, but auto suppliers, auto dealers, and small businesses in every community in this Nation. Because the auto industry represents such a large share of this Nation's overall economic activity, as long as this sales decline continues, it will weigh down our economy, frustrating attempts to lift us out of recession.

In establishing this program, we did not establish a course. We followed a path that had already been laid out by other nations. In Germany, France, Japan, and other nations, governments recognized the danger to their own auto industries in this time of economic crisis and they acted. Germany's Government established its own version of cash for clunkers, and in June car sales were up 40 percent over the same period a year ago. Other nations saw similar impressive increases.

After just a few days, our efforts have borne impressive results. This week Ford reported its sales increased in July from a year ago, the first year-over-year increase reported this year by any automaker. Other carmakers, foreign and domestic, saw smaller declines than in previous months. The impact has been so striking that one private economist has raised his estimate for economic growth in the third quarter of this year by more than 50 percent based solely on the success of cash for clunkers.

This program accomplished what it was intended to accomplish. In just a few days, a quarter of a million Americans traded in their old car for a new model using the credits available from this program. That is a quarter of a million American families who have more fuel-efficient transportation, a quarter of a million transactions that will pump new money into local economies, and an incalculable boost to this Nation's struggling auto industry.

The program has made significant improvements in the fuel efficiency of our Nation's vehicle fleet. According to data from the National Highway Traffic Safety Administration, consumers using this program are buying new vehicles with an average 63 percent improvement in fuel economy over their trade-ins. More than four out of every five vehicles traded in are trucks; nearly three out of five new vehicles are cars. The average mileage improvement of 9.6 miles per gallon is more

than double the program's minimum and far greater than expected.

In short, cash for clunkers has exceeded earlier projections in its ability to get older cars off the road and their damaging emissions out of our skies. Seldom have we had an opportunity to do more for our environment than we do today. Reinforcing and extending this program will get replaced hundreds of thousands more of these environmental clunkers with highly efficient new vehicles.

Some Members have proposed changes to the program by amendments. Some amendments are pending, or will be introduced, that are not related to this program. These may be well intended amendments, but it is vitally important to keep in mind the need for immediate action. The House of Representatives has sent us a bill that will keep the program running. Any amendments—any amendments—that the Senate approves will send the legislation back to the House of Representatives where action will be delayed until the House reconvenes in September. So any amendment that is adopted here is the death knell for this program. It would have to end immediately if an amendment is adopted because of the uncertainty over whether funds remain and to what extent. This program is designed to be a one-time stimulus, not a stop-and-start deal, which would make it more complex and confusing.

This situation is not new. We had a similar situation just a week or so ago. When the Senate passed a bill to restore funding to the highway trust fund, an amendment pending to that bill would have prevented the Federal Government from cutting \$8.7 billion in transportation funding from several States, including my home State of Michigan. Normally, it would have been a simple decision to vote for that amendment to avoid those cuts. Michigan is in desperate need, and that amendment would seemingly protect hundreds of millions of dollars for my State. Yet I voted against the amendment. I did so because of the time-sensitive nature of the underlying bill. And many others in this body voted against an amendment for that same reason.

The highway trust fund was on the verge of running out of money, and the bill that we were voting on restored funding to keep it solvent through September. With the House of Representatives about to adjourn a week or so ago, any Senate amendment to that bill would have required that it be sent back to the House of Representatives, likely killing the bill. I, and many others here, decided not to risk letting the highway trust fund run out of funds. So what did we do? We voted for the bill, but we voted against an amendment, even though that amendment would have helped our States. What we did in-

stead is we pledged to seek passage of that amendment at a later date to a different legislative vehicle. I opposed every amendment to that bill, as did a majority of our colleagues.

That is the situation we are in now. If we want this program to continue, we have but one choice. We have to vote for it, but we also must vote against all of the amendments that are pending to it, even though those amendments may be attractive standing on their own and in ordinary circumstances. It is going to be difficult for some to vote against these amendments. I understand that. But the issue is going to be, do you want the Cash for Clunkers Program to continue? If any amendment passes, it is the end of that program.

I yield the floor.

The PRESIDING OFFICER. Who yields time?

The Senator from Oklahoma.

AMENDMENT NO. 2304

Mr. COBURN. Madam President, I ask unanimous consent that the pending amendment be set aside and that Coburn amendment No. 2304 be called up.

The PRESIDING OFFICER. Without objection, the clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 2304.

Mr. COBURN. I ask unanimous consent that the amendment be considered as read.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide assistance to charities and families in need)

At the appropriate place, insert the following:

SECTION . ASSISTANCE TO CHARITIES AND FAMILIES IN NEED.

Section 1302 of the Supplemental Appropriations Act, 2009 (Public Law 111-32; 123 Stat. 1909; 49 U.S.C. 32901 note) is amended—

(1) in subsection (a)(2)(B), by inserting “or for donation to a charity”; and

(2) in subsection (c)(2)—

(A) in subparagraph (A), strike “For each” and insert “Except as provided in subparagraph (C), for each”; and

(B) by redesignating subparagraph (C) as subparagraph (D); and

(C) by inserting after paragraph (B) the following:

“(C) DONATION TO CHARITY.—For each eligible trade-in vehicle surrendered to a dealer under the Program, the dealer may dispose of such vehicle by donating such vehicle to—

“(i) an organization that—

“(I) is described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code, including educational institutions, health care providers, and housing assistance providers described in such section; and

“(II) certifies to the Secretary that the donated vehicle will be used by the organization to further its exempt purpose or function, including to provide transportation of individuals for health care services, education, employment, general use, or other

purpose relating to the provision of assistance to those in need, including sales to raise financial support for the organization; or

“(ii) a family that does not have sufficient income to afford, but can demonstrate a need for, an automobile.”.

Mr. COBURN. Madam President, it is interesting to note what we just heard from the Senator from Michigan about how we can't fix this program—admitting that there are several things wrong with it—because the House is out of town and we have to pass it. So we are going to do the wrong thing for the right reason.

I have not heard from a dealer in my State that is not for this program. There is no question it is stimulatory. There is no question, however, that the stimulation is one based on time of sales, not on true total stimulation to our economy. What we are doing is stimulating future sales to be bought at this time. But, more importantly, we have two untoward disadvantages that this program is causing which is actually hurting the poorest and the weakest and those of color in this country.

When we wrote this amendment, we went to the Finance Committee. We were told it was not going to score. Then when we got to the Joint Economic Committee, they scored this amendment as costing \$90 million, but what they did not take into consideration is that if these cars were actually given to charities or to people who did not have a car, it scored exactly the same. In essence, there is no net score with the bill.

The fact is, with this program—because we are destroying half a billion dollars worth of real assets so far in this program and we are going to destroy \$1.2 to \$1.3 billion worth of real assets, real cars that charities could really use to give to real people who do not have transportation—we are taking that away. In our tough economic times right now, charities' income is down about 30 percent across the board while the demands on the charitable organizations are up. We all recognize that charities use the contributions of automobiles to then turn around to sell and fund a lot of charities.

What this amendment does is allow the vehicles that are traded in to be donated to poor families or to charities. Why destroy a perfectly good car that somebody in a rural area who cannot get access to health care now because they don't have transportation—why destroy that mechanism of opportunity?

I understand there probably will not be the votes for this amendment. But to say we are going to take a perfectly good automobile that somebody less fortunate could utilize for years for transportation purposes, that will elevate them economically, and instead we are going to destroy it, we are going to destroy the opportunity for some-

body less fortunate to have that automobile. This program is working for two groups of people: it is working for the auto industry and their dealers, and it is working for anybody who qualifies and uses the Cash for Clunkers Program. But it is not working for everybody else. This is a small minority of Americans who are going to benefit for a specific industry.

I heard the Senator from Arizona raise the question: Why not golf clubs? Why not dishwashers? Why not washing machines? Why not boats? Why not RVs? Why not other industries that also were on their backs, not having the same benefit?

I also would note that several organizations, a couple from which we received endorsements—the Military Order of the Purple Heart and Lutheran Charities throughout America endorse it.

I thought I would raise one other point; that is, this amendment is significantly environmentally friendly. A recent ABC News story on the clunkers quoted the following:

Believe it or not, even some environmentalists are against the new law. They point out it will end the lives of perfectly serviceable vehicles with years of life left. One way to be green is to get a more carbon friendly car. Another way to be green is to recycle or buy a used car. It takes 113 billion Btus to build a Toyota Prius. You have to drive that car 46,000 miles before you are even on the carbon footprint.

If you take the same car and give that car to somebody in need, you enhance their economic condition and you do not create another 113 billion Btus of energy.

Hybrids get great mileage, we talked about that, but in terms of net-net, in terms of being green—we hear that all the time. If we want to do what is most efficient from an environmentally safe standpoint, this amendment does it. You still have the Cash for Clunkers Program, but what you do is turn around and use the cars by giving them to charitable organizations or families who need them. If we were to do that, especially if we are going to increase this program \$2 billion additionally, you are going to save \$1 billion worth of net assets that we can transfer to those less fortunate in this country. For that, the tax consequences will be \$90 million, which is exactly the same tax consequences we would have had on these cars had we not had a cash for clunkers program.

It is crazy, in this country, to intentionally destroy perfectly good automobiles. It is nuts. It is not rational. Yet we have a program and we are already doing it. In Oklahoma we had a car that was traded in that had 10,000 miles on it. They destroyed the engine on the car under this program. Granted, it had poor gas mileage, but that was transportation to somebody who was poor, transportation to somebody who did not have transportation.

We have been debating health care around here for 6 months. The biggest limitation on access to health care in rural and poor communities is transportation, and we are going to take away an opportunity to give many of those people transportation. We are going to take it away. The schizophrenia of Washington continues to amaze me, and the lack of common sense that is associated with what we do.

I will make one final note. The reason this bill has problems, the reason the Transportation Department is having trouble with it is it never went through a committee, never had multiple hearings, had not had an oversight on what we were going to do, and it was done in such a short period of time that we did not even allow the Transportation Department an effective amount of time to set it up so it would be effective and not wasteful.

If you hear any complaints from the dealers, it is they don't know where they stand on whether they are going to get paid. They have no clue right now because even though they filed paperwork, getting that money to them—what we are seeing is a lot of problems with unhappy customers right now at the dealers because the Transportation Department cannot be efficient in administering this program.

I conclude by noting that if this is the standard under which we are going to reenergize our economy, then we ought to apply the same standard to every other industry. If we do, we will not be bankrupt in 11 years, we are going to be bankrupt next year.

I want our auto companies to succeed. There is no question there are stimulatory benefits to what we are doing, but it is at a great cost. As the Senator from New Hampshire noted, the net-net cost is \$45,000 per net car that would not have been traded in. It is foolhardy.

I hope Members of the body will consider this amendment. I know they have been instructed to not consider it.

I will reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Michigan is recognized.

Ms. STABENOW. Madam President, I appreciate the concerns the Senator from Oklahoma has raised. One question I would have is, if the amendment is adopted, would he in fact support a continuation of the program? Because he certainly made a number of other arguments in opposition, which I appreciate. I know those arguments as well. But I think, given all those arguments, this really is about trying to stop the program.

I urge my colleagues to oppose the amendment. It would absolutely derail what has been the most effective stimulus to date for us. It is about jobs, it is about helping small businesses.

With the concerns initially raised, some of the bureaucratic concerns initially—I have to tell you that NHTSA

has been working fast and furiously in solving those problems. The National Association of Dealers strongly supports continuing this. I do not think they would if they believed it was not effective as a program.

Let me talk about the amendment specifically. It may be well intended, but there is no environmental benefit if the old vehicle is not scrapped—No. 1. The temporary CARS Program is specifically designed to maximize gas savings for consumers. In fact, so far the average savings is about \$1,000, and for people in my State, that is a lot of money right now when you are pinching pennies and trying to keep things going in your household. That has been an extremely important part of this.

It is important to talk about the fact that this is a very limited program. It is very limited in scope. The funding extension will enable a replacement of less than .3 percent of the 250 million vehicles on the road. It does not compete with charities. The amendment is unnecessary because people can donate the value of the voucher to charity, if they want to. In fact, the voucher amount surpasses the value of the vehicle, so charities could actually receive more funds through a donation of the voucher, if someone wished to do that.

Also, the program, because it is temporary, does not affect long-term donations. In fact, we have met and worked with charities, discussed these issues, because I strongly support the programs that have donations of automobiles to charities for the very reasons the Senator from Oklahoma talked about.

The reality is that there have been trends against donating cars in recent years. It is not because of the CARS Program, I have to indicate; it is because of a tax treatment change that was made under the Republican majority back in 2004 that has been a problem. If we want help the charities with automobiles, we would fix the tax treatment that was passed as part of the tax changes that were made under the Republican majority.

Also, many charities have indicated to us that they have not seen a drop in donations due to the program. What is most interesting is that we talked to some who have said they have actually seen an increase due to the heightened awareness of car recycling, particularly in owners who, after researching, find out they really do not qualify for the CARS Program but they are still looking to take advantage in some way of the deals that are out there on these great new vehicles, made in America. I hope people are going to be doing everything with their voucher to buy an American-made vehicle. The temporary program really has given people the opportunity to go out and shop and take a look at what is out there.

Pat Jessup, the president of Cars 4 Causes, has said that, "oddly enough,"

car donations are up this month. Oddly enough, car donations are up this month. She adds:

In fact, because of the increase in donations, Cars 4 Causes has staffed up to handle the in-coming calls.

What a nice byproduct of all the awareness right now, of the possibilities going out and buying a new vehicle.

To continue quoting her:

Once the conversation about trading in or trading up or donating a car gets going the car owner begins researching possibilities, looking into tax deductions versus cash for the trade-in. Also, some have found their car does not qualify for the Cash for Clunkers Program, but while researching they discover the tax advantages of donating a vehicle. Then they call us.

I appreciate the concerns that have been raised, but, in fact, this program—raising awareness about the cars that are now available, the new or more fuel-efficient automobiles that are available in car dealerships all across the country, the ability to use the Cash for Clunkers Program, we are now seeing that other great programs where vehicles are donated to charities have actually gone up.

For that, among many other reasons, particularly because this amendment would kill the CARS Program, I urge a "no" vote.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

Mr. COBURN. I ask unanimous consent to have printed in the RECORD four news articles published in the last week about how cash for clunkers has negatively impacted charities. This comes from the North-West Cable News, Denver Post, Fox News, and nbc4.com.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NEWS QUOTES ON HOW CLUNKERS IS HURTING CHARITIES

NORTHWEST CABLE NEWS

"Cash for Clunkers" hurting charities—

Some say the popular "Cash for Clunkers" program is taking cash out of the hands of local charities.

Animal Services of Thurston County depends on donations of up to \$20,000 a year from Northwest Charity Donation Service. It's a service that relies on donated cars. But since the "Clunkers" program began, the source of funding is drying up.

"It's probably been at least a 40 to 50 percent drop in donations that people can choose to go to a charity of their choice from the area," said Thomas Jones, of Northwest Charity Donation Service.

Charities are also concerned that, as more cars end up at salvage yards, there will be fewer inexpensive used cars will be available for working families.

DENVER POST

Charities fear pinch from "clunkers" program—

Area charities reliant on car donations for funding say the government's "cash for clunkers" program might hurt them.

"If the government is going to give them a chunk of change for their clunker, then

we're concerned that they're not going to come to us any longer," said Meaghan Carabello of Goodwill Industries Denver.

Last year, Goodwill and Cars Helping Charities, the third party that takes in the donations and sells them, took in 1,900 and 3,000 donated cars, respectively.

For Goodwill, that translated to about \$220,000 in revenue.

FOXNEWS.COM

"Cash for Clunkers" puts the brakes on donations—

Riteway Charity Services in Sun Valley, Calif. turns thousands of donated cars into money for local food banks, homeless shelters and Boys and Girls clubs. They say the recession put a dent in donations; they're down 30 percent from last year.

Now the car rebate program has really put the brakes on, leaving charities third in line. Charities can offer a tax write-off as little as \$500 next spring. But that just can't compete with the program handing car buyers rebates of between \$3,500 and \$4,500 for trading in their gas-guzzlers for new, higher-mileage models.

The latest IRS figures show 300,000 cars were donated in 2005. And while the program may be a shot in the arm for dealers, charities that rely on donated cars say Uncle Sam has put them on life support.

NBC4.COM

Cash for Clunkers could impact local charities—

Charitable groups count on the money they make from donated cars to help fund their programs. Now, the groups are afraid that donations are going to dry up.

Officials at Goodwill said they are worried that the Cash for Clunkers program will make people choose cash over charity and close the door on an opportunity to bring in money for local programs.

"When you pull 250,000 cars off the streets, maybe more, there are cars that could end up in our lots and help low-income buyers," Knowlton said.

"Every single car is an opportunity. We love every car," Hartley said.

Mr. COBURN. Madam President, I could be a whole lot more comfortable with this bill if you told me there was not another one coming in a month. But the fact is, what we are doing is buying forward sales. Every economist says that. Eighty percent of the sales that come in under cash for clunkers—we are just moving up sales that were going to be there anyway. There is nothing wrong with that as long as we say there comes a point in time we are not going to do that.

I wonder if my distinguished colleague from Michigan would commit to the body that we are not going to see another one of these bills in 2 months, 3 months, 4 months, or 5 months, we are going to subsidize the purchase of automobiles by stealing from our children in this country—regardless of the economic benefit for one particular industry. Is there an answer to that question? The fact that there is not an answer to the question means it is not going to stop with this one. As soon as this next program stops, and as soon as we run through the money, the sales are going to go right back down.

Then our option is going to be: Well, we have to do another one and another

one because we are buying forward sales.

What we need is the health of the economy. I do not deny we need to inject the proper amount of fiscal stimulus, true fiscal stimulus, not a government transfer payment, which is 60 percent of the stimulus bill that was passed, but it is an interesting question: When does it stop?

If we are going to do it for automobiles, and let's say automobiles get healthy but the appliance industry does not, are we going to do it for the appliance industry? How much more can we afford to borrow from our kids? Those are legitimate questions that need to be addressed.

I understand the depth and breadth of the difficulties the States in the upper Midwest are feeling from this recession and especially the impact on the automobile companies. I want to be cooperative. I want to see them come out.

But it would certainly give us much less indigestion if we knew there was truly going to be an end and not another of these Cash for Clunkers Programs when the sales dribble right back down because all we did was stimulate forward sales into this sales period.

With that, I reserve the reminder of my time.

Mr. LEVIN. First, let me thank my friend from Oklahoma for raising some of these questions which are entitled to be debated. We are not alone in having a Cash for Clunkers Program. Other countries, including Germany, have had these programs. So we are not designing something from scratch. All auto-producing countries that I know of in the world are fighting to have an auto industry come out at the end of this recession.

Unless we take action in a number of ways, that is not going to happen. So the Cash for Clunkers Program is based on a similar type of program in other countries, including Germany, where it has been very successful.

It is not my intent—to answer the other part of his question—it is surely not my intent that this program continue beyond this extension. No one can give an assurance as to what is going to happen in the future with this body or other Members of this body or, indeed, with myself. But it is not my intent that this be a continued program beyond this extension. The reason it was so essential that we have this extension is it was such a successful program. It sold out so quickly, we think our success actually overwhelmed us.

I don't believe, as the Senator from Oklahoma does, that people were buying forward. I think maybe the opposite happened. By the way, I think people may have been waiting until there was this kind of incentive because people are in desperate economic shape.

Perhaps some of the people who knew there was going to be such a program may have held back in buying a vehicle.

But also the other prong of this program, besides the economic boost it gives to the economy overall, is the environmental part. That is the part which the Senator's amendment does not address. It is intended to get clunkers off the road, not just to get an economic stimulus into the auto area for sales of vehicles that benefit not just producers but car dealers and suppliers, but there is also a huge environmental benefit which has not only proven itself, but done much better than anybody could have expected.

That is ignored by the Senator's amendment, because keeping those cars on the road, as the Senator would do, denies the environmental benefit of the Cash for Clunkers Program. That is another reason I would oppose the Senator's amendment.

Mr. COBURN. Is it not true that the average plants were down for 10 weeks?

Mr. LEVIN. I do not know the number.

Mr. COBURN. Maybe 10 weeks. I know Chrysler was down longer than that. The fact is, when I drive by the auto dealers, and when I check the statistics with NHTSA, inventories are low.

So we are going to put \$2 billion back out, when inventories are at half the level on the car lots of what they normally are. So if, in fact, you pass this, you might ought to spread it out over a period of time so the factories can get the cars to the dealers because that is a significant worrisome part on a lot of my dealers—that if you bring it back now, and you bring it back, we are not going to have the cars to sell them.

I did make a note before, I say to the chairman. He is my chairman. I get along with him great. I have great admiration for him. I am glad Oklahoma does not have any car manufacturing plants right now. I can tell you that. But I did make a point that it takes 153 billion BTUs to make a Toyota Prius. You have to drive that car, on average, 2 years before you are ever at break-even.

So if you take a used car—and this program does not apply to used cars, right? It applies only to new cars. If you take a used car and compare it to a car of similar size, you are at least 2½ years before you ever get the first benefit, in terms of green, 2½ years.

So we may see a difference in those, but in terms of BTUs consumed, it is 2½ years before you see the first change in terms of carbon footprint under this program. Ultimately, I would admit to you there is a carbon benefit to it.

Mr. LEVIN. In response to the Senator, I think that same point is true with the purchase of any new car.

Mr. COBURN. Yes, it is true.

Mr. LEVIN. But the faster we get the more fuel-efficient cars, the better environmental impact we are going to have, even though there is that time period, obviously, when there is a carbon footprint that results from the production of the new car.

But you get to that 2½ years faster then if you buy that new car now than if you buy it a year from now or 2 years from now.

Mr. COBURN. Well, 2 years from now, it is going to have 4 or 5 miles better mileage.

Mr. LEVIN. It may. We do not know that.

Mr. COBURN. I yield back the remainder of my time.

The PRESIDING OFFICER. The Senator from Alabama is recognized.

Mr. SHELBY. Madam President, 1 week after commencing the \$1 billion Cash for Clunkers Program, it is so popular that it has used up all its funds.

Could it be that through this program, which entices car buyers with up to \$4,500 to trade in their old cars, the government has finally devised a smart way to stimulate the economy?

In a word, no.

Instead, the Federal Government has sent another \$1 billion of taxpayer funds into the economic abyss with \$2 billion of taxpayers' funds to follow.

It has robbed Peter to pay Paul, to give a kickback to the automotive industry.

Advocates of the Cash for Clunkers Program state the additional \$2 billion in funding is necessary because the program is such a great success.

Of course it is. Who does not want free money?

The Cash for Clunkers Program is simply another bailout to prop up a struggling industry wrapped in the political guise of an environmentally friendly program.

While I agree that there are benefits to getting older, less fuel-efficient vehicles off the road, do not be fooled. That is not even what this program accomplishes.

Let me explain.

Under the Cash for Clunkers Program, it does not matter how big a difference in gas mileage there is between the car you are trading in and the car you are buying.

The trade-in must only meet the 18 miles per gallon requirement to be considered a clunker.

After that, environmental concerns end.

As a result, under the Cash for Clunkers Program, replacing an 18 miles per gallon vehicle with one that offers 22 miles per gallon gets a subsidy.

But you do not receive any Federal funds if you replace a 19 miles per gallon vehicle with one that gets 40 miles per gallon.

If improving gas mileage is the goal, then a sliding scale that adjusted the

subsidy with the difference in gas mileage between old and new cars would seem reasonable.

Or if reducing emissions from older cars is the objective, the subsidy could be larger for trading in older vehicles.

The Cash for Clunkers Program does not do either.

So, if there are no significant environmental benefits, then the goal must be to help stimulate the economy.

Yet the program has done little to actually stimulate the economy.

Many of the individuals taking advantage of the program's subsidies are not new car buyers spurred by this incentive package, but instead those who put their purchase on hold waiting for the program to launch.

Simply put, these buyers would have bought the car anyway.

Edmunds.com, a noted online site for car sales, stated this number could be over 100,000 car buyers.

Further, Edmunds also published an analysis showing that in any given month, 60,000 to 70,000 "clunker-like" deals happen with no government program in place.

Therefore, the 200,000 deals the government was originally prepared to fund through the Cash for Clunkers Program were likely the natural "clunker" trade-in rate.

This program squeezed months of normal activity into just a few days.

When the backlog is met, interest in the program will fade, and the façade of economic benefit will disappear.

The Cash for Clunkers Program is a shell game of transferring wealth from the pockets of one taxpayer to another.

We should call it what it really is, another billion dollar auto bailout.

This program is little more than a clunker itself.

The PRESIDING OFFICER. The Senator from Louisiana.

AMENDMENT NO. 2303

Mr. VITTER. I ask unanimous consent to call up Vitter amendment No. 2303 to the pending legislation.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The legislative clerk read as follows:

The Senator from Louisiana [Mr. VITTER] proposes an amendment numbered 2303.

Mr. VITTER. I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

AMENDMENT NO. 2303

(Purpose: To provide for a date certain for termination of the Troubled Asset Relief Program)

At the appropriate place, insert the following:

SEC. _____. TERMINATION OF TARP.

Section 120 of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5230) is amended—

(1) by striking subsection (b); and

(2) by striking "(a) TERMINATION.—".

Mr. VITTER. I urge bipartisan support of the Vitter amendment. It is very simple and straightforward but important. It ends the TARP bailout program on a date certain, the date certain originally set out, which is December 31 of this year.

Under the TARP bailout legislation, the program is supposed to end on that date. However, there was some fine print. The fine print said the Treasury Secretary unilaterally can say: No, we need to extend it. On his own, with no additional vote of Congress, he can extend it until October 3, 2010.

I think any such extension would be absolutely contrary to the best interests of the Nation, and I believe we should act and simply take that extension authority back and wind down the program and end the program, the bailout, in an orderly way on the original intended date of December 31 of this year.

I think we should do this for three clear reasons. First of all, the biggest reason is simply the TARP bailout program was rushed through Congress in what was described as an impending and indeed a cataclysmic crisis. We were told by several experts certainly, including the Treasury Secretary and the Chairman of the Federal Reserve, that the financial system was in imminent danger of collapsing. I am not exaggerating. I am simply repeating their statements from last fall.

So Congress, certainly over my objection, passed the TARP bailout program in that atmosphere of absolute crisis. Well, we may disagree about where we are getting toward recovery and what we see for the next year. But I think we can all agree that imminent collapse, if it was ever before us, is not before us now; that huge so-called cataclysmic crisis, if it was ever a threat, has passed. So the whole rationale for the extraordinary \$700 billion TARP bailout program, that crisis, has clearly passed.

Again, I am not saying we are out of this recession. I am not saying we are not in tough economic times. I am not saying we do not have a lot further to go in recovery. I am saying no one believes the world financial system is in imminent danger of collapse or will be, thankfully, anytime soon.

Clearly, the entire rationale for such an extraordinary and unprecedented use of government power and intervention and the use of \$700 billion of taxpayer funds, that rationale has passed.

Reason No. 2 is that the TARP bailout, in practice, has become nothing more than a political slush fund and has been used in many different ways, never as it was originally designed.

Of course, we all heard, when it was originally proposed, that it was a toxic asset purchase program; it would be used for one purpose and one purpose only—for the government to buy toxic

assets to get them off the balance sheets of troubled financial institutions. That was the sum and substance, 100 percent of the original design and rationale. As we all know, it never was used in that way. Literally within a few weeks of Congress passing the program last fall, it morphed completely. We weren't going to use it to buy toxic assets anymore. Then it morphed into an equity investment program for the largest banks that were deemed too big to fail. That, of course, has been carried out to the tune of not just \$700 billion but trillions of dollars, as this money is constantly reprocessed.

Next TARP was morphed again and used as a slush fund to bail out two auto companies. Specifically, the administration—at the time, the Bush administration—said: No, TARP is not about manufacturers, auto companies, at all. It is not about that. It is about financial institutions. Nevertheless, it was morphed again, used as a slush fund to bail out two auto companies. And there are many different, smaller programs which have been devised and funded out of the TARP bailout slush fund.

TARP has been consistently used by the government for whatever different purpose, whatever new bright idea the administration—first, the Bush administration and now the Obama administration—decides is a good thing to do. It has truly become a slush fund, open-ended, no limits, that the administration can use pretty much however it wants. There doesn't seem to be any real or meaningful limitation. So far the original \$700 billion program has grown to reach \$3 trillion. That is because some money is paid out. It is paid back in. It is reprocessed.

According to SIGTARP, the group that monitors this, the total financial exposure of TARP and TARP-related programs, when we look at all of the myriad activities, may reach \$3 trillion.

Third and finally, the third important reason we should establish this date certain to wind down the TARP bailout slush fund is that from the very beginning, TARP has not been transparent. It has been very opaque. It has been ripe for fraud. Unfortunately, there are numerous pieces of evidence and media accounts to bear this out. For instance, on July 21, Neil Barofsky, special inspector general for the TARP program, issued a quarterly report to Congress. In it, he said: As of June 30, there are 35 ongoing criminal and civil investigations about misuses of money; Federal felony charges against Gordon Grigg, FTC action against misleading use of MakingHomeAffordable.gov, and on and on.

In its quarterly report issued in July, SIGTARP said that the Treasury "has repeatedly failed to adopt recommendations that SIGTARP believes

are essential to providing basic transparency and fulfill Treasury's stated commitment to implement TARP 'with the highest degree of accountability and transparency possible.'

Specifically, SIGTARP had four key recommendations, and they have not been implemented in any meaningful way.

The Vitter amendment is very simple, very straightforward. Let's abide by the original end date for the TARP bailout fund—December 31 of this year. Let's take back the unilateral authority the Secretary of the Treasury now has to extend that to October 3 of 2010, for three simple reasons: No. 1, there is no impending crisis anymore; No. 2, TARP has been used as a slush fund for everything under the Sun except the original purpose of buying troubled assets; and No. 3, TARP has never been transparent, open, and aboveboard. It is rife with fraud and misuse, unfortunately, documented by criminal prosecutions, IG reports and the like.

I urge my colleagues, Democrats and Republicans, to support this reasonable amendment.

I retain the remainder of my time.

AMENDMENT NO. 2306

The PRESIDING OFFICER. The Senator from Georgia.

Mr. ISAKSON. I ask unanimous consent that the pending amendment be set aside and the clerk call up amendment 2306.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The legislative clerk read follows:

The Senator from Georgia [Mr. ISAKSON] proposes an amendment numbered 2306.

The amendment is as follows:

(Purpose: To amend the Internal Revenue Code of 1986 to provide an income tax credit for certain home purchases, and to transfer to the Treasury unobligated funds made available by the American Recovery and Reinvestment Act in the amount of the reduction in revenue resulting from such credit)

On page 3, after line 11, insert the following:

Effective on the date of the enactment of this Act—

(1) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by inserting after section 25D the following new section:

"SEC. 25E. CREDIT FOR CERTAIN HOME PURCHASES.

"(a) ALLOWANCE OF CREDIT.—

"(1) IN GENERAL.—In the case of an individual who is a purchaser of a principal residence during the taxable year, there shall be allowed as a credit against the tax imposed by this chapter an amount equal to 10 percent of the purchase price of the residence.

"(2) DOLLAR LIMITATION.—The amount of the credit allowed under paragraph (1) shall not exceed \$15,000.

"(3) ALLOCATION OF CREDIT AMOUNT.—At the election of the taxpayer, the amount of the credit allowed under paragraph (1) (after application of paragraph (2)) may be equally divided among the 2 taxable years beginning with the taxable year in which the purchase of the principal residence is made.

"(b) LIMITATIONS.—

"(1) DATE OF PURCHASE.—The credit allowed under subsection (a) shall be allowed only with respect to purchases made—

"(A) after the date of the enactment of the Act entitled 'Making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program', and

"(B) on or before the date that is 1 year after such date of enactment.

"(2) LIMITATION BASED ON AMOUNT OF TAX.—In the case of a taxable year to which section 26(a)(2) does not apply, the credit allowed under subsection (a) for any taxable year shall not exceed the excess of—

"(A) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over

"(B) the sum of the credits allowable under this subpart (other than this section) for the taxable year.

"(3) ONE-TIME ONLY.—

"(A) IN GENERAL.—If a credit is allowed under this section in the case of any individual (and such individual's spouse, if married) with respect to the purchase of any principal residence, no credit shall be allowed under this section in any taxable year with respect to the purchase of any other principal residence by such individual or a spouse of such individual.

"(B) JOINT PURCHASE.—In the case of a purchase of a principal residence by 2 or more unmarried individuals or by 2 married individuals filing separately, no credit shall be allowed under this section if a credit under this section has been allowed to any of such individuals in any taxable year with respect to the purchase of any other principal residence.

"(c) PRINCIPAL RESIDENCE.—For purposes of this section, the term 'principal residence' has the same meaning as when used in section 121.

"(d) DENIAL OF DOUBLE BENEFIT.—No credit shall be allowed under this section for any purchase for which a credit is allowed under section 36 or section 1400C.

"(e) SPECIAL RULES.—

"(1) JOINT PURCHASE.—

"(A) MARRIED INDIVIDUALS FILING SEPARATELY.—In the case of 2 married individuals filing separately, subsection (a) shall be applied to each such individual by substituting '\$7,500' for '\$15,000' in subsection (a)(1).

"(B) UNMARRIED INDIVIDUALS.—If 2 or more individuals who are not married purchase a principal residence, the amount of the credit allowed under subsection (a) shall be allocated among such individuals in such manner as the Secretary may prescribe, except that the total amount of the credits allowed to all such individuals shall not exceed \$15,000.

"(2) PURCHASE.—In defining the purchase of a principal residence, rules similar to the rules of paragraphs (2) and (3) of section 1400C(e) (as in effect on the date of the enactment of this section) shall apply.

"(3) REPORTING REQUIREMENT.—Rules similar to the rules of section 1400C(f) (as so in effect) shall apply.

"(f) RECAPTURE OF CREDIT IN THE CASE OF CERTAIN DISPOSITIONS.—

"(1) IN GENERAL.—In the event that a taxpayer—

"(A) disposes of the principal residence with respect to which a credit was allowed under subsection (a), or

"(B) fails to occupy such residence as the taxpayer's principal residence,

at any time within 24 months after the date on which the taxpayer purchased such resi-

dence, then the tax imposed by this chapter for the taxable year during which such disposition occurred or in which the taxpayer failed to occupy the residence as a principal residence shall be increased by the amount of such credit.

"(2) EXCEPTIONS.—

"(A) DEATH OF TAXPAYER.—Paragraph (1) shall not apply to any taxable year ending after the date of the taxpayer's death.

"(B) INVOLUNTARY CONVERSION.—Paragraph (1) shall not apply in the case of a residence which is compulsorily or involuntarily converted (within the meaning of section 1033(a)) if the taxpayer acquires a new principal residence within the 2-year period beginning on the date of the disposition or cessation referred to in such paragraph. Paragraph (1) shall apply to such new principal residence during the remainder of the 24-month period described in such paragraph as if such new principal residence were the converted residence.

"(C) TRANSFERS BETWEEN SPOUSES OR INCIDENT TO DIVORCE.—In the case of a transfer of a residence to which section 1041(a) applies—

"(i) paragraph (1) shall not apply to such transfer, and

"(ii) in the case of taxable years ending after such transfer, paragraph (1) shall apply to the transferee in the same manner as if such transferee were the transferor (and shall not apply to the transferor).

"(D) RELOCATION OF MEMBERS OF THE ARMED FORCES.—Paragraph (1) shall not apply in the case of a member of the Armed Forces of the United States on active duty who moves pursuant to a military order and incident to a permanent change of station.

"(3) JOINT RETURNS.—In the case of a credit allowed under subsection (a) with respect to a joint return, half of such credit shall be treated as having been allowed to each individual filing such return for purposes of this subsection.

"(4) RETURN REQUIREMENT.—If the tax imposed by this chapter for the taxable year is increased under this subsection, the taxpayer shall, notwithstanding section 6012, be required to file a return with respect to the taxes imposed under this subtitle.

"(g) BASIS ADJUSTMENT.—For purposes of this subtitle, if a credit is allowed under this section with respect to the purchase of any residence, the basis of such residence shall be reduced by the amount of the credit so allowed.

"(h) ELECTION TO TREAT PURCHASE IN PRIOR YEAR.—In the case of a purchase of a principal residence after December 31, 2009, and on or before the date described in subsection (b)(1)(B), a taxpayer may elect to treat such purchase as made on December 31, 2009, for purposes of this section."

(2) CONFORMING AMENDMENTS.—

(A) Section 24(b)(3)(B) of the Internal Revenue Code of 1986 is amended by striking "and 25B" and inserting ", 25B, and 25E".

(B) Section 25(e)(1)(C)(ii) of such Code is amended by inserting "25E," after "25D,".

(C) Section 25B(g)(2) of such Code is amended by striking "section 23" and inserting "sections 23 and 25E".

(D) Section 904(i) of such Code is amended by striking "and 25B" and inserting "25B, and 25E".

(E) Section 1016(a) of such Code is amended by striking "and" at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting ", and", and by adding at the end the following new paragraph:

"(38) to the extent provided in section 25E(g)."

(3) CLERICAL AMENDMENT.—The table of sections for subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by inserting after the item relating to section 25D the following new item:

“Sec. 25E. Credit for certain home purchases.”.

(4) SUNSET OF CURRENT FIRST-TIME HOME-BUYER CREDIT.—

(A) IN GENERAL.—Subsection (h) of section 36 of the Internal Revenue Code of 1986 is amended by striking “before December 1, 2009” and inserting “on or before the date of the enactment of the Act entitled ‘Making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program.’”.

(B) ELECTION TO TREAT PURCHASE IN PRIOR YEAR.—Subsection (g) of section 36 of the Internal Revenue Code of 1986 is amended by striking “before December 1, 2009” and inserting “on or before the date of the enactment of the Act entitled ‘Making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program.’”.

(5) EFFECTIVE DATE.—The amendments made by paragraphs (1) through (4) shall apply to purchases after the date of the enactment of this Act.

(6) TRANSFERS TO THE GENERAL FUND.—From time to time, the Secretary of the Treasury shall transfer to the general fund of the Treasury an amount equal to the reduction in revenues to the Treasury resulting from the amendments made by paragraphs (1) through (4) of this subsection. Notwithstanding section 5 of the American Recovery and Reinvestment Act of 2009 (Pub. Law 111-5), such amounts shall be transferred from the amounts appropriated or made available and remaining unobligated under such Act.

Mr. ISAKSON. Madam President, I want to address this amendment for a moment, and I want to set the stage for the amendment. This amendment was first offered by myself and others in January of 2008. It is an amendment that would provide a \$15,000 income tax credit to a family that purchases and occupies as their home any single-family dwelling in the United States, regardless of their age, their income, or their State. Six months later, in the middle of 2008, the Finance Committee did pass a \$7,500 tax credit which was an interest-free loan, trying to incentivize first-time home buyers to come to the market. But because it was a loan, it didn't do anything. So in December of last year, we changed it to an \$8,000 tax credit for only first-time home buyers with incomes less than \$75,000 for individuals and \$150,000 for couples.

It has worked. In fact, if we look at sales figures from January through July, we will find that entry-level housing, that housing under \$180 to \$200,000, has actually begun to recover. But if we examine the marketplace, we find terrible numbers, such as the following: 47 percent of all the homes in the United States of America are worth less than what is owed upon them. That is a tragedy. Worst of all, in the month of June, 57 percent of all sales in America were foreclosures or

short sales; 43 percent were arm's-length sales. The housing market continues to flounder. Values continue to decline, and equities continue to dissipate.

This amendment is added to the cash for clunkers bill for a very important reason. As Senators STABENOW and LEVIN will tell us, the up-to-\$4,500 incentive to buy a new, fuel-efficient car by trading in an old gas-guzzling car worked. It worked so well that in 1 week the money disappeared.

That demonstrates what I have known all my life. Positive incentives cause positive results. The problem is, though, it was not the automobile market that disappeared first in America. It was the collapse of housing in the last quarter of 2007, which accelerated in early 2008, which pulled away the equity, reduced the amount of credit folks had and caused car loans to go bad and people to not buy cars. The only way we will ever turn the U.S. economy around is to return the biggest engine of the U.S. economy and that is the construction industry and single-family construction and single-family homes.

Right now we are stagnant. The problem is not with first-time buyers. It is with move-up buyers. It is the fellow who has transferred from Atlanta, GA to Hartford, CT who can't sell the house in Atlanta because there is no buyer for it and can't buy a house in Connecticut because he doesn't have the equity out of Atlanta. This tax credit does not take other people's tax money and give it to you to buy a house. It gives you a credit against the taxes that you owe. Rather than buying a depreciable asset such as a car, you are buying an appreciable asset such as real estate. It has a multiplier effect.

When we offered this amendment last year, it was estimated by one economist that it would create 700,000 sales in one year and 685,000 jobs. If there is anything America needs, it is just that. So just as cash for clunkers has demonstrated that positive rewards can cause positive actions on behalf of the consumer, so too would the tax credit do the same.

By the way, the cost of this credit is estimated by CBO at \$34.2 billion. In January of 2008, they said that is too much money. Since then, we have spent \$85 billion on AIG, \$700 billion on TARP, \$787 billion on a stimulus, and we are still floundering; and \$34 billion sounds like a pretty cheap price to address what is the principle problem in the economy. This amendment says it is paid for. The Secretary of the Treasury is authorized to transfer from the stimulus money to the Internal Revenue Service the claims to cover the tax credits filed by homeowners when they pay their taxes for the houses they have purchased.

Finally and most importantly, there is a rude awakening coming in Amer-

ica, and it is coming on November 30, 2009. That is when the existing tax credit for first-time home buyers goes away. The last incentive for an arm's-length sale will have disappeared. If we think we have economic difficulties now, wait until that happens. But with this amendment, we take, from the date of its passage 1 year ahead, which would be sometime in August of next year, a \$15,000 nonmeans-tested credit to replace the \$8,000 means-tested credit.

If the economists are right—not me—it will do the one thing the U.S. economy desperately needs. It will generate a legitimate housing market. Values will stabilize. We will reflate in the value of homes. People will buy more cars because of that than they will because of cash for clunkers. So we want to take the evidence of the success of this program, take what we already know has worked in a means-tested manner in first-time home buyers, and apply it to every American, because every American is suffering in this economy. Every American deserves us to look for positive incentives to bring the economy back, restore their equity, improve their value, and return us to a vibrant economy. I hope the men and women of the Senate will adopt this amendment.

To those who are going to say, we can't do it because the House is gone, I ask this question: If we were talking about health care and one body had passed it, the House would be back here in a New York minute. They could come back in a hurry, and we know it.

Restoring our economy is important. Recovering the equity of our homes is important. Repaying the American people for the dissipation of our marketplace is important. The home buyers tax credit will do it. I urge my colleagues to vote yes on the Isakson amendment.

I reserve the remainder of my time.

AMENDMENT NO. 2303

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Madam President, I rise to address the Vitter amendment. The Senator from Louisiana has offered an amendment that would end the so-called TARP program on December 31 of this year and remove the Secretary of the Treasury's discretion to extend the deadline until October of next year. I can understand why that might be a popular idea, but I think it is important to point out that we are far from being out of the woods in terms of the economic difficulties we face. Members don't need to hear that from me. We still have about 20,000 people a day losing their jobs. We have around 10,000 people a day getting foreclosure notices on their homes. We know there is still an emerging problem with commercial real estate that has yet to be addressed. It is looming out there and demanding some attention. The housing market is stagnant, even though

there have been Herculean efforts offered by our colleague from Georgia, who just spoke, for first-time home buyers on which I joined him to provide some incentives for people to move forward, including his most recent proposal. Losses on bank balance sheets are increasing still despite the fact that there are very positive signs.

I don't deny that, in fact, there seems to be an improvement, an ever so slight improvement in the right direction. But at this juncture, anyone who can say there is no longer any reason for us to take what funds remain within the TARP program, this is not adding to the funds. This is merely a question of whether the program ought to be terminated at the end of this year or extended for about 7 or 8 months into next year.

I urge my colleagues not to, at this juncture—without anyone being clairvoyant—anyone who sits here and tells you there is no longer any need for this, I do not think is listening very carefully or watching very carefully what is occurring in the economy.

So while we would all like the crisis to be behind us, and we would all like to stand here and say there is no longer going to be any need for any of these additional funds within the TARP program as they exist, I do not know of any one of us who could say with certainty what the future holds.

I believe it is very important we have this authority extended beyond the 31st of December into October of next year to give us the opportunity to respond, should we need to, with some additional support to various sectors of our economy that could help us avoid what we have avoided so far; and that is, a deepening and further economic crisis.

With that, when the vote occurs on the Vitter amendment, offered by our colleague from Louisiana, I would urge our colleagues to reject this amendment, not because we do not want to end the program—we do—not because we are in favor of more resources going to TARP. That would be a hard vote. This merely says: Does the program get to extend beyond the 31st of December of this year? There is no request here for additional funding—merely having the funds that exist and to extend it for another 8 or 10 months to give us the opportunity to respond, should the facts require it.

I do not think we want to look back, in January or February, and have to go back through reigniting or starting all over again another program, given the difficulties I think we would face trying to achieve that result. It is better to keep the program that has been in place and has been working and which has made a difference over these past many months than to abandon the program at this juncture when the program very well may be needed.

With those thoughts in mind, I would urge our colleagues at the appropriate time to reject this amendment.

Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from Michigan.

Ms. STABENOW. Madam President, I also rise in opposition to the Vitter amendment.

First of all, this amendment, as my distinguished colleague has indicated, would limit the government's options in dealing with the financial crisis by prohibiting and restricting the extension authority. It would take away a very important option at this time that we should be retaining and, frankly, send the wrong signals to the markets when our markets are so fragile.

At a time when we are beginning to see small signs of improvement, small signs—and we will not see real signs until people have jobs and are working again—but restricting the administration's ability to stabilize the financial markets is dangerous and it is counterproductive to our economic growth.

Unfortunately, this amendment would actually undercut one of the most effective programs to help the economy we have seen. We know, as we have said before, if there are any amendments that are adopted, then this effectively kills the CARS Program.

So for a multitude of reasons, I would urge a “no” vote on this particular amendment.

Mr. DODD. Madam President, will my colleague yield for a moment?

Ms. STABENOW. Madam President, I am happy to yield.

Mr. DODD. Madam President, I inquired—and I appreciate the Senator's comments—I inquired how much in resources are remaining in the TARP program. I suspect it is a question where my colleagues would like to know what remains or what has come back. As a result of a number of financial institutions having paid the money back, I am now told we have something around \$170 billion left in the TARP program or that is what remains of the \$700 billion. There is every anticipation there will be resources continuing to flow back in.

So I want to provide some assurance to our colleagues that I do not see any circumstance in which, at this juncture, there would be a request for additional TARP funds. I think that is probably on people's minds. So by extending the program into October of next year, it is very important my colleagues understand we are not asking for any additional funds. The funds that are in the program and that will come back could be used—hopefully will not need to be used—for any emergency that occurs after December 31. But there are adequate resources there that should make it unnecessary for this body to come back and to seek additional funds in the TARP program. I

think it is an important point to make for our colleagues.

Madam President, I thank my colleague for yielding.

Ms. STABENOW. Madam President, it was my great pleasure to yield and it is a very important point to raise and I appreciate the distinguished chairman of the Banking Committee for his comments, as he has led us on so many of these issues to bring us out of an incredibly difficult economic situation for the country.

AMENDMENT NO. 2306

Madam President, I also wish to speak, briefly, on the Isakson amendment, which I happen to support. At other times, in other places, I absolutely agree we need to continue to jump-start the housing market. I think we have seen that the \$8,000 first-time home buyer tax credit has been a positive. I support expanding that.

When we look at what families choose to purchase, what their biggest purchases are, for most families it is their home and it is their automobile. We have actually modeled the CARS Program after the same kind of argument that caused the Congress and the President to support the stimulus, the \$8,000 first-time home buyer tax credit. I think we ought to seriously look at ways to expand that, and I very much appreciate the leadership of the Senator from Georgia on this issue.

But the reality is, if we were to adopt this amendment to help those who are interested in buying a home, we would hurt people who need to buy an automobile and the stimulus that has worked so well, so quickly, in the CARS Program.

So I would ask for a “no” vote on this particular amendment simply because, at this point in time, we know what this is all about. Let's face it. We know what is happening here. Those who are opposed to the underlying bill, to the CARS Program, know if there are any amendments that are adopted, then the entire program will be ended. It will be done.

We are hearing from auto dealers all across the country, as well as consumers, as well as those who provide the materials for automobiles—we have heard from the steel industry, we have heard from the aluminum industry, we have heard from those who benefited from advertising, we have heard from all those in the long line of people who benefit from the auto industry and manufacturing in this country—that this has worked in stimulating the economy, getting people back into showrooms.

Even if people do not qualify for the program, they get back into the showroom, and they look around at these great automobiles. I should say, a lot of them are made in Michigan. We look for those. But the reality is, there are great automobiles that are out there now, and people are taking this time to

go in and to shop and buy automobiles, even if they are not part of the program.

So we are hearing from dealers all across the country talking about the success of this program. It is something for consumers, something people can see that is tangible. It is not just a debate about what might happen sometime in the future, but it is about right here, right now, how do we help consumers?

The added benefit, as we know, is that because we said you need to buy a more fuel-efficient vehicle, we are seeing, in fact, the fuel economy go up, savings go up. We are told right now the average vehicle that is being turned in gets a little bit above 15 miles per gallon; and people are buying vehicles that are getting a little under 25 miles per gallon. That is about \$1,000 back in somebody's pocket saved on gasoline. And, boy, wouldn't we all like to have \$1,000 back in our pockets right now as a result of a stimulus program that supports people's efforts to get into a more fuel-efficient vehicle? This has been a winner on every front.

We know, at this point in time—after the quick action in the House of Representatives last Friday when it became clear the initial funding was going to be running out—we have known since then, with the House gone, the opportunity to continue this program depends upon our willingness to step up and support the House bill without changes. We all know that.

I would challenge anyone offering an amendment, if their amendment is passed, does that mean we have their vote on the underlying bill? Because that would be a great concern of mine. At the moment, I think what we have are ideas that are good and ideas that are not that are being offered. But everybody knows, in the end, any amendment that is adopted, no matter how well intended—and I know there are well-intended efforts, good ideas, good ideas such as the Isakson amendment, which in another venue I have supported and will support—but right now, on this bill, if we make any changes, we are saying to every small business dealer, every dealer across the country: We don't care whether this has worked, we don't care whether this is effective, we don't want to support you, and we don't want to continue it. We are saying the same thing to consumers. We are saying the same thing to those who care desperately about the auto industry and manufacturing in this country.

So I am very hopeful we will reject all the amendments that are in front of us. On those I support, in terms of the substance, I look forward to working with colleagues in the future, to come back in other ways to put forward these ideas. There are certainly very good ideas that have been put forward, as well as ideas that I do not believe are positive.

But right now the only question in front of us is: Do you support the CARS Program? Do you support the small business dealers across this country? Do you believe this economic stimulus should be continued—an economic stimulus that has worked so well?

I have to say, in closing, I have said before, my father and my grandfather were auto dealers back in the days of Oldsmobile, which dates me. But I know what it was like growing up in a small town where this dealership was so important in terms of employment, in terms of supporting the community, and all that was going on. I know how hard they worked.

My first job was washing cars on the car lot. I understand all that goes into a family-owned business and how much our dealers care about their community, about their business, about their employees. This is about them. This is about supporting people who support their communities, who create jobs, who have had a very, very, very tough time in this economy.

Here we have the great opportunity to support something, not based on faith, not based on some intellectual argument but based on the fact it is working. So I would urge all my colleagues to vote no on the amendments and to join us in extending, as we go into the August recess, a very important and effective stimulus for the American economy.

Thank you very much, Madam President.

Mrs. MURRAY. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEVIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEVIN. Madam President, how much time is left in opposition to the Isakson amendment?

The PRESIDING OFFICER. A full 15 minutes.

Mr. LEVIN. Madam President, I ask unanimous consent—I am not sure who controls the time in opposition—that I be allowed to use 3 minutes of that time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEVIN. Madam President, the Isakson amendment is an example of an amendment which is not only well intended but an amendment that I happen to favor and have favored on a number of occasions on this floor.

One of the problems, though, is it is very clear we have a choice before us. We are either going to have an extension of the Cash for Clunkers Program, with passage of the House bill without any changes in it, or it is going to die. Passage of the Isakson amendment is

not only well intended, but as good an amendment as it is, it will defeat both. We cannot get the Isakson amendment passed into law by adopting it here. It would be added to a bill which is going to go nowhere except to a House which has been adjourned. And we cannot keep this Cash for Clunkers Program going unless we adopt the House bill today.

If we leave without adopting the House bill or amending the House bill, it is the end of the most successful program we have seen in the stimulus package. That is the choice. So adopting the Isakson amendment does not get us where Senator ISAKSON wants us to get, and it destroys the Cash for Clunkers Program extension.

It has been a highly successful program, probably the most successful of any of the stimulus packages, at least to date. We are put in a position—a number of us—of voting against these amendments, amendments, for instance, as well intended as is the Harkin amendment. Voting against an amendment such as that is difficult, we know that, but we did it a week ago. We had to do it when the highway trust fund came up. We had to vote against an amendment which most of us, I believe, favored, which would have produced money for our States, in order to have a bill passed without any amendment so that we could get it done because the House was about to adjourn. So we were put in that position. It is not unusual around here that we are put in this position. It is a fact of life around here. It is not hard to explain back home why we had to do this.

So if we favor the cash for clunkers extension, we have to vote against every amendment. There cannot be a change. There cannot be a period, a comma, a word, a paragraph changed in the House bill. If there is, it is the death knell for this very successful program.

So I hope we will vote against all amendments. Some of them are very difficult to vote against. Some of the amendments we may have voted for before, including the Isakson amendment. Some like the amendment of Senator HARKIN, which is such a well-intended amendment. It has other complications to it, by the way, which would require it being modified, I believe, if it were going to have the effect that is intended, which would require regulations to be adopted, and that would take so long in any event that holding up the cash for clunkers bill for that to happen would also be the death knell for this bill that is so valuable.

So I yield the floor.

Mrs. MURRAY. Madam President, I would just let all Senators know that we are working to probably move to the votes fairly shortly, as soon as we get a unanimous consent agreement. So at this time I would suggest the absence of a quorum.

Mr. GREGG addressed the Chair.

The PRESIDING OFFICER. Does the Senator withhold her request?

Mrs. MURRAY. I withhold.

Mr. GREGG. Madam President, I ask unanimous consent to include additional cosponsors to my amendment: Senator ALEXANDER, Senator CORKER, Senator CORNYN, and Senator ENZI.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. MURRAY. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. MURRAY. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. MURRAY. Madam President, I ask unanimous consent that the vote sequence with respect to the pending amendments be the following, and commence once this agreement is entered, with no further debate except as specified below:

Harkin amendment No. 2300, Kyl amendment No. 2301, Gregg amendment No. 2302, Coburn amendment No. 2304, Vitter amendment No. 2303, and Isakson amendment No. 2306; that the previous order with respect to 2 minutes of debate, equally divided and controlled in the usual form, prior to each vote, and vote time limitation, after the first vote remaining in effect; further that upon disposition of the pending amendments, the bill, as amended, if amended, be read a third time, and the Senate proceed to vote on passage of the bill.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

AMENDMENT NO. 2300

Mrs. MURRAY. Madam President, I believe the pending amendment is the Harkin amendment, and he has 1 minute.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. HARKIN. Madam President, I have an amendment to my amendment that I send to the desk. I ask unanimous consent that I be allowed to make a modification to my amendment.

The PRESIDING OFFICER. Is there objection?

Mr. LEVIN. Reserving the right to object, and I will object for reasons I have discussed with Senator HARKIN, any amendment to this bill will end the bill. It is a death knell for the bill. The modification also would have another delay even if it didn't kill the bill, even if it were passed and the House were able to adopt it. It requires regulations to be adopted which would take time. It would be a stopping and starting of the program. It would create a great deal of confusion.

This is an extremely well-intended amendment. I give Senator HARKIN a lot of credit for what he is aiming to do, but it cannot achieve its purpose the way it is drafted. The way it would be modified would take a significant period of time to be modified. It would result in a stop-and-start situation of the Cash for Clunkers Program. So, reluctantly, I object.

The PRESIDING OFFICER. Objection is heard.

The Senator has 1 minute on his amendment.

Mr. HARKIN. Madam President, in good faith last year, I tried to get this in the bill and it didn't work. I tried it again with this amendment. I was informed there was a problem with it, which I recognized. I tried to again in good faith offer a modification to it. My friend from Michigan is right; it does require some determinations by the Secretary which probably would take some time. I am not certain that is all that much of a reason to not allow it.

I still believe there should be an income cap. But the way the amendment is now drafted, quite frankly, I couldn't even support it because it didn't do what I originally wanted to do. There was an error in drafting. I tried to amend it. I can't seem to get the job done because of the time constraint. There was an action on my amendment; therefore under the rules, I have to have consent to get it modified. I have heard an objection to that. Since I can't get—

The PRESIDING OFFICER. The Senator's 1 minute has expired.

Mr. HARKIN. Since I can't get it done, since I can't modify it, I move to table my own amendment.

The PRESIDING OFFICER. Time remains on the amendment, so the motion to table will have to wait until the time has expired.

Mr. HARKIN. Well, I will not have any time left.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. The Senator has a right to table his amendment. I would simply say that while he is correct that his amendment would be better if it were modified, and he would have had no objection on our side to that modification, it still makes an important point and I think it would have been supported by many people on our side of the aisle. I, frankly, would vote against the motion to table myself because I think it does make an important point, and I think we should be able to debate it and dispose of it.

The Senator has a right to table his amendment. I would urge those on our side to vote against the motion to table.

Have the yeas and nays been ordered? The PRESIDING OFFICER. The motion to table is in order now.

Mr. HARKIN. Madam President, I move to table my amendment.

Mr. KYL. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There appears to be.

The question is on agreeing to the motion.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

The ACTING PRESIDENT pro tempore. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 65, nays 32, as follows:

[Rollcall Vote No. 263 Leg.]

YEAS—65

Akaka	Franken	Nelson (FL)
Baucus	Gillibrand	Pryor
Bayh	Hagan	Reed
Begich	Harkin	Reid

NOT VOTING—3

Byrd	Kennedy	Mikulski
------	---------	----------

The motion was agreed to.

Mrs. MURRAY. Madam President, I move to reconsider the vote.

Mrs. BOXER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2301, AS MODIFIED

Mrs. MURRAY. Madam President, I believe the Kyl amendment is in order.

The ACTING PRESIDENT pro tempore. The Senator is correct.

Who yields time?

Mr. KYL. Madam President, automobile dealers view this program a little like "A Tale of Two Cities"—the best of times and the worst of times. They are selling more cars, but they don't know if they are going to get paid from the Cash for Clunkers Program because there has been no ability to track the sales. As a result, we don't know whether we spent \$1 billion, less than \$1 billion, or more than \$1 billion.

My amendment simply calls a timeout. It says if the amount of money exceeds \$1 billion, then appropriate the amount of money that is needed to pay the obligations on the deals that have already been made and qualified. Then set up a process to track the money in such a way that we can tell whether we have exceeded the next appropriated amount.

That is the essence of the amendment. It asks for a study to determine whether there should be one other change; namely, a change to the particular fuel standard we are applying to the cars. Some believe it should be a slightly higher fuel standard.

I hope my amendment will be adopted to call a timeout, pay the obligations we have already made, and determine a method to track the money in the future so that if we do this again, we know exactly how much we have spent, the dealers can get paid, and the customers have the assurance that their deal can go through.

The ACTING PRESIDENT pro tempore. Who yields time in opposition?

The Senator from Michigan.

Ms. STABENOW. Madam President, I urge a "no" vote on this amendment. This will stop this incredibly successful stimulus on Saturday. It will say to the 160,000 dealers all across this country that we are not willing to support something that has brought people into their showrooms. Whether qualifying for the CARS Program or not, people are coming in and buying automobiles. We are talking about a stimulus. We are talking about jobs. We are talking about moving the economy forward.

We all know if this amendment is adopted, or if any amendment is adopted the CARS Program will be ended. For those of us who believe it makes sense for consumers, for business, for the economy, I ask for a "no" vote.

Mrs. MURRAY. Madam President, have the yeas and nays been ordered on this amendment?

The ACTING PRESIDENT pro tempore. They have.

The Senator from Michigan.

Mr. LEVIN. Is there any time remaining in opposition?

The ACTING PRESIDENT pro tempore. All time has expired.

The question is on agreeing to the amendment.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

The ACTING PRESIDENT pro tempore. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 40, nays 57, as follows:

[Rollcall Vote No. 264 Leg.]

YEAS—40

Alexander	Enzi	McConnell
Barrasso	Graham	Murkowski
Bayh	Grassley	Nelson (NE)
Bennett	Gregg	Risch
Bunning	Hatch	Roberts
Burr	Hutchison	Sessions
Chambliss	Inhofe	Shelby
Coburn	Isakson	Snowe

Durbin	Menendez	Wyden

NOT VOTING—3

Byrd	Kennedy	Mikulski
------	---------	----------

The amendment (No. 2301), as modified, was rejected.

Mrs. MURRAY. Madam President, I move to reconsider the vote, and to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2302

Mrs. MURRAY. Madam President I believe that the Gregg amendment is in order.

The ACTING PRESIDENT pro tempore. The Gregg amendment is the pending question.

The Senator from New Hampshire.

Mr. GREGG. Madam President, I don't happen to agree with this proposal, but what I certainly don't agree with—and I assume most of my colleagues don't agree with—is that we should be paying for this by putting the debt on our children's backs. Yet that is exactly what is going to happen.

The chairman of the Appropriations Committee in the House has been very forthright. He said he spoke to the White House, he spoke to the Speaker, and he said the funds with which this program is being funded were taken out of the stimulus, and what he is going to do is replenish the stimulus. So we are essentially going to borrow twice to do this program, and both times we are borrowing from our kids.

My amendment simply enforces our ability to actually pay for this program, which is what we should do—No fig leaves, just a real exercise in actually paying for a program, rather than passing the bill on to our kids, as we seem to do around here so regularly. I

hope people would vote for this amendment.

Mr. LEVIN. Madam President, this amendment would have an across-the-board cut to the appropriations bill of \$2 billion, including appropriations bills that have already passed. It is a recipe for chaos in the appropriations process. The pay-for is in the bill for this \$2 billion package.

In addition to all of that, any amendment to this bill will kill the program. So if you want to kill the program as well as create havoc in the appropriations process, then you will vote for the Gregg amendment; otherwise, you will vote no.

The ACTING PRESIDENT pro tempore. The Senator from Washington.

Mrs. MURRAY. Madam President, I raise a point of order that the pending amendment violates section 306 of the Congressional Budget Act of 1974.

The ACTING PRESIDENT pro tempore. The Senator from New Hampshire.

Mr. GREGG. Madam President, pursuant to Section 904(c), I move to waive the 306 point of order, and I ask for the yeas and nays.

The ACTING PRESIDENT pro tempore. Is there a sufficient second?

There appears to be.

The question is on agreeing to the motion.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

The ACTING PRESIDENT pro tempore. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 46, nays 51, as follows:

[Rollcall Vote No. 265 Leg.]

YEAS—46

Alexander	Crapo	McCain
Barrasso	DeMint	McCaskill
Bayh	Ensign	McConnell

NOT VOTING—3

Byrd	Kennedy	Mikulski
------	---------	----------

The ACTING PRESIDENT pro tempore. On this vote, the yeas are 46, the nays are 51. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected.

The point of order is sustained and the amendment falls.

Mrs. MURRAY. Madam President, I move to reconsider the vote, and I move to lay that motion on the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

AMENDMENT NO. 2304

Mrs. MURRAY. Madam President, I believe the Coburn amendment is the next in order.

The ACTING PRESIDENT pro tempore. The Senator is correct.

Mr. COBURN. Madam President, this is a simple amendment. Rather than throw great cars away, give them to poor people. One of the biggest problems we have with rural health care and health care associated with our citizens of color in this country is the fact that they do not have transportation to get their health care.

Under this bill, already we will destroy \$500 million worth of good automobiles. As we pass this bill we are going to destroy another \$1 billion worth of automobiles.

It would seem to me, since the charitable organizations are so good at utilizing these cars and we have such a need, especially with the economic downturn we have, that we ought not be throwing them away and ruining them. What we ought to be doing is giving them to those who have greater need than those who are turning them back.

The ACTING PRESIDENT pro tempore. The Senator from Michigan is recognized.

Ms. STABENOW. Madam President, I again ask for a "no" vote. This will kill the program. I think it is important to know, we have worked closely with charities on this particular bill. We had some very interesting comments come back. We have been told that some of the charities are actually seeing increases in their own donations due to the heightened awareness of car recycling.

To quote Pat Jessup, president of Cars 4 Causes, she has said, "oddly enough," car donations are up this month. "In fact," she adds, "because of the increase in donations, Cars 4 Causes has staffed up to handle the incoming calls."

They indicated when people look, if they do not qualify for the Cash for

Clunkers Program, they are going on to discover the tax advantages of donating a vehicle. Then they are calling them.

This is a short-term stimulus. It is not affecting very important charities. I urge a "no" vote.

The ACTING PRESIDENT pro tempore. The Senator from Washington is recognized.

Mrs. MURRAY. Madam President, I raise a point of order that the pending amendment violates section 201 of S. Con. Res. 21, the concurrent resolution on the budget for fiscal year 2008.

Mr. COBURN. Madam President, I move to waive the applicable section of the Budget Act with respect to my amendment.

I ask for the yeas and nays.

The ACTING PRESIDENT pro tempore. Is there a sufficient second?

There is a sufficient second.

The question is on agreeing to the motion. The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

The PRESIDING OFFICER (Mr. BEGICH). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 41, nays 56, as follows:

[Rollcall Vote No. 266 Leg.]

NOT VOTING—3

Byrd	Kennedy	Mikulski
------	---------	----------

The PRESIDING OFFICER. On this vote, the yeas are 41, the nays are 56. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected.

The point of order is sustained, and the amendment falls.

Mrs. MURRAY. Mr. President, I move to reconsider the vote.

Mr. BAUCUS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2303

The PRESIDING OFFICER. There will now be 2 minutes equally divided prior to a vote on the Vitter amendment No. 2303.

The Senator from Louisiana.

Mr. VITTER. Mr. President, this amendment is very simple. It simply says the TARP bailout fund will end when we originally said it would end: December 31 of this year. Under the original TARP bill, the Treasury Secretary has the authority to extend it another almost full year, until October of 2010. We would take that authority away. We would retain that responsibility and say we will wind down the TARP bailout fund at the end of this year.

Clearly, the crisis, the imminent collapse of the financial system, has passed and is not before us. If we are serious about the bailout being temporary, being necessary because of truly unusual circumstances, if we are serious about that, we will vote yes on this amendment and end TARP at the end of this year in an orderly way.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Mr. President, this amendment would terminate the program at the end of this year. While there are certainly very positive signs that the economy is improving, all of us are painfully aware of how much further we have to travel before the economy is truly back on its feet. The foreclosure rate and the unemployment rate are still troubling.

This is not a request for additional money. There is about \$170 billion left in the TARP program. It would be premature and unwise for us to terminate a program without knowing yet that we have actually come out of difficult times. I urge colleagues to reject this amendment. What this does is sustain the program beyond December 31 of this year into October of next year. Then, hopefully, we won't need these resources. Hopefully, we won't have to use another nickel of this money. But I don't think we want to come back in February and March and all of a sudden have to restart a program such as this because we haven't achieved all the success we would like in getting our economy back on its feet.

I say respectfully to my friend from Louisiana, I urge colleagues to reject the Vitter amendment.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

Mr. VITTER. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 41, nays 56, as follows:

NOT VOTING—3

Byrd	Kennedy	Mikulski
------	---------	----------

The amendment (No. 2303) was rejected.

Mrs. MURRAY. Mr. President, I move to reconsider the vote.

Mr. SCHUMER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Washington.

AMENDMENT NO. 2306

Mrs. MURRAY. Mr. President, I believe the final amendment is now in order, the Isakson amendment.

The PRESIDING OFFICER. The Senator is correct. There is 2 minutes of debate divided equally on the amendment.

Who yields time?

The Senator from Georgia.

Mr. ISAKSON. Mr. President, very simply, this is the amendment to help our economy recover. The Senator from Washington, the Senator from Connecticut, the chairman of the

Banking Committee, are cosponsors of the main bill. It provides a \$15,000 tax credit for the purchase of any home in America during the next 12 months. It will make the difference. It does not do anything to the base bill.

For those who would say we cannot do it because the House is gone, we can do anything if we want to. It is time we address the central core issue to our economy: the housing market.

I urge all my friends to support the Isakson amendment to provide the \$15,000 tax credit.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. Mr. President, this is another well-intended amendment. It is an amendment, indeed, that many of us have voted for in a slightly different form in a different place. However, it would represent the death knell for this program. So if you believe the Cash for Clunkers Program is a successful program and should be extended, this amendment needs to be defeated and raised at a different point.

We will not get the Isakson amendment into law by adopting it. All we will do is stop the Cash for Clunkers Program from continuing. That seems to me to be the choice, which is a fundamental one. I hope we defeat the Isakson amendment.

Mr. President, I yield back the remainder of my time.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. Mr. President, I raise a point of order that the pending amendment violates section 201 of S. Con. Res. 21, the concurrent resolution on the budget for fiscal year 2008.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. ISAKSON. Mr. President, I move to waive the applicable section of the Budget Act with respect to my amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to the motion.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 47, nays 50, as follows:

[Rollcall Vote No. 268 Leg.]

NOT VOTING—3

Byrd	Kennedy	Mikulski
------	---------	----------

The PRESIDING OFFICER. On this vote, the yeas are 60, the nays are 37. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

Mrs. MURRAY. Mr. President, I move to reconsider the vote.

Mr. REID. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. VOINOVICH. Mr. President, I rise in support of the passage of the Car, Allowance Rebate System, CARS, commonly referred to as Cash for Clunkers. CARS provides both a direct and indirect economic benefit to the State of Ohio by supporting the manufacturing of automobiles, automotive parts suppliers, and auto dealers, as well as the many businesses that support these companies. This program is providing valuable jobs and much needed revenue—a direct stimulus—to the State. Furthermore, Ohio car buyers responded positively and Ohio has been one of the top recipients under the CARS program. That is why I am asking my colleagues to reject amendments that would prevent the program from operating until September when the House of Representatives is scheduled to reconvene. If the Senate adopts even one amendment, the bill will be on hold until the mid-September. In some instances, if these same amendments were considered as stand-alone legislation or as amendments to other legislation, I may have supported them, but because these amendments

hold hostage the continuation of the CARS I will oppose anything that would keep the Senate from transferring these funds.

The Senate's decision to continue funding the cash for clunkers program will allow consumers to purchase new cars, delivering a real economic stimulus to our States. As evidenced by the extraordinary response to the program thus far, this is a win-win. It provides much needed jobs and resources to our states and promotes fuel efficient cars to benefit our environment, reducing our dependence on foreign oil. I am thankful the additional \$2 billion for this program is being taken from the already-enacted stimulus bill, which I voted against earlier this year. Unfortunately, programs that would provide real stimulus like cash for clunkers and robust highway and infrastructure investments were not part of the original stimulus package. These types of direct tangible investments provide not only jobs through dealers, manufacturers, and auto suppliers, but usable assets for taxpayers. I am hopeful that this program will continue to provide much-needed relief to the Ohio's automotive manufacturers.

Mr. BOND. Mr. President, auto jobs form the backbone of American manufacturing, especially in the Midwest. Millions of Americans, and in my home—state of Missouri more than 200,000 workers, depend on the auto industry for their livelihoods.

Unfortunately all of those jobs were at risk when the big three domestic auto companies almost went completely under.

Recognizing the importance of this industry to our economy and millions of workers, the government acted to protect these auto jobs.

One of those actions was to pass the Cash for Clunkers Program. I supported this program because I thought it would help save thousands of jobs at auto dealers, parts plant, and assembly plants.

Also, this program was designed to help consumers with the cost of more fuel-efficient cars and, ultimately, in the long-term benefit the environment with reduced exhaust emissions.

This is one government program that has actually exceeded everyone's expectation.

Folks in Missouri and across the Nation have been flocking to once rather empty car lots.

In fact, there were tens of thousands of new car purchases made through the program after only a week.

Cash for Clunkers has given a much needed jump-start to dealers and the auto industry that have been suffering with the worst car sales in recent history.

This program has benefited consumers who would otherwise not be able to afford a new vehicle and has boosted small business dealers in rural

and small communities across Missouri and the country.

It is not to say that the program, like most government-run programs, has had an entirely smooth ride. I have heard from Missouri auto dealers who have been frustrated by government red tape, which has stalled some sales and created confusion among dealers and car buyers.

This uncertainty has rightfully caused some heartburn for dealers who are required under the program to provide funding up front for the consumers and then must receive approval from the government before they receive reimbursement. Redtape and delays due to inadequate government resources to administer the program have left many dealers wondering if they will be left holding the bag.

I have been disappointed and dismayed to learn that the Department of Transportation does not know how many commitments have been made and paid for by dealers. Thus, we cannot even be sure that the existing program will have enough money to meet the commitments.

Under the legislation passed by the House, cash for clunkers would be extended and provided an additional \$2 billion by using unspent funds from the so-called stimulus bill.

I say so-called because so far it has only stimulated the growth of the deficit and the growth of government employment. Taking \$2 billion from that program is the best way to see we get a boost to the economy, now, when we need it.

Fully offsetting additional funding to extend the program is a critical requirement to ensure that we are not adding to the growing Federal deficit.

I am very concerned about potential shell-games being reported in the media about Democratic leadership plans to backfill the stimulus bill in future appropriations.

To be clear, my support for extending cash for clunkers is contingent upon the program not adding to our deficit and that it be temporary, not a bottomless pit for taxpayers.

The purpose of cash for clunkers was to jump-start the auto industry and provide immediate and temporary help to get consumers back on car lots, not to provide a long-term subsidy to the industry and, thus I will not be supporting continued cash for clunkers.

While cash for clunkers has provided a stimulative jolt to get people onto car lots again, we cannot hang our hats on this program and expect to have a lasting recovery. I remain concerned about the credit markets, continuing job losses, and the rising likelihood of higher taxes and larger deficits under the spending plans proposed by the administration.

Nevertheless, as a supporter of the initial \$1 billion provided to cash for clunkers to jump-start the struggling

auto industry, I believe that the program should be extended one last time as long as it is funded with unspent stimulus funds to ensure dealers are not on the hook for the cost of the rebates due to the government's management failures.

This program was meant to jumpstart, not subsidize, auto sales, so I support a one-time extension.

Also, it is critical that the Obama administration make sure that bureaucratic hiccups don't turn this program into a nightmare for our dealers and consumers.

The bottom line is that an extension paid for with unused stimulus dollars makes sense this one time since this program seems to have worked better than the misnamed Recovery Act.

Mr. FEINGOLD. Mr. President, I am pleased to support this bill, which will provide additional funding to the popular Consumer Assistance to Recycle and Save or CARS program. While not perfect, CARS has encouraged Americans to trade in their older and less fuel-efficient vehicles while boosting new car sales and helping to revive local economies in Wisconsin and around the country, something that is sorely needed in these difficult economic times.

CARS began almost 2 weeks ago and in that time, interest in CARS has far exceeded most initial expectations for the program. Despite some problems with implementation of the program, it should be temporarily extended to help ensure that Americans who still want to participate in the program can do so, and that deals which have already been made in reliance on the program can go through. At the same time, I hope the Department of Transportation will listen to the concerns from car dealers and consumers and make improvements to help ensure CARS operates more smoothly in the coming weeks.

I am pleased that the Department of Transportation has fixed one problem it created in implementing CARS. When Congress created the CARS program earlier this year, it fully intended to ensure that consumers across the country who are in compliance with the statute's requirements, including provisions related to car insurance, be allowed to participate in the CARS program. The Transportation Department issued a final rule almost 2 weeks ago that set the guidelines for the CARS program. This rule included a requirement that individuals who wanted to trade in their vehicles had to demonstrate proof of car insurance for at least one year prior to the trade-in, a provision that conflicted with statutory language stating that a trade-in vehicle be "continuously insured consistent with the applicable State law." Currently, Wisconsin and New Hampshire do not require individuals to purchase car insurance and it was esti-

mated that Transportation's rule would have affected up to 15 percent of Wisconsin drivers who legally did not have car insurance, but were in full compliance with Wisconsin State laws.

I wrote to the Department of Transportation and spoke with Secretary LaHood to urge the Department to correct its misinterpretation of the CARS statutory language. I am pleased to have been joined in the effort by members of the Wisconsin and New Hampshire delegations as well as some of the lead authors of the Cash for Clunkers program including Senator STABENOW and Representative DINGELL. The Department listened to our concerns and, last week, it announced that it had re-examined the statutory language of CARS and concluded that the initial rule it had issued unfairly penalized Wisconsin drivers who were in compliance with Wisconsin law. The Transportation Department further announced that trade-in vehicles in Wisconsin would be exempt from the 1-year insurance requirement thereby ensuring that Wisconsinites who meet the law's other eligibility requirements can participate in the CARS program. While all Wisconsin drivers will be required to have car insurance beginning in June 2010, this action by the Transportation Department is a sensible fix for Wisconsinites who are in compliance with state law and who seek to participate in this temporary program.

Even with a number of Wisconsinites erroneously excluded from the program initially and some technical difficulties, as of August 5, several thousand Wisconsinites had participated in the program and dealers are expected to receive reimbursements for over \$24 million that they have credited to Wisconsinites buying new cars under this program. On a per capita basis, this level of requested vouchers places Wisconsin fifth amongst all the States. Demand for the program remains strong in Wisconsin and across the country and will soon completely outstrip the supply of vouchers currently available, which is why we need to act to provide additional funding.

Mr. INOUE. Mr. President, I wish today to support providing an additional \$2 billion to allow for the extension of the car allowance rebate system, CARS, otherwise known as cash for clunkers.

During the original debate on the cash for clunkers concept in the Appropriations Committee, proponents of the program promised that it would have two major benefits. The first was that it would replace older, less fuel-efficient cars with new models that are more fuel-efficient, thus helping the environment and decreasing our dependence on imported oil. The second was that it would provide a much needed boost to plummeting auto sales in the United States.

The good news is that we now have hard data we can use to evaluate

whether the program has lived up to its proponent's promises. And the very good news is that clearly, it has. In fact, the program has exceeded expectations.

Based on approximately 184,000 dealer transactions that have so far been recorded by the National Highway Traffic Safety Administration, NHTSA, we know the following:

CARS transactions are generating a 60-percent increase in vehicle fuel economy. The average of the vehicles being turned in have a fuel economy rating of 15.8 miles per gallon, while the average of the vehicles being sold have a fuel economy rating of 25.3 miles per gallon. This means the average CARS transaction is leading to an increase in fuel efficiency of 9.5 miles per gallon. I think we can all agree that is a very significant improvement. How significant? The savings in gas purchases alone are estimated to be \$700 a year for the typical consumer. Clearly, the CARS program has lived up to its promise to put more fuel-efficient cars on the road.

As for the second promise—that this program would provide a much needed boost to automobile sales in the U.S.—the Washington Post reported the following on August 4: "U.S. auto sales rose to their highest levels of the year in July as consumers rushed to trade in older vehicles under a government incentive program that has become so popular it is in danger of running out of money. Automakers issued their sales reports Monday, raising hope that the sagging auto industry is headed for a recovery, although some analysts cautioned that a turnaround would still be slow. Ford said its sales were up 2.4 percent over the same period a year ago, its first monthly increase in two years. The automaker attributed much of the gain to the Cash for Clunkers program, which allows consumers to receive rebates for turning in older cars for more fuel-efficient models."

There can be no doubt that the CARS program is succeeding beyond expectations. In fact, the program has been such a hit with the American people that it has run out of funding much sooner than anticipated. The President has proposed, the House has passed, and I fully support, the reprogramming of \$2 billion in Recovery Act funding to enable the extension of the CARS program.

With this extension, we can continue to put more fuel-efficient automobiles on the road, which reduces pollution and our reliance on imported oil, and we can continue to provide a much needed boost to the auto industry, which helps the broader economy and saves jobs. At a time when our economy is in need of a jump-start, cash for clunkers is an undeniable success. I urge my colleagues to join me in providing the additional funding needed to continue this worthy program.

Mr. LEAHY. Mr. President, I would like to make some observations about the Consumer Assistance to Recycle and Save Program, more commonly known as cash for clunkers.

When Congress first passed this program in June, I evaluated the merits and the arguments and chose to support it, because I believed it would provide a prompt shot in the arm to our ailing economy. I continue to believe that the program's goals of reducing the environmental impact of automobiles on the road and producing economic stimulus are good ones.

However as we debate whether to infuse this program with another \$2 billion I would urge that we be patient and wait until all the facts are in, before rushing forward with a tripling of the program's overall cost. Significant claims have been made about the average increased fuel economy and resulting financial savings that will result from car purchases made through the program. The administration has used these claims to push for the program's expansion, yet Federal agencies have not yet made available—to the American people and to the Congress—the appropriate data to support these claims.

If you have picked up a newspaper in the past few weeks, the sudden popularity of the program is clear. Newspaper headlines have consistently noted the program is rapidly running out of money and that car purchases are well above where they were at this time last year. In my own State of Vermont, car dealers have reported having difficulty keeping up with demand for new cars that meet the program's requirements. But while we know that cars are moving off sales lots and onto the road, we have yet to receive enough details about the current sales data to know the true story of whether this program is working as intended.

Recent reports on the program have indicated that funding was about to run out, yet the number of actual car sales through the program was far lower than the program allowed for. Further, many dealers have noted that hundreds of thousands of dollars in program vouchers from the government have yet to be paid. If this is in fact the case, we should demand that the management of this program be ironed out before pumping billions more into it. Are we sure that this is the best way to spend \$2 billion right now, if it is to be spent? There are many worthy and pressing purposes to which such significant sums could be allocated.

Positive indications about the direction of the economy are emerging. Today we learned that the number of Americans filing for unemployment dropped to its lowest level since January. The Cash for Clunkers Program may prove to be a factor in helping our country emerge from this recession, and I certainly hope that is the case.

But the public release of information about this car rebate program is necessary to ensure that both the Congress and the American people can make well-informed judgments about the merits of continuing this program in these economically challenging times. If the administration is unwilling or unable to provide this information before the Senate votes on additional funding, I will be unable to support the program's expansion.

The PRESIDING OFFICER. The question is on passage of H.R. 3435.

The majority leader is recognized.

Mr. REID. Mr. President, we have one more vote. I appreciate everyone's cooperation. We have accomplished a great deal this whole work period. This week has really been a productive one. I appreciate everyone's help. The Republican leader and I have worked hard to get it to this point on Thursday night at 8 o'clock. That is hard to comprehend.

We will come back after the break and have a vote Tuesday evening. We will keep people posted as to what is going to happen. We are going to move to appropriations bills as quickly as we can, and we have other things to do throughout the work period. I hope everybody has a great work period at home.

The PRESIDING OFFICER. The Republican leader is recognized.

Mr. MCCONNELL. Mr. President, I wish everybody well during August while visiting your constituents, and I look forward to being back here after Labor Day.

The PRESIDING OFFICER. The Senator from Michigan is recognized.

Ms. STABENOW. Mr. President, I thank all of my colleagues for their support. I also thank Senator REID for his amazing leadership and hard work. We wish everyone a wonderful and safe August. Thank you so much for allowing an important stimulus to continue throughout the month of August. We appreciate it.

The PRESIDING OFFICER. The senior Senator from Michigan is recognized.

Mr. LEVIN. Mr. President, I thank everyone for keeping this successful program going. Have a great August.

The PRESIDING OFFICER. The question is on the third reading and passage of the bill.

The bill (H.R. 3435) was ordered to a third reading and was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

Mr. REID. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr.

BYRD), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

The PRESIDING OFFICER (Mr. BENNET). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 60, nays 37, as follows:

[Rollcall Vote No. 270 Leg.]

YEAS—60

Akaka	Dorgan	Merkley
Alexander	Durbin	Murray
Baucus	Feingold	Nelson (FL)
Bayh	Feinstein	Pryor
Begich	Franken	Reed
Bennet	Gillibrand	Reid
Bingaman	Hagan	Rockefeller
Bond	Harkin	Sanders
Boxer	Inouye	Schumer
Brown	Johnson	Shaheen
Brownback	Kaufman	Snowe
Burris	Kerry	Specter
Cantwell	Klobuchar	Stabenow
Cardin	Kohl	Tester
Carper	Landrieu	Udall (CO)
Casey	Lautenberg	Udall (NM)
Collins	Levin	Voinovich
Conrad	Lieberman	Webb
Corker	Lincoln	Whitehouse
Dodd	Menendez	Wyden

NAYS—37

Barrasso	Grassley	McConnell
Bennett	Gregg	Murkowski
Bunning	Hatch	Nelson (NE)
Burr	Hutchison	Risch
Chambliss	Inhofe	Roberts
Coburn	Isakson	Sessions
Cochran	Johanns	Shelby
Cornyn	Kyl	Thune
Crapo	Leahy	Vitter
DeMint	Lugar	Warner
Ensign	Martinez	Wicker
Enzi	McCain	
Graham	McCaskill	

NOT VOTING—3

Byrd	Kennedy	Mikulski
------	---------	----------

The bill (H.R. 3435) was passed.

Mr. LEVIN. Mr. President, I move to reconsider the vote.

Ms. STABENOW. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. CHAMBLISS. What is the status, Mr. President?

MORNING BUSINESS

Mr. LEVIN. Mr. President, I ask unanimous consent that the Senate now proceed to a period for the transaction of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Georgia.

TRIBUTE TO FRANK NORTON

Mr. CHAMBLISS. Mr. President, I rise, along with my colleague from Georgia, to commemorate the life of a good man and a great American, Frank Norton.

Frank's years of service to this country ended recently with his untimely

death. But it is fitting we remember Frank on the Senate floor, a place where he served this body, as well as service to our country in years prior to that.

Frank died a resident of St. Simons Island, GA, a place he called home, even though he was a native of nearby Waycross, GA.

Frank graduated from Emory University in 1966, and it was his intention to go to law school. Unfortunately, the Army intervened. He was drafted, wound up going to Officer Candidate School, and not long after that became an Army Ranger instructor. He then headed to Vietnam. While he was in Vietnam, he served in one of the most dangerous jobs in the Army, which was a Ranger reconnaissance platoon leader. For his service and bravery, Frank earned some nine medals, including the Purple Heart and three Bronze Stars for Valor in combat.

Frank went on to serve in assignments at Fort Benning and Fort Stewart, GA, as well as in Korea and Germany. But it is his congressional assignments that some of my colleagues will remember him for. He came to head the Army liaison office in both the House and the Senate.

At the time of his retirement in 1993 as a colonel, Frank was the principal Deputy to the Secretary of the Army for U.S. Senate Liaison. He was the only Army officer to serve in that position in both the House and the Senate.

But Frank's service to country did not end there. In 1993, my predecessor, Senator Sam Nunn, appointed Frank to serve as a staffer on the Senate Armed Services Committee. This was a point in time when this Nation had to go through its first major base closure and realignment process. Frank headed up that process from an Armed Services Committee standpoint and did an outstanding job.

After a later career in government relations, Frank devoted his time to his family farm, to charities, and to community service in Waycross, Brunswick, and St. Simons. Frank loved art, the symphony, and classical music, which is hard to believe for a guy who was as robust and personal and such a great retired Army colonel as Frank was.

His lovely wife Carol and his young son Lee are going to miss him. Certainly, I am going to miss him. We honor him tonight.

I yield for my colleague from Georgia, Senator ISAKSON.

Mr. ISAKSON. Mr. President, I am honored to rise with Senator CHAMBLISS to pay tribute to a great Georgian and a great friend to the United States of America and a great veteran of the U.S. Army.

COL Frank Norton was quite an extraordinary man. As Senator CHAMBLISS mentioned, upon graduation he went to Vietnam, and in Vietnam he

took one of the most dangerous missions of all and did it superbly. He was decorated nine times. He returned here and throughout his career served in the Congress, the Senate, and served the people of the United States in many ways.

Frank Norton is a very unique individual. When he left military service and left service to the House and Senate liaison committees, he formed a partnership with his old friend Bob Hurt from Georgia. They formed a firm called Hurt and Norton, and they were quite a team; always jovial, always hard working, always on target, always delivering for their clients, and their clients were always the State of Georgia.

Our biggest economic asset in Georgia is our port of Savannah, and they represented the port. Our coastline is one of the most valuable areas of Georgia, and they represented our coastline. And most importantly of all, in the critical days of Fort Stewart, they represented Fort Stewart and the Hinesville community to see to it that the needs of our soldiers were met and the needs of the city of Hinesville, which hosted the soldiers, were met as well.

Frank died on the tennis court with his young son Lee. Tonight I send my regrets to his wife Carol, to Lee, and to all his family. But I also send my praise, my praise for a great Georgian, a great American, who sacrificed in so many ways for this country. May he now rest in peace looking down on all of us from heaven.

I yield back my time.

The PRESIDING OFFICER. The Senator from Delaware.

SIGNING AUTHORITY

Mr. KAUFMAN. Mr. President, I ask unanimous consent that the majority leader be authorized to sign any duly enrolled bills and joint resolutions through Friday, August 7, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

IN PRAISE OF PEARLIE S. REED

Mr. KAUFMAN. Mr. President, I rise once again to speak about one of our great Federal employees. Whenever I enter this Chamber, I cannot help but admire the inspirational works of art that adorn it. Above the main entrances rest marble reliefs depicting the three virtues of Courage, Wisdom, and Patriotism.

Our Federal employees embody all three of these qualities, though my focus today will be on patriotism. The marble relief representing patriotism, which sits atop the lintel of the door to my right, shows a man setting aside his plow to take up the sword. This image recalls the parallel stories of Lucius Cincinnatus and George Wash-

ington, two farmer citizens who set aside their daily work in order to defend the people's liberty.

In the history of democracy, the sword and plow have come to symbolize this dichotomy. Traditionally, the sword features most prominently as the metaphor for patriotism. However, I would argue that the plow is just as much a symbol of patriotism as the sword. The plow represents a citizen's daily contribution to society over the course of many years. The highlight of the Cincinnatus story, from which our revolutionary forebears drew inspiration, is that he returned without fanfare to his plow when the war was finished.

The great statesman Adlai Stevenson once said:

Patriotism is not short, frenzied outbursts of emotion, but the tranquil and steady dedication of a lifetime.

I think it is fitting to speak about patriotism as symbolized by a plow, because the Federal employee I wish to recognize this week has worked in the Department of Agriculture for over 35 years. Pearlle Reed was raised on a farm in the rural town of Heth, AR, where he was the ninth of eighteen children. He worked hard to attend the State University of Pine Bluff, which was especially challenging for an African-American man in the South during the struggles of the Civil Rights movement.

Nonetheless, Pearlle received his degree, and he joined the USDA in 1968 as a student intern for the Soil Conservation Service. In the years that followed, Pearlle rose steadily in the Soil Conservation Service from an entry-level soil conservator to district conservationist, to deputy state conservationist, and he was eventually appointed as the state conservationist for Maryland in 1985. He served in that position for 4 years, after which he became the state conservationist for California.

As his career advanced, Pearlle also received a master's degree in public administration from American University. The Soil and Conservation Service was eventually transformed into the Natural Resources Conservation Service or NRCS. From 1994 to 1998, Pearlle served as associate chief, and his last year on the job also served as Acting Assistant Secretary of Agriculture for Administration.

In 1998, Pearlle was promoted to chief of the NRCS, and he held the position until 2002 when he was named Regional Conservationist for the Western United States. In that role, Pearlle was in charge of all natural resource conservation efforts by the Federal Government in 10 States and the Pacific Basin area.

Pearlle has said that one of his proudest moments in his career came when he was asked to lead the Agriculture Department's task force on

civil rights in the 1990s. He led a team that issued a report containing 37 recommendations on how to ensure that the Department is a welcoming place for minorities. Pearlie briefed President Clinton personally, and the President issued an order that all 37 of his recommendations be implemented.

Pearlie retired from the USDA in 2003, but just this year Secretary Vilsack called him out of retirement and asked President Obama to appoint him as Assistant Secretary of Administration, the position he briefly held in an acting capacity 10 years ago. Pearlie was confirmed by the Senate on May 12, and he is now back at work for the farmers and ranchers of America.

One of his former colleagues said once that:

If you look up the term "public service" in the dictionary, you'd likely see a picture of Pearlie Reed right next to it.

Over the course of his long career, Pearlie has received the Distinguished Presidential Rank Award, the George Washington Carver Public Service Hall of Fame Award, and the USDA's Civil Plow Honor Award, among others.

Pearlie exemplifies the kind of patriotism Stevenson spoke about—the patriotism of steady work and perseverance represented by Cincinnatus's plow.

I hope my colleagues will join me in honoring Pearlie Reed's distinguished service and that of all Federal employees working in agricultural development, resource conservation, and rural advancement.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut.

HEALTH CARE REFORM

Mr. DODD. Mr. President, I want to speak, if I can, for a few minutes this evening on the health care bill. I suppose today or tomorrow will be the last time before we return in September to address the issue of health care reform, and I thought it might be worthwhile this evening—in the waning hours—to give our colleagues and others who are interested an idea of where we are in this debate and what options have been proposed.

As many have heard us say already, the committee for which I have been hired as sort of a pinch-hitter for Senator KENNEDY—the Health, Education, Labor and Pensions Committee, on which I am proud to serve—and I must say once again, with deep regret, that the chairman, Senator TED KENNEDY from Massachusetts, has not been able to be with us over the last number of weeks. I will tell you this. He is watching very carefully every meeting and markup and gathering that occurs, because he has invested so much of his public life and career to trying to reform the health care system of our Nation. So I was asked to step in for him,

temporarily, until he gets back on his feet and can join us in this effort.

We have spent a long time over the last number of weeks and months on this debate. We have spent a tremendous amount of time in the committee, even a lot of time before the actual markup in preparing for the legislation. So this evening I wish to talk about sort of where we are with that bill, what is in that bill in very practical terms, and how it would affect individuals.

I also want to give my colleagues some opportunity to appreciate what will happen while we are away for 5 weeks in terms of those who will lose their insurance, as they will, between now and September. I have made the point over and over again that 14,000 people a day in our Nation lose health care coverage. Those are terrible numbers. They are more significant in some States than in others, but there is that erosion of coverage every day.

As long as nothing happens, as long as no health care crisis affects them or their families, they may be able to survive all of that until they find a job or find some other means by which they can afford health care coverage. If, unfortunately, they are caught—as so many are—with that unexpected accident, that unexpected health care crisis, that unexpected diagnosis of a major health care problem while they are in that period without coverage, the implications can be staggering, and not just because they lack the coverage that might allow them to take care of that emergency accident or injury. But if they are diagnosed with something in the absence of a health care plan, under the present circumstances, there is very little likelihood that they are going to be able to get a health care plan that will be within their means to afford it because they will have that preexisting condition once the diagnosis occurs. So the health care costs go right up through the ceiling.

So again, 14,000 a day, as we gather here, find themselves in that shape. I thought it might be worthwhile to get graphic about this, because by the end of the August recess, when we return, 756,000 of our fellow citizens will have lost their health insurance—while we are away over the next 4 or 5 weeks—and that is a staggering number.

Some may find a means to get it back. Some may have a spouse who gets a job that provides coverage. But those are the numbers if you take every day the loss of health care coverage.

My patient here, with these numbers, you can see the thermometer is now exploding. He is even having some beads of perspiration here because he is now worried that he or his family could be caught in that free fall, without the means to protect themselves against economic ruin. It could happen.

So as we begin a short discussion this evening of where we are, I thought it

might be important to share with my colleagues that while we leave with the full confidence of a very good health care plan as Members of Congress, that should an accident, a diagnosis, a problem occur to any one of us—while we don't want that to happen—there is no likelihood we are going to be put in economic difficulty because of it. Certainly we will probably get good care because of who we are, what we do, but no worry about the sort of economic ruin that this crowd of 756,000 Americans may face if they are caught in a similar situation.

I have hope that all my colleagues have a good recess, that they will get around their States and districts. I also hope they will get an annual physical this year, as I hope everyone does. We provide an opportunity, under our health care plan, to do that at little or no cost. That is how I discovered earlier this summer, in June, that I have early stage prostate cancer, and I will be going through a procedure in the next few weeks to deal with that matter, and I am confident, since I caught it in this early stage, that I will come out fine. I have had a chance to talk to people who have gone through this or had a family member and I know about the various options that are available. It is early stage. It hasn't metastasized. I am not going to be in tough shape. I believe I am going to come out of this fine. But that is what you get when you get an annual physical. You find out these things.

There are people who, of course, don't do that. We even have had colleagues who didn't. A wonderful man I served with in this body for many years by the name of Spark Matsunaga from Hawaii did not discover it early enough, and he lost his life to prostate cancer. Almost 30,000 people in our country die every year of prostate cancer. In many instances, if not most, it is because it wasn't diagnosed early enough. It is very slow growing. There is ample time to respond to it, but you need to find out about it.

So when you get that physical, and I hope each of my colleagues remembers that if they do that and they find out they have a health issue, or if something happens in an accident to them, or if anybody in their family suffers a health crisis, they will be able to focus their attention on getting well because there is absolutely no risk that any Member of the Congress, or the millions of Federal employees who have the options—more than 20 of them each year, by the way—to choose what plan serves us best—no risk they will lose their economic security because they got sick or they had a bad diagnosis or they got hurt. Because as I said a moment ago, we all have great health insurance and we are not going to lose it any time soon.

But tens of millions of Americans have insurance that does not allow

them to get the care they need. It is not just the uninsured; it is people with insurance I want to focus on this evening—people who have insurance when they need it, with the doctor of their choice, and while we are gone, nearly half a million of them will lose that coverage.

I understand we are all going to be patient on this effort of health care reform. It takes time to get it right. I acknowledge that. But 70 years is long enough. That is how long we have gone in our Nation without addressing in a holistic way the health care issues that must be addressed.

By the time we return from our recess, the number of Americans, I pointed out, who will have lost health insurance since our committee, the Health, Education, Labor, and Pensions Committee, passed the Affordable Health Choices Act more than 3 weeks ago, will be over three-quarters of a million people.

While a bill that will improve the quality and affordability of health care for every American sits waiting for action, as I said, 756,000 of our fellow citizens are going to lose that insurance before we come back from our recess.

Let me take a moment and show my colleagues what that means in their States. I have broken this down State by State so you get some idea of what the implications are because sometimes these numbers can be daunting. It may be hard for people to see this, but I have broken it down. I will run it down very quickly.

Alabama, 5,760 people will lose their health insurance over the next 5 weeks; Alaska, 640; Arizona, 8,960; Arkansas, 2,560; California, 70,080 people will lose their health care coverage before we reconvene in early September; Colorado, 3,200.

I know the Presiding Officer has been working hard on this issue. I commend him for this effort. I know he will be meeting with a lot of his constituents. In fact, Colorado and Connecticut lose the same number of people, 3,200 as well.

In Delaware, 960; in Florida, 27,200; Georgia, 13,760; Hawaii, 1,600; Idaho, 2,240; Illinois, 8,640; Indiana, 15,360 will lose health care coverage; Iowa, 2,240; Kansas, about the same number. In Kentucky it is 7,360; Louisiana, 5,760; Maine, 2,240 lose health care coverage; in Maryland, 7,360; Massachusetts, over 13,000 people, close to 14,000 people will lose health care coverage over the next 5 weeks; Michigan, 19,840; Minnesota, 6,080; Mississippi, 4,160; Missouri, 6,720; Montana, 960 people; Nebraska, 1,280; Nevada, over 7,000 people will lose health care coverage; New Hampshire, 960; New Jersey, 20,800 people will lose health care coverage; New Mexico, 2,560; New York, 38,080 people will be dropped from the health care rolls; North Carolina, over 16,000; North Dakota, 320; Ohio, 12,480; Oklahoma, 1,600;

Oregon, 8,640; Pennsylvania, 16,320 people; Rhode Island—our colleague, SHELTON WHITEHOUSE is here from Rhode Island. He was such a valuable resource in our HELP Committee over the last number of weeks, and I commend him for his contribution, he and JACK REED both making significant contributions to our Affordable Health Choices Act. South Carolina, over 10,000 people will lose their health care coverage, South Dakota, 960; Tennessee, 12,800; Texas, 15,040; Utah, 3,840; Vermont, 960; Virginia, 10,560 people; in West Virginia, 960; Wisconsin, 7,360; Wyoming, 320.

I apologize for taking that time but sometimes you mention 14,000 and we don't break it down State by State. These are the projected losses in terms of health care coverage. They will not have the same degree of security that we do during the next 5 weeks.

When we leave here, I, of course, hope none of us suffer any kind of a diagnosis or any kind of an accident, but as I said a moment ago, as painful as that may be, none of us will suffer the pain of wondering whether you can afford to have your child covered, your spouse covered, or have the means to take care of yourself if something happens.

The people in these numbers, hopefully, will never have that problem, but if they do it is a major catastrophe. Roughly 65 percent of all bankruptcies in the last year have been caused because of a medical crisis—about 65 percent of all bankruptcies. Your first thought might be, as mine was, that is probably the uninsured who ended up in that shape. They didn't have insurance, they ended up with a serious problem and got drained of whatever few assets they had left and took the bankruptcy act to get out of trouble.

Mr. President, 75 percent of the people who were affected by bankruptcy as a result of the health care crisis have insurance; three out of four people who have insurance had ended up in bankruptcy. It was not the uninsured, it was the insured.

This evening—I know they are always out there marketing this idea that this bill we are talking about is not designed to help the insured, only the uninsured. Nothing could be further from the truth. Our major efforts are to try to bring down the costs of the insured. Many have such high deductibles and out-of-pocket deductibles they never get to engage their insurance policies.

At any rate, these are the numbers. I think it is important for my colleagues to look at it.

To my colleagues, think about constituents you are going to see over the recess facing these problems. Imagine a small business owner paying \$1,000 a month on premiums with a \$6,000 deductible. It is not an uncommon event for small businesses. Imagine this small businessman telling you that his insurance company dropped his daugh-

ter's coverage when their doctor suggested surgery to remove noncancerous tumors, forcing him to get a separate, more expensive policy for her.

It doesn't have to be this way. These facts happen all the time. Under our bill, under the bill we passed 3 weeks ago, this small business owner would be able to choose an affordable plan that he or she could rely on, wouldn't be denied coverage for the preexisting condition of their daughter, and that coverage would not be taken away once the policy is issued. That is the difference between the status quo, as it is today, and what we propose in our legislation we spent so much time crafting.

Imagine, if you would, a small business owner who offers health coverage to his 20 employees. He is paying about 60 percent of the cost of the premiums but unable to afford family coverage. Imagine that small business owner telling you that one of his employees have left for a job that provides family coverage.

It doesn't have to happen. In fact, this case is one I am very familiar with. This was the case of a small employer in Hartford, CT, who employs not 20 people but about 10, and very loyal employees. I think most of them have been there 20 years. He had an employee the other day literally almost in tears, if not in tears, announcing to his employer that he had to leave because his wife, who had the health care coverage, lost her job. So they were without health insurance.

He then went and took a job that paid 30 percent less than the job he had for more than 20 years in order to get the coverage. That would not happen under our bill. That does not have to happen. That family, if you will, small business, would be able to find affordable coverage for their employees using the same strong bargaining power and broad risk pooling that large businesses enjoy.

This is one of the major problems for small business. The average small business pays 18 percent more in premiums than large businesses—18 percent more—and they get a lot less coverage as a result of it because they don't have the opportunity to pool as much, come together. Our bill gives that small businessperson the same access, the same opportunity to that gateway, that place where these policies exist that they can shop for and determine what is best for them—what they can afford and what they want to have for their employees. That does not exist today. Unless we change the law, that small business operator is going to be faced with rising premium costs and less and less coverage for their employees. We change that. We fix that. That is important for people, I think.

Let me mention a third scenario. Imagine a single mother, self-employed, paying more than she can comfortably afford for an insurance plan—

not uncommon—that has high copays and a high deductible, not uncommon at all. Imagine her telling you she rarely sees a doctor for preventive screenings for herself or well-child visits for her son because her plan doesn't cover those visits.

It doesn't have to be that way. Under our proposal this single mother would be able to find a plan that she can afford that covers important preventive care items at little or no cost. Our bill provides preventive screenings like mammograms or annual physicals at little or no cost. That is in the affordable health choices bill. That idea of making sure she is going to be OK, that her child is getting those vaccinations and so forth that they need—that is covered by our proposal.

Our bill would ban discriminatory pricing based on gender because that ban does not exist today. There can be a huge differential. If you are a woman getting health care coverage, you often pay a lot more than men do. Our bill eliminates insurance rating based on gender entirely. Men and women are treated equally going in, in terms of their health care coverage. If we do not change the law, those policies do not change. The inequity goes on.

Mary, in this case, wouldn't have to pay more than others her age in her area would, rather than just paying more because of gender.

Finally, imagine a woman who bought the best coverage she could afford based on monthly premiums because she knew going without insurance was a bad idea. Imagine her telling you she was just diagnosed with breast cancer at the age of 25, and only then realized her policy was inadequate. Imagine her telling you she now has more than \$40,000 in medical debt.

Under our bill, this young woman would be able to stay under her parents' coverage through her 26th birthday, what we call the young invincibles, between the age of 21, when you are dropped from your parents coverage, and you are on your own. That is a very significant percentage of our population. A lot can happen. This woman was diagnosed with breast cancer late. But had she been in the same circumstances physically, with the adoption of our legislation she would have qualified for that young adults coverage, which is very reasonable in cost, or stay under her parents' plan until she was 26 and never have to worry about being denied because of a preexisting condition, which of course now she has. Having been diagnosed with breast cancer, those premiums for that woman will go through the ceiling, even as young as she is, because she has that preexisting condition.

We asked our colleagues to imagine these cases because they are so incredibly common. These are not extraordinary cases. They are rather routine

in many cases. We will see people in these situations—I know my colleagues will, during the break we are on, real people who can suffer by our inaction.

Let me take a minute, if I can, to talk about what health reform means in my State of Connecticut as well. In the last month, an insurance company in my State proposed to raise rates by 32 percent on people buying insurance in the individual market. This news was shocking, given the debate going on at the Federal level, but the company went ahead with the proposed rate hike for Connecticut families. Today I received word that the Connecticut Insurance Department went ahead and approved a modification to the company's proposal that will raise the premiums for the residents of my State by up to 20 percent—a 20-percent increase.

I don't know many people in Connecticut who got a 20-percent pay raise in the last year. I suspect very few. People are going to struggle because of the rate hike. People are going to struggle across the Nation, of course, until we take action because the rates continue to go up.

Consider, if you will, what has happened in the last few years: an 86-percent increase in premiums, in rates since 1996. In my State they have gone up about 46 percent in 6 years, and that was before the news of this latest company increase.

We have a bill—again, that would reduce the cost for Americans, the Affordable Health Choices Act, which we adopted in our committee, which in fact addresses this very issue. I want to encourage all my colleagues to spend a little time looking at the bill we wrote over this August break.

I will take just a minute this evening to talk about how costs would be lowered under our proposal. Many ask the question: How do you lower costs? I will use my own State as an example.

According to America's Health Insurance Plans, which is the trade association for the health insurance industry, in Connecticut in 2007, the average monthly premium on the individual market for single coverage was \$277 and the average monthly premium on the individual market for family coverage was \$646.

I ask unanimous consent to be able to proceed for an additional 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DODD. Those are the numbers: monthly payment, individual market, \$277; family premiums, family market, \$646. Keep those numbers in mind, if you will. These numbers were for 2007. I presume in 2009 they have gone up a bit, but those are the latest numbers I could find from this trade association. They reflect what an individual making about \$21,000, on average, paid in 2007. That is a lower income individual, but there are a lot of people who have

incomes at that level working in our country. You try to pick up the cost of \$277, or \$646 a month with an income like that. You know the outcome. You are not going to be able to afford it. You could not come near it.

Under our legislation, a low-income worker at \$21,000 would now pay \$20 a month in health care premiums for individuals.

That is \$277 a month under the status quo, \$20 a month under the Affordable Health Choice Act—from \$277 to \$20. That person now—even at \$21,000, that \$20 a month becomes very affordable health care. That is a person who would now be able to shop for a plan in the insurance gateway and could have options in choosing health care to allow them to stay out the hospital, stay healthier, be able to keep working, take care of their family. That is the difference. That is the real difference.

For family coverage, a family of four who makes two times the Federal poverty level—approximately \$44,000 a year—pays \$646 each month for family coverage, as I mentioned earlier in my statement. Under our bill, that family would now pay \$40 a month for their health care premiums; that is \$646 under the status quo, \$40 a month under the Affordable Health Choices Act.

When people say it does not make any difference, you are not bringing down costs, you tell that to that individual making around \$21,000 a year or that family making \$45,000 a year. That is a significant reduction in their health care premiums. That is the real difference between the status quo and what our legislation offers. That is affordable coverage.

What is not captured in the numbers under the status quo is the fact that that family in Connecticut has no guarantee they will even be offered a policy. For that matter, they have no guarantee, if they are issued the policy, they will not see it cancelled or rescinded because they file a claim. And they have no guarantee that policy will be renewed the following year. Our bill changes all of that. Connecticut families and families across the country can at long last be assured they will be able to choose among quality, affordable health care plans.

Before my colleagues depart, let me say this: Let's come back to work here in September, come back ready to offer our thoughts and suggestions and constructive criticism. We are going to pass a bill this fall, and we are going to do it with the help of any Senator willing to contribute and be a part of the solution. But we are not going to continue to wait for the sake of waiting until the politics get right.

Between adjournment tonight and when we return around September 5 or 6, there are 756,000 people who will fall into the category of the uninsured.

These are insured people. We ought to be doing everything we can reasonably and thoughtfully to put the brakes on this kind of hemorrhaging that is occurring in our country. It is bad for individuals and their families, and it is bad for the economy of our Nation. It is shameful that the wealthiest Nation on the face of this Earth takes the insured population of our Nation and puts them at such risk, and their families, wiping them out, as happens too often with financial ruin.

We have coverage. We are fortunate to have it. We ought to be able to do everything in our power to see to it that every American, regardless of their economic status, ought not to play roulette with their future and that of their families because they lack the economic security that others who are more fortunate financially have. That is not right. Health care ought not to be a choice only for those who can afford it, decent health care by the accident of birth. That you are born into a family who lacks the economic means should not place your child in a different situation than mine or someone else's because of those circumstances. That is not America. That is not America in the 21st century. We ought to be able to do better than that.

The demagogues out there, chirping away about government-run health care or socialized medicine—that is baloney from top to bottom, and they ought to be ashamed of themselves. In a nation as strong as we are, we place this many insured people at risk because we do not have the courage to stand up and do what needs to be done.

In our proposal we have crafted, we spent a lot of time working at it to provide relief and support on wellness and prevention and quality of care and to bring those costs down to the point I have described here this evening. Again, there may be other ideas and other ways of doing this. We think we have done a good job with our bill. But I wanted people across the country to know there are ideas out there.

There were 23 of us who worked on that bill. We spent 5 weeks, 60 hours, 23 sessions—the longest markup of a bill in the history of that committee and, we are told by some, maybe the longest markup in the history of the Senate on a single bill. We had 800 amendments filed, and 300 were actually considered. Some 160 amendments of my friends on the Republican side were agreed to and included in our bill, making it a better bill and a stronger bill. I welcomed their participation. But here we are, 3 weeks later, still stymied, unable to come together and shape a bill that would provide the relief so many people seek in our country.

I thank my colleagues for their efforts, particularly grateful to Senator HARKIN, who did a terrific job on the prevention parts of our bill; Senator MIKULSKI, who wrote the quality provi-

sions; Senator JEFF BINGAMAN, who worked on coverage issues; Senator PATTY MURRAY, who worked on the workforce issues in the bill; and people such as Senator SHELDON WHITEHOUSE of Rhode Island, who joined our committee and did a fabulous job with KAY HAGAN, our new colleague from North Carolina, along with SHERROD BROWN of Ohio, to shape the public option that is included in our bill, which I am certain my friend from Rhode Island may describe in some detail this evening about what we have done. This was so creative that the Blue Dogs on the House side adopted our proposal on the public option as part of the House-passed bill. Of course, JACK REED and BERNIE SANDERS, as well as JEFF MERKLEY on our committee and BOB CASEY did a great job in helping us shape the legislation. I thank all of the members of the committee.

I thank MIKE ENZI, my colleague from Wyoming, the ranking Republican member, along with his colleagues on the Republican side. They did not vote for the bill in the end. I regret that. But they made contributions that made it a stronger and better bill.

But let's come back in September and get the job done. That is why we are here this evening in the closing hours of our session here before this break begins, so that we can highlight this most important issue that the President has committed his administration to, and that I believe the overwhelming majority of Americans—when you get sick at home and your child is in trouble, you do not wake up and wonder what party you belong to or what your political leanings are; what you want to know is, Do we have a plan that covers this? Is someone going to see my child or my spouse? Are they going to get good care? Am I not going to go into economic ruin from this? You do not wonder whether you are in a blue State or red State or what political party is in power. What you want to know is, Does anybody give a darn, and are they doing anything about it? I am in trouble, my family is in trouble, and are you helping us out to get us back on our feet? And that is what we tried to do in this legislation.

I yield the floor.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. WHITEHOUSE. Let me thank Chairman DODD for his leadership and for his remarks. He said he would give us a discussion of where we are, and he has done a wonderful job of showing how this bill will improve the lives of regular Americans in a very concrete way, including particularly Americans who have insurance.

To supplement his discussion of where we are, I wanted to give a quick discussion of where we have been because the trajectory of where we have been to where we are tells us some-

thing about where we are going. And everybody in this country, insured or uninsured, should have some real concern about where we are going in health care in this country if we do not act.

The year I was born was 1955, and this was the headline from the New York Times in 1955. It is hard to read the little part here; I will read it to you. It says:

The Problem of Cost. Millions of Americans cannot afford to pay the costs of medical care, and they are not protected by adequate health insurance.

That was 1955. This section says:

In human terms, this meant that the American had to scrap his budget, dig into savings or go into debt, to pay some \$7.5 billion for doctors, hospitals, dentists, nurses, and the myriad physical accessories of medical care.

That was 1955, when the Nation's medical bill ran over \$10 billion. They were horrified to say over \$10 billion. It is now over \$2.5 trillion.

So that is the year I was born. We were already bemoaning the state of America's health care system.

This is 1979. I had just gotten out of college. And the HEW Secretary said: Health cost called unjustified. HEW Secretary Patricia Roberts said: The quality of American health care does not justify its price tag of more than \$200 billion a year. Still bemoaning the health care problems, still not getting anything done about it.

Now, 1988. This was the year my wife became pregnant with our first child. And here it is. Prospects: Soaring health care costs. Joseph Califano said—he was the former Secretary of Health and Welfare—"The average jump in premiums could hit 30 percent in 1989." But at the same time, we are getting less for it.

Chairman DODD just talked about a 20-percent jump in his State recently. You think this was happening today? It is from 1988, 20 years ago. The more things change in health care, the more they stay the same.

Here is 1992. Health care costs increasing at more than twice the rate of wages have made benefits so expensive it would be surprising if companies were not responding. "Health care costs dampening hiring." And they dampen wages, as we have seen, and increasingly businesses are having to avoid health care because they cannot keep up with that cost. That from 1992.

So we took those stories and we put them together on this chart. This shows the increases in America's spending on health care in each of those years, starting back the year I was born, that first story, 1955, then 1979, then 1987, then 1992, then 2009. It increased from \$12 billion, which seemed like a big number then, to \$200 billion, to over half a trillion dollars, to \$850 billion, nearly a trillion, and now \$2.5 trillion.

Look how much it has bumped from 1992 to 2009. This, my friends and colleagues, is what is called a trajectory. It is going to keep going if we do not do anything about it.

The latest estimates for my home State of Rhode Island are that in 2016, which is not too far from now, in 2016, probably about this far up on the graph, \$26,000 a year is what a family will have to pay for family coverage—more than \$26,000 a year. That means if you are a comfortably earning hard-working individual pulling down a salary of \$52,000, half of your income, pretax income, goes out the door for health care before you start anything else. That is not sustainable. That is why we talk about Thelma and Louise instead of Harry and Louise. That is why we need to change the direction of our health care system, not just for the uninsured but for everyone so that all Americans can have a secure health care future. No American will have a secure health care future if this trajectory is allowed to continue.

So if you are out there asking, How would a change in the direction of our health care system help me, think of Thelma and Louise headed off the cliff because that is what the American health care system is like right now. The cliff is coming, and we are all in the car together, and together we have to solve this problem. Because we have to solve it together, it is very disappointing that so many of our friends on the other side have refused to participate in this conversation and have reverted to labels and name calling: socialized medicine, government mandates—things that have nothing to do with our legislation but are designed to scare people and to provoke those who have not sat down and read the bill and do not know better. It is unfortunate.

What does it measure up against? Let me show you a couple of other things. We have had a lot of talk in recent days about the stimulus plan and how effective that has been—a \$787 billion stimulus. There it is, that \$0.88 trillion is the stimulus for all of the barking and moaning we have had about how much that cost this country. That is what it is. The \$8.9 trillion is what George Bush ran up in debt for this country during his Presidency.

Three-quarters of the debt this country bears, George Bush ran up during his Presidency. It was an orgy of fair-weather borrowing. When we didn't need to go into debt to protect our economy, when things were humming along, that is what he did, \$9 trillion. Here is our unfunded Medicare liability, \$38 trillion. We don't have \$38 trillion now. Unless we do something about this cost, we are truly going off the cliff in that car with Thelma and Louise, following that trajectory of cost I showed.

It is not all going for health care that makes everybody better. It is

going to a lot of other things. Here is one thing it is going to. Insurance industry profits. Have you noticed your wages going up a lot in the last couple years? For a decade, from 1999 to 2009, wage growth has been 29 percent. That is less than 3 percent a year and way less than 3 percent a year compounded. That is what wage growth has been like. If you don't feel like your wages have gone up much in the last decade, you are right. They haven't. For many Americans, wages flat-lined for a decade. How about your insurance premiums? Did they flat-line? No, sir. The insurance premiums went through the roof, increased 120 percent, more than doubled in one decade. That is the steep curve I showed you, 120 percent. How about insurance industry profits? Up 428 percent in the same period that wages were up 29 percent. So there is something we can do something about.

On insurance, so many Americans are uninsured, it is worth taking a look at this. We have all used and heard the figure about 46, 47 million Americans who are uninsured. That is the people who are uninsured at any given minute. As I stand here at this desk right now, out there in America there are about 47 million people who are uninsured. But some people gain insurance and some people lose insurance. Over the course of a year, the number of people who lose their insurance, whose families lose their insurance, is nearly 87 million. If you started on the east coast and moved your way west, and when you got to the Mississippi and you started into Minnesota, Iowa, Missouri, Arkansas, and Louisiana and you took the population of every single State west of that all the way to California, the population of all these States is about 87 million, to give you an idea of how many Americans lose their health insurance and have to go without it at a point during the year.

Then there are catastrophic levels of waste in our health care system. Our former Treasury Secretary, a Republican, knowledgeable about this, ran the Pittsburgh Regional Health Initiative for years. He said \$1 trillion of annual waste is associated with process failures. He has calculated \$1 trillion a year of waste in our health care system.

The Lewin Group is a group many people talk about here. They are described on the Senate floor as the gold standard in health care information. Sources of potential excess costs: Excess costs from incentives to overuse services, from poor care management and lifestyle factors, excess costs due to competition and regulatory problems, excess costs due to transactional inefficiencies; \$151 billion here, \$519 billion here, \$135 billion here, \$203 billion here. As we say in Washington, a billion here and a billion there, and pretty soon it starts to add up. This adds up to over \$1 trillion in waste in con-

gruence with what the former Treasury Secretary said.

It is not just newspapers that are saying it. It is also President Obama's own Council of Economic Advisers. Their report on July 9 said that:

Efficiency improvements in the U.S. health care system potentially could free up resources equal to 5 percent of U.S. GDP which is above \$700 billion a year.

They also noted:

[It] should be possible to cut total health expenditures by about 30 percent without worsening outcomes . . . [which] would again suggest that savings on the order of 5 percent of GDP could be feasible.

Again, two calculations coming to the same point, savings of over \$700 billion a year.

That is one of the things we are trying to do. In addition to family-by-family improvements, small business-by-small business improvements, individual-by-individual improvements that Chairman DODD has wrought through this bill, we are also trying to turn around a health care system that has been out of control, that has not been reformed for my entire lifetime. So that now is our moment, and it is on a trajectory that will break this country if we don't do something about it. We simply cannot continue a cost curve such as this that is already at \$2.5 trillion and is accelerating northward. We can't be competitive with our international competitors in trade if we do this. We can't sustain our families if we do this. We simply cannot keep this government fiscally solvent if we do it. We have to turn the car before it gets to the cliff. If we can't do that, then shame on us.

I think we need to be in this together. One of the ways we will do this is through a public plan. A public plan is important because there are a number of ways in which you change those cost curves. You don't have to take services away from people because of all that waste. What you have to do is deal with the waste. You build in electronic health records for every American so the efficiencies that other industries have enjoyed from the computer revolution finally hit health care which, according to the Economist, has the worst information infrastructure of any American industry except mining—the mining industry and then health care. Huge improvements and huge savings from that.

Quality improvements can save money. It has been demonstrated over and over again, as in Senator STABENOW and Senator LEVIN's home State of Michigan. They did quality improvements in intensive care units. In 15 months, they saved \$150 million and 1,500 lives, and it wasn't even in all the intensive care units. It was just in one State. It was that one kind of quality improvement program, just in intensive care units. So huge gains to be made from quality improvements.

Prevention. Senator HARKIN spoke the other day about what can be gained from preventing particularly conditions that arise from diabetes. Enormous savings, if we can focus on all that.

Transparency and improved administrative efficiency so doctors and insurers aren't fighting all the time. We can do all those things, but somebody has to lead. The question for us is, can we trust the private insurance companies to lead in all those areas. If you look back, you see they never have. We are way behind where we should be. They are not leading. It will take a competitive public option to pick up those issues and run with them and show what we can do.

I will close with this. One of the things we are hearing is you can't possibly have a public option. It is a line in the sand. The very distinguished ranking member of the HELP Committee has said it is intolerable to have a public option. It simply would not work. It can't happen. There are two ways we get health insurance in this country. One is through a private health insurance provider. The other is through workers' compensation, which the business community runs in order to protect itself against the injuries and illnesses and diseases and catastrophic harms that can happen to people at work and that they have to protect themselves against. All across America, there are State funds, public options that deliver health care insurance, State by State, over and over again. So when the ranking member goes home to his State of Wyoming, not only is a public option for delivering health insurance not anathema, it is what he goes home to.

He goes home to a single-payer public option for health care, one his business community appears perfectly satisfied with and he appears perfectly satisfied with.

Their Presidential candidate, JOHN MCCAIN, goes home to Arizona to a public plan with 56 percent market share. It competes in a lively workers' compensation health insurance market. The distinguished minority leader goes home to Kentucky, and in Kentucky his business community enjoys a public option for workers' compensation health insurance. So we should be able, in the spirit of coming together in the face of this national emergency, to put aside the old notion that a public option simply can't exist, can't happen. It happens in nearly half our States. It is supported by the business communities in those States. It delivers care efficiently, and none of the Republican Senators from those States have, to my knowledge, ever complained about it in that context.

I will conclude with that. I think we are at a turning point, and it is important, as we go, that we remember this is a long struggle we have been on. My

entire lifetime, since 1955, it has gotten dramatically worse, and the rate at which it has been getting worse is increasing. It is worsening. We have to do something about it now—for everybody in this country, for businesses large and small, and for people and families, insured and uninsured, and we are pledged to do that.

I thank the very distinguished chairman and yield the floor.

Mr. DODD. Mr. President, I thank our colleague from Rhode Island. He has been very eloquent in talking about the historical framework of this debate, going back, even predating the 1950s, when we determined the need for a national health plan in this Nation, not only to deliver health care to people but also to deal with the economic problems associated with health care costs. I thought it might be worthwhile to invite my colleague to share some additional thoughts on this view. Today, as I am told, we are spending about 17 percent of the gross domestic product on health care costs. I am told, by those who are economists looking at this, that if we don't alter anything but merely sort of stumble along, that percentage of our gross domestic product will jump from 17 percent to 34 percent of the gross domestic product, which is a staggering amount when we consider how expensive that would be and the result, in practical terms, to the very premium costs the Senator from Rhode Island has identified.

I also talked the other day to a leading businessman in our country, the former chief executive officer of Pitney Bowes, a well-known, established company, headquartered in my home State of Connecticut but has facilities in many States across the country. It employs thousands of people. The former CEO is a man named Mike Critelli. He is no longer the CEO, but he was the CEO who was responsible for bringing a wellness plan to Pitney Bowes. I think my numbers are pretty accurate on this point. I think their premium reduction, as a result of putting a wellness plan in place there, reduced those costs by around 30 or 40 percent. They decided to alter the lifestyles of their employees by offering them incentives—the opportunity to reduce weight, quit smoking, improve diets, all these things.

Talking to Mike Critelli, he did it because, one, he thought it was the right thing to do. Certainly, improving the quality of the health of your employees is a decent thing to do. But Mike Critelli also pointed out to me that in addition to being the decent thing to do, it was a very sound practice for business. Very simply, he said: If I could increase the productivity of my workers, which is the critical element, if the United States is going to compete in the 21st century, if wage rates are not going to drop down to Third or Fourth World country levels, we are

going to have higher wage rates. We are going to have higher costs to produce our products.

The one advantage we bring over third-rate and fourth-rate nations that don't pay as much for employment is the productivity of the American worker, which historically has exceeded that of almost any other worker anywhere in the world.

Mike Critelli's point is that having a good wellness plan in place increases the productivity of that worker, and that is our edge in a global economy. So we need to start thinking in these terms.

I hear people in the business community say we can't afford to do this. We can't afford not to do it. You can't have 34 percent of your gross domestic product be consumed with health care costs.

Our advantage is productivity. As Mike Critelli points out, if your workers are sick, if they are obese, if they have diabetes, if they have chronic illnesses at a young age, as many do today, then the ability of that worker to produce those products and services is going to be curtailed and we suffer.

So there needs to be some lights turned on for some in the business community about this debate. Some are having sort of a Pavlov's dog response to it. If you mention health care reform, they reach back decades to the age-old bromides and responses to this issue without thinking about what this means in the 21st century, freeing up the ability of workers to produce better products in a highly competitive marketplace.

Let me mention one other thing I do not think we have talked about. Forty-four years ago from last week, Lyndon Johnson signed Medicare into law. Last week was Medicare's birthday. Medicare was signed into law 44 years ago, in 1965. Obviously, that was a great benefit to people over the age of 65, and what a difference it made. It took that population, which was the poorest sector of our population, the elderly, and put them on a standard of living that allowed them to lead decent lives after productive years of working.

So with prescription drugs, doctors visits, and the like, put aside the problems today with Medicare we know exist and we have to deal with, it did something else I do not think we have paid enough attention to. It was a source of relief and stability to a family. Because all of a sudden those parents—which a younger generation had to put aside resources to provide for that crisis that was inevitably going to happen to those aging parents—became less of a burden because Medicare existed. The cost of prescription drugs, the visits to the doctor, the hospitalizations—all of a sudden, magically, 44 years ago from last week, a good part of that burden was lifted off the shoulders of the children of Medicare recipients.

And it unleashed a level of investment that allowed our economy to prosper and grow. For other reasons too, but not the least of which, all of a sudden, there was that security in a family. They were not going to face financial ruin because, all of a sudden, their parents had a crisis they were going to have to pay for out of their pockets.

I do not know if there are any economic models that examined that, but I do not think we attribute enough of Medicare's success to the contribution it made to the overall economy of our Nation 44 years ago because of that stability and certainty and security in a family, where your parents—that aging population—at least had a safety net that would protect them against that financial ruin that can befall a family.

I think we are missing a point in this debate in that what people are really worried about is that lack of certainty, that lack of stability. People are socking away money today because: If I lose my job, if I end up with a pre-existing condition, if we move, I could lose my health care coverage, and all of a sudden my kids, my wife, myself are put in the danger of economic ruin. That uncertainty, that lack of stability, that lack of security has a negative impact on the consumer choices people make. I might like to buy that second car. We may need it but—do you know what—756,000 people are going to lose their health insurance in the next 5 weeks. I might be one of them. And if something happens, how do I pay for that problem? So—do you know what—we are going to delay that purchase or this other thing we might have done because I don't have the stability, the certainty, and the security there is a safety net there. Lord forbid a crisis hits my family.

So while there is the comparison between Medicare's recent birthday 44 years ago and what we are trying to achieve—we are thinking about it in a very small context: How much does that doctor visit cost? How much is that prescription drug? There are benefits to this that exceed the parameters of what we are trying to achieve because of the investments we are making that I think have a larger impact on the overall economy of our Nation.

So I wanted to say to my colleague from Rhode Island, by talking about these rising costs—and no end in sight, by the way—unless we find some way to put the brakes on all of this and begin to reduce the problems—how do you do that? If all of a sudden you have a child who is getting good dental care at an early age, that child is less likely to have a problem as they get older. If we can convince children and families to eat better because we make the incentives to do so—3,500 children today started smoking in the United States, and 3,500 start smoking every single

day. And every single year, 400,000 people die because of tobacco-related illnesses—400,000 die—not to mention the number of people who have lifelong illnesses and die prematurely.

Of the 3,500 who start smoking today, 1,000 become addicted. You do not have to have a Ph.D. in medicine to know that if you are a user of tobacco products, you are consuming a product with 50 carcinogens in each cigarette.

Here we know if we can begin to change that lifestyle, which we have done, by the way—and, again, I thank my colleagues because, for the first time in 50 years since the Surgeon General pointed out that tobacco could kill you, only a few weeks ago we did what we have never been able to do before: Tobacco marketing, sales, and production are now under the control of the Food and Drug Administration. By the way, the Food and Drug Administration regulates mascara, lipstick, and pet food. But we could not get the Food and Drug Administration to regulate tobacco products. Now that has changed as a result of the actions of this Congress.

But that is an example of what I am talking about. If we can stop a child from smoking, then that child grows up with a far greater likelihood they are going to reach retirement age in far better shape, which means far less usage of that Medicare dollar and that hospital or that doctor's visit. So you may not see the benefits of some of this immediately but over the longer term we will. And that is bending that curve. We are all talking about bending that curve of cost. We can do that making these kinds of investments.

I am told only 2 percent of hospitals in this country have complete electronic medical records—2 percent. Yet we know that we lose about 100,000 people a year from medical errors in the United States. It is the fourth leading killer of Americans. Electronic medical records reduce those numbers significantly because you have clarity in the records, you have portability of those records as people move around, you have the opportunity to determine what other conditions a patient may have, and you avoid the kinds of errors that produce the tragedy of a lost life. That savings alone in lives and dollars, we are told by some, could be as much as \$500 billion. Electronic medical records—that one issue—could produce those kinds of savings and results.

So when we have these debates and people talk about these things in such simplistic terms, without understanding the larger economic implications—and if we do not, the numbers our friend from Rhode Island have shown us, if history is any indicator of where we are going, those numbers will continue to skyrocket and skyrocket to the point that it will bankrupt and break this country financially.

What an indictment of a generation: Faced with a reality and the predict-

ability of a situation, we are spending days around here with the inability to come together and make the tough, hard decisions the American people have elected us to do. That is the tragedy in some ways. I respect the fact we need a break and people are going home, but it is so troubling to me we are going to do this at a time and leave these issues hanging in the balance.

Mr. WHITEHOUSE. Mr. President, will the Senator yield for a moment?

Mr. DODD. Mr. President, I will be happy to yield to my colleague.

Mr. WHITEHOUSE. Mr. President, I want to respond to what the Senator was saying, that this trajectory is very likely to continue. Every signal and every prediction is it is going to continue and we will hit that 35 percent, spending a third of our entire economy just on health care, and that really does break our country. It is a terrible indictment of our generation if we allow it to happen.

But we also have a great opportunity here, which the chairman has also pointed out. As you know, over and over again, as the distinguished Presiding Officer knows, over and over again, in legislation, we are asked to make hard choices between two things, and if you go one way, you cannot go the other. Economists would call it a zero sum game. You cannot have both. There is no win-win.

This is a situation where there is a win-win. As the distinguished chairman pointed out, we are spending 17 percent of our gross domestic product on health care in this country. It is the worst record, the highest expenditure, of any country in the world. Most other developed nations spend 8 or 9 percent. That is the average of the European Union of their gross domestic product on their health care.

For that exaggerated expenditure, what do we get? Lousy health outcomes. We are way behind our developed competitor nations in obesity. We have far higher rates of obesity in our country. We are way behind in child mortality. We have far greater rates of child mortality in the United States than there are in our developed nations with which we compete. There is far greater longevity in those countries than ours. Americans do not live as long as people in our competitor nations, the developed ones, and a lot of it has to do with our health care system.

So by bending that curve, by investing in prevention, by improving the quality by investing in electronic health records, by eliminating those medical errors, we accomplish two things at once. We improve the health statistics of our Nation, we have people who live long, we have less babies who die in childbirth, we have a thinner and less obese and less ill nation, and we lower the costs, and we do it together.

So it should be something we could agree on, on both sides of the aisle,

but, unfortunately, these old canards about socialized medicine and how we could not possibly have a public option—except for the fact we already have it in half our States, including our own; but we are not going to talk about that right now, we are just going to say we could never have it—that is the quality of the debate, when we have this huge win-win in front of us.

I hope everybody has a chance to sort of think about this over the break when we are gone and that we can come back with a new spirit of bipartisanship to really address this problem, seize that win-win, change the cost curve down, and solve this problem for the American people.

I will make one last point.

We have misled the public a little bit in our discussion, and we have done so because of the Congressional Budget Office and its professional capabilities. The Congressional Budget Office is very good at predicting what costs are going to be. So everybody has heard that our bill might be \$600 billion, that the Finance bill might be \$900 billion. They see the costs and they say: Well, how could you possibly be talking about savings when all we hear about are costs? All CBO can say about savings is that—and this is a quote—large reductions in health care costs are possible—large reductions. But they cannot quantify it. They cannot give us a number. And they have told us why they cannot give us that number.

They cannot give us that number because we can give the Obama administration, here in Congress, the tools to solve this problem. We already passed the electronic health records legislation. If, God willing, we pass the chairman's legislation from the HELP Committee, they will have the tools to improve the quality and turn the curve. They will have the tools to improve prevention and turn the curve. They will have the tools to reduce the unnecessary, wasteful administrative fighting between doctors and hospitals and insurance companies, that try not to pay them. That whole fight can disappear or at least shrink a lot, and that will help turn the curve.

But CBO cannot predict how effectively the Obama administration will do that. Like any CEO, the President of the United States and his staff are going to have to manage this problem, and that is where the savings will come. So people should not be misled that there are not real savings possible. Not only are they possible, they are mandatory. We have to turn this curve, and we have to do it dramatically. We can do it because we could drop our GDP expenditure of this by 50 percent and still have health care as good, if not better, than all of our competitor nations: France, New Zealand, Canada, England, Holland—all these countries—Japan. We can do it.

The promise is out there. We should not let the CBO scoring fool the public. That is my last point.

Mr. President, I yield the floor, and I will relieve the distinguished Presiding Officer so he can speak as the Senator from Colorado.

Mr. DODD. Mr. President, I will do the same. And, again, my thanks to SHELDON WHITEHOUSE of Rhode Island. He has just been a stellar advocate of the kind of change we need.

I know the Presiding Officer, as well, as a new Member of this body, has spent an inordinate amount of time on these questions, as well, in his own State and has listened to people in Colorado talk about this issue and what we can do together to get it right. I welcome his participation immensely as well.

I wish all of my colleagues a very healthy and safe break in the month of August, as I do for all Americans. But I hope my colleagues will keep in mind, I did not recite these numbers to put anyone on the spot. But sometimes we need to talk about numbers that are real to people, and these are real numbers that will potentially affect many of our fellow citizens. So we need to come back here with a renewed commitment to get this done.

We have the capability. We have good people here who care, I know, about these issues. And none of these decisions we can make are going to necessarily predict with absolute certainty that everything is going to work as well as we hope they would. But you have to begin. And we have to take a chance and work forward and hope these ideas we put on the table work. And to the extent they do not, you modify and change it, as will certainly be the case in the years ahead. But inaction, just saying no, is unacceptable. The answer “no” to health care ought to be rejected by every citizen in this country. This is a difficult problem, but being too difficult is an excuse that history will never forgive us for. It will never tolerate that excuse: This was too hard to do. When you think about previous generations and hard choices and difficult decisions, we wouldn't be here today if those generations had quit because it was too hard. We are here today because they made hard choices, they made the difficult decisions, and we have no less of a responsibility as a generation to do it on this issue. This is hard and it is difficult, but that will never be an acceptable answer to future generations if we bankrupt our country because we couldn't figure out how to solve this problem.

Mr. President, I yield the floor.

COMMENDING RICHARD BAKER

Mr. LEAHY. Mr. President, I rise today to speak about a man who has been serving the U.S. Senate for almost

35 years. Now that is how I and many other Senators may begin remarks about a colleague who is retiring. My remarks today are indeed about a colleague but not about a fellow Senator. These remarks are about Senate Historian Richard Baker, an important member of the Senate community who has made the Senate a better institution during his tenure.

Remarkably, until 1975 the U.S. Senate did not have a Historical Office charged with preserving the institutional memory of this great body. Dick Baker is the original and only Director and the Chief Historian for the past 34 years. Under his leadership, the Historical Office of the Senate has worked to recover, catalogue and preserve the history of the Senate.

Building this office from the ground up required Dick Baker and his team to collect and maintain records on current and former Senators, record oral histories, document important precedents, statistics and Senate activities. And as a photographer I must point out that this work included the cataloging and preservation of a huge trove of Senate-related photographs.

From the beginning, Dick Baker knew his responsibility at the Historical Office was not only to preserve the history of the Senate but to make it more accessible. That included providing access to records for members, staff, media and scholarly researchers. He exposed more of the Senate and its rich history to the general public through exhibits in the office buildings, presenting materials via the Web and working with C-SPAN to incorporate Senate history into its programming. And as an author, Dick Baker disseminated information with his publications on Senate history, including a biography of the former Senator from New Mexico, Clinton P. Anderson.

His greatest impact on me, however, and I believe the Senate as a whole, has been his placing of our work here in proper context. Most Senators and I look forward to the historical “minutes” that he presents at the opening of many of our caucus lunches. He has also been accessible to me and other Senators in providing presentations of the Senate history at many different venues. My staff and I thoroughly enjoyed a presentation he provided to us on the history of the Vermont Senate delegation. His alacrity and care for describing Senate history has reminded all of us about the significance of our work here.

As much as visitors feel the weight of history when they enter this building, it is no less important for those of us who represent them to be well aware of the 200-year history of the Senate. It is important to remember that although great men and women preceded us, and even greater ones will undoubtedly follow, our words and actions will continue to echo through these halls long

after we are gone. Dick has reminded us of that regularly, and for that we thank him and wish him well.

COMMENDING RON EDMONDS

Mr. LEAHY. Mr. President, it is fitting that we in the Senate take note of the retirement of Ron Edmonds of the Associated Press, a veteran news photographer who has long and superbly documented public life in the Nation's Capital, including here on Capitol Hill.

If by chance we have not seen Ron himself over the years on the White House driveway or in the Senate's hearing rooms and hallways, we all surely recognize his work. His images, in the parlance of photographers, have bracketed the history of our era, from marches on Washington, to the attack on President Reagan's life—a photograph for which Ron Edmonds was awarded a Pulitzer Prize for spot news photography.

By now he has covered the White House for 28 years and captured the news in images of so many Presidents. He entered the world of photography in the day of celluloid film and concluded his career after having helped usher in the age of digital news photography.

I am grateful to have known Ron during his long career. I wish him and his family our congratulations and our best wishes.

I ask unanimous consent to have printed in the RECORD Ron Edmonds' farewell message to his AP associates.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

RETIREMENT MESSAGE OF RON EDMONDS July 2009

After twenty-eight years of covering the White House for the Associated Press, I have decided to retire and spend some time with my family. I know you usually hear this excuse from politicians who have just been caught with their hands in the cookie jar or with a high-priced companion; but, in this instance, spending time with my family is my true reason, ok maybe a little fishing as well.

I have had one of the most fantastic jobs in the world. It has allowed me to work with some of the greatest journalists in the world and to make images of some of the biggest events in the last thirty years. I hope that in some small way, I have helped the Associated Press maintain its prominence as the number-one news organization.

I will never forget the experiences that I have been allowed to take part in: such as, walking through the Forbidden City in China or walking around Red Square with Ronald Reagan; ducking behind an inadequate rock in the Iranian desert as Iraqi artillery shells exploded around us; or, more pleasantly, drinking lemonade with King Hussein and Queen Noor at their summer home in Aqaba, Jordan; and boating down the Nile and strolling through the Valley of the Kings in Egypt with then-Vice President Bush.

I have spent many sleepless nights mulling over this decision. It is difficult to leave my many friends here and around the world at the Associated Press. But I have great hopes

for a continued bright future for the AP. I leave with no trepidation but rather with a heart full of confidence that our younger generation of talented AP photographers, such as Charles Dharapak among others, will fill the void with a better and stronger report than ever before.

I have been lucky enough to win a couple of small awards for my work. But perhaps one of the most rewarding still was when my daughter Ashley came home from elementary school one day and announced that she was so proud, because that day she was able to raise her hand and tell the teacher that the picture on the front of her Weekly Reader was taken by her dad.

I will miss all of my friends, especially those editors on the desk of the Washington bureau, who very rarely get the credit they deserve for wading through my many images to put me on the front pages of newspapers and web pages around the world. It has always been a team effort in Washington.

Thanks to all of you for making me look good.

Regards,

RON EDMONDS,
Senior White House Photographer,
Associated Press.

COMMENDING BOVE'S RESTAURANT

Mr. LEAHY. Mr. President, I would like to recognize the Bove family of Burlington, VT, on receiving a prestigious honor from the National Association of Specialty Food Trades. In particular, I congratulate Mark Bove, President of Bove's, and his brother Rick, on receiving the Gold Sofi Award in the Outstanding Pasta, Rice and Grain category.

Bove's Restaurant opened on Pearl Street in Burlington in 1941 and has been a local favorite for generations. Marcelle and I enjoyed many of Bove's Italian specialties while we were dating. I was a student at Saint Michael's College, and Marcelle at the Jeanne Mance School of Nursing. To this day, Bove's continues to be a favorite among college students, and many return to the restaurant as alumni during their reunion weekends.

Much to our delight, Mark Bove began bottling his family's outstanding sauces for sale in grocery stores and now also sells Bove's specialties, including meatballs and lasagna, at retail sites around our country. When I come home from a long day in the Senate, I am delighted that Marcelle and I can still enjoy a dinner from Bove's, just as we did as students years ago. We have also enjoyed sharing their great dishes with other Senators and their staff at the annual Taste of Vermont in Washington.

Once again, I congratulate the Bove family for this high honor. I ask unanimous consent to have a copy of a July 6 article from the Burlington Free Press printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Burlington Free Press, July 6, 2009]

BUSINESS MONDAY: BOVE'S WINS GOLD FOR LASAGNA

Bove's famous frozen lasagna has been awarded the National Association of Specialty Food Trades' prestigious Gold Sofi Award in the Outstanding Pasta, Rice and Grain Category.

The all-natural, hand crafted lasagna is a frozen version of the popular classic served at Bove's cafe on Pearl Street in Burlington.

A year ago Mark Bove, president and sauceboy, introduced the world to his family's recipe on The Food Network's "Throwdown with Bobby Flay," soon followed by an appearance on "The Today Show," where Bove prepared his lasagna for Hoda Kotb and Kathie Lee Gifford. The national exposure sent demand soaring.

"I was making small versions of the lasagna at the restaurant and shipping them around the country," Bove said in a statement. "We just couldn't keep up with demand this way, which led me to produce the lasagna for retail."

COMMENDING SENATOR NORM COLEMAN

Ms. SNOWE. Mr. President, I rise today to honor and pay tribute to my good friend and colleague an extraordinary public servant and tireless advocate for the people of his cherished State of Minnesota, Senator Norm Coleman. I want to express my most sincere gratitude for his longtime friendship and my enormous admiration for him and his impressive litany of accomplishments. And although I am saddened by his departure from this esteemed Chamber, I know with utmost certainty that Senator Coleman's exceptional contributions to Minnesotans and the American people will continue well into the future.

I am proud to say that Senator Coleman and I served together over his 6 remarkable years in the Senate, and I would like especially to express my immense gratitude for his pivotal role on the Committee on Small Business and Entrepreneurship over that span of time, where I served first as chair and now as ranking member. Senator Coleman was always a reasoned and passionate voice on the committee, and his indelible impact is indisputable. Whether it was our work together on The Small Business Health Fairness Act of 2005, The Small Business Disaster Response and Loan Improvements Act of 2006, or a number of other measures and issues, Senator Coleman, true to the founding tradition of the U.S. Senate, continually addressed the concerns of his constituents, while at the same time making the best decisions for this Nation.

And I especially well recall our joining forces over the winter of 2006 when natural gas and home heating oil prices had skyrocketed in Maine, Minnesota, and numerous other cold weather States, turning a crucial problem of

years past into an urgent crisis that required immediate congressional attention. With the level of funding allocated in the budget, states could not maintain the Low-Income Home Energy Assistance Program, LIHEAP, an initiative I have long championed which provides vital funding to our country's low-income families and elderly.

Recognizing both the plight of Minnesotans and all affected Americans from the beginning of this crisis, Senator Coleman and I, among others, battled to shed light on this emergency early by calling for the passage of a bill to provide additional LIHEAP funding to states. Senator Coleman was an instrumental catalyst in our successful effort to pass this bill to the benefit of countless Minnesotans, Mainers, and other untold Americans across this land. And for that, I will be forever grateful!

With a career in public service of more than 30 years, begun in 1976 when he was chief prosecutor for the Minnesota Attorney General's office, Senator Coleman possessed an unfailing determination to advocate on behalf of the people of Minnesota that has never faltered or waned. Prosecuting cases around the State while further developing a growing concern for community issues, Senator Coleman was eventually named Minnesota State solicitor general. And his outstanding trajectory of leadership was just taking off, for it was then—in 1993—that Norm became mayor of St. Paul, during which time, with his hallmark optimism, he steered the course of the capital city through a transformational revitalization effort.

And so, it came as no surprise that Norm Coleman, after he was sworn in as a U.S. Senator, hit the ground running. And let me say from the outset, Senator Coleman's was a welcomed voice in an era of increasing partisanship, especially at a time when ideology has been held in greater value by many of our Nation's elected officials than service to the American people, when too often the slogans and sound bytes of campaigning never stop, and the governing all too frequently never begins, and where public disenchantment with politics runs high. Senator Coleman's desire to look beyond this regrettable status quo, embracing instead the long-held tenets of collaboration and cooperation, could not have been more central as our chamber sought to enact laws to genuinely improve the lives of Americans.

As I reflect on my friend's illustrious tenure in the Senate, I cannot help but recall in instance after instance on imperative matters of far-reaching consequence how Senator Coleman was able to transcend party politics and seek solutions and results for the betterment of his State and country. For example, Senator Coleman, along with

Senators Durbin and Lincoln, was a leading proponent, supporting The Small Business Health Options Program Act or The SHOP Act which would once and for all finally level the playing field for American small businesses and the self-employed and allow them to pool together nationally to receive a host of new, affordable, and quality coverage options.

Norm, like the rest of us, understood all too well that health insurance market reform and coverage policies in The SHOP Act must be included in broader health reform legislation. We will miss his voice as the health care debate moves forward and as we strive to build a consensus on landmark, health care legislation. But make no mistake, Senator Coleman was integral in helping lay the foundation for achieving meaningful and sustainable health care reform.

Placing his country and constituents above political expediency, Senator Coleman and I joined together in support of passage and eventual enactment of The Fair Equity Act, bipartisan legislation aimed at increasing pay equity in America and protecting victims of wage discrimination into law. We have labored to extend key, renewable energy tax credits to expand the indispensable State Children's Health Insurance Program or SCHIP. We stood side by side in the fight to allow Medicare to negotiate lower drug prices, and we joined together to help block proposed cuts in Medicaid. I want to thank Norm, who has truly been a stalwart soldier in arms, for his resolve and will on a cross-section of issues that have defined his term in the Senate as a model of governance that ought to be more prevalent.

In that vein, I cannot convey enough what a privilege it was to serve in the Republican Main Street Partnership with Senator Coleman—an organization that my husband, Jock, formerly chaired. Founded in 1998 to promote thoughtful leadership in the Republican Party and to join with individuals, organizations, and institutions that share centrist values, the partnership has unfortunately witnessed a decline in our ranks in recent years. But the message and impact of the organization are intrinsically connected to our capacity to truly achieve bipartisanship and garner results on behalf of those who elected us, and Senator Coleman embodied that ethos with integrity and distinction.

In fact, Senator Coleman characterized the Main Street's message well when he said, "this isn't about marching to a single tune. This is about being able to listen and work with like-minded colleagues, bring those perspectives, and hopefully play a role in the resolution of things that bottom line are good for the people of Minnesota." Well, his actions not only aided Minnesotans, but also Mainers and Ameri-

cans of every stripe and background across this great land.

And yet, despite all of his exemplary achievements, his greatest accomplishment is undeniably his wonderful family and the love and devotion he has for his wife Laurie, and their two children, Jacob and Sarah. So, it is with a profound honor that I join with his family, and his many friends, in praising Norm for his tireless stewardship of the common good and phenomenal commitment to public service, and for a tenure that enfolds his legacy into the rich, longstanding Senate tradition of Minnesota.

And so to my colleague and good friend, Norm, let me say, you have been a shining example of bipartisanship and comity that transcends politics, and you will be sorely missed. As you embark on this next chapter and as you consider your next endeavors be they public or private, I urge you, in the immortal words of the poet Alfred Lord Tennyson, "to strive, to seek, to find, and not to yield."

Mr. CORNYN. Mr. President, I join my colleagues in appreciation and admiration of Senator Norm Coleman. Norm has been a faithful public servant to the people of Minnesota, a principled leader, and a good friend. He made a difference here in Washington, and I feel privileged to have served with him in the U.S. Senate.

Norm and Laurie arrived in Washington at the same time as Sandy and me. We experienced many of the same challenges and adjustments that freshman Senators face, and we encouraged each other by facing them together. Norm and I found we shared a common approach to solving problems, and partnered to advance legislation whenever we could.

Norm said his best ideas came from the people of Minnesota, and they can be proud of what he achieved in Washington. Norm supported conservation programs to protect his State's lakes, rivers, and woodlands. He had a real heart for children, especially those suffering from cancer or waiting to be adopted into loving homes. He was a champion of private-sector initiatives in alternative energy, including clean coal, wind power, and biomass technologies. Norm exposed fraud at the United Nations, waste in the Medicare Program, and tax evasion by defense contractors. Norm voted to put John Roberts and Samuel Alito on the U.S. Supreme Court. Norm consistently supported our troops in Iraq and Afghanistan and he believed in their mission.

Some of my strongest memories of Norm were formed during our trip to Iraq in January of 2008, about a year after President Bush announced our surge of forces there. Norm had joined many Senators in supporting the surge, despite the political risk that support entailed. He understood that the strategy and leadership of GEN David

Petraeus was America's best chance to succeed in Iraq.

Norm and I, along with Senator Johnny Isakson, visited Baghdad together. We had dinner with General Petraeus and Ambassador Ryan Crocker, and discussed how we could facilitate political reconciliation in Iraq. We met with General Ray Odierno to discuss the new mission of population security, as well as the progress they were seeing in reducing violence and U.S. casualties. We toured a marketplace in western Baghdad, where U.S. and Iraqi forces had helped bring back shopkeepers and their customers by driving out insurgents and terrorists.

During our visit, I got to see the Norm Coleman that Minnesotans know very well. At Maverick Security Station in Baghdad, I saw Norm honor troops who hailed from the Twin Cities and throughout his State. At a meeting with Iraqi civilian leaders, I saw him offer encouragement to Sunnis, Shias, and Kurds working to build a free and democratic nation in the heart of the Middle East. And wherever we traveled, I saw his easygoing manner, his wry sense of humor, and his appreciation of the honor bestowed on him by his fellow Minnesotans.

Norm ran a tough race for reelection last fall, a race that lasted far longer than the Minnesota winter. He mounted a legal challenge based on a clear principle: no Minnesotan should be disenfranchised. As chairman of the National Republican Senatorial Committee, I was proud to support Norm as he pursued his case in the courts. And once the courts had spoken, I respected the grace with which he conceded the race, and the optimism he has shown for his own future, and that of our country.

Norm accomplished much in Washington, but I think he remains proudest of what he achieved closer to home. After Minnesota's hockey team moved to my home state of Texas back in 1993, Mayor Norm Coleman of St. Paul led the effort to bring the National Hockey League back to the Twin Cities. Since the first puck dropped in 2000, the Minnesota Wild have sold out every game they have played, and every fan owes a debt of thanks to Norm Coleman.

I too am thankful for Norm Coleman, because he set a good example for all of us. He never let public service go to his head. He always put his faith and family first. He fought hard to keep his seat, but never failed to keep his cool.

I wish Norm and Laurie the very best, as their journey together continues.

PROTECTING TENANTS AT FORECLOSURE IMPLEMENTATION

Mr. DODD. Mr. President, for too long, tenants have been the innocent victims of the foreclosure crisis. Countless tenants across the country

have been forced to leave their homes simply because their landlords were unable to pay their mortgages. Too often, these tenants had no idea that the property was even under foreclosure until the authorities arrived at their door to inform them that they must vacate the property immediately.

I was pleased to work with Senator KERRY to include the Protecting Tenants at Foreclosure Act of 2009 in the recently enacted Helping Families Save their Homes Act. This new law protects tenants facing evictions due to foreclosure by ensuring they can remain in their homes for the length of the lease or, at the least, receive sufficient notice and time to relocate their families and lives to a new home. The full Senate approved the bill on May 6, 2009, and President Obama signed it into law on May 20, 2009.

These protections are so important that my colleague Senator KERRY and I want to ensure that families and mortgage holders know their rights and obligations under the law.

Under the new law, all bona fide tenants who began renting prior to transfer of title by foreclosure of their rental property must be given at least 90 days' notice before being required to vacate the property. In addition, these bona fide tenants are allowed to remain in place for the remainder of any leases entered into prior to the transfer of title by foreclosure. These leases may be terminated earlier only if the property is transferred to someone who intends to reside in the property and only if the tenants are given at least 90 days' notice of the fact of such sale. Successors in interest to properties with section 8 housing choice voucher tenants automatically assume the obligations of the former owner under the housing assistance payments contract.

These basic protections are the law for tenants in every State, unless States have laws or practices that provide greater protections. I want to ask Senator KERRY, the original author of the act, if I have correctly expressed the intent of this legislation.

Mr. KERRY. Mr. President, I was pleased to work with Senator DODD to enact this legislation to help tenants affected by foreclosures.

No one in the Senate has worked harder to fight against the scourge of foreclosures than Chairman DODD. As a former member of the Senate Banking Committee, I know Chairman DODD has tirelessly fought to assist low and moderate-income families and to help tenants who need protections from foreclosures or unscrupulous landlords. Without his efforts, families in Connecticut and across the Nation would not have access to critically needed protections and many more American families would be facing foreclosure.

I agree with Chairman DODD that it is important that persons and entities acquiring properties by foreclosure fol-

low the law, and that tenant families obtain the benefits the law was intended to provide.

I also agree with Chairman DODD's statement of the intent of the legislation. As the chairman stated, the law was intended to provide all bona fide tenants, who began renting prior to transfer of title by foreclosure of their rental property, be given at least 90 days' notice before being required to vacate the property. In addition, these bona fide tenants are allowed to remain in place for the remainder of any leases entered into prior to the transfer of title by foreclosure. These leases may be terminated earlier only if the property is transferred to someone who intends to reside in the property and only if the tenants are given at least 90 days' notice of the fact of such sale. Successors in interest to properties with section 8 housing choice voucher tenants automatically assume the obligations of the former owner under the Housing Assistance Payments contract.

Both the Federal Reserve and the Department of Housing and Urban Development have acted quickly to issue notifications to the entities that they regulate describing the law in the same way. Their notifications stated how regulated institutions are expected to comply with the terms of the act. These regulatory actions are crucial for the proper implementation of the act because foreclosing entities, who often wind up owning the properties after the foreclosure, have a responsibility to obey the law. Families in these precarious circumstances should not be forced individually to assert their rights under the law.

Mr. DODD. I agree with Senator KERRY. Again, I thank the Senator for bringing the original legislation forward and working with me to enact it. I look forward to working with Senator KERRY and all my colleagues to ensure that families' rights under the law are known and protected.

DROUGHT RELIEF

Mr. CORNYN. Mr. President, today I speak on behalf of the farmers and ranchers of Texas. Like millions of Americans in other States, Texans love the land. From the hill country to the river valleys—from the panhandle to the gulf coast—our land helps define who we are.

And for many Texans, the land is their livelihood. One in seven jobs in our State is tied to agriculture. We lead the Nation in several crop and livestock industries—including the production of cattle and cotton. Texas farmers and ranchers help feed and clothe Americans in every State—and in dozens of countries around the world.

Our farmers and ranchers are tough people—and they are seeing tough

times. Central and south Texas is experiencing some of the driest conditions in the country today. Seventy counties in our State are experiencing extreme or exceptional drought—the two worst classifications made by the USDA. These areas represent 42.5 million acres—about 25 percent of Texas—and nearly equal to the total land area of New England.

The drought has severely impacted Texas farmers and ranchers. According to one recent study, economic losses will reach \$3.6 billion by the end of this year—a little less than \$1 billion in livestock losses—and the rest in crop losses.

A few weeks ago, I met with some ranchers and farmers in San Angelo, TX. They shared with me how drought conditions were devastating production—even as the recession weakened demand. They also asked me a question: Where was the money Washington promised to help them through these tough times?

Their question is the same question I am asking today: Where is the money Congress authorized last year for the Supplemental Revenue Assurance Program?

The SURE Program was included in the farm bill we passed in June of 2008. It received broad bipartisan support. It created a trust fund of about \$3 billion a year to help farmers and ranchers during tough times.

Yet despite becoming law more than a year ago, the SURE Program has still not been implemented by the USDA. Not a single farmer or rancher has received any assistance from the trust fund so far. No payments had even been planned before December of this year—as it is the lowest of five priorities within USDA's disaster assistance program.

On July 16, I wrote Secretary Vilsack. I asked him to tell me when our farmers and ranchers can expect to receive the assistance Congress authorized for them. I also cosponsored Senator HUTCHISON's amendment to the Agriculture appropriations bill, which expresses the sense of the Senate that USDA should expedite the drought relief we approved last year.

This week, I spoke to Secretary Vilsack as he was traveling in Kenya. He told me that the SURE Program should be finalized by September, which is encouraging news. He also said that the Department's antiquated record-keeping, as well as new demands imposed on USDA in the stimulus bill, have prevented this program from being finalized sooner.

Nevertheless, Mr. President, I am frustrated that we are discussing more money for cash for clunkers—when we should be asking: Where's the cash for crops? Where's the relief for ranchers?

Other Senators may be asking a third question: Why should I care? I can think of two reasons.

First, Texas isn't the only State susceptible to drought conditions. The Lone Star State is experiencing the worst of it now, but many other States in the South and West could experience similar conditions in the future. The SURE Program was created for farmers and ranchers in all of our States—so we all have a stake in seeing this program implemented quickly and successfully.

Second, the implementation challenges of this program should be on our minds as we consider expanding or creating new programs. Mr. President, the SURE Program isn't a complicated program. It is a fairly straightforward disaster assistance initiative. This shouldn't be a heavy lift for the Federal bureaucracy.

Yet if a simple program like this takes a year or more to get off the ground—Senators really should pause and take a deep breath before we create a vast new Federal bureaucracy to run a complicated cap-and-trade scheme, take control over one-sixth of our economy in the name of health care reform, or dump more taxpayers' dollars into the Cash for Clunkers Program.

PSORIASIS AWARENESS MONTH

Mr. MERKLEY. Mr. President, I rise today to bring attention to the serious, debilitating, chronic diseases of psoriasis and psoriatic arthritis. August is Psoriasis Awareness Month, and I urge you to support S. 571, the Psoriasis and Psoriatic Arthritis Research, Cure, and Care Act for 2009—important legislation that I have cosponsored with my colleagues.

This legislation will fill important gaps in psoriasis and psoriatic arthritis data collection and research, and is an important step in providing relief to the as many as 7.5 million Americans that the National Institutes of Health, NIH, estimates suffer from these non-contagious, genetic autoimmune diseases.

Psoriasis is the most prevalent autoimmune disease, yet is widely misunderstood, minimized, and undertreated. Between 10 and 30 percent of people with psoriasis also develop psoriatic arthritis, which causes pain, stiffness and swelling in and around the joints. Without treatment, psoriatic arthritis can be disabling. Of serious concern is that people with psoriasis are at elevated risk for myriad comorbidities, including but not limited to, heart disease, diabetes, obesity, and mental health conditions. Psoriasis and psoriatic arthritis impose significant burdens on individuals and society. Psoriasis alone is estimated to cost the Nation 56 million hours of lost work and between \$2 billion and \$3 billion annually.

The Psoriasis and Psoriatic Arthritis Research, Cure, and Care Act would help combat the pain, suffering, and stigma of psoriasis and psoriatic ar-

thritis by expanding psoriasis research conducted by the NIH and strengthening patient data collection on these diseases by establishing a national psoriasis and psoriatic arthritis patient registry through the Centers for Disease Control and Prevention. The bill also directs the Secretary of Health and Human Services to convene a summit to discuss issues and opportunities in psoriasis and psoriatic arthritis research. Finally, the bill calls upon the Institute of Medicine to conduct a study and issue a report on recommendations with respect to access to care for people with psoriasis and psoriatic arthritis. Taken together, these efforts will help reduce and prevent suffering from these conditions.

I would like to take a moment to recognize Paula Blount, a National Psoriasis Foundation volunteer whose 6-year-old daughter Hannah has psoriasis. While this disease is physically painful, for a child, the emotional pain can be just as debilitating. In the summer months, little Hannah endured many stares and rude remarks at the public pool. Her psoriasis was particularly bad, covering a large portion of her small body. Paula eventually bought a pool for the backyard so her daughter could swim at home without being teased and embarrassed. It is important that we do all we can to work with groups like the National Psoriasis Foundation to raise awareness about the disease and to fight the stigma that this serious autoimmune disease is just a case of "dry skin."

In my home State of Oregon there are over 89,000 of my constituents living with psoriasis and psoriatic arthritis. I encourage my colleagues to meet with psoriasis patients in your States to learn more about psoriasis and psoriatic arthritis, and work to reduce the misconceptions surrounding these conditions. I further urge you to join with me and other colleagues in supporting people with psoriasis by cosponsoring S. 571.

Mr. MERKLEY. Mr. President. I ask unanimous consent that the letter dated August 6, 2009, from Consumers Federation of America, et al., be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CONSUMER ACTION, CONSUMER FEDERATION OF AMERICA, CONSUMERS UNION, NATIONAL CONSUMER LAW CENTER, U.S. PUBLIC INTEREST RESEARCH GROUP,

August 6, 2009.

Re Deceptive Loan Check Elimination Act.

HON. JEFF MERKLEY,

U.S. Senate, Russell Senate Office Building, Washington, DC.

DEAR SENATOR MERKLEY: We congratulate you on introducing legislation to protect consumers from the risks of credit marketed via unsolicited checks that can be signed and deposited, obligating consumers to repay high cost loans. The Deceptive Loan Check

Elimination Act fills a gap in protections against mailing unsolicited credit devices that has existed since Congress prohibited banks from mailing live credit cards to consumers in the 1970's.

Checks mailed as part of credit solicitations represent the loan principal, not just a credit line. Once these checks are "cashed," the borrower becomes obligated for a relatively large debt generally at a high interest rate and prohibitive terms. This marketing device poses significant costs on consumers, given identity theft and its repercussions. First, consumers are harmed if these checks are cashed by someone other than the named borrower. Given the ease with which incoming mail can be stolen from mail boxes or diverted by others in a household, marketing by unauthorized live check loans is a risk to consumers who did not request credit. The cost to consumers includes the time and money spent correcting credit reports and notifying lenders about fraudulently arranged debt as well as reduced credit scores until the fraudulent item is corrected, which can take months. Second, live loan checks present a "free money" temptation for consumers struggling to make ends meet, who may not have the ability to pay back the check loan.

No device that extends credit and obligates borrowers should be sent without express request from consumers. It is high time that Congress complete the job started over thirty years ago to prohibit creditors from mailing out live credit devices to consumers who did not request them and that can be used to obligate consumers and damage credit ratings.

We look forward to working with you as this bill moves through the legislative process. Please contact Jean Ann Fox, CFA.

Sincerely,

JEAN ANN FOX,

YEMEN

Mr. FEINGOLD. Mr. President, the Obama administration has rightly focused much of its attention not on Iraq but on the region of the world that most threatens our national security—the Pakistan-Afghanistan region. This was long overdue. The lost time has greatly damaged our national security and left us with fewer options in South Asia. I continue to be concerned, however, that the escalation of our military efforts in Afghanistan could further destabilize Pakistan, where the leadership of al-Qaida and Afghan Taliban operate and where Pakistani Taliban elements are seeking to extend their reach. I expressed these concerns, among other places, at a hearing of the Senate Foreign Relations Committee to Ambassador Richard Holbrooke, the

administration's envoy to the region. Ambassador Holbrooke conceded that the concern was real and that, while the administration was aware of the risk, they could not rule out these unintended consequences. Testifying before the same committee a week later, Admiral Mullen made similar comments.

The war in Afghanistan is inextricably linked to the al-Qaida safe haven in the FATA and the Afghan Taliban safe haven in Balochistan, as well as to the current conflict in the Northwest Frontier Province and to the rest of Pakistan. It is not the same war throughout the region and it would be a mistake to perceive a monolithic enemy. But we need to consider the consequences of our actions and those of our partners throughout the region.

Last year, I made a trip to Peshawar in the Northwest Frontier Province. There I met the province's leadership, as well as the extraordinary Americans working in our consulate there. During and after my trip, I expressed concern about the impact of deals made between the government and the Pakistani Taliban. Tragically, however, the situation in the NWFP got worse. Increasing violence in Peshawar included the killing of USAID employees and an attack on our top diplomat there. And the Pakistani Taliban's reach into Swat became broader and more radical, further threatening our national security and that of Pakistan. These advances must be permanently rolled back, just as safe havens in the FATA cannot be allowed to stand.

But it is not enough for us to throw our support behind the Pakistani military incursions. This is a critical moment in which it matters how Pakistan seeks to reassert its control. The displacement of over 2 million civilians, delays in assistance to and the return of the displaced, and a failure to ensure coordinated and accountable civilian-led security to the people all pose serious risks. Internal conflicts fuel terrorist recruitment and can create new safe havens. So while we have a clear interest in the success of one side—the Pakistani Government—we also have a clear interest in how this conflict is waged and how it is resolved.

At the same time, we must focus more attention beyond the safe havens and instability in South Asia, particularly on Yemen and Somalia. The threat from al-Qaida affiliates in those countries, as well as from al Shebaab, is increasing. Weak states, chronic instability, vast ungoverned areas, and unresolved local tensions have created almost ideal safe havens in which terrorists can recruit and operate. They have also attracted foreign fighters including, in the case of Somalia, Americans. Al-Qaida's long tentacles reach into these countries, and our efforts to track individual operatives are critical, just as they are in Pakistan. But,

while we should aggressively pursue al-Qaida leaders, we will not achieve our long-term strategic goals if we think about counterterrorism primarily as a manhunt or if we assume there is a finite number of terrorists in the world. Conditions in places such as Yemen and Somalia create and attract new ones. That is why press stories suggesting that operatives from Pakistan are relocating, while troubling, ignore the larger strategic picture. Because of conditions on the ground, al-Qaida affiliates in Yemen and Somalia are perfectly capable of expanding their reach and capabilities on their own. And the best way to stop them is to address head-on the reasons—frequently unique to the countries in which they are operating—for their success.

The threats to our national security in Yemen are serious and are getting worse. News last month about the murder of as many as nine hostages in Yemen, which Yemeni officials have linked to groups affiliated with al-Qaida, is a reminder of the increasing violence there. As in Peshawar, our diplomats have been in the crosshairs, with the attack last September on our Embassy in Sana'a. And, as our State Department has warned, al-Qaida in Yemen's recruitment remains strong, and its tactics indicate high levels of training, coordination, and sophistication. Any serious effort against al-Qaida in Yemen will require the engagement of the government, whose capabilities and commitment are extremely weak. Yemen is a fragile state whose government has limited control outside the capital. It is also distracted from the counterterrorism effort by two other sources of domestic instability—the al-Houthi rebellion in the north and tensions with a southern region with which Sana'a was united less than 20 years ago. In other words, counterterrorism is hampered by weak governance and by internal conflicts that would not appear on the surface to threaten our interests. Our only choice, then, is to develop a comprehensive policy toward Yemen that places counterterrorism within a broader framework that promotes internal stability, economic development, transparency, accountability, and the rule of law.

And we must do this while considering the obstacles to repatriating the approximately 100 Yemeni detainees currently detained at Guantanamo Bay. I have spoken out about security gaps in Yemen, particularly with regard to the escape from detention of a terrorist operative responsible for the attack on the USS *Cole*. I support the closing of Guantanamo, but with so many of its detainees hailing from Yemen, we need to take an honest look at the weaknesses in Sana'a's justice and security systems and consider whether there is anything we can do about them.

Instability in Yemen is, of course, directly linked to conflict in the Horn of Africa. Earlier this year, the pirate attack on a U.S. vessel briefly raised awareness of maritime insecurity fostered by a lack of effective governance and insufficient naval capacity on both sides of the Gulf of Aden. This problem continues, even when it is not on the front pages, and is both a symptom and a driver of overall instability in the region. Meanwhile, refugees from the conflict in Somalia are fleeing to Yemen. According to a recent U.N. report, thirty 30,000 have crossed the Gulf of Aden this year with thousands more preparing to do so. The human cost to this exodus, as well as the potentially destabilizing affects, demand our attention. Finally, Yemen is linked to the Horn of Africa through arms trafficking that violates the U.N. embargo on Somalia and fuels the conflict there.

The threat in northern Somalia is, or should be, more apparent now than ever. Last October, terrorists attacked in Somaliland and Puntland. These are regions—and regional governments—for which we have little in the way of policy. I am not arguing that we recognize their independence, but it is in our national interest to engage them—diplomatically and economically—and to promote stability there. I have spoken frequently, and for years, about the need for a comprehensive policy for the Horn of Africa. Serious attention to the unique conditions in Somaliland and Puntland must be part of that policy.

Meanwhile, the raging conflict in central and southern Somalia is worse than ever, as a beleaguered transitional government fights a strengthened al-Shabaab and allied militias. Foreign fighters have come to Somalia to fight alongside al-Shabaab, including Americans, one of whom was implicated in the October terrorist attacks. Al-Qaida in East Africa thrives on the instability and has even expanded its support network south, into parts of Kenya. Yet for far too long, our policy toward Somalia has been fragmented or nonexistent. Our counterterrorism approach has been primarily tactical and has failed to confront the reasons why Somalia is not just a safe haven for al-Qaida in East Africa but a recruiting ground for increasing numbers of fighters—Somali and foreign—who are drawn to a conflict that is fueled by local and regional forces. That is why a comprehensive policy must include a serious, high-level commitment to a sustainable and inclusive peace and why all elements of the U.S. Government need to work together toward common goals.

As in Yemen, the key to a successful strategy is the recognition that destabilizing factors in the region are linked to threats to the United States. Thus, separatism in the Ogaden or Somali region of Ethiopia, the ongoing Ethio-

pian-Eritrean border disputes, and the ways in which these tensions motivate the policies of these countries toward Somalia must factor into our broader regional strategy. This is complex, to be sure. But we simply have no other choice—we must recognize the complexity, understand it, and devise policies that address it.

This administration has a historic opportunity. And there are indications that lessons are being learned. The Director of the National Counterterrorism Center—whom the President rightly kept on from the previous administration—recently said the following:

This is a global struggle for al-Qaida, but if we think about it too much as a global struggle and fail to identify the local events that are truly motivating people to join what they view as a global struggle, we will really miss the boat. We have to try to disaggregate al-Qaida into the localized units that largely make up the organization and attack those local issues that have motivated these individuals to see their future destiny through a global jihad banner.

This is the strategic framework that we have been waiting for, and it is encouraging.

But statements such as these are only the beginning. To effectively fight the threat from al-Qaida and its affiliates, we have to change the way our government is structured and how it operates.

First, we need better intelligence. Recent reforms to our intelligence community have focused on tactical intelligence—on “connecting the dots.” We have not tackled the gaps in strategic intelligence. We need to improve the intelligence that relates directly to al-Qaida affiliates—where they find safe haven and why. But we also need better intelligence on the local conflicts and other conditions that impede or complicate our counterterrorism efforts. And we need better intelligence on regions of the world in which the increasing marginalization of communities, resentments against local government, or simmering ethnic or tribal tensions can result in new safe havens, new pools for terrorist recruiting, or simply distractions for one of our counterterrorism partners.

Second, we need to fully integrate our intelligence community with all the ways in which our government, particularly the State Department, openly collects, reports, and analyzes information. This integration, which was the goal of legislation that I introduced in the last Congress with Senator Hagel and that twice has won approval from the Senate Intelligence Committee, is a critical component of strategic counterterrorism. Without it, we will never understand the conditions around the world—most of them apparent to experienced diplomats—that allow al-Qaida affiliates to operate, nor will we be able to respond effectively.

Third, this integration of clandestine intelligence community activities and

open information gathering must include the allocation of real resources to the right people. This is fundamental. We can no longer afford to have budget requests driven by the equities and influence of individual agencies, rather than interagency strategies. And while Congress should do its part, real reform must be internalized by the executive branch.

Fourth, we need to recognize that when whole countries or regions are off limits to our diplomats, we have a national security problem. We know that regional tensions in Yemen, clan conflicts in Somalia, and violent extremism in Pakistan all contribute to the overall terrorism threat. But if our diplomats can't get there, not only will we never truly understand what is going on, we won't be able to engage with the local populations. In some cases, we can and should establish new embassy posts. For years, I have pushed for such an initiative in northern Nigeria, a region where clashes between security forces and extremists have taken hundreds of lives in recent weeks. In some cases, the security concerns are prohibitive. But there, we cannot just turn our backs; our absence doesn't make the threats go away. Instead, we should develop policies that focus on helping to reestablish security, for the sake of the local populations as well as for our own interests.

Fifth, we need strong, sustained policies aimed directly at resolving conflicts that allow al-Qaida affiliates to operate and recruit. These policies must be sophisticated and informed. We have suffered from a tendency to view the world in terms of extremists versus moderates, good guys versus bad guys. These are blinders that prevent us from understanding, on their own terms, complex conflicts such as the ones in Yemen or Somalia or, to inject two other examples, Mali and Nigeria. They have also led us to prioritize tactical operations—DOD strikes in Somalia, for example—without full consideration of their strategic impact. Conversely, we have viewed regional conflicts as obscure and unimportant, relegating them to small State Department teams with few resources and limited influence outside the Department. This must change. Policy needs to be driven by the real national security interests we have in these countries and regions, and our policies need to be supported by all elements of the U.S. Government. That includes a real recognition that, sometimes, policies that promote economic development and the rule of law really are critical to our counterterrorism efforts, and they need real resources and support from the whole of our government.

Mr. President, after 7 years of an administration that believed it could fight terrorism by simply identifying and destroying enemies, we now have

an opportunity to take a more effective, comprehensive, long-term approach. The President, in his speech in Cairo, reached out to Muslims around the world. The Director of the NCTC has stressed the need to address local conditions in the global struggle against al-Qaida's affiliates. The Secretary of State has committed to aggressive diplomacy around the world. And the Secretary of Defense has acknowledged the need to increase the role and resources of other agencies and departments. Now, however, the real work begins. Changing the way the government, and Congress, for that matter, understands and responds to the national security threats facing us will not be easy. But we have no time to wait.

45TH ANNIVERSARY OF THE WILDERNESS ACT

Mr. FEINGOLD. Mr. President, as founder of the Senate Wilderness and Public Lands Caucus, I led a Senate resolution commemorating the upcoming 45th anniversary of the Wilderness Act of 1964. I am delighted the Senate passed this resolution last night, and am very pleased that Senator McCAIN joined me in leading this effort. I also thank our other colleagues for their support as cosponsors: Senators LAMAR ALEXANDER, EVAN BAYH, MICHAEL BENNET, BARBARA BOXER, SAM BROWNBACK, RONALD BURRIS, ROBERT BYRD, MARIA CANTWELL, BENJAMIN CARDIN, SUSAN COLLINS, CHRIS DODD, DICK DURBIN, DIANNE FEINSTEIN, JUDD GREGG, JOHN KERRY, JOE LIEBERMAN, ROBERT MENENDEZ, JEFF MERKLEY, PATTY MURRAY, MARK UDALL, TOM UDALL, GEORGE VOINOVICH and RON WYDEN.

This Wilderness Act was signed into law on September 3, 1964, by President Lyndon B. Johnson, 7 years after the first wilderness bill was introduced by Senator Hubert H. Humphrey of Minnesota. The final bill, sponsored by Senator Clinton Anderson of New Mexico, passed the Senate by a vote of 73-12 on April 9, 1963, and passed the House of Representatives by a vote of 373-1 on July 30, 1964.

The Wilderness Act of 1964 established a National Wilderness Preservation System "to secure for the American people of present and future generations the benefits of an enduring resource of wilderness." The law gives Congress the authority to designate wilderness areas, and directs the federal land management agencies to review the lands under their responsibility for their wilderness potential.

Under the Wilderness Act, wilderness is defined as "an area of undeveloped federal land retaining its primeval character and influence which generally appears to have been affected primarily by the forces of nature, with the imprint of man's work substantially unnoticeable." The creation of a

national wilderness system marked an innovation in the American conservation movement—wilderness would be a place where our "management strategy" would be to leave lands essentially undeveloped.

The original Wilderness Act established 9.1 million acres of Forest Service land in 54 wilderness areas. The support for wilderness has continued through the 111th Congress with the creation of 52 new wilderness areas in the Omnibus Public Land Management Act of 2009. Today, the wilderness system is comprised of over 109 million acres in over 750 wilderness areas, across 44 States, and administered by 4 Federal agencies: the Forest Service in the U.S. Department of Agriculture, and the Bureau of Land Management, the Fish and Wildlife Service, and the National Park Service in the Department of the Interior.

As we in this body know well, the passage and enactment of the Wilderness Act was a remarkable accomplishment that required steady, bipartisan commitment, institutional support, and strong leadership. The U.S. Senate was instrumental in shaping this very important law, and this anniversary gives us the opportunity to recognize this role.

As a Senator from Wisconsin, I feel a special bond with this issue. The concept of wilderness is inextricably linked with Wisconsin. Wisconsin has produced great wilderness thinkers and leaders in the wilderness movement such as Senator Gaylord Nelson and the writer and conservationist Aldo Leopold, whose "A Sand County Almanac" helped to galvanize the environmental movement. Also notable is Sierra Club founder John Muir, whose birthday is the day before Earth Day. Wisconsin also produced Sigurd Olson, one of the founders of The Wilderness Society.

I am privileged to hold the Senate seat held by Gaylord Nelson, a man for whom I have the greatest admiration and respect. He is a well-known and widely respected former Senator and former two-term Governor of Wisconsin, and the founder of Earth Day. In his later years, he devoted his time to the protection of wilderness by serving as a counselor to The Wilderness Society—an activity which was quite appropriate for someone who was also a cosponsor, along with former Senator Proxmire, of the bill that became the Wilderness Act.

The testimony at congressional hearings and the discussion of the bill in the press of the day reveals Wisconsin's crucial role in the long and continuing American debate about our wild places, and in the development of the Wilderness Act. The names and ideas of John Muir, Sigurd Olson, and, especially, Aldo Leopold, appear time and time again in the legislative history.

Senator Clinton Anderson of New Mexico, chairman of what was then

called the Committee on Interior and Insular Affairs, stated that his support of the wilderness system was the direct result of discussions he had held almost forty years before with Leopold, who was then in the Southwest with the Forest Service. It was Leopold who, while with the Forest Service, advocated the creation of a primitive area in the Gila National Forest in New Mexico in 1923. The Gila Primitive Area formally became part of the wilderness system when the Wilderness Act became law.

In a statement in favor of the Wilderness Act in the New York Times, then-Secretary of the Interior Stewart Udall discussed ecology and what he called "a land ethic" and referred to Leopold as the instigator of the modern wilderness movement. At a Senate hearing in 1961, David Brower of the Sierra Club went so far as to claim that "no man who reads Leopold with an open mind will ever again, with a clear conscience, be able to step up and testify against the wilderness bill." For others, the ideas of Olson and Muir—particularly the idea that preserving wilderness is a way for us to better understand our country's history and the frontier experience—provided a justification for the wilderness system.

I would like to remind colleagues of the words of Aldo Leopold in his 1949 book, "A Sand County Almanac." He said, "The outstanding scientific discovery of the twentieth century is not the television, or radio, but rather the complexity of the land organism. Only those who know the most about it can appreciate how little is known about it."

We still have much to learn, but this anniversary of the Wilderness Act reminds us how far we have come and how the commitment to public lands that the Senate and the Congress demonstrated 45 years ago continues to benefit all Americans.

I would like to recognize the following organizations for their efforts to continue protecting our wild places: American Rivers, Alaska Wilderness League, Campaign for America's Wilderness, Earthjustice, Natural Resources Defense Council, Pew Environment Group, Republicans for Environmental Protection, Sierra Club, Southern Utah Wilderness Alliance, and The Wilderness Society.

WOMEN'S EQUALITY DAY

Mrs. MCCASKILL. Mr. President, in observance of the upcoming Women's Equality Day on August 26, 2009, I wish to pay tribute to the women soldiers and civilians of the U.S. Army who serve and defend our great country each day—whether in garrison communities here in the United States, like at Ft. Leonard Wood in my native Missouri, or on the front lines of battle in places like Afghanistan, Iraq, and other places around the world.

Although women did not receive equal treatment or recognition while serving in the military during the Civil War or the wars of the 20th century, they now serve in many roles and capacities in the Active, Guard and Reserve components and perform equally as well as their male counterparts. Today's Army fighting women are critical to the success of the Army's mission, and their sacrifice on the battlefield demonstrates a clear call to duty that transcends any supposed gender limitations.

One such example of this bravery is Silver Star recipient SPC Monica Brown, who, when her convoy was attacked while on patrol in Afghanistan, disregarded a hail of enemy fire that threatened her own life and jumped into action in her role as a medic to pull wounded soldiers to safety and render lifesaving aid to them. I also think about the heroic actions of SGT Leigh Ann Hester, another Silver Star recipient and military police platoon leader. When Sergeant Hester and her fellow soldiers were ambushed south of Baghdad, she bravely led her unit through an insurgent "kill zone" and into a flanking position to assault the enemy with fire, killing three insurgents herself.

These acts of selflessness are also mirrored in the spirit of volunteerism and commitment that Army civilian women exhibit as they deploy to combat zones wherever the Army needs them. Like their male counterparts, these women are serving honorably and selflessly as architects, doctors, nurses, lawyers, structural engineers, logisticians, and in scores of other occupational specialties. And like our military women, they do justice to the millions of women who preceded them in history to fight for equal rights for women in America.

As we celebrate the great accomplishments of women in the military on Women's Equality Day, it is imperative that our Nation and leaders continue to evaluate additional opportunities for military service by women. While women have achieved and contributed so much to the Army and the overall military mission, some barriers still exist.

I look forward to a day when more combat aviation and ground occupational specialties will be open to women, for instance. I look forward to a day when there will be more women in the general officer ranks to accompany my good friend GEN Ann Dunwoody, the Army's first and only female four-star general in its entire 234-year history. Our military and government must never slow its commitment to giving women the access to the full range of opportunities that the military has to offer. In doing so, I am confident that these few remaining barriers will fall.

I strongly encourage my fellow members to honor Women's Equality Day

on August 26 by thanking the military and civilian women of the U.S. Army and their families of their States for their commitment, bravery and unflinching support to our great Nation.

NATIONAL HEALTH CENTER WEEK

Mr. JOHNSON. Mr. President, today I wish to recognize the week of August 9, 2009, as National Health Center Week. National health centers provide care to 18 million people a year throughout the United States, through services at Community, Migrant, Homeless and Public Housing Health Center delivery sites. I wish to take the opportunity in a week dedicated to these sites to promote awareness on the expansive role they play in the health care of some of our Nation's most underserved citizens. It is important to recognize that at a time when health care costs have increased considerably across the country, these health centers have continued to serve an increasing number of patients without compromising the quality of care.

The Community Health Center Program, which operates in communities that are designated as medically underserved, has played a particularly important role as a health safety net provider in my State of South Dakota. Significant barriers limit access to quality health care for thousands of South Dakotans. The successful efforts of our State's community health centers have helped reduce many of these barriers by providing quality care to our State's low-income citizens. These health centers provide onsite dental, pharmaceutical, mental health, and substance abuse services that are often hard to come by in rural communities. In South Dakota, more than 50,000 patients received care in 2007, 40 percent of whom were uninsured and an additional 25 percent were covered under Medicaid.

I strongly support this model of health care delivery and commend the hard work of those in South Dakota and across the Nation in providing accessible, high-quality health care to those most in need.

WIPA AND PABSS REAUTHORIZATION ACT OF 2009

Mr. BAUCUS. Mr. President, I urge the Senate to pass by unanimous consent the WIPA and PABSS Reauthorization Act of 2009—H.R. 3325—which was passed recently by the House of Representatives. The bill will extend, for 1 year, two programs that provide important assistance for Social Security and supplemental security income, SSI, disability beneficiaries who would like to return to work.

Both of these programs were included in the Ticket to Work and Work Incentives Improvement Act of 1999, which passed Congress with bipartisan sup-

port. Under the Work Incentives Planning and Assistance, WIPA, program, the Social Security Administration, SSA, funds community-based organizations to provide personalized assistance to Social Security and SSI disability beneficiaries who want to work, by helping these beneficiaries understand SSA's complex work incentive policies and the effect that working will have on their benefits. This program can help to reduce the fears many beneficiaries have about attempting to return to work.

Under the Protection and Advocacy for Beneficiaries of Social Security, PABSS, Program, SSA awards grants to protection and advocacy systems to provide legal advocacy services that beneficiaries need to secure, maintain, or regain employment. The PABSS Program also provides beneficiaries with information and advice about obtaining vocational rehabilitation and employment services.

The Finance Committee and other committees in Congress have received testimony from disability advocates and other stakeholders about the importance of these programs to increasing employment among disability beneficiaries.

The Social Security Administration is currently authorized to spend \$23 million annually from its administrative budget to fund the WIPA Program, and \$7 million annually to fund the PABSS Program. However, the authorization for both programs expires on September 30, 2009.

This bill will extend the WIPA and PABSS Programs for 1 year, with no changes, while the relevant committees in Congress consider a longer term reauthorization. This 1-year extension will ensure that these programs can continue to provide disability beneficiaries with the assistance they need to return to work.

I thank my colleagues for their support for temporarily extending these important programs.

SNAKE HEADWATERS WILD AND SCENIC DESIGNATION

Mr. BARRASSO. Mr. President, I wish to speak on the Craig Thomas Snake Headwaters Legacy Act of 2008.

Shortly before Craig Thomas passed away, he introduced legislation, S. 1281, to protect the Snake River headwaters. His goal was to designate hundreds of miles of river in northwest Wyoming as wild and scenic. At the time, Senator Thomas stated that this designation would be a "badge of honor" for these rivers.

On May 15, 2007, the Senate Committee on Energy and Natural Resources Subcommittee on National Parks held a hearing on S. 1281. Senator Thomas invited Jack Dennis, a world renowned fly fisherman, to testify in support of the bill.

During his testimony Jack Dennis eloquently made the case for wild and scenic designation stating "Without hesitation, the rivers and streams of the Snake River Headwaters are the most stunningly beautiful in the world." Jack further testified that "To walk these rivers and hear the music of the rivers, to see beavers swimming out of the lodge, to watch an elk come down to the river to drink at sunrise—these rivers touch all our souls."

On Sunday, August 9, 2009, I will be participating in a community event in Jackson Hole, WY, to officially designate the Snake River headwaters as wild and scenic. I will be joining Susan Thomas, Jack Dennis, and hundreds of grassroots organizations and individuals who never gave up.

Like so many others, the river touched Craig's soul. This coming Sunday, we will finish the task Craig Thomas started. It is a remarkable accomplishment—388 miles of river dedicated as wild and scenic, 388 miles of pristine water that will be protected for the enjoyment of future generations.

What an honor indeed.

SENATE EMPLOYEES' CHILD CARE CENTER

Mr. BENNETT. Mr. President, I rise today to recognize the Senate Employees' Child Care Center for 25 years of service.

The Senate Employees' Child Care Center opened its doors on February 27, 1984, as the first childcare center on Capitol Hill. Its successful opening is attributed to the dedication and hard work of Senate Members, employees, and their families.

The center has grown, much like the children and Senate families it has served. On opening day, the center had 27 children enrolled from the ages of 18 months to 5 years. By comparison, the center today has grown to a full enrollment of 68 children from the ages of 10 weeks to 5 years.

The center first opened in what was known as the Immigration Building and is now the Capitol Police headquarters. As it outgrew that space, a new facility was constructed nearby. Enrollment and growth continued, necessitating the construction of a new facility in December of 1999.

While many things have changed over the past 25 years, such as the location, number of children served, and the faces of teachers and families, one constant is this: the Senate Employees' Child Care Center remains a first-class facility. Families continue to appreciate the comfort of knowing their children are in a safe and enriching educational environment. In fact, many families refer to the Center as a "school" rather than a daycare facility.

We and our staffs strive for excellence. The Senate Employees' Child

Care Center does the same. In 1989, it became the first center in Washington, DC, to achieve accreditation from the National Association for the Education of Young Children, NAEYC. This accreditation is the "gold standard" for early childhood education, and the center has maintained it continuously since 1989.

As in the early days, families with children enrolled in the center are encouraged to be involved in its daily operations. Many families spend their lunch hours doing "nap duty," others serve on the Board of Directors, and others assist with special classroom projects. Parental involvement fosters a cooperative environment and further contributes to the center's excellence.

The greatest asset of the Senate Employees' Child Care Center is its teachers. One of the original teachers, Phyllis Green, continues to provide lessons that will serve children well throughout their lives. She is one of many dedicated professionals who connect with both children and parents in very special ways.

I offer my congratulations to the Senate Employees' Child Care Center on achieving this milestone and best wishes for many more years of service.

Mr. SCHUMER. Mr. President, I rise to join my colleague Senator BENNETT to recognize the 25th anniversary of the Senate Employees' Child Care Center's founding and to congratulate the SECCC on its many years of service to the Senate.

The original families and those who have followed share many memories of their experiences with the SECCC. They recall the development of a playground in what is now Senate Parking Lot 19; the center's role in the creation of the congressional holiday ornaments; the day the children watched as the sculpture Mountains and Clouds was installed in the Hart atrium; and the annual Fourth of July parade, with the children dressed in red, white and blue as they march from the child care center to the Hart Office Building. Most important, they speak of the growth and development of their children.

The Senate is well served by the Senate Employees' Child Care Center and the staff members who work there. I want to thank the center for its 25 years of service to the Senate.

BASEBALL HALL OF FAME INDUCTEE JAMES EDWARD RICE

Mr. GRAHAM. Mr. President, today I ask the Senate to join me in recognizing James Edward Rice on the occasion of his induction into the National Baseball Hall of Fame on July 26, 2009. Mr. Rice is a superior athlete who has made his home State of South Carolina very proud.

Mr. Rice was elected in this, his 15th and final year on the Baseball Writers

Association of America, BBWAA, election ballot, with 76.4 percent of the vote. He becomes the third player in Hall of Fame history to be elected by the BBWAA in his final year of eligibility, and he is certainly deserving of this honor.

Jim Rice spent his entire 16-year big league career playing with the Boston Red Sox. Fenway Park was his second home, and he certainly gave the Red Sox organization and fans plenty to cheer about. Mr. Rice played his first game for the club in late 1974, and his career took off shortly thereafter. In 1975 he ended the season as runner-up for Rookie of the Year, second to his own teammate Fred Lynn. After overcoming injuries, Mr. Rice finally settled in and was selected as the American League Most Valuable Player, MVP, in 1978, and throughout the rest of his career he finished in the top five of the MVP selection five other times.

An Anderson, SC, native, Mr. Rice, or "Ed" as he was known growing up, found himself in a challenging time of social change. After the public schools were integrated shortly before his senior year of high school, he was sent into a new environment where, according to Alexander Edelman with the Baseball Biography Project, his "engaging personality and gentle charm won over most . . . and helped ease the racial tension that accompanied integration." He quickly made quite an impact in the athletic arena as a member of the football, basketball, and baseball teams. He was an all-State kick returner, defensive back, and wide receiver. But it was his prowess on the baseball diamond that caught the most attention, and he was drafted in the first round of the amateur entry draft at only 18 years old.

Mr. Rice was an incredible asset to the Boston Red Sox, but perhaps his most memorable moment with the team had nothing to do with his abilities on the field. On August 7, 1982 Jonathan Keane, a 4-year-old boy attending his first game in Fenway Park, was sitting along the first base line when he was struck in the head with a line drive foul ball. Alarmed that no one was reacting quickly enough, Jim Rice leapt from the dugout and into the stands. Instinctively he picked up the unconscious boy and, cradling him, ran straight to the clubhouse where the trainer and ambulance were waiting. Tom Keane, Jonathan's father who was with him that day, recalled the event and noted, "In times like that, you really see the quality of the character of the people involved. Jim Rice is a really humble guy. He doesn't want to take credit for doing anything out of the ordinary . . . I think that's an understatement of what he did that day. He may very well have saved my son's life."

Jim Rice played his final game with the Boston Red Sox on August 3, 1989,

but returned to the organization from 1995 through 2000 as a hitting coach. On November 1, 1995 he was inducted into the Red Sox Hall of Fame in its inaugural class. His plaque can be viewed at Fenway Park along with two of his Silver Slugger awards. In 1999, Sports Illustrated honored him as the ninth best athlete of the 20th Century to come out of South Carolina. And in 2001 he was inducted into the Ted Williams Hitters Hall of Fame.

Mr. Rice and his wife Corine now reside in Andover, MA, where they have raised their two daughters Carissa and Chancey. And though he is not permanently in South Carolina, his presence is still felt in Anderson through a community center named in his honor, the Jim Ed Rice Center.

I ask that the Senate join me in honoring him for his impressive athletic career and newest honor as an inductee into the National Baseball Hall of Fame.

HONORING THE 437TH AIRLIFT WING

Mr. DEMINT. Mr. President, Senator GRAHAM joins me today to congratulate the men and women of the 437th Airlift Wing stationed at Charleston Air Force Base, SC, for their outstanding service in defending our Nation and for their great achievements at the Air Force's Air Mobility Command Rodeo Competition.

It is been 8 years since the attacks of 9/11, and the record of continuous operations for the 437th is an inspiration to us all. Shortly after the attacks, Charleston leapt into action, dropping humanitarian aid into Afghanistan only hours after bombers began pounding al-Qaida and Taliban insurgents. Later, when we put boots on the ground, the 437th led the first-ever C-17 combat dirt landing in the barren wilderness of Afghanistan to establish a critical forward operating base. Since then, Team Charleston has led the airlift of MRAPS to protect our troops in Iraq and Afghanistan and performed some of the largest training exercises in Air Mobility Command. Over the years, they have delivered a staggering 1.3 billion pounds of cargo to support our troops and provide relief for friends and allies around the world.

However, when the 437th is not saving lives and delivering freedom, they are winning awards and bringing home trophies. We are especially proud of the 437th's accomplishments at the 2009 Air Mobility Command Rodeo Competition. The 437th competed with more than 100 teams and 2,500 people from the United States Air Force and allied nations. They led the C-17 aircrew competition and finished first in two out of three competitions, earning trophies for "Best C-17 Air Refueling Crew" and "Best Short Field Landing Crew." Furthermore, Team Charleston

continued their distinguished record of world-class maintenance and added "Best C-17 Preflight Team" to their long list of awards. These are impressive achievements that bring great credit upon the 437th.

We recognize the outstanding achievements of Rodeo team members CPTs Robert Lowe, Joseph Beal and Jonathan Magill; MSgt Ricky Clark; Technical Sergeants Harold Bordeaux, Paul Eaton, and Richard Pate; SSgts Jessy Martin, Brian Parmerter, Hector Schunior, Nicholas White, John Paull, and Veronica Bankey; Senior Airmen Dennis Adams and Joshua Ramalia; and Airman First Class Daniel Jones.

I know the Wing is especially proud of the Rodeo team, but on behalf of the people in Charleston, the State of South Carolina, and our great country, Senator GRAHAM and I salute the outstanding work of the 437th.

We are amazed by their stories and humbled by the immense burdens they have shouldered. Their dedication, and their families' sacrifices are an inspiration, and our country owes them a debt of gratitude for their patriotic service.

AFGHAN NATIONAL SECURITY FORCES

Mr. KAUFMAN. Mr. President, we have embarked on a new course in Afghanistan. The plan has 21,000 troops and trainers engaged primarily in clearing the Taliban in Kandahar and Helmand provinces. We know from counterinsurgency doctrine that we must now hold the areas that have been cleared.

I speak today on the need for expanding the Afghan National Army and Police. They must do the holding of those areas taken by our forces so that we can build a capable, accountable, and effective Afghan Government. The August 20 elections will be a crucial milestone in Afghanistan's democratic development, and the international community stands with the Afghan people as they exercise their freedom to cast votes at more than 7,000 polling stations.

Safeguarding the election is a test for the Afghan security forces, which are leading efforts to secure the polling stations per the plans of the Afghanistan Elections Commission. At the same time, the United States and other international partners will continue to support Afghan forces. We have increased troop levels this summer, in part, to help the Afghan National Army and Police prepare for the election.

As we send an additional 21,000 troops and trainers and hundreds of civilians into Afghanistan, we must do everything in our power to protect these brave men and women in a hostile environment. We must be effective and efficient in clearing and holding against insurgents. And we must ensure we

have the necessary civilian resources to build a secure and stable environment, in which Afghans can sustain rule of law and promote good governance.

These goals are critical to our shared counterinsurgency mission. Success will not be easy or without a great cost or burden. It will continue to require patience, determination, and an enduring American commitment.

As GEN Stanley McChrystal affirmed when he assumed command of American and International Security Assistance Force, or ISAF, troops in Afghanistan, "the Afghan people are at the center of our mission. In reality, they are the mission. We must protect them from violence, whatever its nature." The Afghan people are at the heart of our operations, and the first principle of protecting the population in counterinsurgency is building a strong indigenous security force that can assume control and take the lead.

Our military, civilian, and political leadership agree that enhancing the capacity and capability of the Afghan National Army and Afghan National Police is key to an eventual U.S. withdrawal from Afghanistan. Before we move in this direction, however, we must consider what additional resources are required to help the ANA and ANP become self-sufficient.

Current estimates indicate the Afghan Army is one fourth of the size of the Iraqi Army, where the ongoing insurgency now pales in comparison to Taliban-led violence in Afghanistan. This is woefully inadequate if we hope to meet Afghanistan's short-term and long-term security requirements. The same can be said for the Afghan police, which provides the essential services of border security, law enforcement, coordinating counternarcotics, and serving as a paramilitary force.

The Afghan National Army and Police must work in tandem on counterinsurgency—one cannot succeed without the other—with the army "clearing" the land of insurgents, and the police "holding" to ensure stability. Progress in "building" economic development and governance cannot be sustained until the security forces succeed in their mission.

Current plans to expand the Afghan National Army to 135,000 and the Afghan National Police to 80,000 by 2011 represent a positive step in the right direction but still fall short of the necessary requirements. These numbers are insufficient for the Afghans to independently maintain security and establish rule of law in the long-run, and therefore should be considered critical milestones, but not ceilings, for the training mission.

According to the Army/Marine Corps Counterinsurgency Manual drafted by General Petraeus in 2006, the requisite number of security forces should not be defined by the number of insurgents.

Rather, the size of host nation security forces should be commensurate with the size of the population. This closely parallels the methodology used to calculate the adequate size for peacekeeping operations, which are determined by the number of inhabitants. Counterinsurgency doctrine, as delineated by General Petraeus, recommends a minimum target ratio of 20 counterinsurgents for every 1,000 residents.

According to this ratio, in order to secure Afghanistan—a country of more than 33 million—a minimum of 600,000 security forces are needed, which includes the army and police. Current targets for the ANA and ANP barely reach 40 percent of this minimum requirement. It is clear that these numbers should be increased, and this is why I support doubling the target number for the ANA from 135,000 to 250,000, and increasing the ANP from 80,000 to 150,000.

As Secretary Gates has outlined, we must better prepare to fight the wars we are in, and recognize that that irregular warfare is not just a short-term challenge. Rather, it is a long-term reality that requires a realignment of both military strategy and spending. And as we continue to engage in counterinsurgency, we must recognize those elements of our strategy which are essential to our mission. Chief among them remains building the indigenous capacity of the host nation security forces.

It is in this regard that I strongly urge my colleagues to join me in supporting an increase in the size of the Afghan national security forces. While this may require additional trainers, troops, and resources in the short run, it is the only way to ensure the long-run stability of Afghanistan.

WYOMING'S WORLD WAR II MEMORIAL

Mr. BARRASSO. Mr. President. I wish today to talk about a special group of people who live and work with us, side by side in our hometowns across America. The terrible days of the Second World War produced an entire generation of men and women who answered the call to duty to defend freedom and defeat tyranny in far off lands across both oceans. They left their homes and families, endured great trials, and gave so much of themselves for so many of us in the most difficult of circumstances.

These brave men and women served in our Nation's darkest hour. And then they came back home. They went back to work, to school, bought homes, raised families, and continued to build our Nation. Today they are our friends and neighbors, our parents and grandparents, our fellow Americans. And we owe them such a tremendous debt of gratitude.

Mr. President, on August 15, 2009, the State of Wyoming will dedicate its World War II Memorial at the Wyoming Veterans Memorial Park in Cody, WY. And I am honored to be here on the floor of the Senate to personally give thanks to the many men and women and their families who made such great sacrifices on our behalf during the terrible days of World War II.

The memorial being dedicated and the ceremony itself required a major commitment on the part of those who worked to successfully complete the project. This includes veterans, their families, friends, admirers, and all of the people of Wyoming whose hard work and generous contributions made this memorial possible.

The Wyoming World War II Memorial is a fitting tribute to all those of the Greatest Generation who gave so much for our country. It is because of them that we all live our lives in freedom and are able to exercise the rights guaranteed to us in our Constitution every day. We are the grateful beneficiaries of their sacrifices.

My father was a veteran of World War II. He fought in the Battle of the Bulge. My wife Bobbi's father was in both World War II and Korea. My dad always told me that I should thank God every day that I live in America and how fortunate I was. He was right. This is the greatest country on Earth. And it is because of the brave actions of so many of our fellow countrymen.

The Wyoming Congressional delegation had the privilege of greeting a group of Wyoming's World War II veterans on the National Mall this spring. They made the Wyoming Honor Flight trip to Washington from Wyoming to visit the World War II Memorial. Wyoming's World War II veterans are heroes in every sense of the word. They quite literally saved the world. Let Wyoming's new memorial be a monument of our endless thanks for all they have secured for us. All of Wyoming, and indeed America, says thank you.

ADDITIONAL STATEMENTS

COMMENDING SALLY HUNTER

• Mr. CORNYN. Mr. President, today I wish to recognize the distinguished service of an outstanding Texan, Sally Hunter. Ms. Hunter is the recipient of the 2009 Preserve America Elementary History Teacher of the Year for Texas. This award recognizes outstanding American history teachers from elementary school through high school, as well as the crucial importance of American history education. One teacher from each State is chosen from thousands of exceptional teachers to receive this prestigious award.

For almost 30 years, Sally Hunter has served the students of Texas as an instructor, mentor, and friend. Through

recognizing and cultivating untapped potential within students, she has inspired countless youth to be men and women of character, vision and dedication.

Ms. Hunter began serving students as an elementary teacher in Austin ISD in 1980, and has taught fourth grade since 1995. Since that time, she has positively impacted the lives of thousands of students by making history personal for them. In keeping with her great love of Texas history, Ms. Hunter has traced her very own family back to the 1850s when they were neighbors of Sam Houston. Ms. Hunter continues to encourage and foster the same love of research and history in her own students so that they may learn more about their own family history.

Just 2 days after the fire that destroyed the Governor's Mansion in Austin, Ms. Hunter began to write the curriculum *This House is Your House* in order to ensure that students would learn about the richness of the mansion's history. Ms. Hunter's program is being used in classrooms across Texas, and continues to illustrate the mansion's tangible connections to people of the past, while challenging students to contribute to restoration and preservation.

Ms. Hunter has a gift for recognizing the unique needs of students and has never failed to commit her time, energy, and resources to meeting their needs. Ms. Hunter's love for teaching has made a lasting impact on her students, and she exemplifies an outstanding teacher and historian.

Sally Hunter's years of selfless service and unwavering devotion to the improvement of her students' lives have earned the respect of countless Texans. I thank Sally for her commitment to excellence in teaching the future leaders of Texas and send my best wishes for the years ahead.●

100TH BIRTHDAY OF ETHEL SCHWENGEL

• Mr. HARKIN. Mr. President, today is the 100th birthday of a very special Iowan and a wonderful friend, Ethel Schwengel. One century ago today, Ethel was born on her parents' family farm near Purdin, MO. This is a bit premature, but I should also note that we are on the cusp of yet another remarkable milestone. On August 15, Ethel and her family will celebrate the 78th anniversary of her marriage to the late Frederic Schwengel, who represented Iowa in the United States House of Representatives from 1955 to 1965 and from 1967 to 1973.

The Schwengels married in Unionville, MO, in 1931, and moved to Davenport, IA, in 1937. There, Ethel worked as an educator, and was active in many civic organizations, including Girl Scouts and the YWCA.

When her husband served in the Iowa House of Representatives from 1944 to

1954, and later during his long service in the U.S. House, Ethel became a respected and beloved presence in her own right.

Ethel was always actively engaged in her husband's campaigns. Meanwhile, on the home front, she was a strong stabilizing influence in the Schwengel household during his inevitably frequent absences. She was a tireless and gracious hostess, often responding to last-minute calls from her husband to set additional places at the table for colleagues and visitors.

During their years in the Nation's Capital, the Schwengels hosted "Washington Week" for an Iowa State University professor and two of his students, one of whom was a very young and green TOM HARKIN. I will never forget their kindness and hospitality during that very eventful week.

Ethel joined in her husband's passion for collecting antiques as well as Abraham Lincoln memorabilia, which she displayed beautifully in the Schwengel house. Another highlight of their home was the Ethel's garden, which featured her prized tomatoes and Fred's beloved rhubarb—and little bit of Iowa right in suburban Washington. Ethel was especially proud of her dazzling display of azaleas each spring.

Across more than six decades of marriage, Ethel and Fred Schwengel were blessed with a large extended family. They raised two children, Frank and Dorothy. Moreover, immediately after marrying, their household became home to Fred's brother Forrest and sister Helene. Later, Fred's widowed mother joined the household, as did Ethel's mother.

Following the Second World War, the Schwengels opened their home in Davenport to 11 displaced persons from Poland, helping them to learn English, find jobs, and become U.S. citizens.

In 1966, their grandson, Robert Schwengel, joined the household. When he left for college in 1979, it was the first time in 48 years of marriage that Ethel and Fred Schwengel were without extended family members in their home.

After Congressman Schwengel retired in 1973, he and Ethel continued to make their home in Arlington, VA. Mr. Schwengel helped to found the U.S. Capitol Historical Society in 1962, and headed that organization as its president until his death in 1993. Ethel remains a strong champion of the Historical Society and a member of its Honorary Board of Trustees. Their grandson, Dr. Robert Schwengel of Providence, RI, is a member of the society's active Board of Trustees, and their son-in-law, Neale Cosby, is its treasurer as well as a trustee.

Since that summer many years ago, when the Schwengels took me into their home for a very memorable "Washington Week," Ethel has been a very dear friend.

I am pleased to note that, for the big celebration today, she will be joined by family members and friends at her current residence in Arlington. In addition, there will be a reunion picnic on Saturday at her daughter and son-in-law's home at Mason Neck, VA. Ethel will be joined at these celebrations by her sister, Florence, age 98; her children and their spouses; five grandsons and spouses; nine great grandchildren; one niece; two nephews; and four great nephews. Clearly, this is a woman of great wealth—the kind of wealth that really matters.

I congratulate Ethel Schwengel on this great milestone. She has brought light into the lives of so many of us in Iowa and here in the Washington area. One hundred years since its birth, that light continues to shine with a very special radiance.

Happy birthday, Ethel!

50TH ANNIVERSARY OF TROUT UNLIMITED

• Mr. LEVIN. Mr. President, it is with great pride that I pay tribute to Trout Unlimited, a national conservation organization established in my home State of Michigan. This exceptional organization was founded in 1959 on the banks of the Au Sable River, near Grayling, MI, by 16 concerned Michigan anglers. These anglers, who met in the home of George Griffith, sought to ensure the continued and long term health of trout, their habitat, and the sport of angling. Today, Trout Unlimited boasts more than 150,000 members in approximately 400 chapters throughout the United States, including 23 chapters in Michigan.

The founders of Trout Unlimited, or TU, were united by their love of trout fishing and by their growing discontent with the State of Michigan's practice of stocking its waters with hatchery-raised fish. Driven by the belief that Michigan's trout streams could produce fish far superior in both size and fight to these "cookie cutter trout," in 1962-63, TU prepared its first policy statement on wild trout, which persuaded the Michigan Department of Natural Resources to curtail "put-and-take" trout stocking and to start managing for wild trout and healthy habitat. Buoyed by this success, anglers subsequently founded TU chapters in Illinois, Wisconsin, New York, and Pennsylvania with the mission of conserving, protecting and restoring North America's coldwater fisheries and their watersheds.

Indispensable to the success and strength of Trout Unlimited are the thousands of dedicated members and volunteers. TU members have spent countless hours restoring trout and salmon habitat, and some of the most visible effects have been on hundreds of watersheds nationwide. In addition, these members have provided the

knowledge and leadership necessary to improve environmental policy on the local, state and national level and to carry out TU's ambitious conservation agenda.

Many have contributed significantly to the success of Trout Unlimited over the past fifty years. Trout Unlimited has been an important, vigilant and effective advocate for coldwater resources in Michigan and across the country. I know my colleagues join me in offering gratitude and appreciation to Trout Unlimited for a job well done. Protecting our natural resources and waterways for future generations is a noble endeavor, and I look forward to another 50 years of responsible environmental stewardship.●

REMEMBERING REBECCA JANE DALTON WEINBERGER

• Ms. SNOWE. Mr. President, today I wish to pay tribute to a great fellow Mainer and a wonderful friend who passed away recently—Rebecca Jane Dalton Weinberger. Today, I would like to take a few moments to offer a few reflections of my own on Jane's life, as well as include some of the thoughts that her exceptional son, Caspar Weinberger, Jr., has shared regarding his beloved mother—and I will ask that Mr. Weinberger's statements upon Jane's passing be printed in the RECORD in their entirety.

Born in Milford, ME, Jane was a notable figure in our State. A writer and publisher of outstanding children's stories, a tireless community volunteer, a woman who in 1942 met—on a troop ship bound for Australia—a man then referred to as U.S. Army CAPT Caspar W. Weinberger, who would become her husband for 63 years not to mention Secretary of Defense under President Ronald Reagan!—and above all, an extraordinary mother, grandmother, and great-grandmother Jane Weinberger was truly beloved by many and will be profoundly missed by all of us who were fortunate to know her.

Inseparable throughout their 63 years of marriage, Jane and Caspar are indisputably now reunited—together once again—their rightful state of being given all that they meant to each other not only in love but in life, and all of its trials and triumphs. Jane and Cap were passionately devoted to one another—each drawing strength and inspiration from the other's indomitable spirit. In fact, her son tells of how, and I quote, "it was my mother who . . . almost literally pushed him into his first political campaign as the Republican candidate for the State Assembly from San Francisco's 21st Assembly District . . . she did all the campaign things: running the campaign office, calling on potential voters, handing out bumper stickers and posters. Jane was a great organizer, and innovator." And, I would add that they both served as

each other's closest confidante and friend—as well as being husband and wife.

And it was Jane who did Caspar the tremendous favor of introducing him to the great State of Maine. Of course, since Jane was a native Mainer through-and-through, as I mentioned at the memorial service for Cap Weinberger in 2006, many back home still referred to him as “Jane’s husband!” After all, as anyone familiar with Maine understands, you can never get “top billing” unless you were actually born there—even if you were pivotal in the downfall of the Soviet Union and the end of the Cold War!

And Jane was a force of nature in her own right. In the words of Caspar Weinberger, Jr., “My mother . . . helped her family hold together and prosper often under the most trying conditions that can only be truly understood by those who achieve fame and the scrutiny which go with holding high office in America. She was down to earth and sensible, and she was also a woman of great dignity, beauty and courage . . . She was instrumental in helping her husband win elective office . . . and later (was) a well-known and admired Washington, DC hostess, while Cap was serving in cabinet positions to three different U.S. presidents throughout the 1970s and 80s.”

Jane was not only unfailingly dedicated to her family—raising her sons, Caspar and Arlin—but also to her community and the world around her. Again, to quote Mr. Weinberger, she was “certainly civically minded—she was a volunteer in many an organization for the poor and needy.” She “volunteered for many civic duties and charities and writing children’s stories,” and was a former chairwoman of the Folger Shakespeare Library in Washington, DC; served on the board of Amherst College in Massachusetts; and for many years served on the Board at Jackson Laboratories in Bar Harbor. As Cap Weinberger, Jr. wrote, she believed “that it was most important to contribute to their good efforts in attempting to defeat cancer in every form once and for all.”

Once the Weinbergers had arrived back in Maine after their years in Washington, Jane also started a publishing business she had long envisioned, which was chiefly focused on children’s books and which she ran for more than 20 years with more than 120 titles. And her company came to be acknowledged, as her son put it, as “not the biggest but among the very best.”

On a more personal note, certainly, my husband Jock McKernan—Maine’s former Governor—and I have deeply treasured our friendship with Jane and Cap. Every time we drive by the home they cherished on Somes Sound, called “Windswept House” in Mount Desert, ME, I am reminded of the 80th birthday party that Jane threw for Cap. And

what a wonderful night that was—under the stars of a spectacular Maine summer sky—with Secretary Colin Powell and so many others joining in the festivities and the laughter. In Caspar Weinberger, Jr.’s words.

She arranged for a startling and magnificent round of fireworks in his honor. Strangely, twelve years later on the night before her passing, my wife and I witnessed another stunning display of fireworks put on just across the inlet to Somes Sound by a neighbor celebrating a wedding or other special event. While these lights were not really designed in her honor, to us it was highly symbolic, as if her time of respect had come and was recognized. In my view, as well it should have been, for she was most definitely the power that guided my father to the heights of American government.

Mr. President, Jane Weinberger achieved her own formidable heights throughout her remarkable lifetime, and we have truly lost a leading light in Maine. My profound sympathies go out to Caspar and Arlin as well as Jane’s sister, Virginia, and her three grandchildren and five great-grandchildren at this most difficult of times. Jane will always be in the hearts of those whose lives she touched so deeply.

Mr. President, I ask to have printed in the RECORD Mr. Weinberger’s statements to which I referred.

The information follows:

MRS. CASPAR W. (JANE) WEINBERGER DIES

Jane Dalton Weinberger, 91, wife of former President Ronald Reagan’s Secretary of Defense, the late Caspar W. Weinberger, died last night, July 12, 2009 in Bar Harbor, Maine. For the last six months, she had been in declining health and was living in a nursing home near her home known as “Windswept House” in Somesville, Maine on Mount Desert Island.

Born Rebecca Jane Dalton in Milford, Maine, on March 29, 1918, Mrs. Weinberger became an Army nurse at the outbreak of World War II. While aboard a troop ship headed to Australia in 1942, she met her husband-to-be, U.S. Army Captain Caspar W. Weinberger. They were married in Sydney and remained together for 63 years until Caspar’s death in late March, 2006.

While Cap (as Caspar was widely known) pursued a career first as a San Francisco, California lawyer and then a public statesman, Jane dedicated herself to raising a family, volunteering for many civic duties and charities and writing children’s stories. She was instrumental in helping her husband win elective office as a California assemblyman in the 1950s and later as a well-known and admired Washington, DC hostess, while Cap was serving in cabinet positions to three different U.S. presidents throughout the 1970s and 80s.

She was a former chairwoman of the Folger Shakespeare Library in Washington and served also on the boards of Amherst College in Massachusetts and the Jackson Laboratory in Bar Harbor, ME. In her early years she was a volunteer at St. Luke’s Hospital in the San Francisco Bay Area, and a member of that city’s venerable Century Club.

After leaving government service in 1987, Cap and Jane retired to their summer home, Windswept House in Mt. Desert, ME. Cap went on to be the Publisher of Forbes Maga-

zine and then became Chairman of the Forbes Group. Jane started and operated her own book publishing house, Windswept House Publishers, for the next twenty years, producing over 100 titles of mostly children’s books.

Jane and Caspar had two children: daughter Arlin Weinberger, now residing in Marin County, California and son Caspar Jr., presently residing with his wife in Mt. Desert, ME. Jane also leaves her sister, Virginia Garceau of Brewer, ME, daughter-in-law Mavis, three grandchildren, Louise Murray, James Weinberger, Rebecca Werber, and five great-grandsons.

“My mother was a wonderful woman who helped her family hold together and prosper often under the most trying conditions that can only be truly understood by those who achieve fame and the scrutiny which go with holding high office in America. She was down-to-earth and sensible, and she was also a woman of great dignity, beauty and courage. She was a wonderful hostess, gave great parties and donated much of her time to helping others in San Francisco, Washington, DC and Maine. She was always a loving wife to her husband before his passing in 2006. All of her family will miss her very much, but are glad that she has finally reached a lasting peace,” her son Caspar Weinberger, Jr. said today.

In line with her wishes, there will be no formal services for Jane; her ashes will be scattered on the gardens she loved and tended at her Windswept House. The family asks that in lieu of flowers and cards, donations be made to the Weinberger Foundation, the family non-profit organization, at P.O. Box 860, Mt. Desert, ME 04660.

REBECCA JANE DALTON WEINBERGER (1918–2009)

DEAR EDITOR, I write this letter today with a heavy heart, but also with a sense of pride and certain knowledge that now the journey of my dear parents is finally complete. Rebecca Jane Dalton Weinberger, wife of the late great American statesman, and my father, Caspar W. Weinberger, died late last night, Sunday July 12, at Sonogee Nursing Home in Bar Harbor. The cause was a massive stroke coupled with extreme old age.

First and foremost, she was my mother. For all my life, I was close to her and we felt a camaraderie shared by being in the orbit, as well as in the shadow, of a highly famous man. Rebecca Jane Dalton Weinberger was a very strong and yet a most down-to-earth lady of Maine. She was born in Milford, near Old Town, on March 29, 1918. Although she was not into astrology, I am, and believe me my mother was definitely an Aries through and through. By which I mean she was of a fiery temperament, extremely sure of herself, of what was right and what was wrong, but also innovative in spirit and in practice. Aries is the first sign of the Zodiac, symbolizing the initial spark of light and fire. Jane was a good mother, a fine cook, and certainly civically minded: she was a volunteer in many an organization for the poor and needy.

What is it with these special New England genetics that seem to breed so many naturally long-living Maine people? I don’t really know; perhaps it is just a real love of life regardless of its pain or pleasure, of which my mother surely knew both. Jane was a gardener but that was the limit of her outdoor exercise. She did enjoy swimming, but hardly on any regular body-building schedule. She drank a lot of wine, and heavier spirits when she was younger, although she always

controlled herself with not even a suspicion of intoxication, although I am sure on many occasions she was happily drunk. Nevertheless, she still managed always to look elegant and at ease even under the worst of circumstances and she lived to be over ninety-one years old. Given all that she went through in Cap's last years of suffering (he was on dialysis for three years) especially at his passing in the spring of 2006, it is amazing that she still had most of her wits until the very end. She out-lived her husband by three years and she was a great lady to be around.

From what I know of her early history, my mother found herself born into a quasi-indigent and somewhat dysfunctional family—her father simply left home one day when she was about eight years old and never came back. But Jane did not quit. By early adulthood she had a nursing degree from the Summerville Nursing Academy and World War II was calling for her services. She was sworn in as a Second Lieutenant U.S. Army nurse in 1941 and soon was transferred to the Pacific theater. On her way aboard a ship to care for soldiers in Australia, she met her life-mate. She told me the story once of how a girl friend had said “Oh, you married some soldier,” to which my mother responded “Yes, some soldier!”

And, indeed Army Lieutenant, soon to be Captain Caspar “Cap” Weinberger was that and more. A lifetime public servant, he was a California assemblyman who went on to serve in many U.S. cabinet posts and eventually became President Ronald Reagan's Secretary of Defense. Cap and Jane married in Australia in 1942. My sister arrived first in 1943, while I waited until 1947. Through circumstance—once married and pregnant, Jane was sent by the Army, per regulations, back to the States—my sister, Arlin, was born in Old Town, Maine, while I became a child, like my father, of the West Coast, a native San Franciscan. Actually, we lived first in Sausalito, California, across the Bay from San Francisco. In 1949, we moved to the city, living in what is now known as the Pacific Heights neighborhood. My father was a law clerk in the city and then eventually a young lawyer in a corporate law firm.

My father was generally shy and not very forthcoming in those days, but he was also bored with the law. In High School he had been fascinated by the U.S. Congressional Record, and the daily transcript of Congress in action. Today, he would have been known as a “wonk,” a bookish and slightly withdrawn man. Nevertheless, he had served as Student Body President at San Francisco's Polytechnic High, located right next to the old Kezar Stadium in Golden Gate Park. Then he had gone on to Harvard and the Harvard Law School. Yet, it was my mother who warmed him up to, and then almost literally pushed him into his first political campaign as the Republican candidate for the State Assembly from San Francisco's 21st Assembly District. It was victorious and he served three consecutive two-year terms.

She did all the campaign things: running the campaign office, calling on potential voters, handing out bumper stickers and posters. Jane was a great organizer, and innovator. She could make stuff out of nothing, and she was a good writer as well. She was regularly published in the smaller publications of the day and one of her stories was called “Lemon Drop,” about an elephant, as I recall, and it was republished many times while winning many awards.

In my elementary and high school days in California, Jane was always active with vol-

unteer groups, especially the St. Luke's Hospital Auxiliary. She was a member of the Century Club of San Francisco. I often drove her to meetings at the Club's lovely mansion near the California Street Cable Car line.

Well, boys miss their mothers. I am no longer a boy, of course, although inside I still feel like one, but I shall always feel for my mother and all she went through in the world of politics and government. It was a great journey, with lots of excitement, many highs, but also many lows. Such is the nature of most lives, but my parents' existences were perhaps grander, perhaps more intense than most.

Jane became the Chairwoman of the Folger Library, the great Shakespeare monument and treasure trove of things English, in Washington, D.C. She hosted so many fine parties for pretty much the entire nation's “A-list” of actors, politicians, scientists, professors, etc. and I was happy to be in attendance at many of these events, with my lovely wife of many years, Mavis. We met many of the world's most recognizable characters simply because of my parent's associations and as such we were most privileged indeed.

When she left Washington, moving with Cap back to Maine, Jane started a business she had dreamed of running all her life: Windswept House Publishers, a largely children's book publishing house which she ran for over twenty years right from her own home in Somesville on MDI. With over 120 titles, her little company became recognized throughout New England as “not the biggest but among the very best,” as more than one reviewer attested.

For many years, Jane served on the Board at the Jackson Lab in Bar Harbor believing that it was most important to contribute to their good efforts in attempting to defeat cancer in every form once and for all. Today, the Weinberger Foundation which I started when Cap died continues to contribute to the Lab in the hope that the goal Jane and so many others dreamed about may one day be reached.

On Cap's 80th birthday, August 18, 1997, Jane hosted a major celebration at Windswept. Many dignitaries, friends and family attended. She arranged for a startling and magnificent round of fireworks in his honor. Strangely, twelve years later on the night before her passing, my wife and I witnessed another stunning display of fireworks put on just across the inlet to Somes Sound by a neighbor celebrating a wedding or other special event. While these lights were not really designed in her honor, to us it was highly symbolic, as if her time of respect had come and was recognized. In my view, as well it should have been, for she was most definitely the power that guided my father to the heights of American government.

In addition to my sister, Arlin, and me, Jane leaves one sister, Virginia Garceau. Jane had three grandchildren, my nephew, James, and my two daughters, Louise and Rebecca. She left this life knowing also that she had five great grandsons, Timothy, David, George, Douglas Caspar and Charles. In a very strange twist of fate, Jane's ten-year old thoroughbred Golden Retriever, “Brandy,” died of a sudden stroke last Tuesday, July 7, right on the Full Moon. In my view, his death meant that he will be there for Jane in her spiritual journey beyond this life. Wow! Jane had a wonderful long life, perhaps rewarded for all her service by a just God or perhaps simply by the sense of firm resolve and purpose she brought to everything she did; most likely it was by a combination of both.

But primarily, as is most important to me, Rebecca Jane Dalton Weinberger was my mother. I loved her dearly and I shall miss her very much. But I am happy too for her, as at long last she can leave this weary Earth and perhaps re-join her husband of 63 years. Thank you, Jane for giving me not just life but a wonderful life. Indeed, though it was hardly your nature, may you now rest most peacefully.

CASPAR W. WEINBERGER, Jr.,
Mount Desert, ME.●

COMMENDING KITTERY TRADING POST

● Ms. SNOWE. Mr. President, with summer in full swing, I wish today to recognize a small family-run Maine business that has been outfitting customers with all of their outdoor needs for over 70 years. The Kittery Trading Post, located in Maine's southernmost town of Kittery, offers outdoor enthusiasts a shopping experience that is nearly as enjoyable as their outdoor activities.

The Kittery Trading Post holds a special place in the hearts of Mainers and tourists alike as it is one of the first visible landmarks upon entrance into our State from New Hampshire. The Trading Post was established by Philip Adams in 1938 and began small as a one-room, 360 square-foot retail location cohabitating with a gas station. Mr. Adams initially started his business by swapping gas for pelts, supplies for cars, and beef for ammunition. While the Trading Post has grown and much has changed over the years, it remains a family-owned and operated business to this day.

In 1961 Phillip Adams sold the trading post to his 21-year-old son, Kevin. Under Kevin's leadership, the Kittery Trading Post was voted Independent Specialty Retailer of the Year in 1979 by the United State Sporting Goods Industry. Kevin operated the company until his retirement in 1986, when the reins were passed on to Gary, Phillip, Kevin F., and Kim Adams. During this period, the Trading Post was presented with the Governor's Award for Business Excellence in 1995, a celebrated honor given to businesses that make generous contributions in the areas of community, employment, and service.

Phillip and Gary retired in 1999 and 2001 respectively, leaving the family business under the able leadership of Kevin F. and Kim. In 2001, the Trading Post earned yet another prestigious and coveted award, when the Maine Merchants Association named the Kittery Trading Post the Retailer of the Year.

Since its inception, the Kittery Trading Post has grown exponentially, resulting in its current size of 90,000 square feet of retail space. Spread out across three spacious levels, each area containing products appealing to a variety of customers, including quality and affordable provisions for hunting

and archery, camping and travel, food and lodging, and fishing and marine activity, among others. The camping, rock climbing, water and winter sports divisions reside on the upper floor. Below that is the largest shooting sports department in New England, including over 3,000 used firearms in stock. And on the lower level is Kittery Trading Post's expansive fishing section.

In addition to the retail space, the Trading Post has two off-site warehouses, providing the firm with an additional 94,000 square feet of space to help increase the distribution of its products and keep up with the demands of online customers via the company's user-friendly website. The Kittery Trading Post offers free shipping on orders over \$50, and also assures each customer that if they are not completely satisfied with their purchase they may return it for a full refund or replacement.

As a vibrant and active member of the local community, the Kittery Trading Post hosts a variety of seminars and events throughout the year. These events include weekly community bicycle rides, fly fishing lessons for children, and classes for gun owners on firearm reloading safety.

Over the course of its lengthy history, the Kittery Trading Post has expanded into a singular name in Southern Maine's outdoor sports outfitting arena. A true Maine gem, the Trading Post is an impressive destination for the amateur and the experienced outdoorsman alike. I commend everyone at the Kittery Trading Post for their exceptional work in providing quality and friendly service to tens of thousands of visitors each year, and wish them continued success for future decades.●

COMMENDING EDWIN C. PETRANEK

● Mr. THUNE. Mr. President, today I thank an American veteran for his valiant service to our country in the Advanced European Theater of Operation during World War II. Edwin C. Petranek was born September 9, 1916, in White River, SD. After graduating from the University of South Dakota in 1942, he was commissioned second lieutenant with the ROTC program and assigned to the 34th Infantry Division. Ed then went on to serve in Africa, Italy, and France until 1945 as a member of the 1st Battalion, Company A and B, 143rd Infantry, 36th Division as platoon leader.

Ed was eventually made first lieutenant, and his division took part in breaking the German defenses around Rome and in the invasion of southern France. He was wounded four times in the line of duty and returned to combat again and again. Ed left the European theater only after shattering his hip and being fitted with a full body cast.

Ed recovered and received a medical discharge in 1946 but stayed in the Army Reserves for 10 additional years, during which he returned to South Dakota and completed a master's degree. Upon receiving an honorable discharge in 1956, Ed continued to serve in a civilian capacity as an educator and coach. Here his commitment to excellence remained evident as he earned induction into the South Dakota Athletic Director Hall of Fame.

Both at home and abroad, the perseverance exhibited by South Dakota's own Ed Petranek remains an example to us all. This man has been awarded the Silver Star, a Purple Heart with three oak leaf clusters, a Bronze Star with cluster for meritorious service, and many other honors. Ed was also presented the French Legion of Honor. Today we have the chance to thank him for his dedication and to reflect on the true meaning of service.●

COMMENDING LIEUTENANT COLONEL (RETIRED) WALTER PAUL

● Mr. UDALL of Colorado. Mr. President, today I acknowledge the retirement of LTC (Ret.) Walter Paul, of the Colorado Army National Guard, and to recognize him for his distinguished public service as the resource manager and legislative director of the Colorado Department of Military and Veterans Affairs from 1999–2009.

Walter Paul was born in Vienna, Austria, and raised in the state of Victoria, Australia. He received a BS in chemistry from the University of Wisconsin in 1971. After college, he entered the U.S. Army as an artillery officer and served on active duty in Oklahoma, California, and Germany. He left active duty in 1978 but remained committed to his service by joining the California Army National Guard. When he moved his family—his wife Anna and two daughters—to Colorado in 1979, he transferred to the Colorado Army National Guard. As an artillery officer in the Colorado Army National Guard, he commanded the 2nd Battalion 157th Field Artillery in Colorado Springs.

As a traditional guardsman, Lieutenant Colonel Paul served as a member of the Guard on weekends while maintaining a business career during the week. He worked for Honeywell Semiconductor Division in Colorado Springs as a military program manager. In 1986, he earned his MBA from the University of Colorado at Colorado Springs, UCCS, and for 13 years, he taught part time at the UCCS Business School. Lieutenant Colonel Paul also served as the chairman of the board of directors for St. Mary's High School in Colorado Springs, from which both of his daughters graduated.

In 1999, Lieutenant Colonel Paul was hired as resource manager and legislative director for the Colorado Department of Military and Veterans Affairs.

In that role, he was responsible for the department's State budget, purchasing and contracting, and State tuition assistance, and he coordinated all the State and Federal legislation that impacts the Colorado National Guard, veterans in Colorado, as well as the Colorado Civil Air Patrol. After 10 years working for the Department, Lieutenant Colonel Paul retired earlier this summer. His daughters are now married, and he and Anna, his wife of 39 years, live in Colorado Springs.

I first met Lieutenant Colonel Paul in 1999 in my first year in office as a Member of the House of Representatives from Colorado's Second District. Over the years, he and his colleague Colonel (Ret.) William "Robby" Robinson worked very closely with my office on issues important to the Guard in Colorado, and helped me and my staff understand the critical role the Guard plays in times of peace and war. It was clear that this wasn't "just" a job for Lieutenant Colonel Paul—he was dedicated to his work and to the Guard, he was always available when my office needed his assistance, and his cheerful demeanor made him a joy to work with.

LTC Walter Paul has tirelessly supported our Nation's men and women in uniform. He is a patriot whose distinctive accomplishments reflect great credit upon him, the State of Colorado, and the Nation. I hope my colleagues will join me not only in recognizing his past accomplishments, but also in wishing him all the best in his future pursuits.●

COMMENDING COLONEL (RETIRED) WILLIAM L. ROBINSON (ROBBY)

● Mr. UDALL of Colorado. Mr. President, today I recognize and pay tribute to COL (Ret.) William "Robby" Robinson, who was commissioned as an infantry officer in 1968 through the U.S. Military Academy and who will retire next month after 13 years working for Colorado's Department of Military and Veterans Affairs. We owe him a debt of gratitude for his contributions to our Nation.

Colonel Robinson's civilian education includes a bachelor of science from West Point and a master's degree in public administration from Harvard University. His professional military education includes the infantry officer basic and advanced courses, Ranger, Airborne, Jumpmaster and Pathfinder schools at Fort Benning, GA; the College of Naval Command and Staff in Rhode Island; and the Army War College in Pennsylvania as the USCINCPAC Fellow.

His assignments have included the 82nd Airborne Division at Fort Bragg, NC; 173rd Airborne Brigade, Vietnam; A Company, 1st Battalion 502nd Infantry, 101st Airborne Division, Vietnam; 75th Infantry, Ranger, 101st Airborne

Division, Vietnam; Logistics Plans Officer and Division Training Officer in the 24th Infantry Division at Fort Stewart, Georgia; and Task Force Commander of 2nd Battalion 8th Infantry in the 4th Infantry Division at Fort Carson, CO.

Among Colonel Robinson's awards and decorations are the Defense Superior Service Medal, the Legion of Merit, Purple Heart, Bronze Star, eight Air Medals, two Defense Meritorious Service Medals, and three Meritorious Service Medals.

Colonel Robinson has also served as an instructor of political sciences at West Point; Aide de Camp to the U.S. Representative to the NATO Military Committee in Brussels, Belgium; speechwriter for the Commander in Chief, U.S. Pacific Command; chief of strategy at USCINCPAC in Hawaii; and as Fifth U.S. Army senior active duty adviser to the Colorado Army National Guard.

He retired from active duty in June 1996 and became the resource manager and legislative liaison for Colorado's Department of Military Affairs. In 1999, he began serving as deputy director of the Department of Military and Veterans Affairs. He will retire next month, after 13 years with the department.

It was in his capacity as deputy director that I first met Colonel Robinson, when he and the department's legislative director, LTC (Ret.) Walter Paul, visited my office in my first year as a Member of the House of Representatives from Colorado's Second District. Over the years, Colonel Robinson and Lieutenant Colonel Paul worked very closely with my office on issues important to the Guard in Colorado, and helped me and my staff understand the critical role the Guard plays in times of peace and war.

Colonel Robinson is a man of integrity, whose counsel is widely sought. In his years of service, he has demonstrated his deep commitment to our Guard members, our veterans, and their families. Retirement will allow him to spend more time with his wife Cathy, who is program director for Elbert County Social Services, their daughter Meredith, a veterinarian in Wheat Ridge, and their son Will, a student at the University of Colorado, Denver. But we will miss him and will continue to seek his counsel.

I know all my colleagues join me in saluting COL (Ret.) William "Robby" Robinson for his many years of truly outstanding service to the United States Army, the Colorado National Guard, our veterans, and our Nation.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

At 5:51 p.m., a message from Ms. Niland, one of its reading clerks, announced that the Speaker pro tempore (Mr. HOYER) has signed the following enrolled bills and joint resolutions:

H.R. 774. An act to designate the facility of the United States Postal Service located at 46-02 21st Street in Long Island City, New York, as the "Geraldine Ferraro Post Office Building".

H.R. 987. An act to designate the facility of the United States Postal Service located at 601 8th Street in Freedom, Pennsylvania, as the "John Scott Challis, Jr. Post Office".

H.R. 1271. An act to designate the facility of the United States Postal Service located at 2351 West Atlantic Boulevard in Pompano Beach, Florida, as the "Elijah Pat Larkins Post Office Building".

H.R. 1275. An act to direct the exchange of certain land in Grand, San Juan, and Uintah Counties, Utah, and for other purposes.

H.R. 1397. An act to designate the facility of the United States Postal Service located at 41 Purdy Avenue in Rye, New York, as the "Caroline O'Day Post Office Building".

H.R. 2090. An act to designate the facility of the United States Postal Service located at 431 State Street in Ogdensburg, New York, as the "Frederic Remington Post Office Building".

H.R. 2162. An act to designate the facility of the United States Postal Service located at 123 11th Avenue South in Nampa, Idaho, as the "Herbert A Littleton Postal Station".

H.R. 2325. An act to designate the facility of the United States Postal Service located at 1300 Matamoros Street in Laredo, Texas, as the "Laredo Veterans Post Office".

H.R. 2422. An act to designate the facility of the United States Postal Service located at 2300 Scenic Drive in Georgetown, Texas, as the "Kile G. West Post Office Building".

H.R. 2470. An act to designate the facility of the United States Postal Service located at 19190 Cochran Boulevard FRNT in Port Charlotte, Florida, as the "Lieutenant Commander Roy H. Boehm Post Office Building".

H.R. 2938. An act to extend the deadline for commencement of construction of a hydroelectric project.

S.J. Res. 19. Joint resolution granting the consent and approval of Congress to amendments made by the State of Maryland, the Commonwealth of Virginia, and the District of Columbia to the Washington Metropolitan Area Transit Regulation Compact.

H.J. Res. 44. Joint resolution recognizing the service, sacrifice, honor, and professionalism of the Noncommissioned Officers of the United States Army.

ENROLLED BILL SIGNED

At 8:15 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks,

announced that the Speaker pro tempore (Mr. HOYER) has signed the following enrolled bill:

H.R. 3435. An act making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program.

The enrolled bill was subsequently signed by the Acting President pro tempore (Mr. REID).

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-2622. A communication from the Congressional Review Coordinator, Animal and Plant Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "National Poultry Improvement Plan and Auxiliary Provisions; Technical Amendment" ((RIN0579-AC78)(Docket No. APHIS-2006-0137)) received in the Office of the President of the Senate on August 3, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2623. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Sodium and Ammonium Naphthalenesulfonate Formaldehyde Condensates; Exemption from the Requirement of a Tolerance" (FRL No. 8938-8) received in the Office of the President of the Senate on August 4, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2624. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Sodium Alkyl Napthalenesulfonate; Exemption from the Requirement of a Tolerance" (FRL No. 8428-6) received in the Office of the President of the Senate on August 4, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2625. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Polyoxyethylene polyoxypropylene monodi-sec-butylphenyl ether; Exemption from the Requirement of a Tolerance" (FRL No. 8429-4) received in the Office of the President of the Senate on August 4, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2626. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Bacillus thuringiensis CryIA.105 protein; Time Limited Exemption from the Requirement of a Tolerance; Correction" (FRL No. 8428-7) received in the Office of the President of the Senate on August 4, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2627. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Amine Salts of Alkyl (C8-C24)

Benzenesulfonic Acid (Dimethylaminopropylamine, Isopropylamine, Mono-, Di-, and Triethanolamine); Exemption from the Requirement of a Tolerance" (FRL No. 8430-2) received in the Office of the President of the Senate on August 4, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2628. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Alkyl Alcohol Alkoxyates; Exemption from the Requirement of a Tolerance" (FRL No. 8430-1) received in the Office of the President of the Senate on August 4, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2629. A communication from the Associate General Counsel for Legislation and Regulations, Office of Community Planning and Development, Department of Housing and Urban Development, transmitting, pursuant to law, the report of a rule entitled "Section 108 Community Development Loan Guarantee Program: Participation of States as Borrowers Pursuant to Section 222 of the Omnibus Appropriations Act, 2009" (Docket No. 5326-I-01) received in the Office of the President of the Senate on August 4, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-2630. A communication from the General Counsel of the Federal Housing Finance Agency, transmitting, pursuant to law, the report of a rule entitled "Capital Classifications and Critical Capital Levels for the Federal Home Loan Banks" (RIN2590-AA21) received in the Office of the President of the Senate on August 3, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-2631. A communication from the General Counsel of the Federal Housing Finance Agency, transmitting, pursuant to law, the report of a rule entitled "Affordable Housing Program Amendments: Federal Home Loan Bank Mortgage Refinancing Authority" (RIN2590-AA04) received in the Office of the President of the Senate on August 3, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-2632. A communication from the General Counsel of the Federal Housing Finance Agency, transmitting, pursuant to law, the report of a rule entitled "2009 Enterprise Transition Affordable Housing Goals" (RIN2590-AA25) received in the Office of the President of the Senate on August 3, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-2633. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Final Authorization of State Hazardous Waste Management Program Revisions" (FRL No. 8941-1) received in the Office of the President of the Senate on August 4, 2009; to the Committee on Environment and Public Works.

EC-2634. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Revised Motor Vehicle Emission Budgets for the York-Adams Counties 8-Hour Ozone Maintenance Area" (FRL No. 8941-4) received in the Office of the President of the Senate on August 4, 2009; to the Committee on Environment and Public Works.

EC-2635. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Revised Motor Vehicle Emission Budgets for the Scranton/Wilkes-Barre 8-hour Ozone Maintenance Area" (FRL No. 8941-6) received in the Office of the President of the Senate on August 4, 2009; to the Committee on Environment and Public Works.

PETITIONS AND MEMORIALS

The following petition or memorial was laid before the Senate and was referred or ordered to lie on the table as indicated:

POM-77. A concurrent resolution adopted by the Legislature of the State of Texas urging Congress to make eradication of the fever tick in South Texas a priority and continue to provide appropriate funding and resources for this effort; to the Committee on Agriculture, Nutrition, and Forestry.

HOUSE CONCURRENT RESOLUTION NO. 120

Whereas, south Texas is on the front line of the battle against the fever tick, a pest that threatens to inflict catastrophic losses on the beef industry should it continue to spread beyond a permanent quarantine zone established along the Rio Grande in 1943; and

Whereas, historically, the fever tick ranged across the entire southeastern United States, reaching as far north as Maryland and Pennsylvania; the tick can carry and transmit a parasite that causes cattle tick fever, which kills up to 90 percent of infected cattle; in 1893, the Texas Animal Health Commission was founded to fight this scourge, and in 1907 the United States Department of Agriculture established the National Cattle Fever Tick Eradication Program; by then, the tick had already caused direct and indirect economic losses estimated to equal more than \$1 billion in today's dollars; and

Whereas, the eradication program had successfully contained the fever tick to an 852-square-mile quarantine zone by 1943; the tick was never eliminated in Mexico, however, and personnel from the USDA Tick Force have maintained a high level of vigilance to fight continuous reintroduction; after the pest was detected beyond the zone in 2007, five temporary preventive quarantine areas were established, covering more than one million acres in Starr, Zapata, Jim Hogg, Maverick, Dimmit, and Webb Counties; and

Whereas, in March 2008, the Texas Department of Agriculture requested some \$13 million to fight the spread of fever ticks; the USDA released \$5.2 million, and in January 2009 it committed another \$4.9 million in emergency funds, but sustained funding over the long term is essential; moreover, the National Fever Tick Eradication Strategic Plan, developed and approved by the USDA in 2006, has never been implemented and funded, and Dr. Bob Hillman, the state veterinarian and executive director of the Texas Animal Health Commission, has warned that fever ticks are a national livestock threat that requires an all-out assault; and

Whereas, the fever tick has gained substantial ground in this state, but the Texas Department of Agriculture, the Texas Animal Health Commission, and the USDA Tick Force continue working diligently with cattle owners to save a key component of the Lone Star State's agricultural economy and

prevent the battlefield from extending to other states; if the fever tick is not contained, the cost to the cattle industry could easily approach \$1 billion a year and lead to rising food costs for consumers; now, therefore, be it

Resolved, That the 81st Legislature of the State of Texas hereby memorialize the Congress of the United States to make eradication of the fever tick in South Texas a priority and continue to provide appropriate funding and resources for this effort; and, be it, further

Resolved, That the Texas secretary of state forward official copies of this resolution to the president of the United States, to the speaker of the House of Representatives and the president of the Senate of the United States Congress, and to all members of the Texas delegation to Congress with the request that this resolution be officially entered in the Congressional Record as a memorial to the Congress of the United States of America.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. ROCKEFELLER, from the Committee on Commerce, Science, and Transportation, without amendment:

S. 859. A bill to amend the provisions of law relating to the John H. Prescott Marine Mammal Rescue Assistance Grant Program, and for other purposes (Rept. No. 111-70).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mrs. BOXER for the Committee on Environment and Public Works.

*Gary S. Guzy, of the District of Columbia, to be Deputy Director of the Office of Environmental Quality.

At the request of Mr. BARRASSO, his name was added as a cosponsor of S. 1065, a bill to authorize State and local governments to direct divestiture from, and prevent investment in, companies with investments of \$20,000,000 or more in Iran's energy sector, and for other purposes.

S. 1066

At the request of Mr. ROBERTS, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. 1066, a bill to amend title XVIII of the Social Security Act to preserve access to ambulance services under the Medicare program.

S. 1089

At the request of Mr. BAUCUS, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 1089, a bill to facilitate the export of United States agricultural commodities and products to Cuba as authorized by the Trade Sanctions Reform and Export Enhancement Act of 2000, to establish an agricultural export promotion program with respect to Cuba, to remove impediments to the export to Cuba of medical devices and medicines, to allow travel to Cuba by United States citizens and legal residents, to establish an agricultural export promotion program with respect to Cuba, and for other purposes.

S. 1090

At the request of Mr. WYDEN, the name of the Senator from Indiana (Mr. LUGAR) was added as a cosponsor of S. 1090, a bill to amend the Internal Revenue Code of 1986 to provide tax credit parity for electricity produced from renewable resources.

S. 1091

At the request of Mr. WYDEN, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of S. 1091, a bill to amend the Internal Revenue Code of 1986 to provide for an energy investment credit for energy storage property connected to the grid, and for other purposes.

S. 1121

At the request of Mr. HARKIN, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of S. 1121, a bill to amend part D of title V of the Elementary and Secondary Education Act of 1965 to provide grants for the repair, renovation, and construction of elementary and secondary schools, including early learning facilities at the elementary schools.

S. 1131

At the request of Mr. WYDEN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 1131, a bill to amend title XVIII of the Social Security Act to provide certain high cost Medicare beneficiaries suffering from multiple

chronic conditions with access to coordinated, primary care medical services in lower cost treatment settings, such as their residences, under a plan of care developed by a team of qualified and experienced health care professionals.

S. 1158

At the request of Mr. ISAKSON, the name of the Senator from Mississippi (Mr. WICKER) was added as a cosponsor of S. 1158, a bill to authorize the Secretary of Health and Human Services to conduct activities to rapidly advance treatments for spinal muscular atrophy, neuromuscular disease, and other pediatric diseases, and for other purposes.

S. 1273

At the request of Mr. DORGAN, the names of the Senator from Minnesota (Mr. FRANKEN), the Senator from Hawaii (Mr. AKAKA) and the Senator from Nebraska (Mr. JOHANNIS) were added as cosponsors of S. 1273, a bill to amend the Public Health Service Act to provide for the establishment of permanent national surveillance systems for multiple sclerosis, Parkinson's disease, and other neurological diseases and disorders.

S. 1295

At the request of Mrs. SHAHEEN, the name of the Senator from Hawaii (Mr. INOUE) was added as a cosponsor of S. 1295, a bill to amend title XVIII of the Social Security Act to cover transitional care services to improve the quality and cost effectiveness of care under the Medicare program.

S. 1301

At the request of Mr. MENENDEZ, the name of the Senator from Idaho (Mr. RISCH) was added as a cosponsor of S. 1301, a bill to direct the Attorney General to make an annual grant to the A Child Is Missing Alert and Recovery Center to assist law enforcement agencies in the rapid recovery of missing children, and for other purposes.

S. 1304

At the request of Mr. GRASSLEY, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of S. 1304, a bill to restore the economic rights of automobile dealers, and for other purposes.

S. 1352

At the request of Mr. DODD, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 1352, a bill to provide for the expansion of Federal efforts concerning the prevention, education, treatment, and research activities related to Lyme and other tick-borne diseases, including the establishment of a Tick-Borne Diseases Advisory Committee.

S. 1361

At the request of Mr. LEAHY, the name of the Senator from Delaware (Mr. KAUFMAN) was added as a cosponsor of S. 1361, a bill to amend title 10, United States Code, to enhance the na-

tional defense through empowerment of the National Guard, enhancement of the functions of the National Guard Bureau, and improvement of Federal-State military coordination in domestic emergency response, and for other purposes.

S. 1397

At the request of Ms. KLOBUCHAR, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 1397, a bill to authorize the Administrator of the Environmental Protection Agency to award grants for electronic device recycling research, development, and demonstration projects, and for other purposes.

S. 1401

At the request of Mr. MARTINEZ, the names of the Senator from Georgia (Mr. ISAKSON), the Senator from Nevada (Mr. REID) and the Senator from California (Mrs. FEINSTEIN) were added as cosponsors of S. 1401, a bill to provide for the award of a gold medal on behalf of Congress to Arnold Palmer in recognition of his service to the Nation in promoting excellence and good sportsmanship in golf.

S. 1423

At the request of Mrs. BOXER, the name of the Senator from Tennessee (Mr. CORKER) was added as a cosponsor of S. 1423, a bill to amend title XIX of the Social Security Act to require coverage under the Medicaid Program for freestanding birth center services.

S. 1438

At the request of Mrs. GILLIBRAND, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 1438, a bill to express the sense of Congress on improving cybersecurity globally, to require the Secretary of State to submit a report to Congress on improving cybersecurity, and for other purposes.

S. 1492

At the request of Ms. MIKULSKI, the names of the Senator from Minnesota (Ms. KLOBUCHAR), the Senator from Delaware (Mr. KAUFMAN), the Senator from West Virginia (Mr. ROCKEFELLER) and the Senator from Washington (Mrs. MURRAY) were added as cosponsors of S. 1492, a bill to amend the Public Health Service Act to fund breakthroughs in Alzheimer's disease research while providing more help to caregivers and increasing public education about prevention.

S. 1518

At the request of Mr. BURR, the names of the Senator from Florida (Mr. NELSON) and the Senator from Wisconsin (Mr. FEINGOLD) were added as cosponsors of S. 1518, a bill to amend title 38, United States Code, to furnish hospital care, medical services, and nursing home care to veterans who were stationed at Camp Lejeune, North Carolina, while the water was contaminated at Camp Lejeune.

S. 1523

At the request of Mr. BURR, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 1523, a bill to amend the Public Health Service Act to establish a grant program to provide supportive services in permanent supportive housing for chronically homeless individuals and families, and for other purposes.

S. 1524

At the request of Mrs. SHAHEEN, her name was added as a cosponsor of S. 1524, a bill to strengthen the capacity, transparency, and accountability of United States foreign assistance programs to effectively adapt and respond to new challenges of the 21st century, and for other purposes.

S. 1540

At the request of Mr. CORKER, the name of the Senator from Missouri (Mr. BOND) was added as a cosponsor of S. 1540, a bill to provide for enhanced authority of the Federal Deposit Insurance Corporation to act as receiver for certain affiliates of depository institutions, and for other purposes.

S. 1542

At the request of Mr. SCHUMER, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 1542, a bill to impose tariff-rate quotas on certain casein and milk protein concentrates.

S. 1545

At the request of Mrs. GILLIBRAND, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 1545, a bill to expand the research and awareness activities of the National Institute of Arthritis and Musculoskeletal and Skin Diseases and the Centers for Disease Control and Prevention with respect to scleroderma, and for other purposes.

S. 1547

At the request of Mr. REED, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 1547, a bill to amend title 38, United States Code, and the United States Housing Act of 1937 to enhance and expand the assistance provided by the Department of Veterans Affairs and the Department of Housing and Urban Development to homeless veterans and veterans at risk of homelessness, and for other purposes.

S. 1551

At the request of Mr. SPECTER, the name of the Senator from Rhode Island (Mr. WHITEHOUSE) was added as a cosponsor of S. 1551, a bill to amend section 20 of the Securities Exchange Act of 1934 to allow for a private civil action against a person that provides substantial assistance in violation of such Act.

S. 1552

At the request of Mr. LIEBERMAN, the name of the Senator from Tennessee (Mr. ALEXANDER) was added as a cosponsor of S. 1552, a bill to reauthorize

the DC opportunity scholarship program, and for other purposes.

S. 1567

At the request of Mr. BROWNBACK, the name of the Senator from New Mexico (Mr. UDALL) was added as a cosponsor of S. 1567, a bill to provide for the issuance of a Multinational Species Conservation Funds Semipostal Stamp.

S. 1569

At the request of Ms. STABENOW, the name of the Senator from Hawaii (Mr. INOUE) was added as a cosponsor of S. 1569, a bill to expand our Nation's Advanced Practice Registered Nurse workforce.

S. 1584

At the request of Mr. MERKLEY, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 1584, a bill to prohibit employment discrimination on the basis of sexual orientation or gender identity.

S. RES. 187

At the request of Mrs. SHAHEEN, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. Res. 187, a resolution condemning the use of violence against providers of health care services to women.

S. RES. 210

At the request of Mrs. LINCOLN, the name of the Senator from California (Mrs. FEINSTEIN) was added as a cosponsor of S. Res. 210, a resolution designating the week beginning on November 9, 2009, as National School Psychology Week.

S. RES. 244

At the request of Mr. FEINGOLD, the name of the Senator from New Hampshire (Mrs. SHAHEEN) was added as a cosponsor of S. Res. 244, a resolution commemorating the 45th anniversary of the Wilderness Act.

AMENDMENT NO. 2301

At the request of Mr. KYL, the names of the Senator from Utah (Mr. BENNETT), the Senator from Kansas (Mr. ROBERTS) and the Senator from Maine (Ms. SNOWE) were added as cosponsors of amendment No. 2301 proposed to H.R. 3435, a bill making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program.

AMENDMENT NO. 2302

At the request of Mr. GREGG, the names of the Senator from Tennessee (Mr. ALEXANDER), the Senator from Tennessee (Mr. CORKER), the Senator from Texas (Mr. CORNYN) and the Senator from Wyoming (Mr. ENZI) were added as cosponsors of amendment No. 2302 proposed to H.R. 3435, a bill making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program.

AMENDMENT NO. 2306

At the request of Mr. ISAKSON, the names of the Senator from North Carolina (Mr. BURR), the Senator from Wyo-

ming (Mr. ENZI) and the Senator from Tennessee (Mr. ALEXANDER) were added as cosponsors of amendment No. 2306 proposed to H.R. 3435, a bill making supplemental appropriations for fiscal year 2009 for the Consumer Assistance to Recycle and Save Program.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. WYDEN:

S. 1588. A bill to amend the Internal Revenue Code of 1986 to provide the same tax treatment for both commercial and noncommercial investors in oil and natural gas and related commodities, and for other purposes; to the Committee on Finance.

Mr. WYDEN. Mr. President, businesses like airlines, trucking companies, and heating oil distributors buy and sell oil and futures contracts because they need to do so to run their day-to-day business and hedge their risk against wild swings in oil prices like consumers saw last year.

But there are also buyers and sellers in the market—financial speculators—who are simply there to try to make a quick dollar on oil as an investment strategy. The explosion of speculators into the marketplace has distorted the oil and gas market and driven up the price of oil for everybody. When commercial businesses see fuel prices go up, they try to consume less. But when speculators see prices go up, they buy more and keep driving up demand. This distorts the normal supply-demand balance of the markets and digs a huge financial hole for average Americans.

In 2000, speculative trading in the oil futures markets accounted for 37 percent of crude oil trading on the New York Mercantile Exchange. By last summer when prices were approaching \$150 a barrel, that number had grown to more than 70 percent. I do not think that is a coincidence.

There are a lot of proposals around to fix the regulatory system to prevent trading abuses. Oregon's economy really suffered from abusive energy trading by Enron, and I am all for closing trading loopholes. But my bill is aimed at something different. It is aimed at the giant financial bubble that has been created by people who are simply chasing speculative profits in the commodities markets and creating artificial demand that is driving up prices.

The legislation I am introducing today—Stop Tax-breaks for Oil Profiteering, STOP, Act of 2009—will let some of the air out of this speculative balloon and help create a level playing field among companies participating in the commodity markets.

Under the tax code, commercial traders, those who truly need to buy, sell and hedge their purchases of oil, pay taxes on whatever profits they make on trading at the same rates as ordinary income. Speculators get a much

better deal from the TAX CODE. Some, such as pension funds or endowments, do not pay any tax whatsoever when they profit on their oil or futures investments. Others, like hedge or index funds can get lower tax rates by treating some of their trading profits as capital gains. Clearly, the deck is stacked against the businesses who really buy and use oil. That means it is also stacked against the consumer who needs the services and products those businesses provide.

My proposal removes incentives in the tax code that make such investments attractive to both tax-exempt and tax-paying investors. It also makes everyone in the United States who is buying and selling oil and gas or futures contracts play by essentially the same tax rules across the board. Tax-paying entities would lose the ability to treat any of these investments as capital gains and be subject to comparable tax treatment on oil and gas investments as airlines or trucking companies or fuel distributors or other businesses that truly need to be in these markets.

Tax-exempt entities, like pension funds, would be required to pay "unrelated-business-income-tax" on their oil and gas trading gains. UBTI already exists as a well-established tax obligation for income that is not directly related to the tax exempt purpose of the organization. UBTI was created precisely to keep tax exempt organizations from competing unfairly with taxpaying businesses, which is what they are doing when they enter the commodity markets solely for investment income purposes. The bill also includes provisions that would prevent tax exempt organizations from investing in off-shore funds to try to avoid the new UBTI tax.

By focusing on tax fairness, my bill would realign the profit incentives that are currently attracting non-commercial actors to the markets. If speculators are truly in the markets and are wreaking havoc with oil and gas prices, this bill will do away with their tax subsidies and cause many to leave. It deflates the speculative balloon of artificially inflated profits that has made this investment arena so attractive.

If speculators are not a problem, then this bill will help prove the theory that the wild swings in oil prices of the past year truly can be blamed on supply and demand.

The bill would only cover the oil and natural gas markets, and related products like gasoline and diesel fuel, and be in effect for the next 4 years. However, after 3 years, it would require the Treasury Department to issue a report analyzing the impact of these changes on these markets, making recommendations on what changes to make.

Other proposals on oil speculation focus on regulation of the market or

limiting the amounts of oil traders could purchase. These approaches are “top down” efforts to prevent trading abuses and financial investors from swamping the market. This bill approaches the problem from the bottom line up. Willy Sutton, the bank robber was asked why he robbed banks, to which he is said to have replied, “It’s where the money is.” That is why this bill focuses on the flow of financial investment funds into the oil and gas markets, it’s where the speculation is.

In these tough economic times, I believe consumers need protection from people who try to game the system to pad their own pockets. By putting an end to the imbalances in the tax code that currently feed oil profiteers, the STOP Act will be good for American businesses and consumers. I hope my colleagues will join me in protecting our economy and leveling the playing field in the oil and gas markets by voting in favor of the STOP Act.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1588

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Stop Taxbreaks for Oil Profiteering Act” or the “STOP Act”.

SEC. 2. CAPITAL GAIN OR LOSS FROM SALE OR EXCHANGE OF OIL OR NATURAL GAS AND RELATED COMMODITIES TREATED AS SHORT-TERM CAPITAL GAIN OR LOSS.

(a) GAIN OR LOSS ON APPLICABLE COMMODITIES.—

(1) IN GENERAL.—Part IV of subchapter P of chapter 1 of the Internal Revenue Code of 1986 (relating to special rules for determining capital gains and losses) is amended by adding at the end the following new section:

“SEC. 1261. CAPITAL GAIN OR LOSS FROM SALE OR EXCHANGE OF OIL OR NATURAL GAS AND RELATED COMMODITIES TREATED AS SHORT-TERM CAPITAL GAIN OR LOSS.

“(a) GENERAL RULE.—If a taxpayer has gain or loss from the sale or exchange of any applicable commodity which, without regard to this section, would be treated as long-term capital gain or loss, such gain or loss shall, notwithstanding any other provision of this title, be treated as short-term capital gain or loss.

“(b) APPLICABLE COMMODITY.—For purposes of this section—

“(1) IN GENERAL.—The term ‘applicable commodity’ means—

“(A) oil or natural gas (or any primary product of oil or natural gas) which is actively traded (within the meaning of section 1092(d)(1)),

“(B) a specified index (within the meaning of section 1221(b)(1)(B)(ii)) a substantial portion of which is, as of the date the taxpayer acquires its position with respect to such specified index, based on 1 or more commodities described in subparagraph (A),

“(C) any notional principal contract with respect to any commodity described in subparagraph (A) or (B), and

“(D) any evidence of an interest in, or a derivative instrument in, any commodity described in subparagraph (A), (B), or (C), including any option, forward contract, futures contract, short position, and any similar instrument in such a commodity.

“(2) EXCEPTION FOR CERTAIN SECTION 1256 CONTRACTS.—Such term shall not include a section 1256 contract (as defined in section 1256(b)) which is required to be marked to market under section 1256(a).

“(c) SPECIAL RULE FOR CERTAIN PARTNERSHIP INTERESTS.—For purposes of this section, if a taxpayer recognizes gain or loss on the sale or exchange of any interest in a partnership, the portion of such gain or loss which is attributable to unrecognized gain or loss with respect to 1 or more applicable commodities shall be treated as short-term capital gain or loss. The preceding sentence shall not apply if the taxpayer is otherwise required to treat such portion of gain or loss as ordinary income or loss.

“(d) APPLICATION.—This section shall apply to any applicable commodity acquired after August 31, 2009, and before January 1, 2014.”.

(2) CONFORMING AMENDMENTS.—

(A) Section 1222 of such Code is amended by striking the last sentence thereof.

(B) The table of sections for part IV of subchapter P of chapter 1 of such Code is amended by adding at the end the following new item:

“Sec. 1261. Capital gain or loss from sale or exchange of oil or natural gas and related commodities treated as short-term capital gain or loss.”.

(b) APPLICATION TO SECTION 1256 CONTRACTS.—

(1) IN GENERAL.—Section 1256(f) of the Internal Revenue Code of 1986 (relating to special rules) is amended by adding at the end the following new paragraph:

“(6) SPECIAL RULES FOR CERTAIN COMMODITY CONTRACTS.—

“(A) ALL GAIN OR LOSS FROM COMMODITY CONTRACTS TREATED AS SHORT-TERM GAIN OR LOSS.—In the case of a section 1256 contract which is an applicable commodity, subsection (a)(3) shall be applied to any gain or loss with respect to such contract—

“(i) by substituting ‘100 percent’ for ‘40 percent’ in subparagraph (A) thereof, and

“(ii) without regard to subparagraph (B) thereof.

“(B) TREATMENT OF MIXED STRADDLES.—A taxpayer may not make an election under subsection (d), or an election under the regulations prescribed pursuant to section 1092(b)(2), with respect to any mixed straddle if any position forming a part of such straddle is a section 1256 contract which is an applicable commodity. For purposes of this subparagraph, if any section 1256 contract which is part of a straddle is an applicable commodity, any other section 1256 contract which is part of such straddle shall be treated as an applicable commodity.

“(C) APPLICABLE COMMODITY.—For purposes of this paragraph, the term ‘applicable commodity’ has the meaning given such term by section 1261(b), except that such section shall be applied without regard to paragraph (2) thereof.

“(D) APPLICATION.—This paragraph shall apply to any applicable commodity acquired after August 31, 2009, and before January 1, 2014.”.

(2) SPECIAL RULE FOR LOSS CARRYBACKS.—Section 1212(c) of such Code (relating to carryback of losses from section 1256 contracts to offset prior gains from such contracts) is amended by redesignating para-

graph (7) as paragraph (8) and by inserting after paragraph (6) the following new paragraph:

“(7) SPECIAL RULE FOR LOSSES ALL OF WHICH ARE TREATED AS SHORT-TERM.—If any portion of the net section 1256 contracts loss for any taxable year is attributable to a net loss from contracts to which section 1256(f)(6) applies—

“(A) this subsection shall be applied first to such portion of such net section 1256 contracts loss and then to the remainder of such loss, and

“(B) in applying this subsection to such portion—

“(i) notwithstanding paragraph (1)(B), all of the loss attributable to such portion and allowed as a carryback shall be treated as a short-term capital loss, and

“(ii) notwithstanding paragraph (6)(A), all of the loss attributable to such portion and allowed as a carryback shall be treated for purposes of applying paragraph (6) as a short-term capital gain for the loss year.”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to applicable commodities acquired after August 31, 2009, in taxable years ending after such date.

SEC. 3. GAINS AND LOSSES FROM OIL AND NATURAL GAS AND RELATED COMMODITIES TREATED AS UNRELATED BUSINESS TAXABLE INCOME.

(a) IN GENERAL.—Section 512(b) of the Internal Revenue Code of 1986 (relating to modifications to unrelated business taxable income) is amended by adding at the end the following new paragraph:

“(20) TREATMENT OF GAINS OR LOSSES FROM COMMODITIES.—

“(A) IN GENERAL.—Notwithstanding paragraph (5) or any other provision of this part—

“(i) income, gain, or loss of an organization with respect to any applicable commodity shall not be excluded but shall be taken into account as income, gain, or loss from an unrelated trade or business, and

“(ii) all deductions directly connected with such income or gain shall be allowed.

“(B) EXCEPTION FOR ORDINARY INCOME AND LOSSES.—Subparagraph (A) shall not apply to any income, gain, or loss of an organization which, if not excluded under this title and without regard to subparagraph (A), would be treated as ordinary income or loss.

“(C) LOOK-THRU IN THE CASE OF FOREIGN CORPORATIONS.—

“(i) IN GENERAL.—If an organization owns directly or indirectly stock in a foreign corporation, the organization’s pro rata share of any income, gain, or loss of such corporation (and any deductions directly connected with such income or gain) with respect to 1 or more applicable commodities shall be taken into account under subparagraph (A) in the same manner as if such commodities were held directly by the organization. Any such item shall be taken into account for the taxable year of the organization in which the item arises without regard to whether there was an actual distribution to the organization with respect to the item. For purposes of this clause, the rule under section 1261(c) shall apply in determining the income, gain, or loss of the foreign corporation with respect to applicable commodities.

“(ii) SALE OF INTERESTS IN CORPORATION.—If a taxpayer recognizes gain or loss on the sale or exchange of any share of stock in a foreign corporation, the portion of such gain or loss which is attributable to unrecognized gain or loss with respect to 1 or more applicable commodities shall be taken into account under subparagraph (A) in the same

manner as if such commodities were sold or exchanged directly by the organization.

“(iii) NO DOUBLE COUNTING.—The Secretary shall prescribe such rules as are necessary to ensure that any item of income, gain, loss, or deduction described in clause (i) or (ii) is taken into account only once for purposes of this paragraph.

“(D) APPLICABLE COMMODITY.—For purposes of this paragraph, the term ‘applicable commodity’ has the meaning given such term by section 1261(b), except that such section shall be applied without regard to paragraph (2) thereof.

“(E) REGULATIONS.—The Secretary shall prescribe such regulations as are necessary to carry out the provisions of this paragraph, including regulations—

“(i) to prevent the avoidance of the purposes of this paragraph through the use of pass-thru entities or tiered structures, and

“(ii) to provide that this paragraph shall not apply to ownership interests of organizations in foreign corporations in cases where the income or gain of the foreign corporation from any applicable commodity is otherwise subject to tax imposed by this chapter.

“(F) APPLICATION.—This paragraph shall apply to any applicable commodity acquired after August 31, 2009, and before January 1, 2014.”.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to applicable commodities acquired after August 31, 2009, in taxable years ending after such date.

SEC. 4. STUDY OF TAX TREATMENT OF COMMODITIES AND SECTION 1256 CONTRACTS.

(a) STUDY.—The Secretary of the Treasury, or the Secretary’s delegate, shall conduct a study of the Federal income tax treatment of section 1256 contracts under section 1256 of the Internal Revenue Code of 1986 and of applicable commodities under sections 1261, 1256(f)(6), and 512(b)(20) of such Code. Such study shall include an analysis of—

(1) the average annual number of sales or exchanges of such contracts and commodities, including the number of sales and exchanges involving organizations exempt from Federal income taxation under such Code,

(2) whether the amendments made by this Act have had any effect on the number or type of such sales and exchanges,

(3) the effect of tax policy on the operation of the commodities exchanges and on the demand for, and price of, commodities, particularly with respect to oil and natural gas, and

(4) such other matters with respect to such tax treatment as the Secretary determines appropriate.

(b) REPORT.—The Secretary shall, not later than January 1, 2012, report the results of the study conducted under subsection (a) to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives, together with such legislative recommendations as the Secretary determines appropriate with respect to the Federal income tax treatment of section 1256 contracts and applicable commodities.

By Ms. CANTWELL (for herself and Mr. GRASSLEY):

S. 1589. A bill to amend the Internal Revenue Code of 1986 to modify the incentives for the production of biodiesel; to the Committee on Finance.

Ms. CANTWELL. Mr. President, I am pleased to join with my colleague, Senator GRASSLEY, and introduce an im-

portant piece of legislation that will modernize the tax incentive for domestic biodiesel production. The Biodiesel Tax Incentive Reform and Extension Act of 2009 will provide predictability to investors, to producers, and to researchers so we can move forward and continue to displace imported fossil fuels with low carbon, renewable biodiesel that is produced here in the United States.

Last year, we all saw the devastating effects that \$140 per barrel oil had on our economy and our constituents. For economic reasons, national security reasons, and environmental reasons, we cannot allow ourselves to remain dependent on foreign oil. We have to redouble our efforts to deploy alternative fuels that can be produced in the United States and that can help us address the growing crisis of climate change.

Biodiesel is a diesel replacement fuel that is produced from vegetable oils, animal fats and waste oils. It is refined to meet a commercial fuel specification that is readily accepted in the marketplace. Typically biodiesel is blended with conventional diesel fuel, and it is not necessary to modify a vehicle’s engine to use the fuel.

There are compelling public policy benefits associated with the production and use of biodiesel. It is an extremely efficient fuel that can be produced domestically so we do not have to rely on imported fuel. Biodiesel creates 3.2 units of energy for every unit of fuel that is required to produce the fuel and the 690 million gallons of biodiesel produced in the U.S. in 2008 displaced 38.1 million barrels of petroleum.

Replacing fossil fuel use with biodiesel also can play a constructive role in addressing the issue of climate change. When compared to conventional diesel fuel, pure biodiesel reduces direct carbon lifecycle emissions by 78 percent, which in 2008 was the equivalent of removing 980,000 passenger vehicles from the road.

Congress first enacted a tax incentive for biodiesel in 2004 and since that time, this tax credit has helped encourage the production and use of this alternative fuel. U.S. production of biodiesel increased from 25 million gallons in 2004 to 690 million gallons last year, and the industry has built the commercial scale production capacity. There currently are 176 plants in operation with the capacity to produce more than 2.61 billion gallons of biodiesel.

The 39 new plants that are either under construction or being expanded would add nearly 849.9 million gallons of production capacity. We have to be sure these plans for expansion go forward. Unfortunately, limited access to capital, uncertainty surrounding the Federal commitment to biodiesel, and the current state of the economy threaten to undermine the progress the U.S. biodiesel industry has made to

build the production capacity and infrastructure needed to aggressively displace petroleum diesel fuel with renewable, low-carbon biodiesel. Right now, less than one-third of the industry’s facilities are currently producing fuel.

The 51,893 jobs that are currently supported by the U.S. biodiesel industry show there is real job growth potential in this industry. Much of that job growth and economic activity will happen in our rural communities who continue to be hard hit right now.

The current law tax credit will expire at the end of this year and Congress must act or we will threaten the future of this promising domestic industry. The National Biodiesel Board estimates that if Congress does not provide some predictability to the industry, U.S. production will likely fall from 690 million gallons in 2008 to 300–350 million gallons in 2009. This could cost the U.S. economy more than 29,000 jobs. These are not jobs we can afford to lose.

In addition to the looming expiration, the current structure of the tax credit has administrative problems and is subject to abuse that makes it difficult to ensure that that only qualified fuel benefits from the incentive. We owe it to taxpayers to make sure that we are getting the results we want from the tax incentives we enact so in addition to extending the tax credit we need to make the structural changes that Sen. GRASSLEY and I are proposing today.

The centerpiece of the bill is changing the incentive from a blender credit to a production tax credit so that we focus the benefits of the incentive on building the domestic production industry. Under current law, the credit was targeted at the blending of biodiesel with petroleum diesel. While this was helpful in getting us to the point we are now, it is time we move even farther in the direction of promoting the production of petroleum fuel alternatives.

In addition, the legislation we are introducing today will simplify administration of the incentive for both taxpayers and the Internal Revenue Service, IRS, and will eliminate any remaining opportunity for abuse of the tax credit through schemes like “splash and dash” in which oil companies add a few drops of biodiesel to their petroleum diesel just to qualify for the tax credits.

Under our bill, the \$1 per gallon tax credit will be provided for the production of biodiesel, renewable diesel and aviation jet fuel that complies with established fuel standards and Clean Air Act requirements.

For small producers, those with an annual production capacity of less than 60 million gallons, we increase the \$1 to \$1.10 for the first 15 million gallons of biodiesel produced.

We simplify the definition of biodiesel so that we encourage production

from any biomass-based feedstock or recycled oils and fats. Hopefully this will unleash even more research and commercialization of alternative fuel sources.

The bill also simplifies the coordination between the income tax credit and the excise tax liability to, again, tighten up compliance and reduce administrative burdens on taxpayers. Most importantly, our bill would extend this tax credit for 5 years, giving needed financial predictability to the industry.

I thank Senator GRASSLEY for joining with me on this bill and look forward to working with our colleagues on the Finance Committee to adopt this worthwhile, commonsense proposal that is consistent with sound energy and sound tax policy.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1589

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Biodiesel Tax Incentive Reform and Extension Act of 2009".

SEC. 2. REFORM OF BIODIESEL INCOME TAX INCENTIVES.

(a) IN GENERAL.—Section 40A of the Internal Revenue Code of 1986 is amended to read as follows:

"SEC. 40A. BIODIESEL PRODUCTION.

"(a) IN GENERAL.—For purposes of section 38, the biodiesel fuels credit determined under this section for the taxable year is \$1.00 for each gallon of biodiesel produced by the taxpayer which during the taxable year—

"(1) is sold by such producer to another person—

"(A) for use by such other person's trade or business (other than casual off-farm production),

"(B) for use by such other person as a fuel in a trade or business, or

"(C) who sells such biodiesel at retail to another person and places such biodiesel in the fuel tank of such other person, or

"(2) is used or sold by such producer for any purpose described in paragraph (1).

"(b) INCREASED CREDIT FOR SMALL PRODUCERS.—

"(1) IN GENERAL.—In the case of any eligible small biodiesel producer, subsection (a) shall be applied by increasing the dollar amount contained therein by 10 cents.

"(2) LIMITATION.—Paragraph (1) shall only apply with respect to the first 15,000,000 gallons of biodiesel produced by any eligible small biodiesel producer during any taxable year.

"(c) COORDINATION WITH CREDIT AGAINST EXCISE TAX.—The amount of the credit determined under this section with respect to any biodiesel shall be reduced to take into account any benefit provided with respect to such biodiesel solely by reason of the application of section 6426 or 6427(e).

"(d) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) BIODIESEL.—The term 'biodiesel' means liquid fuel derived from biomass which meets—

"(A) the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545), and

"(B) the requirements of the American Society of Testing and Materials D6751.

Such term shall not include any liquid with respect to which a credit may be determined under section 40.

"(2) BIODIESEL NOT USED FOR A QUALIFIED PURPOSE.—If—

"(A) any credit was determined with respect to any biodiesel under this section, and

"(B) any person does not use such biodiesel for the purpose described in subsection (a),

then there is hereby imposed on such person a tax equal to the product of the rate applicable under subsection (a) and the number of gallons of such biodiesel.

"(3) PASS-THRU IN THE CASE OF ESTATES AND TRUSTS.—Under regulations prescribed by the Secretary, rules similar to the rules of subsection (d) of section 52 shall apply.

"(4) LIMITATION TO BIODIESEL PRODUCED IN THE UNITED STATES.—No credit shall be determined under this section with respect to any biodiesel unless such biodiesel is produced in the United States from raw feedstock. For purposes of this paragraph, the term 'United States' includes any possession of the United States.

"(5) BIODIESEL TRANSFERS FROM AN IRS REGISTERED BIODIESEL PRODUCTION FACILITY TO AN IRS REGISTERED TERMINAL OR REFINERY.—The credit allowed under subsection (a) shall be allowed to the terminal or refinery referred to in section 4081(a)(1)(B)(i) in instances where section 4081(a)(1)(B)(iii) is applicable. The credit allowed under subsection (a) cannot be claimed by a terminal or refinery on fuel upon which the credit was previously claimed by a biodiesel producer.

"(e) DEFINITIONS AND SPECIAL RULES FOR SMALL BIODIESEL PRODUCERS.—

"(1) ELIGIBLE SMALL BIODIESEL PRODUCER.—The term 'eligible small biodiesel producer' means a person who at all times during the taxable year has a productive capacity for biodiesel not in excess of 60,000,000 gallons.

"(2) AGGREGATION RULE.—For purposes of the 15,000,000 gallon limitation under subsection (b)(2) and the 60,000,000 gallon limitation under paragraph (1), all members of the same controlled group of corporations (within the meaning of section 267(f)) and all persons under common control (within the meaning of section 52(b) but determined by treating an interest of more than 50 percent as a controlling interest) shall be treated as 1 person.

"(3) PARTNERSHIP, S CORPORATION, AND OTHER PASS-THRU ENTITIES.—In the case of a partnership, trust, S corporation, or other pass-thru entity, the limitations contained in subsection (b)(2) and paragraph (1) shall be applied at the entity level and at the partner or similar level.

"(4) ALLOCATION.—For purposes of this subsection, in the case of a facility in which more than 1 person has an interest, productive capacity shall be allocated among such persons in such manner as the Secretary may prescribe.

"(5) REGULATIONS.—The Secretary may prescribe such regulations as may be necessary—

"(A) to prevent the credit provided for in subsection (b) from directly or indirectly benefitting any person with a direct or indirect productive capacity of more than 60,000,000 gallons of biodiesel during the taxable year, or

"(B) to prevent any person from directly or indirectly benefitting with respect to more than 15,000,000 gallons during the taxable year.

"(6) ALLOCATION OF SMALL BIODIESEL CREDIT TO PATRONS OF COOPERATIVE.—

"(A) ELECTION TO ALLOCATE.—

"(i) IN GENERAL.—In the case of a cooperative organization described in section 1381(a), any portion of the increase determined under subsection (b) for the taxable year may, at the election of the organization, be apportioned pro rata among patrons of the organization on the basis of the quantity or value of business done with or for such patrons for the taxable year.

"(ii) FORM AND EFFECT OF ELECTION.—An election under clause (i) for any taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year. Such election shall not take effect unless the organization designates the apportionment as such in a written notice mailed to its patrons during the payment period described in section 1382(d).

"(B) TREATMENT OF ORGANIZATIONS AND PATRONS.—

"(i) ORGANIZATIONS.—The amount of the credit not apportioned to patrons pursuant to subparagraph (A) shall be included in the amount determined under subsection (b) for the taxable year of the organization.

"(ii) PATRONS.—The amount of the credit apportioned to patrons pursuant to subparagraph (A) shall be included in the amount determined under such subsection for the first taxable year of each patron ending on or after the last day of the payment period (as defined in section 1382(d)) for the taxable year of the organization or, if earlier, for the taxable year of each patron ending on or after the date on which the patron receives notice from the cooperative of the apportionment.

"(iii) SPECIAL RULES FOR DECREASE IN CREDITS FOR TAXABLE YEAR.—If the amount of the credit of the organization determined under such subsection for a taxable year is less than the amount of such credit shown on the return of the organization for such year, an amount equal to the excess of—

"(I) such reduction, over

"(II) the amount not apportioned to such patrons under subparagraph (A) for the taxable year, shall be treated as an increase in tax imposed by this chapter on the organization.

Such increase shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit under this chapter or for purposes of section 55.

"(f) RENEWABLE DIESEL.—For purposes of this title—

"(1) TREATMENT IN THE SAME MANNER AS BIODIESEL.—Renewable diesel shall be treated in the same manner as biodiesel.

"(2) RENEWABLE DIESEL DEFINED.—The term 'renewable diesel' means liquid fuel derived from biomass which meets—

"(A) the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545), and

"(B) the requirements of the American Society of Testing and Materials D975 or D396, or other equivalent standard approved by the Secretary.

Such term shall not include any liquid with respect to which a credit may be determined under section 40. Such term does not include any fuel derived from coprocessing biomass with a feedstock which is not biomass. For

purposes of this paragraph, the term ‘biomass’ has the meaning given such term by section 45K(c)(3).

“(3) CERTAIN AVIATION FUEL.—Except as provided in the last 3 sentences of paragraph (2), the term ‘renewable diesel’ shall include fuel derived from biomass which meets the requirements of a Department of Defense specification for military jet fuel or an American Society of Testing and Materials specification for aviation turbine fuel.

“(g) TERMINATION.—This section shall not apply to any sale or use after December 31, 2014.”.

(b) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1 of such Code is amended by striking the item relating to section 40A and inserting the following new item:

“Sec. 40A. Biodiesel production.”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to biodiesel sold or used after December 31, 2009.

SEC. 3. REFORM OF BIODIESEL EXCISE TAX INCENTIVES.

(a) IN GENERAL.—Subsection (c) of section 6426 of the Internal Revenue Code of 1986 is amended to read as follows:

“(c) BIODIESEL CREDIT.—

“(1) IN GENERAL.—For purposes of this section, the biodiesel credit is \$1.00 for each gallon of biodiesel produced by the taxpayer and which—

“(A) is sold by such producer to another person—

“(i) for use by such other person’s trade or business (other than casual off-farm production),

“(ii) for use by such other person as a fuel in a trade or business, or

“(iii) who sells such biodiesel at retail to another person and places such biodiesel in the fuel tank of such other person, or

“(B) is used or sold by such producer for any purpose described in subparagraph (A).

“(2) DEFINITIONS.—Any term used in this subsection which is also used in section 40A shall have the meaning given such term by section 40A.

“(3) BIODIESEL TRANSFERS FROM AN IRS REGISTERED BIODIESEL PRODUCTION FACILITY TO AN IRS REGISTERED TERMINAL.—The credit allowed under this subsection can be claimed by a registered terminal or refinery in instances where section 4081(a)(1)(B)(iii) is applicable. The credit allowed under this subsection cannot be claimed by a terminal or refinery on fuel upon which the credit was previously claimed by a biodiesel producer.

“(4) TERMINATION.—This subsection shall not apply to any sale, use, or removal for any period after December 31, 2014.”.

(b) PAYMENT OF CREDIT.—Subsection (e) of section 6427 of such Code is amended—

(1) by striking “or the biodiesel mixture credit” in paragraph (1),

(2) by redesignating paragraphs (3) through (6) as paragraphs (4) through (7), respectively, and by inserting after paragraph (2) the following new paragraph:

“(3) BIODIESEL CREDIT.—If any person produces biodiesel and sells or uses such biodiesel as provided in section 6426(c), the Secretary shall pay (without interest) to such person an amount equal to the biodiesel credit with respect to such biodiesel.”.

(3) by striking “paragraph (1) or (2)” each place it appears in paragraphs (4) and (6), as redesignated by paragraph (2), and inserting “paragraph (1), (2), or (3)”.

(4) by striking “alternative fuel” each place it appears in paragraphs (4) and (6), as redesignated by paragraph (2), and inserting “fuel”, and

(5) by striking “biodiesel mixture (as defined in section 6426(c)(3))” in paragraph (7)(B), as so redesignated, and inserting “biodiesel (within the meaning of section 40A)”.

(c) EXEMPTION FOR BIODIESEL TRANSFERRED FROM A REGISTERED PRODUCER TO A REGISTERED TERMINAL.—Subparagraph (B) of section 4081(a)(1) of such Code is amended—

(1) by striking “clause (ii)” in clause (i) and inserting “clauses (ii) and (iii)”, and

(2) by adding at the end the following new clause:

“(iii) EXEMPTIONS FOR BIODIESEL TRANSFERRED FROM A REGISTERED PRODUCER TO A REGISTERED TERMINAL.—The tax imposed by this paragraph shall not apply to any removal or entry of biodiesel (as defined in section 40A(d)(1)) transferred in bulk (without regard to the manner of such transfer) to a terminal or refinery if—

“(I) such biodiesel was produced by a person who is registered under section 4101 as a producer of biodiesel and who provides reporting under the ExStars fuel reporting system of the Internal Revenue Service, and

“(II) the operator of such terminal or refinery is registered under section 4101.”.

(d) PRODUCER REGISTRATION REQUIREMENT.—Subsection (a) of section 6426 of such Code is amended by striking “subsections (d) and (e)” in the flush sentence at the end and inserting “subsections (c), (d), and (e)”.

(e) RECAPTURE.—Subsection (f) of section 6426 of such Code is amended to read as follows:

“(f) RECAPTURE.—

“(1) ALCOHOL FUEL MIXTURES.—If—

“(A) any credit was determined under this section with respect to alcohol used in the production of any alcohol fuel mixture, and

“(B) any person—

“(i) separates the alcohol from the mixture, or

“(ii) without separation, uses the mixture other than as a fuel,

then there is hereby imposed on such person a tax equal to the product of the applicable amount and the number of gallons of such alcohol.

“(2) BIODIESEL.—If any credit was determined under this section with respect to the production of any biodiesel and any person does not use such biodiesel for a purpose described in subsection (c)(1), then there is hereby imposed on such person a tax equal to \$1 for each gallon of such biodiesel.

“(3) APPLICABLE LAWS.—All provisions of law, including penalties, shall, insofar as applicable and not inconsistent with this section, apply in respect of any tax imposed under paragraph (1) or (2) as if such tax were imposed by section 4081 and not by this section.”.

(f) CLERICAL AMENDMENT.—The heading of section 6426 of such Code (and the item relating to such section in the table of sections for subchapter B of chapter 65 of such Code) is amended by striking “alcohol fuel, biodiesel, and alternative fuel mixtures” and inserting “alcohol fuel mixtures, biodiesel production, and alternative fuel mixtures”.

(g) EFFECTIVE DATE.—The amendments made by this section shall apply to biodiesel sold or used after December 31, 2009.

SEC. 4. BIODIESEL TREATED AS TAXABLE FUEL.

(a) BIODIESEL TREATED AS TAXABLE FUEL.—Clause (1) of section 4083(a)(3)(A) of such Code is amended by inserting “, including biodiesel (as defined in section 6426(c)(3)),” after “(other than gasoline)”.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to biodiesel removed, entered, or sold after the date which is 6 months after the date of the enactment of this Act.

By Mrs. MURRAY (for herself and Mr. DURBIN):

S. 1591. A bill to amend the Foreign Assistance Act of 1961, to establish the Health Technology Program in the United States Agency for International Development to research and develop technologies to improve global health, and for other purposes; to the Committee on Foreign Relations.

Mrs. MURRAY. Mr. President, for a child in a developing country, very simple tools, like safe injection technologies for vaccination, can mean the difference between life and death. But the fact is that many countries are simply unable to afford such critical health technologies. Research has given us many promising early-stage technologies that could make a difference, but tragically, in many cases the promise of such technologies goes unrealized.

I know that it is sometimes tempting to think of global health as a distant goal, far removed from the lives of everyday Americans. But, as the emergence of new pandemic threats such as H1N1 flu reminds us, global health is public health—and it affects Americans right here at home. It is impossible to pick up a paper today, watch TV, or use the internet without realizing that we are more connected than ever before to people around the world.

As I speak with scientists and leaders in my State, they are excited about finding new ways to tackle tough global health problems. I hear the same enthusiasm when I speak with young people who are passionate about helping others. Of course, this growing support for global health can be seen not only in my home state, but throughout our country, in our universities and in community organizations. I know that many of my colleagues in the Senate are dedicated, tireless advocates for global health. Last year, the Congress demonstrated its strong commitment by reauthorizing the President’s Emergency Plan for AIDS Relief, PEPFAR, a huge victory for global health and a strong foundation for future efforts.

In May, President Obama announced a new, comprehensive global health strategy, renewing the longstanding U.S. commitment to global health and building on the successes of programs begun during the Bush administration like PEPFAR and the President’s Malaria Initiative, programs that have saved countless lives. President Obama has called for us to continue these efforts and to focus on improving the health of mothers and children and strengthening health systems in developing countries.

Developing countries urgently need technologies that will work for their health care systems, technologies that are easy-to-use, culturally appropriate, and above all affordable.

Today I am introducing the 21st Century Global Health Technology Act to

support these goals by applying our country's traditional strengths in research, innovation, and entrepreneurship to global health. My bill will encourage the development of appropriate global health technologies by authorizing efforts at the US Agency for International Development, USAID, to make sure that promising health technologies are not left to sit on the shelf, but instead are developed and delivered to those in need.

Developing global health technologies is not easy or glamorous and the financial incentives for business are few. But for many years, the USAID has supported global health technology development through an innovative model that encourages the public, non-profit, and private sectors to work together.

I urge my colleagues to support this bill because the USAID has a long and inspiring track record of success in technology development. For example, the USAID's HealthTech program meets a wide range of needs from developing tools to rapidly diagnose infectious diseases to designing safe delivery kits that keep mothers and newborns healthy. Working with non-profit and commercial-sector partners, HealthTech has investigated over 100 technologies, licensed or transferred 21 life-saving technologies designed for use in low-resource settings, and moved 10 technologies into global use.

The HealthTech program helps the USAID leverage Federal money to encourage the private sector to become involved in the fight to improve global health. In an average year, HealthTech matches the USAID's funding with cash and in-kind contributions from the private sector. The average ratio of private sector investment to USAID funding in HealthTech-developed technologies that have reached commercialization is about 9 to 1. It's a win-win model that increases the number of affordable global health technologies and provides new opportunities for U.S. companies.

Technology development at the USAID is a smart investment. However, the agency's technology development efforts currently are not authorized, so funding is often uncertain. That uncertainty prevents the USAID from pursuing many promising technologies. My bill will provide \$5 million per year over 5 years to support technology development at the USAID—a small, but steady source of funding that will bring greater stability to technology development efforts and encourage more private sector partners to get involved.

Investing in global health technology is the right thing for the U.S., for our companies, for our bright young people who are pursuing careers in global health, and for our security since our well-being is linked to our ability to prevent global pandemics and to reach

out to people around the world. But, most importantly, investing in global health and in affordable health technologies will save millions of lives. It is simply the right thing to do.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1591

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "21st Century Global Health Technology Act".

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) The United States has committed to the United Nations Millennium Development Goals of—

- (A) reducing child mortality;
- (B) improving maternal health; and
- (C) combating HIV/AIDS, malaria, and other diseases.

(2) The goals described in paragraph (1) cannot be reached without health technologies and devices to diagnose infectious diseases and reduce disease transmission.

(3) The development, advancement, and introduction of affordable and appropriate technologies are essential to efforts by the United States to reduce deaths among the world's most vulnerable populations, particularly children and women in the developing world.

(4) A recent report by the Institute of Medicine on the commitment of the United States to global health—

(A) recommends that United States institutions share existing knowledge to address prevalent health problems in low- and middle-income countries;

(B) recommends continued support for partnerships between the public and private sectors to develop and deliver health products in low- and middle-income countries; and

(C) urges the United States Government to continue its support for innovative research models to address unmet health needs in poor countries.

(5) Investments by the United States in affordable, appropriate health technologies, such as medical devices for maternal and child care, vaccine delivery tools, safe injection devices, diagnostic tests for infectious diseases, and innovative disease prevention strategies—

(A) reduce the risk of disease transmission; and

(B) accelerate access to life-saving global health interventions for the world's poor.

(6) Through a cooperative agreement, known as the Technologies for Health program (referred to in this section as "HealthTech"), USAID supports the development of technologies that—

(A) maximize the limited resources available for global health; and

(B) ensure that products and medicines developed for use in low-resource settings reach the people that need such products and medicines.

(7) The HealthTech cooperative agreement—

(A) facilitates public-private collaboration in the development of global health technologies;

(B) leverages public sector support for early stage research and development of

health technologies to encourage private sector investment in late-stage technology development and product introduction in developing countries;

(C) benefits the United States economy by investing in the growing United States global health technology sector, which—

(i) provides skilled jobs for American workers; and

(ii) enhances United States competitiveness in the increasingly technological and knowledge-based global economy; and

(D) enhances United States national security by—

(i) reducing the risk of pandemic disease; and

(ii) contributing to economic development and stability in developing countries.

SEC. 3. PURPOSE.

The purpose of this Act is to authorize a health technology development program that supports coordinated, long-term research and development of appropriate global health technologies—

(1) to improve global health;

(2) to reduce maternal and child mortality rates; and

(3) to reverse the incidence of HIV/AIDS, malaria, and other diseases.

SEC. 4. ESTABLISHMENT OF THE HEALTH TECHNOLOGY PROGRAM.

Section 107 the Foreign Assistance Act of 1961 (22 U.S.C. 2151e) is amended by adding at the end the following:

"(c) HEALTH TECHNOLOGY PROGRAM.—(1) There is established in the United States Agency for International Development (referred to in this section as 'USAID') the Health Technology Program, which shall—

"(A) coordinate and lead research and development efforts;

"(B) be funded by USAID on a competitive basis; and

"(C) serve as a national laboratory and technology development program for global health.

"(2) The Health Technology Program shall develop, advance, and introduce affordable, available, and appropriate technologies specifically designed—

"(A) to improve the health and nutrition of developing country populations;

"(B) to reduce maternal and child mortality; and

"(C) to improve the diagnosis, prevention and reduction of disease, especially HIV/AIDS, malaria, tuberculosis, and other major diseases.

"(3) The Health Technology Program shall be located at an institution with a successful record of—

"(A) advancing the technologies described in paragraph (2); and

"(B) integrating practical field experience into the research and development process in order to introduce the most appropriate technologies.

"(4) The Administrator of USAID, in collaboration with the Health Technology Program, shall submit an annual report to Congress and all relevant Federal agencies that describes—

"(A) the relevant activities of the Health Technology Program that are in the incubation phase;

"(B) the progress made on such activities and on other projects carried out through the Health Technology Program; and

"(C) the outlook for future health technology efforts evaluated by the Health Technology Program to have significant growth potential.

"(5) There are authorized to be appropriated \$5,000,000 for each of the fiscal years

2010 through 2014 to carry out the Health Technology Program under this subsection.”.

By Ms. SNOWE (for herself and Mr. CARDIN):

S. 1592. A bill to establish a Federal Board of Certification to enhance the transparency, credibility, and stability of financial markets, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Ms. SNOWE. Mr. President, I rise today to reintroduce legislation that will increase the trustworthiness of our Nation’s mortgage security market by creating the Federal Board of Certification for mortgage securities. I would like to thank Senator CARDIN for co-sponsoring this vital measure.

The necessity of enacting last fall’s Troubled Asset Relief Program, along with the collapse of Lehman Brothers, and the bailouts of American International Group, Fannie Mae, Freddie Mac, and Bear Stearns, combined with the huge losses suffered throughout the financial industry, demonstrates a catastrophic failure to accurately assess the dangers of imprudently made subprime mortgages to the American public and our financial markets. In hindsight, it appears that it was the inability to gauge risk in mortgage-backed securities that caused much of this financial turmoil. For markets to operate properly, it is imperative that they have effective metrics for calculating the level of risk securities pose to investors.

The secondary mortgage market has been a largely unregulated playground where poorly underwritten, low-quality loans were sold as high-quality investment products. Although mortgage-backed securities can be a positive market force, which increases the available pool of credit for borrowers, without an accurate picture of the risk involved in each mortgage security, buyers have no idea whether they are purchasing a high-risk investment or a safe, secure investment. The legislation that I am reintroducing today would work to curb the excesses of the secondary market, combat future attempts at deception, and protect investors by making scrutinized mortgage investments more reliable and trustworthy.

The inability of major corporations to properly assess the risk of the mortgage securities they were trading is a problem whose effects have not been confined to Wall Street. To put it simply: when big banks sneeze, the rest of America gets a cold. This year, more than \$1 trillion of the subprime mortgages originated during the housing boom will reset to higher interest rates.

In my home State of Maine, we are struggling with falling home prices and a record number of foreclosures. During the first half of 2009 alone, there were 1,696 filings in Maine, a number

putting the State on pace to surpass the 2,851 foreclosure filings registered in 2008. Moreover, some Maine borrowers, with rising monthly payments, are unable to refinance out of their predatory loans. Small business owners, many already hurt by the economic downturn, are also finding credit tight. Finally, despite gains in recent weeks, the poor economic climate caused by the subprime credit crunch has also roiled the stock market, causing Americans to lose billions in their IRAs and retirement funds.

We must address crisis and make sure it never happens again. Turning to specifics, my bill creates the Federal Board of Certification, which would certify that the mortgages within a security instrument meet the underlying standards they claim in regards to documentation, loan to value ratios, debt service to income ratios, and borrowers’ credit standards. The purpose of the certification process is to increase the transparency, predictability, and reliability of securitized mortgage products. Certification would aid in creating settled investor expectations and increase transparency by ensuring that the mortgages within a mortgage security conform to the claims made by the mortgage product’s sellers.

The proposed Federal Board of Certification would not override any current regulations and would not in any way stifle any attempts by private business to rate mortgage securities. This legislation would, however, create incentives for improving industry rating practices. Open publication of the Board’s certification criteria would augment the efforts of private ratings agencies by providing incentives for increased transparency in the ratings process. The Board’s certification would also serve as a check on the industry to ensure that ratings agencies carefully scrutinize the content of mortgage products before issuing evaluations of mortgage backed securities.

Significantly, the Federal Board of Certification would also be voluntary and funded by an excise tax. Users could choose to pay the costs for the Board to rate their security, or they could elect not to submit their product to the Board.

We must quickly restore confidence in mortgage securities if we are to stabilize our housing markets. To do so, we must certify the quality and content of our mortgage securities to enable housing markets to generate liquidity and spur lending. This is why it is urgent to create the Federal Board of Certification for mortgage securities. This legislation would create a “good housekeeping seal of approval” for the mortgage security industry and certify that the mortgage products are in fact what they claim to be. Accordingly, I call on Congress to take up and pass this commonsense legislation as expeditiously as possible, particularly

as part of a comprehensive overhaul of our financial markets that Congress must consider in short order to ensure that the calamitous events of the past year are never again repeated.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1592

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Federal Board of Certification Act of 2009”.

SEC. 2. PURPOSE.

It is the purpose of this Act to establish a Federal Board of Certification, which shall certify that the mortgages within a security instrument meet the underlying standards they claim to meet with regards to mortgage characteristics including but not limited to: documentation, loan to value ratios, debt service to income ratios, and borrower credit standards and geographic concentration. The purpose of this certification process is to increase the transparency, predictability and reliability of securitized mortgage products.

SEC. 3. DEFINITIONS.

As used in this Act—

(1) the term “Board” means the Federal Board of Certification established under this Act;

(2) the term “mortgage security” means an investment instrument that represents ownership of an undivided interest in a group of mortgages;

(3) the term “insured depository institution” has the same meaning as in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1803); and

(4) the term “Federal financial institutions regulatory agency” has the same meaning as in section 1003 of the Federal Financial Institutions Examination Council Act of 1978 (12 U.S.C. 3302).

SEC. 4. VOLUNTARY PARTICIPATION.

Market participants, including firms that package mortgage loans into mortgage securities, may elect to have their mortgage securities evaluated by the Board.

SEC. 5. STANDARDS.

The Board is authorized to promulgate regulations establishing enumerated security standards which the Board shall use to certify mortgage securities. The Board shall promulgate standards which shall certify that the mortgages within a security instrument meet the underlying standards they claim to meet with regards to documentation, loan to value ratios, debt service to income ratios and borrower credit standards. The standards should protect settled investor expectations, and increase the transparency, predictability and reliability of securitized mortgage products.

SEC. 6. COMPOSITION.

(a) ESTABLISHMENT; COMPOSITION.—There is established the Federal Board of Certification, which shall consist of—

(1) the Comptroller of the Currency;

(2) the Secretary of Housing and Urban Development;

(3) a Governor of the Board of Governors of the Federal Reserve System designated by the Chairman of the Board;

(4) the Undersecretary of the Treasury for Domestic Finance; and

(5) the Chairman of the Securities and Exchange Commission.

(b) **CHAIRPERSON.**—The members of the Board shall select the first chairperson of the Board. Thereafter the position of chairperson shall rotate among the members of the Board.

(c) **TERM OF OFFICE.**—The term of each chairperson of the Board shall be 2 years.

(d) **DESIGNATION OF OFFICERS AND EMPLOYEES.**—The members of the Board may, from time to time, designate other officers or employees of their respective agencies to carry out their duties on the Board.

(e) **COMPENSATION AND EXPENSES.**—Each member of the Board shall serve without additional compensation, but shall be entitled to reasonable expenses incurred in carrying out official duties as such a member.

SEC. 7. EXPENSES.

The costs and expenses of the Board, including the salaries of its employees, shall be paid for by excise fees collected from applicants for security certification from the Board, according to fee scales set by the Board.

SEC. 8. BOARD RESPONSIBILITIES.

(a) **ESTABLISHMENT OF PRINCIPLES AND STANDARDS.**—The Board shall establish, by rule, uniform principles and standards and report forms for the regular examination of mortgage securities.

(b) **DEVELOPMENT OF UNIFORM REPORTING SYSTEM.**—The Board shall develop uniform reporting systems for use by the Board in ascertaining mortgage security risk. The Board shall assess, and publicly publish, how it evaluates and certifies the composition of mortgage securities.

(c) **AFFECT ON FEDERAL REGULATORY AGENCY RESEARCH AND DEVELOPMENT OF NEW FINANCIAL INSTITUTIONS SUPERVISORY AGENCIES.**—Nothing in this Act shall be construed to limit or discourage Federal regulatory agency research and development of new financial institutions supervisory methods and tools, nor to preclude the field testing of any innovation devised by any Federal regulatory agency.

(d) **ANNUAL REPORT.**—Not later than April 1 of each year, the Board shall prepare and submit to Congress an annual report covering its activities during the preceding year.

(e) **REPORTING SCHEDULE.**—The Board shall determine whether it wants to evaluate mortgage securities at issuance, on a regular basis, or upon request.

SEC. 9. BOARD AUTHORITY.

(a) **AUTHORITY OF CHAIRPERSON.**—The chairperson of the Board is authorized to carry out and to delegate the authority to carry out the internal administration of the Board, including the appointment and supervision of employees and the distribution of business among members, employees, and administrative units.

(b) **USE OF PERSONNEL, SERVICES, AND FACILITIES OF FEDERAL FINANCIAL INSTITUTIONS REGULATORY AGENCIES, AND FEDERAL RESERVE BANKS.**—In addition to any other authority conferred upon it by this Act, in carrying out its functions under this Act, the Board may utilize, with their consent and to the extent practical, the personnel, services, and facilities of the Federal financial institutions regulatory agencies, and Federal Reserve banks, with or without reimbursement therefor.

(c) **COMPENSATION, AUTHORITY, AND DUTIES OF OFFICERS AND EMPLOYEES; EXPERTS AND CONSULTANTS.**—The Board may—

(1) subject to the provisions of title 5, United States Code, relating to the competi-

tive service, classification, and General Schedule pay rates, appoint and fix the compensation of such officers and employees as are necessary to carry out the provisions of this Act, and to prescribe the authority and duties of such officers and employees; and

(2) obtain the services of such experts and consultants as are necessary to carry out this Act.

SEC. 10. BOARD ACCESS TO INFORMATION.

For the purpose of carrying out this Act, the Board shall have access to all books, accounts, records, reports, files, memorandums, papers, things, and property belonging to or in use by Federal financial institutions regulatory agencies, including reports of examination of financial institutions, their holding companies, or mortgage lending entities from whatever source, together with work papers and correspondence files related to such reports, whether or not a part of the report, and all without any deletions.

SEC. 11. REGULATORY REVIEW.

(a) **IN GENERAL.**—Not less frequently than once every 10 years, the Board shall conduct a review of all regulations prescribed by the Board, in order to identify outdated or otherwise unnecessary regulatory requirements imposed on insured depository institutions.

(b) **PROCESS.**—In conducting the review under subsection (a), the Board shall—

(1) categorize the regulations described in subsection (a) by type; and

(2) at regular intervals, provide notice and solicit public comment on a particular category or categories of regulations, requesting commentators to identify areas of the regulations that are outdated, unnecessary, or unduly burdensome.

(c) **COMPLETE REVIEW.**—The Board shall ensure that the notice and comment period described in subsection (b)(2) is conducted with respect to all regulations described in subsection (a), not less frequently than once every 10 years.

(d) **REGULATORY RESPONSE.**—The Board shall—

(1) publish in the Federal Register a summary of the comments received under this section, identifying significant issues raised and providing comment on such issues; and

(2) eliminate unnecessary regulations to the extent that such action is appropriate.

(e) **REPORT TO CONGRESS.**—Not later than 30 days after carrying out subsection (d)(1) of this section, the Board shall submit to the Congress a report, which shall include a summary of any significant issues raised by public comments received by the Board under this section and the relative merits of such issues.

SEC. 12. LIABILITY.

Any publication, transmission, or webpage containing an advertisement for or invitation to buy a mortgage security shall include the following notice, in conspicuous type: "Certification by the Federal Board of Certification can in no way be considered a guarantee of the mortgage security. Certification is merely a judgment by the Federal Board of Certification of the degree of risk offered by the security in question. The Federal Board of Certification is not liable for any actions taken in reliance on such judgment of risk."

By Mr. MERKLEY:

S. 1595. A bill to amend the Truth in Lending Act to prohibit the distribution of any check or other negotiable instrument as part of a solicitation by a creditor for an extension of credit, to limit the liability of consumers in con-

junction with such solicitations, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. MERKLEY. Mr. President, in recent years, consumer credit has gone from providing convenience and short-term financing to a game of tricks and traps that strips families of hard earned resources and locks the middle class into a vicious cycle of debt. Today, I introduce legislation to end one of those deceptive practices—the unsolicited mailing of “live” loan checks.

Deceptive loan checks have afflicted consumers, especially seniors, for far too long. In these schemes, financial institutions send unsuspecting customers checks made out to them for some amount. Customers often assume that their financial institutions have sent refunds or some other business-related sum and unknowingly deposit the checks. However, fine print on these checks actually makes them high-cost loans.

Bank regulators have failed for years to rein in these deceptive products. In Oregon, one of my elderly constituents—a veteran of the Korean war—ended up in a subprime mortgage because he unknowingly deposited a deceptive loan check that he never requested. Sadly, instead of being able to cancel the loan, he was pushed into rolling this unwanted loan into his mortgage, which was then transformed from a safe, fixed rate mortgage that had nearly been paid off, into a brand new, subprime mortgage. As this case shows, deceptive products and practices lead our consumers into dangerous, high cost debt. If individuals wish to take out high cost loans, they should have every right to do so, but financial institutions should make those transactions plain and straightforward, not tricky and deceptive.

To address this situation, I am introducing the Deceptive Loan Check Elimination Act. Under the act, financial institutions would be prohibited from sending a “live” loan check unless the consumer requested such a check in writing. Consumers would not be liable for any debt incurred in violation of the act. This common sense solution protects consumers without constricting credit for those who want it. The legislation is endorsed by Consumer Action, Consumers Federation of America, Consumers Union, the National Consumer Law Center, on behalf of its low income clients, and the U.S. Public Interest Research Group.

I am hopeful that the Senate will act quickly to address this problem. In addition, the next step in restoring a fair playing field for working families is to move ahead quickly to create the Consumer Financial Protection Agency, a body with the authority to review and regulate financial tricks and traps like “live” loan checks.

I urge my colleagues to join me in this and future efforts to restore honesty and plain dealing to our consumer credit markets.

By Mrs. BOXER:

S. 1596. A bill to authorize the Secretary of the Interior to acquire the Gold Hill Ranch in Coloma, California; to the Committee on Energy and Natural Resources.

Mrs. BOXER. Mr. President, I rise to discuss the Gold Hill-Wakamatsu Preservation Act. This legislation would authorize the Bureau of Land Management to acquire and manage the Gold Hill Ranch near Coloma, California. This site was the location of the Wakamatsu Tea and Silk Colony from 1869 to 1871, recognized by the State of California and Japanese American Citizens League as the first Japanese settlement in the United States.

After Commodore William Perry opened Japanese ports to U.S. trade, the weakness of Japan's shoguns was exposed, leading to a revolution and return to imperial rule under the Meiji emperor. In 1869, seven Japanese individuals and a European expatriate fled the turmoil in Japan and sailed across the Pacific to San Francisco aboard a side wheeler called the "China." The group made their way eastwards and purchased land in Gold Hill. Within 2 years, the colony grew to 22 Japanese settlers and began producing traditional Japanese crops such as tea, silk, rice, and bamboo. The Japanese colonists and surrounding community learned about each others' culture and agricultural techniques. Local and San Francisco newspapers wrote about the colony, and the settlers began to receive acceptance in American society.

Unfortunately, the colony was short-lived—drought and financial problems forced the group to disperse and settle throughout California beginning in 1871. The Veerkamp family, which owned neighboring lands, purchased the property in 1875. Despite the short history of the colony, it was an important milestone that helped bridge Japanese and American cultures and paved the way for large-scale emigration of Japanese settlers to the United States. It also contributed to major Japanese influences on the agricultural economy of California.

Many of the original structures on the site remain intact, including a farmhouse, the grave of a young girl named Okei, numerous artifacts, and agricultural plantings. Japanese-Americans and other visitors come to see the site and place offerings on Okei's grave. As a testament to the cultural exchanges that occurred at this site, the Gold Trail Middle School, located on an in-holding carved out of this site, now maintains an exchange program with a sister school in Wakamatsu, Japan. Governor Reagan recognized the property as a State historic site in

1969, and the site is currently being considered for listing on the National Register of Historic Places.

The 272-acre ranch encompassing the original colony site has been passed down for generations through the Veerkamp family. Thanks to the hard work of the American River Conservancy and Wakamatsu Gold Hill Colony Foundation as well as the generous accommodation of the Veerkamp family, the site has been preserved for visitors to come and learn about the history of the Wakamatsu colonists and Japanese-American culture. The site provides multiple other benefits, including wildlife habitat, open space with hiking trails and picnic areas, and grazing and pastureland. The family and non-profit partners agree that federal acquisition would help guarantee that the site's cultural history, agricultural character, and open space are permanently preserved for generations to come. The Bureau of Land Management is well-suited to manage this site since it has an excellent relationship with the local community and manages several other sites nearby.

This project is supported by the Japanese American Citizens League, the National Japanese American Historical Society, the Consul General of Japan, the Governor of Fukushima Prefecture and the Mayor of Wakamatsu in Japan, People-to-People International, the El Dorado County Board of Supervisors, the El Dorado County Chamber of Commerce, numerous elected officials including Assemblyman Ted Gaines, who represents this district, and numerous other members of the local community.

The significance of this site for Japanese Americans has been compared to the significance of the Mayflower journey and Plymouth Rock landing for European Americans. This site is testament to Japanese history, California's agricultural economy, and the American tradition of bringing together people of diverse cultures in the common pursuit of freedom and prosperity. I look forward to working with my Senate colleagues to move this legislation and preserve the story of the Wakamatsu colonists for future generations.

By Mr. LEAHY (for himself, Mr. CHAMBLISS, and Mr. PRYOR):

S. 1599. A bill to amend title 36, United States Code, to include in the Federal charter of the Reserve Officers Association leadership positions newly added in its constitution and bylaws; to the Committee on Armed Services.

Mr. LEAHY. Mr. President, today, I am pleased to introduce the Reserve Officers Association Modernization Act of 2009. I want to thank Senators CHAMBLISS and PRYOR for joining me to introduce this legislation. As the co-chairs of the United States Senate Reserve Caucus, Senators CHAMBLISS and

PRYOR have worked hard for the brave men and women of the United States Reserves.

Over the past decade, our country has relied on the National Guard and Reserves more than at any other time in recent history. The Guard and Reserves provide an invaluable contribution to our Nation's military, our national security, and disaster relief efforts. In recent years the National Guard and Reserves have demonstrated their position as a keystone to our military operations, particularly in Iraq and Afghanistan, and stepped forward repeatedly to answer the call-to-duty at a tempo not seen in decades. At the same time, the support from the Guard and Reserves for homeland duties has been at an all time high. The Guard and Reserves have provided crucial support to our Governors and States during natural disasters such as the aftermath of Hurricane Katrina. In addition, they have assumed additional roles in homeland security as our country has adopted new policies following the attacks of September 11, 2001. This new era for the Guard and Reserves prompted Congress and the Department of Defense to review many existing and but outdated policies.

The 95-member U.S. Senate National Guard Caucus, which I cochair along with Senator BOND, plays an integral role in the review and implementation of new policies. I have worked closely with groups like the Reserve Officers Association, ROA, to ensure that the National Guard and Reserves have access to more affordable health care, a greater influence in the military, adequate training facilities and supplies, and shorter troop deployments in Iraq and Afghanistan.

Since its founding in 1922, the ROA has worked on behalf of the National Guard and Reserves and their families. For over 85 years, ROA has remained committed to its original mission, to "support and promote the development and execution of a military policy for the United States that will provide adequate National security." The Reserve Officers Association represents the Reserve Components officers for the Army, Air Force, Navy, Marine Corps, Coast Guard, the Air and Army National Guard, Public Health Service, and the officers of the National Oceanic and Atmospheric Administration.

This legislation would update the Reserve Officers Association's Federal Charter to reflect two recent changes in the organization. First, it would add the position of "president elect" to its constitution and bylaws. Second, it would expand the ROA from only three national executive committee members to include three representatives from each of the seven branches of the uniformed services. The Reserve Officers Association's charter has not been modified since 1998 and this legislation would update it to correctly reflect the

current operation of the organization and enable ROA to continue its good work.

The Reserve Officers Association has provided a voice to the men and women that serve our country in the National Guard and Reserves. I urge Senators on both sides of the aisle to show their support for the brave members of the National Guard and Reserves by enacting this legislation swiftly.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1599

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Reserve Officers Association Modernization Act of 2009".

SEC. 2. INCLUSION OF NEW LEADERSHIP POSITIONS IN THE FEDERAL CHARTER OF THE RESERVE OFFICERS ASSOCIATION.

(a) NATIONAL EXECUTIVE COMMITTEE.—Section 190104(b)(2) of title 36, United States Code, is amended—

(1) by inserting "the president elect," after "the president,";

(2) by inserting "a minimum of" before "3 national executive committee members,"; and

(3) by striking "except the executive director," and inserting "except the president elect and the executive director,".

(b) OFFICERS.—Section 190104(c) of such title is amended—

(1) in paragraph (1)—

(A) by inserting "a president elect," after "a president,";

(B) by inserting "a minimum of" before "3 national executive committee members,";

(C) by striking "a surgeon, a chaplain, a historian, a public relations officer,"; and

(D) by striking "as decided at the national convention" and inserting "specified in the constitution of the corporation"; and

(2) in paragraph (2)—

(A) by inserting "and take office" after "be elected"; and

(B) by striking "and the national public relations officer," and inserting "the judge advocate, and any other national officers specified in the constitution of the corporation,".

(c) VACANCIES.—Section 190104(d)(1) of such title is amended by striking "president and last past president," and inserting "president, president elect, and last past president,".

(d) RECORDS AND INSPECTION.—Section 190109(a)(2) of such title is amended by striking "national council," and inserting "other national entities of the corporation,".

Mr. UDALL of Colorado:

S. 1601. A bill to provide for the release of water from the marketable yield pool of water stored in the Ruedi Reservoir for the benefit of endangered fish habitat in the Colorado River, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. UDALL of Colorado. Mr. President, today I am introducing along with my friend and colleague, Senator BENNET, the Ruedi Reservoir Water Al-

location for Recovery of Endangered Fish Act. This bill will help address endangered fish issues in the Colorado River on Colorado's western slope by allowing the U.S. Bureau of Reclamation to release the remaining un-marketed water in Ruedi Reservoir for recovery purposes.

The Ruedi Reservoir is a component of the Fryingpan-Arkansas Project, a U.S. Bureau of Reclamation project, located on the Fryingpan River in western Colorado. The primary purposes of Ruedi are to provide storage of replacement water that allows out-of-priority diversions by the project to Colorado's east slope, and to provide marketable water for Colorado's west slope uses. A little more than one-third of Ruedi's marketable yield is currently under contract with limited prospects for foreseeable future contracting.

In 1999, the U.S. Fish and Wildlife Service, FWS, issued a programmatic biological opinion, PBO, for a critical reach of the Colorado River in Colorado related to recovery efforts for four fish species listed as endangered under the Endangered Species Act, ESA. The PBO provides ESA compliance for five Reclamation projects: the Fryingpan-Arkansas Project, including Ruedi Reservoir, the Colorado-Big Thompson Project, the Colbran Project, the Grand Valley Project, and the Silt Project.

The PBO also provides ESA compliance for all existing non-federal water projects and water users of the Colorado River upstream of the Gunnison River depleting approximately 1 million acre-feet per year and for 120,000 acre-feet per year of new depletions. As part of the PBO, Colorado water users agreed to provide 10,825 acre-feet per year for fish recovery from interim water sources until 2010, by which time permanent sources of water must be identified and agreements completed between water users and the FWS to provide the permanent source or sources of water.

Water users have identified the required permanent sources of water for endangered fish. Half of the 10,825 acre-feet per year requirement will be met from converting a historical agricultural water right and half from uncontracted, unobligated Ruedi Reservoir water. Reclamation has initiated NEPA compliance on Federal actions related to providing 10,825 acre-feet per year for endangered fish. This bill provides that the NEPA process be completed before authorizing Reclamation to apply the marketable yield to ESA benefits.

In regards to costs, the reimbursable capital costs for the Ruedi Reservoir were assigned separately in the authorizing legislation to east and west slope beneficiaries of the project. The east slope's obligation of \$7.6 million was assigned to Southeastern Colorado Water Conservancy District under a conventional Reclamation master con-

tract for the 28,000 acre-feet replacement pool. The obligation to repay Ruedi Reservoir's \$9.3 million cost was assigned to the marketable yield for the west slope's benefit, and this was to be re-paid by water contracts from this pool for west slope uses. There is no traditional, master contract with a west slope project "sponsor" for this portion of the project's cost recovery. A little more than one-third of the available marketable yield pool is currently under contract. Given that there are limited prospects for foreseeable future contracting, permanent assignment of 5,412.5 acre-feet of water for endangered fish recovery is prudent and appropriate.

To effectuate this new arrangement, the bill would amend Public Law 106-392 to permanently assign 5,412.5 acre-feet of water in Ruedi Reservoir from the west slope's marketable yield pool to endangered fish recovery and associated cost reallocation to non-reimbursable purposes. In so doing, the bill would accomplish a number of goals such as ensure continued ESA compliance for all east and west slope Colorado River main stem water users upstream of the Gunnison River, provide water from Ruedi Reservoir at affordable rates for potential future contracting, and provide consistency with long-standing Congressional policy and Reclamation law that water dedicated to fish and wildlife purposes from Reclamation projects is a non-reimbursable cost. The bill would also ensure compliance with Colorado law regarding the purposes of Ruedi Reservoir, namely that the marketable yield pool is available for the benefit of west slope water users by providing ESA compliance for uses of this water.

As with most issues related to water in the west, and especially in Colorado, one facility like the Ruedi Reservoir can affect many interests and values. This bill would provide mutual benefits to water users throughout the Colorado River. It is an example where we can reach consensus to continue to provide needed water to communities while also preserving fish species.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1601

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ENDANGERED FISH RECOVERY IMPLEMENTATION PROGRAMS.

(a) DEFINITIONS.—Section 2 of Public Law 106-392 (114 Stat. 1602) is amended by adding at the end the following:

"(11) MARKETABLE YIELD POOL.—The term 'marketable yield pool' means the portion of the regulatory capacity that, as of the date of enactment of this paragraph, is dedicated to marketing purposes.

"(12) REGULATORY CAPACITY.—The term 'regulatory capacity' has the meaning given

the term in the publication entitled 'Operating Principles, Fryingpan-Arkansas Project, Adopted by the State of Colorado, April 30, 1959 (as amended December 30, 1959, and December 9, 1960)', as printed as House Document No. 130 in accordance with House Resolution 91, 87th Congress, agreed to March 15, 1961.

“(13) RUEDI RESERVOIR.—The term ‘Ruedi Reservoir’ means the component of the Fryingpan-Arkansas Project of the Bureau of Land Management that is located—

“(A) on the Fryingpan River; and

“(B) in western Colorado.”.

(b) AUTHORIZATION TO FUND RECOVERY PROGRAMS.—Section 3 of Public Law 106-392 (114 Stat. 1603) is amended—

(1) by redesignating subsections (e) through (h) as subsections (f) through (i), respectively; and

(2) by inserting after subsection (d) the following:

“(e) ALLOCATION OF RUEDI RESERVOIR MARKETABLE YIELD POOL.—

“(1) RELEASE OF WATER.—For fiscal year 2013, and each fiscal year thereafter, at the request of the Director of the United States Fish and Wildlife Service (referred to in this subsection as the ‘Director’), 5,412.5 acre-feet of water shall be released from the marketable yield pool of water stored in the Ruedi Reservoir for the benefit of endangered fish habitat in the Colorado River.

“(2) TIMING OF RELEASE.—To the maximum extent practicable, and unless otherwise requested by the Director, the release of water under paragraph (1) shall occur during the late summer months to enhance low water flows in areas that comprise the endangered fish habitat in the Colorado River.

“(3) NO REQUIREMENT FOR CONTRACT OR OTHER AGREEMENT.—The release of water under paragraph (1) may be carried out without the formation or execution of any contract or other agreement.

“(4) REIMBURSEMENT.—The capital, operational, maintenance, and replacement costs that arise from the release of water under paragraph (1) shall not be reimbursable.

“(5) EFFECT.—The release of water under paragraph (1) shall satisfy 50 percent of the obligation of certain water users to provide 10,825 acre-feet of water, as described in the document—

“(A) entitled ‘Final Programmatic Biological Opinion for Bureau of Reclamation’s Operations and Depletions, Other Depletions, and Funding and Implementation of Recovery Program Actions in the Upper Colorado River above the Confluence with the Gunnison River’; and

“(B) published by the Director on December 20, 1999.

“(6) EFFECTIVE DATE.—This subsection shall take effect on the date on which the Secretary complies with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) regarding the release of water under paragraph (1).”.

By Mr. UDALL, of Colorado (for himself and Mr. BENNET):

S. 1602. A bill to amend title 10, United States Code, to ensure that excess oil and gas lease revenues are distributed in accordance with the Mineral Leasing Act, and for other purposes; to the Committee on Armed Services.

Mr. UDALL of Colorado. Mr. President, today I am introducing a revised version of the Naval Oil Shale Reserve Mineral Royalty Revenue Allocation

Act that I previously introduced on August 4, 2009. This bill is the same as the one I previously introduced, but it corrects an error regarding the allocation of outstanding mineral royalties to four counties in Colorado instead of two—those four counties being Garfield, Rio Blanco, Mesa and Moffat. This revised version also makes it clear that the mineral royalty allocated to these four counties would not affect the normal allocations to those counties under the “payment in lieu of taxes” program. In all other respects, the bill and its purposes remain the same. It is a bill designed to release mineral royalty receipts to Colorado where the receipts were generated from gas development within this reserve on the western slope near Rifle, Colorado.

By way of background, in 1997, Congress transferred the federal Naval Oil Shale Reserve lands in western Colorado from the U.S. Department of Energy, DOE, to the U.S. Bureau of Land Management, BLM, and directed the BLM to begin leasing the oil and gas resources under these lands. The Transfer Act also directed that the royalties recouped from this leasing program be set aside and the state portion not disbursed to Colorado until the Interior Department and the DOE certified that enough money from the royalty receipts accrued to satisfy two purposes.

The first was to provide funding to clean up the Anvil Points site on these lands. Anvil Points was an oil shale research facility that operated within the Naval Oil Shale Reserve for about 40 years. The facility was operated by DOE at one point, and private industry performed research there under contract. Waste material was produced at this facility from oil shale mining and processing. That waste accumulated in a pile of about 300,000 cubic yards of spent oil shale and other material—including arsenic and other heavy metals—which rests on slopes below the facility.

The second purpose was for the reimbursement of certain costs related to the transfer.

Following the transfer to the BLM, this area experienced significant natural gas leasing and, as a result, significant royalty revenue was generated.

On August 8, 2008, the DOI and DOE certified that adequate funds had accrued to accomplish the goals of clean-up and cost reimbursement and subsequently allocated all royalty revenue generated after this date according to the Mineral Leasing Act, which establishes that Colorado receive a proportionate share.

However, considerably more revenue accrued than was necessary to accomplish the cleanup and cost reimbursement goals. This bill would direct that this additional royalty revenue be allocated to Colorado according to the for-

mulas and processes established for the disbursement of federal mineral royalties under the Mineral Leasing Act.

The bill also directs that the Colorado share of this remaining royalty revenue be allocated to the four Counties directly impacted by oil and gas leasing on the Naval Oil Shale Reserve lands—specifically, Garfield, Rio Blanco, Mesa, and Moffat Counties. Finally, this bill makes it clear that these royalty payments shall not affect the funds that these Counties normally receive under the “payment in lieu of taxes”—or PILT—program.

Based on figures provided by the BLM, there remains approximately \$17 million in these accounts for Colorado’s royalty revenue share. This bill would make Colorado whole and provide it with its rightful share of the remaining royalty revenue to address critical local needs and impacts from the very leasing that produced the royalty revenue.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1602

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. TREATMENT OF OIL SHALE RESERVE RECEIPTS.

Section 7439(f) of title 10, United States Code, is amended by adding at the end the following:

“(3)(A) The moneys deposited in the Treasury under paragraph (1) that exceed the amounts described in subparagraphs (A) and (B) of paragraph (2) shall be transferred by the Secretary of the Treasury in accordance with section 35 of the Mineral Leasing Act (30 U.S.C. 191) to the State of Colorado for use in accordance with subparagraph (B).

“(B)(i) Of the amounts to be distributed under subparagraph (A), the Secretary of the Treasury shall transfer—

“(I) 40 percent to Garfield County, Colorado;

“(II) 40 percent to Rio Blanco County, Colorado;

“(III) 10 percent to Moffat County, Colorado; and

“(IV) 10 percent to Mesa County, Colorado.

“(ii) The amounts provided to the counties under clause (i) shall be used by the counties, or any cities or political subdivisions within the counties to which the funds are transferred by the counties, to mitigate the effects of oil and gas development activities within the affected counties, cities, or political subdivisions.

“(iii) Amounts provided to the counties under clause (i) shall not be considered for the purpose of calculating payments for the counties under chapter 69 of title 31, United States Code.”.

By Mr. WHITEHOUSE (for himself, Mr. DURBIN, and Mr. SESSIONS):

S. 1606. A bill to require foreign manufacturers of products imported into the United States to establish registered agents in the United States who

are authorized to accept service of process against such manufacturers, and for other purposes; to the Committee on Finance.

Mr. WHITEHOUSE. I rise to speak in support of the Foreign Manufacturers Legal Accountability Act of 2009, which I am introducing today with the ranking member of the Judiciary Committee, Senator SESSIONS, and Senator DURBIN. This bipartisan bill is an important step in protecting American consumers and businesses from injuries caused by defective products manufactured outside the United States. Those products hurt American consumers—they lead to serious injuries, and even death—and they hurt the American businesses that must deal with angry customers, product recalls, and unusable inventory.

The list of recent examples of Americans injured by defective foreign products is shocking. Last year, a contaminated blood thinner from a foreign manufacturer caused severe medical reactions and contributed to numerous deaths. In 2006, a foreign-made, lead-tainted charm bracelet claimed the life of a 4-year-old. The autopsy demonstrated that the charm was 99 percent lead, 1,650 times more than the 0.06 percent lead limit specified in enforcement guidelines for children's jewelry. Imported food products from seafood to honey have been contaminated with unthinkable chemicals, including veterinary drugs banned in domestic production, potentially harmful antibiotics, and unapproved food additives. Sixty million packages of pet food contaminated with tainted wheat gluten have been recalled in the last two years. Substandard tires have failed, leading to fatalities. Most recently, defective drywall imported from China has been found to contain excessively high levels of sulfur, causing houses to smell like rotten eggs, corroding copper wiring, and making expensive appliances fail. Thousands of homes may be affected.

At a hearing that I chaired in May, the Subcommittee on Administrative Oversight and the Courts explored the legal hurdles facing consumers who are injured by defective foreign products and by businesses that find that their foreign partners refuse to honor their contracts. These hurdles allow foreign manufacturers to continue to injure American businesses and consumers, and also put American manufacturers at a competitive disadvantage since they allow foreign manufacturers to offer cheaper products that do not comply with American safety requirements. Two major hurdles to proper accountability are the inability to serve process on the foreign manufacturer and the ability of that foreign manufacturer, even if served, to evade the jurisdiction of American courts. As the witnesses testified at the hearing, legislation that addresses these issues is

necessary and appropriate. The Foreign Manufacturers Legal Accountability Act addresses both concerns.

The first problem, the inability to serve process on a manufacturer, essentially means that it is difficult for an American to give a foreign manufacturer the documents necessary to give it the legally required notice that it is the subject of a lawsuit. This sounds like a simple step, and it should be. Unfortunately, however, it is very hard to serve process on foreign companies abroad. As witnesses explained at the hearing in May, service abroad is complicated by the Hague Convention on the Service Abroad of Judicial and Extra Judicial Documents in Civil and Commercial Matters, to which the United States is a signatory. Under that convention, a complaint must be translated into the foreign language, transmitted to the Central Authority in the foreign country, and then delivered according to the rules of service in the home country of the defendant. This can cause months and even years of delay, not to mention great expense for Americans.

The Foreign Manufacturers Legal Accountability Act will allow Americans to overcome that procedural hurdle by serving legal papers inside the United States on registered agents of foreign manufacturers. The bill requires the heads of federal government agencies such as the Food and Drug Administration to pass regulations requiring that foreign manufacturers of products regulated by their agencies register an agent who will accept service of process. It allows regulators to exclude manufacturers who only import a minimal amount of products into the United States. It imposes a minimal burden on foreign manufacturers, since they would only have to appoint one agent to accept service of process for all state and federal regulatory and civil actions anywhere in the United States. The bill allows the manufacturer to choose any location for that agent with a "substantial connection to the importation, distribution, or sale of the products of such foreign manufacturer or producer." This clear and straightforward system will allow Americans to commence their lawsuits fairly and promptly, and ensure that foreign manufacturers have proper and fair notice of the proceedings brought against them. It will not conflict with American obligations under the Hague convention, since that convention applies to service of process on foreign manufacturers in their home countries, not in the United States.

The second hurdle, the inability to establish personal jurisdiction over foreign manufacturers, can end a lawsuit against a foreign manufacturer before it even begins. Think about how unfair this is. A foreign manufacturer sells its defective products in the United States, injures American consumers

and businesses, and then argues that it is not subject to the courts in the state where the American was injured—in legal parlance, that the courts do not have personal jurisdiction over it. As witnesses explained at the hearing, foreign manufacturers raise this technical legal defense to avoid liability even when serious injuries or even death have been caused by their products—their defective tires, fireworks, exercise equipment, bikes, and toys.

The Foreign Manufacturers Legal Accountability Act will enable injured Americans to surmount this hurdle. It will make clear to foreign manufacturers that by importing their products into the United States and by registering an agent in the United States, they are consenting to the jurisdiction of the courts in the state where their agent is located. By consenting to jurisdiction, the manufacturers will avert unnecessary and expensive legislation about technical legal issues and allow courts to settle the merits of disputes. This approach is fair to foreign manufacturers since all American manufacturers are subject to the jurisdiction of the courts of at least one state. This bill therefore complies with the trade principle that we should not subject foreign manufacturers to burdens not already imposed on domestic manufacturers.

Indeed, the Foreign Manufacturers Legal Accountability Act is ultimately about fairness. We all know American manufacturers comply with regulations that ensure the safety of American consumers and businesses. When they fail to do so, they must answer to regulators and are held accountable through the American tort system. Unfortunately, however, foreign manufacturers are not being held to the same standards—injuring American consumers and businesses, and putting American manufacturers at a competitive disadvantage. We must level the playing field for all manufacturers and provide justice for American consumers and businesses. The Foreign Manufacturers Legal Accountability Act will allow us to make a major step in that direction. It covers major product categories including consumer goods, drugs, cosmetics, and chemicals, and it requires relevant agencies to study workable approaches to ensure that foreign food producers also are brought within the ambit of the American legal system.

Protecting Americans and holding foreign manufacturers accountable when their products harm American consumers and businesses is a bipartisan issue. Everyone agrees that we should do what we can to keep Americans safe from defective products. So too, I think, do we all agree that American companies should not be at a competitive disadvantage to their foreign counterparts. The Foreign Manufacturers Legal Accountability Act builds on

those fundamental agreements. I am grateful to my colleagues Senator SESSIONS and Senator DURBIN for their hard work on this bill and look forward to working with my colleagues on both sides of the aisle to see it passed into law.

Mr. SESSIONS. Mr. President, Senator WHITEHOUSE's legislation would help American consumers bring civil claims against foreign manufacturers who produce faulty goods and send them into the U.S. market. Currently, it is nearly impossible for harmed American consumers to bring a tort action against foreign manufacturers of products that are flawed or even dangerous. Foreign manufacturers are often difficult to identify or locate and even if found, the process of seeking damages against them is extremely costly and burdensome. Without the threat of litigation, foreign manufacturers have little to no accountability to their American consumers, resulting in lower quality and often defective products. Furthermore, American companies who unknowingly buy shoddy products from foreign manufacturers and then resell them to consumers become the sole defendant in tort cases filed against them when foreign defendants cannot be located. According to the Consumer Product Safety Commission, Chinese manufacturers were responsible for 69 percent of all product recalls in 2007 and 53 percent in 2008. These numbers demonstrate the need for Congress to take action to protect American consumers. Senator WHITEHOUSE's proposal is a positive step in the right direction.

I have witnessed the effects of this problem firsthand in my State. Mr. Chuck Stefan from Alabama testified before the Subcommittee on Administrative Oversight and the Courts, which Senator WHITEHOUSE chairs and I serve as ranking member, about the hardships his business has faced in seeking damages against a foreign manufacturer. Mr. Stefan is a Senior Executive Vice President at the The Mitchell Company, a homebuilder in Alabama, Florida, and Mississippi. Forty-five of the houses he built have been identified as containing a defective type of Chinese sheetrock, which produces corrosive gases. These gases are not merely unpleasant. They damage the copper found in piping and wiring systems. When the problem was first discovered, The Mitchell Company could not even determine who manufactured the drywall as it was only stamped "made in China." When the manufacturing parties were finally identified as both Chinese and German-based, it was a substantial and costly burden to serve them properly even though the companies had extensive operations in the United States. Mr. Stefan emphasized the fact that when foreign manufacturers cannot be held accountable, it hurts his company's bottom line and harms U.S. consumers.

Stores such as Mr. Stefan's are becoming all too common and it is incumbent upon Congress to work towards ameliorating the burdens that U.S. businesses and consumers face when seeking damages against foreign manufacturers. This issue is one that affects consumers nationwide. I am grateful to Senator WHITEHOUSE for taking the initiative to ensure that Congress does its part in solving this problem.

By Ms. CANTWELL (for herself,
Mrs. MURRAY, Ms. MURKOWSKI,
and Mr. BEGICH):

S. 1609. A bill to authorize a single fisheries cooperative for the Bering Sea Aleutian Islands longline catcher processor subsector, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Ms. CANTWELL. Mr. President, today I introduce the Longline Catcher Processor Subsector Single Cooperative Act.

In Washington State, our history is based on a rich maritime tradition that contributes billions of dollars to the state's economy each year. There are 3,000 vessels in Washington's fishing fleet that employ 10,000 fishermen. Seafood processors employ another 3,800 Washingtonians. And fish wholesalers employ an additional 1,000 people.

For many communities along this nation's coastlines, the economy literally ebbs and flows with the tide. It is important to remember that the ocean resources these communities depend on are a public trust and a resource to be both treasured and protected.

As guardians of the ocean and its plentiful resources, it is necessary that we examine all issues of "ownership" with care, transparency, and fairness. The issue of fishery cooperatives has proved to be an issue that demands nothing less.

In July of 2008, I chaired a hearing in the Commerce Committee's Subcommittee on Oceans, Atmosphere, Fisheries and Coast Guard, examining the impact of fishery management regimes on fishing safety and conservation. Following that hearing and numerous meetings with stakeholders to discuss the policy, safety, economic, and environmental implications of fishing cooperatives, I am here today to introduce the Longline Catcher Processor Subsector Single Cooperative Act, legislation that would allow for the formation of a single fishing cooperative in the Pacific cod catcher processor fleet.

Instead of fishermen racing against each other and the elements to catch as much as they can, this bill would allow the fishermen to bring some sanity back to their livelihoods. Under this legislation, the Pacific cod catcher processor fishery can allocate the catch among their members, putting

an end to the very dangerous "race for fish."

The cooperative would empower commercial fishermen with the framework and incentives to police themselves while still preserving the crucial regulatory and oversight responsibilities of the federal government and the North Pacific Fishery Management Council.

By adopting this bill, we can improve fishing safety in the Pacific cod catcher processor fishery by putting an end to the "race for fish." Doing so would lessen the fishery's environmental footprint, and give these fishermen the financial certainty that has worked for others across this Nation.

Fishing safety is a real concern that must be addressed at the federal level. In 2006, the Coast Guard reported that in the decade from 1994 to 2004, 1,398 fishing vessels were lost tragic reminders of what can go wrong at sea.

Most of these fishing-related fatalities occur in the North Pacific, where the fishermen from my home state of Washington make their living. The difficult waters equate to the highest casualty rates in the nation, and highest rates of fatality and injury among fisherman.

But the North Pacific's rough waters are not the only factor these fishermen have to cope with.

It is a tough business—tough for those who work the boats and those who make the business-end decisions. It's a business that is driven by incentives and dangerous conditions that work in tandem to place countless numbers of fishermen at risk.

When things go wrong, it is usually because of failures at multiple levels. You see, it's not always about vessels. Nor is it all about inspections, safety equipment, or training. Fishing safety is closely related to how fisheries are managed and the very foundation fishing has come to be built upon: competition.

Without legislation such as this, the fisheries will continue to operate on a foundation of destructive competition, or a "race for fish." And this race for fish is a very dangerous race.

According to Lieutenant Christopher Woodley, the former fishing Vessel Safety Coordinator of the 13th U.S. Coast Guard District based in Seattle:

This race encourages fishermen to operate in all weather and sea conditions, to operate without rest, and encourages risk-taking behaviors.

But we can change that.

By instituting a cooperative style of fishery management through this legislation, we dramatically change the incentives. And by changing the incentives to put a new premium on safety, we can change the way people fish and hopefully prevent future tragedies at sea.

Safety is not the only goal of this legislation. This legislation aims to make environmental and economic improvements to the process of fishing.

By eliminating the "race for fish," as I mentioned before, we effectively slow the pace of fishing meaning commercial fishermen can optimize onboard processing facilities. The result is an increase in the product recovery rate per pound of fish caught, meaning they can use more parts of the fish and make wiser and more efficient use of our precious ocean resources. A slower pace also decreases bycatch and promotes ownership of the fishery, which will facilitate a conservation mindset in the fishermen.

We have once again shifted the incentive from reckless speed to doing things slower, better, smarter, and more environmentally conscious.

Furthermore, the Longline Catcher Processor Subsector Fisheries Cooperative Act means greater job stability for the Pacific cod freezer longliner fleet's workers.

When fishermen no longer race, the fishing season lasts longer. This means more stability and predictability for crew members, and eliminates the boom and bust cycle that often prevails today.

I want to be clear that this bill is not yet a finished product. I welcome comments, suggestions, and criticisms to help make this bill good public policy for everyone involved.

As we discuss issues like safety of our fisherman and environmental implications to our oceans, it's imperative that we commit to an open and transparent process that shines the light of accountability.

Both in fisheries management, fishing safety, and those areas where the two intersect, transparency must be the rule.

We owe it to our coastal communities, our fisherman, and the American public collectively as stewards of one of our greatest public resources—our oceans.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1609

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Longline Catcher Processor Subsector Single Fishery Cooperative Act".

SEC. 2. AUTHORITY TO APPROVE AND IMPLEMENT A SINGLE FISHERY COOPERATIVE FOR THE LONGLINE CATCHER PROCESSOR SUBSECTOR IN THE BSAI.

(a) IN GENERAL.—Upon the request of eligible members of the longline catcher processor subsector holding at least 80 percent of the licenses issued for that subsector, the Secretary is authorized to approve a single fishery cooperative for the longline catcher processor subsector in the BSAI.

(b) LIMITATION.—A single fishery cooperative approved under this section shall in-

clude a limitation prohibiting any eligible member from harvesting a total of more than 20 percent of the Pacific cod available to be harvested in the longline catcher processor subsector, the violation of which is subject to the penalties, sanctions, and forfeitures under section 308 of the Magnuson-Stevens Act (16 U.S.C. 1858), except that such limitation shall not apply to harvest amounts from quota assigned explicitly to a CDQ group as part of a CDQ allocation to an entity established by section 305(i) of the Magnuson-Stevens Act (16 U.S.C. 1855(i)).

(c) CONTRACT SUBMISSION AND REVIEW.—The longline catcher processor subsector shall submit to the Secretary—

(1) not later than November 1 of each year, a contract to implement a single fishery cooperative approved under this section for the following calendar year; and

(2) not later than 60 days prior to the commencement of fishing under the single fishery cooperative, any interim modifications to the contract submitted under paragraph (1).

(d) DEPARTMENT OF JUSTICE REVIEW.—Not later than November 1 before the first year of fishing under a single fishery cooperative approved under this section, the longline catcher processor subsector shall submit to the Secretary a copy of a letter from a party to the contract under subsection (c)(1) requesting a business review letter from the Attorney General and any response to such request.

(e) IMPLEMENTATION.—The Secretary shall implement a single fishery cooperative approved under this section not later than 2 years after receiving a request under subsection (a).

(f) STATUS QUO FISHERY.—If the longline catcher processor subsector does not submit a contract to the Secretary under subsection (c) then the longline catcher processor subsector in the BSAI shall operate as a limited access fishery for the following year subject to the license limitation program in effect for the longline catcher processor subsector on the date of enactment of this Act or any subsequent modifications to the license limitation program recommended by the Council and approved by the Secretary.

SEC. 3. HARVEST AND PROHIBITED SPECIES ALLOCATIONS TO A SINGLE FISHERY COOPERATIVE FOR THE LONGLINE CATCHER PROCESSOR SUBSECTOR IN THE BSAI.

A single fishery cooperative approved under section 2 may, on an annual basis, collectively—

(1) harvest the total amount of BSAI Pacific cod total allowable catch, less any amount allocated to the longline catcher processor subsector non-cooperative limited access fishery;

(2) utilize the total amount of BSAI Pacific cod prohibited species catch allocation, less any amount allocated to a longline catcher processor subsector non-cooperative limited access fishery; and

(3) harvest any reallocation of Pacific cod to the longline catcher processor subsector during a fishing year by the Secretary.

SEC. 4. LONGLINE CATCHER PROCESSOR SUBSECTOR NON-COOPERATIVE LIMITED ACCESS FISHERY.

(a) IN GENERAL.—An eligible member that elects not to participate in a single fishery cooperative approved under section 2 shall operate in a non-cooperative limited access fishery subject to the license limitation program in effect for the longline catcher processor subsector on the date of enactment of this Act or any subsequent modifications to the license limitation program recommended

by the Council and approved by the Secretary.

(b) HARVEST AND PROHIBITED SPECIES ALLOCATIONS.—Eligible members operating in a non-cooperative limited access fishery under this section may collectively—

(1) harvest the percentage of BSAI Pacific cod total allowable catch equal to the combined average percentage of the BSAI Pacific cod harvest allocated to the longline catcher processor sector and retained by the vessel or vessels designated on the eligible members license limitation program license or licenses for 2006, 2007, and 2008, according to the catch accounting system data used to establish total catch; and

(2) utilize the percentage of BSAI Pacific cod prohibited species catch allocation equal to the percentage calculated under paragraph (1).

SEC. 5. AUTHORITY OF THE NORTH PACIFIC FISHERY MANAGEMENT COUNCIL.

(a) IN GENERAL.—Nothing in this Act shall supersede the authority of the Council to recommend for approval by the Secretary such conservation and management measures, in accordance with the Magnuson-Stevens Act (16 U.S.C. 1801 et seq.) as it considers necessary to ensure that this Act does not diminish the effectiveness of fishery management in the BSAI or the Gulf of Alaska Pacific cod fishery.

(b) LIMITATIONS.—

(1) Notwithstanding the authority provided to the Council under this section, the Council is prohibited from altering or otherwise modifying—

(A) the methodology established under section 3 for allocating the BSAI Pacific cod total allowable catch and BSAI Pacific cod prohibited species catch allocation to a single fishery cooperative approved under this Act; or

(B) the methodology established under section 4 of this Act for allocating the BSAI Pacific cod total allowable catch and BSAI Pacific cod prohibited species catch allocation to the non-cooperative limited access fishery.

(2) No sooner than 7 years after approval of a single fisheries cooperative under section 2 of this Act, the Council may modify the harvest limitation established under section 2(b) if such modification does not negatively impact any eligible member of the longline catcher processor subsector.

(c) PROTECTIONS FOR THE GULF OF ALASKA PACIFIC COD FISHERY.—The Council may recommend for approval by the Secretary such harvest limitations of Pacific cod by the longline catcher processor subsector in the Western Gulf of Alaska and the Central Gulf of Alaska as may be necessary to protect coastal communities and other Gulf of Alaska participants from potential competitive advantages provided to the longline catcher processor subsector by this Act.

SEC. 6. RELATIONSHIP TO THE MAGNUSON-STEVENS ACT.

(a) IN GENERAL.—Consistent with section 301(a) of the Magnuson-Stevens Act (16 U.S.C. 1851(a)), a single fishery cooperative approved under section 2 of this Act is intended to enhance conservation and sustainable fishery management, reduce and minimize bycatch, promote social and economic benefits, and improve the vessel safety of the longline catcher processor subsector in the BSAI.

(b) TRANSITION RULE.—A single fishery cooperative approved under section 2 of this Act is deemed to meet the requirements of section 303A(i) of the Magnuson-Stevens Act (16 U.S.C. 1853a(i)) as if it had been approved

by the Secretary within 6 months after the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, unless the Secretary makes a determination, within 30 days after the date of enactment of this Act, that application of section 303A(i) of the Magnuson-Stevens Act to the cooperative approved under section 2 of this Act would be inconsistent with the purposes for which section 303A was added to the Magnuson-Stevens Act.

(c) **COST RECOVERY.**—Consistent with section 304(d)(2) of the Magnuson-Stevens Act (16 U.S.C. 1854(d)(2)), the Secretary is authorized to recover reasonable costs to administer a single fishery cooperative approved under section 2 of this Act.

SEC. 7. COMMUNITY DEVELOPMENT QUOTA PROGRAM.

Nothing in this Act shall affect the western Alaska community development program established by section 305(i) of the Magnuson-Stevens Act (16 U.S.C. 1855(i)), including the allocation of fishery resources in the directed Pacific cod fishery.

SEC. 8. DEFINITIONS.

In this Act:

(1) **BSAI.**—The term “BSAI” has the meaning given that term in section 219(a)(2) of the Department of Commerce and Related Agencies Appropriations Act, 2005 (Public Law 108-447; 118 Stat. 2886).

(2) **BSAI PACIFIC COD TOTAL ALLOWABLE CATCH.**—The term “BSAI Pacific cod total allowable catch” means the Pacific cod total allowable catch for the directed longline catcher processor subsector in the BSAI as established on an annual basis by the Council and approved by the Secretary.

(3) **BSAI PACIFIC COD PROHIBITED SPECIES CATCH ALLOCATION.**—The term “BSAI Pacific cod prohibited species catch allocation” means the prohibited species catch allocation for the directed longline catcher processor subsector in the BSAI as established on an annual basis by the Council and approved by the Secretary.

(4) **COUNCIL.**—The term “Council” means the North Pacific Fishery Management Council established under section 302(a)(1)(G) of the Magnuson-Stevens Act (16 U.S.C. 1852(a)(1)(G)).

(5) **ELIGIBLE MEMBER.**—The term “eligible member” means a holder of a license limitation program license, or licenses, eligible to participate in the longline catcher processor subsector.

(6) **GULF OF ALASKA.**—The term “Gulf of Alaska” means that portion of the Exclusive Economic Zone contained in Statistical Areas 610, 620, and 630.

(7) **LONGLINE CATCHER PROCESSOR SUBSECTOR.**—The term “longline catcher processor subsector” has the meaning given that term in section 219(a)(6) of the Department of Commerce and Related Agencies Appropriations Act, 2005 (Public Law 108-447; 118 Stat. 2886).

(8) **MAGNUSON-STEVENS ACT.**—The term “Magnuson-Stevens Act” means the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

(9) **SECRETARY.**—The term “Secretary” means the Secretary of Commerce.

By Ms. CANTWELL (for herself,
Mr. VITTER, Ms. LANDRIEU,
MURRAY, and Mr. MARTINEZ):

S. 1610. A bill to amend the Internal Revenue Code of 1986 to repeal the shipping investment withdrawal rules in section 955 and to provide an incentive

to reinvest foreign shipping earnings in the United States; to the Committee on Finance.

Ms. CANTWELL. Mr. President, I am pleased to join with my colleagues Senators VITTER, LANDRIEU, MURRAY, and MARTINEZ and introduce the American Shipping Reinvestment Act of 2009. This legislation will build on work Congress started in 2004 to strengthen the U.S. merchant marine, create needed jobs in U.S. ship building, and stimulate economic activity in our maritime sector.

Since our Nation's founding, the maritime sector has been integral to U.S. national security and economic security. American companies own and operate both U.S. flag ships and a significant number of vessels under international registries. The U.S. flag fleets of these companies generally are built in the United States and are manned with U.S. seafarers. These U.S. flag fleets support not only the shipbuilding industrial base in this country and the pool of qualified seafarers, but they also create the shipping assets that are needed for military sealift in time of war or national emergency.

Most people understand commercial shipping and understand that we maintain a fleet of ships for military purposes. What may not be as well known is that the international ships of some American-owned companies are part of what is called the effective U.S.-controlled fleet, EUSC fleet. The EUSC is the fleet of merchant vessels registered in certain foreign nations that are available for requisition, use, or charter by the U.S. Government in the event of war or national emergency.

For example, U.S. flag commercial vessels and their American crews transported the majority of the cargo—more than 25 million measurement tons of cargo—in support of Operations Enduring Freedom and Iraqi Freedom during the period of 2002–2008.

What people also may not know is that the EUSC fleet has been in decline for the past quarter century, largely because of U.S. tax policy. Following enactment of certain 1986 tax law changes, there was a precipitous decline in American-owned international shipping. To remain competitive, many American-owned shipping companies either became foreign companies or simply divested themselves of their foreign assets.

A 2002 study commissioned by the Department of Defense and performed by professors at the Massachusetts Institute of Technology found that the EUSC fleet dropped by 38 percent in terms of numbers of ships and nearly 55 percent in terms of deadweight tonnage between 1986 and 2000. Perhaps more importantly, these declines have been largely experienced in militarily-useful vessel types. For example, the results of a 2002 DOD study found that if the EUSC fleet continues its present de-

cline, DOD's ability to support U.S. military tanker requirements will diminish over time.

Fortunately, Congress recognized this problem in 2004 and addressed it by enacting the tonnage tax regime as part of the American Jobs Creation Act. Our legislation today builds on that policy by correcting an oversight in the 2004 act that has continued to stymie the ability of U.S. shipbuilding companies to invest in new ships in the United States.

We have very strong economic and national security reasons to support U.S. owned shipowning companies and to maintain a vibrant maritime industry in this country. We also have to continue to support needed changes in our tax code so that we provide operators of U.S. flag vessels in international trade the opportunity to be competitive with their tax-advantaged foreign competitors.

Notwithstanding the significant competitive disadvantages between 1986 and 2004 for American companies operating international ships, there continues to be several U.S. owned shipping companies with foreign operations, and our legislation is directed as helping them sustain and grow their U.S. flag fleets and to maintain their EUSC fleets. This bill will help these companies make needed investment in the U.S. economy, and create jobs in a way that also will enhance national security.

Specifically, The American Shipping Reinvestment Act of 2009 would repeal an outdated section of the Internal Revenue Code and allow U.S. shipping companies with foreign income earned prior to 1986 to reinvest it into the U.S. for the purpose of growing their U.S. flag operations.

Congress first included foreign shipping income in Subpart F in 1975, which meant that all shipping income was taxable at the full U.S. corporate tax rate no matter whether it was invested abroad or in the United States. However, a temporary rule, applicable to foreign shipping income earned from 1975 to 1986, continued to allow for deferral in cases where this income was reinvested in qualifying shipping activities. Section 955 of the Internal Revenue Code provided that this income would be included in gross income, i.e., taxed, immediately under Subpart F in the event of any net decrease in qualified shipping investments.

The American Jobs Creation Act of 2004 restored for shipping income the normal tax rule under which non-Subpart F income of foreign subsidiaries is not taxed by the United States until it is repatriated, generally as a dividend. In restoring the potential for deferral for certain shipping income, Congress in 2004 returned the treatment of shipping income to where it was prior to 1975.

Unfortunately, Congress did not address the rules under IRC Section 955 that apply to income earned between 1975 and 1986, thus creating a situation that this income is permanently stranded offshore. Our bill would repeal IRC Section 955 and will allow these stranded assets to be reinvested in the United States under the favorable tax terms that were in effect for other companies and industries in 2004. Specifically, the legislation provides a one-time opportunity for American-owned shipping companies to bring foreign source income back into the United States at a discounted tax rate for the purpose of expanding and growing our domestic maritime industry. Without the commonsense change in our legislation, these old, stranded assets will never return to the United States and never be subject to U.S. taxation.

The bill is guaranteed to create jobs for American workers with the funds being brought back into the U.S. economy—on the ships, in the shipyards building the ships, and in supporting businesses. The bill contains a provision that would recapture any tax benefits if a shipping company reduces its full-time U.S. employment levels.

This bill also would enhance U.S. national security interests by supporting shipyards that are vital to our defense industrial base, by enabling new U.S. flag tanker capacity to transport our Nation's energy products, and by providing DOD with critical assets—manpower and ships—necessary to help sustain military sealift.

The bill is strongly supported by maritime labor, shipyards, and ship owners and operators and can provide a boost to the U.S. maritime industry at a time when the U.S. is struggling to find its economic footing. The jobs created by this legislation are well-paying, long-term jobs in a crucial sector of our Nation's economy. I urge my colleagues to join me and my other original cosponsors in supporting this bill.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1610

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "American Shipping Reinvestment Act of 2009".

SEC. 2. REPEAL OF QUALIFIED SHIPPING INVESTMENT WITHDRAWAL RULES.

(a) IN GENERAL.—Section 955 of the Internal Revenue Code of 1986 (relating to withdrawal of previously excluded subpart F income from qualified investment) is hereby repealed.

(b) CONFORMING AMENDMENTS.—

(1) Section 951(a)(1)(A) of the Internal Revenue Code of 1986 is amended by adding

"and" at the end of clause (i) and by striking clause (iii).

(2) Section 951(a)(1)(A)(ii) is amended by striking ", and" at the end and inserting ", except that in applying this clause amounts invested in less developed country corporations described in section 955(c)(2) (as so in effect) shall not be treated as investments in less developed countries."

(3) Section 951(a)(3) of such Code (relating to the limitation on pro rata share of previously excluded subpart F income withdrawn from investment) is hereby repealed.

(4) Section 964(b) of such Code is amended by striking ", 955."

(5) The table of sections for subpart F of part III of subchapter N of chapter 1 of such Code is amended by striking the item relating to section 955.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years of controlled foreign corporations ending on or after the date of the enactment of this Act, and to taxable years of United States shareholders in which or with which such taxable years of controlled foreign corporations end.

SEC. 3. ONE-TIME TEMPORARY DIVIDENDS RECEIVED DEDUCTION FOR PREVIOUSLY UNTAXED FOREIGN BASE COMPANY SHIPPING INCOME.

(a) IN GENERAL.—In the case of a corporation which is a United States shareholder and for which an election under this section is made for the taxable year, for purposes of the Internal Revenue Code of 1986, there shall be allowed as a deduction in computing taxable income under section 63 of such Code an amount equal to 85 percent of the cash distributions which are received during such taxable year by such shareholder from controlled foreign corporations to the extent that the distributions are attributable to income—

(1) which was derived by the controlled foreign corporation in taxable years beginning before January 1, 2005, and

(2) which would, without regard to the year earned, be described in section 954(f) (as in effect before the enactment of the American Jobs Creation Act of 2004).

(b) INDIRECT DIVIDENDS.—A rule similar to the rule of section 965(a)(2) of the Internal Revenue Code of 1986 shall apply, determined by treating cash distributions which are so attributable as cash dividends.

(c) LIMITATION.—The amount of dividends taken into account under this section shall not exceed the amount permitted to be taken into account under paragraphs (1), (3) (determined by substituting "December 31, 2008" for "October 3, 2004"), and (4) of section 965(b) of the Internal Revenue Code of 1986, determined as if such paragraphs applied to this section.

(d) TAXPAYER ELECTION AND DESIGNATION.—For purposes of subsection (a), a taxpayer may, on its return for the taxable year to which this section applies—

(1) elect to apply paragraph (3) of section 959(c) of the Internal Revenue Code of 1986 before paragraphs (1) and (2) thereof, and

(2) designate the extent, if any, to which a cash distribution reduces a controlled foreign corporation's earnings and profits attributable to—

(A) foreign base company shipping income (determined under section 954(f) of the Internal Revenue Code of 1986 as in effect before the enactment of the American Jobs Creation Act of 2004), or

(B) other earnings and profits.

(e) ELECTION.—

(1) IN GENERAL.—The taxpayer may elect to apply this section to—

(A) the taxpayer's last taxable year which begins before the date of the enactment of this Act, or

(B) the taxpayer's first taxable year which begins during the 1-year period beginning on such date.

(2) TIMING OF ELECTION AND ONE-TIME ELECTION.—Such election may be made for a taxable year—

(A) only if made on or before the due date (including extensions) for filing the return of tax for such taxable year, and

(B) only if no election has been made under this section or section 965 of the Internal Revenue Code of 1986 with respect to the same distribution for any other taxable year of the taxpayer.

(f) REDUCTION IN BENEFITS FOR FAILURE TO MAINTAIN EMPLOYMENT LEVELS.—

(1) IN GENERAL.—If, during the period consisting of the calendar month in which the taxpayer first receives a distribution described in subsection (a) and the succeeding 23 calendar months, the taxpayer does not maintain an average employment level at least equal to the taxpayer's prior average employment, an additional amount equal to \$25,000 multiplied by the number of employees by which the taxpayer's average employment level during such period falls below the prior average employment (but not exceeding the aggregate amount allowed as a deduction pursuant to subsection (a)) shall be taken into account as income by the taxpayer during the taxable year that includes the final day of such period.

(2) PRIOR AVERAGE EMPLOYMENT.—For purposes of this paragraph, the taxpayer's "prior average employment" shall be the average number of full time equivalent employees of the taxpayer during the period consisting of the 24 calendar months immediately preceding the calendar month in which the taxpayer first receives a distribution described in subsection (a).

(3) AGGREGATION RULES.—In determining the taxpayer's average employment level and prior average employment, all domestic members of a controlled group (as defined in section 264(e)(5)(B) of the Internal Revenue Code of 1986) shall be treated as a single taxpayer.

(g) SPECIAL RULES.—Rules similar to the rules of subsections (d) and (e) and paragraphs (3), (4), and (5) of subsection (c) of section 965 of the Internal Revenue Code of 1986 shall apply for purposes of this section.

(h) EFFECTIVE DATE.—This section shall apply to taxable years ending on or after the date of the enactment of this Act.

By Mr. GREGG (for himself, Mr. KENNEDY, Ms. COLLINS, Mr. DODD, Mr. MARTINEZ, Mr. HARKIN, Ms. SNOWE, and Ms. MIKULSKI):

S. 1611. A bill to provide collective bargaining rights for public safety officers employed by States or their political subdivisions; to the Committee on Health, Education, Labor, and Pensions.

Mr. KENNEDY. Mr. President, this morning, 660,000 police officers and 300,000 firefighters across the country will get up and go to work to protect our homes, our families, and our communities. They will go into burning buildings, patrol our streets, and put their lives on the line, because they believe in the importance of what they are doing.

These dedicated workers are in the trenches every day making life-or-death decisions, and their experiences give them tremendous knowledge about how to protect our country. We need to listen to their recommendations and consider their advice. Unfortunately, however, all too often, our first responders have no voice in the decisions that affect their lives and their livelihoods. Their input is disregarded because they don't have the same rights as other workers.

Workers in the private sector who want a voice on the job have the right to form and join a union. They can fight for a safer, fairer workplace. But 300,000 police and 70,000 firefighters live in States in which their State governments deny them the fundamental right to a voice on the job. Even if these workers overwhelmingly agree that they want to form and join a union, their State government says they can't have one.

That is not fair. We are asking these workers to do so much for their communities—the least we can do in return is give them a voice at the table in the life-and-death discussions and decisions that affect their families and their futures. They deserve the opportunity to choose for themselves whether they want the advantages that unions bring.

That is why it is an honor to join Senator GREGG and Senator DODD in sponsoring the Public Safety Employer-Employee Cooperation Act to guarantee that our first responders will have a path they can use to decide if they want a union. If the workers don't want a union, they don't have to follow that path. But the State has to make it available and let the workers choose.

It won't be difficult for States to create this path. All they have to do is provide four basic rights: the right to form and join a union; the right to sit down at the table and talk; the right to sign a contract if both parties agree; and the right to go to a neutral third party when there are disputes.

Apart from these four rights, all the other details of the collective bargaining system are left up to the States. They have the flexibility to decide whether to exempt small communities. They decide how workers can select a union. They can also decide how workers and employers should resolve disputes—through arbitration, mediation, factfinding, or some other mechanism.

This bipartisan bill has been carefully drafted to preserve a balance between the interests of State and local governments and the rights of the workers they employ. It has been the product of years of careful negotiations, including a hearing and two markups in the HELP Committee. It was passed by the House of Representatives in the last Congress with an overwhelming bipartisan margin, including

98 Republican votes. Now it is time to get it across the finish line and give our dedicated first responders the fair treatment they deserve. It is a matter of fundamental fairness and an urgent matter of public safety.

I commend Senator GREGG for his leadership on this very important issue, and I urge my colleagues to show these heroes the respect they deserve by supporting the Public Safety Employer-Employee Cooperation Act.

By Mr. BENNET:

S. 1613. A bill to reduce the Federal budget deficit in a responsible manner; to the Committee on the Budget.

Mr. BENNET. Mr. President, I cannot tell you how much I appreciated your remarks—I was sitting in the chair—and those of Chairman DODD as well. The hour is late. The idea that you would be here at that hour to talk about something as important as health care is appreciated, I know, by the people in your State, but also by the people in my State as well. So I say thank you for that.

I also want to talk about health care. I want to talk about health care in the context of fiscal discipline in this country. As you know, our Nation's annual deficits are staggering, and our national debt is absolutely unsustainable. For the future of our country and for our children's sake, as we recover from this devastating blow to our economy, we have to stand together and begin to start the difficult, but essential, work of putting our fiscal house in order.

Health care reform must help solve this Nation's fiscal problems, not make them worse. To accomplish this, effective reform must bend the cost curve in health care spending both in the private and public sectors.

In part because of years of neglect and inaction, this Congress has reached a defining moment of reckoning. Rising health care costs, especially Medicare costs, are now the largest driver of our deficits. Our Nation's health care spending, as you were just saying, is 17 percent of our Nation's gross domestic product and is expected to grow to over 20 percent of GDP in 10 years, on its way, as you said, to 35 percent.

Health care alone—just health care—will soon account for one-fifth of our economy. This represents a greater share of the GDP than our manufacturing, agricultural, forestry, mining, and construction industries combined.

As we emerge from this terrible recession, the worst since the Great Depression, we cannot commit one-fifth of our economy to health care and expect to compete effectively in the global marketplace.

Adding to the urgency of the problem, this recession has made rocketing health care costs even more painful for families and businesses in the last 15 months. Both large businesses and

small businesses have cut some 5.1 million jobs, and 2.4 million of these newly unemployed workers have lost the health coverage their jobs once provided. Now the same people must try to find insurance in the individual market where they can be rejected by private insurance companies for preexisting conditions such as asthma, diabetes, or even cancer.

Health care costs are strangling opportunities for working families and small businesses all over my State and the country. As health care costs rise, families are forced to make choices no one should have to make between insuring their families or their employees and sending their kids to college, taking lower paying jobs with less responsibility just for the medical benefits and defaulting on their mortgage payments to pay for their medical bills.

Every one of these examples springs from the experiences of people in my State. And it is no mystery why people are having to make these terrible choices. Middle-class wages are not even close to keeping up with these rising insurance costs. While median family income in this country fell by \$300 during the last decade—staggering, by the way; over a decade in real dollars, median family income in the United States actually declined by \$300—health care costs increased over the same period by 80 percent.

The cost of health insurance is eating into family budgets faster and faster. Over the past decades, premiums for Colorado families, as this chart shows us, have more than doubled, growing four times faster than wage increases. The cost of premiums for a Colorado family is over \$13,000 today. If we do nothing, by 2016, Colorado families will be spending over \$25,000 on their premiums, a 90-percent increase. We have come out of a period with an 85-percent increase, and if we do nothing, we are going to end up in a period with a 90-percent increase, with no real increase in wages.

Left unaddressed, this imbalance, which is the creation of our catastrophically inefficient health care system, will destroy the middle class in this country. If we do nothing, if we continue on with the status quo, by 2016, just 7 years from now—and I believe these numbers are very similar to the ones you quoted for Rhode Island—by 2016, 40 cents of every dollar a typical Colorado family earns will be eaten up by health care costs, leaving just 60 cents for everything else.

Think about it. That is almost half an average family's income. Money spent not to educate their children, not to feed them or house them, but just to cover the cost of the family health care plan. And that is just paying for coverage. Never mind if you actually get sick.

In 2007, 62 percent of the personal bankruptcies in this country were due

to medical costs. Traditionally, most people's employers help pay for cost increases. That has been the case for over many years. But I heard from employers all over Colorado having to make tough choices—cutting back on benefits and laying off more costs to their employees.

In the coming years, copays for Coloradans will go up double digits. More Coloradans are being forced into health plans with higher deductibles, and more employers are getting out of the business of providing health insurance for their employees altogether.

Mr. President, we won't be able to completely flatten the health care cost curve in the short run, and we should be careful not to overpromise, but we have to make the rising cost of health care something our economy can plausibly absorb.

Part of the solution is reducing waste and curbing overpayments to insurance companies, and part of the answer is encouraging patients to seek preventive care. Small businesses may not see health costs go down immediately, but we sure can slow their rise. And we have to work hard to make sure they do not rise this quickly. Reforming our health care system could save over 100,000 small business jobs in the coming years that would otherwise be lost if we do nothing.

I agree with bipartisan voices saying that our first health care goal has to be to drive down costs, and we must start with Medicare. As I travel throughout Colorado, I have met countless physicians, nurses, and hospital workers who tell me about the perverse incentives in Medicare. Instead of being paid to spend time with patients and produce better quality care, doctors and nurses are paid for the number of patients they see in the shortest amount of time and the number of procedures they perform. This is no way to produce patient-centered care, and it is no way to reduce cost.

Medicare doesn't just influence, as you know, the care of the elderly and disabled. As the largest health care program in the United States, Medicare influences every level of health care. Private insurance and employer-based health care look to Medicare as they make decisions on what to pay doctors, nurses, and hospitals. Owing to the perverse incentives in Medicare, however, since 1970—since 1970—every year for almost 40 years, year-in and year-out, Medicare spending per person has risen by over 8 percent each year, and private insurance spending per person has risen by over 9 percent each year.

If we expect reform to begin to gain any traction, we must drive cost down at the Federal level first. We can start by paying doctors and nurses to actually do what they are supposed to do and what they want to do—be focused on patients. We have to reform the sys-

tem so that we are paying for quality and not volume. We must improve care, produce savings, and slow down cost growth by bundling payments, paying for performance and outcomes, and providing better coordinated care for patients and providers.

The burden is on us to meet the public expectation that we will drive down costs in the health care system and make it more efficient, that we will make the health care marketplace more competitive, and that we will provide affordable, stable health care coverage to the American people that can't be taken away because they lose a job, have a preexisting condition, or have reached some arbitrary cap.

Controlling health care costs would help our fiscal situation a great deal, and that is one of the fundamental reasons health care reform is needed. But this alone will not be enough to fill the deepening hole of national debt that threatens America's prosperity. The fiscal decisions we make today matter so much because they will dictate the well-being and range of choices of the generations that follow us.

Sometimes, with the daily hail of press clippings, these issues may seem overly complex, but I like to use a pretty simple analogy. The way we run our government is not different than if you or I were to buy a house—probably a bigger one than we reasonably could afford—and then we tell the bank to please send the mortgage documents to our kids. Imagine how that burden—paying for mom and dad's house—would constrain our children's choices. What dreams would they have to defer because their first obligation was a debt they didn't even incur.

My three daughters, ages 9, 8 and 5, have never had an economics class, but I can tell you that as much as they love their mom and dad, if asked, they would never do that deal—especially my 5-year-old, Anne. Whether we are taking her blanket away or telling her to stop sucking her thumb or putting a mountain of debt on her, she knows a raw deal when she sees one.

We in Congress owe the next generation much more than this, as the chairman, Senator DODD, was saying. We ought to be able to build on our roles as parents and community leaders to respect our children, come together, and plan America's way back to fiscal health. The longer we wait, the more difficult the choices become. If we wait 10 years, we will face a massive gap between our spending and the revenue the government collects. If we wait 10 years to take action, we would have to increase individual income taxes by almost 90 percent to keep pace. That is an unacceptable outcome for Colorado's families. If you don't like tax increases, fine, then we would have to slash Federal spending by almost one-half. That would mean massive cuts to Medicare, our Nation's defense, and

other critical initiatives that keep our country strong. No one wants to be put in a position to make those kinds of choices either. These outcomes are unacceptable, yet we can see them coming. That is why inaction is so unacceptable on health care and also on returning to policies of fiscal discipline. It is long past time to put in place the policies that will reverse this condition. And as with any deep hole, the first order of business is to stop digging.

The good news is that we have a tried-and-true way to stop making matters worse. In the 1990s, we had Pay-Go, which effectively forced the shovel from Congress's hands and made Congress stop digging. Pay-Go means that before Congress can create new spending on permanent programs, it needs to figure out how to pay for that new spending, just as every family in the States we represent.

Pay-Go helped turn 1980s deficits into 1990s surpluses, and we actually began to pay down our debt. Pay-Go is commonsense budgeting. It is not any different, as I just said, than what a family does when its spending gets out of hand. When that bad credit card statements comes in the mail, a parent knows it is time to sit down at the kitchen table and plan how to stop the spending. Pay-Go is what Congress and President Clinton did to respond to Washington's bad credit card bill.

Pay-Go was smart lawmaking because it imposed a culture of fiscal responsibility—and I would say discipline—on the Congress. Yet, for some reason, early in this decade a new administration let Pay-Go expire. That played a part in how these surpluses all of a sudden turned back into big annual deficits. This is how America incurred years of new debt.

The frustrating reality is that we are not getting enough out of borrowing all this money in the end—fighting an expensive war with tremendous unseen long-term costs to follow, ignoring the staggering costs of our health care system and entitlements, paying huge interest costs on our debt, in large part to foreign countries. These are hardly worthy uses of deficit spending.

In 2003, the Bush administration and Congress passed a new entitlement program called Medicare Part D. It is very popular, but we never paid a dime for it. They also chose two tax cuts for people who needed them least over fiscal discipline. They ignored skyrocketing mandatory spending. They created a brandnew bureaucracy and just saddled all of this heavy new weight on America's national debt.

In short, Washington was unwilling to ask the American people to pay for any of its investments—they put it on our children's shoulders instead.

And the tragedy of this incredible mismanagement is, it didn't work. Our economy plunged into its deepest hole since the Great Depression.

Fortunately, earlier this year, the House rightly passed new statutory Pay-Go. The Senate should pass Pay-Go too. That's why today, Senator McCASKILL and I introduced Pay-Go. We believe that Pay-Go is one important way to make sure that our fiscal situation doesn't get any worse. Pay-Go is not a magic bullet, but it is part of the answer to our fiscal woes.

Once Pay-Go is in place though, we cannot stop there. Pay-Go will help us stop digging. But we also need to budget for the future, stop running large deficits and fill this fiscal hole completely. I am optimistic that this can be done, and it will take bipartisan commitment and discipline.

One place to start is with the growth of our yearly spending. Like Pay-Go, the yearly spending of Congress has also been done before, and it has worked.

That is why today I am introducing separate legislation, the Deficit Reduction Act of 2009, that would create yearly limits on discretionary spending. By pairing these discretionary spending limits with Pay-Go, we can start to make a substantial change in how Washington does business.

But it is not enough just to limit new spending across the board. Much of the reason that we are running such large deficits, is that we have made long-term spending commitments, called mandatory spending. To truly reverse the totality of our disastrous fiscal course, we must be willing to address rapidly expanding mandatory commitments too.

The best way—you know, it is funny, when you use the word "mandatory." It is the word that should be used to express what this debt burden is we are putting on our kids. It will be mandatory that they pay that back before they make decisions about how to educate their own children; before they make decisions about how to provide individual health care in this country or make other kinds of investments all across the United States, in transportation or in new economies. What will be mandatory as we fall farther and farther behind in this global economy—what will be mandatory for them is to pay the bill left behind by their mothers and fathers.

The best way to get Congress to take a hard look at mandatory spending, is to place a flexible cap on our annual deficits. That's the other main component of what my new legislation would do. The cap in the Deficit Reduction Act is realistic—it would impose limits that are consistent with what economists believe we can sustain. This deficit limit is flexible—providing an exception when we are in a recession.

Here is how the deficit limit would work. Whatever the gross domestic product is in a given year, Congress must limit the deficit to 3 percent of the GDP or less. Economists tell us

that this 3 percent number is sustainable over time, and that is a reasonably healthy ceiling. Now of course we should push to do better than running a deficit that is 3 percent of GDP. But this is a good starting point at setting and adhering to a budget. We would all clap if the deficits of today—12 or 13 percent of GDP—were 3 percent, and no one would clap louder than our children.

Under my legislation, if Congress failed to meet these deficit control requirements, the government would have to impose an across the board cut called a sequestration. Certain programs such as Social Security and veterans programs would not be subject to cuts. Yet most of the government's functions would be. The goal, of course, is to avoid this drastic measure by forcing Congress to plan ahead, and forcing Congress to pay attention to the deficit when it makes its spending choices.

Deficit limits make perfect sense during most years. But, as we have learned during this recession, an infusion of public funds can jolt a frozen economy and help turn that economy around. Running temporary deficits can kickstart a stagnant economy. But this only works if during healthy economic times, you also reduce government spending. The deficit limits I am proposing in this legislation would put Congress on a gradual track back to solid fiscal footing.

We should immediately enact budget reform proposals like Pay-Go discretionary spending limits and deficit limits. The CBO has concluded that after 2019, the rate at which we accumulate debt will continue to accelerate due to the aging of the population and increased health care costs. As angry as we all are with the excessive leverage in the private marketplace over the past decade that contributed to the market crashing, it is also obvious that Washington set a very bad example.

Let's put an end to these unsound fiscal practices. Let's not put our kids in the kind of situation we have inherited. Let's not make matters even worse, and the policy decisions regarding the national debt even harder for our kids.

What we need now is leadership and cooperation; not more shifting costs to our kids. The Congressional Budget Office estimates that if we remain on our current course, the total debt owed by the public will stand at over \$17 trillion by the end of fiscal year 2019—only 10 years from today.

The point is that linked with our growing debt are the dreams and the plans of millions of American families. There is nothing fun about tightening our belt and cutting popular programs. I don't like it any more than anyone else who is here. Yet there are plenty of encouraging signs that this Congress and this President can stand together

and do exactly that. Recently, just a couple of weeks ago, the Senate stood with the President for fiscal discipline and slashed nearly \$2 billion from an outdated weapons system. That is a good start that I gladly supported. But so much more is left to do.

Coloradans already know we are in a bad way. People in my State are well aware that the excesses in recent years are catching up to us, and they know that Congress and the President have to make hard fiscal choices, reform health care before it eats up our entire budget, and pay for our reform efforts.

This challenging outlook may be just what it takes to bring both political parties to the negotiating table. Paired with Pay-Go, it is my hope that this new legislation can be a real starting point for meaningful fiscal negotiations. It is time we come up with an intelligent framework of fiscal management, that keeps Congress thinking ahead each time it makes a decision, and each time it puts together an annual budget, and each time it is faced with America's long-term fiscal trajectory.

Washington's fiscal mess was created over many years, and we won't solve the problem overnight. But this bill would give Congress and the President a guidepost to make the decisions necessary to get our budget under control. It would set a strong and binding standard for us to act responsibly.

We must start with what unites us. When I worry about what type of country we will leave my daughters and all of our young people, I know that others who vote differently than I do have the same worries. We owe more to our kids than to leave them a huge national debt and no plan to get out of it.

If we don't start making difficult decisions soon, we will be limiting our children's ability to make our country a better place, before they even get started. We will be limiting their ability to invest in education, life-saving scientific research, or new technologies that form the foundation of economic growth. We will be limiting their ability to defend the Nation during future times of war that we can't even think of today. And we will be limiting their chances of having a quality of life even better than what our parents and grandparents left to us.

If we fail to confront the tough issues so we can control the cost of health care, we will have squandered this narrow window of opportunity. If we fail to step up to the plate and pass a fiscally sound health care reform bill, this Congress will be remembered for years to come as having let down the country. If we fail—not just to stop digging this deep fiscal hole, but to put a process in place for climbing back up to solid fiscal footing—we will have failed to perform as the stewards of our children's dreams.

Let's stand together, with our President and with American families. Let's

get health care reform done responsibly, let's take action to reduce the deficit and debt, and let's put this economy back on track.

By Ms. SNOWE:

S. 1615. A bill to amend the Small Business Act and the Small Business Investment Act of 1958 to stop the small business credit crunch, and for other purposes; to the Committee on Small Business and Entrepreneurship.

Ms. SNOWE. Mr. President, the state of small business lending in the United States is still dire, as was shown during CIT's recent close brush with bankruptcy. One area of lending which has historically helped small firms has been Small Business Administration backed lending, but while the SBA traditionally guarantees \$20 billion in loans annually, before the passage of the stimulus, new lending this year was on track to fall below \$10 billion. In fact, in the first quarter of fiscal year 2009, the number of SBA 7(a) loans dropped by 57 percent when compared with the first quarter of fiscal year 2008.

Last year, to help address the frozen credit market and the drop in SBA lending I introduced the 10 Steps for a Main Street Economic Recovery Act. Many of the provisions in 10 Steps were included in the American Recovery and Reinvestment Act and several have already been credited with helping to increase SBA volume. These include fee reductions for 7(a) and 504 loans and allowing for the refinancing of 504 loans. To ensure that SBA lending remains a critical source of capital for small businesses, we must continue to bolster this program and help it to evolve and grow.

In order to maintain this momentum we must take steps to further reform and improve SBA-backed lending. The legislation I am introducing, the Next Step, builds on the 10 Steps for a Main Street Economic Recovery Act and makes the SBA's lending programs more vital and responsive to the needs of today's small business borrower.

The Next Step includes provisions that would allow borrowers to take out larger 7(a) and 504 loans up to \$5 million. This bill would help satisfy the capital needs of small businesses, looking to start or expand their operations. The bill would also allow for the refinancing of 7(a) loans. Finally, SBA borrowers must have the ability to shop and compare SBA loan rates online. My legislation would establish an online platform through the SBA that would allow borrowers to compare SBA loan rates and make an informed choice, giving borrowers a chance to save time and money.

These targeted reforms included in the Next Step for Main Street Credit Availability Act of 2009 will help bring SBA lending into the future, make the SBA's lending programs competitive

with traditional small businesses' borrowing, and help to increase SBA lending volume.

I urge my colleagues to support this critical legislation to help improve small business lending.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1615

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Next Step for Main Street Credit Availability Act of 2009".

SEC. 2. MAXIMUM AMOUNTS FOR 7(a) LOANS.

Section 7(a)(3)(A) of the Small Business Act (15 U.S.C. 636(a)(3)(A)) is amended by striking "\$1,500,000 (or if the gross loan amount would exceed \$2,000,000)" and inserting "\$4,000,000 (or if the gross loan amount would exceed \$5,000,000)".

SEC. 3. REFINANCING EXISTING 7(a) LOANS.

(a) IN GENERAL.—Section 7(a) of the Small Business Act (15 U.S.C. 636(a)) is amended by adding at the end the following:

"(34) REFINANCING EXISTING LOANS.—A borrower that has received a loan under this subsection may refinance the balance of the loan by applying for a loan from the lender that made the original loan or with another lender."

(b) TECHNICAL AMENDMENT.—Section 7(a) of the Small Business Act (15 U.S.C. 636(a)) is amended by striking "(32) INCREASED" and inserting "(33) INCREASED".

SEC. 4. MAXIMUM LOAN AMOUNTS UNDER 504 PROGRAM.

Section 502(2)(A) of the Small Business Investment Act of 1958 (15 U.S.C. 696(2)(A)) is amended—

(1) in clause (i), by striking "\$1,500,000" and inserting "\$4,000,000";

(2) in clause (ii), by striking "\$2,000,000" and inserting "\$5,000,000"; and

(3) in clause (iii), by striking "\$4,000,000" and inserting "\$5,500,000".

SEC. 5. MAXIMUM LOAN LIMITS UNDER MICROLOAN PROGRAM.

Section 7(m) of the Small Business Act (15 U.S.C. 636(m)) is amended—

(1) in paragraph (1)(B)(iii), by striking "\$35,000" and inserting "\$50,000";

(2) in paragraph (3)(E), by striking "\$35,000" each place it appears and inserting "\$50,000"; and

(3) in paragraph (11)(B), by striking "\$35,000" and inserting "\$50,000".

SEC. 6. ONLINE LENDING PLATFORM.

It is the sense of the Congress that the Administrator of the Small Business Administration should establish a website that—

(1) lists each lender that makes loans guaranteed by the Small Business Administration and provides information about the loan rate of each such lender; and

(2) allows prospective borrowers—

(A) to compare rates on loans guaranteed by the Small Business Administration; and

(B) to apply online for loans guaranteed by the Small Business Administration.

By Ms. CANTWELL:

S. 1616. A bill to authorize assistance to small- and medium-sized businesses to promote exports to the People's Re-

public of China, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Ms. CANTWELL. Mr. President, I rise today to introduce the U.S.-China Market Engagement and Export Promotion Act of 2009. For many small- and medium-sized businesses across this country, some of which are in my home State of Washington, getting access to the Chinese market proves difficult at best. However, to establish a foothold in the ever expanding Chinese market can prove pivotal in achieving financial success. China is a tremendous market for U.S. goods and services. According to the U.S.-China Business Council, despite the global economic downturn, 85 percent of congressional districts increased their exports to China in 2008. In addition, exports to China in almost every congressional district grew more than exports to anywhere else from 2000 to 2008.

In 2008, U.S. total exports to China equaled \$71.5 billion. During the same time, however, our imports from China equaled \$337.8 billion. That means our trading balance with China in 2008 was a \$266.3 billion deficit. This bill would help States establish export promotion offices in China and create a new China Market Advocate Program at U.S. Export Assistance Centers around the Nation. The bill also provides assistance to small businesses for China trade missions and authorizes grants for Chinese business education programs.

I support this bill because of the enormous role that small businesses play in our economy. Small- and medium-sized businesses are a great potential engine of growth. Between 2004 and 2005, small businesses created 78.9 percent of the Nation's net new jobs, and with expanded export opportunities that number will be able to increase in the near future. Considering the huge impact that small- and medium-sized businesses have on our economy, I urge all my colleagues to support this bill and give the business owners the assistance they need to succeed in the Chinese export market.

The U.S.-China Market Engagement and Promotion Act will build the infrastructure necessary to connect American small- and medium-sized businesses with export opportunities in China.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1616

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "United States-China Market Engagement and Export Promotion Act".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title and table of contents.

**TITLE I—PROGRAMS OF THE
DEPARTMENT OF COMMERCE**

Sec. 101. Grants to States to establish and operate offices to promote exports to China.

Sec. 102. Program to establish China market advocate positions in United States Export Assistance Centers.

Sec. 103. Assistance to small- and medium-sized businesses for trade missions to China.

Sec. 104. Plan to consolidate fees for Gold Key matching services in China.

**TITLE II—PROGRAMS OF THE SMALL
BUSINESS ADMINISTRATION**

Sec. 201. Trade outreach at the Office of International Trade of the Small Business Administration.

Sec. 202. Grants for Chinese business education programs.

**TITLE I—PROGRAMS OF THE
DEPARTMENT OF COMMERCE**

**SEC. 101. GRANTS TO STATES TO ESTABLISH AND
OPERATE OFFICES TO PROMOTE EX-
PORTS TO CHINA.**

(a) GRANTS.—The Secretary of Commerce, acting through the Assistant Secretary for Trade Promotion and Director of the United States and Foreign Commercial Service, shall provide grants to States to establish and operate State offices in the People's Republic of China to provide assistance to United States exporters for the promotion of exports to China, with a particular focus on establishment of offices in locations in addition to Beijing and Shanghai.

(b) AMOUNT.—The amount of a grant under subsection (a) shall not exceed 33 percent of the total costs to establish and operate a State office described in such subsection.

(c) REGULATIONS.—Not later than 270 days after the date of the enactment of this Act, the Secretary of Commerce shall promulgate such regulations as may be necessary to carry out this section.

(d) DEFINITIONS.—In this section:

(1) STATE.—The term “State” has the meaning given the term in section 2301(j)(5) of the Export Enhancement Act of 1988 (15 U.S.C. 4721(j)(5)).

(2) UNITED STATES EXPORTER.—The term “United States exporter” has the meaning given the term in section 2301(j)(3) of the Export Enhancement Act of 1988 (15 U.S.C. 4721(j)(3)).

(e) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce \$10,000,000 for each of the fiscal years 2010 through 2014 to carry out this section.

(2) AVAILABILITY.—Amounts appropriated pursuant to the authorization of appropriations under paragraph (1) shall remain available until expended.

**SEC. 102. PROGRAM TO ESTABLISH CHINA MAR-
KET ADVOCATE POSITIONS IN
UNITED STATES EXPORT ASSIST-
ANCE CENTERS.**

(a) PROGRAM AUTHORIZED.—The Secretary of Commerce, in the Secretary's role as chairperson of the Trade Promotion Coordinating Committee, shall establish a program to provide comprehensive assistance to small- and medium-sized businesses in the United States for purposes of facilitating exports to China.

(b) CHINA MARKET ADVOCATES.—

(1) POSITIONS AUTHORIZED.—

(A) IN GENERAL.—The Secretary of Commerce shall create not fewer than 50 China market advocate positions in United States Export Assistance Centers.

(B) APPOINTMENT AND TRAINING.—The China market advocates authorized under subparagraph (A) shall be appointed by the Secretary from among individuals with expertise in matters relating to trade with China and shall receive the training authorized under paragraph (2).

(C) RATE OF PAY.—China market advocates shall be paid at a rate equal to the rate of basic pay for grades GS-10 through GS-13 of the General Schedule under section 5332 of title 5, United States Code.

(D) GEOGRAPHIC DISTRIBUTION.—To the maximum extent practicable, China market advocates shall be assigned to United States Export Assistance Centers in a manner that achieves an equitable geographic distribution of China market advocates among United States Export Assistance Centers.

(2) TRAINING AUTHORIZED.—The Secretary shall provide training to China market advocates in the business culture of China, the market of China, and the evolving political, cultural, and economic environment in China.

(c) SERVICES PROVIDED BY ADVOCATES.—China market advocates authorized under subsection (b) shall provide comprehensive assistance to small- and medium-sized businesses in the United States for purposes of facilitating exports of United States goods to China. Such assistance may include—

(1) assistance to find and utilize Federal and private resources to facilitate entering into the market of China;

(2) continuous direct and personal contact with businesses that have entered the market of China;

(3) assistance to resolve disputes with the Government of the United States or China relating to intellectual property rights violations, export restrictions, and additional trade barriers; and

(4) to the extent practicable, locating and recruiting businesses to enter the market of China.

(d) ADVERTISING OF PROGRAM.—The Secretary of Commerce shall make available to the public through advertising and other appropriate methods information about services offered by China market advocates under the program authorized under subsection (a).

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Commerce to carry out this section \$15,000,000 for each of the fiscal years 2010 through 2014, of which—

(1) \$5,000,000 are authorized to be appropriated to carry out subsection (b)(2); and

(2) \$2,000,000 are authorized to be appropriated to carry out subsection (d).

**SEC. 103. ASSISTANCE TO SMALL- AND MEDIUM-
SIZED BUSINESSES FOR TRADE MIS-
SIONS TO CHINA.**

(a) ASSISTANCE AUTHORIZED.—The Secretary of Commerce, in the Secretary's role as chairperson of the Trade Promotion Coordinating Committee, shall provide assistance through United States Export Assistance Centers to eligible small- and medium-sized businesses in the United States for business-related expenses for trade missions to China.

(b) SELECTION PROCESS.—The Secretary of Commerce shall—

(1) develop a transparent and competitive scoring system for selection of small- and medium-sized businesses to receive assistance authorized under subsection (a) that fo-

cuses on the feasibility of exporting goods and services to China; and

(2) develop specific criteria for a definition of “business-related expenses”, as the term is used in subsection (a), that is compatible with best business practices.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Commerce \$2,000,000 for each of the fiscal years 2010 through 2014 to carry out this section.

**SEC. 104. PLAN TO CONSOLIDATE FEES FOR
GOLD KEY MATCHING SERVICES IN
CHINA.**

(a) PLAN REQUIRED.—As soon as is practicable after the date of the enactment of this Act, the Secretary of Commerce, acting through the Assistant Secretary for Trade Promotion and Director of the United States and Foreign Commercial Service, shall submit to Congress a plan to consolidate fees charged by the Department of Commerce for Gold Key matching services provided to small- and medium-sized businesses that export goods or services produced in the United States to more than one market in China.

(b) GOLD KEY MATCHING SERVICES DEFINED.—In this section, the term “Gold Key matching services” means the Gold Key Service program of the Department of Commerce and includes—

(1) the arrangement of business meetings with pre-screened contacts, representatives, distributors, professional associations, government contacts, or licensing or joint venture partners in a foreign country;

(2) customized market and industry briefings with trade specialists of the Department of Commerce;

(3) timely and relevant market research;

(4) appointments with prospective trade partners in key industry sectors;

(5) post-meeting debriefing with trade specialists of the Department of Commerce and assistance in developing appropriate follow-up strategies; and

(6) assistance with travel, accommodations, interpreter service, and clerical support.

**TITLE II—PROGRAMS OF THE SMALL
BUSINESS ADMINISTRATION**

**SEC. 201. TRADE OUTREACH AT THE OFFICE OF
INTERNATIONAL TRADE OF THE
SMALL BUSINESS ADMINISTRATION.**

Section 22 of the Small Business Act (15 U.S.C. 649) is amended by adding at the end the following new subsections:

“(h) PROMOTION OF EXPORTS TO CHINA.—The Office shall provide strategic guidance to small business concerns with respect to exporting goods and services to China.

“(i) DIRECTOR OF CHINA PROGRAM GRANTS.—

“(1) IN GENERAL.—There shall be in the Office a Director of China Program Grants (in this subsection referred to as the ‘Director’).

“(2) APPOINTMENT.—The Director shall be appointed by the Administrator and shall be an individual with demonstrated successful experience in matters relating to international trade and administering government contracts.

“(3) RATE OF PAY.—The Director shall be paid at a rate equal to or greater than the rate of basic pay for grade GS-14 of the General Schedule under section 5332 of title 5, United States Code.

“(4) DUTIES.—The Director shall be responsible for administering the grant program authorized under section 202 of the United States-China Market Engagement and Export Promotion Act (relating to Chinese business education programs) and any other similar or related program of the Office.”.

SEC. 202. GRANTS FOR CHINESE BUSINESS EDUCATION PROGRAMS.

(a) GRANTS AUTHORIZED.—The Administrator of the Small Business Administration, acting through the Director of China Program Grants in the Office of International Trade, shall make grants to institutions of higher education, or combinations of such institutions, to pay the Federal share of the cost of planning, establishing, and operating education programs described in subsection (b) to—

(1) develop and enhance student skills, awareness, and expertise relating to business in China; and

(2) prepare students to promote the competitiveness of and opportunities for United States small business concerns in China.

(b) EDUCATION PROGRAMS DESCRIBED.—Education programs described in this subsection are academic programs of study relating to business in China, including undergraduate and graduate level degrees, courses, or seminars on—

(1) the economy of China;

(2) trade and commerce in China;

(3) new and expanding export opportunities for United States small business concerns in China; and

(4) the economic, commerce, and trade relations between the United States and China.

(c) APPLICATION.—A small business concern desiring a grant under this section shall submit an application at such time, in such manner, and containing such information as the Director of China Program Grants may require.

(d) DURATION OF GRANTS.—A grant under this section shall be for an initial period not to exceed 2 years. The Director of China Program Grants may renew such grant for additional 2-year periods.

(e) FEDERAL SHARE.—

(1) FEDERAL SHARE.—The Federal share of the cost of an education program described in subsection (b) shall not exceed 50 percent of the cost of such program.

(2) NON-FEDERAL SHARE.—The non-Federal share of the cost of an education program described in subsection (b) may be provided either in cash or in-kind.

(f) DEFINITION.—In this section, the term “institution of higher education” has the meaning given the term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

By Mr. DODD (for himself, Mr. MENENDEZ, Mr. MERKLEY, Mr. BENNET, Mr. AKAKA, and Mr. SCHUMER):

S. 1619. A bill to establish the Office of Sustainable Housing and Communities, to establish the Interagency Council on Sustainable Communities, to establish a comprehensive planning grant program, to establish a sustainability challenge grant program, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. DODD. Mr. President, I rise to introduce the Livable Communities Act.

Our communities are growing and changing. And the way we plan for their futures needs to evolve, as well. At stake is whether or not we will be able to enjoy the places where we live and work without excessive traffic, skyrocketing fuel costs, and sprawling development patterns that eat up our open space.

As our communities grow, people are living farther from jobs, commuting longer distances on more crowded roadways, paying more at the pump at a time when family budgets are stretched thin and putting more greenhouse gases into the air at a time when climate change has emerged as an urgent threat.

We are losing our rural land and open spaces. Transportation costs are making housing less affordable. Even though our communities are growing in size, we are losing the community spirit that makes American towns and cities so great.

It is clear that current trends simply cannot continue.

Sustainable development will cut down on the traffic that has long plagued my home State of Connecticut and connect people with good-paying jobs. Done right, it will protect the environment and help us meet energy goals; protect rural areas and green spaces; revitalize our Main Streets and urban centers; create and preserve affordable housing; and make our communities better places to live, work, and raise families.

But does that mean sustainable development is a transportation issue? An energy issue? A housing issue? An environmental issue?

The answer, of course, is “all of the above,” and unfortunately, that tends to short some circuits here in Washington. Our policy has long been stovepiped within the various agencies responsible for each of the issues affected by planning and development.

In February, I wrote a letter to President Obama urging him to establish a White House Office of Sustainable Development to coordinate housing, transportation, energy, and environmental policies.

I felt confident I would find a partner in the White House. The President has been a strong leader on these issues, and he has shown a willingness to shake up a Federal Government that hasn't always succeeded when it comes to thinking outside the box and addressing related issues in a comprehensive, effective way.

Sure enough, last month I brought together Secretary of Transportation Ray LaHood, Secretary of Housing and Urban Development Shaun Donovan, and Environmental Protection Agency Administrator Lisa Jackson at a Banking Committee hearing—three public servants who don't often find themselves in the same hearing room at the same time.

They brought with them a pledge that the administration would work across agency lines to take a holistic look at development policy—and a firm commitment to livability principles that would serve as the foundation for that policy going forward.

The administration's principles demonstrate a true understanding of the best way forward.

Sustainable development, as grounded in these principles, provides more transportation choices for families, expands access to affordable housing, enhances economic competitiveness by connecting families with jobs and services, targets funding towards existing communities to spur revitalization and protect our open spaces, values the unique character of both our cities and our small towns, and improves collaboration between different government agencies to better leverage our investments.

As Secretary LaHood said at the hearing, we are now all working off the same playbook. But now it is time to snap the ball and move down the field.

Last month the White House announced the selection of Shelley Poticha to head up these efforts. If the Livable Communities Act becomes law, as I hope it will, Ms. Poticha will head a new HUD Office of Sustainable Housing and Communities.

This new office will serve as a clearinghouse for best practices, so that successful initiatives can be easily replicated. And it will give HUD Secretary Donovan, Deputy Secretary Ron Simms, and Ms. Poticha the tools and authority they need to really dig in and become a partner to our communities in creating a sustainable future.

One successful play from our playbook could be modeled after a project in my home State of Connecticut. It links housing and transportation policy, encourages smart land use, generates economic growth, and will reduce our carbon footprint around what's known as the Tri-City Corridor in Connecticut. This proposal would provide commuter and 110-mile-per-hour intercity rail service between New Haven, Hartford, and Springfield, MA, and feature 12 stops, creating “transit villages” and revitalizing local economies.

Already, we are seeing how this proposed service is serving as a catalyst: attracting new business, commuters, and residents, and transforming struggling local economies.

Along the corridor is Meriden, a small city of nearly 60,000 residents located roughly halfway between New Haven and Hartford. In anticipation of a commuter stop on the rail line, the city would like to transform 15 acres of brownfields into new commercial and residential developments, including a public green that doubles as a flood buffer.

Immediately north of that site is the Mills Memorial public housing complex, providing 140 units of affordable housing to low income residents.

By linking transit, housing, and commercial planning, the city of Meriden will be able to transform its downtown into a bustling economic center ready to support a wide range of residents.

The vision of Meriden and so many communities throughout the country

needs the support and planning tools to take these initiatives from idea to action.

So, today, I offer for your consideration legislation that encourages communities across the country to begin planning for more prosperous and livable futures.

In addition to creating the new HUD Office of Sustainable Housing and Communities I mentioned earlier, this bill creates a competitive grant program that States and localities can use to better integrate transportation, housing, land use, and economic development when making long-term planning decisions.

In addition, it provides funding for communities to implement these comprehensive regional plans through a challenge grant program. This program will help communities invest in public transportation, affordable housing, complete streets, transit-oriented development, and redeveloping brownfields.

Finally, this bill creates an Interagency Council on Sustainable Communities to break down the “stovepiping” that exists within the Federal Government and coordinate Federal policies to encourage sustainable development.

In my home State of Connecticut, integrated planning and sustainable development is critical to growing stronger communities.

We have a state-level program called HOMEConnecticut that provides grants to plan Incentive Housing Zones. In these zones, mixed-income housing is built near jobs and transit centers, in downtowns and in redeveloped brownfields. More than 50 cities and towns have either applied for grants or already received them. The investment will pay off in affordable homes, good jobs, and more livable communities.

Like bragging on Connecticut, but I would love to see this success replicated in communities around the Nation. The Obama administration has indicated its commitment to encouraging sustainable development and helping local authorities build a better future. It is time for us to do the same.

I urge my colleagues to join me in support of this important legislation.

By Mr. BINGAMAN (for himself, Ms. SNOWE, Mr. KERRY, and Mr. LUGAR):

S. 1620. A bill to amend the Internal Revenue Code of 1986 to provide tax incentives and fees for increasing motor vehicle fuel economy, and for other purposes; to the Committee on Finance.

Mr. BINGAMAN. Mr. President, as the success of the Cash for Clunkers Program that we are working to extend today makes clear, there is substantial interest among consumers in upgrading the fuel efficiency of their vehicles. In fact, maybe the most surprising thing

about the program thus far has been the higher-than-expected appetite by consumers for the most fuel-efficient vehicles.

It is an encouraging sign, but it remains surprising because it is extraordinarily difficult for a consumer to take into account the real benefits, or costs, of fuel economy. The value of fuel efficiency depends on the unknowable fact of what the price of gasoline is likely to be in future years as well as requiring a calculation to make and apples-to-apples comparison of the costs of ownership at different efficiency levels. This explains why study after study demonstrates that consumers don't fully account for the fuel costs of ownership when they make buying decisions. Decisions that many people regretted making only a few years earlier as gas prices climbed near \$4 per gallon last fall.

This isn't only a problem for consumers. Improving the fuel economy of a vehicle requires significant engineering and new technologies, often adding hundreds or thousands to the manufacturer price of a vehicle; costs consumers have proved unwilling to bear. Faced with this reality, and the uncertainty of recovering their costs from consumers who are unsure of the value of fuel efficiency, car makers have generally thought it is in their best business interests to meet the fuel economy requirements of CAFE but go no further. Even when manufacturers want to go further than the CAFE requirements and produce more efficient vehicles, they are faced with giving up a cost advantage to their competitors by putting on expensive new technologies. For this reason, and to attempt to take into account the very real costs in oil and climate insecurity by our undervaluation of efficiency, Congress has put in a series of incentives for specific technologies such as hybrids, electric-drive, and hydrogen fuel cell vehicles. We have also recently made significant investments in battery manufacturing and vehicle electrification to try and close the significant gap with our global competitors in these technologies.

Although I support those investments to increase our competitiveness in the clean energy technology manufacturing race, unless the domestic marketplace will support them over the long term, they simply won't be enough. I believe the best path to both support our climate and energy goals and enhance our economic competitiveness is to create a set of clear, technology-neutral incentives that can achieve our goals and then let the market and consumers sort out the best technologies.

The Efficient Vehicle Leadership Act of 2009 that I am introducing today with Senators SNOWE, KERRY, and LUGAR provides a long-term pathway forward that will allow consumers to

afford the most fuel efficient vehicles and a clear signal to the manufacturers that they can succeed in the marketplace by incorporating the most advanced fuel efficiency technologies into their new offerings. The bill would provide for fuel performance rebates that would decrease the cost of efficient cars and pay for it by assessing a fuel performance fee to manufacturers for inefficient vehicles to pay for the program.

The rebates and fees would be calculated based on how much more or less fuel-efficient a vehicle is relative to the CAFE standard. The CAFE standard is based on the size, or “footprint”—the interior dimensions of the four wheels of the motor vehicle, so each vehicle would compete with other vehicles of a similar size. The CAFE standard itself becomes more stringent over time, based on the “maximum feasible” fuel efficiency as determined by NHTSA, so the incentives are recast yearly against a higher target. Calculating the rebates and fees based on the CAFE standard allows them to net out, making the overall system revenue neutral and providing a continuing incentive each subsequent year. Thus, the purchasers of fuel efficiency lagards for each size pay to make the most fuel-efficient equivalent vehicles more affordable. The rebate amount must appear on the fuel efficiency sticker and consumers can choose if they want to receive their rebate directly in their tax returns or they can transfer the credit to dealer, as long as the dealer certifies they have given the rebate to the consumer at the point of purchase.

In sum, this bill provides a long-term structure for the automotive sector that provides certainty to manufacturers that the technologies that they must employ to meet the new fuel efficiency requirements will be valued by consumers and, beyond that, rewards and incentivizes innovation in vehicle efficiency to go beyond the CAFE requirements. The technological acumen of the auto industry will be harnessed, with no net impact on safety or comfort, and without distorting the marketplace. Consumers would benefit for years to come from a smaller hit on their wallet at the pump. The United States would benefit overall as we began to curb our appetite for oil.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1620

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; AMENDMENT OF 1986 CODE.

(a) SHORT TITLE.—This Act may be cited as the “Efficient Vehicle Leadership Act of 2009”.

(b) AMENDMENT OF 1986 CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

SEC. 2. TAX CREDIT FOR FUEL-EFFICIENT MOTOR VEHICLES.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 (relating to other credits) is amended by inserting after section 30D the following new section:

“SEC. 30E. FUEL PERFORMANCE REBATE.

“(a) ALLOWANCE OF CREDIT.—

“(1) IN GENERAL.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the amount determined under paragraph (2) with respect to any new qualified fuel-efficient motor vehicle placed in service by the taxpayer during the taxable year.

“(2) CREDIT AMOUNT.—With respect to each new qualified fuel-efficient motor vehicle, the amount determined under this paragraph shall be equal to the product of—

“(A) the absolute value of the difference between the fuel-economy rating and the reference fuel-economy rating for such motor vehicle for the model year, and

“(B) 100, and

“(C) the applicable amount.

“(3) APPLICABLE AMOUNT.—For purposes of paragraph (2)(C), the applicable amount is equal to—

“(A) in the case of model year 2011—

“(i) \$1,000, or

“(ii) \$2,000, if the fuel-economy rating for such motor vehicle is at least 50 percent more efficient than the reference fuel-economy rating for such motor vehicle as determined under paragraph (2)(A), and

“(B) in the case of any succeeding model year—

“(i) \$1,500, or

“(ii) \$2,500, if the fuel-economy rating for such motor vehicle is at least 50 percent more efficient than the reference fuel-economy rating for such motor vehicle as determined under paragraph (2)(A), or

“(iii) \$3,500, if the fuel-economy rating for such motor vehicle is at least 75 percent more efficient than the reference fuel-economy rating for such motor vehicle as determined under paragraph (2)(A).

“(b) NEW QUALIFIED FUEL-EFFICIENT MOTOR VEHICLE.—For purposes of this section, the term ‘new qualified fuel-efficient motor vehicle’ means a passenger automobile or light truck—

“(1) which is treated as a motor vehicle for purposes of title II of the Clean Air Act,

“(2) which achieves a fuel-economy rating that is more efficient than the reference fuel-economy rating for such motor vehicle for the model year,

“(3) for which standards are prescribed pursuant to section 32902 of title 49, United States Code,

“(4) the original use of which commences with the taxpayer,

“(5) which is acquired for use or lease by the taxpayer and not for resale,

“(6) the purchase price of which, less the amount allowable under subsection (a) with respect to such vehicle, does not exceed \$50,000, and

“(7) which is made by a manufacturer beginning with model year 2011.

“(c) APPLICATION WITH OTHER CREDITS.—

“(1) BUSINESS CREDIT TREATED AS PART OF GENERAL BUSINESS CREDIT.—So much of the credit which would be allowed under sub-

section (a) for any taxable year (determined without regard to this subsection) that is attributable to property of a character subject to an allowance for depreciation shall be treated as a credit listed in section 38(b) for such taxable year (and not allowed under subsection (a)).

“(2) REFUNDABLE PERSONAL CREDIT.—

“(A) IN GENERAL.—For purposes of this title, the credit allowed under subsection (a) for any taxable year (determined after application of paragraph (1)) shall be treated as a credit allowable under subpart C for such taxable year (and not allowed under subsection (a)).

“(B) REFUNDABLE CREDIT MAY BE TRANSFERRED.—

“(i) IN GENERAL.—A taxpayer may, in connection with the purchase of a new qualified fuel-efficient motor vehicle, transfer any refundable credit described in subparagraph (A) to any person who is in the trade or business of selling new qualified fuel-efficient motor vehicles and who sold such vehicle to the taxpayer, but only if such person clearly discloses to such taxpayer, through the use of a window sticker attached to the new qualified fuel-efficient vehicle—

“(I) the amount of the refundable credit described in subparagraph (A) with respect to such vehicle, and

“(II) a notification that the taxpayer will not be eligible for any credit under section 30, 30B, or 30D with respect to such vehicle unless the taxpayer elects not to have this section apply with respect to such vehicle.

“(ii) CERTIFICATION.—A transferee of a refundable credit described in subparagraph (A) may not claim such credit unless such claim is accompanied by a certification to the Secretary that the transferee reduced the price the taxpayer paid for the new qualified fuel-efficient motor vehicle by the entire amount of such refundable credit.

“(iii) CONSENT REQUIRED FOR REVOCATION.—Any transfer under clause (i) may be revoked only with the consent of the Secretary.

“(iv) REGULATIONS.—The Secretary may prescribe such regulations as necessary to ensure that any refundable credit described in clause (i) is claimed once and not retransferred by a transferee.

“(d) OTHER DEFINITIONS.—For purposes of this section—

“(1) FUEL-ECONOMY RATING.—The term ‘fuel-economy rating’ means, with respect to any motor vehicle, the combined fuel-economy rating for such motor vehicle, expressed in gallons per mile, determined in accordance with section 32904 of title 49, United States Code.

“(2) MODEL YEAR.—The term ‘model year’ has the meaning given such term under section 32901(a) of such title 49.

“(3) MOTOR VEHICLE.—The term ‘motor vehicle’ means any vehicle which is manufactured primarily for use on public streets, roads, and highways (not including a vehicle operated exclusively on a rail or rails) and which has at least 4 wheels.

“(4) REFERENCE FUEL-ECONOMY RATING.—The term ‘reference fuel-economy rating’ means, with respect to any motor vehicle, the fuel economy standard for such motor vehicle, expressed in gallons per mile, calculated by applying the relevant vehicle attributes to the mathematical function published pursuant to section 32902(b)(3)(A) of title 49, United States Code.

“(5) OTHER TERMS.—The terms ‘automobile’, ‘passenger automobile’, ‘light truck’, and ‘manufacturer’ have the meanings given such terms in regulations prescribed by the Administrator of the Environ-

mental Protection Agency for purposes of the administration of title II of the Clean Air Act (42 U.S.C. 7521 et seq.).

“(e) SPECIAL RULES.—

“(1) BASIS REDUCTION.—For purposes of this subtitle, the basis of any property for which a credit is allowable under subsection (a) shall be reduced by the amount of such credit so allowed (determined without regard to subsection (c)).

“(2) NO DOUBLE BENEFIT.—No other credit shall be allowable under this chapter for a new qualified fuel-efficient motor vehicle with respect to which a credit is allowed under this section.

“(3) PROPERTY USED BY TAX-EXEMPT ENTITY.—In the case of a vehicle whose use is described in paragraph (3) or (4) of section 50(b) and which is not subject to a lease, the person who sold such vehicle to the person or entity using such vehicle shall be treated as the taxpayer that placed such vehicle in service, but only if such person clearly discloses to such person or entity in a document the amount of any credit allowable under subsection (a) with respect to such vehicle (determined without regard to subsection (c)). For purposes of subsection (c), property to which this paragraph applies shall be treated as of a character subject to an allowance for depreciation.

“(4) PROPERTY USED OUTSIDE UNITED STATES, ETC., NOT QUALIFIED.—No credit shall be allowable under subsection (a) with respect to any property referred to in section 50(b)(1) or with respect to the portion of the cost of any property taken into account under section 179.

“(5) RECAPTURE.—The Secretary shall, by regulations, provide for recapturing the benefit of any credit allowable under subsection (a) with respect to any property which ceases to be property eligible for such credit (including recapture in the case of a lease period of less than the economic life of a vehicle).

“(6) ELECTION NOT TO TAKE CREDIT.—No credit shall be allowed under subsection (a) for any vehicle if the taxpayer elects to not have this section apply to such vehicle.

“(7) INTERACTION WITH AIR QUALITY AND MOTOR VEHICLE SAFETY STANDARDS.—A motor vehicle shall not be considered eligible for a credit under this section unless such vehicle is in compliance with—

“(A) the applicable provisions of the Clean Air Act for the applicable make and model year of the vehicle (or applicable air quality provisions of State law in the case of a State which has adopted such provisions under a waiver under section 209(b) of the Clean Air Act), and

“(B) the motor vehicle safety provisions of sections 30101 through 30169 of title 49, United States Code.

“(8) INFLATION ADJUSTMENT.—In the case of any model year beginning in a calendar year after 2010, each dollar amount in subsection (a)(3)(B) shall be increased by an amount equal to—

“(A) such dollar amount, multiplied by

“(B) the cost-of-living adjustment determined under section 1(f)(3) for the calendar year in which the model year begins, determined by substituting ‘2009’ for ‘1992’ in subparagraph (B) thereof.

Any increase determined under the preceding sentence shall be rounded to the nearest multiple of \$100.

“(f) REGULATIONS.—

“(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary shall promulgate such regulations as necessary to carry out the provisions of this section.

“(2) COORDINATION IN PRESCRIPTION OF CERTAIN REGULATIONS.—The Secretary of the Treasury, in coordination with the Secretary of Transportation and the Administrator of the Environmental Protection Agency, shall prescribe such regulations as necessary to determine whether a motor vehicle meets the requirements to be eligible for a credit under this section.”

(b) CREDIT ALLOWED AGAINST ALTERNATIVE MINIMUM TAX.—

(1) BUSINESS CREDIT.—Section 38(c)(4)(B) is amended by redesignating clauses (i) through (viii) as clauses (ii) through (ix), respectively, and by inserting before clause (ii) (as so redesignated) the following new clause:

“(i) the credit determined under section 30E.”

(2) PERSONAL CREDIT.—

(A) Section 24(b)(3)(B) is amended by striking “and 30D” and inserting “30D, and 30E”.

(B) Section 25(e)(1)(C)(ii) is amended by inserting “30E,” after “30D.”

(C) Section 25B(g)(2) is amended by striking “and 30D” and inserting “30D, and 30E”.

(D) Section 26(a)(1) is amended by striking “and 30D” and inserting “30D, and 30E”.

(E) Section 904(i) is amended by striking “and 30D” and inserting “30D, and 30E”.

(c) DISPLAY OF CREDIT.—Section 32908(b)(1) of title 49, United States Code, is amended—

(1) by redesignating subparagraphs (E) and (F) as subparagraphs (F) and (G), and

(2) by inserting after subparagraph (D) the following new subparagraph:

“(E) the amount of the fuel-efficient motor vehicle credit allowable with respect to the sale of the automobile under section 30E of the Internal Revenue Code of 1986 (26 U.S.C. 30E).”

(d) CONFORMING AMENDMENTS.—

(1) Section 38(a) is amended by striking “plus” at the end of paragraph (34), by striking the period at the end of paragraph (35) and inserting “, plus”, and by adding at the end the following new paragraph:

“(36) the portion of the fuel performance rebate to which section 30E(c)(1) applies.”

(2) Section 1016(a) is amended by striking “and” at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting “, and”, and by adding at the end the following new paragraph:

“(38) to the extent provided in section 30E(e)(1).”

(3) Section 6501(m) is amended by inserting “30E(e)(6),” after “30D(e)(4).”

(4) The table of section for subpart C of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 30D the following new item:

“Sec. 30E. Fuel performance rebate.”

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act.

SEC. 3. FUEL PERFORMANCE FEE.

(a) IN GENERAL.—Section 4064 is amended to read as follows:

“SEC. 4064. FUEL PERFORMANCE FEE.

“(a) IMPOSITION OF TAX.—

“(1) IN GENERAL.—There is hereby imposed on the sale by the manufacturer of each fuel guzzler motor vehicle a tax equal to the product of—

“(A) the absolute value of the difference between the fuel-economy rating and the reference fuel-economy rating for such motor vehicle for the model year, and

“(B) 100, and

“(C) the applicable amount.

“(2) APPLICABLE AMOUNT.—For purposes of paragraph (1)(C), the applicable amount is equal to—

“(A) \$1,500, or

“(B) \$2,500, if the fuel-economy rating for such motor vehicle is more than 50 percent less efficient than the reference fuel-economy rating for such motor vehicle as determined under paragraph (1)(A), or

“(C) \$3,500, if the fuel-economy rating for such motor vehicle is more than 75 percent less efficient than the reference fuel-economy rating for such motor vehicle as determined under paragraph (1)(A).

“(b) FUEL GUZZLER MOTOR VEHICLE.—For purposes of this section—

“(1) IN GENERAL.—The term ‘fuel guzzler motor vehicle’ means a passenger automobile or light truck—

“(A) which is treated as a motor vehicle for purposes of title II of the Clean Air Act,

“(B) which achieves a fuel-economy rating that is less efficient than the reference fuel-economy rating for such motor vehicle for the model year,

“(C) which has a gross vehicle weight rating of not more than 8,500 pounds, and

“(D) which is made by a manufacturer beginning with model year 2013.

“(2) EXCEPTION FOR EMERGENCY VEHICLES.—The term ‘fuel guzzler motor vehicle’ does not include any vehicle sold for use and used—

“(A) as an ambulance or combination ambulance-hearse,

“(B) by the United States or by a State or local government for police or other law enforcement purposes, or

“(C) for other emergency uses prescribed by the Secretary by regulations.

“(c) OTHER DEFINITIONS.—For purposes of this section—

“(1) FUEL-ECONOMY RATING.—The term ‘fuel-economy rating’ means, with respect to any motor vehicle, the combined fuel-economy rating for such motor vehicle, expressed in gallons per mile, determined in accordance with section 32904 of title 49, United States Code.

“(2) MODEL YEAR.—The term ‘model year’ has the meaning given such term under section 32901(a) of such title 49.

“(3) MOTOR VEHICLE.—The term ‘motor vehicle’ means any vehicle which is manufactured primarily for use on public streets, roads, and highways (not including a vehicle operated exclusively on a rail or rails) and which has at least 4 wheels.

“(4) REFERENCE FUEL-ECONOMY RATING.—The term ‘reference fuel-economy rating’ means, with respect to any motor vehicle, the fuel economy standard for such motor vehicle, expressed in gallons per mile, calculated by applying the relevant vehicle attributes to the mathematical function published pursuant to section 32902(b)(3)(A) of title 49, United States Code.

“(5) OTHER TERMS.—The terms ‘automobile’, ‘passenger automobile’, ‘light truck’, and ‘manufacturer’ have the meanings given such terms in regulations prescribed by the Administrator of the Environmental Protection Agency for purposes of the administration of title II of the Clean Air Act (42 U.S.C. 7521 et seq.).

“(d) INFLATION ADJUSTMENT.—In the case of any model year beginning in a calendar year after 2010, each dollar amount in subsection (a)(2) shall be increased by an amount equal to—

“(1) such dollar amount, multiplied by

“(2) the cost-of-living adjustment determined under section 1(f)(3) for the calendar year in which the model year begins, determined by substituting ‘2009’ for ‘1992’ in subparagraph (B) thereof.

Any increase determined under the preceding sentence shall be rounded to the nearest multiple of \$100.”

(b) CONFORMING AMENDMENTS.—

(1) The heading for part I of subchapter A of chapter 32 is amended by striking “GAS” and inserting “FUEL”.

(2) The table of parts for subchapter A of chapter 32 is amended by striking “Gas” in the item relating to part I and inserting “Fuel”.

(3) The table of sections for part I of subchapter A of chapter 32 is amended by striking “Gas” in the item relating to section 4064 and inserting “Fuel”.

(4) The heading for subsection (d) of section 1016 is amended by striking “GAS GUZZLER TAX” and inserting “FUEL PERFORMANCE FEE”.

(5) The heading for subsection (e) of section 4217 is amended by striking “GAS GUZZLER TAX” and inserting “FUEL PERFORMANCE FEE”.

(6) The heading for subparagraph (B) of section 4217(e)(3) is amended by striking “GAS GUZZLER TAX” and inserting “FUEL PERFORMANCE FEE”.

(7) Section 4217(e) is amended by striking “gas guzzler tax” each place it appears and inserting “fuel performance fee”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to sales of vehicles beginning with model year 2013.

By Mr. SANDERS (for himself and Mr. MERKLEY):

S. 1621. A bill to improve thermal energy efficiency and use, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. SANDERS. Mr. President, today I am pleased to introduce the Thermal Energy Efficiency Act, which I believe can play an important role in moving our Nation toward green job creation and greenhouse gas emissions reductions. I thank Senator MERKLEY for being an original cosponsor on this bill. I also thank the International District Energy Association, the Biomass Energy Resource Center, the American Council for an Energy-Efficient Economy, Sustainable Northwest, and the U.S. Clean Heat and Power Association for working with us to ensure that as we consider comprehensive global warming legislation, we do not forget about energy efficiency and thermal energy.

This legislation addresses two ways of producing and distributing thermal energy, which is a technical term for heat. The legislation focuses on combined heat and power and district energy. Combined heat and power is simple to understand and has great capacity to transform our use of energy and increase large-scale efficiency. It is a fully developed technology, and there is nothing experimental about it. Combined heat and power means that one source of energy can produce electricity and then capture and use the resulting heat for a second purpose: heating homes, schools, offices, and factories. Combined heat and power gets both heat and power from one energy source and can work with fossil fuels or biomass or even waste. Combined heat

and power can offer huge efficiency gains and lower carbon footprints for our powerplants.

District energy can be used together with combined heat and power, or separate from it, in systems designed purely for heating. What district energy does is use heat not just for one building or location but for multiple locations. Just as homes or businesses share electric lines or telephone lines, they can also share a heat source. And sharing a heat source can often be a major source of efficiency.

For too long, Federal energy policy has not focused enough on thermal energy or energy efficiency. We know we can do more. According to the Department of Energy, combined heat and power represents roughly 9 percent of our existing electric power capacity today, but if we moved to 20 percent by 2030, we could avoid 60 percent of the projected growth in carbon dioxide emissions in this country, equivalent to taking more than half of the current passenger vehicles off the road in the United States. Additionally, we could create 1 million new jobs and generate \$234 billion in new investments.

We are talking about real technology that is deployable today. In Copenhagen, district energy provides clean heating to 97 percent of the city. In our own country, in St. Paul, MN, district energy and combined heat and power provide 65 megawatts of thermal energy and 25 megawatts of electricity from renewable urban wood waste. Jamestown, NY, started their district heating project in 1981, and today the system provides 16 megawatts of thermal energy heating. Jamestown's public school district uses district energy and has saved more than 16 percent of their energy use over a 30-month period and saved more than \$500,000 dollars for taxpayers in the process.

We have opportunities to expand this technology all around our Nation. For example, in my home State of Vermont, several of our cities and towns are looking at district energy. In Burlington, VT, we have 50 megawatt powerplant that uses wood chips and wood waste for power. Yet approximately 60 percent of the energy produced by this plant is lost as wasted heat. This is typical of many conventional power plants. If Burlington implemented a district energy system it could use the wasted thermal energy to heat and cool many buildings downtown. The hurdle for Burlington, and many cities and towns, is the upfront capital investment required to build a district energy system.

That is why today I am introducing the Thermal Energy Efficiency Act. We need a stable, long-term funding source for district energy and combined heat and power. This bill would use 2 percent of the revenues derived from auctioning emissions permits under global warming legislation to support hos-

pitals, cities and towns, schools and universities, businesses and industries, and even Federal facilities and military bases as they implement efficient thermal energy systems.

This bill would recognize the important role that efficiency and thermal energy can play in helping our Nation meet our energy security, emissions reduction, and economic goals. As a member of both the Energy and Natural Resources Committee and the Environment and Public Works Committee, I look forward to working with my colleagues to ensure that combined heat and power and district energy are included in comprehensive energy and global warming legislation.

By Mr. FEINGOLD (for himself, Mr. DODD, and Mr. MENENDEZ):

S. 1623. A bill to prohibit the Secretary of the Interior from issuing new Federal oil and gas leases to holders of existing leases who do not diligently develop the land subject to the existing leases or relinquish the leases, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. FEINGOLD. Mr. President, today I am reintroducing legislation that seeks to answer a question more and more Americans are asking in light of our economic woes and our struggle toward energy independence: Why aren't the oil companies developing 65 million acres, or nearly 75 percent, of land that they are leasing from the U.S. Government? Those same companies and some of my colleagues continue to argue that we need to open more Federal lands to drilling and recently have been insisting on opening up part of the Gulf of Mexico off Florida's coast that Congress agreed to keep closed during debate in 2005 for military and security purposes. I would first like to know why the oil companies are not producing on most of the Federal lands they already have under lease.

Last year, at a Senate Judiciary Committee hearing, I had the chance to ask top oil executives just that question. They couldn't come up with a good explanation. In fact, one of the executives told me that they have the manpower and infrastructure to put all their existing leases of Federal lands into oil production.

I find this troubling. No one is talking about pulling oil out of a hat. But with nearly 75 percent of currently leased Federal lands and waters not producing oil and gas, Congress must insist on some accountability. This is why today I am introducing—along with Senators DODD and MENENDEZ—the Responsible Federal Oil and Gas Lease Act, also known as “Use It or Lose It” legislation. This bill says that if oil and gas companies want to lease additional Federal lands, they must either be producing or diligently developing their existing Federal leases, or they have to first give up those leases.

Under my bill, the Department of the Interior is required to establish diligent development benchmarks, which will encourage leaseholders to demonstrate they are taking steps that may lead to oil and gas production. This is a responsible way to increase production and keep the private sector accountable for production of existing Federal resources.

Last fall, the Government Accountability Office issued a report, “Oil and Gas Leasing: Interior Could Do More to Encourage Diligent Development,” that looked at whether enough is being done to ensure oil companies are taking steps to develop Federal oil and gas leases. The report found that the Department of the Interior—whose Minerals Management Service manages offshore leases and Bureau of Land Management manages onshore and National Petroleum Reserve leases—lags behind State and private landowner efforts to encourage development of land leased for oil and gas development. The GAO recommends that the Secretary of the Interior “develop a strategy to evaluate options to encourage faster development of its oil and gas leases.”

Though both MMS and BLM require “reasonable diligence” in developing and producing oil and gas on Federal leases, the GAO found that the Interior Department has not clearly defined what activities or timeframes constitute reasonable diligence—something my bill requires the agency to do. Currently, the GAO concludes that leaseholders, in general, are not required to take actions to develop a lease during the primary term. The only specific diligent development requirement that Interior officials identified to the GAO applies only to lessees of 8-year leases in the Gulf of Mexico and requires drilling to occur before the end of the fifth year or else the lease terminates. However, these leases represent less than 1 percent of the total lease universe.

In addition to the GAO evaluation, the Department of the Interior's Office of the Inspector General issued a report in February 2009 on its investigation of whether oil and gas companies were adequately developing Federal leases and whether the Department of the Interior was ensuring companies bring their leases into production. The inspector general concluded that, while there is no guarantee that a particular lease contains oil and gas in commercial quantities, there are no requirements to ensure lessees are taking steps to reach this conclusion and to ensure the development of leases capable of production. Specifically, the inspector general found there are no requirements for the Department to monitor production progress or compel companies to develop leases and there is no requirement to detail activity on nonproducing leases. My bill will ensure the Federal Government develops

diligent development requirements for oil and gas leases.

With over 100 billion barrels of oil under Federal lands and waters that are being leased or are available for leasing, Congress must properly encourage their development. This won't solve our energy problems—the unfortunate truth is that in today's global market, gas prices are dictated less by our domestic production and more by OPEC's actions. Nevertheless, Congress must ensure appropriate oversight of our Federally leased lands and waters, as we simultaneously reduce our dependence on foreign oil through continuing to be a world leader in oil and gas production, decreasing our demand of oil and gas since we are the No. 1 consumer of both in the world, and pursuing alternative energy sources especially in the transportation sector.

By Mr. WHITEHOUSE:

S. 1624. A bill to amend title 11 of the United States Code, to provide protection for medical debt homeowners, to restore bankruptcy protections for individuals experiencing economic distress as caregivers to ill, injured, or disabled family members, and to exempt from means testing debtors whose financial problems were caused by serious medical problems, and for other purposes; to the Committee on the Judiciary.

Mr. WHITEHOUSE. Mr. President, I rise today to introduce legislation that would help families struggling with medical debts overcome hurdles that under current law make it difficult for them to find relief in the bankruptcy system. With medical costs at an all-time high and the unemployment rate hovering near 10 percent nationwide—and 12.4 percent in my home State of Rhode Island—too many individuals and families struck with injury and illness have no other option but to file for bankruptcy. According to a recent Harvard University study, health care-related costs have been a primary driver of personal bankruptcy filings, contributing to over 62 percent of filings in 2007.

The statistics are as shocking as the personal stories are heartbreaking. Countless Rhode Islanders have written to me during my time in office asking for help with crippling medical costs, and I want to share just two of their stories with you today.

Adam, a 23-year-old from Bristol, recently underwent surgery for cancer. Adam's treatment plan requires him to undergo a CT scan every 2 months. While his insurance initially paid for his health costs, he received word not long after his surgery that his policy was "maxed out" and that he would have to pay \$6,700 out of pocket for an upcoming CT scan. As of today, Adam, a young man just starting his adult life, has \$20,000 in medical debt and reports that he "cannot see any light at the end of the tunnel."

Robert, a veteran and retiree also from Warwick, suffered a major heart attack in November of 2004. Although he had health insurance, Robert was responsible for paying a \$2,000 deductible plus 20 percent of the cost of his care. After 40 years of working and saving, these medical costs wiped him out, and he had to sell his home.

Adam and Robert have both suffered unexpected medical costs that have turned their lives upside down. These Rhode Islanders, like millions of others nationwide, may be forced to file for bankruptcy to get a clean start—but when they do, they will learn that the bankruptcy process can be time consuming and costly and ultimately may not allow them to stay in their homes.

The legislation that I am introducing today, the Medical Bankruptcy Fairness Act of 2009, would help people who because of medical costs have no other choice but to file for bankruptcy. The bill would waive procedural hurdles so that Adam and Robert would have the option of a speedier, less expensive, and more efficient bankruptcy. To begin with, it would waive credit counseling requirements for these debtors. Such requirements have little relevance to people whose debt stems not from poor budgeting but, rather, from uncontrollable medical expenses. The bill would also waive the so-called "means test," making the filing process quicker and less costly and making sure that people have the ability to file to have their debts discharged in chapter 7, as opposed to a chapter 13 plan under which they would have made debt payments for 3 to 5 years.

In addition to removing these procedural hurdles, the Medical Bankruptcy Fairness Act would give people with high levels of medical debt the ability to retain at least \$250,000 in home value through the bankruptcy process. The "homestead exemption" is one of many aspects of bankruptcy law that looks to the laws of the individual States. While filers in some States already have the ability to preserve home equity at this level, a number of States offer homestead exemptions of \$5,000 or less. With the average home price nationwide around \$200,000, the \$250,000 exemption included in this bill will allow the majority of individuals and families crushed by medical debt to keep their homes.

Finally, the bill would eliminate an obstacle that prevents many bankruptcy filers from accessing the chapter 7 bankruptcy system, which as I mentioned earlier is the simplest and most efficient form of bankruptcy. Because attorneys' fees are "discharged" at the end of a chapter 7 bankruptcy, attorneys generally require the upfront payment of fees in chapter 7 proceedings. Many debtors who would be better off filing for a quicker and less costly bankruptcy in chapter 7 are forced to file in chapter 13 because they

don't have enough cash to pay the attorney. The Medical Bankruptcy Fairness Act would make attorneys' fees nondischargeable in chapter 7 bankruptcies, as in chapter 13 bankruptcies, making it easier for debtors to elect the more efficient chapter 7 proceeding.

Before I conclude, I want to acknowledge the hard work of my colleague from Massachusetts, Senator KENNEDY, on the issue of medical debt. Senator KENNEDY offered amendments during the consideration of the 2005 bankruptcy reforms that would have given people struggling with medical debts treatment similar to that which they would get under the Medical Bankruptcy Fairness Act. Unfortunately, those amendments were voted down. I look forward to working with Senator KENNEDY to make sure that we don't miss another opportunity to help Americans struggling with medical debt.

There are people in every State suffering from medical hardship and related debts who would benefit from this legislation. I urge my colleagues to work with me to pass it to Adam and Robert and the millions like them nationwide a clean start in bankruptcy.

By Mr. DODD (for himself and Mr. BINGAMAN):

S. 1625. A bill to amend title II of the Public Health Service Act to provide for an improved method to measure poverty so as to enable a better assessment of the effects of programs under the Public Health Service Act and the Social Security Act, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. DODD. Mr. President, I wish to speak about poverty and, specifically, how we measure it and its influence on millions of Americans.

When we return from the August recess, the Census Bureau will release its annual report documenting the number of Americans living in poverty. But these numbers will provide a flawed picture of poverty in America since they are based almost exclusively on 50-year-old food prices. The bill I am introducing today, the Measuring American Poverty, or MAP, Act, directs the Census to develop a new poverty measure that is based on a more comprehensive definition of need. Improving the poverty measure is not just an academic exercise for statisticians, it is essential in helping us identify and implement effective policies that address this crisis.

Even with an inaccurate measurement, the picture of poverty in America is startling. In 2007, the year for which we have the most recent data, one in eight Americans—and nearly one in five children—didn't have the resources to meet their basic needs: food, clothing, and shelter. Think about that. One in five children in America in

2007 went to bed without even the most basic elements that we take for granted. In my home State of Connecticut, more than 85,000 kids lived in poverty. And that was before the economic downturn in which we now find ourselves. The Center for American Progress estimates that the cost to our Nation of persistent child poverty is \$½ trillion each year. Every year a child stays in poverty reduces future productivity over the course of his or her working life by nearly \$12,000.

But the cost is more than just financial—it is moral. We are judged, Hubert Humphrey famously said, by how we treat those in the shadows of life. And every child who goes to bed hungry, every American who lacks the basic necessities of life, is a mark on our national conscience. As we struggle with the great challenges of our time, the crisis of poverty is growing. More and more Americans find that shadow creeping toward them. The Center on Budget and Policy Priorities estimated that if unemployment were to rise to 9 percent—our current unemployment rate is 9.5 percent, the highest rate in 26 years—the number of Americans in poverty would increase by as many as 10.3 million, and the number of children in poverty would rise by as many as 3.3 million.

To put those numbers in perspective, this recession will add a number of Americans equivalent to the population of Michigan to the current number who live in poverty, which is already equivalent to the population of California. In my home State of Connecticut and across this country, people who have long worked hard to get ahead are falling further behind. Folks who have worked two jobs with an eye toward sending their kids to college are having to choose between purchasing food and medications. They are hoping that a child's hacking cough doesn't turn into something more serious because they can't afford to see a doctor. They are staying up late staring at unpaid bills, wondering how to pay their mortgage when their only incomes from their meager savings and unemployment insurance, wondering what happened to their America dream.

The vast majority of people who are poor do not lack the desire for a better life for themselves and their family. They are not poor in their work ethic, their love for their country and their communities. They are in poverty, but they are not poor in the qualities that we so admire in America. The truth is, many are unlucky and face insurmountable hurdles. For some that hurdle is their inability to pay for higher education. For others it is that they work two jobs and can't read to their kids at night like they want to. And far too many others are struggling to pay their mortgage and are spending all their retirement savings just to keep a roof over their heads.

As many hard-working Americans are engulfed by the shadow of poverty, we remember Hubert Humphrey's admonition, but too often we can't even see into those shadows because the way we measure poverty in America is badly outdated. It is that challenge to which I today urge this body to rise.

Currently, we measure poverty by comparing two numbers: the money a family has, which the census refers to as an "income measure," and the money a family needs to meet its basic needs, which experts call the "poverty threshold." If a family's income measure is less than the threshold, they are counted as poor. It is a simple calculation. But unfortunately both elements—the income measure and the threshold—are flawed.

The poverty threshold was created using data from the 1950s and 1960s. Currently, it is calculated by taking the 1950s cost of emergency foodstuffs—food only for temporary use when funds are low—and multiplying that number by three because in the 1960s, food represented one-third of a family budget. But today, food represents one-sixth or one-seventh of a family's budget. Similarly, a family's cash income before taxes was once an accurate and straightforward way to measure a family's resources. But today, many Americans are subject to both State and Federal income taxes and may face exorbitant health costs or other critical needs which drain their resources. In addition, many women now work outside the home, meaning they now need pay for childcare and for getting to and from work.

And on the other side of the ledger, we now provide many benefits to low income workers that are not cash payments—they are provided through our Tax Code, or like energy assistance programs, paid directly to providers. I have fought throughout my career for programs that lift people out of poverty. Think of the earned-income tax credit, food assistance, housing assistance, home energy assistance, child care assistance—hundreds of billions of dollars spent to help Americans that aren't accounted for when we calculate whether our efforts are working. So, we need a new way to measure both what a family needs and what a family has.

When Mayor Bloomberg decided to tackle poverty in New York City, he started by doing what any successful businessman would—he surveyed the problem. But he discovered that our outdated system of measuring poverty simply didn't allow him to see what was really happening. So the mayor charged his Center for Economic Opportunity with creating a system that would better represent that threshold, as well as a family's resources. They followed the recommendation of the National Academy of Sciences 1995 panel described in "Measuring Poverty: An Improved Approach." The legisla-

tion I offer today also follows these guidelines.

Specifically, this bill—the Measuring American Poverty Act—updates the calculations for both threshold and resources in the Federal poverty measure. The poverty threshold would be based on the current prices of food, clothing, shelter, utilities, and a few basic household expenses. And it would revise the current measurement of income to better reflect the reality that Americans not only must pay taxes but also certain unavoidable expenses like transportation to and from work, childcare, and medical expenses. This revised measure would also include the value of near-cash benefits like energy assistance, food stamps, section 8 housing vouchers, and tax credits such as the earned-income tax credit.

Let me be very clear: this isn't a bill to change eligibility for programs or the allocation of Federal funds. In fact, the bill's text is explicit about that. The MAP Act creates a new measurement. It does not replace the Federal Poverty Line. It does not change eligibility for programs. It will not lead to an unprecedented automatic increase in spending.

What the MAP Act will do is help us to understand the scope of the poverty crisis in America, and to better evaluate the effectiveness of our solutions to it. We have a difficult job ahead of us, as we look to lift Americans out of poverty, provide middle-class families with a strong safety net, and restore the American Dream for working men and women. But we must begin by facing unafraid the true nature and scope of the poverty crisis. I urge my colleagues to join me in support of this legislation.

By Mr. HARKIN:

S. 1627. A bill to improve choices for consumers for vehicles and fuel, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. HARKIN. Mr. President, our national energy situation continues to deteriorate. Volatile petroleum and gasoline prices threaten our economy, and our oil imports are responsible for an incredibly large wealth transfer from America to global oil producers. Our most immediate and visible energy challenge is our dependence on petroleum-derived fuels for transportation, but we also face the need to reduce the greenhouse gases that result principally from fossil fuel production and use. Because our global warming challenge is fundamentally linked to our energy systems, their resolution has a common strategy—to transform our energy sector to one far less dependent on fossil fuels and far more reliant on energy efficiency and domestic renewable energy supplies. This energy transformation strategy also represents a crucial economic recovery

and development opportunity because millions of jobs will be created as we carry out this strategy.

Americans recognize the magnitude and the urgency of our energy challenges. They rightfully expect us to adopt policies to move this energy transition forward. In particular, we need to reduce dependence on oil in transportation, and we have broad agreement on two fundamental approaches—increasing efficiency of vehicles and increasing use of alternative fuels. We mandated more efficient vehicles by passing the Energy Independence and Security Act of 2007, EISA. That bill also mandates a brisk expansion of biofuels production under the renewable fuels standard. However, we also need to expand the number of vehicles that can use these alternative fuels and the number of filling stations selling these biofuels.

Today I am joined by my esteemed colleague, Senator LUGAR of Indiana, in introducing the Consumer Fuels and Vehicles Choice Act of 2009. This bill will expand the number of alternative fuel automobiles at a rapid pace while not imposing undue production cost challenges for our auto manufacturers. It calls for 50 percent of all automobiles manufactured for sale in the United States to be dual-fuel automobiles by 2011. It increases that to 90 percent of all automobiles manufactured for U.S. sales by 2013. These requirements are reasonable because it is known that gasoline automobiles require relatively minor changes in fuel system designs to be able to use blends of gasoline and ethanol which qualify them for dual fuel designation.

This bill also requires that major fuel distributors install blender pumps in increasing numbers of the retail fueling stations carrying their brand name. These blender pumps will be capable of dispensing ethanol and gasoline blends ranging from 0 percent ethanol to 85 percent ethanol. This flexibility in blend choice is expected to be attractive to consumers, including those who want to use regular gasoline for non-automotive engines. This bill also authorizes grants of up to 50 percent of the cost for installing blender pumps and tanks and other infrastructure needed for selling ethanol fuel blends.

Mr. President, the requirements established and assistance authorized in this bill will ensure that the number of dual fuel automobiles and the availability of ethanol fuel blends are expanding apace with the expansion of ethanol production and use in our national fuel supply over the next 15 years and beyond. Taken together, our increasing production of biofuels, our incentives for installation of alternative fuel infrastructure, and this automobile requirement will provide Americans the option of choosing clean, domestically produced fuels for their personal transportation needs in

the future. These steps represent critical components in the transition of our energy systems away from fossil and imported fuels toward the benefits of greater reliance on sustainable domestic fuel sources.

Today I urge my Senate colleagues to join us in taking action to boost the transition to a cleaner, more resilient, and more secure energy economy. I urge their support for this bill and its rapid enactment.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1627

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Consumer Fuels and Vehicle Choice Act of 2009”.

SEC. 2. ENSURING THE AVAILABILITY OF DUAL FUELED AUTOMOBILES AND LIGHT DUTY TRUCKS.

(a) IN GENERAL.—Chapter 329 of title 49, United States Code, is amended by inserting after section 32902 the following:

“§ 32902A. Requirement to manufacture dual fueled automobiles and light duty trucks

“(a) IN GENERAL.—For each model year listed in the following table, each manufacturer shall ensure that the percentage of automobiles and light duty trucks manufactured by the manufacturer for sale in the United States that are dual fueled automobiles and light duty trucks is not less than the percentage set forth for that model year in the following table:

“Model Year	Percentage
Model years 2011 and 2012	50 percent
Model year 2013 and each subsequent model year.	90 percent

“(b) EXCEPTION.—Subsection (a) shall not apply to automobiles or light duty trucks that operate only on electricity.”.

(b) CLERICAL AMENDMENT.—The table of sections for chapter 329 of title 49, United States Code, is amended by inserting after the item relating to section 32902 the following:

“32902A. Requirement to manufacture dual fueled automobiles and light duty trucks.”.

(c) RULEMAKING.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Transportation shall prescribe regulations to carry out the amendments made by this Act.

SEC. 3. BLENDER PUMP PROMOTION.

(a) BLENDER PUMP GRANT PROGRAM.—

(1) DEFINITIONS.—In this subsection:

(A) BLENDER PUMP.—The term “blender pump” means an automotive fuel dispensing pump capable of dispensing at least 3 different blends of gasoline and ethanol, as selected by the pump operator, including blends ranging from 0 percent ethanol to 85 percent denatured ethanol, as determined by the Secretary.

(B) E-85 FUEL.—The term “E-85 fuel” means a blend of gasoline approximately 85 percent of the content of which is ethanol.

(C) ETHANOL FUEL BLEND.—The term “ethanol fuel blend” means a blend of gasoline

and ethanol, with a minimum of 0 percent and maximum of 85 percent of the content of which is denatured ethanol.

(D) SECRETARY.—The term “Secretary” means the Secretary of Energy.

(2) GRANTS.—The Secretary shall make grants under this subsection to eligible facilities (as determined by the Secretary) to pay the Federal share of—

(A) installing blender pump fuel infrastructure, including infrastructure necessary—

(i) for the direct retail sale of ethanol fuel blends (including E-85 fuel), including blender pumps and storage tanks; and

(ii) to directly market ethanol fuel blends (including E-85 fuel) to gas retailers, including inline blending equipment, pumps, storage tanks, and loadout equipment; and

(B) providing subgrants to direct retailers of ethanol fuel blends (including E-85 fuel) for the purpose of installing fuel infrastructure for the direct retail sale of ethanol fuel blends (including E-85 fuel), including blender pumps and storage tanks.

(3) FEDERAL SHARE.—The Federal share of the cost of a project carried out under this subsection shall be 50 percent of the total cost of the project.

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this subsection, to remain available until expended—

(A) \$50,000,000 for fiscal year 2010;

(B) \$100,000,000 for fiscal year 2011;

(C) \$200,000,000 for fiscal year 2012;

(D) \$300,000,000 for fiscal year 2013; and

(E) \$350,000,000 for fiscal year 2014.

(b) INSTALLATION OF BLENDER PUMPS BY MAJOR FUEL DISTRIBUTORS AT OWNED STATIONS AND BRANDED STATIONS.—Section 211(o) of the Clean Air Act (42 U.S.C. 7545(o)) is amended by adding at the end the following:

“(13) INSTALLATION OF BLENDER PUMPS BY MAJOR FUEL DISTRIBUTORS AT OWNED STATIONS AND BRANDED STATIONS.—

“(A) DEFINITIONS.—In this paragraph:

“(i) E-85 FUEL.—The term ‘E-85 fuel’ means a blend of gasoline approximately 85 percent of the content of which is ethanol.

“(ii) ETHANOL FUEL BLEND.—The term ‘ethanol fuel blend’ means a blend of gasoline and ethanol, with a minimum of 0 percent and maximum of 85 percent of the content of which is denatured ethanol.

“(iii) MAJOR FUEL DISTRIBUTOR.—

“(I) IN GENERAL.—The term ‘major fuel distributor’ means any person that owns a refinery and directly markets the output of a refinery.

“(II) EXCLUSION.—The term ‘major fuel distributor’ does not include any person that owns less than 50 retail fueling stations.

“(iv) SECRETARY.—The term ‘Secretary’ means the Secretary of Energy, acting in consultation with the Administrator of the Environmental Protection Agency and the Secretary of Agriculture.

“(B) REGULATIONS.—The Secretary shall promulgate regulations to ensure that each major fuel distributor that sells or introduces gasoline into commerce in the United States through majority-owned stations or branded stations installs or otherwise makes available 1 or more blender pumps that dispense E-85 fuel and ethanol fuel blends (including any other equipment necessary, such as tanks, to ensure that the pumps function properly) for a period of not less than 5 years at not less than the applicable percentage of the majority-owned stations and the branded stations of the major fuel distributor specified in subparagraph (C).

“(C) APPLICABLE PERCENTAGE.—For the purpose of subparagraph (B), the applicable

percentage of the majority-owned stations and the branded stations shall be determined in accordance with the following table:

Applicable percentage of majority-owned stations and branded stations	
Calendar year:	Percent:
2011	10
2013	20
2015	35
2017 and each calendar year thereafter	50.

“(D) GEOGRAPHIC DISTRIBUTION.—

“(i) IN GENERAL.—Subject to clause (ii), in promulgating regulations under subparagraph (B), the Secretary shall ensure that each major fuel distributor described in that subparagraph installs or otherwise makes available 1 or more blender pumps that dispense E-85 fuel and ethanol fuel blends at not less than a minimum percentage (specified in the regulations) of the majority-owned stations and the branded stations of the major fuel distributors in each State.

“(ii) REQUIREMENT.—In specifying the minimum percentage under clause (i), the Secretary shall ensure that each major fuel distributor installs or otherwise makes available 1 or more blender pumps described in that clause in each State in which the major fuel distributor operates.

“(E) FINANCIAL RESPONSIBILITY.—In promulgating regulations under subparagraph (B), the Secretary shall ensure that each major fuel distributor described in that subparagraph assumes full financial responsibility for the costs of installing or otherwise making available the blender pumps described in that subparagraph and any other equipment necessary (including tanks) to ensure that the pumps function properly.

“(F) PRODUCTION CREDITS FOR EXCEEDING BLENDER PUMPS INSTALLATION REQUIREMENT.—

“(i) EARNING AND PERIOD FOR APPLYING CREDITS.—If the percentage of the majority-owned stations and the branded stations of a major fuel distributor at which the major fuel distributor installs blender pumps in a particular calendar year exceeds the percentage required under subparagraph (C), the major fuel distributor shall earn credits under this paragraph, which may be applied to any of the 3 consecutive calendar years immediately after the calendar year for which the credits are earned.

“(ii) TRADING CREDITS.—Subject to clause (iii), a major fuel distributor that has earned credits under clause (i) may sell the credits to another major fuel distributor to enable the purchaser to meet the requirement under subparagraph (C).

“(iii) EXCEPTION.—A major fuel distributor may not use credits purchased under clause (ii) to fulfill the geographic distribution requirement in subparagraph (D).”.

By Mr. UDALL, of Colorado (for himself and Mrs. HAGAN):

S. 1628. A bill to amend title VII of the Public Health Service Act to increase the number of physicians who practice in underserved rural communities; to the Committee on Health, Education, Labor, and Pensions.

Mr. UDALL of Colorado. Mr. President, I rise today to introduce an important piece of legislation on behalf of myself and Senator KAY HAGAN of North Carolina, the Rural Physician Pipeline Act of 2009.

In making my way across my home State, I have listened to rural constituents from all over Colorado, and their message is clear: rural communities are being hit hard by America's health care crisis.

The life expectancy for women in many rural counties across the Nation has declined significantly over the past several decades, and health outcomes for Hispanic, Native American, and other minority populations are at unacceptable levels. Low-income rural Americans in these areas have very few options for affordable access to health care, if they have any at all.

Just over 2 weeks ago, I reached out to health care providers and professionals in rural regions of Colorado that have been most impacted by our ailing health system to hear directly from those on health care's front lines. While there are many factors contributing to the lower health outcomes we are seeing in these regions, including regulatory hurdles and low reimbursement rates for rural clinics and hospitals, the physicians and health professionals I spoke with were pretty clear about the overwhelming culprit: lack of primary care doctors.

Invoking imagery of the black bag toting doctor from decades ago making house calls to treat all that ailed you and your family, primary care physicians are still the lynchpin of our health care system. These physicians are the most familiar to Americans—they are the family doctor, general practitioner, and pediatrician, and they are many times the only point of contact that people have with the health care system. They are the first line of defense for keeping our families healthy.

Unfortunately, as the entire Nation suffers from a shortage of primary care doctors, our rural areas are hit the hardest. For a variety of socioeconomic and resource-related reasons, rural communities struggle to compete with big cities in recruiting from an already scarce pool of doctors. Some of these barriers are inherent to these areas—lack of job opportunities for spouses or a general lack of desire to live the lifestyle offered by our rural communities. But some barriers can be overcome if we use our resources wisely and work toward solutions to break them down, particularly with respect to how we as a nation train and compensate our front line doctors.

Medical school is where we develop and educate our new doctors, yet the 4 years of training they provide more often than not nudge students into more lucrative specialty care or toward practice in higher paying cities. While we certainly rely on our cardiologists, orthopedists, neurologists, and the many other medical specialists to provide the top-notch care that only they are trained to provide, we cannot continue to push students into these areas

to the detriment of primary care. A balance needs to be found.

Today, I am proud to introduce, along with Senator KAY HAGAN of North Carolina, the Rural Physician Pipeline Act of 2009, a bill that I hope can be part of the solution to our rural physician shortage. This legislation would make grants available to medical schools across the country for establishing programs designed to recruit students from rural areas who have a desire to practice in their hometowns. These programs would cultivate and strengthen the rural commitment of these future “homegrown” doctors, provide them the specialized training necessary to excel in the unique environment of sparsely populated regions, and assist them in finding postgraduate training programs that specialize in training doctors for practice in underserved rural communities.

Primary care doctors in rural areas face challenges that urban doctors do not. When a physician is the only health care provider for an entire county, he or she cannot refer patients down the hall to a specialist. The rural training programs encouraged by this bill would give students additional training in pediatrics, emergency medicine, obstetrics, and behavioral health, among other areas, which will allow them to better serve their communities and hopefully lower the disturbing disparities of health outcomes we have seen over the years.

I was prompted to write this bill after seeing the promising results of a similar program at the University of Colorado School of Medicine. Faculty like associate dean for rural health, Dr. Jack Westfall, and rural health track director, Dr. Mark Deutchman, have found that reaching out to rural communities for student recruitment and reinforcing their rural commitment throughout their training is the best way to get them back into the communities that need them most.

My hope is that an expansion of similar programs nationwide will provide a “one, two punch” for the rural physician workforce—it will train more rural doctors, and it will train them better.

I recognize that this legislation would play only a modest role in tackling the immense workforce challenges our health care system faces. We need more equitable payments for low-paid primary care doctors, loan-forgiveness programs must be expanded to allow medical graduates to practice primary care without going into budget-crushing debt, and graduate medical education dollars need to be more flexible so that rural residency programs can be established to train graduates.

Health care reform needs to address these areas.

As my fellow Senators and I depart Washington for our home States to listen to the ideas, needs, and concerns of

our constituents over the remainder of the month. We do so with the knowledge that there is much to accomplish upon our return. And as Congress continues working toward a health reform bill that puts the patient in charge of his or her health care choices, brings costs down, ensures financial sustainability, and brings security and stability for all Americans, there is one other thing we must also insist: health reform will not leave rural America behind.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1628

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Rural Physician Pipeline Act of 2009".

SEC. 2. RURAL PHYSICIAN TRAINING GRANTS.

Part C of Title VII of the Public Health Service Act (42 U.S.C. 293k et seq.) is amended—

(1) after the part heading, by inserting the following:

"Subpart I—Medical Training Generally"; and

(2) by inserting at the end the following:

"Subpart II—Training in Underserved Communities

"SEC. 749. RURAL PHYSICIAN TRAINING GRANTS.

"(a) IN GENERAL.—The Secretary, acting through the Administrator of the Health Resources and Services Administration, shall establish a program to make grants to eligible entities for the purposes of—

"(1) assisting eligible entities in recruiting students most likely to practice medicine in underserved rural communities;

"(2) providing rural-focused training and experience; and

"(3) increasing the number of recent allopathic and osteopathic medical school graduates who practice in underserved rural communities.

"(b) ELIGIBLE ENTITIES.—In order to be eligible to receive a grant under this section, an entity shall—

"(1) be a school of allopathic or osteopathic medicine accredited by a nationally recognized accrediting agency or association approved by the Secretary for this purpose, or any combination or consortium of such schools; and

"(2) submit an application to the Secretary at such time, in such form, and containing such information as the Secretary may require, including a certification that such entity—

"(A) will use amounts provided to the institution to—

"(i) establish and carry out a Rural Physician Training Program described in subsection (d);

"(ii) improve an existing rural-focused training program to meet the requirements described in subsection (d) and carry out such program; or

"(iii) expand and carry out an existing rural-focused training program that meets the requirements described in subsection (d); and

"(B) employs, or will employ within a timeframe sufficient to implement the Pro-

gram (as described by a timetable and supporting documentation in the application of the eligible entity), faculty with experience or training in rural medicine or with experience in training rural physicians.

"(c) PRIORITY.—In awarding grant funds under this section, the Secretary shall give priority to eligible entities that—

"(1) demonstrate a record of successfully training students, as determined by the Secretary, who practice medicine in underserved rural communities;

"(2) demonstrate that an existing academic program of the eligible entity produces a high percentage, as determined by the Secretary, of graduates from such program who practice medicine in underserved rural communities;

"(3) demonstrate rural community institutional partnerships, though such mechanisms as matching or contributory funding, documented in-kind services for implementation, or existence of training partners with interprofessional expertise (such as dental, vision, or mental health services) in community health center training locations or other similar facilities; or

"(4) submit, as part of the application of the entity under subsection (b), a plan for the long-term tracking of where the graduates of such entity are practicing medicine.

"(d) USE OF FUNDS.—

"(1) ESTABLISHMENT.—An eligible entity receiving a grant under this section shall use the funds made available under such grant to—

"(A) establish and carry out a 'Rural Physician Training Program' (referred to in this section as the 'Program');

"(B) improve an existing rural-focused training program to meet the Program requirements described in this subsection and carry out such program; or

"(C) expand and carry out an existing rural-focused training program that meets the Program requirements described in this subsection.

"(2) STRUCTURE OF PROGRAM.—An eligible entity shall—

"(A) enroll no fewer than 10 students per class year into the Program; and

"(B) develop criteria for admission to the Program that gives priority to students—

"(i) who have originated from or lived for a period of 2 or more years in an underserved rural community; and

"(ii) who express a commitment to practice medicine in an underserved rural community.

"(3) CURRICULA.—The Program shall require students to enroll in didactic coursework and clinical experience particularly applicable to medical practice in underserved rural communities, including—

"(A) clinical rotations in underserved rural communities, and in specialties including family medicine, internal medicine, pediatrics, surgery, psychiatry, and emergency medicine;

"(B) in addition to core school curricula, additional coursework or training experiences focused on medical issues prevalent in underserved rural communities, including in areas such as trauma, obstetrics, ultrasound, oral health, and behavioral health; and

"(C) any coursework or clinical experience that—

"(i) may be developed as a result of the Symposium described in subsection (f); or

"(ii) the Secretary finds appropriate.

"(4) RESIDENCY PLACEMENT ASSISTANCE.—Where available, the Program shall assist all students of the Program in obtaining clinical training experiences in locations with post-

graduate programs offering residency training opportunities in underserved rural communities, or in local residency training programs that support and train physicians to practice in underserved rural communities, as well as assist all students of the Program in obtaining postgraduate residency training in such programs.

"(5) PROGRAM STUDENT COHORT SUPPORT.—The Program shall provide and require all students of the Program to participate in social, educational, and other group activities designed to further develop, maintain, and reinforce the original commitment of such students to practice in an underserved rural community.

"(e) ANNUAL REPORTING REQUIREMENT.—On an annual basis, an eligible entity receiving a grant under this section shall submit a report to the Secretary on—

"(1) the overall success of the Program established by the entity, based on criteria the Secretary determines appropriate;

"(2) the number of students participating in the Program;

"(3) the number of graduating students who participated in the Program;

"(4) the residency program selection of graduating students who participated in the Program;

"(5) the number of graduates who participated in the Program who are practicing in underserved rural communities not less than one year after completing residency training; and

"(6) the number of graduates who participated in the Program who are not practicing in underserved rural communities not less than one year after completing residency training.

"(f) RURAL TRAINING PROGRAM SYMPOSIUM.—

"(1) PURPOSES OF SYMPOSIUM.—To assist the Secretary in carrying out the Program and making grant determinations under this section, the Secretary shall convene a Rural Training Program Symposium (referred to in this section as the 'Symposium') to—

"(A) develop best practices that may be incorporated into consideration of applications under subsection (b); and

"(B) establish a network of allopathic and osteopathic medical schools that have developed or will develop rural training programs in accordance with subsection (d).

"(2) COMPOSITION.—The Symposium shall include—

"(A) representatives from eligible entities with existing rural training programs;

"(B) representatives from all eligible entities interested in developing the Program;

"(C) representatives from area health education centers;

"(D) representatives from the Health Resources and Services Administration; and

"(E) any other experts or individuals with experience in practicing medicine in underserved rural communities the Secretary determines appropriate.

"(g) REGULATIONS.—Not later than 60 days after the date of enactment of this section, the Secretary shall by regulation define 'underserved rural community' for purposes of this section.

"(h) SUPPLEMENT NOT SUPPLANT.—Any eligible entity receiving funds under this section shall use such funds to supplement, not supplant, any other Federal, State, and local funds that would otherwise be expended by such entity to carry out the activities described in this section.

"(i) MAINTENANCE OF EFFORT.—With respect to activities for which funds awarded under this section are to be expended, the entity shall agree to maintain expenditures of

non-Federal amounts for such activities at a level that is not less than the level of such expenditures maintained by the entity for the fiscal year preceding the fiscal year for which the entity receives a grant under this section.

“(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated—

“(1) to carry out this section (other than subsection (f))—

“(A) \$4,000,000 for fiscal year 2010;

“(B) \$8,000,000 for fiscal year 2011;

“(C) \$12,000,000 for fiscal year 2012;

“(D) \$16,000,000 for fiscal year 2013; and

“(2) to carry out subsection (f), such sums as may be necessary.”.

By Mr. ROCKEFELLER (for himself and Mr. FRANKEN):

S. 1630. A bill to amend title XVIII of the Social Security Act of improve prescription drug coverage under Medicare part D and to amend the Public Health Service Act, the Employee Retirement Income Security Act of 1974, and the Internal Revenue Code of 1986 to improve prescription drug coverage under private health insurance, and for other purposes; to the Committee on Finance.

Mr. ROCKEFELLER. Mr. President, I rise today with the newest esteemed Member of this Chamber, Senator AL FRANKEN, to introduce the Affordable Access to Prescription Medications Act of 2009. I think this is the first bill we have introduced together, and I look forward to working with him again in the future. The legislation we are introducing today is a critically important bill—one that protects all Americans from high out-of-pocket spending on prescription drugs.

With each passing year, Americans are paying more for their health care. Rising out-of-pocket costs are problematic for all patient populations, but are particularly burdensome for chronically ill and low-income individuals. The health insurance premiums and out-of-pocket costs for those below the federal poverty level are huge, with 28 percent paying more than ten percent of their income. Overall, out-of-pocket spending for individuals insured in the private insurance market is large and rapidly growing, with an increase of 45 percent between 2001 and 2006.

Prescription drugs represent the highest out-of-pocket cost for patients, comprising almost 31 percent of total out-of-pocket spending. The higher the out-of-pocket cost, the fewer individuals fill their needed medications. In fact, about 20 percent of individuals with out-of-pocket spending greater than \$250 a month do not fill their prescriptions and, thereby further exacerbate their conditions. Out-of-pocket expenses are only getting worse, especially as prescription drug costs increase. A 2009 survey found that 53 percent of Americans have cut back on health care spending in the last twelve months, as the economy has worsened.

In Medicare specifically, beneficiaries enrolled in a prescription drug

plan in 2007 spent \$38 a month, on average, for prescription drug co-payments. However, for those on high-cost medications, the cost burden can be enormous. Ninety percent of Medicare prescription drug plans and ten percent of private insurance plans include what is referred to as a specialty tier for medications costing over \$600 a month. For these medications, enrollees can be asked to pay up to 33 percent of the drug's cost in copayments.

The high cost of treatment, particularly for life-saving and life-sustaining treatment, poses an unreasonable and devastating barrier for sick patients that can force them to delay or entirely forgo necessary treatment. For one West Virginian, the chemotherapy drug he needs to treat his cancer is more than \$13,500 for a 90-day supply. Under his Medicare prescription drug plan, he would have to pay \$4000 of that cost. He didn't have \$4000, so he chose not to be treated.

Another West Virginian with multiple sclerosis contacted my office recently, and told me that the drug to treat her disease, which allows her to continue to work, costs \$1900 a month. Her private insurer changed its policy from a \$20 flat copayment for each prescription to 25 percent co-insurance for each prescription, creating a financial burden for her of \$475 per month. It should come as no surprise that she is struggling to pay this amount every month.

These West Virginians are just a couple of examples of the millions of Americans who pay their health insurance premiums every month for coverage that is supposed to protect them from such enormous financial losses—but, sadly, it does not. Providing access to affordable prescription drugs for the treatment of chronic diseases is critical to improving our nation's health care system, which is why we are introducing this legislation today. The Affordable Access to Prescription Medications Act will go a long way to address the growing problem of catastrophic prescription drug expenses.

First, this bill will establish a \$200 cap on the amount a person could be charged for any one prescription, and a \$500 cap on the total amount an individual could be charged for all prescriptions in any given month. These caps apply to all private and public insurance plans, including Medicare prescription drug plans.

Second, this bill establishes an exceptions process for specialty drugs. Currently, the most expensive prescription drugs in the Medicare prescription drug program that are included on specialty tiers are not subject to beneficiary exemption requests, but for all other Medicare-covered prescription drugs, a beneficiary can request an exemption to allow them access to needed drugs. High-cost, specialty drugs can be difficult to access and this bill

will allow any beneficiary to request any needed prescription drug, including those in specialty tiers, through the exemption process.

Third, this bill requires the Medicare Payment Advisory Commission, MedPAC, to conduct two studies regarding discrimination and cost-sharing. The first study will review Medicare Part B, Part C, and Part D prescription drug policies to make sure they do not violate the non-discrimination rules passed as part of the 2003 Medicare law. Under 2003 law, plans are prohibited from discriminating against individuals based on medical condition. The second study will examine the impact of prescription drug cost-sharing on beneficiaries and their health, particularly for those who have already paid their way through the so-called doughnut hole.

If enacted, this legislation will protect Americans from high out-of-pocket spending on prescription drugs. Based on studies that explain the problem, this bill could potentially lower copayments for 2.5 to 10 percent of Americans with the highest prescription costs. It will protect all Americans from the risk of incurring extraordinarily high prescription drug costs.

The national cap on out-of-pocket spending for prescription drugs will reduce costs for the most vulnerable populations by over 50 percent. Given the rising costs of drugs, the prevalence of new drugs on the market, and the current economic recession, addressing the affordability of prescriptions drugs is vitally important.

We must act now to make prescription drugs more affordable for all Americans, but especially those with chronic diseases. I urge my colleagues to join me in support of this important bill.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1630

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Affordable Access to Prescription Medications Act of 2009”.

SEC. 2. MEDICARE PART D PRESCRIPTION DRUG PLANS.

(a) IN GENERAL.—Section 1860D-2(b)(4) of the Social Security Act (42 U.S.C. 1395w-102(b)(4)) is amended by adding at the end the following new subparagraph:

“(E) ADDITIONAL PROTECTIONS.—

“(i) IN GENERAL.—Notwithstanding any other provision of this part, effective for plan years beginning on or after January 1, 2011, a PDP sponsor of a prescription drug plan and an MA organization offering an MA-PD plan shall, with respect to any copayment or coinsurance requirements applicable to covered part D drugs under the plan, ensure that—

“(I) such required co-payment or coinsurance does not exceed the base cost of the covered part D drug (as determined by the Secretary);

“(II) such required co-payment or coinsurance does not exceed \$200 per month for any single covered part D drug (30-day supply); and

“(III) such required co-payment or coinsurance does not exceed, in the aggregate for all covered part D drugs, \$500 per month.

“(ii) ADJUSTMENTS.—The amounts described in clauses (II) and (III) of clause (i) shall be annually adjusted to reflect the average of the percentage increase or decrease in the Consumer Price Index for all urban consumers (U.S. city average) and the percentage increase or decrease in the medical care component of such Consumer Price Index during the calendar year preceding the year for which the adjustment is being made.”.

(b) EXPANSION OF EXCEPTIONS PROCESS.—Effective for plan years beginning on or after January 1, 2011, the Secretary shall expand the formulary tier exception request process under sections 423.560 through 423.636 of title 42, Code of Federal Regulations (as in effect on the date of enactment of this Act), to allow individuals enrolled in a prescription drug plan under part D of title XVIII of the Social Security Act or an MA–PD plan under part C of such title to request an exception for a specialty prescription drug to a plan's designation of a covered part D drug (as defined in section 1860D–2(e) of such Act (42 U.S.C. 1395w–102(e))) as a non-preferred prescription drug.

(c) MEDPAC STUDIES AND REPORTS.—

(1) STUDY AND REPORT ON THE MEDICARE PART D ANTI-DISCRIMINATION CLAUSE.—

(A) STUDY.—The Medicare Payment Advisory Commission shall conduct a study on various aspects of the prescription drug program under part D of title XVIII of the Social Security Act and, to the greatest extent practicable, the interaction of such program with Medicare beneficiary access to covered drugs under part B of such title. Such study shall include the following:

(i) An analysis of—

(I) the use of specialty tiers for covered part D drugs under prescription drug plans and MA–PD plans; and

(II) the effect of such specialty tiers on access to care for Medicare beneficiaries.

(ii) Consideration of the mechanisms described in subparagraph (B) in the context of the provisions of section 1860D–11(e)(2)(D) of the Social Security Act (42 U.S.C. 1395w–111(e)(2)(D)) (in this paragraph referred to as the “Medicare part D anti-discrimination clause”).

(B) MECHANISMS DESCRIBED.—The following mechanisms are described in this subparagraph:

(i) The use of specialty tiers for covered part D drugs under prescription drug plans and MA–PD plans.

(ii) The application of segmented coinsurance or copayment structures to covered part D drugs based on certain categories of such drugs or diagnoses.

(iii) The utilization of other differential benefit structures based on certain conditions and Medicare beneficiaries under prescription drug plans and MA–PD plans, including an analysis of the interaction between such utilization and the effects of such utilization with the Medicare part D anti-discrimination clause.

(C) REPORT.—Not later than 1 year after the date of enactment of this Act, the Medicare Payment Advisory Commission shall

submit to Congress a report containing the results of the study conducted under subparagraph (A), together with recommendations for such legislation and administrative action as the Commission determines appropriate.

(D) REVISED GUIDANCE.—Based on the results of the study conducted under subparagraph (A), the Secretary shall issue revised guidance regarding the use of mechanisms described in subparagraph (B) to all PDP sponsors offering prescription drug plans under part D of title XVIII of the Social Security Act and Medicare Advantage organizations offering MA–PD plans under part C of such title.

(2) STUDY AND REPORT ON COST-SHARING FOR PRESCRIPTION DRUGS UNDER PARTS B AND D.—

(A) STUDY.—The Medicare Payment Advisory Commission shall conduct a study on cost-sharing for prescription drugs under parts B and D of title XVIII of the Social Security Act. Such study shall include an analysis of the impact of eliminating cost-sharing for covered part D drugs for Medicare beneficiaries who—

(i) incur annual out-of-pocket cost-sharing after the initial coverage limit under section 1860D–2(b)(3) of such Act (42 U.S.C. 1395w–102) that exceeds 5 percent of the income of the beneficiary (as determined under section 1860D–14(a)(3)(C) of such Act (42 U.S.C. 1395w–114(a)(3)(C))); and

(ii) do not otherwise qualify for an income-related subsidy under section 1860D–14(a) of such Act (42 U.S.C. 1395w–114(a)) or other extra help or cost-sharing relief.

(B) REPORT.—Not later than 6 months after the date of enactment of this Act, the Medicare Payment Advisory Commission shall submit to Congress a report containing the results of the study conducted under subparagraph (A), together with recommendations for such legislation and administrative action as the Commission determines appropriate.

(3) DEFINITIONS.—In this section:

(A) COVERED PART D DRUG.—The term “covered part D drug” has the meaning given such term in section 1860D–2(e) of the Social Security Act (42 U.S.C. 1395w–102(e)).

(B) MA–PD PLAN.—The term “MA–PD” plan has the meaning given such term in paragraph (9) of section 1860D–41(a) of such Act (42 U.S.C. 1395w–151(a)).

(C) MEDICARE ADVANTAGE ORGANIZATION.—The term “Medicare Advantage organization” has the meaning given such term in section 1859(a)(1) of such Act (42 U.S.C. 1395w–28(a)(1)).

(D) PDP SPONSOR.—The term “PDP sponsor” has the meaning given such term in paragraph (13) of such section 1860D–41(a).

(E) PRESCRIPTION DRUG PLAN.—The term “prescription drug plan” has the meaning given such term in paragraph (14) of such section.

SEC. 3. PRIVATE HEALTH INSURANCE.

(a) GROUP HEALTH PLANS.—

(1) PUBLIC HEALTH SERVICE ACT AMENDMENTS.—

(A) IN GENERAL.—Subpart 2 of part A of title XXVII of the Public Health Service Act is amended by adding at the end the following new section:

“SEC. 2708. PROVISIONS RELATING TO PRESCRIPTION DRUGS.

“(a) IN GENERAL.—A group health plan, and a health insurance issuer offering group health insurance coverage, that provides coverage for prescription drugs shall, with respect to any co-payment or coinsurance requirements applicable to such drug coverage, ensure that—

“(1) such required co-payment or coinsurance does not exceed the base cost of the prescription drug (as determined by the Secretary);

“(2) such required co-payment or coinsurance does not exceed \$200 per month for any single prescription drug (30-day supply); and

“(3) such required co-payment or coinsurance does not exceed, in the aggregate for all prescription drugs, \$500 per month.

“(b) ADJUSTMENTS.—The amounts described in paragraphs (2) and (3) of subsection (a) shall be annually adjusted to reflect the average of the percentage increase or decrease in the Consumer Price Index for all urban consumers (U.S. city average) and the percentage increase or decrease in the medical care component of such Consumer Price Index during the calendar year preceding the year for which the adjustment is being made.

“(c) NOTICE.—A group health plan under this part shall comply with the notice requirement under section 714(b) of the Employee Retirement Income Security Act of 1974 with respect to the requirements of this section as if such section applied to such plan.”.

(B) CONFORMING AMENDMENT.—Section 2723(c) of such Act (42 U.S.C. 300gg–23(c)) is amended by striking “section 2704” and inserting “sections 2704 and 2708”.

(2) ERISA AMENDMENTS.—

(A) IN GENERAL.—Subpart B of part 7 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 is amended by adding at the end the following new section:

“SEC. 715. PROVISIONS RELATING TO PRESCRIPTION DRUGS.

“(a) IN GENERAL.—A group health plan, and a health insurance issuer offering group health insurance coverage, that provides coverage for prescription drugs shall, with respect to any co-payment or coinsurance requirements applicable to such drug coverage, ensure that—

“(1) such required co-payment or coinsurance does not exceed the base cost of the prescription drug (as determined by the Secretary of Health and Human Services);

“(2) such required co-payment or coinsurance does not exceed \$200 per month for any single prescription drug (30-day supply); and

“(3) such required co-payment or coinsurance does not exceed, in the aggregate for all prescription drugs, \$500 per month.

“(b) ADJUSTMENTS.—The amounts described in paragraphs (2) and (3) of subsection (a) shall be annually adjusted to reflect the average of the percentage increase or decrease in the Consumer Price Index for all urban consumers (U.S. city average) and the percentage increase or decrease in the medical care component of such Consumer Price Index during the calendar year preceding the year for which the adjustment is being made.

“(c) NOTICE.—A group health plan under this part shall comply with the notice requirement under section 714(b) with respect to the requirements of this section as if such section applied to such plan.”.

(B) TABLE OF CONTENTS.—The table of contents in section 1 of such Act is amended by inserting after the item relating to section 714 the following new item:

“Sec. 715. Provisions relating to prescription drugs.”.

(3) INTERNAL REVENUE CODE AMENDMENTS.—

(A) IN GENERAL.—Subchapter B of chapter 100 of the Internal Revenue Code of 1986 is amended by adding at the end the following new section:

"SEC. 9813. PROVISIONS RELATING TO PRESCRIPTION DRUGS.

"(a) IN GENERAL.—A group health plan, and a health insurance issuer offering group health insurance coverage, that provides coverage for prescription drugs shall, with respect to any co-payment or coinsurance requirements applicable to such drug coverage, ensure that—

"(1) such required co-payment or coinsurance does not exceed the base cost of the prescription drug (as determined by the Secretary of Health and Human Services);

"(2) such required co-payment or coinsurance does not exceed \$200 per month for any single prescription drug (30-day supply); and

"(3) such required co-payment or coinsurance does not exceed, in the aggregate for all prescription drugs, \$500 per month.

"(b) ADJUSTMENTS.—The amounts described in paragraphs (2) and (3) of subsection (a) shall be annually adjusted to reflect the average of the percentage increase or decrease in the Consumer Price Index for all urban consumers (U.S. city average) and the percentage increase or decrease in the medical care component of such Consumer Price Index during the calendar year preceding the year for which the adjustment is being made.

"(c) NOTICE.—A group health plan under this part shall comply with the notice requirement under section 714(b) of the Employee Retirement Income Security Act of 1974 with respect to the requirements of this section as if such section applied to such plan."

(B) CLERICAL AMENDMENT.—The table of sections for such subchapter is amended by adding at the end the following new item:

"Sec. 9813. Provisions relating to prescription drugs."

(b) INDIVIDUAL HEALTH INSURANCE.—

(1) IN GENERAL.—Part B of title XXVII of the Public Health Service Act is amended by inserting after section 2752 the following new section:

"SEC. 2754. PROVISIONS RELATING TO PRESCRIPTION DRUGS.

"The provisions of section 2708 shall apply to health insurance coverage offered by a health insurance issuer in the individual market in the same manner as they apply to health insurance coverage offered by a health insurance issuer in connection with a group health plan in the small or large group market."

(2) CONFORMING AMENDMENT.—Section 2762(b)(2) of such Act (42 U.S.C. 300gg-62(b)(2)) is amended by striking "section 2751" and inserting "sections 2751 and 2754".

(c) APPLICATION TO FEHBP.—The amendments made by this section shall apply to the administration of chapter 89 of title 5, United States Code.

By Ms. CANTWELL:

S. 1633. A bill to require the Secretary of Homeland Security, in consultation with the Secretary of State, to establish a program to issue Asia-Pacific Economic Cooperation Business Travel Cards, and for other purposes; to the Committee on Foreign Relations.

Ms. CANTWELL. Mr. President, I rise today to introduce the Asia-Pacific Economic Cooperation, APEC, Business Travel Cards Act of 2009. This bill would authorize the Secretary of Homeland Security and State Department to issue APEC Business Travel

Cards, ABTCs, to business leaders from APEC countries and senior government officials who are actively engaged in APEC business.

The ABTC program has 18 nations participating, including China, Japan and Australia, which are among the world's larger economies. The United States currently recognizes foreign issued ABTC travel cards. Cardholders from non-Visa Waiver Program countries need to present valid passports and those from other countries must still obtain U.S. visas as required by United States law. However, ABTC card holders are allowed to benefit from expedited visa interview scheduling at U.S. embassies and consulates, and expedited immigration processing through airline crew and diplomat immigration lanes upon arrival at U.S. international airports. However, under current law U.S. passport holders are not yet eligible to apply for the ABTC program and therefore do not enjoy these same benefits in Asia-Pacific countries. This bill would require the Secretary of Homeland Security to issue ABTCs to United States citizen business leaders and senior government officials actively engaged in APEC business no later than January 1, 2010.

I support the Asia-Pacific Economic Cooperation Business Travel Cards Act because I have long supported increased free trade with the Asia-Pacific region. International business travel is an essential part of selling goods and services around the world. The 21 member economies of APEC together account for around 53 percent of world GDP and approximately 48 percent of global trade. This bill would help facilitate international cooperation and trade by allowing business leaders within the participating countries to enter countries on an expedited basis for the length of the program, currently three years.

The success of the program has been shown by the amount of applications for travel cards since inception of the program in 1997. From 1997, applications received by participating countries have grown by more than 100 percent each year. By March of last year, there were more than 34,000 cards being used by APEC countries. The Asia-Pacific Economic Cooperation Business Travel Cards Act of 2009 will help facilitate global trade within the Asia-Pacific, and create expanded export opportunities for U.S. businesses. Working to grow U.S. exports will get our economy to grow again and create and maintain U.S. jobs.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1633

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Asia-Pacific Economic Cooperation Business Travel Cards Act of 2009".

SEC. 2. ASIA-PACIFIC ECONOMIC COOPERATION BUSINESS TRAVEL CARDS.

(a) IN GENERAL.—Not later than January 1, 2010, the Secretary of Homeland Security, in consultation with the Secretary of State, shall establish a program called the "APEC Business Travel Program" to issue Asia-Pacific Economic Cooperation Business Travel Cards (ABTC) to eligible United States citizen business leaders and senior United States Government officials actively engaged in Asia-Pacific Economic Cooperation (APEC) business.

(b) INTEGRATION WITH EXISTING TRAVEL PROGRAMS.—The Secretary of Homeland Security shall integrate application procedures for and issuance of ABTC with other appropriate international registered traveler programs of the Department of Homeland Security, such as Global Entry, NEXUS, and SENTRI.

(c) COOPERATION WITH PRIVATE ENTITIES.—In carrying out this section, the Secretary of Homeland Security shall work in conjunction with appropriate private sector entities to ensure that applicants for ABTC satisfy ABTC requirements. The Secretary of Homeland Security may utilize such entities to enroll and issue ABTC to qualified applicants.

(d) FEE.—

(1) IN GENERAL.—The Secretary of Homeland Security may impose a fee for the issuance of ABTC, and may modify such fee from time to time as the Secretary determines appropriate.

(2) LIMITATION.—The Secretary of Homeland Security shall ensure that the total amount of any fees imposed under paragraph (1) in any fiscal year does not exceed the costs associated with carrying out this section in such fiscal year.

(3) CREDITING TO APPROPRIATE ACCOUNT.—Fees collected under paragraph (1) shall be credited to the appropriate account of the Department of Homeland Security and are authorized to remain available until expended.

By Mr. ROCKEFELLER (for himself, Mr. AKAKA, and Mr. BROWN):

S. 1634. A bill to amend titles XVIII and XIX of the Social Security Act to protect and improve the benefits provided to dual eligible individuals under the Medicare and Medicaid programs; to the Committee on Finance.

Mr. ROCKEFELLER. Mr. President, I rise today with my colleagues, Senator AKAKA and Senator BROWN, to introduce the Medicare Prescription Drug Coverage Improvement Act, legislation that makes long overdue improvements to the Medicare prescription drug program, particularly for Medicare beneficiaries who are simultaneously enrolled in Medicaid. Know as "dual eligibles," these individuals are among our nation's most vulnerable populations—and they have been overlooked for far too long.

Approximately 8.8 million Americans are simultaneously enrolled in Medicare and Medicaid, and they are among the sickest and poorest individuals covered by either program. Most dual eligibles are very low-income, in poor

health, and have substantial health care needs. Seventy-one percent of dual eligibles have annual incomes below \$10,000. Over half of all elderly dual eligibles are limited in activities of daily living and, in comparison to other Medicare beneficiaries, are three times more likely to be disabled. Dual eligibles also have higher rates of heart disease, pulmonary disease, diabetes, and Alzheimer's disease than the general Medicare population.

After passage of the Medicare prescription drug law, Members of Congress and health care advocates alike tried for more than a year to work with the Bush administration to prevent prescription drug coverage barriers for dual eligibles and other low-income Medicare beneficiaries. I introduced the Medicare Dual Eligible Prescription Drug Coverage Act of 2005, S. 566, and the Requiring Emergency Pharmaceutical Access for Individual Relief, REPAIR, Act of 2006, S. 2183, to prevent disruptions in coverage for vulnerable seniors and individuals with disabilities.

Unfortunately, effective fail-safe mechanisms were not put into place by the previous administration to address the transition of the dual eligibles to Medicare prescription drug coverage. Consequently, millions of elderly and disabled Medicare recipients continue to experience significant barriers to care.

Health care problems persist for the dually eligible largely because of poor coordination between Medicare and Medicaid—which have two different sets of providers, two different sets of benefits, and two different sets of enrollment policies. The legislation we are introducing today will go a long way to provide dual eligibles with the right care, in the right setting, and at the right time.

Additionally, the Medicare Prescription Drug Coverage Improvement Act will provide more affordable and comprehensive prescription drug coverage for all Medicare beneficiaries.

First, this bill will create a new Federal Coordinated Health Care Office within the Centers for Medicare and Medicaid Services, CMS. The purpose of this new office will be to provide a much more integrated model of care for dual eligibles by coordinating their Medicare and Medicaid benefits.

Second, this bill contains two provisions to help make prescription drugs more affordable and accessible for all Medicare beneficiaries—it allows the Secretary of Health and Human Services to negotiate directly with pharmaceutical companies to lower prescription drug prices and it creates a Medicare-operated prescription drug plan.

The Secretary would be required to implement two or more of the following strategies on an annual basis to reduce the cost of prescription drugs covered by Medicare: direct price nego-

tiation with pharmaceutical manufacturers, additional rebate agreements for Medicare prescription drugs that are consistent with the rebate agreements provided to states for Medicaid, comparative clinical effectiveness data, or prescription drug rates negotiated under the Federal Supply Schedule.

A Medicare-operated prescription drug plan would be created by the Secretary of HHS. This plan would be a stable and affordable option available to all Medicare beneficiaries. This plan would create a robust prescription drug formulary based on patient safety, efficacy and value. The formulary incentive process would be transparent and uniform. An advisory committee would be created to review petitions for drug inclusion and recommend formulary changes. This Medicare-operated plan will create fair-market competition and lead to less costly drug choices for Medicare recipients.

Third, this bill contains significant new requirements for Medicare Advantage Special Needs Plans. These plans serve extremely vulnerable populations, including dual eligibles; yet, they have very few standards that they are required to abide by. The Medicare Prescription Drug Improvement Act will require special needs plans to be accredited by the National Committee for Quality Assurance. Additionally, our legislation requires special needs plans to provide more robust prescription drug coverage, meet uniform standards for data collection and reporting, and offer better care coordination.

Finally, this bill will implement a number of technical fixes to facilitate enrollment in the Medicare prescription drug benefit for those who qualify. State and Federal officials will be required to clearly identify dual eligibles in all databases and electronically file eligibility information, so that these beneficiaries will not continue to fall through the cracks. Pharmacies will use a facilitated point-of-sale enrollment process and automatically enroll certain dual eligible individuals in the Medicare-operated prescription drug plan. New limits on cost-sharing and resource requirements for low-income beneficiaries will also be put into place. Prescription drug cost-sharing for dual eligibles who are using home and community-based services, instead of institutionalized care, will be eliminated.

We are in the midst of discussing sweeping changes to our health care system. In addition to provisions to help the uninsured, health care reform must also include provisions to improve the coverage that people have today. This is especially true for seniors and individuals with disabilities. The Medicare prescription drug program is extremely difficult to navigate and many enrollees are still denied ac-

cess to the prescription drugs that they need. This legislation will make the Medicare prescription drug program much more manageable for seniors and individuals with disabilities, particularly those dually eligible for Medicare and Medicaid.

The time for action is now, and I urge my colleagues to join us in support of this important legislation.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1634

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Medicare Prescription Drug Coverage Improvement Act”.

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—MEDICARE AND MEDICAID IMPROVEMENTS

Sec. 101. Providing Federal coverage and payment coordination for low-income Medicare beneficiaries.

Sec. 102. Creating a Medicare operated prescription drug plan option.

Sec. 103. Accreditation requirement for all specialized Medicare Advantage plans and revisions relating to specialized Medicare Advantage plans for special needs individuals.

Sec. 104. Providing better care coordination for low-income beneficiaries in Medicare part D.

Sec. 105. Improving transition of new dual eligible individuals to Medicare prescription drug coverage and presumptive eligibility for low-income subsidies.

Sec. 106. Required information on transition from skilled nursing facilities and nursing facilities to part D plans.

Sec. 107. Streamlined pharmacy compliance packaging.

Sec. 108. Lowering covered part D drug prices on behalf of Medicare beneficiaries.

Sec. 109. Correction of flaws in determination of phased-down State contribution for Federal assumption of prescription drug costs for dually eligible individuals.

Sec. 110. No impact on eligibility for benefits under other programs.

Sec. 111. Quality indicators for dual eligible individuals.

TITLE II—ADDITIONAL MEDICARE AND MEDICAID IMPROVEMENTS

Subtitle A—Improving the Financial Assistance Available to Low-Income Medicare Beneficiaries

Sec. 201. Improving assets tests for Medicare Savings Program and low-income subsidy program.

Sec. 202. Eliminating barriers to enrollment.

Sec. 203. Elimination of part D cost-sharing for certain non-Institutionalized full-benefit dual eligible individuals.

Sec. 204. Exemption of balance in any pension or retirement plan from resources for determination of eligibility for low-income subsidy.

Sec. 205. Cost-sharing protections for low-income subsidy-eligible individuals.

Subtitle B—Other Improvements

Sec. 211. Enrollment improvements under Medicare parts C and D.

Sec. 212. Medicare plan complaint system.

Sec. 213. Uniform exceptions and appeals process.

Sec. 214. Prohibition on conditioning Medicaid eligibility for individuals enrolled in certain creditable prescription drug coverage on enrollment in the Medicare part D drug program.

Sec. 215. Office of the Inspector General annual report on part D formularies' inclusion of drugs commonly used by dual eligibles.

Sec. 216. HHS ongoing study and annual reports on coverage for dual eligibles.

Sec. 217. Authority to obtain information.

TITLE I—MEDICARE AND MEDICAID IMPROVEMENTS

SEC. 101. PROVIDING FEDERAL COVERAGE AND PAYMENT COORDINATION FOR LOW-INCOME MEDICARE BENEFICIARIES.

(a) ESTABLISHMENT OF FEDERAL COORDINATED HEALTH CARE OFFICE.—

(1) ESTABLISHMENT.—

(A) IN GENERAL.—Not later than October 1, 2009, the Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall establish a Federal Coordinated Health Care Office.

(B) ESTABLISHMENT AND REPORTING TO CMS ADMINISTRATOR.—The Federal Coordinated Health Care Office shall—

(i) be established within the Centers for Medicare & Medicaid Services; and

(ii) report directly to the Administrator of the Centers for Medicare & Medicaid Services.

(2) PURPOSE.—The purpose of the Federal Coordinated Health Care Office is to bring together officials of the Medicare and Medicaid programs at the Centers for Medicare & Medicaid Services in order to—

(A) more effectively integrate benefits under the Medicare program under title XVIII of the Social Security Act and the Medicaid program under title XIX of such Act; and

(B) improve the coordination between the Federal Government and States for individuals eligible for benefits under both such programs in order to ensure that such individuals get full access to the items and services to which they are entitled under titles XVIII and XIX of the Social Security Act.

(3) GOALS.—The goals of the Federal Coordinated Health Care Office are as follows:

(A) Providing dual eligible individuals full access to the benefits to which such individuals are entitled under the Medicare and Medicaid programs.

(B) Simplifying the processes for dual eligible individuals to access the items and services they are entitled to under the Medicare and Medicaid programs

(C) Improving the quality of health care and long-term services for dual eligible individuals.

(D) Increasing beneficiary understanding of and satisfaction with coverage under the Medicare and Medicaid programs.

(E) Eliminating regulatory conflicts between rules under the Medicare and Medicaid programs.

(F) Improving care continuity and ensuring safe and effective care transitions.

(G) Eliminating cost-shifting between the Medicare and Medicaid program and among related health care providers.

(H) Improving the quality of performance of providers of services and suppliers under the Medicare and Medicaid programs.

(4) SPECIFIC RESPONSIBILITIES.—The specific responsibilities of the Federal Coordinated Health Care Office are as follows:

(A) Providing States, specialized MA plans for special needs individuals (as defined in section 1859(b)(6) of the Social Security Act (42 U.S.C. 1395w–28(b)(6)), physicians and other relevant entities or individuals with the education and tools necessary for developing programs that align benefits under the Medicare and Medicaid programs for dual eligible individuals.

(B) Working with the Director of the Congressional Budget Office and the Director of the Office of Management and Budget, and in consultation with the Medicare Payment Advisory Commission and the Medicaid and CHIP Payment and Access Commission, to, not later than January 1, 2011, establish dynamic scoring for benefits for dual eligible individuals to account for total spending and savings for comparable risk groups under the Medicare program.

(C) Supporting State efforts to coordinate and align acute care and long-term care services for dual eligible individuals with other items and services furnished under the Medicare program.

(D) Providing support for coordination of contracting and oversight by States and the Centers for Medicare & Medicaid Services with respect to the integration of the Medicare and Medicaid programs in a manner that is supportive of the goals described in paragraph (3).

(5) REPORT.—The Secretary shall, as part of the budget transmitted under section 1105(a) of title 31, United States Code, submit to Congress an annual report containing recommendations for legislation that would improve care coordination and benefits for dual eligible individuals.

(b) ADDITION OF MEDICAID REPRESENTATIVES TO MEDICARE PAYMENT ADVISORY COMMISSION AND CONSULTATION WITH MEDICAID AND CHIP PAYMENT AND ACCESS COMMISSION.—

(1) ADDITION OF MEDICAID REPRESENTATIVE TO MEDICARE PAYMENT ADVISORY COMMISSION.—Section 1805(c)(2)(B) of the Social Security Act (42 U.S.C. 1395b–6(c)(2)(B)) is amended by adding at the end the following sentence: “Such membership shall also include at least 2 individuals who are nationally recognized for their expertise in financing, benefits, and provider payment policies under the program under title XIX.”

(2) CONSULTATION WITH MEDICAID AND CHIP PAYMENT AND ACCESS COMMISSION.—Section 1805(b) of the Social Security Act (42 U.S.C. 1395b–6(b)) is amended by adding at the end the following new paragraph:

“(9) CONSULTATION WITH MEDICAID AND CHIP PAYMENT AND ACCESS COMMISSION.—In carrying out the duties of the Commission under this subsection, the Commission shall consult with the Medicaid and CHIP Payment and Access Commission established under section 506 of the Children’s Health Insurance Program Reauthorization Act of 2009 (Public Law 111–3) on an ongoing basis.”

(c) MACPAC FUNDING AND TECHNICAL AMENDMENTS.—

(1) FUNDING.—Section 1900(f) of the Social Security Act (42 U.S.C. 1396(f)) is amended—

(A) in the subsection heading, by striking “AUTHORIZATION OF APPROPRIATIONS” and inserting “FUNDING”;

(B) in paragraph (1), by inserting “(other than for fiscal year 2009)” before “in the same manner”; and

(C) by striking paragraph (2) and inserting the following:

“(2) APPROPRIATION.—Out of any funds in the Treasury not otherwise appropriated, there is appropriated to MACPAC \$11,403,000 for fiscal year 2009 to carry out the provisions of this section.

“(3) AUTHORIZATION.—In addition to amounts made available under paragraph (2), there are authorized to be appropriated for fiscal years beginning with fiscal year 2010, such sums as may be necessary to carry out the provisions of this section.

“(4) AVAILABILITY.—Amounts made available under paragraphs (2) and (3) to carry out the provisions of this section shall remain available until expended.”

(2) TECHNICAL AMENDMENTS.—Section 1900(b) of such Act (42 U.S.C. 1396) is amended—

(A) in paragraph (1)(D), by striking “June 1” and inserting “June 15”; and

(B) by adding at the end the following:

“(10) CONSULTATION WITH MEDPAC.—

“(A) IN GENERAL.—MACPAC shall regularly consult with the Medicare Payment Advisory Commission (in this paragraph referred to as ‘MedPAC’) established under section 1805 in carrying out its duties under this section.

“(B) DATA SHARING.—MACPAC and MedPAC shall have unrestricted access to all deliberations, records, and nonproprietary data of the other such entity, respectively, immediately upon the request of the either such entity.”

(d) RULE OF CONSTRUCTION.—Nothing in this section—

(1) requires mandatory integrated care under the Medicare or Medicaid programs under titles XVIII and XIX, respectively, of the Social Security Act;

(2) promotes enrollment in specialized MA plans for special needs individuals (as defined in section 1859(b)(6) of the Social Security Act (42 U.S.C. 1395w–28(b)(6)));

(3) promotes the development of Medicaid managed care for dual eligible individuals; or

(4) prevents dual eligible individuals from electing to remain in the original Medicare fee-for-service option, or the right to make such election being protected.

SEC. 102. CREATING A MEDICARE OPERATED PRESCRIPTION DRUG PLAN OPTION.

(a) MEDICARE OPERATED PRESCRIPTION DRUG PLAN OPTION.—

(1) IN GENERAL.—Subpart 2 of part D of the Social Security Act is amended by inserting after section 1860D–11 (42 U.S.C. 1395w–111) the following new section:

“MEDICARE OPERATED PRESCRIPTION DRUG PLAN OPTION

“SEC. 1860D–11A. (a) IN GENERAL.—Notwithstanding any other provision of this part, for each year (beginning with 2011), in addition to any plans offered under section 1860D–11, the Secretary shall offer one or more Medicare operated prescription drug plans (as defined in subsection (b)) with a service area that consists of the entire United States and shall enter into negotiations in accordance with section 1860D–11A(i) with pharmaceutical manufacturers to reduce the purchase cost of covered part D drugs for eligible part D individuals who enroll in such a plan.

“(b) MEDICARE OPERATED PRESCRIPTION DRUG PLAN DEFINED.—For purposes of this part, the term ‘Medicare operated prescription drug plan’ means a prescription drug plan that offers qualified prescription drug coverage and access to negotiated prices described in section 1860D-2(a)(1)(A).

“(c) MONTHLY BENEFICIARY PREMIUM.—

“(1) QUALIFIED PRESCRIPTION DRUG COVERAGE.—The monthly beneficiary premium for qualified prescription drug coverage and access to negotiated prices described in section 1860D-2(a)(1)(A) to be charged under a Medicare operated prescription drug plan shall be uniform nationally. Such premium for months in 2010 and each succeeding year shall be equal to the product of—

“(A) the beneficiary premium percentage (as specified in section 1860D-13(a)(3)); and

“(B) the average monthly per capita actuarial cost of offering the Medicare operated prescription drug plan for the year involved, including administrative expenses.

“(2) PREMIUM SUBSIDY FOR APPLICABLE SUBSIDY ELIGIBLE INDIVIDUALS.—

“(A) FULL SUBSIDY ELIGIBLE INDIVIDUALS.—In the case of an applicable subsidy eligible individual described in paragraph (4)(A), the individual is entitled under this section to an income-related premium subsidy equal to 100 percent of the monthly beneficiary premium of the Medicare operated prescription drug plan.

“(B) OTHER SUBSIDY ELIGIBLE INDIVIDUALS.—In the case of an applicable subsidy eligible individual described in paragraph (4)(B), the individual is entitled under this section to an income-related premium subsidy determined on a linear sliding scale as follows:

“(i) One hundred percent of the amount described in subparagraph (A) for individuals with incomes at or below 135 percent of such level.

“(ii) Seventy-five percent of such amount for individuals with incomes above 135 percent of such level and at or below 140 percent of such level.

“(iii) Fifty percent of such amount for individuals with incomes above 140 percent of such level and at or below 145 percent of such level.

“(iv) Twenty-five percent of such amount for individuals with incomes above 145 percent of such level and below 150 percent of such level.

“(v) Zero percent of such amount for individuals with incomes at 150 percent of such level.

“(3) COST-SHARING FOR APPLICABLE SUBSIDY ELIGIBLE INDIVIDUALS.—

“(A) FULL-SUBSIDY ELIGIBLE INDIVIDUALS.—In the case of an applicable subsidy eligible individual described in paragraph (4)(A), the provisions of section 1860D-14(a)(1) shall apply, except the premium subsidy under paragraph (2)(A) shall be substituted for the premium subsidy under subparagraph (A) of such section 1860D-14(a)(1); and

“(B) OTHER SUBSIDY ELIGIBLE INDIVIDUALS.—In the case of an applicable subsidy eligible individual described in paragraph (4)(B), the provisions of section 1860D-14(a)(2) shall apply, except the premium subsidy under paragraph (2)(B) shall be substituted for the premium subsidy under subparagraph (A) of such section 1860D-14(a)(2).

“(4) DEFINITION OF APPLICABLE SUBSIDY ELIGIBLE INDIVIDUALS.—For purposes of paragraphs (2) and (3), the term ‘applicable subsidy eligible individual’ means the following:

“(A) FULL-SUBSIDY ELIGIBLE INDIVIDUALS.—

“(i) INDIVIDUALS WITH INCOME BELOW 135 PERCENT OF POVERTY LINE.—Any individual who—

“(I) is enrolled in a Medicare operated prescription drug plan;

“(II) is determined to have income that is below 135 percent of the poverty line applicable to a family of the size involved; and

“(III) meets the resources requirement described in section 1860D-14(a)(3)(E), as amended by section 201 of the Medicare Prescription Drug Coverage Improvement Act.

“(ii) CERTAIN OTHER INDIVIDUALS.—Any individual who is enrolled in a Medicare operated prescription drug plan who—

“(I) is a full-benefit dual eligible individual (as defined in section 1935(c)(6));

“(II) receives benefits under the supplemental security income program under title XVI; or

“(III) is eligible for medical assistance under clause (i), (iii), or (iv) of section 1902(a)(10)(E).

“(B) OTHER SUBSIDY ELIGIBLE INDIVIDUALS.—Any individual who—

“(i) is not described in paragraph (1);

“(ii) is enrolled in a Medicare operated prescription drug plan;

“(iii) is determined to have income that is below 150 percent of the poverty line applicable to a family of the size involved; and

“(iv) meets the resources requirement described in section 1860D-14(a)(3)(E), as amended by section 201 of the Medicare Prescription Drug Coverage Improvement Act.

“(d) USE OF A FORMULARY AND FORMULARY INCENTIVES.—

“(1) USE OF A FORMULARY.—

“(A) IN GENERAL.—With respect to the operation of a Medicare operated prescription drug plan, the Secretary shall establish and apply a formulary (and may include formulary incentives described in paragraph (5)(C)(ii)) in accordance with this subsection in order to—

“(i) increase patient safety;

“(ii) increase appropriate use and reduce inappropriate use of drugs; and

“(iii) reward value.

“(B) DEFAULT INITIAL FORMULARY.—Until such time as the Secretary establishes and applies the initial formulary under paragraph (5), a Medicare operated prescription drug plan shall be required to include all drugs approved for safety and effectiveness as a prescription drug under the Federal Food, Drug, and Cosmetic Act that are covered part D drugs (and may include formulary incentives described in paragraph (5)(C)(ii)).

“(2) REQUIREMENTS FOR FORMULARIES.—The Secretary shall establish a formulary that meets the following requirements:

“(A) Except as provided in subparagraph (B), the formulary includes the covered outpatient drugs of any manufacturer which has entered into and complies with an agreement with the Secretary under this section.

“(B) A covered outpatient drug may be excluded with respect to the treatment of a specific disease or condition for an identified population (if any) only if, based on the drug’s labeling (or, in the case of a drug the prescribed use of which is not approved under the Federal Food, Drug, and Cosmetic Act but is a medically accepted indication (as defined in section 1860D-2(e)(4)), the excluded drug does not have a significant, clinically meaningful therapeutic advantage in terms of safety, effectiveness, or clinical outcome of such treatment for such population over other drugs included in the formulary and there is a written explanation (available to the public) of the basis for the exclusion.

“(C) The Secretary permits coverage of a drug excluded from the formulary pursuant

to a prior authorization program that is consistent with paragraph (3).

“(D) The formulary meets such other requirements as the Secretary may impose in order to achieve program savings consistent with protecting the health of program beneficiaries.

A prior authorization program established under paragraph (3) is not a formulary subject to the requirements of this paragraph.

“(3) REQUIREMENTS OF PRIOR AUTHORIZATION PROGRAMS.—The Secretary may require, with respect to drugs dispensed on or after July 1, 1991, the approval of the drug before its dispensing for any medically accepted indication (as defined in section 1860D-2(e)(4)) only if the system providing for such approval—

“(A) provides response by telephone or other telecommunication device within 24 hours of a request for prior authorization; and

“(B) provides for the dispensing of at least a 72-hour supply of a covered outpatient prescription drug in an emergency situation (as defined by the Secretary).

“(4) OTHER PERMISSIBLE RESTRICTIONS.—The Secretary may impose limitations, with respect to all such drugs in a therapeutic class, on the minimum or maximum quantities per prescription or on the number of refills, if such limitations are necessary to improve patient safety, discourage waste, or address instances of fraud or abuse by individuals in any manner authorized under this Act.

“(5) DEVELOPMENT OF INITIAL FORMULARY.—

“(A) IN GENERAL.—In selecting covered part D drugs for inclusion in a formulary, the Secretary shall consider clinical benefit and price.

“(B) ROLE OF AHRQ.—The Director of the Agency for Healthcare Research and Quality shall be responsible for assessing the clinical benefit of covered part D drugs and making recommendations to the Secretary regarding which drugs should be included in the formulary. In conducting such assessments and making such recommendations, the Director shall—

“(i) consider safety concerns including those identified by the Federal Food and Drug Administration;

“(ii) use available data and evaluations, with priority given to randomized controlled trials, to examine clinical effectiveness, comparative effectiveness, safety, and enhanced compliance with a drug regimen;

“(iii) use the same classes of drugs developed by United States Pharmacopeia for this part;

“(iv) consider evaluations made by—

“(I) the Director under section 1013 of Medicare Prescription Drug, Improvement, and Modernization Act of 2003;

“(II) other Federal entities, such as the Secretary of Veterans Affairs; and

“(III) other private and public entities, such as the Drug Effectiveness Review Project and Medicaid programs; and

“(v) recommend to the Secretary—

“(I) those drugs in a class that provide a greater clinical benefit, including fewer safety concerns or less risk of side-effects, than another drug in the same class that should be included in the formulary;

“(II) those drugs in a class that provide less clinical benefit, including greater safety concerns or a greater risk of side-effects, than another drug in the same class that should be excluded from the formulary; and

“(III) drugs in a class with same or similar clinical benefit for which it would be appropriate for the Secretary to competitively bid (or negotiate) for placement on the formulary.

“(C) CONSIDERATION OF AHRQ RECOMMENDATIONS.—

“(i) IN GENERAL.—Not later than January 1, 2011, the Secretary, after taking into consideration the recommendations under subparagraph (B)(v), shall establish a formulary, and formulary incentives, to encourage use of covered part D drugs that—

“(I) have a lower cost and provide a greater clinical benefit than other drugs;

“(II) have a lower cost than other drugs with same or similar clinical benefit; and

“(III) drugs that have the same cost but provide greater clinical benefit than other drugs.

“(ii) FORMULARY INCENTIVES.—The formulary incentives under clause (i) may be in the form of one or more of the following:

“(I) Tiered copayments.

“(II) Prior authorization.

“(III) Step therapy.

“(IV) Medication therapy management.

“(V) Generic drug substitution.

“(iii) FLEXIBILITY.—In applying such formulary incentives the Secretary may decide not to impose any cost-sharing for a covered part D drug for which—

“(I) the elimination of cost sharing would be expected to increase compliance with a drug regimen; and

“(II) compliance would be expected to produce savings under part A or B or both.

“(iv) DEVELOPMENT OF TRANSPARENT PROCESS TO EXPLAIN FORMULARY INCENTIVES.—Not later than January 1, 2011, the Secretary shall develop and implement a transparent process to identify and explain to beneficiaries formulary incentives under clause (i). Such process shall be designed to assist beneficiaries in understanding how prior authorization requests and other formulary incentives will be evaluated.

“(6) LIMITATIONS ON FORMULARY.—In any formulary established under this subsection, the formulary may not be changed during a year, except—

“(A) to add a generic version of a covered part D drug that entered the market;

“(B) to remove such a drug for which a safety problem is found; and

“(C) to add a drug that the Secretary identifies as a drug which treats a condition for which there has not previously been a treatment option or for which a clear and significant benefit has been demonstrated over other covered part D drugs.

“(7) ADDING DRUGS TO THE INITIAL FORMULARY.—

“(A) USE OF ADVISORY COMMITTEE.—The Secretary shall establish and appoint an advisory committee (in this paragraph referred to as the ‘advisory committee’)—

“(i) to review petitions from drug manufacturers, health care provider organizations, patient groups, and other entities for inclusion of a drug in, or other changes to, such formulary; and

“(ii) to recommend any changes to the formulary established under this subsection.

“(B) COMPOSITION.—The advisory committee shall be composed of 9 members and shall include representatives of physicians, pharmacists, and consumers and others with expertise in evaluating prescription drugs. The Secretary shall select members based on their knowledge of pharmaceuticals and the Medicare and Medicaid populations. Members shall be deemed to be special Government employees for purposes of applying the conflict of interest provisions under section 208 of title 18, United States Code, and no waiver of such provisions for such a member shall be permitted.

“(C) CONSULTATION.—The advisory committee shall consult, as necessary, with phy-

sicians who are specialists in treating the disease for which a drug is being considered.

“(D) REQUEST FOR STUDIES.—The advisory committee may request the Agency for Healthcare Research and Quality or an academic or research institution to study and make a report on a petition described in subparagraph (A)(ii) in order to assess—

“(i) clinical effectiveness;

“(ii) comparative effectiveness;

“(iii) safety; and

“(iv) enhanced compliance with a drug regimen.

“(E) RECOMMENDATIONS.—The advisory committee shall make recommendations to the Secretary regarding—

“(i) whether a covered part D drug is found to provide a greater clinical benefit, including fewer safety concerns or less risk of side-effects, than another drug in the same class that is currently included in the formulary and should be included in the formulary;

“(ii) whether a covered part D drug is found to provide less clinical benefit, including greater safety concerns or a greater risk of side-effects, than another drug in the same class that is currently included in the formulary and should not be included in the formulary; and

“(iii) whether a covered part D drug has the same or similar clinical benefit to a drug in the same class that is currently included in the formulary and whether the drug should be included in the formulary.

“(F) LIMITATIONS ON REVIEW OF MANUFACTURER PETITIONS.—The advisory committee shall not review a petition of a drug manufacturer under subparagraph (A)(ii) with respect to a covered part D drug unless the petition is accompanied by the following:

“(i) Raw data from clinical trials on the safety and effectiveness of the drug.

“(ii) Any data from clinical trials conducted using active controls on the drug or drugs that are the current standard of care.

“(iii) Any available data on comparative effectiveness of the drug.

“(iv) Any other information the Secretary requires for the advisory committee to complete its review.

“(G) RESPONSE TO RECOMMENDATIONS.—The Secretary shall review the recommendations of the advisory committee and if the Secretary accepts such recommendations the Secretary shall modify the formulary established under this subsection accordingly. Nothing in this section shall preclude the Secretary from adding to the formulary a drug for which the Director of the Agency for Healthcare Research and Quality or the advisory committee has not made a recommendation.

“(H) NOTICE OF CHANGES.—The Secretary shall provide timely notice to beneficiaries and health professionals about changes to the formulary or formulary incentives.

“(I) STABILITY OF BENEFIT.—Once a covered part D drug has been added to the formulary established under this subsection, the drug may not be removed from the formulary for at least a 3-year period, unless the Secretary determines there are safety or efficacy concerns with respect to the drug.

“(8) NON-EXCLUDABLE DRUGS.—The following drugs or classes of drugs shall not be excluded from the default initial formulary (as described in paragraph (1)(B)) or the initial formulary established by the Secretary (as described in paragraph (5)):

“(A) Barbiturates.

“(B) Benzodiazepines.

“(e) INFORMING BENEFICIARIES.—

“(1) IN GENERAL.—The Secretary shall take steps to inform beneficiaries about the avail-

ability of a Medicare operated prescription drug plan or plans including providing information in the annual handbook distributed to all beneficiaries and adding information to the official public Medicare website related to prescription drug coverage available through this part.

“(2) SOLE RESPONSIBILITY FOR MARKETING BY THE SECRETARY.—

“(A) IN GENERAL.—The Secretary shall have sole responsibility for marketing Medicare operated prescription drug plans.

“(B) AUTHORIZATION.—There is authorized to be appropriated to the Secretary such sums as are necessary to carry out such marketing.

“(f) APPLICATION OF ALL OTHER REQUIREMENTS FOR PRESCRIPTION DRUG PLANS.—Except as specifically provided in this section, any Medicare operated drug plan shall meet the same requirements as apply to any other prescription drug plan, including the requirements of section 1860D-4(b)(1) relating to assuring pharmacy access.

“(g) AUTOMATIC ENROLLMENT.—The Secretary shall establish procedures to provide for the automatic enrollment of subsidy eligible individuals (as defined in section 1860D-14(a)(3)) in a Medicare operated prescription drug plan in the case where such individuals lose their current prescription drug coverage, become part D eligible individuals, or in instances where the amount of the monthly beneficiary premium under the prescription drug plan the individual is enrolled in is greater than the premium subsidy amount described in section 1860D-14(b).

“(h) RULE OF CONSTRUCTION REGARDING ELIGIBILITY FOR MEDICAL ASSISTANCE.—In no case may enrollment in a Medicare operated prescription drug plan affect the eligibility of an individual to receive medical assistance under a State plan under title XIX.”

(2) EFFECTIVE DATE.—The amendment made by this subsection shall take effect as if included in the enactment of section 101 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003.

(b) CONFORMING AMENDMENTS.—

(1) IN GENERAL.—

(A) Section 1860D-3(a) of the Social Security Act (42 U.S.C. 1395w-103(a)) is amended by adding at the end the following new paragraph:

“(4) AVAILABILITY OF THE MEDICARE OPERATED PRESCRIPTION DRUG PLAN.—A Medicare operated prescription drug plan (as defined in section 1860D-11A(c)) shall be offered nationally in accordance with section 1860D-11A.”

(B)(i) Section 1860D-3 of the Social Security Act (42 U.S.C. 1395w-103) is amended by adding at the end the following new subsection:

“(c) PROVISIONS ONLY APPLICABLE IN 2006, 2007, 2008, AND 2009.—The provisions of this section shall only apply with respect to 2006, 2007, 2008, and 2009.”

(C) Section 1860D-11(g) of such Act (42 U.S.C. 1395w-111(g)) is amended by adding at the end the following new paragraph:

“(8) NO AUTHORITY FOR FALLBACK PLANS AFTER 2009.—A fallback prescription drug plan shall not be available after December 31, 2009.”

(D) Section 1860D-13(c)(3) of such Act (42 U.S.C. 1395w-113(c)(3)) is amended—

(i) in the heading, by inserting “AND MEDICARE OPERATED PRESCRIPTION DRUG PLANS” after “FALLBACK PLANS”; and

(ii) by inserting “or a Medicare operated prescription drug plan” after “a fallback prescription drug plan”.

(E) Section 1860D-14(a) of the Social Security Act (42 U.S.C. 1395w-114(a)) is amended—

(i) in paragraph (1), by striking "In the" and inserting "Subject to section 1860D-11A(c)(2)(A), in the"; and

(ii) in paragraph (2), by striking "In the" and inserting "Subject to section 1860D-11A(c)(2)(B), in the".

(F) Section 1860D-16(b)(1) of such Act (42 U.S.C. 1395w-116(b)(1)) is amended—

(i) in subparagraph (C), by striking "and" after the semicolon at the end;

(ii) in subparagraph (D), by striking the period at the end and inserting "; and"; and

(G) by adding at the end the following new subparagraph:

"(E) payments for expenses incurred with respect to the operation of Medicare operated prescription drug plans under section 1860D-11A.".

(H) Section 1860D-41(a) of such Act (42 U.S.C. 1395w-151(a)) is amended by adding at the end the following new paragraph:

"(19) MEDICARE OPERATED PRESCRIPTION DRUG PLAN.—The term 'Medicare operated prescription drug plan' has the meaning given such term in section 1860D-11A(c)."

(2) EFFECTIVE DATE.—The amendments made by this subsection shall take effect as if included in the enactment of section 101 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003.

SEC. 103. ACCREDITATION REQUIREMENT FOR ALL SPECIALIZED MEDICARE ADVANTAGE PLANS AND REVISIONS RELATING TO SPECIALIZED MEDICARE ADVANTAGE PLANS FOR SPECIAL NEEDS INDIVIDUALS.

(a) ACCREDITATION REQUIREMENT.—Section 1859(f) of the Social Security Act (42 U.S.C. 1395w-28(f)) is amended—

(1) in paragraphs (2)(B), (3)(B), and (4)(B), by striking "paragraph (5)" and inserting "paragraphs (5) and (6)(B)" each place it appears; and

(2) by adding at the end the following new paragraph:

"(6) ACCREDITATION REQUIREMENT FOR ALL SNPS.—

"(A) ESTABLISHMENT OF ACCREDITATION PROGRAM.—Not later than January 1, 2011, the Secretary, acting through the Director of the Agency for Healthcare Research and Quality and the Administrator of the Centers for Medicare & Medicaid Services, shall enter into a contract with the National Committee for Quality Assurance under which the National Committee for Quality Assurance shall develop an accreditation (and re-accreditation) program for all specialized MA plans for special needs individuals (as defined in subsection (b)(6)), including specialized MA plans for special needs individuals described in subsection (b)(6)(B)(ii).

"(B) REQUIREMENT.—The requirement described in this subparagraph is that, effective for plan years beginning on or after January 1, 2012, a specialized MA plan for special needs individuals (as so defined) meet the accreditation standards developed by the National Committee for Quality Assurance under the contract under subparagraph (A)."

(b) REVISIONS RELATING TO SPECIALIZED MEDICARE ADVANTAGE PLANS FOR SPECIAL NEEDS INDIVIDUALS.—Section 1859 of the Social Security Act (42 U.S.C. 1395w-28) is amended—

(1) in subsection (f)(3)—

(A) in subparagraph (D), in the first sentence, by inserting "and the plan provides for the coordination of coverage for benefits under this title (including this part) and such medical assistance" before the period at the end; and

(B) by adding at the end the following new subparagraph:

"(E) The plan meets the requirements described in subsection (g)."; and

(2) by adding at the end the following new subsection:

"(g) ADDITIONAL REQUIREMENTS FOR DUAL SNPS.—The following requirements are described in this subsection:

"(1) PROVISION OF INFORMATION.—The plan provides special needs individuals described in subsection (b)(6)(B)(ii) up-front information about formularies and utilization management strategies under the plan as part of the information disclosed under section 1852(c)(1).

"(2) PREMIUM.—The premium under the plan does not exceed the premium subsidy amount described in section 1860D-14(b).

"(3) FORMULARY.—

"(A) IN GENERAL.—Subject to subparagraph (B), the plan has a formulary that, based on the most recent data available, covers at least—

"(i) 95 percent of the 200 most commonly prescribed non-duplicative generic covered part D drugs for the population of individuals entitled to (or enrolled for) benefits under part A or enrolled under part B; and

"(ii) 95 percent of the 200 most commonly prescribed non-duplicative brand name covered part D drugs for such population.

"(B) INCLUSION OF DRUGS IN CERTAIN CATEGORIES AND CLASSES.—The plan formulary shall include all covered part D drugs in the categories and classes identified by the Secretary under section 1860D-4(b)(3)(G)(i).

"(4) PHARMACY ACCESS.—The plan secures participation in its network of a sufficient number of pharmacies that dispense (other than by mail order) drugs directly to patients to ensure convenient access by at least 90 percent of enrollees who are residing in long-term care facilities within the region.

"(5) OPERATION OF A DEDICATED CUSTOMER ASSISTANCE PHONE LINE.—The plan shall maintain a toll-free number or numbers for inquiries concerning the plan that is solely for the use of such individuals, the designated representatives of such individuals (including designated family members), advocates of such individuals, providers of services, and suppliers.

"(6) E-PRESCRIBING.—The plan adopts electronic prescribing for enrollees, in accordance with section 1860D-4(e), to coordinate care.

"(7) DEMONSTRATE EXPERIENCE AND EXPERTISE.—The plan demonstrates, to the satisfaction of the Secretary, with input from the States, sufficient experience and expertise in serving low-income, publicly insured, or previously uninsured populations.

"(8) REDUCING HEALTH DISPARITIES.—The plan has established and implemented systems and processes which have been approved by the Secretary to address and reduce health disparities based on race, ethnicity, gender, age, and socio-economic status.

"(9) PROFICIENCY IN CARE COORDINATION.—The plan demonstrates, to the satisfaction of the Secretary, proficiency in care coordination for the purpose of providing, or arranging for the provision of, services to assist individuals enrolled in the plan in obtaining access to other public and private benefits, including services to address non-medical and psycho-social needs."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to plan year beginning on or after January 1, 2011.

SEC. 104. PROVIDING BETTER CARE COORDINATION FOR LOW-INCOME BENEFICIARIES IN MEDICARE PART D.

(a) CONTINUOUS UPDATING OF ELIGIBILITY AND ENROLLMENT DATA FOR DUAL ELIGIBLE INDIVIDUALS.—

(1) STATE REQUIREMENT.—Section 1935(a) of the Social Security Act (42 U.S.C. 1396u-5(a)) is amended by adding at the end the following new paragraph:

"(4) UPDATING OF ELIGIBILITY AND ENROLLMENT INFORMATION ON A ROLLING BASIS.—Beginning not later than October 1, 2011, the State shall update information with respect to the eligibility and enrollment of individuals receiving any kind of medical assistance under the State plan, including medical assistance for payment of Medicare cost-sharing described in section 1905(p)(3), in MA plans and prescription drug plans under parts C and D, respectively, of title XVIII (including eligibility determinations under paragraph (2) and screening and enrollment under paragraph (3)) not less frequently than on a weekly basis."

(2) SECRETARIAL REQUIREMENTS.—Section 1935(d) of the Social Security Act (42 U.S.C. 1396u-5(d)) is amended by adding at the end the following new paragraph:

"(3) UPDATING OF ELIGIBILITY AND ENROLLMENT INFORMATION ON A ROLLING BASIS.—The Secretary shall update information with respect to the eligibility and enrollment of individuals receiving any kind of medical assistance under this title, including medical assistance for payment of Medicare cost-sharing described in section 1905(p)(3), in MA plans and prescription drug plans under parts C and D, respectively, of title XVIII as it is received, but not less frequently than on a weekly basis."

(b) IDENTIFYING DUAL ELIGIBLE INDIVIDUALS IN DATA RECORDS.—

(1) IN GENERAL.—Section 1859 of the Social Security Act (42 U.S.C. 1305w-28), as amended by section 103, is amended by adding at the end the following new subsection:

"(h) IDENTIFYING DUAL ELIGIBLE INDIVIDUALS IN DATA RECORDS.—

"(1) IDENTIFICATION BY THE SECRETARY.—Beginning on January 1, 2010, the Secretary shall clearly identify all dual eligible individuals that are enrolled in MA plans and prescription drug plans for the current plan year and reflect the low-income subsidy status of such individuals for each plan year in every data record file maintained in the Medicare electronic database and every such file that is used to enroll or adjudicate claims for such individuals.

"(2) IDENTIFICATION BY MA PLANS AND PRESCRIPTION DRUG PLANS.—Beginning on January 1, 2010, each MA plan and prescription drug plan shall clearly identify all dual eligible individuals that are enrolled in the plan for the current plan year and reflect the low-income subsidy status of such individuals for the plan year in every data record file maintained by the plan that is used to enroll or adjudicate claims for such individuals under the plan.

"(3) REGULATIONS.—The Secretary shall establish regulations to carry out this subsection. Such regulations shall require that—

"(A) for each plan year and each dual eligible individual, the Secretary identify on the Medicare enrollment database dual eligible status that has been verified with a State or the District of Columbia;

"(B) for each plan year and each dual eligible individual, the Secretary identify on the Medicare enrollment database the low-income subsidy level of the individual; and

“(C) each data file that is necessary to ensure that such dual eligible status is transmitted to an MA plan or a prescription drug plan, at the time the Secretary certifies the enrollment of the dual eligible individual in the plan.

“(4) DEFINITION OF DUAL ELIGIBLE INDIVIDUAL.—The term ‘dual eligible individual’ means a special needs individual described in subsection (b)(6)(B)(ii).”.

(2) CONFORMING AMENDMENT.—Section 1860D-42 of the Social Security Act (42 U.S.C. 1395w-152) is amended by adding at the end the following new subsection:

“(c) IDENTIFYING DUAL ELIGIBLE INDIVIDUALS IN DATA RECORDS.—For provisions regarding the identification by prescription drug plans of dual eligible individuals in data records, see section 1859(h).”.

(c) ASSURING CONTINUITY OF PRESCRIPTION DRUG COVERAGE FOR DUAL ELIGIBLES.—

(1) IN GENERAL.—Section 1935(d)(1) of the Social Security Act (42 U.S.C. 1396u-5(d)(1)) is amended—

(A) by inserting “on and after the date described in subparagraph (B),” after “notwithstanding any other provision of this title;”;

(B) by striking “In the case of” and inserting the following:

“(A) IN GENERAL.—In the case of”; and

(C) by adding at the end the following:

“(B) DATE DESCRIBED.—For purposes of subparagraph (A), the date described in this subparagraph is the date on which the State confirms with a Medicare Advantage plan under part C of title XVIII or a prescription drug plan under part D of such title (including a Medicare operated prescription drug plan under section 1860D-11A), as applicable—

“(i) that the part D eligible individual (as so defined) who is described in subsection (c)(6)(A)(ii) is enrolled with such plan; and

“(ii) the cost-sharing and premiums applicable for the individual for such plan.”.

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) take effect on January 1, 2011.

(d) COLLECTION AND SHARING OF DRUG UTILIZATION DATA AND FORMULARY INFORMATION FOR FULL-BENEFIT DUAL ELIGIBLE INDIVIDUALS.—

(1) IN GENERAL.—Section 1860D-42 of the Social Security Act, as amended by subsection (b), is amended by adding at the end the following new subsection:

“(d) COLLECTION AND SHARING OF DRUG UTILIZATION DATA AND FORMULARY INFORMATION FOR FULL-BENEFIT DUAL ELIGIBLE INDIVIDUALS.—

“(1) PLAN REQUIREMENT.—A PDP sponsor of a prescription drug plan (including a Medicare operated prescription drug plan under section 1860D-11A) and an MA organization offering an MA-PD plan shall submit to the Secretary such information regarding the drug utilization of enrollees in such plans who are full-benefit dual eligible individuals (as defined in section 1935(c)(6)) and any formularies under the plans such individuals are enrolled in as the Secretary determines appropriate to carry out paragraph (2). Such information shall be submitted—

“(A) on a rolling basis (as determined appropriate by the Secretary); and

“(B) using a single, uniform reporting process.

“(2) COLLECTION AND SHARING OF DATA.—The Secretary shall collect data on the drug utilization of full-benefit dual eligible individuals (as so defined) and on any formularies under the plans such individuals are enrolled in. The Secretary shall share such data with the States and the District of

Columbia on as close to a real-time basis as possible.”.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect on January 1, 2010.

SEC. 105. IMPROVING TRANSITION OF NEW DUAL ELIGIBLE INDIVIDUALS TO MEDICARE PRESCRIPTION DRUG COVERAGE AND PRESUMPTIVE ELIGIBILITY FOR LOW-INCOME SUBSIDIES.

(a) UPDATING THE POINT OF SALE FACILITATED ENROLLMENT PROCESS.—

(1) PROVIDING BETTER INITIAL PROTECTION FOR DUAL ELIGIBLE INDIVIDUALS.—Beginning January 1, 2011, each contractor under the Point of Sale Facilitated Enrollment process of the Department of Health and Human Services shall enroll full-benefit dual eligible individuals (as defined in section 1935(c)(6)) into a Medicare operated prescription drug plan under section 1860D-11A of the Social Security Act, as added by section 102.

(2) COMPETITIVE BIDDING OF POINT OF SALE CONTRACT.—The Secretary of Health and Human Services shall establish procedures to ensure that each contract entered into under such process on or after January 1, 2010, under the Medicare program under title XVIII of the Social Security Act is rebid every 3 years through a competitive bidding process.

(3) REQUIRING BETTER EDUCATION ABOUT POINT OF SALE FACILITATED ENROLLMENT PROCESS.—Not later than January 1, 2010, the Secretary of Health and Human Services shall have a comprehensive plan in place for proactively educating beneficiaries under the Medicare prescription drug program under part D of title XVIII of the Social Security Act, pharmacists, skilled nursing facilities (as defined in section 1819(a) of such Act (42 U.S.C. 1395i-3(a)), nursing facilities (as defined in section 1919(a) of such Act (42 U.S.C. 1396r(a))), counselors under State health insurance assistance programs (SHIPs), and other advocacy organizations (including disability organizations) about the Point of Sale Facilitated Enrollment process. Under such plan—

(A) information about the Point of Sale Facilitated Enrollment process shall be included in all mailers to the entities and individuals described in the preceding sentence prior to the annual, coordinated election period described in section 1851(e)(3) of the Social Security Act (42 U.S.C. 1395w-21(e)(3)); and

(B) a description of such process and other relevant information shall be prominently displayed on the Medicare Internet website throughout the year.

(4) MANDATORY USE OF POINT OF SALE FACILITATED ENROLLMENT PROCESS.—Section 1860D-4(b)(1) of the Social Security Act (42 U.S.C. 1395w-104(b)(1)) is amended by adding at the end the following new subparagraph:

“(F) MANDATORY USE OF POINT OF SALE FACILITATED ENROLLMENT PROCESS.—Notwithstanding any other provision of law, beginning January 1, 2011, the terms and conditions under subparagraph (A) shall require participating pharmacies to use the Point of Sale Facilitated Enrollment process of the Department of Health and Human Services.”.

(b) PRESUMPTIVE ELIGIBILITY AND MANDATORY TRANSITION PERIOD FOR SUBSIDY ELIGIBLE INDIVIDUALS.—Section 1860D-14 of the Social Security Act (42 U.S.C. 1395w-104) is amended—

(1) by redesignating subsection (d) as subsection (e); and

(2) by inserting after subsection (c) the following new subsection:

“(d) PRESUMPTIVE ELIGIBILITY AND MANDATORY TRANSITION PERIOD.—

“(1) PRESUMPTIVE ELIGIBILITY.—An individual shall be presumed to be a subsidy eligible individual (as defined in section 1860D-14(a)(3)) if the individual presents at the pharmacy with—

“(A) reliable evidence of—

“(i) Medicaid enrollment, such as a Medicaid card, recent history of Medicaid billing in the pharmacy patient profile, a copy of a current Medicaid award letter, or confirmation from a Medicaid enrollment database; or

“(ii) eligibility for an income-related subsidy under section 1860D-14, such as a low-income subsidy notice from the Secretary or the Commissioner of Social Security, or confirmation from a Social Security enrollment database; and

“(B) reliable evidence of Medicare enrollment, such as a Medicare identification card, a Medicare enrollment approval letter, a Medicare Summary Notice, or confirmation from an official Medicare hotline or Medicare database.

“(2) MAKING SUBSIDY ELIGIBLE INDIVIDUALS WHOLE.—

“(A) IN GENERAL.—In the case of a subsidy eligible individual (as so defined) who, between November 15, 2005 and December 31, 2009, has wrongly been forced to pay higher co-payments, premiums, and deductibles than those applicable under this part and part C for such individual, the subsidy eligible individual shall be eligible for compensation under the program under this title.

“(B) ESTABLISHMENT OF PROCESS FOR REFUND OF AMOUNT INCORRECTLY PAID.—The Secretary shall establish a process under which—

“(i) prescription drug plans and MA-PD plans are billed for copayments and deductibles inappropriately charged to subsidy eligible individuals during retroactive coverage periods;

“(ii) the amounts incorrectly paid by the subsidy eligible individual as a result of those inappropriate charges are refunded directly to the individual, either through a rebate on future payments of premiums under part B or through a direct payment to the individual; and

“(iii) prescription drug plans and MA-PD plans are required to provide detailed accounting to the Secretary of the basis for any rebate or payment to a subsidy eligible individual under this subparagraph, including the applicable period of retroactive coverage for the subsidy eligible individual and whether the rebate or credit is with respect to an inappropriately charged copayment or deductible.

“(C) NOTIFICATION.—Subsidy eligible individuals shall be notified of the requirements of this subsection in their 2010 plan year materials.

“(D) NO EFFECT ON ELIGIBILITY FOR OTHER BENEFITS.—Amounts refunded to a subsidy eligible individual under this subsection shall be disregarded for purposes of determining or continuing the beneficiary's eligibility for receipt of benefits under any other Federal, State, or locally funded assistance program, including benefits paid under titles II, XVI, XVIII, XIX, or XXI.”.

SEC. 106. REQUIRED INFORMATION ON TRANSITION FROM SKILLED NURSING FACILITIES AND NURSING FACILITIES TO PART D PLANS.

(a) SKILLED NURSING FACILITIES.—Section 1819(b) of the Social Security Act (42 U.S.C. 1395i-3(b)) is amended by adding at the end the following new paragraph:

“(9) INFORMATION ON TRANSITION TO PRESCRIPTION DRUG COVERAGE.—A skilled nursing facility must provide information to residents and the families of residents on how to transition to prescription drug coverage under MA-PD plans under part C and prescription drug plans under part D upon discharge from the facility.”

(b) NURSING FACILITIES.—Section 1919(b) of the Social Security Act (42 U.S.C. 1395i-3(b)) is amended by adding at the end the following new paragraph:

“(9) INFORMATION ON TRANSITIONING TO PRESCRIPTION DRUG COVERAGE.—A nursing facility must provide information to residents and the families of residents on how to transition to prescription drug coverage under MA-PD plans under part C and prescription drug plans under part D upon discharge from the facility.”

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 2011.

SEC. 107. STREAMLINED PHARMACY COMPLIANCE PACKAGING.

(a) IN GENERAL.—Section 1860D-4(b)(3) of the Social Security Act (42 U.S.C. 1395w-104(b)(3)) is amended by adding at the end the following new subparagraph:

“(G) STREAMLINED PHARMACY COMPLIANCE PACKAGING FOR DUAL ELIGIBLE INDIVIDUALS.—A PDP sponsor of a prescription drug plan shall streamline pharmacy compliance packaging for individuals enrolled in the plan who—

“(i) are entitled to medical assistance under a State plan under title XVIII; and

“(ii) reside in a nursing home.”

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to drugs dispensed on or after January 1, 2010.

SEC. 108. LOWERING COVERED PART D DRUG PRICES ON BEHALF OF MEDICARE BENEFICIARIES.

(a) REPEAL OF PROHIBITION.—Section 1860D-11 of the Social Security Act (42 U.S.C. 1395w-111) is amended by striking subsection (i) and inserting the following:

“(i) LOWERING COVERED PART D DRUG PRICES.—

“(1) IN GENERAL.—The Secretary shall reduce the purchase cost of covered part D drugs by implementing 2 or more of the following strategies on an annual basis (beginning with 2011):

“(A) Negotiating directly with pharmaceutical manufacturers for additional discounts, rebates, and other price concessions that may be made available to Medicare operated prescription drug plans under section 1860D-11A for covered part D drugs.

“(B) Entering into rebate agreements with manufacturers to provide to the Secretary a rebate for any covered outpatient drug of a manufacturer dispensed during a rebate period specified in the agreement to a subsidy eligible individual described (or treated as described) in section 1860D-14(a)(1) for which payment was made by a PDP sponsor under part D of title XVIII or an MA organization under part C of such title for such period in an amount determined in the same manner as the rebate amount for such drug would have been determined under subsection (c) of section 1927 if the dispensing of the drug to such individual was paid for by a State and subject to a rebate agreement entered into under such section (and allocating any such rebates received among the prescription drug plans of such PDP sponsors and MA-PD plans offered by such organizations based on the enrollment of such individuals in such plans).

“(C) In consultation with the Director of the Agency for Healthcare Research and

Quality, using data from relevant and unbiased studies on the comparative clinical effectiveness of covered part D drugs to—

“(i) educate physicians and pharmacists; and

“(ii) provide information to PDP sponsors of prescription drug plans and MA organizations offering MA-PD plans for use in making decisions regarding plan formularies.

“(D) Instituting prescription drug prices negotiated under the Federal Supply Schedule of the General Services Administration for the reimbursement of covered part D drugs.

“(2) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed as preventing the PDP sponsor of a prescription drug plan or an MA organization offering an MA-PD plan from obtaining a discount or reduction of the price for a covered part D drug below the price negotiated by the Secretary for a Medicare-operated plan under paragraph (1)(A).

“(3) ANNUAL REPORTS TO CONGRESS.—Not later than January 1, 2012, and annually thereafter, the Secretary shall submit to the Committee on Finance of the Senate and to the Committee on Ways and Means, the Committee on Energy and Commerce, and the Committee on Oversight and Government Reform of the House of Representatives a report on the strategies implemented by the Secretary under paragraph (1) to achieve lower prices on covered part D drugs for beneficiaries, including the prices of such covered part D drugs and any price concessions achieved by the Secretary as a result of such implementation.”

SEC. 109. CORRECTION OF FLAWS IN DETERMINATION OF PHASED-DOWN STATE CONTRIBUTION FOR FEDERAL ASSUMPTION OF PRESCRIPTION DRUG COSTS FOR DUALY ELIGIBLE INDIVIDUALS.

Section 1935(c) of the Social Security Act (42 U.S.C. 1396u-5(c)) is amended—

(1) in paragraph (1), in the matter preceding subparagraph (A), by striking “Each” and inserting “Subject to paragraph (7), each”; and

(2) by adding at the end the following new paragraph:

“(7) MODIFICATION OF DETERMINATION OF AMOUNT OF STATE CONTRIBUTION.—Not later than January 1, 2011, the Secretary of Health and Human Services (in this section referred to as the ‘Secretary’), acting through the Director of the Federal Coordinated Health Care Office established under section 101 of the Medicare Prescription Drug Reform Act of 2009, shall promulgate regulations for modifying the factors used to determine the product under paragraph (1)(A) for each State and month that take into account the following with respect to each State:

“(A) Factoring into the determination of base year State Medicaid per capita expenditures for covered part D drugs for full-benefit dual eligible individuals under paragraph (3) all payments collected by a State under agreements under section 1927 for outpatient prescription drugs purchased in 2003 (not just for such payments that were collected by the State in 2003).

“(B) Pharmacy cost savings measures implemented by the State during the period that begins with 2003 and ends with 2006.

“(C) Substituting under paragraph (4) a State-specific growth factor in lieu of the national applicable growth factor for 2004 and succeeding years based on the annual percentage increase in the State’s average per capita aggregate expenditures for covered outpatient drugs.

Such regulations shall include procedures for adjusting payments to States under section 1903(a) to take into account any overpayments or underpayments which the Secretary determines on the basis of such modifications were made by States under this subsection for 2004 and succeeding years.”

SEC. 110. NO IMPACT ON ELIGIBILITY FOR BENEFITS UNDER OTHER PROGRAMS.

(a) IN GENERAL.—Section 1860D-14(a)(3) of the Social Security Act (42 U.S.C. 1395w-114(a)(3)), is amended—

(1) in subparagraph (A), in the matter preceding clause (i), by striking “subparagraph (F)” and inserting “subparagraphs (F) and (H)”; and

(2) by adding at the end the following new subparagraph:

“(H) NO IMPACT ON ELIGIBILITY FOR BENEFITS UNDER OTHER PROGRAMS.—The availability of premium and cost-sharing subsidies under this section shall not be treated as benefits or otherwise taken into account in determining an individual’s eligibility for, or the amount of benefits under, any other Federal program.”

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of enactment of this Act.

SEC. 111. QUALITY INDICATORS FOR DUAL ELIGIBLE INDIVIDUALS.

Section 1154(a) of the Social Security Act (42 U.S.C. 1320c-3(a)) is amended by inserting after paragraph (11) the following new paragraph:

“(12) For all contracts entered into on or after August 1, 2011, the organization shall produce a statistically valid subsample of quality indicators applicable to dual eligible beneficiaries under titles XVIII and XIX.”

TITLE II—ADDITIONAL MEDICARE AND MEDICAID IMPROVEMENTS

Subtitle A—Improving the Financial Assistance Available to Low-Income Medicare Beneficiaries

SEC. 201. IMPROVING ASSETS TESTS FOR MEDICARE SAVINGS PROGRAM AND LOW-INCOME SUBSIDY PROGRAM.

(a) APPLICATION OF HIGHEST LEVEL PERMITTED UNDER LIS.—

(1) TO FULL-PREMIUM SUBSIDY ELIGIBLE INDIVIDUALS.—Section 1860D-14(a) of the Social Security Act (42 U.S.C. 1395w-114(a)) is amended—

(A) in paragraph (1), in the matter before subparagraph (A), by inserting “(or, beginning with 2010, paragraph (3)(E))” after “paragraph (3)(D)”; and

(B) in paragraph (3)(A)(iii), by striking “(D) or”.

(2) ANNUAL INCREASE IN LIS RESOURCE TEST.—Section 1860D-14(a)(3)(E)(i) of the Social Security Act (42 U.S.C. 1395w-114(a)(3)(E)(i)) is amended—

(A) by striking “and” at the end of subclause (I);

(B) in subclause (II), by inserting “(before 2010)” after “subsequent year”; and

(C) by striking the period at the end of subclause (II) and inserting a semicolon;

(D) by inserting after subclause (II) the following new subclauses:

“(III) for 2010, \$27,500 (or \$55,000 in the case of the combined value of the individual’s assets or resources and the assets or resources of the individual’s spouse); and

“(IV) for a subsequent year, the dollar amounts specified in this subclause (or subclause (III)) for the previous year increased by the annual percentage increase in the consumer price index (all items; U.S. city average) as of September of such previous year.”; and

(E) in the last sentence, by inserting “or (IV)” after “subclause (II)”.

(3) APPLICATION OF LIS TEST UNDER MEDICARE SAVINGS PROGRAM.—Section 1905(p)(1)(C) of the Social Security Act (42 U.S.C. 1396d(p)(1)(C)) is amended by striking “subparagraph (D)” and all that follows through the period at the end and inserting the following: “section 1860D-14(a)(3)(E) applicable to an individual or to the individual and the individual’s spouse (as the case may be)”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to eligibility determinations for income-related subsidies and Medicare cost-sharing furnished for periods beginning on or after January 1, 2010.

SEC. 202. ELIMINATING BARRIERS TO ENROLLMENT.

(a) ENCOURAGING APPLICATION OF PROCEDURES UNDER MEDICARE SAVINGS PROGRAM.—Section 1905(p) of the Social Security Act (42 U.S.C. 1396d(p)) is amended by adding at the end the following new paragraph:

“(7) The Secretary shall take all reasonable steps to encourage States to provide for administrative verification of income and automatic reenrollment (as provided under subparagraphs (C)(iii) and (G) of section 1860D-14(a)(3) in the case of the low-income subsidy program).”.

(b) ENSURING THAT SSA AND STATES CAN ELECTRONICALLY PROCESS ALL LOW-INCOME SUBSIDY PROGRAM APPLICATIONS.—Section 1860D-14(a)(3)(B)(i) of the Social Security Act (42 U.S.C. 1395w-114(a)(3)(B)(i)) is amended by inserting after the first sentence the following new sentence: “Not later than January 1, 2012, the State plan and the Commissioner shall have in place procedures to ensure the capacity to process all applications for determinations (including all applications that are not in English) electronically.”.

SEC. 203. ELIMINATION OF PART D COST-SHARING FOR CERTAIN NON-INSTITUTIONALIZED FULL-BENEFIT DUAL ELIGIBLE INDIVIDUALS.

(a) IN GENERAL.—Section 1860D-14(a)(1)(D)(i) of the Social Security Act (42 U.S.C. 1395w-114(a)(1)(D)(i)) is amended—

(1) in the heading, by striking “INSTITUTIONALIZED INDIVIDUALS.—In” and inserting “ELIMINATION OF COST-SHARING FOR CERTAIN FULL-BENEFIT DUAL ELIGIBLE INDIVIDUALS.—

“(I) INSTITUTIONALIZED INDIVIDUALS.—In”;

and

(2) by adding at the end the following new subclauses:

“(II) CERTAIN OTHER INDIVIDUALS.—In the case of an individual who is a full-benefit dual eligible individual and who is being provided medical assistance for home and community-based services under subsection (c), (d), (e), (i), or (j) of section 1915 or pursuant to section 1115, the elimination of any beneficiary coinsurance described in section 1860D-2(b)(2) (for all amounts through the total amount of expenditures at which benefits are available under section 1860D-2(b)(4)).”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to drugs dispensed on or after January 1, 2010.

SEC. 204. EXEMPTION OF BALANCE IN ANY PENSION OR RETIREMENT PLAN FROM RESOURCES FOR DETERMINATION OF ELIGIBILITY FOR LOW-INCOME SUBSIDY.

(a) IN GENERAL.—Section 1860D-14(a)(3) of the Social Security Act (42 U.S.C. 1395w-114(a)(3)) is amended—

(1) in subparagraph (D), in the matter before clause (i), by striking “life insurance policy exclusion provided under subparagraph (G)” and inserting “additional exclu-

sions provided under subparagraphs (G) and (H)”;

(2) in subparagraph (E)(i), in the matter before subclause (I), by striking “life insurance policy exclusion provided under subparagraph (G)” and inserting “additional exclusions provided under subparagraphs (G) and (H)”

(3) by adding at the end the following new subparagraph:

“(H) PENSION OR RETIREMENT PLAN EXCLUSION.—In determining the resources of an individual (and the eligible spouse of the individual, if any) under section 1613 for purposes of subparagraphs (D) and (E), no balance in any pension or retirement plan shall be taken into account.”.

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 2010, and shall apply to determinations of eligibility for months beginning with January 2010.

SEC. 205. COST-SHARING PROTECTIONS FOR LOW-INCOME SUBSIDY-ELIGIBLE INDIVIDUALS.

(a) IN GENERAL.—Section 1860D-14(a) of the Social Security Act (42 U.S.C. 1395w-114(a)) is amended—

(1) in paragraph (1)(D), by adding at the end the following new clause:

“(iv) OVERALL LIMITATION ON COST-SHARING.—In the case of all such individuals, a limitation on aggregate cost-sharing under this part for a year not to exceed 2.5 percent of income.”; and

(2) in paragraph (2), by adding at the end the following new subparagraph:

“(F) OVERALL LIMITATION ON COST-SHARING.—A limitation on aggregate cost-sharing under this part for a year not to exceed 2.5 percent of income.”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply as of January 1, 2010.

Subtitle B—Other Improvements

SEC. 211. ENROLLMENT IMPROVEMENTS UNDER MEDICARE PARTS C AND D.

(a) SPECIAL ELECTION PERIOD DURING FIRST 60 DAYS OF ENROLLMENT IN A NEW PLAN.—

(1) IN GENERAL.—Section 1851(e)(4) of the Social Security Act (42 U.S.C. 1395w(e)(4)) is amended—

(A) in subparagraph (C), by striking “or” at the end;

(B) by redesignating subparagraph (D) as subparagraph (E); and

(C) by inserting after subparagraph (C) the following new subparagraph:

“(D) the individual has been enrolled in such plan for fewer than 60 days; or”.

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) shall take effect on the date that is 90 days after the date of enactment of this Act.

(b) EXTENSION OF THE ANNUAL, COORDINATED ELECTION PERIOD.—

(1) IN GENERAL.—Section 1851(e)(3)(B)(iv) of the Social Security Act (42 U.S.C. 1395w-1(e)(3)(B)(iv)) is amended by striking “November 15” and inserting “October 1”.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to annual, coordinated election periods beginning after the date of enactment of this Act.

(c) COORDINATION UNDER PARTS C AND D OF THE CONTINUOUS OPEN ENROLLMENT AND DISENROLLMENT PERIOD FOR THE FIRST 3 MONTHS OF THE YEAR.—

(1) IN GENERAL.—Section 1860D-1(b)(1)(B)(iii) of the Social Security Act (42 U.S.C. 1395w-101(b)(1)(B)(iii)) is amended by striking “, (C),”.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect on January 1, 2010.

SEC. 212. MEDICARE PLAN COMPLAINT SYSTEM.

(a) SYSTEM.—Section 1808 of the Social Security Act (42 U.S.C. 1395b-9) is amended—

(1) in subsection (c)(2)—

(A) in subparagraph (B)(iii), by striking “adjustment; and” and inserting “adjustment”;

(B) in subparagraph (C), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following new subparagraph:

“(D) develop and maintain the plan complaint system under subsection (d).”; and

(2) by adding at the end the following new subsection:

“(d) PLAN COMPLAINT SYSTEM.—

“(1) SYSTEM.—

“(A) IN GENERAL.—The Secretary shall develop and maintain a plan complaint system, (in this subsection referred to as the ‘system’) to—

“(i) collect and maintain information on plan complaints;

“(ii) track plan complaints from the date the complaint is logged into the system through the date the complaint is resolved; and

“(iii) otherwise improve the process for reporting plan complaints.

“(B) TIMEFRAME.—The Secretary shall have the system in place by not later than the date that is 6 months after the date of enactment of this subsection.

“(C) PLAN COMPLAINT DEFINED.—In this subsection, the term ‘plan complaint’ means a complaint that is received (including by telephone, letter, e-mail, or any other means) by the Secretary (including by a regional office, the Medicare Beneficiary Ombudsman, a subcontractor, a carrier, a fiscal intermediary, and a Medicare administrative contractor) from a Medicare Advantage eligible individual or a Part D eligible individual (or an individual representing such an individual) regarding a Medicare Advantage organization, a Medicare Advantage plan, a prescription drug plan sponsor, or a prescription drug plan, including, but not limited to, complaints relating to marketing, enrollment, covered drugs, premiums and cost-sharing, and plan customer service, grievances and appeals, participating providers. Such term also includes plan complaints that are received by the Secretary directly from the organization offering the plan relating to complaints by such individuals.

“(2) PROCESS CRITERIA.—In developing the system, the Secretary shall establish a process for reporting plan complaints. Such process shall meet the following criteria:

“(A) ACCESSIBLE.—The process is widely known and easy to use.

“(B) INVESTIGATIVE CAPACITY.—The process involves the appropriate experts, resources, and methods to assess complaints and determine whether they reflect an underlying pattern.

“(C) INTERVENTION AND FOLLOW-THROUGH.—The process triggers appropriate interventions and monitoring based on substantiated complaints.

“(D) QUALITY IMPROVEMENT ORIENTATION.—The process guides quality improvement.

“(E) RESPONSIVENESS.—The process routinely provides consistent, clear, and substantive responses to complaints.

“(F) TIMELINES.—Each process step is completed within a reasonable, established timeframe, and mechanisms exist to deal quickly with complaints of an emergency nature requiring immediate attention.

“(G) OBJECTIVE.—The process is unbiased, balancing the rights of each party.

“(H) PUBLIC ACCOUNTABILITY.—The process makes complaint information available to the public.

“(3) STANDARD DATA REPORTING REQUIREMENTS.—

“(A) IN GENERAL.—The Secretary shall establish standard data reporting requirements for reporting plan complaints under the system.

“(B) MODEL ELECTRONIC COMPLAINT FORM.—The Secretary shall develop a model electronic complaint form to be used for reporting plan complaints under the system. Such form shall be prominently displayed on the front page of the Medicare.gov Internet website and on the Internet website of the Medicare Beneficiary Ombudsman.

“(4) ALL COMPLAINTS REQUIRED TO BE LOGGED INTO THE SYSTEM.—Every plan complaint shall be logged into the system.

“(5) CASEWORK NOTATIONS.—The system shall provide for the inclusion of any casework notations throughout the complaint process on the record of a plan complaint.

“(6) MEDICARE BENEFICIARY OMBUDSMAN.—The Secretary shall carry out this subsection acting through the Medicare Beneficiary Ombudsman.”.

(b) FUNDING.—There are authorized to be appropriated such sums as may be necessary for the costs of carrying out section 1808(d) of the Social Security Act, as added by subsection (a).

(c) REPORTS.—

(1) SECRETARY.—

(A) ONGOING STUDY.—The Medicare Beneficiary Ombudsman (under subsection (c) of section 1808) of the Social Security Act (42 U.S.C. 1395b–9) shall conduct an ongoing study of the plan complaint system established under subsection (d) of such section (as added by subsection (a)), in this subsection referred to as the “system”. Such study shall include an analysis of—

(i) the numbers and types of complaints reported under the system;

(ii) geographic variations in such complaints;

(iii) the timeliness of agency or plan responses to such complaints; and

(iv) the resolution of such complaints.

(B) QUARTERLY REPORTS.—Not later than 6 months after the implementation of the system, and every 3 months thereafter, the Secretary of Health and Human Services shall submit to Congress a report on the study conducted under subparagraph (A), together with recommendations for such legislation and administrative actions as the Secretary determines appropriate.

(2) INSPECTOR GENERAL.—The Inspector General of the Department of Health and Human Services shall conduct an evaluation of the system. Not later than 1 year after the implementation of the system, the Inspector General shall submit to Congress a report on such evaluation, together with recommendations for such legislation and administrative actions as the Inspector General determines appropriate.

SEC. 213. UNIFORM EXCEPTIONS AND APPEALS PROCESS.

(a) IN GENERAL.—Section 1860D–4(b)(3) of the Social Security Act (42 U.S.C. 1395w–104(b)(3)), as amended by section 107, is amended by adding at the end the following new subparagraph:

“(G) USE OF SINGLE, UNIFORM EXCEPTIONS AND APPEALS PROCESS.—Notwithstanding any other provision of this part, a PDP sponsor of a prescription drug plan or an MA organization offering an MA–PD plan shall—

“(i) use a single, uniform exceptions and appeals process with respect to the deter-

mination of prescription drug coverage for an enrollee under the plan; and

“(ii) provide instant access to such process by enrollees through a toll-free telephone number and an Internet website.”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to exceptions and appeals on or after January 1, 2011.

SEC. 214. PROHIBITION ON CONDITIONING MEDICAID ELIGIBILITY FOR INDIVIDUALS ENROLLED IN CERTAIN CREDITABLE PRESCRIPTION DRUG COVERAGE ON ENROLLMENT IN THE MEDICARE PART D DRUG PROGRAM.

(a) IN GENERAL.—Section 1395 of the Social Security Act (42 U.S.C. 1396v) is amended by adding at the end the following:

“(f) PROHIBITION ON CONDITIONING ELIGIBILITY FOR MEDICAL ASSISTANCE FOR INDIVIDUALS ENROLLED IN CERTAIN CREDITABLE PRESCRIPTION DRUG COVERAGE ON ENROLLMENT IN MEDICARE PRESCRIPTION DRUG BENEFIT.—

“(1) IN GENERAL.—A State shall not condition eligibility for medical assistance under the State plan for a part D eligible individual (as defined in section 1860D–1(a)(3)(A)) who is enrolled in creditable prescription drug coverage described in any of subparagraphs (C) through (H) of section 1860D–13(b)(4) on the individual’s enrollment in a prescription drug plan under part D of title XVIII or an MA–PD plan under part C of such title.

“(2) COORDINATION OF BENEFITS WITH PART D FOR OTHER INDIVIDUALS.—Nothing in this subsection shall be construed as prohibiting a State from coordinating medical assistance under the State plan with benefits under part D of title XVIII for individuals not described in paragraph (1).”.

SEC. 215. OFFICE OF THE INSPECTOR GENERAL ANNUAL REPORT ON PART D FORMULARIES’ INCLUSION OF DRUGS COMMONLY USED BY DUAL ELIGIBLES.

(a) ONGOING STUDY.—The Inspector General of the Department of Health and Human Services shall conduct an ongoing study of the extent to which formularies used by prescription drug plans and MA–PD plans under part D include drugs commonly used by full-benefit dual eligible individuals (as defined in section 1395(c)(6) of the Social Security Act (42 U.S.C. 1396u–5(c)(6))).

(b) ANNUAL REPORTS.—Not later than July 1 of each year (beginning with 2010), the Inspector General shall submit to Congress a report on the study conducted under paragraph (1), together with such recommendations as the Inspector General determines appropriate.

SEC. 216. HHS ONGOING STUDY AND ANNUAL REPORTS ON COVERAGE FOR DUAL ELIGIBLES.

(a) ONGOING STUDY.—

(1) IN GENERAL.—The Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall conduct an ongoing study to track—

(A) how many of the new full benefit dual eligible individuals (as defined in section 1395(c)(6) of the Social Security Act (42 U.S.C. 1396u–5(c)(6))) enroll in a plan under part D of title XVIII of such Act and receive retroactive prescription drug coverage under the plan; and

(B) if such retroactive coverage is provided to such individuals—

(i) the number of months of coverage provided; and

(ii) the amount of reimbursements to individuals and to individuals that made payments for prescription drugs on their behalf for costs incurred during retroactive coverage periods.

(2) DATA TO USE.—In conducting the study with respect to the requirements under paragraph (1)(B), the Secretary shall examine prescription drug utilization data reported by Medicare part D plans.

(b) ANNUAL REPORTS ON ONGOING STUDY.—Not later than March 1 of each year (beginning with 2010), the Secretary shall submit a report to Congress containing the results of the study conducted under subsection (a), together with recommendations for such legislation and administrative action as the Secretary determines appropriate.

(c) ANNUAL REPORTS ON SPENDING AND OUTCOMES.—Not later than January 1 of each year (beginning with 2013), the Secretary shall collect data and submit a report to Congress that includes the following information:

(1) Annual total expenditures (disaggregated by Federal and State expenditures) for dually eligible beneficiaries under title XVIII and under State plans and waivers under title XIX.

(2) An analysis of health outcomes for dually eligible beneficiaries, disaggregated by subtypes of beneficiaries (as determined by the Secretary).

(3) An analysis of the extent to which dually eligible beneficiaries are able to access benefits under title XVIII and under State plans and waivers under title XIX.

SEC. 217. AUTHORITY TO OBTAIN INFORMATION.

Title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.) is amended by adding at the end the following new section:

“AUTHORITY OF THE COMPTROLLER GENERAL TO OBTAIN INFORMATION

“SEC. 1899. No provision in this Act in effect on the date of enactment of this section or enacted after such date shall be construed to limit, amend, or supersede the authority of the Comptroller General of the United States to obtain agency records pursuant to section 716 of title 31, United States Code, including any information obtained by, or disclosed to, the Secretary under part C or D of this title, except to the extent that such provision expressly and specifically refers to this section and provides for such limitation, amendment, or supersession.”.

By Mr. DORGAN (for himself, Mr. JOHANN, Mr. BAUCUS, Mr. JOHNSON, Mr. THUNE, Mr. TESTER, and Mr. UDALL of New Mexico):

S. 1635. A bill to establish an Indian Youth telemental health demonstration project, to enhance the provision of mental health care services to Indian youth, to encourage Indian tribes, tribal organizations, and other mental health care providers serving residents of Indian country to obtain the services of predoctoral psychology and psychiatry interns, and for other purposes; to the Committee on Indian Affairs.

Mr. DORGAN. Mr. President, today I introduced a bill entitled 7th Generation Promise: Indian Youth Suicide Prevention Act, to address the crisis of youth suicide in Indian Country. I introduce this legislation on behalf of myself and Senators JOHANN, BAUCUS, and TESTER, in hopes that it will help provide prevention and intervention services to Native American youth.

Over the past 25 years, youth suicides in Native American communities have

reached epidemic levels. Suicide ranks as the second leading cause of death for Native American youth ages 15 to 35—a rate 3.5 times higher than the national average. In fact, adolescent Native American males have the highest suicide rate of any population group in the United States.

Over the years, the Indian Affairs Committee, which I chair, has held a series of hearings on the issue of Indian youth suicide. This past February, the Committee explored the progress made in youth suicide prevention in Indian Country. We heard from agencies and organizations, such as the Indian Health Service and the Substance Abuse and Mental Health Services Administration, SAMHSA, who provide worthy prevention and emergency response services.

During the February hearing, we also heard from a courageous 16-year-old young woman named Dana Lee Jetty who testified about the loss of her 14-year-old sister, Jami Rose Jetty. Her story illustrates the continued need for suicide prevention.

In November 2008, Dana Lee found her beautiful little sister, Jami Rose, hanging in her bedroom, on the Spirit Lake Reservation in North Dakota. Dana and Jami's Mom had done all the right things—noticing Jami was troubled, they took her to the doctor at the Indian Health Service clinic. The doctors dismissed the mom's concern and said Jami was just being a "typical teenager." Dana told me that she believes her sister would be alive if there had been adequate mental health professionals to diagnose and treat Jami's depression. Jami Rose Jetty serves as a tragic example of the inadequate mental health services in Indian Country and why we need legislation like the one I introduced today.

This year, the Standing Rock Sioux Reservation, located in North Dakota and South Dakota, is experiencing epidemic levels of youth suicide. There have already been 10 suicides and an additional 53 attempted suicides. The majority of these suicides have been among tribal members under the age of 24. Clearly, we must do more for the mental health and suicide prevention in our Native American communities across the United States.

The bill I introduced includes three main sections to improve youth suicide prevention services in Indian Country: a youth telemental health demonstration project; language to streamline and improve the process by which Tribes apply for grants through SAMHSA; and encouragement of post-doctoral mental health intern programs in an effort to increase the availability of services in Indian Country.

The Indian Youth Telemental Health Demonstration Project Act has been introduced in previous Congresses. This project would authorize the Secretary

of Health and Human Services to carry out a four-year demonstration project for the use of telemental health services in youth suicide prevention, intervention and treatment. Telemental health services refer to those health care services provided from a remote location through technological means. These types of services are especially important in remote, isolated communities like those in my home state of North Dakota where mental health professionals are scarce.

The bill also includes new language to enhance available mental health resources by addressing the many issues and barriers Tribes and tribal organizations face when applying for federal assistance through SAMHSA. For example, this provision requires SAMHSA to monitor the incidence of youth suicide in Indian Country, accept non-electronic grant applications from Tribes, give priority to disadvantaged tribal applicants with high rates of suicide, prohibit cost-sharing requirements, and prevent Tribes and tribal organizations from being required to apply through a state. In addition, this section requires states that apply for a SAMHSA grant using Tribal data to consult with Tribes and include them in any implemented programs.

Lastly, the bill includes encouragement for Tribes to use post-doctoral mental health professionals. Post-doctoral psychology and psychiatry interns are able to see patients and provide mental health services under the supervision of a certified mental health professional. The Veterans Administration is currently utilizing post-doctoral psychology intern programs, which have been successful in expanding the availability of mental health services to veterans. We need to promote innovative programs like this to increase the mental health services available in Indian Country.

The 7th Generation Promise in the bill's title is the Native American concept that we need to consider the impacts of our actions on our descendants seven generations in the future. Suicide is devastating our current generation of Native Americans, and we need to do something to protect them and our Native Americans seven generations down the road.

I would like to thank Senator JOHANNIS for working with me on this important piece of legislation. Health care, and especially mental health issues, remain a top priority for me as Chairman of the Indian Affairs Committee. I look forward to continuing this important work so that we may stop the high levels of youth suicide and other health disparities among Native Americans.

I would like to end by saying that one youth suicide is one tragedy too many. My hope is that passage of this bill will bring some aid to our Native American communities experiencing this crisis.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1635

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "7th Generation Promise: Indian Youth Suicide Prevention Act of 2009".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1)(A) the rate of suicide of American Indians and Alaska Natives is 1.9 times higher than the national average rate; and

(B) the rate of suicide of Indian and Alaska Native youth aged 15 through 24 is—

(i) 3.5 times the national average rate; and

(ii) the highest rate of any population group in the United States;

(2) many risk behaviors and contributing factors for suicide are more prevalent in Indian country than in other areas, including—

(A) history of previous suicide attempts;

(B) family history of suicide;

(C) history of depression or other mental illness;

(D) alcohol or drug abuse;

(E) health disparities;

(F) stressful life events and losses;

(G) easy access to lethal methods;

(H) exposure to the suicidal behavior of others;

(I) isolation; and

(J) incarceration;

(3) according to national data for 2005, suicide was the second-leading cause of death for Indians and Alaska Natives of both sexes aged 10 through 34;

(4)(A) the suicide rates of Indians and Alaska Natives aged 15 through 24, as compared to suicide rates of any other racial group, are—

(i) for males, up to 4 times greater; and

(ii) for females, up to 11 times greater; and

(B) data demonstrates that, over their lifetimes, females attempt suicide 2 to 3 times more often than males;

(5)(A) Indian tribes, especially Indian tribes located in the Great Plains, have experienced epidemic levels of suicide, up to 10 times the national average; and

(B) suicide clustering in Indian country affects entire tribal communities;

(6) death rates for Indians and Alaska Natives are statistically underestimated because many areas of Indian country lack the proper resources to identify and monitor the presence of disease;

(7)(A) the Indian Health Service experiences health professional shortages, with physician vacancy rates of approximately 17 percent, and nursing vacancy rates of approximately 18 percent, in 2007;

(B) 90 percent of all teens who die by suicide suffer from a diagnosable mental illness at time of death;

(C) more than ½ of teens who commit suicide have never been seen by a mental health provider; and

(D) ½ of health needs in Indian country relate to mental health;

(8) often, the lack of resources of Indian tribes and the remote nature of Indian reservations make it difficult to meet the requirements necessary to access Federal assistance, including grants;

(9) the Substance Abuse and Mental Health Services Administration and the Service

have established specific initiatives to combat youth suicide in Indian country and among Indians and Alaska Natives throughout the United States, including the National Suicide Prevention Initiative of the Service, which has worked with Service, tribal, and urban Indian health programs since 2003;

(10) the National Strategy for Suicide Prevention was established in 2001 through a Department of Health and Human Services collaboration among—

(A) the Substance Abuse and Mental Health Services Administration;

(B) the Service;

(C) the Centers for Disease Control and Prevention;

(D) the National Institutes of Health; and

(E) the Health Resources and Services Administration; and

(11) the Service and other agencies of the Department of Health and Human Services use information technology and other programs to address the suicide prevention and mental health needs of Indians and Alaska Natives.

(b) PURPOSES.—The purposes of this Act are—

(1) to authorize the Secretary to carry out a demonstration project to test the use of telemental health services in suicide prevention, intervention, and treatment of Indian youth, including through—

(A) the use of psychotherapy, psychiatric assessments, diagnostic interviews, therapies for mental health conditions predisposing to suicide, and alcohol and substance abuse treatment;

(B) the provision of clinical expertise to, consultation services with, and medical advice and training for frontline health care providers working with Indian youth;

(C) training and related support for community leaders, family members, and health and education workers who work with Indian youth;

(D) the development of culturally relevant educational materials on suicide; and

(E) data collection and reporting;

(2) to encourage Indian tribes, tribal organizations, and other mental health care providers serving residents of Indian country to obtain the services of predoctoral psychology and psychiatry interns; and

(3) to enhance the provision of mental health care services to Indian youth through existing grant programs of the Substance Abuse and Mental Health Services Administration.

SEC. 3. DEFINITIONS.

In this Act:

(1) ADMINISTRATION.—The term “Administration” means the Substance Abuse and Mental Health Services Administration.

(2) DEMONSTRATION PROJECT.—The term “demonstration project” means the Indian youth telemental health demonstration project authorized under section 4(a).

(3) INDIAN.—The term “Indian” means any individual who is—

(A) a member of an Indian tribe; or

(B) eligible for health services under the Indian Health Care Improvement Act (25 U.S.C. 1601 et seq.).

(4) INDIAN COUNTRY.—The term “Indian country” has the meaning given the term in section 1151 of title 18, United States Code.

(5) INDIAN TRIBE.—The term “Indian tribe” has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

(6) SECRETARY.—The term “Secretary” means the Secretary of Health and Human Services.

(7) SERVICE.—The term “Service” means the Indian Health Service.

(8) TELEMENTAL HEALTH.—The term “telemental health” means the use of electronic information and telecommunications technologies to support long-distance mental health care, patient and professional-related education, public health, and health administration.

(9) TRIBAL ORGANIZATION.—The term “tribal organization” has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

SEC. 4. INDIAN YOUTH TELEMENTAL HEALTH DEMONSTRATION PROJECT.

(a) AUTHORIZATION.—

(1) IN GENERAL.—The Secretary, acting through the Service, is authorized to carry out a demonstration project to award grants for the provision of telemental health services to Indian youth who—

(A) have expressed suicidal ideas;

(B) have attempted suicide; or

(C) have mental health conditions that increase or could increase the risk of suicide.

(2) ELIGIBILITY FOR GRANTS.—Grants under paragraph (1) shall be awarded to Indian tribes and tribal organizations that operate 1 or more facilities—

(A) located in an area with documented disproportionately high rates of suicide;

(B) reporting active clinical telehealth capabilities; or

(C) offering school-based telemental health services to Indian youth.

(3) GRANT PERIOD.—The Secretary shall award grants under this section for a period of up to 4 years.

(4) MAXIMUM NUMBER OF GRANTS.—Not more than 5 grants shall be provided under paragraph (1), with priority consideration given to Indian tribes and tribal organizations that—

(A) serve a particular community or geographic area in which there is a demonstrated need to address Indian youth suicide;

(B) enter into collaborative partnerships with Service or other tribal health programs or facilities to provide services under this demonstration project;

(C) serve an isolated community or geographic area that has limited or no access to behavioral health services; or

(D) operate a detention facility at which Indian youth are detained.

(5) CONSULTATION WITH ADMINISTRATION.—In developing and carrying out the demonstration project under this subsection, the Secretary shall consult with the Administration as the Federal agency focused on mental health issues, including suicide.

(b) USE OF FUNDS.—

(1) IN GENERAL.—An Indian tribe or tribal organization shall use a grant received under subsection (a) for the following purposes:

(A) To provide telemental health services to Indian youth, including the provision of—

(i) psychotherapy;

(ii) psychiatric assessments and diagnostic interviews, therapies for mental health conditions predisposing to suicide, and treatment; and

(iii) alcohol and substance abuse treatment.

(B) To provide clinician-interactive medical advice, guidance and training, assistance in diagnosis and interpretation, crisis counseling and intervention, and related assistance to Service or tribal clinicians and health services providers working with youth being served under the demonstration project.

(C) To assist, educate, and train community leaders, health education professionals and paraprofessionals, tribal outreach workers, and family members who work with the youth receiving telemental health services under the demonstration project, including with identification of suicidal tendencies, crisis intervention and suicide prevention, emergency skill development, and building and expanding networks among those individuals and with State and local health services providers.

(D) To develop and distribute culturally appropriate community educational materials regarding—

(i) suicide prevention;

(ii) suicide education;

(iii) suicide screening;

(iv) suicide intervention; and

(v) ways to mobilize communities with respect to the identification of risk factors for suicide.

(E) To conduct data collection and reporting relating to Indian youth suicide prevention efforts.

(2) TRADITIONAL HEALTH CARE PRACTICES.—In carrying out the purposes described in paragraph (1), an Indian tribe or tribal organization may use and promote the traditional health care practices of the Indian tribes of the youth to be served.

(c) APPLICATIONS.—

(1) IN GENERAL.—Subject to paragraph (2), to be eligible to receive a grant under subsection (a), an Indian tribe or tribal organization shall prepare and submit to the Secretary an application, at such time, in such manner, and containing such information as the Secretary may require, including—

(A) a description of the project that the Indian tribe or tribal organization will carry out using the funds provided under the grant;

(B) a description of the manner in which the project funded under the grant would—

(i) meet the telemental health care needs of the Indian youth population to be served by the project; or

(ii) improve the access of the Indian youth population to be served to suicide prevention and treatment services;

(C) evidence of support for the project from the local community to be served by the project;

(D) a description of how the families and leadership of the communities or populations to be served by the project would be involved in the development and ongoing operations of the project;

(E) a plan to involve the tribal community of the youth who are provided services by the project in planning and evaluating the mental health care and suicide prevention efforts provided, in order to ensure the integration of community, clinical, environmental, and cultural components of the treatment; and

(F) a plan for sustaining the project after Federal assistance for the demonstration project has terminated.

(2) EFFICIENCY OF GRANT APPLICATION PROCESS.—The Secretary shall carry out such measures as the Secretary determines to be necessary to maximize the time and workload efficiency of the process by which Indian tribes and tribal organizations apply for grants under paragraph (1).

(d) COLLABORATION.—The Secretary, acting through the Service, shall encourage Indian tribes and tribal organizations receiving grants under this section to collaborate to enable comparisons regarding best practices across projects.

(e) ANNUAL REPORT.—Each grant recipient shall submit to the Secretary an annual report that—

(1) describes the number of telemental health services provided; and

(2) includes any other information that the Secretary may require.

(f) REPORTS TO CONGRESS.—

(1) INITIAL REPORT.—

(A) IN GENERAL.—Not later than 2 years after the date on which the first grant is awarded under this section, the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources and the Committee on Energy and Commerce of the House of Representatives a report that—

(i) describes each project funded by a grant under this section during the preceding 2-year period, including a description of the level of success achieved by the project; and

(ii) evaluates whether the demonstration project should be continued during the period beginning on the date of termination of funding for the demonstration project under subsection (g) and ending on the date on which the final report is submitted under paragraph (2).

(B) CONTINUATION OF DEMONSTRATION PROJECT.—On a determination by the Secretary under clause (ii) of subparagraph (A) that the demonstration project should be continued, the Secretary may carry out the demonstration project during the period described in that clause using such sums otherwise made available to the Secretary as the Secretary determines to be appropriate.

(2) FINAL REPORT.—Not later than 270 days after the date of termination of funding for the demonstration project under subsection (g), the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources and the Committee on Energy and Commerce of the House of Representatives a final report that—

(A) describes the results of the projects funded by grants awarded under this section, including any data available that indicate the number of attempted suicides;

(B) evaluates the impact of the telemental health services funded by the grants in reducing the number of completed suicides among Indian youth;

(C) evaluates whether the demonstration project should be—

(i) expanded to provide more than 5 grants; and

(ii) designated as a permanent program; and

(D) evaluates the benefits of expanding the demonstration project to include urban Indian organizations.

(g) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$1,500,000 for each of fiscal years 2010 through 2013.

SEC. 5. SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION GRANTS.

(a) GRANT APPLICATIONS.—

(1) EFFICIENCY OF GRANT APPLICATION PROCESS.—The Secretary, acting through the Administration, shall carry out such measures as the Secretary determines to be necessary to maximize the time and workload efficiency of the process by which Indian tribes and tribal organizations apply for grants under any program administered by the Administration, including by providing methods other than electronic methods of submitting applications for those grants, if necessary.

(2) PRIORITY FOR CERTAIN GRANTS.—

(A) IN GENERAL.—To fulfill the trust responsibility of the United States to Indian tribes, in awarding relevant grants pursuant

to a program described in subparagraph (B), the Secretary shall give priority consideration to the applications of Indian tribes or tribal organizations, as applicable, that serve populations with documented high suicide rates, regardless of whether those Indian tribes or tribal organizations possess adequate personnel or infrastructure to fulfill all applicable requirements of the relevant program.

(B) DESCRIPTION OF GRANT PROGRAMS.—A grant program referred to in subparagraph (A) is a grant program—

(i) administered by the Administration to fund activities relating to mental health, suicide prevention, or suicide-related risk factors; and

(ii) under which an Indian tribe is an eligible recipient.

(3) CLARIFICATION REGARDING INDIAN TRIBES AND TRIBAL ORGANIZATIONS.—Notwithstanding any other provision of law, in applying for a grant under any program administered by the Administration, no Indian tribe or tribal organization shall be required to apply through a State or State agency.

(4) REQUIREMENTS FOR AFFECTED STATES.—

(A) DEFINITIONS.—In this paragraph:

(i) AFFECTED STATE.—The term “affected State” means a State—

(I) the boundaries of which include 1 or more Indian tribes; and

(II) the application for a grant under any program administered by the Administration of which includes statewide data.

(ii) INDIAN POPULATION.—The term “Indian population” means the total number of residents of an affected State who are members of 1 or more Indian tribes located within the affected State.

(B) REQUIREMENTS.—As a condition of receipt of a grant under any program administered by the Administration, each affected State shall—

(i) describe in the grant application—

(I) the Indian population of the affected State; and

(II) the contribution of that Indian population to the statewide data used by the affected State in the application; and

(ii) demonstrate to the satisfaction of the Secretary that—

(I) of the total amount of the grant, the affected State will allocate for use for the Indian population of the affected State an amount equal to the proportion that—

(aa) the Indian population of the affected State; bears to

(bb) the total population of the affected State; and

(II) the affected State will offer to enter into a partnership with each Indian tribe located within the affected State to carry out youth suicide prevention and treatment measures for members of the Indian tribe.

(C) REPORT.—Not later than 1 year after the date of receipt of a grant described in subparagraph (B), an affected State shall submit to the Secretary a report describing the measures carried out by the affected State to ensure compliance with the requirements of subparagraph (B)(ii).

(b) NO NON-FEDERAL SHARE REQUIREMENT.—Notwithstanding any other provision of law, no Indian tribe or tribal organization shall be required to provide a non-Federal share of the cost of any project or activity carried out using a grant provided under any program administered by the Administration.

(c) OUTREACH FOR RURAL AND ISOLATED INDIAN TRIBES.—Due to the rural, isolated nature of most Indian reservations and communities (especially those reservations and

communities in the Great Plains region), the Secretary shall conduct outreach activities, with a particular emphasis on the provision of telemental health services, to achieve the purposes of this Act with respect to Indian tribes located in rural, isolated areas.

(d) PROVISION OF OTHER ASSISTANCE.—

(1) IN GENERAL.—The Secretary, acting through the Administration, shall carry out such measures (including monitoring and the provision of required assistance) as the Secretary determines to be necessary to ensure the provision of adequate suicide prevention and mental health services to Indian tribes described in paragraph (2), regardless of whether those Indian tribes possess adequate personnel or infrastructure—

(A) to submit an application for a grant under any program administered by the Administration, including due to problems relating to access to the Internet or other electronic means that may have resulted in previous obstacles to submission of a grant application; or

(B) to fulfill all applicable requirements of the relevant program.

(2) DESCRIPTION OF INDIAN TRIBES.—An Indian tribe referred to in paragraph (1) is an Indian tribe—

(A) the members of which experience—

(i) a high rate of youth suicide;

(ii) low socioeconomic status; and

(iii) extreme health disparity;

(B) that is located in a remote and isolated area; and

(C) that lacks technology and communication infrastructure.

(3) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary such sums as the Secretary determines to be necessary to carry out this subsection.

(e) EARLY INTERVENTION AND ASSESSMENT SERVICES.—

(1) DEFINITION OF AFFECTED ENTITY.—In this subsection, the term “affected entity” means any entity—

(A) that receives a grant for suicide intervention, prevention, or treatment under a program administered by the Administration; and

(B) the population to be served by which includes Indian youth.

(2) REQUIREMENT.—The Secretary, acting through the Administration, shall ensure that each affected entity carrying out a youth suicide early intervention and prevention strategy described in section 520E(c)(1) of the Public Health Service Act (42 U.S.C. 290bb-36(c)(1)), or any other youth suicide-related early intervention and assessment activity, provides training or education to individuals who interact frequently with the Indian youth to be served by the affected entity (including parents, teachers, coaches, and mentors) on identifying warning signs of Indian youth who are at risk of committing suicide.

SEC. 6. USE OF PREDOCTORAL PSYCHOLOGY AND PSYCHIATRY INTERNS.

The Secretary shall carry out such activities as the Secretary determines to be necessary to encourage Indian tribes, tribal organizations, and other mental health care providers serving residents of Indian country to obtain the services of predoctoral psychology and psychiatry interns—

(1) to increase the quantity of patients served by the Indian tribes, tribal organizations, and other mental health care providers; and

(2) for purposes of recruitment and retention.

By Mr. BINGAMAN (for himself, Ms. SNOWE, and Mrs. FEINSTEIN):

S. 1639. A bill to amend the Internal Revenue Code of 1986 to improve and extend certain energy-related tax provisions, and for other purposes; to the Committee on Finance.

Mr. BINGAMAN. Mr. President, I rise today to introduce the Expanding Industrial Energy Efficiency Incentives Act of 2009. I am pleased to be joined by my Finance Committee colleague, Senator SNOWE, in introducing the Act, which creates the first direct tax-based incentives for industrial energy efficiency. As such, the Act helps our industrial sector adopt advanced energy technologies and processes, enabling American industry to reduce fuel dependency, cut costs, reduce greenhouse gas emissions, add jobs, and enhance global competitiveness.

Even though the industrial sector represents 32 percent of our domestic energy consumption, there are currently no significant tax credits that directly promote industrial energy efficiency. But as a recent study by McKinsey & Company found, the industrial sector represents the largest potential for end-use energy efficiency in the U.S. and could save \$47 billion per year on energy costs through efficiency improvements. The time to make this investment is now.

The act creates incentives in the three critical areas: water reuse, advanced motors, and CFC chillers. It also enhances incentives for combined heat and power systems. Energy efficiency organizations estimate that these incentives together will save over 92 terawatt hours of energy—the equivalent of four months' worth of total U.S. energy consumption.

First, the act adds a new investment tax credit for reuse, recycling, and/or efficiency measures related to process, sanitary, and cooling water, as well as for blowdown from cooling towers and steam systems used by utility-scale thermo-electric generators. The U.S. currently reuses only 6 percent of its water, and there is significant potential for gains in this area. The industrial sector, which is responsible for 45 percent of domestic freshwater withdrawals, is an ideal place to introduce transformative water reuse and water saving technologies. Approximately 3 percent of U.S. electricity use is for pumping, treating and transporting water. The "water-watts connection" is well-recognized. For instance, the California Energy Commission estimates that 95 percent of the energy savings of proposed energy-efficiency programs could be achieved through water-efficiency programs, at 58 percent of the cost. Water conservation is therefore a cost-effective way to achieve significant energy savings.

Second, the bill establishes a \$120-per-horsepower tax credit for efficient

motor systems with adjustable speed capability. On average, motors account for 65 percent of an industrial energy user's electricity use, a percentage that is even higher in certain industries, such as water supply, mining, and oil and gas extraction. In fact, industrial motors are expected to be responsible for 7 percent of total global carbon emissions by 2020.

New advances in power electronics and controls over the past five years have advanced the potential for new smart motor technologies to provide a significant energy savings potential if these new motors are placed widely into service. By reducing the initial design and added component costs, this new credit will accelerate the adoption of advanced motor technologies into higher volume production, helping to make the technology available economy-wide.

Third, the bill adds a new incentive for replacing CFC chillers. Large water-cooled chillers are the engines of air-conditioning systems for almost all large buildings. The bill establishes a credit of \$150 per ton, plus an additional incentive of \$100 for each ton downsized during replacement. The incentive extends only to pre-1993, post-1980 water-cooled chillers that use the refrigerants CFC-11 and CFC-12. While chillers that use CFC-11 and CFC-12 refrigerants have been banned for new installations because their refrigerant breakdown products attack the ozone layer, some 30,000 chillers that still use these refrigerants remain in both public and private facilities across the country. Replacing these obsolete systems would allow for the recovery of 37 million pounds of ozone depleting CFCs—or 64 million metric tons of carbon dioxide equivalents. Additionally, the improvement in new chiller efficiency that would be achieved by replacing these old systems would save 17.2 million metric tons of carbon dioxide from reduced electricity consumption—the equivalent of taking 3.3 million cars off the road.

While CFC chiller replacement is cost-effective over the long-term, the high up-front costs mean that many building owners do not make these investments. This moderate tax incentive improves the economics and reduces the up-front cost, substantially increasing the number of systems replaced.

Collaterally, but just as significantly, this bill is a jobs bill. For instance, if all CFC chillers are replaced, we expect that approximately 10,500 American jobs can be directly created or preserved in the manufacturing, removal and installation of new chillers. Additional jobs will be created by the engineering services required to take advantage of these incentives, adding up to a potential 60,000 jobs.

Finally, the bill improves the combined heat and power incentive, which

was enacted last October as part of the tax extenders package. The package added a 10 percent investment tax credit for combined heat and power systems. The expansion of the combined heat and power tax credit would increase the credit's applicability from the first 15 megawatts to the first 25 megawatts of system capacity and remove the overall system size cap of 50 megawatts, allowing a greater number of combined heat and power projects to be financially viable and move forward. A recent Department of Energy study estimates that ramping up total U.S. combined heat and power to account for twenty percent of electricity capacity, a percentage that is within our reach, would eliminate over sixty percent of the expected increase in carbon dioxide emissions from today to 2030—the equivalent of taking more than half of current passenger vehicles in the U.S. off the road.

Together, these four industrial energy efficiency incentives capture a large portion of the energy efficiency potential in the industrial sector. These incentives will catalyze the deployment of new technologies that will decrease carbon emissions and protect our natural resources, all while saving money on energy costs and creating jobs.

I look forward to working with Senator SNOWE to see these provisions enacted into law.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1639

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; AMENDMENT OF 1986 CODE; TABLE OF CONTENTS.

(a) **SHORT TITLE.**—This Act may be cited as the "Expanding Industrial Energy Efficiency Incentives Act of 2009".

(b) **AMENDMENT OF 1986 CODE.**—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

(c) **TABLE OF CONTENTS.**—The table of contents for this Act is as follows:

- Sec. 1. Short title; amendment of 1986 Code; table of contents.
- Sec. 2. Modifications in credit for combined heat and power system property.
- Sec. 3. Motor energy efficiency improvement tax credit.
- Sec. 4. Credit for replacement of CFC refrigerant chiller.
- Sec. 5. Qualifying efficient industrial process water use project credit.

SEC. 2. MODIFICATIONS IN CREDIT FOR COMBINED HEAT AND POWER SYSTEM PROPERTY.

(a) **MODIFICATION OF CERTAIN CAPACITY LIMITATIONS.**—Section 48(c)(3)(B) is amended—

(1) by striking “15 megawatts” in clause (ii) and inserting “25 megawatts”;

(2) by striking “20,000 horsepower” in clause (i) and inserting “34,000 horsepower”, and

(3) by striking clause (iii).

(b) **NONAPPLICATION OF CERTAIN RULES.**—Section 48(c)(3)(C) is amended by adding at the end the following new clause:

“(iv) **NONAPPLICATION OF CERTAIN RULES.**—For purposes of determining if the term ‘combined heat and power system property’ includes technologies which generate electricity or mechanical power using back-pressure steam turbines in place of existing pressure-reducing valves or which make use of waste heat from industrial processes such as by using organic rankine, stirling, or kalina heat engine systems, subparagraph (A) shall be applied without regard to clause (ii).”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply to periods after the date of the enactment of this Act, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

SEC. 3. MOTOR ENERGY EFFICIENCY IMPROVEMENT TAX CREDIT.

(a) **IN GENERAL.**—Subpart D of part IV of subchapter A of chapter 1 is amended by adding at the end the following new section:

“SEC. 45R. MOTOR ENERGY EFFICIENCY IMPROVEMENT TAX CREDIT.

“(a) **IN GENERAL.**—For purposes of section 38, the motor energy efficiency improvement tax credit determined under this section for the taxable year is an amount equal to \$120 multiplied by the motor horsepower of an appliance, machine, or equipment—

“(1) manufactured in such taxable year by a manufacturer which incorporates an advanced motor system into a newly designed appliance, machine, or equipment or into a redesigned appliance, machine, or equipment which did not previously make use of the advanced motor system, or

“(2) placed back into service in such taxable year by an end user which upgrades an existing appliance, machine, or equipment with an advanced motor system.

For any advanced motor system with a total horsepower of less than 10, such motor energy efficiency improvement tax credit is an amount which bears the same ratio to \$120 as 1 horsepower bears to such total horsepower.

“(b) **ADVANCED MOTOR SYSTEM.**—For purposes of this section, the term ‘advanced motor system’ means a motor and any required associated electronic control which—

“(1) offers variable or multiple speed operation, and

“(2) uses permanent magnet technology, electronically commutated motor technology, switched reluctance motor technology, or such other motor systems technologies as determined by the Secretary of Energy.

“(c) **AGGREGATE PER TAXPAYER LIMITATION.**—

“(1) **IN GENERAL.**—The amount of the credit determined under this section for any taxpayer for any taxable year shall not exceed the excess (if any) of \$2,000,000 over the aggregate credits allowed under this section with respect to such taxpayer for all prior taxable years.

“(2) **AGGREGATION RULES.**—For purposes of this section, all persons treated as a single employer under subsections (a) and (b) of section 52 shall be treated as 1 taxpayer.

“(d) **SPECIAL RULES.**—

“(1) **BASIS REDUCTION.**—For purposes of this subtitle, the basis of any property for which

a credit is allowable under subsection (a) shall be reduced by the amount of such credit so allowed.

“(2) **NO DOUBLE BENEFIT.**—No other credit shall be allowable under this chapter for property with respect to which a credit is allowed under this section.

“(3) **PROPERTY USED OUTSIDE UNITED STATES NOT QUALIFIED.**—No credit shall be allowable under subsection (a) with respect to any property referred to in section 50(b)(1).

“(e) **APPLICATION.**—This section shall not apply to property manufactured or placed back into service before the date which is 6 months after the date of the enactment of this section or after December 31, 2013.”.

(b) **CONFORMING AMENDMENTS.**—

(1) Section 38(b) is amended by striking “plus” at the end of paragraph (34), by striking the period at the end of paragraph (35) and inserting “, plus”, and by adding at the end the following new paragraph:

“(36) the motor energy efficiency improvement tax credit determined under section 45R.”.

(2) Section 1016(a) is amended by striking “and” at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting “, and”, and by adding at the end the following new paragraph:

“(38) to the extent provided in section 45R(d)(1).”.

(3) The table of sections for subpart D of part IV of subchapter A of chapter 1 is amended by adding at the end the following new item:

“Sec. 45R. Motor energy efficiency improvement tax credit.”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply to property manufactured or placed back into service after the date which is 6 months after the date of the enactment of this Act.

SEC. 4. CREDIT FOR REPLACEMENT OF CFC REFRIGERANT CHILLER.

(a) **IN GENERAL.**—Subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following new section:

“SEC. 45S. CFC CHILLER REPLACEMENT CREDIT.

“(a) **IN GENERAL.**—For purposes of section 38, the CFC chiller replacement credit determined under this section for the taxable year is an amount equal to—

“(1) \$150 multiplied by the tonnage rating of a CFC chiller replaced with a new efficient chiller that is placed in service by the taxpayer during the taxable year, plus

“(2) if all chilled water distribution pumps connected to the new efficient chiller include variable frequency drives, \$100 multiplied by any tonnage downsizing.

“(b) **CFC CHILLER.**—For purposes of this section, the term ‘CFC chiller’ includes property which—

“(1) was installed after 1980 and before 1993,

“(2) utilizes chlorofluorocarbon refrigerant, and

“(3) until replaced by a new efficient chiller, has remained in operation and utilized for cooling a commercial building.

“(c) **NEW EFFICIENT CHILLER.**—For purposes of this section, the term ‘new efficient chiller’ includes a water-cooled chiller which is certified to meet efficiency standards effective on January 1, 2010, as defined in table 6.8.1c in Addendum M to Standard 90.1-2007 of the American Society of Heating, Refrigerating, and Air Conditioning Engineers.

“(d) **TONNAGE DOWNSIZING.**—For purposes of this section, the term ‘tonnage downsizing’ means the amount by which the tonnage rating of the CFC chiller exceeds the tonnage rating of the new efficient chiller.

“(e) **ENERGY AUDIT.**—As a condition of receiving a tax credit under this section, an energy audit shall be performed on the building prior to installation of the new efficient chiller, identifying cost-effective energy-saving measures, particularly measures that could contribute to chiller downsizing. The audit shall satisfy criteria that shall be issued by the Secretary of Energy.

“(f) **PROPERTY USED BY TAX-EXEMPT ENTITY.**—In the case of a CFC chiller replaced by a new efficient chiller the use of which is described in paragraph (3) or (4) of section 50(b), the person who sold such new efficient chiller to the entity shall be treated as the taxpayer that placed in service the new efficient chiller that replaced the CFC chiller, but only if such person clearly discloses to such entity in a document the amount of any credit allowable under subsection (a) and the person certifies to the Secretary that the person reduced the price the entity paid for such new efficient chiller by the entire amount of such credit.

“(g) **TERMINATION.**—This section shall not apply to replacements made after December 31, 2012.”.

(b) **CONFORMING AMENDMENTS.**—

(1) Section 38(b), as amended by this Act, is amended by striking “plus” at the end of paragraph (35), by striking the period at the end of paragraph (36) and inserting “, plus”, and by adding at the end the following new paragraph:

“(37) the CFC chiller replacement credit determined under section 45S.”.

(2) The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following new item:

“Sec. 45S. CFC chiller replacement credit.”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply to replacements made after the date of the enactment of this Act.

SEC. 5. QUALIFYING EFFICIENT INDUSTRIAL PROCESS WATER USE PROJECT CREDIT.

(a) **IN GENERAL.**—Section 46 is amended by striking “and” at the end of paragraph (4), by striking the period at the end of paragraph (5), and by adding at the end the following new paragraph:

“(6) the qualifying efficient industrial process water use project credit.”.

(b) **AMOUNT OF CREDIT.**—Subpart E of part IV of subchapter A of chapter 1 is amended by inserting after section 48C the following new section:

“SEC. 48D. QUALIFYING EFFICIENT INDUSTRIAL PROCESS WATER USE PROJECT CREDIT.

“(a) **IN GENERAL.**—

“(1) **ALLOWANCE OF CREDIT.**—For purposes of section 46, the qualifying efficient industrial process water use project credit for any taxable year is an amount equal to the applicable percentage of the qualified investment for such taxable year with respect to any qualifying efficient industrial process water use project of the taxpayer.

“(2) **APPLICABLE PERCENTAGE.**—For purposes of subsection (a), the applicable percentage is—

“(A) 10 percent in the case of a qualifying efficient industrial process water use project which achieves a net energy consumption of less than 3,000 kilowatt hours per million gallons of water, and is placed in service before January 1, 2013,

“(B) 20 percent in the case of a qualifying efficient industrial process water use project which achieves a net energy consumption of less than 2,000 kilowatt hours per million gallons of water, and

“(C) 30 percent in the case of a qualifying efficient industrial process water use project which achieves a net energy consumption of less than 1,000 kilowatt hours per million gallons of water.

“(b) QUALIFIED INVESTMENT.—

“(1) IN GENERAL.—For purposes of subsection (a), the qualified investment for any taxable year is the basis of eligible property placed in service by the taxpayer during such taxable year which is part of a qualifying efficient industrial process water use project.

“(2) EXCEPTIONS.—Such term shall not include any portion of the basis related to—

“(A) permitting,

“(B) land acquisition, or

“(C) infrastructure associated with sourcing or water discharge.

“(3) CERTAIN QUALIFIED PROGRESS EXPENDITURES RULES MADE APPLICABLE.—Rules similar to the rules of subsections (c)(4) and (d) of section 46 (as in effect on the day before the enactment of the Revenue Reconciliation Act of 1990) shall apply for purposes of this section.

“(4) SPECIAL RULE FOR SUBSIDIZED ENERGY FINANCING.—Rules similar to the rules of section 48(a)(4) (without regard to subparagraph (D) thereof) shall apply for purposes of this section.

“(5) LIMITATION.—The amount which is treated for all taxable years with respect to any qualifying efficient industrial process water use project with respect to any site shall not exceed \$10,000,000.

“(c) DEFINITIONS.—

“(1) QUALIFYING EFFICIENT INDUSTRIAL PROCESS WATER USE PROJECT.—The term ‘qualifying efficient industrial process water use project’ means, with respect to any site, a project—

“(A) which replaces or modifies a system for the use of water or steam in the production of goods in the trade or business of manufacturing (including any system for the use of water derived from blow-down from cooling towers and steam systems in the generation of electric power at a site also used for the production of goods in the trade or business of manufacturing), and

“(B) which is designed to achieve—

“(i) a reduction of not less than 20 percent in water withdrawal and a reduction of not less than 10 percent of water discharge when compared to the existing water use at the site, or

“(ii) a reduction of not less than 10 percent in water withdrawal and a reduction of not less than 20 percent of water discharge when compared to the existing water use at the site, and

“(2) ELIGIBLE PROPERTY.—The term ‘eligible property’ means any property—

“(A) which is part of a qualifying efficient industrial process water use project and which is necessary for the reduction in withdrawals or discharge described in paragraph (1)(B),

“(B)(i) the construction, reconstruction, or erection of which is completed by the taxpayer, or

“(ii) which is acquired by the taxpayer if the original use of such property commences with the taxpayer, and

“(C) with respect to which depreciation (or amortization in lieu of depreciation) is allowable.

“(3) NET ENERGY CONSUMPTION.—The term ‘net energy consumption’ means the energy consumed, both on-site and off-site, with respect to the water described in paragraph (1)(A). Net energy consumption shall be normalized per unit of industrial output and measured under rules and procedures estab-

lished by the Secretary, in consultation with the Administrator of the Environmental Protection Agency.

“(4) WATER DISCHARGE.—The term ‘water discharge’ means all water leaving the site via permitted or unpermitted surface water discharges, discharges to publicly owned treatment works, and shallow- or deep-injection (whether on-site or off-site).

“(5) WATER WITHDRAWAL.—The term ‘water withdrawal’ means all water taken for use at the site from on-site ground and surface water sources together with any water supplied to the site by a public water system.

“(d) TERMINATION.—This section shall not apply to periods after December 31, 2014, under rules similar to the rules of section 48(m) (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).”.

(c) CONFORMING AMENDMENTS.—

(1) Section 49(a)(1)(C) is amended by striking “and” at the end of clause (iv), by striking the period at the end of clause (v) and inserting “, and”, and by adding after clause (v) the following new clause:

“(vi) the basis of any property which is part of a qualifying efficient industrial use water project under section 48D.”.

(2) The table of sections for subpart E of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 48B the following new item:

“Sec. 48D. Qualifying efficient industrial process water use project credit.”.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to periods after January 1, 2011, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

By Mr. WYDEN (for himself, Mr. CORNYN, and Mr. HARKIN):

S. 1640. A bill to amend title XVIII of the Social Security Act to provide coverage of intensive lifestyle treatment; to the Committee on Finance.

Mr. WYDEN. Mr. President, I rise today to introduce the Take Back Your Health Act of 2009. I want to thank my friends Senator CORNYN and Senator HARKIN for joining as original cosponsors of this bill.

This bill is another example of how Democrats and Republicans can come together on health reform. This bill incorporates ideas that bridge the philosophies of both parties: prevention, individual responsibility, and paying for health care services that provide value.

These days, health care reformers talk about bending the cost curve down and focusing on delivery system “game changers”. Often my friends and I have talked about how prevention—preventing disease or illness before it happens—does both, but is not scored as bending the cost curve by the Congressional Budget Office.

Over the last year, I have worked with some of the brightest minds in prevention—Doctors Dean Ornish, Mike Roizen, and Mark Hyman—on how to design a program that will change the focus of medicine from treating medical problems to pre-

venting them while delivering savings. The road that took us to this bill has not been an easy one, but I believe this bill achieves all of our goals when it comes to encouraging healthier behaviors that will help prevent disease, especially chronic diseases.

The heart of this bill is what’s called an intensive lifestyle treatment program. This program is an individualized health plan prescribed by a doctor that gets people living healthier and getting healthier through exercise, nutrition counseling, care coordination, medication management, and stopping smoking.

This type of program has been proven to help or even reverse the progression of many chronic diseases. A Highmark Blue Cross Blue Shield study found that their costs went down 50 percent after their patients took part in an intensive lifestyle program. That can mean big savings for Medicare and for seniors.

Even a CMS Medicare demonstration—which notoriously does not score savings for anything—found that people who went through a lifestyle program had the same or lower costs over three years than as Medicare beneficiaries who didn’t go through the program.

In times like these, the American people want to know that the Medicare program is going to get their money’s worth. The Take Back Your Health Act embraces a pay-for-performance type system. Doctors are paid a bundled payment to encourage efficiency and teamwork, and they are held responsible for their success. If a patient’s health status does not improve according to at least two measures, the doctor doesn’t get paid. In addition, if a patient goes through the program for diabetes, but still has problems and has to go to the hospital, the lifestyle treatment doctor doesn’t get paid.

The last innovation in this program is that it gives individuals a financial incentive for getting healthier. Every person who goes through this treatment program and improves his or her health status gets a one-time \$200 reward.

The beauty of this bill is that everyone has skin in the game: the doctor, the patient, and the government. That will be the secret of its success. It is just this kind of innovative program that can be a real game-changer for Medicare and for our entire health care system, by bringing the focus of our health care system back to the basics of making us healthier.

I look forward to working with Chairman BAUCUS and Senator GRASSLEY on including this bill in health reform. I urge my colleagues to join me as cosponsors on this bill.

By Ms. SNOWE (for herself and Mr. BINGAMAN):

S. 1643. A bill to amend the Internal Revenue Code of 1986 to allow a credit

for the conversion of heating using oil fuel to using natural gas or biomass feedstocks, and for other purposes; to the Committee on Finance.

Mr. BINGAMAN. Mr. President, addressing our Nation's dependence on imported oil and our greenhouse gas emissions will require policies that extend across the economy, as well as policies that are more narrowly tailored to specific sectors. Today, I rise with my colleague from Maine, Senator SNOWE, to offer a bill that would enhance energy security and reduce greenhouse gas emissions associated with heating our nation's homes and buildings. Our bill, the Cleaner, Secure and Affordable Thermal Energy Act, creates significant incentives for consumers, businesses, and tax-exempt entities that now rely on heating oil to convert to energy-efficient natural gas or biomass heating systems.

Across the country, and particularly in the Northeast and Midwest, many homes and buildings still derive heat from oil-burning furnaces. According to the Energy Information Administration, in 2007, our Nation consumed nearly 160 million barrels of oil for heating fuel. This use of heating oil continues despite the existence of widely available alternatives that are cleaner, more secure, and more affordable.

On April 22, I held a hearing in the Energy and Natural Resources Committee on the Energy Efficiency Resource Standards. The Committee heard from several witnesses about the advantages of and efforts to convert residential, business, and public users from fuel oil to natural gas and biomass heating systems. For each household that converts from fuel oil to a natural gas heating system, we avoid 2.1 metric tons of greenhouse gas emissions. For each commercial building, we avoid 9.9 metric tons, and for each industrial facility, we avoid as much as 2,984 metric tons. These emission reductions are even more significant for conversions to heating systems that are fired by biomass resources.

Besides being cleaner, natural gas and biomass are far more secure resources. Ninety-eight percent of domestically consumed natural gas is produced in North America, and domestic reserves of natural gas are estimated at 100 years based on current consumption.

Finally, since the price of natural gas and biomass is lower and less volatile than the price of oil, converting offers significant short- and long-term cost savings to consumers. For instance, while the average annual cost of using fuel oil for home heating averages \$1,734, the average annual cost of operating a natural gas furnace is \$1,004.

But significant up-front costs prevent many families and businesses from converting their heating systems.

The Cleaner, Secure and Affordable Thermal Energy Act will make these

conversions more affordable for American families, businesses, and tax-exempt entities.

First, for residential consumers, the Act establishes a 30 percent tax credit for costs associated with converting from a fuel oil to natural gas or biomass heating system. The credit is capped at \$3,500, \$4,000 in the case of biomass stoves. To qualify, the replacement equipment must be energy efficient; a natural gas boiler must have an AFUE rating of at least 85 percent, a replacement natural gas furnace must have an AFUE rating of at least 92 percent, and a replacement biomass appliance must have a thermal efficiency rating of more than 75 percent.

For business taxpayers, the act authorizes bonus depreciation for property installed before 2012. This would enable business taxpayers to expense—that is, immediately write-off—half of the cost of qualifying property, and depreciate the remaining balance over the typical cost-recovery period.

Many of the Nation's heating oil systems are used by public entities, particularly school systems. To help public entities finance their conversions to natural gas and biomass heating, the Act adds conversion programs as an activity eligible for Qualified Energy Conservation Bonds.

Finally, to encourage expansion of natural gas service capabilities, the act includes a two-year extension of the 15-year depreciation schedule created for distribution facilities under the Energy Policy Act of 2005.

The act would move us significantly in the direction of a low-carbon economy while enhancing energy security and reducing heating costs. I look forward to working with Senator SNOWE to enacting our bill into law.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 245—RECOGNIZING SEPTEMBER 11 AS A “NATIONAL DAY OF SERVICE AND REMEMBRANCE”

Mr. SCHUMER (for himself, Mrs. GILLIBRAND, Mr. MENENDEZ, Mr. LAUTENBERG, Mr. CASEY, Mr. SPECTER, Mr. DODD, and Mr. LIEBERMAN) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 245

Whereas, on September 11, 2001, terrorists ruthlessly attacked the United States, leading to the tragic deaths and injuries of thousands of innocent United States citizens and other citizens from more than 90 different countries and territories;

Whereas in response to the attacks in New York City, Washington, D.C., and Shanksville, Pennsylvania, firefighters, police officers, emergency medical technicians, physicians, nurses, military personnel, and other first responders immediately and without concern for their own well-being rose to

service, in a heroic attempt to protect the lives of those still at risk, consequently saving thousands of men and women;

Whereas in the immediate aftermath of the attacks, thousands of recovery workers, including trades personnel, iron workers, equipment operators, and many others, joined with firemen, police officers, and military personnel to help to search for and recover victims lost in the terrorist attacks;

Whereas in the days, weeks, and months following the attacks, thousands of people in the United States and others spontaneously volunteered to help support the rescue and recovery efforts, braving both physical and emotional hardship;

Whereas many first responders, rescue and recovery workers, and volunteers, as well as survivors of the 9/11 terrorist attacks, continue to suffer from serious medical illnesses and emotional distress related to the physical and mental trauma of the 9/11 tragedy;

Whereas hundreds of thousands of brave men and women continue to serve every day, having answered the call to duty as members of the United States Armed Forces, with thousands having given their lives or suffered injury to defend our Nation's security and prevent future terrorist attacks;

Whereas the entire Nation witnessed and shared in the tragedy of September 11, 2001, and in the immediate aftermath of the attacks became unified under a remarkable spirit of service and compassion that inspired and helped heal the Nation;

Whereas in the years immediately following the attacks of September 11, 2001, the U.S. Bureau of Labor Statistics documented a marked increase in volunteerism among the people of the United States;

Whereas families of 9/11 victims, survivors, first responders, rescue and recovery workers, and volunteers called for Congress to pass legislation to formally authorize the establishment of September 11 as an annually recognized “National Day of Service and Remembrance”, and for the President of the United States to proclaim the day as such;

Whereas, in 2004, Congress unanimously passed H. Con. Res. 473, expressing the sense of Congress that it is appropriate to observe the anniversary of the attacks of September 11, 2001, with voluntary acts of service and compassion;

Whereas hundreds of thousands of people in the United States from all 50 States, as well as others who live in 170 different countries, annually observe the anniversary of the attacks of September 11, 2001, by personally engaging in service, good deeds, and other charitable acts; and

Whereas, on March 31, 2009, Congress passed the Edward M. Kennedy Serve America Act, which included for the first time authorization and Federal recognition of September 11 as a “National Day of Service and Remembrance”, a bill signed into law on April 21, 2009, by President Barack Obama: Now, therefore, be it

Resolved, That the Senate—

(1) calls upon all people in the United States to annually observe a “National Day of Service and Remembrance”, with appropriate and personal expressions of reflection, including performing good deeds, attending memorial and remembrance services, and voluntarily engaging in community service or other charitable activities of their own choosing in honor of those who lost their lives or were injured in the attacks of September 11, 2001, in tribute to those who rose to come to the aid of those in need, and in defense of our Nation; and

(2) urges all people in the United States to continue to live their lives throughout the

year with the same spirit of unity, service, and compassion that was exhibited throughout the Nation following the terrorist attacks of September 11, 2001.

SENATE RESOLUTION 246—REQUIRING THAT LEGISLATION CONSIDERED BY THE SENATE TO BE CONFINED TO A SINGLE ISSUE

Mr. ENZI (for himself and Mr. BARASSO) submitted the following resolution; which was referred to the Committee on Rules and Administration:

S. RES. 246

Resolved,

SECTION 1. SINGLE ISSUE REQUIREMENT.

(a) POINT OF ORDER.—It shall not be in order in the Senate to consider a bill or resolution that is not confined to a single subject.

(b) SUPERMAJORITY WAIVER AND APPEALS.—

(1) WAIVER.—This section may be waived or suspended in the Senate only by the affirmative vote of two-thirds of the Members, duly chosen and sworn.

(2) APPEALS.—Appeals in the Senate from the decisions of the Chair relating to any provision of this section shall be limited to 30 minutes, to be equally divided between, and controlled by, the appellant and the manager of the bill or joint resolution. An affirmative vote of two-thirds of the Members of the Senate, duly chosen and sworn, shall be required to sustain an appeal of the ruling of the Chair on a point of order raised under this section.

Mr. ENZI. Mr. President, I rise today to discuss the legislative climate the United States Senate has found itself operating in. Like many of my colleagues, I began my political career in local government. I was mayor in my hometown and then served as a legislator in the Wyoming State Legislature. It was during this time I learned that the most effective legislation comes from a process that is transparent and focused. For example, the Wyoming State Legislature requires that all bills must be focused on one issue. They cannot be loaded up with random provisions, riders, and add-ons that have nothing to do with the overall legislation. In Congress, we often use omnibus bills to pass multiple legislative items that should be considered on their own merit. Omnibus often create more problems in the long run than they solve.

Instead of focusing on one policy issue at a time, we have allowed legislative logjams to foul up the Senate's work and ill-considered legislation to be hastily pushed through this institution. These legislative practices, which have become the norm are a gangrene that eats away at this institution.

Legislation that is fundamental to our country's wellbeing has become politicized and burdened with extraneous provisions that have not been fully vetted through the regular order. Most of the time Members have not had the opportunity to read the bills they are voting on, let alone the public which will have to live under and pay for

whatever lurks in the unseen pages. By tolerating this behavior, the Senate is allowing legislation needed to address our Nation's most pressing challenges to go through unrefined and lousy with special interest provisions.

To help bring this institution back in line with its original purpose, today I submit my Single Issue Legislation resolution. I want this resolution to be a starting point for changing the attitude the Senate has toward building bills. It will allow us to focus on getting individual issues addressed more effectively. Specifically, this resolution enacts a standing order that creates a point of order against a bill or resolution that is not confined to a single issue. This point of order can only be overruled by a supermajority.

My Single Issue Legislation gives the Senate the flexibility in the amendment process it has always enjoyed and allows the Senate as a legislative body to develop the structure and scope of the standing order through practice and precedent rather than through arbitrary rules. At the same time, we ensure that our legislative process is focused and productive. In short, we bring ourselves back to how the Founding Fathers intended and wanted our legislative process to operate.

Our job is not to score political points by stuffing as many pet projects and knee-jerk provisions as we can into bills, but rather to represent the needs of our constituents, our States, and our country by doing what is best for us as a nation. We must get back to a better process for crafting and considering legislation so that we can enact effective policies to meet the many challenges we face today. This is why we were elected to serve in the United States Senate. We owe it to the people we represent to work through a process that allows legislation to be properly and thoroughly considered and debated. My Single Issue Legislation resolution helps us do just that.

SENATE RESOLUTION 247—DESIGNATING SEPTEMBER 26, 2009, AS "NATIONAL ESTUARIES DAY"

Mr. WHITEHOUSE (for himself, Mrs. BOXER, Mr. BURR, Mr. CARDIN, Mr. CARPER, Mr. COCHRAN, Ms. COLLINS, Mrs. FEINSTEIN, Mrs. GILLIBRAND, Mr. GREGG, Ms. LANDRIEU, Mr. LAUTENBERG, Ms. MIKULSKI, Mrs. MURRAY, Mrs. SHAHEEN, Mr. WARNER, and Mr. WYDEN) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 247

Whereas the estuary regions of the United States comprise a significant share of the national economy, with 43 percent of the population, 40 percent of employment, and 49 percent of economic output located in such regions;

Whereas coasts and estuaries contribute more than \$800,000,000,000 annually in trade and commerce to the Nation's economy;

Whereas more than 43 percent of all adults in the United States visit a sea coast or estuary at least once a year to participate in some form of recreation, generating \$8,000,000,000 to \$12,000,000,000 in revenue annually;

Whereas more than 28,000,000 jobs in the United States are supported through commercial and recreational fishing, boating, tourism, and other coastal industries that rely on healthy estuaries;

Whereas estuaries provide vital habitat for countless species of fish and wildlife, including many that are listed as threatened or endangered;

Whereas estuaries provide critical ecosystem services that protect human health and public safety, including water filtration, flood control, shoreline stabilization and erosion prevention, and protection of coastal communities during extreme weather events;

Whereas 55,000,000 acres of estuarine habitat have been destroyed over the last 100 years;

Whereas bays once filled with fish and oysters have become dead zones filled with excess nutrients, chemical wastes, and harmful algae;

Whereas sea level rise is accelerating the degradation of estuaries by submerging low-lying lands, eroding beaches, converting wetlands to open water, exacerbating coastal flooding, and increasing the salinity of estuaries and freshwater aquifers;

Whereas in the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.), Congress found and declared that it is national policy to preserve, protect, develop, and where possible, to restore or enhance, the resources of the Nation's coastal zone, including estuaries, for current and future generations;

Whereas estuary restoration efforts cost-effectively restore natural infrastructure in local communities, helping to create jobs and reestablish the natural functions of estuaries that yield countless benefits; and

Whereas September 26, 2009, has been designated "National Estuaries Day" to increase awareness among all citizens, including local, State, and Federal officials, about the importance of healthy estuaries and the need to protect them: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 26, 2009, as "National Estuaries Day";

(2) supports the goals and ideals of "National Estuaries Day";

(3) acknowledges the importance of estuaries to the Nation's economic well-being and productivity;

(4) recognizes the persistent threats that undermine the health of the Nation's estuaries;

(5) applauds the work of national and community organizations and public partners to promote public awareness, protection, and restoration of estuaries; and

(6) reaffirms its support for estuaries, including the preservation, protection, and restoration thereof, and expresses its intent to continue working to protect and restore the estuaries of the United States.

SENATE RESOLUTION 248—DESIGNATING THE MONTH OF AUGUST 2009 AS "AGENT ORANGE AWARENESS MONTH"

Ms. COLLINS (for herself, Mr. BEGICH, Ms. SNOWE, Ms. MURKOWSKI, and Mr. ROCKEFELLER) submitted the following resolution; which was considered and agreed to:

S. RES. 248

Whereas between 1964 and 1973, 8,744,000 men and women bravely served our Nation in the Vietnam War;

Whereas an estimated 2,600,000 service men and women may have been exposed to Agent Orange in Vietnam;

Whereas Agent Orange is an herbicide that was used during the Vietnam War to kill unwanted plant life and remove leaves from trees that provided cover for the enemy;

Whereas the United States military sprayed more than 19,000,000 gallons of herbicide throughout South Vietnam, with Agent Orange accounting for approximately 11,000,000 gallons of this amount;

Whereas Agent Orange is an extremely toxic substance that contains dioxin;

Whereas the Department of Veterans Affairs has recognized that certain cancers and other health problems are associated with exposure to Agent Orange;

Whereas John Baldacci, the Governor of the State of Maine, has proclaimed August 2009 as "Agent Orange Awareness Month" for that State;

Whereas the State of Alaska has 76,000 veterans, the highest population of veterans per capita, with 26,000 of these being veterans of the Vietnam War; and

Whereas, as a Nation, we are deeply grateful and thankful for those men and women who bravely served during the Vietnam War: Now, therefore, be it

Resolved, That the Senate—

(1) designates the month of August 2009 as "Agent Orange Awareness Month";

(2) calls attention to those veterans who were exposed to Agent Orange and the adverse effects that such exposure has had on their health;

(3) recognizes the sacrifices that our veterans and servicemembers have made and continue to make on behalf of our great Nation, especially those veterans who were exposed to Agent Orange;

(4) reaffirms its commitment to our Nation's veterans; and

(5) does not, by this resolution, authorize, support, or settle any claim against the United States.

SENATE RESOLUTION 249—HONORING UNITED STATES NAVY PILOT CAPTAIN MICHAEL SCOTT SPEICHER WHO WAS KILLED IN OPERATION DESERT STORM

Mr. ROBERTS (for himself and Mr. NELSON of Florida) submitted the following resolution; which was considered and agreed to:

S. RES. 249

Whereas more than 88,000 Americans remain missing from World War II, the Korean War, the Cold War, the Vietnam War, and the wars in Iraq and Afghanistan;

Whereas the people of the United States honor Captain Michael Scott Speicher;

Whereas Captain Speicher was shot down in Wadi Thumayal while flying an F/A-18 Hornet fighter jet on January 16, 1991, the first night of the Persian Gulf War;

Whereas Captain Speicher's fate remained unknown until July 2009, when United States Marines stationed in Anbar recovered his remains in an unmarked desert grave;

Whereas Captain Speicher made the ultimate sacrifice for his country; and

Whereas Captain Speicher's wife and 2 children have sacrificed to the greatest extent, and the people of the United States honor

them by commemorating Captain Speicher: Now, therefore, be it

Resolved, That the Senate—

(1) honors Captain Michael Scott Speicher for his service and sacrifice, and for giving his life fighting for the Nation in Operation Desert Storm;

(2) honors Captain Speicher's family for their love and undying strength and determination to bring Captain Speicher home;

(3) encourages the Department of Defense to continue the Nation's efforts to provide clear and accurate information about what happened to our fallen heroes, to determine the nature and cause of Captain Speicher's death, and to continue accounting for all who remain missing in action; and

(4) honors the United States Navy, the United States Marine Corps, the Defense Intelligence Agency, and the Department of Defense for their efforts to bring Captain Speicher home.

SENATE RESOLUTION 250—TO AUTHORIZE TESTIMONY AND LEGAL REPRESENTATION IN PEOPLE OF THE STATE OF CALIFORNIA v. AMIR SHERVIN

Mr. REID (for himself and Mr. MCCONNELL) submitted the following resolution; which was considered and agreed to:

S. RES. 250

Whereas, in the case of *People of the State of California v. Amir Sherwin*, No. 05-221878, pending in Superior Court in Alameda County, California, the prosecution has sought testimony from Eric Vizcaino, an employee of Senator Barbara Boxer;

Whereas, pursuant to sections 703(a) and 704(a)(2) of the Ethics in Government Act of 1978, 2 U.S.C. §§288b(a) and 288c(a)(2), the Senate may direct its counsel to represent an employee of the Senate with respect to any subpoena, order, or request for testimony relating to their official responsibilities;

Whereas, by the privileges of the Senate of the United States and Rule XI of the Standing Rules of the Senate, no evidence under the control or in the possession of the Senate may, by the judicial or administrative process, be taken from such control or possession but by permission of the Senate;

Whereas, when it appears that evidence under the control or in the possession of the Senate may promote the administration of justice, the Senate will take such action as will promote the ends of justice consistent with the privileges of the Senate: Now, therefore, be it

Resolved that Eric Vizcaino and any other employee of Senator Boxer's office from whom testimony may be necessary are authorized to testify in the case of *People of the State of California v. Amir Sherwin*, except concerning matters for which a privilege should be asserted.

Sec. 2. The Senate Legal Counsel is authorized to represent employees of Senator Boxer's office in connection with the testimony authorized in section one of this resolution.

SENATE CONCURRENT RESOLUTION 38—EXPRESSING SUPPORT FOR THE DESIGNATION OF AN EARLY DETECTION MONTH TO ENHANCE PUBLIC AWARENESS OF THE NEED FOR SCREENING FOR BREAST CANCER AND ALL OTHER FORMS OF CANCER

Mrs. HAGAN (for herself and Mr. DURBIN) submitted the following concurrent resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. CON. RES. 38

Whereas more than 2,000,000 new cases of cancer are diagnosed in the United States every year;

Whereas the most common types of cancer in the United States are nonmelanoma skin cancer, breast cancer in women, prostate cancer in men, lung cancer, and colorectal cancers;

Whereas 1 out of every 8 women in the United States will develop breast cancer in her lifetime;

Whereas incidence of breast cancer in young women is much lower than in older women, and breast cancers are generally more aggressive and result in lower survival rates when they occur in young women;

Whereas breast cancer takes the life of 1 woman in the United States every 13 minutes;

Whereas, in 2009, approximately 192,370 women in the United States will be diagnosed with invasive breast cancer;

Whereas available treatments are very unlikely to cure advanced breast cancer;

Whereas many oncologists and breast cancer researchers believe that a cure for breast cancer will not be discovered until well into the future;

Whereas lung cancer (both small cell and non-small cell) is the second most common cancer in women;

Whereas, in 2009, approximately 11,270 women in the United States will be diagnosed with invasive cervical cancer, of which approximately 4,070 will die;

Whereas, if ovarian cancer is detected and treated early, the survival rate is 93 percent, however, fewer than 20 percent of all cases of ovarian cancer are found at an early stage;

Whereas prostate cancer is the second leading cause of cancer death among men, with more than 80 percent of all cases occurring in men more than 65 years old;

Whereas African-American men are diagnosed with prostate cancer at later stages and die of prostate cancer more often than White men;

Whereas, in 2009, approximately 192,280 men in the United States will be diagnosed with invasive prostate cancer;

Whereas if cancer is detected early enough, more than 75 percent of all people who develop cancer could be saved;

Whereas greater awareness of the critical necessity for the early detection of breast cancer and other cancers will not only save tens of thousands of lives but also greatly reduce the financial strain on government and private health care services by detecting cancer before it requires very expensive medical treatment;

Whereas there is a need for enhanced public awareness of the need for cancer screening; and

Whereas the designation of an Early Detection Month will enhance public awareness of breast cancer and all other forms of cancer: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress supports the designation of an Early Detection Month to enhance public awareness of the need for screening for breast cancer and all other forms of cancer.

NOTICES OF HEARINGS

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a field hearing has been scheduled before the Committee on Energy and Natural Resources.

The hearing will be held on Saturday, August 22, 2009, at 10 a.m., in Chena Hot Springs Resort, Milepost 56.5, Chena Hot Springs Road, in Chena Hot Springs, Alaska.

The purpose of the hearing is to consider renewable energy production, strategies, and technologies with regard to rural communities.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510-6150, or by email to Mike.Gauthier@energy.senate.gov or Chuck.Kleeschulte@energy.senate.gov.

For further information, please contact Chuck Kleeschulte at (202) 224-8276 or Mike Gauthier at (202) 224-3907.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a field hearing has been scheduled before the Subcommittee on National Parks.

The hearing will be held on Monday, August 24, 2009, at 1:30 p.m., in the Board Room of Town Hall, 170 MacGregor Avenue, Estes Park, Colorado.

The purpose of the hearing is to consider climate change impacts on national parks in Colorado and related management activities.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510-6150, or by email to scott.miller@energy.senate.gov.

For further information, please contact Scott Miller at (202) 224-5488.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. SANDERS. Mr. President, I ask unanimous consent that the Com-

mittee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Thursday, August 6, 2009, at 2:30 p.m., in room 253 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate to conduct a hearing on Thursday, August 6, at 10 a.m., in room SD-366 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be authorized to meet during the session of the Senate on Thursday, August 6, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be authorized to meet during the session of the Senate on Thursday, August 6, 2009 at 10 a.m. in Dirksen room 406 to hold a hearing entitled, "Climate Change and Ensuring that America Leads the Clean Energy Transformation."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON INDIAN AFFAIRS

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Indian Affairs be authorized to meet during the session of the Senate on Thursday, August 6, 2009, at 2:15 p.m. in room 628 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate, on August 6, 2009, at 10 a.m. in SD-226 of the Dirksen Senate Office Building, to conduct an executive business meeting.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON SMALL BUSINESS AND ENTREPRENEURSHIP

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Small Business and Entrepreneurship be authorized to meet during the session of the Senate on Thursday, August 6, 2009, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON VETERANS' AFFAIRS

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Veterans' Affairs be authorized to meet during the session of the Senate on Thursday, August 6, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON AVIATION OPERATIONS, SAFETY, AND SECURITY

Mr. SANDERS. Mr. President, I ask unanimous consent that the Subcommittee on Aviation Operations, Safety, and Security of the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Thursday, August 6, 2009, at 10 a.m. in room 253 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON THE CONSTITUTION

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on the Judiciary, Subcommittee on the Constitution, be authorized to meet during the session of the Senate, on August 6, 2009, at 10:30 a.m., in SD-226 of the Dirksen Senate Office Building, to continue the executive business meeting from July 30, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON FEDERAL FINANCIAL MANAGEMENT, GOVERNMENT INFORMATION, FEDERAL SERVICES, AND INTERNATIONAL SECURITY

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs' Subcommittee on Federal Financial Management, Government Information, Federal Services, and International Security be authorized to meet during the session of the Senate on Thursday, August 6, 2009, at 10 a.m. to conduct a hearing entitled, "The U.S. Postal Service in Crisis."

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. CARPER. Mr. President, I ask unanimous consent that Joseph Lewis, of Senator HARKIN's staff, and Timothy Snider, of the Office of Congressional Accessibility Services, be granted the privilege of the floor for the duration of today's session.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. Mr. President, I ask unanimous consent that Joi Chaney of the Democratic policy committee be granted the privilege of the floor during today's session of the Senate.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HARKIN. Mr. President, I ask unanimous consent that Patrick Hartley and Jacob Butcher of my staff be granted floor privileges for the duration of today's session.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. MURRAY. Mr. President, on behalf of Senator DODD, I ask unanimous

consent that a member of his staff, Deborah Katz, be granted the privilege of the floor for the duration of today's session.

The PRESIDING OFFICER. Without objection, it is so ordered.

FOREIGN TRAVEL FINANCIAL REPORTS

In accordance with the appropriate provisions of law, the Secretary of the Senate herewith submits the following reports for standing committees of the Senate, certain joint committees of the Congress, delegations and groups, and select and special committees of the Senate, relating to expenses incurred in the performance of authorized foreign travel:

CONSOLIDATED REPORT OF EXPENDITURE OF FUNDS FOR FOREIGN TRAVEL BY MEMBERS AND EMPLOYEES OF THE U.S. SENATE, UNDER AUTHORITY OF SEC. 22, P.L. 95-384—22 U.S.C. 1754(b), COMMITTEE ON APPROPRIATIONS FOR TRAVEL FROM APR. 1 TO JUNE 30, 2009

SENATOR MITCH MCCONNELL,
Chairman, Republican Leader, June 15, 2009.

VETERANS HEALTH CARE BUDGET REFORM AND TRANSPARENCY ACT OF 2009

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 101, S. 423.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 423) to amend title 38, United States Code, to authorize advance appropriations for certain medical care accounts of the Department of Veterans Affairs by providing two-fiscal year budget authority, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. AKAKA. Mr. President, I am very gratified that the Senate is acting on S. 423, the proposed Veterans Health Care Budget and Transparency Act of 2009. This bill would authorize, beginning in fiscal year 2011, advance appropriations for certain medical care accounts of the Department of Veterans Affairs by providing two fiscal year budget authority.

The Committee on Veterans' Affairs held a hearing on pending health care legislation on April 22, 2009, during which the Committee received testimony on S. 423. Support for this bill was voiced by the Department of Veterans Affairs, Disabled American Veterans, American Federation of Government Employees, and Paralyzed Veterans of America. The Committee ordered the bill reported on May 21, 2009. The Committee report—S. Rpt. 111-041—was filed on July 8, 2009.

In 19 of the past 22 fiscal years, final VA appropriations have been enacted late and requests for supplemental appropriations for VA health care have increased in frequency during recent years. Over the past 7 years, final VA appropriations were late approximately 3 months on average. While there has been some impact on the timeliness and overall quality of VA care from these financial and management difficulties in the past, there is a serious concern that continued funding problems could significantly weaken the quality of veterans' health care. Providing sufficient, timely and predictable funding to the VA health care system would mitigate these dangers and allow VA administrators and directors to more efficiently and effectively provide medical care to veterans.

Advanced funding would allow the VA to function more effectively, to better align with funding cycles, and to avoid annual partisan political maneuvering. Through appropriating funds in advance to the medical services, medical support and compliance, and medical facilities accounts, we can avoid any disruption to the provision of adequate and timely health care to those who have sacrificed a great deal for this nation.

I understand that authorizing advanced appropriations is a serious endeavor and as such have made sure this legislation also enhances oversight of the VA health care budget process. The Comptroller General of the United States will be required to conduct a study of adequacy and accuracy of the budget projections made by VA's Enrollee Health Care Projection Model and any other model or methodology used to measure health care expenditures. The study would cover the five fiscal years included in each budget submission; however, the focus is intended to be upon the fiscal year for which the advance appropriation would be made. These reports would be submitted to the appropriate committees of Congress no later than the date on which the President submits the budget request for the following fiscal year.

This bill has received support from a myriad of organizations including The Partnership for Veterans Health Care Budget Reform, The Independent Budget Veterans Service Organizations, The Military Coalition, and the American Federation for Government Employees. I thank them for their efforts and ongoing commitment to this legislation.

I thank the many Senators who have cosponsored this legislation, including Committee members Senators BURR, ROCKEFELLER, MURRAY, SANDERS, BROWN, TESTER, BEGICH, BURRIS, SPECTER and ISAKSON. I am also delighted that Senator SNOWE was an original cosponsor of this bill and has worked hard in support of it.

Mr. President, this legislation will bring much needed stability and predictability to the VA health care system and consistent, high-quality health care to the veterans and I am delighted with today's action by the Senate.

The bill was ordered to be engrossed for a third reading and was read the third time.

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the Senate proceed to Calendar No. 129, H.R. 1016, the House companion; that all after the enacting clause be stricken and the text of S. 423 be inserted in lieu thereof; the bill, as amended, be read a third time and passed; the motions to reconsider be laid upon the table; that upon passage of H.R. 1016, S. 423 be returned to the calendar, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill (H.R. 1016), as amended, was read the third time and passed, as follows:

H.R. 1016

Resolved, That the bill from the House of Representatives (H.R. 1016) entitled "An Act to amend title 38, United States Code, to provide advance appropriations authority for

certain accounts of the Department of Veterans Affairs, and for other purposes," do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Veterans Health Care Budget Reform and Transparency Act of 2009".

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Title 38, United States Code, authorizes the Secretary of Veterans Affairs to furnish hospital and domiciliary care, medical services, nursing home care, and related services to eligible and enrolled veterans, but only to the extent that appropriated resources and facilities are available for such purposes.

(2) For 19 of the past 22 fiscal years, funds have not been appropriated for the Department of Veterans Affairs for the provision of health care as of the commencement of the new fiscal year, causing the Department great challenges in planning and managing care for enrolled veterans, to the detriment of veterans.

(3) The cumulative effect of insufficient, late, and unpredictable funding for the Department for health care endangers the viability of the health care system of the Department and impairs the specialized health care resources the Department requires to maintain and improve the health of sick and disabled veterans.

(4) Appropriations for the health care programs of the Department have too often proven insufficient over the past decade, requiring the Secretary to ration health care and Congress to approve supplemental appropriations for those programs.

(5) Providing sufficient, timely, and predictable funding would ensure the Government meets its obligation to provide health care to sick and disabled veterans and ensure that all veterans enrolled for health care through the Department have ready access to timely and high quality care.

(6) Providing sufficient, timely, and predictable funding would allow the Department to properly plan for and meet the needs of veterans.

SEC. 3. TWO-FISCAL YEAR BUDGET AUTHORITY FOR CERTAIN MEDICAL CARE ACCOUNTS OF THE DEPARTMENT OF VETERANS AFFAIRS.

(a) TWO-FISCAL YEAR BUDGET AUTHORITY.—

(1) IN GENERAL.—Chapter 1 of title 38, United States Code, is amended by inserting after section 113 the following new section:

"§ 113A. Two-fiscal year budget authority for certain medical care accounts

"(a) IN GENERAL.—Beginning with fiscal year 2011, new discretionary budget authority provided in an appropriations Act for the appropriations accounts of the Department specified in subsection (b) shall be made available for the fiscal year involved, and shall include new discretionary budget authority for such appropriations accounts that first become available for the first fiscal year after such fiscal year.

"(b) MEDICAL CARE ACCOUNTS.—The medical care accounts of the Department specified in this subsection are the medical care accounts of the Veterans Health Administration as follows:

"(1) Medical Services.

"(2) Medical Support and Compliance.

"(3) Medical Facilities."

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 1 of such title is amended by inserting after the item relating to section 113 the following new item:

"113A. Two-fiscal year budget authority for certain medical care accounts."

SEC. 4. COMPTROLLER GENERAL OF THE UNITED STATES STUDY ON ADEQUACY AND ACCURACY OF BASELINE MODEL PROJECTIONS OF THE DEPARTMENT OF VETERANS AFFAIRS FOR HEALTH CARE EXPENDITURES.

(a) *STUDY OF ADEQUACY AND ACCURACY OF BASELINE MODEL PROJECTIONS.*—The Comptroller General of the United States shall conduct a study of the adequacy and accuracy of the budget projections made by the Enrollee Health Care Projection Model, its equivalent, or other methodologies, as utilized for the purpose of estimating and projecting health care expenditures of the Department of Veterans Affairs (in this section referred to as the “Model”) with respect to the fiscal year involved and the subsequent four fiscal years.

(b) *REPORTS.*—

(1) *IN GENERAL.*—Not later than the date of each year in 2011, 2012, and 2013, on which the President submits the budget request for the next fiscal year under section 1105 of title 31, United States Code, the Comptroller General shall submit to the appropriate committees of Congress and to the Secretary a report.

(2) *ELEMENTS.*—Each report under this paragraph shall include, for the fiscal year beginning in the year in which such report is submitted, the following:

(A) A statement whether the amount requested in the budget of the President for expenditures of the Department for health care in such fiscal year is consistent with anticipated expenditures of the Department for health care in such fiscal year as determined utilizing the Model.

(B) The basis for such statement.

(C) Such additional information as the Comptroller General determines appropriate.

(3) *AVAILABILITY TO THE PUBLIC.*—Each report submitted under this subsection shall also be made available to the public.

(4) *APPROPRIATE COMMITTEES OF CONGRESS DEFINED.*—In this subsection, the term “appropriate committees of Congress” means—

(A) the Committees on Veterans’ Affairs, Appropriations, and the Budget of the Senate; and

(B) the Committees on Veterans’ Affairs, Appropriations, and the Budget of the House of Representatives.

TO AMEND TITLE XI OF THE SOCIAL SECURITY ACT

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the Finance Committee be discharged from further consideration of H.R. 3325 and that the Senate then proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 3325) to amend title XI of the Social Security Act to reauthorize for 1 year the Work Incentives Planning and Assistance program and the Protection and Advocacy for Beneficiaries of Social Security program.

There being no objection, the Senate proceeded to consider the bill.

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the bill be read three times, passed, and the motion to reconsider be laid upon the table; further that any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3325) was ordered to a third reading, was read the third time, and passed.

CAMPUS FIRE SAFETY MONTH

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of S. Res. 40, and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will state the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 40) designating September 2009 as “Campus Fire Safety Month.”

There being no objection, the Senate proceeded to consider the resolution.

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statements related to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 40) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 40

Whereas, each year, States across the Nation formally designate September as Campus Fire Safety Month;

Whereas, since January 2000, at least 129 people, including students, parents, and children have died in campus-related fires;

Whereas more than 80 percent of those deaths occurred in off-campus residences;

Whereas a majority of college students in the United States live in off-campus residences;

Whereas a number of fatal fires have occurred in buildings in which the fire safety systems had been compromised or disabled by the occupants;

Whereas automatic fire alarm systems provide the early warning of a fire that is necessary for occupants and the fire department to take appropriate action;

Whereas automatic fire sprinkler systems are a highly effective method of controlling or extinguishing a fire in its early stages, protecting the lives of the building’s occupants;

Whereas many college students live in off-campus residences, fraternity and sorority housing, and residence halls that are not adequately protected with automatic fire sprinkler systems and automatic fire alarm systems;

Whereas fire safety education is an effective method of reducing the occurrence of fires and reducing the resulting loss of life and property damage;

Whereas college students do not routinely receive effective fire safety education during their time in college;

Whereas it is vital to educate young people in the United States about the importance of fire safety to help ensure fire-safe behavior by young people during their college years and beyond; and

Whereas, by developing a generation of fire-safe adults, future loss of life from fires may be significantly reduced: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 2009 as “Campus Fire Safety Month”; and

(2) encourages administrators of institutions of higher education and municipalities across the country—

(A) to provide educational programs to all students during September and throughout the school year;

(B) to evaluate the level of fire safety being provided in both on- and off-campus student housing; and

(C) to ensure fire-safe living environments through fire safety education, installation of fire suppression and detection systems, and the development and enforcement of applicable codes relating to fire safety.

AGENT ORANGE AWARENESS MONTH

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 248, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will state the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 248) designating the month of August 2009 as “Agent Orange Awareness Month.”

There being no objection, the Senate proceeded to consider the resolution.

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 248) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 248

Whereas between 1964 and 1973, 8,744,000 men and women bravely served our Nation in the Vietnam War;

Whereas an estimated 2,600,000 service men and women may have been exposed to Agent Orange in Vietnam;

Whereas Agent Orange is an herbicide that was used during the Vietnam War to kill unwanted plant life and remove leaves from trees that provided cover for the enemy;

Whereas the United States military sprayed more than 19,000,000 gallons of herbicide throughout South Vietnam, with Agent Orange accounting for approximately 11,000,000 gallons of this amount;

Whereas Agent Orange is an extremely toxic substance that contains dioxin;

Whereas the Department of Veterans Affairs has recognized that certain cancers and other health problems are associated with exposure to Agent Orange;

Whereas John Baldacci, the Governor of the State of Maine, has proclaimed August 2009 as “Agent Orange Awareness Month” for that State;

Whereas the State of Alaska has 76,000 veterans, the highest population of veterans per capita, with 26,000 of these being veterans of the Vietnam War; and

Whereas, as a Nation, we are deeply grateful and thankful for those men and women who bravely served during the Vietnam War: Now, therefore, be it

Resolved, That the Senate—

(1) designates the month of August 2009 as "Agent Orange Awareness Month";

(2) calls attention to those veterans who were exposed to Agent Orange and the adverse effects that such exposure has had on their health;

(3) recognizes the sacrifices that our veterans and servicemembers have made and continue to make on behalf of our great Nation, especially those veterans who were exposed to Agent Orange;

(4) reaffirms its commitment to our Nation's veterans; and

(5) does not, by this resolution, authorize, support, or settle any claim against the United States.

HONORING U.S. NAVY PILOT CAPTAIN MICHAEL SCOTT SPEICHER

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 249, which was submitted earlier today.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 249) honoring United States Navy Pilot Captain Michael Scott Speicher who was killed in Operation Desert Storm.

There being no objection, the Senate proceeded to consider the resolution.

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 249) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 249

Whereas more than 88,000 Americans remain missing from World War II, the Korean War, the Cold War, the Vietnam War, and the wars in Iraq and Afghanistan;

Whereas the people of the United States honor Captain Michael Scott Speicher;

Whereas Captain Speicher was shot down in Wadi Thumayal while flying an F/A-18 Hornet fighter jet on January 16, 1991, the first night of the Persian Gulf War;

Whereas Captain Speicher's fate remained unknown until July 2009, when United States Marines stationed in Anbar recovered his remains in an unmarked desert grave;

Whereas Captain Speicher made the ultimate sacrifice for his country; and

Whereas Captain Speicher's wife and 2 children have sacrificed to the greatest extent, and the people of the United States honor them by commemorating Captain Speicher: Now, therefore, be it

Resolved, That the Senate—

(1) honors Captain Michael Scott Speicher for his service and sacrifice, and for giving his life fighting for the Nation in Operation Desert Storm;

(2) honors Captain Speicher's family for their love and undying strength and determination to bring Captain Speicher home;

(3) encourages the Department of Defense to continue the Nation's efforts to provide clear and accurate information about what happened to our fallen heroes, to determine the nature and cause of Captain Speicher's death, and to continue accounting for all who remain missing in action; and

(4) honors the United States Navy, the United States Marine Corps, the Defense Intelligence Agency, and the Department of Defense for their efforts to bring Captain Speicher home.

AUTHORIZING TESTIMONY AND LEGAL REPRESENTATION

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 250, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 250) to authorize testimony and legal representation in *People of the State of California v. Amir Shervin*.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, this resolution concerns a request for testimony and representation in a criminal action in Superior Court in Alameda County, CA. In this action, the defendant is charged by the State of California with resisting arrest arising out of an attempt by the police to serve him with a warrant requiring his court appearance on the charge that, in September 2006, he battered an employee in the reception area of the San Francisco office of Senator BARBARA BOXER.

The prosecution has sought testimony from Senator BOXER's employee concerning the events that transpired in the reception area of her San Francisco office. This resolution would authorize her employee to testify in this action, with representation by the Senate Legal Counsel of him and any other employee of Senator BOXER's office from whom testimony may be necessary.

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and that any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 250) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 250

Whereas, in the case of *People of the State of California v. Amir Shervin*, No. 05-221878, pending in Superior Court in Alameda County, California, the prosecution has sought testimony from Eric Vizcaino, an employee of Senator Barbara Boxer;

Whereas, pursuant to sections 703(a) and 704(a)(2) of the Ethics in Government Act of 1978, 2 U.S.C. §§288b(a) and 288c(a)(2), the Senate may direct its counsel to represent an employee of the Senate with respect to any subpoena, order, or request for testimony relating to their official responsibilities;

Whereas, by the privileges of the Senate of the United States and Rule XI of the Standing Rules of the Senate, no evidence under the control or in the possession of the Senate may, by the judicial or administrative process, be taken from such control or possession but by permission of the Senate;

Whereas, when it appears that evidence under the control or in the possession of the Senate may promote the administration of justice, the Senate will take such action as will promote the ends of justice consistent with the privileges of the Senate: Now, therefore, be it

Resolved, That Eric Vizcaino and any other employee of Senator Boxer's office from whom testimony may be necessary are authorized to testify in the case of *People of the State of California v. Amir Shervin*, except concerning matters for which a privilege should be asserted.

SEC. 2. The Senate Legal Counsel is authorized to represent employees of Senator Boxer's office in connection with the testimony authorized in section one of this resolution.

APPOINTMENTS

The PRESIDING OFFICER. The Chair, on behalf of the President pro tempore, and upon the recommendation of the majority leader, pursuant to 22 U.S.C. 2761, as amended, appoints the following Senators as delegates of the British-American Interparliamentary Group conference during the 111th Congress: the Honorable BERNARD SANDERS of Vermont, and the Honorable ROLAND BURRIS of Illinois.

The Chair, on behalf of the President pro tempore, and upon the recommendation of the Republican leader, pursuant to 22 U.S.C. 2761, as amended, appoints the following Senator as a delegate of the British-American Interparliamentary Group conference during the 111th Congress: the Honorable JUDD GREGG of New Hampshire.

The Chair, on behalf of the majority leader, pursuant to Public Law 101-549, appoints the following individual to the Board of Directors of the Mickey Leland National Urban Air Toxics Research Center: Shawn Gerstenberger of Nevada.

Mr. WHITEHOUSE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BENNET. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. WHITEHOUSE). Without objection, it is so ordered.

The Senator from Colorado is recognized.

Mr. BENNET. I thank the Chair.

(The remarks of Mr. BENNET pertaining to the introduction of S. 1613

are printed in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

ORDERS FOR FRIDAY, AUGUST 7, 2009

Mr. BENNET. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m. tomorrow, Friday, August 7; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and there then be a period of morning business with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. BENNET. Mr. President, there will be no rollcall votes during Friday's session of the Senate. The next vote will occur at approximately 5:30 p.m. on Tuesday, September 8.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. BENNET. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 10:01 p.m., adjourned until Friday, August 7, 2009, at 9:30 a.m.

NOMINATIONS

Executive Nominations Received by the Senate:

THE JUDICIARY

EDWARD MILTON CHEN, OF CALIFORNIA, TO BE UNITED STATES DISTRICT JUDGE FOR THE NORTHERN DISTRICT OF CALIFORNIA, VICE MARTIN J. JENKINS, RESIGNED.
DOLLY M. GEE, OF CALIFORNIA, TO BE UNITED STATES DISTRICT JUDGE FOR THE CENTRAL DISTRICT OF CALIFORNIA, VICE GEORGE P. SCHIAVELLI, RESIGNED.
RICHARD SEEBORG, OF CALIFORNIA, TO BE UNITED STATES DISTRICT JUDGE FOR THE NORTHERN DISTRICT OF CALIFORNIA, VICE MAXINE M. CHESNEY, RETIRED.
THOMAS I. VANASKIE, OF PENNSYLVANIA, TO BE UNITED STATES CIRCUIT JUDGE FOR THE THIRD CIRCUIT, VICE FRANKLIN S. VAN ANTWERPEN, RETIRED.

CONFIRMATION

Executive nomination confirmed by
the Senate, Thursday, August 6, 2009:

SUPREME COURT OF THE UNITED STATES

SONIA SOTOMAYOR, OF NEW YORK, TO BE AN ASSOCIATE JUSTICE OF THE SUPREME COURT OF THE UNITED STATES.

SENATE—Friday, August 7, 2009

The Senate met at 9:30 a.m. and was called to order by the Honorable JEFF MERKLEY, a Senator from the State of Oregon.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal God, who comes with light and life, we praise and adore You. As the Senate anticipates the August break, we pause to thank You for sustaining us and request Your continuing mercies in the days to come. May the time away from this Chamber be restorative and constructive as our lawmakers connect with family, friends, and constituents. Give traveling mercies to our Senators and staffers, particularly those who will be traveling overseas.

Lord, we ask Your special blessings upon our 2009 summer page class and thank You for their faithful service. As they leave, bless and keep them in their coming and going, their labor and leisure, their successes and failures, their joys and sorrows.

Lord, give us such a vision of Your purposes that we will seize every opportunity to be agents of Your grace.

We pray in Your great Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JEFF MERKLEY led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, August 7, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JEFF MERKLEY, a Senator from the State of Oregon, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. MERKLEY thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, following leader remarks, the Senate will be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

EXTENDING UNEMPLOYMENT BENEFITS

Mr. REID. Mr. President, it is really an understatement to say that the current economic downturn is the worst the country has experienced in several generations. The reality is that the crisis President Obama inherited when he was elected President was severe—worse than anything the country has seen since the Great Depression. When he took office, the country was losing 700,000 jobs a month. Banks were in crisis and had stopped lending, and a number of them were teetering on bankruptcy and some went out of business. The President and the Congress acted swiftly and passed the American Recovery and Reinvestment Act, which has stopped the bleeding and avoided economic catastrophe.

People complain: Look at all the deficit spending. In December, I was at a meeting with a small number of people. We had Mark Zandi, JOHN MCCAIN's economic adviser during the campaign, and we had economic advisers to Democratic and Republican Presidents in years past. Every one of them said: The only money in the world is in Washington, and unless you spend some of it, there will be a worldwide depression. We listened, and that is why we did what we did.

Today, the July unemployment numbers have been reported. They paint a much better picture than was anticipated. It was anticipated that 340,000 jobs would be lost, and that is not the case. The case is that over 200,000 jobs have been lost—a terribly large number but certainly much better than anyone ever anticipated. It is the lowest number since the spring of 2008. It is now late summer 2009. The national unemployment rate actually fell last month by one-tenth of 1 percent. It is welcome news and further proof that the economic recovery plan we enacted is producing positive results. I repeat, what would it have been had we not done that?

So that is the good news. But many Americans still continue to struggle. Many in Nevada continue to struggle as a result of the economic crisis. Over the next several weeks, long-term unemployed workers will begin exhausting their unemployment benefits. Some estimates put the number of unemployed workers who will have used up their benefits by the end of September at 500,000. By the end of the year, the number of unemployed workers who will have exhausted their benefits will be 1.5 million. With the job market as depressed as it is, most of these workers will not be able to find work and will then have no means to survive and take care of their families.

Soon after Congress returns to Washington, we will need to address this matter. We must do so with the understanding that most experts believe job growth will be one of the last things to recover in this economic crisis. It always lags behind economic recovery.

There is an economic case to be made for extending unemployment benefits. Last year, when analyzing the effectiveness of various stimulus proposals, Mark Zandi found that extended unemployment benefits generated \$1.64 for every dollar it cost the American people. That means unemployment benefits are a sound investment.

There should be no disagreement that we must help those who are suffering as a result of the economic crisis they didn't create. We will keep fighting until unemployed workers in Nevada and across the Nation find employment.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

Mr. REID. Mr. President, I note the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. KYL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. KYL. Mr. President, I ask unanimous consent to speak for up to 20 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CASH FOR CLUNKERS

Mr. KYL. Mr. President, I am not sure I will need that much time, but there are four or five things I wanted to address this morning now that the Senate has completed its work through July and we will all be going home to visit with our constituents over the August recess.

What I did was I pulled together three or four topics I wished to address but, because of all the business we had this past week in dealing with the Sotomayor nomination and the cash for clunkers legislation, in particular, I had not yet had an opportunity to address them.

Let me start with the so-called cash for clunkers legislation which was adopted last night. This is legislation which I think was, as I said, a very well-intentioned concept in two respects: No. 1, to help auto dealers get off the mat—they had all been suffering from a lack of business—as well as to promote the idea of more fuel-efficient cars. But the well-intentioned plan ran into a lot of problems, and I think there were two reasons for that.

The first was the fact that it was rushed through. It was put on an emergency piece of legislation without hearings, without legislation having gone through the committee process, and, frankly, without anybody really thinking through how the program would be implemented. As a result, there were a lot of problems with it.

I got calls from car dealers. They had no idea whether they were going to be paid. The Department of Transportation had no idea whether it still had money left to pay the car dealers. As a matter of fact, one of them called me and said, as of Thursday a week ago, the Department had said they didn't need to kill the vehicles anymore that they had taken in on trade-in—that is to say do what they do to them so they can never operate again—because they weren't sure the money would be available to send to the dealer for the transaction. So the dealer may need to resell the car as a used car. The program, in other words, was very confusing and they got a lot of confusing signals out of the Department of Transportation.

That is why I offered an amendment yesterday that suggested we ought to call a timeout, a pause, to make sure all of the transactions that qualified could clear the process, the dealers could get paid, and we would know how much money we spent. Did we spend \$1 billion? More than \$1 billion? My amendment would have said whatever it takes to pay for all of the deals that

had been made as of today, but then establish some process whereby the sales could be tracked, so that each day, at least by the end of the day, we would know how many cars were sold and what the obligations of the Government were to the dealers that had acquired those trade-in cars. That way, we would know when we got close to the additional money that had been allocated.

Well, my amendment didn't pass. As a result, it is quite likely we are going to continue to have problems with this program. So I hope the Department of Transportation can find a way on its own to do this without direction from Congress so we don't have the same kinds of problems we have had in the past.

But there is a more fundamental problem with the program, and that is that it subsidizes a specific segment of the economy, as several of my colleagues pointed out, for the most part to simply advance the sale of a car that would have occurred anyway. So at the end of the day, there was no new economic activity—simply the expensive replacement of a vehicle that might have been used as a secondhand vehicle for several more years but because of the requirements of the program is actually destroyed. So as a matter of fact, we actually took value out of our economy rather than putting it in, and at a great cost. It was estimated that it was about \$20,000 per vehicle.

There was a great editorial—or column, I should say—in my hometown newspaper, the Arizona Republic, today by Bob Robb, who is one of the smartest people I know, especially when it comes to economic matters. The title of it is “Cash for Clunkers a Lemon.” In it, he points out what is wrong as a matter of economic policy with programs like this that subsidize a particular piece of economic activity but end up in effect simply costing the taxpayers of the country without advancing an economic cause.

I ask unanimous consent to have this very erudite column printed in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Arizona Republic, Aug. 7, 2009]

CASH FOR CLUNKERS A LEMON

(By Bob Robb)

The cash for clunkers program is a perfect illustration of what's wrong with economic policy and thinking in this country.

The program is widely hailed as a successful economic stimulant. Congress is rushing to pour more money into it.

And it has been a success, if success is defined as selling more cars in the short-term.

Basically, the program offers owners of old cars a subsidy to buy a new one. If government subsidizes something, demand for that thing will increase—whether it is cars, or toasters or cosmetic surgery.

And if there is a quick expiration date on the subsidy, as is the case with cash for

clunkers, demand will be artificially goosed even more.

This is obviously good news for car sellers and qualifying new car buyers. It may be good news for those in the car-making business, if production picks up to replace depleted inventories.

However, for the economy as a whole, the effect of cash for clunkers will be negligible, and slightly negative if anything.

In the first place, the federal government has no money. So, every dime of subsidy it is offering has to be borrowed. That puts a burden on future economic activity.

To the extent the subsidy induces people to make a car purchase they otherwise would not have made, the money so spent would have otherwise been spent on something else or saved. There is no clear evidence that the economy will be better off for the money to have been spent on a new car than the alternatives.

In political economy, it is virtually always better to look to the long-term than the short-term. Government has neither the wit nor the tools to manage short-term economic performance. Despite all the happy talk about shovel-ready projects, very little of the stimulus money has gotten out the door. The Fed has been flooding the economy with liquidity, but lending is still contracting.

Virtually everyone agrees that Americans need to spend less, borrow less and save more. President Obama has given speeches lecturing us about that.

Yet the federal government continues to offer massive inducements for consumption and borrowing.

The federal government will pay more for your old car than it is worth if you'll buy a new one.

The housing bubble was caused by an overinvestment in housing and lax lending standards. Yet the federal government is offering a sizable tax credit for the purchase of a new home and the Federal Housing Administration will guarantee mortgages with a down payment of as little as 3.5 percent of the purchase price.

Lax monetary policy is a subsidy for borrowing in general.

In other words, the message from the federal government is that Americans need to spend less, borrow less and save more. Just not now.

But it is during downturns that behaviors change. A respect for economic uncertainty is what causes people to live below their means and save for the future. When things are humming along, few see the need to change their behavior.

This isn't to say that government should remain idle during a downturn, particularly one as severe as this one. Government should be in the business of helping people cope, through such things as extended unemployment benefits and other income transfer programs.

Government shouldn't, however, be offering new inducements for consumption and borrowing. That's sacrificing the long-term for the short-term.

The reason policymakers do this is, in significant part, our fault. We hold federal elected officials, particularly the president, responsible for the short-term performance of the economy. If the economy is doing well at any given moment, we're likely to think the president is doing a good job. If not, we're looking to get rid of the bum.

Presidents do not an economy make. They can affect the long-term trajectory of the economy through wise or unsound long-term

fiscal policies. But day-to-day, we're pretty much on our own.

Of course, any presidential candidate who actually said that would never get elected. And therein lies the heart of the problem.

SUPPORTING THE INTELLIGENCE COMMUNITY

Mr. KYL. Mr. President, my colleague, Senator LIEBERMAN from Connecticut, had put an item in the CONGRESSIONAL RECORD that was a letter to the President urging that the President and the Attorney General take action to stop the further notion of investigating members of the U.S. intelligence community for activities long since past related to the interrogation of terrorists after the September 11 attack on the World Trade Center. I found this to be a particularly well-reasoned statement as to why this kind of continually looking backwards, this kind of politics that seems to want to continue to scratch at old wounds, can be very destructive to our safety and security in the future.

Among other things, Senator LIEBERMAN quoted President Obama and said:

President Obama had it right when he said that with regard to past behavior by the intelligence community, he is "more interested in looking forward than . . . looking backward."

And Senator LIEBERMAN said:

Given the threats that we face as a Nation, it is imperative that we follow the President's lead.

He went on to point out that if we don't, we are going to chill the activities of the intelligence community.

He noted—and I will note, as well—that there are so many very hard-working, dedicated Americans working in a frequently very dangerous environment whom we have asked to find out the most difficult things, such as: What are these terrorists up to? And might they have plans to attack us again? It is very difficult to get this information.

Anything we do that chills the methods by which they do that—short, of course, of violating the law or engaging in torture or other impermissible activity—simply hastens the day when there is another successful attack against the American people. We need to do everything we can to prevent that. The reason I was reminded was there are reports this morning we have been successful in taking out one of the most dangerous terrorists in Pakistan, someone who was allegedly involved in the planning of the death of Benazir Bhutto and who had been sought for a long time.

I was thinking about the activities of some of my colleagues in the Senate attacking the previous administration for considering a program that would involve the use of intelligence community assets to track down and find and then either capture or kill these terrorist leaders who are responsible for

so many deaths. The assumption was it was somehow wrong for the United States to consider doing this. This program was begun back when President Clinton was in office, and he issued a directive which basically said: If there is a way we can find and either capture or kill these people, we should do so. The program was never implemented because there were potential problems with it. The same thing occurred during the Bush administration. It wasn't implemented. The Intelligence Community wasn't advised about it. Had there been a decision to go ahead with the program, the law would have required that the Intelligence Committees in the House and Senate be briefed. But there was great criticism of the Bush administration and Vice President Cheney.

I wondered at the time, how about these people whom we send into harm's way to try to find these terrorists and either capture them or, if they attempt to fight or flee, to kill them, what does it say to the people we send into harm's way to accomplish this, when there is all the criticism back home that somehow there is something wrong with it?

I was pleased this morning when the news of the alleged attack and killing of this terrorist leader was greeted with a great deal of approval in the media and by the people who commented on it. That is the kind of reaction our intelligence officials need to see when they go after these very dangerous terrorists—not a reaction that, gee, maybe we need to read this guy the Miranda rights before we try to capture him.

The reality is, these people are not generally subject to capture. We have the facilities and the means to track them and, frequently, we do track them by these means, and we are able to take them out. Since we are engaged in a war with these terrorists and they would kill us if we don't kill them, if you don't have the ability to capture them, then killing them and taking them off the battlefield in that way is totally appropriate and under the rules of war.

That is why I am pleased this kind of event is greeted with enthusiasm and approval because it might send the kind of signal to the intelligence community we want to send, which is: Do your best to defeat the opposition in the war on terror. I think Senator LIEBERMAN's point was well taken in the letter he wrote.

WITHHOLDING STIMULUS FUNDS

Mr. KYL. Mr. President, I ask unanimous consent that an editorial from the August 7 Arizona Republic be printed in the RECORD, called "Cabinet Chiefs Play the Heavies."

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CABINET CHIEFS PLAY THE HEAVIES

The political hit job perpetrated—reportedly—by infamous tough guy Rahm Emanuel, the president's chief of staff, against Arizona Republican Sen. Jon Kyl continues to roll.

And it continues reminding us that hardball, hyperpartisan tactics did not suddenly disappear from the White House when Karl Rove left the building.

Indeed, in some ways, the tactics have gotten worse. Since when are Cabinet secretaries supposed to act like wise guys in a political goon squad?

On July 12, Kyl went on the Sunday Washington talk show *This Week* and criticized the \$787 billion economic-stimulus program. He said the program was ineffectual and suggested it be wrapped up and ended.

The administration came down on the senator like a ton of Chicago-baked bricks.

The very next day, four Cabinet secretaries sent letters to Arizona's Republican Gov. Jan Brewer, asking if she still wanted the state's portion of the stimulus cash, or if she felt compelled to fall in with Kyl. The letters arrived almost simultaneously and were similar in structure and language, each suggesting that projects important to Phoenix and Arizona were in jeopardy.

Clearly, their delivery was orchestrated to embarrass Kyl.

Few doubted the manipulative hand of Emanuel in the letter-writing campaign. And, indeed, the online political news service Politico reported July 16 that "Emanuel directed that the letters from the Cabinet secretaries be sent to Brewer, according to two administration officials."

It would be an intellectual insult to suggest otherwise. Emanuel is notorious for such back-alley tactics and is the only person in a position to organize such a campaign literally overnight. But on July 24, at a hearing of the House Budget Committee, Transportation Secretary Ray LaHood—author of the snarkiest of the four letters—insulted away.

Asked repeatedly whether he had been encouraged or told by anyone within or without the administration to write his letter, LaHood—finally—gave a straight answer. "No," he said.

As most Washington-watchers know, honesty does not come easily to many of the political class. But couldn't LaHood, an Illinois Republican, simply have taken the Fifth? It would have been in keeping with the tenor of things.

Rahm Emanuel used the president's Cabinet for his political goon squad.

If anyone ought to be protesting this staged theater, it isn't so much Kyl or Brewer as the Cabinet secretaries who were so demeaned by being forced to deliver cheap political threats that are laughable on their face and utterly transparent.

Mr. KYL. Mr. President, the editorial reports on what they call a political hit job perpetrated ostensibly against me. It didn't bother me, but as reported, the Chief of Staff of the President enlisted four Cabinet officers to write letters to the Governor of Arizona, which were seen by some as veiled threats to withhold stimulus funding because I had dared to criticize the stimulus program and suggest that after the first couple years of spending, the outyears might be saved and spent in better ways. That generated criticism by these four Cabinet Secretaries,

who wrote almost identical letters, which clearly were designed to try to intimidate.

That is not the right way for the administration to make its point. I am happy to debate the success or failure of the stimulus package with anybody from the administration who would like to debate it. I welcome that kind of conversation. But there seems to be too much effort now to either shut people up or intimidate them from speaking.

There have been a lot of reports with respect to the stimulus and the so-called health care legislation, and in other areas, to be coincidence. There seems to be a pattern developing, and it is not good. Senator CORNYN, yesterday, spoke to that issue with respect to a new Web site that the White House started asking people to send in their observations of people who are criticizing the administration's plans, if they think some of the criticism isn't accurate or they said: If you think there is something fishy, let us know about it.

These are the kinds of tactics that might go over well in certain cities that have had a history of political bosses, but it is not the kind of tactic you would expect from the White House. I hope the folks at the White House have learned their lesson and, frankly, will knock it off.

FANNIE MAE AND FREDDIE MAC

Mr. KYL. Mr. President, there were two items that came to my attention that I wished to briefly comment on that are related. The first has to do with the Fannie Mae and Freddie Mac continuing saga of costing the American taxpayers a ton of money. We all know that despite warnings, particularly from Republicans, they needed oversight, that they were accumulating far too much bad debt and taking on all these so-called toxic assets—mortgages that, frankly, weren't going to be paid back; that they were exposing the American taxpayer to liability because of the implicit guarantee that lay behind the Federal charter for Fannie Mae and Freddie Mac. Others said: Don't worry, keep going with this; it is a wonderful program. Finally, the bottom fell out. Fannie and Freddie were deeply in debt and the American taxpayers came to their rescue.

The idea was then to restructure these two entities so that never again could this happen. We did that. The problem was that, because Fannie and Freddie were government-chartered entities, it didn't take long for them to squeeze out most of the private players in the mortgage market. Today, I think they hold something like 75 percent of these particular mortgages.

Well, of course, the day of reckoning has come again. They have now run up more debt—a huge amount of debt—

and they are not going to be able to pay it. A story in yesterday—I will get the source later—reported that the government has since pledged, after their original reorganization, more than \$1.5 trillion, including \$85 billion in direct aid, in order to keep the mortgage market working through Freddie Mac and Fannie Mae. The White House is now considering a new plan that apparently is coming out of the Office of the Secretary of Treasury and the National Economic Council Director that would somehow reform Fannie and Freddie yet again.

The Treasury Secretary said:

The only question that remains is what form and what structure they ultimately will take.

The article points out that the most likely structure is a good bank/bad bank structure, in which they will basically be relieved of all their obligations, which will all be put in a new "bad bank," which is a pile of debt that the American taxpayers will eat, and then the "good bank" is the entity that is supposed to continue on.

The question is: Why would we want these quasi-government entities to continue to compete with the private market, continue to create bad debt that taxpayers have to eat every now and then, and after we slough off the bad debt to the American taxpayers, they continue to do business as if they had gone through bankruptcy and don't have any more debts but they still have the implicit guarantee of the American taxpayers.

It is time to end that. We have a vibrant mortgage market now. There is an expectation that within the next several months housing will come back. It already is in certain areas. Interest rates are low, and it is possible to write mortgages now. We have learned the lesson that we are not going to write mortgages that cannot be repaid. It is not good for the financial institutions or for the people who take out the mortgages if they cannot repay them, and it is not good for taxpayers who have to end up eating the bad debt that is created.

I wished to close by referring to the penultimate paragraph from this newspaper, which says that the bad bank would be for Fannie Mae's and Freddie Mac's toxic assets. Then the government could create new companies to attract private investment for mortgage finance, starting the process over again.

Why should the government create new companies? The private market has an adequate way to deal with this; it is called the private sector, private companies. They are highly regulated. The proposal from the administration is to impose additional regulations, but why do we need a new government company? We have government insurance companies, government car companies, and the administration pro-

posal on health care is to create a new government health insurance company. We have banks taken over by the government.

Now we are going to fail to learn the lesson with Fannie Mae and Freddie Mac and create new government-backed companies, such as Fannie and Freddie—maybe they have the same name, who knows—in the mortgage business. When are we going to get out of the business of having the government create new companies? That is socialism, that is not American. That is not our free enterprise system. When things go wrong, we adjust and we make new regulations to correct the problems that were created; we learn the lessons of why government created the issue in the first place.

We don't need to continue to have the government create new companies that cost the taxpayers money and get us deeper into the notion that the government can compete with the private sector. That, then, leads inevitably to the government takeover because the government is never a good competitor when it is also the regulator. That is a fear a lot of people have with health care.

HEALTH CARE

Mr. KYL. Mr. President, that brings me to the final point. In yesterday's Wall Street Journal, an article is entitled "ObamaCare's Real Price Tag." It goes through all the different expenses of the proposed health care legislation, with the creation of a government insurance company. They talk about the funding gap that is created by the commitments of funding to this entire program. One of the things they notice is people need to be aware of the long-term consequences. We all know that Medicare, for example, is not financially sound. We can go out through the 5-year projections, 10-year, 15-year, 20-year, and so on, and know what the obligations of our children and grandchildren will be.

When we pass regular legislation in Congress, we have a set of blinders that says: What is the 10-year cost? We get it, and then we assume there are no more costs beyond that. What this opened points out is, we can calculate a 10-year cost. Maybe it is \$1 trillion or \$2 trillion or maybe it is more than that. We can at least estimate it. That is what the CBO and the Joint Tax Committee are charged with doing. Then there is an assumption that there is no cost beyond that.

What the people who write the legislation frequently do is to build in benefits in the early years and then phase in the ways of paying or not paying for it, so the real costs come in the so-called outyears—the outyears are beyond the 10-year window—so that it doesn't score as a big loser. What they point out is, in effect, what this legislation does is gone out for 10 years and

creates a cliff. When you fall off the cliff, that is when you are in trouble because the commitments to the people for health care have been already made.

Can you imagine Congress pulling back on those commitments? Once there is an expectation from government, that is not lightly withdrawn. The American people come to expect it, and there is a big lobby against it, if you try to withdraw the benefit. But if you haven't provided for how you are going to pay for it, there is a very rude and sudden awakening when you come to the cliff and realize you haven't folded into your calculations how you are going to pay for this benefit.

We did that with the so-called SCHIP legislation. We created a benefit, and the benefit kicked in early. The funding ostensibly stopped after a certain period of years. But everybody knew the funding would not stop. That required the suspension of belief. I guess it is called cognitive dissonance. The notion that somehow or another Congress is going to, at the end of that period of time—I believe it was 5 years—pull back all the benefits we had been giving to people for 5 years, that was not going to happen.

So you had the commitment to provide benefits, but no way to pay for them. As this article points out, that is what is happening with this health care legislation as well.

Let me quote from the third paragraph:

In the July 26 letter, CBO Director Douglas Elmendorf notes that the net costs of new spending will increase at a more than 8 percent per year between 2019 and 2029—

There we are talking about the next 10 years, not the first 10 years.

—while new revenue would only grow at about 5 percent. "In sum," he writes, "relative to current law, the proposal would probably generate substantial increases in federal budget deficits during the decade beyond the current 10-year budget window."

The point is, we should not look at these things during the first period of time that we analyze them, but rather the continuing commitment of the American taxpayer. When we do that, as the Director of the CBO points out, we find that we have a continuing, growing deficit; in other words, piling up more and more debt and, if anything, my guess is that these estimates are conservative and that the amount of deficit would be even more.

The editorialist in the Wall Street Journal had complained about this, talking about the "Grand Canyon" between spending and revenue, pointing to the CBO's long-term projections, and then said:

That's not our outlook. That's what White House Budget Director Peter Orszag told the House Budget Committee in June. He added that "If you're not falling off a cliff at the end of your projection window, that is your best assurance that the long-term trajectory is also stable."

As the editorial points out: "The House bill falls off a cliff."

So the precise thing we are trying to avoid in intelligent legislating is not avoided in the Democratic health care proposals: benefits promised now, ostensibly paid for in the first 10 years, not paid for after that. That is not me talking, as I said, that is the non-partisan Congressional Budget Office.

There are other examples of this pointed out, but as the editorial notes in conclusion:

ObamaCare's deficit hole will eventually have to be filled one way or another—along with Medicare's unfunded liability of some \$37 trillion.

I read that last night, and I had to go back and reread it—unfunded deficit of \$37 trillion. It is impossible for us to imagine how much money that is—\$37 trillion just for current obligations, not counting what would be added by the ObamaCare.

We cannot afford this, and I think the American people are beginning to appreciate we cannot afford it. There is no free lunch. The Federal Government cannot simply keep promising things and not worry about the costs in the future. We can only print money for so long before we have rampant inflation that destroys the wealth of everyone, primarily the people who have saved in the country, which starts with our senior citizens.

We cannot borrow our way out of it because the main people who continue to lend to us, such as the Chinese, have begun to lecture us on the fact they don't trust we are going to pay them back now, and they are going to start requiring more and more in the way of interest payments for them to continue to lend to us.

It is a little bit like the credit card company that says to a family: Look, you have borrowed a lot of money on your credit card. We are not sure that you are going to be able to pay that back to us. So if you are going to borrow more money on the credit card, we are going to double the interest rate to make it a high interest rate so at least it accounts for our risk in lending you more money. Borrowing more money from the Chinese at higher interest rates is not the answer.

The other alternative is to tax the American people. Everybody understands taxing the American people is the worst thing you can do for an economy, especially in a downturn. Americans believe they are already taxed enough. You cannot tax the rich and solve the problem because they already pay most of the taxes and it would only account for another few hundred billion dollars, even if you taxed them for everything they are worth.

You eventually get down to the middle class. The President has said over and over that he does not want to tax the middle class. The reality is that it is unavoidable if we continue to consider legislation such as this.

Mr. President, I ask unanimous consent to have printed in the RECORD this Wall Street Journal op-ed of August 6 called "ObamaCare's Real Price Tag."

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Wall Street Journal, August 6, 2009]

OBAMACARE'S REAL PRICE TAG

The funding gap is a canyon by year 10.

ObamaCare sinks in the polls, Democrats are complaining that the critics are distorting their proposals. But the truth is that the closer one inspects the actual details, the worse it all looks. Today's example is the vast debt canyon that would open just beyond the 10-year window under which the bill is officially "scored" for cost purposes.

The press corps has noticed the Congressional Budget Office's estimate that the House health bill increases the deficit by \$239 billion over the next decade. But government-run health care won't turn into a pumpkin after a decade. The underreported news is the new spending that will continue to increase well beyond the 10-year period that CBO examines, and that this blowout will overwhelm even the House Democrats' huge tax increases, Medicare spending cuts and other "pay fors."

In a July 26 letter, CBO director Douglas Elmendorf notes that the net costs of new spending will increase at more than 8% per year between 2019 and 2029, while new revenue would only grow at about 5%. "In sum," he writes, "relative to current law, the proposal would probably generate substantial increases in federal budget deficits during the decade beyond the current 10-year budget window." (The House bill has changed somewhat in the meantime, but not enough to alter these numbers much.)

The nearby chart shows this Grand Canyon between spending and revenue, including CBO's long-term predictions. While these are obviously very coarse estimates, there's also a projection of a \$65 billion deficit in the 10th year—and "deficit neutrality in the 10th year is . . . the best proxy for what will happen in the second decade."

That's not our outlook. That's what White House budget director Peter Orszag told the House Budget Committee in June. He added that "If you're not falling off a cliff at the end of your projection window, that is your best assurance that the long-term trajectory is also stable." The House bill falls off a cliff.

And the CBO score almost surely understates this deficit chasm because CBO uses static revenue analysis—assuming that higher taxes won't change behavior. But long experience shows that higher rates rarely yield the revenues that they project.

As for the spending, when has a new entitlement ever come in under budget? True, the 2003 prescription drug benefit has, but those surprise savings derived from the private insurance design and competition that Democrats opposed and now want to kill. The better model for ObamaCare is the original estimate for Medicare spending when it was passed in 1965, and what has happened since.

That year, Congressional actuaries (CBO wasn't around then) expected Medicare to cost \$3.1 billion in 1970. In 1969, that estimate was pushed to \$5 billion, and it really came in at \$6.8 billion. House Ways and Means analysts estimated in 1967 that Medicare would cost \$12 billion in 1990. They were off by a factor of 10—actual spending was \$110 billion—even as its benefits coverage failed to

keep pace with standards in the private market. Medicare spending in the first nine months of this fiscal year is \$314 billion and growing by 10%. Some of this historical error is due to 1970s-era inflation, as well as advancements in care and technology. But Democrats also clearly underestimated—or lowballed—the public's appetite for “free” health care.

ObamaCare's deficit hole will eventually have to be filled one way or another—along with Medicare's unfunded liability of some \$37 trillion. That means either reaching ever-deeper into middle-class pockets with taxes, probably with a European-style value-added tax that will depress economic growth. Or with the very restrictions on care and reimbursement that have been imposed on Medicare itself as costs exploded.

On the latter point, the 1965 Medicare statute explicitly stated that “Nothing in this title shall be construed to authorize any Federal official or employee to exercise any supervision or control over the practice of medicine or the manner in which medical services are provided.” Yet now such government management of doctors and hospitals is so pervasive in Medicare that Mr. Obama can casually wonder in a recent interview with *Time* magazine how anyone could oppose the “benign changes” that he supports, such as “how the delivery system works.” Oh, is that all?

Democrats will return in the fall with various budget tweaks that will claim to make ObamaCare “deficit neutral” over 10 years. But that won't begin to account for the budget abyss it will create in the decades to come.

Mr. KYL. Mr. President, I know I have talked about a lot of different issues today, but as we start this period of time when we go back home—we call it our work period back home—there are a lot of issues about which we want to talk to our constituents.

First on my list is going to be what do you think about the increased amount of debt this country is taking on, with all of the programs we have already passed and the programs that are on the horizon, including what was referred to here as ObamaCare, but the so-called health care reform? Do you believe your health care situation is in such a dire strait that we need to take on that kind of debt, or are there more targeted ways to resolve the problems that everybody acknowledges exists, particularly with some of the costs associated with health care.

We are also going to talk about whether the American people are comfortable with the degree of government involvement, the government takeover of all of these different elements of our society, including health care, including the mortgage business, as I talked about, and picking winners and losers in subsidizing the purchase of cars now.

I know we own two of the big car companies, but it seems a little self-serving then to try to help those car companies that the government owns by picking that as the place to put \$3 billion to encourage people to buy new cars.

I know a lot of folks back home who are in other businesses who are hurting

significantly. They could use this help just as much. I wonder if we took \$3 billion and spread that to some of the other industries that are also hurting. I am sure they would say: This is great; why don't you help us out?

When government gets in the business of picking winners and losers, it is a sad day for our democratic Republic. I think we need to watch this. I am going to ask my constituents what they think about that. I already know. I got an earful last Sunday in church about a couple of these different ideas. I expect I am going to continue to hear about that.

It is important that our constituents talk to us about their concerns. We work for them, not the other way around. They pay our salaries. We need to listen to them about what they have to say.

Finally, we have all these domestic issues, but I wanted to refer to Senator LIEBERMAN's comments about we cannot forget we have brave men and women halfway around the globe right now in 120-degree temperatures representing us. They are the men and women in our military services and in our intelligence services working very hard to protect us.

We have to send the signal to them that we appreciate what they do, that we are not going to criticize them for simply doing their job. I think Senator LIEBERMAN was right when he said let's not send signals to those we have instructed to help us out in this war on terror that at the end of the day we are going to second-guess what they are doing, we are going to be Monday morning quarterbacks and even potentially find them criminally liable for activity they engaged in in good faith and belief they were protecting the American people.

I am going to be very interested to see what my constituents have to say about these issues. I know my colleagues will as well. I hope when we come back from the recess that we will not only be personally refreshed from having the opportunity to visit with our families and spend a little downtime but intellectually refreshed by having heard from our bosses—our constituents—on how they want to approach these problems in the future. Maybe in September, we will be a little more enlightened about how to carry out our responsibilities.

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BROWN. Mr. President, I ask unanimous consent to speak as in morning business for up to 15 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. BROWN. Mr. President, I have come to the floor, much as I have every day for the last 3 weeks or so, to share letters from constituents in Ohio—from Findlay and Mansfield and Ravenna and Gallipolis and Bucyrus and Cleveland. These are letters from people who have often suffered because our health care system doesn't work for them.

We understand the health care system works for many; that many people are pleased with their health insurance. We understand—and the Chair certainly does, as a member of the Health, Education, Labor, and Pensions Committee—that we have made sure people who have insurance they are satisfied with can keep that insurance. As you know, we have built consumer protections around those health care plans that people now benefit from to make sure preexisting conditions are not banned from coverage; to stop discrimination based on gender or age; to make sure insurance companies cannot throw somebody off their rolls because they have an annual cap on the insurance. But as we throw these words around on this debate, words like “exchange” and “market exclusivity” and “gateway” and “direct negotiations” and all these terms, it is important to always bring it back to people whom we know, people who have written letters—from Eugene, OR, or from Toledo, OH—people who have written letters to us about the health insurance system. I would like to share a few of these letters today as I have for the last 2 or 3 weeks.

Heather from Lorain County, the county where I live, west of Cleveland, writes:

I am a resident of Elyria, OH, a Registered Nurse of 14 years, living with relapsing-remitting multiple sclerosis. I live at both ends of the stethoscope. I am a frontline witness to the disintegration of our health “care” system both as a caregiver and as a patient. Health care is a NON-partisan issue, but it's been all about dollars and cents, not common sense.

She is right about that. We simply have let too many people fall through the cracks. We have not relied enough on nurses like Heather, people who deliver the care directly. We have allowed our health care system in that sense to get away from us.

Mary from Jefferson County, eastern Ohio, along the Ohio River—Steubenville is the community that is the county seat in their county.

I am writing this on behalf of my brother, an insulin dependent diabetic who is a retired factory employee in Kettering, OH. He has recently been notified that he will be losing most of his pension and all of his health care.

I have contacted almost all health care insurance companies trying to get a single coverage policy. Due to his diabetes, he is excluded from any coverage and completely uninsurable. His insulin alone is approximately \$8,000 a year. The reason is not that diabetes is a pre-existing condition but is a chronic condition.

My brother worked in the factory for over 30 years, paid into the program, paid his taxes. It is a true sin that these older Americans are being treated this way in our system.

Mary writes about diabetes, which is an increasing problem in this country. It is an increasing health problem that afflicts so many, not just older people like Mary's brother but younger people too, especially people diagnosed with diabetes at very young ages. Our legislation deals with that. It deals with that particularly for children, on preventive care and wellness programs dealing with childhood obesity—all of those issues.

It deals with people like Mary's brother in Kettering who suffer because of, in too many cases, a cap on coverage. If you are spending too much, according to the insurance company, one year, they do not pay any more. The rest of it comes out of pocket. Sometimes they dump you and you lose your insurance. That kind of discrimination by the insurance companies will be prohibited under our health care bill even if you have insurance you are happy with. We want you to stay in the plan if you are happy with your insurance, but we are going to build these consumer protections around it so things don't happen to you like happened to Mary's brother.

This comes from Scott in Hamilton County—that includes Cincinnati on the Ohio River in southwest Ohio.

I recently changed employers. My previous employer was not required to offer COBRA. I was not aware of this and was quite shocked. My new employer had a waiting period of 90 days before I could enroll in the employer-sponsored plan. Between the time I left my old job and before I could enroll in a new plan, my wife found out she was pregnant. But when attempting to find new coverage, we kept being turned down due to the pregnancy being deemed a pre-existing condition. There should have been a better option. Please do what you can to support health care reform.

If I didn't live in this country and I didn't know that these things happen, I would just think they made up that story. This guy has insurance. He switches jobs. Between leaving his job and his next job, he is uninsured. His wife gets pregnant, and they can't get insurance because she has a preexisting condition. How stupid does that sound?

What is wrong with our health insurance system? It has a lot of good things, but what is wrong with the system that allows him to fall through the cracks so at best she will have a pregnancy with no difficulties, generally good pregnancy, but still that costs thousands of dollars. Imagine if she has

a particularly difficult pregnancy with all kinds of expensive care for her and for their newborn baby. Imagine the tens of thousands of dollars. They will go into debt because, as Scott from Hamilton County says, health insurance was not available because of this preexisting condition—his wife got pregnant.

Dinah from Cuyahoga County, up near Cleveland, writes:

I've been a small business owner in graphics design for 17 years. We always provide our employees with the best fully-paid health care we could afford. Throughout the whole time, the cost of health care was our largest expense after salaries. Business has declined—

As it has throughout our Nation in many places—

and we have been forced to lay off employees from our once high of eight to just two of us. Now we are on the edge of having to close down unless business increases soon.

We have learned that we are in a catch-22 situation. If I lay off my last employee to stay in business, we no longer have two persons to qualify for a group and thus the group insurance will be canceled by our insurer. Getting an individual policy with reasonable coverage at age 62 is no easy trick. And we have no idea if my one employee, single and 40, will qualify either. We have no idea whether we will be accepted or will have some kind of preexisting condition we're not aware of. With two and a half years to go before Medicare, I'm pretty close to my worst fears being realized.

Fight on for the public option. Please don't give up and settle for something that just puts a band aid on this huge problem. So many people so desperately need your help.

That is what we never can forget in this body when we talk about market exclusivity and talk about the gateway and exchange and all these terms—direct negotiations. We can never forget people like Dinah from Cuyahoga County, saying, "So many people so desperately need your help." They need our help in this body. We have to pass this bill by the end of the year. She says, "Fight on for the public option." She understands that insurance companies so often play games with people such as Dinah and Scott and Heather and some of the other people I will read letters from today.

Mr. President, that is why you, on the HELP Committee, and why I, on the HELP committee, and Senator DODD and others, why we fought for the public option. That is an option. What it will do is inject competition into the health care system, competition with insurance companies so that insurance companies—even though we are going to change the rules for insurance companies, we also know they always try to game the system. They want to insure you because you are healthy. They are not so sure they want to insure you because you might be expensive. We cannot let them do that anymore. That is why we are changing the rules. That is why we also need the public option, so the public option can compete and

keep these insurance companies honest. Dinah gets that. Not all of our colleagues in this body get that. That is why it is so important to make sure this health care system improves so it works for everybody.

Ruth from Greene County, the Xenia area in the State, sort of southwest Ohio, writes:

Last year, my granddaughter Lilly was diagnosed with cystic fibrosis, a fatal genetic disorder. She requires many specialized enzymes and foods and three daily breathing treatments to keep her lungs from deteriorating. She also needs specialized care from a cystic fibrosis center and will likely be hospitalized for lung infections at some point.

Without insurance this treatment would not be possible, and with insurance companies' ability to deny coverage for preexisting conditions, what is her long-term ability to get health coverage? Currently, her parents are changing jobs. How will they get affordable health insurance for their daughter is a big question.

It appears from the letter from Ruth that her granddaughter Lilly has insurance right now and is getting good treatment and good medical care, as most Americans are at this point.

But it seems there are two things she is talking about. One is her parents have had, for whatever reason, to change jobs—Lilly's parents. What is going to happen with their insurance when their new employer and their new employer's insurance company understands they have a daughter with cystic fibrosis? And then she asks a question that is just as crucial: What happens to Lilly when she gets older? What happens to somebody who has a chronic health condition such as cystic fibrosis or anything else? When they get to be adults, what happens to them? What happens to their ability to get health care coverage?

That is why the public option is so important, why our bill is so important. The public option will compete with private insurance carriers to make sure they stay honest, that they do not dump people like Lilly, so they do not play this preexisting condition game, so they don't game the community rating system, so they don't discriminate against people because of gender or geography or age or anything else.

The last two letters I would like to read are actually both from physicians.

Michael, from Montgomery County, the Dayton area, writes:

As a physician I see what happens to people every day when they cannot get health insurance. I see the abuses they suffer at the hands of the greedy insurance companies. I also see constant erosion in payments to doctors, hospitals, and all health care providers. The only thing that is increasing is the red tape. The red tape doesn't provide care. It takes caregivers away from patients.

Michael is a medical doctor in Montgomery County in southwest Ohio. Michael understands, because he has been victimized by it, he has been harassed

by it, he has been annoyed at best by it, that he deals and his office deals with all kinds of insurance company redtape.

Mr. President, I have heard you actually talk about it in committee. You know Medicare has less than 5 percent administrative costs. The paperwork for Medicare is much less than the paperwork Michael's office has to do, dealing with hundreds and hundreds of different insurance companies. Medicare keeps its administrative costs under 5 percent. Insurance companies' administrative costs are 15, 20, sometimes even 30 percent. That is the redtape he is talking about.

Medicare is not perfect. Medicare has redtape. It needs to be streamlined every way we can do that so it is simpler and cleaner, the way we need to build the public option to be.

But we also know private insurance has huge administrative costs, huge salaries for their executives. People have come down to the floor and read what the salaries are of United Health and some of the other insurance companies—Aetna, CIGNA—the top executive salaries, often into the tens of millions of dollars each. We know they have those kinds of administrative costs. We know they have the profits they make. Fine, they should make profits, but sometimes they are excessive.

We also know they have costs for huge numbers of people in these private insurance companies who are there to deny care. When did you ever hear Medicare turn somebody down for a preexisting condition? I don't think it has ever happened. When did you ever hear Medicare say: Sorry, you are spending more than your cap; that is the end; we are not going to take care of you. The fact is, the preexisting condition, the denial of coverage because of your gender or your age or your geography, doesn't happen with Medicare. It does happen with private insurance.

Michael understands that when he writes. He talked about the greedy insurance companies. Not all of them are but some are, and some of the executives are way overpaid. We know that.

Most important, we need to cut through the redtape. That is why the public plan, competing with the private insurance plans, will make the private plans better, and, frankly, the energy and the dynamism of the private plans probably will make the public option better too. That is the whole point of competition.

The last letter I will read comes from Ellen from Cuyahoga County, the Cleveland area.

I am a physician and a partner in a small business that offers health care benefits to its employees. For them, but most as a wife of a cancer survivor, I feel there is no more important issue than health care. We must provide affordable health care to all Americans.

We hear it from doctors, we hear it from a nurse, we hear it from patients, we hear it from family members, family members who care deeply about their family and what it has done to them.

We are about to leave here for the next month. When we come back in September, there is a deadline on negotiations in the Finance Committee. If the six—three Democratic and three Republican Senators—do not come to agreement, it is time to move forward with the Health, Education, Labor, and Pensions bill we wrote. Our bill, as you recall, is a bipartisan bill. Our bill that we passed out of the HELP Committee went through 11 days of markup, 11 days of considering amendments, debating, discussing, arguing—whatever we do when we get together. Never in my 17 years in the House of Representatives and the Senate have I seen a bill have that much attention, have that many amendments, spend that long working on it. This bill has been vetted. We know the ins and outs of it.

We accepted 161 Republican amendments. Some of them were minor, some of them were major amendments. The Republicans did not win on some of the big issues, but the big issues were decided, in many ways, by the election. The big issues are things such as, should there be a Medicare-like plan or should we continue the privatization of Medicare, which is what Republicans want to do. There are very big differences there.

But the fact is, this bill is a bipartisan bill. It came out of committee with a strong vote. We know it will cover almost every American. We know it will bend the cost curve down so we will begin to save money. We know it will ban all kinds of insurance company gaming of the system, provide consumer protections for people who now have health insurance that they are generally satisfied with, and make sure those people do not lose their insurance because of preexisting conditions or discrimination.

We have work to do after being back in Ohio and the Chair back in Oregon for the next month. It is important we get back to work, after listening to our constituents and getting more input on these bills. It is important that we go back to work in September and pass health care legislation.

I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SESSIONS. I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

JUSTICE SOTOMAYOR

Mr. SESSIONS. Mr. President, I had the opportunity this morning to talk with Judge Sotomayor and congratulate her on her confirmation to the Supreme Court. It is an exceedingly important position. Her nomination initiated a national discussion about the role of a judge in American society. I hope it rose to the level of debate and discussion that was worthy of such a great occasion.

She is a wonderful person. She is going to give her best effort to be a great Justice on the Court. I hope and pray she will achieve that. I reached a conclusion, as did a number of my colleagues, that her statements and expressions of judicial philosophy were such that it caused concern and gave rise to a belief that her approach to judging was part of a growing idea that judges are not bound by the law and facts but are rightly able to allow their personal views to influence their decisions.

Her testimony was different, however, from what was reflected in her speeches. I am hopeful that her testimony will be the basis by which she conducts her business on the bench.

I congratulate her. I think our discussion was at a high level. It dealt with an issue that so many of us feel very deeply about; that is, that the law must be objective, that judges must show fidelity to the law as written, even if we in Congress have not written it so well and if they would like to see it differently. That is the cornerstone of the American legal system, and I am proud of it.

I received an e-mail a few days ago from Sarah Chayes who has written a book about Afghanistan. She was an NPR reporter, stayed in Afghanistan, fell in love with the country, has learned the language and works tirelessly to improve the lives of people in that country.

She told about being in the States and meeting with the relative of an individual who tried so hard in Iraq to promote law and justice. She said this lady, her relative, said what most impressed her in America was the law. She said it was not food, it was not technology, it was not wealth that we had, it was the legal system we had. It is a beautiful, wonderful thing. It is a heritage we have received. We have not earned it. We have inherited it, and we have a responsibility to make sure we pass it on in a healthy state, to those who will follow us.

So my congratulations go to Judge Sotomayor. I know her mother and other family members are so excited this day. This was one of the shortest confirmation processes in recent memory. I know that she is pleased that it was completed before the August recess. It will allow her to move and get herself organized for the beginning of the term in October. So, again, my congratulations are to her.

I appreciate the Members of the Senate, Chairman LEAHY, for allowing a full and robust debate on this issue. I will assure my colleagues, the issue of judicial activism is not going away. The American people feel strongly that judges must operate as their judicial oath says, in accordance with the Constitution and laws of the United States—not above them. They expect them to work diligently to determine the right answer to each case before them and to find and declare that right answer, even if the law they base it on is one they personally would like to see altered.

That is the ideal of American justice, and we will be continuing to battle for that as the months and years go forward. I think it is an important issue this country will be wrestling with.

I thank the Acting President pro tempore and yield the floor.

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SESSIONS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

THE DEFICIT

Mr. SESSIONS. Mr. President, before we leave for our August recess, I think it is good to maintain our watch on what is happening in the financial markets. I have reported on these matters several times this year because I think it is something we have to talk about. The reason we have to talk about it is because the United States is borrowing more money this year than any year in the history of the American Republic. It dwarfs anything we have ever done before, and it is an action that has consequences. We cannot borrow dramatically without having consequences occur, just as they do in our families. If your family goes more into debt, you are burdened with high interest rate payments that produce nothing but are monies you expend because you borrowed money. That is what interest is. It does not do you any good. It is a painful thing for no immediate benefit. The benefit comes when you borrowed it and bought something with it, but in the long run you carry that interest unless you pay the debt off in the future.

The problem this country has is that according to the President's own budget, in the next 10 years we have no plans whatsoever to pay down any debt. In fact, the debt is surging in the outyears. Growing the deficit for each annual accounting will increase in the outyears. So we are in an unsustainable rate of spending in

America. We have heard those phrases, and "unsustainable" means just that: We can't keep it up in this fashion.

I will put this chart up that is not disputed by anybody who has been involved in the process. It represents what the Congressional Budget Office—a nonpartisan group, but in truth it is hired by the Democratic majority here in the Congress, in the Senate—has scored the President's budget and what it will mean for us in terms of debt over the next 10 years. It is a 10-year budget, and we are supposed to look out into those years.

In 2008, the total debt in America was \$5.8 trillion. From the beginning of the American Republic until 2008, we had accumulated \$5.8 trillion in debt. That is a lot of money; more than we needed to have been carrying as a debt. President Bush was criticized for having several deficits, one over \$400 billion, and another one either at or around \$400 billion. Other years were less: \$100 billion, \$160 billion, something like that. But he was criticized for that because it helped cause the debt to go up. But look what the Congressional Budget Office says we are going to be facing 5 years from now in 2013: a doubling of that debt to \$11.8 trillion. Ten years from now it will triple to \$17 trillion. The debt will increase in the out years. President Bush was rightly criticized for having added a \$450 billion deficit in 1 year. We will not see in the next 10 years, according to the Congressional Budget Office, a single deficit year that low. The lowest they project is that it would be \$600 billion plus. In the tenth year, out here in 2019, it is projected the deficit will be \$1.1 trillion. This year, the deficit is projected to be \$1.8 trillion. We will soon know. Some say it will be \$2 trillion; \$1 trillion, of course, is one thousand billion dollars—a lot of money. It has consequences. Where do you get this money?

Where do we get the extra \$2 trillion we are spending today that we don't have? Where do we get it? Well, we go into the marketplace and we ask people to buy Treasury bills and loan us the money. It is basically a note. They give us their money and we give them a promise to pay, plus interest. If you don't have any plan to pay down those debts, and we don't—indeed, we continue to project a surge in borrowing even in the tenth year, with no recession being projected in this next 10 years, so it is a grim prospect to pay this kind of interest.

This chart deals with the interest payment. People think: Well, somehow we can borrow and it doesn't hurt us. That is not so. If you borrow, you have to pay interest on it. This country pays interest today on the debt of \$5.8 trillion. We are sort of fortunate because in this economic slowdown interest rates are low, but they are not going to stay low, and that is the problem. Not

only that, the size of the debt is increasing.

So in 2009, it is projected that the interest on our debt will be \$170 billion. Well, the entire Federal education budget—what, \$100 billion—the entire Federal highway budget prior to this stimulus package, at least, was \$40 billion. So \$170 billion goes out in interest to people all over the world and in the United States who have bought Treasury bills, including foreign countries such as the Arab countries who have so much of the American dollars because we buy their oil, and China, we buy their products and they have American dollars, and they have been buying our Treasury bills.

But look what happens over the 10-year window. This is according to the Congressional Budget Office—a fair, objective analysis of what we are looking at. Let's take the red numbers. This is what we would be paying out annually in interest. It goes up—by 2019, the interest we would pay at the originally projected rate of interest CBO used—to \$800 billion in 1 year in interest we pay on the debt.

People are getting worried the interest rates are going to go up because we are borrowing so much money and people are going to be afraid that the dollar will be devalued, and our currency will be inflated. Therefore, they won't get as much return because they will be cheated because the dollars they get back from the United States in terms of interest aren't the same valuable dollars they were originally. The fundamental thing that is working up here in people's minds is that the interest rates could go up. If we use the Blue Chip economics forecast, the total payment in interest could be \$865 billion. If it goes up higher to the rates we saw in the 1980s, it could be \$1.3 trillion. That is just interest, in 1 year, that we would have to pay. Our total budget today is about \$3 trillion. That would be more than a third of the budget.

I don't think the Members of this Congress understand the seriousness of this problem, because look at the bills that go through here. I am a big supporter of farm programs. I supported farm bills year after year, but I couldn't vote for the one this year. It had a 11-percent increase in discretionary spending under the agriculture bill—11 percent. You know, at 7 percent return, your money doubles in 10 years; at 11 percent, the agriculture budget will double in several years.

At a time when we are running up unprecedented debts, we have an 11-percent increase there. It is difficult for me to comprehend. I don't think we are serious about it. Now the House has put in three airplanes so Members of the Congress can take trips with them, presumably. Somebody somewhere needs to be asking: Where are we going to get this money? Every dime of it will be borrowed. The \$800 billion we

passed earlier this year that was supposed to stimulate the economy, keep the unemployment rate from going up, and cause economic growth to occur, was borrowed. We didn't have that money. The first automobile clunker bill, \$1 billion, was borrowed on top of that. It wasn't even paid for out of the stimulus bill. It was new billion dollars. Then the new clunker bill that passed here last night in the House, they said: Well, it was going to come out of the stimulus package and, therefore, it wouldn't add to the debt because we have already authorized this stimulus money to be spent, but that is not what the House leadership said. They promised they wouldn't reduce any of the spending that was provided for in the \$800 billion stimulus package. Only 11 percent of the discretionary funds will be spent by October 1. They wouldn't take the money out of that to fund the clunker program. They promised without any equivocation that they would replenish that to borrow money. They are going to borrow that money so they don't have to reduce any of this spending in the stimulus package.

The Treasury issued a record amount of debt this past year—an unbelievable amount, actually. The Treasury Department said Wednesday it is going to sell a record \$75 billion in Treasury bills just next week so we can pay all of these obligations, we have appropriated the money for. We don't have the money, so we have to borrow it. In particular, the Treasury officials need to ensure that demand from China—that is, China's purchasing of our Treasury bills—doesn't fall off. We want them to keep buying. There are several problems, however. China doesn't have as much money as they did because their sales are not going as they were, and they are using some of their surplus money to stimulate their own economy. So they are not going to have as much money to buy Treasury bills as they did, frankly. But at any rate, demand from China, the largest holder of U.S. Government debt, is shaky. We put out the Treasury bills by auction at an interest rate and people bid for them, basically, and the government has to raise the rate high enough to get people to give them the money so we can spend in Congress.

According to yesterday's Wall Street Journal, last week's auctions of fixed-rate Treasury notes saw lukewarm demand from China and other investors. They are getting worried. Chinese officials had indicated they want inflation-protected securities, especially as the U.S. economy starts to recover. Inflation-protected securities. That is the TIPS. Right now they are not paying much interest. It is pretty low interest. But if you have a TIP, inflation-protected securities, and the interest rate goes up, then you get paid more. The return on your Treasury bill goes up. It is not fixed.

"Inflation is the No. 1 worry," said Mark Chandler, global head of currency strategy for Brown Brothers Harriman & Company: "This is the government saying, 'We will take that inflation risk away from you.'"

That is what a TIP does. It says, Don't worry about inflation; if the inflation goes up, we will pay you greater interest on the Treasury bill you buy.

And the spread—the difference between the 10-year TIPS—inflation-protected securities—and the regular 10-year Treasury note has risen from near zero at the beginning of this year to about 2 percent today. That means that one can get a 2-percent better rate by buying regular Treasuries, 10-year Treasury notes, but people still want TIPS. People with money want TIPS. Why? Because they are afraid in the next 10 years we are going to have a surge of inflation and a 3.7-percent 10-year Treasury bill. Well, they would rather have a 1.7-percent TIPS than get 2 more percent on the U.S. Treasury bill.

According to yesterday's Wall Street Journal, officials from the United States and China discussed TIPS issuance in high-level talks last week. U.S. officials assured their Chinese counterparts that they remain committed to TIPS sales, according to a person with knowledge of the discussions. China has accumulated more than \$2 trillion in foreign exchange reserves and has invested about \$800 billion in the U.S. Treasury. Meanwhile, interest rates on regular 10-year Treasuries have increased from 2.4 percent to 3.75 percent this year, an increase of over 50-percent.

So the interest rates on the 10-year Treasury has increased over 50 percent since January. Why? Because people are not willing to give the government money at the lower 2.4 percent rate because even though we are in a recession and interest rates are very low, they know with this kind of debt, this kind of future debt that the United States is facing, we are going to have a tremendous temptation to inflate the currency. And we are going to have that pressure because one way to beat your debt, of course, is to pay it back in dollars not worth as much as the dollar the person loaned. If they loan you a dollar today, and the dollar drops 20 percent, you can pay them back with dollars worth 80 cents rather than a dollar. That is a pretty good deal, if you can get away with it.

People are smart and they see this coming. They are demanding higher interest rates now, or they won't loan us the money—like any smart businessperson would. I say to my colleagues you don't get something for nothing. There is no free lunch. You cannot run up this kind of debt without consequences for the young people of this country in the years to come. They are going to be carrying a \$800 billion-a-

year annual interest rate in 10 years. Most likely, this number will be higher than \$800 billion a year, whereas our generation today is carrying a \$170 billion a year annual interest payment. I do not believe we have to do that to help this economy come out of recession. In fact, when you talk to people who are involved in the American financial sector, the biggest worry they have is interest and the debt. For everything else, they can see a way the U.S. economy will come out of it. If we burden ourselves with more debt than we can sustain—and we are clearly heading in that direction—long-term investors are worried. They don't see this coming out right. That is why they say it is not sustainable.

I wished to share these remarks before we recess for August. I don't think it should be forgotten. We have a responsibility to see that every dollar we spend produces something of value. While it can also have a stimulative effect, it needs to produce something of value; it cannot just be thrown away. We need to look for every possible way to contain this growth in spending. It is unacceptable and it cannot continue. Somehow, some way, Congress has to get the message; and I don't think we have gotten it. I don't think we understand that millions of people are losing their jobs. People who used to have overtime are not getting it today. Many who were working full time are working part time today. Families who used to have two wage earners now only have one.

This is serious. We are going to have to recognize we cannot spend our way out of it. We cannot borrow our way to prosperity, as one Alabamian told me at a townhall meeting.

Mr. President, I yield the floor.

CONFIRMATION OF JUSTICE SONIA SOTOMAYOR

Mr. LEAHY. Mr. President, among the most gratifying aspects of the confirmation of Justice Sonia Sotomayor for me was meeting her mother Celina. Anyone who knows their story knows how much Justice Sotomayor owes to her mother. She paid tribute to her mother during her opening statement at the confirmation hearing last month when she poignantly said: "I want to make one special note of thanks to my Mom. I am here today because of her aspirations and sacrifices for both my brother Juan and me. Mom, I love that we are sharing this together."

One of the good things about the hearing was that Americans were able to meet Celina Sotomayor, a woman admired across America. I will never forget her own participation at that hearing. She sat just behind her daughter, nodding in agreement when her daughter spoke. She followed the questions and answers, the give-and-take. She was focused, protective and justifiably proud of her daughter.

Justice Sotomayor's story is her story too. Justice Sotomayor's triumph is her triumph too. This confirmation is the realization of the American dream that she lived and for which she worked, sacrificed and overcame adversity. She is an inspiration to us all.

CUSTOMS FACILITATION AND TRADE ENFORCEMENT REAUTHORIZATION ACT OF 2009

Mr. BAUCUS. Mr. President, Representative John Randolph, chairman of the House Ways and Means Committee in the early 1800s, said, "We all know our duty better than we discharge it."

U.S. Customs and Border Protection, or CBP, and Immigration and Customs Enforcement, or ICE, have two vital duties. They must protect our national security by ensuring that threats to that security do not cross our borders, and they must protect our economic security by ensuring that legitimate trade does cross our borders, smoothly and quickly. I have no doubt that CBP and ICE know these duties. But they must do a better job of discharging their trade duties.

Senator GRASSLEY and I introduced a bill that would require the agencies to do just that. The Customs Facilitation and Trade Enforcement Reauthorization Act of 2009 would direct CBP and ICE to make customs facilitation and trade enforcement a priority again, and it would provide the agencies with the tools and resources that they need to fully discharge those duties.

These agencies know that high-level officials must focus on their trade duties. The bill would help the agencies discharge those duties by creating new high-level positions at CBP devoted exclusively to trade. The bill would assign new trade facilitation and enforcement duties to the highest level official at ICE.

The agencies know that they must facilitate and expedite legitimate trade across our borders. The bill would help the agencies to discharge those duties by providing trade facilitation benefits, such as faster customs clearance, to importers with a history of complying with U.S. customs and trade laws. The bill would also require the Secretary of Homeland Security to identify and provide trade facilitation benefits to importers that provide additional security information. The bill would provide funding for automated programs that would help CBP process imports more quickly.

The agencies know that they must enforce U.S. trade, intellectual property, and health and safety laws at our borders. The bill would help the agencies to discharge those duties by giving CBP new tools to identify goods that are most likely to violate these laws. It would give CBP the means to prevent

those goods from crossing our borders. It would require ICE to do more to prevent the importation of goods made with forced, convict, or indentured labor.

The agencies know that they must listen to Congress and the business community when taking significant actions that affect America's competitiveness. The bill would help the agencies to discharge that duty by requiring CBP to engage in robust consultation before taking such steps.

The agencies know that they must serve rural border areas, such as those in my home State of Montana. The bill would help the agencies to discharge that duty by creating a pilot program to establish 24-hour ports along these border areas, ensuring that legitimate trade can flow quickly through these areas.

So let's come together to reauthorize CBP and ICE. Let's give these agencies the tools and resources they need to facilitate and enforce international trade. And let's help CBP and ICE to discharge these duties that are so essential to our economic security.

EXPAND BUILDING ENERGY EFFICIENCY ACT OF 2009

Ms. SNOWE. Mr. President, I rise to speak about legislation that I introduced, the Expanding Building Efficiency Incentives Act of 2009, which would expand the tax incentives for building and put our country on course to reduce energy consumption in a sector that currently consumes 40 percent of our total energy. I am pleased to have worked with Senator FEINSTEIN and BINGAMAN, two longtime leaders on energy efficiency, on this proposal and look forward to discussing this bill with my Finance Committee colleagues.

One inexcusable legacy of this housing crisis is that the vast majority of homes constructed over the last 10 years during the housing boom have been inefficient. While an inefficient vehicle purchased today may guzzle gasoline for an average of 10 years, an inefficient building will require elevated levels of energy for as long as 50 years. Therefore, whenever we create inefficient buildings, generations to come will be saddled with our wasteful energy decisions. Last week McKinsey and Company in a report, "Unlocking Energy Efficiency in the US Economy," concluded that a major investment in energy efficiency could save \$1.2 trillion and cut consumption 23 percent by 2020. This legislation serves as a cornerstone to realizing these opportunities.

The Expanding Building Efficiency Incentives Act builds on current tax incentives that have worked to move the market toward energy efficiency. While the marginal costs of constructing an energy-efficient building

may be higher than an inefficient building, the long-term energy savings have environmental and energy dividends, as well as ultimate cost savings. These tax incentives provide an incentive to correct this market failure and obtain these long-term benefits.

Specifically, the bill includes an extension of the current energy-efficient new homes tax credit for 3 years, which requires new homes to be 50 percent better than current code with respect to heating and cooling. In addition, this bill will create a new tier for a \$5,000 tax credit if a building consumes 50 percent less total energy than a comparable building. The current tax credit system for new homes has been very successful. According to the Residential Energy Services Network, 4.6 percent of all new homes met these rigorous standards in 2008, which adds up to nearly 22,000 homes being at the cutting edge of energy efficiency. This tax credit is working and not only should we extend this tax credit, but we must build on this to encompass additional energy consumption in a new home.

In addition, the bill would provide a \$500 tax credit for individuals to become professional energy auditors, experts that can reduce our country's demand for oil, reduce carbon emissions, and save our struggling families money on their energy bills. In addition, a \$200 tax credit is established for homeowners to hire these professional energy auditors and analyze the deficiencies of an existing home and propose investments that will save the taxpayer money. As we move forward with dedicating significant resources to energy efficiency in this legislation it is critical that we ensure that this funding is utilized effectively by a professional energy efficiency industry and this amendment will accomplish this critical goal.

Finally, the amendment increases the tax credit for energy-efficient commercial buildings by increasing the deduction from \$1.80 cents per square foot to \$3.00 per square foot. The original version of the commercial buildings tax deduction as passed by the Senate set the deduction to \$2.25 per square foot, with the critical support of the current Finance chairman and ranking member. Adjusting for inflation, this corresponds to \$3.00 per square foot today with partial compliance increased to \$1.00 per square foot. These changes would return the deduction to viability as it was originally designed and ensure that commercial building developers are provided an adequate incentive to pursue energy efficiency.

Earlier this year, a New York Times editorial pointed out that we are an extremely energy inefficient economy—the 76th best country in the world. This must change if we are to retain our leadership in this world, and I look forward to working with my colleagues to improve our ranking and increase our country's energy efficiency.

CLEANER, SECURE, AND AFFORDABLE THERMAL ENERGY ACT

Ms. SNOWE. Mr. President, I rise to speak about the Cleaner, Secure, and Affordable Thermal Energy Act, which I introduced with Senator BINGAMAN. This bill will add diversity to the fuel usage of Americans who are forced to use home heating oil, a heating source that has gone through wild price swings and last year reached historic prices. While I strongly believe that we must invest in weatherization and energy efficiency, I also believe that we must create diversity for thermal energy.

In my home State of Maine, roughly 80 percent of the population utilize heating oil to keep warm in the winter. In New England, 40 percent of homes use heating oil. As a result, on average nearly 4.7 billion gallons of heating oil are consumed by New England. This is not only an enormous cost to families across the region, but it creates massive greenhouse gas emissions and increases our country's demand of foreign oil. This is not merely a regional issue, this is a national issue and it should be a priority of Congress to reduce heating oil use in New England.

This bill builds on the current credits for nonbusiness energy property to provide an additional credit for conversion of homes using home heating oil to natural gas or biomass. Specifically, the bill provides a tax credit of \$3,500 for natural gas conversion and \$4,000 for biomass conversion. While natural gas is not available throughout the United States and is not widely available in Maine, I am hopeful that these incentives will provide an additional incentive to expand usage in regions that have access to natural gas supplies.

In regions that the rocky geology does not allow natural gas to be utilized, the bill includes a tax credit for biomass for thermal energy, such as wood pellets. Just this past July, International WoodFuels announced plans to construct a 100,000 ton per year pellet plant in Burnham, ME. This is from wood product that is harvested in Maine and can be used to replace home heating oil in the State. While I strongly believe that we must carefully develop policies to ensure that the expanded use of wood pellets will not undermine existing forest industries, I strongly believe that we must encourage additional diversity of our home heating oil energy sources and wood pellets provide a viable pathway to energy diversity for the State of Maine.

I strongly believe that reducing the current consumption of home heating oil in the State of Maine, New England, and the country should be a major priority as we move forward with overhauling our energy policy, and I look forward to working with my colleagues to pass the Cleaner, Secure, and Affordable Thermal Energy Act into law.

COMMENDING SENATOR NORM COLEMAN

Ms. MURKOWSKI. Mr. President, I honor and bid farewell to my friend and our colleague, Senator Norm Coleman of Minnesota. Norm and I served together for 6 years in the Senate and on the Senate Foreign Relations Committee. He also served on the Agriculture, Aging, Homeland Security, and Small Business Committees. He has a legislative record to be proud of.

As our colleagues know, I have long enjoyed my work with Native people. Norm, throughout his tenure, was a steadfast friend of American Indian, Alaska Native, and Native Hawaiian people and a strong advocate for the interests of the tribes in his home State of Minnesota. His voice will be missed in the U.S. Senate on these issues.

As a member of the Committee on Homeland Security and Governmental Affairs Norm pushed for drastic reforms in our Nation's emergency response and recovery capabilities in the wake of the failed response to Hurricane Katrina. He was diligent and steadfast in his desire to protect our country and deeply engaged in efforts to increase protections for our Nation's critical infrastructure.

I will remember Norm as one who had a love and appreciation for my State of Alaska. On several occasions he enjoyed the beauty of Alaska while seeking his prized king salmon on the Kenai River. Norm further extended his Alaska ties by hiring Jennifer Mies Lowe, who is married to my former chief of staff, George Lowe. Jennifer served Senator Stevens for many years before moving to Senator Coleman's office as his chief of staff.

Norm has a long record of public service fighting for Minnesotans. He served as mayor of St. Paul before being called by the people of Minnesota to come to the U.S. Senate. I expect that we have not heard the last of him.

In closing I would like to wish Norm, his wife Laurie, and children Jacob and Sarah the very best. Norm, thank you for your service to the Nation, the Senate, and Minnesota. I know Norm and his strong sense of service to his country, and while I will miss him in the Senate, I look forward to his next opportunity to serve.

NATURAL GAS IN A CLEAN ENERGY ECONOMY

Mr. UDALL of Colorado. Mr. President, I wish to discuss why we need a clean energy economy and how natural gas will be a critical component of our future energy mix.

We need legislation to move forward, to the President's desk, this year. To compete in a 21st century global economy, the United States must take immediate action to transition to a clean energy market, one that allows us to take advantage of the many different

clean energy sources that our country has to offer.

Some have asked why we need to act on clean energy legislation.

Several of my colleagues this week have eloquently discussed the impacts of carbon pollution. In the West, we are already seeing indications of climate change through warmer winters and drier summers. This is a global challenge that we must address and not ignore. But, irrespective of the impacts of carbon pollution to our communities and environment, clean energy legislation really comes down to two things—our economic and national security.

Clean energy legislation will create millions of new jobs here at home and provide the basis for America's 21st century economy. Clean energy economy legislation will spur innovation in and accelerate the shift to clean and domestic energy sources. It will create a new industrial sector employing millions of Americans in the research, development, manufacture, sale, installation, and servicing of new energy technologies. With the U.S. leading the way, we will sell our new technologies to other countries throughout the world.

Clean energy legislation will also help strengthen our national security. The most obvious reason, of course, is that switching to clean, domestic sources of energy will reduce our dependence on foreign oil by shifting America toward cheaper, cleaner alternative energy sources like natural gas and wind power. Our current economy unfortunately depends on the importation of foreign oil from nations that do not have our best interests at heart, which creates threats to America's national security and puts our troops in harm's way.

Where does this leave us?

We need to jump-start our clean energy economy, and that means we need to invest in the wide range of energy sources that are available now, as well as research and development of future energy sources.

This is not about a silver bullet answer to our energy problems: it is, rather, like silver buckshot.

On the ground, that means we should encourage energy development of new renewable energy sources, find cleaner ways to use traditional energy sources like coal and oil, and expand our use of clean, mature technologies like nuclear and natural gas.

Natural gas, in particular, often does not get the attention that it deserves among our diverse portfolio of clean energy sources.

Natural gas will be the bridge between today's economy and our clean energy future.

It is the cleanest of the fossil fuels and has the lowest greenhouse gas emissions per unit of energy, emitting about half of the CO₂ of coal when burned for electricity generation.

Furthermore, the technology is already being used by utilities across the country. Let me emphasize again—this is mature technology that is already in use across the country to power our homes and businesses.

In fact, natural gas accounts for 24 percent of the energy consumption in this country and approximately 98 percent of U.S. natural gas consumption originates right here in North America, principally from the United States and Canada.

Using natural gas means that we do not have to depend on foreign governments determining the cost of our energy or whether or not we even have access to it. And increasing natural gas production and use means that we are creating jobs and supporting families here at home.

Natural gas is an abundant resource across our country.

In recent years, natural gas production from conventional resources has continued to decline, but production from unconventional resources such as coal beds, tight gas sands, and particularly from natural gas shales has increased.

These are in regions—such as the Northeast—that are not traditionally thought of as gas-producing States. In fact, expanded drilling in tight gas sands and gas shales helped increase total U.S. gas production by about 9 percent in 2008 after a decade of its being roughly constant.

We also have natural gas reserves, particularly off our coasts, that have yet to be fully explored.

Now, let me be clear in that I do not support drilling for gas anywhere and everywhere. I believe certain areas, both on and offshore, should be placed off limits to development.

But we also need to take advantage of this domestic resource and develop some of these resources in an environmentally friendly way. That is why, during consideration of the clean energy bill in the Energy and Natural Resources Committee, I supported Senator DORGAN's efforts to open up the Eastern Gulf of Mexico to development.

Between recent discoveries of new domestic natural gas reserves and untapped reserves offshore, natural gas can continue to be a vital energy source for our country. The latest estimates indicate that we have enough reserves to sustain our current consumption rate for almost 100 years—and that is without new technology development or new reserve discoveries.

It is also important to understand how natural gas interacts with other energy sources, particularly renewable energy, like wind and solar. Many here in the Senate know that I am a strong proponent of a national renewable electricity standard, or RES. Colorado already has a State RES and it has been very successful in both increasing our

use of renewable energy sources and bringing new jobs to our State. However, renewable energy sources alone will not be enough to fulfill our country's energy needs, especially in the short term, and electricity powered by natural gas will play a critical role in adjusting to the variability of renewable energy generation.

We can take these steps to decrease our carbon emissions and promote our domestic energy sources without increased energy costs for consumers. New natural gas combined-cycle plants are competitive with new coal plants. Natural gas plants have lower capital costs and shorter construction times than coal-fired powerplants. For example, the National Academies of Sciences recently released a report "America's Energy Future: Technology and Transformation" as part of a comprehensive look at our energy policy. The report found that, at a price of \$6 per million Btu, natural gas plants have the lowest lifetime cost of electricity of comparable energy source.

While there has been concern in recent years over price fluctuation in the natural gas market, the Energy Information Administration projects that prices will range from \$6 to \$9 per million Btu or lower for natural gas for decades.

Yet natural gas is not just for producing electricity. Clean natural gas is already being used as an alternative fuel for vehicles. Developing a stronger and wider market for natural gas vehicles will reduce our dependency on foreign oil, create jobs, and benefit the environment.

As of 2006, there were about 116,000 compressed natural gas vehicles and about 3,000 liquefied natural gas vehicles in the United States. About two-thirds of these natural gas vehicles are passenger vehicles.

The benefits of creating a natural gas fuel system akin to the current petroleum system would be immediate. Average consumers would save about \$800 in fuel costs by switching to natural gas. And, again, not only is natural gas cheaper for powering vehicles but it would also emit fewer greenhouse gases than gasoline vehicles and natural gas could be produced domestically.

These facts seem almost too good to be true, but they are just that: facts. What we need now is to invest in natural gas and support creating a viable natural gas vehicle industry.

So natural gas—a clean, domestic fuel source that powers mature technology—is already a force in our electricity market and is a growing factor in our transportation system. Yet the current—the bill that the House passed does not include appropriate encouragement for this energy source.

As I work with my colleagues here to pass clean energy legislation this year, I will continue to push for incentives for natural gas powered electricity and

clean natural gas vehicles. America—and Colorado—can become the world leader in clean energy, exporting our expertise, intellectual property, and products worldwide, just as we have done repeatedly throughout our history. With our budding renewable energy industry and strong support for traditional energy sources, Colorado has a tremendous opportunity to lead the clean energy revolution, and I do not want us to miss it. But that means we must take action now and that is why we need to get clean energy legislation passed this year.

ADDITIONAL STATEMENTS

REMEMBERING THOMAS MAROVICH, JR.

• Mrs. BOXER. Mr. President, I ask my colleagues to join me in honoring the life of Thomas M. Marovich, Jr. This brave man lost his life while working to protect Californians from a forest fire.

On July 21, 2009, Thomas Marovich died during a rappel proficiency training exercise while he was assigned as an apprentice with the Chester Helitack Crew fighting the Backbone Fire in Humboldt County. He was 20 years old.

Those who knew Thomas recall that, since childhood, his dream was to become a firefighter. When he was a student at James Logan High School in Union City, he was honored as Student of the Year in the regional fire technology program. Shortly thereafter, he began his firefighting service as a member of the Cadet Program for the Fremont Fire Department at the age of 17 and became an emergency medical technician, EMT, by 18. He was hired on as a firefighter for the Modoc National Forest in the Big Valley Ranger District in Adin, CA, after working as a volunteer while completing basic fire training. In 2008, after two fire seasons, he was hired as a Wildland firefighter apprentice to train for fire management. Thomas is survived by his parents, sister, and three grandparents.

Thomas Marovich, like all those who fight fires across California, put his life on the line to protect our communities. My heart goes out to his family and loved ones and my thoughts and prayers are with them. We are forever indebted to him for his courage, service, and sacrifice.●

COMMENDING WOMEN AIRFORCE SERVICE PILOTS

• Mr. CASEY. Mr. President, today I wish to honor the members of the Women Airforce Service Pilots, WASP, hailing from the Commonwealth of Pennsylvania who have recently received our Nation's highest civilian award—the Congressional Gold Medal.

Joan Frost, Julia Jordan, Ruth Kunkle, Eleanor Lawry, Kristin Lent, Barbara Posey, Florence Reynolds, and Lillian Yonally exemplify hard work, courage, and commitment to their country.

The WASP were the first female pilots in America's Armed Forces. They were stationed at 120 Army air bases across America, from where they flew approximately 60 million miles in less than 2 years and in a variety of aircraft. Over 25,000 women applied to the program, a select 1,800 went through basic training, and 1,074 women graduated.

The contributions of these brave women to the success of the United States in WW II cannot be minimized, and I am truly proud that several of these extraordinary women called Pennsylvania home. To each of these women, I would like to say thank you for your contribution to aviation. By going against convention, you broke important barriers and are the reason why female pilots fly in every type of aircraft and mission, including combat sorties, today.

I am sure that each time a young person sees a black-and-white photo of a young smiling female pilot leaning out the window of her B-26 Marauder, she or he is inspired with a sense of adventure and a desire to discover the joy of flying that the WASP sought and achieved. Therefore, I again congratulate Pennsylvania's eight WASP and WASP nationwide. I wish you all the best as you continue to share your patriotism and courage with your family, friends, and communities.●

COMMENDING WISCONSIN NATIONAL GUARD UNIT

● Mr. KOHL. Mr. President, I proudly rise today to recognize the achievements of the members of 1st Battalion, 128th Infantry, part of Wisconsin's 32nd Infantry Brigade, for its selection as the top battalion in the Army National Guard of the United States. Mr. President, 1st Battalion, 128th Infantry has been selected as the winner of the Walter T. Kerwin Jr. Award for Readiness and Training for 2009. The award is given annually to the Army National Guard unit found to have the highest deployment readiness in the Nation, and I am pleased that the men and women of this Eau Claire-based unit were found to have standards of training and maintenance that exceeded the standards for deployment.

The U.S. Army has selected 2009 to be the "Year of the NCO" to pay tribute to the day-to-day leadership qualities of the noncommissioned officers charged with executing the training and maintenance that make their units function. In the spirit of the "Year of the NCO," I would like to pay a special tribute to the NCOs of 1st Battalion, 128th Infantry, as their leadership

helped make it possible for the unit to achieve the standards that earned them this award.

I had the honor of attending the February send-off ceremony prior to the unit's deployment to Iraq. I consider myself privileged to have attended the ceremony where the State of Wisconsin and the soldiers' families paid tribute to the State's largest National Guard deployment since World War II. The soldiers of 1st Battalion, 128th Infantry spent nearly years training for their mission, and the high standards established during that preparation are now nationally recognized. I applaud the service of the members of the brigade, and I wish them success in their mission to help stabilize Iraq and look forward to their return home next year.●

MESSAGE FROM THE PRESIDENT

A message from the President of the United States was communicated to the Senate by Mr. Pate, one of his secretaries.

EXECUTIVE MESSAGE REFERRED

As in executive session the Presiding Officer laid before the Senate a message from the President of the United States submitting a nomination which was referred to the Committee on Foreign Relations.

(The nomination received today is printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

Under the authority of the order of August 5, 2009, the Acting President pro tempore (Mr. REID) reported that he had signed the following enrolled bills and joint resolutions:

H.R. 774. An act to designate the facility of the United States Postal Service located at 46-02 21st Street in Long Island City, New York, as the "Geraldine Ferraro Post Office Building".

H.R. 987. An act to designate the facility of the United States Postal Service located at 601 8th Street in Freedom, Pennsylvania, as the "John Scott Challis, Jr. Post Office".

H.R. 1271. An act to designate the facility of the United States Postal Service located at 2351 West Atlantic Boulevard in Pompano Beach, Florida, as the "Elijah Pat Larkins Post Office Building".

H.R. 1275. An act to direct the exchange of certain land in Grand, San Juan, and Uintah Counties, Utah, and for other purposes.

H.R. 1397. An act to designate the facility of the United States Postal Service located at 41 Purdy Avenue in Rye, New York, as the "Caroline O'Day Post Office Building".

H.R. 2090. An act to designate the facility of the United States Postal Service located at 431 State Street in Ogdensburg, New York, as the "Frederic Remington Post Office Building".

H.R. 2162. An act to designate the facility of the United States Postal Service located

at 123 11th Avenue South in Nampa, Idaho, as the "Herbert A Littleton Postal Station".

H.R. 2325. An act to designate the facility of the United States Postal Service located at 1300 Matamoros Street in Laredo, Texas, as the "Laredo Veterans Post Office".

H.R. 2422. An act to designate the facility of the United States Postal Service located at 2300 Scenic Drive in Georgetown, Texas, as the "Kile G. West Post Office Building".

H.R. 2470. An act to designate the facility of the United States Postal Service located at 19190 Cochran Boulevard FRNT in Port Charlotte, Florida, as the "Lieutenant Commander Roy H. Boehm Post Office Building".

H.R. 2938. An act to extend the deadline for commencement of construction of a hydroelectric project.

S.J. Res. 19. Joint resolution granting the consent and approval of Congress to amendments made by the State of Maryland, the Commonwealth of Virginia, and the District of Columbia to the Washington Metropolitan Area Transit Regulation Compact.

H.J. Res. 44. Joint resolution recognizing the service, sacrifice, honor, and professionalism of the Noncommissioned Officers of the United States Army.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 1035. An act to amend the Morris K. Udall Scholarship and Excellence in National Environmental and Native American Public Policy Act of 1992 to honor the legacy of Stewart L. Udall, and for other purposes; to the Committee on Environment and Public Works.

H.R. 2093. An act to amend the Federal Water Pollution Control Act relating to beach monitoring, and for other purposes; to the Committee on Environment and Public Works.

H.R. 2913. An act to designate the United States courthouse located at 301 Simonton Street in Key West, Florida, as the "Sidney M. Aronovitz United States Courthouse"; to the Committee on Environment and Public Works.

ENROLLED JOINT RESOLUTION PRESENTED

The Secretary of the Senate reported that on today, August 7, 2009, she had presented to the President of the United States the following enrolled joint resolution:

S.J. Res. 19. Joint resolution granting the consent and approval of Congress to amendments made by the State of Maryland, the Commonwealth of Virginia, and the District of Columbia to the Washington Metropolitan Area Transit Regulation Compact.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. REED:

S. 1646. A bill to keep Americans working by strengthening and expanding short-time compensation programs that provide employers with an alternative to layoffs; to the Committee on Finance.

By Mr. REED (for himself, Mr. DURBIN, Mr. SCHUMER, Mrs. BOXER, Mr. LAUTENBERG, Mr. LEVIN, Ms. STABENOW, Mr. WHITEHOUSE, Mr. KERRY, Mr. MENENDEZ, Mr. CARDIN, Mr. BROWN, Mr. BEGICH, Mr. BURRIS, and Mr. FRANKEN):

S. 1647. A bill to provide for additional emergency unemployment compensation, and for other purposes; to the Committee on Finance.

By Mr. FEINGOLD (for himself and Mr. MCCAIN):

S. 1648. A bill to amend the Federal Election Campaign Act of 1971 to replace the Federal Election Commission with the Federal Election Administration, and for other purposes; to the Committee on Rules and Administration.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mrs. GILLIBRAND (for herself, Mr. CARDIN, Ms. COLLINS, Mr. KERRY, Mrs. BOXER, Mrs. FEINSTEIN, Mrs. SHAHEEN, Mr. LUGAR, Ms. LANDRIEU, Mr. LAUTENBERG, and Mr. BEGICH):

S. Res. 251. A resolution expressing the sense of the Senate that the Government of Afghanistan, with the support of the international community, should fulfill its obligations to ensure that women fully participate as candidates and voters in the August 20, 2009, presidential and provincial council elections in Afghanistan; considered and agreed to.

By Mr. REID (for himself and Mr. MCCONNELL):

S. Res. 252. A resolution authorizing the taking of a photograph in the Chamber in the United States Senate; considered and agreed to.

ADDITIONAL COSPONSORS

S. 144

At the request of Mr. KERRY, the name of the Senator from New Mexico (Mr. UDALL) was added as a cosponsor of S. 144, a bill to amend the Internal Revenue Code of 1986 to remove cell phones from listed property under section 280F.

S. 245

At the request of Mr. KOHL, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 245, a bill to expand, train, and support all sectors of the health care workforce to care for the growing population of older individuals in the United States.

S. 435

At the request of Mr. CASEY, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 435, a bill to provide for evidence-based and promising practices related to juvenile delinquency and criminal street gang activity prevention and intervention to help build individual, family, and community strength and resiliency to ensure that youth lead productive, safe, healthy, gang-free, and law-abiding lives.

S. 588

At the request of Mr. KERRY, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of S. 588, a bill to amend title 46, United States Code, to establish requirements to ensure the security and safety of passengers and crew on cruise vessels, and for other purposes.

S. 628

At the request of Mr. CONRAD, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 628, a bill to provide incentives to physicians to practice in rural and medically underserved communities.

S. 686

At the request of Ms. MIKULSKI, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 686, a bill to establish the Social Work Reinvestment Commission to advise Congress and the Secretary of Health and Human Services on policy issues associated with the profession of social work, to authorize the Secretary to make grants to support recruitment for, and retention, research, and reinvestment in, the profession, and for other purposes.

S. 690

At the request of Mr. CARDIN, the name of the Senator from Illinois (Mr. BURRIS) was added as a cosponsor of S. 690, a bill to amend the Neotropical Migratory Bird Conservation Act to reauthorize the Act.

S. 694

At the request of Mr. SPECTER, his name was added as a cosponsor of S. 694, a bill to provide assistance to Best Buddies to support the expansion and development of mentoring programs, and for other purposes.

S. 818

At the request of Mr. BINGAMAN, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 818, a bill to reauthorize the Enhancing Education Through Technology Act of 2001, and for other purposes.

S. 841

At the request of Mr. KERRY, the name of the Senator from Kansas (Mr. BROWNBACK) was added as a cosponsor of S. 841, a bill to direct the Secretary of Transportation to study and establish a motor vehicle safety standard that provides for a means of alerting blind and other pedestrians of motor vehicle operation.

S. 883

At the request of Mr. THUNE, his name was added as a cosponsor of S. 883, a bill to require the Secretary of the Treasury to mint coins in recognition and celebration of the establishment of the Medal of Honor in 1861, America's highest award for valor in action against an enemy force which can be bestowed upon an individual serving in the Armed Services of the United States, to honor the American

military men and women who have been recipients of the Medal of Honor, and to promote awareness of what the Medal of Honor represents and how ordinary Americans, through courage, sacrifice, selfless service and patriotism, can challenge fate and change the course of history.

S. 1002

At the request of Mr. CASEY, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 1002, a bill to provide for the acquisition, construction, renovation, and improvement of child care facilities, and for other purposes.

S. 1051

At the request of Mr. CASEY, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 1051, a bill to establish the Centennial Historic District in the Commonwealth of Pennsylvania.

S. 1052

At the request of Mr. CONRAD, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of S. 1052, a bill to amend the small, rural school achievement program and the rural and low-income school program under part B of title VI of the Elementary and Secondary Education Act of 1965.

S. 1156

At the request of Mr. HARKIN, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 1156, a bill to amend the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users to reauthorize and improve the safe routes to school program.

S. 1244

At the request of Mr. MERKLEY, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 1244, a bill to amend the Civil Rights Act of 1964 to protect breastfeeding by new mothers, to provide for a performance standard for breast pumps, and to provide tax incentives to encourage breastfeeding.

S. 1282

At the request of Mr. BROWNBACK, the name of the Senator from Alabama (Mr. SESSIONS) was added as a cosponsor of S. 1282, a bill to establish a Commission on Congressional Budgetary Accountability and Review of Federal Agencies.

S. 1401

At the request of Mr. MARTINEZ, the name of the Senator from Oklahoma (Mr. COBURN) was added as a cosponsor of S. 1401, a bill to provide for the award of a gold medal on behalf of Congress to Arnold Palmer in recognition of his service to the Nation in promoting excellence and good sportsmanship in golf.

S. 1422

At the request of Mr. GRASSLEY, his name was added as a cosponsor of S.

1422, a bill to amend the Family and Medical Leave Act of 1993 to clarify the eligibility requirements with respect to airline flight crews.

S. 1516

At the request of Mr. FEINGOLD, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 1516, a bill to secure the Federal voting rights of persons who have been released from incarceration.

S. 1569

At the request of Ms. STABENOW, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 1569, a bill to expand our Nation's Advanced Practice Registered Nurse workforce.

S. 1611

At the request of Mr. JOHANNIS, his name was added as a cosponsor of S. 1611, a bill to provide collective bargaining rights for public safety officers employed by States or their political subdivisions.

S. 1634

At the request of Mr. ROCKEFELLER, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 1634, a bill to amend titles XVIII and XIX of the Social Security Act to protect and improve the benefits provided to dual eligible individuals under the Medicare and Medicaid programs.

S.J. RES. 16

At the request of Mr. GRASSLEY, his name was added as a cosponsor of S.J. Res. 16, a joint resolution proposing an amendment to the Constitution of the United States relative to parental rights.

S. RES. 247

At the request of Mr. WHITEHOUSE, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. Res. 247, a resolution designating September 26, 2009, as "National Estuaries Day".

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REED:

S. 1646. A bill to keep Americans working by strengthening and expanding short-time compensation programs that provide employers with an alternative to layoffs; to the Committee on Finance.

Mr. REED. Mr. President, today I am introducing the Keep Americans Working Act, legislation to strengthen and expand work share programs to keep Americans working and provide employers with an alternative to layoffs.

This legislation allows employers to reduce the hours of their workers for some period of time and for the workers to receive proportionate unemployment benefits for those reduced hours to lessen the impact on them and their families.

While 17 States, including Rhode Island, are using their resources to pro-

vide work share, these programs remain largely underutilized. Indeed, work share is simply not available in $\frac{1}{3}$ of States.

In Rhode Island, the number of employees participating in the program has more than tripled this past year to 8,000 workers, in comparison to the year prior. It has also been highly successful. For instance, I recently visited Hope Global in Cumberland, Rhode Island, which has participated in Rhode Island's WorkShare program. At this company, I listened to an employee who worked there with her husband, and they benefitted from this program. She said, point blank: Without it, we would have lost our health care and we would have lost our home.

Other states with work share programs have also experienced an extraordinary increase in participation.

But given Rhode Island's 12.4 percent unemployment rate—the second highest in the country—we can stem even more job loss with this legislation. Specifically, the Keep Americans Working Act provides states with temporary federal financing for 100 percent of work share benefits paid to workers for up to 26 weeks. Employers have to certify that maintenance of health and retirement benefits is not affected by participation in the program. This financing program is available for 2 years.

It also includes important limitations to ensure that taxpayer dollars are provided only when appropriate safeguards are in place. To hold employers accountable, states can assess penalties on employers that break the rules, including those who do not act in good faith to retain participating employees. In addition, to aid States in this effort, the Department of Labor would establish an oversight and monitoring process for state agencies to ensure that participating employers comply with the terms of the written plan approved by the state agency.

Given that State labor agencies are already doing more with less, this legislation also provides for administrative funding, and for those States that are trying to get work share programs off the ground, it provides start-up grants.

It is a win-win for all.

First, work share helps speed economic recovery. Economist Mark Zandi estimates that temporary financing of work share offers a very high "bang for the buck" of \$1.69. That is, every \$1 devoted to finance State work share programs results in \$1.69 in real GDP.

Secondly, work share allows businesses to retain skilled workers, temporarily cut costs, and maintain employee morale.

Thirdly, it keeps people working with their health insurance and retirement benefits. This means parents can continue to pay their mortgages and their bills and provide for their families.

This legislation will help stem the tide of joblessness, providing workers, businesses, and communities with the resources to stay afloat while we work our way through these tough economic times.

I urge my colleagues to join me in supporting this important legislation.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1646

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Keep Americans Working Act".

SEC. 2. PURPOSE.

The purpose of this Act is to keep Americans working by strengthening and expanding short-time compensation programs that provide employers with an alternative to layoffs.

SEC. 3. TREATMENT OF SHORT-TIME COMPENSATION PROGRAMS.

(a) IN GENERAL.—Section 3306 of the Internal Revenue Code of 1986 is amended by adding at the end the following new subsection:

"(v) SHORT-TIME COMPENSATION PROGRAM.—For purposes of this chapter, the term 'short-time compensation program' means a program under which—

"(1) the participation of an employer is voluntary;

"(2) an employer reduces the number of hours worked by employees through certifying that such reductions are in lieu of temporary layoffs;

"(3) such employees whose workweeks have been reduced by at least 10 percent are eligible for unemployment compensation;

"(4) the amount of unemployment compensation payable to any such employee is a pro rata portion of the unemployment compensation which would be payable to the employee if such employee were totally unemployed;

"(5) such employees are not expected to meet the availability for work or work search test requirements while collecting short-time compensation benefits, but are required to be available for their normal workweek;

"(6) eligible employees may participate in an employer-sponsored training program to enhance job skills if such program has been approved by the State agency;

"(7) beginning on the date which is 2 years after the date of enactment of this subsection, the State agency shall require an employer to certify that continuation of health benefits and retirement benefits under a defined benefit pension plan (as defined in section 3(35) of the Employee Retirement Income Security Act of 1974) is not affected by participation in the program;

"(8) the State agency shall require an employer (or an employer's association which is party to a collective bargaining agreement) to submit a written plan describing the manner in which the requirements of this subsection will be implemented and containing such other information as the Secretary of Labor determines is appropriate;

"(9) in the case of employees represented by a union, the appropriate official of the

union has agreed to the terms of the employer's written plan and implementation is consistent with employer obligations under the National Labor Relations Act; and

"(10) the program meets such other requirements as the Secretary of Labor determines appropriate."

(b) ASSISTANCE AND GUIDANCE IN IMPLEMENTING PROGRAMS.—

(1) ASSISTANCE AND GUIDANCE.—

(A) IN GENERAL.—In order to assist States in establishing, qualifying, and implementing short-time compensation programs, as defined in section 3306(v) of the Internal Revenue Code of 1986 (as added by subsection (a)), the Secretary of Labor (in this section referred to as the "Secretary") shall—

(i) develop model legislative language which may be used by States in developing and enacting short-time compensation programs and shall periodically review and revise such model legislative language;

(ii) provide technical assistance and guidance in developing, enacting, and implementing such programs;

(iii) establish biannual reporting requirements for States, including number of averted layoffs, number of participating companies and workers, and retention of employees following participation; and

(iv) award start-up grants to State agencies under subparagraph (B).

(B) GRANTS.—

(i) IN GENERAL.—The Secretary shall award start-up grants to State agencies that apply not later than September 30, 2010, in States that enact short-time compensation programs after the date of enactment of this Act for the purpose of creating such programs. The amount of such grants shall be awarded depending on the costs of implementing such programs.

(ii) ELIGIBILITY.—In order to receive a grant under clause (i) a State agency shall meet requirements established by the Secretary, including any reporting requirements under clause (iii). Each State agency shall be eligible to receive not more than one such grant.

(iii) REPORTING.—The Secretary may establish reporting requirements for State agencies receiving a grant under clause (i) in order to provide oversight of grant funds used by States for the creation of short-time compensation programs.

(iv) FUNDING.—There are appropriated, out of any moneys in the Treasury not otherwise appropriated, to the Secretary, such sums as the Secretary certifies as necessary for the period of fiscal years 2010 and 2011 to carry out this subparagraph.

(2) TIMEFRAME.—The initial model legislative language referred to in paragraph (1)(A) shall be developed not later than 60 days after the date of enactment of this Act.

(c) REPORTS.—

(1) INITIAL REPORT.—Not later than 4 years after the date of enactment of this Act, the Secretary shall submit to Congress and to the President a report or reports on the implementation of this section. Such report or reports shall include—

(A) a study of short-time compensation programs;

(B) an analysis of the significant impediments to State enactment and creation of such programs; and

(C) such recommendations as the Secretary determines appropriate.

(2) SUBSEQUENT REPORTS.—After the submission of the report under paragraph (1), the Secretary may submit such additional reports on the implementation of short-time compensation programs as the Secretary deems appropriate.

(3) FUNDING.—There are appropriated, out of any moneys in the Treasury not otherwise appropriated, to the Secretary, \$1,500,000 to carry out this subsection, to remain available without fiscal year limitation.

(d) CONFORMING AMENDMENTS.—

(1) INTERNAL REVENUE CODE OF 1986.—

(A) Subparagraph (E) of section 3304(a)(4) of the Internal Revenue Code of 1986 is amended to read as follows:

"(E) amounts may be withdrawn for the payment of short-time compensation under a short-time compensation program (as defined in section 3306(v));"

(B) Subsection (f) of section 3306 of the Internal Revenue Code of 1986 is amended—

(i) by striking paragraph (5) (relating to short-term compensation) and inserting the following new paragraph:

"(5) amounts may be withdrawn for the payment of short-time compensation under a short-time compensation program (as defined in subsection (v));", and

(ii) by redesignating paragraph (5) (relating to self-employment assistance program) as paragraph (6).

(2) SOCIAL SECURITY ACT.—Section 303(a)(5) of the Social Security Act is amended by striking "the payment of short-time compensation under a plan approved by the Secretary of Labor" and inserting "the payment of short-time compensation under a short-time compensation program (as defined in section 3306(v) of the Internal Revenue Code of 1986)".

(3) REPEAL.—Subsections (b) through (d) of section 401 of the Unemployment Compensation Amendments of 1992 (26 U.S.C. 3304 note) are repealed.

(e) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of enactment of this Act.

SEC. 4. TEMPORARY FINANCING OF CERTAIN SHORT-TIME COMPENSATION PROGRAMS.

(a) PAYMENTS TO STATES WITH CERTIFIED PROGRAMS.—

(1) IN GENERAL.—Not later than 30 days after the date of enactment of this Act, the Secretary shall establish a program under which the Secretary shall make payments to any State unemployment trust fund to be used for the payment of unemployment compensation if the Secretary approves an application for certification submitted under paragraph (3) for such State to operate a short-time compensation program (as defined in section 3306(v) of the Internal Revenue Code of 1986 (as added by section 3(a))) which requires the maintenance of health and retirement employee benefits as described in paragraph (7) of such section 3306(v), notwithstanding the otherwise effective date of such requirement.

(2) FULL REIMBURSEMENT.—Subject to subsection (d), the payment to a State under paragraph (1) shall be an amount equal to 100 percent of the total amount of benefits paid to individuals by the State pursuant to the short-time compensation program during the period—

(A) beginning on the date a certification is issued by the Secretary with respect to such program; and

(B) ending on September 30, 2011.

(3) CERTIFICATION REQUIREMENTS.—

(A) IN GENERAL.—Any State seeking full reimbursement under this subsection shall submit an application for certification at such time, in such manner, and complete with such information as the Secretary may require (whether by regulation or otherwise), including information relating to compliance with the requirements of paragraph (7)

of such section 3306(v). The Secretary shall, within 30 days after receiving a complete application, notify the State agency of the State of the Secretary's findings with respect to the requirements of such paragraph (7).

(B) FINDINGS.—If the Secretary finds that the short-time compensation program operated by the State meets the requirements of such paragraph (7), the Secretary shall certify such State's short-time compensation program thereby making such State eligible for full reimbursement under this subsection.

(b) TIMING OF APPLICATION SUBMITTALS.—No application under subsection (a)(3) may be considered if submitted before the date of enactment of this Act or after the latest date necessary (as specified by the Secretary) to ensure that all payments under this section are made before September 30, 2011.

(c) TERMS OF PAYMENTS.—Payments made to a State under subsection (a)(1) shall be payable by way of reimbursement in such amounts as the Secretary estimates the State will be entitled to receive under this section for each calendar month, reduced or increased, as the case may be, by any amount by which the Secretary finds that the Secretary's estimates for any prior calendar month were greater or less than the amounts which should have been paid to the State. Such estimates may be made on the basis of such statistical, sampling, or other method as may be agreed upon by the Secretary and the State agency of the State involved.

(d) LIMITATIONS.—

(1) GENERAL PAYMENT LIMITATIONS.—No payments shall be made to a State under this section for benefits paid to an individual by the State pursuant to a short-time compensation program that are in excess of 26 weeks of benefits.

(2) EMPLOYER LIMITATIONS.—No payments shall be made to a State under this section for benefits paid to an individual by the State pursuant to a short-time compensation program if such individual is employed by an employer—

(A) whose workforce during the 3 months preceding the date of the submission of the employer's short-time compensation plan has been reduced by temporary layoffs of more than 20 percent;

(B) on a seasonal, temporary, or intermittent basis; or

(C) engaged in a labor dispute.

(3) PROGRAM PAYMENT LIMITATION.—In making any payments to a State under this section pursuant to a short-time compensation program, the Secretary may limit the frequency of employer participation in such program.

(e) CHARGING RULE.—Under a short-time compensation program reimbursed under this section, a State may require short-time compensation benefits paid to an individual to be charged to a participating employer regardless of the base period charging rule.

(f) RETENTION REQUIREMENT.—

(1) IN GENERAL.—A participating employer under this section is required to comply with the terms of the written plan approved by the State agency and act in good faith to retain participating employees, and the State shall, in the event of any violation, require such employer to repay to the State a sum based on the amount expended by the State under the program as a result of that violation.

(2) OVERSIGHT AND MONITORING.—The Secretary shall establish an oversight and monitoring process by regulation by which State

agencies will ensure that participating employers comply with the requirements of paragraph (1).

(3) **PENALTY REMITTANCE.**—In the case of any State which receives reimbursement under this section, if such State determines that a violation of paragraph (1) has occurred, the State shall transfer an appropriate amount to the United States of the repayment the State required of the employer pursuant to such paragraph.

(g) **FUNDING.**—There are appropriated, from time to time, out of any moneys in the Treasury not otherwise appropriated, to the Secretary, such sums as the Secretary certifies are necessary to carry out this section (including to reimburse any additional administrative expenses incurred by the States in operating such short-time compensation programs).

(h) **DEFINITION OF STATE.**—In this section, the term “State” includes the District of Columbia, the Commonwealth of Puerto Rico, and the Virgin Islands.

By Mr. REED (for himself, Mr. DURBIN, Mr. SCHUMER, Mrs. BOXER, Mr. LAUTENBERG, Mr. LEVIN, Ms. STABENOW, Mr. WHITEHOUSE, Mr. KERRY, Mr. MENENDEZ, Mr. CARDIN, Mr. BROWN, Mr. BEGICH, Mr. BURRIS, and Mr. FRANKEN):

S. 1647. A bill to provide for additional emergency unemployment compensation, and for other purposes; to the Committee on Finance.

Mr. REED. Mr. President, today I am introducing the Assistance for Unemployed Workers Extension Act, legislation to extend unemployment insurance benefits so people can pay their bills while they look for work. These benefits are set to expire at the end of this year. I am joined in introducing this critical legislation by Senators DURBIN, SCHUMER, BOXER, LAUTENBERG, LEVIN, STABENOW, WHITEHOUSE, KERRY, MENENDEZ, CARDIN, BROWN, BEGICH, BURRIS, and FRANKEN.

Last fall, I authored the law that provided additional weeks of unemployment insurance for individuals exhausting their benefits. Among other provisions to help stimulate the economy, create jobs, and help the unemployed, the American Recovery and Reinvestment Act extended the termination dates of these unemployment benefits.

Yet, as jobs have become scarcer, we need to do more. My legislation will continue several current-law unemployment compensation programs through 2010.

In addition, it also provides help to those who are getting stuck on unemployment for long periods. Indeed, there is only roughly one job opening for every five job seekers.

The Assistance for Unemployed Workers Extension Act provides 13 additional weeks of unemployment insurance for states like Rhode Island, South Carolina, Oregon, California, Ohio, Michigan, and Georgia as well as other states which have an unemployment rate at or above 8.5 percent.

Without this legislation, over half a million workers are expected to exhaust their benefits by the end of September, and another 1.5 million are estimated to run out of coverage by the end of the year. This is an extraordinary number of Americans that will face life without a paycheck or an unemployment check during the worst economy since the Great Depression.

While all states are suffering during these very difficult times, my own State of Rhode Island has been hit especially hard, saddled with the second highest unemployment rate and a recession that hit earlier than in any other State.

More than 1,500 Rhode Islanders have exhausted their unemployment insurance benefits this year. By November, another 3,300 unemployed Rhode Islanders will also exhaust their benefits. This is about 150 people each week.

Providing basic support for those who are out-of-work through no fault of their own assures Americans can provide for their families and keep a roof over their heads, stemming the tide of foreclosures and the deterioration of neighborhoods.

As has been the case with past extensions, I look forward to working on a bipartisan basis to pass this legislation. It is critical that we provide help to the growing ranks of the unemployed.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1647

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Assistance for Unemployed Workers Extension Act”.

SEC. 2. EXTENSION OF EMERGENCY UNEMPLOYMENT COMPENSATION PROGRAM.

(a) **IN GENERAL.**—Section 4007 of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 26 U.S.C. 3304 note), as amended by section 4 of the Unemployment Compensation Extension Act of 2008 (Public Law 110-449; 122 Stat. 5015) and section 2001(a) of the Assistance for Unemployed Workers and Struggling Families Act (Public Law 111-5; 123 Stat. 436), is amended—

(1) by striking “December 31, 2009” each place it appears and inserting “December 31, 2010”;

(2) in the heading for subsection (b)(2), by striking “DECEMBER 31, 2009” and inserting “DECEMBER 31, 2010”;

(3) in subsection (b)(3), by striking “May 31, 2010” and inserting “May 31, 2011”.

(b) **FINANCING PROVISIONS.**—Section 4004(e)(1) of such Act, as added by section 2001(b) of the Assistance for Unemployed Workers and Struggling Families Act (Public Law 111-5; 26 U.S.C. 3304 note), is amended by inserting “and section 2(a) of the Assistance for Unemployed Workers Extension Act” after “Act”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall take effect as if

included in the enactment of the Supplemental Appropriations Act, 2008.

SEC. 3. EXTENSION OF INCREASE IN UNEMPLOYMENT COMPENSATION BENEFITS.

(a) **IN GENERAL.**—Section 2002(e) of the Assistance for Unemployed Workers and Struggling Families Act (Public Law 111-5; 123 Stat. 438) is amended—

(1) in paragraph (1)(B), by striking “January 1, 2010” and inserting “January 1, 2011”;

(2) in the heading for paragraph (2), by striking “JANUARY 1, 2010” and inserting “JANUARY 1, 2011”;

(3) in paragraph (3), by striking “June 30, 2010” and inserting “June 30, 2011”.

(b) **EFFECTIVE DATE.**—The amendments made by this section shall take effect as if included in the enactment of the Assistance for Unemployed Workers and Struggling Families Act.

SEC. 4. THIRD-TIER BENEFITS.

(a) **IN GENERAL.**—Section 4002 of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 26 U.S.C. 3304 note), as amended by section 3 of the Unemployment Compensation Extension Act of 2008 (Public Law 110-449; 122 Stat. 5014), is amended by adding at the end the following new subsection:

“(d) **THIRD TIER OF BENEFITS.**—

“(1) **IN GENERAL.**—If, at the time that the amount added to an individual’s account under subsection (c)(1) (in this subsection referred to as ‘additional emergency unemployment compensation’) is exhausted or at any time thereafter, such individual’s State is in an extended benefit period (as determined under paragraph (2)), such account shall be further augmented by an amount (in this subsection referred to as ‘further additional emergency unemployment compensation’) equal to the lesser of—

“(A) 50 percent of the total amount of regular compensation (including dependents’ allowances) payable to the individual during the individual’s benefit year under the State law; or

“(B) 13 times the individual’s average weekly benefit amount (as determined under subsection (b)(2)) for the benefit year.

“(2) **EXTENDED BENEFIT PERIOD.**—For purposes of paragraph (1), a State shall be considered to be in an extended benefit period, as of any given time, if—

“(A) such a period would then be in effect for such State under the Federal-State Extended Unemployment Compensation Act of 1970 if section 203(d) of such Act—

“(i) were applied by substituting ‘6’ for ‘5’ each place it appears; and

“(ii) did not include the requirement under paragraph (1)(A) thereof; or

“(B) such a period would then be in effect for such State under such Act if—

“(i) section 203(f) of such Act were applied to such State (regardless of whether the State by law had provided for such application); and

“(ii) such section 203(f)—

“(I) were applied by substituting ‘8.5’ for ‘6.5’ in paragraph (1)(A)(i) thereof; and

“(II) did not include the requirement under paragraph (1)(A)(ii) thereof.

“(3) **COORDINATION RULE.**—Notwithstanding an election under section 4001(e) by a State to provide for the payment of emergency unemployment compensation prior to extended compensation, such State may pay extended compensation to an otherwise eligible individual prior to any further additional emergency unemployment compensation, if such individual claimed extended compensation for at least 1 week of unemployment after the exhaustion of additional emergency unemployment compensation.

“(4) LIMITATION.—The account of an individual may be augmented not more than once under this subsection.”.

(b) CONFORMING AMENDMENTS.—Section 4007(b)(2) of such Act, as amended by section 3, is amended—

(1) by striking “then section 4002(c)” and inserting “then subsections (c) and (d) of section 4002”; and

(2) by striking “paragraph (2) of such section” and inserting “paragraph (2) of such subsection (c) or (d) (as the case may be)”.’.

(c) EFFECTIVE DATE.—

(1) IN GENERAL.—Subject to paragraph (2), the amendments made by this section shall take effect as if included in the enactment of the Supplemental Appropriations Act, 2008.

(2) ADDITIONAL BENEFITS.—In applying the amendments made by this section, any additional emergency unemployment compensation made payable by such amendment (which would not otherwise have been payable if such amendment had not been enacted) shall be payable only with respect to any week of unemployment beginning on or after the date of the enactment of this Act.

SEC. 5. EXTENSION OF FULL FEDERAL FUNDING OF EXTENDED UNEMPLOYMENT COMPENSATION FOR A LIMITED PERIOD.

(a) IN GENERAL.—Section 2005 of the Assistance for Unemployed Workers and Struggling Families Act (Public Law 111-5; 26 U.S.C. 3304 note) is amended—

(1) by striking “January 1, 2010” each place it appears and inserting “January 1, 2011”; and

(2) in subsection (c), by striking “June 1, 2010” and inserting “June 1, 2011”.

(b) EXTENSION OF TEMPORARY FEDERAL MATCHING FOR THE FIRST WEEK OF EXTENDED BENEFITS FOR STATES WITH NO WAITING WEEK.—Section 5 of the Unemployment Compensation Extension Act of 2008 (Public Law 110-449; 26 U.S.C. 3304 note), as amended by section 2005(d) of the Assistance for Unemployed Workers and Struggling Families Act (Public Law 111-5; 26 U.S.C. 3304 note), is amended by striking “May 30, 2010” and inserting “May 30, 2011”.

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—The amendments made by subsection (a) shall take effect as if included in the enactment of the Assistance for Unemployed Workers and Struggling Families Act.

(2) FIRST WEEK.—The amendment made by subsection (b) shall take effect as if included in the enactment of the Unemployment Compensation Extension Act of 2008.

SEC. 6. ADDITIONAL EXTENDED UNEMPLOYMENT BENEFITS UNDER THE RAILROAD UNEMPLOYMENT INSURANCE ACT.

(a) BENEFITS.—Section 2(c)(2)(D) of the Railroad Unemployment Insurance Act, as added by section 2006 of the Assistance for Unemployed Workers and Struggling Families Act (Public Law 111-5; 123 Stat. 445), is amended—

(1) in clause (iii)—

(A) by striking “June 30, 2009” and inserting “June 30, 2010”; and

(B) by striking “December 31, 2009” and inserting “December 31, 2010”; and

(2) by adding at the end of clause (iv) the following: “In addition to the amount appropriated by the preceding sentence, out of any funds in the Treasury not otherwise appropriated, there are appropriated \$175,000,000 to cover the cost of additional extended unemployment benefits provided under this subparagraph, to remain available until expended.”.

(b) ADMINISTRATIVE EXPENSES.—Section 2006(b) of the Assistance for Unemployed

Workers and Struggling Families Act (Public Law 111-5; 123 Stat. 445) is amended by adding at the end the following: “In addition to funds appropriated by the preceding sentence, out of any funds in the Treasury not otherwise appropriated, there are appropriated to the Railroad Retirement Board \$807,000 to cover the administrative expenses associated with the payment of additional extended unemployment benefits under section 2(c)(2)(D) of the Railroad Unemployment Insurance Act, to remain available until expended.”.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect as if included in the enactment of the Assistance for Unemployed Workers and Struggling Families Act.

By Mr. FEINGOLD (for himself and Mr. MCCAIN):

S. 1648. A bill to amend the Federal Election Campaign Act of 1971 to replace the Federal Election Commission with the Federal Election Administration, and for other purposes; to the Committee on Rules and Administration.

Mr. FEINGOLD. Mr. President, I am pleased to join with my partner in reform, the senior Senator from Arizona, to introduce the Federal Election Administration Act of 2009. Americans naturally expect that elections in this country will be honest, fair, and above all, lawful. That is the purpose of the Federal Election Commission, yet the FEC’s willingness to enforce the law has gone from bad to worse. Now more than ever, the health of our democracy depends on whether Congress will take decisive action to fix this unpardonably broken agency.

Senator MCCAIN and I originally introduced this bill in 2003, after giving the FEC a fair chance to implement the Bipartisan Campaign Reform Act, or BCRA. Despite our very best efforts and those of our House sponsors, Representatives SHAYS and MEEHAN, the FEC opened new loopholes rather than trying to faithfully discern the intent of the law. It acted as an unelected legislature, substituting its policy judgments for those of Congress.

This is not my personal judgment. This is the judgment of the United States Court of Appeals for the D.C. Circuit, which has struck down over twenty of the FEC’s implementing regulations as arbitrary and capricious or directly contrary to the will of Congress. In its most recent opinion in 2008, the court was merciless in its criticism of the FEC. It said some of the FEC’s arguments were “absurd”, or “fl[y] in the face of common sense”; or “disregard[] everything Congress, the Supreme Court, and this court have said about campaign finance regulation”; or “ignore[] both history and human nature.” It said that one regulation “provides a clear roadmap” for using soft money in connection with federal elections, “directly frustrating BCRA’s purpose.” It said that the rule “would lead to the exact perception

and possibility of corruption Congress sought to stamp out in BCRA.” This is not language that the American people should ever hear from a court about a law enforcement agency.

The situation has only gotten worse. Earlier this year, the FEC blew a hole through the Honest Leadership and Open Government Act of 2007, issuing a regulation that allows lobbyists to hide the bundling of campaign contributions that the law was designed to make public. The FEC disregarded clear and deliberate statements of congressional intent, not only from me but from then-Senator Barack Obama.

Those laws that the FEC cannot regulate out of existence, it smothers with inaction. During the first six months of 2008, the FEC was effectively closed for business because President Bush insisted on standing behind a nominee, Hans Von Spakovsky, whom the Senate would not confirm. We were in the middle of a presidential election year, with no enforcement of federal election law. That deadlock was broken when Mr. Von Spakovsky’s nomination was finally withdrawn and four new Commissioners and one holdover Commissioner were confirmed in July 2008.

But the cure turned out to be worse than the disease. In the words of *The Washington Post*: “What’s worse than a federal agency that lacks the quorum of commissioners necessary to act on a matter? Answer: An agency that has a quorum in place but is paralyzed from acting anyway because it is deadlocked along party lines.”

The whole point of having six commissioners, three Democrats and three Republicans, was to protect against partisan enforcement of the election laws. But over the past year we’ve seen election laws enforced against neither party. In well over a dozen cases, whether the likely lawbreaker was linked to George Soros or Mitt Romney, a 3-to-3 deadlock has prevented the FEC professional staff from doing their job. Even admitted offenders have been let off the hook: On at least two occasions, the FEC declined to collect fines that election law violators had already agreed to pay. That’s like a district attorney tearing up a criminal’s plea bargain.

It gives me no pleasure to say this, but enough is enough. The current structure of the FEC cannot meet the challenges of enforcing our election laws in the 21st century. In this bill, we replace the FEC with a new agency, the Federal Election Administration. The FEA will be helmed by three members instead of six, so that there is always a tiebreaker and we stop seeing perpetual deadlock. The Chair will have a ten-year term to encourage independence. The other two members will have staggered six-year terms. Our hope is that this new agency will not be the captive of the political parties, but instead, led by a strong and independent

Chair, will be the trustworthy law enforcement agency that the American people want to see.

To that end, we have followed the model of more effective regulatory agencies such as the EPA, the NLRB, and the SEC. The FEA will have a corps of Administrative Law Judges to adjudicate complaints that the Administration's professional staff will bring. The new agency will have the power to determine violations of our election laws and to assess penalties subject, of course, to judicial review.

Americans want our democratically enacted laws to be enforced, as a matter of public good and public trust. If the EPA doesn't enforce pollution laws, our drinking water gets poisoned. If the SEC doesn't enforce the securities laws, our economy gets poisoned. If the FEC does not enforce election laws, our democracy gets poisoned.

The new Federal Election Administration will ensure that our democracy remains healthy, strong, and fair. I want to thank my friend Senator MCCAIN for all of his work on campaign finance and other reform issues for well over a decade, and I look forward to working closely with him again to pass this bill.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1648

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Federal Election Administration Act of 2009".

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—FEDERAL ELECTION ADMINISTRATION

Sec. 101. Establishment of the Federal Election Administration.

Sec. 102. Executive schedule positions.

Sec. 103. GAO examination of enforcement of campaign finance laws by the Department of Justice.

Sec. 104. GAO study and report on appropriate funding levels.

Sec. 105. Conforming amendments.

Sec. 106. Authorization of appropriations.

TITLE II—TRANSITION PROVISIONS

Sec. 201. Transfer of functions of Federal Election Commission.

Sec. 202. Transfer of property, records, and personnel.

Sec. 203. Repeals.

Sec. 204. Conforming amendments.

Sec. 205. Effective date.

TITLE I—FEDERAL ELECTION ADMINISTRATION

SEC. 101. ESTABLISHMENT OF THE FEDERAL ELECTION ADMINISTRATION.

(a) IN GENERAL.—Title III of the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) is amended by adding at the end the following new subtitle:

"Subtitle B—Administrative Provisions

"CHAPTER 1—ESTABLISHMENT OF THE FEDERAL ELECTION ADMINISTRATION

"SEC. 351. ESTABLISHMENT OF THE FEDERAL ELECTION ADMINISTRATION.

"(a) IN GENERAL.—There is established the Federal Election Administration (in this Act referred to as the 'Administration').

"(b) INDEPENDENT ESTABLISHMENT.—The Administration shall be an independent establishment (as defined in section 104 of title 5, United States Code).

"(c) PURPOSE.—The Administration shall administer, seek to obtain compliance with, enforce, and formulate policy in a manner that is consistent with the language and intent of Congress with respect to the following statutes:

"(1) This Act.

"(2) The Presidential Election Campaign Fund Act under chapter 95 of the Internal Revenue Code of 1986.

"(3) The Presidential Primary Matching Payment Account Act under chapter 96 of the Internal Revenue Code of 1986.

"(d) EXCLUSIVE CIVIL JURISDICTION.—The Administration shall have exclusive jurisdiction with respect to the civil enforcement of the statutes identified in subsection (c).

"(e) VOTING REQUIREMENT.—All decisions of the Administration with respect to the exercise of its duties and powers under this Act, except those expressly reserved for decision by the Chair, shall be made by a majority vote of its members.

"(f) MEETINGS AND QUORUM.—

"(1) MEETINGS.—The Administration shall meet—

"(A) at least once each month; and

"(B) at the call of the Chair.

"(2) QUORUM.—A majority of the members of the Administration shall constitute a quorum.

"(g) SEAL.—The Administration shall procure a proper seal, with such suitable inscriptions and devices as the President shall approve. This seal, to be known as the official seal of the Federal Election Administration, shall be kept and used to verify official documents, under such rules and regulations as the Administration may prescribe. Judicial notice shall be taken of the seal.

"(h) PRINCIPAL OFFICE.—The principal office of the Administration shall be in or near the District of Columbia, but the Administration may meet or exercise any of its powers anywhere in the United States.

"SEC. 352. COMPOSITION OF THE FEDERAL ELECTION ADMINISTRATION.

"(a) IN GENERAL.—The Administration shall be composed of 3 members, 1 of whom shall serve as the Chair of the Administration. No member of the Administration shall—

"(1) be affiliated with the same political party as any other member of the Administration while serving as a member of the Administration; or

"(2) have been affiliated with the same political party as any other member of the Administration at any time during the 5-year period ending on the date on which such individual is nominated to be a member of the Administration.

"(b) APPOINTMENT.—

"(1) IN GENERAL.—Each member of the Administration shall be appointed by the President, by and with the advice and consent of the Senate.

"(2) CHAIR.—The President shall, at the time of nomination of the first 3 members of the Administration, designate 1 of the 3 to serve as the Chair. Any individual appointed to succeed, or to fill the unexpired term of,

that member (or any member succeeding that member) shall serve as the Chair.

"(3) QUALIFICATIONS.—

"(A) An individual who is appointed under paragraph (1) shall—

"(i) possess demonstrated integrity, independence, and public credibility; and

"(ii) shall have not less than 5 years professional experience in law enforcement, including such experience gained—

"(I) in service as a member of the judiciary;

"(II) as a member or an employee of a Federal, State, or local campaign finance or ethics enforcement agency; or

"(III) as a law enforcement official in a Federal or State enforcement agency or office.

"(B) An individual may not be appointed under paragraph (1) if—

"(i) such individual is serving or has served as a member of the Federal Election Commission subject to a term limit; or

"(ii) at any time during the 4-year period ending on the date of the nomination of such individual, the individual was—

"(I) a candidate, an employee of a candidate, or an attorney for a candidate;

"(II) an elected officeholder, an employee of an elected officeholder, or an attorney for an elected officeholder;

"(III) an officer or employee of a political party or an attorney for a political party; or

"(IV) employed in a position in the executive branch of the Government of a confidential or policy-determining character under Schedule C of subpart C of part 213 of title 5 of the Code of Federal Regulations.

"(c) TERM OF OFFICE.—

"(1) IN GENERAL.—

"(A) CHAIR.—The Chair of the Administration shall be appointed for a term of 10 years.

"(B) OTHER MEMBERS.—Subject to subparagraph (C), the 2 members of the Administration other than the Chair shall be appointed for a term of 6 years.

"(C) INITIAL APPOINTMENTS.—Of the members initially appointed under subparagraph (B), 1 member shall be appointed for a term of 3 years.

"(2) LIMITATION TO ONE TERM.—A member of the Administration may only serve 1 term, except that—

"(A) the individual appointed under subparagraph (B) of paragraph (1) who is appointed for the term described in subparagraph (C) of such paragraph may be appointed to a 6-year term in addition to the term described in such subparagraph; and

"(B) an individual appointed under paragraph (4) to fill the remainder of an unexpired term that has less than ½ of the term remaining may be appointed to serve another term.

"(3) EXPIRED TERMS.—An individual may continue to serve as a member of the Administration after the expiration of such individual's term until the earlier of—

"(A) the date on which such individual's successor has taken office; or

"(B) 1 year following the date on which the term of such member expired.

"(4) VACANCIES.—An individual appointed upon a vacancy occurring before the expiration of the term for which the individual's predecessor was appointed shall be appointed only for the unexpired term of the predecessor. Such vacancy shall be filled in the same manner as the original appointment.

"(5) OTHER ACTIVITIES.—An individual may not engage in any other business, vocation, or employment while serving as a member of the Administration.

"(d) REMOVAL.—A member of the Administration may be removed by the President

only for inefficiency, neglect of duty, or malfeasance in office.

"SEC. 353. STAFF DIRECTOR.

"(a) IN GENERAL.—There shall be in the Administration a staff director.

"(b) RESPONSIBILITIES.—The staff director—

"(1) shall assist the Administration in its administration and operations;

"(2) shall perform such responsibilities as the Administration shall prescribe; and

"(3) may, with the approval of the Chair—

"(A) appoint and fix the pay of such additional personnel as the staff director considers appropriate without regard to the provisions of title 5, United States Code, governing appointments in the competitive service; and

"(B) procure temporary and intermittent services to the same extent as is authorized by section 3109(b) of title 5, United States Code, but at rates for individuals not to exceed the daily equivalent of the annual rate of basic pay in effect for grade GS-15 of the General Schedule (5 U.S.C. 5332).

"(c) APPOINTMENT.—The staff director shall be appointed by the Chair, after consultation with the other members of the Administration.

"(d) OTHER ACTIVITIES.—An individual may not engage in any other business, vocation, or employment while serving as the staff director.

"SEC. 354. GENERAL COUNSEL.

"(a) IN GENERAL.—There shall be in the Administration a general counsel.

"(b) RESPONSIBILITIES.—The general counsel shall—

"(1) serve as the chief legal officer of the Administration;

"(2) provide legal assistance to the Administration concerning its programs and policies;

"(3) advise and assist the Administration in carrying out its responsibilities under section 361; and

"(4) represent the Administration in any proceeding in court or before an administrative law judge.

"(c) APPOINTMENT.—The general counsel shall be appointed by the Chair, subject to approval by majority vote of the members of the Administration.

"SEC. 355. INSPECTOR GENERAL.

"There shall be in the Administration an inspector general. The inspector general and the office of inspector general shall be subject to the Inspector General Act of 1978 (5 U.S.C. App.).

"CHAPTER 2—OPERATION OF THE FEDERAL ELECTION ADMINISTRATION

"SEC. 361. POWERS OF THE CHAIR AND ADMINISTRATION.

"(a) CHAIR.—

"(1) IN GENERAL.—The Chair shall be the chief administrative officer of the Administration with the authority to administer the Administration and shall, after consultation with the other 2 members of the Administration, have the power to appoint or remove the staff director and to establish the budget of the Administration.

"(2) OTHER POWERS.—The Chair has the power—

"(A) to the fullest extent practicable, to request the assistance of other agencies and departments of the United States, including the personnel and facilities of such agencies and departments and the heads of such agencies and departments may make available to the Chair such personnel, facilities, and other assistance, with or without reimbursement;

"(B) to appoint, assign, remove, and compensate administrative law judges in accordance with title 5, United States Code;

"(C) to require, by special or general orders, any person to submit, under oath, such written reports and answers to questions as the Chair may prescribe;

"(D) to administer oaths or affirmations;

"(E) to issue and enforce subpoenas in accordance with section 364;

"(F) in any proceeding or investigation, to order testimony to be taken by deposition before any person who is designated by the Chair and has the power to administer oaths and, in such instances, to compel testimony and the production of evidence in the same manner as authorized under subparagraph (E);

"(G) to pay witnesses fees and mileage in accordance with section 364(d); and

"(H) to make independent budget requests to Congress in accordance with section 362.

"(b) ADMINISTRATION.—The Administration shall have the power—

"(1) to initiate, defend, or appeal, through the general counsel, any civil action in the name of the Administration to enforce the provisions of this Act and chapters 95 and 96 of the Internal Revenue Code of 1986;

"(2) to assess civil penalties for violations of this Act and chapters 95 and 96 of the Internal Revenue Code of 1986;

"(3) to issue cease-and-desist orders to prevent violations of this Act and chapters 95 and 96 of the Internal Revenue Code of 1986;

"(4) to establish procedures and schedules for agency adjudication that ensure timely enforcement of this Act and chapters 95 and 96 of the Internal Revenue Code of 1986;

"(5) to render advisory opinions under section 363;

"(6) to develop prescribed forms, and to make, amend, and repeal rules, pursuant to section 365;

"(7) to establish procedures for alternative dispute resolution of violations of this Act or of chapters 95 or 96 of the Internal Revenue Code of 1986;

"(8) to conduct investigations and hearings expeditiously, to encourage voluntary compliance, and to report apparent violations to the appropriate law enforcement authorities; and

"(9) to transmit to the President and to Congress not later than June 1 of each year, a report which states in detail the activities of the Administration in carrying out its duties under this Act, and which includes any recommendations for any legislative or other action the Administration considers appropriate.

"SEC. 362. INDEPENDENT BUDGET REQUESTS AND LEGISLATIVE PROPOSALS.

"(a) EXEMPTION FROM OMB OVERSIGHT.—Whenever the Chair submits any budget estimate or request to the President or the Office of Management and Budget, the Chair shall concurrently transmit a copy of such estimate or request to Congress.

"(b) AUTHORITY TO MAKE INDEPENDENT LEGISLATIVE RECOMMENDATIONS.—Whenever the Administration submits any legislative recommendation, testimony, or comments on legislation requested by Congress or by any Member of Congress, to the President or the Office of Management and Budget, the Administration shall concurrently transmit a copy thereof to Congress or to the Member requesting the same. No officer or agency of the United States shall have any authority to require the Administration to submit its legislative recommendations, testimony, or comments on legislation, to any office or agency of the United States for approval,

comments, or review, prior to the submission of such recommendations, testimony, or comments to Congress.

"SEC. 363. ADVISORY OPINIONS.

"(a) REQUESTS FOR ADVISORY OPINIONS.—

"(1) IN GENERAL.—Not later than 60 days after the Administration receives from a person a complete written request concerning the application of this Act, chapter 95 or 96 of the Internal Revenue Code of 1986, or a rule or regulation prescribed by the Administration, with respect to a specific transaction or activity by the person, the Administration shall render a written advisory opinion relating to such transaction or activity to the person.

"(2) REQUESTS BY CANDIDATES.—If an advisory opinion is requested by a candidate, or any authorized committee of such candidate, during the 60-day period before any election for Federal office involving the requesting party, the Administration shall render a written advisory opinion relating to such request not later than 20 days after the Administration receives a complete written request.

"(b) RULEMAKING REQUIRED.—Any rule of law which is not stated in this Act or in chapter 95 or 96 of the Internal Revenue Code of 1986 may be initially proposed by the Administration only as a rule or regulation pursuant to procedures established in section 365. No opinion of an advisory nature may be issued by the Administration or any other officer or employee of the Administration except in accordance with the provisions of this section.

"(c) RELIANCE ON ADVISORY OPINIONS.—

"(1) IN GENERAL.—Any advisory opinion rendered by the Administration under subsection (a) may be relied upon by—

"(A) any person involved in the specific transaction or activity with respect to which such advisory opinion is rendered; and

"(B) any person involved in any specific transaction or activity which is indistinguishable in all its material aspects from the transaction or activity with respect to which such advisory opinion is rendered.

"(2) PROTECTION FROM LIABILITY.—Notwithstanding any other provisions of law, any person who relies upon any provision or finding of an advisory opinion in accordance with the provisions of paragraph (1) and who acts in good faith in accordance with the provisions and findings of such advisory opinion shall not, as a result of any such act, be subject to any sanction provided by this Act or by chapter 95 or 96 of the Internal Revenue Code of 1986.

"(d) PUBLICATION OF REQUESTS.—The Administration shall make public any request made under subsection (a) for an advisory opinion. Before rendering an advisory opinion, the Administration shall accept written comments submitted by any interested party within the 10-day period following the date on which the request is made public.

"(e) JUDICIAL REVIEW.—

"(1) IN GENERAL.—Any person adversely affected by an advisory opinion rendered by the Administration may obtain judicial review of such advisory opinion by filing a petition in the United States Court of Appeals for the District of Columbia Circuit.

"(2) SCOPE OF REVIEW.—For purposes of conducting the judicial review described in paragraph (1), the provisions of section 706 of title 5, United States Code, shall apply.

"SEC. 364. ISSUANCE AND ENFORCEMENT OF SUBPOENAS.

"(a) ISSUANCE BY THE CHAIR.—If the Administration is conducting an investigation pursuant to section 371 or 372, the Chair shall,

on behalf of the Administration, have the power to require by subpoena the attendance and testimony of witnesses and the production of all documentary evidence relating to the execution of the Administration's duties.

“(b) **ISSUANCE BY AN ADMINISTRATIVE LAW JUDGE.**—Any administrative law judge presiding over an enforcement action pursuant to section 373 shall have the power to require by subpoena the attendance and testimony of witnesses and the production of all documentary evidence relating to the administrative law judge's duties.

“(c) **ISSUANCE AND ENFORCEMENT OF SUBPOENAS.**—

“(1) **ISSUANCE.**—Subpoenas issued under subsection (a) or (b) shall bear the signature of the Chair or an administrative law judge, respectively, and shall be served by any person or class of persons designated by the Chair or administrative law judge for that purpose.

“(2) **ENFORCEMENT.**—In the case of contumacy or failure to obey a subpoena issued under subsection (a) or (b), the Federal district court for the judicial district in which the subpoenaed person resides, is served, or may be found may issue an order requiring such person to appear at any designated place to testify or to produce documentary or other evidence. Any failure to obey the order of the court may be punished by the court as a contempt of that court.

“(d) **WITNESS ALLOWANCES AND FEES.**—Section 1821 of title 28, United States Code, shall apply to witnesses requested or subpoenaed to appear at any hearing of the Administration. The per diem and mileage allowances for witnesses shall be paid from funds available to pay the expenses of the Administration.

“(e) **JURISDICTION.**—Subpoenas for witnesses who are required to attend a Federal district court may run into any other district.

“SEC. 365. RULEMAKING AUTHORITY.

“(a) **IN GENERAL.**—The Administration may, pursuant to the provisions of chapter 5 of title 5, United States Code, prescribe such rules and regulations as the Administration deems necessary to carry out the provisions of this Act and chapters 95 and 96 of the Internal Revenue Code of 1986, including the authority to promulgate rules of practice and procedure for agency adjudications.

“(b) **AUTHORITY TO PROMULGATE INDEPENDENT REGULATIONS.**—Whenever the Administration promulgates any regulation, it shall not be required to submit such regulation for review or approval to the President or the Office of Management and Budget.

“(c) **CONDUCT OF ACTIVITIES.**—The Administration shall prepare written rules for the conduct of its activities, including procedures for the conduct of enforcement actions under sections 371, 372, and 373.

“(d) **FORMS.**—

“(1) **IN GENERAL.**—The Administration shall prescribe forms necessary to implement this Act and chapters 95 and 96 of the Internal Revenue Code of 1986.

“(2) **PUBLIC PROTECTION.**—Any forms prescribed by the Administration under paragraph (1), and any information-gathering activities of the Administration under this Act, shall not be subject to the provisions of section 3512 of title 44, United States Code.

“(e) **RELIANCE UPON RULES AND REGULATIONS.**—Notwithstanding any other provision of law, any person who relies upon any rule or regulation prescribed by the Administration in accordance with the provisions of this section and who acts in good faith in accordance with such rule or regulation shall

not, as a result of such act, be subject to any sanction provided by this Act or by chapter 95 or 96 of the Internal Revenue Code of 1986.

“(f) **CONSULTATION WITH IRS.**—In prescribing rules, regulations, and forms under this section, the Administration and the Secretary of the Treasury shall consult and work together to promulgate rules, regulations, and forms which are mutually consistent. The Administration shall report to Congress annually on the steps it has taken to comply with this subsection.

“(g) **JUDICIAL REVIEW.**—

“(1) **IN GENERAL.**—Any person adversely affected by a rule, regulation, or form promulgated by the Administration may obtain judicial review of such rule, regulation, or form by filing a petition in the United States Court of Appeals for the District of Columbia Circuit.

“(2) **SCOPE OF REVIEW.**—For purposes of conducting the judicial review described in paragraph (1), the provisions of section 706 of title 5, United States Code, shall apply.

“(h) **RULE AND REGULATION DEFINED.**—In this Act, the terms ‘rule’ and ‘regulation’ mean a provision or series of interrelated provisions stating a single, separable rule of law.

“SEC. 366. LITIGATION AUTHORITY.

“(a) **IN GENERAL.**—Notwithstanding sections 516 and 518 of title 28, United States Code, and section 3106 of title 5, United States Code, the Administration is authorized to bring, appear in, defend against, and appeal any action instituted under this Act or chapter 95 or 96 of the Internal Revenue Code of 1986, in any court either—

“(1) by attorneys employed by the Administration; or

“(2) by counsel whom it may appoint, on a temporary basis as may be necessary for such purpose, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and whose compensation it may fix without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title.

“(b) **COMPENSATION OF APPOINTED COUNSEL.**—The compensation of counsel appointed on a temporary basis under subsection (a)(2) shall be paid out of any funds otherwise available to pay the compensation of employees of the Administration.

“(c) **INDEPENDENCE FROM ATTORNEY GENERAL.**—In pursuing an action under this section, the Administration may act independently of the Attorney General.

“SEC. 367. AVAILABILITY OF REPORTS.

“(a) **IN GENERAL.**—The Administration shall—

“(1) prepare, publish, and furnish to all persons required to file reports and statements under this Act a manual recommending uniform methods of bookkeeping and reporting;

“(2) develop a filing, coding, and cross-indexing system consistent with the purposes of this Act;

“(3) within 48 hours after the time of the receipt by the Administration of reports and statements filed with the Administration, make them available for public inspection, and copying, at the expense of the person requesting such copying, except that any information copied from such reports or statements may not be sold or used by any person for the purpose of soliciting contributions or for commercial purposes, other than using the name and address of any political committee to solicit contributions from such committee;

“(4) keep such designations, reports, and statements for a period of 10 years from the

date of receipt and maintain computerized records of such designations, reports, and statements thereafter;

“(5)(A) compile and maintain a cumulative index of designations, reports, and statements filed under this Act, publish the index at regular intervals, and make the index available for purchase directly or by mail;

“(B) compile, maintain, and revise a separate cumulative index of reports and statements filed by multicandidate committees, including in such index a list of multicandidate committees; and

“(C) compile and maintain a list of multicandidate committees, which shall be revised and made available monthly;

“(6) prepare and publish periodically lists of authorized committees which fail to file reports as required by this Act; and

“(7) serve as a national clearinghouse for the compilation of information and review of procedures with respect to the administration of Federal elections.

“(b) **PSEUDONYMS.**—For purposes of subsection (a)(3), a political committee may submit 10 pseudonyms on each report filed in order to protect against the illegal use of names and addresses of contributors, but only if such committee attaches a list of such pseudonyms to the appropriate report. The Administration shall exclude these lists from the public record.

“(c) **CONTRACTS.**—The Administration may enter into contracts for the purpose of performing the duties described in subsection (a).

“(d) **AVAILABILITY OF REPORTS.**—Reports or other information described in subsection (a) shall be available to the public, except that—

“(1) copies shall be made available without cost, upon request, to agencies and branches of the Federal Government; and

“(2) information made available as a result of the application of paragraph (7) of such subsection shall be made available to the public only upon the payment of the cost thereof.

“SEC. 368. AUDITS AND FIELD EXAMINATIONS.

“(a) **IN GENERAL.**—The Administration may, in accordance with the provisions of this section, conduct audits and field investigations of any political committee required to file a report under section 304.

“(b) **PRIORITY.**—All audits and field investigations concerning the verification for, and receipt and use of, any payments received by a candidate or committee under chapter 95 or 96 of the Internal Revenue Code of 1986 shall be given priority.

“(c) **AUDITS AND FIELD EXAMINATIONS WHERE THRESHOLDS NOT MET.**—

“(1) **INTERNAL REVIEW.**—The Administration shall conduct an internal review of reports filed by selected committees to determine if the reports filed by a particular committee meet the threshold requirements for substantial compliance with the Act. Such thresholds for compliance shall be established by the Administration.

“(2) **AUDITS AND FIELD EXAMINATIONS.**—The Administration may vote to conduct an audit and field investigation of any committee which it determines under paragraph (1) does not meet the threshold requirements established by the Administration. Such audits shall be commenced within 30 days of such vote, except that any audit under the provisions of this subsection of an authorized committee of a candidate shall be commenced within 6 months of the election for which such committee is authorized.

“(d) **RANDOM AUDITS.**—

“(1) IN GENERAL.—In addition to any audits conducted under subsection (c), the Administration may, subject to paragraph (2), conduct audits of any committee selected at random to ensure compliance with this Act. The selection of any committee under this paragraph shall be based on standards and procedures adopted by the Administration, except that in any calendar year such audits may be initiated against no more than 3 percent of all authorized candidate campaign committees.

“(2) APPLICABLE RULES.—

“(A) IN GENERAL.—If the Administration selects a committee for audit under paragraph (1), the Administration shall promptly notify the committee of the selection and commence the audit within 30 days of the selection.

“(B) SPECIAL RULES FOR AUTHORIZED COMMITTEES.—If the committee selected under paragraph (1) is an authorized committee of a candidate, the audit—

“(i) shall be commenced and actively undertaken within 6 months of the election for which the committee is authorized; and

“(ii) may examine compliance with this Act only with respect to that election.

“(3) EXCEPTION.—This subsection shall not apply to an authorized committee of a candidate for President or Vice President subject to audit under section 9007 or 9038 of the Internal Revenue Code of 1986.

“SEC. 369. CONGRESSIONAL OVERSIGHT.

“Nothing in this Act shall be construed to limit, restrict, or diminish any investigatory, informational, oversight, supervisory, or disciplinary authority or function of Congress or any committee of Congress with respect to elections for Federal office.

“CHAPTER 3—ENFORCEMENT

“SEC. 371. INITIATION OF ENFORCEMENT ACTIONS BY ADMINISTRATION.

“(a) IN GENERAL.—The Administration may initiate a civil enforcement action under section 373 if, after conducting an investigation, the Administration finds reasonable grounds to believe that a violation of this Act or of chapter 95 or 96 of the Internal Revenue Code of 1986 has occurred or is about to occur.

“(b) BASIS FOR FINDINGS.—The Administration may make a finding under subsection (a) based on any information available to the Administration, including the filing of a complaint under section 372.

“(c) NOTICE AND OPPORTUNITY TO DEMONSTRATE NO VIOLATION.—Prior to initiating an enforcement action under subsection (a), the Administration shall give any person under investigation notice and the opportunity to demonstrate that there are no reasonable grounds to believe a violation has occurred or is about to occur, but the Administration's decision on such matter shall not be subject to judicial review.

“SEC. 372. COMPLAINT TO INITIATE ENFORCEMENT ACTION.

“(a) FILING OF COMPLAINT.—

“(1) IN GENERAL.—Any person may file a complaint with the Administration alleging a violation of this Act or of chapter 95 or 96 of the Internal Revenue Code of 1986.

“(2) TECHNICAL REQUIREMENTS.—A complaint filed under paragraph (1) shall be—

“(A) in writing, signed, and sworn to by the person filing such complaint;

“(B) notarized; and

“(C) made under penalty of perjury and subject to the provisions of section 1001 of title 18, United States Code.

“(3) ACTION BY THE ADMINISTRATION.—Subject to paragraph (4), based on the allegations in a complaint filed under paragraph

(1), and such investigations the Administration deems necessary and appropriate, the Administration may—

“(A) initiate a civil enforcement action under section 373 if the Administration finds reasonable grounds to believe a violation has occurred or is about to occur; or

“(B) dismiss the complaint.

“(4) PROHIBITION OF ANONYMOUS COMPLAINTS.—The Commission may not conduct any investigation or take any other action under this section solely on the basis of a complaint of a person whose identity is not disclosed to the Administration.

“(5) RECOVERY OF COSTS.—Any person who has filed a complaint under paragraph (1) shall be entitled to recover from the Administration up to \$1,000 of the costs incurred in preparing and filing the complaint if, based on the complaint, the Administration—

“(A) makes a finding under section 373(a) that a person has violated (or is about to violate) the Act; or

“(B) enters into a conciliation agreement with a person under section 373(c).

“(b) NOTICE AND OPPORTUNITY TO DEMONSTRATE NO VIOLATION.—Prior to initiating an enforcement action under subsection (a)(3)(A), the Administration shall give any person named in a complaint notice and an opportunity to demonstrate that there are no reasonable grounds to believe a violation described in such subsection has occurred or is about to occur, but the Administration's determination under subsection (a)(3) shall not be subject to judicial review in an action brought by such person.

“(c) FAILURE BY THE ADMINISTRATION TO TAKE TIMELY ACTION.—

“(1) IN GENERAL.—If the Administration—

“(A) dismisses a complaint filed under subsection (a); or

“(B) fails to initiate a civil enforcement action under section 373 within 180 days of the filing of such a complaint, the person filing the complaint under subsection (a) may seek judicial review of the Administration's dismissal, or failure to act, in Federal district court in the District of Columbia or in the district in which such person resides.

“(2) SCOPE OF REVIEW.—The court shall review the Administration's dismissal of the complaint or failure to act in accordance with the provisions of section 706 of title 5, United States Code.

“(3) COURT ORDERS.—The court may order the Administration to initiate an enforcement action or to conduct a further investigation of the complaint within a time set by the court.

“SEC. 373. CIVIL ENFORCEMENT ACTIONS.

“(a) IN GENERAL.—The Administration shall have the authority to impose a civil monetary penalty under section 375, issue a cease-and-desist order under section 376, or do both, if the Administration finds, by an order made on the record after notice and an opportunity for hearing before an administrative law judge pursuant to subchapter II of chapter 5 of title 5, United States Code, that a person has violated (or, in the case of a cease-and-desist order, has violated or is about to violate) this Act or chapter 95 or 96 of the Internal Revenue Code of 1986. The general counsel shall represent the Administration in any proceeding before an administrative law judge.

“(b) NOTICE AND REQUEST FOR HEARING.—

“(1) NOTICE.—If the Administration finds under section 371 or 372 that there are reasonable grounds to believe a violation has occurred or is about to occur, the Administration shall serve written notice of the charges on each respondent, and shall con-

duct such further investigation as the Administration deems necessary and appropriate.

“(2) REQUEST FOR HEARING.—Each respondent shall have an opportunity to request, prior to the date that is 30 days after the date on which the notice is received, a hearing on the charges before an administrative law judge.

“(3) EFFECT OF FAILURE TO REQUEST A HEARING.—If no hearing is requested, the Administration shall make a finding on the charges, and shall issue whatever relief the Administration deems appropriate under sections 375 and 376.

“(c) CONCILIATION.—

“(1) PROCEDURES FOR ENTERING INTO CONCILIATION AGREEMENTS.—

“(A) IN GENERAL.—If the respondent requests a hearing under subsection (b)(2), the Administration shall attempt, for a period that does not exceed 60 days (or 15 days if the hearing is requested within 60 days of an election), to correct or prevent such violation by informal methods of conference, conciliation, and persuasion, and to enter into a conciliation agreement with the respondent. In the case of a hearing that is requested at a time other than within 60 days of an election, the period for conciliation shall not be less than 30 days unless an agreement is reached before then.

“(B) INCLUSION OF CIVIL MONETARY PENALTIES.—A conciliation agreement may include a requirement that the person involved in such conciliation shall pay a civil monetary penalty that does not exceed the amounts set forth in subsection (a) of section 375 or, in the case of a knowing and willful violation, the amounts set forth in subsection (b) of such section. The conciliation agreement may also include the requirement that the person involved consent to the terms of a cease-and-desist order, as provided in section 376.

“(C) REPRESENTATION BY GENERAL COUNSEL.—The general counsel shall represent the Administration in any negotiations for a conciliation agreement and any such conciliation agreement shall be subject to the approval of the Administration.

“(D) BAR TO FURTHER ACTION.—A conciliation agreement, unless violated, is a complete bar to any further action by the Administration.

“(2) CONFIDENTIALITY.—No action by the Administration or any other person, and no information derived in connection with any conciliation attempt by the Administration may be made public by the Administration, without the written consent of the respondent, except that if a conciliation agreement is agreed upon and signed by the Administration and the respondent, the Administration shall make such agreement public.

“(3) VIOLATION OF CONCILIATION AGREEMENT.—In any case in which a person has entered into a conciliation agreement with the Administration under paragraph (1), the Administration may institute a civil action for relief if the Administration believes the person has violated any provision of such conciliation agreement. Such civil action shall be brought in the Federal district court for the district in which the respondent resides or has its principal place of business, or for the District of Columbia. Such court shall have jurisdiction to issue any relief appropriate under sections 375 and 376. For the Administration to obtain relief in any such action, the Administration need only establish that the person has violated, in whole or in part, any requirement of such conciliation agreement.

“(d) HEARING.—At the request of any respondent, a hearing on the charges served under subsection (b)(1) shall be conducted before an administrative law judge, who shall make such findings of fact and conclusions of law as the administrative law judge deems appropriate. The administrative law judge shall also have the authority to impose a civil monetary penalty on the respondent, issue a cease-and-desist order, or both. The decision of the administrative law judge shall constitute final agency action unless an appeal is taken under subsection (e).

“(e) APPEAL TO ADMINISTRATION.—

“(1) RIGHT TO APPEAL.—The general counsel and each respondent shall each have a right to appeal to the Administration from any final determination made by an administrative law judge.

“(2) REVIEW OF ALJ DETERMINATIONS.—In the event of an appeal under paragraph (1), the Administration shall review the determination of the administrative law judge to determine whether—

“(A) a finding of material fact is not supported by substantial evidence;

“(B) a conclusion of law is erroneous;

“(C) the determination of the administrative law judge is contrary to law or to the duly promulgated rules or decisions of the Administration;

“(D) a prejudicial error of procedure was committed; or

“(E) the decision or the relief ordered is otherwise arbitrary, capricious, or an abuse of discretion.

“(3) FINAL AGENCY ACTION.—The decision of the Administration shall constitute final agency action.

“(f) JUDICIAL REVIEW.—

“(1) IN GENERAL.—Any party aggrieved by a final agency action and who has exhausted all administrative remedies, including requesting a hearing before an administrative law judge and appealing an adverse decision of an administrative law judge to the Administration, may obtain judicial review of such action in the United States Court of Appeals for any circuit wherein such person resides or has its principal place of business, or in the United States Court of Appeals for the District of Columbia Circuit.

“(2) SCOPE OF REVIEW.—For purposes of conducting the judicial review described in paragraph (1), the provisions of section 706 of title 5, United States Code, shall apply.

“(3) PETITION FOR JUDICIAL REVIEW.—To obtain judicial review under paragraph (1), an aggrieved party described in such paragraph shall file a petition with the court during the 30-day period beginning on the date on which the order was issued. A copy of such petition shall be transmitted forthwith by the clerk of the court to the Administration, and thereupon the Administration shall file in the court the record upon which the order complained of was entered, as provided in section 2112 of title 28, United States Code.

“SEC. 374. NOTIFICATION OF NONFILERS.

“(a) NOTIFICATION.—Before taking any action under section 373 against any person who has failed to file a report required under section 304(a)(2)(A)(iii) for the calendar quarter immediately preceding the election involved, or in accordance with section 304(a)(2)(A)(i), the Administration shall notify the person of such failure to file the required reports.

“(b) OPPORTUNITY FOR RESPONSE.—If a satisfactory response is not received within 4 business days after the date of notification, the Administration shall, pursuant to section 367(a)(6), publish before the election the name of the person and the report or reports such person has failed to file.

“SEC. 375. CIVIL MONETARY PENALTIES.

“(a) IN GENERAL.—Any person who violates this Act, or chapter 95 or 96 of the Internal Revenue Code of 1986, shall be liable to the United States for a civil monetary penalty for each violation which does not exceed the greater of \$5,000 or an amount equal to any contribution or expenditure involved in such violation. Such penalty shall be imposed by the Administration pursuant to section 373.

“(b) KNOWING AND WILLFUL VIOLATIONS.—Any person who commits a knowing and willful violation of this Act, or of chapter 95 or 96 of the Internal Revenue Code of 1986, shall be liable to the United States for a civil monetary penalty for each violation which does not exceed the greater of \$10,000 or an amount equal to 200 percent of any contribution or expenditure involved in such violation (or, in the case of a violation of section 320, which is not less than 300 percent of the amount involved in the violation and is not more than the greater of \$50,000 or 1,000 percent of the amount involved in the violation). Such penalty shall be imposed by the Administration pursuant to section 373.

“(c) DETERMINATION OF CIVIL MONETARY PENALTY.—In determining the amount of a civil monetary penalty under this section with respect to a violation described in this section, the Administration or an administrative law judge shall take into account the nature, circumstances, extent, and gravity of the violation and, with respect to the violator, any prior violation, the degree of culpability, and such other matters as justice may require.

“(d) REFERRAL TO ATTORNEY GENERAL.—

“(1) IN GENERAL.—If the Administration determines that a knowing and willful violation of this Act which is subject to section 379, or a knowing and willful violation of chapter 95 or 96 of the Internal Revenue Code of 1986, has occurred or is about to occur, the Administration may refer such apparent violation to the Attorney General without regard to any limitations set forth under section 373.

“(2) REPORTING BY THE ATTORNEY GENERAL.—Whenever the Administration refers an apparent violation to the Attorney General, the Attorney General shall report to the Administration any action taken by the Attorney General regarding the apparent violation. Each report shall be transmitted within 60 days after the date the Administration refers an apparent violation, and every 30 days thereafter until the final disposition of the apparent violation.

“SEC. 376. CEASE-AND-DESIST ORDERS.

“(a) IN GENERAL.—If the Administration finds, after notice and opportunity for hearing under section 373, that any person is violating, has violated, or is about to violate any provision of this Act, or chapter 95 or 96 of the Internal Revenue Code of 1986, or any rule or regulation thereunder, the Administration may publish any findings and enter an order requiring such person, or any other person that is, was, or would be a cause of the violation due to an act or omission the person knew or should have known would contribute to such violation, to cease and desist from committing or causing such violation and any future violation of the same provision, rule, or regulation. Such order may, in addition to requiring a person to cease and desist from committing or causing a violation, require such person to comply (or to take steps to effect compliance) with such provision, rule, or regulation, upon such terms and conditions and within such time as the Administration may specify in such order.

“(b) TEMPORARY ORDER.—Whenever the Administration determines that an alleged violation or threatened violation specified in the notice initiating a civil enforcement action under section 373, or the continuation thereof, is likely to result in violation of this Act, or of chapter 95 or 96 of the Internal Revenue Code of 1986, and substantial harm to the public interest, the Administration may apply to the Federal district court for the district in which the respondent resides or has its principal place of business, in which the alleged or threatened violation occurred or is about to occur, or for the District of Columbia, for a temporary restraining order or a preliminary injunction requiring the respondent to cease and desist from the violation or threatened violation and to take such action to prevent the violation or threatened violation. The Administration may apply for such order without regard to any limitation under section 373.

“SEC. 377. COLLECTION.

“If any person fails to pay an assessment of a civil penalty—

“(1) after the order making the assessment has become a final order and such person has not timely filed a petition for judicial review of the order in accordance with section 373(f)(3) or if the order of the Administration is upheld after judicial review; or

“(2) after a court in an action brought under section 373(c)(3) has entered a final judgment no longer subject to appeal in favor of the Administration, the Attorney General shall recover the amount assessed (plus interest at currently prevailing rates from the date of the expiration of the 30-day period referred to in section 373(f)(3) or the date of such final judgment, as the case may be) in an action brought in any appropriate district court of the United States. In such an action, the validity, amount, and appropriateness of such penalty shall not be subject to review.

“SEC. 378. CONFIDENTIALITY.

“(a) PRIOR TO A FINDING OF REASONABLE GROUNDS.—Any proceedings conducted by the Administration prior to a finding that there are reasonable grounds to believe a violation of the law has occurred or is about to occur, including any investigation pursuant to section 371 or pursuant to a complaint filed under section 372, shall be confidential and none of the Administration's records concerning the complaint shall be made public, except that the person filing a complaint pursuant to section 372 is permitted to make such complaint public.

“(b) AFTER A FINDING OF REASONABLE GROUNDS.—Except as provided in subsection (d), if the Administration makes a finding pursuant to section 371 or 372 that there are reasonable grounds to believe that a violation of law has occurred or is about to occur—

“(1) the finding of the Administration as well as any complaint filed under section 372, any notice of charges, and any answer or similar documents filed with the Administration shall be made public; and

“(2) all proceedings conducted before an administrative law judge under section 373, and all documents used during such proceedings, shall be made public.

“(c) AFTER DISMISSAL OF A COMPLAINT OR CONCLUSION OF PROCEEDINGS FOLLOWING A FINDING OF REASONABLE GROUNDS.—Subject to subsection (d), following the Administration's dismissal of a complaint filed under section 372 or the termination of proceedings following a finding of reasonable grounds under section 371 or 372, the Administration shall, not later than the date that is 30 days

after such dismissal or termination, make public—

“(1) the complaint, any notice of charges, and any answer or similar documents filed with the Administration (unless such information has already been made public under subsection (b)(1));

“(2) any order setting forth the Administration’s final action on the complaint;

“(3) any findings made by the Administration in relation to the action; and

“(4) all documentary materials and testimony constituting the record on which the Administration relied in taking its actions. Subject to subsection (d), the affirmative disclosure requirement of this subsection is without prejudice to the right of any person to request and obtain records relating to an investigation under section 552 of title 5, United States Code.

“(d) CONFIDENTIALITY OF RECORDS AND PROCEEDINGS OTHERWISE SUBJECT TO DISCLOSURE.—

“(1) IN GENERAL.—The Administration shall issue regulations providing for the protection of information the disclosure of which under subsection (b) or (c) would impair any person’s constitutionally protected right of privacy, freedom of speech, or freedom of association. The Administration shall also issue regulations addressing the application of exemptions from disclosure contained in section 552 of title 5, United States Code, to records comprising the Administration’s investigative files. Such regulations shall consider the need to protect any person’s constitutionally protected rights to privacy, freedom of speech, and freedom of association, as well as the need to make information about the Administration’s activities and decisions widely accessible to the public.

“(2) PETITION TO MAINTAIN CONFIDENTIALITY.—

“(A) IN GENERAL.—Any person who would be adversely affected by any disclosure of information about the person made pursuant to subsection (b) or (c), or by the conduct in public of a hearing or other proceeding conducted pursuant to section 373, shall have the right to petition the Administration to maintain the confidentiality of such information or such proceeding on the ground that such information falls within the scope of any exemption from disclosure contained in section 552 of title 5, United States Code, or is prohibited from disclosure under the Administration’s regulations, the Constitution, or any other provision of law. Upon the receipt of such petition, the Administration shall make a prompt determination whether the information should be kept confidential, and shall withhold such information from disclosure pending this determination. The Administration shall notify the petitioner in writing of the determination.

“(B) REGULATIONS.—The Administration shall prescribe regulations governing the consideration of petitions under this paragraph. Such regulations shall provide for public notice of the pendency of any petition filed under subparagraph (A) and the right of any interested party to respond to or comment on such petition.

“(e) PENALTIES.—Any member or employee of the Administration, or any other person, who violates the provisions of this section shall be fined not more than \$2,000. Any such member, employee, or other person who knowingly and willfully violates the provisions of this section shall be fined not more than \$5,000.

“SEC. 379. CRIMINAL PENALTIES.

“(a) KNOWING AND WILLFUL VIOLATIONS.—Any person who knowingly and willfully

commits a violation of any provision of this Act that involves the making, receiving, or reporting of any contribution, donation, or expenditure—

“(1) aggregating \$25,000 or more during a calendar year shall be fined under title 18, United States Code, or imprisoned for not more than 5 years, or both; or

“(2) aggregating \$2,000 or more (but less than \$25,000) during a calendar year shall be fined under such title, or imprisoned for not more than 1 year, or both.

“(b) CONTRIBUTIONS OR EXPENDITURES BY NATIONAL BANKS, CORPORATIONS, OR LABOR ORGANIZATIONS.—In the case of a knowing and willful violation of section 316(b)(3), the penalties set forth in subsection (a) shall apply to each violation involving an amount aggregating \$250 or more during a calendar year. Such a violation of section 316(b)(3) may incorporate a violation of section 317(a), 320, or 321.

“(c) FRAUDULENT MISREPRESENTATION OF CAMPAIGN AUTHORITY.—In the case of a knowing and willful violation of section 322, the penalties set forth in subsection (a) shall apply without regard to whether the making, receiving, or reporting of a contribution or expenditure of \$1,000 or more is involved.

“(d) PROHIBITION OF CONTRIBUTIONS IN NAME OF ANOTHER.—Any person who knowingly and willfully commits a violation of section 320 involving an amount aggregating more than \$10,000 during a calendar year shall be—

“(1) imprisoned for not more than 2 years if the amount is less than \$25,000 and subject to imprisonment under subsection (a) if the amount is \$25,000 or more;

“(2) fined not less than 300 percent of the amount involved in the violation and not more than the greater of—

“(A) \$50,000; or

“(B) 1,000 percent of the amount involved in the violation; or

“(3) both imprisoned as provided under paragraph (1) and fined as provided under paragraph (2).

“(e) EFFECT OF CONCILIATION AGREEMENTS.—

“(1) EVIDENCE OF LACK OF KNOWLEDGE AND INTENT.—In any criminal action brought for a violation of any provision of this Act or of chapter 95 or 96 of the Internal Revenue Code of 1986, any defendant may evidence their lack of knowledge or intent to commit the alleged violation by introducing as evidence a conciliation agreement entered into between the defendant and the Administration under section 373(c)(1) which specifically deals with the act or failure to act constituting such violation and which is still in effect.

“(2) CONSIDERATION BY COURTS.—In any criminal action brought for a violation of any provision of this Act or of chapter 95 or 96 of the Internal Revenue Code of 1986, the court before which such action is brought shall take into account, in weighing the seriousness of the violation and in considering the appropriateness of the penalty to be imposed if the defendant is found guilty, whether—

“(A) the specific act or failure to act which constitutes the violation for which the action was brought is the subject of a conciliation agreement entered into between the defendant and the Administration under section 373(c)(1);

“(B) the conciliation agreement is in effect; and

“(C) the defendant is, with respect to the violation involved, in compliance with the conciliation agreement.

“SEC. 380. PERIOD OF LIMITATIONS.

“No person shall be prosecuted, tried, or punished for any violation of this Act, unless the indictment is found or the information is instituted within 5 years after the date of the violation.

“SEC. 381. AUTHORIZATION OF APPROPRIATIONS.

“For each fiscal year, there are authorized to be appropriated to the Administration such sums as may be necessary for the purpose of carrying out its functions under this Act and under chapters 95 and 96 of the Internal Revenue Code of 1986.”

SEC. 102. EXECUTIVE SCHEDULE POSITIONS.

(a) EXECUTIVE SCHEDULE LEVEL III POSITION.—Section 5314 of title 5, United States Code, is amended by adding at the end the following:

“Chair, Federal Election Administration.”

(b) EXECUTIVE SCHEDULE LEVEL IV POSITIONS.—Section 5315 of title 5, United States Code, is amended by adding at the end the following:

“Members (other than the Chair), Federal Election Administration.

“Staff Director, Federal Election Administration.

“Inspector General, Federal Election Administration.”

(c) EXECUTIVE SCHEDULE LEVEL V POSITION.—Section 5316 of title 5, United States Code, is amended by adding at the end the following:

“General Counsel, Federal Election Administration.”

SEC. 103. GAO EXAMINATION OF ENFORCEMENT OF CAMPAIGN FINANCE LAWS BY THE DEPARTMENT OF JUSTICE.

(a) EXAMINATION.—The Comptroller General of the United States shall conduct a thorough examination of the enforcement of the criminal provisions of the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) and chapters 95 and 96 of the Internal Revenue Code of 1986 by the Attorney General.

(b) REPORT.—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall submit to the Attorney General and Congress a report on the examination conducted under subsection (a) together with recommendations on how the Attorney General may improve the enforcement of the criminal provisions of the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) and chapters 95 and 96 of the Internal Revenue Code of 1986, including recommendations on the resources that the Attorney General would require to effectively enforce such criminal provisions.

SEC. 104. GAO STUDY AND REPORT ON APPROPRIATE FUNDING LEVELS.

(a) STUDY.—The Comptroller General of the United States shall conduct an ongoing study on the level of funding that constitutes an adequate level of resources for the Federal Election Administration to competently execute the responsibilities imposed on the Administration by this Act.

(b) REPORT.—Not later than 1 year after the date of enactment of this Act, and once every 2 years thereafter, the Comptroller General shall submit to the Director of the Office of Management and Budget and Congress a report on the study conducted under subsection (a) together with recommendations for such legislation and administrative action as the Comptroller General determines to be appropriate.

SEC. 105. CONFORMING AMENDMENTS.

(a) INDEPENDENT AGENCY.—Section 104 of title 5, United States Code, is amended—

(1) in paragraph (1), by striking “and” after the semicolon;

(2) in paragraph (2), by striking the period and inserting “; and”; and

(3) by adding at the end the following new paragraph:

“(3) the Federal Election Administration.”.

(b) **COVERAGE UNDER INSPECTOR GENERAL ACT.**—Section 8G(a)(2) of the Inspector General Act of 1978 (5 U.S.C. App.) is amended by striking “Federal Election Commission” and inserting “Federal Election Administration”.

(c) **COVERAGE OF PERSONNEL UNDER HATCH ACT.**—Section 7323(b) of title 5, United States Code, is amended—

(1) in paragraph (1), by striking “Federal Election Commission” and inserting “Federal Election Administration”; and

(2) in paragraph (2)(B)(i)(I), by striking “Federal Election Commission” and inserting “Federal Election Administration”.

(d) **EXCLUSION FROM SENIOR EXECUTIVE SERVICE.**—Section 3132(a)(1)(C) of title 5, United States Code, is amended by striking “Federal Election Commission” and inserting “Federal Election Administration”.

(e) **SUBTITLE A.**—Title III of the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) is amended by inserting before section 301 the following:

“Subtitle A—General Provisions”.

TITLE II—TRANSITION PROVISIONS

SEC. 201. TRANSFER OF FUNCTIONS OF FEDERAL ELECTION COMMISSION.

There are transferred to the Federal Election Administration established under section 351 of the Federal Election Campaign Act of 1971 (as added by section 101) all functions that the Federal Election Commission exercised before the date described in section 205(a).

SEC. 202. TRANSFER OF PROPERTY, RECORDS, AND PERSONNEL.

(a) **PROPERTY AND RECORDS.**—The contracts, liabilities, records, property, and other assets and interests of, or made available in connection with, the offices and functions of the Federal Election Commission which are transferred by this title are transferred to the Federal Election Administration.

(b) **PERSONNEL.**—The personnel employed in connection with the offices and functions of the Federal Election Commission which are transferred by this title are transferred to the Federal Election Administration.

SEC. 203. REPEALS.

The following provisions of the Federal Election Campaign Act of 1971 are repealed:

- (1) Section 306 (2 U.S.C. 437c).
- (2) Section 307 (2 U.S.C. 437d).
- (3) Section 308 (2 U.S.C. 437f).
- (4) Section 309 (2 U.S.C. 437g).
- (5) Section 310 (2 U.S.C. 437h).
- (6) Section 311 (2 U.S.C. 438).
- (7) Section 314 (2 U.S.C. 439c).
- (8) Section 406 (2 U.S.C. 455).

SEC. 204. CONFORMING AMENDMENTS.

(a) Title III of the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) is amended—

(1) in section 301, by striking paragraph (10) and inserting the following:

“(10) The term ‘Administration’ means the Federal Election Administration.”;

(2) by striking “Federal Election Commission” and inserting “Administration” each place it appears; and

(3) by striking “Commission” and inserting “Administration” each place it appears.

(b) Section 3502(1)(B) of title 44, United States Code, is amended by striking “Federal Election Commission” and inserting “Federal Election Administration”.

(c) Section 207(j)(7)(B)(i) of title 18, United States Code, is amended by striking “the Federal Election Commission by a former officer or employee of the Federal Election Commission” and inserting “the Federal Election Administration by a former officer or employee of the Federal Election Commission or the Federal Election Administration”.

(d) Section 103 of the Ethics in Government Act of 1978 (5 U.S.C. App.) is amended—

(1) in subsection (e), by striking “the Federal Election Commission” and inserting “the Federal Election Administration”; and

(2) in subsection (k), by striking “the Federal Election Commission” and inserting “the Federal Election Administration”.

(e)(1) Section 9002(3) of the Internal Revenue Code of 1986 is amended to read as follows:

“(3) The term ‘Administration’ means the Federal Election Administration established under section 351 of the Federal Election Campaign Act of 1971.”.

(2) Chapter 95 of the Internal Revenue Code of 1986 is amended by striking “Commission” and inserting “Administration” each place it appears.

(f)(1) Section 9032(3) of the Internal Revenue Code of 1986 is amended to read as follows:

“(3) The term ‘Administration’ means the Federal Election Administration established under section 351 of the Federal Election Campaign Act of 1971.”.

(2) Chapter 96 of the Internal Revenue Code of 1986 is amended by striking “Commission” and inserting “Administration” each place it appears.

(g) Section 3(c) of the Voting Accessibility for the Elderly and Handicapped Act (42 U.S.C. 1973ee-1(c)) is amended—

(1) in paragraph (1)—

(A) by striking “Federal Election Commission” and inserting “Federal Election Administration”; and

(B) by striking “Commission” and inserting “Administration”; and

(2) in paragraph (2), by striking “Federal Election Commission” and inserting “Federal Election Administration”.

(h) Section 6(9) of the Lobbying Disclosure Act 1995 (2 U.S.C. 1605(9)) is amended by striking “the Federal Election Commission” and inserting “the Federal Election Administration”.

SEC. 205. EFFECTIVE DATE.

(a) **IN GENERAL.**—This title and the amendments made by this title shall take effect on the date that is 6 months after the date of enactment of this Act.

(b) **TERMINATION OF THE FEDERAL ELECTION COMMISSION.**—Notwithstanding any other provision of, or amendment made by, this Act, the members of the Federal Election Commission shall be removed from office on the date described in subsection (a).

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 251—EXPRESSING THE SENSE OF THE SENATE THAT THE GOVERNMENT OF AFGHANISTAN, WITH THE SUPPORT OF THE INTERNATIONAL COMMUNITY, SHOULD FULFILL ITS OBLIGATIONS TO ENSURE THAT WOMEN FULLY PARTICIPATE AS CANDIDATES AND VOTERS IN THE AUGUST 20, 2009, PRESIDENTIAL AND PROVINCIAL COUNCIL ELECTIONS IN AFGHANISTAN

Mrs. GILLIBRAND (for herself, Mr. CARDIN, Ms. COLLINS, Mr. KERRY, Mrs. BOXER, Mrs. FEINSTEIN, Mrs. SHAHEEN, Mr. LUGAR, Ms. LANDRIEU, Mr. LAUTENBERG, and Mr. BEGICH) submitted the following resolution; which was considered and agreed to:

S. RES. 251

Whereas women in Afghanistan play a critical role in establishing accountable governance, fostering economic development, and securing peace in Afghanistan;

Whereas many women in Afghanistan face rising insecurity and consequent physical and verbal violence in seeking political office and exercising their constitutional right to vote;

Whereas the Afghan Independent Electoral Commission has made efforts to consult with domestic and international organizations advocating for full inclusion of all people in Afghanistan in the elections, and has called on the donor community to assist its efforts to open and staff all appropriate polling places throughout Afghanistan; and

Whereas women's rights activists and civil society representatives from throughout Afghanistan gathered on June 25, 2009, and decided to launch the Five Million Afghan Women Campaign, a campaign of 5,000,000 women of Afghanistan to support eligible women's political participation in order to ensure the rule of law and gender equality: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the brave women and women-led organizations of Afghanistan on the launch of the Five Million Afghan Women Campaign;

(2) urges the Government of Afghanistan to ensure that sufficient staffing is in place in women's polling stations, including security staff and equipment and appropriate polling place personnel;

(3) urges the Government of Afghanistan and the religious, community, and cultural leaders of Afghanistan to make every effort to encourage eligible women to participate in the August 20, 2009, elections;

(4) urges the Government of Afghanistan to fully include women in formal committees and bodies charged with election security and related processes;

(5) urges the Government of Afghanistan and the Independent Electoral Commission to continue to consult with the Afghan Ministry of Women's Affairs, the Afghan Independent Human Rights Commission, and women-led nongovernmental organizations regarding women's participation in the elections, in order to guarantee a free and fair election process, including providing equal access for women candidates to media outlets as well as ensuring adequate security

and transportation for women voters on election day;

(6) encourages the Secretary of State, including through the United States Agency for International Development, to continue to mobilize funding and resources of the United States for programs throughout Afghanistan to raise the awareness of women in Afghanistan regarding governance, increase women's political participation in the August 20, 2009, and future elections, and support such women's ability to exercise their rights as citizens; and

(7) urges the new Government of Afghanistan elected on August 20, 2009, to employ and engage women in meaningful roles and positions in such new government.

SENATE RESOLUTION 252—AUTHORIZING THE TAKING OF A PHOTOGRAPH IN THE CHAMBER IN THE UNITED STATES SENATE

Mr. REID (for himself and Mr. McCONNELL) submitted the following resolution; which was considered and agreed to:

S. RES. 252

Resolved, That paragraph 1 of rule IV of the Rules for the Regulation of the Senate Wing of the United States Capitol (prohibiting the taking of pictures in the Senate Chamber) be temporarily suspended for the sole and specific purpose of permitting the Senate Photographic Studio to photograph the United States Senate in actual session on Tuesday, September 22, 2009, at the hour of 2:15 p.m.

SEC. 2. The Sergeant at Arms of the Senate is authorized and directed to make the necessary arrangements therefore, which arrangements shall provide for a minimum of disruption to Senate proceedings.

NATIONAL POLYCYSTIC KIDNEY DISEASE AWARENESS WEEK

Mr. REID. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of S. Res. 241.

The PRESIDING OFFICER (Mr. BEGICH). Without objection, it is so ordered. The clerk will report the resolution by title.

The bill clerk read as follows:

A resolution (S. Res. 241) designating the period beginning on September 13, 2009, and ending on September 19, 2009, as "National Polycystic Kidney Disease Awareness Week," and supporting the goals and ideals of a National Polycystic Kidney Disease Awareness Week to raise public awareness and understanding of polycystic kidney disease and the impact polycystic kidney disease has on patients and future generations of their families.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and that any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 241) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 241

Whereas polycystic kidney disease, known as "PKD", is 1 of the most prevalent life-threatening genetic diseases in the United States;

Whereas polycystic kidney disease is a severe, dominantly inherited disease that has a devastating impact, in both human and economic terms, affecting equally people of all ages, races, sexes, nationalities, geographic locations, and income levels;

Whereas there are 2 hereditary forms of polycystic kidney disease, with autosomal dominant polycystic kidney disease (ADPKD) affecting 1 in 500 people worldwide, including 600,000 patients with polycystic kidney disease in the United States, according to prevalence estimates by the National Institutes of Health;

Whereas in families in which 1 or both parents have ADPKD there is a 50-percent chance that the parents will pass the disease to their children;

Whereas autosomal recessive polycystic kidney disease (ARPKD), a rarer form of PKD, affects 1 in 20,000 live births and frequently leads to early death;

Whereas in families in which both parents carry ARPKD there is a 25-percent chance that the parents will pass the disease to their children;

Whereas, in addition to patients directly affected by polycystic kidney disease, countless additional friends, loved ones, family members, colleagues, and caregivers must shoulder the physical, emotional, and financial burdens of polycystic kidney disease;

Whereas polycystic kidney disease, for which there is no treatment or cure, is the leading cause of kidney failure resulting from a genetic disease, and 1 of the 4 leading causes of kidney failure in the United States;

Whereas the vast majority of patients with polycystic kidney disease have kidney failure at the age of 53, on average, causing a severe strain on dialysis and kidney transplantation resources and on the delivery of health care in the United States, as the largest segment of the population of the United States, the baby boomers, continues to age;

Whereas end-stage renal disease is one of the fastest growing components of the Medicare budget, and polycystic kidney disease contributes to the cost with an estimated \$2,000,000,000 budgeted annually for dialysis, kidney transplantation, and related therapies;

Whereas polycystic kidney disease is a systemic disease that causes damage to the kidneys and the cardiovascular, endocrine, hepatic, and gastrointestinal systems;

Whereas polycystic kidney disease instills in patients a fear of an unknown future with a life-threatening genetic disease, and apprehension over possible genetic discrimination;

Whereas the severity of the symptoms of polycystic kidney disease and the limited public awareness of the disease cause many patients to fail to recognize the presence of the disease, to forego regular visits to physicians, and not to receive good health or therapeutic management that would help avoid more severe complications when kidney failure occurs;

Whereas people suffering from chronic, life-threatening diseases, such as polycystic kidney disease, are more frequently predisposed to depression and the resulting consequences of depression because of anxiety over the possible pain, suffering, and pre-

mature death that people with polycystic kidney disease may face;

Whereas the Senate and taxpayers of the United States want treatments and cures for disease and hope to see results from investments in research conducted by the National Institutes of Health and from initiatives such as the National Institutes of Health Roadmap to the Future;

Whereas polycystic kidney disease is an example of how collaboration, technological innovation, scientific momentum, and public-private partnerships can—

(1) generate therapeutic interventions that directly benefit the people suffering from polycystic kidney disease;

(2) save billions of Federal dollars under Medicare, Medicaid, and other programs for dialysis, kidney transplants, immunosuppressant drugs, and related therapies; and

(3) allow several thousand openings on the kidney transplant waiting list;

Whereas improvements in diagnostic technology and the expansion of scientific knowledge about polycystic kidney disease have led to the discovery of the 3 primary genes that cause polycystic kidney disease, and the 3 primary protein products of the genes, and to the understanding of cell structures and signaling pathways that cause cyst growth that has produced multiple polycystic kidney disease clinical drug trials;

Whereas there are thousands of volunteers nationwide dedicated to expanding essential research, fostering public awareness and understanding, educating patients and their families about polycystic kidney disease to improve treatment and care, providing appropriate moral support, and encouraging people to become organ donors; and

Whereas volunteers engage in an annual national awareness event held during the third week of September, making that week an appropriate time to recognize National Polycystic Kidney Disease Awareness Week: Now, therefore, be it

Resolved, That the Senate—

(1) designates the period beginning on September 13, 2009, and ending on September 19, 2009, as "National Polycystic Kidney Disease Awareness Week";

(2) supports the goals and ideals of a national week to raise public awareness and understanding of polycystic kidney disease;

(3) recognizes the need for additional research into a cure for polycystic kidney disease; and

(4) encourages the people of the United States and interested groups—

(A) to support National Polycystic Kidney Disease Awareness Week through appropriate ceremonies and activities;

(B) to promote public awareness of polycystic kidney disease; and

(C) to foster understanding of the impact of the disease on patients and their families.

AFGHANISTAN'S UPCOMING ELECTIONS

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 251.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The bill clerk read as follows:

A resolution (S. Res. 251) expressing the sense of the Senate that the Government of Afghanistan, with the support of the international community, should fulfill its obligations to ensure that women fully participate as candidates and voters in the August

20, 2009, presidential and provincial council elections in Afghanistan.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and that any statement relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 251) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 251

Whereas women in Afghanistan play a critical role in establishing accountable governance, fostering economic development, and securing peace in Afghanistan;

Whereas many women in Afghanistan face rising insecurity and consequent physical and verbal violence in seeking political office and exercising their constitutional right to vote;

Whereas the Afghan Independent Electoral Commission has made efforts to consult with domestic and international organizations advocating for full inclusion of all people in Afghanistan in the elections, and has called on the donor community to assist its efforts to open and staff all appropriate polling places throughout Afghanistan; and

Whereas women's rights activists and civil society representatives from throughout Afghanistan gathered on June 25, 2009, and decided to launch the Five Million Afghan Women Campaign, a campaign of 5,000,000 women of Afghanistan to support eligible women's political participation in order to ensure the rule of law and gender equality: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the brave women and women-led organizations of Afghanistan on the launch of the Five Million Afghan Women Campaign;

(2) urges the Government of Afghanistan to ensure that sufficient staffing is in place in women's polling stations, including security staff and equipment and appropriate polling place personnel;

(3) urges the Government of Afghanistan and the religious, community, and cultural leaders of Afghanistan to make every effort to encourage eligible women to participate in the August 20, 2009, elections;

(4) urges the Government of Afghanistan to fully include women in formal committees and bodies charged with election security and related processes;

(5) urges the Government of Afghanistan and the Independent Electoral Commission to continue to consult with the Afghan Ministry of Women's Affairs, the Afghan Independent Human Rights Commission, and women-led nongovernmental organizations regarding women's participation in the elections, in order to guarantee a free and fair election process, including providing equal access for women candidates to media outlets as well as ensuring adequate security and transportation for women voters on election day;

(6) encourages the Secretary of State, including through the United States Agency for International Development, to continue to mobilize funding and resources of the

United States for programs throughout Afghanistan to raise the awareness of women in Afghanistan regarding governance, increase women's political participation in the August 20, 2009, and future elections, and support such women's ability to exercise their rights as citizens; and

(7) urges the new Government of Afghanistan elected on August 20, 2009, to employ and engage women in meaningful roles and positions in such new government.

AUTHORIZING THE TAKING OF A PHOTOGRAPH IN THE SENATE CHAMBER

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 252.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The bill clerk read as follows:

A resolution (S. Res. 252) authorizing the taking of a photograph in the Chamber of the United States Senate.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the motion to reconsider be laid upon the table, and that any statements relating to this resolution be printed in the RECORD, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 252) was agreed to as follows:

S. RES. 252

Resolved, That paragraph 1 of Rule IV of the Rules for the Regulation of the Senate Wing of the United States Capitol (prohibiting the taking of pictures in the Senate Chamber) be temporarily suspended for the sole and specific purpose of permitting the Senate Photographic Studio to photograph the United States Senate in actual session on Tuesday, September 22, 2009, at the hour of 2:15 p.m.

SEC. 2. The Sergeant at Arms of the Senate is authorized and directed to make the necessary arrangements therefore, which arrangements shall provide for a minimum of disruption to Senate proceedings.

APPOINTMENTS

The PRESIDING OFFICER. The Chair, on behalf of the President pro tempore, pursuant to Public Law 99-498, as amended by Public Law 110-315, appoints the following individuals to the Advisory Committee on Student Financial Assistance: Sharon Wurm of Nevada and John McNamara of Illinois.

AUTHORITY TO REPORT LEGISLATIVE AND EXECUTIVE MATTERS

Mr. REID. Mr. President, I ask unanimous consent that not withstanding the Senate's recess, committees be authorized to report legislative and executive matters on Wednesday, September 2, from 12 noon to 2 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

AUTHORITY TO MAKE APPOINTMENTS

Mr. REID. Mr. President, I ask unanimous consent that notwithstanding the upcoming recess or adjournment of the Senate, the President of the Senate, the President pro tempore of the Senate, and the majority and minority leaders be authorized to make appointments to commissions, committees, boards, conferences, or interparliamentary conferences authorized by law, by concurrent action of the two Houses, or by order of the Senate.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE SESSION

Mr. REID. Mr. President, I ask unanimous consent that we proceed to executive session.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE CALENDAR

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to consider Calendar Nos. 161, 266, 268, 209, 263, 281, 283, 368, 370, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 407, 408, 409, 410, 411, 412, 413, and 414 and all nominations on the Secretary's desk at NOAA; that the nominations be confirmed en bloc, and the motions to reconsider be laid upon the table en bloc; that no further motions be in order and any statements relating thereto be printed in the RECORD; and that the President be immediately notified of the Senate's action.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

DEPARTMENT OF STATE

Jeffrey D. Feltman, of Ohio, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be an Assistant Secretary of State (Near Eastern Affairs).

DEPARTMENT OF DEFENSE

Jo-Ellen Darcy, of Maryland, to be an Assistant Secretary of the Army.

ENVIRONMENTAL PROTECTION AGENCY

Colin Scott Cole Fulton, of Maryland, to be an Assistant Administrator of the Environmental Protection Agency.

DEPARTMENT OF STATE

Philip L. Verveer, of the District of Columbia, for the rank of Ambassador during his tenure of service as Deputy Assistant Secretary of State for International Communications and Information Policy in the Bureau of Economic, Energy, and Business Affairs and U.S. Coordinator for International Communications and Information Policy.

Maria Otero, of the District of Columbia, to be an Under Secretary of State (Democracy and Global Affairs).

ENVIRONMENTAL PROTECTION AGENCY

Craig E. Hooks, of Kansas, to be an Assistant Administrator of the Environmental Protection Agency.

DEPARTMENT OF STATE

Carlos Pascual, of the District of Columbia, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Mexico.

DEPARTMENT OF THE INTERIOR

Wilma A. Lewis, of the Virgin Islands, to be an Assistant Secretary of the Interior.

Robert V. Abbey, of Nevada, to be Director of the Bureau of Land Management.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Francis S. Collins, of Maryland, to be Director of the National Institutes of Health.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

James A. Leach, of Iowa, to be Chairperson of the National Endowment for the Humanities for a term of four years.

Rocco Landesman, of New York, to be Chairperson of the National Endowment for the Arts for a term of four years.

DEPARTMENT OF LABOR

Raymond M. Jefferson, of Hawaii, to be Assistant Secretary of Labor for Veterans' Employment and Training.

DEPARTMENT OF STATE

Ertharin Cousin, of Illinois, for the rank of Ambassador during her tenure of service as U.S. Representative to the United Nations Agencies for Food and Agriculture.

Kerri-Ann Jones, of Maine, to be Assistant Secretary of State for Oceans and International Environmental and Scientific Affairs.

David Killion, of the District of Columbia, for the rank of Ambassador during his tenure of service as the United States Permanent Representative to the United Nations Educational, Scientific, and Cultural Organization.

Glyn T. Davies, of the District of Columbia, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Representative of the United States of America to the Vienna Office of the United Nations, with the rank of Ambassador.

Glyn T. Davies, of the District of Columbia, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Representative of the United States of America to the International Atomic Energy Agency, with the rank of Ambassador.

PEACE CORPS

Aaron S. Williams, of Virginia, to be Director of the Peace Corps.

DEPARTMENT OF STATE

Michael Anthony Battle, Sr., of Georgia, to be Representative of the United States of America to the African Union, with the rank and status of Ambassador Extraordinary and Plenipotentiary.

Martha Larzelere Campbell, of Michigan, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of the Marshall Islands.

John R. Bass, of New York, a Career Member of the Senior Foreign Service, Class of Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Georgia.

James B. Foley, of New York, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Croatia.

Kenneth E. Gross, Jr., of Virginia, a Career Member of the Senior Foreign Service, Class of Counselor, to be Ambassador Extraor-

dinary and Plenipotentiary of the United States of America to the Republic of Tajikistan.

Teddy Bernard Taylor, of Maryland, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Papua New Guinea, and to serve concurrently and without additional compensation as Ambassador Extraordinary and Plenipotentiary of the United States of America to the Solomon Islands and Ambassador Extraordinary Plenipotentiary of the United States of America to the Republic of Vanuatu.

John Victor Roos, of California, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Japan.

Judith Gail Garber, of Virginia, a Career Member of the Senior Foreign Service, Class of Minister-Counselor to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Latvia.

James Knight, of Alabama, a Career Member of the Senior Foreign Service, Class of Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Benin.

Karen Kornbluh, of New York, to be Representative of the United States of America to the Organization for Economic Cooperation and Development, with the rank of Ambassador.

Bruce J. Oreck, of Colorado, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Finland.

Jon M. Huntsman, Jr., of Utah, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the People's Republic of China.

Douglas W. Kmiec, of California, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Malta.

Jonathan S. Addleton, of Georgia, a Career Member of the Senior Foreign Service, Class of Career Minister, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Mongolia.

Matthew Winthrop Barzun, of Kentucky, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Sweden.

William Carlton Eacho, III, of Maryland, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Austria.

Philip D. Murphy, of New Jersey, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Federal Republic of Germany.

DEPARTMENT OF ENERGY

James J. Markowsky, of Massachusetts, to be an Assistant Secretary of Energy (Fossil Energy).

Warren F. Miller, Jr., of New Mexico, to be an Assistant Secretary of Energy (Nuclear Energy).

DEPARTMENT OF TRANSPORTATION

Susan L. Kurland, of Illinois, to be an Assistant Secretary of Transportation.

Christopher P. Bertram, of the District of Columbia, to be an Assistant Secretary of Transportation.

DEPARTMENT OF COMMERCE

Dennis F. Hightower, of the District of Columbia, to be Deputy Secretary of Commerce.

NATIONAL TRANSPORTATION SAFETY BOARD

Christopher A. Hart, of Colorado, to be a Member of the National Transportation

Safety Board for a term expiring December 31, 2012.

CORPORATION FOR PUBLIC BROADCASTING

Patricia D. Cahill, of Missouri, to be a Member of the Board of Directors of the Corporation for Public Broadcasting for a term expiring January 31, 2014.

DEPARTMENT OF TRANSPORTATION

Daniel R. Elliott, III of Ohio, to be a Member of the Surface Transportation Board for a term expiring December 31, 2013.

CONSUMER PRODUCT SAFETY COMMISSION

Robert S. Adler, of North Carolina, to be a Commissioner of the Consumer Product Safety Commission for a term of seven years from October 27, 2007.

Anne M. Northup, of Kentucky, to be a Commissioner of the Consumer Product Safety Commission for a term of seven years from October 27, 2004.

NOMINATIONS PLACED ON THE SECRETARY'S DESK

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

PN846 NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION nominations (22) beginning DENISE J. GRUCCIO, and ending SARA A. SLAUGHTER, which nominations were received by the Senate and appeared in the Congressional Record of July 31, 2009.

NOMINATION OF FRANCIS COLLINS

Mr. CARDIN. Mr. President, few people have had as significant an impact on the scientific world over the past two decades as Dr. Francis Collins, President Obama's nominee to head the National Institutes of Health. As director of the National Human Genome Research Institute from 1993 to 2008, Dr. Collins has led the way in medical innovation.

As his most renowned accomplishment at NHGRI, Dr. Collins achieved unparalleled success leading the revolutionary Human Genome Project. Established in 1990, the Project's goal was to map out the thousands of genes that make up the human genome in order to better understand the genetic makeup of humans and to ultimately reveal the cures for our most challenging diseases. In 2003, the Human Genome Project, under the guidance of Dr. Collins, released its completed version of the entire human genome, an unprecedented achievement. Dr. Collins' work has led to some ground-breaking medical discoveries, including the identification of genetic variants associated with type 2 diabetes and the genes responsible for cystic fibrosis, neurofibromatosis, Huntington's disease and Hutchinson-Gilford progeria syndrome. To allow this data to be used as effectively as possible, Dr. Collins has ensured that all of the data obtained by the Human Genome Project be made available to the entire scientific community without restrictions on access or use.

Among other prestigious honors, Dr. Collins has been elected to the Institute of Medicine and the National Academy of Sciences, two of the most influential medical organizations in

the world. In addition, on November 5, 2007, Collins received the Presidential Medal of Freedom, the nation's highest civil award, for his remarkable contributions to the field of genetic research.

Not only has Dr. Collins proven himself to be a brilliant and revolutionary scientist, but he is also a remarkably effective leader. Perhaps the greatest evidence of this quality is displayed by his ability to finish the human genome sequence both ahead of schedule and under budget. It is clear why President Obama selected him to lead this important agency.

Last week, I met with Dr. Collins to discuss his vision for the future of NIH. He is my constituent, as are many of the scientists who work at the Rockville campus, and the academic institutions and businesses that thrive due in no small part to NIH grants and other extramural programs. I am extremely proud to represent all of them.

During our meeting, I raised serious concerns about recent actions of NIH leadership with regard to two grant programs, the Small Business Innovation Research program and the Small Technology Transfer Program. Federal law requires departments that award more than \$100 million in extramural grants annually to devote a total of 2.8 percent to small businesses to foster innovation. These programs are catalysts for job creation and job growth, and a recent study found that 25 percent of all new product innovations were brought to market by SBIR grantees. But a provision—encouraged by NIH—was inserted during conference into the American Recovery and Reinvestment Act, with no notice to the Small Business and Entrepreneurship Committee, where I serve, although we have jurisdiction over these programs. That provision excluded the NIH funds in ARRA from the SBIR and STTR requirements, effectively denying small businesses \$230 million in research grant opportunities. Its origins are still unknown.

The effect on small businesses has been devastating, leading some biotechnology firms in my State to lay off employees or close due to lack of funding. In June, I chaired a field hearing about this issue in Rockville, and although the hearing location was minutes away from the NIH campus, the agency did not send a witness. NIH staff promised to submit testimony, but it was faxed to us 2 hours after the hearing had ended. In addition, during the hearing, we received testimony citing a history of perceived bias among NIH review panels against SBIR applications. I raised these concerns with Dr. Collins, and we had a frank and open discussion. Dr. Collins spoke of his high regard for the SBIR program and noted that he could not have completed the Human Genome Project in such a timely and cost-efficient manner ab-

sent the involvement of small biotechnology companies. He has promised to work with me and other members of the Committee to ensure that NIH participation in SBIR and STTR proceeds according to congressional intent. I am encouraged by his support for these programs, and I believe that the Small Business Committee, will have a much improved working relationship with NIH going forward. I left that meeting with confidence in Dr. Collins' ability to lead this essential agency very effectively.

Going forward, Dr. Collins faces numerous challenges, implementing the new policy on federally funded stem cell research, moving forward on promising cancer research, and developing strategies to combat the global AIDS epidemic, among others. These challenges require a visionary leader with the level of expertise and management experience that Dr. Collins possesses.

I am pleased to express my support for the nomination of Dr. Francis Collins to be the next Director of the National Institutes of Health, and I look forward to working with him in the years to come.

Mr. DODD. Mr. President, I ask unanimous consent to have the attached letter of support from the March of Dimes for the nomination of Francis Collins to be Director of the National Institutes of Health be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MARCH OF DIMES FOUNDATION,
OFFICE OF GOVERNMENTAL AFFAIRS,
Washington, DC, August 5, 2009.

Hon. EDWARD KENNEDY,
Chairman, Health, Education, Labor and Pensions Committee, U.S. Senate, Washington, DC.

DEAR CHAIRMAN KENNEDY: On behalf of the 3 million volunteers and 1,400 staff at the March of Dimes Foundation I am writing to highlight Francis Collins's, MD PhD exceptional contributions to biomedical research and to acquaint Congress with Dr. Collins' long standing relationship with the Foundation. This letter is submitted for inclusion in the CONGRESSIONAL RECORD.

The Foundation's investments in biomedical research are a cornerstone of the March of Dimes mission. March of Dimes programs fund several different types of research, all aimed at preventing birth defects and infant mortality and securing reproductive health. These programs and projects include basic research into life processes, such as genetics and development; clinical research applied to prevention and treatment of specific birth defects and prematurity; the study of environmental hazards; and research in social and behavioral sciences relevant to our mission. In 1985, the March of Dimes recognized Dr. Collins's promising talent, naming him a Basil O'Connor Research Scholar and awarding him a grant the Foundation reserves for young investigators at the start of their independent careers. This award marked the beginning of a long and productive relationship with Dr. Collins.

Throughout his career, Dr. Collins has focused on advancing scientific knowledge

that has laid the foundation for identifying and treating genetic disorders. For example, Dr. Collins was instrumental in the discovery of the gene responsible for cystic fibrosis, thereby providing the opportunity to design interventions for managing this complex birth defect and accelerating the search for its amelioration and potential cure. As Director of the National Human Genome Research Institute, Dr. Collins oversaw the sequencing and mapping of the human genome, a major contribution to scientific research and one that has already led to the development of strategies for preventing and treating various birth defects and hereditary diseases.

The March of Dimes continues to invest in intellectually gifted young investigators because it is they who hold the greatest promise for progress in research and science. All of us at the Foundation look forward to the forthcoming confirmation and to working with you and Dr. Collins to improve the health of women and children here and around the world.

Sincerely,

DR. JENNIFER L. HOWSE,
President.

NOMINATION OF JON HUNTSMAN, JR.

Mr. HATCH. Mr. President, I rise today to support the nomination of the Honorable Jon Huntsman, Jr., to be the U.S. Ambassador to China.

I think it goes without saying that Governor Huntsman is a man of integrity whose service to the State of Utah has been of great worth. Indeed, what Utah stands to lose from this nomination is exactly what the United States and China stand to gain: a seasoned diplomat, an excellent manager, a qualified politician, and a man who wants the very best for the country he loves and has served for more than 20 years.

It takes great courage for a Republican Governor of one of the reddest, most conservative States in the Nation to accept an invitation to serve under a Democratic President; yet this is the same courage Governor Huntsman has displayed throughout his career. From his time as a staff assistant in the Reagan administration to his work in the trenches at the Commerce Department, Jon Huntsman, Jr., has proved to be an innovative leader, a progressive thinker, and someone who comes to this position at a time when the United States needs an Ambassador to China who will strive to forge the kind of relationships we need to move forward in the globally connected world of the 21st century.

As the Ambassador to China, the challenges before Governor Huntsman will neither be easy nor few. Our relations with other nations are the foundation of peace and stability on the planet. And when Richard Nixon reached out and brought China back into the international system in 1972, a huge structural imbalance in the global system was redressed.

The United States and China are very different countries with vastly different experiences and, based on our very different government structures,

very different values. Yet, as we know, our countries have developed complex and mutually beneficial relations. We also know that our nations have great potential for beneficial relations, but, as anyone who studies history and geopolitics knows, we have the potential to clash as China grows and expands its influence. That is why it is important for us today to continue what Richard Nixon started: a world where our countries can exist in peace.

In my years in the Senate, I have seen a huge change in our country's relationship with China. When I came here, President Carter was just finalizing the Nixon initiative, and I led the move to pass the Taiwan Relations Act, which allowed for the United States to continue a supportive relationship with Taiwan even though we had withdrawn our diplomatic recognition. I have seen China evolve from a Maoist totalitarian system to a communist police state that has allowed many personal freedoms and a historic transformation of the economy using capitalist principles. This is a relationship that must be handled by experienced China hands and professionals.

That is why I find it gratifying that President Obama has chosen to go with someone of great experience and ability—Governor Huntsman. I also find it noteworthy that the Governor has been here twice before—first when he was unanimously confirmed by the Senate as a U.S. Ambassador to the Chinese nation of Singapore under President George H.W. Bush, and then as a Deputy U.S. Trade Representative under President George W. Bush. Now, in his third appearance before the Senate as a nominee, he has answered the President's call to serve as Ambassador to China and leaves his post in Utah where, I might add, he was reelected to a second term as Governor with more than 70 percent of the vote. This speaks volumes about Governor Huntsman's ability to cross bridges, conquer divides, and put aside partisan politics when doing what he believes to be best for his family, our State, and our country.

It is no secret that under Governor Huntsman's stewardship, Utah has been named the best-managed State by the Pew Research Center. Building on the excellent work of our State legislature, the Governor has helped lead our State in economic development initiatives and incentive programs that have shaped Utah into one of the most dynamic States in the Nation.

In short, I cannot think of a more qualified nominee for Ambassador to China than Governor Huntsman. He is fluent in Mandarin Chinese, a skill that is vitally important in this day and age. Indeed, the Governor has been to China on numerous occasions and even learned Chinese while serving a mission in Taiwan for The Church of Jesus Christ of Latter-day Saints. It is

in that light that I have no doubt the Chinese will have to respect his affection for Taiwan as much as they respect his linguistic ability.

Moreover, while the Governor will not be making policy, he will be known to the Chinese as a Republican. They will see him as an independent thinker, while always being loyal to the administration he serves.

Finally, China is a country that admires the businessman and the trader, and they are a country that knows that business and trade with the United States is the key for their sustained success. These are values and experience the Governor knows, understands and has practiced during his varied and impressive career in public service and private business. His years in international business have exposed him to the universe of China experts—people such as my good friend John Kamm, the preeminent advocate of human rights in China. It is my hope that he will keep the Embassy door open to these experts from around the world, and I am sure that he will.

Again, I commend President Obama for selecting Governor Huntsman for this important post, even though Utah will lose a great leader as a result. However, Governor Huntsman has left the State in good hands and we all look forward to working with Lt. Gov. Gary Herbert in his new role as Governor of the great State of Utah.

In closing, I believe I speak for all Utahns when I say Governor Huntsman will be missed, but we all know he is the appropriate person for this job. Moreover, his selection could not come at a more appropriate time. Indeed, this is a time when a man like Governor Huntsman is needed on the world stage.

I congratulate Governor Huntsman on his nomination. I applaud his beautiful wife Mary Kaye and her decision to continue to share his time and talents with the world. And I know his wonderful family will be blessed by his contribution to our country in this position.

Mr. REID. Mr. President, I ask now that we proceed to Calendar Nos. 217, 218, 219, 259, 260, 310, 311, 313 and that the nominations be confirmed en bloc, and the motions to reconsider be laid on the table en bloc, and no further motions be in order and any statements relating to these matters be printed in the RECORD as if read and the President be immediately notified of the Senate's action.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

DEPARTMENT OF JUSTICE

Tristram J. Coffin, of Vermont, to be United States Attorney for the District of Vermont for the term of four years.

Joyce White Vance, of Alabama, to be United States Attorney for the Northern District of Alabama for the term of four years.

Preet Bharara, of New York, to be United States Attorney for the Southern District of New York for the term of four years.

B. Todd Jones, of Minnesota, to be United States Attorney for the District of Minnesota for the term of four years.

John P. Kacavas, of New Hampshire, to be United States Attorney for the District of New Hampshire for the term of four years.

EXECUTIVE OFFICE OF THE PRESIDENT

A. Thomas McLellan, of Pennsylvania, to be Deputy Director of National Drug Control Policy.

DEPARTMENT OF HOMELAND SECURITY

Alejandro N. Mayorkas, of California, to be Director of the United States Citizenship and Immigration Services, Department of Homeland Security.

DEPARTMENT OF JUSTICE

Cranston J. Mitchell, of Virginia, to be a Commissioner of the United States Parole Commission for a term of six years. (Reappointment)

NOMINATION OF ALEJANDRO MAYORKAS

Mrs. FEINSTEIN. Mr. President, I want to take a few minutes today to speak about Mr. Mayorkas' record and what I believe he will bring to the Department of Homeland Security as Director of U.S. Citizenship and Immigration Services. I have known Mr. Mayorkas for many years and am proud to have recommended him to President Clinton for the position of U.S. attorney for the Central District of California.

As U.S. attorney, Mr. Mayorkas developed an innovative program to address violent crime by targeting criminals' possession of firearms, prosecuting street gangs, and at the same time developing afterschool programs to help at-risk youth discover and realize their potential.

Mr. Mayorkas has also worked directly on dozens of cases and overseen hundreds of attorneys relating to immigration during his tenure as a U.S. attorney. These cases included the prosecution of individuals and rings producing false immigration documents, illegal reentry cases, and alien smuggling conspiracies, among others.

For example, in 1999, at the very beginning of his career as U.S. attorney, Mr. Mayorkas prosecuted the ring-leader of an Iranian visa forgery operation connected to terrorism. Bahram Tabatabai pleaded guilty to providing material assistance with immigration papers to members of the People's Mujahadeen, a group that the State Department considers a terrorist group. Tabatabai helped overseas foreign nationals obtain fake birth certificates and records to apply for benefits and created false persecution stories for Iranians in the United States to apply for asylum.

Mr. Mayorkas also prosecuted Jesse Gardona who at the time was a 15-year veteran of INS—for his role in moving 10 undocumented immigrants from an INS detention facility to an East Los Angeles drop house and demanding as much as \$1,800 in ransom from their relatives.

The mission of Citizenship and Immigration Services is to establish immigration services, policies, and priorities to preserve America's legacy as a nation of immigrants while ensuring that no one is admitted who is a threat to public safety. Mr. Mayorkas has a record of working to secure our Nation's criminal and immigration laws in the face of increasing gang and border violence—and as travel documents have become less secure, to work to ensure that fraud is no longer prevalent in our immigration system.

I am confident that under Mr. Mayorkas' leadership, this administration will work to preserve and increase the integrity of our immigration laws by decreasing fraud and bringing accountability to our immigration system.

It is also my belief that Mr. Mayorkas has the vision to lead Citizenship and Immigration Services in the other half of its mission—to preserve the role of America as a compassionate Nation that treats families and children at our shores humanely and with an eye toward the potential they bring to our Nation. In 1960, Mr. Mayorkas and his family fled Cuba and came to the United States as refugees. Since then, he has lived the American dream and has done so by working on behalf of the American people.

Mr. President, with the nomination of Mr. Mayorkas the administration has taken a significant step toward rebuilding public confidence in the secure, fair, and effective administration of our Nation's immigration laws. I urge my colleagues to confirm Mr. Mayorkas today so that DHS will have the leadership in place to get to work on behalf of the American people.

Mr. REID. Mr. President, I ask unanimous consent the Senate proceed to Calendar Nos. 415 and 418 and that the nominations be confirmed en bloc, the motions to reconsider be laid on the table en bloc, no further motions be in order, and any statements relating to the nominations be printed in the RECORD and President Obama be immediately notified of the Senate's action.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

DEPARTMENT OF COMMERCE

David J. Kappos, of New York, to be Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office, vice Jonathan W. Dudas, resigned.

DEPARTMENT OF JUSTICE

David Edward Demag, of Vermont, to be United States Marshal for the District of Vermont for the term of four years, vice John R. Edwards.

NOMINATIONS DISCHARGED

Mr. REID. Mr. President, I now ask unanimous consent the Banking Com-

mittee be discharged from further consideration of PN-499 and that the Senate then proceed to the consideration of the nomination; that the nomination be confirmed and the motions to reconsider be laid on the table en bloc, and no further motions be in order, any statements relating to the nomination be printed in the RECORD, and that President Obama be immediately notified of the Senate's action.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nomination considered and confirmed is as follows:

NATIONAL CREDIT UNION ADMINISTRATION

Deborah Matz, of Virginia, to be a Member of the National Credit Union Administration Board for a term expiring April 10, 2015.

Mr. REID. Mr. President, I ask unanimous consent that the Veterans' Affairs Committee be discharged from PN-647; that the Senate proceed to the nomination; that the nomination be confirmed and the motions to reconsider be laid upon the table en bloc; that no further motions be in order and the President be immediately notified of the Senate's action; and that any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nomination considered and confirmed is as follows:

VETERANS AFFAIRS

Joan M. Evans, of Oregon, to be an Assistant Secretary of Veterans Affairs (Congressional and Legislative Affairs).

Mr. REID. Mr. President, I ask unanimous consent that the Homeland Security and Governmental Affairs Committee be discharged from PN-823 and that the Senate then proceed to the nomination; that the nomination be confirmed and the motions to reconsider be laid upon the table en bloc; that no further motions be in order; that the President be immediately notified of the Senate's action and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nomination considered and confirmed is as follows:

FEDERAL EMERGENCY MANAGEMENT AGENCY

Kelvin James Cochran, of Louisiana, to be Administrator of the United States Fire Administration, Federal Emergency Management Agency, Department of Homeland Security.

Mr. REID. Mr. President, I ask unanimous consent that the Homeland Security and Governmental Affairs Committee be discharged en bloc of PN-819, PN-528, and PN-529; that the Senate proceed en bloc to the nominations; that the nominations be confirmed and the motions to reconsider be laid upon the table en bloc; that no further motions be in order; that the President be immediately notified of the Senate's action and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

DEPARTMENT OF HOMELAND SECURITY

Alexander G. Garza, of Missouri, to be Assistant Secretary of Homeland Security and Chief Medical Officer, Department of Homeland Security.

FEDERAL LABOR RELATIONS AUTHORITY

Julia Akins Clark, of Maryland, to be General Counsel of the Federal Labor Relations Authority for a term of five years.

Ernest W. Dubester, of Virginia, to be a Member of the Federal Labor Relations Authority for a term of five years expiring July 29, 2012.

EXECUTIVE SESSION

NOMINATION OF CASS R. SUNSTEIN TO BE ADMINISTRATOR OF THE OFFICE OF INFORMATION AND REGULATORY AFFAIRS, OFFICE OF MANAGEMENT AND BUDGET

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar No. 167, the nomination of Cass Sunstein to be the Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the nomination.

The bill clerk read the nomination of Cass R. Sunstein, of Massachusetts, to be Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget.

CLOTURE MOTION

Mr. REID. I have a cloture motion at the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The bill clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the nomination of Cass R. Sunstein, of Massachusetts, to be Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget.

Harry Reid, Joseph I. Lieberman, Mark Udall, Patrick J. Leahy, Daniel K. Akaka, Richard Durbin, Sherrod Brown, Patty Murray, Jeanne Shaheen, John F. Kerry, Robert Menendez, Jack Reed, Mark Begich, Tom Harkin, Sheldon Whitehouse, Ron Wyden, Kirsten E. Gillibrand.

Mr. REID. Mr. President, I ask unanimous consent that the pro forma session on Monday, August 10, not count as the intervening day and that the mandatory quorum be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

LEGISLATIVE SESSION

Mr. REID. I now ask unanimous consent that the Senate resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

JACQUES PURVIS

Mr. REID. Mr. President, I have had the good fortune of having people to work with me and with us, and one of my prizes over these years has been a young man by the name of Jacques Purvis who has worked on my personal staff. He is, of course, an integral part of the cloakroom. We see him here every day. He helps send to me every day on my e-mail account what is taking place each day. I read faithfully what is taking place because I am not here all the time on the Senate floor. He is bright, hardworking, and so nice. He is going to be leaving the Senate to go to the London School of Economics for an advanced degree. I have tried to talk him out of it, but not really, because he has various goals in mind. He is going to complete his studies in London, come back and go to law school. I hope after that time he will consider coming back and working in the Senate. We will all miss him. He is a wonderful young man, and I consider him a friend.

ORDERS FOR MONDAY, AUGUST 10, 2009, AND TUESDAY, SEPTEMBER 8, 2009

Mr. REID. I ask unanimous consent that when the Senate completes its business today, it adjourn until 1 p.m. on Monday, August 10, for a pro forma session only, with no business conducted; that following the pro forma session, the Senate adjourn under the provisions of H. Con. Res. 172 until 2 p.m. on Tuesday, September 8; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and there then be a period of morning business until 4:30 p.m., with Senators permitted to speak for up to 10 minutes each; that following morning business, the Senate resume consideration of S. 1023, the Travel Promotion Act, with the time equally divided and controlled until 5:30 p.m. between the two leaders or their designees.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. REID. Under a previous order, at approximately 5:30 p.m., the Senate will proceed to a cloture vote on the Dorgan amendment to the travel promotion legislation.

ADJOURNMENT UNTIL MONDAY,
AUGUST 10, 2009, AT 1 P.M.

Mr. REID. That being the case, if there is no further business to come before the Senate today, I ask unanimous consent it stand adjourned under the previous order.

There being no objection, the Senate, at 12:16 p.m., adjourned until Monday, August 10, 2009, at 1 p.m.

NOMINATIONS

Executive nomination received by the Senate:

DEPARTMENT OF STATE

BARRY B. WHITE, OF MASSACHUSETTS, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO NORWAY.

DISCHARGED NOMINATIONS

The Senate Committee on Banking, Housing, and Urban Affairs was discharged from further consideration of the following nomination by unanimous consent and the nomination was confirmed:

DEBORAH MATZ, OF VIRGINIA, TO BE A MEMBER OF THE NATIONAL CREDIT UNION ADMINISTRATION BOARD FOR A TERM EXPIRING APRIL 10, 2015.

The Senate Committee on Veterans' Affairs was discharged from further consideration of the following nomination by unanimous consent and the nomination was confirmed:

JOAN M. EVANS, OF OREGON, TO BE AN ASSISTANT SECRETARY OF VETERANS AFFAIRS (CONGRESSIONAL AND LEGISLATIVE AFFAIRS).

The Senate Committee on Homeland Security and Governmental Affairs was discharged from further consideration of the following nominations by unanimous consent and the nominations were confirmed:

JULIA AKINS CLARK, OF MARYLAND, TO BE GENERAL COUNSEL OF THE FEDERAL LABOR RELATIONS AUTHORITY FOR A TERM OF FIVE YEARS.

ERNEST W. DUBESTER, OF VIRGINIA, TO BE A MEMBER OF THE FEDERAL LABOR RELATIONS AUTHORITY FOR A TERM OF FIVE YEARS EXPIRING JULY 29, 2012.

ALEXANDER G. GARZA, OF MISSOURI, TO BE ASSISTANT SECRETARY OF HOMELAND SECURITY AND CHIEF MEDICAL OFFICER, DEPARTMENT OF HOMELAND SECURITY.

KELVIN JAMES COCHRAN, OF LOUISIANA, TO BE ADMINISTRATOR OF THE UNITED STATES FIRE ADMINISTRATION, FEDERAL EMERGENCY MANAGEMENT AGENCY, DEPARTMENT OF HOMELAND SECURITY.

CONFIRMATIONS

Executive nominations confirmed by the Senate, Friday, August 7, 2009:

DEPARTMENT OF STATE

JEFFREY D. FELTMAN, OF OHIO, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF MINISTER-COUNSELOR, TO BE AN ASSISTANT SECRETARY OF STATE (NEAR EASTERN AFFAIRS).

DEPARTMENT OF DEFENSE

JO-ELLEN DARCY, OF MARYLAND, TO BE AN ASSISTANT SECRETARY OF THE ARMY.

ENVIRONMENTAL PROTECTION AGENCY

COLIN SCOTT COLE FULTON, OF MARYLAND, TO BE AN ASSISTANT ADMINISTRATOR OF THE ENVIRONMENTAL PROTECTION AGENCY.

DEPARTMENT OF STATE

SENATE—Monday, August 10, 2009

The Senate met at 1 and 1 second p.m. and was called to order by the Honorable BENJAMIN L. CARDIN, a Senator from the State of Maryland.

**APPOINTMENT OF ACTING
PRESIDENT PRO TEMPORE**

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, August 10, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing rules of the Senate, I hereby appoint the Honorable BENJAMIN L. CARDIN, a Senator from the State of Maryland, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. CARDIN thereupon assumed the Chair as Acting President pro tempore.

ADJOURNMENT UNTIL TUESDAY,
SEPTEMBER 8, 2009, AT 2 P.M.

THE ACTING PRESIDENT pro tempore. Under the previous order and pursuant to the provisions of H. Con. Res. 172, the Senate stands adjourned until 2 p.m., Tuesday, September 8, 2009.

Thereupon, the Senate, at 1 and 37 seconds p.m., adjourned until Tuesday, September 8, 2009, at 2 p.m.
